THE WEATHER

To-day's forecast - Partly cloudy and warmer.

Temperatures - Sunday high 64, low 50, Monday high 78, low 54, Tuesday high 51, low 50, Wednesday low 48, Wednesday at noon 62.

Moisture for Sunday .28; moisture for September 3.88; moisture for the year 16.93; moisture this time last year 18.00.

Warm-Up Predicted For Today

A record early freeze for parts of the South Plains failed to materialize early Wednesday, and the weatherman predicted partly cloudy skies and warmer today.

The forecast was good news for area farmers who have been kept from their fields due to recent rains.

Temperatures dropped from a high of 78 Monday to a Tuesday morning low of 50 in Littlefield. The Wednesday morning low was 48.

Cotton and other crops were "standing still" with the cool weather, County Agent Bill Kimbrough said. Cotton needs 70-degree weather to mature.

County Sets Hearing On 1959 Budget

County commissioners set Monday, Oct. 13, as the date for a public hearing on the 1959 county budget in a regular meeting.

The hearing is scheduled at 2 p.m. in the county courtroom. County Judge Pat Boone Jr. urged taxpayers to attend the hearing.

In other action, commissioners joined Hale County in a field agreement with the U.S. Department of the Interior on predatory animal control.

The federal agency will send a man into Lamb and Hale counties to trap coyotes.

Farmers have complained of the animals recently, particularly those near the Sandhills area in northern Lamb County.

Lamb and Hale counties will pay \$125 each per month for the service.

Other action saw the court stop a subsistence allowance for county law enforcement officers. A federal ruling against such allowances was effective Sept. 30.

Under the allowance, county officers had received part of their salaries as subsistence, with no tax being taken out of the subsistence allowance. The officers will continue to receive their full salaries, all of which will be taxable now.

Littlefield Student, Friona Farmer Die In Crash On 84; Seven Injured

DEATH CAR—This is the car in which Dale Rhodes, 17-year-old Littlefield High School student, died Monday in a near head-on collision 6 1/2 miles east of Littlefield on U. S. Highway 84. The mishap claimed another life that of a young Friona farmer, Ben Jordan, driver of the other car. Marks on the highway show

the Rhodes car slid sideways across the road after the mishap. The other car, which had been removed from the scene, ended up near the point where the automobile headed this way is pictured. Rhodes' car landed about 150 feet from the point of impact. (STAFF PHOTO)

Dale Rhodes, Ben Jordan Victims Of 2-Car Smash

It was Monday afternoon, about 2 p.m. Dale Rhodes, 17-year-old Littlefield High School student, was driving his 1956 sedan back to Littlefield on U. S. Highway 84.

He and four other Littlefield teenagers had gone to the Panhandle South Plains Fair at Lubbock.

He was anxious to get back. He was due to have his picture made in his football uniform for the high school annual.

Down the road, a young Friona farmer, Ben Jordan, and his family were driving east on 84, headed toward Snyder and a visit with Jordan's brother.

Six and one-half miles east of Littlefield was as far as the two cars got.

The two cars met almost head-on, shortly after 2 p.m. Rhodes died at the scene. Jordan died about three hours later in Medical Arts Hospital, of injuries suffered in the mishap.

Seven other persons, four in the Rhodes car and three in the Jordan auto, were injured, none critically.

Wednesday afternoon, last rites were conducted for both victims of the accident.

Rhodes, son of Mr. and Mrs. Allen Rhodes, was buried in Littlefield Cemetery Wednesday afternoon following services at 3 p.m. at the Littlefield Drive Church of Christ.

School Dismissed School was dismissed early Wednesday to allow students to attend the funeral.

Coaches and members of the Wildcat football team on which Rhodes was a starting offensive end, served as honorary pallbearers.

At Friona services for Jordan, 23-year-old Friona farmer, were conducted at the same hour Wednesday, in the First Methodist Church.

Born in Donley County, he had farmed near Friona the past 14 years.

Survivors Listed He was survived by his wife, Gay, and two children, Beth, 2, and Ben Jr., 11 months, all of whom survived Monday's tragic crash. His parents are Mr. and Mrs. Virgil Jordan, of Friona.

Jordan's widow and two small children were dismissed Monday at 9 p.m. from Medical Arts Hospital, where they had been treated for minor cuts and bruises. Mrs. Jordan also was treated for shock.

The four teenagers riding with Rhodes were in good condition (Continued on Page Five)

All Banks In County Up

Bank Deposits Show Gain

Lamb County banks, with only the first gleanings from another bumper crop reflected in the totals, showed a combined gain of almost \$2 million over the same period last year, statements of conditions indicated Wednesday.

Every bank in the county recorded a gain over last year's figures. The statements were as of the close of business Sept. 24.

Deposits in the six banks in the county on that day totaled \$18,844,621.09 as compared to \$17,019,893.99 for the same period a year ago.

Most bankers predicted their figures would be up considerably by the first of the year. The amount of the increase will depend on how cotton and grain

Pep Farm Dinner Tickets Available

Tickets remain on sale today for the Chamber of Commerce's second farm dinner of the year.

The dinner is scheduled tonight at 8 at the Pep School cafeteria. Pep sausage will be served.

Tickets can be bought from Marshall Howard or at the Chamber of Commerce office. The price of \$2.50 per ticket will admit a farmer and a businessman.

Tax-Paying Time Here; Statements Are Mailed Out

The tax-paying season opened Wednesday, the first day on which citizens could pay their county, state, city, and school district taxes.

Tax statements were mailed out by all agencies late Tuesday afternoon.

Taxpayers may secure their poll tax receipts at the same time they pay their county and state taxes.

All tax rates for 1958 remain the same as they were in 1957—\$2.09 for the city, \$1.40 for the school district and 95 cents for the county, per \$100 valuation in each case.

200 Attend P-TA Back-To-School Night

More than 200 parents went back to school for an evening Monday night, taking part in the Junior High-Senior High Parent-Teachers Association's annual event.

They met for a cup of coffee in the school cafeteria then went through their children's schedules, meeting teachers along the way.

The periods were cut short, about 10 minutes each, allowing parents to make the schedules in about an hour.

Parents started their trip around the classrooms after hearing briefly from High School Principal Glenn Reeves

and Junior High Principal Forrest Martin.

Some parents had more schedules than they could follow, because several couples had one or more children in each school. Many followed the tour with one parent going to the high school and the other to the junior high.

The "Back-To-School Night" was actually the kick-off of a membership drive for the organization.

Goal of the Junior-Senior P-TA is 500 members. It now has about 250.

If the organization can meet that goal, a future campaign for funds will not be necessary.

Minor Mishap Investigated

Police investigated a minor traffic mishap at the intersection of Twitchell and East 5th Street Monday about 3:20 p.m.

Involved were cars driven by Mrs. Jack Christian of Littlefield and Bobby Joe Mills of Olton. Damages amounted to \$50 to the Christian car and \$75 to the Mills auto.

Officers said the car driven by Mrs. Christian struck the Mills auto on the left rear fender. Our feathered friends are friends of our land.

Car Inspection Deadline Slated April 15, 1959

On Sept. 1, Texans began having their vehicles safety inspected for the 1959 inspection period.

Captain Alan Johnson, of the Motor Vehicle Inspection Service, Texas Department of Public Safety, reminded motorists that there are over 4 million vehicles registered in Texas, and 10,414 vehicles registered in Lamb County, which must be inspected, approved and bear the new inspection sticker prior to midnight, April 15, 1959.

Passenger cars are inspected for brakes, lights, reflectors, horn and windshield wipers; while commercial vehicles are inspected for the above plus additional items as required by law. Due to the fact that in 1957, 5 out of every 100 accidents were caused by a mechanical defect, motor vehicle owners are urged to have their vehicles inspected as soon as possible to be sure their vehicles are as safe as possible.

There are 20 inspection stations in Lamb County at which owners can get their vehicles inspected now, without having to wait in line as thousands of motorists did as the deadline neared at the close of the last inspection period.

Motorists arrested for not displaying a current inspection sticker on their motor vehicle are subject to a fine up to \$200 and cost of court.

Special Course in Atom Age Physics Planned By Tech

LUBBOCK—A special course in atomic age physics, designed to improve science teaching in public schools, will be offered by Texas Tech.

Science teachers and others who take the two-semester course will meet at 9 a.m. Saturday, Oct. 4, in Science Building 100 with Dr. Henry Thomas, Tech physics department head, who will coordinate the study.

They may enroll at the registrar's office between now and Oct. 4. The course will be conducted as a seminar, with the class meeting on Saturday or on an evening four semester hours of academic credit for each of the semesters.

Incorporated in the study will be a series of televised lectures by nationally-recognized authorities from 6:30 to 7 a.m. Monday through Friday over a local station. The series will run from Oct. 6 through June 5. These TV sessions are being offered by a national network without cost to Tech.

Dr. Thomas emphasized that all study requirements and tests will be administered at Tech by him. He said the first semester will

be devoted to basic laboratory for an understanding of atomic physics, the second semester will deal with the nuclear science techniques.

Students in the course have completed a master's degree in physics or mathematics. Commenting on the course, Dr. R. C. G. ...

Frosh Study Fundamentals In Preparing For Varsity

By ALEX DUGGAN
 "We are working on the fundamentals of football, preparing for action on the varsity in future years."
 That was the comment that Coach Bill Harmon, who has taken over this year, the frosh have for the 58 football season, offered his view.
 So, as it is year, the frosh have had a busy season, and Coach Harmon has been busy with his varsity team, and the varsity of Plainview and Frisco.
 I have and sixteen hundred members that he has been working on for the last two years, only 10 were able to work out last year for the season.
 Coach Harmon has been the best in the state, and the student has been the best in the state, and the fundamentals of football has been working all season.
 Backs on the team that Harmon and A'low will take to Plainview Thursday are Boots Barker, quar-

terback and captain; Ronnie Rice, who scored touchdown last week against Brownfield; Wendell Johnson, right halfback; and Harold Holmes, fullback.
 Ends on the starting offensive team are Ed Steffy at left end and John Foley, who was a starter for the Wildcats against the southeast of right end. Ed Steffy, fullback and Duddy Johnson, right halfback's starters at right end.
 Quarterback James Jim Glover and John A'low will have Coronado at guard.
 Running back has worked into the starting line-up assignment.
 The complete roster and schedule of the football team are as follows:
COACH: BILL HARMON, JOHN FOLEY, JERRY ARMSTRONG, BOBBY WILLIAMS, EUGENE PRICE, JIM NELSON, GILBERT JIM LLOYER, FRANK SUTTON, Johnny Eddings, Bill DeWitt, Walter Findley.
 Conference: Randy Adams, J. E. Brown.
 Quarterback: BOOTS BARKER, Joe Cochran.
 WENDELL JOHNSON; LACK-

Halfbacks: **RONNIE RICE**, Johnson, Thad Minyard, Jack Brooke.
 Fullbacks: **HAROLD HOLMES**, Dean Chisholm.
1958 SCHEDULE

Red Raiders Tackle Texas In Toughest Game Of Year

LUBBOCK—Texas Tech's surprising Red Raider tackle... though it assignment of the young... by meeting University of Texas in Austin Saturday night.
 Tech's team are undefeated... in two starts. Texas, as predicted... has taken the measure of Georgia... 13-0 on Friday 21-0, and the Raiders who gained only two... with all last season, have beaten Texas A&M 15-14 and West Texas 27-7.
 Although pleased with the Raiders' accomplishment in coming from behind on successive Saturday nights, Coach DeWitt Weaver has warned his team that the toughest part of the schedule is ahead. After meeting Texas, Tech plays Texas Christian in Fort Worth and Baylor in Lubbock on consecutive weekends.
 This could be Tech's best season of the year. Despite rains both weeks, the Raiders played before 28,000 in the Cotton Bowl and 23,000 in Lubbock—the latter the largest crowd ever to see a Tech-West Texas game. About 40,000 tickets have been sold for

the Texas contest, and sell-outs loom for two of Tech's remaining three home games—with Baylor and Arkansas.
 Big play last week as Tech cruised a 7-0 defeat was Jerry Seldridge's longer game as racing 18 yard's with a pass deflected by punter Gene Bentley. Although West Texas mustered a mere drive, to Tech's nine just before the half, the Raiders thoroughly dominated play the last two periods.
 Canyon's Bob Ratliff lived up to his billing as the Buffaloes' hard running fullback, but the Tech attack was better balanced. To supplement the rushing of Raider fullback Bob Witucki of Tulsa, Tech called on good running and passing by Halfbacks Floyd Dellinger of LaVega, Ronnie Rice of Lefors, and Rabbit Vaughn of Littlefield.
 The most frequent cause of blindness in the United States is cataract, according to the American Foundation for the Blind. Diseases of the optic nerve and retina, and glaucoma rank next.

All Area Grid Slate in Tap This Weekend

ALEX DUGGAN

Football season nears its end for most teams, all eleven will be preparing for the all-important district

Springlake this week after falling to Muleshoe last week. Two weeks ago against New Deal, the Wolverines broke a 12 game losing streak.

The Sudan Hornets will play their first game at home this year after faring poorly in the four games on the road. Sudan will meet big Portales in quest of their second victory of the season.

The only undefeated team in the area, Bula, will be a big favorite to crush Nazareth Saturday at Nazareth. The Bulldogs, under coach Melvin Howard, downed potent Spade, 41-20, last week.

Spade, on the other hand, will journey to Three Way for another six-man contest this Friday. The Amherst Bulldogs, who got their first taste of victory this

season against Bovina last week, will go to Post for their contest. Whitbarra, who trounced one of the highly ranked class B teams last week, New Home, will be going for its third victory in a row at home against the Cooper Pirates. The Panthers have been gaining strength with every passing week, and they will be favored over Cooper.

State Awards Contract On Area Highway Project

A contract for 17,276 miles of construction on U. S. Highways 84 and 70 in Bailey and Lamb Counties has been awarded to a San Angelo firm, it was announced in Austin this week by the State Highway Commission. Strain Brothers, Inc. submitted the low bid of \$628,524.14 on the project.

Construction of grading, structures, flexible base and three coarse surface treatment from 8th St. to Sherman St. in Muleshoe; from Muleshoe to Lamb County line; from Bailey County line to 1.8 miles southeast and from Muleshoe to Lamb County line is expected to take 240 working days, according to O. L. Crain, district highway engineer at Lubbock.

The awarding of the contract to this firm is subject to the concurrence of the Bureau of Public Roads.

Rhea E. Bradley, resident engineer at Littlefield, will be in active charge of the project while under construction.

TV Star, Convict Riders Share Stage At Huntsville

HUNTSVILLE — Convict riders who will share the limelight with television star Richard Boone of "Have Gun—Will Travel" at the opening performance of the 27th Annual Texas Prison Rodeo here Sunday, Oct. 5, held their first try-out to come up "with the best crop of riders in a long time," said Albert Moore, veteran Rodeo Director. Nearly 100 contestants reported for the first tryout.

Director Moore pointed out that such former champion riders as Cruz Davilla, O'Neal Browning, and Vernon Abbott "look better than ever."

"Another favorite, Lala Markovich, who stayed out on parole to miss the 1957 show, got himself in trouble again at Lufkin and returned to prison August 27 — in time to be put on the rodeo contestants' list, Markovich, who is

-serving 99 years for murder from Harris County, was received at the prison Nov. 1, 1947 and paroled Feb. 18, 1957.

However, since last year, a new face has come up on the prison rodeo horizon. He is Robert C. Bell, 34, serving three years for forgery from Tarrant County. Bell has been in prison since March 25, 1958.

Although Director Moore had never heard of Bell, after watching him in action at first trials, he declared, "I have never seen anything like it. Every time I'd turn around, there was Bell mounting up to ride a wild Brahman bull or bucking bronc."

Bell says he will be out there doing his best to unseat the old-timers who have hogged the prison rodeo championship crown "too many years!"

Bell prison record shows that he is a former ranch hand and a cowboy—"with experience!"

Rodeo officials say that with the personal appearance of Boone and convict riders, who want to take the top spot of the show, attendance for the opener should break all previous records.

Reserved sea tickets at \$2.40 and \$4.40 each, may be had by writing Rodeo Ticket Office, Huntsville, Texas, enclosing check or money order.

Kirk National Treasurer Of WOW Insurance Society

Robert L. Kirk, a national director and assistant general attorney of the Woodmen of the World Life Insurance Society, formerly of Littlefield, has been appointed national treasurer of the society. It was announced by President Howard M. Lundgren at a board of directors meeting, Sept. 25, in Miami Beach, Fla.

ROBERT L. KIRK

Kirk succeeds the late John B. Cobb, Nashville, Tenn., who died last month.

A native of Waco, and graduate of the Baylor University of Law School, Kirk moved to Littlefield in 1939 and was county attorney of Lamb County from 1947 to 1950. He was county judge from 1953, through 1957, when he moved to Omaha to give full time to the post of assistant general attorney of Woodmen of the World.

Kirk is also a Woodmen past head consul of Texas, a former member of the society's National Service Committee, delegate to two national conventions, and chairman of the national legislative committee at the 1955 convention. He was elected to the board of directors as auditor in 1956.

Three other promotions within the board also were announced by President Lundgren. R. N. Dossman San Antonio, national escort, was elevated to auditor;

L. T. Oliver, Richmond, Va., national watchman, to national assistant secretary to national watchman.

About Your HEALTH

Senior citizens stand to benefit from the new nursing home standards...

The revised standards require that nursing home laundry rooms be separate and screened, with washing machines connected to sewer systems. Invoices must be kept on foods purchased for patients. The new code asks that daily meals include the basic foods contained in "Texas Food Standard," prepared by the Texas Nutrition Council.

Other provisions set up in the new standards are aimed at keeping the State Department of Health informed as to the policies concerning the operation of the homes. This will include information on types of patients, restrictive rules and charges or refunds.

The upgrading of nursing home standards is the aim of the new standards. All future applicants for state licenses to operate nursing or care homes are required to be graduates of an accredited high school or show proof of attaining the equivalent. Licensed physicians, registered nurses or licensed vocational nurses are exempt from this ruling.

These basic changes in existing state standards went into effect in September upon their adoption by the State Board of Health. Information on the new standards may be obtained from Texas State Department of Health.

School Children Pay When Motorists Are Forgetful

One of the world's largest transportation systems is now in its second month of this year's operation—the fleet of Texas school buses. From now until next June, more than 8,000 school buses will carry nearly 2,000,000 pupils to and from school each week day.

It is quite a job to transport all these children—it is a greater job to carry them safely. Yes, the school bus driver has a great responsibility, and is doing a fine job, but do you know that you are responsible for the children's safety, too? You are if you drive a motor vehicle on streets and highways.

According to the Texas Safety Association statistics for 1957 show that some of our motorists forgot their obligation, because there were 229 accidents which involved a school bus. These accidents claimed five lives and brought injuries into the lives of many others. Someone forgot—the children paid.

Under Texas Motor Vehicle Laws, the drivers of other vehicles on the highway are responsible if they interfere with the safe loading and unloading of children riding the bus.

A portion of the law reads: "The driver of a vehicle upon a highway outside of a business or residence district upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus but may then proceed past such school bus at a speed which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children."

The major portion of the past year's school bus accidents involved a violation of the above section of the law—the motorist failed to stop.

Moscow's Shareowners

It has been said that "there's no stock exchange in Moscow." Under a system where the state owns all the instruments of production and distribution, there's no room for an institution whose reason for being is to make it possible for individuals to invest a part of their savings in enterprises they believe in.

An interesting sidelight on the situation occurred a short time ago when a group of 14 tourists from Russia visited the New York Stock Exchange. The party's spokesman, according to a Wall Street Journal account, "... promptly made known that some Soviet State agencies issue stock in which they pay dividends, but the Government ministries owning the shares 'are not interested in the money.'" Instead, these ministries look upon shareowning "as a way to encourage teamwork." Of course, no individuals are shareowners.

In other words, such little stock issuance as goes on under Communism is just one more tool to serve a purpose of the socialized state. The very idea of voluntary investment by individuals would seem shocking to a dedicated Communist. For communism is and must be based upon compulsion. The system could not live if freedom of choice and action lived.

Our stock exchanges are essential to what has been aptly termed "people's capitalism." It is a capitalism in which all people are free to invest or not invest, as they wish. And it is a capitalism in which more and more people, their numbers running far into the millions have voluntarily bought their own private stake in the American system.

The Bible -- The Word Of Life

The 18th annual National Bible Week will be observed during the week of October 20-26. Once again it is sponsored by an all-faiths group, the Laymen's National Committee, Inc. This year's theme is: "The Bible—The Word of Life." It is taken from the 2nd Chapter, 16th Verse of the Philippians.

National Bible Week is dedicated by men and women of all faiths as a tribute to the world's greatest Book. By a daily reading and study of the Bible we may hope to arouse a newer and greater spiritual force—a force that is desperately needed in today's troubled world. Those who know and follow the precepts of the Bible will always fight the effort to substitute the pagan state as arbiter of what is right and wrong in our lives.

AUSTIN, Tex. — Through the summer campaigns "economy in government" were words that rustled about as harmlessly as an evening breeze.

But with the approach of winter and down-to-the-lick-budget-making time, the same words have the cutting edge of a blue norther.

Gov. Price Daniel stuck a pin in any last rosy hopes that "things might not be too bad." He sent back the money requests made by heads of state departments for 1959-61 saying they were "wholly unrealistic."

Governor Daniel had been the last major hold-out against predictions of a major money crisis. Other state officials had been crying doom and foreseeing a shortage of up to \$140,000,000 for months.

Governor Daniel took note of these predictions in asking department heads to re-examine their budgets, eliminating any non-essential items. A deadline of Oct. 8 was set for the new requests.

As originally submitted, the requests would require a \$272,000,000 increase in spending.

"I think and hope this decline in state revenues is a temporary condition," said the governor, "but a realistic approach... requires that 1960-61 requests should not exceed the 1958-59 level unless absolutely essential."

DEFICIT SOON—A further glum note was the state comptroller's forecast that the general revenue fund would run dry in October.

And it probably won't be a temporary thing, according to Comptroller Robert S. Calvert. Almost every spring the state has a seasonal shortage just before the April deadline for franchise tax paying.

Calvert said this deficit may continue until September, 1959, and bring a return of some of the squeezes of the 1930's. During those years state employees had to pay a discount of from one to five percent to cash their pay checks since the banks that cashed them had to hold them for some time waiting for the state to get the money to make them good.

Calvert said the general revenue fund began the new state fiscal year in September with a \$13,000,000 balance. This is not a very big kitty for the government's billion-dollar-a-year operation.

HARD DECISION — Education Commissioner J. W. Edgar is the man in the middle on the controversy over accepting federal aid for Texas schools.

Dr. Edgar has until the end of this week to decide whether to recommend to the State Board of Education that Texas participate in a new federal school aid plan. This program, prompted by national defense concerns, is designed to help step up training of mathematicians, scientists and teachers.

Edgar's decision must be made in the light of the recent recommendation by the Hale-Aikin Committee, a group of influential citizens and lawmakers, that the state stop taking some federal funds it is already getting — for school lunches and vocational training.

On the other hand, Sen. Ralph Yarborough, a Congressional sponsor of the new aid plan, is strongly urging that Texas take advantage of it. Others who agree declare that to stay out would mean Texas schools would lose millions — some of it paid in by Texas taxpayers.

GENTLE REMINDER — Uncle Sam still wants you — to register, at least.

This reminder comes from State Selective Service Headquarters which says many young men, usually through misunderstanding, are failing to register on time.

All males must register on their

paying state jobs are standing vacant. They are for an \$11,500 program examiner and a \$10,000 finance examiner for the Commission on Higher Education. But the Commission director says the salaries are less than terrific for the type men needed. . . . Not since 1889 have there been so many cotton rats and mice loose in Texas, says the State Health Department. What's worse, the upcoming cold weather may cause many to enter homes in search of food. . . . Savings Bonds Sales \$279,096 In Lamb County

"Savings Bonds sales for the first eight months of 1958 totaled \$279,096," C. O. Stone, chairman of Lamb County's bond committee reported this week.

"Our county has now reached 71.5 per cent of its 1958 goal of \$390,000, August sales were \$26,925."

Texas sales through August 1958 were \$118,503,413 which was 5 per cent greater than the same period in 1957.

Sandhills Philosopher

He's Riled Over Scientist Who Didn't Become Farmer

Editor's note: The Sandhills Philosopher on his Johnson grass farm seems a little riled up this week. He'll get over it.

Dear editor: There are some days when I'd just as soon not have seen a newspaper.

Yesterday I was reading along fairly contentedly, some people get excited over world events but they've been going on so long I've gotten used to them, when I ran into a statement that flabbergasted me.

A famous scientist was leaning back in his chair recalling his early days and he said a school teacher was responsible for his being a scientist.

"If it hadn't been for her, why I probably would be farming now," he said, with considerable self-satisfaction, as though he'd escaped ditch-digging or the penitentiary.

As I understand this, the better the teacher you have, the less likely you are to become a farmer, and I'll admit that at first this made me mad. One of the loudest arguments I ever heard for improving the teaching profession.

When I began to ease up a little. Maybe some farmers had rather be scientists than farmers, and maybe some teachers measure their failure by the number of their pupils who fall into farming, but I don't believe I'd be willing to swap. I haven't won any gold medals for scientific achievement, but on the other hand you

can't pin the hydrogen bomb on me. I haven't sailed a submarine under the ice at the North Pole but on the other hand I've found some mighty comfortable places under a tree in the shade of Johnson grass farm. Every teacher had been as good as a scientist's teacher, and weren't any farmers left, a scientist would be getting awfully hungry. On the other hand, I don't think I'd be a good teacher. After all, when I was in grammar school maybe I wouldn't be farming. No telling what I might be. I might be a banker, a large store keeper, an insurance man, why I might even be a newspaper or even a school. I'll tell you, a man knows what a debt of gratitude owes his teachers. Yours faithfully, J. A.

Three thousand new classrooms costing approximately \$100,000,000 are needed annually to handle increased student population.

Salvation Army Work With Parolees ended In '57 After 20 Years' Service

In 1937 that Governor Alfred called the Texas headquarters of The Salvation Army in Dallas and re-organized the Salvation Army to supervise parolees on a temporary basis. The state had no funds for the State Parole Board.

The Salvation Army supervised fifty-two years of work in the United States. It has done much in many ways for ex-convicts to rebuild their damaged lives through its Social Departments and other agencies and had given a new lease of life to many former prisoners who had paid their debt to society and thus won their freedom.

It is natural that Governor should turn to The Salvation Army in desperation to State Parole Law operators long record of prison work was no other than The Salvation Army given in the Government except a quick and easy solution.

Now The Salvation Army supervision of parolees in Texas Prison System in 1937 that continued for years without cost to the Government.

The Salvation Army began its parole work in 1882 in England, and the following year it was adopted in the United States. The Salvation Army to help discharge prisoners known as "Prisoners of War." The same summarizes the welfare work of the Salvation Army.

Prisoners were for years of criminals. Nothing was done to soften the hardness of the broken morale of women confined with men. In most cases the prisoners term clung to throughout the rest of his life.

Authorities would not let the Salvation Army workers go into prison walls and the Salvationist could not see the prisoners was the prison the day a prisoner was liberated. At dawn of the next day, the prisoner hurried through the purlieu to the deserted world except for the blue bonnet and the red-banded cap. The Army workers waiting

In Washington

With CLINTON DAVIDSON

We Americans have become distressingly blasé about the rate at which the Federal government is spending our money and sinking us deeper and deeper into debt.

A statement by the Bureau of the Budget that Federal spending this year will exceed income by more than a billion dollars a month caused no more than a mild ripple of public interest.

Maurice H. Stans, Director of the Budget, tells us that Uncle Sam is spending at a peacetime record rate and that by the end of this fiscal year the public debt will reach a new all-time record of \$283 billion.

For each \$350 the average American — man, woman and child — pays in Federal taxes, either directly or indirectly, Washington will spend \$420.40 during the fiscal year that ends next June 30. You owe \$1,645.

Your share of the Federal debt, by next June 30, will amount to a record total of \$1,645. That will be the per capita national debt, and it will be an increase of \$70.45 from last June 30.

You may never pay off that debt, but you can't escape paying your share of the interest on it, amounting to \$42.50 a year. It costs the Treasury Department \$7.3 billion a year to pay the interest on the debt.

Congress either appropriated or authorized \$79.2 billion to be spent this fiscal year by Federal agencies. That is \$12.2 billion more than estimated tax collections of \$67 billion.

The record peacetime deficit is in sharp contrast with the official estimate last January that the government would need this fiscal year with a "net surplus" of \$500 million in income over outgo.

Mr. Stans explains this "mistaken estimate" by pointing out that (1) Congress okayed spending of \$5.3 billion more than was budgeted, and (2) tax collections now are expected to fall \$7.4 billion below the earlier estimate.

Where Your Money Goes The biggest slice of your tax dollar, as well as the increase in debt, goes for items under the general heading of national defense. Defense spending will set a peacetime record of \$40.8 billion.

Interest on the national debt at \$7.3 billion is second, farm aid is third and foreign aid is fourth. The largest increase over the January budget was an added \$1.6 billion for the Department of Agriculture.

The Post Office Department, despite increased mail rates, expects to spend \$735 million more than it collects in stamp sales. That is due to the increase in wages voted postal employees by Congress, Mr. Stans explains.

Other increases over last year include \$225 million for Health, Education and Welfare Department public assistance grants and research; \$199 million more for the Export-Import Bank, \$225 million for surplus sales of farm products, and \$92 million for the newly authorized Small Business Administration loan program.

We asked both the Republican and Democratic national headquarters for a list of what they consider the major political campaign issues. Neither mentioned Federal spending or the public debt.

Only about 15 per cent of America's estimated 350,000 blind people can read braille with facility, according to the American Foundation for the Blind.

NANCY'S THE LEADER—These two men and three misses lead the cheers at pep rallies, ball games, and other student affairs at West Texas State College. Kneeling are Barbara Jo Taylor, Quilque sophomore, at left, and Carolyn Moss, Dumas sophomore. The boys are, at left, Joe Bill Brown, Channing sophomore, and L. B. New Cadillac On Display Here At Jones Motor Co.

Completely new concepts of traditional Cadillac engineering and design were emphasized by James M. Roche, general manager of the Cadillac Motor Car Division and vice president of General Motors, as he announced the division's 1959 models.

"Extensive changes throughout the entire line of new Cadillac cars gave us the opportunity to bring together majestic new styling and brilliant performance to exceed even further the standards for which Cadillac has been so renowned.

"In appearance, these new Cadillacs — from the exquisitely wrought grille and hood to the beautifully sculptured rear fins — will set a new style note," Roche predicted.

The new Cadillac is now on display at Jones Motor Co. in Littlefield.

"The sweeping elegance of Cadillac's newly created silhouette is more than matched by the youthful surge of the tremendously powerful new engine. This 1959 Cadillac engine," Roche said, "is the result of engineering development based on Cadillac's 45 years of expert knowledge in the creation of the V-8 type. In our new models, the power plant incorporates advanced principles of design permitting extremely smooth operation while deliver-

Sudan Resident's Brother Dies

SUDAN—Funeral services were conducted Wednesday for Charlie W. Trapp, brother of Mrs. Leo Rice of Sudan.

Last rites for Trapp, who died in a Las Vegas, N.M., hospital Saturday, were held at the Missionary Baptist Church in Morton.

Burial was in Morton Memorial Cemetery.

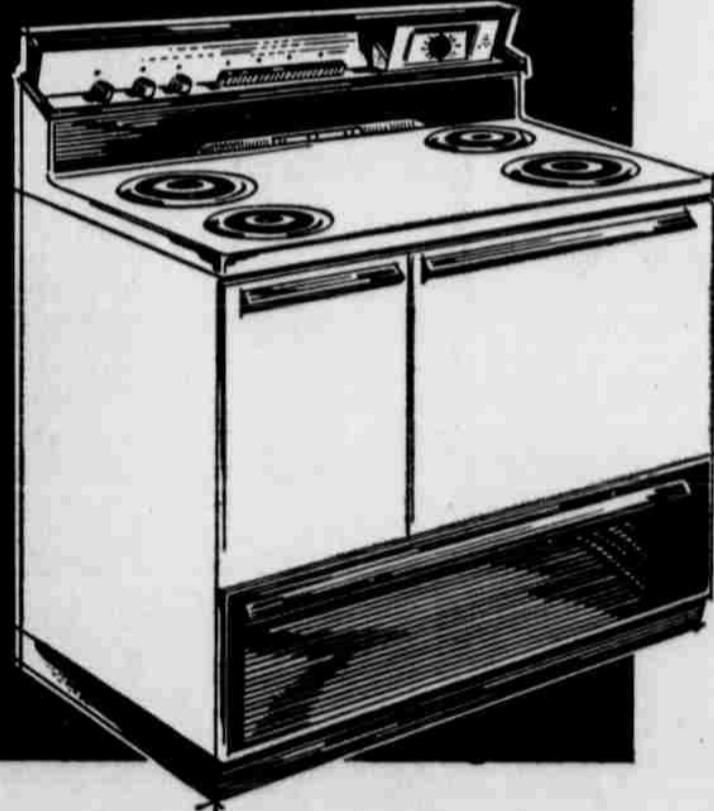

Trapp had lived in Carlsbad, N.M. the past six years. Before moving there, he was a Morton resident.

Survivors include: a son, Henry, Lee, San Angelo; a daughter, Mrs. Ruby Russell, San Angelo; two step-daughters, Mrs. Homer Hardberger, O'Donnell, and Mrs. Ray Vaught, Albuquerque; three sisters, Mrs. O. S. Taylor, Morton; Mrs. Lee Rice, Sudan; and Mrs. Minnie Beard, Red Bluff, Calif.; two brothers, Carl, Roy, Utah; and Jack, Cheko, Calif.; two grandchildren and five step-grandchildren.

The demand for teachers for the next five years will approximate 53,857, an average of 10,771 per year.

A Center Now

Max Morris, Ex-Wildcat All-Stater, Takes Sooners' Second Line As Soph

At Littlefield, Texas, high school Morris played tackle as a sophomore, right halfback as a junior and fullback as a senior. This autumn, he began as a fourth string right end. Now he's a center. How did he like being switched around in five different positions?

Morris grinned. "Pretty good. Just playin' anywhere up here's good enough."

Where did he acquire that nickname "Bulldog" in high school?

"Nope." Further questioning wrung from him the admission that Dick "Jap" Carpenter, Sooner halfback, hung that one on him. Everybody at OU gets a nick name.

Although Littlefield is nearly 400 miles from Norman, Morris' parents, Mr. and Mrs. Floyd Morris, his sister Paula, 15, and his brother Roger, 13, are driving to Norman to see the West Virginia game. His father operates a farm, a trucking line and some filling stations.

"Lots of Littlefield people went to school at OU," he says, "like Ralph Schilling, our high school superintendent, and all the pharmacists in town."

Morris may take engineering at Oklahoma. As a freshman here last year, he passed both Chemistry I and Beginning Calculus.

Speed, hustle and line-backing ability won him his promotion to center. But he won't snap the ball back on punts. "Too many wild pitches," he explains. Jim Davis, alternate guard with center experience, will do that, the coaches say.

How many all-state teams did he make in Texas? "Aw, two or three."

As a high school fullback, Morris carried the ball 30 or 40 times, per game. Wasn't he going to miss doing that at Oklahoma? "Nope."

Some Korea Vets Can Get Bonuses

AUSTIN — Charles L. Morris, executive director of the Texas Veterans Affairs Commission, urges all Connecticut and Rhode Island veterans of the Korean war now residing in Texas, who have not yet applied for their state bonuses, to make application immediately.

Connecticut Korean veterans have until Sept. 30, 1958, to apply for the bonus paid by that state. Veterans must have been legal residents of Connecticut for at least one year immediately prior to induction and must have had active service during the period between June 27, 1950 and Oct. 27, 1953. Apply to the Veterans Bonus Division, State Treasurer's Office, State Capitol, Hartford, Connecticut.

Deadline for the Rhode Island bonus for Korean veterans is October 31, 1958. The veteran must have been a legal resident of Rhode Island for at least six months immediately prior to entry into service, and must have had active service in the armed forces at any time during the period beginning June 25, 1950 and ending July 27, 1953. Apply to Korean Veterans Bonus Board, 1061 North Main St., Providence 4, Rhode Island.

Some Korea Vets Can Get Bonuses

AUSTIN — Charles L. Morris, executive director of the Texas Veterans Affairs Commission, urges all Connecticut and Rhode Island veterans of the Korean war now residing in Texas, who have not yet applied for their state bonuses, to make application immediately.

Connecticut Korean veterans have until Sept. 30, 1958, to apply for the bonus paid by that state. Veterans must have been legal residents of Connecticut for at least one year immediately prior to induction and must have had active service during the period between June 27, 1950 and Oct. 27, 1953. Apply to the Veterans Bonus Division, State Treasurer's Office, State Capitol, Hartford, Connecticut.

Deadline for the Rhode Island bonus for Korean veterans is October 31, 1958. The veteran must have been a legal resident of Rhode Island for at least six months immediately prior to entry into service, and must have had active service in the armed forces at any time during the period beginning June 25, 1950 and ending July 27, 1953. Apply to Korean Veterans Bonus Board, 1061 North Main St., Providence 4, Rhode Island.

College Head Speaks To Anton Study Club

The Anton Study Club met at the Fellowship Hall of the Methodist Church, Tuesday evening at 7:30 for a program on "Education Key to Higher Learning," with Dr. Thomas Spencer, president of the South Plains Junior College, as special guest speaker.

Mrs. Earl Glass, president of the club, presided and opened the meeting with the group singing "America." Among the advantages of going to a junior college, Dr. Spencer pointed out that it was much less expensive. The greatest item of expense in going to college is for boarding away from home. Since buses pick up the students and take them home in the afternoon, this expense is eliminated. Already there are 325 students enrolled in the day and night classes in the college.

At the conclusion of Dr. Spencer's talk, the hostesses, Mrs. Kenneth Alexander and Mrs. Brad Gilbert served coffee and doughnuts to the group.

Guests were Dr. Spencer and Mrs. Spencer, Mrs. Chester Jones, Rudolph Shockley, Roy Jordan, Rev. and Mrs. Ralph Campbell, Earl Glass, Jim Bridges, Jerry Biffle and James Cathey.

Olds Introduces SportSedan for 1959

OLDSMOBILE'S DISTINCTIVELY styled and attractively different Dynamic "88" Holiday Sport Sedan for 1959 represents "family-sized" transportation luxury in sports car design. The thin roofline and rakish wrap-around rear window serve to accentuate the mobile appearance of Oldsmobile's "Linear Look" for 1959. Sweeping full-length along the body, the sculptured twin booms give the car a look of mobility even when parked. They also highlight Oldsmobile's unique two-tone styling for 1959.

1959 Oldsmobile Goes On Display Here Friday At Jones Motor Company

Jarold Jones of Jones Motor Co. announced today that the 1959 Oldsmobile will go on display in the showroom at 801 Hall Ave. beginning Friday.

The 1959 Oldsmobile will feature two new family-size body styles, two completely new and more efficient Rocket engines, increased passenger and luggage space, new Air-Scoop brakes on all four wheels and many other advancements, according to Jack F. Wolfram, general manager of Oldsmobile and vice president of General Motors.

"Oldsmobile for 1959 represents the most outstanding product in Oldsmobile's history in styling, quality and value," Wolfram stated. "And our two new Holiday hardtops introduce an entirely different trend in passenger car design," he added.

The Holiday Sports Sedan is a sporty four-door family-size car. The two-door Holiday Scenic-Coupe has an entirely new silhouette—a snappy appearance and exceptional visibility in all directions. The two new styles will be available throughout the Oldsmobile line.

An extra large, heat-resistant rear window on the Holiday Scenic-Coupe curves high into the roofline to give unparalleled visibility. Rear window glass area on this model measures a big 172.5 square inches. On the Holiday Sports Sedan the rear window wraps around beneath the extended rear edge of the roof.

Total glass area in all models has been increased up to 36 per cent to give increased visibility in all directions. The new "Vista-Panoramic" windshield has up to 570 square inches more glass area and contours deep into the roofline offering an unobstructed view of overhanging traffic signals. Electric windshield wipers, with a wider cleaning area, are standard equipment.

For 1959 Oldsmobile is offering 15 body styles in its Dynamic "88", Super "88" and "98" series. In addition, there is a two-door sedan and a Fiesta station wagon. The Fiesta is also built in the Super "88" series.

All models are marked by their thin rooflines, with increased

passenger compartment roominess and comfort. Shoulder room has been increased over four inches and yet the overall width of the car was increased less than an inch. Rear seat passengers have over an inch more leg room in the Dynamic "88" and Super "88" series. Trunk space has been increased up to 64 per cent. In the "88", a new larger body, distinctively Oldsmobile, gives rear seat passengers 4 inches more leg room.

To match the spectacular advances in styling, Oldsmobile for 1959 has developed two of the most responsive and economical Rocket engines since the first high-compression Rocket was introduced by Oldsmobile in 1949. Both are smoother and quieter in operation with a new cylinder block, having longer cylinder bores, new reinforced aluminum pistons, connecting rods with greater bearing area, a longer intake valve and a more rigid crankshaft.

Equipped with a two-barrel carburetor, the new engine powering the Dynamic "88" series is rated
