Sudan Lashed By Tornado Saturday

A baby tornado ripped through the north part of Sudan about dusk Saturday night, demolished the Church of God, a cotton warehouse at the Co-op. Gin, a blacksmith shop nearby, and tore the roofs from a half dozen dwellings and other buildings.

It was estimated by local men that the damage to buildings would be about \$10,000. No reports were current of anyone being killed or injured.

A 40-ft. barn belonging to Miller in the north edge of town was destroyed. About half of the roof of the building housing the offices and family of the manager of the Southwestern Public Service Company was blown away, also screens taken off, and windows broken.

The Southwestern Public Service Company report several poles blown down, and primaries and secondaries on the ground. They were, however, able to get service back for business and part of the residential district by 10 o'clock Saturday night, and the balance of the service restored by noon Sunday.

Numerous small buildings and barns were slightly damaged, the wind lifting roofs in many places, and partly removing them. The Caruth home was unroofed. The family was at home with a sick child, but no one was injured.

A cow belonging to L. B. Price of Sudan was electrocuted during the storm.

The storm hit suddenly, and without warning, dipping as it came from the west, then rising, its funneled snout again dipping more than once, each time smashing a building or something in its path. (Continued on Back Page)

Water Turned Off Wednesday Night

The water was turned off from 8 o'clock until about 11 o'clock last night due to the fact that the water in the tanks got low, on account of so much water being used for gardens, lawns, etc.

Mayor Homer Hall stated that the pumping capacity over a 24 hour run was 600,000 gallons, and that the City had used this water up, and so they had to turn it off until the tanks filled up. He also said that the City was going to expect the citizens to cooperate during these summer months, and not use water only when absolutely necessary.

Season Now Here For Culling Flocks

Now is the time to start culling that flock and taking out those idle hens. You should be able to remove about 10 per cent of the loafers now and about the same number next month, according to S. L. Garrison, Assistant County Agent for the A. & M. College Extension Service.

Culling doesn't take much time and you can do a good job if you look for certain things. With leghorns the job is very easy; but with some of the other breeds such as the barred rocks or reds it is a little more difficult to spot the low producers. Here's how you can do it rapidly and fairly accurate, and at the same time not upset production.

Pen the birds in the house and get a good catching hook. Walk around among them quietly and when you see one with a shriveled comb pick her up and examine her. Cull her if she is a low producer, otherwise turn her out so you won't have to handle her again. Those which are molting at this time of the year should be culled. If you spot one with yellow pigment in the back and shanks pick her up too, chances are she's a loafer. Look for those with a saggy abdomen, a good indication of an egg organ breakdown. Watch for those which have a bad diehrea. If you find any which are pale and weak looking, get 'em out,

and while looking the flock over keep a sharp lookout for any bird showing grey eyes. It's a wise practice to sell these.

Feed is too expensive and scarce to waste on a hen which won't pay her keep. Culling makes more housing room, and there's a good market price for hens not earning their board.

4-H'ers Aid War With Beauty

The kindest things God ever made For a fevered world are flowers and shade.

So sanitariums have trees and blooming things. So 4-H'ers all over the land beautify their home grounds as a top wartime service. Here is the record of one Texas member, George Kveton, 17-year-old boy of Abernathy, who did four things to soothe war weary nerves. Continuing a plan started in 1937 the boy added colorful flowers, bird luring shrubs and shady trees in suitable locations—he completed a windbreak — planted rose bushes in the borders — set grape vines on the fence line.

Cited by the state extension service for these achievements, the boy was awarded a gold watch presented by Mrs. Chas. R. Walgreen of Chicago to state winners in the national 4-H home grounds beautification contest. The contest, adapted to wartime needs, is continued this year.

Farmers To Register At Agent's Office For Farm Labor

Local needs will determine Lamb County's participation in a new farm labor program to be handled by the Extension Service, according to V. F. Jones, County Agent.

To better determine this need we ask that all farmers who need laborers come by the county office at Amherst and register for the amount and kind of farm help they need. We also ask that laborers who are not employed, or who are available for part time employment, register at the county agent's office.

Jones states that under present plans, his office will not have anything to do with setting up wage rates or have any part in determining the provisions of the agreement between the employee and the employer, but that he hopes to bring the two together and let them make their own trade.

Progress School 8th Grade Have Closing Program

Three pupils in Mrs. H. W. Wiseman's room, Jon Ann Thomson, Myra Hogan and Cora Lou Vinson, sang "It's the Little Things That Count," and "Three Little Sisters." Joyce Gwynn from Mrs. Jack Johnson's room gave a piano solo; and a group from Mrs. Adam's room sang "There's a Star-Spangled Banner Waving Somewhere."

Gems of Thought

Cheerfulness is a friend to grace; it puts the heart in tune to praise God, and so honors religion by proclaiming to the world that we serve a good master.—Be serious, yet cheerful.—Thomas Watson.

The interests of childhood and youth are the interests of mankind.—Janet.

What the best and wisest parent wants for his own child that must the community want for all its children.—John Dewey.

Always look out for the sunlight the Lord sends into your days.—Hope Campbell.

A wise man will desire no more than he may get justly, use soberly, distribute cheerfully, and leave contentedly.—Richard E. Burton.

The training of children is a profession, where we must know how

to lose time in order to gain... Happiness consists in the attainment of our desires, and in only right desires.—Augustine.

Desire is prayer; and no desire occurs from trusting God with desires, that they may be met and exalted before they take in words and in deeds.—Mary Baker Eddy.

Did You Know?

By LILLIAN KELLER

Specialist in Clothing and Home Management, Tennessee Extension Service.

1. That it is both patriotic and good business to keep home equipment in repair and well oiled to make it last?

2. That metals necessary for new ranges, refrigerators, washing machines, and steam pressure cookers have "gone to war"?

3. That you can make a "sick" cook stove well by cleaning thoroughly the lids, soot chamber, stove-pipe, and oven?

4. That porcelain enamel is really glass and that a paste made of whiting and a small amount of kerosene will clean without scratching any porcelain surface such as that on bathtubs, sinks, or enamel stoves?

5. That you can buy sets of little metal disks to patch small holes in pots and pans, whether the pots are aluminum or enameled?

6. That you can keep dresser drawers from sticking by (1) planing the warped sides, (2) sandpapering the top or bottom edge of the sides, (3) rubbing soap or paraffin on the side pieces and cleats, or (4) squaring the drawers up and fastening them securely if they are out of line and won't open or close?

7. That you can mend a crack in an iron stove by making a stiff paste of iron filings, flowers of sulphur, and water? When heated, the mixture burns and turns into iron sulphide, which fuses and fills the cracks completely.

8. That if you fail to fasten a new rubber washer firmly on the kitchen faucet, it may hammer and make a noise when the water is turned on?

9. That cooling steaming-hot foods in your refrigerator requires six to eight times as much electricity as

cooling the same foods which have been reduced to room temperature?

10. That you should keep a supply of fuses on hand to replace those which may be burned out?

11. That clothes don't come clean in a washing machine if you (1) use too little water, (2) use too little soap to make a two-inch suds, (3) leave them in the machine too short a time, or (4) put too many clothes in the machine at one time?

12. That you always should use a good grade of oil in your kerosene range and never a mixture of kerosene and gasoline?

13. That you may start a disastrous fire by putting burned matches on the tray below kerosene range burners where oil has collected?

County Agent Now Given Charge Of Farm Labor Program

The Texas A. & M. College Extension Service has been given a new war-time assignment and has accepted the task of carrying out a farm labor program, according to V. F. Jones, County Agent.

The announcement came following a meeting held in Amarillo recently where the extension agents were given instruction on the provisions of the war-time farm labor program. The program is headed in Washington under Mr. Chester C. Davis, War Food Administrator, who has directed the Extension Service agents in each county to undertake supervision in their respective counties.

Jones quoted Lieut. Col. Jay Taylor, Texas rancher and deputy war administrator as saying that, "Ninety-nine per cent of this new farm labor program will be carried out in the county and one per cent from Washington."

The beautiful single ring ceremony will be read by Rev. J. H. Sharp, pastor of the San Jacinto Methodist Church, Amarillo.

The candles will be lighted by Miss Linda Beth Stokes and Miss Eula Starr O'Dell of Littlefield, and the couple will exchange vows before an arch of red roses with palms and honeysuckle. Preceding the ceremony Mrs. O. G. Hill, Sr., will sing, "Through the Years," accompanied by Mrs. J. W. Stanford.

The bride, to be given in marriage by her father, will wear a white marquisette and old English floor-length dress, fashioned with a square neckline and fitted bodice. The bride's mother will be attired in a black sheer dress with pink accessories, and her corsage will be pink carnations. The bridegroom's mother will wear a gold and brown printed jersey skirt with a linen blouse and a corsage of white carnations.

A brief reception for members of the bridal party, relatives and close friends will be held after the wedding. The bridal cake, a gift from Mr. and Mrs. William Rumback of Littlefield, will be cut by the bride and groom.

Table decorations will be red roses and tall white tapers in crystal candelabra, and the table will be laid with an embroidered linen cloth. Gifts to the couple will be displayed in the master bedroom, and Lynn Morrow of Hereford will preside at the bride's book.

Mr. and Mrs. O. G. Hill, Jr., will leave immediately after the reception for a short wedding trip. The bride will wear a brown silk gabardine skirt with a beige jacket, and rust and beige accessories. Her corsage will be a single orchid.

Because foods bought at wholesale with these stamps can be sold at retail without points, every expired stamp given to a storekeeper is a potential contribution to an illegal market.

OCR TO SUPPLY FARMERS' REQUIREMENTS

The newly-created Office of Civilian Requirements, WPB, has worked out an emergency farmers supply program which will quickly make available to farmers some 50 items essential in the production of food. The procedure will enable a farmer to buy reasonable amounts of needed items directly from his dealer without complicated forms. Materials to be made available under the program include adjustable wrenches,

agricultural forks, auger bits, barbed wire, clevises, dehorning saws, fence pliers, garden hoes, batteries, motors, grain scoops, grease guns, harness hardware, horse collars, nails, neck yokes, poultry netting, cold chisels, hog rings, knives, and many other products.

HEAVY LOAD FOR POSTMAN

Letter carriers' backs will be aching under heavy loads this week as distribution of some 40,000 application cards for War Ration Book 3 gets underway. This book will provide new stamps to replace those running out in existing books. Consumers fill out and return application cards, pre-addressed to OPA mail centers, between June 1 and June 10. Residents of Texas, Oklahoma and Louisiana will receive their new books from Dallas, where volunteer workers will fill out the names on more than 10,725,000 ra-

tion books.

MORE RADIO BATTERIES

To bring relief to farmers in non-electrified areas of the nation, production of radio batteries has been boosted to 425,000 a month. If the present rate of production is continued over a twelve-month period, normal requirements for the 3,200,000 radios estimated to be on farms will be met.

GET 50 GALLONS OF GAS ANY TIME

Farmers will benefit from a change made in Petroleum Administrative Order No. 4 which allows bulk deliveries of gasoline in quantities of 50 gallons or more, to be made at any time. This will be particularly helpful to farmers who drive to town after work and buy gasoline in steel drums of 50 gallons or more capacity.

EGGS CANNOT GO INTO STORAGE

After June 15, egg dealers, salers, and other distributors not keep shell eggs in storage after May 20, no eggs may be into storage. L. J. Caplan, regional Food Distribution Administrator, stated. The only exception when eggs are held in storage cover existing contracts with government agencies. All shell eggs cold storage on May 20 are to be served for sale to government agencies at no more than the prices applicable to grades for government purchase in effect when offer is made.

Aviation Cadets Walter L. Dyer, Rt. 1, and Joseph T. Morgan, Rt. 2, Littlefield were among the large class of potential combat pilots who left the San Antonio Aviation Cadet Center recently to take advanced training at primary flying fields.

These cadets were praised by Under-Secretary of War Robert P. Patterson as a "fine body of men," and said by Congressman R. E. Thomason of Texas to make him "feel good over the future of the nation."

Members of the class were among the thousands of cadets inspected by Patterson; Congressman Thomason, ranking member of the House military affairs committee, and Senator Burnet Maybank of South Carolina, member of the military affairs committee of the Senate.

The cadets have completed two phases of their training—those at the Army Air Forces Classification Center and at the Pre-flight School (Pilot), the two units which make up this military establishments, largest aviation cadet training center in the nation. They will receive their first actual flying training at the primary fields.

Members of the class included 326 from Texas.

NO SPECIAL GAS FOR VACATIONS

Vacations are fine, but there will be no extra gasoline for vacation travel this year, says Price Admin-

istrator Prentiss M. Brown. Both rubber and gasoline supplies are too critical to allow motorists any "luxury" gasoline rations. Mr. Brown pointed out that gasoline coupons in an "A" book could be saved, and that gasoline could be carried over in the tank of an auto from one

period to the next. In this way, a motorist may save fuel for 180 miles for a vacation trip by car.

SCOUTING FOR SCRAP

More than a million Boy Scouts and Cub Scouts will tramp the woods and valleys of America this summer

on a new kind of scouting expedition. They will be exploring for heavy scrap iron that can later be brought in to collection points. Overnight camps will permit the boys to cover a wider territory and to carry some light scrap back to collection trucks.

Sad, yet proud, Uncle Sam thinks of all the soldiers of wars gone by. . . . Men who were heroes in the Mexican War, the Civil War, the Spanish-American War, and World War I. . . . And—on this Memorial Day, soldiers of World War II are added to that list of heroes.

Americans everywhere feel sadness for the lives lost, but only pride when they think of the justice of the cause for which these soldiers died, and for which they die today. Liberty is the name of that cause. In the past we have recognized the basic truth of Daniel Webster's words, "God grants liberty only to those who love it and are always ready to guard and defend it." Today we are asked to defend that cause once more. And we will succeed, for what men have done can still be done, **AND SHALL BE DONE TODAY.**

BAD NEWS FOR GERMANY

"Bundle of grief" being prepared for the Nazis. These two mechanics have fused this bomb and are securing the tail fin in its proper position. Then they will load the sensitive "egg" under the wing of the vicious "Hurry-bomber" behind.

A streamlined conveyor system feeds ammunition to the multiple guns of a Halifax. Before the take-off one of the gunners checks to ensure that there will be no jam in a tight spot.

At this big Wellington bomber reaches its target area. Flight Sgt. George Fowler inserts a flare into the flare-chute so that the observer in the nose of the plane may set his sights and end the heavy load of bombs hurtling true into the heart of a Nazi target.

"Bombing up" . . . Three members of the ground crew on a Canadian station are pictured at the winches which hoist the packages for the Nazis into the bomb bay beneath them.

Troy Davis, who is in Naval Construction, and stationed at Dutch Harbor, recently wrote his mother, Mrs. E. M. Davis, that he was getting along nicely, and had just had a visit with Roy Byers, Jr., who is also stationed there.

Pfc. Roy Grisham, 19, son of E. E. Grisham of 8 1/2 miles southwest of town, and mechanic in the Air Corps, stationed at the airfield, Pampa, Texas, arrived home Wednesday of last week on a ten day furlough, leaving Saturday to return to training.

Pfc. Grisham is hoping to pass his tests to enter cadet training.

Bartee Haile of the U. S. Navy, whose home port is Sidney, Australia, wrote his father, Star Haile, recently that he "had made a third class yeoman," which Mr. Haile said was the same grading as a Tech. Sgt. in the Army.

Bartee has been in service since November 1. He now weighs 170 pounds, according to his father, and in a recent letter stated that he was getting along fine, and tickled to death at being promoted. He also said the people in Australia treated the American boys excellent, that they "are really nicer to them than the people in the United States are."

Several Anton boys enlisted in the Armed Forces recently. Among them were: Odie Oliver and Vernon Stephenson, who joined the Marines, and Charlie Fite who enlisted in the Navy.

Scheduled to go to the Navy this week are Kendall Criswell and Thaxton Tidwell.

Pfc. Thomas R. Stephens of Littlefield has been transferred from the Lubbock Army Air Field to the 306th College Training detachment, Coe College, Cedar Rapids, Iowa. He was formerly in the medical detachment at the twin-engine advanced flying school at Lubbock.

Used inner tubes for passenger car or truck tires can now be purchased without a ration certificate. Lamb Exceeds Quota On Both Bank And Non-Bank Bond Sales

A final report on the Second War Loan Drive was received by Pat Boone, Chairman, Wednesday, which indicates that small investors in Lamb County were responsible for over one-half of the amount subscribed in war bonds.

The total of \$235,162 was subscribed in Series E Bonds in Lamb County, with \$16,936 in Series F and G; \$7,000 in 2 1/2 per cent Treasury Bonds; \$94,500 in 2 per cent Treasury Bonds; \$53,000 in 7-8 per cent Treas. C. of I's; \$30,000 Series C Tax Saving Notes; making a total of non-bank sales of \$436,598 for Lamb County. Bank sales totalled \$726,598.

Lamb County, therefore, in non-bank sales exceeded its quota of \$428,100 by \$8,498.

The quota for bank sales was set at \$310,000. Therefore, the banks in Lamb County exceeded their quota by \$416,598.

With Pat Boone at its head, Lamb County had a splendid organization, which left no stone unturned to put the county over the top in bond sales. The Committees worked early and late, putting forth every effort possible, as well as using their own funds and means of transportation, to buy a big share in liberty for Lamb County. Much credit is therefore due these citizens who worked so diligently and patriotically.

Lamb County is especially pleased with its record inasmuch as some of the other counties in this district did not reach their quota.

Local REA System Observes Its Fifth Anniversary

Cooperative Furnishes Electric Service To 989 Consumers Along 442 Mi.

The Lamb County Electric Cooperative, Littlefield, this week enters its fifth year of supplying electric service to farmers and other rural consumers in this area.

Citing the progress of the Cooperative since its lines were first energized on May 10, 1939, Supt. O. K. Woodall recalled that the system had only 351 consumers at the end of its first month of operation. Today the cooperative furnishes electric service to 989 consumers along 442 miles of distribution lines in Lamb, Hockley, Bailey, Hale and Cochran counties.

Farm members of the Cooperative have come to depend more and more on electric equipment to save labor and increase production of such vital foods as milk, eggs, poultry and meats, Mr. Woodall said. The 893 farms served by the Cooperative consumed an average of 61 kilowatt hours in April as compared with 51 KWH a year ago.

The Cooperative encourages its members to make the best possible use of existing electrical equipment and to build home-made devices, Mr. Woodall said. The Cooperative has plans for several home-made appliances such as a chick brooder and fruit and vegetable dehydrator which require few critical materials. Many of the electric devices saving a substantial amount of labor are in the farm home, including water systems, washing machines, ranges, refrigerators and irons.

The War Production Board's liberalized service connection order has made it possible for the Cooperative to supply electricity to many new farms engaged in livestock, dairy and poultry production, according to Mr. Woodall. Service has been extended to four farms under the order so far. Farms eligible for such service are near present lines of the Cooperative. They must meet certain minimum production requirements and use one or more specified electric devices—water pump for livestock, milking machine, milk cooler, incubator, feed grinder. The Cooperative's program got underway on May 18, 1938, when the REA allocated \$161,000 of its first loan to the system. Construction started after a contract had been let on December 20, 1938, for the building of 176 miles of line at a cost of \$108,027. REA has advanced the Cooperative a total of \$293,693 on its construction allotments as of January 31, 1943.

Application Cards for War Ration Book No. 3 Mailed

Application cards for war ration book No. 3, to provide new stamps for those expiring in present rationing books, have been mailed to consumers in the Littlefield area.

The local ration board has asked that applications not be mailed after June 1. By that date the applications, the postoffices will mail channels cleared for fast processing and the Ration Board will mail out the books. All applications must be in the mails by midnight, June 10, and those postmarked later will not be processed after August 1.

Each card is divided into three

parts, as follows:

An identification stub which is to be detached and retained by the applicant; an application on which is to be typewritten or printed, preferably in ink, the name of the head of the family and address to which the books are to be sent; the card on which should be listed the name and age of everyone, including the head of the family, who is to get book No. 3.

One application may be used for all members of a family living under the same roof and eating at the same table, whether or not their surnames are the same. Individuals living alone, or who live with but are not members of a family, or who share living quarters with other individuals must make out separate applications and cannot be included on a family card.

After filling out the card and detaching the identification stub, the applicant will affix postage and mail

the card at any time between June 1 and 10. Should the books fail to arrive, the applicant would need the identification stub later to present to the county war price and rationing board in filling out another application. In filling out the first application, however, the applicant does not go to the board.

At the Ration Board, workers will detach and file the part of the card listing members of the applying family. The application card will be placed in a special envelope containing a window through which the name, address and serial number will be visible. The envelope also will contain the family books. The head of the family thus will have self-addressed the envelope. Mailing of the books is to begin in late June and the job is to be completed by July 21.

The new book contains four pages of "point" stamps, similar to the point stamps in war ration book No. 2, though slightly different in design and printed in brown ink. It also contains four pages of "unit" stamps for the type of rationing now used for sugar, coffee and shoes.

Mrs. H. W. Qualls Returns From Trip To California

Mrs. H. W. Qualls of four miles north and two miles west of Littlefield returned Friday from a month's

With Amherst Men In the Armed Forces

In their broadcast three times weekly, the W. T. Waggoner over the radio from Vernon pay tribute to two local boys in the service.

On May 5 in their "Trails to Glory," they delegated their tribute to Pvt. Herbert Cowan, former resident of Vernon, and son of Mr. and Mrs. S. G. Cowan of 13 1/2 miles northeast of Littlefield, now located somewhere in North Africa, as follows:

"Herbert Cowan, a native of Oklahoma, came to North Texas with his parents at a very early age to go through the public school courses at Amherst, where he graduated from High School with the Senior Class of 1939."

"As a youngster, he thought he had some rather definite ideas about the future and these all led up to his one supreme ambition to be a Rancher. This was not unusual for Herbert had spent much of his childhood in the ranch country and to him, the successful man in life was not some corporation official directing his business from a swanky office in some ivory towered skyscraper but a rugged, weather-beaten, tanned plainsman from the mesquite country! It was such a man that he wanted to be.

"In the High School days in Amherst, most of his major interests had the tang, touch and flavor of the southwest. When he read—he read Western books, stories, serials. When he sang—he invariably hummed western turns or ballads of the range. His favorite motion picture offerings were the two-gun thrillers that have their plots and actions laid in the opening of the West!

"Those were the days when he used to spend endless hours with Bob Dieser and J. R. Farley—two youthful companions who shared his interests and ambitions. Herbert was a frequent visitor in their homes and together, they experienced many of the thrilling events in the field, or at some nearby stream, so close to a boy's heart!

Following graduation from High School, he went to work on his father's farm for a few years. But when the war involved America and the demand for defense workers was made known, Herbert went to the city to work for two years. He didn't think he'd like city life—or work—at first. It was so new and strange to him. Everything had changed — overnight. Punching a time-clock was a new experience; a weekly paycheck had, for the first time, become a reality—and a very thrilling one, by the way! For a time, he forgot the life of the open-space and his dreams, or plans, for the future. He had recently married Miss Jean Hudson of Archer City—and after all, they might remain in the city—when the war ended. One just couldn't tell—for sure!

"On October 29, 1942—at Lubbock—Herbert was inducted into the Army and sent to the reception center at Fort Sill, Okla., for a few days. From there, he was ordered to Camp Campbell, Kentucky—over in the "blue grass" country he'd heard so much about. Coming as he did from the "short grass country" he was hardly prepared for what he saw in the way of agricultural activity. The vegetation and fruits astonished him and he thought for a time that after all, there might be a better place to live than among the mesquites—after all!

"At Camp Campbell, he was assigned to a Regiment in an Armoured Division and trained as a gunner. For five months, he slaved away—getting better and better each week. And then—out of the blue, one day—came orders to "pack up"—and almost before he knew it, he was bound for an east-coast port and a convoy for overseas! He left America some eight weeks ago—and no word has come from him

trip to California.

She had visited her son and daughter-in-law, Mr. and Mrs. Carl Qualls at Bell, Calif., and her daughter and son-in-law, Mr. and Mrs. Louis Farr, at Osnard, Calif. Mr. Farr is employed at the Naval Shipyards.

Mr. Qualls accompanied his wife to California, but remained at Bell to work in defense project.

since. But those who know him best realize that before very long, he'll be knocking German tanks right and left—while blazing a Trail to Glory!

Herbert Cowan—Private, United States Army—member of the American Expeditionary Force to North Africa—in this solemn moment in the world's life—fraught with a sense of finality—we pause to praise the power and human efforts that have made and preserved us as a nation. As the sands of this year of increasing peril, toil and pain run slowly out, may we all with sobered hearts—help write the final word in an epic chapter of our world's history! Frail human hands have carried the precious ark of our heritage through the encircling gloom of the present war-days; yet we dare believe that a powerful hand has been guiding and guarding us all!

"We have set up our banners—we march on toward stern and bitter days—but we march with the assurance that if we don't fight to make men Holy, we at least fight to make them Free! To this end, may we all have courage, wisdom and power and the sense of our unparalleled responsibility to humankind!

"Sir—may yours be the power and glory—as a Soldier of the United Nations!"

Mrs. Jim Pugh left Friday for a visit with her son and daughter in California.

Vern Jennings left Tuesday of last week for Los Angeles, Calif., where he will be employed in war work.

Mr. and Mrs. Charlie Thomas, Mrs. Henry Brown and Mrs. M. G. Berry were in Lubbock Wednesday of last week.

Dinner-Bridge At Hotel Enjoyed Wednesday Night

Beautiful roses decorated the spacious dining room. After the dinner several games of bridge were enjoyed, and Mrs. W. F. Birdsong and Lester LaGrange placed high in the games.

Those attending were Mr. and Mrs. Don Boyles, Mr. and Mrs. Frank Rogers, Mr. and Mrs. Lester LaGrange, Dr. and Mrs. W. F. Birdsong, Dr. and Mrs. B. O. McDaniel, Mr. and Mrs. L. Y. Nix, Mr. and Mrs. Allan White, Mr. and Mrs. C. A. Duffy, Mr. and Mrs. E. E. Stagner, and Mrs. Elan Gage, Mrs. Earl McDaniel, and Miss Beatrice McCurdy, and Lieut. and Mrs. R. H. Dadd of Shreveport, La., and the host, Mr. Duffy.

Misses Noreen Frazier and the Varen were in Lubbock Tuesday.

Rev. and Mrs. J. L. Carpe and two daughters of Clint, Tex., visited his parents, Mr. and Mrs. C. Carpenter, and her parents, and Mrs. L. D. Criswell, last week. The two children remained in Amherst with their grandparents, Rev. and Mrs. Carpenter Wednesday, and Mrs. C. They plan to turn this week.

MEMORIAL DAY

IN HONOR OF OUR SOLDIER DEAD—

Today we should remember the ideals and aspirations of our great heroes, and vow to consecrate the freedom and unity of a greater America! Let us honor them—remember their teachings.

Let us keep faith with those who have given their last full measure of devotion for the cause of freedom. Let us highly resolve to preserve America as a land where our children—regardless of race, color or creed—can be assured of "Life, Liberty and The Pursuit of Happiness."

America is looking to each one of us, particularly in this world of War and destruction. Let us go forward for America... for those who have gone before us... our sons, brothers, husbands and sweethearts who have so willingly died for those true and fundamental American ideals and dreams which have given to us a beautiful America... an America that we hold so dear.

THE DEEDS OF OUR FALLEN HEROES WILL LIVE LONG IN THE HEARTS OF AMERICANS! THIS DAY WE HONOR THE MEN WHO FOUGHT NOBLY, AND DIED NOBLY!

"For these are the lasting, truthful things"

This is an American soldier.

He goes to war . . . not with any fanatical theories of race superiority, of any special "place in the sun," nor any desire to rule the world by fire and by sword. He fights for something greater. For decency—for his loved ones—for his Country, not as some warlike symbol, but as the one great refuge in this world where the humble, the meek, and the righteous may live and work in peace.

This is why he must win. . . . For these are the lasting, truthful things. They are not temporary drugs for the mind, but steadfast things of the heart and soul. And when the flame of fanaticism flickers and goes out, the fires of American decency and honor will still burn.

It is this same sense of decency and honor that has bound us all together. We know we cannot all fight. But there is something we can do—and are doing—to help. We can provide the guns, the planes, the tanks, and the ships to put might behind the right.

By the tens of millions, Americans are saving for Victory . . . buying War Bonds. And—because this is the free American way—our money is working double. First it goes in a mighty flow for the instruments of Victory, then—ten years later—it comes back to us, four dollars for every three we've put into War Bonds—\$25 for every \$18.75.

Now look at the picture again. Then imagine that this soldier were your brother, your son, or your sweetheart.

Would investing more money in War Bond savings be too much to help him win—and live?

You've Done Your Bit - Now Do Your Best!

5 Reasons Why

1. By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.
2. You prove that you are a patriotic American.
3. You aid the morale of our fighting men, by showing them that the entire Nation is behind them.
4. You prove to our enemies that we are a United People.
5. You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's *safest* investment, by buying a share in the world's most powerful country.
