Complete Lumber Quality

If you're a prospective home owner, you have a right to know the kind of lumber which goes into your home. Make certain that the structural framework is built with quality lumber that stands out. Satisfy yourself on these points:

Is it DRY?

Is it properly seasoned so that it will not warp after it is put into place?

Is it STRONG?

Is it of a good, nail-holding strength that will hold joints together permanently and rigidly?

Is it GRADE MARKED?

Is it of an approved grade for the use which it is being put to?

LIKE "STERILIZED" STAMPED ON SILVER THE SPIB GRADemark STAMPEd LUMBER IS ASSURANCE OF QUESTIONED QUALITY

Each responsible lumber listed below assures you that his mill number has been stamped on the lumber, it means that the lumber is skillfully manufactured, properly graded and inspected long, satisfactory accounts.

Street Takes Jury Session Set

Attorney Willard G. Tuesday was elected to as special judge of the district Court in Lamb County by practicing attorneys. He took the oath of office for 1958 term, which opened at 10 o'clock at the Court House. The new judge will be in time for him to preside at a meeting of the grand jury which is scheduled here for Friday. Six criminal cases are to go before the jury on Friday. Five petit jurors will be sworn in on August 11, when trials in those cases will get underway. The judge named last week was the special judge post for the year ending in the January term. Judge E. A. Bills, who has presided since a heart attack last month, also has been named judge in other counties of the district—Bailey and Farmer. The law provides that a special judge be elected when the regular judge is temporarily indisposed. He will serve the remainder of the term, or until Judge Bills is able to resume his duties. The judge has practiced law for 10 years.

Election Interest High As Absentee Vote Starts

Beauty Contest Set AT Olton

OLTON—Olton folks are hoping it won't rain Friday night. They'd like to get on with the town's first bathing beauty contest, previously scheduled last Friday night at the new Olton Recreation Center swimming pool. A downpour canceled out the first effort to hold the contest. More than 250 people already had purchased tickets, and hundreds of other persons were on their way to the event when rain drove them back home. Foks who bought tickets last Friday night won't have to pay again when the show is held this Friday night at the same time, same place. More than 60 beauties, including 39 little girls in the "Little Miss ORC" contest, are expected to take part in the event. A trophy will be awarded the winner of the big girls' contest. Prizes will be given the two runners up. Trophies will go to the three top contestants in the "Little Miss ORC" contest. Judges for the contest will be Wendell Dooley, associate publisher and advertising manager of the County Wide News and Lamb County Leader; Tom Rambo, publisher of the Hale Center American, and Mrs. Rambo.

A Reporter Roves Littlefield Warm Toward Chilly Alaska As 49th

Littlefield residents apparently are warm to chilly Alaska's entry as the 49th state, despite the fact that Alaska will force "Texas Brags" to be rewritten. One man, George Lightsey, sort of sums up the feeling here with this to-the-point answer: "I'm for it." A Texas "friendship flight" to Alaska planned by the Kerrville Chamber of Commerce to remove any doubt about how Texas feels about the 49th state also draws approval when local residents are questioned. But a third question in a poll taken here this week gets a definite "no." Foks here think it's "ridiculous" for the Big Bend country to talk of forming a new state out of three vast counties in that area. Under the Kerrville "friendship flight" plan, each county in Texas would send a representative gift—like wool from San Angelo, honey from Waxahatchie, citrus from McAllen and cowboy boots from Fort Worth. What would Lamb County send? Several folks think it should have something to do with cotton, but a few have some other ideas on that subject. Bob Armstrong figures it ought to be a cotton plant. Ronnie Onstead thinks a "miniature cotton bale" would do the trick. Alaskans probably would rather have the regular-size bale, though. Henry Banks believes the gift ought to represent another Lamb County industry, so he suggests a crate of eggs. Mrs. T. A. Hilburn has a novel idea: "Send them a sack of onions in a cotton sack." Dan Staggs figures the gift from Lamb County ought to be a bale of cotton or some feed. And Glenn Reeves also goes along with the cotton idea. He figures a display of cotton from the seed through the garment would be nice. But Dick Salmon tackled the question from another angle: "Send them one of our dust storms." The main questions in the poll were "What do you think about Alaska becoming the 49th state?" and "What do you think about the Big Bend country talk of becoming a separate state?" Here are the answers, as recorded by News and Leader Staffer Karen Willms:

Two Races In County Spotlight

Absentee voting got under way with an early flourish here this week, indicating high voter interest in this year's elections. Twenty-five persons had cast absentee ballots through the first two days of voting, County Clerk Charles Jones said. Jones said the first two days of voting went at a faster-than-average pace. About 240 absentee votes were cast in the 1956 first primary, compared with about 160 in the 1954 first primary. Absentee balloting will continue through July 22. Eligible voters in Lamb County number more than 4300 this year, with Precinct 12 in Littlefield the largest with approximately 1,500. Precinct 12 led the early count of absentee ballots here Wednesday morning with 20 ballots cast. The other five ballots had come from precinct 1 in Olton, two, and precinct 2, Earth; precinct 15, Springlake and precinct 16, North Littlefield, one each. Interest in the election in Lamb County apparently had been spurred by a pair of contests. Holding the spotlight are the races between County Judge Pat Boone Jr. and his opponent, Paul Lewis, Littlefield area farmer, and County Treasurer Mrs. Bill Pass and her three opponents, A. S. (Pete) Parrack of Littlefield, Mrs. Lucy Moreland of Amherst and L. D. Stanaford of Littlefield. Here is the ballot: For Governor: Henry B. Gonzalez of Bexar Co.; Price Daniel of Liberty County; Joe A. Irwin of Dallas County; W. Lee O'Daniel of Dallas County. For Lieutenant Governor: George Nokes of McLennan Co.; Ben Ramsey of San Augustine Co. For Attorney General: Will Wilson of Dallas County. For United States Senator: William A. Blakley of Dallas County; Ralph W. Yarborough of Travis Co. For Associate Justice of Supreme Court, Place No. 1: Wilmer B. Hunt of Harris County; Robert W. Hamilton of Midland County; J. Edwin Smith of Harris County. For Associate Justice of Supreme Court, Place No. 2: Frank P. Culver of Tarrant County. For Associate Justice of Supreme Court, Place No. 3: Ruel C. Walker of Johnson County. For Associate Justice of Supreme Court, Place No. 4 (Unexpired Term): Sarah T. Hughes of Dallas County; Joe Greenhill of Travis County. For Judge, Court of Criminal Appeals: Kenneth K. Woodley of Travis County. For Railroad Commissioner: Olin Culberson of Travis County. For Comptroller of Public Accounts: Robert S. Calvert of Travis County. For State Treasurer: Jesse Jones of Travis County. For Commissioner of General Land Office: Bill Alcorn of Brown County; L. J. (Lil) Dimmitt of (Continued on Page 4)

Wheat Loan Rate Gets Four-Cent Boost To \$1.83

Lamb County wheat farmers got good news Monday when ASC Office Manager Lamar Aten announced that the price support rate for the 1958 wheat crop has been raised four cents to \$1.83 per bushel. Preliminary support rate for the 1958 crop in the county had been set at \$1.79. Farmers who have already put their wheat in the loan at the \$1.79 rate will be included under the rate increase, Aten said. The additional money will be paid to them at maturity time (March 31, 1959) or possibly earlier, Aten added. Support will be carried out through loans and purchase agreements, which will be available through Jan. 31, 1959. The loans will mature Mar. 31, 1959. They are non-recourse loans which may be satisfactory by delivery of the wheat to the Commodity Credit Corporation. Texas petroleum industry employees number about 226,000 persons; total wages estimated \$1.2 billion.

OPTOMETRY: The Art and Science of Visual Care

Sun glasses - GOOD or BAD?

Many people ask optometrists every day "is it all right if I wear sunglasses?" The answer isn't exactly simple. Certain conditions of vision require sun lenses while others definitely do not.

Light-sensitive vision (photophobia) often is a sign of infections in or near the eyes or in other parts of the body. Sun lenses are used in these cases, the real trouble might merely be covered up and the cause not discovered.

Sun glare problems should be carried to your optometrist. Only by a thorough visual examination can he answer the question: "Are Sun Glasses Good or Bad for Me?"

THIS MESSAGE PRESENTED IN THE INTEREST OF BETTER VISION BY SOUTH PLAINS OPTOMETRIC SOCIETY

Bridal Courtesies Honors Miss Emma Ruth Carter

Miss Emma Ruth Carter, bride-elect of Hall T. Martin, was the honoree at a bridal shower Saturday afternoon in the home of Mrs. Doss Maner Sr.

Guests were greeted by the honoree, her mother, Mrs. Percy Carter and Mrs. Maner.

Mrs. Roy Allen Matson and Mrs. Earnest Goertz registered the 160 guests calling during the afternoon in the bride's book.

The party rooms were decorated with fresh garden flowers. Highlight of the room decorations was the floral arrangement of yellow dahlias with white satin ribbons bearing the names of the honoree and the groom-elect and flanked by the couple's pictures, placed on the buffet.

The serving table was laid with a yellow satin floor-length cloth, covered in yellow nylon marquisette and draped in white net with aquets of forget-me-nots accentuated in the draped lines. A miniature bride doll, dressed in a dress fashioned after the honoree's wedding gown, and a white lace umbrella filled with miniature packages, flanked with yellow carnations and showers of white stephanotis and yellow bows, centered the table.

The bride doll's dress was fashioned by Mrs. Maner and Mrs. Carter.

White cake squares, mints, nuts and fruit punch were served. The punch bowl was underlaid with yellow net ruffles. Crystal and silver appointments completed the table arrangement.

Miss Kay Maner served the cake squares and Miss Donna Sue Goertz, and Mrs. Johnnie Terry presided at the punch bowl.

The hostesses presented the honoree with an electric mixer and juicer.

Hostesses were Mmes. W. D. Terry, J. T. Graham, Ed Blackwell, Earnest Goertz, Don Erwin, Floyd Brown, O. L. Balsden, Hershel Barker, Verlie Throckmorton, Cecil Gipson, Bill Lightsey, Alpha McCarty, Burl Rodgers and Doss Maner Jr.

News From Amherst

Reno Rochelle of the Rocky Ford community celebrated his birthday Sunday when his mother, Mrs. Stella Rochelle and his brother, Leo, had a family dinner for the occasion.

Fourteen attended, including the honoree and wife, their daughter, Mrs. Cecil Motl, Mr. Motl and children of Anton, Mrs. Alta Rochelle and Ray of Littlefield and the hosts.

A fellowship hour followed Baptist Church service Sunday night for young people in the parsonage.

A sing-song was enjoyed and Rev. and Mrs. Rankin served refreshments to 19 attending.

Guests of Mr. and Mrs. Ernest Black during the weekend were Mr. and Mrs. Billie Glenn Peoples of Denver, Colo., Mrs. Katherine Kendrick and daughter, Earlene and granddaughter, Christy Low, of Amarillo.

Mrs. Otis Holliday and daughters of White Deer were guests of her brother, Gene Campbell, and family. They visited her parents, Rev. and Mrs. R. H. Campbell at Anton, also.

Recent guests of Mr. and Mrs. Homer Campbell and Dooley Brown were Mr. and Mrs. Gaston Brown of Los Alamos, N.M., Mr. and Mrs. R. L. Brown of Albuquerque, N.M., and Mr. and Mrs. Hiram Crabb of Amarillo.

Martha Christine Rankin from Wayland College, Plainview, and James Rankin from Hardin-Simmons University, Abilene, were home for the holiday weekend with their parents, Rev. and Mrs. John Rankin.

His sister, Miss Mary Rankin, of Lorenzo and Mrs. Lula Mae Faris, of Lubbock, were here Sunday.

A birthday dinner was served to observe Martha Christine's birthday, which was July 9.

Mrs. Stella Rochelle accompanied her son, Winton, and grandson, Gary, home to Odessa recently for a visit.

Mr. and Mrs. Merle Terry of Waterloo, Iowa, were weekend guests of her uncle, Lester La Grange, and family. They were en route to Roswell, N.M. for a vacation with their son, who is stationed at Walker Air Force Base.

Mr. and Mrs. S. E. Ellis of Lubbock visited their daughter, Mrs. Eddie Mack Faust, and family during the weekend.

Mr. and Mrs. Dale Edwards and children attended the Ison family reunion in Littlefield Sunday.

Guests in the home of her grandparents, Mr. and Mrs. T. G. Thomason, during the weekend were their granddaughter, Mrs. Gale Barber, and Carrie Luan Barber of Littlefield.

Mrs. Stella Rochelle and son, Lee, attended a family reunion of the Moores, Jones and Rochelle families held June 29 at Spring Lake Park, in Texarkana, Tex.

Three hundred attended. An interesting feature of the reunion was each branch of the families was allowed two minutes for a brief history of his family.

Mr. and Mrs. Owen Roberson of Stinnett are visiting his parents, Mr. and Mrs. H. H. Roberson and other relatives.

Those attending the Fourth of July meeting at the Baptist Camp, Blanco Canyon, near Floydada, were Rev. and Mrs. John Rankin and Martha; Glenda Fowler; Dora Faye Roberson; Mr. and Mrs. U. E. Thompson; Mr. and Mrs. U. E. Thompson; and Mrs. Mary Campbell. The first group attending the

Resolution Notes Wayland's Growth In Past Five Years

PLAINVIEW—Surprise presentation of a commendatory resolution marking Dr. A. Hope Owen's first five years as president of Wayland Baptist College was made July 2 in chapel by Robert L. Davis, Poplar, Mont., president of Student Government Association.

The resolution noted Wayland's growth in plant and equipment, endowment, student loan funds and in accreditation. The student body pledged its support to President Owen as he enters a new period of leadership.

Already trustees and administrative officers are making surveys, planning for a Design for a Decade to be launched in 1959. Wayland's Golden Anniversary year, to replace the "Five Year Program of Progress" set up in Dr. Owen's first year as president.

Nearly \$1 million has been spent in the last five years in the erection of Van Howling Memorial Library, three residence halls, married student and faculty housing, and modernization of historic Administration Building. In addition, \$127,344 has been added to the endowment fund and \$30,000 to the student loan funds.

The increase in budget from \$536,965 in 1953-54 to \$676,500 in 1958-59 is largely accounted for in increases in salaries for faculty, in modernized science laboratories and in the addition of some 7000 volumes to the library.

In the same period Wayland, a senior college offering the B. A. and B. S. degrees, has been accredited by Southern Association of Colleges and the Association of Texas Colleges.

In the past session and this summer approximately \$10,000 has been spent on campus beautification and paving and \$32,000 on modernization of McDonald Hall, residence for young men.

During the past two years Wayland's curriculum has been revised with pre-professional course offerings strengthened, an American Studies Program inaugurated, and education courses arranged for continued full approval by Texas Education Agency for certification.

THIS WEEK In Washington

WITH CLINTON DAVIDSON

There is something hidden and far more sinister back of the Sherman Adams vicuna coat sensation than has been put, or is likely to be put, on public display.

Compared with the multi-million dollar a year racket engaged in by several hundred professional influence peddlers, the vicuna coat and other gratuities bestowed on Adams by Boston industrialist Bernard Goldfine are strictly peanuts.

Goldfine undoubtedly was following what he believed to be a normal practice of getting what he wanted in Washington. Adams was accommodating a long-time, generous friend. Both were, to say the least, indiscreet.

The number of people who make a fat living as Washington "representatives" is not known, but a generally accepted estimate is between 5,000 and 6,000. That does not include the 500 or more associations and organizations maintaining legitimate representatives of their interests.

Many Are Phonies The influence peddlers operate behind the scenes, and they have lavish expense accounts. They claim to "know the right people," or to be able to get legislation passed through devious methods. Many of them are 100 per cent phonies.

As an example, a few years ago we knew a lawyer who had nothing to do with getting a new tax formula adopted, but who looked over his list of clients the new formula would help and billed them for up to \$45,000 each. He collected.

In more than 20 years of close association with congressmen and administrative officials we have known only a handful of government officials who would yield to influence. The vast majority resist efforts to influence their actions.

Congress Should Investigate

Congress has spent millions of dollars investigating all kinds of business and labor racketeering. Numerous committees have held extensive hearings, both in Washington and across the country. Some of their findings have made headlines.

But some of the worst racketeering in the country goes on right under the noses of congressmen. Many of the influence peddlers are known to the congressmen, although not favorably.

These racketeers operate within the law, or at least within the shadow of it. Quite a few former congressmen have become Washington representatives who legitimately sell their intimate knowledge of how Congress operates.

The practice of selling influence is far more widespread than the relatively innocent giving of gratuities. Most of the latter are simply an expression of appreciation for honest performance of duty by a government official.

There is need for some code of ethics, however, which public officials can follow as a guide in accepting entertainment and gifts from those with whom they deal in the performance of their duties.

Charter Group To Divide Into Five Committees

Littlefield's Charter Commission will divide itself into five committees to begin tackling details in the new charter, Chairman Vernon Hofack said this week.

The committees and their chairmen are (1) powers of the city, Mancil Hall; (2) organizational provisions of the charter, Marshall Howard; (3) procedures, Kenneth Rast; (4) administrative practices, Bob Manly and (5) public controls, Hofack.

The commission decided at its last regular meeting to draw up the charter under the council-manager form of government. It also plans a five-man council, including the mayor.

Members of the various committees will be named at the commission's next meeting, set for July 21.

said: The healthful effects of a suntan aren't worth the time and trouble it takes to get one. After all, a suntan—like any other burn is a manifestation of a skin injury.

True, a sensible bask in the sun makes a fine mental pick-me-up, and there is no denying the supple appeal of a tawny lifeguard. But to overdo it can lead to trouble. In fact it can kill you. More than one person has succumbed to prolonged and unaccustomed exposure to the sun.

Even at best, overexposure can mean two or three miserable days when a mere shirt or blouse is torture, and a friendly pat on the back can end in murder.

The medical term for sunburn is "erythema solaris." It's the ultraviolet light in sun rays which does the damage. And since clouds don't remove all ultra-violet rays, it is possible to get burned even on overcast days in mid-summer.

Some people are physically unable to tan. Known medically as "heliophobes," they could spend the entire summer on Padre Island, and all they'd get would be blisters on their blisters. The reason: Their skins lack the pigment necessary to produce the tan tint. They never had a tan and they never will, so they ought never attempt one. Each new exposure will only mean a new burn.

Assuming you are the type who can tan—a "heliophilic"—that is—the well-known rule about doing it by progressively longer exposure times is valid and should be followed.

Sunshine is a source of vitamin D, as most people know. What is apparently misunderstood is that ordinarily healthy people can get all the D vitamin they need through routine activities such as hanging out the family wash, mowing the lawn, or walking to the store.

For persons suffering from pellagra, lung tuberculosis, high blood pressure, or hyperthyroidism sunlight may be definitely harmful.

In case you have wondered about the source of freckles, here is the answer: The color of everyone's skin is determined by the amount of pigment in skin cells. Dark-complexioned people have considerable, blondes very little, and albinos none at all. Under a microscope the pigment in skin cells looks like tiny flecks of brown paint. Sometimes, especially in children, it is manufactured unevenly and collects in the spots we know as freckles.

Ultra-violet rays can be filtered, fortunately, by smearing a thin film of olive oil over exposed skin. So if you're a heliophilic, and if you just have to have that golden sheen this summer, it might pay you to try it.

There was the man who was interested in his wife's happiness. He even hired a private detective to check into the reasons for it.

UNCLE LUKE IS A SKEPTIC

To be truthful about it, Uncle Luke is plumb "ornery" about a lot of things. He rants at the blasted "airy planes" that scare his chickens... he fusses about the way women dress nowadays... he's never been to a picture show... and one of his pet hates is those "ix" squaw boxes" somebody around the house is always turning on while he's trying to read his newspaper. Oh yes! Uncle Luke likes his newspaper... dots on it, in fact. See it's the only way a feller could tell what's really going on in this crazy world nowadays.

Rotary, Foust Move Up Top With Big Victories

LANDED Keith Klisner, Jaycee fielder, is shown swinging and missing a pitch offered by Foust during the Jaycee's Monday night game with first-half champs WOW. WOW four-game losing streak by edging the Jaycees, 3-0. WOW catcher is Joe Blessing. Ummie Chapman.

Rotary Racks Lions 9-2, Takes Lead

Larry Wood and Don Stephens combined to hurl a five-hitter at Lions Club, and Rotary went on to defeat the Lions 9-2 at Little League Park Tuesday night.

Rotarians scored 1 run in each of the first four innings, then used a big 5-run fifth inning to pull ahead for sure.

Wilmer Williams crossed the plate for Rotary in the first inning when he reached base on an error, then scored from second on a throwing error by Lion catcher Marvin Weaver. Rotary put 3 singles back-to-back by Floyd Salinas, Larry Schovasa and Lonnie Stafford to score a run in the second inning. Ricky Phillips, Rotary's first sacker, singled then scored on Don Stephens' long triple for Rotary's lone counter in the third.

Lions scored 1 run off Wood in the third inning when J. R. Harrell doubled, advanced on an infield out and stole home. They scored another run off Stephens in the top of the sixth inning when Willie Johnson reached base on an error and scored on Bobby Owens' single.

Rotary bounced 6 hits off Lions starter Johnson in the fifth inning alone, and they scored 5 runs when Stephens, Wood, Gibson, Schovasa and Stafford all crossed the plate in Rotary's big inning.

It was not necessary for Rotary to bat in the sixth inning. Lions 0 0 1 0 0 1-2 5 3

Stars Cop Consolation Title At Lubbock Meet

Littlefield's PONY League ALL-STARs under the management of Charley Duval, and blessed with air-tight pitching from Ronnie Rice and A. M. McGowan, ripped the Elks Club Elks 8-1. The ALL-STARs jumped to a 4-0 lead in the first two innings before Rice allowed the Elks to score their run. Littlefield added 4 more runs in the sixth inning to really put the game on ice.

Rice pitched a solid 2-hitter in the Saturday morning game when the Littlefield ALL-STARs beat the Elks Club Elks 8-1. The ALL-STARs jumped to a 4-0 lead in the first two innings before Rice allowed the Elks to score their run. Littlefield added 4 more runs in the sixth inning to really put the game on ice.

Sandy Sanders and Ronnie Schroeder shared catching duties. Roy Gene Edwards, Pete Estrada, Robert Moore and McGowan were Littlefield's leading hitters. A. M. McGowan slowed the Holsum Stars in the Consolation games, and drove in Littlefield's only run in the bottom of the seventh and last inning to lead Littlefield to a 1-0 victory over the Hol-

Manos Led Foust Trims VFW 11-10

Leonard Manos pitched Foust to their fourth straight victory at Foust downed VFW 11-10 in a thriller at Little League Park Tuesday.

Foust scored 3 runs in each of the first and second innings as Ed Moore, Billy Howell and Mike Greer all arrived twice in the innings.

Charley Sanders walked and scored a run for VFW in the first inning. VFW narrowed the score to 6-4 by adding 3 runs in the top of the third inning, when Mike Pope, Lyndell Stansell and Eddie Wheeler tallied for VFW.

In the top of the fifth inning VFW tied the score 6-6 when Dwight Favor and Carol Simmons reached base on doubles and came home.

Moore, Howell, Greer and Manos all scored again in the fifth inning as Foust moved ahead 10-6. All runs scored after 2 men were out in the inning.

VFW fought back in a necessary do-or-die effort to tie the score in the top of the sixth. Stansell, Sanders, Pope and Wheeler, who tripled with the bases loaded, swarmed in for the catch-up and tying runs.

The bottom of the six inning saw Foust win the game. Jerry Graham led off with a walk before the VFW suffered a serious fielding lapse. Three straight errors in the field one by the third baseman, one by the pitcher, and one by the first baseman, led to Foust's run.

The victory assures Foust of at least a first place tie and puts them in excellent title position. VFW 1 0 3 0 2 4-10 9 5

Ronnie Rice Hurls, Bats Roden Past Earth 2-1

Ronnie Rice led Roden Drug into possible title contention by pitching a one-hitter and also rapping a home run to aid his own cause as Roden downed Earth 2-1 in a thriller at Earth Tuesday night.

Earth jumped to a 1-0 lead in the first inning when Jones singled, advanced on a free pass given to A. M. McGowan, and stole third and home. That was the only hit off Rice in the ball game. Rice tied the game himself in the top of the second inning when he blasted a long line-drive home run into right-center field of Earth pitcher McGowan.

The game rocked along from the second inning until the fifth with out another run crossing the plate. In the top of the fifth inning Grover Pigrun walked and stole second base. Joe Medina stepped and slammed the game winning blow, a long single off McGowan. Medina was trapped trying to stretch the single into a double, but the damage had been done—the score was 2-1.

Roden threatened in the seventh inning when Rice tripled, but McGowan turned on the steam and retired the side.

Butane Tips Batson 4-0 Behind Cox

Jerry Cox, neat little Butane pitcher, hurled a two-hitter to lead Littlefield Butane by Batson Motor 4-0 at Little League Park Monday night. The victory virtually eliminated Batson from Major League race contention.

Littlefield Butane scored a run in the second inning when Randy Hutson reached base on an error and worked around to score by stealing second and third, and came in on Sammy Pair's single.

Wayne Collins, Butane fielder, added another tally in the home half of the third inning. Collins doubled, advanced on an infield hit, and scored on Jerry Pack's hit.

Singles by Richard Funk, Pack, and Hutson and a flock of stolen bases led to Butane's final runs in the fifth inning. Funk and Pack scored in the frame.

Cox pitched air-tight baseball all the way. Batson threatened only in the second inning when James Jennings singled and stole second. Charles Pickrell got Batson's other hit in the sixth inning when he singled.

The victory, Butane's third in the second half of Major League play puts them in excellent position for the second half title. Batson 0 0 0 0 0 0-0 2 3

WOW Returns To Fight, Upends Jaycees, 3-0

WOW showed the spark that won them the first half title Monday night when they broke a four game losing streak and cut the Jaycees 3-0 at Little League Park. Junior Hodge, who just Monday returned from an East Texas vacation, not only pitched a near perfect one-hitter, but he showed some very fancy base running in the fifth inning when he stretched a double into a home run.

Hodge and Willie Connelly, the Jaycee's starter, both bore down to hurl a screeless ball in the first three innings. Hodge allowed only a walk to Jimmy Palmer during these innings. Connelly walked two batters, Royce Bussey and Tim Chambers.

In the top of the fourth inning WOW struck to score two runs. Bussey walked again, but this time Ray McKinney followed up by blasting a Connelly pitch far over the scoreboard in center field to score Bussey and himself.

Charlie Robison connected for the Jaycee's only hit in the bottom of the fourth inning. Robison's single came with two out in the inning and Hodge retired the next batter before Robison could advance past second.

Hodge accounted for WOW's last run in the fifth when he slammed a ball against the fence. Instead of stopping at second, Hodge just kept on steaming around the bases. The second baseman's relay throw to the third baseman went wild and Hodge just kept running.

Hodge retired the Jaycees in order in the fifth and sixth. WOW 0 0 0 2 1 0-3 6 0

Survey Shows How Insulation Lowers Costs

Proof that thick insulation sharply reduces the cost of heating and air conditioning homes in all sections of the country has been announced in the results of a new engineering survey published in the current issue of Today's Home magazine.

Research engineers covered 137 cities in all climate zones of the country, basing their calculations on a 1,040-square-foot sample house, figuring costs of heating and cooling without insulation, and with 4 inches of mineral wool in the ceiling and 2 inches in walls. More recent recommendations call for at least 6 inches in ceilings and 3 inches in walls.

Results were startling. The study showed that in virtually every city thick mineral wool saved at least \$100—twice that in some—in the combined costs of heating and air conditioning. Here are examples in three climate "zones":

Kansas City, central. Total annual heating-cooling costs without insulation — \$316.18. Total cost with mineral wool—\$14.25. Total saving per year—\$301.93.

Minneapolis, north. Cost without insulation — \$303.90. With mineral wool—\$116.24. Total saving on heating and cooling per year—\$187.66.

New Orleans, south. Heating-cooling without insulation—\$254.48. With mineral wool—\$120.50. Total saving—\$133.98.

Today's Home has detailed cost breakdowns for heating and cooling in each city, comparing costs with and without insulation.

Sudan Area Man Jailed After Whipping Child

A Sudan area man was jailed here Tuesday on an aggravated assault charge after his wife complained that he severely bruised their four-year-old daughter when he gave her a whipping.

A doctor examining the child found bruises on the child's back. County Attorney Curtis Wilkinson said.

The mother charged the bruises were the result of a whipping the father gave the child Sunday with a belt. The child was not hospitalized.

The charge against the father, a Sudan area farm hand, was filed in justice of the peace court.

West Texas Music Camp Has Places Left For Bandmen

CANYON—Places for about 100 woodwind instruments, and Dr. Ted Crager of Lubbock, slated to become new music department head at WT this fall, will give brass instruction. Miss Matilda Gaume and Royal Brantley, two West Texas State faculty members, will teach piano and voice, respectively.

Each band member will spend an hour daily in an instrument class, learning the fundamentals of playing—such things as tone concept, embouchure, intonation, blend, tonguing, fingering. Additional time will be spent in sectional and full-band rehearsals.

Besides private lessons, students will spend time in choral rehearsals, in ensemble work and in other classes such as fundamentals of drill, conducting, theory, and "music for fun". Following a 7:30 a.m. to 5 p.m. schedule, students will be treated to an outstanding recreational program, including dances, picnics, swimming, trips to Palo Duro Canyon, and planned programs each night.

A number of courses in marching band techniques, music and worship, and the concert band are open to band directors and music teachers during the camp. Two seminars in woodwinds and brass are also open.

Cotton Council Backs New Farm Legislation

S. Tenn. — The cotton desperate fight for cotton legislation took a Saturday when the National Cotton Council threw its support behind a bill recently introduced in the Senate Agriculture Committee.

President Harry S. Baker said that the bill (S. 4071) is the cotton's best hope for that will take effect in the next few days.

While agreeing that the bill is not perfect, Mr. Baker emphasized that it will move the industry toward expanded production and consumption of U.S. cotton. He said the bill provides for reasonable farm income; enough acreage to produce adequate supplies of all qualities of U.S. cotton; and for moving as rapidly as possible toward a competitive price, and a one-price system, for U.S. cotton.

The bill provides that during 1959 and 1960, which are considered years of transition toward a long-range cotton program, the individual farmer would be able to choose between two combinations of price support and acreage allotment. Under Choice "A", he could choose the price support level and acreage allotment as it would be computed under existing formulas. Choice "B" would give him 40 per cent more acreage, coupled with a price support lowered by 15 percentage points of parity.

The government would support prices under Choice "A" through a purchase program. No government-owned cotton could be resold at less than 110 per cent of the price support level under Choice "B".

Should it become law, the Senate Agriculture Committee bill would establish 16 million acres as the minimum national acreage allotment, compared with the prospect of only about 14 million acres if the present law remains unchanged. Although 16 million acres would be the minimum acreage allotment, the total cotton acreage could be increased substantially above this if a large number of farmers took advantage of their option under Choice "B".

The bill, in addition, sets up a reserve of 310,000 acres to ensure that no farmer with 10 acres or less in cotton this year will have his future allotment reduced below its present level.

Beginning with the 1961 crop, price support for all farmers would be 90 per cent of the average market price for the preceding three years, but not less than 30 cents per pound for Middling one-inch cotton. Minimum government sales price in 1961 and thereafter would be 115 per cent of the current support level.

The national acreage allotment would be based on estimated dis-

WTSC Students In Final Week Of Summer Term

CANYON—After a long July 4th week end, students of West Texas State College returned to the campus Monday to begin the first week of the first term of summer school, and final examinations are scheduled July 11.

Registration for the second term will be held July 15, and class instruction starts July 16. Slated during the second term are two week-end tours to Central City, Colo., the sixth annual West Texas Music Camp, and a Reading Conference sponsored jointly by the WT education department and the Texas Association for the Improvement of Reading.

First week-end tour will be for the Red Rocks Music Festival in Denver and performances of operas at Central City on July 18-20. The second tour, for drama, will be Aug. 9-11.

The annual West Texas Music Camp will be held Aug. 3-15, and will attract some 300 area high school musicians to the campus. The Reading Conference, July 29-31, usually draws more than 400 teachers and other school people to sessions conducted by outstanding reading consultants.

If Seekers Were Discouraged

Oil and gas wells ultimately wear out, become worthless and must be replaced. The search for new productive wells is an extremely expensive and risky enterprise. Only about one of nine wildcat wells drilled finds oil.

These facts are reflected in our tax laws, in what is known as the depletion allowance. The allowance is a credit against income taxes, and it is allowed producers only—not refiners or other segments of the industry.

The allowance has long stood at 2 1/2 per cent. Every so often efforts are made to reduce it. That has happened at this session of Congress, in the form of a proposed amendment to the law setting the rate at 15 per cent.

Then a significant event occurred. The Treasury Department made a report to Senator Byrd of the Senate Finance Committee opposing the amendment. It said: "percentage depletion is a subject that must be appraised not only in the light of national policy affecting the development and preservation of natural resources. In view of the far-reaching implications of depletion allowances, any change should be considered only after full consideration of all its possible consequences. Accordingly, the Department believes that an examination of the entire subject with extensive Congressional hearings would be necessary to determine whether and the extent to which the rate should be changed."

What is at stake here is our future oil and gas supply at a time when demand is enormous. Last year, for instance, gasoline consumption reached another all-time peak—an incredible total of 57,402,000,000 gallons. It doesn't take much imagination to anticipate what would happen if the depletion allowance was so reduced that the risk of loss outweighed the chance of gain, and producers were discouraged from seeking new supplies.

For Value Received

The new postal rates which will shortly go into effect mark an effort to do something constructive about the huge taxpayer subsidies that have been given the postal service—and to have the users of mail come nearer to paying for what they get. This is especially true in the rate increases for third-class matter.

But the new post office bill, as approved unanimously by Congress and signed by the President, does not do anything about fourth-class mail, which is parcel post. And it is here that further reforms are needed.

Parcel post is and almost always has been a producer of deficits. That is simply a way of saying that the people who don't use parcel post must pay a part of the cost of providing service for the people who do. And it can't be argued that parcel post contributes to public knowledge and enlightenment, as do other mail categories. Parcel post is a 100 per cent commercial service. It competes directly with taxpaying private package carriers, both national and local. It didn't even exist until 1913.

The direct deficits—all taxpayer-supported—accountable to parcel post have run into hundreds of millions of dollars over the years, and are still mounting. On top of that, parcel post is responsible for indirect costs which make a material contribution to the over-all cost of operating the post office department.

There's certainly nothing unfair or unreasonable in suggesting that the people who use parcel post pay for value received.

A Bad Bargain

A tax which adds to the forces of inflation, which is a burden on agriculture and business, and which produces little if any net revenue for the government, is obviously a bad bargain. That is the case with the World War II excise taxes on transportation, which are still on the books all these years later.

The taxes amount to three per cent on freight shipments in general, four cents a ton on coal, and ten per cent on passenger fares. In large part they were paid by businesses and so are deductible from income tax.

Senator Smathers, who headed the committee which made an exhaustive investigation of the critical financial situation of the railroads, is a leader in the repeal movement. To his mind, abandonment of these excises would result in only an insignificant drop in tax revenue, and perhaps even a gain. Prices to consumers would be lowered in two ways—directly, by cutting the cost of train and plane tickets, and indirectly in the cost of the goods and services on which taxes are now pyramided. On top of that, he says, it would improve the competitive position of small business. In many cases, large business can avoid the tax by moving goods by private transportation. The small business cannot.

HERE'S HOW...

MAKE AN ADJUSTABLE CLAMP FOR GLUING

A handy clamp for use in the home workshop can be folded into small space for storage or transportation. The size of the clamp will depend on the size of the glue-up jobs normally done.

Use 1 by 4-inch lumber for the four sides of the clamping frame. Locate the position of the bolt holes in the center line of each piece and 4 inches from the ends. In the bottom piece, start the holes from the under side, first using a 3/4-inch auger bit, boring 3/4-inch deep; complete the hole with a 9/32-inch bit. This will provide a recess for the bolt heads and allow the frame to lie flat.

The adjusting bar is made of 1 by 2-inch lumber, and should be at least 2 inches longer than the diagonal distance across the corners of the frame. Bore a 9/32-inch hole about 1 inch from each end of the bar, connect the edges of the holes with parallel lines, and saw out a slot.

Assemble the frame with two 1/4-inch bolts, 1 1/2 inches long at two diagonally opposite corners, and with two 1/4-inch bolts fitted with wing nuts at the opposite corners. Additional holes bored in all members at 4-inch intervals will facilitate adjusting the clamp to small glue-up jobs.

STATE CAPITAL Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Midway through the so-called "recession year" of 1958, Texas economic forecasters are turning their eyes upward again.

Statistical reports show steady improvement in overall business activity since the bleak lows of February and March. If the hoped-for pick-up in oil demand develops during the latter half, analysts say, "1958 may be a good year after all."

Some of the bases for the current atmosphere of cautious optimism are these:

BANK DEPOSITS: Folks have lots of money in the banks; in most areas, more than last year. Response to the Texas Banking Commission's mid-year call for condition of banks showed that most have higher deposits than last summer and some are at new record highs. Dallas County bank deposits increased by \$33,000,000; Harris County (Houston) by more than \$267,000,000 over a year ago. Towns with all-time high deposits were Amarillo, Corpus Christi, Tyler, Midland, Denton and Fort Arthur.

RETAIL SALES: Despite saggs here and there, Texas retail sales are expected to run some 7 per cent ahead of '57, says the University of Texas Bureau of Business Research. Because of low months early in the year, sales volume for the first five months of '58 were 1 per cent below the same period for '57. But a late spring upsurge put May, 1958, sales ahead of those for May, 1957. Apparently Texans are concentrating on essentials. Compared to last year, farm implement sales were up 27 per cent, food up 11 per cent, autos down 8 per cent.

BUSINESS INDEX: BBR's latest report shows the 1958 level of general business activity 4 per cent below May 1957. But May, 1957, was a dizzy pinnacle, the highest point ever reached by the Texas business index. Since the low in March the index has made encouraging progress, pulling up by 8 points. Fall will bring the tip-off, says BBR, as to whether recovery momentum is sufficient for a rise to a new crest.

EMPLOYMENT: Although thousands more were out of work than a year ago, Texas Employment Commission's most recent overall survey showed a substantial shortening of the jobless lines.

Like the general business index, employment seemed to be making a steady recovery from the early spring "trough." Number of unemployed dropped 4,200 during May, TEC reported, and non-farm employment rose to almost three million. Insured unemployment in Texas was only 4.1 per cent of the working force compared with the national average of 7.2 per cent.

COMPANY CHALLENGED — A king-size clash is in prospect July 15 between the State Insurance Department and National Bankers Life Insurance Company of Dallas.

Commissioner William A. Harrison has ordered the company to prove fitness of its management or lose its license. National Bankers, regarded as one of the largest and most prosperous companies in the Southwest, claims more than \$19,000,000 in assets. Some \$5,000,000 of these are discounted by the Department as unsound or unsuitable for an insurance company. Specifically questioned by the state are a number of mortgage loans made by the company to other firms in which the company's officers or directors have an interest.

Company President Lester F. Hall said the firm's financial footing is so sound it could raise \$5.

DOWN MEMORY LANE

(From the files of the Lamb County Leader, July 13, 1944)

Lamb County goes over the top in 5th War Loan Drive; bonds in amount of \$822,169 are sold and quota was only \$755,000.

Fred Miller, Littlefield's new school superintendent, arrived in Littlefield Saturday, July 1, to take over his new duties.

Piggly Wiggly advertises bacon at 21c per pound, large box of Duz at 23c and two boxes of 40% Bran Flakes for 15c.

Sheriff Sam Hutson accompanied a man inmate to the Wichita Falls hospital Monday, returning the same day.

600,000 in a matter of hours. He said the company had a premium income of \$10,000,000 last year and net earnings of \$1,000,000.

GLAD TO MOVE OVER — Despite the prospect of losing "biggest state" honors, Texas officials say they're happy to welcome Alaska as No. 49. Sample comments:

Gov. Price Daniel: "We will still have the biggest navy."

Sec'y of State Zollicoffer: "I'm glad another state will bear the brunt of the gags about being the largest state."

Atty. Gen. Will Wilson: "I suggest they nail down their off-shore lands before they enter the union."

SEMI-WESTWARD HO! — Redesignated Texas-tan uniforms have brought a new look to the Texas Highway Patrol. Semi-western in style, the uniforms sport black trim, black shoes, wide-brimmed grey hats with western crease.

Only 380 patrolmen and other division members of the Department of Public Safety are outfitted at present. New uniforms for the rest of the force will have to wait for another appropriation from the Legislature.

TAXPAYERS GET WARY — Slump in federal income tax collections in Texas the past several months has been noted by Internal Revenue officials.

Cause has been attributed to recession-minded taxpayers lowering their estimates of income for the year. South Texas Collector Bob Phinney thinks, however, most will wind up making just as much money as last year.

Last year Texans paid a record-breaking \$2,600,000,000 in federal income taxes, about \$128,000,000 more than in the year previous.

SCHOOL COST CLIMB SEEN — Texas counties expect cost of education to climb \$70,000,000 annually in the next five years.

This was revealed in reports of 251 counties to the Hale-Aikin Survey Committee on Public Education. Most of the increase would

go for expansions necessary to keep up with increasing enrollment.

Counties differed as to how the money should be raised. Twenty-five per cent favored higher local taxes or increased valuation. Forty-four per cent additional money from the state. Nine counties favored federal aid. Thirty-five recommended a sales or income levy.

SHORT SNORTS—Walter Buckner, publisher of the San Marcos Record and past-president of the Texas Press Association, has been named by Governor Dail to the Industrial Accident Board. He will serve as the employer representative. The two other members of the board are Ned Price of Tyler, representing labor; and Leonard Calton of Austin, representing employees. A \$20,500 grant for re-codifying Texas school laws has been provided by the M. D. Anderson Foundation of Houston. A legislative committee headed by Rep. Robert H. Hughes of Dallas is in charge of the work. Preliminary report on a comprehensive survey of Texas water resources has been submitted to Governor Daniel. It was requested by Sen. Lyndon B. Johnson and prepared jointly by state and federal water agencies. Contents of the report will not be released for publication until final approval is given. Farm experts expect that a 92-year-old record for cotton yield per acre may be topped this year. Second-highest yield was recorded last year at 295 pounds. All-time high was 325 pounds per acre in 1888 — when soil was virgin — Governor Daniel has proclaimed July 14-20 as State Park Week to call attention to the 56-park unit begun in 1927 when Gov. Pat Neff and his family donated "Mother Neff Park" to the state. Texas draft quota for August will be 539 men, only one more than were called for in July. State Selective Service Headquarters also announced that some 1,700 men are to take pre-induction exams in August.

Sandhills Philosopher

He Wants World To Choose A Permanent Trouble Spot

Editor's note: The Sandhills Philosopher on his Johnson grass farm seems to be having trouble keeping up with the international news, his letter this week indicates.

Dear editor:

When it comes to geography, I don't have any trouble in finding my way into Littlefield, and if put to it could find my way to Olton or Earth, and if somebody would furnish the car and pay for the gas and go along to drive I guess I could make it to nearly any town in this country, by trial and error, although I'm perfectly satisfied to stay where I am, but after I get very far away from home, I get lost.

For example, every once in a while, I'd say on the average of every three months, a new trouble spot breaks out in the world and the newspapers play it up and it sounds bad, although generally I don't know what they're talking about. Right now the world's trouble spot is Lebanon, wherever that is, and a while back it was Algeria, then Saudi Arabia, Seoul, etc. I'm not really familiar with these places, I'm just copying them down from old newspapers I've been saving.

Now here's the thing. They never do seem to solve any of these problems, they just run course in the papers a few weeks and no more is heard about them, while a brand new trouble spot breaks out some place else.

This, skipping around from trouble spot to trouble spot is confusing, and I'm proposing that the world pick out one spot, preferably one that's easy to spell and pronounce, and let it serve permanently as the world's trouble spot. It doesn't make any difference where it is, so long as it's

sitting on a powder keg, some woods and mountains by for rebels to hide on, also needs a palace for a government to hole in and there ought to be a good field for the U.S. to in on.

Outside of this, about a need is comfortable place for reporters to stay, a trouble spot will be in business. The way I see it, one spot's as good as another, it's sheer waste and a man's mind to shift it every few months.

Yours faithfully,

J. A.

Charges Dropped In Assault Case

A Littlefield man was jailed Saturday night by city police on charges of assaulting his wife.

The case was dismissed Monday morning in court, however, after the woman agreed to press charges.

In other activity, police arrested a Spade man Saturday on charges of being drunk in a speeding, running a stop sign and driving without lights.

The man was fined \$100. Police also arrested two drunks Sunday, then put them in jail Monday on charges.

Legal Notice

THE STATE OF TEXAS
To any Sheriff or any Constable within the State of Texas —

GREETING:
You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Lamb County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION
THE STATE OF TEXAS

TO: Cecil J. Caddel, Defendant.
Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court 154th Judicial District of Lamb County at the Courthouse thereof, in Littlefield, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 11th day of August A.D. 1958, to Plaintiff's Petition filed in said court, on the 25th day of June A.D. 1958, in this cause, numbered 4421 on the docket of said court and styled Janice R. Caddel, Plaintiff, vs. Cecil J. Caddel, Defendant.

This is a suit for divorce, alleging cruel treatment, alleging that plaintiff and defendant have settled their community property rights outside of Court, asking that such agreement settling said community property rights outside of Court be approved by this Honorable Court, alleging that there was one (1) child born of this said marriage, said child being a girl eight (8) months of age, and asking for Fifty Dollars (\$50.00) per month for the support and maintenance of said child.

Praying for divorce, approval of the community property settlement agreement made outside of Court, exclusive custody of the minor child born of this said marriage, for the sum of Fifty Dollars (\$50.00) per month for the support and maintenance of said minor child born of said marriage, and for general relief, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Littlefield, Texas, this 25th day of June A.D. 1958.
(SEAL)
Attest: Ernest L. Owens, Clerk, District Court Lamb County, Texas.

Hart Camp Happenings

By Mrs. Junior Muller

Guests in the Don Muller home Saturday night for supper were Mr. and Mrs. Bruce Porcher of Littlefield; Mr. and Mrs. Gerry Langford and Kathy of Artesia; Mr. and Mrs. J. C. Muller, and Mr. and Mrs. Junior Muller, Mark and Patti.

Mr. and Mrs. L. E. Ball and Carolyn spent the Fourth at Buffalo Lake near Umbarger.

Rain and hail fell here July 4th damaging the crops of H. V. Lynch and Junior Muller. Heavier damage was done in the Spade community south of there.

Mr. and Mrs. Andrew Boggs and Gregg of Odessa, and Rev. and Mrs. Trevis McMinn and Debbie of Wichita Falls, were guests in the home of Mr. and Mrs. Roy Osthus, Pat and Mike, Sunday night. Mrs. Osthus, Pat and Mike, joined the McMinn's and traveled to Almagordo for a week's visit with the girls' parents, Rev. and Mrs. Walter Brian.

Mrs. Oliver Bier of Plainview.

Card of Thanks

CARD OF THANKS
We wish to express our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, and other kindnesses we are deeply grateful.

Mrs. E. W. Liles, J. Liles, Mr. and Mrs. C. G. Gray, Estelle Davis, Ralph Liles, Mr. and Mrs. Bill Roland, Mr. and Mrs. Cleo Liles, Mr. and Mrs. Walter Liles.

An overnight camping trip to Buffalo Lake near Lubbock was enjoyed last Tuesday night by the Junior and Primary boys of the Hart Camp Baptist Church.

Pastor R. L. Howell and Elma Burleson supervised the boating and fishing. Bobby, Danny, and Ronnie Jones, Steve Burleson and Ronnie Howell made the trip.

Mrs. Bob Green received news of the death of her mother last week and went to Mesa, Ariz. to attend the funeral.

Mrs. Roy Johnson and Mrs. Roy Cannon, Judy and Connie, visited his sister, Mr. and Mrs. J. W. Johnson at Pawhuska, Okla., last week.

Mr. and Mrs. Ronnie Cannon, Judy and Connie of Hale Center, spent Sunday in the home of her parents, Mr. and Mrs. Ray Johnson.

Mrs. Roy Hollums shopped Thursday in Lubbock. Her daughter, Mrs. Donald Green and boys of Lubbock, returned home with her and remained overnight to spend the Fourth.

Mr. and Mrs. Roy Hollums spent Sunday in the home of their son, Mr. and Mrs. Kenneth Hollums, at Dimmitt.

Mr. and Mrs. J. B. Hilburn of Pampa visited in the R. S. Moore home Sunday. Mrs. Hilburn is Mr. Moore's sister.

Neil Montgomery of Oregon visited in the community last week. Montgomery is a former resident.

Guests in the home of Mr. and Mrs. D. R. Leonard, Shirley, Brenda, and Danny the night of the Fourth were Mr. and Mrs. Roy Hendrick, Sharon and Jerry, M. and Mrs. Dean Elms and Kip of Littlefield, Mr. and Mrs. Dean Hukill and Kip of Lubbock, Mrs. J. W. Johnson Jr., Kay and John, and Mr. and Mrs. Leonard Sullivan. They had a backyard supper.

Mexican Nat On Liquor Ch

A 25-year-old Littlefield man was fined \$250 and days in jail on a charge of violation of the liquor law.

The man, Benito A. Villarreal had parked truck near the Sport where a Mexican dancing held. Officers said 16 quarts of beer stored on floor of Villarreal's pick-up.

Firemen were called to a grass fire at 6 St. Tuesday morning.

J. F. Martin, Hereford, Tex. "The Phillips 66 Ammonia I pre-planted on irrigated cotton gave me a big yield increase. I use Phillips Ammonia on all my cash crops."

Lem Brock, Plainview, Tex. "The 100 pounds of Phillips 66 Agricultural Ammonia I put down on irrigated castor beans returned a 500-lb.-per-acre increase."

Martin Schur, Plainview, Tex. "I've come to depend on Phillips 66 Agricultural Ammonia to give me higher yields of cotton and maize. I always apply it pre-plant."

Jack Shelley, Hale Center, Tex. "I picked 214 more pounds of lint per acre on cotton fertilized with Phillips 66 Ammonia, compared to a check plot receiving no ammonia."

Leading Southwestern Farmers Get More Profit from Cash Crops with Phillips 66 Ammonia

From all over the Southwest, successful farmers report profitable use of Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer. They say that by using Phillips 66 Agricultural Ammonia they get more cotton that grades out higher at the gin... yields of grain sorghum grain and ensilage are increased... more marketable vegetables are harvested... and profits on wheat are increased through better forage and higher grain yields.

For more profit per acre from your cash crops, through higher yields and lower production costs, see your Phillips 66 distributor about profitable Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.
