Dumas Demons Look Formidable for 'Cats

Last year the Dumas Demons knocked Littlefield's Wildcats out of the unbeaten ranks, tromping on the Cats 33-20 despite the play of such stars as Northam, Rhoten, and Beckner. This year Coach Fikes' boys aren't unbeaten, but if the coach's prediction is right, it will be an easy victory for Dumas again.

He's basing his usual glum outlook on a good foundation this time, however—the 69-0 beating Dumas gave Price College of Amarillo, and the 27-7 drubbing they handed Clovis. The Dumas team is heavy, powerful, fast, and experienced.

They also have Loomis, a running back who weighs 215 pounds and can run the 100-yard dash in about 9 seconds. Weigh that against Littlefield's light line with only 3 games' experience, and draw your own conclusion.

The Cats' passing attack looked good last week against Levelland, and rooters are hoping it can make the difference in winning or losing this week. The Littlefield boys are obviously gaining confidence as well as experience. Perhaps the 200-mile trip from Dumas will wear the Demons down, and the Wildcats can finish the job—here's hoping!

Smudge Pots .. California Style .. To Be Given Trial In Lamb County Area

There's a lot of gamble to truck farming—but at least three Lamb County tomato growers are working at eliminating part of the chance.

A mild frost is predicted for the middle of October by long term government forecasters. Hill Rogers, Johnny Gallini and Alvin Bagwell have a project worked out that may protect their tomato crops from the cold snap.

Borrowing from the smudge pot idea of California, the three truck farmers have moved truck loads of worn-out tires to their fields and scattered them along the north side. When the frost hits, the tires will be burned.

In theory, at least, the wind from the north will carry the heavy smoke over the tomato acreages which will give the plants protection from the cold.

"If the frost is light and the wind is not too strong, the deal may work," Mr. Gallini said Wednesday.

Littlefield will celebrate Oil Progress Week and the discovery of oil in the city simultaneously next Tuesday night with a barbecue dinner.

When drilling began on the discovery well, local businessmen jokingly made the remark to Texas Company officials, "Bring us in a well and we'll give you a barbecue."

As a result the Chamber of Commerce is playing host to all oil company personnel who have worked on the well since its beginning. Some 50 oil field workers, drillers, supervisors and geologists and their wives are expected to attend the dinner which will be held in the Community Center.

A large crowd of Littlefield citizens are also expected to attend. According to Jim Mangum, chairman of the ticket committee, tickets are now on sale at the Chamber of Commerce office for \$1.75. All members of the Chamber of Commerce will be contacted by the ticket committee.

The date of the barbecue has been set to coincide with National Oil Progress Week which begins Monday.

Larry Kelley, Amarillo radio and television star, will be the principal entertainment for the evening. Known as the "King of Pantomime," Kelley will include "It's in the Book" on his thirty minute program. Elmo Jones and Marshall Howard are on the entertainment committee.

Albert Miller, president of the Chamber of Commerce, will serve as master of ceremonies.

Size of Test Well Undetermined

Prospects for Littlefield's oil well continue to look bright, with unofficial estimates on the production of the well ranging from 50 to 100 barrels a day. Absence of salt water in the swabbing tests is one of the most encouraging signs of the test well, with a history of salt water in previous drilling tests in southern Lamb County, this aspect has been watched closely. Oil company officials have indicated the water pulled from the swabbing tests of the new well was only that used in the swabbing procedure. The size of the well will remain a question until actual pumping gets underway. The pumping procedure is being help up until Union Compress can work out satisfactory arrangements with insurance officials in New York regarding oil storage and pumping near the vast cotton storage. The discovery well is located on Union Compress property. Fred Underwood, an official of the company, said Wednesday night a decision is expected from the New York office some time next week. During the swabbing tests last week, 53 barrels of fluid were swabbed in six hours from perforations 3,552-3,984 feet. At that amount 13 per cent was water and 16 per cent basic sediment. The rest was oil. Washed with 500 gallons of mud acid, the section was swabbed dry with only a trace of acid in evidence. Reacidized with 1,000 gallons and swabbed nine hours, recovery was 45 barrels of fluid. Subsequent 12-hour test recovered 56 barrels of oil. Other drillings now going on in Lamb County are: Honolulu Oil Corp. No. 1-Billie Lewis, in Section 14-13s-35e, drilling 12,100 feet in lime and chert. Western Natural Gas. of. No. 1 Ramco-State, in Section 35-14s-35e, taking a drillstem test from 5,220-5,462 feet. Western Natural Gas Co. No. 1 Grumb'ing-State, in Section 34-14s-35e, drilling 4,854 feet in lime. Phillips Petroleum Co. No. 1-A Federal, in Section 21-13s-13e, drilling 4,800 feet in lime. Ohio Oil Co. No. 1-B State, in Section 17-12s-33e, drilling 5,446 feet in lime, dolomite and sandstone. Forgery Charges Are Filed Wednesday Against Leroy Dobbins, LaGrange Negro

Leroy Dobbins, 20-year-old Negro youth from LaGrange, Texas, was charged here Wednesday with forgery and passing.

Dobbins was picked up Monday after he attempted to cash a check at the First National Bank earlier in the day. Mrs. Faye Dunson and Ulyrue Aldridge, bank tellers, refused to cash a check written on the account of Wesley Buchanan, a farmer who lives east of town.

The bank employees noticed the irregularity in the signature and also the misspelling of the word "labor" on the face of the check. The incident was reported to local authorities. Dobbins was picked up in downtown Littlefield by City Policeman Marvin Ray.

Dobbins was identified by employees of the C. R. Anthony Co. as the person who passed a forged check for \$26 at their firm Saturday. The LaGrange Negro admitted buying a pair of pants and a shirt and paying for them with the check on which he had forged the signature of Kenneth Houk, local grocer. On his person at the time were three other forged checks.

After Dobbins' arrest, Sheriff Dick Dyer recovered the clothing at the home of Willie Lee Fowler. Dobbins was arraigned before Justice of the Peace W. F. Glenn Wednesday afternoon. Bond was set at \$1,000.

THISTLES FOR WHEAT?
HERMISTON, Ore. (A)—Thistles are being suggested as a cash farm crop instead of wheat. Dr. Carl Larson of the Umatilla Field Station says the safflower, a member of the thistle family, might do well on Pacific Northwest lands being taken out of wheat production under the new acreage controls program.

The suggestion came originally from George Penrose, Union Pacific agricultural agent at Portland, Ore. He said safflower oil is used in pain's because of its high protein content.

Mary Lu Measles Marries Billy Tom Grant

In an informal double ring ceremony Saturday, October 3, Miss Mary Lu Measles became the bride of Mr. Billy Tom Grant, son of Mr. and Mrs. Tom J. Grant. The bride's parents are Mr. and Mrs. J. G. Measles of Kress.

The marriage vows were read by Rev. J. R. Jennings, pastor of the Cumberland Presbyterian Church of Olton, at the home of the bride's sister and brother-in-law, Mr. and Mrs. O. E. Caddel, in Littlefield.

Baskets of pink gladioli and greenery decorated the home as the bride entered on the arm of her father, who gave her in marriage. Mrs. Grant wore a simple fitted knit suit in aqua, designed with a buttoned-front belted jacket with three-quarter length sleeves and a small collar. Her accessories were of brown calf, and she wore a beautiful orchid corsage.

Miss Wilma Measles of Kress, served as her sister's maid of honor. She wore a classic tailored gold corduroy dress, fashioned with short sleeves and a Peter Pan collar, with brown calf and suede accessories. Her corsage was of white carnations.

Mr. Glen Dale Patterson of Carlsbad, N. M., was best man for Mr. Grant.

Mrs. Measles, mother of the bride, chose navy alpaca crepe with navy accessories, and wore a corsage of red roses. The groom's mother also wore red roses with her brown suit and beige accessories.

Following the ceremony, the bride added a tiny brown velvet hat design hat touched with seed pearls to complete her costume for a wedding trip to points in New Mexico.

Mrs. Grant was graduated from Olton High School in the class of 1931, where she served as cheerleader and was an officer in the F. H. A. She is presently employed at Rowe Abstract Company in Littlefield.

Mr. and Mrs. Edison, the former Miss Beulah McKelva, were married in a ceremony at the home of her parents in Telephone, Texas, by Rev. Hiller, Methodist minister, on Oct. 3, 1903.

The Edisons have been residents of Littlefield for the past 23 years, where Mr. Edison was in the trucking business.

Gold and White Colors
Yellow chrysanthemums provided the autumn and anniversary

Gold candles in crystal candelabra flanked the cake, and the color scheme was further carried out with napkins in white with "Beulah and Ben" in gold lettering, with golden wedding bells.

Four granddaughters, Misses Billie Jean and Shirley Fair, Miss Gwendolyn Edison, and Miss Mary Edwards, served individual cake squares decorated in gold, golden fruit punch, nuts and mints to over 75 guests who called throughout the afternoon.

Ned Fairbairn, Church of Christ minister, gave an interesting review of the fifty years of happy marriage passed by Mr. and Mrs. Edison.

She reported that a number of children, according to the teachers, come from homes that can afford lunches, but the parents do not realize the importance of giving the children three good meals a day, and are indifferent about their own child going without a mid-day lunch or meal.

The Parkview W. M. U. voted to pay for the meal every day of at least one child in the Littlefield lunchroom. The money will be given to D. C. Lindley, principal of the Central School, who is Benevolence Chairman of the Teachers.

A new study series designed to give a better understanding of the personalities and needs of the Spanish-speaking Americans was opened by the Women's Society of Christian Service at the First Methodist Church last Wednesday morning.

"Within These Borders" is the title of the course, to be led by Mrs. Huston Hoover, who urged that the women realize the contribution that the Spanish-Americans make to them, as well as those we are indebted to return.

"Although we expect the Mexican worker to learn our language,

we should understand that we in turn have just as great a responsibility to learn his," Mrs. Hoover continued.

Mrs. Dick Edwards, president, conducted the business meeting, and the devotional from James was given by Mrs. W. J. Allen.

Coffee Can Cooks Have Scout Fun

Girl Scout Troop 14, with Mrs. Leonard McNeese as leader, enjoyed "coffee-can cookery" at their last Monday afternoon. The girls cooked potatoes, ribs, chicken, and pork chops in coffee cans over a bed of coals at the City Park.

Troop 14 is starting a Christmas card drive, selling boxes of handsome cards from White's Quaint Shop in Pittsfield, Massachusetts, to win subscriptions to "American Girl" magazine. For every ten

LYMAN'S RECIPE OF THE WEEK
By Mary Lee Taylor

Vegetable Swiss Steak

1 1/2 lbs. round steak, 1/2 in. thick (see note)
2 Tablespoons flour
1 teaspoon salt
1/2 teaspoon pepper
2 Tablespoons hot fat

1 can vegetable soup
1/2 cup water
2 Tablespoons finely cut onion
1/2 cup Pet Evaporated Milk

Cut steak into serving pieces. Mix on a piece of paper the flour, salt and pepper. Spread half of flour mixture on a board. Lay pieces of meat on the flour mixture, then sprinkle rest of it over the meat. Pound meat with edge of saucer to force flour mixture into it, turning meat over and over until all the flour is used. Brown meat on both sides in a skillet in hot fat. Mix soup, water and onion. Add to meat. Cover and cook very slowly 1 1/4 hours, or until meat is tender. Remove meat to warm platter, then stir milk into liquid left in skillet. Heat until steaming hot, but do not boil. Serve hot, with the steak. Makes 4 servings.

"THE CADDY"

Kat's Korner

By Karen Williams

Hi, Kids! Been a lot of sad faces
around this week, probably because
of the six weeks tests. Everyone
seems to enjoy them so.

The band is putting on a march
concert this evening for the Band
Parents Association. We've been
practicing up a storm for it. An-
other thing that's helped to keep
us busy is the performance at the
ball game Friday night. Together
with the rest of the town, we're
honoring Vernie "Sunshine"
Wright, just home from Korea.

Tuesday night, Paul Renfro,
Monty Montgomery and John Cros-
by went to Levelland to play in the
Levelland Symphonette. There
was a guest piano soloist from
Texas Tech, Herbert Colvin, that
put on a very fine performance.

If you see that John Crosby has
an extra glow in his eyes, it should
be that he's thinking of his duty
as president of the band a week
from Friday. He has the responsi-
bility of crowning the band
sweetheart, which will be one of
the following: Erna Jane Jones,
Bobby Jo McShan, Ethel Pope,
or Mary Jo Porcher. The name
of the band sweetheart won't be
revealed until the actual crowning.
The only persons to know will be
John Crosby, Monty Montgomery
and Mr. Harris.

Rumors in the Air

I think Yvonne Smith is expect-
ing company in the person of J. W.
Simpson from Amarillo this week-
end. She seems to have stars in
her eyes.

Don't mention the name of Wil-
liam Shakespeare around anybody
that's taking Senior English. I
think they are rather fed up with
"ole' Willie" after being associat-
ed with some of his works.

There was trouble brewin' when
Mrs. Cole caught Trudie Smith
and Nancy Morrow drinking Dr.
Peppers at the game with Levell-
land Friday night. They're sup-
posed to be in training for basket-
ball, I think.

If you were at Lubbock Sunday
afternoon, you might have seen
Jerry Gage and Jo Ann Parrack,
and Beva Jean and Dwain, I hear
they had a lot of fun.

Trudie Smith was having a big
time Friday with her black derby
she acquired at the Lubbock Fair.
I like the way she tipped her hat.

Well, football boys, looks like
we have a couple of hard games
right in a row. Everyone knows
the game with Levelland was
tough enough, but don't think we
don't know how hard you tried.
You really played some classy
football. From what I hear, Dumas
is going to be a "toughie" too.

There's no doubt in my mind that
if you play the same kind of foot-
ball against Dumas as you did
against Levelland, we've got 'em
beat already. Remember, we're
rootin' for you all the way!

Solong..... Karen.

DEATH IN CHINA

HONG KONG (AP)—It appears
that the people of Red China, as
in other countries, fail to "stop,
look and listen" when they cross
railways. The death toll is too
high, says the Peiping Peoples
Daily.

The Communist paper reports
216 deaths in a five-months span
in the Harbin, Manchuria, district
and 74 accidents in the Peiping
district last year.

"These accidents mostly occur
due to the masses lacking common
sense about railway traffic, was
the paper's sharp comment.

Billy Grants Honored At Lance Residence

Mr. and Mrs. Billy Tom Grant,
who were married on October 3,

Lance were co-hosts with Dr. and
Mrs. Bill Armistead for the shower,
at the Lance residence.

A white damask cloth covered
the serving table, which was cen-
tered with an arrangement of
white asters and variegated rose
dahlias. Refreshments included

cakes with "Billy and Mary" in
blue, a relish plate, fresh fruit
bowl, iced tea, coffee, and punch.

Members of the staff of Drs.

World Community Day November 6

During the past ten years the
churches of the U. S. A., through
United Church Women and Church
World Service, have contributed
millions of bundles of clothing,
shoes, school supplies, blankets, di-
apers, yard goods and sewing equip-
ment for the needy women and
children of some twenty countries
in Asia and Europe, coming their
giving on the annual "World Com-
munity Day."

This year, on Friday, Nov. 6,
the day will be observed again by
women groups and organizations in
thousands of churches across the
nation. The areas of need this year,
according to Mrs. H. B. Marx, na-
tional chairman of the observance,
are Korea, Germany, Trieste, In-
dia, Greece, Pakistan, the Near
East and Hongkong. The articles
principally needed include pillow
cases, sheets, quilts, blankets, tow-
els, and kitchen materials. "to
bring a little more cheer and

warmth to those whose homes are
orphanges, camps, tents, barracks,
caves and other places of refuge
from war, famine, and political
persecution."

Special services, usually interde-
nominal, will be held in thou-
sands of communities on November
6, and at the close of the services
these offerings of supplies and of
money will be made by the church
women. The money gifts will help
support scholarships for overseas
Christians to study in America,
and to further the USW "action
program for peace."

Will Induce Hens to Lay More Produce 98 Hours Per Week

That the capacity of a silo, either upright or trench, will vary considerably depending upon the moisture content of the crop ensiled is evidenced by experience with silos at the College Dairy Center the last two years. In 1952 mechanical difficulties encountered at harvest time resulted in the crop becoming too dry. In fact the silage removed from the silo during the winter analyzed slightly above 50 percent moisture. In 1953 moist weather conditions resulted in the crop being unusually high in moisture, analyzing as high as 76 percent moisture. One upright silo, 16 feet in diameter, and 45 feet high, was filled both years. At 40 pounds of silage per cubic foot (settled silage), the rated capacity is 160 tons. In 1952 it was filled with 119 tons, but in 1953 the same silo held 183 tons. A trench silo, 280 feet long, 13 feet wide and averaging 7 feet deep, held 455 tons in 1952 and 608 tons in 1953. This variation in the tonnage capacity of a silo is probably not very important because it has been observed the consumption of silage per cow varies in the same ratio. Although the cow consumes more pounds of the high

moisture silage she is actually getting about the same amount of dry matter that she consumes in drier silage.

A good farm shop and tools for maintenance of machinery are almost a necessity on a modern farm. A well equipped shop will save in cost of repairs and maintenance, and in addition, there is a big saving in time, especially during busy seasons.

We suggest a shop that is weather proof with a concrete or good wooden floor to provide a clean place to work. It's also well to have several large windows for good light and ventilation. For night work, the shop should be equipped with several ceiling lights with large reflectors.

The tools needed in the shop will depend on the type and kind of repair work. You can get ideas on this from the mechanic at your farm machinery dealers. Then, there are plans and blueprints, on storage cabinets and shop buildings. These may be obtained from your country's agricultural agent.

If you are looking for quick grazing this fall, it may be that barley is the answer to your problem. Barley produces the quickest grazing of any of the small grains seeded in the fall and makes a good winter pasture crop. Barley also produces good ground cover during the winter months when much of our soil erosion occurs.

We call particular attention to the new Cordova variety of barley which has been outstanding in tests for yields at many points in central, north and northwest Texas. In Lamb County Cordova barley may be used in combination with Madrid or Hubam, however, the clovers should be spring sown in this area. Barley matures earlier than either wheat or oats, and thereby allows better growing conditions for the clover to become established.

Bula Farm Bureau Begun Recently

Children's Home To Be Built Near Lubbock

Ground-breaking ceremonies will be observed on Sunday, October 11 at 3 p. m. for the first unit of a new Children's Home of Lubbock. The home, designed to shelter and care for children regardless of their religious background, will be built two miles outside of Lubbock on U. S. Highway 82.

The land for the home, a 200-acre irrigated farm, was donated by Mrs. Ida S. Collins, who lives will begin 20 such cottages to be tin, Texas, is the superintendent constructed as rapidly as funds are available. Each cottage will accommodate from 15 to 18 children, and will seek to provide as near a natural family atmosphere as possible. Long range plans call for an attractive campus of about 35 acres where approximately 300 children will find happy homes.

John B. White, formerly of Austin, Texas, is the superintendent of the home, and trustees are the elders of the Broadway Church of Christ in Lubbock. A Lubbock contractor and architect will supervise the construction.

All friends throughout the area who are interested in homes for children are invited to attend the ceremonies Sunday.

John Hubbard was elected president of the new Bula community Farm Bureau, at a meeting of sixty farm people held Monday, Sept. 28, at the Bula High School auditorium. Other newly elected officers of the Bureau, which will meet every second Monday night in each month, are Mr. McBeck, vice-president, and Mrs. M. H. Skinner, secretary.

Bill Miller, president of the Bailey County Farm Bureau, provided musical entertainment from Muleshoe, and Mrs. Miller gave a short talk on "What Farm Bureau Stands For."

R. J. Buchanan from Lubbock, Farm Bureau field man for the area, discussed the background of the national Farm Bureau Association, and answered questions from the floor. Following this discussion, the persons present voted to organize their own community Farm Bureau.

A film taken by Mr. and Mrs. Miller on their 1952 flight to Old Mexico with the Flying Farmers was shown, followed by refreshments of coffee and doughnuts.

Fire Prevention Stressed to Students This Week

"Fire Feeds on Careless Deeds" is the watchword of Fire Prevention Week, this week, and to emphasize that slogan to parents and children, the Chamber of Commerce is sponsoring a school contest.

Throughout the United States, children are sent home from schools during this national annual observance with lists of points to check for possible fire hazards in the homes.

Parents may grumble over having to look through the family catch-all closet, but there have been many cases of thanks given for removing fire-catchers before destruction might have set in. Littlefield's elementary students will bring home these lists this week, and each child who returns his list to his teacher completely filled out and signed by his parents will receive a "Junior Fire Marshal" card.

In the elementary and Central schools, a contest began this Monday, lasting through next Tuesday, for the best posters submitted on "Fire Feeds on Careless Deeds." C. A. Miller, president of the Chamber of Commerce, has announced that there will be a first, second and third prize given to each school.

Junior high and high school students will win prizes for the best essays submitted on the fire prevention subject, and these will be judged for three prizes in each school by a committee to be appointed by Mr. Miller.

Haldis R. Pearce, superintendent of schools, has directed the lists issued to the elementary students next week. Points to be checked in the home will include wiring, greasy rags, papers stored in basements or closets, faulty stove connections, inflammable materials, overheated attics which may cause spontaneous combustion, and other similar items.

When Littlefield was used for one of the first fire prevention tests, every building was tagged because of some item which might have caused fire. All citizens of this town and locale are urged to check their homes well during this

Farm Fire Loss Blamed on Neglect of Easy Rules

(National Safety Council Photo)

Last year fires like this cost American farmers 133 million dollars. Most could have been prevented or kept small. To prevent this kind of disaster on your farm, carry out these simple rules now: 1. When building or remodeling, use non-combustible materials. All-steel structures, such as Quonsets, minimize spread of fire. 2. Protect all your buildings (including those of steel) with well-distributed, properly grounded, tightly-connected lightning rods

3. Make sure electrical wiring is in A-1 shape. 4. Put heating equipment and chimneys in good condition. Make sure that every person who turns on or regulates heating equipment knows how to do it. 5. Take no chances with damp hay. Dry hay properly in field or mow. Check temperature of hay for six weeks. 6. Put fire-fighting equipment in every building and make sure that everybody on the farm knows where it is and how to use it.

USDA Reports on 1955 Cotton Crop

USDA Reports on 1952 and 1953 Cotton Crop Loans

Commodity Credit Corporation received 953,202 notes covering 2,307,261 bales of 1952 crop cotton.

Through Sept. 4, 1953, loans on 584,017 bales were repaid, leaving outstanding loans on 1,723,244 bales. F. P. Biggs, Director, New Orleans Office of Production and Marketing Administration announced recently.

Texas had a total of 836,520

loans, with 117,741 repayments and 718,799 outstanding.

Through Sept. 4, 1953, Commodity Credit Corporation received 44,096 notes covering 79,984 bales of 1953 crop cotton.

Bales by states are as follows: Florida 2, Georgia 298, Mississippi 8669, Texas 35,813; in process, 42,863; total, 79,845.

1953 Crop Output May Be Third Largest

As of September 1, prospective all-crop production was indicated as the third-largest of record, the U. S. Department of Agriculture reports. August growing conditions resulted in significantly improved prospects for cotton, sorghum; declines for corn, and spring gains; and little changes for a large number of crops.

Here is the September 1 production picture for some major crops:

WHEAT: 1,1669 million bushels, 9 per cent smaller than in 1952 but 7 per cent larger than the 1942-51 average.

CORN: 3.2 billion bushels, 3 per cent smaller than last year but 6 per cent bigger than average.

COTTON: 15,159,000, compared with 15,136,000 in 1952 and the 10-

year 1942-51 average of 12,215,000 bales.

OATS: 1,206 million bushels, the smallest in 6 years, 5 per cent below last year and 9 per cent below the 10-year average.

SOYBEANS: 280 million bushels, 4 per cent below 1952 and the smallest since 1949. The record of 2999 million bushels was harvested in 1950.

BARLEY: 237 million bushels, compared with 227 million in 1952, and 295 million for the 10 year average.

SORGHUM GRAIN: 120 million bushels, 44 per cent more than the comparatively small crop harvested in 1952, but 12 per cent below average.

POTATOES: 381 million bushels, compared with 348 million in 1952 and the 1942-51 average of 411 million bushels.

Secretary Benson Urges Orderly Marketing of 1953 Cotton Crop

Secretary of Agriculture Ezra Taft Benson September 14 urged cotton growers to spread out the marketing of their 1953 crop and avoid market gluts at harvest time.

"As we enter the period when cotton will be harvested in heaviest volume, it is very important that producers market their crop in an orderly way," Secretary Benson said. "Producers themselves can do a lot to promote continued stability by avoiding unnecessary marketing during the September-November period. In most years about four-fifth of the crop is harvested during those months, and the danger of market congestion is greatest at that time. The experience of other years has proved definitely that orderly marketing pays in better returns to the producer."

Commodity Credit Corporation price-support loans at 90 per cent of parity on 1953 crop are available to all cotton farmers. They can be taken out at any time before next May 1. In addition to providing a price floor for individual producers, the loans offer an assurance which can help the industry stabilize marketing by avoiding concentrated sales in a short period.

There are ample cotton storage facilities in most areas. In the few areas where storage may be short, producers will still be able to qualify for the price-support loans under program provisions for reconcentration of cotton in other areas where storage is available.

Fieldton Students Enter Littlefield Schools Wednesday

The actual transfer of all students from the Fieldton school to the Littlefield schools took place last Wednesday morning as the result of the recent annexation election.

Superintendent Haldis Pearce said 49 students from the eight grades were enrolled in the Littlefield schools. Division of some of the present classes will

be made immediately, Pearce said. The three Fieldton teachers were assigned classes in the Littlefield system.

Members of the Littlefield school

board met with parents of the Fieldton students last Wednesday night to attempt to get their views on whether or not the transfer should take place now or later in

the year. Some 50 parents attended the meeting. The local board met Wednesday night and made the transfer to make the transfer

God's Plan to Create 'New Men' Offers Future Opportunity for All

A discussion of next Sunday's lesson written by Rev. J. H. ... pastor of the First Church of Littlefield, Texas. (Write this column.)

OPPORTUNITY FOR NEW MEN

... the days are coming when I will make a new covenant with the house of Israel and the house of Judah. I will put my law in their hearts, and I will be their God, and they shall be my people. And no longer shall I teach his neighbor his brother, saying, 'The Lord is here'; for they shall all know me, says the Lord; for I will forgive their iniquity, and I will remember their sin no more.

America's First Sports Car Reaches Market

One of the most widely discussed automobiles—the Chevrolet Corvette—has been placed in distribution. A two-passenger open model (with removable top), the car is the American auto industry's first sports car and the first to carry a plastic body built by mass production methods. The Corvette measures only 33 inches high at the door. Wheelbase is 102 inches. Traditional Chevrolet features include a special 150-horsepower "Blue-Flame" engine and a Powerglide automatic transmission. Production followed special showings of an experimental model in many cities.

ishable seed but of imperishable, through the living and abiding word of God:

This particular portion of the Book of Jeremiah is one of the most potent of the Messianic Prophecies. It is one which was no doubt written under great inspiration, but in the interpretation of Jeremiah it is applied to the hope for the re-establishment of the Northern Kingdom of Israel. We can look back now and easily see that this did not take place in connection with the restoration of the Northern Kingdom.

The Old Covenant of Sinai, with the laws of the covenant written upon tablets of stone, was indeed broken and the Exile of the "Chosen" people appears to have been the penalty for the complete destruction of that covenant. The prediction of the New Covenant, the one of forgiveness and the writing of the spirit of God's love upon the tables of their hearts, fits so completely into the teachings of Christ that there is little doubt that here almost 600 years before the time of Christ, Jeremiah was given the vision of the re-born man.

The primary truths of this great passage are to be grasped only in his mind is typical of the dress of

the time, but along with it we should notice the appeal to be holy as God is holy. To fully understand this we should remember that the word holy as it is used in the ancient Hebrew, especially by Isaiah who is here implied, has the meaning of clean. This then fits into the metaphor of clothing the mind. It also fits into the last two verses where the purification of the souls by obedience is mentioned. This metaphor of cleansing and regirding or dressing the mind and soul, symbolic of rebirth, given then the last verse of our lesson, "You have been born anew, not of perishable seed . . ." The perishable seed of the old covenant did perish. The old covenant was gone and is gone. However there is a new covenant with those that receive it. It is not written upon the souls of men who truly believe. With the forgiveness of past sin there is the cleansing of the soul which presents the naked helpless soul of man in need of the clothing of the gospel. Therefore with the coming of the gospel and the new life in Christ we are girded from our rebirth until life everlasting with the spirit of God written upon the tablets of our soul.

School Election Scheduled For October 10 To Clear Technicality

A school election has been called for October 10 for voters in the Fieldton and Littlefield school districts that were recently merged. The election has been called for the purpose of setting the tax rate in the new school district which was created, from a legal standpoint when Littlefield annexed the Fieldton district as the result of the school election earlier this month.

Two ballots will be given each voter. One will deal with the maintenance rate and the other on the assumption of bonded indebtedness. The election is necessary before the new combined school district can assume the indebtedness of both former districts.

Since both districts had previously voted the maximum tax rate of \$1.50, the election is merely a technicality. It will be held in the Littlefield high school library Saturday morning, October 10.

County Gilt Wins At Lubbock Show

Bill Mote, son of Mr. and Mrs. Edd Mote of Littlefield, was one of the first place winners in the Sears-Roebuck Foundation Swine Show held at Lubbock recently. Bill's gilt was originally given to him as an award from the Foundation for a prize-winning essay.

At the judging of Sears-Roebuck hogs held after the regular judging at the Lamb County Fair, Bill's gilt was named as the county winner, which made it eligible to be entered in the Lubbock Show. Bill is a member of the Littlefield 4-H Club, and is a sixth grade student.

Other officers are Patricia White, vice-president; Roberta Duncan, secretary; Nita Prather, treasurer; and Pat Jackson, song leader. Miss Lavern Knight is F. H. A. advisor.

Guatemalan Guest Will Speak Sunday

The president of the Evangelical Schools of Central America, Rev. Virgilio Zapata, was guest speaker at both services of the Littlefield Missionary Baptist Church last Sunday. Rev. Weldon B. Meers, pastor, invited the public to hear this dynamic young speaker from Guatemala, who received his master's degree in religion from Bob Jones University at Greenville, S. C., this year.

Rev. Zapata has formulated the Evangelical Schools of Central America to spread the Christian gospel to his people and by doing so, defeat the Communist forces which have invaded Central America.

BEARS CLOSE ROAD

TUPPER LAKE, N. Y. (AP)—Jay-walking bears created a traffic problem at the American Legion Mountain Camp near this Adirondack village.

So many bears began wandering across the road connecting the Paradise Point and Horseshoe Lake Camping areas to be at edible refuse left by campers and motorists that the Legion decided to close the private road.

It will be reopened, the Legion said, after the bears have been enticed away from the camp premises.

The Anton F. H. A. won first place for the greatest total number of points on individual exhibits, and Spade F. H. A. was third.

Jo Ann Vaught of Spade was a prize-winner in the canned fruits and vegetables division, pickles, Anton.

Skinner High-Scorer As Bula Wins

Spade Longhorns Rout New Home

The rampaging Spade Longhorns, boosted by the long runs of End DeWayne Dixon, romped over the New Home Leopards 44-12 at New Home Friday night before a crowd of 200 spectators.

Spade struck swiftly, scoring early in the first period when Dixon took the ball on a reverse for 80 yards and six points. R. C. Haynes attempted the conversion. Again in the first quarter Dixon took the ball on a reverse, running 40 yards and adding six points to the score. Haynes' conversion failed.

9th Grade Loses To Lubbock Team.

Littlefield's ninth graders went down to a 41-6 defeat at the hands of the Matthews ninth grade Broncos in a game played at Chapman Field in Lubbock Tuesday night.

Floyd Smith, hard-charging Lubbock fullback, scored four touchdowns on runs of 75, 85, 45 and 75 yards, with the five extra points kicked by Buddy Kennedy, who ran two touchdowns himself.

Littlefield pulled their only score out of the hat in the third quarter on an end sweep which covered 30 yards.

Anton Blanks Frenship, 7-0; Injury May End Hice's Football Career

Whitharral Scores Only Once Against Plains Cowboys

Sparked by Quarterback Sammie Russell and halfback Don Ham, the Plains Cowboys ran roughshod over Whitharral's Panthers, 34-6, before a crowd of 750 at Plains Friday night for their third straight win.

Russell passed 30 yards to end Don Hinkle for the first Cowboy score, and tallied the game's last touchdown in the fourth quarter on a 16-yard run.

Ham intercepted a Whitharral pass in the final period and ran 30 yards for a score after counting previously in the second period on a 7-yard bolt through the line. Whitharral's lone score came in the first period when Verlie Throckmorton tallied on an 8-yard run.

Bula scored a hard-fought 29 to 21 victory over the Southland Eagles in a District 2 six-man conference encounter watched by 400 fans at Southland Friday night.

The visiting Bulldogs scored in every quarter in racking up their victory. In the first period, Half Dwayne Neel intercepted a pass and skipped 30 yards for the tally, following that in the second stanza with a blocked punt which resulted in a safety and two more points for the visitors.

In the third period, Bula Tailback Richard Skinner went 25 yards to paydirt and in the fourth he went over two more times, from three yards and 10 yards out. He ran across with all three extra points to take high-scoring honors for the night.

For Southland Fullback Ronald Huddleston passed to Center Joe Hargrove for seven yards in the first period to put the Eagles into the scoring column. In the next period, the host eleven punted, then Huddleston picked up the pigskin after it was touched by a Bulldog player, running for the touchdown.

Huddleston capped his performance in the third period with a 30 yard pass to Vernon Scott that carried into the end zone. Half George Ellis passed to End Vernon Scott for one extra point and kicked the pigskin through the uprights another time. A kick-after-touchdown is good for two points in 6-man ball and the game ended 29 to 21.

Outstanding players included Huddleston and Hargrove for Southland and Center Jimmy Drake and Neel for Bula.

Despite the loss of their star Kenneth Hice, the best Class B fullback in the Plains, Anton's Bulldogs scored the first win of the year over previously undefeated Frenship Friday night, with a 7-0 triumph.

Hice is in Littlefield Hospital suffering from a kidney ailment which may end his football career. A second quarter passing attack with Robert Burdette aiming at Layton Fleming accounted for the only score of the game, although it looked like another Anton score might be coming up in the last quarter behind some fancy running by Buddy Copas.

More than a usual number of penalties hurt both sides, and Huffaker was thrown out of the game for sportsmanlike conduct. Anton has 75 yards and Frenship 100 yards on penalties.

Wolverines Kick Muleshoe, 12-7

Springlake's Wolverines pushed their season record to four wins and no losses in a home game Friday night as they sent the Muleshoe Mules packing home under a 12 to 7 defeat.

The Wolverines took an early first-period lead when Fullback Wayne Davis shouldered the final 26 inches of the double stripe. They completed their night's scoring minutes later when Right Half Kenny Watson slanted across for three yards and paydirt.

That was all the scoring for the first half as the visiting Mules dug in. In the third period, Muleshoe's Left Half Charles Wagner ripped loose for 25 yards to make the score 12 to 7 and put the Mules back into threatening distance.

After Quarterback Bill Willis kicked the extra point, however, the scoring was ended. The estimated 1,000 fans watched as neither team was able to get up scoring steam. The game was a non-district clash.

Allcorn's Out But Olton Rolls Onward

Hereford Stomps Friona Chiefs, 40-7

The Hereford Whitefaces did everything but score on a pass at Friona Friday night as they were defeating the Friona Chiefs, 40-7.

Shortest touchdown by the winners was from the 12-yard line as Dwayne Wallace and Wayne Smith heaped yardage on their offensive-gain figures.

Wallace started things with a 65-yard touchdown run, then Smith went 60.

Olton rolled on, despite the loss of star R. V. Allcorn, to rack up another win for the season, beating Happy's Cowboys 27-13 at Happy Friday night. Allcorn, who was injured in last week's game, saw no action Friday, but Archie Souter turned in a splendid substitute performance, scoring 21 points.

At the half, Happy held a surprising 7-6 lead, but Granberry and Souter took over for Olton in the second half, making three of the remaining four touchdowns.

Red Oler backed over from the five for Happy's second score, and made the conversion of the losers.

New Deal Rides First Quarter Safety To Hard-Fought Victory Over Amherst

Hale Center Owls Hoot At Kress

Hale Center coasted to a 33 to 0 win over Kress at Kress Friday night in a non-conference battle seen by nearly 600 fans.

The visiting Owls jumped into a 13 to 0 first-quarter lead on a 35-yard run by Quarterback Harold Hoffman and a pass from Hoffman to Fullback Durwood Hart, then added 13 more in the second stanza on a one-yard plunge and a 14-yard run by James Dollar, who played both end and fullback positions.

Hoffman passed to Half Tommy Craddock on the first extra point and Craddock rammed through the center of the line for the second.

The entire New Deal team swarmed on Porter Nuttall in his own end zone to score a first-quarter safety when the Lions beat Amherst's Bulldogs, 9-0, Friday night at Amherst.

Nuttall was forced to fall on the ball after a bad pass from center. The only other score, a touchdown by Willie Cox in the fourth quarter, came after a 65-yard Lion drive.

Delvin Nuttall, little 130-pound freshman back, did some fancy 60-yard running, returning a punt, but the Amherst off use couldn't break through New Deal's line.

★ VAUGHN STARS (Continued from Page 1)

run out of bounds again. Joe Kennedy, Lobo left half dodged upfield as punt receiver, but the Lobos were thrown for

a 15-yard penalty, and lost the ball on downs. Another Howard pass to Davis in the clear bounced out of the receiver's hands to miss a scoring possibility, and two more passes failed to find their mark for the Cats.

Levelland's passing attack bogged down, too, and they were forced to punt to Littlefield. After a sideline rhubarb, Wildcat Cutshall was put out of the game by the

referee. The Wildcats, trying a desperation pass deep in their own territory, set up a perfect interception by Levelland for their fifth touchdown, 32-6.

After the kick, Vaughn cut to one side for a 29-yard gain, followed by two unsuccessful passes to Davis, and a good connection to Williams for a first down. As the game ended, Howard's fake had paid off in yardage, moving the

ball up to the 25-yard line. Littlefield's good last week, make the Dumas squad seem to have just been returned prisoner of war, honored at halftime night.

Q. What is the present status of gamma globulin in regard to polio?
A. Although this has not been fully determined, the serum gamma globulin apparently helps at least temporarily to prevent poliomyelitis in some persons and to lessen the severity of paralysis in others. It is not 100 per cent effective. A nationwide research team is studying its effect on the disease.

Rev. Elmer Crabtree, retired Methodist minister of Slaton and former pastor of the Amherst church, will be speaker for the Sunday morning service and Rev. Burgin Watkins of Lockney will be the Saturday night speaker. He is a son of Rev. R. S. Watkins, who was pastor of the local church about 25 years ago.

A fellowship hour and visiting will be held Saturday night. Dinner will be served Sunday at noon and the afternoon brief speeches will be given by former members and pastors.

The Fidelity Club of the Amherst Methodist Church is sponsoring a city-wide Harvest Festival Saturday, Oct. 31.

There will be booths of all description offering items of all kinds for sale. Some of the booths already spoken for will be: Country store, arts and crafts, pop, candy and gum, hot dogs, hot cocoa, coffee, doughnuts and pie, also a ducking board. There are to be no two booths alike.

The festival will be held on the street between the First National Bank and the Watson Building. The Watson Building will also be used in connection with the festival. There will be no games of chance.

Mrs. Doyle Tapley is in charge of arrangements. A talent show will be held along with the festival and anyone interested in participating is asked to see Mrs. J. V. Adcox or call her at phone 4137.

This is a money-making project for the class to aid in the new Methodist Church.

The Business Women's Federation met Monday night at the Amherst Baptist Church. Mrs. Ted Long read the devotional scripture and led in prayer, following which the church women served a salad plate dinner. Rev. John Rankin spoke on personal service.

Officers who served the past year were re-elected to their positions, with Mrs. Allen White serving as president. About 20 members attended.

Cong. Mahon Issues Statement On Cotton Program

Congressman George Mahon reports that many cotton farmers have expressed concern over the anticipated impact of the cotton acreage control program which is expected next year. Mahon has issued the following statement on the situation:

"I think the concern over the administration of the anticipated cotton acreage control program is well founded. The principal difficulty arises over the question of what weight should be given to the drought in making allotments. But aside from the drought many difficulties and inequities are in prospect.

Congress provided in the law that abnormal weather conditions must be taken into account in arriving at allotments. I joined with other Texans in urging that land prepared for planting to cotton this year should be measured on individual farms and fully considered. PMA officials in Washington rejected this request as being impractical but maintained that when state allotments were granted drought conditions would be taken into account. But my fear is that drought conditions will not be adequately taken into account. I feel that there ought to be an accurate record of all acreage planted to cotton, all acreage prepared for planting to cotton but not planted or which may have been subsequently planted to a cover crop or otherwise. Upon that basis reasonable fair allotments could be made. Likewise it is important that the effect of the drought be considered for the previous dry years included in the base period.

It is true that cotton acreages in 1953 will not be considered in arriving at allotments for 1954 but the year 1953 will be taken into account fully in following years and the matter is of the greatest importance. If we have an acreage control program in 1954, the county allotments will be based upon the previous three year period, excluding 1953.

I am advised that the county PMA officials have considerable information on hand in regard to the facts of the situation and I have again addressed a further appeal to PMA officials in Washington and College Station, urging that the true facts be ascertained and taken into consideration in any future control programs. I have pointed out that several hundred thousand acres of cotton land are involved in this problem and the welfare of thousands of cotton farmers.

Recently I have suggested to county officials of the PMA that if possible they take the initiative in certifying to the state office a figure which includes actual cotton acreage plus acreage which would have been planted for abnormal weather conditions."

Hardin-Simmons University at Abilene, visited his mother, Mrs. Velma Baird, this weekend.

Mrs. R. B. Priddy visited her children in Clovis this past week.

SPADEING-UP NEWS By Betty Byars

A certain person told me to ask John Cassie who was the girl with him Saturday night.

Thursday after school I saw Tam Pointer and Willie Griffin talking to W. B. Jones. I wonder if they're both trying to hook him.

If I'm not mistaken, I saw Charles McCowan walking Tam Pointer out the door Thursday night.

You married women will have to get someone to teach you how to play basketball, or else do better than Thursday night. It seemed as if Mrs. Lumsden had never played basketball. I'm correct this time, am I not?

Spade 4-H Girls had a wonderful time at the recreation meeting the 28th, especially Ruby Vaught. Some boy got really attached to her and asked her if she had a way home. Unfortunately, she did.

When you boys are watching the girls in Drivers Education, remember this: The fellow who

laughs at a lady trying to drive a car usually sobers up when he tries to thread a needle!

Friday we certainly had a good pep rally. The grade school helped in the yelling and gave it a much better effect. Coach Bailey, Jerry Bryant, Wanda Bryant, and Tam Pointer gave some encouraging speeches.

This week was a very lucky one. Our grade school boys beat Cotton Center, grade school girls beat the married women and high school girls beat Pep. Our football boys beat New Home, best of all! You know, third time is charm! You played great boys, but remember, we know you could do it all the time, so we'll be expecting you to win all the time now. Please, don't break the charm.

New Home treated us very, very nice Friday night. They fed the boys a steak supper and the pep squad sandwiches. While the boys were eating, the girls enjoyed a friendly basketball game. All had a wonderful time.

Gloria Gray didn't want to claim her Dad Thursday night. Why? If you could have seen that hat he had on you would know why!

The pep squad would have brought a little puppy back to Spade Friday night, but they were afraid he'd be hungry here too. The pup must have liked football, because he interfered with the game by getting out in the field and showing that he could run. Katherine Snow and Allen Jones wanted to give him a yell, but that didn't go over very well. Adios, Betty

BOOKIE LOSES, BY GUM

CAMBRIDGE, Mass. (AP)—A stick of gum was evidence in a charge of registering bets on the speed of a horse.

Police testified in introducing the piece of gum as evidence that the bookie wrote customers' plays on gum and if approached by police put it in his mouth and began chewing.

He wasn't fast enough, police said, an inspector Duncan Mac Neil grabbed the gum before the bookie could do away with the damaging evidence. It cost the bookie a \$50 fine—plus the stick of gum.
