

Parade To Officially Open 6th Annual Jaycee Rodeo Tonight

MERLE ROBERTS was junior queen for the second consecutive year. She is the 14 daughter of Mr. and

Mrs. V. E. Roberts. She is an excellent rider, and attractive brunette.

DONNIE MORDECAI, son of Mr. and Mrs. Grady Mordecai, was chosen the best tiny cowboy in the Queen's contest. He is also the grandson of Mr. and Mrs. Walter Martin, and is shown riding his grandfather's trick horse "Sonny."

JAYCEE RODEO QUEEN—Mrs. Jo Black was named Rodeo Queen Thursday night and will reign over the sixth annual Jaycee Rodeo. Last year when she was Miss Jo Miller she won cov-

eted honors, and reigned over the fifth annual Rodeo. She is a tall blond and a fancy rider. She is the daughter of Mr. and Mrs. E. O. Miller, of Spade.

Prizes Totaling \$3,500 Will Go to Cowboys

The 1951 6th Annual Jaycees Littlefield Rodeo is "all set and rarin' to go. That's the word from headquarters at the Chamber of Commerce from . . . Bob Estes, who has been retained and will produce the show. Both are famous in rodeoland, from east to west and from north to south, but this is his first Littlefield appearance. They make their home at Baird, and have only recently staged shows at Monahans, Seminole, and coming here direct from Crosbyton. He is a rodeo hand, and brings his famous horse "spot" with him. His wife is also a star of the rodeo world, and has appeared in

(Continued on back Page)

CAROLYN ROBERTS — Took top honors as the tiny cowgirl. She is the daughter of Mr. and

Mrs. B. C. Roberts, and has the reputation of being quite a rider.

LAMB COUNTY LEADER

XXVIII LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, JUNE 14, 1951 No. 31

Leonard Sewell Killed in Action; Uncle Dies In Building Accident

Death Messages Arrive Tuesday

In a sorrowful tragedy, the news came to the home of Johnnie Sewell, and her mother, Mrs. Betty Epps, at home on South Littlefield. Two separate death messages delivered to their home were dated Tokyo, Japan, that her son, Leonard, was killed in action May 23, 1951, at Modesto, California. The sad news that

Frank Bentley, brother-in-law to Mrs. Sewell, had been killed while working as a carpenter on a building in the California city, Monday afternoon of this week.

The notification from the War Department is the first to come to a Lamb County home, announcing the death of a local soldier in action in Korea. How many county boys are in service there, is not known.

Local School Will Come Under New Study Program

At the regular school board meeting of the Littlefield Independent School District held Monday night, June 11, 1951, in the Business Manager's office, the following members were present: Jack Christian, Jack Yarbrough, Otto Hampton and Houston Hooyer. Members absent were Boyd

Montgomery, G. G. Wilson, and President Manell Hall. Also attending the meeting were Carl Arnold, Business Manager, and Joe C. Hutchinson, superintendent of schools. The following items of business were attended to:

1. The board worked on final details for finishing the high school building with Architects Atkinson and Atchinson. Most of this time was devoted to the discussion of small adjustments in the building and the general finish work to be done before the building is completed. Quite a bit of time was devoted to the discussion of colors and finish work in classrooms, auditorium and different parts of the building. It is the plan of the board and the architects to finish the building the most modern way in color dynamics.

2. Carl Arnold, business manager, presented problems regarding damage done to school building by the recent hailstorm. He submitted the insurance adjust-

Rev. Heckmann Is Delegate to Church Meeting
"The Father's business" will take the pastor of Emmanuel Lutheran Church, the Rev. H. A. Heckmann, to Abilene for the days of June 19-21 for a Pastor's Teacher's conference of the Lutheran Church-Missouri Synod. While in Abilene Mrs. Heckmann and children plan to visit relatives in and around Waco.
As a part of the official family of the Walthers League of Texas, Rev. Heckmann plans to attend the State Walthers League convention in San Antonio, June 23-26. Mrs. Heckmann will serve as delegate from the young people's society of Littlefield's Emmanuel Lutheran. Services at Emmanuel

96 Degrees High For Past Week
The thermometer at West Texas Gas Company registered 96 degrees for the high reading of the week, both last Friday and again yesterday afternoon. The low was 56, which was recorded Sunday night and again Tuesday night.
Although showers have fallen all around Littlefield the past week, no rain has been received here. However, as this is being written, skies are cloudy and rain is expected.
Most of the cotton hauled out last Tuesday night, June 5th, has been replanted, with the exception of low spots.
Insurance adjusters are just getting a good start in making estimates on hail damage to roofs here in town. Considerable damage was done, and nearly all of the roofs in the downtown area will be re-roofed, as well as several in the residential areas.
Lutheran on June 24 will be held as usual, Sunday School at 9:00 and divine worship at 10:00 a. m.

City Cleanup With 150 Loads of Trash Rem
The ten day city cleanup campaign came to an end and City Engineer, **Ed Packwood**, says that it has been a successful one in making for a clean city. He says that if everyone had cooperated the majority of the cleanup would have been completed.
Two trucks each manning men have been working clean-up, and they have hauled away 150 loads of accumulated trash.
Another crew is working to eradicate the mosquitoes and other bugs. The spraying and fogging has already been continued during the week. The spraying and fogging is at intervals, given the prevalence of rain, which is the insect menace.

Vocational School To Stage First Banquet Tonight

The first annual banquet for the veterans, who are attending the Business Administration Course, held in the Vocational Agricultural Building, of the Littlefield schools, will be held this evening, Thursday June 14th, at Dyer's Cafeteria. Wives of the men, and special friends will be the guests.

Plans have been completed for the program, and a guest speaker of the occasion, has been obtained.

Members of the class are: Clarence E. Black, Arvil A. Blair, Luther W. Butler, Kenneth R. Gary, Luther Cunningham, Milam Y. Fields, Lloyd C. Gates, Joe Pat Hart, William G. Kelly, Monty R. LeBoeuf, Leroy McCormick, Milburn Ratcliff, Charles D. Shedd, Luther Thedford, Melvin S. Tomlinson, Howell R. Wilson, James E. Wood, Charles A. Cowan, W. A. James, Walter R. Clayton and the instructor of the school, Thomas E. Ernest and coordinator of Vocational School, Stillwell Russell.

Mrs. Jo Black To Reign Over Jaycee Rodeo

Littlefield's sixth annual Jaycee Rodeo will be reigned over by Queen Jo Black, who reigned over the fifth annual Rodeo, as Jo Miller, having won the coveted honors last Saturday night in a queen contest held at the arena. Miss Melva Jo Edwards, daughter of Mr. and Mrs. Pete Edwards was second. Other contestants were Misses Venita Roberts, Mary Short and Sarah Armstrong.

Mrs. Black is the daughter of Mr. and Mrs. Everett Miller of Spade, comes from a family of horsemen. She is a blond and 17 years of age. Queen Black was mounted on a beautiful palomino horse.

Leta Merle Roberts, 13-year-old daughter of Mr. and Mrs. V. E. Roberts, was selected the Junior Queen, also for the second consecutive year, winning out over Joyce McCain and Carolyn Roberts. Carolyn Roberts, daughter of Mr. and Mrs. B. C. Roberts was named the Roping Club's Cowgirl and Donnie Mordecai son of Mr. and Mrs. Grady Mordecai and the grandson of Mr. and Mrs. Walter Martin was named tiny cowboy.

The contest was sponsored by Littlefield Roping Club — Cash prizes were awarded to the top winners.

Following the selection of Queens, a program was presented.

Two Lamb County Boys Accepted In Air Force

According to T. Sgt. Gerald F. Cutshall, local recruiter for the U. S. Army Air Force, two area youths were accepted for enlistment in the Air Force at Amarillo. Omar L. Richards of Muleshoe and Edward Jack Hammons of Amhest successfully passed the Air Force examinations and were sent to Lackland Air Force Base, San Antonio, last Monday, for their basic training of eight weeks. Upon completion of their basic train-

ELVIS WALKER RETURNS TO CITY; IN BATTERY AND ELECTRIC BUSINESS

Elvis Walker is announcing the purchase from Ben Crawford of the Littlefield Automotive Electric and the Glover Battery and Electric from Cephas Glover, and the combining of the two firms under the name of Walker Battery & Electric which he will operate at 814 East Third Street, the old location of the Littlefield Automotive Electric.

Associated with him in the operation of the business is Cephas Glover.

ing will be sent to a technical school, if qualified, or be assigned to a base for on the job training in a technical trade.

Mr. Walker was formerly employed by Garlach Battery & Electric for five years, and about nine years ago went to Lamesa, where he was in business eight years, disposing of same before returning to Littlefield.

The Walker Battery & Electric will do a complete tuneup job on cars, trucks, tractors and irrigation motors. They are handling and offer repair and service on any type of carburetor, Starter, Generator and magneto.

Mr. and Mrs. Walker have two children, Kenneth 12, and Wynell, aged 9.

Mr. Walker invites all his friends and acquaintances to visit him in his new location.

Leonard Sewell

(Continued From Page 1)
known, but the number is considerable.

Pvt. Leonard T. Sewell, enlisted in the army March 1, 1950, and was sworn in at Amarillo, being taken there with some other local boys by Sgt. Cutshall. At his enlistment he was 17 years of age, and had only recently reached his 19th birthday.

He was born in Oklahoma in 1932, but came to Littlefield at an early age, and attended school here, enlisting before graduation.

He was sent overseas in August of last year, direct to Korea. A month later he suffered a leg injury, and was hospitalized for three weeks, and then returned to active service.

The news of his death came as a severe shock. Young Sewell had written his mother, that he was expecting to return home almost any day, and the family had been eagerly awaiting his arrival. A sister, Mrs. Berneal Williamson of Kilgore, Idaho, had come here to welcome her brother upon his arrival at home. His expected return, only made the news of his death more heartbreaking.

Only a few hours before receipt of the message announcing his death, another telegram came from Modesto, California, bearing the grim news that an uncle of the youthful Private Sewell, had been killed while he worked as a carpenter on a building at Modesto, California.

Details of his death were not complete. He was killed instantly, while working on a scaffold which broke or gave way, and a part of the broken scaffold hit him in the head causing his death. He was 55 years of age, and in addition to his mother in law, Mrs. Betty Epps, and sister-in-law, Mrs. Sewell, living here, he is survived by his wife, and six children, as well as several brothers and sisters and his mother, Mrs. Emma Bentley. The family lived in Littlefield, but moved to California, about ten years ago.

The remains will be interred in Modesto, California cemetery, with funeral services to be held Friday, according to the message received.

WILKINSON GOES TO MARINES; MATT BROWN IS APPOINTED TO SERVE

Matt Browne, law partner of Arthur Duggan, has been named by Curtis Wilkinson, now serving his first term as county attorney, to carry on the duties of that office, effective June 18, when Wilkinson has been ordered to again don a U. S. Marine uniform.

As a member of the Reserves he has been subject to call and received his first notification last month.

During World War II, many county officials were called into service. Some resigned—some appointed assistants to carry on. In view of the uncertainty of the length of service which will be required from reservists, Mr. Wilkinson chose to hold his elective office, and appoint an assistant to carry on during his absence.

He issued the following statement to the press this week, setting forth his position:

"Around the 10th day of May I received orders to report to Oklahoma City for my physical. I passed the physical and was then ordered to proceed on the 18th day of June to Quantico, Virginia, for extended active duty. So, in accordance with my orders I shall leave Lamb county on the 18th.

"I have appointed Mr. Matt

Browne, as my assistant, to serve in my place while I am away. Mr. Browne took his pre-law at Dartmouth university and was graduated from Harvard law school. He has been associated with Arthur Duggan in the general practice of law in Littlefield since coming to Littlefield from Lubbock. Mr. Browne is married and has one daughter.

"I served as an enlisted man during World War II, spending over three years with the Marine Corps. Part of this time was spent in the Pacific theatre of operations. I remained in the Marine Corps reserve and was commissioned in January of this year.

"I have not resigned and shall be directly responsible to the citizens of Lamb county for the county attorney's office. I am still under bond. I do not have the least idea how long I will be away in the service. This will depend on the international situation.

"It has been a pleasure to serve the peoples of Lamb county as county attorney and while I am entering the Marine Corps involuntarily I shall try and continue to serve my people even though I shall be out of the county."

Junior Legion Team Loses to Brownfield

The Littlefield Junior American Legion boys met Brownfield on their diamond Tuesday afternoon and lost the game to them by the score of 4-5.

According to Manager Vernon Hofacket, the team had only nine boys to make the trip, and two of the nine were crippled. Gage was hurt in a motorcycle accident about two weeks ago, and Perkins, when working with a contractor on the safety deposit box at a local bank, sustained a long gash in his right hand, and prob-

Tornado Reported

A small tornado and flash floods were reported between Plainview and Lockney Wednesday evening.

A good shower fell over the Littlefield area last night, and some hail was reported at Spade Wednesday afternoon.

District American Legion Junior Baseball Schedule Is Outlined Friday

At a District Two American Legion Junior Baseball meeting held at the Legion hall, Lubbock, Friday night it was decided to divide the District into the East half and the West half. It was also determined that a tournament would be held at Lubbock to decide the champion of the District.

The East District consists of Olton, Lubbock, Ralls, Abernathy and Plainview, while the West half includes Littlefield, Brownfield, O'Donnell, Morton and Lubbock.

The schedule was outlined as follows:

- June 15—Lubbock at Morton.
- June 15—Lubbock at Morton.
- June 15—Lubbock at O'Donnell.
- June 18—Brownfield at O'Donnell.
- Lubbock at Littlefield.
- June 20—Morton at Littlefield.
- Brownfield at Lubbock.
- June 22—O'Donnell at Lubbock.
- Morton at Brownfield.
- June 25—Brownfield at Littlefield.
- Morton at O'Donnell.
- June 27—Morton at Lubbock.
- O'Donnell at Littlefield.
- June 29—O'Donnell at Brownfield.
- July 3—Littlefield at Morton.
- Lubbock at Brownfield.

ably will not be able to play for the balance of the season.

In the game Littlefield received 4 scores, 5 hits and 3 walks, and made 5 errors. Nuttall pitched 5 innings and allowed 2 hits and struck out six. Walden pitched 2 innings, allowed one hit and struck out 2. Baird was catcher. Brownfield got 5 scores, 3 hits and 5 walks, Jones pitched. Black was catcher and they struck out 6 men. Brownfield made 3 errors.

The locals will journey to O'Donnell Friday night providing there are enough boys available to make a team.

- July 6—Lubbock at O'Donnell.
- Brownfield at Morton.
- Local boys certified by Manager Vernon Hofacket and Coach Weldon Shultz at Lubbock's meeting Friday were:
- Bill Jones, A. L. Nuttall, Travis Hampton, Joe Walden, R. L. Rhoten, Douglas Perkins, Freddie Briggs, Connie Baird, Harold Bowman, Jerry Gage, Bill Gage, Raymond Brown, Bob Hoover, Lloyd Williams, Gary Pass and Jerry Dunn.

INDEX OF TEXAS BUSINESS ACTIVITY
ADJUSTED FOR SEASONAL VARIATION
1935-39=100

U T BUREAU OF BUSINESS RESEARCH

BUSINESS ACTIVITY—Since the start of the Korean war, business activity in Texas has shown a substantial, but un-

Bureau of Business Research. The Bureau estimates that business will not decline as long as the presence emergency lasts. (AP Photo)

that is forced to fight monetary reentrts to their owners. These insect pests can be successfully controlled and doing so will mean money to the producer.

Important Last Minute Acts of Legislature Listed By W. T. C. of C.

As the 1951 session of the Texas Legislature ended last Friday, highlighted by a compromise on the bill affecting Texas Rural Roads, which was a compromise by both sides, but which the rural section hailed as a partial victory, many new laws which will affect all of us, were approved, or finally turned down.

The West Texas Chamber of Commerce, has issued the following summary of the acts, as follows:

- 1.—Freeze at its present level (\$7,300,000 a year) the surplus money from the state bond assumption fund going to counties to spend on rural roads.
- 2.—Earmark for rural roads the remainder of the surplus going to the State Highway Department.
- 3.—Levy a gathering tax on natural gas of approximately one-half of a cent per 1,000 cubic feet.
- 4.—Continue all last year's 10 percent tax increases, including the one on natural gas production.

State Comptroller R. S. Calvert has estimated that this levy on the gathering on natural gas in the amount of one-half on a cent per 1,000 cubic feet will produce the needed \$12,000,000 a year to operate the state government. Gov. Shivers signed the tax bill shortly after the legislature ended its five-month session late Friday afternoon.

PUBLIC WELFARE—The House this week accepted Senate changes in the proposed constitutional amendment boosting the ceiling on state welfare spending from \$55,000,000 to \$42,000,000 per year. This assures submission of the amendment at a special election this fall.

PRICE FIXING—This particular piece of legislation, authorizing the Railroad Commission to establish minimum field prices for natural gas was killed in the Senate. The Senate refused to suspend its rules to consider the House-approved measure.

SAFETY—The bill requiring drivers involved in traffic accidents to show proof of financial responsibility through insurance or other means passed and awaits the signature of the Governor.

CRIMINAL CODE—The House passed and sent to the Governor eight bills revamping the state's criminal code. One makes it a felony for a person to drive while under the influence of liquor, if it is the second offense. The jury could recommend a fine of \$100 to \$5,000 or 10 days to two years in jail, or both, or a penitentiary sentence up to five years.

Governor Shivers already has signed new laws forbidding possession of slot machines, pay-off marble boards or punch boards.

WORKMEN'S COMPENSATION—A bill increasing the top Work-

men's Compensation Insurance payment from \$25 to \$30 a week passed.

WATER—Water districts cannot enter into rain-making contracts because moisture in the air is not a natural resource, the Attorney General has ruled; Zavala County asked for an opinion on the legality of creating a water control and improvement district to contract with a rain-making company. Assistant Attorney General Bruce Allen wrote an opinion saying that the constitution provides for districts for control, storing, preserving and distributing waters and "the preservation and conservation of all such natural resources of the state." Moisture in the air does not appear to be a natural resource within the terms and meaning of the above-quoted constitutional provision.

FARM LABOR—Texas and other southern states have not abandoned hope for getting the Mexican Labor bill out of the rules committee where it is now stymied. The committee voted last week, 5 to 4, against clearing the measure for House consideration. Representatives Gathings (D-Ark) and Smith (D-Miss) said Thursday they believe there is a strong possibility the committee will reserve itself and send the bill to the floor.

The measure, introduced by Representative Poage (D-Texas) sets up a program under which farmers can obtain labor from workers in Mexico and bring these workers after obtaining certification. The U. S. would recruit es from the Labor Department that workers were needed. This program would replace a labor agreement between Mexico and the U. S., due to expire June 30.

NPA Meeting On Controlled Materials Thursday 14th.

There will be an important meeting in Lubbock today, (Thursday) June 14th, called by Controlled Materials Plan representatives from the National Production Authority, Dallas, to give authoritative assistance to all manufacturers of equipment, including farm machinery, sheet metal shops, machine shops, distributors of steel, aluminum or copper products, and all others who might possibly be interested in the Government's Controlled Materials Plan or other NPA regulations or orders.

The meeting will be held in the Hilton Hotel ballroom.

Theater Owner Surrenders; Now Sells TV Sets

COLVER, Pa.—(AP)—Rows of television antennas jutting from the homes in the small Western Pennsylvania mining community tell the tale of its only theatre forced to shut down after 21 years.

Two years ago, the theatre had a weekly attendance of 1,700. Then one by one the miners began purchasing TV sets until the Attendance dropped to 700. So John Snylnecky, the manager, took a cue from the lines, "If you can't lick 'em, join 'em." He entered television business, himself.

How's John doing?
"Ten times better than I was at the theatre," he says.

MUCH IMPROVED

Mrs. Louis M. Cartall, daughter of Mrs. Anne Louise Wiseman, of San Antonio, who suffered an attack of Polio several months ago, is reported by Mrs. Wiseman to be much improved. She has been home from the hospital since January, is able to go about, and to drive her car a little. She and her husband are planning a trip to Old Mexico this summer.

LION - SAVING CAMPAIGN JUNAGADH, India—(AP)—A campaign has opened here by opponents of unrestricted hunting to save an estimated 225 lions in the famous Gir Forest, believed to be the last of their species in Asia. Lion hunting is still permitted but only on special license by the Saurashtra State Government which administers the forests.

Rodeo

(Continued From Page 1)

shows throughout the country, and at Madison Square Garden.

Both are emphatic in stating that the Littlefield show is going to be one of the very best they have ever produced.

At least 125 cowboys, ropers, rasslers, riders, and bulldozers and Bronc riders, will participate in the three day show here, Thursday, Friday and Saturday nights. First performance is at 8:15 Thursday night.

Prize money for which they will compete will total approximately \$3500, with half or more obtained through entry fees. This will make one of the sweetest jackpots to be offered in West Texas this year.

All of the rodeo stock has arrived, and is penned adjacent to the rodeo grounds—is in prime condition, wild and tough, and chills, spills and thrills are on the program menu.

In addition to the rodeo events, there will be entertainment specialty acts galore.

Some of the entertainers who will be seen each night at the rodeo are:

Charlie Schutz, clown without a peer, with his bucking Model T Ford of 1923 vintage — and he's been doing his act for 23 years. A native of Ponca City, Oklahoma, he has taught the Model T all of the tricks of the ornate, cayuse, and he'll show those tricks off each night before the crowd in the grandstand.

He and the Model T will make their initial appearance in the parade this evening at 5:30.

Caroline Solburn, native of Dublin, Texas, is a charming young lady and talented horsewoman. She is bringing her specially trained horse, a 7 year old corral gelding who while hitched to a cart, does tricks that only an unharnessed horse is supposed to be able to do. She is a student at John Tarleton college, and a daughter of Everett Colburn, who is in charge of rodeos at Madison Square Garden. Miss Colburn and her act with her highly trained horse is unique, and entertaining—a sure-fire rodeo hit.

In addition there are numerous other features and acts, including Wayne Winton and his trained horses, including "Cimmaron."

Opening night program, starting at 8:15 will include: bare back bronc riding, calf roping, saddle bronc riding, Caroline and Omar in a specialty act, and all of the special acts listed above. Program will be completely changed each night.

The parade which officially opens the rodeo at 5:30 this evening after forming at the Court House, will be one of the biggest and best ever staged here. Many floats have been entered and actors and rodeo livestock will be featured in the parade which will head down Phelps Avenue, and out to the Rodeo grounds. Prize floats will compete for cash prizes. Mrs. Joe Black (Miss Jo Miller when she won and acted as Queen at last year's local Rodeo) will again lead the parade colorfully garbed and attractively mounted. The parade is in charge of Lamb County Sheriff's posse, which will appear in the parade. Other possees from surrounding towns have been invited to attend.

One of the biggest crowds ever to gather here is expected to pass through the gates of the 3-day rodeo here. Advance ticket sales have exceeded all expectations, and only bad weather—neither anticipated nor wanted—can prevent this from being the biggest show of the six which Jaycees will have staged and sponsored.

Don your boots and your Stetsons and head for Littlefield this week end—you'll see a great show, and have really a great time, from the moment you arrive until you depart—and don't forget dancing every night to the music of "The Light Crust Doughboys."

Leader's Offer

(Continued From Page 1)
scription to the Lamb County Leader at the bargain rate of \$2.25 for one year, \$4.00 for two years, or \$5.50 for three years.

This offer is only good in Littlefield and trade area, and will only be in force for a limited time.

In observance of the Leader's 21st anniversary under the present ownership, and also in appreciation of the patronage extended by our large list of subscribers down through these years, the Leader is being offered for a short time at these bargain rates, and in addition new subscribers or those renewing their subscription will be given a free photograph. They will have their choice of an 8x10 photograph of man and wife, or an 8x10 individual photograph of man or wife; and as an extra special—a new subscriber will be given an 8x10 Family Group Free.

Value of these photographs are up to \$5.00.

The Lamb County Leader is the only Semi-Weekly published in

Local School

(Continued From Page 1)

er's report. The board authorized repair and replacement of the roof where necessary.

3. A yearly report of the cafeteria was made to the board. It operated in the black and purchased and added something near \$2,000 worth of new equipment this year. The progress of the new lunchroom that is being built was studied. It is hoped that the building will be finished and equipped by September 1st.

4. An estimated enrollment for Vocational Agriculture for the next two years was submitted to the board. This report indicated a definite need for an additional agriculture teacher in the Littlefield public schools. Careful study had been made by the agriculture instructor and the school administrators to determine the possible enrollment in agriculture for the next two years.

The program should carry about 55 to 60 boys next year and level off at about 100 boys each year in the upper four grades of high school. The addition of a teacher had been under study for some time and application had been made to the State Department of Vocational Agriculture for the extra teacher. The application has been approved in the state office. The school board employed Douglas F. Owens of Olton, Texas. He is a graduate of Texas Tech Agriculture school and is to be the assistant agriculture teacher for the year of 1951-52. Mr. Owens was born and reared in Olton, and graduated from high school there. He has an excellent record both in high school and in college. The board feels fortunate that they will have the services of this young man to help Mr. Hall in the agriculture department beginning September 1st, 1951.

5. Furniture for the new building was discussed. All furniture has arrived and been stored. The auditorium chairs have arrived and will be stored in the school buildings until the new building is finished. This presents quite a problem but the manufacturer held the chairs as long as possible.

6. Report was made to the board regarding the selection of the Littlefield school and community as a Cooperative Center in School-Community Administrative Leadership with the Cooperative Program in Educational Administration which is a national effort. This cooperative center means that the school and community is honored in being selected for this study. The study is operated by the Kellogg Foundation and will be carried on over a period of five years. It will not be necessarily on an experimental basis but the school will be under constant evaluation and observation by the best leaders in the field of education. Littlefield represents communities with a population between 5,000 and 10,000 in this study. Littlefield was picked as one of 15 out of 141 schools in this bracket, to come under this Cooperative Study Program. The ultimate purpose is to help the child through a cooperative study of school and community improvement.

Baptist Training Union Meet For Re Organization

A group of members of the First Baptist church met at the home of Mr. and Mrs. Ernest Hock, Monday night, for the re-organization of the Senior Training Union of the church.

Officers were elected as follows... President, Miss Mary Rue Fox; vice president, Joy Parker; secretary, Otha Lindsey; Daily Bible reader, leader, Mrs. Carrie Ivie. Social Chairman, Mrs. John Driskell; Mission chairman, Miss Venita Roberts; group captains, No. 1, Margie Renfro, No. 2, Fred Grisham; Sponsors are Mr. and Mrs. John Driskell.

Those attending the meeting, included Joy Parker, Fred Grisham, Mr. and Mrs. John Driskell, Margie Renfro, Mary Rue Fox, Venita Roberts, Mrs. O. C. Fox, and J. D. Jordan, and the host and hostess, Mr. and Mrs. Ernest Hock.

All members of the department are urged to be present for the first regular meeting to be held next Sunday night at the First Baptist church, at 7:30 p. m. An interesting program has been planned, it was announced.

Mr. Hock is the Music and Educational leader of the church.

Lamb County and the low rate of \$2.25 is less than the photograph would cost if purchased in regular way.

However, as only a limited number of photographs will be offered free, and this offer is only good for a limited time, it will be to the reader's advantage to come to the Leader at once and arrange for your free photograph.

Arton G. Hackney, Brownfield, Elected 1st Dist. Commander American Legion

Arton G. Hackney, Brownfield, was elected first district commander of the American Legion at a convention held at Plainfield, Texas, Sunday and Monday, June 10 and 11. He will be installed during the convention in August in Brownfield.

He succeeds Charles E. Amarillo who was elected without opposition in his first year as state commander. Hackney will be elected during the convention.

Other officers elected were: Fred J. Sohl, Alpine, as divisional commander; Bill Eklina, state secretary; and Rev. J. M. Schrane, state chaplain of the district.

The resolutions were those of the American Legion and the letters of appreciation to the state and national officers who helped get the University Training Bill passed, and the GI Bill of Rights for war veterans, re-appointing Lewis Fields on the state Affairs Commission, supporting an amendment to the state constitution requesting more funds for the Veterans Land Board, and a resolution of appreciation for the regional VA office at Littlefield.

FATHER'S DAY

Affectionate Father's Day greeting cards will proclaim domestic fealty. Mom and the kids probably will slip Dad a neon necktie, too, and new slippers for his unions.

He'll have two blissful weeks to enjoy them—before the first-of-the-month bills arrive. Anyhow, Dad's prestige today is higher than it was in 1907, when Mother's Day was founded. "Poor father has been left out in the cold," mourned Jane Addams, famous social worker.

Mrs. John Bruce Dodd of Spokane, Washington, proposed Father's Day in 1909. She was one of six brothers and sisters raised by their father, William Smart, a Civil War Veteran, after their mother died. The Spokane Ministers Association sponsored the first city-wide Father's Day in 1910. President Coolidge recommended its nationwide observance in 1924.

Looking over history. Dad might conclude he's lucky to rate even one special day a year. Back in Ancient Greece, an annual festival honored Zeus, father of the Gods. His sacred statues were crowned with new laurel wreaths. But Zeus was also patron of human fathers. So dutiful sons anted-up to the traditional gift for dad—a cluster of ripe grapes.

Pharaoh Rameses II was Egypt's champion father—103 sons and 58 daughters. They battled so savagely over the throne that no succeeding Pharaoh dared have a large family.

In Roman days fathers could punish disobedient wives or children with death. But so many young-

sters ran from home that the Numina, or family gods, had to be invoked.

Julius Caesar wrote that discipline was stricter among the tribes of Gaul. They considered it a disgrace for a son in his teens even to appear publicly in his father's presence.

Campion Father of all time was Emperor Mulla of Morocco, who died in 1727 at the age of 81, leaving 548 sons and 340 daughters. He had 300 wives and 700 concubines. The Bible records that King Solomon had 700 wives and 300 concubines, but does not say how many youngsters called him the equivalent of "Hiya, Pop, y'old rag mop."

Only man to ever have 1,000 wives, apparently was Rama V, or King Chulalong Korn of Siam. When he died in 1910, he left 134 sons and 236 daughters—so many budding princes and princesses that the confused nation had been rocked by civil war ever since.

In present day dad's authority hits bottom in West Africa. There, when a son wants permission to marry he asks his eldest brother.

American Lads needn't feel too superior. Last year employees of the weekly magazine National Guardian negotiated for one-week "paternity leave" to play nurse maid to new mothers returning home from hospitals.

But whether Dad rules his young'uns with a ruler stick, or bribes 'em with ice cream cones, he's the most lovable guy around the family homestead. And the appreciative Father's Day cards he gets this year will tell him so!

SFC Hubert P. McCain Enroute Home From Korea

SFC Hubert P. McCain of Littlefield is returning to the United States from Korea under the Army's rotation policy. He was due at the Seattle Port of Embarkation aboard the Military Sea Transportation Service Vessel General M. C. Meigs June 9, 1951. As a part of the rotation policy each man will be authorized to take leave directly from the Port of Embarkation. This eliminated loss of time in returning to his hometown, if he so desires.

Pfc. Aubrey Neinast Returns To His Post After Visit Here

Pfc. Aubrey C. Neinast, son of Mr. and Mrs. W. P. Neinast, of Hart Camp, who has been in the service

in the principle of the effective operation of a General Motors dealership and was developed by key staff and divisional men in General Motors automotive distribution. It includes study in dealership accounting, management and administration, finances, new and used car sales, service and parts merchandising. Also included are courses in organization, dealing with people, financial control, development of plans and presentation of ideas.

Institute faculty members are added by General Motors divisional and staff executives who supplement regular instruction with addresses and presentations followed by discussion periods.

The eight-week program is designed to provide basic training

Merchants Asked To Contact C. of C. For Space.

The directors of the Lamb County Fair Association met at the Court House last Wednesday night, at which time reports were heard from various committees, on plans being made for the annual Fair to be held September 27, 28 and 29th.

V. S. Peterman of Amberst, president of the association presided.

Plans were discussed concerning the parade, special entertainment features, and of the publishing of the annual fair catalog.

Merchants who wish commercial space are urged to contact Littlefield Chamber of Commerce office, and make application for space.

Another meeting will be called early in July to make final plans, for the fair.

since January 2, arrived home Sunday, June 3, and left Monday of this week.

Pfc. Neinast has been stationed at Craig Field, Alabama and is with the Ground Crew of the Air Force. He has recently been attending a Career Guidance Training school at Denver for two months. He returned to his post at Craig Field, Alabama.

Texas dairy producers in 1950 produced approximately four billion pounds of milk that was valued at \$200 million.

Cow and Cotton Work Together

National Dairy Month, celebrated during June follows soon after National Cotton week, during May and the two events suggest the close relationship between cotton and cows in building the agriculture of the Cotton Belt, says A. L. Ward, Dallas educational director of the National Cottonseed Products Association.

"Dairying and cotton not only go hand-in-hand in a balanced farming program for the South and Southwest," Ward pointed out, "they also are dependent upon each other, as cottonseed meal and hulls are a major source of feed for dairy cattle, which provide a leading market for these products coming from cotton farms."

A grade Jersey—"Cow Number 13, at Oklahoma Experiment Station—gained fame, years ago, by proving conclusively that cottonseed meal may be safely used in as large amounts as necessary to supply protein in dairy cattle rations, provided that roughage or pasture supplies sufficient vitamin A," Ward added.

This cow consumed 20 tons of cottonseed meal and 32 tons of prairie hay during her lifetime and received no feed except cottonseed meal, prairie hay and a simple mixture after she was six months old. Her yearly average milk production was more than the average of all Oklahoma cows. She was a regular breeder and when thirteen years of age had produced eleven living calves.

Many other experiments, as well as the experi-

ence of dairymen throughout the United States, have firmly established the value of cottonseed meal as a protein concentrate in dairy rations. Cottonseed hulls likewise have been proved an economical, efficient roughage to supplement grazing and hays.

"Simple mixtures of cottonseed meal, roughage and supplemental minerals give good results and often are more economical than complex mixtures," he said.

"As the nation pays tribute to its dairy industry during June, dairymen have a direct interest in the efforts that cotton farmers are making to increase production of cotton this year to meet the need for large supplies of feeds, fiber and foods. Increased cotton production will mean much to livestock producers in making available more protein meal and roughage for livestock."

Ward said that for 25 years the cottonseed crushing industry has been working closely with dairy, livestock and educational organizations to encourage a balanced farming and livestock program, built around cotton, other crops and pastures and dairy cattle and other livestock.

The industry, today, is cooperating with federal and state research institutions on processing and feeding research to widen the usefulness of cottonseed meal in livestock and poultry rations, especially in feeding hogs and chickens.

DR. JOHN W. CLINE

Declaring that "no health crisis or medical emergency exists in this country," Dr. John W. Cline of San Francisco, new President of the American Medical Association, warned that the real danger lies in the double threat of war abroad and loss of freedom at home.

In his inaugural address, broadcast nationwide during ceremonies at the 100th annual session of the AMA, Dr. Cline expressed "deep and abiding faith in the intelligence and integrity of the American people," adding that "they will respond as they did when their medical welfare and their medical freedom were threatened."

The new President of AMA thanked the American people for having "spoken out clearly and emphatically" against socialized medicine during the past two and one-half years. He called for constant vigilance, however and said that American doctors will continue to "oppose socialistic schemes which would jeopardize the freedom of any segment of our society."

TEEN TALK

By VIVIAN BROWN

AU Newsfeatures

You can have a very successful summer by learning to be a good sport. You'll surely have more dates than the girl who isn't congenial.

To fit this role you'll have to learn to accept some responsibilities. You can't climb up a tree every time you see an ant or a rabbit or a squirrel and expect the boys to gander round and protect you. You will have to learn that you are on your own whether you are at the beach, in the country or doing the town.

First of all, if you don't know how to swim, you'd better take lessons. It not only will insure you more invitations, such as sailing and picnicking, but you won't worry your date to death when you are in bathing and he is swimming. A life-saving course is always handy knowledge to have tucked away so that you can come to the rescue in case of emergency.

Some girls avoid swimming lessons and look pretty silly sitting on the beach while other girls are in the pool enjoying themselves with their dates. A languid Susie might appeal to some man, if she otherwise has loads of charm. But don't expect him to date you again and again, if you just relax on the beach while he swims.

You should be able to accept responsibilities when picnicking, also. Knowing how to start a fire is one way and if you aren't a Girl Scout, get a boy friend to teach you how to start a blaze. Also learn how to put the fire out to prevent brush fires.

A first-aid course or book will prove invaluable in emergencies, as well as giving information on what to do about everything from snake bite to poison ivy. You should learn how to identify poisonous berries and leaves.

You can't expect the boy to do all the chores when he takes you out on a picnic. If the outing involves cooking outdoors, and you haven't been asked to bring anything but yourself, at least be a good sport about gathering rocks, bricks and sticks for the fire, if he plans to build it. Offer to do the cooking, unless you suspect he is getting particular delight out of preparing the vittles.

It is a good idea to study the habits of a new group when you are invited out with them for the first time. If they like to ride horseback, surf ride, fish, play tennis or badminton, try to catch on to these sports. Don't be an "aw, let's not do that" date. The first thing you know you'll be sitting home waiting for the telephone to ring.

Sometimes it is possible to dislike a particular sport. In that case suggest a good alternative and the crowd probably will take you up on your suggestion. Any boy who dates you will understand whether you are trying your best to be a good sport or going out of your way to dampen the spirits of others.

The spirit of team-work always enters into outdoor fun with a crowd. So be prepared to do your share. After a picnic, gather up the papers, bottles, cans and other

rubbish, and dispose of it in a place where it will not be an eyesore or a danger to others who might cross the path.

A good safe bet, always when joining a new crowd, is to be agreeable to their suggestions and to go out of your way to help with the chores. Doesn't it sound logical that you will be invited back again under the circumstances rather than if your just sat around complaining and expecting to be waited on? Popularity is easy to achieve if your have a good disposition and are agreeable. It makes no difference whether you are pretty or homely—to make a hit with the boys you've got to be a good sport and not a whiner.

Try it this summer and see how your stock goes up.

PAPER WEIGHTS FOR SHOW ONLY

LONG BEACH, Calif.—(AP)—Don Sparks collects paper weights. He has 245 of 'em, gathered all over the world, but not one is doing its duty.

Instead of holding down sheafs of papers, Sparks' collection is on display in a cabinet in his home. He acquires them for their value as curiosities.

His collection includes models from 24 states, Hawaii, Alaska, Mexico, Italy, Australia, New Zealand, Korea, the Philippine Islands and the South Pacific. Among them is an Irish crystal doorknob from the White House, which he obtained at an auction of the effects of Admiral Dewey.

HATS OFF TO "WEAN" NEW DELHI—An Australian bank clerk decided to take a year off world by motorcycle. They doff their hats any the hardy women guides of layas. Visiting Delhi after a climbing expedition led by Robert Chambers, Brian Chaseling, 29, ney, reported that the waders of the Sherpa Tribe ragged in the course of trek. Chambers and Chaseling within 80 miles of Mt. E then returned to make to Kallimpong, trading the edge of Tibet.

Utmost of Care Urged by Extension Specialist When Using Insecticides

The battle with bugs is now underway. As the fight becomes more intense, there often develops a tendency among the human fighters to become careless. Any relaxation of proper handling and methods of application of many of the commonly used insecticides can result in injury or even death, say the Extension entomologists of Texas A. and M. College, to the careless handler.

They point out that insecticides kept in the house should be stored only in a closed metal container. When insecticides that are classified as dangerous are being mixed or applied, the handler is urged to wear a respirator and avoid dust drift or spray mist. The clothing worn when dangerous materials are being handled should be removed and washed before being worn again.

They advise anyone to consult a doctor immediately if any degree of illness is noted during or after applying one of the dangerous type

insecticides. All fruits and vegetables that have been treated with insect poisons should be washed thoroughly before they are eaten. Applications of organic insecticides such as DDT should not be made within two weeks of harvest.

Materials that are highly flammable should not be stored in places where there is a fire hazard. When sprays are used in the house or barn, the specialists caution against getting any of the material in dishes, utensils and drinking or feeding troughs. Insecticides stored in barns or other farm buildings should always be clearly labeled poison.

The specialists suggest that you check with your local county extension agent regarding the toxicity of any particular insecticide.

SURE-FIRE LIE DETECTOR
MECHANICSBURG, Pa. —(AP)—The proof of the pudding is in the parking meter, says Burgess Ray E. Hutter of Mechanicsburg.

Singapore Harbor Devoid of Fire Fighting Boats

SINGAPORE—(AP)—Believe it or not, Singapore is the only big port in the world without a fire-fighting boat. Furthermore, it's not likely to get one, even though Fire Chief J. G. Shaw says "it is absolutely necessary."

Shaw told the municipal commissioners that the absence of a fire boat is alarming, as there are many millions of dollars worth of shipping daily afloat within Singapore harbor.

However, the committee which studied the question of a fire fighting service for the Singapore Harbor Board rejected the proposal because the gain in efficiency by having a fire boat "would not be commensurate with the expense involved."

Whenever a citizen fined for a parking meter violation says the meter doesn't work—and that's a favorite excuse—Burgess Hutter goes into action.

He accompanies the accused to the meter and inserts his own penny or nickel. If the meter works the fine sticks. If not, the citizen gets his money back. "The meters hardly ever fail me," says Hutter with a grin.

IS BOY SCOUT LEADER

Charles Mills, employee at the Brown-White Implement company Sudan, last week accepted the post of leader for the local Boy Scout troop. The position was open due to the resignation of Shelby Morris, long time leader of the boys.

The Scouts are meeting every Monday night at 7:30 o'clock in front of the school but are cleaning up the basement of the school for a future meeting place. Games are played after the meeting.

Mills will lead the boys on an overnight outing at Miller's Ranch on Friday night.

SLIGHTLY INJURED

Lawrence Daniel and Mrs. Hubert Carriothad, of Amherst, had a car collision recently. He received a cut on his forehead and shock and was confined to the South Plains Co-operative Hospital several days.

Mrs. Carrieco was driving west on 19th street and Daniels north on Henderson when the accident occurred. Fortunately Mrs. Carrieco and her young son who was on the back seat of the car were uninjured. Both cars were badly damaged.

POWER-PACKED
-and then some!

There are a lot of reasons you can expect a new GMC to keep hauling a lot longer than any other truck you can buy.

First is the fact of horsepower. Whether it's a gasoline-powered 1/2- to 2-tonner with horsepower unbeaten in its class, or one of the new heavy-duty Diesels—you can't beat a GMC for "go!"

But the extra value you find in these great trucks doesn't end at the power plant.

There's the smooth GMC Synchron Mesh Transmission linked to a sharp-shooting drive line, pouring every ounce of power back to the rugged rear axle. And the solid way horsepower becomes wheel-action—you know there's extra depth of truck performance engineered right down through a GMC's broad-shouldered frame!

And standing guard over these long-time trucks are husky brakes with more area than most—the surest, easiest steering ever devised to direct a pay load home—all controlled from a spacious "Six-Footer" Cab that's Weathersealed for a lifetime.

GMC's come in the widest range of engine-body-chassis combinations to fit any trucking need. The prices? No better buy anywhere! Come see for yourself.

Farmers Are Urged to Plant Grain Sorghums

Secretary of Agriculture Brannan emphasized to farmers of the Great Plains the dual opportunity they have of aiding the defense effort by planting grain sorghums, to prevent soil erosion and at the same time add to the nation's feed grains. "Every effort should be made to get some kind of protective cover on the abandoned wheat land, which for the second consecutive year affords opportunity of a large sorghum acreage," he said. "Last year Oklahoma and Texas farmers planted 7 1/2 million acres of sorghum and Sudan and reports show that stubble left at harvest of these crops has proved effective in protecting the land against later season blowing. In some instances sorghums planted as late as July made a feed crop with protective stubble remaining against wind erosion damage."

This year CCC has increased the price support level from 60 per cent to 75 per cent of parity to encourage sorghum production. The secretary said, "It's not a question of what we have to do in regard to planting grain, cotton or other crops, it is also a question of what we have to do in order to insure production next year and the next of as large amount of these crops as we need and man power will permit."

Flies Cause Great Loss to Farmer

Flies affecting livestock cause tremendous loss to the farmer each year. Therefore, it is to the livestock man's advantage to provide the best possible control of these pests. R. O. Dunkle, Young county agricultural agent, reports that many ranchmen in Young county are spraying their herds for hornfly control. Dunkle estimates that if one-half of the cattle in the county were sprayed regularly through

WIDOW OF PRINCE—Billie Evelyn Bridges (above) recently created a stir with claims she is the widow of a Prince of India. Her mother, Mrs. E. Duke of La Faria, identified her daughter as the former Billie Evelyn Duke, the eldest of her nine children. Her marriage to Prince Indrapit, younger brother of the Maharaja of Cooh-Behar, was her third, her mother said. The former La Faria girl seeks to establish her rights as the widow of the prince who died in a fire. (AP Photo).

THIRD IN LINE Senator Howard Carney of Atlanta (right) is shown taking the oath as the Texas Senate President pro tempore. He became third in line to the governorship. The oath was administered by Lt. Gov. Ben Ramsey while fellow senators look on. (AP Photo)

the fly season, beef production would be increased over half a million pounds. Charlie Cave, Kaufman county

cattle breeder, said recently that the cattle in his herd, which were sprayed last year, were at least 10 per cent better than unsprayed animals. It is usually necessary to apply specific control measures for each species of fly, says James A. Deer, assistant entomologist for the Texas Agricultural Extension Service. Deer points out also that different control measures are required for different types of livestock. Dairy cattle should not be sprayed with insecticides that may contaminate the cows' milk. He suggests that livestock men contact their county agricultural agents for the latest recommendations on controlling hornflies, stable flies, horse flies and houseflies. Hornflies alone may cost the livestock producer 50 pounds or more of beef per animal a year.

PLENTY DEGREES COOLER INSIDE

THESE folks are enjoying something that's being pioneered by Buick. It's freedom from the blinding glare of bright summer sunlight. It's freedom from hot laps—caused by the sun's rays beating down through the broad expanse of windshield. These freedoms trace to a new feature you may have noticed in '51 Buicks—a new kind of glass with a cool, soft, blue-green tint, in every glass area of the car, front, side and back. Buick engineers tell us that this "Buick first" reduces glare 18% over conventional glass—cuts sun heat as much as 45%—and Buick engineers are very conservative fellows. This glare-and-heat-reducing Easy-eye glass is factory-installed at moderate extra charge. It gives you a built-in transparent "sun visor" right in the windshield—and it also dulls the dazzle of oncoming headlights at night. As we've said, this is something Buick owners were the first to enjoy. It takes

its place with such exclusives as the valve-in-head Fireball Engine—coil springs on all four wheels—the firm power linkage of torque-tube drive—and the magic of Dynaflo.* As we've also said—rather modestly—"Smart buy's Buick." Come in soon and find out what an understatement that really is. Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

- No other car provides all this:**

About People You Know

Mr. and Mrs. Bob Copeland of Floydada arrived Saturday afternoon and spent the weekend with her parents, Mr. and Mrs. Herbert Dunn and family. Mrs. Copeland, who is the former Miss Nina Jo Dunn, furnished the piano music at the Hamilton-Sewall wedding Sunday morning.

Miss Katherine Wright left for Dallas the latter part of last week to resume work at the Southland Life Insurance Company. She has been convalescing at the home of her parents, Mr. and Mrs. Fred Wright, 802 7th street, following a serious automobile accident in February, when she was enroute home from Dallas. She was a patient in a hospital for several weeks, following the accident, and had her right hand in a cast. The cast has recently been removed and she now has the use of her arm and hand.

Cpl. Gene Pratt, with the armed forces stationed at Camp Polk, La., arrived home last Saturday for a visit with his parents, Mr. and Mrs. G. C. Pratt. He was granted a 13 day leave.

Mr. and Mrs. H. C. Edmonds returned home last Tuesday night from Roswell, N. M., where they attended graduation exercises at N. M. M. I. Their son Clyde Edmonds was a member of the graduation class. He is visiting his parents, and awaiting orders to report for duty in the armed services.

Mrs. Anne Louise Wiseman was in Littlefield Thursday night, and attended Installation Services of Littlefield Chapter, Order of the Eastern Star. She is attending summer school at Texas Tech, and is working on her master's degree.

She taught in a school near San Antonio the past year.

Mrs. Marye Sales is taking her annual two weeks vacation from her duties as sales clerk at Dunlap. She left Friday for McGregor where she will spend a few days visiting her mother.

Mr. and Mrs. J. Don and Edgar arrived in Littlefield Sunday night to spend a day with his parents, Mr. and Mrs. J. V. Eagan and her parents Mr. and Mrs. John A. Price. They left the first part of the week for San Diego, California, where he will be stationed at the Naval Air Base.

Mr. and Mrs. Pryor Hammons Sr., left Sunday morning for Houston to spend a week with their son, Pryor Hammons, Jr., and family.

Guests in the home of Mr. and Mrs. Lloyd Sewell this week are his aunt, Mrs. Emma Blackaby, and her daughter and family, Mr. and Mrs. Amos Shaw and children all of Birmingham, Alabama. They are also visiting Mr. Sewell's sister and family, Mr. and Mrs. D. H. Montgomery at Whitharral.

Mrs. T. E. Hamilton who has had a three months leave of absence from her duties as head of the alteration department at J. C. Penney Co., due to illness, was able to return to her work Monday morning. Mrs. Herbert Dunn has been working during her absence.

Mr. and Mrs. Ollie Davis spent Sunday in Lubbock with their daughter and son-in-law, Mr. and Mrs. Billy Perkins and family. They were accompanied home

by their little grand daughter Tanya, who spent two days in their home.

Guests in the home of Mr. and Mrs. Otis Witcher over the weekend were their son, Pfc. Floyd Pinkerton and a friend, Pfc. James Thompson, of Wisconsin. Both boys are stationed at Sheppard Field, at Wichita Falls.

Mrs. C. L. Johnson was stricken with a heart attack Friday evening at her home on 14th street. She was rushed to Amherst Co-operative hospital, where she is receiving treatment. Her condition is improved. Mrs. Johnson is the mother of Mrs. Ollie Davis, also of Littlefield.

Mr. and Mrs. R. A. Bigham returned home Sunday afternoon after spending the past several days vacationing in Central Texas, where they enjoyed visiting various relatives. Mrs. Bigham was taking her annual vacation from duties at the Security State Bank, and Mr. Bigham is employed at the White Irrigation and Sprinkling Plant.

Mr. and Mrs. James Stokes and children, Jim and Carolyn, of Dallas, arrived home Sunday to spend a month here. Mr. Stokes is attending Baylor Dental School and his family have been living in Dallas.

Mr. and Mrs. J. M. Stokes left Tuesday for Pampa, Texas to visit their daughter, Mrs. Richard Cutting and children, where they will spend a few days following which they plan to go to Afton to visit Mr. Stokes father, A. P. Stokes.

Kenneth Houk and E. J. Froust left Thursday by train to attend the Grocers Convention at Chicago. They boarded a special train from Fort Worth. They are expected to return Saturday.

Workers' Meeting Will Be Held At Springlake Friday

The Worker's conference of the West Plains association will be held at the First Baptist Church of Springlake Friday, June 15. Rev. C. T. Jordan is the pastor of this church.

This conference is being held one week earlier than the usual time due to the Southern Baptist Convention. The program will be as follows:

- Theme:—Fishing For Men
- Scripture:— Matthew 4:19
- 10:00 Song and Prayer Joe Dunn
- Six Things Are Needed To Men.
- 10:30, 10:10 1.—Rod—The Bible C. C. Holcomb.
- 10:30 2.—Line—Prayer F. N. Allen
- 10:50 3.Hook—Faith Dale Lavelander
- 11:00 4.—Reel—Common Sense E. L. Minor
- 11:20—Song and Announcements
- 11:35 5 Bait—Love J. E. Moore
- 12:00 Noon (Lunch Served By Host Church)
- 1:15 W. M. U. and Executive Board Meetings.
- 2:30 Song and Prayer— Joe Dunn
- 2:35 Hand New—The Church—C. C. Morgan.

Pfc. Benny Ross To Be Stationed At Luke Field, Arizona

PFC. Benny Ross, youngest son of Mr. and Mrs. E. C. Ross, with the United States Air Force stationed at Sheppard Field, Wichita Falls, spent the weekend here with his parents. He has received orders that he will be transferred from the base at Wichita Falls, to Luke Field, Arizona, and will leave there the latter part of this week.

Thomas Ernest Enters Denver University

Thomas E. Ernest of Littlefield, who has served as Lamb County supervisor of the Amherst, Sudan and Spade schools, plans to leave tomorrow, (Friday) for Denver, Colorado where he will enter the University for the third consecutive summer school session.

Mr. Ernest has his Master's Degree from Oklahoma A. & M., and Oklahoma University and is now working toward an Education (Doctor's) degree.

Before coming to Lamb County as supervisor, he served as principal of the public schools at Mador.

GETTING HER MAN—Miss Evalene Dampier of Tunas, Mo., winner of the "Why I Think Texans are Liars" contest sponsored by the Madisonville Sidewalk Cattlemen's Association, hog-ties Bill Forrest, president of the Association. Miss Dampier said Texans lie about the weather, the scenery and romance. Her letter won her a trip to Texas. (AP Photo)

Veteran Must Be In Training by Cut-off Date Under GI Bill

Veteran Administration today answered several questions veterans have been asking most frequently about the July cut-off date for starting GI Bill training.

The July date applies to World War II veterans discharged before July 25, 1947—and this includes most who served during the war. Veterans discharged after the 1947 date have four years from their discharge in which to begin training.

Many veterans have asked whether the filing of an application for training before the cut-off date is sufficient to enable them to train afterwards.

VA's answer is no. A veteran actually must be in training by the cut-off date in order to continue afterwards. VA said it will consider a veteran to be in training,

even though he has temporarily interrupted his course for reasons beyond his control, such as the summer vacation.

A veteran who had once started a course and now cannot resume it because he has returned to extended active duty is also considered to be interrupted for a reason he cannot control.

Other veterans, in school under the GI bill during the regular school year, have asked whether they will be required to attend summer school in order to return to class this coming fall, after the cut-off date.

Those veterans need not attend summer school, VA replied. Their summer vacation will be considered an interruption which is normal to students—and therefore beyond their control—and they will be permitted to resume training this fall in the same field of study.

A number of veterans who have had GI training some time in the past have been asking whether, because of that fact, they would be exempt from the July 24 cut-off date, and could start new courses after that date.

The cut-off date will apply to them, VA said, unless they have returned to military duty and won't be able to start a course on July 25 for that reason.

Many World War II veterans who have gone back into uniform have been concerned about the forthcoming cut-off date and how it will affect their future plans for GI Bill study, VA stated.

Techsans Go to Summer Camp

LUBBOCK, Texas—(Special)—Eighty-seven ROTC students from Texas Tech will begin a six-week summer training camp next Saturday (June 16).

This training, necessary to advanced students before they are commissioned, will be conducted at four different camps, depending on the branch of service. The training will be completed July 27.

Col. Willard White, professor of military science and tactics at Texas Tech, is camp commander for the Engineer Corps center at Fort Belvoir, Va.

ROTC officials announced that some 30 percent of the cadets going to camp have been tentatively designated as a Distinguished Military Student. Should they maintain this high standard of proficiency until graduation, they will be eligible for consideration for a commission in the regular army.

Cadets who will attend the Belvoir training are: Jack C. Alderson, Forrest H. Burnham, and Merwin R. Newberry, all of Lubbock; Richard E. Clark, Larry A. Bedford, and Elmer F. Lamb, all of Midland; Doris D. Fincher and Joseph B. Ashton, Lamesa; James L. Farrell, Amarillo; Don C. Fish, Snyder; Ralph M. Hermes, San Antonio; Irving H. Lawson, Jr., Dallas; William D. Leonard, Forsan; James P. Miller, Tulla; Nell E. Pask, Balmorhea; William H. Perry, San Angelo, and Roy L. Stine, Vernon.

Signal Corps cadets who will go to Fort Monmouth, N. J., are: Louis E. Adams, Emmett C. Adair, Larry E. La Roe, William C. Mc Kinnon, John C. Norcross, John C. Pinson, Bill C. Powell, and Delta D. White, all of Lubbock; Charles E. Orren and Charles I. Powell of Fort Worth; George C. Lowe and Paul L. Westfield of Gruvar; Glen E. Berry of Muleshoe; William D. Boser, Ennis; Benny M. Bruckner, Amarillo; Coffee R. Conner, Archer City; Joe B. Crank, Whitharral; Gayle

E. Ferguson, Perrytown; Calvin G. Finley, Happy; Daniel B. Fleming, Mevin; Frank N. Foster, Pecos; Paul E. Cross, Levelland; Robert W. Larrabee, San Antonio; John D. Ochsner, El Dorado; Loys S. Purvis, Sulphur Springs; Irving L. Reese, Waco; Pat Ridge, Lubbock; John T. Robertson, Lenton; Charles A. Roden, Sweetwater; Sterling M. Rodgers, Tulla; Charles R. Swan, Jacksboro; Zane G. Tomlinson, Seminole; Marlon G. Whitmire, Snyder, and Frank W. Wington, Borger, and Warren N. Lacey of Fort Worth.

The following Tech cadets will train at Fort Hood, Texas where the infantry students in this part

of the nation will hold their encampment: James C. Adams, Leonard W. Holland, Robert D. Leonard, and George A. Young, all of Lubbock; Vernon R. Brown, Frank H. Clark, Louis R. Grodon, Coral E. Gillham, Robert L. Gidley and Richard M. Hardesty, all of Fort Worth; Wayne A. Higgs and Robert O. Duff of Dallas; Johnny F. Brewer, Haskell; Archibald T. Broadwell, Colorado City; John W. ON THE TRAIL: School Children Learn Religion From Trailer

AP Newsfeatures

SANTA MONICA, Calif.—School children here get religious education with a 1951 touch. They meet for Bible instruction in a super-modern trailer, fully equipped with the latest audiovisual aids, including movies.

The youngsters are released from their regular school classes for one period each week to attend religious courses sponsored by the Santa Monica Bay Council of Churches. Formerly they met in nearby centers for these "released time" sessions. Now when they pour out of school they find the mobile class room parked right outside.

Built to order, the trailer cost approximately \$3,800, including furnishings. It will accommodate 4 pupils at a time, is 4 feet long, seven feet wide and seven feet high. It is furnished with two-pupil desks and individual chairs, chosen for the height of the children who will occupy them.

An altar, backed by red velvet drapes and equipped with a Bible and electric candles, makes it possible to transform the trailer into a chapel.

During instruction, Miss Ruth E. Cleveland, supervisor and teacher, raises a curtain to reveal a blackboard which she uses to illustrate the lessons. Windows are provided with dark curtains which are drawn for film or slide demonstrations on a screen that can be lowered from the ceiling.

A fuel oil heater with a fan to circulate the air keeps the trailer at the desired temperature and provides ventilation. The interior is finished in matching panels of light birch. Twelve swivel base-lights provide illumination.

Subjects taught in the trailer classes include "Stories of Jesus and His Church," for fourth graders, "Leaders, Kings and Prophets," for fifth grade pupils and "The Bible, Our Guide For Happy Living," for sixth graders.

Reverend Wales E. Smith, president of the "released time" program for the Santa Monica Bay

Super Chickens Do "Double Take" For U. S. Dinner Tables

Chickens now are eating less—so most Americans can eat more.

While the foregoing might seem paradoxical, full proof was offered last week at the University of Arkansas, Fayetteville, Ark., where the world series of the poultry industry neared a climax. The goal, according to poultry leaders, is to find still more means of keeping poultry prices low in comparison to rising costs of other food.

Pens of almost 400 meat-type chickens from each of the nation's 48 top breeders, 15,404 chickens in all, at 10 weeks of age produced an average of three pounds of chicken on a little more than half the feed required by poultry flocks as little as three years ago. Competing are breeders from 22 states.

This so-called "World Series" is the National Chicken-of-Tomorrow Finals sponsored by A and P Food Stores and supervised by a committee of poultry leaders from the U. S. Department of Agriculture and all national poultry organizations. The food chain will award \$7,000 in cash to the highest-scoring breeders June 15, when the full 12-week growing test is completed.

Actual records at the end of 10 weeks in the national contest revealed that the 15,404 chickens in the contest pens had consumed 123,520 pounds of feed for a feed conversion rate of 2.62 pounds of feed for each pound of chicken. Three years ago the nationally accepted feed ration was four pounds of feed for each pound of chicken produced.

Representatives of every major Council of Churches says one of the greatest values of the classes is that they attract children who are not related to any church or Sunday School.

Sudan Grocery Entered, Robbed

Henderson grocery, located on the Sudan highway, was entered and robbed of \$21.42 early Monday morning, of last week, between two and three o'clock.

The store's safe, located near the cash register, was dragged through the side door where the thieves had entered. The knob and handle of the safe were knocked off and the safe itself was smashed in with a sledge hammer.

The men had backed a car up to the building evidently planning to load the safe and carry it away. However, they must have been frightened by something before they could take the safe because the deep tire tracks indicate that they left in a hurry.

Mrs. John Moore and Mrs. M. M. Shearer, nearby neighbors, happened to awaken between 2 and 3 o'clock that morning and both the ladies saw some one with a sledge hammer. It is reported that since the man was about the size of Mr. Henderson, proprietor of the store, the ladies thought it was he changing a tire.

The store was fully insured for robbery and the case is in the hands of the local deputy, Tommy Gilbert.

poultry-growing region of the nation will be on hand June 15 to participate in ceremonies climaxing the three-year. Nation-wide contest with something more than statistics—parades, speakers, exhibits, discussion forums and—plenty of barbecued chicken from a special grill large enough to cook chicken to feed thousands of people at one time.

Highlight of the speaking program will be Vice President Alben W. Barkley, who will pay tribute to the nation's poultrymen for the role they have played in helping keep America well supplied with one of its all-time favorites—chicken dinner.

Easy Does It When Sharp Hoe Is Used to Cultivate

Research Has Outmoded Hard Work of Deep Cultivation. An Inch or Two Is Deep Enough.

As soon as seedling plants show in the garden row, cultivation should begin; and if it is not to do more harm than good, the cultivator should take it easy.

The old idea that the deeper you stirred the soil, the better, has been cast aside, completely. To cultivate in the modern manner you first sharpen the hoe blade, for it is to be considered as a cutting tool.

Draw the sharp hoe blade toward you so the top half-inch of the soil is sliced off. This will uproot or cut off all weeds which may have started, and get under the crust which may be forming in the soil. It will not disturb the plant roots, or stir the soil deep enough to cause the top layer to dry out.

Keep far enough away from the plant row so that none of the seedlings is injured, yet close enough to kill all the weeds that can be reached safely. This is not hard work, and should be done frequently enough to prevent weeds from reaching any size, and to keep the soil surface porous, so air can reach the plant roots.

Heavy soils are easily compacted, and form crusts quickly when the sun beats down.

The old-fashioned goose-neck hoe is a most satisfactory tool for all

cultivating tasks. If you need a hand cultivator, to use in the vegetable row or in small corners where a big hoe cannot function, then a putty knife makes a good one, if you cannot get a better.

Cultivate after every rain, when the soil has dried out enough to crumble. Begin cultivating as soon as your crops appear above the surface, and there is no reason why a weed should ever grow in your garden which requires to be pulled by hand. Except of course in the vegetable row itself. Here, a few hours' work on your knees, pulling up the weeds, usually when you are thinning out the crop, will usually clean up the rows for the entire season.

Free air circulation in the soil has been proved to be a vital factor in the growth of plants. In properly porous soil there is a complete change of air to a depth of eight inches every hour. When the soil becomes compacted and crusted on the surface, this exchange is seriously hampered. Crust formation can be checked by various methods, including the application of a mulch, or by growing a living mulch of fescue grasses. But lacking a mulch, frequent shallow cultivation is necessary, especially after every rain.

Dollar for Dollar you can't beat a Pontiac

A Beautiful Long-Time Investment!

We admit that one of the very important attractions of the new Silver Streak Pontiac is its captivating appearance. Nearly everyone says it is a really beautiful car. But if Pontiac didn't have something in addition to its beauty, it couldn't possibly be in such tremendous demand today. That additional something is Pontiac's famous dependability. Talk to any Pontiac owner in town and you'll hear a wonderful story of months and years and thousands of miles of enjoyable driving with a minimum of routine service attention.

When you add to the pride of driving the most beautiful thing on wheels the never-ending pleasure of its performance and dependability—plus the knowledge that Pontiac is outstanding as a used car value—then will you realize that, Dollar for Dollar You Can't Beat a Pontiac—a beautiful, long-time investment! Come in and get the facts.

"I got the story on

50,000 Miles-No Wear

and changed to New Conoco Super Motor Oil"

says R. L. Emerson
Traveling Salesman
Cedar Falls, Iowa.

"I travel 60,000-80,000 miles a year. I thank Conoco for oil that lets me operate at such low expense," says Mr. Emerson. "With me it's Conoco Super or none!"

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence; in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

GARAGE OWNER

"I recently gave Conoco Super a thorough test," writes A. E. Stanbridge, Garage Owner, Salt Lake City. "My engine never performed more perfectly. Conoco Super gave me 'super' economy in oil consumption and gasoline mileage."

MAIL CARRIER

"I depend on my car for my living, so I'm looking for the best in motor oil," states Ewell T. Roe, Rural Mail Carrier, Waxahachie, Texas. "I've found it in Conoco Super. This car still runs like new, after 40,000 miles of service!"

Big Producer In New Hockley Pool Is Completed

Best well in the Anton West-Clear Fork pool has been completed by Sunray Oil corporation. Sunray's No. 1 Loper estate, pool south extension, pumped 117.29 barrels of 25-gravity oil plus two per cent water on official 24-hour potential.

Production is from open hole between the seat of the casing at 6,562 feet and total depth of 6,574 feet. Gas-oil ratio was 325-1. Pay had been acidized with 1,000 gallons of acid.

The No. 1 Loper makes the fifth well in the newly discovered pool located six miles west of Anton. The new well is 660 feet from north and west lines of labor 11, league 693, state capitol land survey.

One location to the east, Sunray No. 2 Lily Loper was drilling Thursday below 4,055 feet in lime.

One-quarter mile northwest of Whtharral, Jack L. Hamon No. 1

most likely to be affected, and from other signs of changes in the body he can tell whether it was due to rheumatic fever or to something else.

As the acute phase of rheumatic fever disappears, those wart-like growths usually shrink into that trap door, permanently changing the shape of the flap and throwing it out of shape. With new attacks of the disease, the flap gets more and more out of shape until it may become so deformed as to not function at all.

That is one of the pictures of rheumatic fever through there are many other paths it may cut and create serious damage. Since it may progress through the body so slowly that its presence is not made evident, the regular health checkup for all youngsters should be all means be continued through teen age. A doctor who checks your child regularly, will know if any change in the child may be a signal of rheumatic fever.

There is nothing specific, aside from the general rules of good health, that you can do to keep a child from having rheumatic fever. But there is much your doctor can do to prevent its making an invalid of your child by early decisions of the signs and heeding the warning, "Road repairs ahead, drive slowly."

Jim Horton, slated 10,000-foot wild-cat 1 nabor 9, league 716 State Capitol land survey. Thursday was cutting at 7,490 feet in lime and dolomite.

Honolulu Oil corporation and Signal Oil and Gas company No. 1 Clyde Paschell, south outpost to the Ropes-Pennsylvanian pool of east-central Hockley. Thursday was drilling below 5,685 feet on a 9,500-foot contract. Location is in league 5, Wilbarger county school survey.

Scrap Iron Drive To Be Staged By Amherst Scouts

The Amherst Boy Scouts of America are to have a scrap drive for iron, Saturday, June 16.

The trucks will collect the scrap iron on that day. Everyone is asked to donate to the Scouts if

they have scrap iron. This iron will go to the government.

Anyone having scrap iron is asked to contact any scout member or D. T. Stiemmons, scout leader.

It's a paying proposition to handle all insecticides carefully. Don't take chances. Follow the recommendation of the manufacturer in handling, mixing, apply and storing the "bug killing" materials on the farm.

SPADE NEWS

MOVED TO SPADE

Rev. and Mrs. Carl McMasters have moved to Spade recently. Rev. McMasters is the new Methodist Pastor. He was the Pastor of the Earth Church for the two past years before coming to Spade. The McMasters have only one son, who is attending Texas A. & M.

Evening Services ----- 8:00 p. m.

MOVE TO LUBBOCK

Mr. and Mrs. Bob Mayon have moved to Lubbock where they plan to make their home for the present.

VISIT IN MULESHOE

Mr. and Mrs. R. A. Leonard spent Sunday visiting with Mr. and Mrs. L. T. McKillup of Muleshoe.

PAINT PARSONAGE

Several of the members helped in painting and remodeling the Parsonage. They also got new curtains for the house.

BUY PIANO

A piano and mimeograph machine was purchased for the children's department.

Each Sunday services will be as follows:

Sunday School ----- 10:00 a. m.
Worship Service ----- 11:00 a. m.
M. Y. F. ----- 7:30 p. m.

MORTON VISITORS

Mr. and Mrs. Coy Dale Mote, who have recently moved to Morton, spent Saturday night and Sunday visiting Mr. and Mrs. T. O. Mote.

VISIT IN POINTER HOME

Bobby Westbrook of Lubbock spent Sunday night visiting in the H. P. Pointer home.

STANLEY PARTY

Several attended a Stanley party held at the T. B. Elder's home last Tuesday afternoon. Refreshments of punch and cake were served.

VISIT IN SHALLOWATER

Mr. and Mrs. Loy Mouser and children and Joe D. Greer of Shepard Field Air Base spent Sunday visiting with Mr. and Mrs. Adis Greer in Shallowater.

MOVE TO ROUNDUP

Monday Mr. and Mrs. Homer Worley and children moved to Roundup, where they will make their home for the present.

SUNDAY GUESTS

Mr. and Mrs. D. W. Fointer had as their Sunday guests Mr. and Mrs. H. P. Pointer and Mr. and Mrs. Preston Pointer and Mr. and Mrs. Doyle Bowen.

VISIT MINERAL WELLS

Mr. and Mrs. T. B. Elder are visiting in Mineral Wells in the home of Mr. and Mrs. Hartsell. Mr. and Mrs. Bob Mann and Mr. and Mrs. B. O. Elder. They also plan to spend Father's Day there.

VISIT PARENTS

Jo Way of Lubbock spent the weekend visiting her parents, Mr. and Mrs. B. D. Morgan.

REV. KELLY VISITS SPADE

Rev. Kelly of Anson held the morning and evening services at the Spade Baptist Church Sunday.

Rev. Miner of Muleshoe will conduct the services next Sunday.

VISIT GREER HOME

Rev. and Mrs. Kelly spent Sunday visiting with Mr. and Mrs. J. A. Greer.

GUESTS IN SAVAGE HOME

Mr. Lester Denny and son, Billy of Barstow, California are visiting with Mr. and Mrs. W. S. Savage.

Closes Successful Bible School

The Parkview Baptist church closed a successful Vacation Bible School the past week. Eighty-two were enrolled with an average daily attendance of 69. There were 16 workers in the school and all are members of the local church. Plans are being made now to hold a bigger and better school next year.

Band Students Take Special Course at Tech

A school bus loaded with approximately 35 members of the Junior high school leaves Littlefield each morning, for Texas Tech, Lubbock, where they are attending a six-week course in band music and band music theory. Don Hayes, band leader accompanies the group. The bus leaves about 7 a. m., and returns around 5 p. m. The trips are made six days each week. They return at noon on Saturdays.

It's time to set flowers that you will want for late summer blooms.

Confirmation and Holy Communion Services At St Martin's Sunday

Confirmation of four children and Holy Communion services will be held at St. Martin's Lutheran Church in conjunction with the beginning at the 11 o'clock hour, regular morning worship services, Sunday, June 17th.

Children confirmed will include, Walter Henry Hill, son of Mr. and Mrs. Walter Hill, Charles, Tischler, son of Mr. and Mrs. E. C. Tischler, Jerrell Wells, son of Mr. and Mrs. J. W. Wells of near Spade, and Melva June Cathus, daughter of Mrs. J. Osthus of near Spade.

SANITONE CLEANERS 102 East Tenth St. Littlefield

It's always interesting to hear about future-looking experiments with new super engines to run on new super-octane fuels...someday.

But it's even more interesting to hear today's real life, on-the-highway talk about Chrysler's new super-performing FirePower engine. FirePower takes any regular grade gas you care to buy... and adds its own

180 HORSEPOWER Here's the new Hemispherical Combustion Chamber that's the heart of Chrysler FirePower. Its new, designed-in "mechanical octanes" make regular grade gas do what best premium grades can't do in any other engine you can drive today!

new mechanical octanes to the power-giving octanes of the gasoline itself. The result is 180 horsepower performance such as no other passenger car built in the U.S. today can equal.

If you haven't driven Chrysler FirePower yet, your Chrysler dealer invites you to do so now. It's the most revolutionary engine in 27 years. It offers highway satisfaction and safety such as you've never known.

And it's a sounder engine other ways than any other on the road. Its new design keeps it almost completely carbon-free. It is smooth and quiet... but also rugged

and strong and free from need for great attention and repair.

Now remember that this same new Chrysler offers you the new Hydraguide power steering*... plus the amazing new rough-road stability of Oriflow shock absorbers... plus Water-Proof Ignition, and Vacuum-Ease Chrysler Cyclebonded super-brakes... then come see what we mean when we say the car of your tomorrow is right here for you to drive... today, and for years to come!

*Hydraguide regular on Crown Imperials, optional extra cost on other Imperial and New Yorker models.

Chrysler FirePower finest engine ever put in an automobile
