Cool Weather Stalls Cotton

About two-thirds of Lamb County's cotton crop is planted but the young crop virtually has been at a standstill because of cool weather, agricultural observers said this week.

THE WEATHER

Today's forecast - Cloudy to partly cloudy with scattered evening and afternoon showers.

Temperatures - Sunday high 81, low 55; Monday high 75, low 44; Tuesday high 79, low 44; Wednesday high at noon 68, low 58.

Moisture - .46 for the month, 2.90 for the year; 1.24 this time last year.

City Council Meeting Is Set Tonight

City councilmen will open bids on a two-ton truck for the water department and equipment for the fire department at a regular meeting at the city hall tonight at 7 p.m.

The two-thirds figure for the county includes about 90 per cent of the irrigated cotton land and 40 per cent of the dry land, Asst. County Agent Herb Helbig estimated.

Most of the rest of the crop will be planted late this week or early next week, Helbig added. Optimum planting dates normally are May 5 to May 20.

On a county-wide basis, most farmers would be better off without rain at the moment, he said. Rain would help some dryland cotton farmers, but moisture also could set up some unfavorable conditions for cotton just coming up.

A late-season cool spell, in which temperatures dropped to 37 degrees here last weekend, has put somewhat of a damper on the fast start cotton farmers got this year.

But County Agent Bill Kimbrough said he believes the cold snap has caused little damage, other than hampering growth of young plants.

The frost might felt there will be the result of a result of the cool spell. But he said the cold weather will increase the hazard of seedling diseases attacking cotton.

Cold temperatures, he said, set back germination of the seed, setting up conditions favorable for seedling diseases to give trouble.

Bill Davis Family Ends Tour

Indonesia Always Hot; Servants Cost Little

By BILL TURNER

How would you like to live in a country where it's summer the year round?

Where you can hire servants for \$3 per month?

Take it from Mr. and Mrs. Bill Davis, visitors here this week, it isn't as wonderful as it sounds.

Davis, son of Mr. and Mrs. L. B. Davis of Littlefield, has just completed a 2 1/2-year tour of duty with Caltex Pacific Oil Co. on the island of Sumatra, one of 3,000 islands which make up Indonesia.

Mrs. Davis and their four children have been with Bill on Sumatra the past two years. Indonesia, located south of Tai-

land and Malaya, is "always hot - day or night," says Bill. About the only change in the weather, he adds, is rain. The rainy season lasts almost half the year, dumping up to 200 inches of rain a year on the islands.

"Servants don't cost much," says Bill, "but they aren't worth even \$3 a month."

Davis, a geophysicist with Caltex, and his family are headed for cooler country - the Canary Islands, located 500 miles south of Spain just off the west coast of Africa. There temperatures stay within a 50-85 degree range the year round.

Bill has won a promotion and a new assignment with American Overseas Petroleum Co., parent company of Caltex Pacific. The company's oil development program will take him to the deserts of Africa, the Spanish Sahara, to be specific. He expects to be on this assignment at least two years.

The 37-year-old geophysicist and his family are looking forward to their next home. "It'll give us an opportunity to see Europe," Bill explains.

Indonesia has some natural drawbacks with its continuous hot weather, jungles, swamps, snakes and tigers, says Grace Davis.

"We found tiger tracks in our front yard one morning," Mrs. Davis explained.

"But the Indonesian people are wonderful," she said. "They'll do anything to make you happy."

One time, when the Davises vacationing on the island of Java, a native hotel waiter went out on his way to make sure things were right for the Americans.

"No American will drink water in Indonesia until it has been boiled or otherwise purified," said Davis. "When the waiter brought water to our table, we asked him if it had been boiled."

It hadn't been, Bill explained, so the waiter took it back to the kitchen. He came back a few minutes later with the water.

"It was still boiling hot," Bill laughed.

The Davises then asked the native if the water had been filtered. That drew a blank, so Bill tried to explain.

"Do you have a water filter?" (Continued On Page Seven)

With multiple candidates in several of the races, it is almost certain that Lamb County will have a run-off on June 4 to decide the nominees in some county as well as state races. (A sample ballot, sponsored by Caprock Fertilizer Co., is provided on page 6.)

Top voting strength in the county is in Littlefield's precinct 12, where 1,803 poll tax receipts and exemptions have been issued. The figure in precinct 1, Otton, is 1,008. Some of the other large boxes in the county are Earth 567; Sudan, 451; Amherst, 354; North Littlefield, 320; Spade, 313; and Springlake, 236.

Sheehan Vs. Young

Competing in the district attorney race are incumbent Bill Sheehan of Friona and Jack Young, Muleshoe attorney. Lamb, Bailey and Parmer counties make up the district.

Opposing Sheriff Dick Dyer in his candidacy for re-election is Loy Dalton, formerly a cable operator here.

In the race for state representative are incumbent Jesse Osborn, Clarence Hamilton, Springlake teacher - farmer, and Bill Shelby, Hart teacher - farmer.

The 96th district includes Lamb, Bailey, Parmer, Castro and Deaf Smith counties.

Commissioner Races

High interest has been indicated in the county commissioner races. (Continued On Page Seven)

Good Citizenship... Government

Presidential elections begin at the home-town level, as interested individuals attend precinct conventions. The precinct convention is the only time a voter can help plan the policies and platform of the Texas Democratic party. And it is the only way the individual citizen can participate in the selection of a party's presidential nominee. Democrats throughout the State will hold precinct conventions Saturday. A complete listing of Lamb County's precinct conventions is shown on this page.

This newspaper believes in good citizenship... likewise it believes that good government comes from individual interest in a president of the United States as evidenced on the precinct level.

On the American scene today, one man stands forth as a leader of men, unparalleled in modern time. That man is United

States Senate Majority Leader Lyndon B. Johnson... trained, seasoned, experienced and proved by years of performance.

This newspaper believes that Lyndon Johnson offers the American people a leader who can face representatives of other nations with a steadfastness and understanding that will mean much to the future and posterity of this nation.

Our challenge as Texans is to give our unceasing support and endorsement to Senator Johnson for President of the United States through a resolution at our precinct conventions.

Your presence and your vote in your precinct convention will help assure that the voice of the majority will speak for Texas and for Lyndon Johnson at the national Democratic convention.

PRECINCT 3 CANDIDATES for county commissioner are, top row from left, Skipper Smith and J. L. (Roy) Yeager; bottom row from left, Gene Williams and incumbent Bill Jeffries.

From 12 Class A bands the Hornet band, under the direction of Lee Boyd Montgomery, was one of three winning the sweepstakes award.

"Your performance today reflected diligent preparation and outstanding coaching. A fine group of young musicians," was the comment of one judge.

Another said "Congratulations to a fine band that has come a long way as I remember it — An excellent performance."

WHY YOU ARE NEEDED at the PRECINCT CONVENTIONS!

The Precinct Convention is the ONLY time a voter can help plan the policies and platform of the Texas Democratic Party. And it is the ONLY way the individual citizen can participate in the selection of a president.

YOU CAN HELP MAKE THESE VITAL DECISIONS ON MAY 7

Democrats throughout the State will hold precinct conventions on Saturday, May 7. See page one of this issue for complete listing of time and place of all Lamb County Precinct Conventions.

WE MUST DETERMINE OUR LEADERSHIP

Our nation now enters an historic decade of decision in which the future of human freedom will be directly determined by the vigor, wisdom, effectiveness and -- above all -- the responsibility of America's own leadership. On the American scene today, one man stands forth as a leader of men, unparalleled in modern time. That man is United States Majority Leader Lyndon B. Johnson -- trained, seasoned, experienced and proved by performance.

VOICE OF THE MAJORITY

Our challenge as Texans is to give our unceasing support and endorsement to Senator Johnson for President of the United States through resolution at our precinct conventions. Your presence and your vote in your precinct convention will help assure that the voice of the majority will speak for Texas and for Lyndon Johnson at the national Democratic convention. Remember, the election law has been changed. This year, you must vote in your Democratic Primary to participate in your precinct convention.

VOTE FOR
SMITH (Skipper)
SMITH
COMMISSIONER
PRECINCT 3

★ SINCERE ★ QUALIFIED ★ CAPABLE

We should think about the duties of our commissioner before we vote Saturday, May 7 and the qualifications of each man to perform these duties.

- Will our tax money be spent for the betterment of all Lamb County?
- Will we have men that will work and secure farm to market roads?
- Will we have qualified men on road machinery, law enforcement, help in County offices, working with welfare officials, and the many other services due us tax paying citizens?
- Will we have men that will speak out for the people they represent in the face of opposition by power groups?
- Skipper Smith is the only candidate that has offered us a platform of any kind. This shows he wants to work for his precinct and the taxpayers.

Skipper Smith has experience as a business man and farmer. He has served the public for several years working with schools, Scouting, business men, teen-agers civic clubs and farm organizations.

We ask you to vote for Skipper Smith. The first elective office he has asked for.

Springlake Band Boosters In Birthday Calendar Drive

Business organization enjoyed a breakfast at the school cafeteria Saturday morning. The occasion kicked off the annual birthday calendar drive.

Pat McCord, chairman of the drive, presented plans for canvassing the communities served by Springlake School. The school district was divided into territories with captains appointed over each. They are as follows: Mrs. Huber Wanen - captain for the town of Springlake; Mrs. Duch Breen, M. Orien Parish, Mrs. W. F. Williams for Earth and for the rural areas; Mines, J. J. Coker, Howard Cummings, Ray Axtell, Budd, Adrian, V. D. Coker and Bill Mann. Each captain was assigned five or six workers to assist in the canvass. An attempt will be made to deliver a calendar to every home in the district.

An advertising committee was appointed. Serving on it are Daryl Dean and Tully Dent in Earth and Dawson and J. J. Coker in Springlake. Responsible for obtaining lodge listings will be Phil Raught and George Stoccard in Earth and Kenneth Bain Parish and Mrs. James Washington in Springlake.

The Band Boosters have announced a new family rate for this year's calendars. Two dollars will be charged per family. This will include all birthday and anniversary listings plus a calendar. Anyone wishing to receive extra calendars is asked to place their orders when their listings are taken as only the number of calendars ordered will be available. Calendars will be delivered by the person taking your order.

Small Town Development Seen By Director Of TML

Texas cities under 25,000 population may offer, relatively, the largest opportunity for growth in new commercial enterprises during the 1960's, Steve Matthews, executive director of the Texas Municipal League, told the Columbus, Texas, Chamber of Commerce Thursday night.

"The metropolitan centers of Texas may overshadow small town Texas in terms of size during the next ten years," Matthews said, "but the new business very likely will find greater opportunity in the smaller cities during this period."

"And this will react to the mutual benefit of smaller cities and metropolitan areas," he said. "Texas metropolitan pattern of growth will be intensified and the densely populated centers invigorated even more by any economic expansion in the state's smaller communities."

Matthews predicted that growth of the large population concentrations will have the effect of stimulating "a general rise in business and agricultural activity throughout the State."

"Smaller cities and counties within a 300-mile radius of major population clusters will feel the impact of the demand for food products, construction materials, contracting operations, and more," he said. "The system of modern State Highways now under construction will play a major role in shaping this."

Matthews told the Chamber of Commerce members that:

"The key to growth for smaller communities was (1) planning, (2) maintenance of strong and progressive professional city government, and (3) close cooperation between businessmen and local officials in efforts to attract new plants and more people."

"Planning is the cornerstone of the future. Experienced industry specialists will always shy away from the small town that has no plan for the future and is, figuratively, not looking much beyond the end of its nose. Without a plan or future growth, costly mistakes are inevitable - and no industry wants to be the punching bag to pay the high price of correcting unnecessary and avoidable mistakes."

"On the other hand, the progressive community which engages in intelligent planning to a future needs offers a real appeal to many types of industry and business. Usually, the initial cost of beginning operations in a smaller community will be lower than those in a metropolitan center. The small town, also, offers many attractions to industry in terms of the life that can be promised for the industry's workers."

Commissioner Precinct 3

★ A man who can, and will represent you on any level.
★ Lamb County needs more farm to market roads (Hale and Lubbock counties received over 200 miles each in the last 12 years).
★ Our precincts should work together for better roads at less expense to the county.
★ Lamb County should have 1 foreman and furnish 1 car, instead of 4 precinct foremen and 4 commissioner cars. This would eliminate around \$20,000 expense.
★ When possible, all materials and equip. should be bought from Lamb County firms.
