# Oil Progress Week

We Americans are using more oil in more ways than all of the rest of the world combined. At the same time, we Americans are enjoying the highest standard of living in the world. No one can doubt that there is a healthy relationship between the amount of oil we are consuming and the amount of progress we are making. Significantly, the growth and development of the petroleum industry parallels that of the United States—and vice versa.

Since the oil industry is observing Oil Progress Week October 12-18, this is an appropriate time to think about oil and oil men—and to salute them for the amazing job they have been doing in keeping us supplied with an abundance of petroleum products. This, despite the highest consumption rate in history.

The oil men who most of us know best are those who run the service stations. There are more than 200,000 of them, 19 out of 20 of whom are independent business men. They are active citizens of their

respective home towns.

The service station has grown into a typically American institution. Actually the proprietor or manager or attendant runs a sort of branch office of the local Chamber of Commerce. It is impossible to keep track of the number of times he is asked to recommend hotels, motels, stores, cafes—sometimes, where there is good fishing or hunting.

Also, he conducts a sort of travel bureau. Not only does he provide millions of road maps, but neighborhood folks as well as transient customers depend upon him for information about highway construction, detours, washouts and shortcuts. And your service station man, with an assist from the local and state police, is usually right up-to-date with the facts.

It's true that the aggressive and progressive oil industry works in many ways, its wonders to perform, and certainly one of its most pleasant contributions to the American scene is the service station and the men who attend it.

## On Tidelands...Let's Put Up or Shut Up!

Isn't it about time for Texas either to put up or shut up regarding her tidelands?

Doesn't it make us Texans appear strangely inconsistent in the eyes of the nation to holler one way and vote another?

Isn't 1952 a timely year to make up our minds if we are going to do something toward protecting our own property or are to be content with just complaining against the federal government's grabbing it?

The issue is definite, sharp, and clear-cut in the presidential race. Nobody can say we didn't know.

On the one hand, we have Democratic Nominee Adlai Stevenson, who says frankly that he favors federal seizure of all the oil-rich coastal land—despite the plain fact that for a century Texas' sector of it was acknowledged without question to belong to Texas.

On the other hand, Republican Nominee Ike Eisenhower says just as frankly that he favors retention of the tidelands by the respective coastal states—Texas, Louisiana, California and the others.

The president—and the president alone—is the key figure in this tidelands controversy.

Twice, the House and Senate of the United States—representing not alone the coastal states but inland states and mountain states and desert states and prairie states—have voted by substantial majorities to keep title to the tidal acreage in the respective states.

Twice the president has said, "No, you can't do that," and has vetoed the will of Congress.

Gov. Stevenson forthrightly warns us that he, likewise, would veto a bill restoring the tidal lands to their long-time owners.

Gen. Eisenhower assures the nation—just as forthrightly—that he would sign such a bill.

It is that simple. Our choice is just that open and shut.

Every Texas member of the national House and Senate repeatedly has gone down the line in behalf of Texas' fight for her tidelands. So have Texas governors and attorneys general. And Texas have time and again told the Congressmen and Senators and governors and attorneys general that Texas is behind them in that fight.

What, then, if Texans—talking one way and voting another—in November cast their votes for a presidential candidate committed to federal seizure of Texas property?

Wouldn't that be cutting the ground completely out from under the defenders of Lone Star tidelands?

Wouldn't that be final and determinative notice to the nation in general and Congress in particular that Texas' battle for her own school children's treasure has been mere noise and fury, signifying nothing?

How, in the cold light of such a November decision, could any Texas Senator or any Texas Congressman have the unmitigated nerve to stand up and contend that Texas really is concerned about keeping her property?

Honestly, after that, wouldn't any Texas spokesman then making such a contention look sort of silly?

Wouldn't it be a betrayal of the other Senators and Congressmen who, although having no coastline of their own, have voted with the coastal states in the interest of common justice and fair play?

Will Texas prove that she meant it when she protested, loud and long, against the bureaucratic seizure? Will she vote for a president pledged to honor and sustain that protest?

Or will she tuck her tail between her legs and lick the boots of another president who rejects that protest and upholds the Washington snatch?

Is abject surrender of her own property the tribute which Texans are called upon to heap on the altar of so-called "party loyalty"?

We hope not, but very possibly Texans are willing to pay that price. It's their privilege, and if it's their choice, fine.

There are other important issues in the presidential race, certainly, than the tidelands question. Maybe, even in Texas, they outweigh it. Maybe the national Democratic ticket, in the opinion of Texas voters, is better, despite its tidelands give-away.

If the election of Presidential Candidate Adlai Stevenson is worth the sacrifice of countless millions in Texas public-school funds from tidelands revenue, that is for Texans to decide. Of course, that lost revenue will be made up—every nickel of it—from the pockets of Texas taxpayers, but if that's our decision, let's pay that additional taxation without a squawk—and stop hollering that the federal government is doing us wrong.

Isn't it time we put up or shut up on the tidelands issue? —Port Arthur, Texas, Aug. 26, 1952

## LET'S TALK LIVESTOCK

By Ted Gouldy

**FORT WORTH**—No hogs or sheep were unloaded at Fort Worth Monday due to the embargo brought about by the finding of some hogs infected with vesicular exanthema on the lards late last week. It is expected that sheep shipments to the market may be resumed late this week.

Cattle and calf trade on Monday at Fort Worth was a slow affair again in view of the heavy rains that appeared around the major marketing circle. The 152,000 cattle and 27,000 calves reported at 12 major markets Monday totaled 12,000 more than a week ago and were 60,000 above the same date a year ago.

Most high quality stockers and high grade killing cattle and calves ruled steady at Fort Worth, and the plain and medium sorts were steady to easier.

Good and choice fed steers and yearlings sold from \$23 to \$21, two loads of 1,125-pound fed steers from Addicks, Oklahoma, from Price & Short, topping at \$21. Other slaughter steers and yearlings of cutter, common and medium sorts sold from \$10 to \$22.

Fat cows cashed at \$12.50 and \$16.50, and among cow shippers

were Millard & Scharbauer Eldson, Lea County, N. Mex., with a load of 832-pound cows at \$13; Newt Redmon, Swisher County, had 56 cows at 1,021 pounds at \$13.50 and 17 head at 1009 pounds at \$13. Furd Halsell & Son, Tarrant County, a load at 983 pounds at \$13, with odd head at \$15.

Good and choice fat calves drew \$18 to \$26, Cecil Sullivan of Red Oak had some heavy calves at \$26; and E. E. McAllister, Eastland County, had some calves at \$25 and \$26 that weighed over 500 pounds. Plain and medium butcher calves drew \$14 to \$18, and culls cashed at \$10 to \$14.

Good and choice stocker steer calves sold from \$20 to \$26 and plainer kinds sold from \$15 to \$18. Heifer calves sold \$1 to \$2 under steers. Stocker steer yearlings cashed at \$16 to \$23, a few lightweights to \$24.50. Stocker heifers sold from \$21.50 down. Stocker cows were reported from \$13 to \$18.

Mrs. S. A. Blankenship, Armstrong County, had a truck lot of 605-pound steer yearlings at \$23 Monday at Fort Worth.

## Rest Period Needed By Dairy Cows

The dairy cow is a complicated piece of machinery and like all machines will wear out if not properly maintained. She needs a six to eight weeks rest between lactation periods and a good ration during the dry period.

The dry cow has three important jobs to do during this rest period, says A. M. Meekma, assistant dairy husbandman for the Texas Agricultural Extension Service. She must recover from a heavy milk producing period, build a calf and store up reserves for the next lactation period. How well she does these jobs depends upon the length of the dry period and the amounts and

## Dwight David Eisenhower

Dwight D. Eisenhower won the nomination as Republican candidate for President on the first ballot of the 25th Republican Convention at Chicago, July 11, 1952.

Now 61 years of age, he was born in Denison, Texas, on October 14, 1890. In two years the family returned to Abilene, Kansas, and Eisenhower and his five brothers grew up there amidst a mixture of rugged frontier town life and an exceedingly religious home life. On both sides of his family, Eisenhower is of German and Swiss descent.

To help the family's meager income, the Eisenhower boys worked after school at odd jobs. Dwight worked summers in the local creamery. In 1909 he was graduated from high school with a very good scholastic and athletic record.

Eisenhower then worked for several years until he took the examinations for both Annapolis and West Point. He finished first in the Annapolis Examination and second in the one for West Point, but found himself several months too old for the Naval Academy and therefore chose to attend West Point. Republican Sen. J. L. Bristow of Kansas appointed him to the United States Military Academy, which Eisenhower entered July 1, 1911. He was graduated in 1915 in the upper third of his class and received a commission as second lieutenant of Infantry. Assigned to the 19th Infantry, we went to Fort Sam Houston, Texas. There he met Mamie Geneva Doud whom he married in 1916.

Eisenhower's Army career is marked by a series of assignments at various posts and in a wide range of duties. His promotions were slow at first, gradually accelerating as he developed and demonstrated his outstanding ability in organization and leadership. Eisenhower's star began a definite rise when he graduated first in a class of 350 officers from the Command and General Staff School, Ft. Leavenworth, Kansas, in 1926. Other assignments included: Infantry Tank School, 1922; Army War College, 1928; Army Industrial College, 1935; Assistant Executive Officer, Office of Assistant Secretary of War, 1929-33; Office of Chief of Staff, 1933-35; Assistant to General MacArthur in Philippines, 1935-40; Chief of Staff, Third Army, 1940-41 (during which time he performed brilliantly in Louisiana Maneuvers); Chief of War Plans Div., War Department General Staff and then Assistant Chief of Staff in charge of Operations Division. By mid-year 1942 he had risen to the rank of Lt. General (temporary) and was Commanding General, European Theater.

On November 8, 1942, General Eisenhower commanded the American Forces landing in North Africa and he became Commander-in-Chief of Allied Forces later that month. He became Supreme Commander, Allied Expeditionary Forces, in December, 1943, planning and coordinating the land, sea and air forces for the Normandy Invasion, to take place on June 6, 1944. He became a full General (temporary) in February, 1943, and General of the

kinds of feed she receives. During heavy peak production, a good cow will deplete her body reserves of nutrients and minerals, says Meekma. Unless she is given sufficient rest and proper care, these body reserves may not be rebuilt and production during the next lactation period will be lowered. The health and condition of the calf will also be affected. The problem of feeding the dry cow is practically solved if she has access to good pasture. If pasture isn't available, hay and silage should be fed liberally, says Meekma. The amount of grain to feed will depend upon the condition of the cow, but generally it is practical to feed the same grain mix to the dry cows as is fed to the milking herd.

The pay-off comes, says Meekma, with more production—often as much as 25 per cent more—during the next lactation period. Then, too, a stronger better developed calf will be produced. It is Meekma's belief that every dollar spent for taking care of the dairy cow during the dry period is a wise investment and a necessity if a high herd production record is to be maintained.

## Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

## DOAN'S PILLS

# LANDMARK IN HISTORY

1732. WAKEFIELD. Birthplace of GEORGE WASHINGTON

At Wakefield, Va., stood the home of Augustine Washington and his second wife, Mary Bell Washington; and here, on February 22, 1732, Mary presented her husband with a boy, later named George Washington and, later still, to become the first Presi-

dent of the United States of America and "The Father of His Country." The old house was the center of a thousand-acre plantation, with its woodland and rich bottom lands, stretching along the Virginia shore of the Potomac for a mile and bounded on one side by Pones' Creek and, on the

other, by Bridges' plantation was originally as Pones' or Bridges' was later called "The Fire destroyed the old 1779, but it has since been fully restored by the Memorial Association of a national shrine.

QUICK-CHANGE WEAR K&PUSKASING, Co. The official report by the logist W. A. Craigie on the other here noted the cold 33 degrees and the high only two days later—

State-wide women's registration campaign November 11 and ends 27th to promote a bond for Civil Defense.

NATO unanimously agreed in a full-fledged European pact.

of government and citizenship, he obtained a leave of absence from the university when, on December 16, 1950, he became Supreme Allied Commander in Europe, with operational command of the U.S. Army Forces, Europe; the U.S. Air Forces, Europe; and the U.S. Navy Forces, Eastern Atlantic and Mediterranean. The North Atlantic Treaty Nations requested General Eisenhower to take this post after they had agreed on a defense organization for Europe.

A climax of the confidence which his command restored to Europe came on February 22, 1952, when

Covert, her given name and initials being unknown; G. E. Lockhart; Lou

The nature of said suit being substantially as follows, to-wit: A suit to recover possession and title of certain real estate lying and situated in Lamb County, Texas, described as all of Lots Nos. One (1), Two (2), Three (3), Ten (10), Eleven (11), and Twelve (12), in Block No. Forty-three (43), of the Original Town of Olton, in Lamb County, Texas, according to the map or plat thereof recorded in the Deed Records of Lamb County, Texas, reference to which map or plat is here made for more particular description thereof, together with all improvements thereon situated; and said suit being in the usual form of Trespass to Try Title, and containing further allegations to the effect that plaintiff owns the record title to said land and further owns title to said land under the three, five and ten year statutes of limitation; and that title is presumed to be in plaintiff all as a result of peaceable and adverse possession, under duly recorded deeds and claim of right and payment of taxes on said property.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

Issued the 16th day of September, A. D. 1952.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT at office at Littlefield, Texas, this 16th day

## Applications For College Qualifications, Selective Service, Must Be Made Now

College and university students who wish to take the Selective Service college qualification test scheduled for December may get application blanks from any local draft board, beginning October 15.

With the application blanks, students will receive a bulletin of information which directs how the application will be filled out and gives other information about the test.

Brigadier General Paul L. Wakefield, state Selective Service director, advised all interested students to get their application blanks on the earliest available date, October 15.

He pointed out that no applications will be accepted that are mailed after November 1, 1952. Applications for the December 4 test must be postmarked no later than midnight, Saturday, November 1, 1952.

Students may secure the application forms, bulletins of information,

of September, A. D. 1952. (SEAL)

## The Ed Packwood Family To Be Honored With A Tea Sunday

Mr. and Mrs. Ed Packwood and their daughter Finetta will be honored guests at an informal tea Sunday afternoon in the Educational Building of the First Baptist Church.

The calling hours are from 3:30 to 5:00 o'clock. All friends of the Packwoods are cordially invited to attend, it was announced.

Mr. and Mrs. Packwood and family are moving to Phoenix, Arizona next Wednesday, October 15, where they will make their home. He has accepted a position as secretary of the Brotherhood and Foundation Work for the Baptist General Convention of Arizona.

## Annual Associational WMU Meeting Held At Springlake Friday

The annual Associational Women's Missionary Union meeting was held at Springlake Friday, when reports on the past year activities were given, and newly elected officers were installed.

Mrs. T. A. Adams of Fieldton, president of the organization presided and introduced the speaker, Mrs. Earl Huges, a Baptist Missionary from Costa Rica, who told of his mission work in that country.

Mrs. Jim Edwards of Amherst was installed president of the organization for the ensuing year.

Among those attending from Fieldton included Mesdames Adams, Sonny Roberts, Nelson, Wilcox, C. C. Plate, and G. B. Stewart.

A large number of WMU members from both the First Baptist and the Parkview church were also in attendance.

## Circle Meetings Of WMU Announced For Monday Afternoon

The ladies of the WMU will meet in circles for Bible study Monday afternoon, October 13, at 2:15 in the following homes:

Ellis Ruth Solesbee with Mrs. Fred Lichte; Ray Buster and Lotie Moore with Mrs. Curtis Chisholm; Branche Gorves with Mrs. M. E. Treadford and the Ruth Moss with Mrs. E. M. Davis.

## Magic In The Soup Kettle

By CECILY BROWNSTONE

### Newsfeatures

When you start lunch or supper on a brisk fall day with hot soup, company is with something crisp. Slices of French bread toast, spread with butter or margarine, sprinkled with grated cheese and toasted under the broiler, will taste delicious with hearty potato soup. Pass cheese chips with that quick and good combination—condensed tomato and pea soups.

### SPECIAL POTATO SOUP

Ingredients: 4 leeks, 3 cups sliced pared potatoes, 3 cups boiling water, 4 instant chicken bouillon cubes, 3 tablespoons butter or margarine, 1 cup light cream, 1 cup milk, 1 teaspoon salt, 1-4 teaspoon pepper, 2 tablespoons minced chives or parsley, 1-4 teaspoon paprika.

Method: Cut leeks with 3 inches of green tops into fine pieces. Cook leeks and potatoes in boiling water, covered, until tender—about 40 minutes. Press, without drain-

ing, through a fine sieve into top of double boiler. Add bouillon cubes, butter, cream, milk, salt and pepper; mix thoroughly. Reheat over hot water to blend flavors. Serve hot, springing each portion with chives or parsley and paprika. Makes 6 servings.

### CHEESE CHIPS

Ingredients: 1-4 cup read-to-eat bran, 1-2 cups sifted flour, 1-2 teaspoon salt, 1-4 teaspoon paprika, dash cayenne, 1-3 cup shortening, 3-4 cup grated American cheese, 4 tablespoons (about) cold water, milk, caraway and poppy seeds.

Method: Crush bran into fine crumbs; mix well with flour, salt, paprika and cayenne. Cut in shortening; mix in cheese. Add water, a little at a time, until dough is moist enough to hold together. Shape into roll 1-2 inches in diameter. Wrap in waxed paper. Chill until firm. Slice into 1-4 inch slices. Place on well greased baking sheet. Brush tops with milk; sprinkle with seeds. Bake in hot (450°F) oven 12 to 15 minutes. Serve hot or cold. Makes about 40 chips.

CHEESE CHIPS—Let them fall where they may.

SPECIAL POTATO SOUP—For a fall supper.

## Past Matrons and Patrons To Be Honored At OES Meeting Thursday

Littlefield Chapter Order of the Eastern Star will honor Past Matrons and Patrons, at a regular meeting to be held next Thursday night, October 16.

Co-hostesses will include Mes-

dames Pearl Brandon, Mary Alma Lockwood, Coy Brooks, Blanche Dodgen, Martha Gardner and Olene Gibson.

Delegates to Grand Chapter, which will convene in Amarillo the

week beginning October 26, will be elected during the business session.

Worthy matron, Mrs. Ina Mae McQuatters and worthy patron A. S. Parrack will preside.

## Soap-and-Water Charm

By BETTY CLARKE  
AP Newsfeatures Beauty Editor

**FACE VALUE**—This green soap is superfatted to help foil skin irritations, minor blemishes.

Any prescription for skin cleanliness begins with soap, experts tell us.

But it is one thing to get the soap and water habit, and another to choose that just-right-for-the-complexion soap.

Soap can irritate the skin causing blemishes and redness, so it is wise to pay attention to the effect of a particular soap on the skin.

Wise girls do not chisel when they purchase a cake of soap. After all they know that most soaps, even the best for the skin, are inexpensive, so what is to be gained by trying to pare a couple of cents from the price of a cake of soap?

Normal skin falls within the acid range, needing to be kept acid to remain healthy. Soap is basically a combination of fat (acid) and soda (alkaline). Alkalis tend to "cut" the normal oil of the skin. Therefore, experts remind us, the less free alkali in the soap, the better.

Most face soaps today contain very little free alkali, but because some contain slightly more than others, they vary in the way they act on your skin.

If your skin is oily you may not notice the difference. But if your skin tends to feel drawn or prickly or cracks easily, or if your arms and legs take on a flaky, powdery look in cold weather, chances are your soap contains

perhaps even a fraction too much alkali.

Many skin specialists advise a mild, bland, superfatted soap as the least irritating for tender skins. There are many of these soaps available to consumers, some even containing sulphurated petrolatum, chlorophyll and medicated ingredients especially soothing to irritated skins. A fragrant but pleasant

green soap is said to form an invisible coating on the skin to help protect it from sun, wind and other possible irritations.

To get the most benefit from soap, lather-massage your face and throat twice a day, for a full minute each time, using warm water, then rinsing thoroughly with cool water. This is a good routine for normal skin. If skin is irritated or blemished it might be helped by cleansing it gently several times a day, using hot water, then rinsing with cool.

Find your own soap prescription and stick to it for a clean, pretty complexion.

## Youth Center For Teens Opens Thursday Night At Anton Legion Hall

A youth center for teenagers of the Anton community will open Thursday, October 16 at the American Legion Hall, Anton. Bingo, ping pong, dominoes, checkers and an assortment of table games have been planned. There is also to be a record player and a radio for the young people's enjoyment. Cold drinks will be available.

This recreation center will be sponsored and supervised by the 1950 Study Club. It will be open every Saturday night provided the young people of Anton respond and show that they want such a center for good, clean recreation and get-togethers. All teen agers are invited to come out for the big opening Thursday night, October 16, after the ball game.

## Engagement Of Reba Kirby and Glendon Hayes Announced

### Mrs. John W. Wilson And Family Leave To Join Capt. Wilson In Germany

Mrs. John W. Wilson, Jr., son, Jon, and daughter, Jan, left Tuesday to join their husband and father, Capt. Wilson, who is with the Information and Education Office, and stationed at the Air Base, Wiesbaden, Germany.

Mrs. Wilson is a daughter of Mr. and Mrs. H. C. Thornton, and a sister and sister-in-law of Mr. and Mrs. Fly Thornton.

Mrs. Wilson and family reported in at Hotel St. George Saturday, and will sail immediately for Germany. They will remain in Germany for about 2 1/2 years.

Mrs. Wilson came to Littlefield in December of last year, and has been employed as cashier at Thornton's Cafeteria.

Capt. Wilson was working on his masters degree in psychology at Texas Tech when he was recalled to the service in March, 1951. He was stationed at Reese Air Base, Lubbock, until his assignment to Germany.

## Annual Jaycette Dance Tuesday Night

Mrs. Maxie D. Bagwell has been appointed chairman of the program committee for the annual Jaycettes Masquerade Dance to be held Tuesday night, October 14, at Littlefield Country Club. Mrs. Bagwell is being assisted by Mrs. Cloise Foust and Mrs. Billy Holder.

Guests will include Jaycees, their wives and others.

## "Enlightened Womanhood" Topic Of Study Of Literary Department

Mrs. L. T. Green will be hostess to members of the Literary Department of the Woman's Club, when the group meet Wednesday afternoon, October 15, at 4 p.m. Mrs. R. W. Badger is leader of the program, and the topic for discussion is "Enlightened Womanhood," featuring a symposium of wills, insurance and women's property rights in Texas.

The program leader will discuss

Mr. and Mrs. L. M. Kirby of Littlefield are announcing the engagement and date of wedding of their daughter Reba to Glendon Hayes, son of Mr. and Mrs. Kirby of Plainview.

The date for the wedding ceremony is scheduled

MISS REBA KIRBY

will place Monday, November 10, at 11 o'clock in Littlefield.

Both Miss Kirby and her senior high school classmate is a student at Littlefield High, while he attends High school.

The couple will make their home in Plainview.

Poach fish fillets and a cheese sauce. To make the quick way melt one yellow cheese with a

### Farmer Proves Bucket Superior Dipped Stick In Water Test

Many farmers who have barely stagger around with them, always finding water with less effort.

Finally deciding that it was the water or sap in the poles and switches which caused the downward pull where water was beneath the surface Grigg shucked his poles and switches and started carrying a pail of water.

Walking around with his bucket, Grigg soon realized he had the perfect method for locating water.

And that's how he says he found an 8-inch well near the New Mexico line west of Whiteface.

### IF POLIO COMES

**WATCH FOR THESE SYMPTOMS**

**IT MAY—OR MAY NOT—BE POLIO**  
CALL YOUR DOCTOR PROMPTLY

If it is Polio, get in touch with your local chapter of THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

**FIGHT INFANTILE PARALYSIS**

HERE ARE SYMPTOMS OF POLIO listed by the National Foundation for Infantile Paralysis. They may—or may not—mean polio. Call your doctor and then, if help is needed, contact your local chapter of the National Foundation. When polio is around, these precautions are recommended: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay in cold water too long or sit around in wet clothes. Avoid becoming chilled. Always wash hands before eating.

### Remember

The Littlefield scene as recorded in the October 12, 1933 issue of the Lamb County Leader:

A prominent breeder of Hereford cattle, of Odessa, honored Littlefield with a visit the past week. In discussing his activities he said while living in this vicinity in 1918 "I sold out 2,000 cows and 5,000 steers, closing them out at \$102.50 for every cow with calf by side."

More plow-up cotton checks are received bringing between 30 and 40 thousand dollars for Littlefield trade territory.

Douglas R. Parker, manager of local Texas Utilities Co., is attending the Southwestern Ice Manufacturers association.

According to H. C. Pumphrey, local Santa Fe Agent, about eight or ten cars of cotton have moved to the gulf coast. Mrs. Pumphrey said, "We don't have as much acreage as last year, and a lot better cotton."

Mrs. W. J. Chesher and Mrs. Otha Key entertained a number of children Saturday, honoring Mrs. Chesher's daughter Billy June on her second birthday.

NRA stickers suitable for sticking on packages, letters, etc., are for sale at the Leader office.

Mrs. C. E. Barber was hostess to members of the Presbyterian Auxiliary. Mrs. J. S. Hilliard, Mrs. G. M. Shaw and Mrs. Ira E. Woods were co-hostesses.

Mrs. Carl Lambert was hostess to members of the Littlefield Home Demonstration Club.

The city pair Championship events in U.S.B.A. Match Play was

concluded Saturday, and in the final elimination the scores were as follows: North-South: Mrs. C. E. Cooper-Mrs. J. H. Barnett—70 1-2; Mrs. T. Wade Potter-Mrs. Otha Key—56; Mrs. John Arnett-Mrs. Clyde Hilbun, 55 1-2; Mrs. C. W. Hill-Mrs. Jack Henry, 51 1-2; Mrs. M. M. Brittain-Mrs. Mallory Etter, 51 1-2. East-West: Mrs. Pat Boone-Mrs. W. G. Street, 67; Mrs. W. J. Chesher-Mrs. Everett Whicker, 66; Mrs. Dick Johnson-Mrs. P. W. Walker, 60; Mrs. C. C. Clements-Mrs. Sid Hopping, 59; Mrs. L. C. Hewitt-Mrs. E. S. Rowe, 40. Mrs. J. H. Barnett and Mrs. C. E. Cooper were winners of the tournament.

### WTCC Convention Date Is Set

The 35th annual convention of the West Texas Chamber of Commerce will be held in Wichita Falls October 19-20-21, with headquarters in Hotel Kemp.

The convention begins with a buffet supper Sunday night, and is concluded at noon on Tuesday.

Program activities for the coming year include publicity and tourist development department for the coming year.

First-rate entertainment is being planned for the ladies.

Reservations should be made immediately.

### Layman's Day At First Baptist To Be Observed

Today (Sunday), is Layman's Day in the First Baptist Church.

The men will have complete charge of the evening service filling the choir bringing the message and also special music.

Those who will have a special part on the program will include Loyd Buck, C. E. LeBoeuf, E. J. Peakwood, Troy Armes, W. E. Heathman and Dr. Albert Perkins.

Pecan producers have cut their harvesting costs by as much as 30 to 50 per cent by using machinery—a mechanical tree shaker and combination separator and huller.

### Services Held Thursday For Juanita Wells

Funeral services for Miss Juanita Wells, 18, daughter of Mr. and Mrs. T. J. Wells, 602 West Seventh street, were conducted from the First Baptist Church at 3 p.m. Thursday afternoon. Rev. Lee Hemphill, pastor officiated and burial followed in the Littlefield cemetery. Hammons Funeral Home was in charge of arrangements.

Deceased passed away at Payne Shotwell Foundation Tuesday at 10:25 a.m. She had been in ill health for 14 years.

Survivors include her parents, five sisters; Mrs. O. H. Barnes of Bangs, Mrs. J. T. Ferguson, Roswell, N.M., Mrs. B. F. Franklin, Misses Gladys and Peggy Wells of Littlefield and four brothers; Ben and Billy both of Odessa, Johnny

### First Baptist Brotherhood To Meet Monday Night

Rev. J. C. Koed will be guest speaker at a meeting of the Baptist Brotherhood of the First Baptist Church, when the organization will meet Monday night in the church dining room.

Supper will be served at 7:30 o'clock, followed by the program.

Mack and Jimmy both of Littlefield.

The Wells family moved here in 1942 from Bangs, Texas.

A farm building burns somewhere in the United States every fifteen minutes. Many of these fires could be prevented if rural residents would take the time to seek out and remove fire hazards from their premises.

### OCT-12-18 THIS IS OIL PROGRESS WEEK

**Progress 1952**

Texans have a natural interest in the oil industry, which is so important in our State, and in the progress made since Oil Progress Week was last observed.

Here are a few quick facts:

- New Wells**—During the twelve months ending August 31, 1952, the Texas oil industry drilled 17,000 new wells, at a cost of over \$700 million. Most of the heavy expense of drilling these new wells was paid from earnings plowed back into the development of the State's oil resources.
- Production**—Production has reached a record level. Texas currently is producing about 46 per cent of all the crude oil produced in the U. S. In the year ending August 31, Texas production totaled about 1,011 million barrels. There are now 133,800 producing oil wells in Texas.
- Refining**—The Texas refineries will have a big year. They now employ, in round numbers, 46,000 Texans, and process about 28% of all the oil refined in the U. S. The daily refining capacity of all Texas refineries exceeds 2,000,000 barrels. A program to expand and improve these facilities has been general throughout the industry.
- Reserves**—Proved oil reserves in Texas of 18 billion barrels represented 17 per cent of the U. S. total at the beginning of 1952. During 1951, the last year for which figures are available, proved reserves increased two billion barrels. These are developed oil reserves and the figure is important: developed reserves supply our needs currently and provide reserve capacity that is immediately available when we need it.
- Transportation**—The total mileage of Texas' trunk pipe lines for oil and finished products is over 29,000. This low-cost transportation system is a major factor in the maintenance of the low prices you pay for petroleum products.
- Taxes**—The Texas oil industry continues to be the largest tax-payer in the State. Through the year ending August 31, gross production taxes alone on Texas oil and natural gas amounted to more than \$117 million; in addition, the industry pays large amounts in other taxes.

**HUMBLE TEXAS OPERATIONS**  
Twelve Months Ending August 31, 1952

Wells Drilled . . . . .	891
Average Production, in barrels daily . . . . .	330,100
Employees in Texas, August 31 . . . . .	17,775
Baytown Refinery: Average crude runs to stills, barrels daily . . . . .	249,310
Humble Pipe Line Co. operates 5,895 miles of trunk lines for oil and finished products, which had transported a daily average of 722,600 barrels in the year ending August 31.	

In brief, the Texas oil industry during the past year continued to do its part in meeting the demand for oil. It has expanded pipelines to provide low-cost transportation. It has improved facilities for making more and better petroleum products for your use. Today, two gallons of gasoline do work that required three gallons in 1925; and the gasoline costs no more than it did then.

**HUMBLE OIL & REFINING CO. \* HUMBLE PIPE LINE CO.**

## Barnum and His Midget From Same Family Tree

Newsfeatures  
 BUFFALO, N. Y. — Showman P. T. Barnum and the fabulous midget, Tom Thumb, were actually fifth cousins, says a meticulous local author, who makes it his business as a genealogist to verify such things.

G. A. Cleveland Shrigley, the author, says he was especially careful in his family tree tracings—because he found at the outset that he was related to both Barnum and the midget.

Shrigley is trying to bring the memory of tiny Tom out from under Barnum's hulking shadow by writing a biography of Tom himself. Shrigley discovered that Barnum and Tom were descended from a Thomas Sherwood, who turned up in America at Boston in 1634 and later moved to Fairfield, Conn.

**Barnum Mum On Relationship**  
 If Barnum was aware that he was related to his money-making midget, he was careful not to splash the fact before the public.

No mention of their kinship has shown up in thousands of letters Shrigley has received from all over the world since he began research on Tom Thumb by way of letters to editors of hundreds of daily newspapers.

Tom Thumb was born Jan. 11, 1838, and christened Charles Sherwood Stratton, a rather ponderous moniker for a fellow only 37 inches tall at the peak of his fame and fortune.

**Midget Found Accidentally**  
 In his autobiography, Barnum wrote that he stumbled across the midget on a visit to Bridgeport, Conn., in November, 1842. The showman's fortunes at his famous American Museum in New York was starting to ebb and he needed a new attraction.

During the visit, Barnum wrote, his brother who owned a tavern casually mentioned little Charlie Stratton. Barnum looked up the child, who was 2 feet tall then, and signed him up through his father.

**FFA SUPPORTERS TO RECEIVE HIGH HONOR**—Cal Johnson, left, of the Sears Roebuck Foundation in Dallas, and E. R. Alexander, head teacher trainer at A. & M. College, have been selected for their outstanding work among Texas Future Farmers to receive the Honorary American Farmer Degree, the highest national FFA honor, at the National FFA Convention in Kansas City October 14. The American Farmer Degree will be awarded also to 35 members of the Texas Association of Future Farmers. Mr. Johnson's recognition is given in appreciation of the now famous Sears Livestock Program which he directs for Future Farmers. Mr. Alexander was chosen for the honor for his outstanding leadership in the field of agriculture education during the past 25 years.

Charles Sherwood Stratton promptly became General Tom Thumb, aged by Barnum's active mind from 4 to 1.

Barnum tacked on the seven years to increase Tom's value as an attraction, in the same way he advertised the midget as "just arrived from England," according to the showman's biographers who accepted Barnum's story of the meeting of the pair.

After years of tours with Barnum in America, Europe and even Australia, Tom Thumb was lavishly married—at Barnum's expense—to Lavinia Warren, a midget school teacher under contract to the showman.

## AUTHOR Of the Week

AP Newsfeatures

"The Diary of George Templeton Strong," edited by Allan Nevins and Milton Halsey Thomas, is the detailed, lively account, recently unearthed, of a New York lawyer whose dates are 1820-1875. Member of a family long since settled in this country, Strong began his diary when he was 15 and just about to enter on his sophomore year at Columbia, or Col: Coll: as he wrote it, and carried it on faithfully to

Try it today for better sleep tonight and a brighter tomorrow.

TOM THUMB

## From Derrick to Driveway

After oil is found, it must be transported to refineries, bulk stations and market places. To plish this tremendous job, the oil industry depends primarily on pipe lines and tankers. There are more than 150,000 miles of crude oil and products pipe lines in the United States, and more than 3,000 vessels in the tanker-barge fleet. In addition, the industry uses 100,000 railroad tank cars and 147,000 tank trucks, as well as many other smaller vehicles.

within a month of his death. He knew Lincoln, Johnson, Grant, Seward; among other names found in this four-volume work are Jenny Lind, Adelina Patti, Astor, Fish, Fisk, Greeley, McClellan, Kossuth, Tweed, Sheridan. There is a George Templeton Strong III today, and from the diarist's own law office

there has come, though without his name any longer, a leading contemporary law firm.

The Newcomen or fire engine, first made in 1705, was a predecessor of the steam engine which operated because of a vacuum created when steam was condensed rather than by the force of steam.

In Britain an automobile is called a silencer.

**Pains, distress of "those days" stopped or amazingly relieved**

**in 3 out of 4 cases in doctors' tests!**

• Here's wonderful news for women and girls who — each month — suffer the tortures of "bad days" of functionally-caused menstrual cramps and pain — headaches, backaches, and those "no-good," dragged-out feelings.

It's news about a medicine famous for relieving such suffering!

Here is the exciting news. Lydia E. Pinkham's Vegetable Compound — gave complete or striking relief of such distress in an average of 3 out of 4 of the cases in doctors' tests!

**Scientifically Modern Action**

Yes! Lydia Pinkham's has been proved to be **scientifically modern in action!**

This news will not surprise the thousands of women and girls who take Lydia Pinkham's regularly and know the relief it can bring.

And it should encourage you (if you're not taking Lydia Pinkham's) to see if your experience doesn't match theirs . . . to see if you, too, don't avoid

the nervousness and tension, weakness, irritability — and pain — so often associated with "those days!"

Remember Lydia Pinkham's, too — if you're suffering the "hot flashes" and other functionally-caused distress of "change of life."

Get Lydia Pinkham's Compound or new, improved Tablets with added iron (trial size only 59¢). **Start taking Lydia Pinkham's today!**

**Now Lydia Pinkham's works**  
 It has a "calming" and soothing effect on the uterus . . . quieting the contractions (see the chart) that so often cause menstrual pain, cramps, other distress.

 KIRKLAND LAKE, Canada (AP) —Tech Township police answered a call from a woman who reported a dead bear in the ditch. It turned out to be a bear hide that someone had discarded after trying unsuccessfully to tan it.

**KIDNEYS MUST REMOVE EXCESS WASTE**

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

**DOAN'S PILLS**

**Down and Down She Goes**

4 tablespoons butter or margarine 1/4 teaspoon Tabasco  
 4 1/2 teaspoons lime juice 1 tablespoon minced parsley  
 Melt butter in saucepan. Add lime juice and Tabasco; heat. Add parsley. YIELD: Approximately 1/2 cup.

**Down and Down She Goes**

Drilling for oil is no easy matter. First, a likely spot must be chosen on the basis of extensive exploration and study. Then, a rig must be erected, only then can the bit begin churning into the earth. The odds against success are long and hard, and the costs of drilling a well are very high. Last year, oil men drilled more than 45,000 wells in the never-ending search for oil.

**Here's A Good Fish Story**

This time of year, when fresh fish is plentiful and economical, is a good time to get acquainted with the many varieties available not only near ocean and lakes but in inland towns, thanks to modern refrigeration.

Secret of success in cooking fish is not to overcook it, and to season it properly. Fish is bland, and takes well to simple sauces, such as the Tabasco sauce below. A high quality protein food, there are some 160 varieties of fish sold in the United States. Here are pictured, reading top to bottom, three salt water varieties, sea bass, mackerel and porgie, and three fresh water species, white fish, yellow pike and brook trout.

An easy and appetizing way of preparing fish for the table is by simple broiling. To serve four, plan on 1 pound of fillets or steaks or four small fish, and 3 to 4 tablespoons of fat. Preheat broiler. Cut fillets or steaks into serving pieces. Grease the broiler rack lightly. Place fish on rack, skin side up; brush with melted fat. Place rack 2 to 3 inches from heat. Broil fish 5 to 8 minutes or until brown, and serve with this tangy sauce.

### Rev. Haupt To Go To Denton To Meeting

Rev. Henry Haupt, pastor of the First Presbyterian Church has been elected a delegate to the Amarillo Presbytery to the Synod of Texas, meeting in Denton. He will leave the first of the week.

### Grandfather Of Local Resident Passes Away

John Davis Coley, 79, a retired farmer, grandfather of Mrs. Eunice Jones of Littlefield, died at his residence, 3403 Nies, Fort Worth, Thursday of last week.

Mrs. Jones and her daughter, Miss Bobbie Ruth Stubblefield, attended the funeral in Fort Worth Saturday.

Mr. Coley had been in poor health since the death of his son, John Coley, a resident of Fort Worth, which occurred recently.

The son was killed near Bennett, Colorado. The father was a native of Robinson county, and had lived in Fort Worth nine years.

Survivors are his wife; four sons, Ira D., Guy W. and Harry G. Coley of Fort Worth and Burt D. Coley of New Orleans; two daughters, Mrs. C. L. Luck of Hillsboro and Mrs. Dennis Porter of Fort Worth; one sister, Mrs. Mary Weathered of Fort Worth; 16 grandchildren and 12 great-grandchildren.

### Three Thousand—

(Continued From Page 1)

whom their members have contracted.

As of Friday morning, Mr. Jordan opined that county gins would reach or surpass the 15,000 bale mark before they close the week's ginning run Saturday night. Many gins are now working around the clock, and gin yards are crowded with loaded trailers.

After a survey of the area, following Tuesday morning's freeze, Mr. Jordan expressed the opinion that cotton farmers' monetary loss, due to the early freeze, would be heavier than at first speculated and reported, and stated that in some cases the loss would run up to twenty per cent, on a monetary basis, in his opinion.

The influx of transients has also created a sharp upsurge in local business circles, with the result that the employment office now lists many additional job offerings and openings, included being calls for sales clerks, bookkeepers, butchers, mechanics, waitresses, stenographers, as well as others of a miscellaneous nature.

### 1953 Feed —

(Continued from Page 1)

**DID YOU KNOW?**—From 1880 to 1923, the average yield per acre on U.S. farms stayed about the same. Since 1923, it has increased about 45%. Increased use of such things as lime, fertilizer, the practice of better soil conservation, all fostered by Government programs, account for the change, according to the USDA Officials. **DECEMBER 1, 1952 IS THE DEADLINE DATE FOR SIGNING UP FOR PRACTICES TO BE CARRIED OUT UNDER THE 1953 ACP PROGRAM.**

### Local C of C —

### USO Dancer Aids Defense Fund Drive

AP Newsfeatures  
NEW YORK—Charlotte Winson, a United Camp Service (USO) dancer, has been chosen "red feather" girl for the United Defense fund this year. The United Defense fund supports USO, relief for Korea and other defense activities.

The fund will be included in most of the Community Chest drives which are being staged this month in many communities across the nation. As "red feather" girl Miss Winson will help in the campaign for which a red feather is a symbol.

She is 18 years old and one of the youngest performers ever to

CHARLOTTE WINSON

tour with USO Camp Shows. For 15 weeks she gave shows at 150 points in Korea, Japan and the Pacific islands. Audiences varied

**WARM UNDERSTANDING—** At the Texas Home and Hospital, the Salvation Army's refuge for unmarried expectant mothers in San Antonio, a Salvation Army office sits at the bedside of a new patient from one of the far corners of the state. Here each year many young mothers find the opportunity for a new start.

They are provided with the best possible medical care and their children have a healthy start in life under the guidance of the Salvation Army. Young unwed expectant mothers from all sections of Texas find the benefits of this institution.

from a few hundred soldiers near the front to several thousand sailors and Marines at a big base.

The Community Chest campaigns in which the United Defense fund is usually a part also include many local state and national enterprises. The selection of the organizations which are included in the local campaigns is made by the sponsors in each city.

The Defense fund estimates that it has been able to supply only 25 per cent of the entertainment needs of the armed forces because of lack of funds.

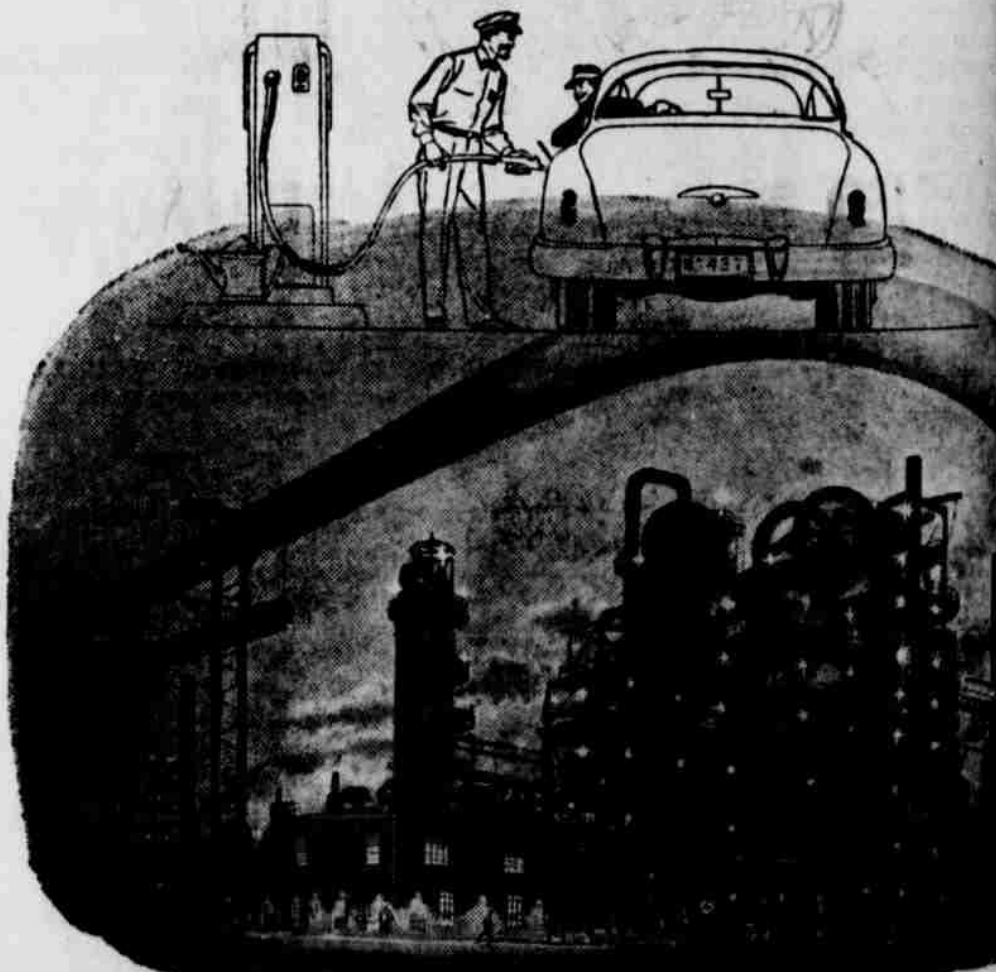

### Major Accident

(Continued From Page 1)

prised of the accident. He was also notified at work and they also are enroute to the hospital according to hospital reports.

This is the first major accident to occur in any Lamb County hospital this season, but always regarded as a major event.

## Why filling your gas tank is

## ...a round-the-clock job—

● Before crude oil can power your car as high-quality gasoline, it must go through a complicated manufacturing process in refineries like ours. With gasoline usage at an all-time peak we're working 24 hours a day to fill your needs. This is the part we play in America's competitive, progressive oil industry... and this is our pledge that we will continue to do our part to serve you and the nation well.

## HOMES FOR AMERICANS

AP Newsfeatures  
A ROOF-HIGH living room with an end wall of glass facing a garden terrace with outdoor barbecue fireplace features this Plan FH-22 by Furno & Harrison, architects, 660 Madison Ave., New York 21, N.Y. The living room, measuring almost 20 by 24 feet, has a ceiling 14 feet high at the ridge. The house, covering approximately 1,420 square feet without the two-car garage, was built at Split Rock Ridge, East Norwich, N.Y., where it sold on an acre of land for under \$30,000.
