PLAN UNDERWAY TO IMPORT YEAR AROUND FARM LABOR

RED CROSS WAR FUND CAMPAIGN TO GET UNDERWAY MARCH 12

C. O. Stone Chrmn. For Littlefield; \$2,400 City Quota

Demands On Red Cross Urgent And Greater Than Ever Before

As announced by H. C. Arnold, County Chairman of the Red Cross War Fund Campaign, C. O. Stone, Secretary of the Littlefield National Farm Loan Association, has been named chairman for Littlefield and area in the drive, which will get underway here Friday, March 12.

M. M. (Jimmie) Brittain will act as treasurer for the Littlefield Drive.

A kick-off breakfast will start the campaign, the goal of which is \$6,400 for Lamb County, with \$2,400 as the quota for Littlefield. Of this total amount, \$2,400 will remain in the county for relief work and the balance will be sent to Red Cross headquarters at St. Louis.

At a meeting called at the office of Mr. Stone Monday night for the purpose of working out details in connection with the drive, the following men were named Captains: L. C. Hewitt, W. D. Watkins, Lester Walters, J. M. Stokes, Lowell Short, and A. R. Hendricks, each of whom will select six other volunteer workers to assist them in the campaign. A solicitation of the business and residential section of Littlefield will be made.

Mr. Stone stated Tuesday that all civic clubs are cooperating in the drive, including the Boy Scouts, who with Dr. Wm. N. Orr as leader, will be active in this worthy cause.

A meeting will be held Monday night at the Littlefield National Farm Loan Office, at which time the committeemen will be named, and further details will be worked out.

In an interview with Mr. Stone Tuesday he said: "Demands on Red Cross are much greater than ever before, and everyone is urged to give all they can. If we are to get our quota, and we must do that, everyone is going to have to give liberally. Littlefield is not in the habit of falling down on its responsibilities, and I am sure will again fall in line and meet the urgent needs of the Red Cross."

Every community and town in the county has been given a definite quota by the American Red Cross, and all citizens should make their contributions to the persons in charge of the drive in that community. Red Cross officials and other volunteer workers strongly urge the citizens of the county to go to their respective community workers, whenever and wherever possible, to make the contribution. Such voluntary responses will release volunteer workers of much unnecessary waste of time. The campaign, which starts March 12, will extend through the month of March.

Below are the names of persons in charge of raising the respective quotas in the various communities. (Continued on Back Page)

Twenty Recruits To Arrive Here Monday For Training Work

J. H. Barnett And Ellis J. Foust To Instruct Men Under Program

Under a joint arrangement with the Farm Security Administration and the Vocational Agriculture Department of the State, a plan is underway for the furnishing of year around farm labor for farmers in need of same, according to an announcement made Wednesday by W. P. Houston, Rural Rehabilitation Supervisor for Lamb County, with offices in the Littlefield City Hall.

The plan as announced by Mr. Houston is to import and train farm workers. Men are being recruited for this purpose in Oklahoma and other states by United States Employment Service and Farm Security, and after given medical examination, are being imported to areas needing farm help.

R. L. King, Vocational Agriculture teacher of Littlefield High School, has been selected by the state in charge of the program here, to see that men sent to Littlefield are given the proper farm training.

Mr. Houston stated Wednesday that 20 farm recruits under the above plan will arrive in Littlefield about Monday afternoon; and J. H. Barnett and Ellis Foust have been selected by Mr. King to train these men in tractor driving for the period of one week. After these recruits have been trained for that length of time, they will be ready to go to work on farms where help is needed.

Mr. Houston said that applications for year around labor by farmers needing help may be made at the local Farm Security Office in the Littlefield City Hall.

The County War Board, of which E. C. Clayton of Spring Lake is Chairman, has recommended that 50 such farm recruits be furnished Lamb County as year around workers, according to Mr. Houston, who stated that the 20 men arriving Monday was only a portion of the 50 recommended, but that an additional 30 recruits will be sent here later. He also said that at the time these farm workers are employed, their families will also be furnished transportation to come to Lamb County.

MEN IN UNIFORM KEEP AN EYE ON "HOME FRONT"

Interesting Letter Received

The men in the armed forces, no matter where they are stationed, watch with interest what those on the "home front" are doing in the interests of the cause of victory. Sometimes they are proud of what we are doing and sometimes they wonder how we can do so little when they are sacrificing so much.

One of the most important avenues of communication between the men in the armed forces and those on the "home front" are the newspapers, which are read from "kiver to kiver" by uniformed men, especially if they are some distance from home either within the confines of the United States or on foreign soil.

There are some folks who do not understand why the newspaper take such an active part in every war effort . . . who sometimes think that the newspapers are interested in financial gain for themselves. When your newspaper advances some war effort all that publication is doing is being true to the trust placed in it . . . true to its duty . . . true to the program which our government has outlined for the newspapers of our land.

One of the important channels through which your newspaper presents various patriotic messages . . . the need for the support of some cause, notably the sale of war bonds, is the special or signature page . . . the kind of page on which the names of individuals and firms appear. So the next time that you are asked to put your name on a signature page and a nominal charge is being made, remember that your newspaper is only asking your cooperation in the patriotic effort that publication is assisting in advancing.

The men in the armed forces notice these special or signature pages, and every other war effort on the "home front."

Your Lamb County Leader recently received a letter from Staff Sergeant Bennett B. Pesis who, previous to entering the service, was employed as technician at the Payne-Shotwell Hospital & Clinic. Bennett sent the letter to the Leader publisher and Mrs. Drake immediately after reading a copy of the Lamb County Leader.

He said: "I just completed reading the second issue of the Lamb County Leader that you were so gracious to send me. I found it more interesting than any magazine or paper that I've read in months. It felt good reading about the acquaintances and friends that made Littlefield mean more to me than I ever had the occasion to express.

"Since I make my letters brief and to the point, I have no hesitation in mentioning the fact that I enjoyed reading about Littlefield contribution to the arsenal of democracy in men and war bonds. To us who are unfurling the banners to the four corners of the earth, your efforts remind us that the homefires are burning for the many that are proving 'our way of living is the right way of living'."

Bennett's letter is just one of countless numbers received by this newspaper and which express the fact that the men in uniform do watch with interest what we are doing on the "home front."

Advertisements Instructive

Reading the advertisements in newspapers and magazines is interesting and instructive and often times brings new thoughts for the guidance of our lives at the moment or at some time in the future.

The war has been responsible for the publishing of some high type advertisements by large American concerns . . . firms who have no merchandise to sell to the general public . . . organizations whose products are purchased by a very limited group. These immense American firms are publishing their advertisements only with one objective . . . the doing of their part in presenting patriotic messages in these troublesome times.

We picked up a magazine a few days ago and in turning through the pages we came to a full page advertisement illustrative and descriptive of what would happen in the United States if the Japs and Nazis should win the war.

The picture presented Nazis and Japs dining on the best of foods of these United States while outside an American was digging in a garbage can seeking food. Under the picture were these words, "It's Dinnertime in America."

"It's Dinnertime . . . or will be soon," said the advertisement. "What are you going to have? Steak's a little bit high. Maybe some lamb, or Chicken."

"Enjoy it. Enjoy every bite of it while you can. Enjoy it even if it is rationed, even if you do pay more for it than you've paid in years."

"At least you can still get it. . . . Not too far in the future . . . if the Japs and Nazis win . . . you may be glad to get a scrap of the cold skin of a chicken from a refuse pile. You may fight over a leaf of spoiled lettuce. May risk your life for a bone with a few scraps of meat on it."

"Is this revolting? Does this seem drawing the picture a little too grim, a little too black?"

"It isn't. And it's time that we here in America realized it isn't. Right now, just to feed our armed forces, we are rationing certain foodstuffs. Can you imagine the shortages the Germans and Japs would make here if they took over?"

"Planned shortages. Planned as part of their revenge for our being a 'have' nation. Planned as part of their scheme to keep us subjugated for generation after generation."

"There's no reason why they should spare us, if they're victorious. They've spared no one else. People in Poland and Greece and Yugoslavia now grub for miserable shreds of food from garbage piles. People like us."

"Think about it. Think of it as something we and our families may face . . . think about it as one of the things that lost time, half-hearted effort, 'letting the other fellow do it' can bring about . . . think about it as one of the realities of total war."

"Now is no time to relax. Now is the time for all of us . . . for you who read this advertisement and for us who sign it . . . to do all in our power to get this war over sooner."

"It's up to you . . . and us."

Most of the people who tell others not to read the Bible haven't read it.

Bluebonnets Miss Reception at WAVES From Panhandle Hold Their Prestige As They Arrive In New York

News reels of the Texas Bluebonnets, WAVES of the Panhandle area, left Amarillo February 15 for Littlefield, New York, arriving at Hunter College, New York City, are being shown on the screen at the Paramount Theatre in Amarillo this week.

Among the 57 Bluebonnets were Misses Rebecca Moore and Lucy Shore, both of Littlefield.

Mrs. Evelyn Boyd, staff writer for the Amarillo Daily News, accompanied the girls from Texas on a special train which included WAVES from other states, to New York City.

Miss Moore (Becky) was Mrs. Boyd's bunk mate on the train, and Mrs. Boyd mentioned her several times in her articles for the amarillo paper.

She said, "this letter is being censored by . . . and my bunk mate, Rebecca Moore of Littlefield."

Again she wrote, "Rebecca knows everyone that I know real well in Littlefield, but she knows them better! . . . Opal Seay of Tulia and Lucy Shore of Littlefield are taking a lot of kidding because of their names, which from now on will be preceded by the word 'WAVE' . . . Before we arrived at Pennsylvania Station, N. Y., I thought it advisable to disguise my camera, so I repacked my bags to include camera and equipment. By the time I had closed by last bag I had a pair of slacks that wouldn't fit, so bunk-mate Rebecca found room in her bag . . . then when I started looking for my slacks, I talked to half the Bluebonnets before I was able to find Becky and my slacks. . . ."

There were 10,000 WAVES reporting to Hunter College by that time."

A reception committee, composed of Mayor LaGuardia, Paramount news reel photographers, and representatives of newspapers, were to have greeted the special train from the Panhandle, but the train load of recruits from Houston arrived about two hours earlier than the Bluebonnets, and they were greeted by the reception committee. According to Mrs. Boyd . . . the Panhandle WAVES "Didn't lose their prestige over that . . . even the East Texans claim the Bluebonnet prestige."

Quite a number of "Wave" Moore's friends this week have received post cards from New York City. She wrote ". . . honestly they keep you on the go every minute in this boot camp, and it's really one of those. There are lots and lots of nice girls here and we have a lot of fun griping and cutting up too. I like it but will be awfully glad when this 'initiation' is over. Boy we are going to be tough when we come out of here. . . ."

Chairman Of Home Service Explains Work Of Local Unit

"Dear Friends,
"This week I want to talk to you about home service work. Some of you may be like I was before I began working here. I had no idea the home service covered so much. "Seems to me one of the most important phases of the work is the connection between soldier boy and his family at home."

"I believe you will get a clearer view of what they are doing from this quotation of General C. Marshall, Chief of Staff, U. S. Army:

"To the thousands of workers in Red Cross Chapters throughout the country, in Alaska, in Hawaii, and in the Philippines, in the Canal Zone and our other insular possessions: Yours is the heaviest responsibility of all, and yours also is the opportunity for the deepest satisfaction. When you receive a message asking you to report about illness in a soldier's family, that worried soldier is anxiously awaiting your reply. His Commanding Officer is awaiting your reply too and relying upon you. When you make fatiguing visits to obtain data for a medical officer, you are helping him to restore to health and active duty a young man who wants very much to get well. When you locate for a soldier his family with whom he has lost contact; when you help solve problems of dependency; when alone or in cooperation with other agencies you help tide a soldier's family over a financial emergency, or help straighten out any other of the great variety of tangles that human beings seem unable to avoid, you are helping to maintain morale on the home front—and with the Army in the field you are helping us in our great war effort."

"In the one short month I have been here almost all these cases have come through this office. Besides these services mentioned above you can make inquiries about your boys lost in overseas service and you can send messages to reported war prisoners."

"The Red Cross still do all the things they always did. One of their mottos is 'When we assumed the soldier we did not lay aside the citizen.'

"We still invite you to work at the Surgical Dressing Room."

"We are especially grateful to the different ministers for the publicity they have given us. Also to the Lamb County Leader for all the help they have been."

"MRS. LYLE BRANDON,
"Home Service Chairman and
"Surgical Dressing Chairman."

DON'T BE TOO LATE WITH TOO LITTLE

The Farmers have a tremendous task ahead of them this year . . . producing Food for Freedom in greater quantities than ever before.

By planting all of the cotton acreage legally permitted, and producing every possible pound per acre, cotton growers will directly help to win the war.

THE JAPS MADE SHORTENING "SHORTER"

The Japs were successful in cutting off the United Nations from large supplies of oils . . . back in 1941.

But—fortunately, America is a great fats and oil producing region.

Cottonseed is one of our major oilseeds—because of climate, experience and other factors, many local farmers can produce needed vegetable oil more efficiently in the form of cottonseed than in any other way. For this reason, we all owe a debt of gratitude to our cotton farmers who are keeping shortening, salad oil and margarine from being too "short."

No Certificate Required! GET YOUR TIRES Re-Capped Now!

Help Save The Rubber You Now Have on Your Tires

Don't Build on An Old Foundation

The foundation of your tire is the side walls! The foundation of your side walls is the fabric in them. When this gives away, the foundation is of little use to balance the tire.

Hickey's Rubber Rejuvenator strengthens the rubber between the fabric, giving extra life to the tire by providing a real foundation for re-capping.

We Recommend
Hickey's Rejuvenation Process on all tires which are becoming brittle and dry.

THE GOVERNMENT HAS RELEASED RE-CAPPING

From Washington, the Office of Price Administration has issued an order, effective March 1, eliminating ration board control over re-capping of passenger tires with reclaimed rubber.

The plan is designated to conserve present tires by permitting motorists to get re-caps when they are needed.

The decision should not be construed to mean that "the rubber situation has so much improved that they can relax and drive more."

We observe CEILING PRICES on all re-cap and repair work. Bring us your tire troubles. Save freight charges by bringing them here—besides OK pioneered in re-capping and offers you the Pressure Method.

School Officials Send Telegram To Rep. Deen In Austin

Members of the Amherst School Board and Supt. Lester Rogers and the school secretary, Miss Chloé Harris, sent telegrams last week to State Representative Tom Deen in Austin, urging that the legislative committee action to remove the present salary schedule for teachers in the State Equalization Law for the duration of the war.

No reply has been received from Representative Deen.

Mr. Rogers announced Wednesday that the Amherst school "was better off" from a teacher standpoint, than many schools in the area, for it has been operating with a full staff all year. Mr. and Mrs. J. M. Clayton have three sons in the service and are starting this paper to each of them. Mrs. Clayton sent last week's copy to Pvt. Bobby Clayton, who is stationed at Camp Haan, Calif., and he wrote his mother how he enjoyed it. He also mentioned that there were four other boys in his battery from Littlefield and when they saw the home paper they were so excited over it as much as if they had gotten a letter from home. Mrs. Clayton passed this in as food for thought to mothers whose boys are in service, to send them the paper. \$2.00 per year will give them much enjoyment as they can learn about their friends at home each week.

Cpl. Wilson Skulley of Fort Sill, Okla., spent three days' furlough visiting Miss Marie Propp, who is a nurse at the Cooperative Hospital here.

FIRST BAPTIST CHURCH B. P. Harrison

Now that our meeting has come to a close, let each of us put our best into service and make our church what it should be, that in doing so we might honor our Lord. We should be grateful for all of the blessings that come to us, and to prove that we are thankful I know of no better way than for us to create a regular church attendance.

What My Absence Did

1. It made some question the reality of religion.

2. It made some think I was a preacher.

3. It made many think that I regarded my spiritual welfare and that of others as a matter of small concern.

4. It weakened the effect of the church service.

5. It made it harder for the preacher to preach.

6. It discouraged the brethren, and therefore robbed them of a blessing.

7. It caused others to stay away from church.

8. It made it harder for me to meet the temptations of the devil.

9. It gave the devil more power over lost souls.

10. It encouraged the habit of non-church going.

What My Presence Did

1. It caused people to have confidence in me.

2. It made people know that I regarded my spiritual welfare and that of others as a matter of great importance.

3. It had a good effect on the services.

4. It made my friends feel more welcome.

5. It encouraged the brethren and helped the preacher in his work.

6. It caused others to come to Christ and say, "I believe that; I believe its philosophy; I believe that is enough to save a man," that man is a power for good.

7. It made my life stronger for another week.

8. It removed stumbling blocks from the sinners' paths.

9. It pleased God and I was happy.

10. It caused others to say "He practiced what he preached."

The American Red Cross Serves In Many Lands

Throughout the nation and the world during great pestilence, tornadoes, floods, fires and other great destructions, the Red Cross is on the job within a very few hours. In War it is an auxiliary of the armed forces. Today its activities girdle the globe. In the theatres of war Red Cross workers bridge the distance between the service man and his family; aid the sick and wounded; provide blood plasma; and through Red Cross Clubs, give service men an American home abroad.

Mr. and Mrs. J. H. Downs, former residents of Lamb County, but who now live in Floyd County north of Lockney, have received word from their son, Pvt. Walton L. Downs, that he had landed safely at a new destination somewhere in the Middle East. He could not give an account of where he was, but was sailing from six to eight weeks. Another son, Pfc. W. E. Downs, is a cook in 24th Gen. Hospital, Fort Benning, Ga. Both boys left from Littlefield when they entered the Army, and would like to hear from people of this community. Volos R. Jones, who is in the U. S. Army, somewhere in North Africa, wrote his parents, Mr. and Mrs. A. F. Jones, recently that he

has been promoted to Sergeant. He stated that he had received quite a few letters since his arrival in North Africa, and a few copies of the Lamb County Leader. He reported that he is getting plenty of good food, clothing and a comfortable place to sleep, and he never felt better in his life.

Pvt. William D. Hall, son of Mr. and Mrs. M. D. Hall of Spade community, was home recently on furlough. He is in the Air Corps, stationed at Biggs Field, El Paso. Before going there he was stationed at Sphrata, Wash., and has been in the service since last July.

Maurice, another son of Mr. and Mrs. Hall, completed a six months' Navy course in sheet metal and arc welding at Navy Pier, Chicago. He is now a petty officer, third class, and is stationed at Norfolk, Va. He joined the Navy last April. Both boys are receiving the Leader regularly and enjoy it immensely.

Sgt. R. L. Gibson, who is in the Ordnance Department with a Bomb Squadron somewhere in the South Pacific, wrote his parents under date of January 31, which letter was received last week, and excerpts from which are as follows:

"I was glad indeed to hear that all was well at home and with the family. Sure would have liked being with you at Xmas time. Couldn't make it. Yes, I received your presents—thanks. They really come in handy in this land that God as well as civilization forgot. There is nowhere to get anything here. Not that we don't get along. For we make out pretty well. . . ."

"Jewel and Glenn are getting along pretty well they said. Glad to hear that. Guess Jimmy Glenn is almost as big as Jimmy was when I left. Gosh that seems a long time since I left to go to foreign service in '39. I've got my fill of seeing the world. Will be plenty content in good old U.S.A. proper after this. I've almost forgot how a white woman would look. Ha!

"Would like to be back with you Dad. All the livestock to care for. I could always make a go of them remember? Just you wait till this is all cleared up. I'll be back with you then.

"So you like your job, Doris. Good. Who else works there. What hours do you work each week? Jimmy, what are you doing now? Are you any help to Dad? Bet you are. Will have lots of fun one of these days. Want to go hunting with me? O.K.

"There isn't much for me to write about. I've lost a little more weight but feel pretty good. Guess I need some of those sweet dishes of yours Mother to fatten up on. Mother will you start sending me three or four of those pocket books each week? There is no reading material down here. They would really come in handy.

"Well, will close with best wishes to all the family. I'll be with you one day some day.

R. LEE.
"E. Tell Pop hello, and all the friends who ask about me.
"HOOT."

James Garrett, attached to Naval Construction of the Armed Forces, is stationed at Williamsburg, Va.

Mrs. Garrett returned home Thursday to Littlefield after spending about three weeks with her husband. She reported that riding night and day, she spent from Monday until Friday on the buses before arriving at Williamsburg. Mrs. Garrett reported that sec-

tion as beautiful country, saying that the flowers were blooming, everything green and lovely.

Sgt. Granville Clark of the Signal Corps, stationed at Fort Sam Houston, San Antonio, visited his parents, Mr. and Mrs. Joe Clark, on a three day leave, on a recent week end.

Clyde Callis, who has been in the service over two years, and serving in a Cavalry unit, left San Francisco for overseas last July, and has been stationed at Caledonia Island.

Pvt. Henry Schlottman of the U. S. Army recently wrote his parents, Mr. and Mrs. O. L. Schlottman, that he was on maneuvers near Yakima, Wash.

His brother, Pfc. Andrew Schlottman, who is in the heavy Coast Artillery, has been stationed at Dutch Harbor, in Alaska, the past year.

Neal A. Douglass, who has been in the Armed Forces for the past six months as an aerial photographer, has been promoted to Corporal. Cpl. Douglass is stationed at Dallas.

Mrs. W. F. Bean of San Angelo received a letter last week from her son, Dennis Ray Bean, former First Class Gunner's Mate on the ill-fated Cruiser, USS Chicago, which was torpedoed and sunk by the Japs between Jan. 29 and Feb. 4, stating that he was well and happy. The letter was dated Feb. 5, and mailed at San Francisco Feb. 18. Bean also told his mother not to

write him until she heard from him again, so the family think he might be coming home.

Mr. and Mrs. O. G. Spillman of San Angelo, parents of Charles Littlefield, another sailor on the un-

fortunate Cruiser USS Chicago, have also heard from Littlefield who stated that he was well.

DO WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, dizziness, distress of "irregularities", are "nervous"—due to the functional "middle-age" period in a woman's life—try Lydia E. Pinkham's Vegetable Compound. It's helped thousands upon thousands of women to live such annoying symptoms. Follow label directions. Pinkham's Compound is worth trying!

"I'm buying War Bonds today for an all-electric kitchen tomorrow!"

"It isn't often that I can spend my money twice... but War Bonds let me do exactly that! They're wonderful, anyway. Every time I buy one, I feel inside the way I do when a band plays the Star Spangled Banner! I sort of feel I'm doing something for my country and the boys in the service."

"Then when I get down to earth again, I realize that I'm doing something for MYSELF as well. I'm really saving money when I spend it for War Bonds. I get to dreaming about what I'll do when this war is over, and about the things I want to buy. Things like the rest of the equipment for that electric kitchen I have my heart set on, but can't get for the duration."

"That's why, when I buy War Bonds 'til it hurts, it doesn't really hurt at all!"

"The Greatest Mother in the World,"
The American Red Cross
With A War Task Ahead--

Comes to the American People to Appeal For Funds - March 1 to 31 - Funds to Finance the Most Extensive Humanitarian Program Ever Conceived. Goal of the 1943 War Fund Campaign of the American Red Cross is **\$125,000,000**

----- **THEY NEED YOUR HELP** -----

Disaster Relief

Disaster relief continues. The last Red Cross annual report shows that a total of 26,666 homes were destroyed by fire, wind and water, leaving 72,434 Americans without food, clothing or shelter. Made homeless by 149 disasters, sufferers were fed, clothed, sheltered and administered to at a cost of \$1,250,000.

A Proclamation

By The President of The United States of America

Whereas the American National Red Cross during the first year of our participation in the War has rendered vital humanitarian services to the members of our armed forces and to their families,

Whereas the demands made upon the Red Cross are steadily increasing from day to day as it is called upon to accompany our army and navy into world-wide theaters of action, to provide blood plasma for our wounded, to send relief to American and United Nations prisoners of war, and to expand its preparations to meet emergencies at home, and

Whereas the American National Red Cross is under the necessity of raising further funds in order that these essential services may be continued and expanded,

Now, therefore, I, Franklin D. Roosevelt, President of the United States of America and President of the American National Red Cross, do hereby designate the month beginning March 1, 1943, as "Red Cross Month," and I request that during that month our people rededicate themselves to the splendid aims and activities of the Red Cross. I summon the men, women, and young people of our country, in every city and town and village, in every country and state throughout the land, to enlist in the army of mercy mobilized under the banner of the Red Cross and to contribute generously to the Red Cross War Fund in order that the sum of one hundred twenty-five million dollars, every cent of which is needed, may be raised promptly.

In witness whereof, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done at the city of Washington this twenty-third day of February, in the year of our Lord nineteen hundred and forty-three, and of the Independence of the United States of America the one hundred and sixty-seventh.

FRANKLIN D. ROOSEVELT

Funds For The Armed Forces

It is reported that 65 per cent of the funds required by the national organization had been budgeted for Red Cross services to the armed forces. As the armed forces increase, the Red Cross must keep pace both at home and abroad.

The 1943 program of the Red Cross presents a picture of great expansion in every phase of its work.

Blood plasma is one of the most important contributions to the medical branches of the military. It has proved itself by saving the lives of thousands of boys wounded in battle.

South Plains
The Service

Sergeant F. C. (Bud) Thurmon of Mr. and Mrs. T. M. of Southmoor Addition, been in the Air Corps since last, now an aerial gunner, at Great Falls, Mont., transferred from Wend, Utah.

from Sgt. Thurmon's from Utah to his parents follows:
your soldier is doing just

fine, and I'm still on the beam. The wind blew all day today and it was sure cold here. We go upstairs at 6 o'clock every morning, and its sure cold sitting in the tail or ball turret, but we have these leather clothes with wool lining, so we stay pretty warm. I got a letter from Aunt Etta today, and she sent me a picture of Old Dan. He's sure a good looking pony. She said A.V. is still in England, but she thinks will go to Africa soon. I'd sure love to see him. A.V. is Bud's cousin.

"We fly from 8 to 12 hours a day now so you see we're up nearly 16 hours a day. I always wanted to travel and see new things, have new experiences, and I am really doing it now here. . ."

From Great Falls, Mont., Sgt. Thurmon wrote under date of February 21:

"Hello, Folks, how's the family? Is everyone well and doing fine? Well, your son is honky dory. It snowed all night, and is still snowing today. There's about four inches of snow on the ground already. I've really had a time and seen the country while we have been here. We flew all over Yellowstone National Park yesterday, and it's sure pretty. We ran a herd of buffalo, saw two bears, and old faithful Gusher. We flew as close to the ground as possible in most places. We have also been through Glacier Park, but Yellowstone is the prettiest."

The following are excerpts from a letter written by Maj. Tilden P. Wright, who is somewhere in England, to his wife dated Jan. 29, which will be of interest to his many friends here:

"I left the hospital last Tuesday and after one more night in an old English Country mansion went back to my headquarters. The medical officer there immediately ordered me to take ten days, two weeks or so at a place that has been turned over to the Air Force for the duration to serve as a rest home for broken down pilots, and such. Rather dreaded it, but discovered to my delight, it is a very old mansion with every conceivable modern luxury, most of the furnishings are practically priceless antiques, but all very comfortable and exceedingly beautiful.

"Some of the wood carving is beyond description. There are approximately nineteen bedrooms, baths and such. The gardens are complete with their own greenhouses; fig trees over one hundred years old; grape vines so old they have forgotten their first leaves; all still bearing; camellias, baby orchids, all sorts of beautiful flowers.

"Some of the Kings of England once lived here before the Norman Invasion. Two Red Cross women keep things running. Rafts of servants; food best in the world, served from lovely ancient silver, by candle light, fireplace light and strategically placed electric lights. Some of the ceilings are beamed, many of the rooms paneled; all exposed woodwork exquisitely carved. Also, and very important, there is steam heat! This is the rambling English country style, doors opening off unexpected places; winding staircases, with practically every room at dif-

"Have been searching for the type of Dresden China figurine we have been wanting, but as you know they were stopped years ago, not just the war, and are practically non-existent now in the stores.

"As for belique china, haven't found any in England. Free Eire is of course "off limits" and Northern Ireland has none. May run across some yet. Am searching and inquiring for it.

"Went out driving yesterday to get some fresh air and stopped at a Red Cross sale. People donate things to be sold for the Red Cross. Found only one thing that interested me. It's a perfume bottle, French, about three inches high, all covered with dainty china blue and white flowers, plus three white rosebuds, some green leaves and one or two pinkish buds of the smaller flowers. The small flowers are about the size of those on the baskets I sent

you. Has a woven handle, like a pitcher, with cork fastened to the chain that is fastened in the handle. The mouth of the bottle is made of a single white rose, single petals. All china. Supposed to be an antique. I got it for you. Got it wrapped and packed today. Some of the wrappings are one "London Times" full size, two sheets; and two "Stars & Stripes," the daily newspaper of the U. S. Forces.

Pfc. Jesse Ray White, stationed at Camp Howze, Gainesville, son of Mr. and Mrs. J. E. White of Littlefield, in a recent letter to his parents, said:

In addition to being a crackshot with a gun, Pfc. White is a lover of music and instructed his father to get the guitars and fiddles tuned

HAVE AUTOMOBILE ACCIDENT ENROUTE TO CALIFORNIA

Mr. and Mrs. Jim Etter, enroute to Los Angeles to make their home, were unfortunate enough to have an accident between Littlefield and Deming, N. M., Friday night when passing a truck. The truck, which Mrs. Etter was driving, struck the soft shoulder in the road and overturned. Mr. Etter was believed to have been resting while Mrs. Etter drove.

Mrs. Etter was somewhat shaken up, and some repairs were done to the pickup.

Mr. Etter phoned J. W. here relative to his insurance, stating that they had had the dent, and after "temporary" repairs to the pickup, they would go to California.

Mr. and Mrs. Etter left Thursday.
