Essentials For City Growth Are Named

"Build a community that people want to live in, and trade, commerce and industry will follow in order," H. W. Stanley of San Antonio told 310 members of the Big Spring chamber of commerce and their guests at the annual banquet in the Settles hotel Tuesday night.

Speaking on "Why The Chamber of Commerce," Stanley, who is manager of the trade extension and civic affairs department of the San Antonio chamber, referred to water, fuel and transportation as the three essentials of a city. If a location has these components and is developed properly, trade is inevitable, he declared.

"This chamber of commerce idea is not new, England had its guilds and early New Englanders had their town meetings and even some present chambers of commerce are older than the United States itself," he pointed out.

Stanley listed seven functions of the chamber, each of which he said is filling a niche in the life of the community: 1. Serving as a clearing house for community building ideas; 2. Harnessing the manpower of the city to every worthwhile task; 3. Giving all community life a common denominator of thought; 4. Eliminating petty jealousy among business men; 5. Raising all legitimate business to a professional plane; 6. Giving to all business a common code of ethics; 7. Teaching men new interest in themselves and their community.

Joe Pickle, retiring chamber president, was master of ceremonies. He introduced K. H. McGibbon, president elect, who called for continued cooperation of the membership in projects the chamber will pursue during the coming year.

Seated at the speakers table were Dr. C. A. Long, First Methodist pastor who led the invocation, and Mrs. Long; R. W. Currie, vice-president elect, and Mrs. Currie; and Mr. and Mrs. McGibbon and Mr. and Mrs. Pickle, retiring and incoming officers and directors were recognized, and visitors were introduced from Midland, Laramie, Wyoming, Colorado City, El Campo, Lamesa, San Antonio, Stanton and Fort Worth.

Musical entertainment was furnished by the Texas and Pacific Railway quartet from Dallas, and "Roy" Rosenman, T&P pianist, presented several numbers.

Delay Asked For Setting Cotton Quota

WASHINGTON, Feb. 19. (AP)—An official of the agriculture department has recommended to the tariff commission that it delay until May 15 a decision on whether to raise this year's import quota on long staple cotton.

C. C. Smith, assistant director of the department's production and marketing administration cotton branch, urged the action on the commission yesterday during a hearing seeking to determine whether changed circumstances require modification of the import quota on cotton having a staple of 1-1.8 inches or more in length.

Some domestic users have asked that the quota be raised, as has the Egyptian government. The 45-656,420-pound quota for the year ending Sept. 19, was filled last Nov. 30.

Smith asked that action be deferred pending a study of available stocks by the department and the tariff commission.

He also recommended that any quota increase be no more than that "which is shown to be required" and "not greater than the amount of low grade unsatisfactory cotton entered during the 1946-47 quota year."

Jester To Talk At JayCees World Congress

DALLAS, Feb. 19. (AP)—A luncheon address by Gov. Beauford H. Jester of Texas highlights the program today of the World Congress of Junior Chambers of Commerce International. Discussion of the group's local activities and a tour of Dallas round-out the day's activities.

At their forum yesterday the young men from 25 nations offered free trade, scholarship exchanges, leadership of the Americas and abandonment of imperialistic policies as remedies for post-war ailments.

Bernard J. Washliek of New York, chairman of the international relations committee of the US Junior Chamber, set the keynote for the forum when he declared that the young man of today is on trial before his elders and urged him "to demonstrate conclusively that he acts well but not rashly."

The discussion of world problems touched off several friend-

Preliminary Portal Hearings Scheduled

FORT WORTH, Feb. 19. (AP)—Federal Judge James C. Wilson has announced that he will hold preliminary hearings in four portal-to-portal suits in a special session of his court in Amarillo Monday.

Suits to be heard involve the following firms: Shamrock Oil and Gas Company, Columbian Carbon Company, Continental Carbon Company and the American Zinc Company.

Does Stomach Gas and Bloat Make You Feel Miserable?

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virulent mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

Take CALOTABS

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment, sour, acid, indigestion and gas frequently cause a morbid, lousy, fretful, nervous, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that S&S Tonic is amazingly effective in increasing the flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the S&S Tonic formula which contains special and potent activating ingredients.

Also, S&S Tonic helps build-up non-organic, weak, watery blood in autodialysis—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other stimulants to counteract gas and bloating when what you so dearly need is S&S Tonic to help you digest food for body strength and health. Don't wait! Join the host of happy people S&S Tonic has helped. Millions of bottles sold. Get a bottle of S&S Tonic from your drug store today. S&S Tonic helps Build Sturdy Health.

Quartets Sing At Rotary Meet

Two quartets, one composed of local Boy Scouts and another sponsored by the T&P, furnished a musical program at the Big Spring Rotary club's weekly luncheon meeting Tuesday.

Members of the scout quartet are Pat Lamb, Bobo Hardy, George Worrell and Murph Thorp Jr.

Dan Conley, who is arranging service club visits for the Red Cross was in charge of the program, and Jack Lamb, chairman of first aid and accident prevention activities for the Howard-Glassecock chapter of Red Cross, was principal speaker.

Fifteen Rotarians volunteered to attend the kick-off breakfast in the Red Cross special gifts drive.

The use of refrigerated railroad cars in the United States began 70 years ago.

Father Attempts To Evict Children

CHICAGO, Feb. 19. (AP)—James Cicchetti's efforts to evict his seven children, ranging in age from 7 to 23 years, from their home in suburban Westmont has been halted by a federal judge.

A permanent injunction was issued by Judge Philip L. Sullivan yesterday restraining Cicchetti, 53, from evicting his children and also enjoining the Du Page County officials from carrying out an eviction order approved by a circuit jury a month ago.

Cicchetti, who had been ordered to leave the house two years ago by a Du Page county justice of the peace after the children testified that he had abused them, obtained the eviction order because he planned to sell the house. He told Judge Sullivan he has sufficient room for his children in his Chicago home where he lives with his second wife. The children's mother died in 1941.

John Hancock, first signer of the American Declaration of Independence, was present at the coronation of George III of England and at that time the king gave him a snuffbox as a mark of royal esteem.

THE ARMY GROUND FORCES— WORLD'S GREATEST SCHOOL FOR LEADERSHIP

"FOLLOW ME!" The ringing battle-cry of the Infantryman is the stirring command of the leader. And nowhere else in the world—in war and in peace—are so many great leaders developed as in the Army Ground Forces. The American ground soldier is known for his ability to carry out any assignment with resourcefulness and initiative—the qualities that make leaders in civilian life as well as the Army.

The Ground Forces can not only teach you leadership—they can equip you with fine job training to go with it. In peacetime, the Army is a gigantic school-going organization—with training available in many valuable skills and trades.

Remember, too, that increased Army pay scales are now in effect, and that you receive 20% additional pay for overseas service.

Thousands of outstanding young men, able to meet the new higher standards required, are enlisting in the Regular Army. And because of the special advantages offered, the majority of them are enlisting for 3 years. If you are looking for the road to a profitable future, your nearest U. S. Army Recruiting Station can furnish all details.

Highlights of Regular Army Enlistment

1. Choice of any branch of service which still has quotas to be filled, and of certain overseas theaters which still have openings, on 3-year enlistments.
2. Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may enlist at any age, and former service men depending on length of service.
3. A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. Leave credit accrues at the rate of 30 days per year of service.
5. Mustering-out pay for all men eligible therefor, when discharged to enlist or reenlist.
6. Educational benefits under GI Bill of Rights for men who enlist before official termination of war and remain in service 90 days or more.
7. Family allowances for dependents of men enlisting or reenlisting continue until 6 months after official termination of war.
8. Reenlistment for 1 1/2, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
9. Option to retire at half pay for the rest of your life after 20 years' service—including up to three-quarters pay after 30 years' service. All previous honorable active federal military service counts toward retirement.

Contractors Show Interest In Bidding On Paving Jobs

Early response to the first advertisement for bids indicates that a number of contractors are interested in Big Spring's 1947 paving program, H. W. Whitney, acting city manager, said today.
 Three contracting firms already have secured copies of plans and specifications from the city engineering department, and several others have requested copies. Whitney said most of them indicated that they plan to submit bids.

Arnold Hearings Slated To Reopen

WASHINGTON, Feb. 19. (AP) — A Senate Finance subcommittee was scheduled to reopen hearings today on the nomination of Herbert Arnold as internal revenue collector for Northern Texas.
 After being reported favorably by the full finance committee, the subcommittee agreed to reopen the hearing on request of Sen. W. Lee O'Daniel, junior senator from Texas.

It's Long - it's Low - and you'll love it!

YOUNG or old, you thrill to the sparkle of its massive grille, bright with the kiss of the morning sun.

Grandson or grandpa, you take in the flowing sweep of those follow-through fenders — and unerringly spot in them the style-note destined to key the whole trend of car design.

Lift the bonnet, and feel your heart do a nip-up at sight of a massive Fireball straight-eight that wakes with a purr, pulses

with power, fairly pleads for the privilege of taking you places.

Now try on the seats, just for size.

Take in the great and gracious room so cunningly provided under sweeping roof lines.

Slip out on the road — and feel the down-to-earth sureness of low-slung weight, the easy rippling stride of a car cradled all around on soft coil springs.

Handling? A dream. Controls? Light as a kite. Value? Appraise

the metals, pry into the precisions, match them point by point against the field.

Nowhere today does a dollar buy a bigger measure of good Buick fineness and quality — or as great assurance of long and happy returns on your investment.

So why debate, why delay? This is the one you've dreamed about — and the first step toward making it a dream come true is to get your order in.

Sun No. 1 Jameson Showing Promise

Sun Oil Co. No. 1 Fred Jameson, northwest Coke county deep outpost, gave promise of becoming a larger producer than the discovery No. 1 Allen Jameson when it recovered all on two drillstem tests from 6,620 feet during the weekend.

The oil appeared out of the pay when a foot of shale was recovered with two and a half feet of lime

Frank Loveless, a cooperator and supervisor in Zone Three of the Martin-Howard SC District, has ten acres of Austrian Winter peas that show promise of making a good legume grazing and soil improving crop throughout the district. Loveless inoculated the seed with nitrogen culture thereby giving the peas the power to draw nitrogen from the air and store it on the roots in the form of nodules.

He has received considerable grazing from the peas but plans to permit sufficient growth for use as a green manure crop this spring. In addition to the Austrian Winter peas, Loveless has fifteen acres of Abruzzi rye as a cover and grazing crop that is looking good, and has chiseled thirty acres of sudan stubble leaving the litter on the surface to control wind erosion and increase moisture penetration when hard rains come.

Recent soil analysis made by the SCS on farms cooperating with the Martin-Howard SC District show a general deficiency in nitrogen, phosphorus, magnesium and available iron, Albert Jordan, Work Unit Conservationist, reports. This is why the supervisors of the district are interested in a well rounded conservation program which will not only control erosion temporarily but will assure sustained high yields which means security to agriculture and society, Jordan further states.

Dick Thompson, cooperator with the district in the Fairview conservation group, will plant cow peas as a soil building crop. Thompson, who has grown peas before, reports cotton following this crop was much better than on land without the soil builder. "You could look across the field and tell the difference," Thompson said. Thompson is also plowing his crop stubble to leave it on top of the soil. He is using a lister with the wings cut off to keep from covering the stubble.

Ed Bailey put his land on the contour on the Roy McNew farm south of Knott. Bailey stated that he had worked contoured fields before and knew they would hold the rain where it fell.

Contouring, cover crops and crop residue management are included in a complete program of soil and water conservation on the farms of cooperators with the district.

E. W. Flanagan, who is cooperating with the district on his ranch southeast of Big Spring, is building a stock tank this week. Flanagan had the aid of the Soil Conservation Service in planning and laying out the tank.

Cotton Consumption Hiked In January

WASHINGTON, Feb. 19. (AP)—The Census Bureau reported today that cotton consumed during January totaled 947,036 bales of lint and 93,909 bales of linters.

This compared with 774,177 bales of lint and 79,352 bales of linters consumed during December of last year, and 811,218 bales of lint and 96,735 bales of linters consumed during January of last year.

Here's How

ADVERTISING

by selling more goods to more people

MAKES YOUR JOB MORE SECURE

NO matter what your job today, it depends on "good business." And someone has said that in the American business system, nothing can be accomplished until "something is sold."

You know the truth of this. Falling sales mean pay cuts, layoffs, fear. Increased sales mean better pay, promotions, more security in every job for every man.

Advertising is the low-cost, efficient way to sell goods. Advertising is the spark plug of business. So advertising, by selling goods, makes your job, your home, your income more secure!

Other Ways

Advertising Helps You:

1. Brings you better goods for less money.
2. Makes shopping more pleasant and easier.
3. Has given us the world's highest standard of living.

Local Support For Teachers' Bill Is Sought

Local supporters of bills introduced in the state legislature proposing to boost the minimum salary of public school teachers to \$2,000 annually are urging all others favoring the increase to write or wire their congressman in Austin.

Bills 175 and 176, which would increase the state per capita from \$35 to \$55 annually as well as hoist the wage scale, were approved without a dissenting vote by a special senate committee last week and now go to a house committee. If they carry there, they will be voted upon by the legislature.

There is no minimum salary for teachers in public schools now. Base pay for instructors in local schools is \$1,700 yearly.

Senate Bill 21, who proposed an increase of \$300 for the year to teachers in rural aid schools, has carried in both houses and is now on Gov. Beauford Jester's desk for his signature. Such an increase would be distributed at the rate of \$75 a month from now until the end of the current semester.

Money for the boost would come out of the Equalization fund, which now boasts a surplus.

MAN, 73, WILL MARRY GIRL, 18

CHICAGO, Feb. 19. (P)—At the marriage license bureau yesterday Harry Faynter, deputy clerk, asked Cornelius J. Boldt, to give him the birth date.

"June 14, 1873," answered the girl with Boldt.

Then Faynter asked the girl, Miss La Verne D. Anderson, to show a birth certificate because she did not appear 18 years old. She handed him a certificate giving the birth date as Oct. 5, 1926.

The marriage of the 73 year old widower and the 18 year old girl is set for Saturday.

Houston Land Bank Loans Half Billion

The Federal Land Bank of Houston, owned by 144 local national farm loan associations, has loaned almost half a billion dollars in three decades, Ira J. Driver, secretary-treasurer of the Big Spring National Farm Loan association, reported on his return from the annual meeting of land bank stockholders in Houston.

This spring, the land bank will observe its 30th anniversary. During its period of service, it has handled 164,717 loans for \$477 million. Discussion on the program of "safe, long-term credit at low cost to suit the needs of landowners" were discussed at the meeting," said Driver.

The Big Spring NFLA, which serves Howard and Glasscock counties, now has \$37,845 in farmer and rancher-owned capital, and a surplus of \$45,670. In the past year a total of 10 per cent dividend on stock was paid to members while another \$5,545.25 was put into surplus to further strengthen the association for any contingencies.

Alabama had 4,884 miles of railroad in 1945.

40 Servicemen Donors Needed In Tree Project

Approximately 40 additional servicemen donors are needed to complete the memorial tree project in honor of men who gave their lives in the armed service during World War II.

Eleven former veterans have made \$8 gifts for the purchase and planting of trees during the past week, but two score more are needed to make sure that the Gold Star men from Howard county are represented said Dr. C. W. Deats, in charge of the campaign. Trees will be planted and given care by the city on the Birdwell tract, Eleventh Place and Gollard, which is scheduled to become a part of the city park system.

Gifts, which are restricted to servicemen or veterans on a "buddy" basis, may be given to Dr. Deats or Harold Steck, or left with Joe Pickle at the Herald.

Latest donors are Judson H. Lloyd, Frank Powell, J. O. Balby, H. H. Stephens, R. V. Middleton, Ira Thurman, J. Laccoarce, H. L. Bohannon, Carl Rutledge, Byron

Bill To Repay Prisoner Slated

SPRINGFIELD, Ill., Feb. 19. (UP) A bill has been introduced in the Illinois House of Representatives seeking an appropriation of \$24,000 for Joe Majczek, 39, who was pardoned two years ago after he served 12 years in prison for the slaying of a Chicago policeman.

Majczek in 1932 was sentenced to 99 years for the holdup slaying, but his mother, Mrs. Tillie Majczek scrubbed floors in downtown Chicago office buildings and mortgaged her home to raise \$5,000 which she offered as a reward for information that would help win his freedom.

Mrs. Majczek in her appeal to the pardon board, said her son was wrongfully convicted and had been the victim of a "rotten legal defense." The pardon board was given testimony that an important trial witness who had identified Majczek as the killer had told conflicting stories to friends.

E. Jones, Harold Steck, Adrian de Graffenreid, Harry Jordan made a cash donation.

HOUSING NEEDS TRIPLE RAPIDLY

CHICAGO, Feb. 19. (P)—Robert Abrams' efforts to find a home became three times more intense today.

Since his return from overseas Abrams and his wife have been living with two other families.

Yesterday Mrs. Abrams gave birth to triplets, two boys and a girl, and Abrams said he hopes to bring them to their own home—if he can find one.

Widow Of Former Lt. Governor Dies

CORSICANA, Feb. 19. (P)—Mrs. Marion Martin, 91, widow of the late Captain Marion Martin, lieutenant governor of Texas from 1882 to 1886, died at their home here late yesterday.

Her late husband was a Confederate veteran and once owned outstanding race horses.

She is survived by a son, Marlon; a granddaughter, Mrs. L. R. Hayes; and a great granddaughter, Marion Elizabeth Hayes, all of Corsicana.

Job Placements Here Show Gain

Job placements at the local employment office of the Texas Unemployment Compensation Commission have gained considerably over January. L. O. Connally, manager, announced today.

Although definite comparisons on trends will not be available until the last of the month, Connally said February placements already have surpassed the total record for January. Placement comparisons Tuesday showed a

100 per cent increase over the same date in January.

This probably indicates a general gain in employment and possibly a decrease in the unemployment rolls. Connally said, especially for the immediate Big Spring area. However a number of transients file applications through the office which slows the decline of unemployment.

WHAT GIVES 'ROUND TOWN'

By Leatrice Ross

The country club golf courses, the park, the whole countryside were strewn with people Sunday afternoon. Some were footing it in the sunshine; others were in cars. The tennis courts overflowed with enthusiasts. As to names: like Robb, Frances Wilson, Helen Montgomery, Harold Berry, Eddie Houser, Lillian Tamsitt. . . . One group of individuals was out taking pictures. Spotted first at the high school grounds, the camera toppers included Joyce Beene, Lynn Porter, Mary Evelyn Johnson, Bitsy Jones, Dot Taylor, Jimmy Morehead, James Brooks, Glib Sawtelle, James Hollis.

Even the rodeo grounds were in use. A multitude of amateur and not-so-amateur riders and ropers were giving gratis performances. Among exhibitionists, we located Kenny Thompson and Monroe Tomlison. Monroe, who seemingly always is in our local rodeos, got back into town Saturday from parts in East Texas. . . . Observers included R. E. McClure and Floyd Stevens.

In the course of the afternoon, we found Jim Bill Little and Pete Fuslar peering at the park mombies. Thereafter, they (Jim Bill and Pete, that is) turned up everywhere we went. . . . In the bowling center, seats watched a maple tournament. Among familiar contingents were Beans Miller, Bobby Lee Wright, R. L. Heath. Winners in the individual matches will be determined Sunday when bowlers from Midland and Odessa try their arms.

Bills Against Closed Shop Are Approved

LITTLE ROCK, Ark., Feb. 19. (AP)—Anti-closed shop bills received legislative approval yesterday in Arkansas, Tennessee and Georgia.

At Little Rock, the House passed 75 to 16 a Senate-approved measure making the 1944 anti-closed shop constitutional amendment operative. The bill would become effective when signed by Gov. Ben Laney.

The Tennessee Senate, at Nashville, passed an anti-closed shop bill 16 to 7. The House still must act on the measure.

At Atlanta, the Georgia Senate besides voting a ban on the closed shop unanimously approved bills forbidding involuntary checkoff of union dues and restricting picketing of strike-bound industrial plants. Companion measures in the House were placed at the top of the calendar despite an unfavorable committee report.

House Committee And Two Veterans Groups Tied In Three-Way Squabble

WASHINGTON, Feb. 19. (AP)—The House Veterans Committee and a pair of on-service organizations—the AVC and VFW—were tied up today in a three-way squabble over who ought to be allowed to testify before the committee.

The committee stood pat on a resolution that: "Testimony before this committee be limited to those organizations who have exclusively active, participating veterans of American wars."

The American Veterans Committee interpreted that as denying it the right to be heard.

It contended the arrangement was cooked up by Rep. Benkin (D-Miss.) on the strength of material supplied by the Veterans of Foreign Wars.

The VFW said there was nothing to that—that as long ago as last fall National VFW Commander Louis Starr had said publicly AVC isn't a bona fide veterans' organization because it takes in members of the Merchant Marine and others who weren't in the armed forces.

The storm blew up yesterday

when Benkin offered a motion at a closed committee meeting to limit testimony to representatives of "accredited" veterans' organizations.

But the resolution that was adopted was a substitute by Rep. O'Rourke (D-Wis.). It passed, 15 to 9, over the opposition of Chairman Rogers (R-Ill.).

Benkin told a reporter he preferred to ignore the complaints of AVC but he noted that the vote in the committee was "overwhelming."

Youth, 18, Killed In Auto Collision

SUNDOWN, Feb. 19. (AP)—Fred Luttrell, 18, son of Mr. and Mrs. I. F. Luttrell, was killed last night in the collision of a motorcycle on which he was a passenger, with an automobile.

Jesse Carpenter 18, driver of the motorcycle, suffered a broken leg and arm, and was in serious condition in a Levelland hospital. None in the automobile was in-

Jester Will Delay Naming Regents

DALLAS, Feb. 19. (AP)—Governor Beauford Jester said here last night that he would send to the Senate his nominations for the Board of Regents of the University of Texas and the Board of Directors of Texas A&M College on his return to Texas.

He declined to comment on the action of the Senate in refusing to confirm the reappointment of Orville Bullington, Wichita Falls, and Dr. Wallace H. Sherer, Houston, as University regents and of R. J. Brees, San Antonio, and D.

S. Buchanan, Buda, to the board of directors Texas A&M College. He said he had other men in mind for the posts.

Later in a speech at the annual banquet of the Oak Cliff chamber of commerce Jester said he was grateful for the Senate's confirmation of two Dallas men for state positions, Vernon C. Singleton as a member of the Board of Education and R. A. (Smoot) Schmid as a member of the Board of Pardons and Paroles. Both Singleton and Schmid were in the audience.

"TROPIC LIGHTNING" THEY CALL IT

And well named is the U. S. Army 25th Infantry Division. Its crushing blows on Guadalcanal, New Georgia, Vella Lavella and Luzon are proof enough. Any man can be proud to wear the insignia of this famed division.

And a picked group of fine young men are going to be given this opportunity when they enlist in the U. S. Army for 3 years. Further, after initial training in the U. S., they will be stationed right with the "Tropic Lightning Division" amid the world-famous scenic attractions of Japan.

In addition to all-important occupation duties, there are many other activities to make life interesting for men of the 25th. Swimming pools, golf courses, tennis courts, baseball diamonds and clubs are theirs to use. Sightseeing is encouraged. Living quarters are excellent. And starting base pay for Privates overseas is \$90 a month. Up to \$297 a month for First Sergeants. Food, clothing, quarters, medical and dental care supplied without charge. US Minister Social Flop With Princess

CAPE TOWN, Feb. 19. (AP)—American Minister Gen. Thomas Holcomb confessed ruefully today he had "been a social flop with Princess Elisabeth."

Cause of his chagrin, he said, was Belgian Minister Moutseret, dean of the diplomatic corps, who, as Holcomb put it, "made himself so cheerying I simply didn't stand a chance."

Holcomb, who ranks number two in length of diplomatic service here and has the reputation of a ready, witty talker, explained: "Moutseret was on one side of the Princess. I on the other but did I manage to get in a word? No, or at least not very often. My Belgian friend outtalked me every time."

"Occasionally I got a word in edgewise. In one of those moments I learned the Princess would be glad to have a good look at the United States. She said she'd like to see every state and had an invitation to do so, too. She meant OK's who'd been presented had asked her proudly to see their part of the country."

"She is a fine girl, absolutely delightful. I fell in love with her."

The Force that Holds an Iceberg Together...

OIL-PLATES Your Engine!

A floating mountain peak, the awesome mass of an iceberg... weighing millions of tons... is held together by one of nature's most powerful forces—the force of **molecular attraction**.

By harnessing this same mighty force of **molecular attraction**, Conoco scientists are able to bring you new and better motor oils. For by **molecular attraction**, a special ingredient of Conoco Nth motor oil is bonded to working parts of your engine. So strong is this attraction that cylinder walls and other parts are **OIL-PLATE**.

And because **molecular attraction** holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the sump, even overnight... you get these benefits:

1. added protection during the vital periods when you first start your engine
2. added protection from corrosive action when your engine is not in use
3. added protection from wear that leads to fouling sludge and carbon
4. added smooth, silent miles

That's why you'd be safer to OIL-PLATE your engine now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company

N. Mexico Man Sends \$5 To Boy Who Lost Lambs

When the story of how local residents and businessmen made up over \$400 for Vancil Scott, who had lost four lambs to dogs on the eve of the annual 4-H club show, was put on the Associated Press, it touched L. E. Jarrell of Lordsburg, N.M. He mailed a \$5 check to Mayor G. W. Dabney, urging that it be added to other contributions. Jarrell was particularly touched by the boy's attitude in not asking aid, but for a job to earn money to repay funds he had borrowed for the sheep and feed. "A good deed touches me..." wrote Jarrell "You and the good businessmen of your city should be recognized and praised for the good deed you have just done for a fine boy. Vancil Scott has shown the true heart of a future man... made of the true old Texas stuff; working for what he gets." Jarrell recalled how he had quit the cotton patch and the eighth grade of a country school under the inspiration of a country school teacher and had earned a degree to enter the teaching profession. While in that profession he said he had come in contact with thousands, and added: "Give me the poor boy with just a will to work honestly... and when he grows up he will not sell his vote. He will not betray confidence placed in him. He will lose much sleep studying how he can make better and better. Your businessmen will be proud some day of a member of the 4-H club of your community."

Stomach Distress Is Gone After 10 Years Of Suffering One man recently stated that for 10 years he felt like he had a brick in his stomach. This feeling was due to the lump of undigested food he always had inside of him. He was weak, worn out, headachy, swollen with gas and terribly constipated. Recently he started taking INNER-AID and says the feeling like a brick in his stomach disappeared the second day. Bowels are regular now, gas and headaches are gone and he feels like a new man. INNER-AID contains 12 Great Herbs: they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Spirited Bids End Mitchell County's Show

COLORADO CITY, Feb. 19.—A robust \$2.05 per pound for the grand champion lamb shown by Robert Henderson, Colorado City FFA student, paced spirited bidding for 4-H and FFA animals at the concluding session of the 10th annual Mitchell county show here Tuesday.

Rosa Daniels paid \$217.30 for the 106-pound cross bred lamb shown by Henderson. Top calf in the sale, exhibited by Jack Wells, brought 45 cents from the Colorado City National Bank for its 700 pounds. Seventeen other calves in the sale averaged from 28 to 33 cents per pound.

Of the eight hogs sold, the 250-pound barrow shown by Charles Hestad drew 33 cents a pound from Leonard Henderson, and the reserve champion at 35 cents by Fred Guitar. Paul Teas purchased the top capon at \$6.

Judging of the lamb division was completed Tuesday morning with Henderson's entry nosing out one by Linden Solomon, Cuthbert FFA student, who exhibited an 84-pound Rambouillet. Thomas Stinson had first place for the pen of three lambs fed by one boy.

In the boy Herford breeder division, Melvin Baumann won with his cow, and Glyn Hamilton took first for heifer classes. Raymond Haeckfeld had the champion dairy cow with Thomas Stinson ranking second. The Colorado City chamber of commerce, sponsoring the event handled through the show association, raised \$1,000 in prizes. Next year the show will be housed in permanent quarters. P. H. Mackey is head of the show and Lay Powell the finance chairman.

Tubb No. 1 Jones Drilling Into Lime

Fork barren except for staining and petroleum odors at 4,100 feet. J. B. Tubb No. 1 Chester L. Jones, extreme northwest Mitchell county wildcat, drilled ahead Wednesday at 4,411 feet in lime. Presumably, the test will seek shows logged in the Dunn section in wildcats which did not develop production. Location is in section 60-20, LaVaca.

R. L. Wheelock, Jr., No. 1 S. R. Coleman, section 70-97, H&TC, in the northwest Mitchell Coleman Ranch pool, cleaned out after shot and carried 800 feet of oil in the hold at 2,748 feet. Doswell & Morgan No. 1 R. L. Solomon, 330 feet out of the southeast corner of section 71-97, H&TC, bottomed at 2,898 feet, prepared to shoot.

Butram & Associates No. 1-B Coleman, section 70-97, H&TC, was at 2,926 feet in lime. Butram, et al No. 2-A Coleman spudded and was at 32 feet. W. K. Bryom No. 1 Dave Womack, 330 feet out of the northeast corner of section 3-26, H&TC, drilled below 700 feet in anhydrite. F. A. Gillespie & Son No. 1 Ludy Coleman, 1,650 feet from the north and 330 feet from the east line of section 4-26, H&TC, prepared to spud.

Norman & Roche No. 4 S. R. Coleman drilled to 2,752 with an increase in oil from 2,710-20 feet. N&R No. 5 Coleman drilled at 1,406 feet in anhydrite. Both are in section 70-97, H&TC.

Protestants Try To See Economic Problems Through Christian Eyes

PITTSBURGH, Feb. 19. (AP)—About 35 Protestant church members, joining in a remarkable experiment, tried hard today to judge economic issues through purely Christian eyes—but they still disagreed on many things.

At the National Conference on the Church and Economic Life, labor leaders are talking about corporation profits and monop-

Payments Set For Contour Farming Here

Payments will be made to Howard county farmers for contour farming inter-titled crops, a practice which consists of planting and cultivating row crops following contours as determined by a level, or following terraces.

If the land is not terraced, rows must follow guide lines not to exceed twice the terrace interval. On slopes averaging greater than three per cent, contour farming must be in connection with terracing.

If lines have been run correctly, property owners must secure the written approval of the county AAA committee before seeding their crops. Approval can be secured after March 1 by calling at the County AAA office or by a written request addressed to Box 711, Big Spring.

After crops have been laid by, farmers should report performance before the expiration date shown on the AAA form.

No 1947 payments will be made to area farmers for contour listing of cropland.

Workers

of the labor supply and reducing unnecessary migration of transient labor, Connally explained.

Visits are now being scheduled to 60 employees in rural industries to secure labor requirement estimates for the 1947 season and to explain how the TSES can assist them in securing labor and placing their workers when laid off at the end of peak seasons.

Employers who have seasonal layoffs can help reduce their Unemployment Compensation tax rate by notifying the TSES at the earliest possible date of planned reductions in the force, Connally reminded. This practice would enable the TSES to place the workers in other employment with the least possible loss in working time.

Brooks Memory Is Honored By Texas Officials

Resolutions in memory of James T. Brooks, long-time attorney and public official who died here Jan. 10, were adopted by the Texas house of representatives at the end of business last Thursday.

Copies of the resolution, signed by Speaker W. O. Reed, have been forwarded to the family and press.

The resolution, introduced by Rep. Ralph E. Blount, Jr., praised Judge Brooks for his legal counsel and as a "man of many virtues, a leader in many organizations and veterans activities, an outstanding champion of men and possessor of wholesome manly qualities . . . who lived a good Christian life . . . which bound him to all people and imparted high morale to everyone with whom he came in contact."

Judge Brooks, in his long residence in Big Spring, had held most of the high offices within the gift of the people, having twice served as county judge, as county and district attorney and as district judge. He died unexpectedly of a heart involvement.

US Heritage Told To Lions

Three high school students — B. B. Lees, Ronald Johnston and Beverly Stulting — Wednesday noon told Lions club about the heritage of two great Americans and what Americans meant to them.

B. B. Lees said that George Washington had left an inspiration for "truth, honor and justice" for his nation, together with a record for reliance on Divine help and devotion to duty.

Ronald Johnston said that the greatness of Abraham Lincoln was not in his rise from humble surroundings to the White House, but in "what he did for humanity and the nation" through his insistence upon the Union.

Beverly Stulting said that "America means freedom, liberty, equality, the right to say what we think, security," together with an inexplicable feeling which all true Americans possessed.

Reporting on a \$200 revolving fund posted by the Lions club to facilitate the construction of approved outdoor privies, Lawrence Wells said that it had played a great part in the installation of 250 of these sanitary units, that all except a small amount used for charity purposes was still intact. Program for the day was in charge of Dr. C. A. Long, and John Dill introduced the speakers.

Fire Insurance Rates Unchanged

New ratings announced by the Texas Fire Insurance Commissioner will not change Big Spring's rate, local insurance men have been advised.

Big Spring had a 10 percent credit last year, however, which remains in effect.

The fire insurance rates are set annually, and they are based on five-year records.

Students Entertained

Diversified Occupation students of the high school were entertained with an informal get-together Friday evening in the YMCA.

Decorations and refreshments used the Valentine Day motif. Dancing and games provided recreation.

Approximately 50 class members and guests were present.

John Hancock and John Adams, American patriots, were boyhood companions.
