'64 TOTAL ALREADY PAST \$500,000 MARK

New Building Permits Climb

The building boom continues in Littlefield with permits for the first three months of the year, already past the half-million dollar mark.

Building permits for March zoomed up to \$292,700 with 11 new residences, a church addition and an apartment house accounting for most of the total. It's the best March on record for new construction.

The March figure represented a good increase over February, which totaled \$175,200. Estimated total for the first three months of 1964 now stands at \$573,700. Last year at this time, the cumulative total was \$384,800.

And the year 1963 wound up as the best in history with the construction total climbing just past the \$2 million mark. The previous high was 1962 when more than \$1,320,000 was recorded.

Big items in the March total were an addition for the Presbyterian Church, tabbed at \$64,500, and a 4-unit apartment house by Clarence Kissell at 404 E. 22nd St. for \$30,000.

New residential starts included: Roberts-Loflin, 101 E. 20th, \$25,500; John Ed Hutchins, 208 23rd St., \$18,000 and 305 20th, \$14,000; Severe-Havens Const. Co., 301 22nd St., \$22,500; Trans-Western Developers, 1303 W. 12th, 1301 W. 12th, 1206 Mockingbird Lane, \$39,700; T. R. Additions to residences and other small permits totaled \$9,000.

helped Debbie tremendously," stated Mrs. Landers.

Debbie says her travel experiences include trips to New Mexico and Colorado. She has already looked over maps of states she'll be passing through enroute to Washington, as well as studying the map of Washington, D.C.

"One of the most rewarding experiences about the whole thing," reports Mrs. Landers, "is the many sincere expressions of congratulations extended to Debbie. We've had notes of congratulations from all over the area."

"If at first you don't succeed, try again" could be Debbie's motto. (See AMHERST Page 9)

NATIONAL BEE NEXT

Amherst Girl Is Spelling Champ

"First lady" of Amherst this week is Miss Debbie Landers, 13-year-old sewerer who captured the National Spelling Bee contest last Saturday.

Lamb County champion, Debbie was facing in the contest, kept spelling words, after getting a "seance" title to Lamb County last year.

Debbie, the victory an expense-paid trip to Washington, D.C., and a 24-volume encyclopedia and a pen and set. She will represent Lamb County in the national contest.

How does the young lady do it? It just has to be the biggest thrill of my life, Debbie said.

She has been after the big prize for four years, but after over the qualifications of other 20 county champs, she really expects to win.

After 132 rounds of spelling, Debbie and Bonnie Lenton of Denver City were the only girls left in the Saturday test.

Under the elimination system which goes into effect when the contestants are reduced to two, the world was called to Bonnie. She spelled the word correctly and

The Littlefield City Council will hold its second meeting of the month, beginning at 7 p.m. today in the council meeting room.

Items on the agenda include opening of bids on water meters, introducing a building code ordinance, considering purchase of sewer tile, and setting a date for public hearing on the final plat on Cannon Terrace No. 2 addition.

Brad Gilbert has been re-elected as president of the Anton School Board. He was named to the second term as trustee reorganized last week. K.H. (Corky) Spradley was elected as vice president, and Zade Hopper was re-elected secretary-treasurer.

Elms Named UF President

Rip Elms was elected as 1964 president of the Littlefield United Fund during a special meeting of directors Monday afternoon in the city council room.

Elms accepted the post with the understanding that directors would pledge their full support of the annual campaign. He challenged the volunteer workers to aim for a successful drive this year in order to assure perpetuation of the all-in-one program.

The Rev. Jack Ellzey was elevated to first vice president at the meeting, replacing Harold Phillips. Kip Cutshall was then named as second vice president in place of Rev. Ellzey.

The board accepted Phillips' resignation "with regrets" after he explained that he would

be involved in another civic project at the time of the campaign.

Elms stressed that the UF drive is facing an important year in the community. "The United Fund campaign is relatively new and, in order to keep this one-drive ideal going, we need to put it over the top this year."

He added that the big reason for United Fund was the lumping of all charitable campaigns into one—eliminating the necessity of many of the same workers taking part in five or six projects, and reducing the number of solicitations faced by business people and citizens.

Elms succeeds H.A. Mitchell as UF president here. The new chief said committee appointments would be made in the near future.

Smith Heads School Board

John D. Smith was named president of the Littlefield School Board, and Pat Downs was installed as a new trustee during a reorganization of the board Monday night.

Smith, a prominent farmer, is starting the final year of his first 3-year term on the board. He replaces Jack Barton as president. Barton was elected to a second term in the April 4 election.

Buster Owens was elected as vice president of the board. Downs takes over the seat formerly occupied by Delbert Ross, who retired after serving one term.

In other business the board discussed school lunchroom policies, accepted resignations from two teachers, discussed bid items to be called for in May, approved several administrative appointments, adopted a summer school plan, and reviewed the financial report.

Beryl Harris, present elementary principal for grades 4-5-6, was named by Supt. Glenn Reeves to be principal of both elementary buildings under the new set-up next school year.

Harris will be principal of buildings designated as Elementary 1 and Elementary 2—the latter which is now serving as junior high. He will have grades 3-4-5-6. The board considered naming the buildings but decided to simply designate them as 1 and 2.

Paul L. Jones, primary principal, will have grades 1 and 2 and will also have administrative assistant duties to be spelled out at a later date. Forrest Martin, junior high principal, picks up a grade with his move to the present senior high building next year. Junior high will consist of grades 7-8-9, and the new high school will house the top three grades.

Three parents appeared before the board to register complaints about small portions of food served to elementary students in the school cafeteria. They indicated their children were simply not getting enough to eat, and that second helpings of meat at 10 cents each were

very small. There was no argument about the quality of meals.

Supt. Reeves pointed out that the portions of food on the trays were based on the amount eaten by the majority of students, and that most of them were still leaving food on the trays.

After discussing the matter, trustees voted to "permit second helpings, with the exception of milk and desserts, if the student sufficiently cleans his tray." This will apply to all grades.

Students in the lower grades do not receive as much food on their trays. Primary students pay 25 cents per meal, elementary and junior high pay (See SMITH Page 6)

Little League Signup Slated

Littlefield's huge summer baseball program, which takes in boys from 9 through 19, is fast taking shape with registration of all boys who plan to participate in one of the four leagues.

Friday is sign-up day for Little Leaguers, and all boys 9 through 12 years of age who want to play on one of the major or minor teams should report to the high school auditorium at 7 p.m.

League President Chick Conway urges parents and other interested persons to attend the meeting, too. Parents should bring birth certificates for boys who will be entering the league.

Conway reminded boys that they must register, regardless of whether or not they played last year. Any adults interested in helping with league activities are invited to attend.

Dates for tryouts and auction of players will be announced soon.

Police Solve 2 Cases, Arrest 7

City Police arrested 7 young men — 5 of them juveniles — to clear up a burglary and a theft case this week.

Charged in county court and being held in jail in connection with a burglary of Hall Grocery last week was Roy Lee Morgan, 17. Three other Negro youths, ages 15 and 14, were taken to Gatesville Monday to be placed in reform school.

Five guns and an unknown amount of ammunition were reported stolen in the burglary last Thursday. Patrolmen Robert Trotter and Bill Austin made the arrests Sunday night and recovered two of the missing pistols.

In the theft case, Felix Hernandez, 17, was charged with theft under \$50 in Corporation Court. He was being held in lieu of payment of fine and court costs. Two juveniles were charged in the case. The three reportedly stole

a purse from the car of Mrs. Luther Gregg, 922 Reed Ave. The theft was witnessed and reported.

Police also checked an attempted break-in at the Ben Franklin Variety Store Saturday. Vents on the back of the building were damaged, but entry was not gained.

Two accidents were recorded by the city — one Tuesday and one Saturday afternoon. Mrs. Joyce F. Lee apparently sustained minor injuries when the car she was driving was in collision with one driven by Bonnie C. Jones of Anton.

The collision occurred at 10:20 a.m. Tuesday at E. Delano and Eastside Ave. Damage totaled about \$220. A car driven by Paul Lofgren collided with a parked car owned by Robert S. Booker of Lubbock in the Saturday mishap on US-84 near 2nd St. Damage to the Booker vehicle was pegged at \$120.

Mrs. Albert Perkins Submits Seafood Recipes

Louise Perkins, the wife of Dr. Albert Perkins and the mother of four active teenagers, has kindly consented to share with the readers two of her family's favorite recipes. The recipes are for Deviled Crab and Creole Shrimp. Dr. Perkins was raised at Port Arthur, a coastal town, and thus has always loved seafood.

Dr. and Mrs. Perkins and family moved to Littlefield 13 years ago from Memphis, Tenn. and he has been practicing dentistry here since. He is associated with Dr. Aaron Williams, Dr. and Mrs. Perkins met while she was enrolled in the Tennessee College for Women and she was a cadet training at Murfreesboro, Tenn. Louise's hometown is Greenbrier, near Nashville.

Perk, as his friends call him, attended Lamar Tech, Texas A & M, and graduated with a D.D.S. Degree from University of Tennessee. He also attended the University another year studying children's dentistry. He was a 2nd Lieutenant in the Air Force and this is probably where he acquired his love for flying.

Dr. and Mrs. Perkins' four children include Brenda, 17, a senior; Michael, 16, a sophomore; David, 13, 7th grade, and Diane, 11, in the sixth grade. The Perkins family enjoys doing things together. A greenhouse is attached to the back of their house, and is filled with any number of common and rare plants. You will even find a banana tree there. Many plants are started in the greenhouse and later moved outside or into other rooms in the house.

Brenda's favorite hobbies are twirling and music. She was head majorette this year of the Wildcat Band. She also plays an oboe in the band. She is a member of the National Honor Society and treasurer of the Student Council, and in a number of other church and school activities.

Mrs. Carl Reviews Book For Forum

Mrs. J. H. Carl presented the program to the Forum at their regular meeting Thursday evening. Mrs. Howard Burks was hostess to the club at her home on East 13th.

Mrs. Carl reviewed the book, "To Serve with Love," by Braithwaite. It is the story of the struggles of a young man from British Guiana who was teaching in the slum district of London, England. The young negro, who had been educated in the United States, had met with countless rejections for jobs because of his color. The students of the school were an entirely undisciplined group and it had been practically impossible to keep a teacher for an entire term. During his time there he succeeded in gaining not only the respect of his students, but of the faculty and community as well.

During the short business session, Mrs. Robert Richey and Mrs. Don Pierce gave reports on their attendance at the recent district convention in Levelland.

At the close of the meeting Mrs. Burks served a salad plate to the ten members present. The next meeting will be in the home of Mrs. W. Dow Smith April 23.

GUEST NIGHT AT WOMAN'S CLUB—Pictured at right is neuro-surgeon Dr. Jack Dunn of Lubbock. Dr. Dunn was guest speaker and introduced by Mrs. James Joyner, program chairman, pictured at left. Center is Mrs. D.C. Lindley, president of Woman's Club. Approximately 60 persons attended including the special guests who were ministers, doctors and their wives.

Dr. Jack Dunn Gives Talk on Neuro-surgery

Approximately 60 persons attended the meeting of the Woman's Club Tuesday night in the Community Center when Guest Night was observed. Invited guests were doctors and ministers and their wives, and members' husbands.

Neuro-surgeon, Dr. Jack Dunn of Lubbock, was guest speaker. He discussed brain tumors and other disorders of the brain. "Tumors of the brain account for only 10% of the tumors found in the body, but of these it is estimated that 75% are malignant."

The symptoms of brain tumors range from personality changes, loss of vision to paralysis and convulsions as they affect the different areas of the brain.

The group was brought up to date on some of the advances in neurosurgery. The most dramatic of these perhaps being hypothermia, the lowering of the body temperature or "freezing the body". Following his speech, a question and answer period was held. Some topics of discussion were migraine headaches and Parkinson's disease.

Woman's Club president, Mrs. D.C. Lindley, welcomed the guests. Mrs. James Joyner, program chairman, introduced the speaker.

The refreshment table, laid with a white linen cloth, was centered with a green and yellow floral arrangement flanked by white tapers. Hostesses were Mrs. W.D.T. Storey, Otto Jones, T.L. Dunlap, H.C. Randall, D.C. Lindley, Bess Coen and James Joyner.

Final plans were made for the May breakfast at a brief business session following the meeting. Jean Johnson will give a short charm course for members and guests when the group meet for breakfast at 9:30 a.m. May 12 at the Johnson House in Lubbock. Persons desiring to make reservations for the breakfast may contact Mrs. Kenneth Reast or Mrs. T.L. Dunlap.

Tragedy of Earthquake Related

Mrs. Homer Miller of Spade has received a letter from a niece and her family of Anchorage, Alaska relating facts of the recent earthquake as well as her feelings during the time of the quake. The letter was from Mrs. Marshall, who with her husband, Lynwood and her daughter, Vikki, live in Anchorage. Lynwood is a civilian employee of Elmendorf Army Air Force Base at Anchorage.

Mrs. Marshall's letter was a carbon copy as she did not have time to write each relative individually due to being involved in cleaning up a mountain of broken glass, hand lotion, dish-washing detergent, spilled cooking-oil, milk, etc. which seemed to fall out each time a cabinet was opened. They were very thankful to have their home and be alive, even though many personal items were destroyed.

The day following the earthquake was spent just sitting stunned and listening to the broadcasts of tragedy. She related that 42 tremors were felt Saturday and they relived their experience of Friday night a dozen times over with each one they felt.

Mrs. Morris says "anything you read or hear is true. It is as bad, or worse, than what you read." Their house only sustained cracks in the basement and garage floor. She and her daughter had been downtown only an hour before and in fact shopped in the J.C. Penney store which was demolished. Her husband was driving home from the base when the quake occurred and he said the earth opened up in front and behind him. She and her daughter were eating supper. Following is her description of the earthquake:

"Vikki and I were sitting at the table, but we are accustomed to tremors. We felt it getting more violent, finally we went outside. We could hardly get up the stairs, weaving and swaying, the house heaving and popping. We forgot all about the dog, who has been run over 21/2 weeks ago and was in a box because the Vet. had said to keep him confined. I can still hear his hysterical howl and whine. We made it outside, began trying to get the car door open, the car was right by the back door. Vikki fell, I finally got the door forced open, hanging on for dear life, climbed in, and began yelling at her to get up. I finally was able to help her in, the car raring like a bucking bronco all this time. Then the helpless little dog came tearing up the stairs, yelping, and running on all four of his legs. I finally got the car door opened again and called so he came to me. He couldn't hop up, but I was finally able to pull him in by the nap of the neck. I thought Vikki was going to flip. She sat gripping the steering wheel, feet strained to the brake. All the time the car was raring, heaving, first on two wheels, then the others. We watched the whole world swaying and waving all around us. Just as two!!! It is all a nightmare now. I still can't remember, but I know it seemed like it would never end. I have never experienced such fright or doubt. First I looked up in the sky for a mushroom, and I guess I wasn't the only one. When Lynwood did not come home, I figured he had to stay at the base, like emergency, and that we had been attacked."

She went on to relate that tremors were expected for about a week and some would measure up to 5 on the instrument, which she said was something to look forward to. She explained that they have

had very few in Alaska but this to reach that magnitude. She also said after the quake, anything will seem to be by air-mail. The airport was advised to get word to radio for certain types of planes since the runway is not in best condition.

AN INTERNATIONAL CELEBRITY ARRIVES AT THE FAIR

The occasion is the New York World's Fair... the scene is the spectacular General Motors Futurama—and the car, of course, is Cadillac.

And the Cadillac car is a standout attraction even in this distinguished international company. Drive any of eleven 1964 models and you'll discover why.

There's Cadillac's magnificent and silent power. A 340-horsepower V-8 engine—most powerful in Cadillac history—generates performance so swiftly that we caution even long-time Cadillac owners to mind their speedometers. There is, in addition, the remarkable smoothness of our transmissions—an improved Hydra-Matic or new Turbo Hydra-Matic.

There is the luxury of elegantly appointed interiors, together with the great convenience of power brakes and steering (plus power windows on most models) that have turned the 600-mile day into a restful reality.

And there is also investment. Find a fine car, if you can, that returns more than your Cadillac when you choose to sell or trade it.

Visit your Cadillac dealer soon. His selection of international favorites has never been more tempting.

Wildcat Track Team Eyes District Meet

Coach Ernie Davis takes his Littlefield Wildcat track team to Amarillo Saturday to challenge the always-strong Dumas Demons for the District 1-AAA track and field championship. Dumas, with strong relay teams and power in the field events, will be a strong favorite to repeat as district champs. However, the Wildcats have run with the best in the 440 and mile relay events this year and will be out to upset the Dumas quartet.

In addition to winning the trip to Washington, a 24-volume set of the Encyclopaedia Britannica and a pen and pencil, Debbie will have possession one year of an engraved plaque and the Amherst Spelling Bee will have free use of Britannica film each month of the school year. Debbie Brookshire, the runner-up, received \$20 and a copy of the Lincoln Library of Special Information. **Olton School Bond
Vote Set Saturday**

Taxpayers of the Olton Independent School District will determine the fate of a \$300,000 school improvements bond election Saturday, marking the most recent in a series of such programs undertaken by Lamb County and area schools. Spade and Whitharral districts have completed improvement programs, and Littlefield's big improvement project is still in progress.

Olton school trustees held a public meeting Monday night in the school lunchroom to fully explain their plans for proposed construction and expansion in buildings and facilities. Balloting will be conducted at Webb Elementary School with polls open from 8 a.m. to 7 p.m. Basil Sherman has been appointed as election judge. Trustees have indicated that if the issue is approved, it will

necessitate an increase in taxes of about 7 1/2 percent. With the expansion would come additional costs in maintenance, making the tax increase slightly more. "We want the people to know," reported a board member, "that the tax increase, overall, would be about 10 percent."
The program, as outlined, calls for improvements in five areas:
(1) Converting and enlarging the present agriculture building to the science department and purchase of equipment.
(2) Construction of a vocational building, to be used not only for agriculture but for other vocational training—such

as metal work, woodwork, etc.; and the purchase of needed equipment.
(3) Remodeling of the junior high and the old portion of the senior high buildings.
(4) Construction of a field-house as an addition to the present gymnasium, necessitating the move of the football field to the west and creating more playground area for the smaller children. Other improvements being considered for the athletic department, such as construction of a track.
(5) Construction of a bus maintenance garage.
A recent enrollment report showed the Olton system with 1,402 students as compared with 1,276 at the same time a year ago.

HERBERT C. MARTIN

Martin Seeking Election To Appeals Court

Herbert C. Martin of Amarillo, former Lamb County attorney and former Appellate Judge, Court of Civil Appeals, has authorized the Littlefield Publishing Co. to announce his candidacy for Associate Justice of the Court of Civil Appeals, 7th Supreme Judicial District, subject to action of the May 2 Democratic Primary.

Following is Martin's formal statement:

I ask you to elect me Associate Justice of the Court of Civil Appeals in Amarillo. I make this request in the knowledge that the best interest of the Court and of the citizens of the district requires a change in the personnel of this Court.

I am a graduate of Lubbock High School and hold an LL.B. degree from the University of Texas School of Law. I have been actively engaged in the practice of law 29 years --- 22 years in Lamb County and the South Plains area and 7 years in Amarillo and the Panhandle area. By diligence and loyalty to my clients' interest, I have built an excellent law practice in both areas.

My clients and my record in the Courts of this District are my best recommendations. I also served on the Court of Civil Appeals and as Associate Justice wrote 176 opinions of which less than 7% were reversed. These opinions reflect the character of my judicial ability.

The Court of Civil Appeals is composed of a Chief Justice, a Senior Associate and a Junior Associate Justice. The Chief Justice and Junior Associate of the Court, no matter how diligent and capable, cannot carry the case work required of the Court if the other Associate devotes a large portion of his time to outside diversions. I served on this Court until December 31, 1956 and the docket was in good condition during that time. The Docket of the Court was not only kept up to date but the Court disposed of many cases transferred to the Amarillo Court from the Dallas Court of Civil Appeals.

Although the number of cases

before the Court have not increased, this condition no longer exists. Instead other Courts are having to assist the Amarillo Court --- thirteen cases were transferred from the Amarillo Court to the Waco Court of Civil Appeals on January 11, 1964.

More important than the mere number of cases disposed of by the Court is the type of justice under the law as reflected by the Court's opinions. In 1956, while I was on the Court, the majority of the Court, the then Chief Justice and my present opponent as the other Associate Justice, wrote an opinion styled "Stanley, 294 S.W. 2nd, Page 132." This case reflects that a 40-year-old career army sergeant married a former school teacher who had been successful in the finance business. The sergeant contributed nothing to the marriage, but, the undisputed record discloses, in six years squandered \$34,044.63 of the profits earned by his wife's business. He also squandered \$41,911.13 of the wife's capital investment.

On dissolution of the marriage, it was the sergeant's theory the wife has mingled her earnings, as community property, with her separate capital and through such commingling of her earnings with her separate capital, he was entitled to one-half of all remaining property owned by his wife. In the judgment of divorce, the trial court awarded the sergeant an additional sum of \$29,881.89.

The widow appealed from the trial court's judgment and on appeal the Chief Justice and the other Associate Justice of the Court of Civil Appeals, such Associate being now a candidate for election to the Court, agreed with the servant's theory and affirmed the judgment of the trial court awarding him the additional sum of \$29,881.89. This opinion of the majority of the Court was directly contrary to the undisputed audit of a Certified Public Accountant who traced all funds and proved that all the wife's earnings had been squandered by the sergeant and a large part of her original capital and that her earnings were not mingled with her capital.

As an Associate Justice of the Court, based on this audit and the applicable law, I wrote a dissenting opinion holding that the sergeant was only entitled to his equity on a 1955 Station Wagon for which he had traded an old Station Wagon owned by him at the time of the marriage.

Other similar and equally inequitable opinions were rendered by the Court acting as a majority and on which I dissented, but the above opinion is discussed here because the same reflects clearly and unequivocally the opposite points of view on the duty of the Court as held by me and my opponent for Associate Justice.

The most essential element of every judgment of the Court of Civil Appeals should be justice under the law and facts. If the citizens of this district will take only a few minutes' time to go to a lawyer's office and read the Stanley opinion, I am confident I will be elected to the Court of Civil Appeals by an overwhelming majority vote.

As a member of such Court, I never and I never shall subscribe to the proposition that

Small Operators Need Buffer, Langdon Says

ODESSA--A law limiting Texas oil production to the amount that can be sold each month is absolutely essential to the small marginal operators, Railroad Commissioner Jim Langdon told West Texas Chamber of Commerce members at their convention here last week-end (April 10).

The "market demand law" allows every operator, large or small, to get his proportionate share of the market, Langdon said. Much of Texas' oil reserve is in old or low-producing fields where wells can make only a few barrels a day. These "stripper" wells would have to be abandoned as uneconomical if richer wells were not prorated to market demand.

"Ironically, this law is under attack today by people who claim to speak for the very group that needs it most -- the small operators of Texas," Langdon said.

Abandoning the market demand law, or ignoring it, would result in "a flood of unwanted, unwanted oil that could not be sold except possibly at panic prices," Langdon declared.

Langdon reminded the West Texans that the Railroad Commission also regulates rates for common carrier trucks and railroads. He termed this an important factor for farmers and ranchers who send and receive heavy shipments by common carrier.

justice under the law and a citizen's property rights should be bartered for political favors. No Court judgment should dissipate an elderly person's savings of a lifetime where the basis of such judgment is a strained and superficial ruling under a highly technical theory not supported by the evidence.

The personal rights of every citizen and the property rights of every citizen have always been a sacred trust of the Courts. This essential and vital element of our judicial system should not be lightly cast aside in order to favor a friend or political supporter. I am certain the present members of the Court with whom I would serve subscribe to the principles herein set forth.

I ask every citizen to support me on the principles enunciated herein. I particularly ask every client whom I have ever represented to give me in the coming campaign the same untiring loyalty and effort toward my interests that I have exhibited over the many years of my practice for their interests.

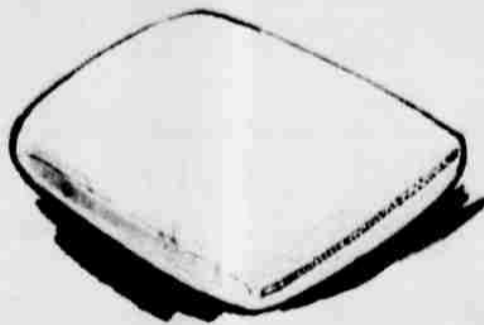

I pledge to every citizen that their rights and property shall be secure under the law. It shall be my constant endeavor to write opinions of the Seventh Court of Civil Appeals that shall be based soundly upon the law and the facts and shall reflect credit and honor upon such Court.

Sincerely
Herbert C. Martin

JIM LANGDON—A WINNER!

Railroad Commissioner Jim Langdon is a 49-year-old native Texan with a winning record in public office. When John Connally appointed him to the Railroad Commission, the Governor said:

"I have for several weeks been attempting to find a man I consider to have outstanding ability, integrity and honor... I am happy we have found that man—Judge Jim C. Langdon."

Jim Langdon has fully lived up to Governor Connally's expectations. He has conducted his office in the spirit of Governor Jim Hogg, who had the Commission set up in 1891 to look after the public interest in railroad and freight rates. It now regulates also truck and bus rates and the production of oil and gas. Judge Langdon will continue to keep transportation rates in line and see to it that our oil reserves are protected against waste and greed. This will help keep down Texas gasoline prices, already among the lowest in the nation.

Jim Langdon was elected District Judge twice and re-elected Chief Justice of the El Paso Court of Civil Appeals.

ON THE OTHER HAND—

Jim Langdon's Opponent Is a 10-Time Loser!

Jesse Owens, 69-year-old attorney, is still running for office after 38 years and TEN DEFEATS. He has lost the following races:

- 1926—Defeated for Sheriff of Foard County by L. D. Campbell.
- 1930—Defeated for District Attorney by John Meyers.
- 1932—Defeated for District Attorney by Ed Gossett.
- 1940—Defeated for District Attorney by T. Gene Rogers.
- 1946—Defeated for Court of Criminal Appeals by Tom L. Beauchamp.
- 1952—Defeated for Court of Criminal Appeals by K. K. Woodley.
- 1956—Defeated for Court of Criminal Appeals by W. A. Morrison.
- 1958—Defeated for District Judge by Tom Davis.
- 1960—Defeated for Court of Civil Appeals by James Denton.
- 1962—Defeated for Texas Supreme Court by Meade F. Griffin.

'Mustang' To Make Debut At Hall Motor

The Mustang is scheduled to make its debut at Hall Motor Co. in Littlefield Friday. Styling and features of expensive European road cars are combined with an American mass-production price, compact economy, and traditional Ford quality in the Mustang--a new line of cars from Ford division of Ford Motor Co.

"In the Mustang, Ford actually has created three cars in one," according to H.A. Mitchell, general manager of Hall Motors. "Starting with the economical, fun-to-drive basic Mustang, the buyer may select options to give him a sports car or a luxury car geared to either economy or performance."

Aimed at the "driving for pleasure" dimension in American motoring, the Mustang offers the practicality of a back seat and adequate trunk space in a car comparable in size to the classic two-passenger Thunderbird.

Mustang hardtop and convertible models feature -- as standard equipment -- such sports and luxury features as bucket seats, molded nylon carpeting, floor-mounted shift for both manual and automatic transmissions, all-vinyl interior and padded instrument panel.

The Mustang is low -- only 4 feet, 3 inches tall -- with a wheelbase of 108 inches. Yet, with two bucket seats in the front and a bench-type seat in the rear, it offers 5-passenger family seating.
