## Gain Over 72 % In Population Of City Over 1940 Above Figures Show Healthy Condition Of Trade Territory

Month	1949	1950
January	3748.08	4318.02
February	2573.53	3574.12
March	3103.33	3788.13
April	3374.29	3702.48
May	3746.72	4016.31
June	3080.50	2775.62
Totals	\$19,626.99	22,174.68

Comparing the population of 1940 with that of 1950, it is interesting to note the great increase in postal receipts. In 1940 the population of Littlefield was reported at 3817, for which year the postal receipts were \$17,664.80, while in 1950, with the population given in the recent census at 6580, the postal receipts for the past 12 months reached the all time high of \$48,677.17.

Above figures show a gain of some 72 percent in population, while postal receipts made a gain of 276 percent. The Littlefield trade territory with a healthy condition as this evidently has prospered in comparison.

on 135 acres of irrigated land by Emfinger. As a rule he doesn't have a bloom until July 16 or later but he was pleased to find his cotton so far advanced. His seed was Lockett 140. The cotton plant with its single bloom stood over 18 inches high. Emfinger expects that within a few days there will be quite a few more blooms in the field.

### G. I. Insurance Dividends Delayed In Many Cases

If you have not received your National Service Life dividend, then perhaps you are one of 300,000 cases still remaining to be processed, according to an announcement made today by Robert W. Sisson, Manager of the VA Regional office.

These 300,000 cases are difficult cases in which extensive study is involved. The VA has already mailed out cards informing this group of veterans that their cases are being processed and payment will be forthcoming at a later date.

The VA office handling the payment of these National Service Life dividends reports there are approximately 19,000 veterans whose addresses are not current because of the fact their application acknowledgment cards were returned to the VA. The VA is also holding about 20,000 dividend checks which were returned for insufficient address.

Mr. Sisson cautioned that veterans should write VA Special Insurance Projects Service, Washington 25, D. C., and supply a correct address so dividends may be processed and checks already processed may be mailed. Meanwhile the VA is making additional reviews in an effort to develop correct addresses.

### Understanding Of New Draft Law Important During Present Crisis

Passage of the selective service act by Congress last week means a draft act which has been in the books since 1948. Final signing by President Truman will put it into effect until July 9, 1951.

The present crisis increases the need for a better understanding of the law which can make citizens into soldiers.

The new law means:

1. Every youth between 18 and 26—and all between those ages—must be registered with his local draft board, within 30 days after reaching his 18th birthday. But he can't be drafted until he is 19.

2. Every youth between 18 and 26—and all between those ages—must be registered with his local draft board, within 30 days after reaching his 18th birthday. But he can't be drafted until he is 19.

Some will be exempted from draft because they are:

1. Ministers and students serving for the ministry.
2. Physically, mentally, or morally unfit.
3. Aliens who have not declared themselves interested in becoming citizens.
4. State legislators, state and federal state, members of Congress and elected by the people of an entire state.
5. State governors or others.
6. Sole surviving sons of families which lost one or more members due to service in the armed forces.
7. Conscientious objectors who, because of their religious beliefs, they can't perform any kind of military service, combat or non-combat.

combat. They will have to prove this to the draft board's satisfaction.

7. Youths now in the armed forces. Since they're already in military service, they can't very well be drafted for military service.
8. War veterans who served in the armed forces at least 90 days between Dec. 7, 1941, and Sept. 12, 1945.
9. Service veterans who served 12 months between Sept. 16, 1940, and June 24, 1948, when this draft law first went into effect.

**Age Limit At 26**

In addition, anyone reaching 26 is exempt from the draft since only those under 26 can be drafted under the law.

There are other youths who can get deferment from induction into the armed forces for various reasons.

(Under the law an exempt person can't be drafted. But a deferred person is one who is kept out of the draft only for the period of such deferment.)

**Deferments—**

Conscientious objectors whose conscience won't let them do military service, although they're willing to do non-combat duty in the armed forces.

Youth who are in important work or some occupation considered necessary to the national health, safety or interest and can't be replaced.

**Deferments Considered**

1. Youth with a wife and child or a real hardship for someone dependent upon him.
2. Members of a reserve force like the National Guard or the

fliers' reserve. But—and this was the only important change made by the new law—the President can call them into active service any time he thinks they're needed. Also, to get deferment because you're in the National Guard, you must have been in it since June 24, 1948.

6. College students in advanced courses in the Reserve Officers Training corps. Each such case will be judged on its merits. A student just beginning ROTC training couldn't escape the draft simply by being in ROTC.

What of a youth who will finish his schooling? The law will defer a youth in high school or college until he has completed a year of school in the year which he otherwise would have been drafted. This is not a deferment but only a postponement. Anyone disliking a board's decision can appeal to the board in his state. If turned down there, he can appeal to a man final appeal board appointed by the President.

Cool to look at; cool to taste! What could be more appealing on a sultry summer day than this luscious Coconut Lime Chiffon Pie. Best of all—especially if you are the one to do it—it's cool to eat because this lovely dessert never sees the inside of an oven. Right—not even for baking the shell. The refrigerator does the work.

You see, this Coconut Lime Chiffon Pie boasts a tasty graham cracker crust—and that, of course, can be put together in no time and chilled. Without benefit of oven, it is crisp, tender, and delicious.

The filling is whipped-until-fluffy lime-flavored gelatin—a fresh green that makes this pie a real appetizer. It is topped with whipped cream, generously sprinkled with frosty white coconut. A really heavenly dessert with so little effort—and no hot-weather-baking dilemma!

**Coconut Lime Chiffon Pie**

1 package lime-flavored gelatin	1/2 cup cream, whipped
1 1/2 cups hot water	1 cup shredded coconut
1/2 teaspoon salt	1 Graham Cracker Pie Shell
2 teaspoons lemon juice	1 cup graham cracker crumbs

Dissolve gelatin in the hot water. Add salt and lemon juice. Slightly thicken. Then place in bowl of ice and water and beat with rotary egg beater until fluffy and thick like whipped cream. Add one-third of the whipped cream and 1/2 cup of the coconut. Whipped gelatin and turn into Graham Cracker Pie Shell. Sprinkle remaining whipped cream and sprinkle with 1/2 cup coconut. Mix Cracker Pie Shell; Mix together 1/2 cup melted butter, 1/2 cup graham cracker crumbs, and 2 tablespoons sugar. Press firmly in and sides of 9-inch pie pan. Chill.

### Burned Morton Man Flown To Galveston

On the day his wife was to be buried, D. E. Hamilton of Morton, seriously injured with her in a butane explosion in their home June 1, was flown to a Galveston hospital on a mercy flight in a Reese Air Force base C-47 Thursday.

His wife, Mamie died Monday of severe burns suffered when a lighted match set off an accumulation of butane gas in their home during the early morning. Funeral services for her were to be held at Morton this afternoon.

Hamilton will undergo treatment for burns in Galveston State Memorial hospital. He was brought to the air base in an ambulance which left Morton about 7 a. m. The flight began at 8:47 a. m.

Hamilton's son and daughter-in-law, Mr. and Mrs. Edward Hamilton, also were burned in the explosion. They were flown to Galveston last week on another Reese mercy flight. The younger Mrs. Hamilton has returned home, much improved. Skin grafting operations were performed on the couple.

Pilots for the flight were First Lt. Mark H. Kite and First Lt. J. C. Lindemann. Crew chief was S-Sgt. Homer G. Galligan. Accompanying Hamilton were C. B. Lightfoot, W. P. New, R. E. Dembree and T. W. Pierce. The plane was out in Galveston at 12:35 p. m. today.

### Mrs Hart Returns From Enjoyable Trip

Mrs. Ed M. Hart of Anton, sister of W. J. (Bill) Chesher of Littlefield, recently returned from a trip which included 28 states and two foreign countries.

Canada is a really nice place for tourists, Mrs. Hart said, but Cuba is just the other way. Of the most delighted spots visited, Mrs. Hart said, Quebec, Can., Lexington, Kentucky and woodland section of Maine were at the top of her list. She stated that Calumet Horse Racing stables at Lexington were beautiful beyond description.

They took a plane from Florida to Cuba, but Mrs. Hart did not enjoy that part of the tour, as the plane was forced to fly low and she suffered airsickness. Cuba itself proved a disappointment. The Cubans seemed to think Americans are merely someone upon whom they can exert their graft, according to the impressions of Mrs. Hart. Upon the contrary, the Canadians go all-out to show one a nice time.

The peninsula of Italy nowhere exceeds 150 miles in breadth, according to the Encyclopedia Britannica.

### LAFF OF THE WEEK

"Hey Mom, My Nose Itches!"

### "EASY DOES IT"

FLOWERS are conditioned before you make arrangements for them in vases and other containers, they'll keep fresh for a longer period of time.

Garden flowers, such as asters, calendulas, marigolds, snapdragons and zinnias last much longer if they are allowed to stand overnight in water to which has been added sugar. Use one teaspoon of sugar for each quart of water.

Iris and tulips will last much longer if they are picked in the bud and wrapped in wet newspaper immediately. Plunge the wrapped bunches into deep water which comes up to the blooms.

Gardenias and camellias never drink water after they're cut. Place these in a cool place and cover them with wet tissue.

Violets like water on their flowers. Bunch them first, then turn bunches upside down and immerse in water to allow the flowers to drink from blossom ends as well as stems.

All green leaves should be conditioned by placing in buckets of water overnight before you arrange them.

### RECIPE OF THE WEEK

**Ice Cream Punch**  
(Makes 1 quart)  
1 cup orange juice  
1/2 cup lime juice  
1/2 cup lemon juice  
1 cup pineapple juice  
1/2 cup sugar  
1 pint vanilla ice cream  
Combine fruit juice and sugar, stirring until sugar is dissolved. Add ice cream and beat with rotary beater to blend. This makes a thick, creamy punch.

If you like to have big bunches of lilacs around the house, condition by immersing these in water deeply, using a big tub or bath tub. Let the water come up to the flowers.

Add one tablespoon molasses to each quart of water in which you immerse peonies for conditioning. Flowers which are bleeders, like poppies, hollyhocks, poinsettias, milkweed and lupines should have the tips of their stems burned. Then plunge them into ice water to remain overnight.

Coral bells, lilies of the valley and forget-me-nots should have two drops of alcohol added to their conditioning water.

When H. A. Lewis of McKinney took ill on a train this side of Albuquerque, N. M. going home to McKinney, Texas, the Payne-Shotwell Foundation was notified and asked to have a physician meet the train. Dr. C. E. **Missionary Speaks At Local Church**

Harold S. Lehmann, missionary on furlough from the Gold Coast, West Africa, was guest speaker at Assembly of God Church, Thursday night. Mr. Lehmann told of his experiences among the primitive peoples of the Northern Territories of the Gold Coast. His travels throughout Africa have taken him as far north as the French Sudan, and throughout the West African countries.

Mr. Lehmann is under appointment by the Foreign Missions Department of the Assemblies of God with headquarters at Springfield, Missouri. In October, 1944 he flew to the Gold Coast and has worked there since that time. During this term he has served on the Executive Committee for three years and acted as field leader for one year. During the latter part of his term he was stationed at Accra, the capital of the Gold Coast.

Upon Mr. Lehmann's return to the States he went to the University of Oklahoma where he engaged in special studies in linguistics in preparation for his return to the field. As the Gold Coast is a country not much larger than the state of Nebraska but with 25 languages and most of these unwritten, it presents a great need for translation work. Mr. Lehmann plans to carry on this work when he returns to the field.

Mr. Lehmann ministered for four years to the North American Indians of the Karluk tribe in Northern California after which he pastored in Monterey, California, was the president of the Northern California-Nevada District Christ A.

By LYLE HULL

LIZ TAYLOR still isn't off the front page . . . Details of her European honeymoon with bridegroom Nicky Hilton are still pouring in from press agents who finally managed to get their charge married off after three fast and furious engagements to three prominent headline men . . . Personally, we didn't think Luscious Liz needed all those engagements to prove men found her beauty appealing . . . Mel Torme may star in a musical variety series . . . Gertrude Berg, the charming "Mrs. Goldberg" of radio and TV, has signed to do some records and also a movie based on her now immortal serial . . . She'll do solo comedy routines on the records.

**PLATTER CHATTER**

CAPITOL — Dean Martin takes "I'm Gonna Paper All My Walls With Your Love Letters" and does a fine job with it . . . "Muskrat Ramble" is on the flip side . . . "Put On An Old Pair of Shoes" has been revived effectively by Robert Clary with another oldie, "Louise," backing it . . . Clark Dennis' latest waxing is the pretty "Kathy" from "Mrs. Mike" . . . The reverse, "Summer Night," is also pleasant on the ears . . . Eddie Kirk comes up with a western pair, "Saturday Nighttime Blues," and "Four Hearts."

COLUMBIA — Cream of the Columbia crop: "Rubber Knuckle Sam" and "Down the Lane" as done by the Modernaires . . . "Dream a Little Dream of Me" and "Tell Me" by Frankie Carle . . . "When Our Country Was Born" and "Pepito and Carmencita" by Vincent Lopez . . . A cute little novelty, "S'nora" by Willie Solar with the "Aba Daba Honey-moon" on the reverse.

MERCURY — Lawrence Welk digs deep for a real oldie, "Doo Wacks Doo" and turns in a creditable job on it . . . "Pizazz!" backs it . . . Eddy Howard's rendition of "My Mom" appeared in time for Mother's Day.

St. John Baptist Church, Colored  
There are four steps in finding God.

(1) Sincerity. When we give God our all, God gives to us His all.  
(2) Repentance. God demands that we change our direction and look toward Him. Repent and atone for wrong-doings.  
(3) Faith. Without faith it is impossible to please Him. Hebrews 11:6. When one commits his life to God; he does not only for a time but Eternity.

(4) Obedience. It is not enough to know what is right and true. One must proceed in the direction indicated.

The direction is Christian life and follow through.

The Christian life is no easy life. Even Christ went the way of the cruel cross. In this life we must constantly cultivate the presence of God.

For example: read the Bible daily, get along with God, learn all you can about the art of prayer, go to the church of your choice, cultivate the companionship of Christian friends. Above all Trust God to lead the way at all times. Never doubt him.

### New Mexico Seeks Fair Allocation On Canadian Water

Governor Thomas J. Mabry, of New Mexico, told a Canadian river compact commission Friday that New Mexico is anxious to see the potential development within his state is fully protected and that the desires and needs of the other two states (Texas and Oklahoma) are also fully met insofar as a water supply is available for those purposes.

Col. E. V. Spence, of Austin, the Texas commissioner said that Texas needs the flood waters of the Canadian river as a supplemental supply to other waters, particularly for municipal use.

A project for a dam near Berger is already in the engineering stage. As now planned, it would have a total capacity of 1,956,000 acre feet and would store water for municipal use of Amarillo, Berger, Lamesa, Levelland, Littlefield, Lubbock, O'Donnell, Pampa, Plainview, Stanton and Tahoma.

Col. Spence's advisory staff on the commission which is organized to work out suitable allocation of water is composed of James S. Gulek, Austin; A. H. Woolverton, Austin; Douglas Pruett, Jr., Texas assistant attorney general; and Robert L. Lovery, consulting engineer from El Paso.

Mrs. Marjorie Chodorov, Mrs. Ruth Leider and Mrs. Charlotte Stern (left to right) enter U.S. marshal's wagon to be taken to jail after they surrendered at federal court in Washington to begin serving three-month sentences for contempt of congress. ### ABOVE THE HULLABALOO

By LYNN CONNELLY

CRACK OF THE WEEK concerns a couple of typical movie "cowboys," looking completely out of place in the usual Vine St. cluster of song-pluggers across from NBC . . . The music boys, the town's fanciest dressers, made the westerners in their levis, boots and shirts look like bums . . . and also made a wit say: "There's a picture for you. The song pluggers wearing \$300 suits and with nothing in their pockets and the cowboys wearing nothing and with \$300,000 in each pocket!"

Geography, if nothing else, gives Hollywood the right to smile at New York and its newly-found ability to "go west" without moving from Manhattan . . . Easterners, who once looked down their respective noses at westerners, now have seen the light . . . Best example is Tex Williams, the "hot-test" of the "they-went-thataways" since Hoppy . . . New Yorkers lead the rest of the country in purchases of his latest Capitol disc, "With Men Who Know Tobacco Best" and the NBC Manhattan staff is showing real excitement over his recently recorded addition of a half-hour dream . . . Tex is a big star in Hollywood NBC studios.

### PLATTER CHATTER

CAPITOL—Dean Martin revives that old Gene Autry favorite, "Be Honest With Me" and does nicely by it . . . Back has "I Still Get a Thrill," a beautiful ballad, also from yesteryear . . . Jo Stafford and Gordon MacRae team up with a tantalizing pair, "Drifting Down the Dreamy Ol' Ohio" and "Where Are You Gonna Be When the Moon Shines." And getting back to Tex Williams, he has a good disc in "Great Big Needle" with "Birmingham Bounce" riding on the flip.

COLUMBIA—Frank Sinatra's "American Beauty Rose" is a winner all the way . . . He does "Just An Old Stone House" on the reverse . . . A real cutie is "Darn It, Baby, That's Love."

### Dysentery Rate Possible Sanitation Steps Not Taken

There had an unusually high rate of dysentery this summer months. It is likely to increase and will very likely re-appear if steps toward correcting sanitation problem are not taken within the near future.

Inflammation of the lining of the intestinal tract which produces pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus. Toxemia results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the intestines in the same manner in which food does. When they reach the intestines they find conditions favorable to their growth, and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery affects young children more often and more seriously than adults, frequently resulting fatally, however, he said, it may occur at any age. It is usually more prevalent during the summer season, and the great number of cases now being reported are unusual for spring.

### Littlefield Area Has Brief Rainfall

Four tenths of an inch of rain was recorded on the rain gauge at the Western Cotton Oil company in Littlefield after the fall Thursday night.

Littlefield was apparently on the northeast edge of the area receiving rain as the heaviest downpour was at Plains which received .83 while the rain developed into a small shower at Anton and Olton reported no rain.

Sudan, Amherst, Morton, and Levelland also reported similar amounts as that in Littlefield.

The rain, although brief, was exceedingly heavy and soaked in to the ground with little run off.

### Texas Population Expected to Climb Over 7,500,000 When Count Completed

Dallas county's 1950 population was announced Saturday as 612,318.

This is an increase of 213,754 over 398,564 in 1940.

Tarrant county's preliminary census figure was announced recently as 359,157. Thus the two adjacent North Texas counties 971,475—the greatest population concentration in the south.

**Population Near Eight Million**  
Release of Dallas county's population makes it apparent Texas' 1950 population could come closer to eight million than to seven million.

With only Harris (Houston), Bexar (San Antonio) and Kerr counties not reported the cumulative total for 251 counties is 6,373,235.

But the spectacular growth of Houston and San Antonio, and their metropolitan areas could easily push the state's total past 7,500,000.

In 1940 the Texas population was 6,414,824. The Census Bureau several months ago estimated the Texas population as of July 1, 1948, at 7,230,000.

Figures for San Antonio and Bexar county are expected in about a week. Houston and Harris county will come a few days later. Kerr county—an unexplained laggard as the nose count rolled toward a finish—is expected next week.

Most of the district census supervisor offices have been closed. The figures they collected—not only on people but on livestock, radios, stoves, etc.—are converging on Washington. Much later—and after a lot of tedious work—the formal final figures will be released.

Dominant fact so far disclosed is the rush of farm-area people to the cities—and the loss of population in the east and northeast of Texas. Navarro county lost more people—11,586—than any other. Other heavy losers—most of them in East Texas—include Burleson 5,381 lost, Caldwell 5,620; Cass 6,850; Cherokee 5,370; Coleman 5,100; Collin 5,695; Felt 6,400; Fannin 6,910; Fayette 5,190; Freestone 7,190; Grimes 7,020; Hill 7,200; Hopkins 7,870; Houston 8,394; Hunt 8,188; Kaufman 7,910; Lamar 7,470; Leon 6,745; Limestone 8,070; Madison 5,960; Milam 9,670; Red River 7,960; Robertson 7,250; Rusk 8,780; Shelby 5,820; Upshur 5,415 and Van Zandt 8,606.

These losses—principally in rural counties—were offset by the striking growth of the cities and by sharp population rises in West Texas, along the coast and in the Rio Grande valley.

Andrews county in West Texas had the best percentage gain—250.36 percent, from 1,277 to 4,855.

Orange county, on the upper coast, grew from 17,382 to 40,083, a gain of 130.6 percent. Hidalgo county, in the lower Rio Grande valley, climbed 50.8 percent, from 106,059 to 159,994.

### Is Candidate For Lieut. Governor

Ben Ramsey, candidate for lieutenant governor and former Secretary of State, last week completed another chapter in his person-to-person handshaking tour of the state.

Ramsey found considerable interest in his program for economy in government, blacktop roads to every farm home, soil and water conservation and rural telephones at reasonable rates.

Ramsey, a 46-year-old lawyer from San Augustine in East Texas, has been conducting soil and water conservation experiments on his own farm near San Augustine.

Several classes of students studying conservation have visited the farm to observe the results of the experiments.

Ramsey is campaigning for the office of lieutenant governor, the presiding officer of the Senate, on the basis of his experience. Ramsey served in both the House and Senate before he became Secretary of State, a position he resigned in February in anticipation of making the race for lieutenant governor. He was elected to the House in 1931, the same year he received his license to practice law. He served two terms and was then elected to the Senate in 1937. In 1947 he was elected president pro tem (assistant presiding officer) by his fellow senators. In recognition of his leadership, Ramsey retired from the Senate in 1947 and in 1949 he was appointed Secretary of State by the late Governor Donnell.

Ramsey continued to serve as Secretary of State under Governor Allan Shivers, resigning in February.

### Fire Damages Cook Farm Home

Fire in the farm home of C. L. Cook, seven miles northeast of town, did considerable damage to the house and resulted in the loss of quite a bit of personal property last Monday night.

The fire started shortly before midnight. Cook called the Littlefield fire department but they were unable to answer the call as they had only one truck in operation.

Cook reported that his property was partially covered by insurance.

### Purebred Hogs To Be Feature Of 1950 State Fair

Purebred hogs, exemplifying the progress made in Texas swine industry during the past 50 years, will be a big feature of the 1950 State Fair of Texas Mid-Century Exposition, Oct. 7-22, Ray W. Wilson, manager of the fair's livestock department, has announced.

Breeders will compete for \$8636 in premiums in the show scheduled for Oct. 7-15.

The judging program includes: Poland China, Spotted Poland China, Berkshire and Yorkshire Monday, Oct. 9; Hampshires, Duroc, OTC and Chester White, Tuesday, Oct. 10; and Fat Barrows (all breeds), Wednesday, Oct. 11.

This will be the first time in the 55-year history of the State Fair that the Yorkshire breed has been exhibited.

The State Fair gives swine breeders the opportunity of showing to the largest audience in the world. More than 2,000,000 persons are expected to attend the great 1950 exposition, Wilson pointed out.

Included in this vast audience will be more than 100,000 4-H Club boys and girls, Future Farmers and Future Homemakers who will be guests of the fair on Opening Day, he explained.

Swine barns have been completely repainted and redecorated. A well balanced program of wider appeal has been arranged. Hogs will be presented in an effective streamlined show.

With a total of \$72,659 in premiums, the greatest livestock shows in the fair's history are assured, Wilson added. The program will include beef cattle (Aberdeen-

Angus, Brahman, Hereford, Polled Hereford, Shorthorn), dairy cattle (Jersey, Guernsey, Holstein-Friesian, Milking Shorthorn), horses (Quarter, Palomino, American Saddle), Sheep and Angora Goats and the Junior Livestock show.

Swine judges are: A. L. Anderson, Ames, Iowa, and J. H. Baumgardner, Lubbock. W. L. Stangel, Lubbock, is general superintendent of the livestock shows. Fred Hale, College Station, is swine superintendent and Dan Kiber, Arlington, is assistant superintendent.

### Information For Veterans

**Q—**I am the stepmother of a World War II veteran who was killed in action. He was in my care and custody prior to his entrance into service may file a claim for compensation?  
**A—**Yes.

**Q—**My brother, an honorably discharged World War I veteran, was buried in Potter's Field because his estranged wife was not interested where he was buried. What procedure must be followed to have him buried in a National Cemetery and will VA pay the expense?  
**A—**Application for burial should be made to the superintendent of the National Cemetery where burial is desired. Upon application to VA an amount not to exceed \$150 for items of disinterment and reburial may be allowed, it being assumed that no allowance has herebefore been made by VA for burial purpose.

**Q—**I have been receiving compensation from VA and \$21 additional for a dependent wife. She has now gotten herself a job and is earning a fair salary. May I still claim her as a dependent?  
**A—**The additional compensation provided on account of wife or child to veteran having a disability of 50 per cent or more is not based on dependency but solely on relationship.

**Q—**I married shortly after I was discharged in World War I, but my wife left me after a few months without reason. Can she obtain part of my total disability pension?  
**A—**If the separation was without any fault on your part and you can establish that fact, the regulations governing apportionment will preclude an allowance of such apportionment to her.
