

New Water Supply In Sight For Plains Cities

Proposed dam on the Canadian near Sanford, Hutchinson and a 277-mile aqueduct have been recommended to government as a plan to meet water requirements of Lubbock and other Panhandle-Plains cities for the next half century.

P. Burleigh of Austin, engineer for the Bureau of Reclamation, detailed the gigantic details of the Panhandle Conservation Authority at a meeting of the Panhandle Conservation Authority at Lubbock, Texas, on Friday morning.

Canadian river dam would control capacity twice the

size of Conchas dam on the Canadian near Tucumcari, N. M., Burleigh said.

The dam and reservoir would cost a total of \$27,800,000, Burleigh's report, which was submitted to the Reclamation Service at Washington Wednesday, estimates. Total cost of the entire project, including dam and reservoir, water transportation system to serve the 11 cities (Borger, Amarillo, Pampa, Plainview, Levelland, Lubbock, Tahoka, O'Donnell, Lamesa, Littlefield and Slaton), recreational facilities, irrigation features and all rights-of-way would be

\$84,383,000.

Of the above total, the water transportation system to serve the 11 cities would cost \$54,340,000; recreational features \$727,000 and irrigation features \$1,516,000. Moving of Amarillo's sewage plant, necessary before completion of the project, would add another \$1,000,000 to the total cost.

Total reimbursable construction costs, to be repaid to the Federal government by local interests, would be \$79,408,000, of which \$77,892,000 would be repayable by the 11 cities served by the project and \$1,

516,000 by the irrigation project.

Construction costs amounting to \$2,951,000 would be allocated to flood control, and \$1,570,000 allocated to fish and wildlife conservation, thus a total of \$4,521,000 would be non-reimbursable under present Federal law.

The report recommended as non-reimbursable \$1,454,000 as recreational costs.

The plan of development, covered in Burleigh's report, provides for the delivering to the project cities their full surface water requirements through the year 2005, with a deliv-

ery of 134,000 acre-feet annually from the year 2000 through 2005; for the initial irrigation of 9,660 acres and ultimate irrigation of 17,310 acres with sewage effluent; and for flood control, fish and wildlife conservation and recreational facilities.

The only reliable source of surface water for this area is the Canadian river, the report points out. Directly north of Amarillo where the dam would be located, average annual discharge of this river, (with the Tucumcari, N. M., project under full development) is estimated to be

310,000 acre-feet with a maximum of 1,937,000 acre-feet in 1941 and a minimum of 24,000 acre-feet in 1934.

The dam would be a rolled earthen surface structure with a crest length of 7,200 feet, a top width of 40 feet, and a maximum height of 186 feet, and a total volume of 13,167,000 cubic yards. Normal water surface elevation would be 2,937 feet and maximum at 2,290 feet.

Controlled storage would total 1,305,000 acre-feet, with 440,000 acre-feet sedimentation, 440,000 conservation and 425,000 flood control.

6,200 Attend Fourth Annual Jaycee Rodeo

Rodeo Parade Is Bigger Than Ever

Spectators stood three and four deep on the streets of Littlefield last Thursday evening to watch the most colorful and spectacular parade yet staged during the Jaycee Rodeos. The mile long parade started at the Courthouse and wound its way down Phelps Avenue and through the streets of the city.

The parade had a variety of floats that brought Ohs! and Ahs! from the throngs. The Woman's Club of the city won first prize and Ray's Butane second. Third prize went to the Jaycees and honorable mentions were received by E. C. "Buck" Ross and Elkins Grocery.

Slinging Sammy Baugh of national football fame led the parade along with Queen of the Fourth Annual Jaycee event, Mrs. Wanda Foust and the Junior Queen, Miss Melba Jo Edwards.

Typical Western Show

One hundred and seventy-five horses ridden by girls, boys, men, women and children were entered in the typical western parade.

Many of the floats required hours of long labor and presented a beautiful spectacle. Others provided the comedy, and everywhere was the atmosphere depicting the west, reminding everyone that this was Rodeo time.

Close to the front of the show was the colorful high school band playing.

A crowd of 6,200 Rodeo fans turned out to witness the three day, Fourth Annual Jaycee Rodeo, last Thursday, Friday and Saturday. Thrills, spills and laughs were given the audience and the applause each event was given showed their enthusiasm.

Opening night attracted the largest crowd as the Rodeo opened officially with a huge street parade. Approximately three thousand people turned out the first night despite the threatening clouds that nearly ruined the night for the Jaycees. Rain started to fall just before the close of the first performance, but all events were finished despite the rain and

Judge Otha Dent attended a meeting of the Texas Rural Roads Association at the Adolphus Hotel, Dallas, Thursday last. The meeting was in session from 10: A. M. to 5 P. M.

According to Judge Dent, this group is not satisfied with the four miles per year average of rural roads to the Texas Counties. This association is endeavoring to plan ways and means of getting more farm roads for the people of Texas.

Judge Dent stated it was the monopolies of Texas outside capital that were standing in the way of more rural roads, adding they had the largest group of lobbyists at Austin this year than ever before.

Judge Dent added: "We feel we know the sentiment of the people, and we are still going to try to accomplish what we set out to do - to build more rural roads."

Judge Dent left here Wednesday and returned last Thursday night.

it now costs the City of Lubbock to produce water from wells, exclusive of capital costs, reservoirs and booster stations. The aqueduct system would include a pipe line extending from the reservoir to Sanford, where it would divide, with one branch extending eastward through Borger to Pampa, and the second branch extending southward through Amarillo and Lubbock, with its terminus at Lamesa and a branch line from Lubbock to Slaton.

Quality of Canadian river water would be superior to ground water supplies now used in flouride content (low enough to eliminate tooth stain); superior to all present sources except Amarillo, Plainview and Pampa in hardness; superior to all in magnesium and bi-carbonate content; superior to Lamesa, Lubbock, Pampa and O'Donnell in chlorides and inferior to all cities except O'Donnell in sulphates.

Spotlight In Sports

by BACON JONES. ARE YOU A GOOD PITCHER? A key to successful baseball pitching is "RELAXATION" . . . which means: free from worries, such as a concern about what others are thinking, or the fear of losing the game. Forget about everything or you'll become tense, develop sore-arm trouble and various other physical ailments. A good pitcher should be in good physical condition to assure a right state of mind and the confidence necessary to win games. When you throw a ball, shift your weight from the rear leg to the front leg . . . it will put extra power into the pitch. (Many smart baseball men claim a pitcher should start his early season training by strengthening his legs.) When warming up, pick a spot (the knee or shoulder of the catcher) and throw effortlessly toward the spot. Never try to throw swiftly until you have developed accuracy, strength, and co-ordination of delivery. And above all remember that A PITCHER'S DELIVERY SHOULD ALWAYS BE THE SAME . . . OTHERWISE, TELL-TALE HABITS WILL TIP OFF THE TYPE PITCH BEING THROWN.

County Pioneers Gather

REMEMBER WHEN?—Judge and Mrs. R. C. Hopping, Lubbock, happily recall the early days when they lived in Littlefield. Judge Hopping, who was county judge of Lamb county for five years, and his wife were among the 150 old settlers who attended the organization meeting of the Lamb County Pioneers. Only those who came to Lamb county earlier than 1925 were eligible to become members. Judge Hopping's son, Sid Hopping, is now sheriff of Lamb county.

Officers Elected; G. M. Shaw Is Named President

99 Charter Members Are Taken Into New Organization

About 250, including pioneers and members of their families, assembled at the Littlefield Country Club Friday, and organized the "Lamb County Pioneers".

G. M. Shaw, a resident of Littlefield since 1919, acted as temporary chairman, and stated the purpose of the organization.

Soon after assembling a nominating committee composed of Sheriff Sid Hopping, Tom Arnett, Clint Griffin, Mrs. Guy Willis, Simon Hay and Bob Smith nominated a panel of officers to guide the destinies of the new organization through its first year.

Officers Elected
Officers chosen and elected by acclamation are: Gus Shaw, president; Simon D. Hay, Sudan, vice-president; Mrs. Bob Smith, Littlefield, secretary; Mrs. Lester LaGrange, Amherst, treasurer.

Directors named are Herman Haberer, Earth; Jack Silcott, Olton; Geo. Stagers, Littlefield; Judge R. C. Hopping, Lubbock, and Lon Campbell, Littlefield.

The meeting began at 2:30 p. m. with Shaw calling for order. Many of the earlier pioneers were introduced and presented to the crowd. Shaw stated the purpose of the organization and what he hoped it would accomplish.

"We are going to try and locate every pioneer in this area," Shaw said. "We want to have them here at each (Continued On Back Page)

Boy Hitch-hikes Here To Find Mother; Finds Mother, Friends: And Returns Very Happy

Western Hospitality was demonstrated in a big way last week in this friendly city of the South Plains, when a 14 year old boy hitch hiked out here from Earl, Arkansas looking for his mother, whom he hadn't seen in seven years.

When he arrived, the local radio station, Red Cross, and in fact, everyone he came in contact with set out on just one mission...to find the boy's mother.

She now being by a second marriage the wife of a pipeline worker, was believed to have been here a short time ago...hence the boy's trip to Littlefield.

Broadcasts message
KVOW broadcast the boy's message. Mrs. L. M. Brandon, Executive Secretary of the Red Cross, worked

on the project, sending wires, etc. On a tip that the mother might be in Morton, Jim Douglass took the boy to that city, but failed to get trace of her there.

Guest in Brandon home
In the meantime Johnny was a guest in the home of Mr. and Mrs. L. F. Brandon, and having the time of his life.

Landing as he did with a large felt hat and clothes much too large for him, and with nothing but a spoon and a can opener in his pockets, Mrs. Brandon, through the Red Cross, bought him a complete new outfit. She took him to Sunday school, following which he accompanied a group of young Methodist people to McKenzie Park where a picnic (Continued On Back Page)

Ross, Mr. and Mrs. Walter Martin and Mr. and Mrs. Andy Thompson, give out with some fancy square dancing. Swinging their partners brought back memories to the early settlers who came to Lamb county about the time it was being organized. Pictures Courtesy Avalanche-Journal

Yes,
a penny's **BIG** money!

When you spend it for electricity, of course!
That important little penny will do any
one of these things for you...

It's amazing what your electric penny buys in comfort and efficiency and real living values. It takes a lot of skill and experience—yes, and sound business management—to keep electric service the biggest bargain in your budget today. (And this, remember, in spite of the rising costs of making and delivering electricity to you!) Truly, electricity does a lot for a little!

BULL LAKE PHILOSOPHER WANTS EXPERTS TO DEVELOP A COW THAT CAN LIVE ON HIS WEEDY PASTURE

Editor's note: As far as we can tell, the Bull Lake Philosopher on his Johnson grass farm on Bull Lake has reached the apex in laziness, as his letter this week will reveal.

Dear editor:

For years now I've been observin the experts such as the soil conservationists, the county agents, A & M College, etc. while they worked on the problem of improving agriculture and while I am in favor of doing it as long as it don't take more work on the improvement than it does on the system I got in effect now, I have been noticin a general tendency in the wrong direction.

That is, take livestock, which is a specialty with me, that is, I raise a few Jersey steers for the market, fattenin em on young Johnson grass and finishin em out on grain if you call Johnson Grass, after it is headed out grain, but some expert is always telling me I ought to improve the variety of my pasture. Ought to get rid of the cockleburs and bloodweeds and thistles and needle grass an bull nettle and develop some grasses that cows can thrive on.

This is what I am talking about. The experts are goin in the wrong direction. Instead of tryin to improve the quality of my grass, which I'm smart enough to see only means a

lot of work for me, why don't they spend some time adaptin cows to my weeds? I can't see why man has to do all the improvin. Let the cows do it once in a while.

Everybody knows even without the advice of a expert if you give a cow alfalfa hay and cottonseed cake and fresh young clover and tender Bermuda grass and Kentucky bluestem and so forth she'll do fine, but it takes work to get that sort of a diet. What I'd like to see is A & M develop a cow that would do fine on the kind of pastures I've already got. As far as I'm concerned, cows was made for man, not man for cows, and if there's any adaptin to be done it ought to be done by the cow.

If A & M is interested in this I will be glad to turn my pasture over to em, with a gaurantee it's like nature intended it to be, and if they can develop a strain of cattle that can thrive on what I've got to offer em, they'll revolutionize the cattle industry and all I expect in return is a reasonable fee for the use of my land.

Anybody knows you can raise better cattle if you work harder, what I want is better cattle with less work, as I believe I'd rather have poor cattle and feel rested than have fat cattle and be tired out. If only one of us can be comfortable, I'd

rather it be me. Ain't you the same way about your newspaper? Yours faithfully, J. A.

Fort Worth To Observe 100th Birthday July 16 - 23

Wichita Falls, Bowie, Ennis and Hillsboro have announced plans to send large delegations to "Fiesta-cade," Fort Worth's 100th birthday celebration July 16-23.

Each City will select a queen to be presented in the lavishly-costumed opening scene of the outdoor spectacle. Hillsboro definitely will send a band and the others are expected to do so. Bowie has selected Tuesday, July 19, as its night at the show.

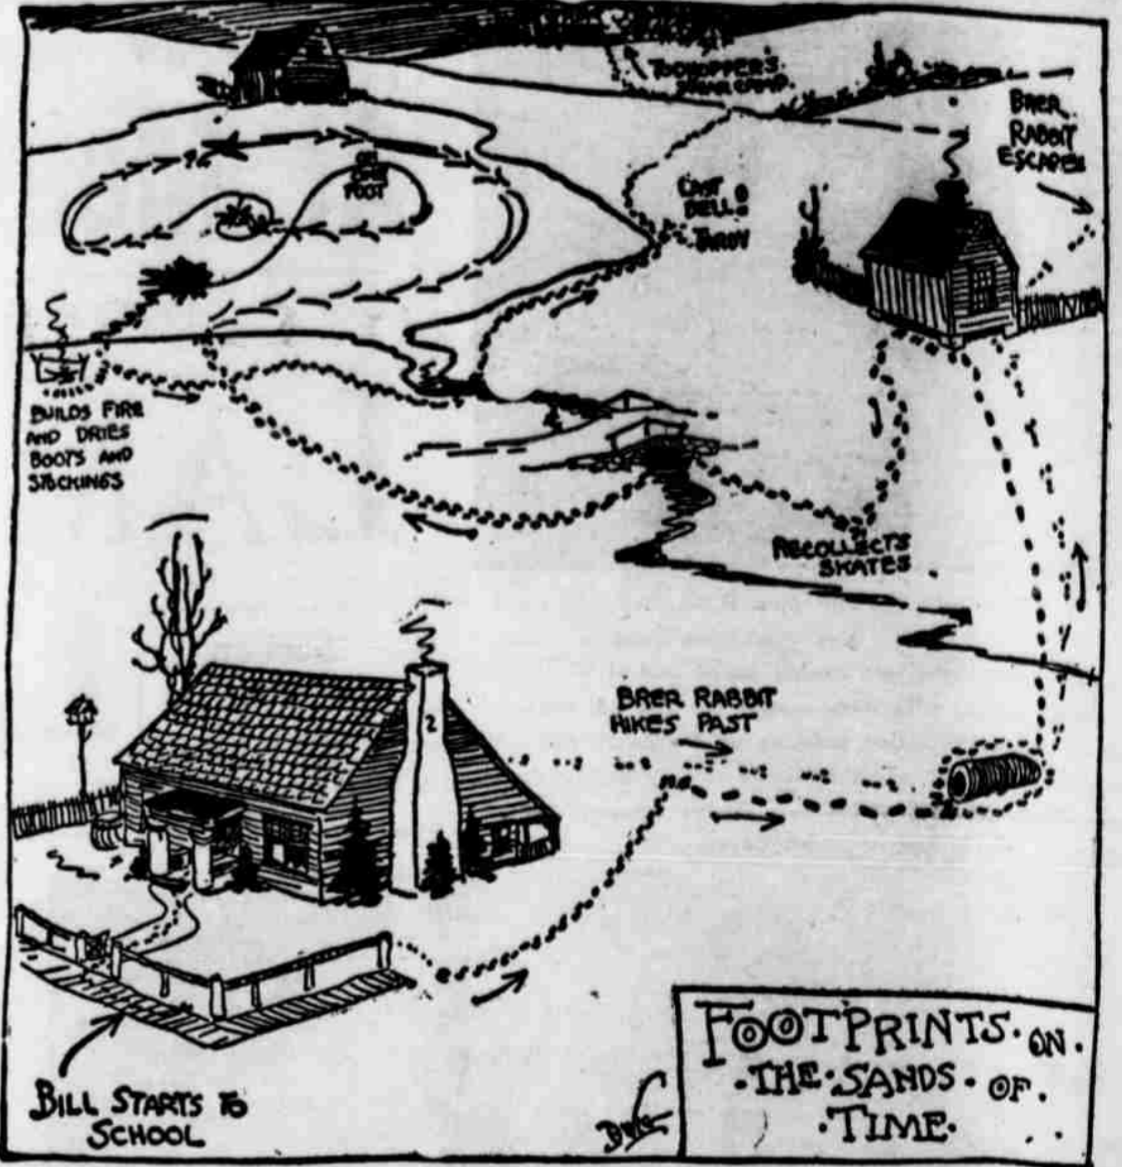

Other Texas communities have been invited by R. Wright Armstrong, centennial committee president, to "come join the fun and help us to celebrate."

Fiesta-cade will be a panorama of the past century in Fort Worth and this region. It will depict early Indian days, arrival of the first "iron horse," Civil War days, the "Gay Nineties," and a reminiscent scene from the 1936 Casa Manana show.

More than 2,000 Fort Worth volunteer actors are rehearsing for the 24-episode pageant, which will be presented in Farrington Field, high school stadium. They will appear with authentic costumes and sets. Emphasis will be on entertainments, with an orchestra, 400-voice chorus and numerous dancing acts.

FIRST LOAD OF WHEAT FROM COUNTY IS HERE

The first load of wheat from the 1949 Lamb county crop was brought to Littlefield by Werner Birkelbach, two miles west of town.

The wheat, testing 58 pounds to the bushel and having a moisture content of 17.01, was taken to the P. W. Walaker Grain and Seed company.

Birkelbach placed the wheat in elevator storage to be eligible for the maximum government loan for number one grain, \$1.87 per bushel.

Walker expects the movement of wheat to pick up rapidly from now on with much of it moving to the elevators at night. Although the moisture content is still high the grain is showing rapid improvement and is coming well.

ENTRANCE AGE FOR JOINING SCOUTS IS NOW LOWERED

Dr. F. B. Malone, President of the South Plains Council, Boy Scouts of America, has announced, in an unprecedented move, the Boy Scouts of America has lowered the entrance age for its three program of Cub Scouting, Boy Scouting and Senior Scouting, effective September 1, 1949.

In announcing the far-reaching change authorized by the National Executive Board of the organization Dr. Arthur A. Schuck, Chief Scout Executive, said the decision was reached after a three years' exhaustive study during which opinions were obtained from experienced leaders as well as parents.

After Sept. 1, boys may become Cub Scouts at eight years of age instead of nine; Boy Scouts at eleven instead of twelve and Explorers at fourteen instead of fifteen years of age.

The program known as Senior Scouting, Dr. Schuck announced, now becomes "Exploring" with its scope broad enough to include land, sea and air activities as well as life exploration. Units specializing in seamanship or in aviation will be known as Explorer Ships or Explorer Squadrons, respectively.

CHRISTIAN SCIENCE SERVICES

"Christian Science" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 26.

The Golden Text is: "Ho, every one that thirsteth, come ye to the waters, and he that hath no money; come, buy and eat; you, come, buy wine and milk without money and without price" (Isaiah 55:1).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father" (John 14:12).

The lesson-Sermon also includes the following passage from the Christiana Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The great spiritual facts of being, like rays of light, shine in the darkness, though the darkness, comprehending them not, may deny their reality" (pagae 546).

Annual Meeting of the First Church of Christ Scientist, Boston, June 6

Boston, Mass., June 6 — Breaking through the crust of ancient beliefs in material power, the postwar world is reaching out in an unprecedented effort for something better upon which to found a union of nations, The Christian Science Board of Directors declared today.

Addressing several thousand Christian Scientists attending the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, the Directors viewed with satisfaction the worldwide stir in human consciousness to discard the material for the spiritual. Physicians, they said, are giving more importance to thought in relation to disease. Natural scientists, they added, are gaining in their recognition of the insubstantiality of matter.

Religious leaders everywhere, they pointed out, have developed a widespread sense of the need and reasonableness of greater and more direct evidences of spiritual power.

In various other directions, the Directors continued, there is a strong

urge to look beyond mere means for the establishment of a stable government.

The Directors' statement and election of Miss Emma C. Shipman to the Presidency of The Mother Church for the ensuing year opened an annual meeting filled with reports of marked progress in the Christian Science movement throughout the globe.

Hitch-Hiker

(continued from page 1) was enjoyed, and Johnny had a big time.

Goes to rodeo

And Johnny didn't miss the rodeo either. Mrs. D. L. Whitson... by the way one of the Jayettes, who so ably assisted their husbands in making the rodeo a success... took the boy to the rodeo.

Mother phones Red Cross

Well, Johnny's vacation came to an end about 9:30 A. M. Friday, when his mother phoned the Red Cross office here from Yellville, Arkansas and a ticket was purchased and Johnny was put on the bus to return home. Not, however, before the Friendship Class of the Methodist Church had purchased a change of clothing, a khaki suit, underwear and socks for Johnny.

And Johnny didn't forget the courtesies received while in this friendly city... he went all over town advising he had found his mother, and thanking everyone for their assistance.

Hadn't Seen Mother in Seven Years

This boy has had a rather tragic childhood. His parents separated when he was seven years old, and he had lived in an orphan's home in Michigan until recently, when his paternal grand-father is reported to have taken him out and turned back to his father at Earl, Arkansas. Things didn't turn out too good for the boy, as the story goes, and Johnny decided to find his mother, whom he hadn't seen in seven years.

Pioneers

(continued from page 1) annual reunion. Those who came before 1925 are eligible for membership. Five years from now we will move that date up to 1926.

Shaw got quite a laugh when he said: "When I came to Littlefield in 1919 I had never seen anything like it before in my life. The vast Spade ranch was still intact and most of the roads were really only trails leading into Littlefield and Lubbock."

"Of course," Shaw added, "the few people that were here hadn't seen anything that looked like me either."

Judge Gives Address

Judge Hopping spoke briefly on how he had pioneered the whole Plains and Panhandle area.

"I came into this area from Portales, New Mexico, in 1901," the judge said. "It was all tall grass then. I moved down from Texico and Farwell and finally got to Lamb County in 1918."

"To show you what fine people there are in this section I want to mention that I was county judge here for five years and never had a case on the docket," the judge laughed. "That was when the Cherokee strip was still something that was talked about."

Judge Hopping now makes his home in Littlefield.

Wolfe Shaw was principal speaker. He praised the pioneers who attended the meeting for their fortitude and American spirit.

Following the organization and principal address a picnic lunch was served in the country club assembly room which was only recently completed. An eight member dance team known as the Pioneer Dance Club entertained with a series of square dances. The dancers, were Mr. and Mrs. L. C. Campbell, Mr. and Mrs. E. C. "Buck" Ross, Mr. and Mrs. Walter Martin and Mr. and Mrs. Audy Thompson.

One old timer, Lee Bennett, now close to 80, who came to Texas from Tennessee in 1875, danced an old fashioned jig to the lively music of the "jook" box fiddler.

Oldest Pioneers, Mr. and Mrs. Arnett. Pioneers present of the longest standing were Mr. and Mrs. Tom Arnett, who came to this area in 1906.

99 Charter Members

Mr. Shaw announced Saturday that the organization now boasts 99 charter members, adding that they would hold the matter open until this coming week end and accept charter members until then.

Mr. Shaw also stated that those unable to come to Littlefield might mail their check for \$1.00 for each person, to Mrs. Bob Smith, Secretary, or to him, and they will be rated as Charter members. Pioneers who came to this area previous to and including 1925 are eligible to membership.

In the case of a married couple, if he is eligible and his wife is not, he may belong, but although she cannot belong, she can attend the meetings with her husband, or vice versa, explained Mr. Shaw.

Some of those present and the year they came to Lamb county: Gus Shaw, 1919; Mrs. E. M. Davis, 1921; George and Mrs. Stagers, 1915; Mr. and Mrs. Guy Willis, 1912; Mr. and Mrs. Tom Arnett, 1906, the oldest present; Sid Hopping, 1918; Mrs. E. T. Stripe, 1916; Mrs. Maruin Bridges, 1918; Mr. and Mrs. Herman Haberer, 1910; W. G. Street, 1912; Mr. and Mrs. Shorty Kaufman, 1919; Mr. and Mrs. L. S. Dewett, 1922.

Many other old time residents failed to register but were present to become charter members of the organization.

The next meeting of the association will be held in Littlefield on the second day of the Jaycee rodeo program, in 1936.

TO GO TO COLORADO

Bro. Bryan Taylor, who has been serving as minister of the Church of Christ, Amherst, is planning on moving to Granada, Colo., where he will do mission work.

Bro. Taylor, accompanied by Mrs. Taylor and family, will go to Colorado July 1.

Red Cross Office Handles 72 Cases

According to the records of the office of Mrs. L. M. Brandon, Executive Secretary of the Lamb County Chapter of American Red Cross, a total of 72 cases have been handled

since January 1 through that office, including 9 servicemen, 48 Veterans and 15 civilians.

This work consisted of emergency furloughs, welfare reports and financial assistance.

48 visitors were assisted in Claims work covering Compensation, Pensions and Rehabilitation, hospitalization, Insurance and Financial assistance.

The civilian cases were mostly

Squares On Cotton At Hart Camp

"A wonderful cotton crop with the squares now formed" is reported by Mr. and Mrs. N. L. Jarnigan, in

County cases, investigating and authorizing of financial assistance.

The total amount of \$206.50 was expended in all cases.

speaking of their farm at Hart Camp, which is being worked this year by their son, F. A. Jarnigan.

The cotton was planted April 28. The Jarnigans have a farm of 70 acres, 50 of which in cotton is making a splendid showing.

Mr. and Mrs. Jarnigan explain that they just received enough moisture to do good. They state that last year with no rain at all on this same land they made six bales.

This year they planned to get down an irrigation well, when it began raining.

Transferred to Dallas. Mr. and Mrs. B. L. Sublett, who has been employed here by the Highway Department for the past few years, has been transferred to Dallas.

Mr. and Mrs. Sublett left here Saturday for Dallas, where he will continue his highway work, and where they will make their home.
