WASHINGTON, Jan. 16. (AP) — Government officials today hailed the cut in Ford car prices as an "encouraging" start toward the general price reductions which President Truman has asked of all industry.

Big Spring Firm Advised Of New Price Reduction

Big Spring Motor company, local Ford agency, was among those throughout the nation being advised by wire Thursday of the reduction in prices of Ford cars, effective immediately.

In making the announcement of the price slash, Henry Ford II, president, said: "Although more than a million of our customers are waiting for delivery of their cars at present prices, we are immediately reducing the price of every Ford car—some models as much as \$50. This is a down payment toward a continued high level of production and employment in the months ahead."

Ford said the company had made a modest profit for the last three months of 1946, and intended to continue to operate in the black. He said that millions of dollars lost since V-J day had been accepted as "an item of the cost of a great and victorious war."

Paving Plans To Be Talked

Thus one of Gen. George C. Marshall's first problems as secretary of state may be to decide what to do about it. The Polish situation—which finds Russia lined up with the communist controlled government at Warsaw against Britain and the United States—is one of three in eastern Europe that threaten to prove troublesome for Marshall.

Members of Congress also were quick to applaud. Senator Myers (D-Pa.), a member of the joint congressional committee on the economic report, described the reduction as "not only smart business but real patriotism."

Unofficially, it was understood that the strikers' demands for a 44-hour week, eight-hour day and the payment of overtime for shifts exceeding eight hours had been granted by the Road Haulage Association, representing the employers.

The vote to return to work was almost unanimous, informed sources reported. The decision was announced after a closed meeting of delegates of the strikers and union officials, marked from time to time by bursts of applause.

Announcement that a treaty of alliance would be concluded "at the earliest possible moment" came from the office of Prime Minister Clement Attlee last night after two days of negotiations with French Premier Leon Blum.

The joint British-French announcement said that in addition to the treaty of alliance the two countries would "press on urgently" toward plans for mutual reconstruction aid in the economic field.

Schraub Effort Ruled Out Of Order

AUSTIN, Jan. 16. (AP)—An effort to elect Phil A. Schraub of Corpus Christi as a member-at-large of the 50th legislature was ruled out of order in the House today.

Schraub, 30-year-old war veteran and attorney, had offered his credentials and requested that the House of Representatives seat him as one of its members.

The House voted, however, to print Schraub's appeal in the House Journal as a legal basis for other possible future action on redistricting.

The House voted, however, to print Schraub's appeal in the House Journal as a legal basis for other possible future action on redistricting.

Speaking to a House which had unanimously invited him to present his case as a legislator elected to an non-existent seat, he declared he had been constitutionally elected as a representative by the voters of Success county.

Schraub cited two declarations from the state constitution's bill of rights which he said were of paramount importance in their application to the present situation.

These were sections declaring "all political power is inherent in the people" and "no citizen shall be deprived of life, liberty, prop-

erty, privileges or immunities, or in any manner disfranchised."

He called attention to the constitutional provision that whenever a single county has sufficient population to be entitled to a representative, such a county shall be formed into a separate representative district.

"You gentlemen who are more familiar with the political history of this state may recall that the year 1921 was the last time this quoted portion of our constitution was complied with," Schraub told an attentive audience

Amendment of the aeronautics law. 4. Establishment of a negro university. 5. Additional appropriations for state departments.

He said only three departments have applied for deficiency appropriations: the adjutant general's department, the industrial accident board, and the board of directors of A. and M. College.

The A. and M. directors finally got around to asking for that deficiency appropriation for the establishment of a negro university this week," the Governor declared. "Of course, now it's too late for me to do anything about it. I can't make deficiency appropriation

Griffith said the company was unable to ascertain the exact number of night shift men working in the blasted section—located under the Susquehanna River—but reports from the scene said only 22 men were in the shaft.

Thomas Miles, of Plymouth, who was unhurt, recalled he had been at work for about two hours when he asked his laborer, Charles Krawiec of Plymouth (also uninjured) for the time.

"It's 5:45," Miles quoted Krawiec. "He shoved his watch back into his pocket and then it came. There was a terrific explosion. Everything seemed to go topsyturvy. My place is the second one in from the foot of the shaft. He's others who really were caught in the blast were a lot farther in than I was."

"My laborer and I went into the gangway where we saw a couple of men sprawled around. They didn't appear to be injured too badly, so we assisted them to the foot of the shaft."

It was here that the rescue workers found them.

# TIME TO BEAUTIFY

# Early Start Is Best Rule For Lovely Yard

(This is the first of a series of articles on beautification, prepared with the aid of the chamber of commerce beautification committee—Ed.)

If you are an average individual, the advent of spring will stimulate you in thinking of a beautiful lawn, shrubs and trees. But if you wait until spring fever sets in, it will be too late.

The best time of the year to accomplish real results in beautifying your premises is now at hand. In another month, you will be on thin ice for best results. There are some basic steps

which should be taken. One is planning. Just what do you have in mind? Have you made any arrangements for replans. How will you go about it?

Those with experience suggest that it is well to get a picture of your lot, house and out buildings in mind. Making a scale sketch is helpful. Then plot your proposed plantings with a purpose, but always keep in mind what it will look like five or 10 years from now instead of next summer. This will prevent you from having a tangled woodland or plants which grow all out of proportion. It also will help you in spacing and in grouping your plants for mutual shade and growth.

Give thought to how you will prepare your soil for a lawn, for this can save you many dollars in water. Determine whether you want a fast growing shade tree, or one which grows more slowly but which will require less attention. Anticipate what flowers you will want and condition your beds with soil possessing ample food and not strong fertilizer which will burn.

When in doubt, consult your nurseryman for advice, and remember Rome wasn't built in a year.

# Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Baracelate (formerly called Barcel Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

## Scout Council Meet To Start This Afternoon

Despite prospects of a slight curtailment because of weather conditions, local Boy Scout leaders were expecting a record attendance at the Buffalo Trails Council's 24th annual meeting and banquet at the Settles hotel this afternoon and tonight.

The reservation list passed the 300 mark Wednesday afternoon, H. D. Norris, local Scout field executive said, and even if three or four dozen cancelled their plans at the last minute, actual attendance would be far greater than usual. All towns in the council were represented in early reservation requests.

The scout leaders were scheduled to convene in a business session at 4 p.m. Heading the agenda was election of new council officers for 1947. Several other matters, including plans for arranging a permanent campaign site for scouts in the council, also were slated for discussion.

L. W. "Pie" Larmour, well known scout leader and national councilman from Graham, is scheduled to make the principal address at the banquet in the Settles ballroom at 6 p.m. Guy Brennehan will serve as toastmaster. A musical program, including group singing and special numbers has been arranged. Various officials and scout leaders will be recognized, and new members selected at the business session will be recognized. There also are several special scout wards to be made.

## School Board Okays Coffee As New Trustee

John A. Coffee was qualified Tuesday evening as a new member of the Big Spring Independent School district board of trustees. Coffee had been appointed to fill a vacancy at the last regular session.

The board accepted the resignations of Mrs. Frances Walker as second grade teacher at East Ward and Mrs. Vada Eggleston as second year algebra teacher at high school. Mrs. Martha O'Kiefie, who has had 10 years experience in elementary schools of West Texas, was elected to replace Mrs. Walker. She comes from Mountain Home, Ark. to assume her duties here Monday.

Also discussed at the meeting was the board's previous action in taking steps to plan for a building enlargement program. First step will be the engaging of architects to work with the board in planning additions and buildings. In its original action, the board had pointed out that while it is not a propitious time to build, it would nevertheless be advantageous to have plans ready for prompt action when the time came to submit proposals to the voters.

## Wife Takes Back Bigamist Spouse

CHICAGO, Jan. 16. (AP)—Mrs. Helen Meyers, 38, mother of six children, abandoned her role in criminal court Wednesday as the state's principal witness against her husband, James, whom she had accused of leaving her and marrying another woman bigamously.

After Meyers, also 38, pleaded guilty to bigamy, Mrs. Meyers, a slight, matronly woman, rushed to her tall, handsome husband and kissed him.

"I'm still in love with my husband," Mrs. Meyers said. "I don't want to prosecute him. I want him to come back to me and our children."

After Meyers told Judge Charles G. Ward he felt the same way and wanted to make a new home for his family, the court set a probation hearing for Jan. 27.

## County Court Will Discuss Highway Plans

Members of the county commissioners' court, meeting again Wednesday after a one-day recess, accepted a monthly report prepared by Dr. J. E. Hogan, city-county health officer, and then proceeded to clear the agenda of other matters which had not been reviewed at the Monday conference.

Judge Walton Morrison announced that the commission would convene Monday with property owners along the proposed Big Spring-Snyder road in an attempt to get clear title to all the right-of-way. Much of the land has already been purchased.

Pay roll for the county highway workers was approved. Commissioner W. E. "Red" Gillen was named to work with civic groups to organize an advisory board for the Howard county library. Morrison told the court that the list of delinquent subscribers of the facility was still heavy, despite the repeated appeals made by Librarian Catherine McDaniel and the court.

Appointment of election officials for the new year, a duty of the court, was discussed but was tabled until a later meeting.

The commission was scheduled to meet again this morning.

## Scout Official Is Speaker For Club

Homes, churches, schools and scouting provide the best training for young boys, H. D. Norris, local Boy Scout field executive, told members of the Kiwanis club at their luncheon meeting Thursday in the Settles hotel.

There is only one investment that pays a real dividend, Norris continued, and that is an investment in humanity. Pointing out that youth is the greatest problem of today, Norris declared that character cannot be bought, but it must be taught.

Dan Conley was a guest at the luncheon.

## Confiscated Liquor Will Be Auctioned

The accused was charged with driving while under the influence of intoxicants, which costs him \$75 and costs in county court. In addition, he paid \$1 and costs in justice court for operating a motor vehicle without a license.

## INCREASING NUMBERS FILING SUIT UNDER STATE'S DIVORCE STATUTES

Texas takes no back seat to any state in the union when it comes to providing its citizenry with liberal divorce laws, and records show an ever increasing number of disgruntled couples are taking advantage of — and liberties with — the existing legislation.

A person can obtain marital freedom in this state for mental or physical cruelty, infidelity, abandonment (after 3-years), incurable insanity on the part of the mate and in instances where the husband or wife has been in prison for more than a year.

The law states that a person must have been a citizen of Texas for at least one year before he or she can apply for a divorce.

The law also insists that persons who obtain divorces on grounds of mental cruelty (Vernon's Civil Statutes: Art. 4640) must not re-marry for the succeeding 12 months. However, there is no penalty provided for those who violate the statute.

Considerably more than 50 percent of the civil suits that passed through 70th Judicial District court here during 1946 concerned divorces. A total of 676 cases were pending or filed during the year. Exactly half of that number were brought forward from previous years.

Of the grand total, 570 suits either came to trial or were dismissed from the period beginning Jan. 1 and ending Dec. 31. District Judge C. C. Collings dissolved 222 marriages during that time. Action will eventually be taken on the 106 cases remaining on the docket.

## Georgia

(Continued from Page One)

what he describes as illegality of legislative action in naming Talmadge to the term his father, Eugene Talmadge, was prevented by death from accepting. Had Eugene lived he would have been inducted Wednesday.

Arnall charged that Talmadge was attempting to rule the state under a "military dictatorship." Talmadge attaches took over the executive chambers early today after locks had been removed from the doors. Arnall had sat in the chambers Wednesday while Talmadge occupied another office in the executive suite less than 20 yards away. National Guard officers were stationed outside the chambers after Talmadge took over.

While the scramble over the governorship was going on downstairs, the legislature on the floor above in the state capitol received a proposal from three anti-Talmadge members that it recess until the courts decide who is the legal governor.

The three sponsors of the movement, Representatives Charles Gowen, Adie Durden and Jake Joel said it was expected the state supreme court would decide the issue by March 31 under a declaratory judgment movement started yesterday by Attorney General Eugene Cook acting on Arnall's orders.

After a series of interviews with newsmen, Arnall got up from his desk in the capitol rotunda and announced to the crowd surrounding him "the governor of Georgia is now going to the barber-shop, after which he probably will go up town and mingle with the people and then hold a luncheon at the mansion for the press and my friends. After that I will return to the capitol and be ready for business as usual."

## Local Hatcheries Set To Turn Out Half Million Chicks In Five Months

Big Spring hatcheries are preparing for what most of them regard as a normal seasonal demand, and if this proves out incubators operating at capacity could turn out about half a million chicks in a four to five months period.

In some respects the local situation differs from general conditions, in the opinion of a majority of hatchers, for early inquiries have indicated better demand. Feed prices, too, have shown a tendency to ease off, some having dropped as much as \$1.50 per cwt.

Locally, the egg supply may pose a problem, but not an insurmountable one since these can be imported. High feed prices and low egg prices last year induced hundreds of raisers to market fowls, cutting flocks to an unusually low figure. Aggravating this situation, the number of brooded flocks with good rosters is below normal.

One hatchery operated by A. E. True and associates at Conhoma has been in operation since December, although it is running currently at about only half of its 32,000 capacity. Earl Cooper is preparing to press his 8,000 incubator into service soon and with prospects that up to 50 per cent may be utilized for hatching turkey poults. Vernon Logan also is putting his 85,000 incubator battery into operation.

The price range is not yet firmly established, but it may range from \$10 to \$18 per hundred. This will depend largely upon egg supplies and costs, and best guess is that quotations will be in the \$12 to \$15.

## Wheat Diverted To Help Premier

WASHINGTON, Jan. 16. (AP)—The quick moves by the United States to alleviate hunger and improve conditions in Italy were aided by diplomats today as American attempts to strengthen the hand of Premier Alcide de Gasperi and his middle-of-the-road Christian Democratic party.

The two actions took this form:

1. The Export-Import Bank, Under State department urging, announced it will set aside \$100,000,000 "to restore and expand specific segments of Italian industry."
2. The War department disclosed it has diverted six Germany-bound shiploads of wheat to port in Italy, where the United Nations relief and rehabilitation administration will distribute it in famine areas.

The announcements made a big success of De Gasperi's 10-day economic mission to the United States and came at a time when his position in Italy's constituent assembly is threatened by a split with Giuseppe Saragat, leader of the high wing socialists and assembly president.

## Lions President To Speak In Area

Clifford D. Pierce, president of Lions International, will make two appearances in this area next week.

He speaks Tuesday noon at a luncheon at Loraine and then again Tuesday evening at Midland.

The conventions committee of the club was charged with responsibility of getting good representation from the Big Spring club to both meetings. This will be the fourth time a president of Lions International has visited this immediate area.

## Rent Ceilings Due For Discussion In Broadcast Tonight

An issue on paramount importance to urban apartment dwellers will be taken up from all angles when the KBST broadcast of America's Town Meeting, tonight at 7:30 weighs the pros and cons of the question, "Should Rent Ceilings Be Lifted?"

Their interrogators will be R. J. Thomas, vice-president of the United Automobile Workers, CIO, and chairman of the CIO committee on veterans' housing, and Douglas Whitlock, attorney and chairman of the building products institute and director of the Producers Council.

George V. Denny, Jr., president of Town Hall, will preside.

## Young Demos To Ask For Charter Hearing

DALLAS, Jan. 16. (AP)—Jack Carter of Fort Worth said last night that the liberal wing of the Texas Young Democratic Club would ask for a hearing before the executive committee of the Young Democratic Clubs of America in its fight for a national charter.

His announcement followed the action of State Democratic Chairman Robert W. Calvert in recognizing Miss Edith Wemple, choice of the so-called conservative group, as the legally elected national committeewoman of the youth group in Texas.

Neither faction of the Texas Young Democrats, who split into rival groups at the state convention in November, now possess a charter.

The number of people of Japanese ancestry in Chicago increased from about 300 before Pearl Harbor to about 20,000 in 1946.

**Woman Still Hiccoughing After 60 Days**

NEW YORK, Jan. 16. (P)—The plight of 23-year-old Anna Mayer, racked by continuous hiccoughs for nearly 60 days, has brought worldwide sympathy — a host of recommended remedies.

About 900 letters and 60 telegrams from persons as far away as Australia have been received by Miss Mayer, who today tensely awaited the arrival of Dr. Lester Samuel, a Veterans Administration surgeon from Alexandria, La., granted leave to perform an operation on her.

Dr. Samuel's arrival has been delayed by bad flying weather. William Mayer, her brother, said a few of the things Miss Mayer has tried on the recommendation of sympathetic correspondents included:

Holding the nose while drinking ten swallows of water (the most frequent recommendation).  
Eating moldy green cheese followed by drinking as much beer as possible without pausing.  
Magnesium phosphate, 6x, taken with two raw eggs, proposed by a woman in Adelaide, Australia.  
Magnesium Phosphate, 3x, delivered in person by a woman who traveled from Manhattan to the Mayer home in Queens.  
Miss Mayer pins her hopes to Dr. Samuel because three years ago he was released from army medical service to perform an operation on her and relieved at 47-day seizure of hiccoughs. He was granted leave again after Miss Mayer had telegraphed President Truman.

Dick Simpson, a cooperater with the Martin-Howard Soil Conservation District who ranches north of Big Spring in the Vealmoor ranch group, has one hundred acres of Abruzzi rye this year and states that it is making more grazing than wheat planted in the same field and that his cattle show a preference to the rye. If the Abruzzi rye continues to develop throughout the spring like it promises at this stage, Simpson plans to grow most of his winter cover crop to rye next year.

Mr. Batton, manager of the J. Y. Robb ranch in the Lomax group, is interested in eradicating mesquite around his cultivated fields to eliminate moisture competition with his field crops.

Terracing is gaining in favor in Howard County, as more terraces are being built this year than any years previous. Part of it is because farmers have more labor and equipment than during the war years, but much of the increase is due to the serious inroads erosion has made. Every year some of our farm acres must be retired because it has washed away or blown out. Farmers recognize these fields which are washing and blowing and are taking steps to save the soil from further damage.

Oscar O'Daniel of the Coahoma conservation group is planning to build about three miles of terraces. Other cooperaters having terraces built are, H. S. Hanson of North Big Spring, W. A. Langley of Fairview, Dick Thompson who farms north of the State Hospital, and B. J. Roberts of Vincent.

H. L. Madewell, who farms with his father south of Knott, has purchased a small farm which he is contouring. He is planning to sow part of the field to winter vetch or some other soil building crop next fall. It will not only afford grazing but will add nitrogen to the soil.

**DIES AFTER FIGHT**  
WACO, Jan. 16. (P)—An argument over a motorbike ended in death by stabbing for William Earl Boyett, 16, last night, police reported. They said that they were holding another youth for investigation.

**Druggist Killed**

WICHITA FALLS, Jan. 16. (P)—A man identified by a social security card as Elbert E. Johnson, 40, a Longview druggist, was killed last night nine miles east of here when his car was in collision with the rear end of a cattle truck driven by Arthur Stout of Davidson, Okla.

**New Peace Efforts Started in China**

NANKING, Jan. 16. (P)—The government announced officially today it "is going to resume negotiations with the communists" and selected Gen. Chiang Chih-Chung, governor of Sinkiang Province, to present its proposals to Communist headquarters at Yenan. Chank was an original member of General Marshall's former

committee of three that negotiated a quickly aborted truce a year ago.

U. S. Ambassador Stuart, who is keeping in close touch with both factions, relayed the government's decision to the Communist representative here.

## Hot In Cold Is Featured At Texas Pepper Plant

Do you like your foods hot? Or cold? Science gives you both and the latest wrinkle is hot foods kept cool as a cucumber through air conditioning.

Deep in Texas, where Mexican pod peppers are as ambrosia for the gods, Walker's Austex chill company has perfected an air conditioned plant in which the peppers are seeded, stemmed, ground and mixed with domestic and imported spices for blending as Mexican chili powder seasoning, an all purpose seasoning with which a good cook can work wonders.

Spaghetti, for instance, has new life and zest when seasoned with chili seasoning. A favorite recipe for Italian Spaghetti with Meat Sauce is:

1/2 lb. ground beef  
1/2 lb. ground pork  
1 small garlic clove  
1 chopped onion  
2 cans tomato puree  
4 Tbsp. olive or salad oil  
1 Tbsp. Worcestershire sauce  
1 Tbsp. Chili Seasoning  
1 package spaghetti  
grated cheese (Parmesan)  
Salt to taste

Brown meat slowly in skillet; add onion and garlic after meat is partially brown, then mix all other ingredients with meat and onions and simmer for 30 minutes, or longer if desired. Pour sauce over cooked spaghetti, sprinkle on grated cheese and serve. If strong garlic flavor is not desired, remove clove before adding puree.

An important factor in the extermination of the buffalo was the use of buffalo carcasses as wolf bait.

## Here's An Easy Pumpkin Pecan Pie That's A Taste Tempting Triumph

Here's a luscious taste treat to add to your roster of desserts. This spicy, fragrant pecan pumpkin pie is easy enough to qualify as an every day dessert and delicious enough to rank as a guest treat. It is made with quick-frozen pumpkin pie mix that comes from its carton all ready to mix, as soon as it thaws, with eggs and milk. No sweetening is needed, because sugar as well as spice was added before quick-freezing. This pumpkin pie mix is a real flavor triumph, because all the sun-ripened goodness of farm-fresh pumpkins is sealed in by quick-freezing right near the harvest fields.

Decorate the top of the pie after baking with honey-glazed pecans. A fluffy wreath of whipped cream

around the edge of the pie. If you like this combination, can be sprinkled with coarsely chopped nut meats.

### Quick-Frozen Pecan Pumpkin Pie

1 box quick-frozen pumpkin pie mix, thawed  
2 eggs  
1 1-2 cups milk  
1 unbaked pie shell  
Place the pumpkin pie mix in bowl, add eggs and milk, and blend with rotary egg beater. Turn into pie shell. Bake in hot oven (425 degrees F.) 45 minutes, or until done. Pie will be done when completely puffed across top, or when knife inserted comes out clean. Decorate with honey-glazed pecans. To make honey-glazed pecans, boil 1-3 cup honey until small amount of mixture forms very firm ball in cold water (250 degrees F.). Cool. Dip 12 to 16 large pecan halves into the syrup. Place on waxed paper until set.

### Deluxe Squash Pie

1 box (1 pound) quick-frozen cooked squash, thawed  
3/4 cup light brown sugar, firmly packed  
1 teaspoon cinnamon  
3-4 teaspoon ginger  
1/2 teaspoon nutmeg  
3-4 teaspoon salt  
2 eggs, slightly beaten  
1 1-2 cups milk  
Unbaked 9-inch pie shell  
Combine squash with remaining ingredients in order given. Turn into pie shell. Bake in hot oven (425 degrees F.) 1 hour, or until done. Pie will be done when completely puffed across the top.

Of more than 80 political assassinations since 1865, only one fell on Friday the 13th. The exception was that of a Bulgarian diplomat in 1925.

## Onions Continue To Be Abundant For Cooking

Connoisseurs of good cooking will welcome news that onions are again on the plentiful list. Or, more correctly, we should say onions are still plentiful, because they've been so throughout the past year as farmers harvested first the spring crop, then the summer crop, and still later a fall crop which by itself filled nearly 39 million fifty-pound sacks. Altogether, 1946 set a new record in onion production.

We ate lots of onions as they came to market, but we didn't eat them all. Many with good keeping quality went into storage. They'll be available well into the spring. Then, too, farmers still have large quantities on their own hands. They were busy with other work earlier in the season and the onions were not needed in retail stores at that time, so farmers kept them. These onions also will be available for winter and spring use. In addition, there's a larger than usual supply of the mild-flavored Sweet Spanish type which comes to market from western areas between November and January. These onions don't keep as well as some other kinds and must be sold now to prevent waste.

Here are some of the Bureau of Home Economics and Human Nutrition's most successful recipes.

### CREAMED ONIONS

Skin the onions, and if very large size, cut in halves or quarters. Start onions in boiling water (about 1 teaspoon salt to 1 quart water), using just enough water to cover. Cover the kettle, but be careful not to overcook—cook only until tender. Drain the onions, pour over them a white sauce of medium thickness, and sprinkle with paprika.

### ONION SOUP

Cook 2 cups finely chopped onions in 2 tablespoons fat until lightly brown. Sprinkle with 3 tablespoons of flour and stir. Add 1 1/2 quarts hot meat broth, made by cooking a soup bone in water, and stir until smooth. Season with salt and pepper and simmer until the onions are tender and flavor well blended.

### STEWED ONIONS AND TOMATOES

Stew sliced onions with tomatoes, thicken with a little flour or stale bread toasted and broken into small pieces.

Despite Wall Street's traditional superstition about numbers, the late J. P. Morgan maintained a home at No. 13 Princes Street, London.

**KRAUT TRICK . . .** Serve in mashed potato nests . . .

By CHARLOTTE ADAMS  
Associated Press Staff

People who cook for two usually are very busy people, working in an office all day and doing housework at night. Such cooks want to plan meals which are quick and easy to prepare.

Such planning naturally involves the use of canned goods, quick-frozen foods and the like. The big trouble is that it's hard to find those nice little cans which contain just enough food for two. Then comes the problem of what to do with what's left, if you open a big can.

It takes careful planning, as does every part of cooking for two, but it can be done. If you keep the left-over food in question well and tightly covered in the refrigerator, it will keep nicely for several days. Thus, you needn't serve the same thing two or three nights running.

Let's just take a big can of sauerkraut for an example and show how it can be used up by two people, with no boredom or complaint from anybody.

How about spareribs and sauerkraut for the first night? It's one of the world's most delectable dishes.

**Baked Spareribs and Sauerkraut**  
(For Two)

- 2 cups sauerkraut
- 1 lb. spareribs
- Salt, Pepper

Place sauerkraut in shallow baking pan. Sprinkle spareribs with salt and pepper, and a light dusting flour if desired, and place on top of the sauerkraut. Bake in a moderate (350 degree) oven for one hour.

Then a couple of nights later you could serve these quick and easy Mashed Potato Nests. They make a good main dish for a meatless dinner, with their flavorful combination of sauerkraut and cheese. Plan to have mashed potatoes the night before and to have some left over, so you'll be set for this dish.

- Mashed Potato Nests**
- 2-3 cup sauerkraut
  - 1 teaspoon shortening or drippings
  - 1 tablespoon finely diced onion
  - 4 tablespoons finely diced green pepper
  - 1-3 cup grated sharp cheddar cheese

- 1 egg yolk, well beaten
  - 1 cup warm mashed potatoes
  - Grated cheese for top
- Drain sauerkraut and cut into smaller pieces with a pair of scissors. Melt shortening in frying pan; add onion and green pepper and saute five minutes. Add sauerkraut and cheese and mix well. Add beaten egg yolk to the warm mashed potato and mix well. Make two mounds of the potatoes on a greased baking pan and shape a well in the center with the back of a spoon. Brush the nests with melted butter or margarine. Fill each nest with half the sauerkraut mixture. Top with grated cheese. Bake in 425 degree oven for 20 minutes.

Here's the third suggestion. It's an old Pennsylvania Dutch favorite in a modern version.

**Pennsylvania Casserole**  
(For Two)

- 1/2 cup cooked ham, cut up
- 1-3 cups sauerkraut
- 2 teaspoons lemon juice
- 1-4 teaspoon salt
- 1 medium sized apple

Mix ham, sauerkraut, lemon juice and salt. Lightly grease small casserole. Place half the sauerkraut mixture on the bottom and top with half the sliced apple. Repeat layers. Cover and bake in 350 degree oven for 30 minutes.

**Peanut Brittle**  
Crisps Always  
Snack Jar Favorite

Can there ever be too many good cookie recipes in the file box? No sir - not with teatime for grown-ups becoming more popular and the children's snack-time constantly putting a drain on the cookie jar. Each occasion demands variety and that they must be super delicious goes without saying.

Here's a splendid recipe for Peanut Brittle Crisps that comes to you right from the test kitchen that is bound to please youngsters and oldsters alike. Better make up a couple batches because they'll go fast.

- Peanut Brittle Crisps**
- 1/2 Cup shortening
  - 2-3 cup sugar
  - 2 eggs, well beaten
  - 1 3/4 cups sifted all-purpose flour
  - 1 teaspoon baking powder
  - 1-2 teaspoon salt
  - 1-4 teaspoon allspice
  - 1-2 teaspoon cinnamon
  - 1-4 cup milk
  - 1 cup finely chopped peanut brittle

Cream shortening, add sugar gradually. Beat in eggs. Sift together flour, baking powder, salt, allspice and cinnamon. Add alternately with milk to first mixture. Stir in peanut candies. Drop by heaping teaspoon on greased cookie sheet. Flatten slightly with spatula. Bake in 375 degree F. oven for 10 minutes or until cookies are golden brown. Makes three dozen cookies.

  - 1-2 cup molasses
  - 1-4 cup melted shortening
  - 1 teaspoon soda

  - 1 1/4 cups flour
  - 1-4 teaspoon salt
  - 1-2 teaspoon cinnamon
  - 1-2 teaspoon ginger
  - 1-2 cup boiling water
  - Whipped Cream

Cover bottom of baking dish with sliced pineapple and sprinkle with brown sugar. Mix sugar with molasses and melted shortening. Add soda and well beaten egg. **New, No-Knead Method For Making Yeast Bread Saves Time, Labor**

Back in the dear, dead days almost beyond recall, breadmaking was an all-day task, which, though necessary, was time-consuming. But styles in baking have changed just as they have in clothing and home furnishings.

Now-days yeast-raised foods are baked in an easy new way, quickly, and the new time-saving method makes doughs easier to handle.

- No-Knead Bread**
- Combine:
- 1-2 cup scalded milk
  - 3 tablespoons shortening
  - 1 tablespoon sugar or light corn syrup
  - 1 1/2-2 teaspoons salt
- Cool to lukewarm by adding 1-2 cup water.
- Add 1 cake compressed yeast or 1 package fast, dry granular yeast; mix well.
  - Blend in 1 egg.
  - Add 2 cups sifted flour; mix until dough is well-blended.
  - This dough will be softer than a

kneaded dough.

Shape into loaf on well-floured board; place in greased 9x4x3 inch pan and cover. Let rise in warm place (80 to 85 degrees F.) until double in bulk, about one hour.

Bake in moderate oven (375 degrees F.) for one hour.

**Festive Fruit Bread:** Blend in 1-4 cup diced citron, 1-4 cup raisins, 1-4 cup diced, candied cherries, 1-4 cup chopped nut meats and 1-4 teaspoon ground cardamon before flour is added.

- Speedy No-Knead Pan Rolls**
- Combine:
- 1 cup lukewarm water
  - 1-3 cup melted shortening
  - 1 tablespoon sugar or light corn syrup
  - 1 1/2-2 teaspoons salt
- Add two cakes compressed yeast or two packages fast, dry granular yeast; mix well. Blend in one egg. Add gradually 3 1-2 cups sifted

flour; mix until dough is well-blended and soft.

Roll out on well-floured board and fit into greased, 12x8 inch pan. Cut dough into 1x4 inch rectangles and brush cut sides with melted butter. Let rise in warm place until double in bulk, about 30 minutes. Bake in hot oven (425 degrees) for 20 minutes.

**Graded For Freshness**

One way to judge quality in eggs is by U. S. Department of Agriculture grades. Grades "AA" and "A" indicate fresh eggs quality. Eggs graded "AA" are superior to grade "A," as they are handled more directly from the farm to consumer. Grades B and C are of good cooking quality, and are generally Western or storage eggs.

# Marching Against Infantile Paralysis

The March of Dimes is now underway in Big Spring and Howard county. Some apply the name of Miles of Dimes to the campaign, and this puts more emphasis upon it, for a mile of dimes, if our arithmetic is sound, would be slightly more than \$9,000.

This would not be at all out of the reach of this county, for if everyone in the county averaged a mere 30 cents, a mile of dimes would be raised. While you likely could count those unable to contribute this much on the fingers of a few hands, it is not practical to expect such universal response. Many will not avail themselves of the opportunity of dropping contributions in the cans at groceries or in the big bottles downtown. Others will be forgetful; some will be stingy. Thus, it gets down to the point—as in most campaigns—to where those with big hearts and good consciences put in

more than their share to make the drive succeed.

There is no compulsion or organization for individual contacts in this effort. The only real motivating force behind it is a desire to provide funds to aid those who may fall under the shadow of the dread malady of poliomyelitis—or infantile paralysis.

Today the local chapter is lending aid in six cases and soon a seventh may be added. Not all these cases originated here, but the point of origination is of no consequence when they need assistance. It is no easy undertaking, and one which requires ample finances—especially when the unknown quantity of future infection or epidemic dangles before us.

Much of our good fortune in the past has been attributed to prompt efforts of health authorities and physicians, plus the fact that there was never any doubt of support. Don't let doubt arise.

# Job Calls For Big Thought, Action

A new legislature—the first in the second 100 years of statehood for Texas—is now in session.

Seasoned observers read the signs and predict a lively if not turbulent, and perhaps a prolonged session. For one thing, some 56 per cent of the members of the House are serving their first term. Nearly 43 per cent are returned veterans of World War II. Whatever merit there is to new blood may be tempered by lack of experience. With that per cent of neophyte legislators in the House having their first try at law-making, some confusion is bound to result. There will not be the usual regard for precedence, not that that is of major consequence, and hence we may see many new ideas proposed as law. Nor will there be the usual element of regard for consequence among the younger members for subsequent campaigns, and this may be reflected in legislative action.

A record amount of bills introduced would not be surprising. A record amount of constructive legislation could be a product if the legislature is turned of a serious mind. Although it will be difficult to imagine, the other possibility is a record of confusion and delay surpassing that of the last legislature.

There are two items, however, which we hope the legislature will tackle with forthrightness. One is the matter of providing more state support for the public schools. The other is redistricting of the state in accordance with the constitutional mandate. Beyond that some additional attention should be given to better eleemosynary support. To accomplish this will mean more money, and if the hope of few if any additional taxes is frustrated, there must be some stiff economy elsewhere. It's a big job that calls for big thinking and far-sighted action.

The Nation Today—James Marlow

# More Words Out Of Washington

WASHINGTON, (AP)—If you're hit with a lot of extra words this year, it will be because something new is being tried.

Always the appropriations committees of the House and Senate have worked behind closed doors, with press and public out.

Now the Senate committee expects to work in the open. Not the House committee. It will go on as before, with the public out. All this would be pretty humdrum except for one thing: those two committees are important. Here's the story.

Last week President Truman sent his annual budget message to Congress. (Every President has to do the same every year in January.)

That message was Mr. Truman's estimate of how much it would cost to run the government in the next fiscal year. He said \$37,500,000,000.

That fiscal year starts July 1, 1947 and ends June 30, 1948.

Now the budget estimates are in the hands of the House and Senate Appropriations Committees.

It's their job to find out whether the government needs that much money or can do with less.

It will take them weeks and months of quizzing government officials to find out.

The hearings usually start in January—and because of all the quizzing—fill many thousands of pages of specially printed books when the hearings are over.

There are 12 separate hearings—they cover the whole government—and the committees then turn out 12 separate bills.

It is upon those bills—appropriation bills—that the full House and Senate vote. They vote the money to keep the government going.

Once in a while during the hearings on those bills a few specially interested people—like labor leaders on a labor department bill—were allowed in to speak their piece.

But always the hearings were closed to the public and newsmen. Now, since the Senate committee will open its doors to everyone, all kinds of people probably will want to go up and talk.

That will mean quite a few more words coming out of Washington.

# Aspen In A Comeback

ASPEN, Colo., (AP)—They can't make old Harry Brown's pulse beat any faster over the new Bonanza this rebuilt mining community expects to find in the pocketbooks of winter ski enthusiasts.

He was here sixty years ago during the great Colorado silver boom and he finds the present show boom pretty tame in comparison.

"This doesn't excite me at all," said the mining veteran who attributes his cheerful health at 78 to a judicious mixture of one part bourbon whisky and three parts branch water.

Harry is the last survivor of seven Brown brothers who came here during the 1880's from New Brunswick and found fortune in the metal-rich crags that rise above Fork river.

From a "bang-bang" town of 12,000 people Aspen declined rapidly during the '90's after silver dropped from 85 cents an ounce to 43 cents. The miners took their tools and went to Cripple creek to hunt gold, leaving behind them empty frame houses and tales of fabulous spending.

Aspen dwindled until it was down to a population of 400—one-fourth of them elderly citizens on state pension—and the Brown family was paying one-third of the town taxes.

Expenditure of a million dollars by outside capitalists to build Aspen into the winter sports capital of the Rockies has tripled the town's inhabitants and brought an influx of skiers wearing colorful garb that rings louder in the frosty hills than ever did the miners' picks.

Brown, like other oldtimers, has never given up hope that the old boomdays of lead, zinc and silver would return.

"It's not wide open here now as it was when I came. There were two railroads building in, and we had forty to fifty six-horse teams hauling ore.

The town had thirty saloons and six churches. At least half the saloons operated gambling games—faro bank and chuck-a-luck—trying to win enough to take a few friends to dinner. Never complained much either."

# Joan Helps Violinist

NEW YORK—Joan Crawford tore a page out of her own script for "Humoresque" when she heard sixteen-year-old violinist Marvin Morganser at Arthur Godfrey's Talent Scout Program. The youngster played Dvorak's "Humoresque" during the program on what was clearly a considerably less-than-Stradivarius fiddle, but in a fashion that suggested to the musically-attuned Crawford that he might take great strides if handed a good instrument. So the screen star forthwith went out and bought the lad a fancier fiddle than he'd dreamed was in his immediate future. The Bronx violinist has been studying on an inexpensive violin at the Henry Street Settlement.

Freddie Bartholomew lost eight pounds and his doc put him on a malted milk diet. . . Milton Berle cancelled theatre and cafe bookings up to \$10,000 a week to start a radio show for considerably less than half that figure. . . Radio Comic Alan Young bought a piece of a private Canadian airport.

One ball point pen firm reportedly sold more than \$30,000,000 of the under-water writers. . . Anna Sosenko is writing a biography of Hildegard, Milwaukee's gift to the fancier supper saloons. . . Angier Biddle Duke became a director of City Lombardo's airline. . . Sammy Kaye's holiday present to his band was, for the twelfth straight year, a full week off with pay. . . Evelyn Knight must like her home very much; she turned down \$10,000 in holiday bookings to be with her folks in Arlington, Va.

Vic Damone, the eighteen-year-old addition to the crooning ranks, had a couple of fellow swoon-singers in to hear him at La Martiniere—Frank Sinatra and Perry Como. . . Damone's fan club calls itself "Venl, Vidi, Vic."

Telephone callers at Judy Canova's home are startled when a childish treble announces: "This is England. . . It has nothing to do

with Anglo-American communications, just the fact that Judy in private life is the wife of a gentleman named Chester B. England and Chet and Judy's two-year-old daughter, Julieta, has acquired a new childish custom when she picks up the phone, using only her last name.

Something new in beauty contests: The Poultry and Egg National Board announces a nationwide search for "the most beautiful hen in America," the winner of which will be crowned "Miss Slick Chick of 1947," and supposedly will be the fanciest feathered femme among the flocks of the millions of poultry producers in the country.

Rather than basing selections on regular poultry judging rules, the contest hens will be picked "entirely on the basis of charm, personality and sex appeal," the board points out, adding that coquettishness of eyes, contour of figure and sweep of tail will be carefully noted.

Naturally, there's a gimmick in the chicken coop. The contest is being held in connection with a premiere of the film "The Egg and I."

# SECOND VICTIM

DALHART, Jan. 16. (AP)—Mrs. Maggie Waters, 61, of Clayton, N. M., died here yesterday, the second victim of a two-car collision Sunday near Stratford.

# How Byrnes Won Over Russians

WASHINGTON—When the history of post-war peace is finally written, one of the most important chapters will deal with the sudden improvement of American-Russian relations in the late fall of 1946.

And with the resignation of the one man who sat all through those negotiations, it is now possible to reveal some of the gripping, day-to-day drama by which Jimmie Byrnes, almost single-handed, accomplished this improvement.

All during the sessions of the Paris peace conference, Molotov was nasty. He was deliberately, consistently, almost unbearably nasty. This writer, who watched part of the Paris conference, marveled at the way Jimmie Byrnes smiled back at the goading of the Soviet foreign minister.

Byrnes, however, surmised what probably was true; namely, that Molotov was acting under instructions from Moscow—instructions to make the peace negotiations as difficult as possible.

Despite Molotov's pin-pricking, however, he and Byrnes continued the social amenities, and once every week or so they dined together—a very small dinner attended only by their two interpreters, Pavlov and Chip Bohlen, and their two chief advisers, Ben Cohen and Vice-Commissioner Vishinsky.

Nasty as Molotov was during the early days of the conference, his nastiness increased toward the end. Finally as Byrnes gave his last dinner to Molotov and it was the latter's turn to return the invitation, the usually punctilious Molotov did not do so. This Byrnes interpreted as a sign that things were getting even worse.

# THE LAST DINNER

Finally, Molotov proposed that all negotiations be terminated by the next night, and simultaneously invited Byrnes to dinner on the closing night—a clear indication that he didn't want to expose himself to Byrnes' contagious charm before staging his last burst of temperance at the wind-up of the Paris conference.

The last session closed at 9:30. Byrnes and Molotov did not sit down to dinner until 10 p.m. And as the two tired statesmen relaxed over their brandy, Byrnes said to the man who had so bitterly opposed him:

"Why didn't you tell me at the start there were certain things you couldn't discuss? It's obvious that you have instructions not to

discuss certain points. Why didn't you tell me so? Instead, you have called us names, wasted a lot of time and got everybody mad. If you had told us that you couldn't discuss certain things, we wouldn't have bothered you."

"That's a good idea," replied Molotov, still unbending.

But later, as the Russian melted a bit more, Byrnes approached him again.

"What is it that Russia really wants?" he asked. "Behind all this argument and conversation, what are you really driving at?"

"The billion dollars reparations from Germany," Molotov shot back.

"But you know you can't get it," Byrnes said.

"It was agreed at Yalta," argued Molotov.

"No, it was agreed at Yalta that Russia's claim would be a point for discussion," countered Byrnes.

"President Roosevelt made that very clear. And later, at Potsdam, we wasted a lot of time debating that and Truman and Stal-in finally agreed this was to be only a point for discussion."

The Secretary of State then asked Molotov what other back-stage motive lurked behind Russia's disagreeable tactics at the Paris conference.

"What else do you want?" he inquired.

"The Ruhr," replied Molotov.

It was this very sour and negative note that the Paris conference closed. Neither side had budged an inch and behind the Soviet policy of studied insults, it was obvious they were aiming at important economic goals.

It was in this same atmosphere that the Big Four conference talks first began in New York. Only significant development between Paris and New York was Molotov's quick trip back to Moscow, where it was reported he got fresh instructions from the Politburo. What these instructions were nobody definitely knows, though it was believed the friendly advice Molotov received from Byrnes during their dinner in Paris may have been relayed back to Moscow and sunk home.

# YUGOSLAVS OUTBLUFFED

Though more agreeable, the Russians yielded on nothing basic, and the climax of the New York talks came when Yugoslav

Vice Premier Kardelj quit the conference altogether. Yugoslavia would not yield to Trieste Kardelj said, and walked out.

Since Trieste was the heart of the entire Italian treaty, this looked like the end. Next day, however, Yugoslav Delegate Kardelj came to see Byrnes and suggested a compromise. Byrnes listened carefully but found that the compromise was all in Yugoslav's favor. He replied it was unacceptable.

"Don't you want a treaty?" asked the puzzled Yugoslav.

"No," replied the Secretary of State. "We have given up all thought of a treaty. You walked out on us yesterday, and since then we have given up any idea of signing a treaty."

"We have talked it over with the Italians," Byrnes continued, "and they are quite agreeable to waiting until next year. Next year they say they'll be stronger and will be able to take care of the situation by themselves."

"We're going to leave our troops in Trieste, of course," Byrnes informed the now pop-eyed and bewildered Yugoslav. "You won't have to worry about policing the city. We'll take care of that."

"No," concluded the Secretary of State. "We've simply decided that there are too many headaches in getting a peace treaty, so we just won't worry about it any more."

The Yugoslav delegate looked very crestfallen. Jimmie Byrnes' very diplomatic card was beginning to work.

(Ed. Note—Another column on Secretary Byrnes' strategy in improving Russian relations will follow shortly.)

# Anyway, He Got To Eat The Candy

By JACK RUTLEDGE

A gay Lothario down in Houston stole a kiss and landed in city jail.

He was 29 years old, and from Brooklyn. The stolen kiss, he said, was the "Supreme Test" of his girl's love and when he landed in jail, he said philosophically:

"I have loved and lost." He met the girl in Kansas, began a whirlwind courtship while he was in the Army. They corresponded regularly, then somehow the letters stopped.

When he got out of the Army he found the girl was in Houston and came to see her. She told him their friendship was at an end.

But he wouldn't give up. He dressed his best, bought a box of candy, waited near the place where she worked. When she emerged, he followed her down the street. Suddenly, while downtown crowds watched, he threw his arms around her and stole his kiss.

The girl wrenched herself free and called the cops.

The candy? He ate it himself in jail.

A San Angelo man lost the shirt off his back. Also the sheets off his bed. Police said it was a new racket to them.

A man representing himself as a laundry deliverman called at a San Angelo home and told the maid he had called for the laundry.

Obediently, she gave him the bundles and he disappeared. He hasn't been seen since.

But down in Mission, a burglar lost his pants. He left them, a hockswag he used to break into the place, and a bottle of wine behind.

It worked the other way, though, for a man visiting Dallas from Venus. He was walking across a high school campus one night when two men pounced on him, pulled off his trousers, and made way with them and the money they contained.

A Dallas woman was robbed of a purse and \$25, but what upset Mrs. M. S. Chapel most, she told police, was that her lucky rabbit's foot was in the bag.

# J. V. Sikes' Name Again Linked With Aggie Job

## Players Behind Norton, However

COLLEGE STATION, Jan. 16. (AP)—The Texas A&M College athletic council is considering the coaching situation but says C. W. Crawford, council chairman:

"If anybody connected with the college, athletic department or athletic council has contacted anyone I do not know it."

Crawford issued the statement in connection with a report from Atlanta that J. V. Sikes, former A&M athlete and now assistant coach at the University of Georgia, might be named head coach of A&M succeeding Homer Norton.

There has been considerable agitation among the college alumni regarding replacing Norton, whose teams the past several years have failed to be consistent winners. Last season the Aggies won four while losing six.

Norton has a contract with more than three years to run. To dispense with his services A&M probably would have to pay him for that time.

Crawford said the council had met several times to consider what "might be worked out for next year but thus far nothing has worked out." He did not indicate what changes, if any, were being considered.

Sikes' name has been linked

with the coaching situation here on several occasions but not from an official source.

## LOOKING 'EM OVER

WITH TOMMY HART

Announcement that Johnny Vaughn has taken over the football coaching reins at Mississippi university is another indication that the Texas style of football is catching on in other sections of the country, that young coaches from this section are roving far and generally meeting with success.

Vaughn is a graduate of Texas Christian university, where he rated All-America honors as a guard around 1931. He helped a while at his alma mater and later was an assistant at North Carolina before going to Ole Miss. When Red Drew stepped down for Frank Thomas' job at Alabama, John took over.

Graduates of Texas schools have landed good and responsible mentoring jobs in almost all sections of these United States. Perhaps the best traveled, if not the best, is young Ed McKeever who was at Notre Dame for a year, then put in at Cornell before skipping across the country to land a handsome contract at San Francisco university. Ed is no doubt being paid well at SFU. Alumni of the school are out to make the Dons more respected than any of the other Bay Area institutions of high learning — California,

Santa Clara or St. Mary's. Clipper Smith failed to accomplish that mission last year and resigned. Perhaps McKeever can do it.

McKeever's old Texas Tech tutor, Pete Cawthon, has long since established himself in professional circles. Once chief of the Brooklyn (National league) Dodgers, Pete is now assistant coach and scout for the Detroit Lions.

Another Tech pride now forging a name for himself in top flight college circles is Buddy

like to take this means of expressing our confidence in Mr. Norton. For the best interest and betterment of athletics in general at Texas A&M, we would like the council to stop these rumors. In our judgment, Mr. Norton has been unjustly criticized. We are proud of having had the privilege of playing under his leadership and point with pride to his achievements and records."

McMURPHY FRESHMAN CAGER Herschel Kilpbrill (above) holds from Midland. He prepaped at Abilene high school, however, where he led the district in scoring in 1944 and paced the Eagles to the championship. He's 6-foot-3 and a veteran of 18 months in the Navy.

### Tinker Names 5 Chicubs On Own All-Star Lineup

By HUGH FULLERTON, Jr.

NEW YORK, Jan. 16. (AP)—Joe Tinker, the famous Chicago Cubs shortstop who is seriously ill in Orlando, Fla., and no doubt saddened by the death of his former teammate, Jimmy Scheekard, recently picked an all-star team of men he had played with or against for the benefit of baseball historian Ernie Lanigan.

Tinker's squad didn't include himself nor Scheekard, who was a light hitter through an extremely brilliant fielder, but it did include five Cubs of the 1906-08 champions. Mordecai Brown, Frank Chance, Harry Steinfield, Johnny Kling and Artie Hofman.

Joe picked them: Pitchers—Grover C. Alexander, Brown, Christy Mathewson (a guy Tinker always could hit) and Ed Walsh; Catchers—Kling and Roger Bresnahan; First Base—Chance; Second Base—Eddie Collins; Third Base—Steinfeld; Shortstop—Honus Wagner; Outfielders—Fred Clarke, Ty Cobb and Sam Crawford; Utility—Hofman.

"You'd have to go a long way to find a better club."

## ONE-MINUTE SPORTS PAGE

Red Drew, new Alabama football coach, is a native of Palton, Maine. Wonder if they'll change "Bama's" nickname from the "Crimson Tide" to "Dam-yankers?"

Ron Northey, the Phillies outfielder, is working in the sporting goods dept. of a big Philadelphia store during the off season. Maybe he figures that will take care of those days when you can't buy a hit.

THE HEIGHT OF SOMETHING. Bruce Drake, Oklahoma A. coach who wants to legislate altitude out of basketball, is taking bows as a prophet since he read about Max Palmer, the seven-foot seven-inch Vance, schoolboy who just stands near the basket and dunks 'em in.

Red Sanders, the present Vanderbilt tutor, is a Texan. He learned his football under Morrison at SMU and then went to Vandy as an aide to his old instructor. He was in line for the Baylor job but from all indications will be back to the Nashville school this fall.

A respected authority on the game who returned to Texas as coach of a bowl team last Jan. 1 is Jimmy Kitts, one time head man at Rice Institute and before that coach of the Athens high school basketball team.

Jimmy is currently at Virginia Poly, where they think a lot of him.

Westminster and Statesman ruled favorites in the field of 11 named for Tropical's closing feature.

A closing day crowd of about 12,000 was anticipated, bringing the total attendance for the meet to about 50,000, more than last season. For the first 39 days attendance was 328,085 compared with 289,889 last year.

## Outgoing NCAA Prexy Protests 'Purity' Code

LARAMIE, Wyo., Jan. 16. (AP)—One dissenter to the National Collegiate Athletic Association's new "purity" code is its outgoing president, Dr. Wilbur Smith of the University of Wyoming. He wants to give the hard-working college athlete his just reward.

He says "the most honest" conferences are those which give the greatest amount of aid to athletes. Dr. Smith, who came to Wyoming as student health director by way of Tulane and Louisiana State, made public today a statement pleading for frankness in dealing with aid to athletes.

He said he read the statement before a closed session of the NCAA "purity" meeting last week in New York but was quietly ignored as the association adopted its code restricting such aid and approving schedule boycotts against non-conforming schools.

Dr. Smith declared development of the body must be emphasized as much as development of the mind, and he added:

"Why not honor the so-called physical side to some small degree at least? Do we who believe in and love athletics not have the courage to honor physical attainment? We do not hesitate to award scholarships for so-called mental attainment x x x and even to member of the debating team, glee club and band."

"From the standpoint of character, is it best to have some anonymous alumnus give a 'hand-out' to a star athlete who knows that such action is wrong and against the rules? Or, is it best to grant this young man aid, the same as is done for many other students."

## Texas Defeats SMU Easily, Porkers Cop

By the Associated Press

Texas' Longhorns, with an impressive 56 to 36 victory under their belts, today stood out as strong favorites to win the 1947 conference championship.

Their speed and rapid fire attack were too much for Southern Methodist last night at Austin as the Longhorns scored their fourth conference victory against no defeats and their thirteenth win in fourteen starts this season.

Ready to dispute Texas' championship hopes were the Arkansas Razorbacks, who chalked up their fifth conference victory to no defeats by beating Texas Christian, 63 to 53.

In the third game of the night Baylor's Bears, the defending champions, won their first conference game this season, defeating Texas A&M, 59 to 51, at College Station.

The Mustangs found John Hargis, who accounted for 30 points, Roy Cox, Al Madsen, Slater Martin and the rest of the Longhorns too much to handle. SMU now has won one and lost one conference game.

In winning its second victory over TCU, Arkansas had to fight off a rally by the Horned Frogs that cut the Razorbacks' 21 point lead to nine in the fading minutes of the game. Each team scored 21 first goals. TCU still has to win its first game today.

The victory enabled Baylor to get back in the race for the conference title with a 500 average. The Bears lost to Texas last week. The Aggies were playing their first conference game.

BAYLOR SWAMPED. WACO, Jan. 16. (AP)—Oklahoma university's swimming team made a clean sweep of all six events defeating the Baylor university team last night in a team meet.

## Local Boxing Squad Selected For San Angelo Exhibitions

### Open Scrapers Invited To Go

Capt. Olvey Sheppard, overseer of the Salvation Army boxing team, announced this morning that at least seven boys in training at the citadel would make the trip to San Angelo Saturday night for the exhibition bouts there.

Meanwhile, Obie Bristow, director of the Big Spring Golden Gloves boxing tournament, issued an invitation to any local scraper of the open division to make the trip to the Concho City

"We've been informed that several fighters of that class will be available for exhibitions on the Saturday program," Bristow said today, "and we would like to have at least two or three boys ready to represent Big Spring."

Open division fighters who would like to make the trip can either contact Bristow, Phone 1227, or the Sports Desk of the Daily Herald.

The scrapers already lined up for the odyssey, their class and weights include: Donald Webb, high school, welter; Pat Lamb, high school, welter; Jimmy Eppler, high school, lightweight; Billy Bob Whittington, novice, lightweight; Billy Carlisle, high school, lightweight; Carroll Cannon, high school, featherweight; and Joe Jabor, high school featherweight.

The troupe has been undergoing nightly workouts under the watchful eye of Jimmy Byers at the citadel. Byers had intended to don the mittens until he injured his nose in a recent workout.

Some 52 boys gathered at the citadel Wednesday night for workouts. A good portion of them tumbled on the pillows for drills.

## Bulldogs Clash With Longhorns Here Friday

Jack Mashburn's aggressive Midland Bulldogs, who gave the Big Spring Steers a scare in their opening 3VA basketball game last week, invade Our Town's precincts Friday night for a return go with the Bovines.

After leading the locals most of the way in their debate last time out, the Canines dropped a 40-39 decision to the Longhorns. They will be out to even the score in the 8 o'clock bout.

The invaders' chief threat is Bobby Cole, a bloke who gave the Longhorns plenty of trouble in the previous game. Local football fans should have no trouble in remembering him. He also beat the Steer gridders with a last period rush in November.

Johnny Malaise's Steers looked every inch the champions in clubbing the Sweetwater Mustangs into submission earlier in the week. Capt. Horace Rankin and Eddie Houser, who between them bagged 45 points, will prove a difficult combination to stop.

## Stratford Ruled Out Of Hi Race

AUSTIN, Jan. 15. (AP)—Last year's Class B basketball champion, Stratford, has been declared ineligible for interscholastic league competition for failure to file a basketball plan acceptance card by Nov. 15.

League rules state that no school can compete under the basketball plan unless a card of acceptance is filed by Nov. 15.

J. Rodney Kidd, director of the league, said that when Stratford failed to file an acceptance card after several notices had been mailed to the school, it was declared ineligible.

Kidd said that with more than 1,000 teams participating that it is necessary to have sufficient time to set up districts and conferences for the state playoff.

**There's a very fine moral in there**  
 LOOK INSIDE the luggage compartment of almost any car and you'll find a spare wheel and tire.  
 A car only rides on four wheels—but that fifth wheel is standard equipment on all cars. And for very good reason.  
 Sooner or later the car owner gets full use out of that spare. And he may want it pretty suddenly in an emergency.  
 It's exactly like that nest egg you're accumulating through the Payroll Savings Plan. You're just carrying it now—and without much trouble, either. But sooner or later you're going to use it—and it may look like a fairly godmother in an emergency.  
 And it's got one thing all over a spare tire. It increases in value steadily—1/2 every ten years.  
 Building up a safety fund in U. S. Savings Bonds is easy through the Payroll Plan. It's simple and automatic—the money almost saves itself.  
 And the more bonds you buy now the more you are helping to keep prices down. If you're on the Payroll Savings Plan—stick with it. If you're not—join it today. And remember that bonds are also available at every bank and post office.

## Club Greet New Members

Five men were inducted into the Lions club Wednesday, representing the first under the traditional enlistment campaign during January, the birthday of Melvin Jones, founder of Lions International.

Members introduced by their sponsors were: O. O. Craig by Joe Pond; Ralph Stark by L. T. King; Louis Hill by Dalton Mitchell; Phil Ryan by Don Burke for Ted Groebel. After induction they were introduced to club members individually by sponsors in a fellowship period provided for the purpose.

In welcoming the new members, Harold Steck reminded them that they had been chosen to become members and that they therefore had obligations to be active "in the largest and fastest growing service organization of its kind." He also recalled various activities of the club along with objectives and urged them to be more than payers or eaters, but servants.

K. H. McGibbon, chairman of the March of Dimes campaign to raise funds for the local infantile paralysis chapter, urged members not only to take over the solicitation of funds on a given day, but to support the move liberally. Program was in charge of Don Burke and Bill Dawes, vice president, presided.

## Local Red Cross Chapter Sets Record For Requests Handled

During 1946 the Howard-Glasscock chapter of American Red Cross received the largest number of requests for service ever handled during a single year, Mrs. Morris Sawtelle, executive director, told chapter council members as she submitted her annual report at the regular meeting Tuesday.

A total of 1,482 complete cases were handled, she said, and an additional 800 brief cases, where terminal leave applications were prepared for ex-servicemen.

## Texas Open Now \$10,000 Event

SAN ANTONIO, Jan. 16. (AP)—The Texas Open, which 26 years ago brought golf into the "big money" class, finally has boosted the take to \$10,000 — one of the last tournaments to reach what has been established by the PGA as a minimum.

It was in 1922 that the Texas Open blossomed forth with a purse of \$5,000, an amount unheard of for a golf meet until that time. It has a warm spot in the hearts of the professionals because it brought the game out of the "chicken-feed class" where several hundred dollars top money was considered good.

This year the event became the cradle of the winter links swing and that is why most of the big shots of golfdom show up here each year.

The twentieth annual Texas Open will be held Feb. 7-9 and 350 players are expected to be in the field, this counting those who will shoot qualifying scores Feb. 4. All former Texas Open, National Open, PGA Championship and National Amateur Championship winners automatically qualify, also the first 30 in the 1946 Texas Open and the first 30 in the 1946 National Open along with the first eight in the PGA, the present National Public Links champion and the Texas Amateur champion. There will be 50 places open to pros and amateurs who are not exempt from qualifying.

The reason is the twentieth instead of twenty-sixth Texas Open is because the event missed five years since Bob McDonald captured the first tournament in 1922.

Last year, when the prize money was \$7,500, we Ben Hogan snared the title. Hogan will be back, favored to win it again and become the second man in history to take top money twice. Bill Mehlhorn turned the trick in 1928 and 1929.

## Richmond Open Starts

RICHMOND, Calif., Jan. 16 (AP)—Leading golfers of the nation, with few top-flight players missing, tee off today in the first round of the 72-hole \$10,000 Richmond open tournament.

Favorites as the 153 qualifiers took off in the chase for the top money prize of \$1,500 included such big names as US Open champion Lloyd Mangrum, PGA title holder and leading money winner Ben Hogan and two former PGA National bosses, Vic Ghezzi and Bob Hamilton.

corded at the peak of the war, but they also were more involved, Mrs. Sawtelle declared. There were few routine requests, and those submitted to the chapter actually cost more in time and money than most requests handled during the war.

All Red Cross work was carried out under difficulty in 1946, Mrs. Sawtelle said, because the organization was without the patriotic appeal of the war years. This has made a task of creating interest among volunteers for work in the various services, and also has increased fund-raising problems, she said.

To maintain its charter, the Howard-Glasscock chapter must carry on two services, home service and disaster preparedness, Mrs. Sawtelle pointed out. The cost of actual home service in 1946 was \$1,972.94. Loans for the year totaled \$3,201.53, placing approximately half of the 1946 funds in home service.

Also cited were the safety services, which included an active water safety program in 1946, accident prevention courses, etc. Production program figures were quoted, showing 675 girls dresses shipped for foreign relief, 87 women and childrens sweaters also for foreign relief, 45 knitted articles for the armed forces, and 200 water-proof cushions, made and shipped to the Waco Veterans hospital. The chapter received a rush order for the cushions, and they were made and shipped within three days.

## Lake Project Moving Along

COLORADO CITY, Jan. 16. (Spl.)—Assurance that the Colorado River project, with its proposed dam and a giant lake to provide water for five towns, is moving "along steadily," was received this week by Frank Kelley, one of the instigators of the project which now is stamped with official approval. S. W. Freese, consulting engineer of Fort Worth, told Kelley, "Right now we are working out a plan whereby the quality of water to be delivered to the cities will be first class."

"We have sufficient field information . . . that this can be done practically and it is a matter of working out details," Freese continued. "Additional quantity and quality measurements of the water over the next few months will be of value in this connection, and these measurements are being made daily."

Sam Bothwell, Freese said, will start at Big Spring, Jan. 20, to make a study of the investment, indebtedness, fixed charges, and operating costs pertaining to the existing supplies. He will follow the Big Spring survey with a similar visit to Colorado City.

## Princess, Prince 'Quite Friendly'

LONDON, Jan. 16. (AP)—One of Britain's best informed officials broke down today and admitted without qualification that Princess Elizabeth and Prince Philip of Greece are "quite friendly."

Coming while reports of a royal betrothal were thick as grains in a sandstorm, the statement was calculated to startle nobody in these isles except possibly a Rip Van Winkle, but it was the first official admission that Philip and the future queen have much more than a nodding acquaintance.

The official — he wouldn't go so far as to permit use of his name, but his office are near 10 Downing street — imparted his information with a sly smile and a faint emphasis on "quite." He used the word in a British way that defies translation into solid American. Roughly, what he obviously meant was that indeed the couple are friendly, and possibly even pleased with one another.

Now at long last, Britain's gossip mills had some solid fodder.

## Tax Receipts Show Increase

City tax department receipts totaled \$135,094.97 from April 1 to Dec. 31, 1946, according to a report submitted to the city commission at the regular meeting Tuesday.

The total, which represents a gain of \$18,225.12 over records for the same period in 1945, was accounted for principally by payments on current taxes. There was also an increase in occupation tax receipts and tax certificate revenue, but delinquent payments amounted to less than half of the 1945 record. Total payments on current taxes aggregated \$124,619.39, as compared to \$100,409.14 for the previous year.

## Tenants Assured Of Police Guard

NEW YORK, Jan. 16. (AP)—Tenants of the upper Manhattan apartment building who hired armed guards for protection against muggers and Burglars have been assured of adequate city police protection.

"It's up to us to police the city, and we're not ducking that," Police Commissioner Arthur W. Wallender told newsmen. He then constituted the block in front of the building a 24 hour fixed patrolman's post and ordered special radio car service for the block.

The tenants hired the armed guards Christmas Eve after a series of crimes, including the strangulation of a woman tenant, had occurred in the building. They also asked the OPA for a reduction in rent to defray the cost of the armed guards, and the OPA announced it had given the case top priority.

## If Stomach Gas or Sour Food Taste Robs You of Sleep

Here's How You May Help, Whether You Eat 500 Pounds or 2000 Pounds of Food In a Year

You can't feel cheerful, be happy and sleep well, if your stomach is always upset. As you advance the "old stomach" needs more help. The reason is this: Everytime food enters the stomach, vital gastric juice must flow normally to break-up certain food particles, size the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains very special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with overdoses of soda and other alkalines to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.
