

# COUNTY SETS 'HOLD ON' PROGRAM DUE TO UNCERTAINTIES OF 1951

NEWSPAPER OF LAMB COUNTY

Member of the Associated Press

## LAMB COUNTY LEADER

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, JANUARY 4, 1951

NO. 90

### New Projects Seem Remote

In face of the uncertainties of the new year, Lamb county will do well to hold and maintain what it has rather than to plan any expansions of any nature, County Judge Otha Dent said Monday in addressing county officials at the start of new terms of office.

The same caution was expressed by Judge E. A. Bills of the District Court, who administered oaths of office for the new term to the members of the county court and Judge Dent as a unit after the county judge previously had sworn in other officials.

"While these are indeed trying times," Judge Bills said, "we have no need and no place for despair. All we in America have to do is continue the things we are doing as best we can and our country and the things in which we believe will remain safe."

**Nervous Strain Seen**  
The difficulties that the country faces and the nervous tensions that have developed because of the international situation will make the work of all officials more difficult in 1951, Judge Dent predicted.

"We all must expect to give more service, and must be prepared for increased manifestations of public nervousness in our dealings with the public."

"Above all, we must remember that the local officials—city and county—are those with whom the public comes directly into contact, and it is from these officials that opinions of all others everywhere are formed."

**Cearley Sworn In**  
At the outset of January 1 meeting of the board of incoming commissioner Sam Cearley for Precinct 2 was approved by the holdover commissioners and Cearley was sworn into complete the commission.

Commissioner Cearley, County Attorney Curtis Wilkinson and two constables, Skeet Dillard and Raymond Cantrell, were the only new officials to be sworn in at the Monday session. All others were holdovers in office.

Brief talks were made by the commission members, by Sheriff Sid Hopping, County Collector Clarence Davis, County Clerk Joe Thomson, Mr. Wilkinson, Robert Kirk, retiring county attorney; Ernest Jones, county superintendent of schools, and Justices of the Peace J. P. Farquhar, R. A. Wood and others.

### Homework Value Fails Of Proof In School Test

NEW YORK (AP)—How valuable is homework?

It may have no value, says Dr. James V. McGill, first assistant in social studies in New York City's John Adams High School, writing in "High Points", a magazine published by the New York City Board of Education.

Dr. McGill enlisted four Adams High School social studies teachers in a two-term experiment. On the basis of ability and intelligence tests, they paired off 185 pupils, half in classes where no homework was required, the other half in classes with daily homework. Tests at the end of the year showed about the same level of achievement.

However, cautions Dr. McGill, let's not follow this conclusion out the window. A great deal of research must still be instituted in allied fields, particularly in the various branches of English, "to ascertain whether the nature of the subject matter is a factor in the result obtained."

**WOMEN FIREMEN URGED**  
PRAGUE (AP)—The official gazette, urging that more women in Czechoslovakia become firefighters, says several fire brigades include squads that are entirely female.

### Automobile Production Hits All-Time High

DETROIT—The auto industry's 1950 achievements hit high levels certain to stand for many years to come. When final figures are entered into its record books they will show production of close to 8,000,000 cars and trucks; retail deliveries near 7,100,000 vehicles. For most companies the figures also will show the largest dollar profits in industry history. If the difference between production and retail deliveries suggests also the heaviest volume of unsold stocks in industry annals it might be well to remember the retail division probably will need

**KEYS TO A KEY JOB**—Robert Kirk, retiring Lamb county attorney, is shown here tendering congratulations and the keys to the office to Curtis Wilkinson, his successor. Mr. Kirk, who was not a candidate for reelection, will engage in private law practice in Littlefield, with offices in the First National Bank building.

### Last Rites Tuesday For Jack Smiley

C. W. (Jack) Smiley, 63, resident of this area for the past 20 years, died at his home on the Levelland highway at 10:30 a.m. Sunday, following an illness of a year's duration. Leukemia was given as the cause of his death.

Mr. Smiley had been a patient of the South Plains Hospital, Amarillo, on various occasions. He is said to have spent a total of about four months in the hospital.

**Last Rites Tuesday**  
Funeral services were conducted Tuesday afternoon at 2 o'clock at the First Baptist Church, Lum's Chapel, with Rev. Lee Hemphill, pastor of the First Baptist Church, Littlefield, officiating, assisted by Rev. David Crowe, Baptist pastor of Melrose, N. M.

Burial, in charge of Hammens Funeral Home, took place in the Littlefield Cemetery. Active pallbearers were: Lloyd Buck, Melvin Thedford, Herschel Barker, Ernie Goertz, and Dick Carl.

Honorary pallbearers were members of the Men's Class of Lum's Chapel Baptist Church Sunday School. Mr. Smiley was a member of this church for many years, and also took an active part in Sun- (Continued on Furr Food Page)

### Rate Hike Request Called Inevitable By Light Company

A study of the rate structure in the various cities served by the Southwestern Public Service company is now in progress and the company eventually will have to ask for increased rates in order to continue to operate without loss, Hardy Shelby, manager of the Littlefield office, said Wednesday.

Mr. Shelby's statement was in reply to a question whether a rate increase, comparative to that now being negotiated between the com- (Continued on Furr Food Page)

### Polio Fund Taken At Local Theatres

In cooperation with the other theatres in the Nation, the Littlefield theatres, including the Palace, Ritz and Rio, took contributions towards the polio fund from December 24 to December 30, which will go to Warm Springs Foundation at Gonzales, Texas. The amount so contributed totalled \$487.54, and will go towards the Texas fund and thence be used for relief of polio in this state.

### Million Dollar Refuge Forms Home For New York's Lost Or Unwanted Pets

NEW YORK (AP)—Unwanted, strayed or lost dogs, cats, pigeons, canaries and parrots have a new place to call their own in New York City. It is the \$1,000,000 shelter and hospital of the American Society for the Prevention of Cruelty to Animals. There is room for 450 animals.

For bathing, there is a chrome tub equipped with hose, shower and an electric dryer. Food is kept in electric deep freezer chests. Ramps set at easy-walking angles lead from one floor to the next.

There are no odors. Machines called electrical ironizers do away with smell and kill all germs. Outdoor playyards for the animals are kept free of snow. Buried steam pipes keep the ground dry.

## Deaf Smith Group Forms To War Water Law Change

Reactivation of one county organization and formation of another brings to 15 the number of units participating in the program of the High Plains Water Conservation and Users association, the group's office here reports.

The Deaf Smith County Water Conservation association, at an enthusiastic meeting attended by 200 underground water users, was recently reorganized in Hereford. Tom McFarland, manager of the Hereford Chamber of Commerce, is president. Other officers are John D. Alkin, vice-president; Claude Ricketts, treasurer; and Bruce Miller, secretary.

The new unit is the Hockley County Water Conservation Association, which is headed by Burnett Roberts and Bert Eads of Levelland, both active in the Hockley County Farm Bureau.

Inactive for more than a year, the Deaf Smith group said it was reorganized to be ready to meet any future challenges against local control of underground water. Officers warned of "the constant threat of forces in Austin and elsewhere seeking to gain control of our underground water."

The Hockley group, Roberts said, "wants to carry its share of the burden in this constant fight to safeguard our water rights. The law says the water belongs to the man who owns the land; we want to keep it that way."

Associate members of the High Plains association are in 14 counties, Hockley, Lamb, Crosby, Deaf Smith, Swisher, Bailey, Dallas, Floyd, Castro, Hale, Parmer, Lubbock, Briscoe and Randall, plus the Petersburg association, which takes in a small area bordering on three counties.

## Truman Signs River Dam Bill

Littlefield is one of the eleven West Texas cities which drew nearer to a new water supply when President Truman signed into law the bill authorizing the U. S. Bureau of Reclamation to construct an \$5-million-dollar dam on the Canadian River near Sanford, Texas.

The president, who was cruising on his yacht, the Williamsburg, signed the measure on the ship, and a White House assistant telephoned Senator Lyndon B. Johnson of Texas and advised him of the president's action.

Proponents of the project have stated that they will not seek funds from Congress to start con-

struction of the project until the present war emergency is over. In addition, construction is forbidden by the bill until the interstate compact on division of the Canadian River water is finally ratified. (Continued on Furr Food Page)

**NEW CONSTABLES TAKE OFFICE**—Two new Lamb county constables taking oath of office Jan. 1 at the temporary Lamb County Courthouse were Skeets Dillard of Littlefield, left, and Raymond Cantrell of Amherst. The latter was elected by a write-in vote in November.

## Automobile Production Hits All-Time High

By DAVID J. WILKIE (AP) Automotive Editor

DETROIT—The auto industry's 1950 achievements hit high levels certain to stand for many years to come. When final figures are entered into its record books they will show production of close to 8,000,000 cars and trucks; retail deliveries near 7,100,000 vehicles. For most companies the figures also will show the largest dollar profits in industry history. If the difference between production and retail deliveries suggests also the heaviest volume of unsold stocks in industry annals it might be well to remember the retail division probably will need

them. Ahead for the auto manufacturers lies an assured sharp production cutback, due to the diversion of critical materials for arms output. It's Now Month-to-Month Most auto makers believe they can maintain a fairly high output volume through January. They are generally agreed at present, however, that they do not know how many civilian cars and trucks they can schedule for assembly more than a month away. So the field stock of unsold vehicles looks much more like an asset than a liability. The 1950 records in production and sales compare with the 1949 marks of 6,238,088 assemblies and

5,800,300 retail deliveries. The 1950 production record was achieved despite a more than three month's shutdown of all Chrysler plants by a labor dispute early in the year. Chrysler represents about 20 per cent of the industry's capacity. But there was more to the industry's 1950 achievements than huge production, sales and profits and high level wages. The year brought a number of new models, more improved engines, increasing use of automatic transmission, some wholly new body styles and two smaller, lighter cars. Packard entirely re-designed its bodies, Ford and Studebaker

brought out automatic transmissions. Hudson introduced a new line. Nash and Kaiser-Frazer added new 100-inch wheelbase models and more manufacturers incorporated the so-called "hard-top" convertible cars in their standard lines. Federal Reserve Curbs A development of the latter part of the year was the re-imposition of credit restrictions by the federal reserve board. Regulation "W" requires a one-third down payment and allows only 15 months of installment payments. Retailers generally protested the regulation, asserting it threatened their business lives. The manufacturers, however, made little or no open comment on the credit limitations. Generally, the appeared to believe a substantial stock of new cars will be needed before 1951 is very well advanced. Toward the year's end some 600,000 of the auto industry's hourly rated workers got a three-cent and hour wage increase under contracts with cost-of-living clauses. This brought the auto worker's wage to an estimated \$1.78 an hour. But it also precipitated price increases by General Motors and Ford on their 1951 model cars. Roughly the increases amounted to an average of about five per

## Baylor U. Student's New Stick Cologne Blends Co-ed's Choices

WACO, Texas (Special)—Twenty-seven-year-old Billy W. Terry of Texarkana, a Baylor University graduate student in chemistry has perfected a stick cologne formula that promises money in his pocket and sweet odors to its feminine users.

His particular type of cologne is strictly a Baylor product. He worked out formula in Baylor chemistry laboratories. He selected four choice fragrances from a field of 35 by asking 250 Baylor coeds to state their preference.

Terry Stick Cologne—it carries his name—is now being marketed in Waco and Temple, and its backers hope to introduce it to other areas soon. Encouragement has come also from a national cosmetics firm in New York, whose representative bought a stick of the perfume at Temple and they have required of Terry as to the possibility of buying his formula.

## Truman Signs

(Continued from Page 1)

The compact has been signed, but it still must be ratified by the legislatures of Texas, New Mexico and Oklahoma and approved by the Congress.

Reclamation Bureau engineers have planned a rolled earth fill structure with a "floating" type foundation, having a crest length of 7,200 feet, a top width of 40 feet and above stream bed of 150 feet.

The 11 cities wanting water from the proposed dam are: Borger, Pampa, Amarillo, Plainview, Lubbock, Tahoka, O'Donnell, Lamesa, Slaton, Levelland and Littlefield.

The President's signing of the bill apparently was attended by no formalities.

Senators Johnson and Tom Connally and Representative Mahon previously had explained to Mr. Truman that the project promised the solution of the long range water problems of a dozen or more South Plains and Panhandle cities and numerous other benefits. The President was impressed and his approval followed largely as a matter of routine.

### U. S. Funds Asked

The project, as planned by the U. S. Bureau of Reclamation, includes a dam nearly two miles long across the Canadian river at Sanford, about 40 miles northeast of Amarillo, a reservoir more than 25 miles long impounding some 1,200,000 acre feet of water and aqueducts or pipelines to transport it to the cities and industries.

desiring supplies.

An acre foot is approximately 325,000 gallons; 1,200,000 acre feet is more water than a city like Lubbock or Amarillo would use in 2,000 years at the present rate of consumption.

Under the present planning, the government will be repaid about 90 per cent of the consumption cost over a period of 50 years at an interest rate to be determined from the sales of water.

### Compact OK Likely

It appears the authorization measure will stand approved unless and until it should be revoked by a future Congress — which is extremely unlikely. The reclamation bureau is ready to go to work whenever Congress may appropriate the money and as soon as the Legislatures of Texas, New Mexico and Oklahoma approve a compact providing for a division of Canadian river water.

Such a compact has been agreed upon by compact commissioners representing the three states and recommended by them to their Legislatures for ratification.

Whiteside said Friday night that prompt ratification will be urged as a safeguard against delaying further progress on the project if the world emergency should be eased or if other conditions should make its speedy construction desirable.

## Last Rites

(Continued from Page 1)

day School and church work.

### Born in Tennessee

Mr. Smiley was born December 4, 1887, at Paris, Tennessee.

He came to Texas in 1910, settling near Merkel, Taylor County. He later moved to Guthrie, King County, where he served as Sheriff for eight years.

Moving to Lamb County in 1930, Mr. Smiley owned farms and carried on farming operations 4 miles west of Littlefield and four miles east of this city for 15 years, and until two years ago when he moved to town.

Mr. Smiley was active in civic matters, and movements in the interest of the farmers of this area. He was a director of the Lamb County Electric Cooperative for six years.

Survivors include his widow, Mrs. Cecil Gibson of Lum's Chapel; three brothers, Will, Pete and Bud Smiley, all of Roaring Springs, Texas; and a sister, Mrs. Olive Riney of Merkel, Texas.

## March of Dimes

(Continued from Page 1)

\$875.

Chairmen for the various committees in the campaign will be named next week, Mr. Shaw said. Among the workers will be the Boy Scouts, the Girl Scouts, Jaycees, Rotary, Lions and other civic organizations in the various communities in the county.

Last year's quota of \$9,000 was reached in the county but \$3000 of that amount had to be used to repay a loan advanced by the national organization before the solicitation began.

"Because of the scope of last year's polio epidemic, which was particularly severe in Texas, the drain on the national organization's funds was so great it is urgent everyone give freely and to the utmost of his ability in order the campaign may be completed on schedule," Mr. Shaw said.

Containers for contributions and other supplies for the campaign now are on hand and ready for distribution over the county next week.

## Tuesday's Snow

(Continued from Page 1)

cast for the plains, for the temperatures in Littlefield dropped only to 17 degrees at midnight Tuesday, followed by sunshine and increasing temperatures Wednesday which were expected to bring a slow melting of the snow that would allow most of the moisture to seep into the soil.

The snowfall gave the Lamb county area about half of the moisture needed for the farmers to go into their fields and prepare the soil for the growing season, County Agricultural Agent Dave Eaton said.

Mr. Eaton said a half-inch of penetrating snow moisture would put the fields in excellent shape.

"However, Tuesday's moisture was a big help and will do much to get the soil in shape. We needed the moisture badly and the snow will be a big help to the winter cover crops now in the ground."

## Rate Hike

(Continued from Page 1)

pany and city officials in Lubbock, would be sought in Littlefield.

He said no negotiations had been started here and no requests had been made but that increased costs of operations and materials made an eventual increase in rates a necessity in all communities served.

The Southwestern serves 94 cities and towns in four Southwest states.

## Funeral Services For Scotty Price At Clovis Sunday

Scotty Price, 60, passed away at Clovis Friday night as a result of a heart attack.

Mrs. Price is the former Thelma Houk, and a daughter of D. C. Houk, formerly of Littlefield, but now of Pampa.

Attending the funeral services Sunday at 2 p. m. at Steed's Mortuary, Clovis, were: Mr. and Mrs. Kenneth Houk, Mr. and Mrs. Eddie Houk, Mr. and Mrs. Vernon Houk, Mr. and Mrs. J. C. Houk, Mrs. Ed. Houk, Mr. and Mrs. Max Houk and Mr. and Mrs. Andy Houk.

Burial took place in Clovis Cemetery.

## New Business To Open At Springlake

A new business will open at Springlake about the middle of January, that of the Springlake Farm Supply, by Billy W. Clayton and Bill Burrow.

A new building has been constructed by W. T. Clayton, father of Billy W. Clayton, in which the new business will be housed.

The Springlake Farm Supply will carry feed, seed, hardware, baby chicks, insecticides, etc.

## Next District Court Term To Open Here Monday, Feb. 6

The February term of the District Court of the 64th Judicial District will open here Monday, February 6, according to Judge E. A. Bills, who will preside.

### Amherst Building Permits Total \$51,200 But Some Fail to Apply

#### Only One Home 2A Game Slated At Amherst High

Only one home conference game is slated for Amherst high school in the new football schedule drafted for the recently formed District 2-A athletic conference for the 1951 campaigns.

The sole home conference game is with Olton, which finished in a three-way tie for the championship of the old conference last fall.

Amherst will start conference play September 28 at Springlake, then will meet Dimmitt at Dimmitt; then play Olton at home and close the conference season against Sudan in Sudan November 9.

Schools superintendent W. D. Kay said the Amherst team would seek to fill out a full football schedule against non-conference foes.

The district football schedules were drawn by conference officials at a meeting at Springlake attended by superintendents of all conference schools. Officers of the new loop are Leo Duffy, Springlake, chairman; Mr. Kay, vice-chairman, and Jess White, Springlake, secretary.

The full conference football schedule:

- Sept. 28—Amherst at Springlake.
- Oct. 5—Springlake at Dimmitt.
- Oct. 19—Amherst at Dimmitt; Sudan at Olton.
- Oct. 26—Sudan at Springlake; Olton at Amherst.
- Nov. 2—Sudan at Dimmitt; Olton at Springlake.
- Nov. 9—Dimmitt at Olton; Amherst at Sudan.
- Nov. 16—Sudan at Springlake.

#### Farmers May Get Income Tax Facts At Eaton Office

Lamb county farmers have until Jan. 15 to file federal income tax declarations for 1950, County Agent Dave Eaton warned Wednesday.

Those filing the declarations can pay their taxes at that time and make their final returns with adjustments March 15.

Those who fail to file declarations by Jan. 15 must make their final returns Jan. 31, he said.

A supply of income tax return blanks, both long and short forms, are available at Mr. Eaton's office in Amherst for county farmers.

#### Amherst Collects Two-Thirds of '50 City Assessments

Approximately two-thirds of the 1950 taxes for Amherst had been collected at the start of the new year, Mrs. J. C. Moreland, city secretary, said Wednesday.

The total amount of the tax assessment for 1950 on the city books is \$10,218.92. Of this amount, the city has received \$6,775.81, she said.

The taxes may be paid any time this month without penalty, although discounts ended with the last day of December. Penalties will begin February 1 and will increase each month thereafter until the taxes are paid, she said.

#### W. O. Walker Hurt In Auto Accident

W. O. Walker of Littlefield was nursing chest and shoulder injuries suffered when thrown from a car he was driving in Lubbock when it crashed head-on into an underpass embankment there about 11:20 p.m. Monday.

Rendered unconscious, he was taken to a Lubbock hospital and released after treatment. He was returned to his home in Littlefield by his sister and brother-in-law, Mr. and Mrs. George Tiner of Lubbock.

His dog, riding with him in the car, was uninjured.

#### Donkey-ball Set For Amherst Gym

A donkey-ball game—a variation of basketball in which the players are mounted on donkeys—will be staged in the Amherst gymnasium Saturday night, Jan. 13, as a benefit for the school athletic fund.

Supt. of Schools W. D. Kay said membership of the opposing teams had not been selected definitely but plans were for members of the high school faculty to play members of the Amherst Lions Club.

Building permits in Amherst totaled \$51,200 in 1950, Mrs. J. C. Moreland, city secretary, said Wednesday.

This total represented a more apparent than real decrease from the 1949 total of \$64,650, she said, as several important construction projects started in Amherst in 1950 were not represented in the list of permits.

Among these were the improvements costing thousands of dollars at the Cone, Amherst and Farmers Co-Op elevators. With these listed, the 1950 total would be much larger.

The largest permit of the year was issued to C. A. Duffy, president of the bank, for the construction of a new residence at a cost of \$12,500.

The 1949 total was boosted \$18,000 through the construction of the new Lamb Theater in the city.

#### Amherst Cagers Enter in Tourney

The Amherst high school boys basketball team will be entered in the invitational tournament at Morton high school, which opens tonight.

A girls' tournament will be staged in Morton at a later day, in which the Amherst girls will enter, school authorities announced.

#### Congratulations To . . . .

Mr. and Mrs. D. C. Sevier of Littlefield on the birth of a son Tuesday, Dec. 19, at the Littlefield Hospital. The infant weighed 5 lbs. 11 oz., and has been named David Robert.

Mr. and Mrs. J. W. Landis of Anton on the arrival of a daughter at the Payne-Shotwell Foundation Thursday, Dec. 21, weighing 6 lbs. 11 oz. and named Eva Mae Landis.

Mr. and Mrs. Bob Payne of Morton on the birth of a daughter at the Payne-Shotwell Hospital, Monday, December 18, weighing 7 lbs. 8 oz. The little lady has been named Judy Karen.

Mr. and Mrs. Bill Harmon of Austin on the arrival of a son Tuesday, December 19, weighing about 7 lbs. and named John Caldwell Harmon. Mrs. Harmon is the former Miss Lucille Bracey, and niece of Mr. and Mrs. Arthur Duggan, Jr.

And congratulations to the following parents, whose babies were born at the Littlefield Hospital:

Mr. and Mrs. James Calvin Price of Littlefield on the birth of a son Saturday, December 16, weighing 8 lbs. 8 oz. He has been named Thaxter Dean Price.

Mr. and Mrs. R. O. Nelson, Jr. of Olton on the arrival of a son Monday, Dec. 18, weighing 6 lbs. 8 oz. and named George Oscar Nelson.

Mr. and Mrs. Felix Anton Fetch of Pep on the arrival of a son Monday, Dec. 18, weighing 7 lbs. 10 oz. and named Lewis Anton.

Mr. and Mrs. Marion Buford Conn of Abernathy on the birth of a son Wednesday, Dec. 20, weighing 7 lbs. 8 oz. and named James Walter Conn.

Mr. and Mrs. Jesus Triana of Olton on the arrival of a daughter Wednesday, Dec. 20, weighing 8 lbs. The infant has been named Maria Consuelo Triana.

Mr. and Mrs. Manyard Tommy McKinnon, Jr. of Littlefield on the arrival of a son Thursday, Dec. 21, weighing 7 lbs. 8 oz. The boy has been named Tommy Quinn McKinnon.

Mr. and Mrs. Gordon West of Littlefield on the birth of a daughter, Pamela Fern, Sunday, Dec. 24, weighing 6 lbs. 6 oz.

Mr. and Mrs. Roy Duncan of Littlefield on the arrival of a son Christmas Day weighing 6 lbs. 9 oz., and named James Leslie Duncan.

Mr. and Mrs. Nazario Gonzales of Littlefield on the arrival of a son, Ruben Lois, weighing 6 lbs. 8 oz., Tuesday, Dec. 26.

Mr. and Mrs. George Henry Coleman of Amherst on the birth of a son Tuesday, Dec. 26, weighing 7 lbs. 4 oz., and named Larry Keith Coleman.

Mr. and Mrs. Troy Allen Hopper of Spade on the arrival Wednesday, Dec. 27, of a daughter weighing 6 lbs. 8 oz., and named Ramona Karin Hopper.

Mr. and Mrs. Paul Donald Providence of Sudan on the birth of a son Wednesday, Dec. 27, weighing 6 lbs. 5 oz. The little man has been named Damon Paul Providence.

Mr. and Mrs. Dave Harris Wright of Morton on the birth of son—Tommy Allan—born Saturday, December 30, at the Payne-Shotwell Foundation, weighing 7 lbs. 5 oz.

Mr. and Mrs. Willard Carson West of Littlefield on the arrival of a daughter Friday, Dec. 22, at the Payne-Shotwell Foundation, weighing 7 lbs. 7 oz., and named Cathy Patricia West.

# Changing World May Cramp Civilian Style

By SAM DAWSON  
Business Columnist

NEW YORK—The life of the civilian isn't going to be as lush next year as this. But there are few signs—yet—that his life during the state of half-war is going to be really painful.

Government actions already taken in starting the defense program to meet the present national emergency, and orders which the nation has been warned are being drafted, foretell an increasingly controlled economy. That means restraints, but not necessarily hardships.

The civilian must always remember, however, that present conditions are subject to change without notice. But, if by chance things go as now—and no one can say if they will or not—planned here is about what the civilian can expect:

**HIS JOB**—Some unemployment, in some areas, while industries shift to defense production. At the same time, there will be overtime work in other plants needing no change-over, as war orders pour in. By next summer perhaps 2,000,000 more persons—women, the aged, the handicapped—will be drawn into the total labor force for defense work. Some unessential types of work will disappear for the duration.

**HIS PAY**—The gallop to higher wages, padded with more overtime, may be checked by a wage-price curb. It may be spring before the machinery can be set up. Next year, too, still more will be held out of the pay check for taxes.

Those who supplement income with dividends may get less, because companies will dip deeper into gross earnings to pay higher taxes and expand plants.

**HIS FOOD**—There'll be plenty to eat for everyone who can pay the higher prices. Unless the war situation changes—and it can overnight—food rationing is not in the cards.

**HIS CLOTHING**—No over-all shortages soon, but prices will be higher, and the supply of raw materials will tighten. To beat climbing prices of natural fibers, like wool and cotton, more man-made fibers will appear in the stores. Some, like nylon, will go increasingly to war. Makers of synthetics will find it harder to get some raw materials.

**HIS HOME**—Fewer new homes will be started, although the population will continue to grow. Some industrial centers will be crowded with a rush of defense production workers. Pressure for higher rents will stimulate demand for a return to rent controls where they have been dropped. Furniture, appliances, carpets will be priced higher. Shortages are looked for in some gadgets—like television sets—and the quality of others will drop, as defense commanders raw materials and skilled labor.

**HIS CAR**—Prices will be higher, unless the government succeeds in getting them rolled back. Supplies of new autos, as of almost everything made of metal, will gradually tighten, but record production since the last war

should assure that the over-all supply of cars will be adequate for some time to come to keep the nation on wheels. Tires will contain more synthetic rubber, but for a time at least no shortages need develop. Recapping may come back into fashion. Gasoline supplies will be adequate—unless the half-war goes full size—but higher octane will go to the air force.

**HIS CREDIT**—Monthly payments on cars, home mortgages, furnishings and appliances will continue to require a large fistful of cash. Civilians will be urged to put more of their pay into government bonds.

**HIS CHILDREN**—College attendance will drop as more young men learn to handle guns. Grade schools will be even more crowded with the bumper crop of babies from the last war.

**HIS DOLLAR**—Will continue to shrink in purchasing power. The cost of living will go higher, in spite of controls. More people at work will have more money to spend but will find fewer things to buy. Those who have goods to sell can, therefore, get more for them.

All in all, the civilians won't be too pinched—until, or unless, the half-war grows. But there are going to be a lot of things he did this year which he won't be able to do next. And what he does do will cost him more.

## BILLY R. BAKER AT PEARL HARBOR

Billy R. Baker, yeoman, third class, USN, son of Mr. and Mrs. Ross E. Morgan of 933 Freeman Ave., Littlefield, Texas, is serving in the Flag Allowance of the Commander-in-Chief of the U. S. Pacific Fleet.

He has been assigned to the personnel division at the Pearl Harbor, T. H., headquarters, where his principal duties consist of clerical work.

Baker entered the Naval service Oct. 19, 1950.

## SHOOTING WITHOUT CASUALTIES

KUALA LUMPUR (CP)—There's a lot of shooting going on in Malaya but many times nobody gets hurt. In the various states of the Federation of Malaya, there are gun fights daily between British units and security forces with bands of Communist terrorists. But days on end, one reads of firing that goes on for half an hour or more, without a single casualty. Some foreigners have suggested that the British campaign against terrorists would progress much more rapidly if there was an improvement in their marksmanship. On the other hand the terrorists can't seem to crack shots, either.

**NORTHERN WHALE HARVEST**  
ST. JOHN'S, Nfld. (CP)—A harvest of 455 whales was reaped in the waters off Newfoundland and Labrador this season, two whaling companies here report. Last year the total catch was 544.

## There Are Three Major Kinds Of Heart Disease Says Health Officer

What do you know about your heart? Do you know that the three major kinds of heart disease are: Rheumatic heart disease, high blood pressure, and coronary heart disease?

One of childhood's most dangerous foes is rheumatic fever, declares Dr. Geo. W. Cox, state health officer. A child is most likely to develop rheumatic fever when he is less than 10 years of age. However, the disease is not confined to children. In World War II, about 40,000 men in the American forces developed attacks of rheumatic fever. This disease may damage the heart valves and muscles. Any child who has rheumatic fever should have the best of medical care, plenty of rest, a special diet, and be free from anxiety or worry. Just because a person has rheumatic fever, is no sign he will have rheumatic heart trouble. But it's important to keep in close check with the family physician.

Coronary heart disease strikes those from middle age groups and

up, more than other forms of heart trouble. And, it strikes men more often than women. Modernization in daily living is very important, for if a person worries too much, works too hard, exercises too frequently and hard, and eats too much his heart is overworked. Yes, one of the best checks against overburdening the heart . . . is modernization in all things—and plenty of rest.

High blood pressure is another important cause of death. Naturally, the heart has to work harder to pump the blood, when blood pressure is high. An overworked heart needs the care of a physician. Sometimes symptoms of heart trouble aren't so noticeable; that is why a regular physical examination is so important.

Heart disease caused by syphilis, congenital heart disease, and heart trouble resulting from an overactive thyroid gland, are a few other forms of heart disease.

Stop and think about it for a moment. Do you give your heart enough rest?

## "HIGHGRADERS" GET ORE

COBOLT, Ont. (CP)—Highgraders have moved in on the booming Cobalt silver mine here. Highgrading is the mining industry's name for thievery. When an American mining journal reported that ore holding more than 4,000 ounces of silver per ton had been struck at the Cobalt Lode mine, according to one

of the community's old-timers flocked in and established contact with mine workers who the ore.

Great earthquakes are frequent in volcanic areas, particularly near the mountain edges of continents where they meet the ocean.

## Nurse Tells How Hadacol Was So Helpful To Her

Supplied Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin Which Her System Lacked

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron which HADACOL contains.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy."

Why HADACOL Gives Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron, and Niacin but also helpful amounts of important Calcium and Phosphorus.

—elements so vital to help maintain good health and physical fitness.

Why These Vitamins and Minerals Come In Liquid Form  
There's a very good reason HADACOL comes in special form. These precious Vitamins and Minerals are more easily and fully absorbed into the blood in this way—ready to go to work. A big improvement is noticed within a few days.

Don't Be A 'Doubting Thomas'

After reading Mrs. Adele's wonderful experience with HADACOL—how can you doubt that great new nutritional formula help you if your system lacks vitamins B<sub>1</sub>, B<sub>2</sub>, Iron, and Niacin? What HADACOL did for Adele, it can do for you if you're troubled with aches and pains in the shoulders, legs, and arms, certain nervous disturbances, and a general run-down stomach distress and a general down weakened condition due to such deficiencies.

So what are you waiting? Don't you see that HADACOL is the kind of product you need? Kind you should buy and the you should start taking immediately!

Sold On A Strict Money-Back Guarantee

HADACOL even helps build the hemoglobin content of blood (when Iron is needed) course through your body, giving these great health-building elements to every body organ, wonder HADACOL helps you wonderful.

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to yourself around—a burden to yourself and your family—when you may be as close as hand as nearest drugstore if you suffer deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin. This great HADACOL is inexpensive, too—costs a small amount a day. Trial only \$1.25. Large family or hospital size, \$9.50. If your drugstore does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. © 1950, The LeBlanc Corporation.

### WEDDING LICENSES ISSUED

Waymond Manyard Sewell and Belle Oakley, Dec. 18, 1950; Boyne Handford McCurry and Davis Marie Prater, Dec. 19, 1950; Samuel Vinson Shaw and Retta Patterson, Dec. 20;

Jeral Ray Kirkland and Wanda Jean Bishop, Dec. 21, 1950; Vindyl Miller Jones and Lois Richardson, Dec. 22, 1950; James Elbert Cook and Maurieta Rushing, Dec. 26, 1950;

Iris White and Verkerie Louise Griffin, Dec. 29, 1950.

### DIVORCE ACTIONS FILED

Nabor Perez Gauna vs. Antolo M. Gauna, Dec. 20; S. J. Jones vs. Jane Jones, Dec. 14.

### VISIT IN PHOENIX, ARIZ.

Mr. and Mrs. W. O. Hendrick and Mr. and Mrs. Roy Hendrick spent eight days in Phoenix, Ariz., visiting Mr. and Mrs. B. E. Justice, and other relatives. They brought back with them a lot of nice fresh fruit, including tangerines, oranges and dates, which they picked off the trees.

### DENIES OPIUM TRAFFIC

BANGKOK (CP)—Thailand claims she is innocent of responsibility for the opium trade in this region of Southeast Asia. Nai Vorakan Bancha, Minister of Foreign Affairs, told newsmen here Thailand would be able to prove this conclusively before the International Narcotics Commission. Nai Vorakan said the opium trade between Burma and China is now coming through Thailand because of the war conditions in Indochina which forced a change of the smuggling route. He added that growing and transport of opium is illegal in Thailand.

### RAPS MINIMUM MARRIAGE

SINGAPORE (CP)—Maulana Abdul Siddique, Moslem leader from Pakistan, says he is opposed to any legislation which would fix a minimum age for marriage. He asserted that to put obstacles in the way of marriage would create immorality. "This is not only a religious but natural statement of facts," he added. Legislation now is pending before the Singapore legislative council which would fix the minimum marriage age for Moslem girls at 16.

### FIRECRACKER KILLS SNAKE

GOA, Portuguese India (CP)—A firecracker tossed by a child in the house of a government official in a village near here brought a deadly cobra out of hiding. The cobra darted toward the cracker and picked it up in its mouth. A second later it exploded, killing the snake.

# Important Visitor Coming

... whose cheery face graces 1951 Dimes campaign posters is coming to the boy, twelve year old Larry McKenzie, the first week in January to take the building for the 1951 March of Dimes the largest city.

Knoxville, N. Y., 4-H club boy, has told hosts that he would like to get away from his Houston trip to visit with some typical boys and girls.

... of the young fellow, who was movement of the bulbar type polio in August, 1949, with the remarkable, according to physicians.

Larry was desperately ill. His arms, chest, and even his eyes were affected. The care (financed by contributions to the Dimes he has rallied so well that he is able to dispense with his left-arm

... He confidently expects to be back doing his share of the farm chores.

Young McKenzie's infectious good nature so impressed members of the Orleans County (N.Y.) Chapter of the National Foundation for Infantile Paralysis that he was successfully sponsored as the 1951 MOD poster boy. Now with both arms outstretched, his good left extended more than his splinted right, Larry's grateful, confident face presents a smiling symbol of the thousands who look to the March of Dimes for aid when polio strikes.

Larry's visit is counted on to remind Texans of the countless benefits from supporting the 1951 March of Dimes, January 15-31, especially since Texas has felt the full impact of polio the last three years and thus has incurred a large financial deficit. His pending trip also prompts the reminder that a little Texas girl, Wanda Wiley, of Austin, was the 1950 March of Dimes poster subject.

## Information For Veterans

### QUESTIONS AND ANSWERS

Q—I obtained National Service Life Insurance while disabled as the result of military service, and the requirement of good health was waived in my case. Am I eligible for the special dividend to be paid in 1951?

A—No. Insurance granted or reinstated on the lives of disabled veterans—where the good health requirement was waived because of disabilities incurred in or aggravated by service—is administered separately as nonparticipating insurance, with no right to dividends.

Q—During World War II, I served 45 days and then was discharged. In 1949 I went back into the Army. If I get out before the training cut-off date, will I be eligible for GI Bill training?

A—No. A veteran who has less than 90 days' wartime service must have served at least 90 consecutive days, part of which was within the war period (September 16, 1940 to July 25, 1947) or have been discharged for service-connected disability, in order to be eligible for GI Bill benefits. Your wartime and postwar service were not consecutive; hence you would not be eligible.

Q—May I waive my disability compensation for each Saturday only, the day I expect to perform inactive duty in the Air Force Reserve?

## PAKISTAN PLANS DEFENSE

KARACHI (AP)—A civil defense organization covering all of western and eastern Pakistan will be set up shortly with S. N. Bakar of the Ministry of Interior in charge. Bakar was trained in civil defense in England. Five hundred and fifty children attend schools in Singapore—primary, junior and secondary—at Alexandra barracks. Five hundred children of airmen go to schools at the Selectar, Changi and Tengah air bases. Other children attend school at Butterworth, in Northern Malaya.

## MONUMENTS FOR CHIEFS

IGNACIO, Solo. (AP)—The Ute Indian tribe in southwestern Colorado is hauling big flat stones from the Pine river to make monuments for their two most famous chiefs—Ouray and Buckskin Charley. Both are buried in the sagebrush-grown cemetery at the reservation near Ignacio.

The waters of the Bermejo river in Paraguay were once reputed to give one an unlined old age.

A—Yes. Public Law 844, 81st Congress, permits you to waive compensation for those days on which you are engaged in "active duty or drill . . . or other duty." Also, your right to compensation remains unimpaired by reason of such duty or pay. The provision covers any period between July 1, 1947, and September 28, 1957.

# Increase in Homes

... homes have increased in number by one during the decade just ended, according to Driskell of Fort Worth, president of the Association of Home Builders.

... period marks ten years of production and in releasing a study of population and based on 1950 census figures, the home-put up more than a million homes in a year, Driskell said, and they topped that in 1950, adding nearly nine million homes to the decade. At the time of completion of the study, the study showed a whopping total of dwelling units available for the estimated households. The census, Driskell pointed out, only a small portion of the estimated homes built during 1950.

... the population was growing 14.3 per cent, from 159,556,000, the number of homes increased 6 per cent during the same ten years. Starting with 37,325,000 homes in 1940, the homebuilders added more than 8,282,000 during the following decade.

... stood high in homebuilding achievement last year just completed, Driskell said, with

some estimates of new homes in the state running close to a quarter million during 1950.

A year-by-year record of how the homebuilding industry has met the challenge of America's population growth shows:

Year	New Homes Built
1940	602,660
1941	706,100
1942	356,000
1943	191,000
1944	141,800
1945	209,300
1946	670,500
1947	849,000
1948	931,000
1949	1,025,000
1950	1,300,000 (Est.)

This outstanding building record, the study pointed out, was made during the 1940-50 decade despite the greatest war in history which brought homebuilding down to a minimum for several years.

The report indicated that the government-set target of from 800,000 to 850,000 new homes during 1950 would fall far short of meeting the still-unmet demand for domestic housing.

# Texas 'Melting Pot'

... Technological College is a potpourri of students according to complete enrollment figures today for the fall semester.

... are 254 counties in Texas. Of these 203 are at Tech. Lubbock county, with 1,657 students, has the largest group of the 5,475 enrolled students.

... of the total enrollment, there are 35 states and foreign lands sending students to Tech.

... the most outstanding fact revealed by the statistics is the 2.8-to-1 ratio between men and women on the campus. There are 4,907 men and 1,468 women students enrolled for

the fall semester.

There are 32 foreign students at Tech this year, 10 of whom are young women from Germany. Iran has three representatives this semester while Hawaii, Burma, India, Mexico, Panama and Peru each have two. Countries represented by one student each are: Belgian Congo, Canada, China, Colombia, Honduras and Lebanon.

Twenty-three different religions and faiths are listed, including three Moslems and three Quakers. Baptists lead the list with 1,882, followed closely by the 1,569 Methodists. Some 432 students listed no religious preference.

# LAKE PHILOSOPHER STAYS

## M, SAYS GATE SAGGED THROUGH

## WARS, CAN SAG THROUGH NEXT

... note: The Philosopher Johnson grass farm on Bull Creek is consistent; he is 1951 off about like he started any other year in the

whip it even for a short time.

Therefore, I don't care how gloomy the outlook may be, life is gonna hold together in 1951 and I for one intend to keep on doing pretty much as I have in the past. At the start of the new year, I wish to say that I will do my part but can't nobody convince me hang in the front gate would improve the world situation and I intend to let it sag. It sagged through two other world wars and it can sag through the next, as far as I'm concerned. And the same thing applies to my roof, rain in the atomic age ain't gonna be no wetter than it's been in the past and anybody who objects to it leakin' through on him in my house can move over to a dry spot or stay where he is and get wet. Also, subscribin' to a newspaper might be one way to keep informed but I know a man who takes four papers and he ain't got no more reliable notion of what's gonna happen tomorrow than I have, thunder. I know some folks who produce newspapers and they don't know any more than anybody else what's comin' off next. I intend to depend on my usual methods of gettin' literature durin' 1951.

Russia's aim may be to get everybody so jittery ain't nobody worth anything, but I can tell her right now she's run up against a stump when it comes to me.

Yours faithfully—J. A.

## NEW CZECH DECORATIONS

PRAGUE (AP)—New decorations for model soldiers and new insignia of rank and service are to be introduced in the Czechoslovak army Jan. 1 by order of the commander-in-chief, President Klement Gottwald. The decorations, called "badges of honor," are to show the Bohemian lion backed up by the red star. They are for those "having accomplished outstanding achievements in military or political training and having fulfilled their military duties in exemplary fashion."

## PRAYER FOR PEACE

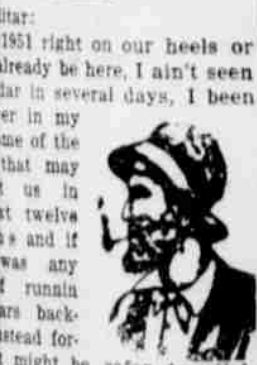

IPOH, Malaya (AP)—A continuous five-day prayer for world peace is being planned by the new Chinese Buddhist temple in nearby Jalan Bendahara.

# Texas Coaches Start On 1951 Grid Campaigns

## Known Basketball Coach Has Many Changes On Rule Changes For Game

By FRANK ECK  
Feature Sports Editor

YORK—The years and basketball games have to Dr. Forrest C. (Phog) Phog haven't changed one

**COACH HONORED**—A former Littlefield high school football star, Lwood Dow, now coaching at New Haven State Teachers College in Connecticut, has been voted "coach of the year" by sports writers of the eastern state. He is the son of Mrs. Belle Dow of 417 East Ninth street.

changes the game of basketball the way it's played to a veteran of 43 years as 33 of them at Kansas when last seen was New York's basketball and writers that the game

year-old coach wants to return of the center jump. He's for a tapping or the same as a baseball player. Let the players align jump balls, is the good idea.

Phog feels that on all fouls fouled should retain possession of the ball whether free made or missed.

Kansas Jayhawkers are to be one of his best. They are favored to win seven crown. However, looked like the stronger in it swamped City College Garden a week before St. John's by one

what he calls "the mauling shot." Phog had waive all first half fouls, possession of the ball over spinner in importance. In Kansas 25 of 42 fouls St. John's.

In the last 30 seconds he foul shot although trailing point. He had his able for a two-pointer. He'd work the ball in to Clyde Lovellette for they did the next best of his players tossed out and Lovellette dunked with a few seconds remaining for Phog's boys. He forgot the three-second rule. Lovellette overstay in the keyhole.

Allen would love to be the personal foul. Allen would love to be the personal foul.

The writer has seen this done several times when the team in possession had just about used up 10 seconds allotted for bringing the ball past the center line. Years ago the only time outs came before fouls, after baskets or on an injury. But now you have them during an all court press which helps the team in front to do additional stalling.

Phog, before his team's 52-51 win over St. John's, accused coaches who played pro ball of teaching the collegians sharp practices to beat the rules. Coach Nat Holman of CCNY, national champion last season, called his blast "a lot of unmitigated hokey."

After the game with St. John's Phog charged that Coach Frank McGuire took advantage of his team's foul waiving tactics by using "alley fighters."

All McGuire had to say was: "Why argue with a guy who makes his living popping off." Same old Phog. He adds life to the silly race-horse type of basketball we now have. The sport could use more "pop off" guys like him.

### PAKISTAN IMPORTS GROW

KARACHI, Pakistan (AP)—Pakistan during three months ending October recorded the highest import figures from countries other than India. Operation of the open general license made imports soar to \$23,469,000. But the high price of cotton reduced export figures to \$15,600,000. Trade with India during this period was mostly by barter.

## Morton Basketball Tournament Opens Thursday

The Morton Invitational Boys basketball tournament will be held in the high school gymnasium at that city for three days starting Thursday.

Eight teams are entered in the meet. Included are three Class A schools and five Class B entries. They are Farwell, Levelland, Amherst, Brownfield, Morton, Bula, Whiteface and Three-Way.

The tourney begins Thursday afternoon, with finals being run of Saturday night.

## South Plains Rural Electrification Surpasses Average

Rural electrification on the South Plains is nearing saturation in respect to number of customers, said W. G. Newton, manager of South Plains Electric cooperative, with headquarters in Lubbock.

He estimates nearly 100 per cent of the South Plains is electrified. The state average is about 90 per cent. The area served by the South Plains Electric cooperative classifies as 100 per cent. This area includes Lubbock county, the western half of Crosby, the Smyer area in Hockley and some of the northern part of Lynn.

"We get new customers steadily as a result of formation of new farming units as the land is broken into smaller farms," Newton said.

P. T. Montfort, of the agriculture engineering department of Texas A. & M. college, estimates electricity saved dairy farmers \$10,700,000 in labor costs last year. He said 7,200 dairy farmers spent \$155,000 for electricity to run milking machines which saved the labor costs.

More than 250 profitable ways of using electricity on the farm have been proved by practical research, said Montfort.

Among these are electric heaters for warming livestock drinking water, fans for cooling barns in summer, electric sprayers for insect control and power for cooling milk.

He said the heaviest concentration of electrical usage is on dairy, poultry, truck and livestock farms.

## 1950 Receipts at Local Office Show Five Per Cent Gain

Receipts at the Littlefield post office were \$2,193.50 more in 1950 than in 1949, or an increase of five per cent, according to figures issued by Postmaster W. D. T. Storey.

The receipts for 1949 totaled \$46,128.48 and for 1950 were \$48,321.98.

**COTTON BOWL VICTORS**—Coach Bob Neyland of the University of Tennessee gives his three "masked marvels" a few words of last minute advice just before the start of the Cotton Bowl gridiron classic at Dallas New Year's Day against the University of Texas Longhorns. The advice must have been good, for the underdog Tennesseans made mighty Texas eat crow to the tune of 20 to 14. The players from left to right are Terrell Daffer, guard; Captain Jack Stroud and Bud Sherrod, star end. (AP Photo)

By WILBUR MARTIN  
Associated Press Staff

The 1950 football season really is hardly over, but most coaches are already making plans for spring training. That's right, the spring drills are just a few weeks away.

If you've got a copy of Southwest Conference rosters handy, you might notice that most of the teams are going to be in fine shape next season. Some of the brightest individual stars will be missing, but there's plenty of quantity.

The rosters of the squads as issued at the beginning of last season give a good indication of what and how much material each team will have. If players are not lost to the draft or in other matters, here's what each school should have:

- Arkansas: 13 or 14 ends returning; 9 of 11 tackles; 7 of 11 guards; 4 of 5 centers; 19 of 26 backs.
- Baylor: 10 of 13 ends; 12 of 14 tackles; 15 of 17 guards; 5 of 7 centers; 20 of 27 backs.
- Rice: 11 of 13 ends; 9 of 11 tackles; 8 of 9 guards; 4 of 5 centers; 12 of 18 backs.
- A. and M.: 10 of 14 ends; 8 of 12 tackles; 6 of 9 guards; 4 of 6 centers; 17 of 20 backs.
- TCU: 7 of 9 ends; 8 of 11 tackles; 9 of 12 guards; 4 of 5 centers; 12 of 16 backs.
- Texas: 6 of 10 ends; 6 of 8 tackles; 8 of 9 guards; 4 of 5 centers; 15 of 17 backs.
- SMU: 0 of 10 ends; 5 of 8 tackles; 6 of 8 guards; 6 of 8 centers; 16 of 20 backs.

This breakdown possibly is inaccurate in some instances. Some players have been quietly eliminated from squads; others have gone into service, and others will have given up football because of injuries, etc.

The spring training periods will tell just how much of this numerical strength is going to benefit each team. But on this basis, it looks like another event, topsy-turvy race.

## Lamb County Leader

**Stone Bowl**  
Washington State Prison All-Stars 20, Prison Eagles 7.

of Texas Longhorns the Vols, beaten only once this fall and that in an early season encounter before the team began to click, outplayed the exans decisively.

Tennessee not only went contrary to the predictions of almost all major sports followers in the Cotton Bowl Monday but did so in such a statistically superior manner that little doubt was left in the minds of the 75,000 spectators which was the best team.

The victory was another feather in the military cap of Gen. Bob Neyland, Tennessee's great coach whose overall record at the Volunteer institution probably is unequalled by any other major college coach, even including the great Knute Rockne.

Tennessee stopped the Longhorns' Byron Townsend when stopping counted most, and that was the ball game.

The loss made Texas just another Texas team which was heralded as a world beater before the season opened, only to topple as other previous pre-season Longhorn "world-beaters" have done.

At Pasadena, the Western Conference again made the Pacific Coast sick of its inter-conference agreement with the Big Nine on Rose Bowl selections.

Michigan, only about third best in its own circles, saddened the hearts of 100,000 coast fans by trouncing California. A coast champion has yet to win from a Big

Nine team in the Rose Bowl game since the compact, which expired this year, was signed. Some observers believed the agreement would not be renewed by the Coast Conference.

The New Year's Day games left Wyoming, 20 to 6 victors over Washington and Lee, as the only undefeated, untied team among the major schools.

### MALAY NEWSPRINT SCARCE

KUALA LUMPUR (AP)—The government of the Federation of Malaya is urging newspapers to save newsprint. A spokesman of the federal economic secretariat said no rationing is planned but it would be wise for publishers to conserve as much of their newsprint as possible.

### THAI RICE EXPORTS UP

BANGKOK (AP)—Thailand's rice exports this year are running well above the officially predicted mark of 1,200,000 tons. Thailand exported 933,000 tons in the first 10 months of 1949, and 648,000 tons in the corresponding period of 1948.

## Whitharral Wins Twin Court Bill

The boys and girls basketball teams of Whitharral scored wins over Smyer in Whitharral F. Day night, the girls winning 44-22, while the boys won out in a nip and tuck contest, 31-29.

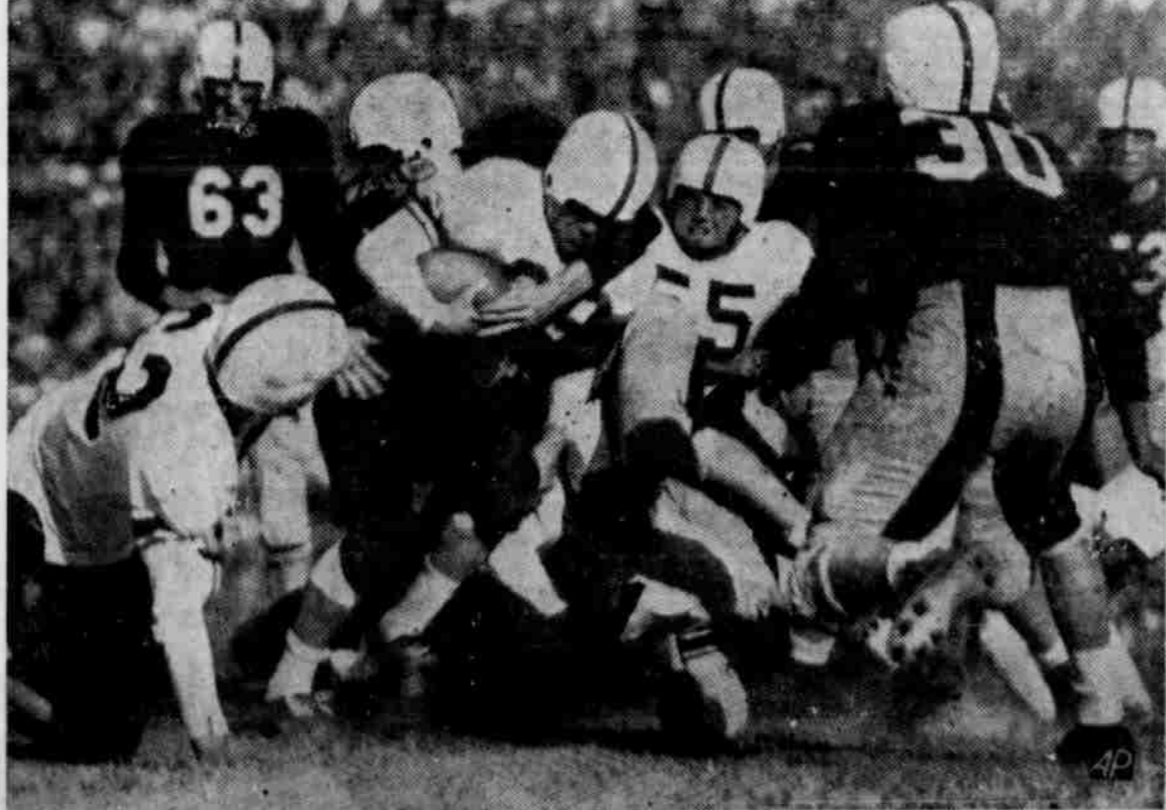

Wanda Hutson scored 23 points to lead in the girls victory, with Glenna Taylor runner-up with 13. Velma Schulle hit 12 for Smyer.

Bill Gage garnered 12 points to lead the Whitharral boys to their win, while Virgil Wynn had nine for the visitors.

Smyer jumped into an early 6-0 lead, but trailed 6-12 at the end of the first quarter, and Whitharral protected their lead for the win.

Vernon Cox of Lum's Chapel community was attending to business in Littlefield Monday.

Mr. and Mrs. G. M. Shaw visited in the home of Mr. and Mrs. Dick Stubblesfield at Snyder Sunday and Monday. They are cousins of Mr. Shaw.

**SMASH TO VICTORY**—Tommy Fields, Wichita Falls half-back, is stopped by center Bob Hailey of Austin from behind after Fields picked up four yards through the center of the line in

Dallas, Tex., in final playoff game of state class AA high school football championships. Wichita won, 34 to 20. Austin Back A. Cunningham (30) comes in from the right to help on the

stop. Others identified are Austin Guard Wayne Agnew (63) and Wichita Falls players End Charles Wolston (62), Back Cliff Taylor (51, on ground) and Tackle Wilton Ashby (51).

*By Mary Lee Taylor*

**Drop Doughnut Balls**

2 1/2 cups sifted all-purpose flour, 1/2 cup sugar, 2 1/2 teaspoons baking powder, 1/2 teaspoon salt, 1/2 teaspoon nutmeg, 1/2 cup water, 1 egg, 1/2 cup milk, 1/2 cup shortening.

Sift together flour, baking powder, salt and nutmeg. Put sugar and shortening into bowl. Beat in egg. Add 1/2 of flour mixture; stir until smooth. Stir in 1/2 of a mixture of milk and water. Repeat until all flour and milk are used. Drop by rounded teaspoons into deep fat (360°), hot enough to brown a 1-in. cube of bread in 1 min. Turn under side is brown, turn and brown other side. Drain on unglazed paper. Sprinkle with powdered sugar. Makes 2 1/2 doz.
