

Hunt Anti-Red POWs Lost On Koje Isle

By ROBERT B. TUCKMAN
KOJE ISLAND, Korea, June 12 (AP)— U. S. troops hunted today for missing comrades of 399 frightened anti-Communist prisoners of war who broke away from 4,800 marching Reds.

The breakaway came during an otherwise orderly evacuation of the fourth trouble-ridden POW enclosure at this United Nations prison camp.

The anti-Red POWs said the missing prisoners had been haled before Communist kangaroo courts before today's transfer. They didn't report the number.

Death at the hands of their die-hard leaders was the fate of 16 POWs missing from an enclosure emptied Wednesday.

The camp commander, Brig. Gen. Haydon L. Boatner, is expected to order evacuation of a fifth compound, No. 66, tomorrow. Some of the 2,700 ugly-tempered North Korean officers and 650 noncoms there are reported fashioning knives and spears.

The remains of 16 savagely killed prisoners were dug up in the third emptied compound, No. 77. But so far soldiers found no bodies in the fourth, No. 85. Unlike 77, there were no homemade weapons or escape tunnels.

Transfer of POWs from No. 95 brought operation breakup to the 30 per cent mark. Brig. Gen. Haydon L. Boatner, Koje commander, intends to wrest control of the 80,000 internees from their Red leaders by moving them to new, smaller compounds and splitting them into groups of about 500.

Some 24,400 have been moved. Thirteen compounds remain to be emptied and there is a chance of violence in at least two of them.

The transfer from compound No. 95 was orderly, in contrast to the hour fight that left 38 prisoners killed and 150 wounded when the first compound—No. 76—was emptied Tuesday.

Many of the 399 POWs who broke away plied feared death at the hands of their Red leaders. Others who tried to escape were dragged by the Communists into compound 91, their new, temporary enclosure.

"Now we will live," one grateful North Korean soldier sighed after he had safely fled the marching Reds.

The anti-Red POWs broke away in groups of up to 100 men. They tore off their Red star-decorated hats, trampled them in the dust and awaited the arrival of guards.

The evacuation started with exchange of salutes and handshakes between the leader of the compound and Gen. Boatner. The Allied camp commander said no one would be hurt if orders were obeyed. He rejected the Red leader's request for an hour's delay.

Intelligence officers found the Reds' documents burned. They surmised word of the transfer had come through the prison "grapevine." Leaders of compound 95 surrendered the bodies of eight prisoners killed in an April 10 clash with Allied guards.

The 4,800 Reds were herded temporarily into compound 91, where unarmed guards moved freely among them.

The 399 who broke away were taken for questioning to compound 61. Guards put with them two anti-Communists who scaled the barbed wire fence of 91.

The new official total of 16 bodies dug up in compound 77 is one more than yesterday's figure. The army found nine bodies in one well and the others in trenches and an abandoned well.

At least 12 of the 39 prisoners killed in the bloody transfer of the 6,400 in compound 76 Tuesday died at the hands of their leaders for trying to quit the battle with troops

terminal injuries, as well as a broken leg, which resulted in his death. It was Howard County's seventh traffic fatality of 1952.

Highway patrolmen who investigated said the mishap occurred about 600 yards south of the Howard-Dawson County line.

Sell and Anechando both suffered cuts and bruises and both were treated for shock. They were brought to a local hospital in an Eberley ambulance.

Officers said Sell, accompanied by the two Latin-American men was en route to the Rio Grande Valley in search for agricultural workers to work on his farm near Petersburg. He told officers that he suddenly came upon a trailer without lights, and in attempting to avoid a collision, lost control of his car.

Highway patrolmen said the car apparently rolled over "three or four" times.

Cantu's body was at Eberley Funeral Home this morning, pending funeral arrangements.

Politics In The Park

Gen. Dwight D. Eisenhower and John Foster Dulles, former Republican adviser to the State Department, pause during a stroll on Morning-side Heights in New York for a chat on a park bench. Earlier they met behind closed doors for more than an hour. Dulles told reporters asking if he favored Eisenhower for the Republican presidential nomination, "I am working to get unity in the Republican party on foreign policy." (AP Wirephoto).

Order To Sell Tides Leases Said Year Old

By TEX EASLEY

WASHINGTON, June 12 (AP)—Investigating senators heard today that the government put out an order more than a year ago to issue oil and gas leases on submerged coastal lands.

The order was signed, but was unacted, and never went into effect, the committee was told by Jess Larson, General Services administrator.

The government has been embroiled in a dispute with three states for many years over who has legal right to the off-shore lands, often erroneously referred to as tidelands.

Both the Senate and the House have passed legislation fixing the states as rightful owners. President Truman has vetoed the measure. He says the government is the legal proprietor of the oil-rich coastal lands.

Larson was called before the Senate Judiciary Committee to tell it whether reports that the Interior

Department was about to issue the leases were accurate.

The GSA chief said he couldn't answer that question, that Secretary of the Interior Chapman was the man who would know. Chapman sat in on the hearings and was to be called to the witness chair later.

The signed order was sent to Chapman "on or about April 6, 1951," Larson said, with the understanding that Chapman would decide when it should be put into effect.

When the order was signed, the tidelands matter was pending in both Houses and had not yet been acted on. It was put out after the Supreme Court affirmed that the government had "paramount rights" to the lands, off the shores of Louisiana, Texas and California.

Senate Passes Controls Law; HST Gets Rebuff

Portion Of City Ready To Water Withered Shrubs

Saturday Is Date For Second Half Of City Sprinkling

Half of Big Spring was poised Thursday to turn water hoses on withering shrubbery.

It was the first of a two-day experimental watering program authorized by the city commission. Residents of the area east of Rannels Street were permitted to irrigate shrubs from 2 to 7 p.m. Thursday, while Big Springers on the opposite side of Rannels will be allowed to water plants during the same hours Saturday.

City officials appealed for wholehearted co-operation in the limited watering plan, pointing out that no exceptions can be allowed in the hours scheduled.

If residents were to turn water on at any time other than the designated period the plan would be wrecked as there would be no means of controlling consumption, it was emphasized.

City Manager H. W. Whitney pointed out that officials realize the watering schedule probably does not fit the convenience of every individual. He explained, however, that everyone must follow the plan if it is to be successful.

If this watering program this week does not too seriously deplete limited water supplies, it may be set up on a permanent basis with everyone being allowed to irrigate shrubbery five hours each week. Operation of sprinkler systems or watering of lawns still is prohibited, it was also emphasized.

J. E. McDONALD

Ex-Agriculture Commissioner McDonald, Dies

SAN BENITO, June 12 (AP)—J. E. McDonald, 70, stormy paradox of Texas politics for more than two decades, died today.

He died about 10 a. m. in Dolly Vinsant Hospital here where he was brought yesterday after becoming ill at his nearby farm. The nature of his illness was not disclosed.

McDonald was the former Texas agriculture commissioner who openly voted for some Republicans and thus aroused the anger of officials of the Texas Democratic party.

The tall, dignified commissioner was defeated in 1950 by John C. White of Wichita Falls—a political newcomer then only 25 years old.

In 1950 the state Democratic Executive Committee voted unanimously to take McDonald's name off the ballot on grounds of party disloyalty. McDonald took his fight to the State Supreme Court—and won.

But in the second Democratic primary the same year, McDonald suffered his first political defeat—at the hands of the young, red-haired man from Wichita Falls.

Still pending against McDonald at the time of his death was a federal charge of violating the lobbying act of 1946. But it had become apparent the case would probably never be called for trial because of technicalities, especially a Federal Court ruling that part of the law was unconstitutional.

McDonald was one of several officers of the National Farm Committee, a Texas corporation, indicted in June, 1948, on charges of lobbying in Congress for higher farm prices and of failing to comply with a 1946 law requiring lobbyists to register. The government also charged the individuals kept personal trading accounts in the commodity markets and tried to profit by keeping prices up.

McDonald denied any wrongdoing.

When McDonald lost his fight for re-election to his 11th consecutive term in 1950, he ended 22 consecutive years in state office—two as a state representative and 20 as commissioner.

He had been opposed by many Democratic party regulars, who accused him of giving aid and comfort to the Republicans. But he declined to run as a Republican against White in the general election that year because "I am a Democrat."

McDonald was born at Mexia in See McDONALD, Pg. 10, Col. 3

House Won't Okay Seizure Powers

WASHINGTON, June 12 (AP)—The Senate today passed legislation extending wage, price, and rent controls through next Feb. 28. It includes a provision requesting President Truman to use the Taft-Hartley law in the steel strike.

The measure would continue for one year—until June 30, 1953—credit controls and the government's broad powers to ration scarce materials to private industry. The present controls law expires June 30.

The vote on passage was 58 to 18. The Senate bill now goes to the House. The House Banking Committee already is working on a controls bill of its own.

WASHINGTON, June 12 (AP)—A House committee voted down 15 to 10 today a proposal that President Truman be empowered to seize and operate the struck steel mills.

It was the first formal vote by any House group since Truman went before Congress Tuesday and pleaded for this power.

The Senate previously had rebuffed Truman by voting that he should use anti-strike provisions of the Taft-Hartley law in an effort to end the strike of 650,000 CIO steelworkers. And today senators favoring seizure power for the President abandoned their fight to write it into wage-price controls legislation.

They said they would propose it again later in a separate bill.

The seizure question was raised in the House Banking Committee by Rep. Bolling (D-Mo) who proposed it as an amendment to legislation extending the economic controls law.

Bolling's amendment was a duplicate of that offered in the Senate Tuesday by Sen. Humphrey (D-Minn) and rejected by that body.

Members reported nine Democrats and one Republican supported the seizure move in the House committee. Five Democrats and 10 Republicans were against it. One Democrat voted present and one Republican was absent.

The House group is working on its own version of a new wage controls law to replace the present one which expires June 30.

Heated Battles Rage In Korea Ground Warfare

SEOUL, Friday, June 13 (AP)—Allied infantry and tanks Thursday seized a hill on the Western Front in some of the hottest fighting this year.

The hill west of Chorwon was captured after a 14-hour battle during which Allied warplanes splashed flaming jelled gasoline across the Chinese position.

In another fierce action about a mile to the west, Allied troops flushed dug-in Chinese from their bunkers with flame-throwers.

Some tanks rumbled into action in support of the infantry ran into Red mine fields and were disabled. Retriever tanks pulled them back to safety, a front line officer said.

The stepped-up fighting broke out Saturday around Chorwon, 43 miles north of Seoul, when U.N. infantrymen captured two high points. The Reds have tried unsuccessfully every day since to knock the Allies back.

The officer said fighter bombers strafed, bombed and fire-bombed Chinese positions on the hills throughout the morning and carried their attack into the afternoon.

Both sides used tanks or self-propelled guns, artillery and mortars.

No court was given, but Allied authorities said hundreds of Reds had been killed and wounded in the six days of vicious fighting around Chorwon.

There was no indication that the flareup was a curtain-raiser to a Red offensive, threatened repeatedly by Communist negotiators at the Panmunjom truce talks.

The U.S. Fifth A.R. Force says its aerial spotters have found no indication of a Red buildup but cautioned that the Communists are good at camouflage and concealment.

Both sides continued heavier attacks and probes at other spots along the 155-mile battlefield. The U.S. Eighth Army said Allied defenders repulsed nine probes on the Eastern Front by about 10 Red platoons, some 350 men.

Highways Get Okay

WASHINGTON (AP)—A federal program of \$1,386,650,000 for national and international highways, passed by Congress yesterday, awaited President Truman's signature today.

Ex-Lobbyist Called To McCarthy Probe

WASHINGTON (AP)—Senators investigating charges by Sen. Benton (D-Conn) against Sen. McCarthy (R-Wis) called Russell M. Arundel of Washington, D.C., and Warrenton, Va., for closed-door questioning today.

Previous testimony has brought out that Arundel, formerly registered with the Senate as a lobbyist, endorsed a \$20,000 note signed by McCarthy in obtaining a 1947 loan from the Appleton, Wis., State Bank.

A Senate Rules Subcommittee touched on the loan and other financial matters during a public hearing a month ago on one of Benton's charges in support of his resolution looking toward McCarthy's expulsion from the Senate.

The hearing was concerned with Benton's charge that McCarthy "grossly violated" senatorial ethics in accepting \$10,000 in 1948 from the Lustron Prefabricated Housing Corp. for an article on housing.

McCarthy has contended his acceptance of the fee was entirely proper. He said he performed a public service in writing the ar-

Painters Observe Tenth Anniversary With Picnic Friday

Members of the Painters Union, Local 1431, will get together for feast and fun, starting at 6:30 p.m. Friday at the City Park.

The union is observing its tenth anniversary this year, with its membership at an all-time high. The organization, which had only 20 members at one time, now boasts 67 affiliated members and is still growing.

The group gets together usually every January for a banquet and for a picnic every summer. It holds its business sessions twice a month at the Carpenters' Hall.

C. D. Downing serves the union as its president. Josh Johnson is vice president, L. R. Mundi financial secretary, Roger Sessions as recording secretary and Brownie Brown as Warden.

Decorators and paper-hangers of the city are members of the organization, along with painters.

Jail Term Given On Defrauding Charge

County Judge Walter Grice assessed a 30-day jail sentence, following a plea of guilty to a charge of defrauding with worthless check. Defendant in the case was James B. Ribble, who was arrested Wednesday by members of the sheriff's department.

Ysidro Ruiz, who pleaded guilty to a charge of aggravated assault, drew a fine of \$100 and court costs.

Chemicals Explode In \$500,000 Fire

A giant fireball explodes above the burning warehouse of the Witco Chemical Co., as fire swept the plant in Stickney, a suburb southwest of Chicago. Firemen reel back from the blast. Fire Marshal John Waberkorn estimated damage at \$500,000. The one-story warehouse contained 400 drums of mastic and 300 drums of drier. (AP Wire-photo).

Reds Still Adamant Over Prisoner Issue

By GEORGE A. MCARTHUR

MUNSAN, Korea (AP)—The chief Communist Korean truce negotiator softened his denunciation of the Allies today, but remained unyielding on the prisoner exchange issue—last obstacle to an armistice.

Maj. Gen. William K. Harrison, head U.N. negotiator, told newsmen he attached no significance to North Korean Gen. Nam Il's omission of any mention of the riot-ridden Allied prisoner camps on Kojedo Island.

Harrison told the Reds during a 38-minute meeting at Panmunjom that "no further concessions will

be forthcoming" on the April 28 Allied prisoner proposal. Another Red-demanded session was set for 11 a.m. tomorrow (9 p.m. Thursday EST).

The U.N. is unwilling to force repatriation of some 100,000 internees who have indicated they won't rejoin the Reds voluntarily. The Communists insist on return of all 169,000 Allied-held personnel.

Despite its moderate tone, Nam continued to charge the Allies stand on prisoners violated the Geneva Convention and "widened the breach" of disagreement over prisoner exchange.

He didn't use his usual terms of "slaughter" and "murder" to describe Allied treatment of prisoners.

The April 28 plan dropped Allied insistence on a ban on the reconstruction of airfields and eliminated Russia as a neutral armistice inspector.

Harrison ended his statement, saying:

"If you are ready to accept our proposal today let us turn over to the liaison officers the final preparation of the armistice agreement; otherwise, I suggest a recess until you desire to meet again."

The U.N. spokesman, Brig. Gen. William P. Nuckols, said Harrison's statement was not an effort to turn the "whole unresolved problem" back to liaison officers.

Nam turned down the offer for a recess and asked for tomorrow's meeting. Harrison replied: "At every meeting you beg for a meeting on the following day. When we meet you have nothing to say that you have not said before. You are making no progress toward an armistice. Why you want to meet every day is difficult to understand. But, since it seems to be necessary to you, I agree."

Soviet Terrorists Active In Germany

WASHINGTON, June 12 (AP)—John J. McCloy told the Senate today Russia is waging a mighty campaign of "terror and conquest" to try to keep West Germany from joining the free world's alliance against Communism.

The U. S. high commissioner in

Germany said so in appealing to the Senate Foreign Relations Committee to give swift approval to the peace contract with West Germany and to a pact granting the new nation full guarantees in the North Atlantic Treaty Organization (NATO).

"There is one massive threat to this peaceful, progressive development in Germany," McCloy said. "It comes from the Kremlin," he said, adding:

"The Communists are now engaged in a mighty campaign to prevent German ratification of the agreements and German participation in the growing European unity."

Earlier Secretary of State Acheson and Undersecretary David Bruce had urged the committee to give quick backing to two pacts. There was every indication that the group would stamp its approval on the documents.

McCloy, who has been directing American policy in West Germany for two years, predicted the Bonn Parliament will ratify the peace contract and join an all-European army despite Russia's violent threats.

McCloy, who has been directing American policy in West Germany for two years, predicted the Bonn Parliament will ratify the peace contract and join an all-European army despite Russia's violent threats.

Health Unit To Add Inspector

Possibility of adding a sanitation inspector to the Big Spring-Howard County Health Unit staff by July 1 was reported Thursday by Lige Fox, sanitarian for the unit.

Fox said an inspector in Central Texas has applied for the position and is due in Big Spring or Midland this week for an interview with Dr. Charles A. Pfafford, director for the Ector-Midland-Howard Health Unit.

If the applicant accepts the position, he probably will be available for duty in about two weeks. Fox said. The inspector has some two years experience with a health department in a Central Texas town. If employed here he will become assistant to Fox, filling a position made possible this year by an enlarged health unit budget.

Who Sent In That False Report On Enemy Aircraft?

ALBANY, N. Y. (AP)—Maj. Charles Barr of the Albany Air Defense Filter Center would like to know who phoned in that false report on "enemy aircraft."

A woman's voice yesterday told a sub-key warning center in the area:

"This is Albany calling. Enemy aircraft has been sighted over Canada."

Barr said: "We have checked all the way through and the Eastern Air Defense Command has informed us that all aircraft in the United States and Canada are accounted for."

Lane Bond Awarded Scholarship By Elks

Lane Bond, son of Mr. and Mrs. Luther M. Bond, has been awarded a \$50 scholarship by the Texas Elks State Association, the result of a state-wide contest carried on by that organization.

The award is for fourth place in the contest. Lane is now a summer school student at Hardin-Simmons University, Abilene, where he is working part-time.

Presentation of the award will be made on a Saturday afternoon program over Station KTXC by Glen E. Gale, Exalted Ruler of the local lodge.

In event Bond cannot return here for the presentation, it will be made to his mother, Mrs. Beulah Bond.

Time of the program had not been set at noon today.

W. E. Scripps, Detroit News Publisher, Dies

DETROIT, June 12 (AP)—William E. Scripps, 70, president of the Evening News Association and publisher of the Detroit News, died this morning at his Lake Orion country estate.

He became president and publisher of the News in 1929, succeeding the late George G. Booth.

Scripps was a widely known sportsman and recognized breeder of Aberdeen Angus cattle.

He also founded the Scripps Motor Co. which later became one of the nation's larger marine engine manufacturers.

His interest in aviation led to the establishment of the first newspaper aerial news coverage. Under Scripps' direction, News-owned planes flew over 45,000 miles in the first year of the service's operation.

Scripps began his newspaper career on the news at the age of 14 in 1896 under the guidance of his father, the late James E. Scripps.

His wife Nina, said Scripps died of a heart ailment brought on by a prolonged respiratory disease.

Mrs. Scripps, two sons, Robert Warren, and William John, and a daughter, Mrs. Richard Spitzky, all of Detroit, were at his bedside when Scripps died.

Some tribes of Mexican Indians once believed they were descended from trees.

Mexican Consul Refused Service At San Antonio

SAN ANTONIO, June 12 (AP)—The Mexican consul general of San Antonio and two business men say they were refused service at a Boerne, Tex., cafe yesterday because they were Mexicans.

The owner of the cafe replied they had raised a disturbance.

Consul Gen. Cosme Hinojosa said he would report the incident to his superiors in Washington and Mexico City and to Gov. Allan Shivers.

Those with him were Raul A. Cortez, San Antonio radio executive, and Armando Reed, an insurance man.

Charles O. Grimsley, owner of the cafe, replied: "The man raised a disturbance and set a bottle of whisky on the bar. You can't do that, but they got nasty and smart. We've had trouble here with some tough ones and they managed to close me up."

Reich Archbishop Succumbs Today

MUNICH, Germany, June 12 (AP)—Michael Cardinal von Faulhaber, 83, archbishop of Munich and Freising and dean of the German Roman Catholic clergy, died today.

His death reduced the number in the College of Cardinals to 46. The full strength is 70.

Cardinal Faulhaber, a vigorous defender of the church from the encroachments of both Nazism and Communism, died at his residence while thousands of Munich citizens marched in a big Corpus Christi Day procession.

once. We've also had some mighty nice Mexicans in here and we always serve them. I have witnesses.

Cortez gave this account: "The men seated themselves and started conversing in Spanish. A man who appeared to be the cafe janitor told them the place did not serve Spanish-speaking persons."

"The consul asked why and I asked for the manager. "A man came in from the kitchen and said he did not serve Mexicans."

The group questioned the owner until they were certain they were being denied service on purely racial grounds.

Cortez quoted the owner as saying: "I serve even white trash in my place, but no Mexicans."

Cortez, past national president of the League of United Latin-American Citizens, said he would ask the organization to make a full-scale investigation.

DESIGNING WOMAN

For Modest Beginning Use Smart Casual Furniture

By ELIZABETH HILLIER

The bride who buys her first furniture today is in luck. So much of the smartest furniture is casual and right for modest beginnings, many pieces are designed to serve more than one purpose, many more to fit into the next larger home as well as the first, and one room as well as another.

For wise buying, comfort should come first. Then convenience and adaptability. Here are pieces that fit a good buying plan:

- Two comfortable lounge chairs. Until there are two completely comfortable spots for young marrieds to settle down into for long evenings, home isn't yet the deeply satisfying place it should be. Each chair should be chosen for its perfect fit to the individual regardless of whether or not the chairs match.
- Good quality mattresses and springs. While these are not classed as furniture, they are important in furniture investment. They must insure the restful sleep that occupies one-third of every 24 hours, and headboards and footboards should be omitted if necessary to better the bedding.
- A sofa, that might as well be a bed, too, when it is as smartly styled as the one sketched. Paul McCobb, that far-famed designer for young people, doesn't hide the

bed inside the sofa but makes the sofa bed-width and shortens it for seating with wide removable bolsters.

- A dining table. One that grows from a narrow top to a wide one keeps the room uncrowded between meals and rises to an occasion for guests. The drop leaf table, like all the furniture sketched, is by Paul McCobb.
- Small chairs, the kind that go everywhere. They were never more comfortable and are so smartly styled that they pull up in the living room as well as gather round the dining table and stand duty at desks. There needn't be so many of them and home is less crowded because so many purposes are served. Mr. McCobb's are all wood, wood-arm and upholstered, and fully upholstered.
- A big coffee table, to be useful to several people at once so fewer tables clutter the floor space, and because the larger coffee table adds style to the room.
- A large cabinet, at least one or a grouping of sectional cases, to provide put-away space that makes housekeeping easier. One large piece of furniture, or a compact grouping of smaller pieces, crowds a room less than scattered furniture. Mr. McCobb provides storage furniture of all kinds that fit together and this two-piece cabinet that has a drop leaf desk.

Mrs. Chapman Is Honored; Mrs. Overton Fetes Club

FORSAN, (Sp) — Mrs. Guy Stephenson and Mrs. C. J. Wise honored Mrs. O. C. Chapman at a farewell coffee Saturday morning in the Stephenson home.

Mr. and Mrs. Chapman and the children moved to Wichita Falls the first of the week.

Farewell gifts were presented to the honoree.

Guests, all wives of Continental Oil Co. employees, included Mrs. G. F. Dunean, Mrs. B. D. Caldwell, Mrs. B. J. Wiss, Mrs. Joe B. Hoard Sr., Mrs. B. P. Huchton, Mrs. George Pickett, Mrs. J. D. Leonard, Mrs. Charlie McGuire, Mrs. Jay Disney, Mrs. Charlie Martin, Mrs. C. A. Ballard and Mrs. Howard Swaim.

children of Odessa were week-end guests of the Jesse Overtons.

Mr. and Mrs. Joe T. Holladay left Sunday to spend a week in Austin.

Mr. and Mrs. A. P. Oglesby and Albert had as guests last week, her sister and family, Mr. and Mrs. Joe O'Neal and Dell of Tucson, Ariz. Both families visited other relatives in Mullen, Brownwood and Iraan.

Mr. and Mrs. J. W. Griffith and daughters were recent visitors in Colorado City.

Mr. and Mrs. Gene Smith, Mrs. O'Barl Smith and George O'Barl attended the wedding of a niece, Carolyn O'Barl, in San Angelo Saturday.

Mrs. Vera Harris has received word that her father, C. C. Gaskins, 92, suffered a stroke Monday in Olton.

Mrs. Jesse Overton entertained the Pioneer Sewing Club in her home Tuesday afternoon.

Refreshments were served to eight members. Mrs. J. P. Kubecka will be the next hostess.

Mrs. Hamlin Elrod presided at the meeting of the Methodist WSCS Monday afternoon at the church.

The Rev. R. L. Bowman brought the devotional from Romans 8.

Mrs. L. B. McElreath led the opening prayer.

Projects for the coming year were discussed and a yearbook program and pledge service was planned for the next meeting.

Seven attended including one new member, Mrs. H. L. Nixon.

Mrs. J. D. Martin and daughter, Sandra, left Tuesday for Odessa where Sandra will enter the Texas Elks Crippled Children's Home for an indefinite stay.

Mr. and Mrs. Darnell Peacock and Eddy were week-end guests of his parents, Mr. and Mrs. H. E. Peacock.

Mr. and Mrs. J. D. English spent the week-end in Stamford.

Mr. and Mrs. Sam Starr and Corinne were in Wichita Falls over the week-end. Gary Don Starr, who had been visiting there, returned home with them.

Mr. and Mrs. D. W. Robertson, Robert Lee and Davis, are in Strawn for several days. The 11 daughter and family, Mr. and Mrs. Jack Turner and son of Snyder accompanied them.

Mr. and Mrs. John Cardwell, Mr. and Mrs. R. L. Shelton and Bobby Dean and Jesse Louis Overton attended the Midland Rodeo last week.

Mr. and Mrs. H. L. Gibson and sons were called to Raymondville last week by the illness of a relative. They were vacationing in Kansas at the time.

Geraldine Jones of Roswell, N. M. is visiting her grandparents, Mr. and Mrs. Sherb Berger.

Sammy and Benny Barnett have returned home after visiting in Midland for several days.

The Rev. and Mrs. R. L. Bowman recently visited their son and family, Mr. and Mrs. R. L. Bowman Jr. and Stephen in Big Lake, Minn.

Mr. and Mrs. L. W. Graves of Hammond, Ind., were guests the first of the week of Mr. and Mrs. E. C. Sewell and Betty Ruth. The Graves also visited their son, Leonard, and his family in Big Spring.

Mr. and Mrs. W. E. Wadsworth spent several days in Odessa last week visiting their daughters and families, Mr. and Mrs. Roy Davis and Mr. and Mrs. B. R. Holt.

Mr. and Mrs. John Cardwell will have as their week-end guests, her father, B. A. Edens, of Rice and her brother and sister-in-law, Mr. and Mrs. J. N. Edens, of Dallas.

Mr. and Mrs. T. C. Rankin and

Bread and Butter
Cake Squares
Beverage
(Recipe for Starred Dish Follows)
BUTTERED CARROTS WITH CELERY
Ingredients: 2 cups diced carrots, 1 cup diced celery, 3/4 cup boiling water, 1/2 teaspoon salt, 2 tablespoons butter or margarine, freshly-ground pepper (to taste).
Method: Put carrots and celery in medium-sized saucepan; add water and salt. Bring quickly to a boil; cover saucepan, reduce heat, but keep boiling actively until tender—8 to 10 minutes. Drain off small amount of remaining liquid in saucepan. Stir butter into vegetables until melted and add pepper. Makes 4 to 5 servings.

Cora Selkirk Is Honored At Shower

Cora Ellen Selkirk, bride-elect of Calvert Koether, was honored Tuesday evening at a kitchen shower in the home of Mrs. M. E. Anderson.

Hostesses were Melba Dean Douglas and Betty Lou Ratliff.

The refreshment table was laid with a red and white check cloth and centered with a teapot filled with white daisies and surrounded by miniature cooking utensils.

Attending were Evelyn Anderson, Bobbie Green, Wilma Rude-seal, Marilyn Newsom, Doris Jean Stevenson, Betty Smith, Beverly Stulting, Mrs. E. A. Godwin Jr. and Mrs. Marguerite Selkirk.

Mrs. Jim Sharp has as her guest his sister, Mrs. A. L. Foster, and children, Donna and Steve, of Dallas. During the week-end Mrs. W. A. Hale and children, Barbara and Chadd, of Dallas also were her guests.

Mr. and Mrs. T. C. Rankin and

113 Pansy Potholder

Easily crocheted in two layers—one in shades of soft yellows, the other side done in violet and white, the pansy has a center of brown and a heart of pale yellow. Measuring 7 by 8 inches, the big gift "Pansy" has bright green leaves and a "stem" by which it hangs on a hook. Big detailed sketch of pansy makes crocheting easy.

Actual Communism cannot rest on free will. Few such experiments have lasted a year. Some monasteries are said to have communistic life but no nation on earth has anything remotely resembling true communism. "But a certain man named Ananias with Sapphira, his wife, sold a possession, and kept back part of the price." — Acts 5:12.

MacArthur Choice Apt To Stir Up More Tempests In GOP Ranks

In theory and by custom, the man who delivers the keynote address at a national political convention is neutral as between presidential aspirants, since he is speaking for the whole party and not for any one candidate.

The Taft-controlled GOP arrangements committee for the Chicago convention starting July 7 couldn't be bothered by such niceties of ethics, so it picked General Douglas MacArthur as the keynoter. Such had been rumored for days, and not unnaturally the Eisenhower people had protested the plan as a bare-faced and unblushing bit of partisan maneuvering in behalf of Senator Taft, whose candidacy has been supported by General MacArthur.

All this goes back many months, when it was first reported that the Taft people planned a big convention coup, to kill off Eisenhower, by having General MacArthur make a speech in which he would denounce any attempt to nominate a military man as the party standard-bearer. The fact that the general himself once gave the nod for his supporters to place

him in nomination (1948) cut no ice with the Taft strategists.

Selection of MacArthur as keynoter does more than place his fellow General of the Army Ike Eisenhower at a disadvantage. It gives the Pentagon a Grade A headache, for military regulations forbid officers on active duty to engage in political campaigning. Eisenhower got around this by retiring without pay, and he has said that if nominated he will resign.

The regulations specifically forbid "activity at political conventions" and "the making of political speeches" to officers on active duty. MacArthur is on active duty, but without any command. The question is, will he follow Ike's example and retire, or go ahead in his present status and defy regulations—assuming, of course that he accepts the role of keynoter? And if he does defy regulations, will the Pentagon find MacArthur is too hot to handle, and just ignore it?

All of this, of course, is building up to a terrific fight at the GOP national convention, and the question in many minds is, Can the GOP survive this fight and have a chance to elect the nominee, whoever he is?

Losing Her Charm

If You Possess A Flag, Fly It Proudly On National Flag Day

Old Glory will be 175 years old next Saturday, June 14. It was on that day in 1777 that the Continental Congress adopted the Stars and Stripes as the official United States flag. Woodrow Wilson in 1916 and Calvin Coolidge in 1927 suggested in proclamations to their "fellow countrymen" that June 14 be observed as Flag Day.

Flag Day is a legal holiday only in Pennsylvania, the state of its birth, but by an act on August 3, 1949, Congress asked the President to call for a national observance each year. In his proclamation for 1952 President Truman asked citizens to give special thought on June 14 "not only to their many rights and privileges, but also to their duties and responsibilities under our national ensign."

The movement to have June 14 designated as Flag Day originated in 1885, but as noted it was not until 1949 that anything very definite was done about it.

Perhaps it never will gain the status of a holiday, of which we have too many already, with the result that most of them are neglected or ignored; but Flag Day

is an occasion for thought, as Mr. Truman points out.

It should also be the occasion for the public display of an emblem that has come to stand for human liberty to most of the peoples of the earth. The veneration in which it is held is reflected in the hate and detestation of it among those who would undermine and destroy it.

We think a public display of Old Glory at all time is in order, but more especially so on Flag Day and other patriotic occasions. There is something inspiring and uplifting in the very sight of our flag. We never see it floating above a public or private building that we don't get a thrill out of it.

Within the next few years the probability is that our flag will undergo a slight alteration, when and if Hawaii and Alaska are admitted to the Union. If only one is admitted, it will be a simple matter to rearrange the 49 stars in seven rows of seven stars, instead of the present six rows of eight stars. If both become states, the problem will be more complicated.

Today And Tomorrow—Walter Lippman

Truman Words On Air Power Do Not Coincide With Ridgway's

It is not easy to reconcile what President Truman said Saturday about our air power in Korea with what General Ridgway's headquarters in Tokyo has been reporting about the build-up of the Communist forces.

According to Ridgway, besides the Communist air force based in Manchuria, the enemy has built up in North Korea a ground force of more than three-quarters of a million men with an increasing quantity of artillery and tanks. But according to the President, speaking at the reunion of the 35th Division: "We have been able to maintain air supremacy over most of North Korea. That means we can bomb the enemy at will, almost anywhere in his territory. At the northern frontier on the Yalu River we do not have supremacy but we do have clear superiority in air power—which means we can reach our objectives, even though we have to fight off opposition."

Since there has been no inhibitor on bombing North Korea, how can it be that the enemy has built up such formidable forces though we can bomb them at will almost anywhere in his territory and—despite opposition—can reach our objectives? Unless General Ridgway has exaggerated the build-up, the President must be exaggerating our air power.

The weight of opinion is, I believe, that while we can bomb in North Korea, we cannot bomb "at will" or count on reaching our objectives—which would be, of course, to prevent the build-up. Whether the Communist build-up is sufficient to enable them to take the risks of another offensive is anyone's guess. It cannot be ruled out entirely. The risk of having the war spread beyond the Korean peninsula would be, of course, enormous, or both sides and for all concerned. Yet is not entirely certain that their calculations of the risks and ours would be the same.

Their calculations are certain to take account not only of the military forces in being and in reserve but of the political condition of our alliances and of theirs. In the Far East, unhappily, we have been neglecting our alliances. We have handled them carelessly and even crudely. As a result we have created a dangerous temptation to the war party in the Kremlin: The temptation that by enlarging the war in the Far East they might disrupt our alliance in Europe and break down our position in the Middle East and in Southern Asia.

There is a profound difference of view on Far Eastern policy between us and all our important allies, and between us and all the independent governments of Asia and Africa. As long as the war is limited to the Korean peninsula where we carry the main burden, these differences of view can be subdued and can be kept from dividing the coalition. But this uneasy collaboration would not continue if by any decision or act which was our responsibility

the war were extended beyond Korea.

One of the fundamental facts of international life—which is not well enough understood in Congress and in the country as a whole—is that the NATO alliance and the European Defense Community are not committed to take part in a Far Eastern war. It would, therefore, be the height of imprudence to assume that on an issue arising out of Korea or Formosa or Indo-China the European governments would automatically declare war on Soviet Russia or that they would mobilize and participate in the strategic air offensive.

For these reasons a fundamental rule in conducting the Korean struggle is that what cannot be done by military action within Korea must be done—if it can be done at all—by diplomacy.

The sad truth, which is well known to all, is that American diplomacy in the Far East is frozen tight—so tight that it is by no means certain that it can be thawed out even after the election. Mr. Acheson not only never goes near Asia himself but does not mention any of the real issues in Asia if he can avoid it. Mr. Dulles has been trying to tide us over the election period, hoping to avoid too sharp and irreparable an alignment within the country by offering a series of calculated ambiguities—on the theory presumably that the respectable leaders on all sides might agree amiably to misunderstand them.

The best that can be said for all this is that while the Korean war is nasty and cruel and hopeless, it is a more localized nastiness and cruelty and hopelessness than it might be. Perhaps all concerned—including our adversaries—may find it better to wait and see what our election brings, letting bad enough alone for the present lest it become ever so much worse.

Frescoes Uncovered

RUSSELL, Italy (AP)—Three frescoes almost 1,000 years old, were uncovered in a barn near here by General Pietro Pozzi-Siboni.

The frescoes were part of an ancient church which was turned into a barn when a new church was built in Russia.

The three frescoes represent three unidentified saints and are in excellent condition.

Rising Sun Is Back

VANCOUVER (AP)—The "Rising Sun" was flying in the port here recently for the first time since Pearl Harbor.

The once-familiar Japanese flag was flying from the steamship *Meiwa Maru* as she arrived on her maiden voyage, first Japanese ship here since the motorship *Hikawa Maru* sailed for Japan a few weeks before Pearl Harbor.

Merry-Go-Round—Drew Pearson

Truman Letter To Amon Carter About Tideland Ends Up In Waste Basket

WASHINGTON. — President Truman wrote another personal letter the other day, this one to Amon Carter, No. 1 citizen of Fort Worth, Tex. However, he didn't mail it—at least, not the original draft.

He slept on it, finally tore the original draft up.

But the inside fact is that when the President sounded off on Tideland oil to the Americans for Democratic Action dinner two weeks ago, a letter from Amon Carter was the cause of it.

Carter, famed for his efforts to keep the city of Fort Worth ahead of its rival Dallas, also famous for handing a ten-gallon hat to every prominent visitor, happens to be on friendly terms with President Truman. The President likes and respects him.

However, just as the Tideland oil bill was passed by Congress and sent to the White House, Carter wrote the President a letter arguing that the school children of Texas would be robbed of oil royalties if the bill were vetoed.

It was at this point that the President drafted a hot reply to Amon, then thought better of it, consulted with aides, and tore his letter up. Instead, he made a speech before the ADA, calling the Tideland oil bill "robbery in broad daylight."

The personal talk with President Truman and Senator Kefauver last week was pleasant but inconclusive.

Kefauver told Truman that he had come to report on the state of the Democratic party around the country, and they talked for about 20 minutes on party matters with

the President asking about various local leaders. His memory for names was remarkable.

Kefauver then said he hoped the President would take no part in the prenomination fight, and Truman promised that he would not. He added that he hoped the race would leave no scars that would not be healed after the convention. Kefauver replied that, as far as he was concerned, there would be no scars.

The President then talked about his veto of the Tideland oil bill, and Kefauver promised to uphold the veto when it comes up in the Senate. The visit was polite, friendly, and that's all.

MAINE PRIMARY — Senator Brewster of Maine rushed back to Washington in the middle of his campaign last week to try to stop an investigation of himself. The Senate Elections Committee had sent an investigator to Maine to check on testimony that Brewster offered \$25,000 to a liquor dealer in order to influence his opponent, Governor Payne. Brewster was furious when he learned about the investigation. He caught the first plane back to the Senate and slipped around to see the committee members. The Spanish government's hired lobbyist, Charles Patrick Clark, also got busy lobbying, trying to persuade the committee to call off the dogs.

NAVY POLITICS — Secretary of the Navy Kimball again defied his boss, Secretary of Defense Lovett, by sounding off on supercarriers recently. Last January Kimball got in hot water with Lovett by calling for 10 supercarriers. At a closed-door meeting with businessmen not long ago, Kimball not only repeated his demand, but said he hadn't asked for enough supercarriers—the number should be doubled.

SOUTHERN DELEGATES — The Taft forces pulled another raw deal recently that didn't get into the papers. In Birmingham, Curtis Adkins, for Taft, and Claude Vardeman, for Eisenhower, shook hands on a deal in the Tutwiler Hotel in Birmingham, to split Alabama's delegates at large—two for Taft and two for Ike. But, after making the bargain, Adkins double-crossed the Eisenhower forces and rammed through three delegates for Taft.

KOJE ISLAND PUNISHMENT — The Senate Armed Services Committee is not satisfied with the light punishment given to the Kojima generals. At a closed-door meeting, committee members agreed that Generals Francis Dodd and Charles Colson got off too easy when they were busted to colonels. They also agreed to call all the principals in the Kojima fiasco back to the states for stiff cross-examination. Meanwhile, the committee staff is studying a secret file, three inches thick, on the Army's handling of Communist war prisoners.

WHAT NEXT IN KOREA—British and American intelligence disagree on whether the Communists intend to launch a new offensive in Korea. American agents admit the Communists have reinforced their ground and air forces, but they don't look for any new attack. On the other hand, the British definitely believe this buildup is the prelude to a new gigantic offensive timed with a breakdown in the Korean truce talks. This fear is the reason behind Prime Minister Churchill's statement to the House of Commons last week about the Communist buildup.

Notebook—Hal Boyle

Mama Is Becoming Quite A Fisherman These Days

NEW YORK, June 12 (AP)—Millions of American husbands are going forth now to ply the nation's streams with rod and reel.

Guess who's going along, too? Mama!

The lady fisherman is a rising figure in the world's oldest sport. Just why is beyond me. I have become reconciled to the fact that baseball no longer could get by without the financial benefit of lady rosters. Lady wrestlers I can understand, as they get paid for their hair-pulling mayhem.

But the why and the wherefore of the enormous increase in the number of lady anglers escapes me altogether. Women are highly practical creatures, and if there is anything more impractical than dangling a line in a stream and waiting around for a fish to bite on it, please name it. I can't.

Men know that fishing is an illogical business, of course, and that is why it has appealed to them for centuries. They enjoy romantic nonsense, and always have. The more senseless a thing is the greater appeal it has for many men.

Fishing is a perfect escape from reality for them, a chance to daydream under a summer sun, away from the cares of husbandhood and parenthood. And a fishing party made up of the right kind of fellows never even bothers to drop a hook into the water at all. They get out the jug and the cards and settle down happily to the real purpose of the trip. Anyone of the group who insists on fishing is

shouted down by all as a traitor.

The entrance of women into fishing has changed it from an individual manly sport into a family industry. Papa may not care a hang whether he catches what is called a piscatorial prize, but mama does. She didn't go all that distance for nothing. She wants to bring something home.

She goes about the task as grimly as if her husband was a bacheur again, hidden beneath the surface and trying to evade her lure.

"That is why I believe more and more wives like to go fishing," one veteran told me. "Every time they haul up a wet, dripping fish it gives them the same thrill they got when they first snared their man."

This same old rascal has a theory also—why women often turn out to be better anglers than their husbands.

"A woman drops in her line and the fish swims up, looks at it and sneezes," he said. "Then he looks up through the water and sees straining down at him some frizzle-haired monster overflowing a pair of blue jeans. She is wearing dark goggles and her nose is covered with lumps of sunburn cream."

"The fish breaks out laughing, 'ho, ho, ho!' This is something the other fish ought to see. He opens his mouth, and turns his head to call his buddies—and accidentally the hook swings into his mouth. 'I suppose a million fish a year are caught just that way.'"

Success Is Evident In The Work Of UN; Continue To Support It

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

Saturday is United Nations Day. It would be a fine thing if people, for a few moments anyway, should stop and think about the world organization and its accomplishments.

For one who is an earnest advocate of this body, it's not easy to admit certain shortcomings. But by no means do these shortcomings mark the UN as a failure. In fact, for the most part, I believe the world body is doing an excellent job.

We must bear in mind that while the UN is a peace-keeping organization, its activities are far from restricted to this field. Basically, I think its primary purpose is to make the world better economically and socially. This, most definitely, has been done to a great extent.

In reality, you know, wars never occur when a people are happy and contented. Usually, when famine and hard days strike a nation, it looks elsewhere for a solution, never considering that the troubles it has come from within its own lands. Such was the reason for the late war. Germany was economically in trouble, though this trouble stemmed from the hardships imposed by the victorious Allies in 1919. But the fact remains, the economic sanctions imposed within Germany forced the people to take another tack in their search for contentment. Thus, they turned to the rabble-rousing Adolf Hitler who promised this to them.

Consequently, it is the job of the UN today to better living conditions throughout the world, getting the nations and people of the world to work together, aiding each other, and thwarting future wars.

In the case of blood thirsty dictators such as Joe Stalin, he finds himself in trouble economically. Failure to grant freedom to his people such as we enjoy in a democratic nation hinders initiative of a people, and they in turn do not do all they can to better their lot since what good does it do them? Especially when the regime takes most of what their efforts produce.

As a result, Stalin feels he can acquire

his needs elsewhere and embarks on a campaign to take over nations.

Through its subsidiary health, economic, refugee and other organizations, UN is improving the lot of the people and most nations recognize this. Proof enough of this fact is noted in increased budgets for the economic and social groups within the UN and the impressive figures involved in past work. For example, over one million refugees have been resettled by the UN.

As regards UN efforts to hold the Russians at bay, I think success is noted. In the first place, prior to the Korean War, Russia and her satellites had been over-running nations quite regularly. Since the Korean war, no Red nation has invaded a free land. All of which leads me to believe that the extensive support given the UN campaign in Korea by other nations has made Joe Stalin and Company think twice about sending satellites off on invasions. For such a relatively inconsequential nation such as Korea is geographically situated and otherwise, the UN effort there stands out as quite an accomplishment for a co-operative endeavor. It has also forced Uncle Joe to retreat a little in Berlin, contenting himself with threats and a few shows of force that have not been successful.

More words can be said as to the relative success of the UN. Suffice to say, however, that we have made progress under the world organization. But it needs continued support from all people desirous of a real and lasting peace.

Stop and think, then, about the UN on Saturday, or anytime you have a chance. Speak out for it, support and assist it when you can. It's for your good and it's your voice that makes it work. Diplomats are sensitive to public opinion and your voice will be heard when these diplomats need to be told to act.

After all, even our own Congress horses around plenty and you write your congressmen to tell him to act, not horse-play, don't you?

—FRED GREENE.

THIS DAY IN TEXAS

By CURTIS BISHOP

Four Texas brothers made a three million dollar "haul" in a mail train robbery at Roundout, Illinois on this day in 1924.

The four had been led through their career of crime by the oldest brother, Willie Newton, who in his lifetime achieved the dubious distinction of being accused of more bank robberies than any other criminal in the whole country.

The Newtons, born and reared in Texas, started their nefarious work in 1921, when they robbed banks in Hondo, Winters, New Braunfels, Boerne and other small Texas towns. By 1924 they had stolen more than half a million dollars. With more nerve than good sense, they had frequently en-

gaged in running gun battles with police, always managing somehow to elude pursuit.

Mail train robberies proved a more lucrative source of income for the Newtons than did the banks. They picked up several hundred thousand dollars this way, but the three million dollar job was their undoing. The police chief of San Antonio got the credit for uncovering evidence which eventually led to the arrest of the brothers, and less than six months after their biggest job they were behind bars in a Federal prison. At last reports they were still there.

Uncle Ray's Corner

Black Eagles Help Hunter

Perhaps someone in North America has a full-grown pet eagle, but in my travels around this continent I never have found such a bird being kept by a family.

An interesting pet eagle (of full size) was called Old Abe. He was kept as a mascot by Wisconsin soldiers during the American Civil War. We are told that he was allowed to fly freely at times, and soared over battlefields. After Old Abe died, the body was stuffed and placed on display in the Wisconsin state capitol building in

Madison. A fire early in the present century destroyed this remnant of the past.

Rare as eagle pets may be in our part of the world, there is a section of Asia where they are valued highly. I am thinking of Turkistan in central Asia.

There is special reason for eagles to be tamed in Turkistan. Some of the natives chiefly members of the Kirghiz tribes, use them in hunting!

The swift, powerful birds bring down foxes, antelopes and wolves. They strike with their talons as well as their beaks. Now and then, when they swoop down, they seem to stun a victim with blows of their wings.

Young eagles are trained with care for this work. When one of them is taken for a hunt, a hood is placed over its head. The master rides a mountain pony, and lets the bird rest on a perch at the front of his saddle. If the man sees an animal, he takes off the hood and the eagle's sharp eyes quickly tell it where to go. The bird carries the game back to the master, or else leaves it where he can pick it up.

The black hunting eagles of Turkistan are in high demand. One which is well trained will bring a high price. Sometimes a camel is traded for such an eagle!

The use of those hunting eagles may remind you of a sport which was followed widely during the Middle Ages. The sport was called falconry. Men and women had pet falcons, or hawks, and these birds would fly out and capture other birds for their owners.

Taft May Hold Another Ace

By D. HAROLD OLIVER
 WASHINGTON (U)—Supporters of Sen. Robert A. Taft are laughing up their sleeves these days. It's about a rule put through in the 1944 Republican national convention controlled by the forces of Gov. Thomas E. Dewey, long a Taft rival. The rule stipulates that only seating contests affecting delegates-at-large may be presented to the convention for settlement. The rule was not strictly adhered to in the 1948 convention which gave the New York governor a second presidential nomination. But Sen. Taft has indicated he will insist on its application at the coming convention in Chicago. If he does and is upheld in committees expected to be dominated by Taft supporters, the contests between him and Gen. Dwight D. Eisenhower over 77 delegates from five southern states would be reduced to embrace just 18 delegates—four each from Georgia, Louisiana and Mississippi, and six from Texas.

to line up this way in taking their contests before the national committee, credentials committee, and then the convention itself. Georgia—two factions, each with a complete slate of 17 delegates will seek seats. One is headed by W. R. Tucker, has the support of the state's two national committee members and claims to be the "regular" organization. It was seated in the last two national conventions. This year it has 13 favoring Eisenhower, two for Taft, and one undecided. Another faction headed by Roy G. Foster has all 17 for Taft. Louisiana—Taft forces will send to Chicago a complete slate of 15 delegates. They will be opposed by 13 Eisenhower delegates. Mississippi—Three delegations of five each will contest. The "black and tan" regular faction long recognized at national conventions is pro-Taft. The "illy

white" group has split into two factions, one instructed for Eisenhower and the other uncommitted but favoring Eisenhower. Texas—One delegation of 38 selected by the Taft forces gives four of its delegates to Eisenhower, the rest to Taft. Supporters of Eisenhower walked out of the pro-Taft meeting and named their own

38 but gave Taft five of these. Virginia—The Third District selected rival slates of two delegates each, the "regular" convention naming one pro-Taft and one uncommitted and a "rump" session picking two pro-Eisenhower delegates. The state convention seated all four as delegates with half a vote each to avoid a floor fight.

Red Leader Down

Maj. Daze Korn, Richmond, Va., bends over downed Red POW leader, Col. Lee Huk Koo during a bloody fight at Communist POW compound on Koje Island. Koo, who was the leader of the prisoners and who defied an order of Gen. Haydon-Boatner, camp commander, to prepare the prisoners in compound 76 for movement to another compound, was evicted from the compound by the seat of his pants. He was unarmed, and was placed in solitary confinement. One American and 31 Communist were killed in the ensuing fight. (AP Wirephoto via radio from Tokyo).

Chicken, Egg Prices Rise As Potatoes Remain High

By The Associated Press
 Frying chickens and eggs cost a little more in most food stores this week. Potatoes, though much more plentiful, held close to the higher price levels reached last week and after their price ceilings were suspended. Many fresh vegetables were lower in markets receiving sharply increased supplies from nearby truck gardens enjoying favorably warm growing weather. Citrus fruits, plums and cherries were mostly higher. Frying chickens (with cranberry sauce) were adopted this year as the "official main dish" for Father's Day dinner this Sunday by the National Father's Day committee. But fryer prices in most sections were up 2 to as much as 7 cents a pound over last week end. Poultry buyers for leading store chains said demand for the lightweight chickens has been good and that supplies had been further reduced

because recent low prices had led producers to trim production. Beef, pork and lamb prices showed little overall change. The 1 to 2 cents a dozen advance in large eggs was attributed to warmer weather, which increases the difficulty of maintaining top egg quality and results in seasonally lower production. Snap beans, beets, broccoli, cabbage and cauliflower led the list of lower-priced vegetables this week, but asparagus, carrots and scallions also were down somewhat in most places. Watermelon was becoming more plentiful and with Texas and Arizona shipments due soon, sellers marked off their prices. Week-end specials in the big chains and major independents included roasting chickens, turkeys, blade chuck pot roasts, rib roasts, ground beef, smoked hams, snap beans, onions, cabbage and cheese.

New Method Of Detecting Early Cancers Is Revealed

By ALTON L. BLAKESLEE
 Associated Press Science Reporter
 CHICAGO (U)—X-rays that put a picture on a TV screen can make a mosquito seem as big as a grapefruit. These new pictures promise a safe, easy method of X-raying to detect early cancers or other troubles of the stomach or intestines. Or of letting a doctor watch exactly what happens when he seats broken bones. The X-ray device was described today to the American Medical

Association by Robert J. Moon, University of Chicago physicist. X-ray pictures of the middle of the human body are hard to take clearly without using a fairly heavy dose of X-rays. Some method is needed that uses a light dose but gets clear pictures, and a method suitable for mass survey use like chest X-rays to spot tuberculosis. Moon's device gets X-rays from electrons hitting a tungsten target. The rays go through a tiny pinhole, and form a pattern. But only one in 10,000 of the rays gets through. The rays pass through the body, then are turned into bursts of ultraviolet or suntan rays. A tube picks up these rays, turns them into electric impulses, and multiplies them many millions of times. These impulses go through a TV viewing tube, and appear magnified on the screen. The pictures are a thousand times more brilliant than the usual ones on a fluoroscopic screen. The doctor can watch the picture on the screen, or take movies or still photographs of it.

Group Opposes Scurry Co. Oil Method Change

FORT WORTH, June 12 (U)—Any proposed change in the method of allocating oil production as part of an authorization plan for the Kelly-Snyder Canyon Reef lime area of Scurry County was opposed at a meeting here yesterday. Operators and lease and royalty owners who said they represent approximately 12 per cent of the wells in the pool attended the meeting. The authorization agreement is sponsored by the Scurry Area Canyon Reef Operators' Committee. These meeting here agreed that they do not object to a pressure maintenance program in the pool or to any reasonable conservation measures. They also were not generally opposed to an effort to work out a secondary recovery program. Their main objection is to any effort to change the proration formula from the one which has been in effect since the pool was opened. The group said in a statement: "An important part of the contract, being circulated and for which approval later will be sought before the Railroad Commission, is to change the method of allocating oil within the field so that proponents will get more allowable oil and the opponents less. W. A. Moncrief Jr., of Fort Worth was elected chairman of the group and of an executive committee, which includes Glenn Stewart, representing L. M. Lockhart, Corpus Christi, and H. F. Beardmore, Warren Oil Corp., Houston.

Thompson Isn't Supporting Ike

CARACAS, Venezuela, June 12 (U)—Ernest O. Thompson, Texas Railroad Commissioner, said last night he was completely surprised by a report that he's supporting Gen. Dwight D. Eisenhower for President. "I am a Democrat, and I'll support the Democratic nominee," Thompson said. He added that he wanted to see the Democratic platform uphold state's rights, however. Kansas' Gov. Edward Arn said Tuesday that Thompson supported Eisenhower's candidacy. Thompson refused to comment on why Arn, a backer of the general, made the statement. The Texas official said he wanted a Democratic President who will restore the tidelands oil and leave fair employment practices up to the states. Thompson is here as head of a Texas oil delegation invited by the Venezuelan government to meet oil men and visit local fields. They will inspect the Lake Maracaibo oil fields today and plan to return home Saturday.

Gulf Intercoastal Waterway Survey To Be Made By The Army

MIAMI (U)—Gulfstream Park, which recently boosted the purse for the Florida Derby to \$100,000, announced today the Gulfstream Park Handicap will carry a purse of \$50,000. The mile and a quarter Gulf stream Park event previously carried a purse of \$25,000 and was the chief feature of the Hallandale track

Baptist Executive Group Picks Head

NASHVILLE, Tenn., June 12 (U)—The Executive Committee of the Southern Baptist Convention yesterday elected Dr. J. W. Storer, pastor of the First Baptist Church of Tulsa, Okla., as president. He succeeds George B. Fraser, Washington attorney. The election came at the opening of a two-day semi-annual meeting here

Busy Cop Gets Master's Degree

Robert McNertney, shown here in two different roles, smiles when irate motorists imply he's just a dumb cop. The 29-year-old Pittsburgh, Pa., traffic motorcycle patrolman was awarded his Master of Arts degree in sociology at the University of Pittsburgh commencement exercises. He attended Pitt in off-duty hours and hopes to land a high school teaching job. (AP Wirephoto).

Escapee Stabs Girl Hostage To Death

CARMEL, N.Y. (AP)—An escaped convict, making a desperate effort to seize a getaway car, stabbed a 9-year-old girl hostage to death yesterday as police closed in on him. Hit by three police bullets, the convict surrendered and was taken to a hospital. His little victim, stabbed with a butcher knife as her mother looked on helplessly, died an hour later. The slayer, Donald Snyder, 25, of Canastota, N.Y., gave warning of his desperation and cried: "If you come near me, I'll stab the child." Alex Williams, 45, school bus driver and a special policeman, tried to persuade Snyder to release the child, Betty Lou Arnold. As he talked, he sidled up closer and fired, hitting Snyder. The convict then plunged the knife into the little girl's abdomen. Williams fired two more shots, and Snyder gave up the fight. Williams drove the school bus that brought Betty Lou home late yesterday. The little girl, daughter of a prosperous hardware merchant, was crossing the lawn to join her young sister and another child when Snyder emerged from behind a bush. He walked up to the house and told Mrs. Snyder: "I'm an escaped convict. The cops are after me. I'm not fooling. I want you to let me in here or I'll take your children." The mother screamed to the children: "Run, Run!" Two of

them ran, but Snyder seized Betty Lou. Williams, seeing Snyder grab the child, drove away to get his gun. As Mrs. Arnold ran toward a phone, Snyder kicked open the house door, dragged Betty Lou into the kitchen and grabbed the butcher knife. He told the woman: "I want you to drive me to New York"—more than 50 miles away. As Snyder held the knife close to the child her mother led them into the family car. While Mrs. Arnold stalled for time, Williams arrived with his gun. He and State Trooper Raymond Scarrachio, summoned by neighbors, sought to rescue the child. Snyder, who was serving a 2½-5 year term in Green Haven State Prison for auto theft, had escaped Tuesday. Putnam County Dist. Atty. Fred A. Dickinson said a murder charge against Snyder would be presented to a grand jury tomorrow. "I may see some of them but I

Plans Readied For Blood Drive In Mitchell Co.

COLORADO CITY, June 11—Junior Sadler, selected Tuesday as the chairman of the Bloodmobile drive for Mitchell County, announced P. C. Smith as co-chairman today. The Veterans of Foreign Wars will sponsor the visit in Colorado City and Sadler is commander of that group while Smith is a trustee. Colorado City Jaycees pledged full support to the drive at their Wednesday meeting, according to President Ray Noble. Sadler and more than 35 members of various organizations met at the educational building of the Methodist Church Tuesday afternoon, with Mrs. Bonnie Burt, local Red Cross secretary, and field representatives of the Red Cross from Fort Worth. Sadler says that plans are being laid to sign 200 donors for the one day visit, which is scheduled for July 10th. "Every ounce of this blood will go to our armed forces overseas," said Sadler, "and we feel that this is an opportunity for our home-folks to support our fighting men." The unit will set up in the American Legion Hut at the corner of Third and Chestnut, and the Federation of Women's Clubs has volunteered to furnish and serve refreshments to donors. Mrs. Burt stated Wednesday night that the project had been cleared with City and County Health Departments and the local hospital, and releases mailed to Red Cross headquarters today.

Midland Oil M.cn Dies In Colorado ESTES PARK, Colo., June 12 (AP)—B. R. Schabarum, 49, Midland Tex., oil man, died yesterday of a heart attack as he was being rushed to a doctor. Schabarum, manager of the Carl B. King Drilling Co., was stricken while riding in an automobile driven by Robert L. Yeates of Independence, Mo. He died at 11,900 feet elevation on the scenic Trail Ridge Highway, 18 miles west of here, as Yeates was driving for medical aid.

SEEKS MORE VOTES It's Taft Turn To See NJ Delegates

NEW YORK (AP)—Sen. Robert A. Taft meets today with New Jersey GOP convention delegates in an effort to bolster his presidential bid with a group already predominantly on record as favoring his major opponent. The Ohio senator, who arrived here by plane last night from Washington, has invited the New Jersey delegates to meet with him at the National Republican Club. Of New Jersey's 38 convention votes, Associated Press tabulation lists six for Taft, 31 for Gen. Dwight D. Eisenhower and one for Harold E. Stassen. Further, Taft and New Jersey Gov. Alfred E. Driscoll have been unfriendly since mid-March, when the governor announced he was for Eisenhower. Taft supporters charged Driscoll with double-crossing them by endorsing Eisenhower instead of remaining neutral. The governor denied the charge and quoted Taft as saying he knew for months that Driscoll favored the general. Taft withdrew from the New Jersey April primary campaign and sought unsuccessfully to have his name taken off the primary's presidential popularity poll. Eisenhower won the poll, scoring 160,000 more votes than Taft. Taft was met last night by a group of admirers and a number of newsmen. Asked to comment on the appearance of Gen. Eisenhower, Taft replied, "not right now." He indicated, however, that he would have something to say on that subject during his conferences and speeches here. One reporter mentioned a newspaper reference to "Eisenhower, the candidate of Wall Street, and Taft, the candidate of Main Street." Taft chuckled and said, "I heard about it." He said he had no comment on charges by Eisenhower backers that the selection of Gen. Douglas MacArthur as keynote speaker in Chicago next month was evidence of a Taft supported "steamroller movement." Snyder said he "may or may not" see MacArthur while in the city. Asked if he planned to see any of the New York convention delegates, whom Gov. Thomas E. Dewey says are almost 100 per cent for Eisenhower, Taft replied: "I may see some of them but I

Commercial TV Gets Okay For Future British Shows

LONDON (AP)—The House of Commons decided at last to allow advertising someday on British television. The Conservative government assured Parliament that programs would not be like those in America, because Britons "are a much more mature and sophisticated people." The government's scheme—approved by a 297-269 vote—calls for commercial TV stations, with advertising, as an experiment when the country's financial position improves enough to lift controls on spending by private firms. Until then—British TV as well as the nation's radio will remain a monopoly of the government-controlled British Broadcasting Corporation which accepts no advertising. Home Secretary Sir David Maxwell Fyfe told the House it was foolish to assume commercial sponsors would lower TV's standards here. "I am not impressed by analogies from the United States," he said. "We have our typically British way of resolving problems of taste. We are a much more mature and sophisticated people." Laborite opponents, who want the government to keep control, contended commercial TV would mean U.S.-type children's programs in which "the gun, the gat, the rod and six-shooter is the prime motivator."

Livestock Show Set

SAN ANTONIO, June 12 (AP)—The San Antonio Livestock Exposition will be held Wednesday, Feb. 20, through March 1 next year. The dates were set yesterday by the exposition's executive committee.

TEXAS BRANDS Deal For GOP Votes Denied By Gov. Fine

HARRISBURG, Pa. (AP)—Gov. John S. Fine of Pennsylvania says he hasn't proposed any meeting of the state's Republican convention delegation with those of Maryland and Michigan to control the party's presidential nomination. The Baltimore Sun said Fine, so far uncommitted in the race between Sen. Robert A. Taft of Ohio and Gen. Dwight D. Eisenhower, had approached Maryland Gov. Theodore R. McKeldin and Michigan's national committeeman Arthur Summerfield about the idea through "an intermediary." The intermediary was not identified. "I have not proposed any meeting with anyone from Maryland or Michigan nor do I know of any such meeting," Fine said last night when told of the report. He said he hadn't talked with McKeldin in almost a year adding "I'm sure he will confirm that." He said he didn't remember ever meeting Summerfield. But McKeldin refused to deny or confirm the story with a terse "no comment." Summerfield told a reporter he would not talk about what the Michigan delegation will do. Pennsylvania's 70 votes at the convention, according to the latest Associated Press polls, are split with 20 for Eisenhower, 18 for Taft and 32 uncommitted and generally credited to Fine. The Michigan tabulation shows 6 for Taft, 7 for Eisenhower and 33 uncommitted or in dispute out of 46. McKeldin is credited with being able to control most of Maryland's 24 votes.

Seek License Renewal

WASHINGTON, June 12 (AP)—Trans-Texas Airlines' application for a renewal of its certificate to serve the Rio Grande Valley will have a Civil Aeronautics Board hearing in Corpus Christi July 22, the CAB said yesterday.

Deal For GOP Votes Denied By Gov. Fine

HARRISBURG, Pa. (AP)—Gov. John S. Fine of Pennsylvania says he hasn't proposed any meeting of the state's Republican convention delegation with those of Maryland and Michigan to control the party's presidential nomination. The Baltimore Sun said Fine, so far uncommitted in the race between Sen. Robert A. Taft of Ohio and Gen. Dwight D. Eisenhower, had approached Maryland Gov. Theodore R. McKeldin and Michigan's national committeeman Arthur Summerfield about the idea through "an intermediary." The intermediary was not identified. "I have not proposed any meeting with anyone from Maryland or Michigan nor do I know of any such meeting," Fine said last night when told of the report. He said he hadn't talked with McKeldin in almost a year adding "I'm sure he will confirm that." He said he didn't remember ever meeting Summerfield. But McKeldin refused to deny or confirm the story with a terse "no comment." Summerfield told a reporter he would not talk about what the Michigan delegation will do. Pennsylvania's 70 votes at the convention, according to the latest Associated Press polls, are split with 20 for Eisenhower, 18 for Taft and 32 uncommitted and generally credited to Fine. The Michigan tabulation shows 6 for Taft, 7 for Eisenhower and 33 uncommitted or in dispute out of 46. McKeldin is credited with being able to control most of Maryland's 24 votes.

Deal For GOP Votes Denied By Gov. Fine

HARRISBURG, Pa. (AP)—Gov. John S. Fine of Pennsylvania says he hasn't proposed any meeting of the state's Republican convention delegation with those of Maryland and Michigan to control the party's presidential nomination. The Baltimore Sun said Fine, so far uncommitted in the race between Sen. Robert A. Taft of Ohio and Gen. Dwight D. Eisenhower, had approached Maryland Gov. Theodore R. McKeldin and Michigan's national committeeman Arthur Summerfield about the idea through "an intermediary." The intermediary was not identified. But McKeldin refused to deny or confirm the story with a terse "no comment." Summerfield told a reporter he would not talk about what the Michigan delegation will do. Pennsylvania's 70 votes at the convention, according to the latest Associated Press polls, are split with 20 for Eisenhower, 18 for Taft and 32 uncommitted and generally credited to Fine. The Michigan tabulation shows 6 for Taft, 7 for Eisenhower and 33 uncommitted or in dispute out of 46. McKeldin is credited with being able to control most of Maryland's 24 votes.

Ike Facing Crucial Tests This Week End

By JACK BELL CHICAGO (AP)—Gen. Dwight D. Eisenhower may be making the most important appearances of his short civilian political career at Gettysburg, Pa., tomorrow and in Detroit Saturday. Republicans who attended a pre-convention Arrangements Committee meeting here generally went home with the feeling that as Pennsylvania and Michigan go, so may go the GOP presidential nomination. And what Eisenhower says in his conferences with delegates and in a major speech in Detroit may have a great deal to do with whether he can corral a majority of Pennsylvania's 70 votes and the lion's share of Michigan's 46. In Pennsylvania, Gov. John S. Fine apparently will determine how more than 30 of the state's votes will be cast. The Associated Press tabulation credits Eisenhower with 20 and Sen. Robert A. Taft of Ohio, his chief rival for the nomination, with 18. In Michigan, the man who holds the vital cards on a majority of that state's 46-member delegation is Arthur Summerfield, national committeeman. Gov. Fine last night denied published reports that he suggested a coalition of Pennsylvania, Michigan and Maryland delegates—who will cast a total of 140 votes—in an effort to decide the nomination battle. A coalition of this kind might be difficult to establish because of the conflicting factors bearing on the final decision in each state. According to reports, Fine doesn't have to worry about getting a national nominee who can carry Pennsylvania. Most party members there think either Taft or Eisenhower would turn the trick. But Summerfield and Gov. Theodore McKeldin of Maryland primarily want the nominee most likely to carry their states. Summerfield and Fine apparently have no national political ambitions. McKeldin definitely has and the other two may not be particularly interested in promoting them. Summerfield won't talk about what the Michigan delegation will do. But from extensive conversations with the national committeeman here, this reporter reaches these conclusions: 1. In the final analysis, Summerfield will ask a majority of the Michigan group—about 33, in fact—to vote for the man he believes will best help the Republicans carry the state in November. 2. At this point, Summerfield and many of the delegates believe a ticket headed by Eisenhower would be more likely to give the Republicans victory over Gov. G. Mennen Williams and Sen. Blair Moody than a ticket headed by Taft.

Congress Uncertain About Neutral Observers On Koje

By JOHN CHADWICK
WASHINGTON (AP)—A proposal to invite neutral military leaders to observe the treatment of Communist prisoners of war on strife-torn Koje Island got a mixed reaction in Congress today. The suggestion by Sen. Richard B. Russell (D-Ga.), was endorsed by President Truman.

Some Democratic senators said it would help offset Communist propaganda about the "mistreatment" of Red prisoners. But Republicans, if not hostile to the idea, expressed skepticism that it would prove effective.

One senator told a reporter he feared it might be taken as an admission of weakness. President Truman suggested in a letter to Secretary of Defense Lovett yesterday that military men from five neutral nations be asked to visit Korea to see at first hand how Communist prisoners are treated by United Nations forces.

Russell, chairman of the Senate Armed Services Committee and a candidate for the Democratic presidential nomination, advanced the idea in a call at the White House

two days ago. A visit to Koje Island by high-ranking neutral military observers, Russell suggested, would be a means of refuting "the mass of falsehoods which are being broadcast to the world by the Communist propaganda machine."

Truman forwarded Russell's memorandum to Lovett with the comment that the proposal had a lot of merit.

"It seems to me," the President wrote, "that it would be well to ask Sweden, Switzerland, India, Pakistan and Indonesia to send military men to Korea to take a look at the situation and see what really is happening."

Sen. Robert Kerr of Oklahoma, one of Russell's rivals for the Democratic presidential nomination, promptly called it "an excellent suggestion." He told a re-

porter it would give representatives of other nations an opportunity to find out "the fallaciousness of Communist propaganda and to brand it as such."

Similar comments were made by Sen. Fulbright (D-Ark) and Sen. Moody (D-Mich). Moody said he was glad "to see the American government taking more initiative for countering false propaganda."

But Sen. Bridges (R-Mt.) took the view that "we don't need representatives of other nations to go there and tell us if we are conducting the prison camps properly."

Bridges, GOP floor leader in the Senate and top Republican on Russell's Armed Services Committee, said all kinds of reports already have been received and "each day adds some new phase to the disgraceful conditions on Koje."

Dairy Firms File Claims On Payment

DENTON, June 12 (AP)—Nine suits were filed Tuesday charging Cabells dairy firm of Dallas with failure to pay agreed prices for milk from Denton County producers.

The Denton County dairy producers who filed the suits are all members of the North Texas Milk Producers Association. They charged that Cabells agreed last year to pay the market milk price then current and that this was \$6.91 per 100 pounds. They charged further that Cabells failed to pay that price.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because one plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just spritz a little PASTEETH, the alkaline (non-add) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "glue" odor. "Tenture breath." Get PASTEETH at any drug store. (Adv.)

FHA Administrator Resigns His Post

WASHINGTON, June 12 (AP)—Franklin D. Richards resigned yesterday as commissioner of the Federal Housing Administration. He said he would go into private business in Washington.

"Old at 40, 50, 60?" — Man, You're Crazy

It gets worse every year. You must be sure to get your "young" with better. (Advertisement for a product, likely a health or vitality supplement, with a small image of a person.)

DOUG ORME

Orme Elected To Head Red Cross Board

Doug Orme will serve as chairman of the Howard-Glasscock Red Cross chapter for the organization's new year beginning July 1. He was elected at a chapter meeting Tuesday night, succeeding Olen Puckett.

Orme headed the Red Cross fund drive in 1951. Leroy Echols of Coahoma was named vice chairman; Mrs. Ben LeFever was re-elected secretary and Reba Baker was named treasurer to serve for her 31st consecutive year. The board also re-elected Moree Sawtelle as executive secretary.

Members of the advisory board are W. C. Blankenship, R. W. Whipkey, Everett Lomax, Truett Thomas, Dick Simpson, Dr. L. B. Andrew, C. O. Nalley, Shilne Phillips, G. P. Morrison, Jack Lamb, R. B. G. Cowper, Rev. Lloyd Thompson, Mrs. Ann Swift, Frank Jones, Garden City; A. R. Davenport, Adolph Swartz and R. L. Beale.

Chairman of the Red Cross services during the new year will be: Dixie Boyd, Junior Red Cross; Home Service, Roy Reeder; Disaster, J. C. Morgan; First Aid, Leslie Snow; Volunteer Services, Mrs. Buel Fox; Accident Prevention, J. C. Morgan; Home Nursing, Mrs. Clyde Thomas, Jr.; Public Information, Joe Pickle; Water Safety, Olen Puckett.

Lions Hear WAFB Chaplain At Meet

Chaplain John C. Little entertained the Lions Club Wednesday with a variety of songs.

Accompanied by Bill Cummings, he sang several popular and religious numbers, including "Without A Song," "Smiling Through," "Shanty in Old Shanty Town," and "It's No Secret." By popular request, he sang "In The Garden."

In a brief talk, C. O. Hitt, Veterans Hospital administrator, stressed the importance of maintaining a good disposition.

Certificates of life membership in the Texas Lions League for Crippled Children were presented to Schley Riley and Dr. J. E. Hogan.

A family picnic sponsored by the Lions Auxiliary was announced for Thursday at 7 p.m. in the City Park.

Water, Sewer Fund Is Down \$1,202 From April Figures

The city's water and sewer fund suffered for revenue like Big Springs during the month of May, monthly financial statement for the municipality shows.

Water consumption in May was 3,489,800 gallons less than in April. Water and sewer service charges billed to customers was \$32,931.80, a decrease of \$1,202.71 from the April total.

That was during a month when revenues (and water consumption) ordinarily would have been increasing. The hitch, this year, has been the shortage of water. The city has been entirely dependent on wells for its water supply since about mid-May and officials have urged residents to keep total consumption below 3,000,000 per day, an amount considered the "safe" use maximum.

The May financial report, released by City Secretary C. R. McClenny, showed general fund receipts amounting to \$83,389, including \$60,843.85 transferred from

other funds. Current tax collections amounted to \$354.20 and delinquent tax receipts totalled \$197.71.

There were no disbursements from the interest and sinking fund during May, leaving the city's bonded indebtedness at \$854,500 in tax bonds and \$587,000 in revenue bonds.

Biggest revenue items for the general fund were fines and court costs amounting to \$3,358.50 and gas franchise receipts totalling \$3,052.93. Water deposits totalled \$1,810.

Transferred to the general fund were \$30,000 from the water and sewer system revenue fund and \$30,843 from other funds, including cemetery, swimming pool and park system, garage, parking meter, and airport.

General fund expenditures amounted to \$75,623.34, leaving a balance of \$49,893.98 in the fund May 31.

The airport fund balance shrunk from \$7,014.10 to \$5,863.13 during the month. The cemetery fund, which started May with \$21.37 on hand wound up with \$28.87 in the bank.

Swimming pool and park system fund grew from \$3,983.10 to \$4,137.09 during the month. Garage fund dropped from \$9,738.92 to \$8,644.99 and the parking meter fund expanded from \$10,304.75 to \$13,056.95.

Must Be Birds Find Living Costs High

DOVER, O. (AP)—They finally spotted the thief who has been stealing coins from Mrs. D. L. Staneart's mail box.

But forgiving postal authorities have decided against prosecution. The dastardly deeds have been perpetrated by a wren that entered a small opening in the box at nearby Tippecanoe. The coins had been left to pay for postage.

Mrs. Staneart hasn't found out yet what the bird does with the money.

Taft Doubtful Tax Cuts Are Possible Soon

By JAMES DEVLIN NEW YORK, June 12 (AP)—Senator Robert A. Taft, (R-Ohio) doubted the possibility that federal taxes could be reduced 40 billion dollars over the next two or three years as Gen. Dwight D. Eisenhower was quoted as proposing yesterday.

"Gen. Eisenhower must have been misquoted," Taft told a meeting of New Jersey Republican convention delegates at the National Republican Club here today.

Taft, a leading contender for the Republican presidential nomination noted that expenditures this year would run about 72 billion, with 85 billion estimated for the next year.

He said he could see little possibility of reducing federal expenditures below \$5 billion within the next year or two. He estimated that arms and foreign aid would cost \$5 billion and domestic services 20 billion.

Petrillo Gets Vote Of Confidence From Musician's Meeting

SANTA BARBARA, Calif. (AP)—A vote of confidence from the vast majority of delegates to the convention of the American Federation of Musicians quickly squelched a minority group's protest that President James C. Petrillo has "dictatorial powers."

IKE MEETING

(Continued From Page 1)

ago. He told reporters the check showed "his eyes were perfect." He was troubled recently with "pink eye." Aides said his eyes had been slightly inflamed when he awakened this morning.

Eisenhower was quoted yesterday as saying he favors a 40 billion dollar tax cut over the next two or three years through more economy in government and less deficit spending.

The GOP aspirant for the presidential nomination met yesterday with New York Republican delegates at a closed meeting and reportedly outlined a two-point domestic program and discussed problems of world peace.

On the domestic front, the general urged an end to deficit spending by government and reorganization of the government along lines suggested by the Hoover Commission.

Secondly, Eisenhower was quoted as saying he favors a tax cut of 40 billion instead of 10 billion as proposed by some Republican legislators.

Federal levies now have reached 80 billion, and President Truman has asked for an 85-billion-dollar budget for the fiscal year 1953.

If the budget is not reduced drastically, the general said, inflationary pressures ultimately could throttle the nation's economic life.

Such a budget goal, he said, ties in with the question of Russia and

Howard

Stanford No. 1 Simpson, C SW NW 21-33-3n, T&P, was at 3,306 in lime.

Area Scouts To Attend Camp Later In July

Jimmy Hale, district Scout field executive, has announced that Boy Scout troops of the Lone Star District will probably attend the council camp, Buffalo Trail Scout Ranch, either July 20-26 or July 27-August 2.

Five Groups Meet At Settles Today

Thursday was set up as a busy day around the Settles Hotel. Five groups scheduled meetings, luncheons and a dinner at the hotel.

McDONALD

(Continued From Page 1)

the blacklands cotton belt June 4, 1881. He was educated in the Mexia public schools and farmed in Limestone County until 1911 when he moved to Ellis County, where he continued farming.

He served in the House of Representatives, 41st Legislature, in 1929-30, and in 1930 was elected commissioner of agriculture. McDonald sold his Ellis County farm and operated a combination farm and ranch in Bosque County. Later he sold it and went into extensive citrus operations in the Lower Rio Grande Valley.

McDonald was unique among Texas political figures. He was different from many state officials and others in public life because he admitted he had voted for some Democrats and some Republicans in the same general elections.

McDonald was a fighter in politics, the kind of fighter who liked to win. One of his latest public battles was with the state Democratic Executive Committee that tried to purge his name from the primary ballot on charges of party disloyalty in 1950.

McDonald went to court with a staff of prominent lawyers headed by former Gov. Dan Moody. He planned the committee's case back to the court in essence that if McDonald took the pledge to support nominees of the Democratic primary in which he was running, his past votes for Republicans could not bar him from the ballot.

McDonald fell out with Henry Wallace in 1940 over New Deal farm policies. He publicly opposed Franklin D. Roosevelt and Harry S. Truman, supported Jack Porter, the Republican candidate for the U. S. Senate in 1948. He did not like farm subsidies and had no patience with any theory of controlled scarcities created by such devices as cotton plough-unders.

In 1948 he was charged by the federal government with failure to register as a lobbyist before congressional committees urging higher farm prices.

McDonald counter-attacked. He said he was entitled to testify as an elected official without registering. The case never went to trial.

McDonald likewise counter-attacked on the party loyalty charges in 1950. Before he took his case to court, he appeared before the committee with these fighting words: "If I can't let the people of Texas know what I believe, then I'll go back to the farm." He was referring to the repeated re-elections in the face of his public campaigning for Republicans. McDonald said the record will show he has received more votes in the aggregate than any other man who ever held office in Texas.

In Dallas 27-year-old White, the athletic youngster who defeated McDonald, praised the former agricultural commissioner.

"Mr. Mac was a man that Texas agriculture will not soon forget," White said. "He was rugged, a fighter and individualist who stuck by his convictions and never failed to stand up for what he believed in. That's something we all need. I'm truly sorry to hear of his death."

White was visiting friends in Dallas.

Asked if he thought Taft could be elected if nominated, Dewey said, "I certainly would hope so."

On Eisenhower's chances to be elected if nominated, Dewey gave an unqualified "yes."

Trop Military Tribunal Gets WACs Appeal

WASHINGTON, June 12 (AP)—The nation's highest military tribunal has set June 24 as the date to hear the appeals of six court-martialed WAC sergeants who beat up another woman soldier after a beer drinking spree near Ft. Breckenridge, Ky., last Oct. 4.

The Court of Military Appeals, composed of three civilian judges, will hear the appeals of the sergeants against their court-martial convictions on charges of joint assault on former Pfc. Carol A. Kierce, Mt. Vernon, N. Y., a few hours after she had appeared as a witness before another military court at the camp.

Miss Kierce has since been discharged from the Army for undisclosed reasons.

All of the six sergeants were sentenced to dishonorable discharge, forfeit of all pay and allowances and confinement at hard labor for terms that originally ranged from one year to 30 months.

The Army judge advocate general announced Jan. 24 that the un-served portion of the lesser sentences had been remitted and three girls set free. Sentences of the other three were modified.

However, the Army's highest legal authority confirmed the dishonorable discharge and the loss of pay for all six.

The Army said today the three who still had sentences to serve are now at Ft. Breckenridge, where a spokesman said they were under guard in the camp hospital.

These WACs and their modified confinement terms are: Grace L. Morlan, San Lorenzo, Calif., 18 months; Edna H. Whiteman, Preble, N. Y., 12 months, and Juliette V. Mente, Pecos, N. M., 12 months.

Area Scouts To Attend Camp Later In July

Jimmy Hale, district Scout field executive, has announced that Boy Scout troops of the Lone Star District will probably attend the council camp, Buffalo Trail Scout Ranch, either July 20-26 or July 27-August 2.

He reported that he had received word from P. V. Thorson, council executive, that the other weeks of the camp, located in the Davis Mountains near Balmorhea, are filled.

Hale previously stated that troops in the four-county Lone Star District had planned to attend sometime during the July 13-August 2 period but now were limited to the final two weeks. It is also the final two weeks the camp will be open this summer.

Approximately 125 Scouts attend the Camp each week, Hale added.

Stocker Cattle Are Down At Local Sale

Stocker cattle and cows and calves were cheaper while fat cows remained steady at the Big Spring Livestock Auction Company sale here Wednesday.

Bulls brought up to 24.00, fat cows up to 21.00, butcher yearlings from 28.00 to 34.00 and butcher cows from 16.00 to 17.50.

Stocker steer calves sold for 25.00, heifer calves up to 33.00, cows, besides calves, from 180.00 to 250.00 and hogs up to 20.00.

An estimated 500 cattle and 100 hogs went through the ring.

Fight Underway Over Military Construction

By RUSSELL BRINES WASHINGTON (AP)—Administration leaders open a fight today to get the House to accept unchanged a \$2,800,000 military building program for next year.

The measure covers over 270 projects at home and abroad, including strategic but secret airfields throughout the world.

Chairman Vinson (D-Ga.) of the Armed Services Committee said the construction program had been cut to the point of serious risk in order to get congressional support.

He said the bill provided for only three new projects and the rest were bases already being built or expanded to provide fighting force with facilities to match their increased strength.

The bill is the last regular authorization measure for domestic and foreign military expenditures scheduled for this session of Congress. The House already has cut the defense budget by more than 10 per cent and the foreign aid bill by 12.8 per cent.

The construction measure would approve for the Air Force \$2,089,277,000, the Army \$383,291,000 and the Navy \$325,750,000 for the year beginning July 1.

The measure only authorizes the amounts. Appropriations must be voted separately.

Vinson said in a speech prepared for the House that the bill may well be the most important piece of legislation this session.

The reason, he said, is that the military buildup would lose strength without comparable expansion of airfields, military and naval bases and training camps.

A committee report underlined the point by stressing the importance of about \$1,300,000,000—nearly half the total— earmarked for American airfields abroad. Most of them are classified as military secrets.

These fields, the report said, are "part of the investment which has been made in our atomic weapons program." It said no purpose will be served "if we develop the best and largest quantity of atomic weapons but fail to provide the Air Force adequate facilities" for basing and servicing bombers and fighters abroad.

The committee eliminated 250 million dollars earmarked as the American share of European airfields for the North Atlantic Treaty Organization. It said these projects were necessary but the appropriations should be included in foreign aid funds, not in a military bill.

The measure sets aside \$844,240,000 for airfield projects in continental United States.

Atom Will Assist Elevator To Run

SAN FRANCISCO (AP)—That little atom that sets off big explosions can also run an elevator. Well, anyway, help run it.

An automatically controlled elevator will go into operation here next week at the Southern Pacific Hospital. It will depend on old-fashioned electricity for power, but tiny fragments of radioactive iodine will control its starts and stops.

Clay Bernard, 28-year-old co-developer of the atomic control, says "it will stop the elevator even with the floor-down to 5-thousandths of an inch, compared to 1/4 of an inch for the best old control—and it's much more dependable."

Auto Mishap Victim Condition Is 'Good'

MARKETS

COTTON NEW YORK, June 12 (AP)—Cotton futures noon prices were 20 to 25 cents a bale higher than the previous close, July 40-49, October 37-32 and December 36-35.

LIVESTOCK PORT WORTH, June 12 (AP)—Cattle 1,300; calves 200; active and fully steady. Good and choice slaughter steers and heifers \$28-34; beef cows \$18-22; bulls \$18-22; good and choice slaughter calves \$20-25; good and choice stocker calves \$22-25; a load of choice stocker yearlings \$24-26; 500 pound steers \$18-20; hogs \$50; butchers steady to 25 cents lower; others unchanged; good and choice 180-240 pound butchers \$20-25; head 218 pound butchers \$20-25; lighter and lower best \$18-20; sows mostly \$17-20.

Sheep \$100; very low and lower; medium and choice slaughter lambs \$20-25; feeder spring lambs \$20 down; old drop lambs and yearlings \$17-20; slaughter ewes \$6-8; aged wethers \$8-10.

WALL STREET NEW YORK, June 12 (AP)—The stock market was a little higher today with falls and steel standing out in front. Throughout the day the gains seldom reached up to around a point, but losses were somewhat more restricted.

There was nothing in the overnight news to discourage the market. As a consequence there was a fairly good opening. The report by the Department of Commerce on personal income was considered a bullish factor. Personal income up was about 5 per cent in the first four months of this year as compared with a rise of 4.5 per cent at an annual rate of 12.5 per cent.

Olympic Trials Begin Friday At Berkeley

BERKELEY, Calif., June 12 (AP)—Can the United States come up with another great sprinter to maintain the Olympic winning tradition of Archie Hahn, Charlie Paddock, Eddie Tolson, Jesse Owens, Harrison Dillard, and Mel Patton?

The nation's best collegiate athletes may give a clue in the national championships here Friday and Saturday. The six best Americans in each event qualify for the final Olympic tryouts in Los Angeles June 27-28.

Right now it looks as if a dominant world champion sprinter has not been found, although there are some likely candidates. Among the best are Dean Smith of Texas, Thane Baker of Kansas State, Paul Wells, Oklahoma A&M; Charley Johnson, LSU; Jim Golliday, Northwestern; and Lindy Remington of Manhattan.

Dean Smith with 10.3 in the 100-meters and Paul Wells with 20.6 in the 200 have the best times among the collegians. This could be a year, however, for a youngster to flash down the track at Helsinki in July and win world renown.

Among the better times turned in this spring by high school boys are 9.6 for 100 yards by Joe Childress of Odessa, Tex., and Herb Turner of Alameda, Calif., and 21 flat in the 220 by Art Pollard of Coatsville, Pa.

Indians Batter Gold Sox, 14-4

The Indians scored in every inning except the fourth and stopped the Gold Sox Wednesday afternoon 14-4 as pitcher Jimmy Marin held the Sox to six hits in Little League action.

Marin struck out 10 men in the six-inning game while walking five. He got all three men on strikes in the third inning.

Short stop Froman led the Indian hitting attack, batting three for four, including a double and a triple. He scored four of the winner's tallies.

Anderson, third base for the Indians, got two hits in three official times at bat and scored four runs.

Wayne Fields, losing pitcher, led the Gold Sox in hitting with two hits in three tries and scoring one run.

Something New In Baseball

Ned Garver (without cap), St. Louis Browns pitcher, and his teammates present Bill Veeck, club president, a 24-inch silver trophy in their dressing room after Veeck fired Rogers Hornsby as Browns manager, Boston, Mass. The trophy, surrounded by a batter swinging a bat, bears the inscription: "To Bill Veeck for the greatest play of the Emancipation Proclamation, June 10, 1952. From the players of the St. Louis Browns." (AP Wirephoto).

Guerra Notches 7th Win Behind Broncs

Baez, Quintana Clout Homers

The Big Spring Broncs used the hit against which there is no defense—the home run—to cast a spell over the Odessa Oilers in a rattling good ball game played before some 1,200 fans here Wednesday night.

Pat Stasey's boys prevailed, 7-5, to pull within 3 1/2 games of the fading Oilers, but not before big Gil Guerra had experienced some anxious moments in the final canto.

The two clubs fought to a stand-off on round trippers but the Broncs delivered the more telling blows of Leon Hayes because theirs came with mates up front.

Guerra managed to deliver up the gopher pitches when the hassocks were deserted.

Bert Baez, who does everything but carry water for the Cayuses, delivered the first four-master for Big Spring with Alberto Costa on second in the sixth round. That gave the locals a lead they never yielded.

However, it took a two-run homer by Witty Quintana in the seventh to give the provincials the cushion they needed. Ricky Gonzales was on base at the time.

Guerra, who was in the process of nothing his seventh win of the season, gave up home runs to Romano Loyko in the seventh and Felix Castro in the eighth.

Baez deposited his round tripper in the sixth after coming on as a pinch hitter for his brother, Romano Baez.

In the thrill-packed ninth, at which time Guerra had faded badly and was pitching on heart alone, the victory-starved Oilers loaded the sacks with only one away.

Guerra got Pepper Martin to hit into a forced play at home, however, and then caused Charley Weber to sky long to center field for the final out.

Big Spring broke fast, scoring a run in the "hello" round when Gonzales tripled and darted home on an infield out by Oasie Alvarez.

LOOKING 'EM OVER

With Tommy Hart

There's talk the local American Legion post and Raymond Martin may get together and plan a building that would serve the purposes of both a convention hall and a wrestling arena.

It's just talk, mind you. But something could come of it. The Legion needs a meeting place. Martin, who fully intends to return professional wrestling to Big Spring, needs a big building for the shows.

Martin, one-time Big Spring resident, lives in Mineral Wells now but has applied for a license to promote the grapple game here. He hopes to make it back here within a week to discuss the matter further with Legion officials.

John Harrison, the Midland jettie who made a relief appearance for the Indians here recently, is a cousin of Our Town's Pat Harrison. Athletics run in Pat's family. One of his nephews is Gib Dawson, the University of Texas football whirlwind.

Lefty Lee Baber, one of the all-time baseball greats around here, observing that the New York Giants' finger, Sal Maglie, is being accused of "cheating" with his pitching, says Big Spring's old-time infield star, Speck Williamson, could have gone all the way to the major leagues by doctoring the ball.

Only the old fans here will remember Williamson. He played at shortstop, not pitcher, here in the '20s, later managed some professional clubs and is now radioing out of El Paso.

Williamson was not a big fellow as player so but he had that high hard one. Baber thinks he could have studied pitching and mastered it. His lack of stamina might have kept him from going all the way.

But, had he been able to nick the ball and dust it with talcum powder or similar substance, few were the batters who could have done much with him. So says Lefty.

As for "cheating," it's done by a lot of pitchers today and is considered good, sound baseball, if you can get away with it.

Baber recalls how Speck grabbed up a double play ball while on the left side of the infield one day and fired away in the direction of second base for a keystone who never covered the bag. The ball was thrown with such velocity, it knocked a board off the right field wall, nails and all.

Some of the players in the Longhorn League (and the charge has not been leveled by any one wearing Big Spring flannels), are accusing Midland's Keith Nicolls of throwing a duster.

A duster keeps the opposing batter from "digging in" at the plate.

AT DALLAS

Play In National Open Is Underway

DALLAS, June 12 (AP)—Two intruders, heat and Ben Hogan, threatened to complicate matters today as the familiar figures of golf's tournament trail began their annual quest for the biggest prize of all, the United States Open championship.

Hogan, of course, was regarded as the most serious threat as the vanguard of the field of 162 players began to stream down the bottlenecked fairways of the Northwood course at 8 a. m. CST.

The wiry little man from Fort Worth, who plays in only a few selected tournaments each year, smashed the solidarity of the regular "tourists" by winning the last two Open championships. His rivals don't like to do it again, but they can't deny him a place among the top three or four favorites.

The pros, who were mentioning the sticky heat, which hasn't kept a few players from scorching the course in practice, may have a more serious effect if it continues through Saturday. The contenders will have to play 36 holes on that last day and the strength-sapping Texas sun may take a more severe toll than those old enemies of tournament golfers, par and pressure.

The local Weather Bureau forecast continued 90-degree temperatures today with no relieving rain.

The top favorites, Hogan, Sammy Snead and Lloyd Mangrum, are getting old as athletes go—from 37 to 40 years—and most of their strongest rivals aren't exactly young. You don't find fuzzy-cheeked kids winning major tournaments these days and the Open title hasn't gone to a rank outsider since Sam Parks won at Oakmont in 1935.

But the pressure of competing for a title that is worth many times the value of its \$4,000 top prize money, and the toughened-up course, remained as important factors although early estimates of the probable winning score have been revised downward.

The pros, who were mentioning the sticky heat, which hasn't kept a few players from scorching the course in practice, may have a more serious effect if it continues through Saturday. The contenders will have to play 36 holes on that last day and the strength-sapping Texas sun may take a more severe toll than those old enemies of tournament golfers, par and pressure.

IRISH BOB MURPHY IS DEFEATED BY LAMOTTA

DETROIT, June 12 (AP)—Jake LaMotta, the human sledge hammer who improves with age, will fight anyone "if there's enough cabbage in it." And anyone includes light-heavyweight champion Joe Maxim or challengers Sugar Ray Robinson and Randy Turpin.

A title fight against the winner of the June 23 Maxim-Robinson championship battle would please him the most.

Jake thinks his unanimous decision over Irish Bob Murphy last night in one of Detroit's wildest swingings, in a 10-round fight proved he could champion as a light-heavyweight. Jake is a former middleweight champion but has foregone the lighter class.

"I think I could beat Maxim easier than I beat Murphy," said the Bronx Bull. "Maxim's my kind of fighter." Jake has now won three straight in his comeback.

No matter who Jake fights, they love the squat little 169 1/4-pound Italian here in Detroit. A near sellout crowd of 16,008 exploded to its toes with Jake, behind on points until then, battered Murphy with savage rights and lefts to win the ninth and 10th rounds and the decision. Murphy had a 6 1/4-pound advantage.

Cup team but had to forget golf except for eight or nine rounds during his campaign for office.

"When I got back into golf I guess I did well because I had forgotten my mistakes and thought only of the good shots."

The Big Spring Broncs shoved off for New Mexico and a critical six-day road trip this morning.

The Cayuses put in first at Artesia, then move on over to Roswell.

Chances are the locals will play Artesia a double header, since they owe the Drillers a game.

Aramis Arenchibia is set to pitch tonight's game against the Drillers. The Broncs return here next Wednesday, at which time they host Artesia. They'll be home six games.

Roswell Rookie To Take Bride
ROSSELL, June 11—Rookie Lefty Young is scheduled to make one of the more important starts in his life here Friday, June 20. And he will do it without lifting a glove or delivering a pitch to the catcher.

That night he is to be married to Miss Ima Jean Long of Oakland, Calif. At home plate in Fair Park Stadium.

HOMERS SINK PHILS

Chicago's Hank Sauer Is A Cinch For All-Star Go

By JACK HAND
Associated Press Sports Writer
No one will dare ask Hank Sauer to sit out the 1952 all-star game. The big fellow from Chicago stands in Ted Williams' shoes as the leading slugger in all baseball.

Barney Shotton, National League all-star manager in 1950, got himself in a jam when he suggested that big Hank give way to Dodger Duke Snider in the starting lineup.

Shotton found himself without a centerfielder in his fan-picked outfield of Enos Slaughter, Ralph Kiner and Sauer. So he decided to bench Sauer.

The wires sizzled with fiery protests from indignant Cub fans. They applied so much heat that Commissioner Happy Chandler, heeding the mounting pressure, ruled "Sauer must start."

When Shotton stuck his head out of the visiting dugout at Comiskey Park that July afternoon, a juicy boo barrage singled his ears.

From the trend of the early '52 balloting, Sauer may wind up with the most votes of any player in either league. At least he will if he has many more days like yesterday.

Sauer hammered three of "cousin" Curt Simmons' pitches into the left field bleacher area for a 3-2 Cub win over the Phillies. Back in 1950 he also hit three homers off Simmons in an Aug. 28 game at Wrigley Field. No other major league batter ever hit three homers off the same pitcher in two different games.

Oddly enough, Sauer struck out three straight times in his last previous meeting with Simmons when the Phil southpaw fanned 12 and beat the Cubs on a two-bitter, May 13 at Philadelphia.

Sauer's homers were lead-off blows in the second, sixth and eighth innings. In the third inning, he popped out.

Despite the bombing, Turk Lown needed some bonehead Phil base-running and relief help from Dutch Leonard to beat Simmons.

With the bases loaded in the fifth, Richie Ashburn singled to center but Tommy Brown dashed from first to third without touching second base. Two sure runs were nullified when the Cub infield called for the ball and Eddie Miksis stepped on second to retire Brown for the third out.

Leonard replaced Lown with men on second and third and only one out in the ninth. He struck out Johnny Wryostek and made Forrest Burgess ground out.

Sauer's slugging was the big news of the day, although there was much fussing and fuming last night at St. Louis where both Manager Chuck Dressen and Pee Wee Reese of Brooklyn were tossed out of the game with the St. Louis Cardinals. Del Bice's single in the 10th gave the Cards a 3-2 win, slicing the Dodgers' National League lead to four games.

Jim Hearn pitched the New York Giants past Cincinnati, 3-2, with a four hitter and little Murry Dickson of Pittsburgh blanked Boston, 5-0.

The New York Yankees strengthened their American League lead with a 7-2 win over Detroit on Johnny Sain's pitching and home runs by Joe Collins and Yogi Berra.

Washington's Bob Porterfield shutout Cleveland's Bob Lemon, 1-0, to let the Boston Red Sox take over second place with a come-from-behind win over St. Louis, 11-9. The Red Sox blasted Satchel Paige for six in the ninth, including a game winning grand slam homer by Catcher Sammy White.

The Philadelphia A's knocked off Chicago, 5-3, on a four-run rally in the sixth that included a two-run homer by Al Clark, filling in for injured Gus Zernial.

The Red Sox explosion was the most dramatic event in the American as it came against Paige who

Cook's Cabot Register Wins

Cotton Mize limited the C. L. Rowe Humble Oil team to one hit Wednesday night in the YMCA Industrial Football League, as his Cook's Appliance teammates swamped Humble 34-0.

James Watts and Gene Gross each homered for Cook's and James delivered two triples.

In the second game of the night, Cabot Carbon dropped T&P Railway 10-5.

Game At 8:15

The Big Spring Giants will host the Slaton Tigers in an 8:15 baseball bout at Steer Park tonight.

The Giants, managed by Harry Dooley, scored two victories last weekend.

Borger Nearing Lead In WT-NM

Campbell Says Politicians Could Use Golf As Model

By HAROLD V. RATLIFF
DALLAS, June 12 (AP)—William C. (Bill) Campbell, a tall, handsome young man from Huntington, W. Va., starts playing in the National Open today with the fixed opinion that if politics was like golf the country would be a lot better off.

The 23-year-old former legislator, who lost a race for Congress this spring, said in golf "everybody uses the same number of clubs, follow the rules and there are no cheaters."

Bill, an insurance man, is just getting back into the game after laying off six months to run for office. He's doing well, too—he shot 291 at the Colonial National Invitational at Fort Worth three weeks ago to finish as low amateur. He tied for second low score in qualifying for the National Open with 136 at Cincinnati and in tune-up rounds here for the open has shot 72 and one-under-par 69.

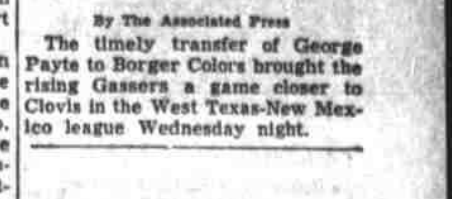

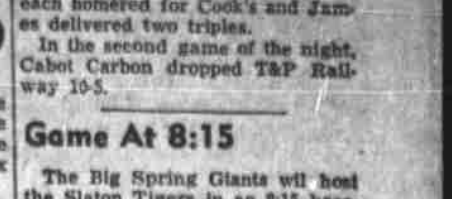

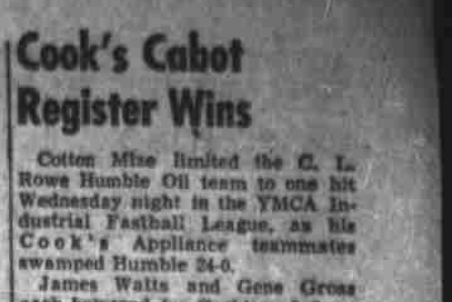

"I was so happy to get back into golf," he said. "I had made an intensive four-month campaign. Those speeches, late hours and sound trucks beat you down."

He added, however, that he might not be through with politics although defeated 53,000 to 13,000 in the race for Congress. "My opponent was the incumbent, a Truman Democrat," he said. "The machine re-elected him over me. But he was an honorable man and there were no personalities involved. It was a question of issues. If the Democratic party gets ready to knock down the present political structure—the machine—and wants me to run I'll sure consider it."

Campbell was on the 1951 Walker

only 10¢

What makes a wandering Texan home-sick? Ask him how he'd like a Lovera... and he'll sure enough wish he was back here. 'Cause nearly every Texan hankers after Lovera... the cigar that's especially blended for Texas taste... with just the right combination of flavor plus mildness. Get some Loveras today—they're always fresh... always uniform... always good.

County Has Sixth Case Of Polio

Howard County's sixth 1952 polio case—the second reported in a week—was listed Wednesday by the

Big Spring-Howard County Health Unit.

Sixth person to contract the disease this year was 16-month-old Melvin Wren, son of Mr. and Mrs. B. J. Wren, 704 W. 8th. The infant is in a local hospital with paralysis of the left leg.

One Man Going For Pre-Induction Exam

Selective Service Board No. 71 (Martin, Mitchell and Howard Counties) will send one man to Abilene Monday for pre-induction physical examination.

The registrant is listed as an "extra" by the local board. Ten other registrants will go for physicals July 9.

Also on tap for July is the board 26th induction call. Fifteen selectees will be sent for induction July 14.

Police Activity During May Results In Fines Of \$4,699

Police activity during May resulted in fines totalling \$4,699, monthly report of the department shows.

Of the total, \$2,810.50, was paid.

Drivers Must Obey Signals, Police Warn

Police officers operating cars and motorcycles say that motorists not immediately yielding the right-of-way to official vehicles with sirens open and red lights flashing are apt to be the cause of serious accidents.

It is only in the most urgent of emergencies, these officers say, that they will make a call for the right-of-way with sirens and lights, but that when they do motorists should observe the signals.

Patrolman Jack Fillyaw said recently while he, on a police motorcycle, and a sheriff's department car were escorting an ambulance on an emergency run to a hospital, a motorist who both heard the sirens and who observed the flashing red lights, made an unexpected left turn directly into their path almost causing the cycle, car and ambulance to pile up. Other officers have reported similar experiences.

We would repeat, they explain, that we use the sirens only in such emergencies as justify such use, and the co-operation of motorists in such instances will certainly be appreciated.

McComb Studying At West Texas

Dell McComb, member of the high school faculty here, is doing graduate work in the speech department at West Texas State College in Canyon.

He is in the cast of the production "What a Life," a Henry Aldrich comedy being presented by the WTSC Summer Theatre. McComb will be in other plays to be presented during the summer season there.

\$1,494.50 "laid out," and \$294 was pending at month's end. Officers made 283 arrests during May, more than half on drunkenness charges. Most numerous complaints, in addition to drunkenness with 168, were vagrancy, 30; affray and disturbance, 10 each; driving while intoxicated, eight; and destruction of private property, two.

Two persons resisted arrest, two were charged with interfering with an officer, two were charged with assault and a like number were arrested on theft charges. Other arrests were made on complaints of rape, sale of beer on Sunday, leaving scene of accident in which a person was injured, and assault and battery.

Traffic violations for which fines were assessed included driving without license, 55; moving violations, 78; parking violations, 59; and mechanical defects, 16. A total of 631 tickets were issued and \$497 was collected on tickets at the police station.

Patrol vehicles clocked 14,049 miles and approximately 2,500 calls were logged for police radio station KKD496.

Wanger Keeps Up With Film Work Despite Detention

CASTAIC, Calif. (UP) — Dention hasn't cut off all of Walter Wanger's movie-making activities.

By mail and secretarial conference, the silver-haired producer is keeping a hand in the start of a film next Tuesday. And he's taking notes for another he'd like to make about the sheriff's honor farm where he's confined four months for shooting agent Jennings Lang.

Wanger gave his first interview yesterday since beginning his sentence eight days ago. The 57-year-old producer claimed Lang, 39, broke up his home. But Wanger's wife, Actress Joan Bennett, insisted her dealings with the agent were strictly business.

Wanger is assigned to the athletics and recreation office. He arranges inter-barracks baseball games and helps place benches for weekly movie showings in an iron-walled auditorium. Afterward he helps to sweep out.

Liquor Dealers Here Respecting The Law

Howard County beer and liquor dealers apparently are toying the line out of respect for liquor laws and the men commissioned to enforce them.

Only eight suspensions have been meted out to local dealers for violations since the county turned "wet" last Dec. 8. That doesn't include five "automatic" three-day suspensions given beer and liquor dealers whose checks to wholesale distributors "bounced."

None of the eight violators has been a repeat offender.

C. B. Arnold, deputy district supervisor for the Texas Liquor Control Board, and J. T. Morgan, inspector, say Howard County liquor and beer licensees are hewing close to regulations in the operation of their businesses.

"We're enforcing the law pretty rigidly," Arnold states.

"When a violation is discovered, we recommend suspension of the license."

Most common violation has been the permitting of intoxicated persons to remain on the premises licensed for the sale of intoxicants. Three licenses have been suspended for periods of five days in two

instances and for 15 days in the other.

Illegal sales have resulted in four suspensions—two for seven days, one for 10 days and the fourth for a period of 30 days. The other suspension was for unauthorized possession of beverage. It was for 10 days.

The following beer and liquor dealers have received suspension of licenses for the violations listed:

S. A. Gomez Package Store, seven days, sale of liquor to a minor. Harry Donley, Grand Terrace Cafe, 10 days, unauthorized possession of a beverage.

Pete Zuniga (Jimmie's Cafe), 10 days, permitting intoxicated person to remain on premises.

Clarence Shaw (Drop In Cafe), five days, permitting intoxicated person to remain on premises.

Nellie Sosa (Aztec Cafe), five days, permitting intoxicated person to remain on premises.

Ruby M. Lacy (Ruby's Cafe), 10 days, sale of beer to an intoxicated person.

Christensen-Tucker Post 2013 (VFW) 30 days, operation of open saloon on beer licensed premises.

Coincidence May Cost Lad An Eye

OKLAHOMA CITY, June 11 (AP)—Coincidence may cost a 10-year-old Tyler, Tex., youth the use of his left eye.

Bruce Johnson, detectives said, was visiting at the home of Mr. and Mrs. C. S. Black near Britton and was alone in the house with his 12-year-old cousin, Robert.

"I picked up my dad's shotgun and pointed it out the window," Roberts told officers. "I didn't know it was loaded and I didn't know Bruce had gone outside the house."

Bruce passed the window just as the gun went off and several pellets entered the left side of his face.

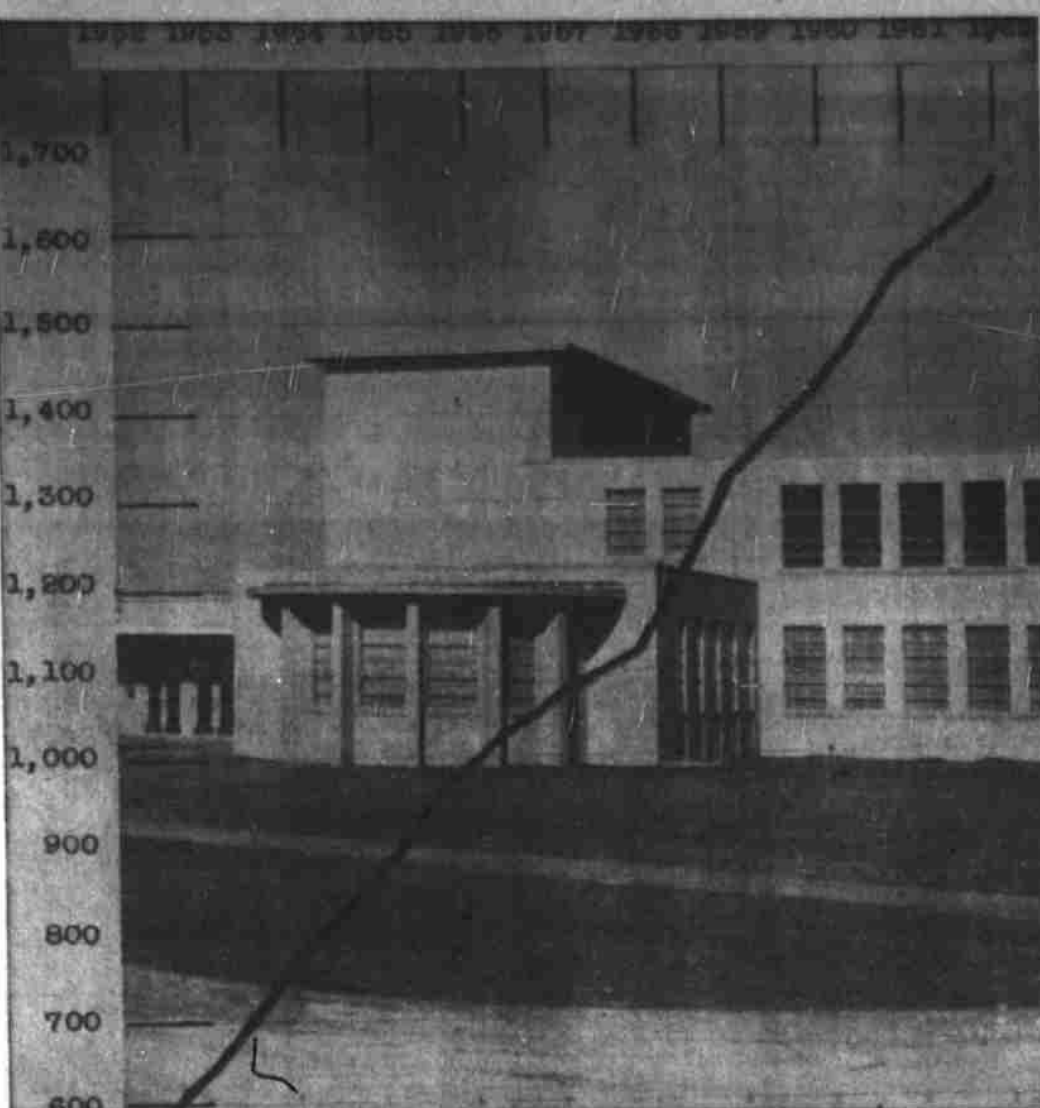

His father, George E. Johnson, district manager for the Sinclair Oil Co. at Tyler, flew to Oklahoma City yesterday.

Store), seven days, sale of wine to an intoxicated person.

New Senior High School May Be Over-Crowded In 10 Years

Within 10 years Big Spring's new senior high school could be sorely over-crowded.

Right now the membership is about half of what could be accommodated comfortably. If the projected curve on membership continues upward, five years will see that "comfortable" level approached. That's two years before the "war baby" crop will be represented in the system from top to bottom for the first time.

Although enrollment in the top three grades of high school (senior high) was over 600 this year, the membership—which is the given number on the rolls at a given time—was just under 500 for the year's average.

Graduation took 136 of the roster. However, junior high was sending up around 230 to 240 from the ninth grade ranks.

Using average membership figures for the various grades, a membership of 625 can be projected for next year. In 1954 the level should be 793; in 1955 it could rise

to 884; in 1956 to 964, and the following year (1957)—or five years hence—it could pass the 1,000 mark for the first time with 1,052.

To project this out to the end of a decade from now, the year 1958 would show 1,154; the year 1959 would be 1,308; the year 1960 would have 1,431; the year 1961 would be 1,577; and the year 1962 would have 1,660.

Of course, these figures are predicated on the theory that there would be no loss in the level of class attendance as they go up the ladder. Actually there is a definite and progressive loss through dropping out of school, moving away, and even death. However, in recent years, the in-migration of pupils has been faster than the natural loss. Based on present conditions, the gain should keep pace with the theoretical projection.

There may be some small measure of relief in the fact that average daily attendance—the number actually in school—shows about six per cent less than the average

membership. That's about as close as attendance will get, and with emphasis upon attendance through state aid based on the number of days children are in school, it is not apt to get much less.

From the annual report of Supt. W. C. Blankenship, these are the average daily membership and the average daily attendance for the system for the past school year:

Grade	Membership	Attendance
1	563	497
2	506	460
3	508	467
4	417	382
5	383	356
6	354	327
7	315	283
8	295	275
9	274	256
10	224	211
11	127	119
12	146	139

Note that the fairly uniform total of classes in the second, third, fourth, and fifth grades. These are the children born from 1942-1945, the main part of the "war baby" crop. But note also that the first grade jumped up sharply. These are the babies born in 1946, a harbinger of the still greater birth rate which increased with return of young husbands from armed services. That trend, birth records here show, has shown no inclination to decline.

Naturally, this poses a space problem. It could have its effect on elementary schools, which have been so badly overcrowded until a recent building program about caught up with the situation. But if the current primary level were maintained all the way through elementary one through six grades the net gain would be about 350. Spread over nine schools, this wouldn't be insurmountable.

Project the same level immediately to the junior high level (seventh, eighth, ninth) and this would dump 600 additional students into the junior high plant. Already the building, which formerly was the high school, is comfortably filled. Thus, long before the press of

County's Candidates Have Enough Cards To Go Around

July 26—First Democratic primary—may be 43 days away but the 35 candidates for the county offices of Howard County have their campaigns well underway.

Big Spring's three commercial print shops have sold a total of 124,200 "candidate cards," to Howard County candidates which means that if everyone of the county's approximately 11,500 voters were to have his share now, each voting citizen would have 10 cards. And the candidates would have 9,200 left to give away on the streets and in the surrounding communities without going back for more orders.

Weight of the 124,200 cards is 4,347 pounds.

Several candidates have had cards printed in Spanish to reach the Latin-American voters.

Approximately 80 per cent of the cards have the prospective official's picture on them.

In addition to the cards, the printers report numerous orders for large posters. The most popular size of posters is 11 inches by 14 inches.

One candidate—wishing to personalize his campaign—bought a 9000-count order of special stationery and envelopes.

While two others purchased 2,000 and 3,000 blotters from one of the printing shops.

In addition, candidates are giving away book matches and emery boards obtained out-of-town.

Besides the cards for Howard County politicians, 11,800 cards have been printed in the three shops for candidates of nearby counties.

Candidates To Pay \$1,685 For Expenses In County Primaries

Howard County political candidates are due to contribute \$1,685 to pay the costs of holding Democratic Primary elections, based on an assessment scale announced by the County Democratic Executive Committee.

of the two elections will amount to well over \$1,500, said George White, County Democratic Chairman. However, White said it is virtually impossible to estimate accurately due to some changes in the ballot form and because more

ballots than ever before will be required.

Instead of listing candidates in all four commissioners precincts on all ballots as in previous elections, separate ballots for each precinct will be printed this year. This is expected to eliminate some confusion.

The assessments for candidates are based upon the salary of the office being sought, the total cost of the election, etc., all in accordance with the election laws.

For the first time, the committee is authorized to assess some candidates for district offices. Such assessments, however, are limited to a fixed percentage of salary set by law, and then the allowed percentage is distributed among the counties in the respective districts.

For example, the county committee this year can collect a ballot fee from candidates for Congress of this district. No candidate for Congress can be required to pay more than five per cent of one year's salary, however, and the five per cent must be divided among all counties in the district.

In the 19th District, which includes Howard County, this means that 25 counties share the five per cent.

The assessments announced by the Howard County Democratic Executive Committee, with number of candidates filing for each office in parenthesis, follow: Congress (1), \$25; Court of Civil Appeals (1), \$25; state senate (1), \$10; state representative (1), \$10; district attorney (2) \$25 each; district clerk (1), \$60; county judge (4) \$55 each; sheriff (4), \$55 each; county attorney (1), \$60; county treasurer (1), \$40; tax as-

essor-collector (2), \$35 each; county clerk (1) \$60; county commissioner (1), \$50 each; justice of the peace, Pct. 1 (3), \$25 each; constable, Pct. 1 (1), \$35; constable, Pct. 2 (3), \$15 each; justice of the peace, Pct. 2 (2), \$10 each; justice of the peace, Pct. 1 place 2 (1), \$25; county surveyor (1) \$25.

SCHOOL

(Continued From Page 1)

growing enrollment begins to tell on the new senior high school which was designed with pronounced growth in mind—it will wallop the junior high level. Conceivably,

there might have to be a second junior high.

Even if the community maintained a static population level, school housing would, in another five years, become a problem. If Big Spring continues to grow, the architects, bricklayers, carpenters, board members and taxpayers will have to start wrestling with it a lot sooner.

Child's Garden Book Introduces Gardening

A pleasant way to introduce children to the joys of gardening is presented in "My Flower Gardening Book," just published by

Will Roberts, New York. The gaily illustrated book contains packets of flower seeds, with simple instructions for planting and care of each. The book opens into a three-dimensional flower garden, showing the child how his garden will look if he plants the seeds and follows instructions.

THE SPRINGBOARD

News From Big Spring Air Force Base

By A-3C FERD J. BORSCH

PARTY

Distribution of approximately 2,000 tickets for Big Spring's Welcome Airmen party was started at Webb AFB Monday. The "blue" decals are being channeled through the Personnel Services office.

The party, scheduled for 7 p.m. Friday, June 20, at City Park is expected to draw a crowd of 3,000. It will be a combination hot dog supper and variety show.

Military personnel on the base possessing entertainment talent, have been urged to participate in the variety show which will be staged at the amphitheater following the supper.

Airmen have been instructed to pick up their tickets by Thursday in order that the party committee may have an accurate count of those planning to attend.

CADETS

Class room hours and the final stages of flight training are rapidly drawing to a close for cadets and student officers of class 52-D.

The class, due to graduate June 21, has a total enrollment figure of 52. This represents 43 cadets and nine student officers.

The graduating class was the first group assigned to Webb AFB since its re-activation as a pilot training base.

The initial base graduation exercise is now being planned and will include a colorful ceremony with a prominent speaker slated to deliver the graduation address.

USO

More heartening news from the townspeople was received at the base when the USO executive board met at the Settles Hotel to discuss possible locations for the proposed USO Club. A committee report revealed that a few sites are available but a further study will be necessary before the USO can commit itself to usage of a building.

AIR TRAFFIC

In a move designed to assure the safety of both military and civilian aircraft operating in the highly congested Big Spring area, Webb AFB representatives met Monday with officials of city-operated Hamilton Airport. The group worked out traffic patterns for the two fields designed to provide maximum clearances, both vertically and horizontally.

LIGHTS

Three miles of taxiway and 13,000 feet of runway have been operating under a newly installed lighting system in conjunction with the recently adopted program of night flying. Installed by Air Installation crews, the network of lights has a stand-by power feature allowing for uninterrupted service in case of emergency. Although the lighting system is in operation only when students are flying, one runway is illuminated throughout the night for emergency purposes.

HOMES

Another bit of good news welcomed at the base the past week concerned plans for immediate con-

struction of the first 68 homes in the Monticello Addition house defense program. Approximately 150 of the 300 units reserved for immigrant civilian and military personnel working at the base have been spoken for.

Webb AFB's hopes of winning the first half Industrial Football League title faded when Cook Appliance came from behind with a six-run last inning rally to nip the Airmen, 8-7, in the finale of first play. Cook clinched the crown in handing Webb its first league setback of the season.

However, the Airmen opened second half action by trimming Veteran's Administration Hospital, 13-6, Monday night.

Webb will soon have its own golf team. A base golf tournament will be staged at Big Spring Municipal Golf Course Thursday and Friday to determine the five team members.

This team will represent Webb in the Air Force North Zone Conference tournament to be held at Perrin AFB, Texas. This tourney is a stepping stone to the Air Force World-Wide golf tourney to be staged at Maxwell AFB, Ala.

Skipper's Delight

... One of the favorite foods of young Skipper Driver, is the potato salad his mother, Mrs. E. P. Driver, makes for the family picnics. Here Mrs. Driver prepares the dish while 'Skip' looks on with apparent satisfaction.

Mrs. Driver Finds Out-Door-Life Best

An affirmative answer to a former roommate's query to come to Big Spring resulted in a husband, a home and a son for Mrs. E. P. Driver, 206 E. 13th.

A native of Palo Pinto and a graduate of John Sealy Hospital School of Nursing, the petite Mrs. Driver has long been active in club and church work.

Her husband heads the insurance agency which bears his name and their son, Skipper, 8, is a member of Cub Pack 11, Den 4 of the Boy Scouts.

The most recurring topic in the Driver household at the moment is baseball and young, husky Skipper lives for the hour each day when he may join his friends on the neighborhood team.

"I like to do anything out-of-doors and my family agrees with me," Mrs. Driver commented.

As often as possible the family goes on week-end fishing jaunts and many pleasant hours are spent at the old family ranch near Garden City.

When the group heads out-of-town to get out-of-doors as often as not the picnic basket will contain Potato Salad. Made just the way everybody concerned likes it.

POTATO SALAD

Ingredients:
8 to 10 medium size new potatoes, cooked;
1 medium size green pepper, chopped
1 medium size onion, chopped, (optional)
2 medium size dill pickles, chopped
3 hard boiled eggs
1/4 cup diced celery
1 pimento
Salt to taste
Pepper to taste

Method:
Combine cubed warm potatoes and eggs. Sprinkle with salt and pepper. Blend with other ingredients lightly and let stand while dressing is being prepared.

DRESSING
Ingredients:
1/4 cup mayonnaise
2 tablespoons prepared mustard
2 tablespoons cider vinegar
1 teaspoon savor salt
1/2 teaspoon sugar
Paprika

Method:
Combine all ingredients and stir well. Pour over potato mixture and blend lightly. Let stand at least 30 minutes for flavors to blend. Makes about 1 1/2 quarts.

Make Most Of Bacon, Meat Of Many Uses

Bacon is a flavorful meat of many uses. Top-quality bacon owes its prestige to careful selection of the side of pork, superior curing, controlled smoking, and use of the center slices only for the first quality package.

The bouquet of fried bacon adds much to the appetizing flavor, yet both the tempting aroma and flavor may be lost if bacon is kept too long before cooking. To get the most goodness of good bacon, store it in the refrigerator and use it within a week. Bacon should not be frozen since within a week the flavor of the fat may begin to show first stages of rancidity. So, wise buying, limited storage at 38 degrees to 40 degrees F., and proper cookery all contribute to the service of perfect bacon.

A new trick is to start cooking bacon without separating the slices. Just remove the number of slices in one piece and put the remaining section back in the refrigerator. Put the selected number of slices in a cold skillet and heat slowly. Turn and separate the slices as the heat loosens them. In this way, the slices are not torn by trying to strip off the chilled slices.

Fry and turn and keep the heat low. A bit of burned bacon spoils the flavor. And, do not pour off the drippings during the cooking. This fat helps float the slices and makes possible complete browning of the entire slice without raw or burned spots. Too, more bacon can be fried at one time since the cooking depends on the heat of the melted fat rather than the heat of the bottom of the pan.

Remove each slice as it is cooked. Tongs are good for this. Drain on soft paper and keep the bacon hot until service time.

When 1/2 pound or more-bacon is desired for one meal, oven baking is a time saver. Heat the bacon in a hot oven (450F.) a minute or two. Then separate the slices and place each slice separately on a wire rack set in a baking pan. Bake in a hot oven (400F.) about 10 minutes or until as brown as desired. The bacon will brown on both sides without turning.

Of course, it's easy to broil bacon, too. So with a choice of pan-broiling, broiling, or baking, one can select the cooking method that suits the occasion.

With eggs for breakfast, in sandwiches, on casseroles, with vegetables and in many meat dishes, bacon gives the fillip that makes the meal.

Bacon Bean Bake
Yield: 4 servings
8 slices bacon
2 cups (No. 2 can) baked beans
1/2 cup chopped onion
1-3 cup catsup

Cookies Are Perfect Dessert

Cookies are the perfect dessert to keep on hand. They're easy to store...they have wonderful keeping qualities...and they are almost universally popular.

Here's a new recipe for your file. Jelly Jumbles, easily made, have extra goodness and are extra crunchy because they are rolled in rice cereal just before baking. A little mound of your favorite jelly placed right in the center adds color and flavor, too.

Just the right amount of "sweet" for the youngsters when they romp home from school—ideal to serve when neighbors drop in for afternoon tea or coffee.

Jelly Jumbles
1/2 cup shortening
1 cup sugar
2 eggs, separated
1/2 teaspoon vanilla
1 1/4 cups sifted flour
1/4 teaspoon soda
1/4 teaspoon salt
1 1/2 teaspoons cream of tartar
1-1 1/2 cups oven popped rice cereal
Cream shortening, add sugar, well-beaten egg yolks and vanilla; beat well. Stir in flour, soda, and salt sifted together. Fold in stiffly beaten egg whites to which cream of tartar has been added. Shape dough into small balls about 1 inch in diameter. Roll in slightly crushed Rice Krispies. Place on greased baking sheets, make an indentation in the middle of each ball with the thumb and fill with jelly. Bake in preheated moderate oven (350 F.) about 20 minutes.
Yield: 28 cookies (2 1/4 inches in diameter)

Quick Version

Corned beef and cabbage need no introduction. And here's a quick version of this famed team—canned corned beef and seven-minute cabbage. Heat the beef thoroughly, then place it in the center of a large platter, and surround it with cabbage.

Feature Two Desserts From One Cake Recipe

Here's an idea you'll want to try the next time you're having guests for luncheon, dinner, or buffet supper.

What you do is make a big, round, deep 10-inch layer of old-fashioned burnt sugar cake on company day. Simply put cake on a big pretty serving plate with 1 1/2 leaves under cake for garnish. Carefully cut circle out of the center; remove center, leaving a 3-inch outer ring. Frost ring with Creamy Orange Frosting. At serving time, heap ice cream into center of the ring cake, bring to table with a bowl of Party Butterscotch Sauce to spoon over ice cream.

What about the remaining center piece? Spread it, too, with the same frosting, cover and put away for dessert for the family the next day. When ready to serve, decorate the little cake with halves of seeded grapes or maraschino cherries. Serve with bowls of sugared sliced peaches or other fruits in season.

If you'd like to make your own cake plate for the little cake, turn a stemmed goblet upside-down, attach a small plate to bottom of goblet with bits of molding clay. Be sure both goblet and plate are dry.

Old Fashioned Burnt Sugar Cake
1/2 cup cane brown sugar
1/2 cup boiling water
1 1/2 cups granulated sugar
2 cups all-purpose flour
3 teaspoons baking powder

1 1/2 teaspoons salt
1/2 cup shortening
2 eggs
1 cup cold water
1 teaspoon vanilla flavoring
First, make this burnt sugar syrup: Melt 1/2 cup brown sugar in heavy frying pan over low heat, stirring constantly. When sugar is dark and burnt in appearance, remove from heat, and at edge of pan slowly stir in 1/2 cup boiling water. Return burnt sugar to heat and boil gently, about 5 minutes, until thickened. Cool.

Next, make the cake: Cream shortening, and gradually cream in 1 1/2 cups granulated sugar until light and fluffy. Stir in eggs, one at a time, beating well each time. Measure and sift flour with baking powder and salt, then gradually add to creamed mixture, alternating with the cold water, and beating well after each addition. Stir in 1/2 teaspoon vanilla. Pour into well-greased 10-inch cake pan at least 1 1/2 inches deep. Bake at 375 for about 45 minutes, or until well done. Serves 6 to 8.

Creamy Orange Frosting
2 cups sifted cane powdered sugar
2 tablespoons softened butter
1 egg yolk
1 beaten egg white
1/4 teaspoon salt
1 to 2 tablespoons grated orange

Angel Food Cake Is Festive Meal Touch

As a festive final touch to that special summertime dinner, serve delectable angel food cake. Here is a cake of infinite variety. It can be served uniced, thanks to its delicious macaroon-like "crust." Or spread it thinly with a fruit-flavored icing, unless you prefer a crushed-fruit-and-whipped-cream topping.

Angel food cake is timely, too, thanks to the current abundance of eggs.

Even competent cooks sometimes shy away from attempting this masterpiece among cakes. But the detailed recipe for Angel Food Cake Supreme offered by Betty Crocker of General Mills ends all that. By following exactly the very explicit directions, you can expect perfection every time. Quality ingredients and this meringue-method do the trick. Cake flour is a must, and today's finely-milled cake flour is the most important ingredient in achieving delicate texture.

Use some of the left-over egg yolks in maple frango or, for the cake's return engagement as delicious Toasted Angel Food, in Orange Sauce (recipe below).

ANGEL FOOD CAKE SUPREME
Preheat oven to 375 degrees (quick moderate). Have egg whites at room temperature. Sift an ample amount of cake flour onto a square of paper.

STEP 1
Measure and sift together 3 times:
1 cup sifted cake flour
1/4 cup (3/4 cup plus 2 tbsp.) sugar
STEP 2
Measure into large mixing bowl:
1 1/2 cups egg whites (about 12 whites)
1/4 tsp. cream of tartar
1/4 tsp. salt
1/4 tsp. vanilla
1/4 tsp. almond extract
Beat with wire whip until foamy throughout. Gradually add, 2 tbsp. at a time, 1/4 cup sugar.

Beat about 10 seconds after each addition. Continue beating after the last addition until meringue is firm and holds stiff, straight peaks when wire whip is gently lifted out of meringue. (This requires considerable beating.)

STEP 3
Place flour-sugar mixture in sifter and sift about 3 times, over the entire surface of meringue. Fold gently with wire whip or rubber scraper until flour-sugar mixture disappears using about 8 to 10 complete folding strokes and turning the bowl a quarter of a turn with each stroke.

Repeat this folding process until all of the flour and sugar is folded in. Then scrape down the sides of the bowl with a rubber scraper and fold 8 to 10 more strokes or until mixture is completely blended. This mixture will be very thick.

Carefully, with a rubber scraper, push the batter into ungreased tube pan, 10 x 4-in. Lift the last portion lightly from the bowl into the pan, being careful not to stir it.

Carefully cut through the batter going around the tube 5 or 6 times with a knife or steel spatula to break large air bubbles. Be sure to even up batter so it is level and touches sides of the pan. Bake 30 to 35 minutes in quick moderate oven (375 degrees), or until top springs back when lightly touched. Deep cracks in the top are typical of this cake.

Immediately turn pan upside

Ham For A Group

Church or club group to serve? Here's a clever choice. Purchase a canned ham and have your meat dealer slice it, then tie it back in shape. About one hour before serving time, place the ham in a roasting pan and pour a can of pineapple juice over it. When heated through, remove the strings and place the ham on a large tray. Gently garnish with crabapples and parsley.

Lipton's Tea Offers Handy Premium
A practical, work-saver item known as the Tidee Maid Thread Box is the Lipton Tea Company's ice tea premium offer this summer. The box, made of clear, sturdy Styron plastic, holds 14 standard size spools. There's a double your money back guarantee on the premium.

The item will be advertised in The Herald Sunday with a full color ad in the comic section. This is only the beginning of Lipton's throughout-the-summer campaign for its refreshing iced tea.

The thread box is available to customers for 75 cents and the top from any size box of Lipton Tea or Tea Bags. It has a certified retail value of \$1.50.

Snack Burgers
Here's a quick trick for snack time. Cut a canned luncheon loaf into slices and broil, then spread with prepared mustard and serve in hamburger buns. Be sure to have sweet relish on the side.

Modern Meat Loaf

Here's a meat loaf serving you'll have ready in a wink. Cut a canned pork loaf into individual servings and place in a baking dish. Top each slice with a pineapple ring, centered with a pitted prune. Sprinkle with brown sugar, add about 1/2 cup of pineapple juice and bake in a moderate oven for about 30 minutes.

STAR-KIST TUNA WINS 3-TO-1!

Nationwide Tests Prove Star-Kist Wins Over All Other Leading Brands... In unbiased taste tests, an overwhelming majority chose Star-Kist. Why? Because only the smaller, naturally finer tuna are packed under the Star-Kist label. Better three ways: LIGHTER, FINER-TEXTURED, BETTER-TASTING! Buy some today!

OLDTIMERS AND NEWCOMERS PREFER...

Supreme Salad Wafers

IN 4-PACK
Yes—everyone who uses crackers prefers Supreme Salad Wafers in 4-Pack. Because those four separately-sealed units to the pound mean four times more... freshness, crispness, flakiness and Supreme Flavor!

20 Trucks, Spraying Machine Working In Stanton Clean-Up

STANTON, (SC)—The city-wide clean-up campaign under the direction of Councilman A. W. Heckler is coming along nicely, he said this morning.

Twenty trucks provided by citizens have been busy hauling away the trash and the town has been thoroughly DDT sprayed twice with power spraying equipment rented from Big Spring.

Heckler said no further spraying will be done for some time unless rains, which he doesn't expect, come and wash away the effects of the two DDT treatments that have been applied.

"The citizens have been giving us splendid co-operation," Heckler said, "and we are trying to do such a thorough job that at least the balance of the week will be required to complete it." He said all old lumber and trash piles are being cleaned up as well as all possible breeding places for flies, other insects and rodents.

The campaign was launched last Thursday, four days earlier than scheduled, because of the appearance of two polo cases in the community.

Co-operating in the clean-up project are the Martin County Chamber of Commerce, city officials, county officials, school officials, the Martin County Forum of which Mrs. Leo Turner is president; the State Health Department, and other organizations.

Among various committee members assisting Heckler are Mrs. James Jones, Mrs. Mamie Rhoten, Bobby Bryan, Garvis Ross, Gene Graham, Mrs. Hila Weathers, manager of the Chamber of Commerce, Mrs. Glenn L. Brown, Mrs. Morgan H. J. B. F. White, Alton Turner, S. W. Wheeler, Mrs. Woodford Sale, Jose Puga, Van Hooser, Police Chief Ogal Avery, E. D. Steele, and others.

Riding THE GRUB LINE With Franklin Reynolds

Two Howard County farmers have already accepted delivery of Guar seed for soil building and soil protection, according to the Big Spring office of the Soil Conservation Service.

Bence O. Brown of Vincent is planting 30 acres and Edgar Phillips is planting 100 acres, because they say they don't know of a bet-

ter quick growing crop to protect blow land. Guar requires but very little moisture (and it looks like that will be all it will get around here); it usually up four days after planting, and there is a market for the seed at four cents a pound, with yields running as high as 1,000 pounds to the acre. Seed cost will be about \$1.25 an acre and present planting equipment will do the job.

Interested farmers should go to the SCS office, where seed is available regardless of whether or not the farmer is an SCD co-operator.

Supervisors of the Martin-Howard SCD say that interest in planting Blue Panic grass is on the increase. This is another drought-resistant plant and a good graze. Bob Merrick of the Old Soash Community is planting some more. He had a few acres that he thought had become a causality to the drought, but when he got .75 inches of moisture, new growth started from the Blue Panic roots. He plans on a dry planting.

Interest in other grasses both as a graze, and for soil protection, is also on the upgrade in the sandy soils country. John T. Sherrod, who farms five miles northeast of Big Spring has 75 pounds of Sand Love-grass seed which he is going to put into his pasture this summer using one of the SCD's grass drills.

Conservation Thought: "If moisture comes too late for cotton, A good cash crop can still be gotten—Plant to Guar and you'll discover it's also hard to beat for cover!"

C. E. Fisher, superintendent of the Spur Experiment Station, who spoke on mosquito eradication at the Big Spring Experiment Station's Feeders' Field Day last month, told a group at Ozona Tuesday, that the spraying of mosquito won't do much good this summer. As he pointed out in his address here, ranges are too dry this year, and to get the optimum effect mosquito should be sprayed when there is plenty of moisture and when the mosquitoes have abundant foliage. The leaves catch the poison and send it to the roots, and it takes plenty of strong, healthy leaves to get the job properly done.

One of Texas' outstanding Hereford breeders has announced he plans to crossbreed with Santa Gertrudis and Brahmas. He is Joe Bridwell of Wichita Falls.

Bridwell has bought 5,000 acres of Mississippi grass about 22 miles east of the Mississippi River at \$97.50 an acre, and is sending Hereford cows there. He plans to improve the pastures and set up the crossbreeding program because, as he explains, some Brahma blood is necessary to get the maximum of beef building in that section of the Deep South.

More and more breeders are seeing the advantages of the hybrid vigor in building beef—but before there can be crossbreeding there must first be purebred herds of both the Brahmas and the British beef breeds.

The folks in Glasscock and Sterling Counties can now point with pride to the fact that they are in the biggest state senatorial district in Texas, the 25th, which the general Senator Dorsey Hardeman of San Angelo inherited by legislative redistricting action.

This new district is made up of the counties of Brewster, Coke, Coleman, Crane, Crockett, Edwards, Glasscock, Irion, Jeff Davis, Pecos, Presidio, Reagan, Runnels, Sterling, Schleicher, Sutton, Terrell, Tom Green, Upton and Val Verde. It contains 41,294 square miles which makes it larger than the state of Kentucky or the state of Ohio. It is 1,000 miles around it. It embraces one-sixth of Texas and two per cent of the population.

Brewster County alone is five times larger than Rhode Island, three times the size of Delaware, is 50 per cent larger than Connecticut and Rhode Island combined.

In population it is the smallest senatorial district in Texas.

Record averages for two of America's best known annual Shorthorn auctions have been set in Illinois.

Edellyn Farms at Wilson made a \$1,972 average on 42 head for a total of \$81,970. Ten bulls brought an average of \$2,085 and 32 females made a \$1,936 average. The top bull went for \$10,000. Last year this sale averaged \$1,382.

The following day at the Marell-bar sale at Libertyville, 46 head brought a total of \$79,800, for an average of \$1,735. Seven bulls averaged \$2,143 while the 39 females averaged \$1,554. The 1951 average for this sale was \$1,322.

It's Cheaper By The Score, Poppa Claims

PADUCAH, Ky., June 6 (U)—It's even cheaper by the score than by the dozen.

That's the belief of Orville H. Morpheu, an instrument-fitter at the Paducah atomic plant, who once is reported to have said it

costs no more to feed his 20 children and 10 of his stepchildren than it does 12.

Morpheu, 47, has fathered five sets of twins, three sets of triplets and 10 other children.

His story is a feature in the current issue of Atomic, a newspaper for atomic plant employees. He won't grant interviews to other newspapermen, but the story says the Morpheu himself is a twin and one of 31 children.

A Morpheu family reunion is a little like a Farm Bureau picnic. The last one, at Atalla, Ala., cost \$1,500, the Atomican reports.

Morpheu was born in Bonanza, Ark. He first married when he was

13 and his wife 12. Since then he has been married four other times.

Five of his children live with him here. The others live in Alabama, Arkansas, Oklahoma, Tennessee and Texas or are in the armed forces.

His is not such an unusual story however, he says. A friend of his, who lives in Texas (city unnamed), is the father of 35 children, he reported.

A three-year drought reduced the cattle population of the giant King Ranch in Southern Texas from 83,000 to 60,000.

School Lunch Rooms Report No Deficits

Four rural schools in Howard County operated school cafeterias, or lunch rooms, during the past school year and none had a deficit at the end of the year, according to Walker Bailey, county superintendent.

Lunchrooms were operated for the 1951-52 term at Gay Hill, Midway, Center Point and Elbow. At Midway, Gay Hill and Center Point pupils were charged 25 cents per meal on a daily basis. At Elbow, meals were sold on a monthly basis, and the cost averaged out at approximately 15 cents per meal, Bailey said.

All four of the rural schools which offered cafeteria service had nearly 100 per cent participation.

The schools are reimbursed for cafeteria service at the rate of five cents per meal when milk is not served and seven cents per meal when milk is served. The Federal Funds are distributed through the Texas Education Agency.

In addition, school cafeterias receive some surplus commodities during the school year. However, receipts of surplus foodstuffs were considerably lower last year than in other recent school terms.

Among items received by Howard County schools were honey, shelled pecans, concentrated orange juice, cherries, dried prunes, canned tomatoes, peanut butter and fresh apples. Most of the shipments of surplus commodities for the past term came before Christmas.

One other rural school cafeteria will be opened in the county next year. It will be at Vealmoor, where new facilities are under construction.

Gay Hill will also have improved facilities next year as the result of a current building program.

DR. JAMES R. GRAHAM

Rye Wedges With Cheese Make Good Company Canapes

(Makes 44 canapes)

1 loaf salty rye bread, about 1 1/2 inches diam.

1 5-oz. jar relish cheese spread

1 5-oz. jar olive pimiento cheese

Slice rye bread into 66 one-eighth-inch slices. Set aside 11 slices. Spread remaining slices with the cheese spreads, using about 1 teaspoon for each slice, alternating cheese spread, stack with one of the 11 unsliced slices. Wrap stacks in waxed paper and chill thoroughly. Just before serving, cut each stack into four wedges.

Kitchen Tip

If you're building a kitchen make it big enough to hold a plastic covered sofa, lounge chair, radio and, possibly, television. If you're stuck with a small room, make it as comfortable as possible. Decorate it with as much care as possible.

Evangelist Boosts Chiang, MacArthur

Generalissimo Chiang Kai-shek and General Douglas MacArthur have a strong supporter in Dr. James R. Graham, a Presbyterian missionary to China who is speaking twice daily in Big Spring this week.

Dr. Graham, who has spent almost half his life in China, where he was born, is a personal friend of Chiang and agrees with the position MacArthur took in the conflict that resulted in his ouster by President Truman last year.

He believes that when MacArthur and Truman parted on Wake Island in October, 1950, that it was not only a physical parting but a stinging of attitude and policy to be pursued toward Formosa and the "silent man" (Chiang).

The missionary says that Chiang Kai-shek's 750,000 troops, plus nearly 2,000,000 guerrilla fighters in China, are the principal hope for running the Communists out of China.

Dr. Graham came to the United States last year from Formosa where he had been for a year. He spent 27 years in China. The missionary will return to Formosa in September with plans for establishment of a college.

Born of missionary parents in China, Graham is a Far East representative and personal advisor of Evangelist Billy Graham. The two are not related.

He is considered one of the most fluent Westerners in the Mandarin language.

Confessing an "intense admiration" for Chiang Kai-shek, Dr. Graham says that "in spite of the shoddy treatment he has received from the United States," the Nationalist Chinese leader "has never once flinched from his loyalty and friendship."

"There is no reasonable doubt in my mind that the whole of China was lost to the Reds by the bungling and blundering of the United States government and by inexcusable misunderstanding of the nature and aims of the Chinese Reds," he adds.

Dr. Graham speaks daily at the East Fourth Baptist Church at 2:30 and 8 p.m. He will remain here through Friday. Accompanying the missionary is his wife.

Circus Is Planned In The Philippines

MANILA (AP)—Circus day comes tomorrow for the lost generation of Filipino and American children. An American style circus has not played here since the Pacific war started in 1941.

Judged by the enthusiasm of adults, the youngsters will have to fight for seats.
