SAFEGUARDING THE EYES OF TEXAS

Are you superstitious about glasses?

In ancient times, there were many quaint superstitions about faulty vision. One Greek writer taught that any eye trouble could be corrected merely by laying emeralds upon the eyes! Today we laugh at such unscientific notions. Yet many moderns have an almost superstitious belief that faulty vision may be corrected merely by "buying a pair of glasses" and putting them before the eyes. The truth is that glasses alone, without the professional services and technical skill of a properly qualified person, cannot improve your eye comfort and visual efficiency. If your eyes trouble you, seek professional advice, not glasses at a price.

## Spring Lake News

### SUPT. J. C. ALVIS RESIGNS

It is with deep regret we learn of the resignation of Mr. J. C. Alvis, superintendent of Springlake Independent School. Mr. Alvis has been in charge of Springlake for the past two years, and was to continue in this capacity for the ensuing year. Recently Mrs. Alvis became seriously ill suddenly and was placed in a Dallas hospital for special treatment. Her recuperation, her doctors say, will be long and tedious. Realizing this condition, Mr. Alvis resignation his work in order that he might have time from school duties to be with Mrs. Alvis during her convalescence.

When questioned as to his plans for the future, Superintendent Alvis replied, "For the immediate future I have none—just as soon as I can again reunite my family I will quite likely continue in educational work."

Mr. Alvis and daughter, Chestella, are leaving our community within a few days. They will be missed. Their places will be hard to fill. Not only were Mr. and Mrs. Alvis keenly interested in school and its many activities, they did much good work in our local churches, as held offices in the Chapter of the Eastern Star. Chestella's work in the Order of Rainbow Girls was outstanding, and she is one of the very few sophomores in high school, who holds a straight A record for the year.

"Not only do I speak for myself, but I express the sentiments of Mrs. Alvis and our daughter when I say that we leave this grand community of good people with saddened hearts. In our many years of school work, never have we worked with, and for, grander people than these of the past two years—and may the future hold for them only the good things of life," concluded Mr. Alvis.

There are no true cedars native to this country. However, seven evergreens are popularly so called.

The 325th Photographic Wing Reconnaissance, England. — First Lt. Ervin U. Bussanmas, Route 1, Littlefield, has received a Certificate of Merit in recognition of his superior work at this 325th Photographic Reconnaissance Wing commanded by Colonel George W. Humbrecht.

The commendation, reading: "For outstanding devotion to duty and meritorious performance of as-

signed duties," was presented to First Lieutenant Bussanmas, member of an organization whose contribution to the successful ending of the European war has already been highly praised by such generals as Eisenhower, Spaatz, Bradley, and Doolittle.

A graduate of North Texas State Teachers College, Lt. Bussanmas was the principal of the Miles High School at Miles. He entered the army in June, 1942, attended photography school at Yale University, Conn., and at Lowry Field, Colo., then was assigned to the European Theater of Operations in March, 1944. Here he was placed in charge of all United States film in the theater.

He is the son of Mr. and Mrs. F. H. Bussanmas of Littlefield.

Technical Sergeant J. Estes Wade, son of Mr. and Mrs. George Wade of Littlefield, Texas was among returnees at Brooke Convalescent Hospital, Brooke Hospital Center, Fort

Sam Houston, Texas during the month of June.

Wade served overseas fifteen months as an airplane mechanic with Headquarters Battery Division Artillery, 4th Armored Division in the European Theater of Operations. He saw combat in Normandy, France, and Germany and was injured in Belgium.

Technical Sergeant Wade entered the service on February 14, 1941, and was returned from overseas on April, 1945.

After processing in the receiving Company of the Brooke Convalescent Hospital, patients are assigned to various companies, depending upon the nature of their illness, where a company medical officer personally supervises their return to full health.

Sgt. Douglas Hall, who has been stationed in England as a mechanic on a B-17 in the 8th Air Force, and been home on a month's furlough, left Sunday, July 8, for El Paso, to receive instructions to report to a base in North Dakota.

Sgt. Hall is the son of Mr. and Mrs. M. D. Hall of Spade. Mrs. Hall is a daughter of Mrs. R. Ramage of Spade. She also returned this week to Dallas, where she is employed.

W. C. Cowan, CM 2-C, son of Mr. and Mrs. J. W. Cowan of Petersburg, formerly of Fieldton, is on a 30 day leave in the States. He has been overseas 33 1-2 months in the North Pacific area, and in Alaska. This is his third trip home. He left Petersburg Friday morning to report to Dallas for reassignment.

Seaman Cowan accompanied his father to Littlefield Monday of last week to consult with Dr. Shotwell at the Payne-Shotwell Hospital. Mr. Cowan, Sr., had injured his back picking beans and came to the doctor for treatment.

Pfc V. R. Lane, who has been overseas for the past 34 months and has recently been stationed in Germany with the Railway Transporta-

tion group, expects to arrive home about August 15. He is the son of Mr. and Mrs. L. R. Lane of Littlefield.

Flight Officer and Mrs. Guy Aldridge left recently to visit her parents at Crosbyton, Texas, after spending sometime with his parents, Mr. and Mrs. Wm. J. Aldridge, at Fieldton.

Pfc Warren Dale Rice, son of Mr. and Mrs. C. M. Rice of College Heights, arrived home recently from overseas on a 30 day furlough, but took it and had to go back to Tarny General Hospital, Palm Springs, Cal. He has been in the States since May 12.

Pfc Rice had been overseas a year with the 182nd Infantry, as a Machine Gunner. He was wounded April 12 on Cebu Island, south of Luzon, and was shot in the stomach three times. He was a patient in a Cebu hospital a month, and flew back to the States in a P-57. He is reported by his mother as feeling better.

Pfc Rice is wearing the Purple Heart, two decorations for making beachheads, three battle stars, and two combat badges.

He was wounded in all seven times, but some of his wounds were slight.

WITH THE SIXTH ARMY ON LUZON.—Pfc Charles F. Stark of Sudan, Texas, came to 38th division's 151st Infantry as a replacement with no combat experience, but became a veteran almost overnight when he bagged three Japs in his first action in the mountains northeast of Manila.

Stark joined his rifle company and pushed off with the veterans of Zig Zag pass and Bataan against the Shimbu line. The unit was assigned to take Hill 400.

Stark and his buddies reached the hill's crest when a machine gun opened up. One bullet pierced Stark's helmet and two others ripped through his sleeve and pack.

He fell backwards, rolling toward the edge of a 200-foot precipitous cliff, but the trench knife tucked in his boot caught in bamboo, halting his fall.

After the company responded with mortar fire, Stark's squad took the hill.

That's how he earned the Combat Infantry badge.

Stark is the husband of Mrs. Venita Stark, Sudan. His parents, Mr. and Mrs. Charles F. Stark, also reside there. He entered the Army in July, 1944, and sailed for overseas duty in January, 1945.

Hubert Colbert, S 2-C, has just completed boot training at San Diego, Cal., and arrived home Wednesday of last week on a ten day leave. He left again Tuesday of this week for San Diego for assignment.

Seaman Colbert was a patient for 34 days in a naval hospital at San Diego with Pneumonia.

**for GI JOE'S FAVORITE DISH**

THE EQUIVALENT OF NEARLY 30,000 MILES OF NEARLY 30,000 MILES OF MILK HAS BEEN ALLOCATED BY THE U. S. GOVERNMENT IN 1945 TO MAKE ICE CREAM FOR UNCLE SAM'S FIGHTERS ABROAD.

Every day 340,000 gallons of milk from America's dairy farms go into the preparation of the favorite dairy food for the GI Joes on foreign soil. That represents the total production from about 135,000 cows.

If all of the milk used each year making ice cream for America's fighters abroad were put in quart bottles it would make a row of bottles nearly 30,000 miles long. This, states the National Dairy Council, is a part of the contribution of America's dairy industry to the health, stamina and morale of her fighters.

## Future Homemakers To Meet at Hopping Home August 14

Tuesday night, July 10, at 8:30 o'clock a small group of F. H. T. girls met in the back yard of the Sid Hopping home. There were only 13 present. They were: Juanita Wright, Sybil White, Billie White, Gwendolyn Bates, Linka Matthews, Juanita Hamilton, Billye Marie Hopping, Jessie Boykin, Betty McMahon, Geraldine Clements, Frances Newton, Doris Cunningham, and sponsor, Mrs. Floyd Blackwell.

The girls were all feeling a trifle sad as nearly everyone was at the Carnival. Linda Matthews, the leader, had a very interesting program, and everyone was soon in high spirits.

The program was a play, "Red Rose". Billye Marie Hopping had a perfect piece. She played the part of a 21 year old girl who wasn't permitted to have callers, better known as Miss Margaret Cutting.

Juanita Hamilton did some excellent performing as the Old Maid aunt, Miss Mary Cutting, who had finally caught a boy friend by writing to a matrimonial bureau.

Jessie Boykin had a part which was just made for her, as an old Bachelor. Mr. Fred Freeman. He was Miss Mary Cutting's boy friend, and was very eager to get hitched.

Linda Matthews was the young man whom Margaret was slipping out to date, Mr. Jimmy Freeman. Linda did some swell acting on this part.

Everyone enjoyed the play very much, and felt that those who weren't present missed a lot. Both of our summer meetings have really been worth your time, but there seemed to be a large number of girls absent so far. Our last summer meeting will be at the home of Mr. and Mrs. Sid Hopping again at 9 P. M. August 14th, with Juanita

"Howdy Folks: Things look pretty here today. Rumors are big as ever and twice as many. If only about half are true I'll be satisfied, haha. "We are back on the hay a week. Work every day of the week and sometimes overtime, but this can't happen much longer, and all the work will be done. Then we can lay around again for awhile.

"My buddy Butcher and I talked over the country around Pep, Littlefield, and Munday. He lived in both sections and knows many people whom I know. He used to play at games in the Pep school house and knows the Albus boys (not by their first names). He used to run around with the Petrie boy, knows the Burts, Leonard Hill, the Fuquan families, Greeners, said he bought oil and gas from Paul Lewis, and that Fred Gerlach did a lot of work on his dad's car and it sure made

me feel like I was at home. Another buddy of mine was born in the house where Mills used to live. But he knows lots of people at home and in Munday, but moved when he was eight years old and can't remember much.

### Other Vitamin Sources

Comprehensive research studies have just disclosed that butterfat is a much more important source of vitamin A than formerly believed. Based on assays in experiment stations throughout the United States, the Department of Agriculture states that the vitamin A value of butter varies from 11,000 units of vitamin A per pound in the winter, to 18,000 units in the summer, with an average of 15,000 units for all butter made. This is more than 50% more vitamin A from butterfat than has often been attributed to it, according to the National Dairy Council.

The same survey shows that the average quart of milk contains 1,530 units of vitamin A. It also shows that the average person gets about 2,340 units of the estimated daily requirement of 3,000 vitamin A units from the amount of milk and its products now consumed. Vitamin A is "essential for life and health in people of all ages", according to the U. S. Department of Agriculture.

Of even greater importance are findings showing that by better dairy feeding methods, the vitamin A content of milk can be increased far beyond the present averages. Cows absorb the carotene in feed into vitamin A. By carefully preserving silage it is possible to produce milk fat with a vitamin A content nearly double the present average.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Lamb County Leader will be gladly corrected upon being brought to the attention of publisher. ### National Farm Safety Week

COLLEGE STATION — National attention will be focused on Farm Safety Week, which has been set from July 22 through July 28. With farmers called upon this year to produce more food and feed stuff in connection with the war effort than ever before, the problem is of increasing importance.

During last year, 3500 farm people lost their lives and more than \$90,000,000 in property was destroyed by fire. Our national farm economy is seriously affected by these thousands of accidental deaths.

Serious, too, is the toll of manpower taken each year by the million and a half farm people who are victims of accidental injuries. Many are so seriously injured that they never again will be able to do useful work, but even if they are disabled only for several days, they can have an immense affect on the family's annual income.

Most farm accidents can be prevented, and every farm family should help in the observation of this special week by a personal check-up around the place to eliminate fire and accident hazards. Farmers are urged to join with the rest of the nation in this "Home Hazard Hunt".

Many a man has joined the navy because the ships are kept so clean and tidy. Then he suddenly discovers who keeps them that way.

### Redeployment Plan Ahead of Schedule

As announced by the Associated Press, the re-deployment program with two full divisions—30,000 men—is ahead of schedule.

By the end of June 396,001 American soldiers had left Europe for home, the announcement said. Of these 280,000 left during June, when the quota was 250,000.

The 20th Armored division has bypassed the assembly area in a move toward Le Havre for shipment. It is the second armored division ticketed for redeployment. Some units have reached the port and the whole outfit is due to sail this month.

Five other divisions now are at Le Havre awaiting ships. These are the 87th, Second, Fifth and 28th Infantry and the 13th Armored.

The redeployment box score:

95th Infantry—in the United States.

104th—bulk of division in the United States with rest on the high seas.

Fourth and Eighth—on the high seas.

87th—Loaded at Le Havre last week.

44th—entire division now in the United Kingdom for reshipment.

Second—advance units sailed from Le Havre June 30. The rest are shipped from Le Havre July 10, 11 and 12.

Fifth—advance units sailed from Le Havre June 30. Rest shipped July 12.

13rd Armored—advance units sailed from Le Havre June 30. The rest moving to the port for shipment later this month.

20th Armored—advance units arrived Le Havre last week. Rest enroute to the port for July shipment.

### Veterans May Get Loans to Buy Farms

Interest has increased the loan of the Farm Security Administration by \$25,000,000 to permit returning veterans for purchase of family sized farms. The loans are to be made under the provisions of the Jones Farm Tenant Act which approximately 37,000 to tenant farms have been fully completed since the act was authorized by Congress in 1937. Loans of a maximum of \$5,000 which can be made under the program will bear interest at 4% and are repayable over a 40 year period.

A committee composed of experienced farmers in each county will administer the program by determining (1) eligibility of the applicant with respect to background, experience and credit, (2) the adequacy of the farm to support a living for the family and (3) the ability of the applicant to pay the loan. The functions of the committee in reviewing the applicant's qualifications and the adequacy of the farm are considered important by Farm Security Administration officials in processing applications and other eligible veterans from entering into an unprofitable operation.

H. Russell, local FSA Supervisor with offices at Littlefield, who is now receiving applications from veterans, has warned that to sharply increased land prices in some localities, veteran applicants may find it impossible to obtain land on a sound basis. "This program", Mr. Russell stated, "must be purchased on the basis of their earning capacity value and not by long time prices."

We are proud that he has retained stock in this bank, that he will be a member of the Board of Directors, and that we will have his valuable co-operation."

### Hilbun Expresses Thanks

In retiring from the presidency of the Littlefield bank, Mr. Hilbun expressed his deep appreciation of the friendship and co-operation which had been extended to him by the people of Littlefield and territory during the 18 years that he had served as president of the institution. He made special mention of the splendid co-operation he had received from the other officers, the directors and stockholders of the bank. The friendship and co-operation extended by the public and those connected in any way with the bank had made possible the increasing of the capital structure of the institution from \$25,000 to approximately \$250,000.

Mr. Hilbun said that Mr. Lee and Mr. Bell had extensive experience in the banking business and were men of integrity. He bespoke for them the same loyal friendship, the splendid co-operation which he had enjoyed from the people of Littlefield and territory down through the years.

### Officers and Directors

### Cpl. Calvin Lippard Gets Bronze Star

Cpl. Calvin Lippard, son of Mr. and Mrs. J. H. Lippard, who has been overseas 1 1/2 years, and in the service 27 months, has been awarded the Bronze Star. The Citation, awarding the medal, was sent to his parents recently, and sets out that the Bronze Star was awarded Cpl. Lippard "for meritorious achievement in connection with operations against the enemy while serving as acting scout sergeant of a Marine artillery battery of a Provisional Field Artillery Group, attached to a Marine Amphibious Corps landing force on Iwo Jima, Volcano Islands from 25 Feb. to 14 March, 1945. Corporal Lippard, while performing liaison duties and when communications to his post were disrupted by intense enemy artillery and mortar fire, volunteered as a runner, and exposing himself to enemy shell fire, carried messages until communications were restored. As a member of a forward observer party, he displayed unusual coolness in the face of intense enemy small arms and mortar fire, calling down accurate artillery fire on the enemy. His conduct was a continuation of the same high standard of service performed by him in the Marshalls and Marianas campaigns. His actions were in keeping with the highest traditions of the United States Naval Service."

Cpl. Lippard is now on Guam.

Mr. and Mrs. Lippard have a son, Pfc Johnny Lippard, who has been a prisoner of the Japs since the fall of Corregidor, May 5, 1942. The last time they heard of him was just before Mother's Day, when he made a broadcast, and the message was sent Mr. and Mrs. Lippard by the War Department. He is a prisoner at Camp Osaka, Japan.

### Federal Men Check Failure To Display Auto Use Stamp

Failure to affix Federal auto use car stamps to the windshields caused many Littlefield citizens considerable concern Monday. In fact, the little notices left on cars not displaying the Federal sticker said that the recipient was subject to a fine of \$25 or 30 days in jail, or both. Also the tardy soul was notified to report to a deputy collector of Internal Revenue at the Post Office and explain the absence of the stamp.

There were no instances of fines or imprisonment being imposed in men seemed to be in the way of Littlefield; the visit of the federal tion and getting everybody all checking up on the general situation straightened out.

The chief excuse offered for not displaying the stamp was that the purchaser put it in his wallet and forgot all about it.

Here, BBurl Bedford and Carl P. Shaffer, both of Lubbock, spent Tuesday in Amberst, Sudan and Muleshoe.

### Hershel Harrell Expected Home
