TOWN and COUNTRY

by Wendell Tooley

ONE THING about sandstorms, you don't have to move anything out of your home and for higher ground! When you start comparing sandstorms to hurricanes, floods, earthquakes, smog... they're so bad... West Texas is a pretty good place to live.

Have you noticed what a nice summer and fall we've had? Temperatures are very pleasant, and there's just enough breeze about the mornings to get you to get out of bed to take in several big gulps of fresh morning air.

True, they have better fish- ing down on the coast the year round than do West Texans... who wants his fish blown in his face by 178 mile per hour hurricanes?

Yes, I'll take good old Texas.

THERE'S much ado over the record of Babe Ruth... danger, Roger Maris, and Mickey Vernon with home runs the fifties to date and enough to beat the Babe's record of 60, make the record pretty shaky.

The day one breaks the record, Mrs. Ruth said tearfully: "I hope the Babe's record stands."

Dizzy Dean said it is not so much a feat to blast out 100 mph today. Fences have been built in bats and springers, and are livelier, and batters are allowed to smear anything... on a better grip. The game has become soft. Heurges that the spitball be brought back, to toughen the game, that no batters of any kind equal the Babe's record if the rules and conditions are the same as the ones under which he played.

And anyway, numbers of runs never take anything from the glory of Babe, for no one can hit for after him could hit his tremendous personal deal. He never feared any other, nor was ever heard to brag about anything he did. He was that indefinable "It."

Salvation Army Asks For Clothes

Monthly Salvation Army clothing will be held at noon today with a dinner at the Elgin Cafe dining room. Sgt. Damon Parker urges all members to be present for several necessary items of dress will be presented.

The new agenda will be the new budget, cooperation with community chest solicitation program, storm shelter and smaller items of interest.

All Salvation Army disaster relief in this area were distributed Sunday night to the hurricane area of Texas to

CROP BOARD ORGANIZES - Lamb County's Christian Rural Overseas Program board met Tuesday evening at the Courthouse in Littlefield. The board met Tuesday evening at the Courthouse in Littlefield. The board met Tuesday evening at the Courthouse in Littlefield.

Contests Are Slated Friday

Area teams kick off again Friday night at 8 p.m. each seeking victory as their eleven's battle. The seven area teams, not counting Littlefield, have racked up eight wins against six losses after two games each.

Amherst, with a two win season, will take on Sudan, who has a one win, one loss record. The game will be played at Sudan. Amherst downed New Deal and defeated Wilson 29-0 last weekend while Sudan lost to Morton and whipped Anton 18-12 last weekend. In last year's tilt Sudan came out the victor with a 28-14 win over the Bulldogs.

Anton's Bulldogs, yet to taste victory, travel to Sundown for their 8 p.m. tilt. Anton lost the season opener to Kress and went down to the Sudan Hornets 18-12 last weekend. In last year's game against Sundown, Anton came out on the short end of a 50-18 scoring spree.

Bula, also winless this season, takes on Pettit with the game set for the Bula stadium. Bula lost the season opener to Southland and was defeated by Smyer last weekend.

Olton's Mustangs with a one win, one loss record will be host to the Springlake Wolver-

1900 Hurricane Remembered By Mrs. A. G. Jungman

Carla, a name that has come to be a household term, means more to Mrs. A. G. Jungman of Pep than to most people in this area.

The hurricane Carla brought back some unpleasant memories that took Mrs. Jungman back to 1900 and her home near Schulenberg. The memory was of the terrible hurricane that year that took the lives of 6,000 persons along the Gulf Coast.

MRS. A. G. JUNGMAN

"It was just terrible," Mrs. Jungman recalled, "and was the only storm I can remember hearing all kinds of birds and ducks making all kinds of noises."

Schulenberg is about 160 miles from Galveston but is only 80 miles from the Gulf Coast where the 1900 storm struck. Mrs. Jungman was only eight-years-old at the time and, she didn't remember a great deal about the storm except the results.

"We lived in timber country," she said, "and when the storm was over most of them were broken off or heavily damaged. Pieces of trees were laying all about." She said it damaged the houses.

Two Wrecks Reported To City Police

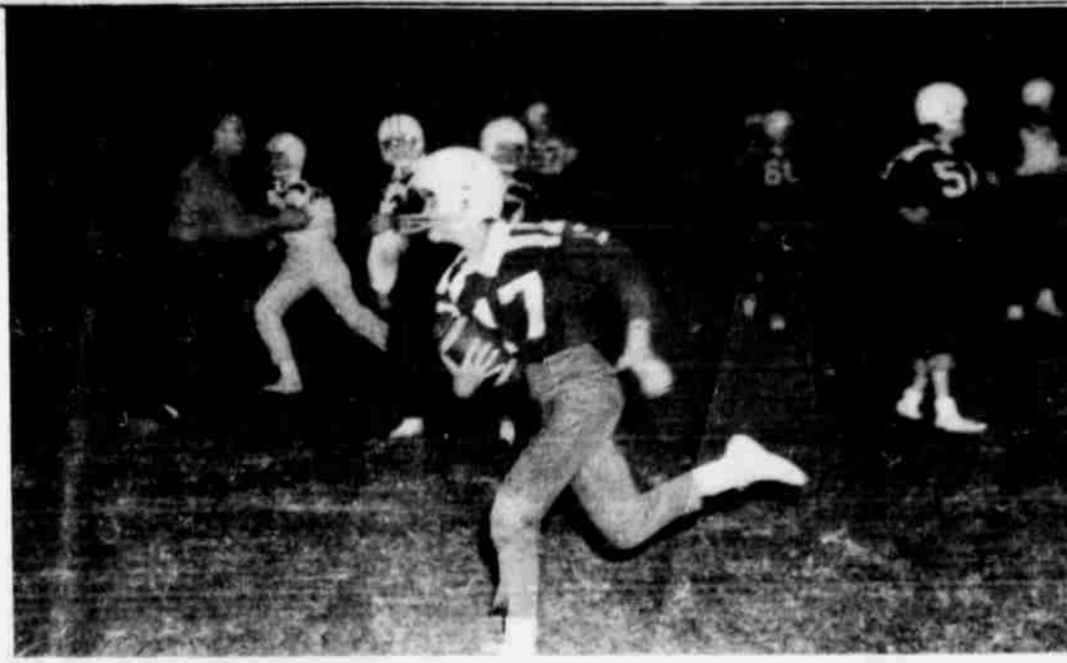

Two accidents were reported to City Police this week and another case of vandalism was noted.

Jim Pat Claunch of Enochs was travelling north on Harrah and hit a parked car belonging to Richard B. McDaniel of Littlefield near the corner of East 14th. The McDaniel car was parked on the east side of Harrah and faced south. Damage was estimated by the police at \$500 on the Claunch car and \$200 to the McDaniel vehicle.

Gerald Richev of Littlefield was going south on Sunset and collided with a parked car belonging to Leldon W. Phillips of Muleshoe. Damage was estimated at \$200 on the Richev car and \$125 on the Phillips auto.

A large bottle was thrown through one of the show room windows on the east side of Garland Motor Company causing damage estimated at \$150.

Sgt. Parker of the local Salvation Army office asks that anyone wishing to give items for this needy cause to please bring them by the office or call and he will pick them up.

POWDER PUFF SCATBACK! ... Lola Rankin makes a speedy end run at the annual Powder Puff football game between the Junior and Senior Girls. Although Lola's Junior team lost 30 to 14 they looked good in the first quarter.

School Board Approves Bank Loan To Operate

Littlefield's School Trustees authorized the business manager, Sid Hopping, to make arrangements with the depository bank for funds to cover the September payroll and other expenses. The amount to be borrowed not to exceed \$40,000.

Action came Monday night during the monthly meeting of the School Board. This action is necessary for the school to operate until state and local funds become available.

The Board voted to install six outside lights in strategic locations around the school grounds, and employ a night janitor-watchman to be on duty after hours. This was felt to be necessary due to the vandalism which has occurred at the school during the past few months.

Glenn Reeves, superintendent reported that during the past 13 months there have been 161 windows broken out, the bus barn entered six times with gas, keys, and drills taken, the high school building entered eight times, and other building entered and soft drink machines (Continued on Page Five)

Walden Is Named Young Farmer Head

Temporary Young Farmer Council met Monday night at 7:30 in the Vocational Agriculture Department with W. W. Wald, instructor.

Douglas Walden was elected Chairman of the Council, and presided over the meeting. Eldon Gohike was elected Secretary, and wrote minutes of the meeting.

A suggestive Constitution and By-Laws, and Program of Work were written to be presented at the organizational meeting to be held Thursday night, September 21, 7:30 in the Littlefield Vocational Agriculture Department.

If the group decides to organize the "Littlefield Young Farmers Association," officers will be elected, and the suggestive Constitution and By-Laws and Program of Work will be presented for their study, changes if any, and adoption.

Offices in the Association will be President, Vice Pres-

Red Cross Is Seeking Relief Funds

Red Cross workers will be at each bank in Lamb County beginning today and continuing through next Wednesday to accept donations for hurricane disaster relief, it was announced by Truitt Sides, County Red Cross chairman.

An emergency letter was received by the local Red Cross asking that it take steps for a full scale disaster relief campaign. The letter, from E. R. Harriman, national Red Cross chairman, requested that every chapter begin fund drives.

Anyone wishing to contribute can do so at any of the banks or by sending it to the Red Cross office in Littlefield.

City Needs Patrolman

Want to be a City Patrolman? Applications are being received in the office of City Manager J. W. Harrison, to fill a vacancy in the ranks of the City Police.

The vacancy was created this week by the resignation of Jim Cooper who has been with the department for about a year, and was only recently appointed as a full time patrolman.

Harrison said applicants should be between 21 and 45 years of age, and have at least a high school education. The new patrolman will start at \$285 a month, work 60 hours a week and received two weeks annual paid vacation, hospitalization, and retirement benefits.

Wildcats Test Indians Friday

Littlefield's strong defensive Wildcats travel to Seminole this Friday to try their hand against the Indians with the Cats seeking their second victory and the Indians trying for their first.

Game time is scheduled for 8 p.m. Last year's Wildcat-Seminole game was fought to a 20-20 deadlock with each team gaining the exact same yardage. During this game the Indians hit paydirt twice within 10 seconds. The first score came after a sustained drive and on the kick-off a Wildcat fumble was recovered in the end zone for the second tally.

The Cats surged ahead 20-14 with only second remaining but the Indians managed to score and tie the game.

Littlefield defeated Muleshoe 6-0 last weekend while the Indians lost a close decision to Denver City 9-8.

Don Williams, head Wildcat coach, said he was pleased with the defensive work at the Muleshoe game. He continued that he thought Roger Morris did very well considering he had never played quarterback before.

Williams plans to start Morris against Seminole, but added that Boots Barker may see some offensive action. Barker, starting quarterback who is sidelined with a neck injury, did not see action against the Mules.

Williams continued that the team this year has good spirit and a desire to play ball.

Analyzing Seminole Williams said the Indians depend largely on fullback Randy Hicks on offense with quarterback Frank Bice calling signals. Outstanding on defense for Seminole is Jim Verring, one of the best tacklers in the state.

Starting lineups for the teams were released early this week. For Littlefield: Billy Thompson and Billy Bankston, ends; Keith King and Johnny Hasden, tackles; Buddy Price and Mike Steffy, guards; John Foley at center; Morris, quarterback; Pete Estrada and Gary Scholva, halfbacks; and Tony Estrada at fullback.

For Seminole: Brasfield and Patton, ends; Roberg and Verring, tackles; Patterson and McCullough, guards; Tull at center; Bice, Miller, Able and Hicks in the backfield.

TEC Board Discusses Employment

Lamb County citizens, John D. Smith, and Wendell Tooley, will serve as a County Farm-Labor Committee and met with Billy Lynch, Manager of the Texas Employment Commission office, to review the total seasonal employment needs developed by the TEC.

Considering an average first freeze date the committee and the Employment commission estimated the 1961 Lamb cotton crop at 209,400 bales.

The Committee was presented with the figures of the TEC that Lamb County will be short 1650 cotton pickers during the peak period of the cotton harvest. This shortage will be met by the importation of Mexican National Bracero workers.

Area Man Is Burned

Gary Pickrell, Fieldton farmer, received second and third degree burns Monday morning when an irrigation motor he was attempting to start backfired and caught him on fire.

Pickrell was attempting to prime the engine when the backfire occurred. He was burned from the waist up with one arm and hand receiving the worst burns.

Mickey Pickrell, a cousin, was with Gary when the accident happened and helped put out the fire. Mickey then brought Gary to a local hospital where he is being treated.

Attendants there said the burns are healing as well as can be expected.

NEW COTTON BAGGING goes on this bale of 1961 cotton, ginned at the Lumsden Gin Tuesday. Pictured with the bale in downtown Littlefield are left to right: John D. Smith, Jack Wicker and Ross Lumsden. Smith produced the cotton, Smith and Wicker are on the board of directors of The Plains Cotton Growers, who is responsible for development of cotton bagging. Smith reports that if all bales this year were baled in cotton bagging, approximately 300,000 more bales of cotton would be used. The cotton bagging is more expensive than the jute bagging, but it is believed that use of the new bagging in volume would bring the cost down appreciably.

MRS. DONALD LEE POWELL

Parrish-Powell Exchange Vows In Sudan Ceremony

First Methodist Church in Sudan, Texas was the setting Thursday evening, for the wedding uniting Linda Rogene Parrish and Donald Lee Powell. The Reverend Franklin Weir officiated at the double ring ceremony which was the first activity to take place in the newly finished sanctuary of the church.

The bride is the daughter of Mr. and Mrs. Truman Parrish of Sudan, and the groom is the son of Mr. and Mrs. Forest Powell of Sudan.

The bride, who was given in marriage by her father, wore a gown of white satin fashioned with a Sabrina neckline applied with imported lace medallions. The molded bodice featured long sleeves that tapered to pointed points over the hands. The gored skirt extended into a chapel train which was highlighted with white satin roses, cascading down the train. Her short veil of silk illusion was held by princess tiara fashioned of pearls, rhinestones and tear-drops. She carried a white Bible topped by a bouquet of tall-man roses. The bride's mother designed and made the wedding dress.

The bride wore the traditional something old, something new, something borrowed and something blue, as well as a penny in her shoe for good luck.

Vows were exchanged before the archway of fall leaves flanked by candelabra and baskets of apricot colored spider mums and yellow gladioli. A white satin kneeling bench centered the arch. The traditional wedding selections were presented at the organ by Mrs. Orval Wallace of Sudan, Mrs. Scottie Davis of Portales, cousin of the bridegroom, sang three selections, "Whither Thou Goest", "Because", and "The Lord's Prayer."

Attendants were gowned in identical dresses of apricot colored arnel and cotton styled with empire waistlines, bateau necklines, and full skirts. They carried bouquets of apricot colored spider mums and wore hats fashioned of roses of the same material as the dresses. Miss Janet Reed of Muleshoe, Tex. was maid of honor. Bridesmaids were Mrs. Frankie Wiseman of Sudan, and Miss Wanda Powell, sister of the bridegroom, of Sudan. Cynthia Kay Parrish, sister of the bride, was junior bridesmaid.

Olton Is Host To Delta Kappa Gamma

The Epsilon Delta Chapter Delta Kappa Gamma Society met in Olton Saturday evening for a salad dinner at the Methodist Church, with twenty members in attendance. Addie Abernathy presided at the short business meeting, and Mrs. Mary Tollett, Sudan, program chairman, presented Selma Wiseman who gave a resume of the constitution during the workshop program.

They decided to have a joint meeting with the Plainview Chapter, March 3. Exchange students will furnish the program. The regional meeting of Delta Kappa Gamma will be held in Plainview, Nov. 4, 1961. The next meeting of the Epsilon Delta Chapter will be held in Littlefield in October.

Spade Garden Club Sets Flower Show This Month

The general rules for the Spade Garden Club, 1961 Flower Show may be secured through Mrs. James E. Steffey, chairman, and Mrs. Roy T. Black, co-chairman.

Anyone living in Spade or in the surrounding vicinity and who grows his own plants or flowers, is eligible to enter.

Arrangements entered must be created by the exhibitor, foliage and accessories permitted unless otherwise specified; and artificial flowers are permitted only when specified in the schedule.

The theme for the artistic division is Autumn Hues in Spade, and falls in thirteen categories: Sunset Glow, New Moon, Dought, Black Beauty, Snowdrift, Rose Splendor, Fall Sentinel, Spade Trails, Autumn Hues, Green Thumb, One Alone, Ballet, and Random Harvest. Categories for the junior division, ages 14 and under, are: Play Time, Teacher's Pet, Home on the Range, and In the Garden. All horticulture specimens must be grown by the exhibitor and must be entered in coke or milk bottles. A specimen is one blossom or plant or a stem with its blossoms.

All entries will be made at the Annex of the Spade Methodist Church Sept. 26, 1961, from 8 a.m. to 10 a.m. Late entries will be for display only and will not be judged.

Two Foreign Students To Give Talks

Two foreign students who are attending Wayland Baptist College, Plainview, will be guest speakers at the Olton 4-H Community Club Thursday night at 7:30 in the Legion Hut.

Miss Nora Howe and Lawrence Chu from Hong Kong, China will speak to 4-H members, parents, and leaders on customs of their country.

This program was planned last year by the club in order to know more about other countries.

Bible Ceremony Honors Mrs. Futrell

On Sunday afternoon, Mrs. O. L. Futrell of Amarillo, the former Nell Fields, was honored with a White Bible Ceremony in the parlor of the First Baptist Church. This is a traditional ceremony for members or former members of the Young Woman's Auxiliary at the time of marriage.

Mrs. Futrell was an active member of the Janet May YWA of the First Baptist Church during her high school days. She served as president of the YWA Council of Llanos Altos Association during her senior year.

The opening prayer was offered vocally with the song, God, Give Us Christian Homes sung by Judy and Linda Dale with Janey Blackmon accompanying them at the piano. Melva Lynn Ross, president, asked the honored couple to stand before a table in front of the fireplace, on which was a large Bible opened at the scripture Psalm 119:105: "Thy Word is a lamp unto my feet; a light unto my path." Miss Ross gave the history of the hearth as the symbol of the home, after which she lighted a candle from a huge white candle lighting the open Bible. In turn she lighted candles held by YWA members as they formed a circle around the honorees. Miss Judy Dale offered the prayer of the group for the young couple with the song, Bless This House.

Explaining the symbolism of the lighted candle representing the Word of God, Mrs. Ralph Nelson, director, exhorted Mr. and Mrs. Futrell that the Word might serve to light their home. Mrs. Nelson also referred to the YWA colors of green and white concluding with: "May the purity of your love, symbolized by the white, continue in growth, symbolized by the green as you advance more and more into the furtherance of the Gospel."

The song, Thy Word Is a Lamp Unto My Feet, sung by the Misses Dale, served to introduce the text of the presentation address brought by Rev. Robert D. Longshore, pastor. Following the closing prayer, Miss Linda Dale sang, O Perfect Love, thus ending the ceremony.

The traditional White Bible reception was then held. The table was laid with white lace and lighted with tall white spiral tapers in front of which stood a miniature bride carrying a tiny white Bible. Also featured was a white ceramic Bible bearing the names and wedding date of the couple, iced fruit punch and individual cakes iced with white and centered with a white rose were served.

Other YWA's members taking part in the ceremony were Ann and Paula Fields, sisters of Mrs. Futrell; Joyce Thompson, Patricia Locker, Jan Hampton, and Dot Haynes. Also present was Mrs. Virgil Fields, mother of Mrs. Futrell.

Lutherans See Slides Of Convention

The Women of the LWML of the Emmanuel Lutheran Church saw slides of the recent LWML National Convention held in Pittsburg, Pa., at their meeting at the church.

The slides were shown by Mrs. Alex Krausharr gave the devotional and led the group in singing.

Ten members were present for the meeting. Mr. and Mrs. E. W. Riley, Canyon, visited her parents, Mr. and Mrs. Curtis Chisholm over the weekend.

Martha Harmon Hosts Beta Sigma Phi Monday

Forum Members Enjoy Fall Breakfast Sunday Morn

DISCUSSES TOUR--Neal Walker, who has spent the summer in Chile, spoke to the Women's Forum at their annual breakfast Sunday morning. Above he is explaining the exact location of the town in which he stayed.

The Neil Woods spent the weekend fishing on the Conejos River in Colorado. Mrs. Hollis Smith attended a manager's business meeting in Levelland, Monday.

Members of the Forum Club enjoyed a breakfast at Thornton's Cafeteria, Sunday morning, when they heard Neal Walker speak on his stay in Santiago, Chile.

Neal was one of several youth accepted in April to take part in The Experiment in International Living in a home study program. He gave interesting excerpts of his experiences while living with a family in Chile for two months of the summer.

The breakfast theme was Latin America, and the colors, red, orange, and black were carried out in the decorations. The centerpiece was an arrangement of orange and yellow fall flowers in a straw hat.

Twenty members and six guests, Mrs. Francis Jones, Mrs. Audie Collins, Miss Anna Lee Neale, Mrs. Kenneth Houk, Mrs. Jerry Walker, and Mrs. Jackie Burke, and one new member, Mrs. Aaron Williams, attended.

Weekend guests in the home of P. L. Taylor, were his sister and husband, Mr. and Mrs. Frank Pullen and his sister, Mrs. J. P. Hickey, of Sherman.

Mr. and Mrs. Pete Herral and children, and Mr. and Mrs. Jim Mangum and boys spent the weekend at Almagorda Dam, in New Mexico, where the Herrals have a cabin.

Our Contemporaries Are Saying

LAMESA SEES THE LIGHT
Lamesa yesterday expressed its public conclusion that the Canadian River is the principal source of economic supply of surface water for municipal and industrial use in Northwest Texas, and particularly Lamesa.

Considerately the Authority had permitted Lamesa an extension of time to complete its exploration into possibility of getting water more economically from another source, its own Colorado River watershed.

It was a remote possibility, because the far-sighted and wise communities which had created the Colorado project supplied from the Lake Thomas reservoir, aren't wanting to sell any of that water permanently. They're even looking for more water to be used in that dry portion of the Permian Basin which has blossomed, in the transition from mere ranching, into an industrial area, eyed rather enviously by many less fortunate areas. Petroleum and gas, transportation and a lot of human resources have caused the area to blossom.

So yesterday the citizens of Lamesa, after deliberation, planning and study, chose 523 to 16 to authorize its municipal authorities to contract with the Canadian Municipal Water Authority for water. It is the eleventh city to do so. The people of these cities authorized contracts by a total vote of 29,078 for and 818 against.

The other cities in the authority were prepared to divide Lamesa's share of water among themselves, if necessary. Some cities even looked with a degree of eagerness at the prospect, wondering if they'd already overbought, but greatly concerned about whether they had underbought.

Several communities, not members of the authority, have been looking in from the outside, pondering chance to get water from the Canadian, fully aware of the constancy of demand, its increase, as well as the limitations of ground water supply.

Today the House Appropriations Committee put its approval on an appropriation of \$4,200,000 to start the project. The House has yet to act, which it will probably do next week, and then the Senate will act. It is presumed the bill will become law.

There's an occasional sour note, such as general opposition to federal spending, which is the attitude of some of the population, who fail to differentiate, just habitually squawk. They put the old record on and play its groove-worn tune through force of habit.

Veterans Are

Q -- My son, a World War II veteran, was killed recently in an accident. VA refused me compensation allowed. I cannot understand because I know other veterans who are given death dependency allowances. Why am I not entitled to the same benefits?

A -- A dependent pension may collect death dependency allowances from the VA if the veteran's death resulted from a service-connected injury or illness.

Q -- I understand that VA's direct loan limits have been increased. What is the new maximum and interest rate?

A -- Limit for a loan from the VA is \$10,000. Interest rate now is 5 1/4 per cent.

Q -- May a person enter a VA hospital, and if so, are the conditions of eligibility?

A -- Yes. He must be permanently disabled, have been discharged from duty or be receiving compensation for a service-connected disability, no visible means of support, and be incapable from earning a living.

Q -- How many veterans in the United States?

A -- There are estimated 400,000 World War I veterans in the United States, about 315,000 of World War II veterans, 70,000 Korea veterans and the either World War I veterans or Army nurses during the Spanish-American War.

WOOD STRONGEST

Weight for weight, Douglas fir is the strongest structural material. For example, simple tension tests show that three percent greater weight of structural steel is required to equal the strength of Douglas fir.

Philosopher Finds He's An Expert On How To Help Congressmen

Editor's Note: The Sandhills Philosopher on his Johnson grass farm discusses a topic he may be an expert on this week, avoiding back strain.

Dear editor: People are always looking to Washington for advice and information, but occasionally Washington ought to look out in the country for advice and information for itself.

For example, I was sitting under a tree on this Johnson grass farm the other afternoon just stretching my legs and resting my back, and since I figured I could still do that and read a newspaper at the same time, I pulled out a paper and started reading.

What started me was an article saying a Washington doctor has been advising Congressmen and other officials on how to take care of themselves to keep from developing back-

aches, and general muscular strains. In the first place, this doctor said, "a too-high chair will cause pressure on certain blood vessels in the thigh and may lead to severe cramps in the calf, initiating a painful muscle spasm sometimes with far-reaching consequences."

Now while I have never been injured by holding a phone for a long period of time, but have seen women get by with it, I'm not disputing this medical advice and I recommend it to a number of women around here I don't have the nerve to name. It's a dangerous practice and ought to be stopped. I do know though that driving a tractor, which is similar to driving a car, probably can cause severe backache, although I've never explored this fully. There are some things a man ought to know are dangerous without demonstrating it with his own back.

I have known this for years. If you get the right sort of chair I have found, you can sit in it for long periods of time without any ill-effects. I've tried it, and I know, it never occurred to me that Washington didn't know this, and I would have been glad to supply the information.

And also, the doctor said, muscle cramps may be caused by "holding a telephone for long periods in a poor position, by driving a car in positions that impose strain, or by bending over books for prolonged periods."

As for bending over reading maybe Congressmen haven't

found out this is bad, but I learned long ago you can read just as well sitting in a rocking chair with your feet propped up as you can bending over a desk, and while I don't know what medical opinion Washington has on sitting on the ground under a tree, I've found that if a man trains himself and steels himself for the job, it can be done.

Yours faithfully

TV Stars To Appear At Prison Rodeo

Five of the nation's foremost television and recording stars will be highlighted at the 30th annual Texas Prison Rodeo to be held each Sunday in October in the prison's \$1,000,000, 3000 stadium in Huntsville.

Opening the colorful event on Sunday, October 1, will be Fats Domino, sensational jazz pianist and singer, followed by Cowboy Rex Allen, and his horse Koko on October 8. On October 15, the star will be Ernest Tubbs, a veteran folk song personality. U. S. Bonds, one of the nation's number one recording artists, will appear on October 22, while Chuck Connors of "The Rifleman" TV fame will appear on October 29.

In addition to these entertainment stars, tough inmate cowboys will be attempting to tame tougher prison-produced broncs and bulls in a host of events not usually found in other rodeos.

Inmate specialties will include entertainment groups, plus the Gorie girls from the women's unit of the Texas Department of Corrections.

To round out a thrilling two-hour show which opens at 2 p.m., rodeo officials also have arranged to present such free-world events as calf roping, a girl's barrel race, and noted mounted quadrilles from various parts of Texas.

Net proceeds from ticket sales are earmarked for the benefit of more than 12,000 inmates for rehabilitative services not furnished by the state legislature.

Reserved seat tickets are \$2.40, \$3.75, and \$4.40 tax included. They may be obtained by writing Rodeo Ticket Office, Huntsville, Texas, enclosing check or money order.

Since the prison stadium seats 30,000, prison officials say no one will be turned away.

Gals To Tangle At Sports Arena Saturday Night

Girls! . . . Girls! . . . Girls! . . . a big tag match is the big feature at the wrestling matches Saturday night in the Littlefield Sports Arena with four girls in the ring.

Judy Grable and Fran Gravette will battle Peggy Allen and Margie Ramsey.

In other matches Mr. Clean is back and he'll take on Leo Newman. Judy Grable will be matched against Margie Ramsey for the finale.

Wrestling promoter John Usery promises plenty of fast action and good entertainment with this outstanding wrestling card.

Vetch Improves Organic Matter

Edward Mitchell, a Member of the Board of Supervisors for the Lamb County Soil Conservation District, says that vetch or a combination of vetch and small grain is an excellent crop to plant on the feed grain layout land because it is a very good soil builder.

Vetch will improve the soil, adding organic matter and nitrogen to the soil. Vetch is more desirable because it does add the nitrogen which small grain does not. Vetch should be inoculated for best results. Other than the soil building qualities vetch can be grazed alone or in combination with nurse crop such as small grain.

Experiment shows that the grazing value of a mixture of oats and vetch for beef is more than double that of oats alone in some areas. To get the best grazing value it is best to fertilize.

By having a crop such as vetch on the land the soil will be protected from wind and water erosion. Not only will the land on which the vetch is growing but the adjoining land will also benefit.

Vetch as a cover crop planted in cotton will also furnish the same benefits as it will on the layout land. Vetch is a very beneficial crop to have in a conservation cropping system.

Social Security Benefits Increase; Must Apply

Widows 62 or over, who are collecting social security benefits based on their own work, did not get increases in their payments with the checks delivered to them this month, John G. Hutton, district manager of the Lubbock Social Security Office pointed out today. But some of them may find that they can get a small increase in their monthly payments by applying to their social security office.

The ten per cent increase in widow's benefits, signed into law by President Kennedy on June 30, is payable to only those widows 62 or over who are receiving benefits based on their husband's work under social security, Hutton said.

Under the social security law a widow 62 or over who has worked under social security long enough to become insured is usually paid retirement benefits based on her own record of earnings. She is paid the widow's benefits based on her husband's earnings only if those widow's benefits would be higher than her own retirement benefits.

Because of the ten per cent increase in widow's benefits, Mr. Hutton said a few women now find that the widow's benefits based on their husband's work are somewhat higher than their present benefits.

Library Club Elects Heads

Members of the Littlefield High School Library Club held their first meeting Friday, in the Library. The purpose of the meeting was to elect club officers.

The elected officers are as follows: President - Dwight Aiken, vice president - Wynona Grote, secretary - Linda Walker, treasurer - Margaret Bass, reporter - Sharon Foley, parliamentarian - Raymond Grote.

Allen appointed an installation committee consisting of Vivian Lowery, Patsy Cunningham, Shirley Hollis, and Lois Rankin. Installation will be Friday afternoon.

Any widow who believes that she might qualify for higher benefits because of the change in the law can find out for sure by asking at her nearest social security office.

A representative of the Lubbock Social Security office will be in Littlefield on each Thursday at 9:30 a.m. in the County Courtroom, and will be glad to assist in all matters pertaining to social security.

Spade P-TA Meets Today

Parent - Teacher Association of Spade will meet Thursday at 7:30 p.m. for their first meeting of the year. New teachers and parents of new students will be introduced.

A film entitled "I was a Hobo Kid" by Billy Davis will be shown and a membership skin presented. Following the program a social hour will be held.

Farm Survey Is Planned For County

Assistant Postmaster George Thompson announced that Rural Mail Carriers will begin distributing 1961 Acreage Survey Cards to patrons on their routes today.

The Post Office and U. S. Agriculture Departments cooperatively make this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1961.

To be sure this community is well represented in the survey, Thompson urges each patron receiving a card to fill it out and return it to his mailbox. Rural mail carriers working on this project are: Ewing C. Thaxton, Route One; Roy S. Wade, Route Two; Mrs. Martha Drake, Star Rt. 2; Mrs. Eula Jackson, Star Rt. 1.

By Gene Garrison

Chairman, Dean House, recently re-located to just north of the Municipal Air Port. In fact, this is to be a dedication ceremony. The Research activities are conducted cooperatively with the Agriculture Service, the U.S.D.A. Texas Tech, the High Plains Research Foundation, The Texas Extension Service, the Plains Cotton Growers the South Plains Soil Fertility Committee, a large number of private industries (including our own Caprock Fertilizer) and a large number of farmers and businessmen.

The High Plains Foundation at Halfway, is supported by private subscriptions. As a matter of fact, they have several members here. Paymaster Oil Mill Co. (Western Cotton Oil Mill) has been a major contributor of theirs for years.

American - Marietta Company gave the Research Foundation twenty-one hundred feet of under-

ground pipe which is being used for irrigation studies. Both of these functions will feature guided tours of their varied experimental projects.

As an added incentive, there will be a free barbecue on each trip. This is a very fine gesture, because it is so seldom that I am able to tell my local businessmen that they are going to be able to get a free meal. Usually, the contrary is the case. They are generally concerned, and justifiably so, with how much a project is going to cost from the very first time that it is mentioned.

There is not a single businessman or farmer in this entire area who is not vitally concerned about the future productivity of our soil. At least I certainly hope this is the case.

We have no choice but to strive to conserve our water and our soil to enhance the future economy of Lamb County. Our situation is somewhat different from that of the old Southern Plantation, where they simply "wore the soil

out" and then moved on to previously un-cultivated land. Where will we go, if we allow our soil to wear out? What would happen to the investments made here?

Perhaps even more pertinent in the immediate future, what happens when our underground water is depleted? A little study will show that some areas are apt to face this problem sooner than we like to think about it. These experiment stations are working on conserving our water as well as our soil through recharge wells.

To pursue the values of such research and experiment further, we can consider the increased production per acre received as a result of cross-breeding and up-grading the crops grown in this area.

Dean House and I were discussing Friday, the experiments of various machinery, such as flame cultivators, at Halfway can become extremely important to our immediate area in the near future. It appears apparent that we will be faced with the possible loss of our bracero program or prohibitive farm labor cost, imposed by organized labor or both.

It is my belief that we should become better informed about the values of this particular aspect of our economy. We can do this September 19th, at Lubbock and September 27th at Halfway.

We urge a large number of businessmen as well as farmers to attend both meetings.

WHAT IS WRONG WITH THE NEW TEXAS SALES TAX?

The new sales tax is so politically and poorly drawn up that it will probably take 50% of the revenue raised by it to pay for the costs of its administration and enforcement.

The businessmen will have to boost the price of their products by at least 1% of their sales value in order to pay the over-head cost created for them by the present sales tax. This means the public is in effect paying a 3% instead of a 2% tax.

The public was led to believe that if a sales tax was approved by the last legislature, then the money problems of Texas would be solved. With the present tax, the money problems have just begun.

WHAT CAN WE DO TO CORRECT THE PRESENT SALES TAX MESS?

If the public will demand an immediate revision of this tax, it can be corrected.

I believe that if enough people will support a movement to rescind this new tax and substitute the following simple plan, it can be done in time to prevent the establishment of a new gigantic sales tax bureau in Texas.

Place a 1% (or less) sales tax on all merchandise sales in Texas.

If we do not force the present Governor and legislature to correct this at the forth coming special session, then it will be almost impossible to reduce the sales tax bureau during the next regular session. They will be firmly entrenched in Austin by that time.

Past experience will prove to you that a government bureau is like cancer - once it starts it will continue to spread unless a miracle occurs.

If you would like to see this movement started, take time to cut out the statement below, sign it, and mail it to Sales Tax, 2129 54th Street, Lubbock.

Mail To SALES TAX - Box 72, Littlefield, Texas

I REQUEST THAT THE FORTHCOMING SPECIAL SESSION OF THE TEXAS LEGISLATURE BE INSTRUCTED TO TAKE THE FOLLOWING ACTION.

1. ABOLISH THE RECENTLY PASSED 2% SALES TAX
2. REPLACE IT WITH A SIMPLE 1% (OR LESS) SALES TAX ON ALL MERCHANDISE SALES—NO EXEMPTIONS.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. -- Radioactive fallout is under close scrutiny at Texas' two testing stations in Austin and El Paso.

Resumption of nuclear testing by the Soviet Union brought on the 24-hour-a-day shift at the State Health Department building in Austin where sampling devices, working like vacuum cleaners, pull jet streams of air through a filter to measure fallout.

During the four year nuclear test ban, radioactivity got progressively lower. Before the tests were stopped, engineers said it was 50 to 100 times higher. They expect results of Russian shots to begin showing up here within the next few days.

Meanwhile, Gov. Price Daniel announced a survey is being launched in Texas to make fall-out shelter space available over the state. He said Col. R. Paul West of the U. S. Army Engineers at Fort Worth, who has been assigned to survey, will work in coordination with the State Civil Defense and Disaster Relief Division, and local civil defense officials.

Survey is part of a national program to locate possible fall-out shelter space in existing buildings, tunnels and other protected areas.

POULTRY INDUSTRY IN TROUBLE -- Texas Agriculture Commissioner John C. White organized a conference of southern Agriculture Commissioners in Atlanta, Ga., to "seek ways and means to help save the poultry industry."

White said they will attempt to find ways to relieve the current "disastrous poultry prices" which are at the lowest point in the history of commercial broiler production.

"This is not just a local situation in Texas," White said. "The entire national broiler industry is suffering from a price depression."

He reported poultry prices dropped in the past week to as low as 10.5 cents per pound, or as much as five cents below cost for many producers.

Meanwhile, the Attorney General's Department is studying the record of a special court of inquiry to determine if anti-trust violations are involved in the price decline.

Witnesses testified the trouble is overproduction. Actually the overproduction is not in Texas, but in the 21 other broiler producing states.

Phil Friberg, manager of the Western Hatcheries on Gonzales, said 50 per cent of Texas' broiler producers will be out of business if something doesn't happen.

Atty. Gen. Will Wilson wants to determine if "there is any effort to price the Texas poultry producer out of business."

PADRE ISLAND STUDY ORDERED -- Governor Daniel has taken up Land Commissioner Jerry Sadler's recommendation that a feasibility study be made to determine whether Padre Island beaches should be turned into a state park area.

Sadler said the Governor agreed to appoint a statewide committee with instructions to report quickly. The long, slender island, a potential playground paradise, has been the center of controversy since it was proposed that a large portion of it be turned over to the federal government for a national park area.

LOAN COMPANIES CLEAR-ED OF ANTI-TRUST CHARGE -- A civil anti-trust suit alleging 31 loan companies conspired to push punitive small loan laws through the Texas legislature has been dismissed by Federal Judge Ben Rice, Jr., in Austin.

Suit, filed by J. L. House, Jr., who operates a small loan business in Waco, and other cities, charged that large Texas, and out-of-state loan companies conspired to secure enactment of laws that would "destroy the small loan business of the plaintiff and all other similarly situated."

Judge Rice held the allegations did not show sufficient cause against the defendant companies to warrant a court trial.

OIL PRICES HIT -- Governor Daniel joined independent producers in pleas for action to stem the tide of falling Texas crude oil prices.

"In view of rising equipment and operating costs, crude purchasers should be thinking of some price increase," he said. "Domestic crude oil is long overdue for more realistic prices if needed exploration is to be stimulated. Lower prices, combined with a stringent law allowable pattern in Texas, will continue to aggravate the problem of the domestic oil producing industry. This, together with excessive foreign oil imports, some of them by the price-cutting companies, will hamstring the domestic industry and the producing states."

"I hope these and other purchasers will consider the plight of the domestic industry in their future actions," he concluded.

The president of the Texas Independent Producers and Royalty Owners Association, James F. West, said a personal appeal is being made to the heads of purchasing companies "in hope that common sense will assert itself."

PAPER BACKS IN SCHOOL? -- State Board of Education has launched a study into the question of how much could be saved by using

paper-back books in schools, and whether it would be worth it.

"We can't say what the savings will be until the study is made," State Education Commissioner, J. W. Edgar said, "but it appears the initial savings will be considerable." He pointed out the principal cost of some books is what's inside, rather than the materials used.

Board authorized the Texas Education Agency to start by asking bids on both soft cover and hard cover editions of one textbook - Vocal Music for Seventh and Eight grades. It also authorized the agency to have a qualified laboratory test the wearability of paper backs against hard covers and submit findings.

DEMOCRAT TURNS REPUBLICAN -- Jack Cox of Breckenridge, former member of the Texas House of Representatives who ran as a democrat for Governor in 1960, announced he is enlisting in the Republican Party "as a buck private."

"I can no longer support nor be a part of the Democratic Party under its present leadership and political platforms," he said. "And I shall immediately exercise my constitutional privilege of pledging my efforts and dedicating whatever abilities I may have to assist the Republican Party in its fight to restore constitutional government."

He said he will gladly serve the party of his new choice "in any capacity, no matter how small."

But he left the door open to run for Governor again. He polled some 620,000 votes in a two-man race that Governor Daniel won with 909,000 votes in 1960.

ROAD MAINTENANCE FUNDS NEEDED -- State Highway Commission is asking more flexibility in use of funds for maintenance of Farm-to-Market roads.

Problem today is adequate maintenance, improvement, and reconstruction of roads already built. Therefore, a portion of

the total F-M earmarked funds must be spent for maintenance. Governor Daniel vetoed the earmarked construction funds for the second year of the new biennium as a step in this direction. The Highway Department expects legislation to be introduced at the coming special session to finish the job.

FILLERS
About a nickel a day -- that's what tax experts figure the new sales tax will cost the average Texan whose income is figured in the three - to - four thousand dollar bracket.

State Treasurer Jesse James reports a slump of \$57,746 in August sales of cigarette tax stamps.

H. S. (Hank) Brown, president of the Texas AFL-CIO, predicts the Texas sales tax "will retire more legislators than ever before in history." He predicted "Texas will not take this tax."

State draft quota for October, calling for 911 men, is 201 less than September call. State Selective Service Director Morris Schwartz reports 6,002 men will be given pre-induction examinations in October.

"School Traffic Safety Week" has been designed as September 18 - 22 by Governor Daniel, who appeals for "vigorous traffic safety programs" throughout the state.

Labor Day weekend was the safest in Texas since 1946 with only 19 fatalities recorded by Department of Public Safety against expected 30. There were 17 for comparable period in 1946.

Lumber is graded according to its appearance and strength. Appearance grades are generally for interior finish or for exterior siding and trim. Strength grades are determined primarily on terms primarily on the stress factors they develop.

STACKED AGAINST YOU

340 tons of dishes are stacked against you in a lifetime -- and that's quite a pile. It takes 728 hours a year to do them by hand -- and that's a monthful of 24-hour days. You haven't got a chance of cleaning them by hand as well as an electric dishwasher will do the job -- and you'll have nothing but red hands to show for your effort. Why all this drudgery when a penny and a half spent doing the job electrically each day removes all the misery. Dishwashers come in portable models that take no extra plumbing or wiring. So -- don't be a dishwasher -- buy one.

Our Contemporaries Are Saying

"CADILLAC SMITH"

This outstanding editorial is reproduced from the Oswego

Somehow, the intended moral behind that Mr. Smith who went to Washington in his Cadillac, escapes us. Mr. Smith, you probably know by now, went to Washington to show Congressmen and Senators what he got -- the Cadillac -- going along with the government's crop-control program.

Now, as it was planned and staged, this was supposed to be your mad -- to think that your taxes were buying this Cadillac. And, of course, it was supposed to be your fume because Mr. Smith, the guinea pig chosen for the noble example of life in the good old USA bought his Cadillac with money paid him under a bill passed by a Democratic Congress and a Democratic president.

Well, Mr. Smith's Cadillac makes us mad, all right. But for the same reason that Mr. Smith's political mentors had in mind. We're mad because Mr. Smith is an example not only of government handouts, but of the moral degeneracy which is gripping this nation. Let Mr. Smith sum it up for himself. He was asked why he accepted these subsidies -- when he reduced his crop sufficiently to qualify -- and he said: "If I didn't someone else would."

If there's anything really wrong in Mr. Smith owning a Cadillac which the good status of the American farmer has made possible, we think it is his attitude that he might as well get his share.

To qualify for his share, Mr. Smith was obviously a big operator.

On the other hand, we'd say the chances were excellent that he would have earned enough to buy himself a Cadillac without subsidization. For he threw over a hundred acres into the program. And if Mr. Smith didn't get a Cadillac, there would have been many smaller farmers who would not have gotten a Chevrolet or a Ford. There would have been others who would not have gotten the proper clothes for Johnny and Jane, nor could they have afforded the taxes to operate the \$6,000 to \$8,000 school buses which take them off to fine new schools.

We see very little relative difference in Mr. Smith agreeing to grow hundreds of acres of corn which he previously had in production, and a man on the family sized farm agreeing to grow ten acres. The purpose of these programs is to assure our farmers the good things in life. Because of the nature of agriculture, and the law of supply and demand, it is impossible for each farmer to decide individually what he will grow and be assured he will make a decent profit from it. The organization to keep the farmer's financial head above water comes through mass-participation programs.

We see no difference in Mr. Smith's buying a Cadillac, if that's what he thinks is going to do him the most good in the future, and in a Tioga County dairy farmer, assured of proper income under Federal - State milk marketing orders, buying a \$6,000 combine to better his production. We think the Tioga dairy farmer is a lot wiser than Mr. Smith -- but the job of government is to create the opportunity -- not to keep a man from foolishly wasting that opportunity.

Subsidy programs were designed to help the average farmer keep him producing the vital necessities and to assure the decent living of the city folk. If Mr. Smith does his part to cut down the corn crop so that the poorer farmer can get a better price in the market-place, he's entitled to his proportion of the total gain. If he wants to invest his money in a showhorse, that's his privilege in this democracy.

But the real ailment in Mr. Smith's Cadillac is in his attitude. By his own admission, he was going along with this program not to help his fellow-farmers, but just to get what he could out of it. Obviously he didn't need the money, if he could

afford to buy a Cadillac and go touring.

And here we have a man trying to preach to us on virtue who shows very little of it himself. Remember he complied with the program and applied for these benefits. He did not have to take this money. His attitude is akin to that of some of our own Tioga County people, including a couple of our political leaders, who will hold forth on the subject of freedom and independence, but do not have a sufficiency of these qualities themselves to pass up their soil bank checks.

Mr. Smith would have been more convincing if he had bought a compact car, and put a sign on it saying this was all he could afford because he had rejected government handouts that he didn't need. If he and others similarly situated did this, then the programs designed to help keep the small farmer's head above water would be able to work and your taxes could go down in the bargain.

What we need, the case of Mr. Smith emphasizes; is not a Democratic subsidy, or a Republican restrictive sink-or-swim program for our farmers, but a good bit more of plain old American honesty and morality.

WHAT CAN BE DONE ABOUT IT?

"What can be done about these Latin Americans on the highways?"

That question was propounded by a top flight Plainview businessman.

He is of the opinion that altogether too many terrible highway accidents involve these people.

It is not difficult to believe that he is correct. At least to the extent that there are altogether too many terrible highway accidents of all kinds, he's right on the money.

There is no available record, readily to be examined, which will give positive and fair statistics about what kind of people are most responsible for accidents.

Then he raises a question about responsibility of these same people in case of accident. Are they protected by insurance policies habitually? If not, what are their resources with which to meet financial responsibilities of a driver on the highways?

Believing that they are sub-normal in this respect he starts wondering why we don't have compulsory automobile liability insurance.

To that question we believe we have the right answer. We don't want compulsory liability insurance. There are many valid reasons in the experience of states which have it. It would take more information and knowledge than we now have on this subject to change attitude on this.

There are two or more parties to all highway multi-car collisions. None can assuredly classify drivers racially, as to good or bad.

Yet it does seem that the man who asks about the Latin Americans has a point and that he's not altogether guessing, nor if so that he has made a bad guess.

Would frequent and rigid checking of drivers, all of us, during the harvest season and the time of greatest incidence of danger, be of any value?

Would adding more traffic officers or congregating them as they do in football season be helpful?

One thing that is certain, we can all be more careful about speed, about passing, and more alertly looking out for the driver who won't respect the rules, or who doesn't know the rules. Some people gawk in traffic because the roads and the country aren't familiar to them. Transients and seasonal drivers often come in that category.

It is futile to rail about the inexperienced drivers, the careless drivers, and the poor traffic pattern of the seasonal workers, for they won't read it anyway.

So rigid enforcement, willingness to report offenders, with time, circumstance and license number, might help.

We can all agree that it's a dangerous season of the year, and extreme care and precaution is in order.

"What can be done about it?" is a good question. The question is more easily uttered than the correct answer.

THIS IS LITTLEFIELD IN 1921 -- If you were living in or around Littlefield in 1921, chances are that you recognize some of the buildings, homes and people in this picture. The photo was taken from atop a building where Cliff's cafe is today with Phelps Avenue running in front of the brick buildings and on out to the depot. Beginning at the left and going right the first house is the old Burleson home. Moving farther right is the Edwards - Douglass Land and Grain office. Douglass was the

father of Jim Douglass. Just above this office is the present site of the General Telephone Company exchange building. The two story structure pictured is now the Mc-Knight Hotel located near the corner of Fourth and Littlefield Drive. To the right with the large windmill is the present location of Hammons Funeral Home. In the right front of Hammons is the present site of Mode O'Day at the corner of Phelps and Fourth. Across the street is the Littlefield Farms building, one of the first two story brick structures in West Texas. Littlefield Farms was operated by Arthur P.

AMHERST NEWS by Mrs. Lester LaGrange

The Baptist parsonage was the scene of courtesies for Mrs. Billy McKinney (nee Mary Edna Fowler) and Mrs. Melvin Dirickson (nee Glenda Fowler) Friday morning from 9:30 to 11:30 when the sisters were honored with a coffee and joint bridal shower.

Guests were greeted by Mrs. John Rankin and ushered into rooms where a large array of gifts were on display, including a set of stainless steel cooking ware for each girl from her hostess group.

A color scheme of yellow and white was carried out in cut flowers throughout the house. The serving table was covered with a white linen cloth and featured an arrangement of yellow Tagetes and Silver Bells in a silver bowl. A pair of love birds perched in a dainty bird cage of ruffles were suspended above the arrangement. Yellow candles in silverholders completed the centerpiece, and silver and white appointments were used. Mrs. J. P. Brantley served coffee

or fruit juice, and tiny sugared doughnuts to those who called.

Hostesses for Mrs. McKinney were: Mmes. John Rankin, Manry Brantley, T. H. Pennington, Lavern Bryant, Harvie Messamore, Charles Jones, J. P. Brantley, Ed Schovajsa, Bob Clayton, James Holland, Willie Tomes, B. O. Shavor, G. C. Bearden, Galen Cary, W. E. Nicholson, Maurice Brantley, Charles Nixon, T. I. Littlefield, Texas, 1921

Duggan, Sr., just behind this building was the Plains Hotel which was moved early this year to a location on Sixth. Back on Phelps the Land & Livestock building (wooden structure) is the present location of Thornton's. The basketball court is today's Farr's Jewelry and Maud's Dress Shop. Beginning at the left end of the brick buildings is Anthony's, Ben Franklin, and Perry Brothers. In 1921 the buildings were occupied by general merchandise and grocery stores, W. G. and J. T. Street ran one on left and J. E. Brazel on the right. In the background is the old school, present site of the primary building and playground. On either side of the school were the Santa

Fe water wells that pumped water to the two large tanks located near the railroad tracks. To the upper left of the Highway Garage is the one story house belonging to John Stockinger at 321 West First. The grain elevator is the present site of the Littlefield Grain Company on Delano. The depot is now in Laguna Park and was the American Legion Hut. The tin building with the tall smoke stack is the first cotton gin in Littlefield, across the highway from the present Irvin Gin Company. On the extreme right of the picture is the old Higginbotham Lumber yard site on Littlefield Drive. Bill Street gave the identifications for the picture.

OLTON NEWS by Mrs. W.B. Smith Jr.

Rev. Floyd B. Thorn Is Baptist Revival Speaker

Revival services at the Baptist Church of Olton Sunday morning with Rev. Floyd B. Thorn of Wichita, Kan., as the evangelist, and J. E. Trussell of Brownwood, Miss. Director. Services will continue Sunday, September 17, with weekly services scheduled at 10 a.m. and 7:45 p.m. Rev. Thorn served as pastor of the First Baptist Church of Wichita for fifteen years. Mr. Trussell is known throughout the state as an evangelist singer. He is a graduate of Howard Payne College and Southwestern Seminary. Mrs. Trussell will direct the women's choir, and serve as pianist for the services. Members of the Ladies' Sunday School classes will serve at noon each day at the church for the visiting workers, ladies, and their husbands.

Last rites were conducted Monday morning at 10:30 at the Lemons Funeral Home Chapel. He was a brother of Tom Stansell of Olton. EARTH NEWS by Frankie Faver

Luncheon guests Monday in the Roy Neal home were Mrs. Clarence Hamilton, Earth, and Mrs. Bo Bryant, Muleshoe.

Mr. and Mrs. Sam Cearley traveled to Martha, Okla., Saturday to visit Mrs. Cearley's mother, Mrs. R. I. Doughty. They were accompanied as far as Mangum, Okla., by Mrs. Frank Cowley, recent guest of the Kenneth Cowleys.

Horseshoe Bend in the sand hills was the camp site of the Earth Webelos Den of the Cub Scouts last Friday night. Participating in the outing were Elbert and Delbert Rudd, Steve Jackson, Dale Schellar, Bobby Cummings, and Bobby Glasscock. The boys were accompanied by Raymond Rudd, Frank Jackson, O. D. Scheller, and adult Webelo leader, Jim Glasscock.

The group left Earth at 6:30 p.m. Friday pitched tents and cooked supper and breakfast on the open campfire. An enjoyable time was reported. Webelo meeting date has been changed from Tuesday to Thursday nights beginning at 7:30. Meetings will be held at the Earth Community building. Den 3 of the Earth Cubs met Monday evening with Mrs. W.

and Vicki Gregory. Candy bars were served by Brenda Robinson at the close of the meeting.

Attending were Dennis Rylant, Billy Morgette, Mike West and Glenn Lackey, also den chief, Arboth Rylant, Morgette led the group in the opening ceremony including the Cub Scout promise and the Living Circle. He also led the pledge to the Flag which concluded the meeting. Refreshments were served by Mrs. Lackey.

Den 3 met Tuesday afternoon at the Community Building with six members, and den mothers, Mrs. Donald Street, and Mrs. Wilson Lewis present. Sam Lewis led the group in the pledge to the flag. The achievement chart was brought up to date, and miniature shell gardens were begun by the boys.

Refreshments were served by Mrs. J. A. Littleton, Jr. Five members and den chief Bobby Glasscock, met at 4 p.m. Wednesday at the community building with den mother, Mrs. Jim Glasscock. They played games, worked on a rope achievement, and began their booth for the harvest fair to be held later this month.

Mrs. T. T. Nichols, formerly of Earth, has been dismissed from a Houston hospital and is now at the home of her mother, in Cross Plains, Texas.

Earthies attending the annual J. W. H. Mitchell family reunion held Sunday in the Seymour, Texas park were Mr. and Mrs. C. L. Barlow, and daughter, Mrs. J. J. Barlow, Billy Wayne and Pets Mitchell.

Also attending from the area were Mr. and Mrs. Delbert Barlow, Littlefield, and Mr. and Mrs. Bob Wingo, Muleshoe.

Miss Sue Neal, and house guest, Freda Gahn, Lubbock, spent the weekend in the home of Mr. and Mrs. Roy Neal.

Ofentimes when it is not possible to build a complete wood fence for privacy, a section of western red cedar posts and any desired style of fence set at a selected place in the yard will give a shield of privacy from neighbors for sun bathing.

Guests in the home of Mr. and Mrs. W. T. Hankins this week were Mr. and Mrs. Alex Hudson of Kansas City, Mo., Mr. Hudson is a brother of Mrs. Hankins. Mrs. Jack Straw visited her daughter, Vandra Nichols of Friona Hospital Friday. Vandra is the daughter of Mr. and Mrs. V. E. Nichols of Friona. She is receiving treatment for pneumonia. Mr. and Mrs. Jack Roy Straw returned from Bovina to Amarillo. Roy will be a junior and his major is business. The twin boys were one year old September 4. Mr. and Mrs. Bobby Johnson, returned home Sunday after spending two weeks here visiting in the homes of their friends. Mr. and Mrs. Tom Mills, and Mr. and Mrs. Joe Johnson, Bobby will attend Texas University this fall where he is a pre-law major. Airman Apprentice Lester Hines, son of Mr. and Mrs. Ed Hines, spent his fourteen days leave here visiting his parents, other relatives and friends. Lester left Saturday for the Naval Air Station, Visalia, Calif., for five to six months instruction. Lester graduated from Olton High last May, and entered the Navy. William C. Stansell, 78, Amarillo, passed away Thursday night at St. Anthony's hospital in Amarillo, after a long illness.

One reason why west coast lumber prices hold fairly steady year in and year out is because of the outstanding job of utilization realized by sawmills. As an example, many west coast sawmills convert leftovers like trim, edgings, slab and broken pieces into pulp chips for manufacture of paper, thus reducing the cost of lumber.

EARTH NEWS by Frankie Faver

FHA Holds Formal Installation Services Monday

Springlake chapter of Future Homemakers of America held formal installation services at the Springlake High School Auditorium at 6 p.m. Monday.

Camilla Wheatley, past president, installed Gaye Northcott as president, Miss Northcott then served as installing officer.

Included on the new roster are La Don Messer, first vice-president; Patti Mann, second vice-president; Janice Cowley, third vice-president; Carolyn Gregory, secretary; Joan Gover, treasurer; Linda Olen, parliamentarian; Wanda Jenkins, historian; Evelyn Meadows, reporter; Sharon Bean, song leader; and Jane McCord, pianist.

Mrs. Marie Sloner, home economics instructor, is sponsor of the organization.

Meetings will be held each second Monday in the school auditorium.

A film of the Springlake-Houston football game which opened the season for the Wolverines last Friday night was shown to approximately 30 members of the Wolverine Booster Club at their Tuesday evening meeting at the school cafeteria.

Officers were elected for the year as follows: Fred Clayton, president; L. C. Hudson, secretary; and Hershel Sanders, vice president.

It was decided that the organization would install water lines for the purpose of watering the newly proposed practice field.

Meeting dates have been scheduled for 7:30 p.m. each Tuesday night.

Men of the Earth Methodist Church met at 8 p.m. Tuesday at the church for their initial program of the fall season.

Clarence Hamilton, program chairman, introduced Tommy Osborn, junior student at Prairie View College, who spoke about the school.

Mr. and Mrs. U. S. Laborn, teachers at Springlake Colored School, and parents of the speaker, were also special guests.

In business attended, the men decided to erect a lighted sign on the church grounds. Other plans and projects of the year were discussed including plans to attend a tri-district laymen's meeting to be held at 2 p.m. Sunday, September 17, at the First Methodist Church of Lubbock.
