No. 34

LITTLEFIELD C. OF C. TO HONOR CLUB BOYS DECEMBER 12

Tuesday of this week the Littlefield Chamber of Commerce lunched in the basement of the Baptist church which proved to be an ideal place for the meeting. The ladies served a fine meal, and the hall is large, warm and quiet, which will enable the Chamber to dispose of business faster and in a more satisfactory manner.

The secretary report called for a discussion of a number of important propositions but only a few were discussed at length.

Plainview has asked Littlefield to meet them at the dividing line of the two counties with their part of a highway leading direct to Hale Center and on to Plainview. A committee to survey the various routes and recommend the one that will best serve the town of Littlefield and its interest was appointed and will report at the next meeting.

A committee was also appointed to place some road signs that the stranger may find his way to Littlefield, where many of them are headed.

Two committees are at work on ways and means of getting the streets numbered, and it is hoped to have that problem solved in the near future.

The chamber is also negotiating with a specialist to locate him here as a livestock and food inspector. It is now considered an opportune time for an agricultural survey of Lamb county, as a survey at this time would show to the greatest possible advantage.

The Chamber of Commerce was rejoiced over the fact that the streets are being cleaned nicely.

Rev. R. B. Freeman, pastor of the Littlefield Methodist church, and who is reported as one of the liveliest wires in the Texas Conference, made an interesting talk. One thing he proposed was a Father and Son banquet, for Littlefield soon. It was agreed to hold this meeting just after the first in connection with the annual banquet of the Chamber of Commerce.

A banquet and splendid program will be given December 12 in honor of the prize winning boys of Lamb County. The state manager of clubs for boys will be the principal speaker. The district manager will also speak.

Following is the program:
Song—America. Music by Littlefield Orchestra.

Invocation.
Introduction of guests and refreshments.

Musical number—Miss Evelyn Runnels.

Musical number—Miss Evelyn Taylor.

Reading—Miss Lucille Jordan.

Address on Cooperation—P. E. Mason.

Story—Mrs. S. D. Hay.

Address—E. A. Bills.

Report—Miss Ruby Mashburn.

Report from boys.

Address of evening—O. B. Martin State Director.

Report—S. C. Evins, District Director.

Male quartet.

Informal talks.

Growth of the Texas dairy industry is indicated by the fact that Texas milk plants have a daily capacity of 800,000 pounds of milk, exclusive of 250,000 additional pounds capacity in cheese making plants.

Texas' investment in 1,380,000 automobiles is estimated at \$1,230,000,000, about one-tenth of the state's wealth of \$2,500,000,000.

Youngest President

Robert Maynard Hutchins, thirty-one years old, as he appeared at the ceremony of his installation as President of the University of Chicago.

LITTLEFIELD FATHERS TO HAVE CHARGE OF P.-T. A. PROGRAM

The fathers of Littlefield will have charge of the P.-T. A. program, Tuesday evening December 17, and all patrons of the school are urged to be present at this meeting. You are assured of a pleasant and entertaining hour.

In view of the coming program, the regular meeting of the P.-T. A. for next Wednesday afternoon, has been called off.

LFD. DEFEATS OLTON TEAM, SCORE 13-0 IN THANKSGIVING GAME

The ghost of Red Grange galloped up and down the Littlefield gridiron on Thanksgiving day in the person of Johnnie Smith, local High school halfback, when Littlefield decisively defeated Olton High school by a 13 to 0 score. This elusive back exhibited everything that a coach seeks in a ball carrier and his side-stepping and speedy dashes completely bewildered the defense. The entire Littlefield squad played good football, but they had to play a better game than usual to take the Olton Mustangs into camp. The Hooper brothers and Buddy Dennis all played snappy football but the Littlefield forward wall of whom Leo White was the outstanding man rarely let them penetrate to the secondary defense.

The first score came early in the fourth quarter when Johnnie Smith went around right end in a rake play and side-stepped his way through three Olton tacklers and over the goal line. The extra point was made by a place kick. On the next kick-off Littlefield kicked over the goal line and the Olton players stood by and watched Bill Arnn run down and pick up the ball for a touchdown. This touchdown was wholly resultant of the fact that the Olton players did not know the rules.

The largest crowd that ever witnessed a football game in Littlefield was on the sidelines, and there was no disturbance of any kind among the spectators to mar interest in the game. The Olton fans went home with the consciousness that they had seen their team whipped by a better team, due to the excellent officiating of Coach "Froggie" Lovvorn of Ralls High school.

This closes the football season for the Littlefield team with six games won, one tied, and one lost.

Coach Tucker has the material on hand for the best basketball team that the school has ever had. The squad is already hard at work but no conference games will be played until after the holidays.

MINISTER'S FORM ASSOCIATION

Monday at 10:00 a. m. at a meeting held in the First Baptist church, there was formed a local association of ministers.

Meetings will be held each Monday at 10:00 a. m.

All ministers of the community, of all denominations are urgently requested to unite with this organization.

—Rev. R. B. FREEMAN, Chairman.

—Rev. W. F. FULTON, Secretary.

SCOUTS WILL HAVE COURT OF HONOR

Friday night the organization of Boy Scouts will have a court of honor at the First Baptist church.

All parents of the scouts are urged to attend.

Scout Executive George Eaton, of Lubbock, and Rev. L. G. H. Williams, Episcopal Rector of Lubbock, will have charge of the program.

PLAINVIEW LIONS ROARED IN LITTLEFIELD THURSDAY

Members of the Plainview Lions club entertained the Littlefield Lions with a program Thursday. The members from Plainview were: C. B. Thomas, Ed McMath and H. W. Fields.

The program was enjoyed as well as the luncheon.

Rev. R. B. Freeman was a visitor.

An expedition has set out to make sound-pictures of animals in the African jungle. The result should be a movie which could honestly be proclaimed as a howling success.—Detroit Free Press.

The sailings of today are the sailings of tomorrow.

We're All Counting On You, Uncle Sam—

By Albert T. Reid

REV. R. B. FREEMAN DELIVERS SERMON AT THANKSGIVING SERVICE FIRST BAPTIST CH.

Below is an excerpt of the sermon delivered at Thanksgiving services at the First Baptist church, by Rev. R. B. Freeman, Methodist minister, Littlefield:

Subject: "Why we should give thanks unto God."

Text: Psalm 107:1-5. "Oh give thanks unto the Lord, for He is good, for His mercy endureth forever."

15th: "Oh that men would praise the Lord for His goodness, and for His wonderful works to the children of men."

Introductory—

"Why Thanksgiving?"

"Our forefathers believed in, and trusted God. When they arrived safely on this shore they at once fell on their knees and gave thanks unto God for a safe journey. That first winter was a very hard winter, many deaths, and hardships. The next spring and summer they cleared the ground and planted the seeds, that fall they had a wonderful harvest, they set apart a week of rest and Thanksgiving following the harvest, at which time they gave thanks unto God for the great harvest. This was the fall of 1621. The great Indian Chief Massasoit with 90 braves visited the Colony and were entertained for three days. The Indians killed deer and turkeys, and with the food from the land they made a great feast, and all made merry. This first Thanksgiving service lasted a whole week.

"I had the pleasure this past summer while in Boston to go over this same territory where our forefathers landed and made their first home in the new world. Time has made little change in that New England country.

So we have come down to the Modern day of Thanksgiving, with more and more to thank God for. For instance—the great inventions, of various kinds. Last but not least, the Kellogg Peace Pact. As never before we are a world people. The words of Jesus are quite true—"No man liveth unto himself, and no man dieth unto himself." We are today as never before, our brothers keeper. Bound together by ties of necessity, we must make them ties of love and sympathy.

First, let us consider briefly the goodness of God. Goodness and mercy are attributes that belong to God only. All goodness comes from God. We can not think of goodness outside of God. Also, mercy. We naturally think of all evil as coming from the devil, with every evil influence, purpose and plan.

"God's goodness is eternal. From everlasting to everlasting thou art God, before the mountains were brought forth, or ever thou hadst formed the earth and sea thou art

God. The same yesterday, today and forever, omnipotent, omnipresent, omniscient. This great, ever present all-wise God has governed and controlled the destinies of men from time immemorial and will continue to do so until time shall be no more. He who made the world and all that is in it, did not put it in order and set it going and go off to some far away place and forget all about it, and leave the whole thing to blind chance. God can be seen in every movement down through Ancient, Medieval and Modern History, for the development and betterment of humanity. Every great invention. Every scientific development. God can be seen working through man. Though these men may not give God the glory for their find, they may disown Him. Yet it remains true that when the world is in need of something to advance its progress, God finds a man and brings it to pass. When Israel should be delivered from Egypt, God found Moses and so it has been through history. God is working everywhere, looking for a man.

"God's goodness is universal—everywhere. No place can man go that he does not find the goodness of God. If he goes up "The firmament shows His handy work. "Day unto day uttereth speech, and night unto night, showeth knowledge." Psalm 19: 1-2. If he goes down—there he finds the wonderful purpose of God for the children of men. Coal, oil, gas, gold, iron, lead.

The source of all goodness: Every act and thought that's good, springs from the good emotions of the heart of man, prompted by God's Holy Spirit. Man may be outwardly bad, but all good he thinks or does, comes from God. And God should have the praise for it.

The Good Samaritan was not a Priest or Levite, nor a Scribe—just a common every day man, yet from his act of goodness Jesus made him the great examples of a real Neighbor. If he had been in this country his act would have been good for big headlines and a front page column, in all newspapers. While the Priest and Levite would have been asked as they should have been.

"What has God done? Consider His works.

"God made the world and all that is therein. How and how long does not matter. Suffice it to say "In the beginning was God." No scientist or evolutionist or modernist dares go back of that.

"First—Man the greatest machine ever conceived of. Set in motion, capable of doing his kind. Made in the image of God and the likeness thereof.

P.-T. A. MEETING

The P.-T. A. had its regular meeting Wednesday Nov. 28, with the president in charge.

The meeting opened with the invocation led by Bro. Grizzel, followed by two songs by the Camp Fire girls. Reports were made by the delegates to the State Convention at Waco.

The president then declared a business meeting in order. The treasurer reported that some money had been spent leaving in the treasury a balance of \$127.90. The membership chairman reported 35 paid members. The ways and means committee had no report.

A motion to allow the Junior Study club to sponsor the Camp Fire girls was carried.

The President reported that the next meeting would be in charge of the fathers. The president appointed F. O. Boles, Rev. Joe Grizzel and Lloyd Neely as a committee to be responsible for the next program.

The Home Economics class served refreshments.

Second—The adaption of Nature, look at the natural world. She brings forth her fruits in due season. The greatest sight on earth to me is God's unspoiled Nature.

"Third—God's Providential Government. God is in His world and all is well. Nothing comes by chance. No hit or miss system with God.

"Fourth—Look at the plan of redemption. God does not believe in waste. Jesus taught a great lesson of economy in feeding the 5000. Man became rebellious, went away from God, now God loved his man so much that He gave His only begotten Son, that man through His death might return to the Father.

"The goodness of God can not be reckoned. A little girl was walking with her father one evening and she looked up at the stars and said, "Daddy, I am going to count the stars. He said, "Go ahead." She counted awhile and finally sighed and said, "Goodness, there are too many of them." So are God's mercies. You can't count them. The song, "Count Your Blessings," is wrong.

"We ought to praise Him and give thanks unto Him always.

"In every heart no one but what has something to be thankful for.

"By every means, in every place, at all times, let all the people praise Him for his goodness and mercies to the children of men. All praise and honor is due His Holy name. Let the small and the great, the rich and the poor, join in praise and thanksgiving today, and one day we who love Him shall sing that great old song around the throne. "All Hail the power of Jesus Name, let Angels prostrate fall. Bring forth the royal diadem and crown Him Lord of All.

ATHLETICS WIN IN A CLOSE GAME WITH LUBBOCK PLAYERS

Payne Wood, the flashy Athletics forward furnished the necessary power to beat the Lubbock outfit in the closing minutes of play last day night.

Tech game started fast with the Athletics taking the lead on the onset and the Lubbock crew gaining as the time went on. There was never at any time when the score was more than three points difference, and it was anybody's game until the last whistle blew. Referee Wright found himself in a very difficult situation for the game was fast and furiously fought and the players being over anxious were tempted to be rough on occasions, but that element furnished the necessary thing for a real ball game. The score at the final whistle was 32-29.

McInturff, the long and lanky Athletic forward, who usually furnishes the greater part of the offense was held scoreless by the effective defense of Kerr, stellar Tech guard for three years. The Athletics nosed the Tech squad out in a previous game and with this addition to their winnings boast a perfect record. Although the game was rough in spots the same players that were in the first part survived and lasted the entire game, and no one went the foul route.

The defense of the Athletics was exceptionally good, and it was the playing of Davenport and Stone that repeatedly kept the fast Lubbock players from the baskets, thus saving the locals many scores to overcome, had they not been toward the defense. Kenneth "Andy" Hill, almost found himself a mat the fast Killen for he was repeated outjumped and it was Killen that made the most of the Lubbock scores, which is something that no other player has been able to do in this game, when matched with the Tech pivot man. The work of Barlo and Kerr stood out for the Tech while Wood, Stone and port starred for the locals.

These same teams will again tangle and lock horns Friday night in the High School gym at 8:00 o'clock. This game will be preceded by a girl's basket ball game between the Muleshoe girls and the local girl court artists.

The Littlefield band will be on hand and everyone that misses these games will lose the best in sports. Littlefield has been able to see year. The Athletics have the teams in the Panhandle on schedule and have so far managed to keep a perfect standing and it is the help of local fans in support of this is and will be made possible.

Coach Jones has built a good team from a large list of candidates from local High school and his girls' team is fastly getting under way and the encounter next Friday which will test the metal of the girl crew, will be able to place before the Tech a fast team. Littlefield is doing win both these games and if they victory runs true, fans will see a victory in High School Gym next day night.

Fans will get a chance to see the band in action inside, where pavilion will be more evident than the open.

WILL SERVE LUNCH

The ladies of the Presbyterian church will serve lunch Saturday, in connection with their bazaar, to be held in the Higginbotham-Bart Building.

"Be Careful, Dick"

Mrs. Richard Evelyn Byrd, mother of Commander Richard Byrd, explorer, who is now near the South Pole, talked to her son over radio from the executive mansion in Richmond, Va., where another son, Harry Byrd, is Governor. "Be careful, Dick," she warned the aviator.

MO

COLLEGE NEWS

Account of the Thanksgiving... many connected with the... were absent from the campus. The holiday season was begun a delightful banquet given by the... at the college cafeteria in... of the members of the faculty a delicious turkey-dinner was en... by all. One of the most in... and beneficial numbers on... program was the address on "Why... could Be Thankful" given by... Schell, editor of the Lamb... Leader, and a special guest of... dents. Mr. Mitchell also ad... numbers which were... related to the musical... The occasion was one of... joy and enthusiasm which was... throughout the evening. On... Wednesday morning at the ten... general assembly period, the

primary and intermediate students gave the following Thanksgiving program:
 Song: "America, the Beautiful" by the assembly.
 Prayer—E. K. Kitching.
 Reading of the 100th Psalm—Horace Mickey.
 Story of Thanksgiving—Roy Conner, Jr.
 Reading—Bertha Mae Duckworth.
 Song: "Thanksgiving Day"—Six little girls.
 Reading—Evelyn Baker.
 Dialogue: "Little Pilgrim Girls"—Five little girls.
 Increased interest is being shown in the department of music of the college. According to Miss Fields, a study of music is very important, because music study is special training for the senses of hearing, sight, and touch. It is training of a highly beneficial sort for mental, spiritual, and physical sides of personalities. Good

music tests, shapens, and invigorates the mind; it enlivens, ennobles, and inspires the spirit; it improves and develops personality.
 An interesting program will be given by the Joy Makers Club composed of the high school students, on Friday night, December 6th, and the public is cordially invited. The following program will be given:
 Answer Roll Call with a proverb.
 Reading of the minutes—by the secretary.
 Reading: Margaret Proch.
 Song: "Juanita" by all the assembly.
 Reading: Thelma Smith.
 Song: "The Spanish Cavalier"—by all the assembly.
 Dialogue: "The Lost Bracelet"—Miss Porch, Miss Kitching, and Mr. Winans.
 Stunt: by "Guess Who?"
 Dialogue: "A Friend in Need is a Friend Indeed," Misses Smith, Conner, and Kitching, and Messers Austin, Winans, Vaughn and Wall.
 Informal meeting with school yells, games, etc.
 Misses Strange, Finney, Barton and Smith went with Miss Smith's father to Lockney, Wednesday, Nov. 27, and Miss Strange and Miss Finney went to Tulla that afternoon.
 Mr. and Mrs. E. K. Kitching and daughter, Karrol, went to Turkey, Texas, Wednesday afternoon, Nov. 27.
 Miss Addie Hammons spent the holidays at her home near Fieldton.
 Miss Thelma Warren also went with Mr. and Mrs. Kitching to Turkey.
 Eugene Copley took Thanksgiving dinner with the family of R. O. Conner.
 Jack Vaughn spent Thanksgiving in Spar, with relatives.
 R. O. Conner returned Monday, from a trip to Wichita Falls, and points in Oklahoma.

Mr. Wooten (midget), "Make Wall Paper."
 Farmer (to college boy on sidewalk): "Hold my horses—"
 Clifton Winans, "I'm from Littlefield College."
 Farmer, "That's all right. I'll trust you."
 "Gastinel, are you hard of hearing?"
 "No, sir, how come, Jack?"
 "When I called for liver, you sent me leather."
 Mr. Wall: "You ought to learn to play the violin."
 Miss Barton: "Why?"
 Mr. Wall: "It would give your chin a rest."
 Miss Austin: "Do you believe in long engagements?"
 Miss Kitching: "Yes, I do. The longer a man is engaged, the less time he has to be married."

The Master Photographer catches the real spirit of you. And what a wonderful, personal gift such a portrait makes, especially for Christmas.
 Give your photographer ample time—make an appointment now—today.

J. E. BARNES
 Secretary-Treasurer

Miss Addie Hammons spent the holidays at her home near Fieldton.
 Miss Thelma Warren also went with Mr. and Mrs. Kitching to Turkey.
 Eugene Copley took Thanksgiving dinner with the family of R. O. Conner.
 Jack Vaughn spent Thanksgiving in Spar, with relatives.
 R. O. Conner returned Monday, from a trip to Wichita Falls, and points in Oklahoma.
Jokes
 Miss Finney (in economics), "The State Bank busted yesterday."
 Mr. Vance: "Yes, I heard it."
 Mr. Shelton: (in shorthand) "Some girls are wise."
 Miss Conner: "Yes, and some are otherwise."
 For Sale: My Knowledge of Biology—Clifton Winans.
 Miss Simmons: "And what do they do on Wall Street?"

SPEED
 REPORTS from England are that Flight Leader A. H. Orlebar, who flew 368 miles an hour for the Schneider Cup, has achieved a speed of 500 miles an hour in a private trial. At that rate, a man could start westward around the world in the latitude of London and never get out from under the sun.
 All human progress has arisen from the effort to expand time and compress space. Think that over. With flight at 500 miles an hour possible, space will mean nothing, time everything.
 Many who read this will live to see airplanes running regularly on some such time-schedule.
TIME
 "TIME is Money," said Poor Richard. Few understand just what that means.
 The new lacquer process of painting motor cars takes one day in the paint shop instead of a month. Paint-shop floor-space is saved. Money tied up in undelivered cars is released thirty days earlier, and capital is turned over faster; result, cheaper cars.
 A young railway clerk asked a Cleveland bank to let him prove he could save them \$25,000 a year by re-routing their mail exchanges with other banks. The first year the savings amounted to nearly \$100,000 interest on uncollected items in transit.
 Railroads run fast freight trains today on passenger schedules. Merchants can get goods in a week that used to take a month in transit. They do not have to carry such large stocks, hence have less capital tied up, lower interest charges and can sell cheaper.
 Every invention which moves men or merchandise faster cuts down the cost of living in this complex machine age.
TEACHERS
 PUBLIC education will never be as good as it ought to be so long as most school teachers never get outside of their home countries, says Edward A. Filene, Boston merchant and philanthropist. Teachers cannot present a true view of the world to their pupils unless they know something about the world out of their own experience.
 That is true for others besides teachers. The only really educated persons are those who have seen other countries besides their own. It is getting easier and easier to do that. A trip to Europe with a week in London and another week in Paris can be had for \$250 from New York. Mr. Filene is working on a plan to reduce this to \$150 for teachers and the next step, he thinks, will be to have such trips made compulsory for every teacher above the primary grades.
WHEAT
 THE most important news that has come out of Russia is the reported discovery by Russian botanists of a new hybrid grain, a cross between wheat and rye. It is said to combine the food qualities of wheat with the cold resistance of rye and to yield three times as many bushels to the acre as ordinary wheat.
 Not all the news that comes out of Russia can be credited, and this may be exaggerated. It must be remembered, however, that Russia gave the world new grains before the war. Durum wheat originated in that country as well as other valuable varieties.
 If this latest report is true, this discovery may have revolutionary consequences for the whole world.
COLOR
 MEN'S clothes are becoming more colorful. Blue, green and red shoes are the latest. Why not? In a world of color why should man's apparel strike the only somber note? Our ancestors dressed as gaily as their purses permitted. When George Washington went courting in a red coat, to wear plain clothes meant that the wearer was a Quaker or else too poor to buy gay garments.
 Anyone who doubts that men like to wear bright colors need only visit a fashionable country club. Women add to their color schemes for sport, men get more gorgeous.
 With everything else becoming more colorful, men's wear will follow, in time.

The Big Ready-to-Wear Sale Still Going On

New items have been added. Plenty of Big Bargains for everyone. Not only Bargains in Ready-to-Wear, but Specials from all over the store.

Our stock is very heavy. All good high class merchandise. But we have too much of it. It MUST be REDUCED before the first of the year. The only way we know how to do it is by SLASHING OUR PRICES.

Roy Gibson and family, Mr. and Mrs. Terrell and family, Dossie Terrell and wife, Mr. and Mrs. Jimmie Powers gathered at the home of Frank Power and family last Sunday to give them a farewell.

Herschel Holmes from Paris, spent Sunday afternoon with P. F. Bruce and family of Littlefield.

Loy Hester left last week for Alabama to see his uncle and make his future home there.
Joseph M. Scheuer went to Canyon

Wednesday to bring his daughter, Rose and Jean Lupton home for Thanksgiving vacation and Jean Lupton was taken to see her parents in Pep by her uncle W. H. Heinen, Wednesday night. Sunday evening Mr. Scheuer took the girls back to Canyon to resume their studies.

Mr. and Mrs. Frank Powers and son, Woodrow, Mr. and Mrs. Mid Seale left last week for South Texas, where they will make their future home.

Mr. and Mrs. Ben Dolle entertained Otto Green and family, Herman Miller and family, M. A. Burt and family, W. R. Geistman and family, O. L. Schlottman and family, Joseph Foltyn and wife, Mrs. Mary Yohner and children, Mrs. E. L. Russel and son with a turkey dinner Thanksgiving day.

Mr. and Mrs. Terrell, Dossie Terrell and wife spent Tuesday evening with Frank Powers and family.

Mike Yohner, of Pep attended early mass in Sacred Heart church in Littlefield, Sunday.

Mr. and Mrs. Max Kopp and son spent Sunday with J. M. Scheuer and family.

"Plant an ash tray in your car and save a tree in the forest."

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermiluge, which you can get at Stokes-Alexander Drug Company

Just think! This is going to be our OWN HOME!

The couple in the picture above are very happy. They are looking at the home we have just completed for them, and feel a glow of pride.

You, too, may own your own home. It's easier than you think.

Now is a good time to stop paying rent and get into the ownership class. We furnish everything from plans to paint—the very best of building material—and all on exceedingly reasonable terms. Ask us to explain to you.

Tremendous Assortment of

Gift Furniture

Wise Christmas givers know that one of the most permanent, useful and attractive gifts they can make is a gift of furniture.

Individual pieces, of course, top the list of favorites for Christmas gift-giving, and we have an astonishing array of such pieces in great variety.

Easy chairs—smokers' stands—telephone stands—desks—lamps—rugs—folding bridge tables—high chairs for baby—Windsor chairs—book racks—bookcases—pictures and a great variety of other objects.

Complete suites of furniture for the bedroom, dining room, parlor and breakfast room, too.

"See Us First and Last"

Imagine your Motor

Constantly immersed in
Oil

That, in effect, is what happens when you fill your crank case with Conoco Germ Processed Motor Oil—none of its hundreds of moving parts are ever without lubrication.

A MOTOR OIL, to do a 100% job, must lubricate *all the time*. That means that it should provide a lubricating film at *every* stage of motor operation including starting when the engine's cold. In other words, the motor should have a perpetual oil bath.

And that's exactly what happens when you use Conoco Germ Processed Motor Oil for the very good reason that this super-lubricant because of the patented germ process by which it is produced, actually combines with the bearing surfaces to form a film which adheres indelibly. *It never leaves the bearings*—and that means constant lubrication.

Think of the saving this means to the motoring public! Automotive engineers estimate that from 40% to 60% of the destructive wear and tear on a motor is caused in the starting operation because, with ordinary oil in the crankcase, the moving parts have no lubricating film when the engine is cold—and the oil is not distributed until 5 or 10 minutes after starting. Imagine the abuse to the engine during these periods of running with absolutely no lubrication! No wonder Conoco Germ Processed Oil is hailed as the revolutionizing motor lubricant. Its "carry-over" film has solved the greatest lubrication problem of the day. It assures longer life and smoother operation in any motor where it is used.

And never forget that to produce Conoco Germ Processed Oils the exclusive germ essence principle is applied to only carefully selected paraffin base crudes, resulting in a lubricant with greater film strength, greater adhesiveness, greater tenacity, greater stamina and lower friction than any other oil on the American market.

Draw up to the Conoco Red Triangle and give your motor a perpetual oil bath. Ask for Conoco Germ Processed Motor Oil.

GRAMMAR SCHOOL NEWS

sketchball, by Victor Nixon. The Grammar school boys played sketchball game with the High school Monday. It was a tight game, the boys liked it very much. The game was not kept, but everyone felt it was a close game. All of the boys were tired after the game, for each side did the best they could. The boys are very anxious to get another game, for they are very confident of winning. The boys have more team work than anyone else believe, but they soon found out they got right in and played a

There were many boys and girls on the side lines watching, yelling and trying the game very much.

Absent Pupils, by Ruby Yeary
There have been nine absent in Miss Nell's room; 14 absent in Mrs. Campbell's room; 10 absent in Miss Campbell's room; 15 absent in Miss Kilgough's room; 11 absent in Miss Kilgough's room; 15 absent in Miss Kilgough's room; 10 absent in Miss Kilgough's room; 25 absent in Mrs. Kilgough's room; six absent in 7-2 and absent in 7-1.

Library Books, by June McCormick
We have in our library five sets of books: The World Book; The New Encyclopaedia; Our Wonderful World; and Carpenters World Travels. All of these books are in bad condition except Carpenters World Travels. We hope they will have better care in the future.

The following missed five words in spelling this week in the seventh grade: Leo Alfred, Joseph Young, Glyma D. Coffee, Earl James, Kenneth Kasseroler, Onita Lowe, Leon Leonard, Chester Floyd, Fern Fralin, Margarita Friday, Garner Chambliss, June McCormick.

Editors Note: Owing to the absence of Jess Mitchell, editor, and the fact

that the Leader office is short of help, we have been unable to put the honor roll in type this week, but will do our best to have it in the paper next week.

M. E. SOCIETY MEET

The Missionary Society of the Methodist church met with Mrs. A. G. Hemphill, with Mrs. W. C. Thaxton, vice-president, in the chair. The lesson from the Missionary Voice was conducted by Mrs. Eagan, assisted by Mrs. Hemphill and Mrs. Teal. During the business session the following officers were elected for the coming year:

President, Mrs. Gardner; Vice-President, Mrs. Grow; Local Secretary, Mrs. Whitaker; Corresponding Secretary, Mrs. Cogdill; Corresponding Treasurer, Mrs. Potter; Superintendent of Missions and Bible Study, Mrs. Teal; Superintendent of Social Service, Mrs. Glenn; Superintendent of Children's Work, Mrs. Price; Superintendent of Literature and Publicity, Mrs. Van Clark; Superintendent of Missionary Voice, Mrs. Hemphill; Superintendent of Supplies, Mrs. Courtney; Pianist, Mrs. Hargrove.

After the business session a social hour was enjoyed and a lovely salad course served by the hostess to Mesdames T. Wade Potter, Eagan, D. G. Hobe, W. C. Thaxton, Glenn, Courtney, Neely, Hargrove, Freeman, Kuykendall, Teale, Davis, Riley, Luther Kirk, Cogdill, Freeman, Cundiff, Whitaker and Hemphill.

The next meeting will be with Mrs. Courtney.

B. Y. P. U. HAVE PARTY

The Intermediate B. Y. P. U. of the First Baptist church had a Thanksgiving program in the basement of the church Friday night. About 20 of the young people were present and enjoyed the evening by playing games. About 12:00 o'clock they were served with refreshments, consisting of nut sandwiches, wafers and hot chocolate topped with whipped cream.

PERSONAL ITEMS

J. H. Ward, of Austin, is here substituting in Phillips Petroleum company this week during the absence of Lewis Jernigan.

R. A. Chisholm, after a two weeks visit with his brother, J. E. Chisholm, and family, returned to his home in Brittain, Oklahoma.

Mr. and Mrs. J. E. Chisholm and Mr. and Mrs. J. W. Keithley were in Sudan and Amherst Sunday afternoon.

TABERNACLE B. Y. P. U. ENTERTAIN WITH DINNER

The Senior B. Y. P. U. of the Tabernacle Baptist church was entertained with a Thanksgiving dinner at the home of Rev. Roy A. Kemp. The turkey, with all the trimmings was served home style. After dinner the guests enjoyed singing and other amusements.

Those present were: Jessie Opal Busher, Ruby Clark, Ruby Curry, Eva Lena Clark, Freddie Dunagin, Mrs. Azalea Eubanks, Esta Mae Connell, Lexie Dunagin, Mrs. C. L. Ogilvie, Merle Atkinson, Pearl Atkinson, Mrs. Avon Harbin, Mamie Ruth Berryman, Mrs. Berryman, Carl Etheridge, C. L. Ogilvie, Doyle Berryman, J. G. Berryman, Jr., Otis Connell, J. W. Harbin, Oliver Eubanks, J. G. Berryman and the host and hostess, Rev. and Mrs. Roy A. Kemp.

ENTERTAINS S. S. CLASS

Mrs. J. G. Berryman entertained her Sunday School class, the seniors of the Tabernacle Baptist church, with a social on Thanksgiving night at the church. Many interesting games were played after which delicious refreshments were served to the following guests: Vera Etheridge, Freddie Dunagin, Lexie Dunagin, Naomi Whitaker, Ruby Curry, Hazel Bennett, Esta Mae Connell, Jake Busher, Eva Lena Clark, Mrs. J. W. Harbin, Miss Fields, Carl Etheridge, Jimmie James, Wilton Lambert, Otis Connell, Nathan Hendrix, Florence Hendrix, Telford Cain, J. W. Harbin, Doyle Berryman, Robert Brewer, J. G. Berryman, Tom Cuba, Clifton Winans, Emory Jones, and Mrs. Berryman.

CHURCH OF CHRIST

Bible Study 10:00 a. m.
Preaching, 11:00 a. m.
Subject: Bases of Christian Union.
Preaching 7:30 p. m.
Subject: "Seeking by Faith."
—T. L. Kimmel, Minister.

Kwit-herbelliakin and smite.

A. T. Griffin, grain buyer of Amherst, was in Littlefield transacting business Saturday and stayed over Sunday visiting his brother, Ike Griffin and wife.

Mrs. E. C. Logan, Mrs. Bill Yeary, Mrs. L. L. Brawley and Misses Ruby and Opal Yeary and Nola Brawley spent Thanksgiving day in Ralls and Crosbyton.

Mr. and Mrs. C. L. Adams, Glenn Roberts, B. T. Terry and Miss Pauline Bruce motored to Lubbock Thanksgiving night and enjoyed a "talkie."

Mr. and Mrs. E. J. Arnn, of Carey, and Mr. and Mrs. V. L. Arnn and children, of Childress, spent Thanksgiving here with their parents, Mr. and Mrs. J. W. Arnn and family.

Mrs. J. C. Tyler, arrived in Littlefield Sunday night to join her husband who has been here for the past two months. They will make their home here.

Floyd Hemphill, after spending the Thanksgiving holidays here with his parents, Mr. and Mrs. A. G. Hemphill, left Sunday for Canyon, where he will resume his studies in the University.

Mrs. J. O. Matthews, of Crosbyton is spending this week in Littlefield, and helping in the ladies ready-to-wear department of Matthews Cash store during the absence of Mrs. Fren, who is confined to her home with the flu.

Will Matthews and family, Charlie Cloud and family, A. Cloud and wife and Edith Pryon, of Crosbyton, W. R. Teague and family, J. G. Thomason and family of Littlefield and Roy King, of Tahoka, ate Thanksgiving dinner with W. H. Matthews and family of Littlefield. All report a big feed and a good time.

Mr. and Mrs. Oliver Griffay, of Gallup, New Mexico, spent the weekend here with his parents, Mr. and Mrs. Ed Griffay and family. Oliver being a brakeman on the Santa Fe, and having a vacation while his hand which was seriously infected is healing. He reported they were having lots of snow in New Mexico.

Bell-Gillette Chevrolet company reports the following car sales: John T. Turner, Levelland, roadster; G. E. Luecke, Littlefield, coach; W. T. Wright, Littlefield, sedan; G. W. Hargrove, Littlefield, coupe; George M. Smith, Morton coach; William Manuel, Sudan, coupe; B. B. Powers, Morton, coach; W. S. Calvert, Enoch, sedan.

Mr. and Mrs. Romulus W. Jones enjoyed a weekend visit from their son, J. Wilford Jones and his wife and son, Marvin, and Mr. Jones' father and mother, Mr. and Mrs. J. R. Jones, all of Lockney. Many other relatives who live near here were their guests on Thanksgiving day, at which time a large turkey was the main attraction at the festive board, the dinner being partly in honor of the 75th birthday of Mr. Jones' father, which occurred the 27th.

John H. Arnett Motor company reports the following Ford car sales: Henry Esau, Littlefield, roadster; O. P. Collins, Littlefield, roadster; G. W. Tull, Littlefield, sedan; J. E. Elliot, Littlefield, coach; Rex Matthews, Littlefield, coach; J. D. Nix, Amherst, coach; J. J. Hilton, Littlefield, coach; W. H. Fisher, Amherst, sedan; Acree Barton, Littlefield, coach; R. O. Edwards, Amherst, coupe; J. F. Girruk, Amherst, sedan; Miss Lucille Amherst, coach; Walter Lemond, Littlefield, coupe; G. C. Nicholson, Ivey, Chalk, coupe; F. B. Conner, telfield, truck.

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, if they are not paid for, will be published for a week. If the object is to raise money for a cause, the publisher will accept the advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

TEN YEARS FROM NOW

Within ten years autos will travel safely at a speed of 100 miles an hour, weigh less than 1,000 pounds, sell for less than \$1,000 and cover 80 miles on a gallon of gasoline.

For fear, however, Littlefield motorists may be led to believe that this statement represents the ravings of an idle brain, or comes from the pen of this editor—who is honest enough to admit he doesn't know much about autos—we hasten to produce our vendor of the self-starter and the authority. Chas. F. Kettering, in-farm lighting system, now head of General Motors research laboratories, not only makes the statement but he backs it up with convincing argument. He says a new metal now being perfected that is 15 times stronger than steel and only one-third as heavy as aluminum, will be used; that carburetors soon to be perfected will, with the light weight to pull, more than double the present gaso-

line mileage. The entire system of gear shifting as now in use will be done away with. And he adds that competition will still further reduce prices until there will be few cars selling above \$1,000—and then only when built to special order.

"As far as I can see," adds this wizard of the auto world, "the auto and the airplane will never conflict. Instead, they will tie right in with each other, and inside another ten years it will be a wise man indeed who can tell, when blindfolded, whether he's riding in a plane or an auto." And most of us in this day and age knew too much to laugh at such fellows when they make what seems like crazy predictions.

The most enjoyable climate is the one where the long green is in evidence all the year around.

A TIMELY HINT

In this day of fake stocks of every description it probably has not occur-

red to a lot of people around Littlefield that we have a pretty safe bureau of information in the banks of the community. It is part of a banker's business to keep posted on such things. As a rule, he knows what is safe and what isn't; what is dependable and what is doubtful. And it is to his credit that he tries to protect his neighborhood from such investments as are apt to prove valueless. He asks no compensation for his advice; neither does he feel offended if you fail to take it. But more than one man has been spared the loss of good hard money by steering clear of stocks his banker friend was doubtful about.

Even though a good many have lost money in recent weeks on the investment market, buying stock will continue. So if you are "in the market" for something that will net you a profit on your money, take a moment before investing to talk it over with a banker friend. You may be mighty glad a little later on that you did so.

Those sighs you hear probably come from the old-timers who can't find a cuspidor in a barber shop any more.

RAT-KILLING CONTESTS

Maybe if our friends around Littlefield knew that there are as many rats as there are people in the U. S. and that each rat consumes \$2 worth of foodstuffs a year, they'd spend a little more time and energy in ridding their premises of them.

The U. S. government is responsible for the estimate, and also adds that with more than 100,000,000 rats in the country a loss of \$200,000,000 a year is conservative. "Rat drives" are already popular in some sections, neighbors gathering at each others homes to join in a grand, free-for-all rat killing, with a big dinner for the winning side by the side that kills the fewest rats in a given time. It combines fun with worth-while slaughter, and since it is proving of value to residents of other communities it ought to be profitable around here.

There is only one thing for a man to do who is married to a woman who enjoys spending money. And that is to enjoy earning it.

THE LATEST WRINKLE

Since the season of good radio reception has again rolled around most anything new about radio is interesting reading. Within the past few weeks one of the best-known makes of automobiles has been exhibited with a complete radio set attached. Together no ware two of the world's greatest blessings.

Today we can get our ball scores, market quotations, stock reports, weather forecasts or jazz program as is needed is to operate a switch on we skim along the highway. All that the instrument board—and the radio set is in operation. It tends to show what a fast age we are living in, as well as to make us wonder more than we have ever wondered if there really is anything impossible outside of finding some way to dispense with death and taxes.

We have also reached the age where raising a thick beard is about the only thing a woman can't do.

LITTLE LEADERS

Just because a Littlefield man is strong is no sign he can carry a tune.

Maybe Littlefield boys seem more sinful now because they don't take the precaution to sneak out behind the barn.

The Littlefield husband may think he is boss, but if he gives money to relatives or needy strangers he is careful not to let his wife know about it.

An Atlanta woman says she has lived to be 103 by "minding her own business." Now we know why a lot of fellows around Littlefield are apt to die in middle age.

There are still a few Littlefield people living who can remember when the shingle was the board of education.

While it is not often repeated outstanding in most Littlefield homes that father furnishes the money and loud, there seems to be an under-mother the prayers.

Our idea of an "old-timer," is the Littlefield citizen who can remember when the butcher used to throw in a piece of fat for the dog.

Community Building

Money Spent on Paint Saves on Home Upkeep

Some of us have our homes painted to make them look attractive. Some of us think that we cannot afford to. A luxury, we say—justifiable, perhaps, if any luxury is because of the recognized effect of surroundings on home life. But still a luxury.

And so, we decide, painting must wait another season. Our budget is limited. We have an improvement to make here, a repair to make there, writes Jane Stewart in the Chicago Evening Post. Thus it goes on from year to year. Little by little the house becomes run down. A change quite imperceptible in the progress, then suddenly we awake to a semi-dilapidated home, all the charm of trimness vanished.

Meanwhile we have spent money on the roof—mending a leak, of course, could not be put off. Gutter spouts, too, needed attention. Little repairs here and there seemed to run up the bills. And we come to the conclusion that an old house is as bad as an old car with its inevitable repair bills (whose size seems to progress in geometric ratio) or, if the house be comparatively new, that cheap construction may be cheap in the beginning, but it is all too costly in the end.

If you have ever reasoned this way, stop and consider. If your house is old—yes, it may be costly to run. But a house is only as old as it looks. And paint can keep it young. As for cheap construction, it is indeed false economy. But in many cases it is the owner and not the builder who is at fault. The construction may be of the best, but there is no roof which in time will not spring leaks if its protective coating is allowed to wear away, no nail that will not rust, no siding that will not weather.

When the wood is left exposed to the weather moisture penetrates and subsequently dries out, with a resulting swelling and shrinking more quickly than those within, because they receive more moisture and dry out more rapidly. As a result, little cracks develop, making moisture penetration even easier. The surface roughens and in time the wood becomes badly weathered. Similarly, metal, if unprotected, corrodes. The roofs and gutter spouts, in need of paint, will rust and leak.

Quite aside from this physical deterioration is the depreciation of property which comes with a run-down condition. Once a house loses its touch of freshness it becomes undesirable property. The difference in price which it will bring is amazing, and the prospective seller may well consider the fact that a few hundred dollars spent for paint, inside and out, may mean the difference of a few thousand dollars in sale price.

American Tastes Rise in Residence Building

The people of the United States are increasing their expenditures for living accommodations considerably more rapidly than the population itself is growing. This is revealed by an investigation of the most recent data covering investment in new homes and apartments throughout the country, just completed by the research department of Greenbaum Sons' Investment company.

New residential construction begun in 1928 called for an outlay approximately 39 per cent greater than the amount expended for the same purpose in 1924. During the same period the population of the country gained only about 5 1/2 per cent.

This would indicate a distinct rise in American tastes and standards in the matter of housing, resulting in an increased demand for more up-to-date and comfortable, and incidentally more expensive, living quarters. It would also indicate that the American pocketbook is sufficiently well supplied to permit the indulgence of these tastes.

Itemizes Cost of Each Trade on Any Building

Following completion of a three-story brick apartment building, a Chicago contractor compiled a table showing the proportions of individual costs to the total construction.

The total cost of 35 cents a cubic foot is divided, according to percentage, as follows:
Excavating 2, masonry 30, carpentry and mill work 33 1-3, roofing 1, plastering 7, plumbing 9, heating 6, electric work 1, tile work 1, sheet metal 0.5, painting and decorating 4, glazing 1, miscellaneous iron 0.5, finished hardware 1, cleaning and pointing up 0.1, electric fixtures 1, shades 0.33, screens 0.5.

Approximately the same ratio applies to other buildings used for dwelling purposes, we are told.

People Hunger for Beauty.

The common people of America, although they put up with ugliness, are hungry for beauty. The real estate man has a chance to administer to a beauty-starved people by making their environment beautiful. Beauty is effective insurance against social ills because men do not revolt against civilization that makes their lives beautiful.

America lacks a sense of humor, says Count Keyserling. He ought to come over here during the football season and read some of the coach's stories on the eve of big football games.—Jackson News.

Local Druggist Says New Tariff Bill May Have Been Written by Some Congressman in Favor of Birth Control or Else Dislikes all the Kiddies

"Congress, every time it comes into session, always gets its blessings and curses," remarked J. M. Stokes, local druggist, one day last week to a bunch of semi-politicians gathered around the cigar case of his apothecary institution. "This year it seems they have taken particular interest in the 'infantry,' as 'nearly everything the baby needs and uses has had a boost in the new tariff bill.'"

"It's a good thing babies can't vote," remarked one father having two babies, standing by. Perhaps some of the senators are strong believers in birth control," suggested another married man who had no children at all. "It's a fact," said Stokes, "that anybody can go right down the line and spot innumerable cuffs and kicks that have been administered to the young citizens in swaddling clothes. For instance," he said:

"There's dextrime, with a duty raised from 2 1/4 to 3 cents a pound and if it isn't dextrime that's used in that well known baby food called dextri-maltose then it must be dextrose, on which the tariff is raised from 1 1/2 to 2 cents. Possibly the Ways and Means Committee soaked both dextrime and dextrose so as to be sure and get the babies going or coming, not knowing the difference.

"And gelatine, which babies are permitted to eat at an early stage, is hiked from 20 per cent and 3 1/2 cents a pound to 20 per cent and 5 cents.

"And did you see what's happening to glass bottles? Everybody knows that lots of babies can't do without glass bottles. The tariff has been raised from 55 to 65 per cent.

"The lowly crochet needle, used in fabricating hoods, booties and what-not for young America, is also hit a body blow. The old duty of \$1.15 a thousand and 40 per cent is now \$1.50 a thousand and 50 per cent.

"So, likewise, is it with milk. The pauper labor of Europe, it may be exports very little milk to this country—but, regardless, the duty has been shoved up from 2 cents a gallon to 9 cents a gallon.

"Shingles, probably, don't come under the heading of necessities for the fond parent, unless the parent is accustomed to use them in administering corporal punishment. Just the same, the shingle has been taken

off the free list and gets a duty of 25 per cent.

"And sugar, tied in a bit of cloth and sucked by fretful babies since time immemorable? Sugar's duty is hoisted from 2 1-5 cents a pound to 3 cents.

"Surgical instruments likewise, go up. Before this such things could be imported under a duty of 45 per cent. This duty now becomes 70 per cent—and the gadget that takes out junior's tonsils, accordingly, is going to cost more than it did before.

"Vegetables also share in the general increase, regardless of the fact that small children thrive on them. Everything from cabbages and radishes and turnips to beans and mushrooms and peas and onions is boosted.

"Even malted milk has been singled out and the duty on it raised all the way from 9 to 30 per cent. All sorts of cotton cloth has been made the subject of large hikes, and cotton, if one's meager technical knowledge is correct, is used to make diapers, as they are sometimes called. The same goes for wool, which most babies wear sooner or later.

"Before they got through with the bill in the House somebody remembered shoesies. Somebody would! And if shoesies are going to be made more expensive the number of babies abandoned on dorsteps will increase enormously."

Nearly everyone acquainted with Stokes knows he isn't very long on talk, but when it comes to drugs "he knows his ochre," and the above conversation clearly shows that J. M. keeps posted on the affairs of his own business.

3 Glasses Water Help Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass.

Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours.

Stokes & Alexander Drug Co.
One hundred and seventy thousand cigarette butts are thrown away every minute in 24 hours.

FARM STOCK

INSURE SPRING CROP OF LAMBS

A great deal of the success with the lambs in the spring depends on the feed and care given the ewes during the winter.

If ewes are to develop good lambs they must have good feed and plenty of exercise. This does not mean that they should be fat. The aim should be to keep them in good thrifty condition. If plenty of roughage is available the ewes, as a rule, will not need grain feed until about six weeks before lambing. Alfalfa hay is one of the best feeds for breeding ewes, writes Turner Wright in the Iowa Homestead. The clover hays are also good and should be used when alfalfa is not available, or they can be mixed with the alfalfa to very good advantage. The use of corn stover or sorghum and similar fodders will help to lower the cost of the winter keep, but as these feeds supply only a small amount of growth materials, the ewes should not be forced to subsist on them alone as weak lambs will likely be the result. Used in connection with alfalfa or one of the clover hays, however, they make a very good winter ration.

Watch the flock closely, and if any of the ewes begin to get thin in flesh, start feeding those ewes a small amount of grain each day. All the ewes in the flock ought to be put on a light grain feed about six weeks before lambing. About a half pound a day of a mixture of about two-thirds oats and one-third corn or barley for each ewe is very good for the grain ration. If one is fortunate enough to have a good wheat or rye pasture available, the ewes should have access to it at all times when weather conditions will permit. No other winter feed gives quite such good results.

A supply of good water at all times is an important consideration. If the water can be heated in very cold weather just enough to remove the chill, it will be better for the ewes. Many sheepmen make the mistake of housing their flock too closely in tight barns during the winter. A good dry place is all that is needed. It is very important to keep sheep from getting wet in the winter. A mature sheep does not need much protection from the cold as its fleece will keep it warm enough. A good shed, open to the south, will serve the purpose of winter shelter very well.

Distemper Is Disease Common Among Horses

Distemper is a disease common in colts and young horses. It is caused by pus-producing germs which usually gain entrance into the upper air passages and cause inflammation and discharge. From the upper air passages they are transferred to the kernels under the jaw and these kernels become the seat of an abscess. The germs, however, may enter through wounds or even through the walls of the intestines or other mucous membranes. For this reason colts never should be castrated when they are exposed to distemper infection.

Distemper usually is confined to mucous membranes of the nose and throat and the other lymph nodes belonging to these parts. The disease usually runs its course in two or three weeks. In some cases, however, infection becomes localized in other parts of the body and may cause abscesses on the belly or the chest. Tendons sheaths or joints also may become infected and kin eruptions may even make an appearance. Cases in which there are abscesses in inaccessible places are practically hopeless. Animals which recover seldom regain their full measure of health.

Polluted Water Will Disseminate Germs

Polluted drinking water is one of the surest means of disseminating disease germs and internal parasites in live stock. Surface water contaminated with body waste of animals is one of the great sources of disease.

A good supply of pure water should be provided. However, this is only a half step in the right direction. Before this safe water supply can be effective it is necessary to remove all opportunity for animals to drink from polluted water such as may be found in wagon ruts, tracks and other depressions. Yards should be adequately drained and holes or bogs should be fenced off to keep stock from drinking from them.

A water supply never is better than the worst which the animals have access to. Only when it is impossible for animals to get contaminated water can the stockman reap the benefit of a safe water supply.

Strong Young Boar

The young boar should show masculinity. He should have a strong, well arched back, well-sprung ribs and a good covering of flesh. The skin should be free from wrinkles. Of particular importance is the quality of bone and the conformation of the feet and legs. The legs should be well set on short, straight, strong pasterns.

The boar is half the herd with respect to transportable characters from spring.

Robert Pinnock, of Cowes, Eng., left his widow \$600,000, but with a provision that it should be forfeited in case she marries again.

Unintentional Suicide

Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their constipated digestive systems. Sooner or later disease will conquer their weakened bodies.

If you have dizzy spells, headaches, coated tongue, bad breath, insomnia, no appetite, bilious attacks or pains in the back and limbs, you are probably suffering from self poisoning caused by constipation. The surest and pleasantest relief for this condition is Herberine, the vegetable cathartic which acts in the natural way. Get a bottle today from Stokes-Alexander Drug Company

Bill Der Says

Because we built yesterday for today We don't have to worry about tomorrow.

Everyone, we think, has ample cause for the giving of thanks on this, our annual Thanksgiving Day. To our own patronage and personal friends we take this means of offering our sincerest goodwill of the season, and hope for a continuance of our pleasant relations.

AMON G. CARTE

Closing Out Sale OF OUR LANDS

OFFERS UNUSUAL OPPORTUNITY TO HOME-SEEKERS AND INVESTORS, AS WELL AS THOSE WHO HAVE ALREADY BOUGHT AND DESIRE TO INCREASE THEIR HOLDINGS

OVER TEN THOUSAND ACRES OF THESE FERTILE LANDS HAVE BEEN SOLD IN THE PAST THREE MONTHS, AND BUYERS ARE COMING ALMOST DAILY FROM THROUGHOUT TEXAS AND OKLAHOMA

The low price and liberal terms on which our lands are being sold makes it easy to own a home and pay for it. So why pay rents to the other fellow.

The Littlefield section of the South Plains is not only a wonderful Grain Country, but a Real Cotton Country, too, where the farmer can successfully diversify his crops, and where dairying, poultry and stock raising is profitable.

The investor who wants to put his money where it is absolutely safe, and make him a profit, should investigate the opportunity now offered in these lands located in the center of the wonderful development of this section.

NOW IS THE TIME TO BUY!

See any of our authorized agents or address the company at Littlefield, Texas

Yellow House Land Company

CO-OPERATION

LET'S MAKE THIS THE BEST YEAR WE EVER HAD

Individual effort to make Littlefield and its fine surrounding country is good. Individual effort may accomplish much if properly directed. But if all the units of industry, business, religion, education and society are harnessed together and set to work for the good of the community, the total result will be a revelation of the power of co-operation.

There is one particular phase of this co-operation in which the Littlefield Retail Merchants Association is particularly interested; that is the credit side of it.

When you buy goods or service on "open account" the seller is demonstrating a friendly trust in you by extending you credit. When you pay promptly you prove this trust is rightly placed.

When you do not meet your obligation, as mutually understood, you are not only abusing this friendly confidence, but you are retarding the business cycle of the entire community, for you make it harder for the seller to meet his obligations promptly.

The whole credit system runs around in a circle. When you pay the other fellow, then some other fellow can pay you. It keeps our money in circulation here at home—and the more prompt you are to pay your obligations the greater your chances for getting it back.

When your grocer, butcher, doctor, clothier—when anyone with whom you deal—extends you credit they give you a vote of confidence. When you pay your bills as they are due, you renew that confidence—and you re-establish a credit that is just the same as having the cash in your pocket when you need it.

The best way to make this a prosperous year for the entire community is to resolve NOW to meet bills promptly AND TO KEEP YOUR CREDIT GOOD.

We are going into this year on that principle—won't you join in helping us to make your home town and your home community better and more prosperous by GETTING MORE MONEY YOURSELF BY GIVING THE OTHER FELLOW HIS
