

Gipsy Smith Revival Will Close Sunday

Sunday night will be the closing of the Gipsy Smith City-Wide Revival. In this closing service a great over-flow crowd is expected at the auditorium of the First Baptist church which will be wired with a speaker. Several were turned away last Sunday night for lack of space.

Many decisions are being made in the Revival which will result in additions to the various churches of the city. Renewed interest in the work will be taken by many.

Gipsy Smith has proved himself a great Gospel-preacher. His unique presentation of the Gospel captivates his audience. He is deeply spiritual. No high pressure methods are used.

Day services are being held each morning through Friday at 10 a. m. at the various churches deeply appreciating the closing of the stores for the morning services.

There will be no services Saturday. The services Sunday morning will be in the various churches. Sunday night will be the final service. Great crowds are anticipated for these few remaining services.

1 Jackson Shows Signs Of Production

Humble Oil & Refining Company No. 1 Jackson, southeast Lamb County possible discovery, in section 2, block A, Thompson survey, is being for a cable tool unit to be used in to drill out the cement in casing and liner, and to start casing.

This prospector, which drilled through five feet of granite, before reaching at 7,191 feet, was plugged at 6,500 feet, with cement. It was drilled out to 6,815 feet. A 7-inch liner was run from 6,815 feet, and set in 101 feet.

After that had been done a string of 4-inch casing was run down from surface, and set at 5,352 feet, in a heavy seal of cement.

The leaves 749 feet of open hole between the bottom of the casing and the top of the liner. That section is said to have shown the best indications of production on drilling tests conducted while drilling is in progress.

The operator also is expected to perforate the liner opposite certain zones in the liner, as that region was run through several tests which reported some signs of production.

Woodley Petroleum company No. 1 Bird, section 66, block 7, Thompson survey, in south-central Lamb County, about six miles northwest of Humble No. 1 Jackson, had made a well below 4,130 feet, in lime, and is continuing.

Jimmie Beisel Injured In Motorcycle Accident

Jimmie Beisel, 20, AMM I-C, and son of M-Sgt. and Mrs. Dick Beisel, formerly of Littlefield, sustained serious injuries in a motorcycle accident at Safford, Ariz., enroute to Littlefield Friday.

Seaman Beisel had been in the service nearly three years, and over 18 months. He has been stationed in Hawaii, Fiji Islands and Guadalcanal. He had returned to the States and was stationed at Corpus Christi; went to Long Beach, Calif., to visit his mother, and was enroute back to Corpus Christi, and coming by way of Littlefield to visit his aunt and uncle, Mr. and Mrs. H. H. Houk, when the accident happened. He sustained a fractured neck, various bruises, and an injured ankle, and is a patient in the Safford, Ariz., hospital, but is reported to be under military medical care.

Mrs. Houk did not know Seaman Beisel was enroute here by motorcycle until his mother wired from Long Beach, but about the same time Monday that she received the telegram from Mrs. Beisel, she also received one from Jimmie stating he was injured and in the hospital. Later the local Red Cross Chapter obtained the further particulars.

The boy's mother is believed to have gone to her son's bedside. His father is stationed in England with the Army Air Corps.

Sgt. Harvey L. Bruce Has Been Awarded DFC

Word has been received of S-Sgt. Harvey L. Bruce, son of Mrs. Lee Bruce and the late Lee Bruce who was a well known farmer of this community, that he has completed his missions over Germany. Sgt. Bruce is an engineer gunner on a B-24 and has been stationed in England for the past six months. In the course of carrying out his duties, Sgt. Bruce distinguished himself, and has been awarded the Air Medal with three Oak Leaf clusters and the Distinguished Flying Cross. Harvey's letter to his mother states that he expects to receive a furlough soon.

Mrs. Bruce also reports she has received news from another son, 1st Lt. John B. Bruce, who has been in action in the New Guinea theatre of the Pacific war. Lieut. Bruce is now in a base hospital somewhere in the

Pacific. When last heard from he had been there ten weeks and expected to be there for some time to come. Lieut. Bruce is with the Infantry and has two stars on his ribbon.

Another Bruce son, Sgt. Charles H. Bruce, who has been located in the Hawaiian Islands since December of 1941, was recently issued a new A.P.O. number. He is with the Coast Artillery Anti-Aircraft. Sgt. Charles says that the Army life in Hawaii isn't so bad but that when he gets home he never wants to see another pineapple.

Mrs. Bruce is at present visiting her daughter, Mrs. T. J. Kiese, in Dallas. She sends this word of her sons for the information of their many friends in this and the surrounding communities.

WASTE PAPER DRIVE TO BE UNDERWAY FRI., SAT.

Urged To Deposit Paper On Vacant Lot Down Town

Newspapers, Magazines Must Be Tied Separately With Strong String

Dr. Wm. N. Orr, chairman of the Paper Salvage committee here, announced Tuesday that arrangements had been made with the South Plains Army Airfield to send trucks here Monday to pick up waste paper that has been deposited here up to that time.

Inasmuch as all trucks are busy hauling grain, and it is impossible to get a truck, Dr. Orr stated it would be impossible to pick up the waste paper and magazines at the houses and business buildings, and therefore, they are obliged to put the campaign purely on a patriotic and volunteer basis, and they ask that residents tie the waste paper, or magazines, in bundles, and deposit it on the vacant lot just south of Eubank Tire and Supply, north of Thaxton Furniture, and across the street from Ware's Dept. store. By doing this, Dr. Orr pointed out everyone will be doing his country a great service in this drive for waste paper, urgently needed in the execution of the war effort.

It has been pointed out that newspapers and magazines must be handled separately; in bundles not to weigh more than 20 pounds a bundle; and must be tied securely with strong string. Residents are asked not to bring any loose papers to the lot. Also they are asked to deposit the bundles of waste paper in the middle of the lot, and pile in order, putting the waste paper in one pile, and the bundles of magazines in a separate pile, so as to facilitate the handling of this scrap paper. It has been pointed out also that the paper piled against the buildings would create a fire hazard, and this is the reason for the committee urging that the bundles be deposited in the middle of the lot.

Residents are urged to deposit their waste paper Friday and Saturday, as drive will end Sunday night. The Lubbock trucks will come Monday and haul the waste away.

(Farrell) Compton, 23, who has been reported missing since June 23 over Yugoslavia, has returned to his military base after having been released from a prisoner of war camp in Bulgaria, according to a telegram received by the serviceman's father, Author Compton of Yellow House Switch, from the War Department.

The telegram received is as follows:

"Am pleased to inform you report now received states your son, Technical Sergeant Jesse F. Compton, returned to Military Control, after having been released from a Prisoner of War Camp in Bulgaria. If further details, or other information are received, you will be properly notified."

Pvt. Marvin J. Clark, son of Mr. and Mrs. E. M. Clark of 15 miles west of Littlefield, was seriously wounded in the North Africa and Sicily areas, on July 11, and had a foot amputated, according to a telegram received from the War Department August 1, which also stated that he was doing nicely.

Pvt. Clark was with the Mounted Cavalry, and is now in a hospital in England.

He was born and reared in Lubbock. His wife, the former Miss Dorothy Ketchum, is making her home with his parents here. They have a son 21 months old whom the father has never seen.

He has been in the service since Dec. 7, 1942, and has been awarded the Oak Leaf Cluster.

His wife received a letter from her husband recently in which he said he was doing nicely, and hoped to get home before long.

AN EIGHTH AIR FORCE BOMBER STATION, England—The promotion of James A. Moore, 20-year-old B-17 Flying Fortress left waist gunner, of Littlefield, Texas, from sergeant to staff sergeant, has been announced at this Eighth Air Force bomber base.

Son of Mr. and Mrs. John L. Moore, Route 1, Littlefield, and former farmer, Sgt. Moore has seen action with the Eighth Air Force in attacks on vital Nazi objectives in Central Europe, and on enemy installations and troop movements in France, in support of Allied ground operations.

Lamb County Residents Must Buy More Bonds

Pat Boone, chairman of Lamb County War Bond committee, stated Wednesday that the sale of bonds was dragging badly in the county; that the quota for September was \$58,100, but that very few bonds were being purchased. He urges that residents of this county keep on buying bonds, as he says it is very necessary that Lamb county continue to back the servicemen from this area over there, who continue to make terrible sacrifices on the battlefield.

Local Surgical Dressing Room Re-Opens Monday

Mrs. L. M. Brandon has announced that the September quota of surgical dressing material has arrived, and that work will be resumed Monday in the Red Cross Rooms. She urges all women who can to come and assist in the making of these surgical dressings, as there is an urgent need for all dressings possible, and it is important that the local room complete the September quota as soon as possible.

Afternoon Game Promises To Draw Large Attendance

Contest Will Give Some Indication Of Strength Of Wildcats

The Sudan Hornets will invade Seely Stadium Friday afternoon for the first conference game of the season with the Littlefield Wildcats. The game, which is creating considerable interest, will start at 2:30 o'clock, and promises to be well attended.

This contest was first set for Friday night, but it proved to be impossible to get the lighting equipment up, and tested by that time. Due to shortage of labor and machinery, it will not be possible to get the 60 foot steel poles set and all wiring done this week, according to Supt. Fred Miller. The game was, therefore, set for 2:30 o'clock in the afternoon.

This game should give some indication of the strength of the Wildcats in District 5-A this year. With J. S. Fikes as coach, the locals have been getting good workouts, and promise to give a good account of themselves this fall.

Last Friday the Wildcats journeyed to Dimmitt where they defeated the Dimmitt eleven 25 to 6 in the season opener for the Wildcats. This was not a conference game, but gave both teams a breaking in to start the season.

The Sudan Hornets come highly favored due to their strong team last year. They trounced the Wildcats soundly in 1943, and have a strong part of that team back, it is reported.

Ray Rushing, who came to Sudan from Fort Arthur, Texas, is Coach of the Sudan Hornets this year; and they are working hard to keep their former good reputation. The Friday game, therefore, promises to be a close contest.

The starting lineup for the game is:

Sudan	Pos.	Littlefield
L. J. Pickett	LE	H. Peel
C. Pope	LT	D. Brandon
R. May	LG	G. Pratt
T. Wright	CG	S. Buell

J. Price	RE	B. Owens
L. Lynch	LH	B. Lyman
B. Cardwell	FB	W. Sewell

Substitutes for the Hornets will be: Waymond Bellar, Jimmie Eddings, Bobbie Bouldin, Harold Wright, Tommie Hill, Theron Hill, T. C. Wiseman, Douglas Rattan, Bill Terry, Leon Seymour, and Buzzy Cape.

Substitutes for the Wildcats will be: Stanley Smith, Jackie Shelby, Gene McCanliss, Paul Pharris, "Slow" Grissom and Ramsey.

Victory Fleet Day, September 27

The expanding American Victory fleet—the Merchant Marine—is helping to solve the problems of farmers as well as other town and country people, the War Food Administration and War Production Board said in connection with plans of the War Shipping Administration to observe Victory Fleet Day on September 27, the third anniversary of the launching of the first Liberty Ship, the Patrick Henry.

The Patrick Henry, still afloat, has been joined by an ever-growing flotilla of sister ships, all of which have helped to alleviate shortages of materials vital to American agriculture and to the American living.

Within the last year, for example, increased shipping has made possible larger imports of the materials used in manufacturing insecticides, WFA has reported.

Pyrethrum Kills Insect Pests

Pyrethrum has come from Africa, and is used in the manufacture of sprays to be used to kill flies in barns or around the house and to kill insects on cabbage, cauliflower, cranberries, sugar beets and other vegetables.

Red squill has come from the Mediterranean—

Stranger Than Fiction

The American Red Cross received a cable with 21 separate addresses and 21 separate signatures, but only one message. It read:

"Am prisoner of war. Am well. Hope baby arrives okay."

Discovering they were all to become fathers at about the same time, 21 newly captured American fighting men in a German prison camp took advantage of the only means of cabling their wives, through the Red Cross, when an International Red Cross Committee delegate visited the camp. He sent the cable for the men.

Italy, Algeria, French Morocco, Greece, France and Spain—and is used as a rat poison. It protects wheat in storage and in transit.

Rotenone from South America—the Amazon River area, Peru and Ecuador—is used both in a liquid spray and as dust to exterminate insects that prey upon oranges, apples, cabbage, onions, beans and peas.

Chilean nitrates for fertilizers, fibers and binder twine from Latin America and Africa, burlap and jute for bagging from India—all are moved in American merchant ships, and the increased imports of necessary items are aiding farmers to produce or transport crops.

With South Plains Men In the Armed Forces

Lieut. Orville Nance, son of Mr. and Mrs. W. D. Nance of two miles east of town, arrived home Wednesday of last week on "delay en route."

He was only scheduled to have two days at home, but applied for and received a ten day extension to assist his father in farming operations. Mr. Nance is said to be 72 years old and needed his son's assistance.

Lieut. Nance, with the Air Forces, has been stationed at Long Beach, Calif., and will go to Hamilton Field, Calif., when he leaves here.

Pvt. Ben Lyman, Jr., son of Mr. and Mrs. Ben Lyman, arrived in England last April with Signal De-

pot Co. While in England he had the pleasure of visiting London, and seeing many interesting places.

The most interesting to him was the Tower of London and St. Paul's Cathedral. Ben is now in France. He went over with the invasion forces, and for a time, was with the Motor Messengers. In this capacity, he writes he was able to see a lot of France. However, he has been transferred back to his original company.

He sent home some invasion money, which had been issued them. He also sent a very gruesome flag, used by the Germans for marking their mines. Ben says the French people are very friendly. He has been given gifts, and many flowers. But says the bad part of it is, their kisses are just thrown at him.

Ben says their church services are held in the open in the groves. He has been sleeping in a fox hole, and says that the fox holes are appreciated as they provide the boys with the much needed protection.

Hoyt R. Renfro, 19, son of Mr. and Mrs. Jesse Renfro of Littlefield, is now stationed in China.

Hoyt has been in the service since April, 1943. He sailed in September, 1943, and landed in India, where he spent four weeks before being sent to China. He is with the Supply Division, and is believed to be taking part in the opening of the Burma Road.

Hoyt attended Littlefield High school. He states in a recent letter to his parents that the country where he is, is rough, mountainous country, and rains lots.

Mr. and Mrs. Brady Fields, four miles east of Littlefield, have received word from their son, Milam Y. Fields, and he has recently been

promoted to Seaman 1-C. He is now stationed in San Francisco, Calif.

Gene Williams returned to his service station duties at the Phillips 66 Service station last week, after having been absent 10 weeks with a broken leg, which required special attention.

Mark Walraven, Jr., left for Waco

September 18, where he will attend Baylor University. He is studying Pre-Dental.

Mr. and Mrs. Fred Shaw, colored, are the parents of a son, "Billy Eugene," born at the Littlefield Hospital Wednesday, Sept. 13.

Receive Letter From Prisoner

Mr. and Mrs. Floyd McCain received a letter from their son, T-Sgt. Floyd McCain, last week, from a German prison camp, Luff III, as follows:

"Will try and write you a few more lines to let you know that I am still doing fine, and I hope this finds you the same.

"Tell Dad, Doyle and Jim, all hello for me, and tell the rest of the kids hello, too.

"I am still being treated O.K., so don't worry too much about me. I know you are going to worry some, but try not to worry too much, cause I am doing fine. I hope Dad has all of his crop up by now. Well, I can't think of anything to write, so be real good and give my regards to everyone.

"Your loving son,
"EARL."

T-Sgt. McCain was reported missing April 24 over Germany. On June 22 he was reported a prisoner of Germany. His parents received recently a card from him written back in April; and last week received the letter, which they think was written back in May sometime.

War Food Committee Meet At Amherst Friday

A meeting of the War Food committee of Lamb county was held Friday evening, September 15, at 8 o'clock in the Homemaking cottage at the Amherst school, at which time "Freezing of Foods in Cold Storage Plants," and "the home freezing units" were discussed.

It was brought out at the meeting that there are only two counties in the State of Texas which have more locker plants than Lamb county.

Dallas county has six plants and Tarrant county has five. Lynn, Lamb, Hidalgo, and Bexar have four each. The average number of boxes over the state is 330 per plant. Lamb county has 1750 boxes in the four plants which average 437 per plant. The value of freezing fruits and vegetables, as well as meat, is being accepted in this county.

The "Locker Operator," official magazine of the frozen food locker industry, mentioned in the August issue that Littlefield Co-operative had expanded recently, and that others were in the process.

Mr. Seaney of the Amherst Locker Plant discussed the business management of the locker system. Mrs. D. R. Hopkins of Anton discussed her experience with the Home Freezing Unit.

There are 2,000 freezing units in Texas but very few in Lamb county.

The following items with the best methods of freezing were discussed: Beef, pork, veal and lamb—Mr. Sanderson, vocational agricultural teacher of Spring Lake; Poultry—Miss Crippen, Home Demonstration agent, Amherst; Fruit—Miss Archer, homemaking teacher, Sudan; Vegetables—Miss Katie Stith, homemaking teacher, Littlefield; Eggs, butter, cream and cheese—Homer Garrison, assistant county agent, Amherst.

The group had products from the locker to observe in the discussion. Following the meeting, Mr. Seaney took the group through the locker plant in Amherst.

"A" Gasoline Ration Books Good Sept. 22

New "A" gasoline ration books now being issued to motorists for use beginning September 22, have two new safety features, according to Ely Fonville, District OPA Rationing Executive.

"A" coupons will now have serial numbers useful in spotting stolen coupons. When issuing the new books, War Price and Rationing Boards record the serial numbers of the coupons along with the name of the person to whom issued.

Another safety feature is that new coupons are printed on a special kind of safety paper which responds to a secret test known only to Government identification experts. Counterfeit coupons on imitation paper may look the same to the untrained eye, but will show up the minute this secret test is applied, Fonville pointed out.

"B-3" and "C-3" Gas Ration Coupons Expire Sept. 30

"B-3" and "C-3" gasoline ration coupons will be invalid for motorists after September 30, the District Office of Price Administration announced today.

At the same time "T" coupons marked "3rd qtr" will expire for commercial motor vehicle operators. Filling station operators will have

through October 10 to turn them in to their supplier for gasoline or exchange them at their local War Price and Rationing Board for ration checks. Distributors will have until October 20 to deposit these coupons in their ration bank accounts.

Holders of invalidated "B-3" and "C-3" coupons which were issued for use beyond September 30 may exchange them for valid coupons at their local board.

**A Little Light
on our
Family Tree**

Way back when checker collars were the latest fad, electric light really cost money. For example, around 1910 that 100-watt bulb, which our friend holds so proudly, set the purchaser back \$1.45. Today, the 100-watt bulb costs 15c. Furthermore, it gave only half as much light then as your present-day 100-watt lamp.

Most electrical dealers now have enough lamp bulbs in all common home sizes. With fall evenings here, lighting becomes doubly

important in the home. Studying, sewing and other seeing tasks will require longer hours of eyework indoors. NOW is the time to fill those empty sockets with the right-size bulbs.

Light up for safety, too. Falls due to poorly lighted halls and stairways take an alarming toll each year. One accident may cost you more than many bulbs.

No matter how you look at it, good home lighting is cheap. So, be sure you have enough for every seeing need.

Here's the seat of most FOOT TROUBLES!

It's weak and broken-down arches, Corns, Callouses, weak ankles, cramped toes, painful heels—all indicate arch trouble. With Dr. Scholl's Arch Supports and our skill in handling them, aches and pains quickly vanish. These Supports hold the foot firmly but gently in its natural position and relieve strain and pressure on vital, tender spots.

Showing how an unaided arch—how it looks with weight on foot.

How a Dr. Scholl's Arch Support raises the arch.

There are 26 bones in each foot—52 in both—more than one-fourth of all the bones of the body. These bones are delicately arranged into 4 arches. Through abuse or strain the whole arch structure falls and aches, pains and misery follow.

Let us relieve your foot aches and pains

We know feet as well as shoes. It has taken 13 years to acquire this knowledge, thanks to Dr. Scholl's teachings. Hundreds of people believe in us because of the exceptional services we rendered them. Come in and let us give you this interesting story.
