

Registration Starts Today For Littlefield School Term Of '59

Registration Schedule

The following schedule has been announced by Dr. Ralph Schilling, Littlefield school superintendent, for registration of all grades of the school.

Dr. Schilling points out that all students in grades two through six that were in Littlefield school last year will not need to pre-register. These students should appear at the school Monday morning, Aug. 31, ready to go to school.

The students that did not attend school in Littlefield in grades two through six will need to register at the school sometime this week, but no special time is set aside for these students, Dr. Schilling said.

The other schedules:

Seniors—Register Thursday morning from 9 to 12 a.m. at the high school.

Juniors—Register Thursday afternoon from 1 to 4 p.m. at the high school.

Sophomores—Register Friday morning from 9 to 12 a.m. at the high school.

Freshmen—Register Friday afternoon from 1 to 4 p.m. at the high school.

8th Grade—Register Friday from 9 to 12 a.m. at the Junior High building.

7th Grade—Register Friday from 1 to 4 p.m. at the Junior High building.

First Grade—Need to Register at the school sometime this week if they are not already registered before now.

THE WEATHER

Today's forecast - Partly cloudy with scattered afternoon and evening thunder showers. Temperatures - Sunday high 87, low 67; Monday high 86; low 62; Tuesday high 86, low 60; Wednesday high at 11 a.m. 82, low 59. Moisture - 1.51 inches for the month; 14.41 inches for the year; and 13.05 inches for this time last year.

Only Few Changes Are Set For Some Students

School days begin for some 2,100 Littlefield and area students Monday at 8:45 a.m. The day will be a full day of classes, reports Dr. Ralph Schilling, superintendent.

The busses will run their regular routes, the lunch room will serve lunches, and school will last until 3:45 p.m., just as will the following school days, the school administrator said.

Prior to that time, all students who'll be required to register will have done this according to the schedule that is printed elsewhere in this paper.

And Monday will start off the 1959-60 school year with only a few minor changes from last year.

One of the changes will be 12 new teachers that have joined the faculty at the school. All of the faculty positions at the school are filled, and new teachers were presented Wednesday at a general faculty meeting. (Pictures and names of the new faculty members will be presented in Sunday's paper.)

Dr. Schilling states that the school will operate on the same principles as it did last year: "We will continue the philosophy of giving more emphasis to study and scholarship."

A change in credit requirements for juniors, sophomores and all other students below this level will be in effect this year. Juniors will be required to have 19 credits for a diploma, and sophomores 20. Seniors this year will need 17.

Driver's Education class will be different this year. No behind the wheel driving will be offered during the regular term. This part of the program will be during the summer months. Only regular classroom sessions will be held.

Dr. Schilling reports plenty of classroom space, with even a few classrooms left unused. However, there'll be some classes with as many as 35 students per room. This reflects the basic need for more personnel he said.

The prices for lunches at the lunchroom will be 25 cents for grades one through three, 30 cents for grades four through six, and 35 cents for all other grades.

Principals at the school will be Glenn Reeves, high school; Forrest Martin, junior high; Jimmy Hine, grades four through six and Paul I. Jones, grades one through three.

Huge Dog Attacks, Hurts Boy

A giant-sized St. Bernard dog turned vicious Sunday and severely slashed a four-year-old boy returning home from Sunday School.

The victim of the dog's attack was Tony Gouge, son of Mr. and Mrs. Harold Gouge. Tony's father is a coach of the Littlefield Wildcat "B" team.

The boy was with his parents returning from morning services at the First Baptist Church. When they arrived home at 120 East 16th St., Tony ran a bit ahead. The dog was coming across their yard.

Without giving a warning growl, the dog, said to weigh at least 150 pounds, attacked Tony, inflicting gashes on his face and head. Gouge kicked the dog away from the boy.

The parents and a neighbor, Kenneth Berg, carried the lad to the Medical Arts Hospital, where 14 stitches were used to sew up the wounds.

Tony was reported recovering satisfactorily after the attack. He was not hospitalized.

The giant dog was placed in the city dog pound for observation. Owner of the dog had bailed it out of the pound about a month ago, after it had been placed in the pound after other incidents of the same kind when children had been attacked.

City officers said the dog would probably be destroyed after the period of observation is over.

Golfers Elect Officers

The Littlefield Country Club officers for the coming year Saturday night following the annual tournament.

They are Dorothy Brown, president; Nina Talburt, vice president; and Maurine Giles, secretary - treasurer.

The new officers replace Francis Chamberlain, outgoing chairman, Hene Stokes, outgoing co-chairman; and Nina Talburt was also the former secretary treasurer.

Pioneers Celebrate 11th Meet With 300 Present

Lamb County Pioneers, some 300 strong, celebrated their 11th anniversary as an organization at the annual meeting of oldtimers Tuesday at the Littlefield Community center.

They had a full afternoon of remembering old times, greeting long-time friends, and enjoyment of the musical, dance and speech program.

Mrs. J. L. Hinson of Earth welcomed the pioneers to the meeting, and pointed out the changes

during the lifetimes of those that were present.

At the business meeting of the organization, rules were made for taking in new members. Next year, anyone who has lived in the county for 30 years will be eligible for membership. Prior to this membership was limited to anyone arriving in the county as early as 1927.

In changing the rules, the idea was presented that anyone who lived in the county early enough

team Saturday evening. The game is set for 4:30, also in Littlefield, with Andrews highly rated team to be the opponent.

Littlefield fans were introduced to the Littlefield squads Monday night at a get acquainted session. Coach Williams introduced the "A" team, giving weight and position of the players. Coach Harold Gouge introduced the "B" team, which he will drill this year.

Also appearing on the program was Dr. Ralph Schilling, superintendent, who explained the insurance program for the football players. He said that players' parents are asked to pay the first \$3 of the insurance fee, and then the school pays an additional \$12. This covers the boys with a policy of \$5,000.

Rule changes for the season were explained by Coach Kenneth Clapp. Goal posts were widened, there are five instead of four time-outs per half, and the offense (Continued on Page Five)

Butler Should Resign

The chairman of the Democratic National Committee has caused so much division and strife within the national party that only his resignation can give the party its maximum chance in 1960. Of course, the leftwingers in the party will not agree with this analysis, but it is an accurate one.

Butler, and some of those who are working with him, believe that if the leftwingers drive the conservatives out of the party, they can still win a presidential election. Already the statements Butler has made, about his own party's leadership in Congress, and about the South and Southwest, insure a split in the party and a possible walkout at the Democratic Convention in Los Angeles. For the good of the party, the only thing he can do is resign.

There is a strong suspicion in Washington, among some, that Butler is the greatest ally the Republicans have. If he is left in charge of the Democratic National Committee, and his tactics win out, he will split the party and bring about the election of a Republican in 1960. This may be the purpose of some of those who are supporting him, although this would never be admitted.

The National Committee has been carefully stacked over recent years to support Butler. Therefore, at a showdown scheduled for September, the National Committee may stick with the Indiana chairman. If it does, it will be the greatest boost for Republicans which has occurred since 1956. If Butler is ousted, and the Democratic party remains unified, it has a better than 50-50 chance to elect its candidate as President in 1960.

Food For Peace

A bill being pushed by Senator Stuart Symington, among others, would alleviate the problem now troubling the Department of Agriculture and feed hungry peoples around the world—plus making friends for the United States.

As the average reader probably knows, the United States spends a large sum of money each year keeping surplus crops in storage. What the reader may not know, is that this huge storage program costs Uncle Sam a billion dollars a year!

Experts have been trying to figure out a way to get the government out of this storage business. The huge crop surpluses have been acquired in price support operations, which continue in operation.

Symington's plan would allow the government to sell foodstuffs cheaply to some countries, where people are actually hungry and where they would not be bought at higher prices, or where the program did not cost American business men sales. He would even give some of the food away—in areas where people are starving or going hungry.

The net result would be to reduce the cost of the storage program in the United States, saving taxpayer dollars, reduce huge red tape and bureaucracy resulting from the big storage program, and help needy people the world over and make friends for the United States.

If the program could be administered wisely and fairly, so that U. S. producers and business men would not be hurt, it would be a long-sought solution to the big storage problem of the USDA. It would be a great example of generosity and humanitarian thinking in the United States, and should certainly gain us friends the world over.

Grassroots Opinion

FRANKLIN, IND., REPUBLICAN: "... the federal government's massive 12.5 billion dollar deficit for the fiscal year just closed deals us all a stiff right cross.

"For one thing it's nearly three times the previous peacetime peak deficit of 4.4 billion dollars, recorded in the depression year 1936, when Franklin D. Roosevelt was laying out what was then considered vast sums to shore up the business structure and ease the burdens of distress.

"Whatever the future holds, we must all fervently wish that 12.5 billion dollar budget deficits never come to be regarded in this country as either commonplace or inevitable."

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

By VERN SANFORD Texas Press Association AUSTIN — Texas will have a virtual "government on wheels" for the last part of this month as 31 state agencies pick up their filing cabinets and move into the new State Office Building.

This is the second new headquarters building to be completed this year. First to be occupied was the new Texas Employment Commission building, completed only a few weeks ago.

Transferring into the new State Office Building undoubtedly will be the biggest move of state agencies since horse-drawn dray wagons moved the government into the present Capitol Building in 1888.

First to move will be a host of commissions, boards and divisions which have been in rented quarters scattered over Austin.

Later, probably October or November, another big move will take the Supreme Court, Court of Criminal Appeals, Attorney General's Department and Supreme Court Library out of the Capitol into the new State Courts Building.

It has been the dream for some time of the Supreme Court's elderly Chief Justice John E. Hickman to stay on the job until the day he could preside in the new Courts Building.

Built of granite similar to that in the Capitol, but with modern styling, the new buildings are to the north of the Capitol. Combined cost of the two buildings is some \$7,000,000.

With all the happiness over the prospect of splendid new quarters, there are some regrets. Many employees are worrying about where they'll park their cars once all the scattered agencies move into one building.

Supreme Court jurists feel a touch of sadness at leaving behind the historic walnut bench, inscribed with the Latin phrase, "As God was to our Forefathers, so may He be unto us." It has been in use practically since the memory of man. Replacement is a handsome marble piece which the judges compare to a soda fountain.

PROGRESS AND PROPERTY — A tangle of excitement, fear and hope runs through landowners and business people when they learn that a new super-highway is to come through their area.

Some residents fret over the prospect of losing the old home place. Others dream of wild profits. Businessmen worry whether the motorists will be able to get to their places.

As more and more expressways pierce the countryside, the State Highway Department is making every effort to explain the procedures for acquiring highway right of way.

Samples from recent official Department statements:

- 1. Although its first responsibility is to the public — the taxpayers and millions of highway users — the Highway Department "tries to create a minimum of private injury or inconvenience."
2. When private lands are needed for public roads, the law guarantees "adequate compensation" to the owner. Independent professional appraisers are hired, and an "approved value" figure determined.
3. Once the "approved value" is settled on, the Department negotiator can't "horse trade" with the landowner. This might reward the greedy and tough-minded at the expense of the timid or public spirited person. But a dissatisfied owner can have the matter settled in court.
4. When part of a piece of property is taken and the rest left isolated or of little value, the state will make payment for the loss of value.
5. Owners will be given ample time to move buildings to another site or find new buildings.
6. If an owner with a GI mortgage has to sell, the Veterans Administration will restore his GI loan privileges for getting a new piece of property.
7. An owner who sells property for more than he paid for it will not have to pay income tax on the profit, providing he uses the money to buy similar property within a year.
8. Controlled access highways cannot have an entrance and exit for every piece of property along the way. Real estate developers are urged by the Department to contact the local planning engineer before making any commitments based on access to the through lanes of a controlled access road.
WATER FIGHT DUE — State Board of Water Engineers has scheduled a hearing for Aug. 31 on the City of Houston's controversial bid for Trinity River water.
Houston seeks permission to build two reservoirs near the mouth of the Trinity, one near Livingston and one near Wallisville, and divert more than a billion gallons daily.
Trinity River Authority and a number of upstream cities — Dallas, Fort Worth, Huntsville, etc. — are protesting that Houston is trying to grab the water supply from the whole river.
SLOW UP FOR HOLIDAY — With Texas' 1959 traffic deaths running six per cent higher than last year, Gov. Price Daniel issued an urgent safety plea to Labor Day motorists.
He called on law enforcement agencies, civic organizations, safety councils and "most important of all, drivers, to help in this most important of all Texas efforts, the saving of human lives."
Department of Public Safety reported traffic deaths for the first half of 1959 at 1,097, compared to 1,032 for the same period in '58.
SHORT SHORTS — Texas range and pasture land is in the best condition since 1941, reports the U.S. Department of Agriculture.
Good winter feed prospects for cattle are predicted. Texas construction activity for the first half of 1959 totaled \$1,123,332,000, an increase of 11 per cent over last year. A 1959 pecan crop of 27,000,000 pounds is forecast for Texas by the U.S. Department of Agriculture. This would be slightly better than the 26,000,000-pound crop in 1958.
Governor Daniel has appointed Otha F. Dent of Littlefield to a new six-year term on the Board of Water Engineers. Dent is a former Lamb County judge. J. T. Elm Jr., former administrative assistant to Governor Daniel, has been appointed the top non-medical ad-fessional appraisers are hired, and an "approved value" figure determined.
3. Once the "approved value" is settled on, the Department negotiator can't "horse trade" with the landowner. This might reward the greedy and tough-minded at the expense of the timid or public spirited person. But a dissatisfied owner can have the matter settled in court.

Sandhills Philosopher Scientists Defended For Nose Cone Losses

Editor's note: The Sandhills Philosopher on his Johnson grass farm comes to the defense of scientists this week, although we doubt if they need defending.

Dear editor: There is one phase of the outer space program that has begun to interest me, but not for any scientific reason.

Every once in a while the space scientists shoot a capsule or nose cone into orbit and then try to bring it down and catch it, so they can check its instruments and gather a lot of scientific information about which I don't know any more than you do.

But the point is, when they get one up and then signal it down, sometimes they can't find it. It just floats down by parachute somewhere over the Pacific ocean and despite the fact they comb the area with airplanes and ships, they can't find it, and this causes some people to criticize them.

"What's the matter with those scientists, can't they do better than that," some people will say. As a man who frequently can't find something he's looking for, I want to come to the defense of the scientists.

In fact, I lose things all the time around this Johnson grass farm.

And I don't understand it, either. Say I'm using my hammer to fix a fence and decide to stop and do something else and agree to come back to the fence later. I carefully lay the hammer down, make a mental note of exactly where it is, couldn't anybody forget that, then go about my business and a week or so later when I need a hammer, I wrack my brain a while, remember the fence, go back and look but it's not there. I think it's the same fence, but to make sure I walk em all, up one side and down the other, but I might as well be searching the Pacific ocean for a nose cone.

The same thing is true with my saw, axe, hoe, pliers, wrenches, why, one time I even lost my tractor. It's a fact, I left it at the end of a row, got interested in keeping up with a Presidential campaign, weeds grew up around it, and later on when I needed it, it was days before I could find it.

As far as I'm concerned, if those scientists find one nose cone out of ten, they're doing better than most of us, except for those rare people who know where every tool they own is and never have time to explore outer space or even just sit down and do nothing.

Yours faithfully, J. A.

Miss Parrack Is Honored At White Bible Ceremony

On Friday afternoon at 4, Miss Jo Ann Parrack was honored with a White Bible Ceremony in the home of Mrs. Ralph Nelson, YWA Director of the First Baptist Church. This is a traditional ceremony honoring members or former members of YWA at the time of their marriage. Miss Parrack was the bride elect of Torrance Thompson of Wichita Falls.

Miss Parrack, the daughter of Mr. and Mrs. A. S. Parrack of Lubbock, was a member of the Janet May YWA during her high school years and a member of the Business Women's YWA during the years in which she was employed with the Chamber of Commerce in Littlefield, serving as president.

The ceremony was staged in front of the open fireplace. On a coffee table, in front of the hearth, was an open Bible lighted with a large white candle banked with honeysuckle. Miss Louise Russell offered the opening prayer vocally with the song "God Give Us Christian Homes," accompanied at the piano by Miss Gracie Russell. Miss Jan Hampton gave the history of the hearth as a symbol of the home. "May your hearth fire be bright with happiness to share with all who come to your home, she exhorted.

As Miss Hampton lighted a small white candle tied with green satin streamers from the large candle, members of the YWA entered the room, each carrying a small white candle tied with green which she lighted from Miss Hampton's taper. The young women then formed a circle around the honored couple.

Miss Hampton explained that the radiance of the candlelight symbolized the joys of the Christian home.

As the young women stood with lighted tapers, Miss Nancy Russell sang "Bless This House."

Blind Homemaker Shares Kitchen Know-How With Other Handicapped

GLENDALE, Calif. (AP) - In the darkened world of the blind, simple explanations of the sighted often prove to be major stumbling blocks. For instance, how would a blind housewife follow a recipe: "Keep in oven until a golden brown," or "cook custard until it coats a spoon?" That's why Mrs. Frank W. Ferrara decided to devote her time to sharing her kitchen knowledge with other blind homemakers. Her recipe book, "Grade One and a Half" has gone through 12 editions in Braille by Braille Institute.

EYES OF THE BLIND—Mrs. Ferrara "reads" her cookbook in Braille.

Now she is at work on another cookbook, this one specializing in health foods and diet, which will be for the use of the sighted as well as the blind. One section of her cookbook is devoted to practical suggestions for the blind homemaker, showing ways other than by physical sight that the blind cook may learn how to prepare foods in mixing bowls.

BLIND HOMEMAKER—Mrs. Frank W. Ferrara works in her spotless kitchen.

Special attention is directed to oven menus and one-dish menus, which are popular with blind cooks.

Mrs. Ferrara presented her first cookbook to Braille Institute as a gift to help others. The two-volume book, stresses nutrition and diet recipes, which Mrs. Ferrara became interested in while cooking for her husband, who is diabetic.

Mrs. Ferrara's spotless kitchen is equipped with an automatic stove, with notched knobs and dials to tell temperature. Although completely blind, Mrs. Ferrara, besides all her own cooking, does her own housework, including washing and ironing. At present she is learning to sew.

grow each year and we're looking forward to the day when we can have a Pioneer Parade down main street as part of the big event.

The new Ware's store officially opens Friday, they've done something very progressive in their enlargement and remodeling program... we thought we'd go along with something new and different too, so we printed our first colored advertising. No, you're not color blind or seeing things, three pages of section three are printed in blue!

Luther Cunningham of 929 West 9th is sporting a beautiful new boat, trailer and 40 horse motor, which were given to him by the fire department at Levelland. When he went down to pick them up, the fire chief thought the Levelland paper oughta have a picture of the winner... but when they heard he was from Littlefield... noisire!

We overlooked printing the names of the Reed Yandell family in our last story about July's Littlefield newcomers, so we'll just put their name in the paper right here. They have moved to 1300 West 2nd, have three children: Donald Reed, 12 years, Ronald Dean, 11 years and Kevin, 5 months. Mr. Yandell is with Pioneer Natural Gas. He was formerly with Pioneer in Sudan. Welcome to Littlefield... to the Yandell family.

New National Craze: Flower Arrangements

DEEP SOUTH—Favorite floral arrangements include floral sprays in baskets, 'way down south in land of cotton.

FLOWER ARRANGING styles vary greatly around the country, whether you arrange them yourself right out of the garden or wire them to a shut-in a thousand miles away. The style of arrangement is typical of the area.

If the roses are to be sent to a New England bedside, for example, chances are they will be a massed arrangement, and that several varieties of flowers will be used. Stock, Fuji mums, daisies, carnations, peonies, garden lilies, delphinium, and ivy are popular in that area.

Big batches of flowers are the rule in the Northeast. The bigger they are the more they appeal to occupants of the old Colonial houses who enjoy placing their long stems in hall vases.

Regional preferences come out of many ancient traditions, some as old as civilization. West Coast styles are rooted in China and Japan, where for thousands of years floral decorations had deep religious significance. East Boston had a special meaning.

Modern West Coast arrangers, creating the Oriental tradition, still give prominence to each flower, and many still consider arrangements to be poetic statements in which flowers represent Earth. Heaven. Man as they did hundreds of years ago.

In the South it's the bouquet that matters, and flowers are patterned to tantalize the olfactory senses. Camellias, magnolias and gardenias are big favorites. South of Richmond, arrangements use hanging branches with budding flowers interwoven with roses. Gladiol, hydrangea and iris are popular too, because they bend freely, even from a good sized centerpiece. Baskets of flowers are popular in the deep South.

It's a good idea to leave the arrangement of the flowers to a florist when you wire a centerpiece or bouquet because he is familiar with what is preferred in that particular area.

WEST COAST—Combination of dogwood and peonies carries out Oriental theme.
NEW ENGLAND—Massed arrangements of flowers in turquoise is distinctive design.

Coach Max Dickerson To Guide 1959 Panthers

By Alex Duggan
Whitharral Head Coach Max Dickerson is beginning his first year at the head of the Panthers. "I have been pleased with the boys during these first several workouts," Dickerson commented.

"However I still can't say about our chances this year as yet." Coach Dickerson played his high school ball at Whiteface and attended college at Eastern New Mexico.

After graduating from college in 1955, he coached at New Deal for one season, then moved to the Texas coast to take an assistant coaching job at Tuloso Midway of Corpus Christi.

Now he returns to Whitharral as head coach. Dickerson has been running his squad of 23 boys through the fundamentals since the Panthers started working out Aug. 17.

Whitharral will run from a T formation with a balanced line this year. The emphasis will be on the running game built around a strong backfield consisting of three returning starters from the

1958 district championship team. Whitharral lost six seniors from '58; all six were starters. Assistant Coach Alton Warren, in his fourth year as assistant at Whitharral, summed up the Panther hopes with this statement:

"Without injuries and progressing as we should, we will be at our top strength later in the season."

Warren thought the Panthers would not be over all as strong as last year at the beginning of the season.

Whitharral has two returning players that made the All-District 3B team last year - high scoring halfback Donny Polk, and guard Don Cheek.

Warren also looks for outstanding performances from halfback Ronnie Grant, quarterback Donny Stafford, ends Don Overman and Milton Marrow, and tackle Terry Sires.

Roster And Schedule
Ends - Milton Marrow, 160, 2 letters; Don Overman, 135, 2 letters; Gary Northern, 135, 1 letter; Jerry Brown, 125, no experience; Barry Heard, 110, reserve.

Tackles - Terry Sires, 165, 2 letters; R. C. Cheek, 185, 1 letter; Troy Harris, 155, 1 letter; Lenard Bryant, 120, junior high.

Guards - Don Cheek, 165, 3 letters; Ronnie Bryant, 160, 1 letter; Charles Denney, 165, 1 letter; Bobby Ward, 130, reserve.

Centers - Ken Polk, 155, junior high; Jackie Dalrymple, 165, reserve; Roger Wade, 115, junior high.

Quarterbacks - Don Stafford, 130, 2 letters; Cloyce Gilley, 120, reserve.

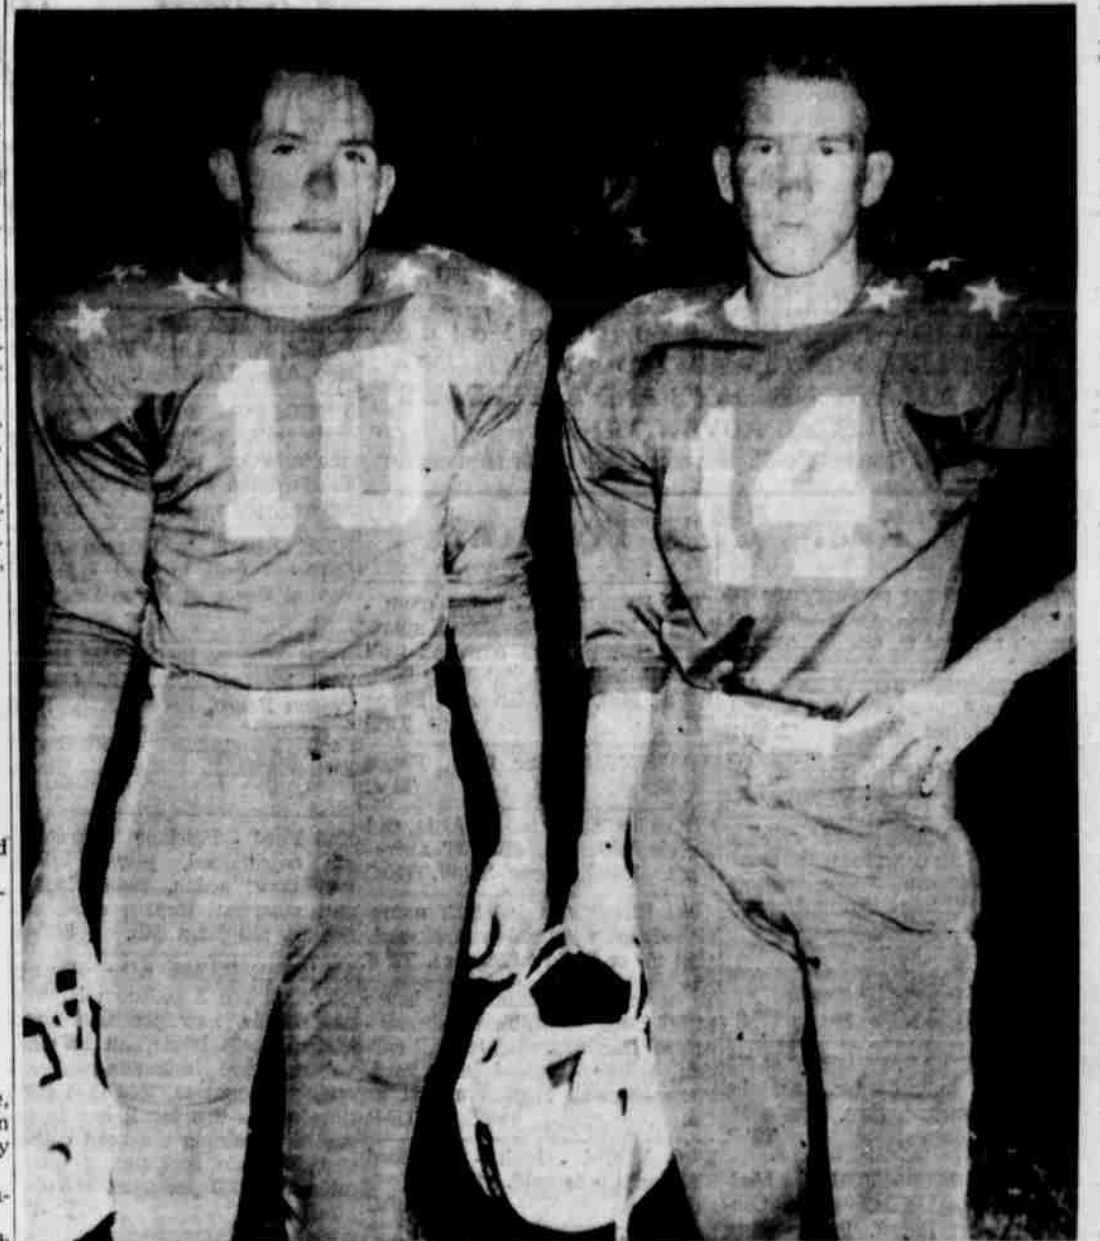

Halfbacks - Ronny Grant, 150, 3 letters; Terry Gage, 150, junior high; Jerry Sires, 115, junior high.

Country Club Tourney Duggan New Champ

ALEX DUGGAN, NEW GOLF CHAMP—Duggan is shown receiving a congratulatory handshake from Rhenard McCary, on winning the Country Club tournament.

After three years of failure, Alex Duggan was successful in becoming the Littlefield Country Club Golf champion.

Duggan won the club's tournament that lasted three days. Duggan beat defending club champion and tournament medalist Rhenard McCary 3 and 2.

In the women's tournament, Carol Hickson beat Dorothy Brown 7 and 6, Ann Barrett, defending woman's champion, was unable to compete in the meet.

On the final match, Duggan finished the front side with an even par, won the tenth, and halved 11 through 15. On the 16th Alex won with par, which closed the match 3 and 2.

McCary had held the championship spot for 3 years of the past 7 years.

David Keithley beat Carl Rushing, 3 and 2, for Championship Consolation. The two played a nine hole match.

Flights and the matches are as follows:
President's flight - Dr. O. W. Still beat J. R. Chamberlain 2 and 1. Consolation - Dr. Glenn Burk beat Sid Hopping 2 and 1.

First flight - Vern Walden beat Shelley Duval 4 and 3. Consolation - Sterl Harmon beat Gene Linnam, 1 up, 20.

Second flight - Allen Hodges beat Neil Herrin, 1 up. Consolation - Odell Matthews beat Bob Roden, 2 and 1.

Third flight - Don Lee beat Arthur Duggan, 3 and 1. Consolation - Dave Eaton beat Mike Greer, 1 up.

Women's Division
Championship consolation - Marjorie Giles beat Nina Talburt, 2 and 1.

First flight - Virgie Halle beat Afena Matthews, 2 and 1. Consolation - Jean Brock beat Bess Bagwell, 2 and 1.

Cry Baby flight - Won by Janie Webb.
Mrs. Hickson won the women's championship with an 85, while Mrs. Brown shot a 91. Mrs. Brown who was elected president of the Women's Golf Club, lost ground on the first few holes, but finished the remainder about even with Mrs. Hickson.

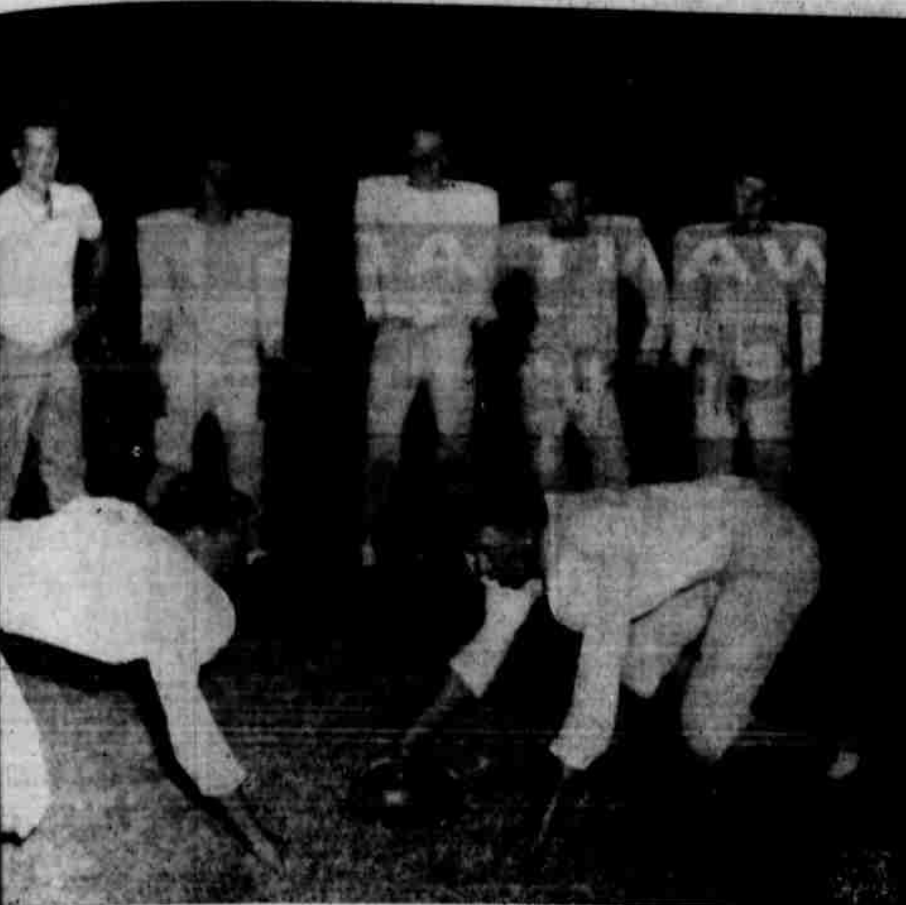

Bob Hickson, manager of the country club, said, "It was a real fine tournament, although we did not have any holes in one."
There were 11 matches in the tourney that went for extra holes, he reported.

Lions Welcome New Teachers
SPRINGLAKE - The annual Earth - Springlake Lions Clubs Welcome Banquet for new teachers and board members of the Springlake schools has been scheduled for Thursday, Sept. 3 in the Springlake school cafeteria at 7:30 p.m.

The annual banquet honors the Springlake school faculty, and also to introduce new teachers and board members, Lions members and their wives, and guests that are present.

Immediately following the banquet there will be a free show and program for the residents of the Earth - Springlake area in the Springlake High School auditorium. The show is for the members of the teaching faculty and guests of the Lions Club and presented to show their appreciation for the support of both clubs.

George Cabot of Massachusetts was confirmed as the first Secretary of the Navy in 1788, but he refused the office. So Benjamin Stoddert of Maryland was named in his place.

Head Coach Joe Giddens Confident' In Longhorns

"I haven't seen the other district, I can't tell you how we ought to win, but I do have confidence in these boys' ability to win."

Coach Giddens, new head of Class 5B six-man football, in summing up after the first two workouts by the Longhorns, said:

"I am confident that we will have a good team. Whether we win or not, we have good workers, co-operation, and good team and school spirit," he concluded.

Roster and Schedule
Ends - Marcus Ramage, 150, no experience; Jimmy Mouser, 140, 2 years; Milburn Keener, 140, 1 letter.

In all the early workouts, the boys have worked on fundamentals. Spade will run from a wing T formation this season. Although Giddens was unable to name the starting line-up, he mentioned All-District center Richard Ramage, as outstanding.

Heading up a backfield which will be passing considerably, are David Jones at quarterback and Wallace Holly at fullback.

Giddens feels that Spade will have a good team. "Whether we win or not, we have good workers, co-operation, and good team and school spirit," he concluded.

Roster and Schedule
Ends - Marcus Ramage, 150, no experience; Jimmy Mouser, 140, 2 years; Milburn Keener, 140, 1 letter.

Centers - Richard Ramage, 160, 2 letters; Charles Ramage, 130, junior high.

Quarterbacks - David Jones, 145, 1 letter.

Wingbacks - Larry Lockwood, 135, 3 letters.

Fullback - Wallace Holly, 130, 1 letter; Tommy Cantrell, 130, reserve.

Manager for Spade this season will be Lee Leonard.

Mr. and Mrs. Eddie Kuhler and family attended Texas Tech summer commencement exercises Saturday night in Lubbock, at the Municipal Auditorium, in which their son, Dennie, graduated with honors and received a BS degree in electrical engineering. Also attending his graduation was Mrs. Kuhler's brother, Calvin Steinbach of Rhineland, who visited in the Kuhler home Sunday.

Mrs. A. A. Duetherous and children, Annett, Alma Ruth, Gail, Theresa, Rosie and Sharon left Monday morning to visit relatives in Rhineland.

Janice and Donna Diersing, daughters of Mr. and Mrs. Syl Diersing spent 3 days recently with their grandparents, Mr. and Mrs. W. T. Jungman of Littlefield. They also visited their cousin, Judy Diersing there.

Mr. and Mrs. Bob Bouldin and family of Lubbock visited relatives in Pep Wednesday.

Mr. and Mrs. Ralph Demel and family left Friday morning for a visit in Knox County.

Mr. and Mrs. Syl Diersing and family visited Ed Wotipka family in Brownfield Wednesday.

Mr. and Mrs. Walter Jungman of Rhineland were visitors here over the weekend.

Visitors in the A. A. Homer home over the weekend were Mr. and Mrs. Louis Homer of Rhineland, Mrs. Ralph Lewis and sons of Fort Worth, and Sister Immaculata of Saint Joseph's Parish in Amarillo.

Mr. and Mrs. A. H. Diersing were surprised with a dinner in their home Sunday in honor of Mrs. Diersing's 76th birthday and of her granddaughter, Donna Diersing's 9th birthday. Attending the gathering were Rev. Fabian Diersing of Rotan, the Syl Diersing family, Mr. and Mrs. Fritz Diersing and daughter, Judy of Littlefield, the James Glimper family, the O.R. Watkins family of Levelland, the V. H. Diersing

family and Billy Stephens of Levelland.

KEELING HEADS Q'BACKS
Littlefield Quarterback Club elected Ray Keeling as its president at the organizational meeting Monday night at Wildcat stadium.

Other officers include L. V. Pierce, vice president; and Perry Pressley, secretary and treasurer. Committees of the club were not named, but will be formed when Keeling is able to be present at a meeting.

Next meeting date will be Sept. 7, at 8 p.m. The club will meet in the Littlefield High School Library, and program plans include films of the scrimmages of the Wildcats against Canyon and Andrews.

Coach Don Williams reported to the club on the outlook for the Wildcats' going into the Canyon game. He said the main thing lacking for the team is experience.

The meeting followed a program for all football fans in which players were introduced.

Outgoing officers included John Chayton, president; Gene Pratt, vice president; and O. K. Yantis, secretary-treasurer.

Scrimmage
(Continued from Page One)

has option to try again or take the point, if the defending team fouls on a point-after try. Penalties near the goal line may be for only half the distance to the goal.

Williams reported that his team would be using the straight "T" formation with several variations for the biggest part of the season.

About 125 fans were at the exhibition event.

The last official letter of George Washington, written two days before his death, urged Congress to establish West Point as a military academy.

From this group of Littlefield Wildcats will come the action on the grid-iron. The Wildcats will meet Canyon tonight at 7:30 for a practice game, re- sults from Tuesday night. (STAFF PHOTO)

Jap Girls Change Face

By KENNETH ISHII
TOKYO (AP) — If you want to be beautiful in Japan these days you must look something like Elizabeth Taylor. And thousands of Japanese girls are trying to — with the aid of the plastic surgeon's knife.

For just as they accepted western dress over kimono and permanent waves over traditional Japanese hair — medical progress has now given them a chance to add a western accent to oriental beauty.

"Japanese girls today generally don't want to resemble the classic Japanese beauty as depicted by such woodblock artist as Utamaro," said Dr. Fumio Umezawa, a prominent Tokyo plastic surgeon, in an interview.

"The Japanese woman's concept of beauty is changing. The oval face, long, curved nose, thin eyes and lips are going out of fashion. The western look is now the vogue. They want to look like, say, Elizabeth Taylor."

Nationwide statistics are available, but Dr. Umezawa's hospital, takes an average of 300 patients daily and conducts about 50 operations a week. There are at least three other clinics in Tokyo of comparable scope.

"Cosmetic plastic surgery didn't really gain popularity here until after the end of World War II," said Dr. Umezawa, a graduate of Keio University's school of medicine.

"In those first postwar days, the women who came were mostly professional women, but now women from all walks of life seek cosmetic surgery. It's becoming a socially acceptable thing.

"Sometimes parents will bring a daughter and explain that it's time to begin looking for a husband for her and they would like to make her more attractive.

"Some women say their husbands or fiancés sent them.

"I know of a case where a girl made a date, to meet her fiancé at a railway station, after she had received cosmetic surgery but when she arrived it took her quite a while to convince him she was the right girl.

"By age group, 3.6 percent are girls up to 17 years old, 62 percent are from 18 to 25. Then 25 percent are from 26 to 36, while the rest are from 36 to 50.

"Most of the request I get — about 30 percent — are for operations to eliminate the singlefold eyelid that the Japanese are born with.

"It is said the single-fold eyelid deprives the eyes of expression and warmth.

"About 20 percent of the patients want their nose raised, or tilted up. The exact shape, of course, depends on the individual's entire facial makeup.

"Then there are a few, say one in a hundred, who want to improve the size of her bust.

"The rest of the operations are to remove moles, scars and so on."

Dr. Umezawa said some of his patients include foreigners, people from Southeast Asia as well as Caucasians.

"In such cases, where facial

features are changed it is necessary to issue a certificate because the individual no longer resembles his passport picture," he explained.

One important reason why cosmetic plastic surgery is as popular as it is, Dr. Umezawa said, is because an operation is within everybody's budget.

"An operation seldom costs more than 60 dollars," he said.

LITTLEFIELD MOTOR PARTS
WHOLESALE - RETAIL

Littlefield Motor Parts stages its grand opening in a new location and in a new building Saturday. Manager John reports that there will be many free gifts, prizes for the kiddies, and refreshments all day Saturday. The new is 908 East 9th St. (STAFF PHOTO)

Highway ROW Affects More Property Owners

Every day it becomes a matter of degree. There will be more and more apparent those whose property will be affected in this county for right of way. Some will be affected, either directly or indirectly, by the acquisition of right of way. The economic impact of such an action should be considered.

Actually, there are two right-of-way programs in which the Texas Highway department participates. One is commonly called the 50-50 program. This program deals with the procurement of right of way on all highways in the state which are not designated as interstate highways or farm-to-market roads. The state and the county or city share 50-50 in the financing of projects in this program. The local agency handles the actual acquisition of the right of way.

Since the Federal Aid Highway Act of 1956, another co-operative highway program has been under-

Most m.p.g.* *miles per gallon

One of 7 big bests Chevrolet gives you over any car in its field

That Chevy delivers the most from a gallon comes from an in-able source: this year's Mobilgas Run. For a pair of Chevrolet with Powerglide walked away the first two places in their class top mileage, in fact, of any full-size car. Over the Run's long, rugged, over mountain and desert in long haul from Los Angeles to San Francisco, the winning Chevrolet had a whopping 22.38 miles per gallon. That's the kind of economy that keeps you saving you drive!

STYLE—It's the only car of its class that's un-imitable in every line. "In its class," says POPULAR SCIENCE magazine, "a new high in daring styling."

BEST BRAKES—In competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevy outstopped both of the "other two." Naturally—Chevy brakes with bonded linings are far larger, built to lengthen brake life by up to 66%.

BEST TRADE-IN—Look at the record—the used car prices in any N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST ENGINE—Chevrolet engines have long won expert praise and, just recently, Chevrolet received the

NASCAR Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ROOM—Official dimensions reported to A.M.A.† make this abundantly clear. Chevy front seat hip room, for instance, is as much as 6.9 inches wider than in comparable cars.

BEST RIDE—MOTOR TREND magazine names Chevy "... the smoothest, most quiet, softest riding car in its price class." But this is one Chevy feature you really should discover for yourself, at your Chevrolet dealer's. Stop by soon!

way. This is the program for the construction of the National System of Interstate and Defense Highways. Under this program the state handles the acquisition of right of way and is reimbursed 90 per cent by the Federal government.

On every parcel of land needed for right of way on the Interstate System, two independent appraisals are made by professional appraisers employed by the Highway Department on a fee basis. These appraisals are reviewed not only in the highway district offices, but are sent to Austin for further review by appraisers in the office of the Right of Way Division.

From these appraisals an approved value for negotiation is taken. This figure is not an average of the two figures recited in the two reports. Nor is it necessarily the high figure or the low figure. It is a figure which is arrived at after a careful review of all the facts contained in both reports. A third report or appraisal may be called for if there is an appreciable discrepancy between the two original reports.

The approved value is the figure which is used as the basis for negotiations with the property owner. The Highway Department does not deviate from this figure for several reasons. By its dual appraisal and review process an all out effort has been made to arrive at fair market value. To offer less is not fair to the property owner and to offer more is unfair to the taxpayer. Furthermore, if the Department negotiator were allowed to "horse trade" the so-called "tough trader" would always be paid a higher figure for his property than his neighbor with comparable property. Also the public-spirited property owner would be penalized for his desire to co-operate with the Department in the construction of highways.

At the time the negotiator visits the property owner, he explains the details of the transaction, goes over the schematic layout and answers any questions the owner has concerning the transaction. After this has been done, the owner is made an offer of the approved value. The offer is never more or less than the approved value.

If the owner desires to accept the offer, he signs the deed and a state warrant is ordered in the amount of the purchase price. If the owner desires to think over the proposal or to consult relatives, friends, counselors, or appraisers, he will be granted a reasonable amount of time to do this.

If the owner does not desire to accept the offer, he has the right and the privilege of allowing the courts to serve as arbiter in setting the amount of money to be paid for the property. He will be sent a formal letter of final offer reciting the exact figure the negotiator quoted. This figure is not changed at any time during initial negotiations unless it is discovered that an item or items were omitted from the original appraisal reports.

After condemnation proceedings have been instituted by the state, one of the original appraisers will be asked to "update" his appraisal. That is, he will return to the property and see that nothing has happened to change the value recited in his original report. If the updated appraisal recites a substantially and justifiably higher figure than the original appraisal, possibly due to

U.S. OIL

Indispensable in our way of life... vital to our national defense

In the 100 years since the drilling of the first oil well in the United States, the usefulness of petroleum has been often demonstrated in many ways . . . It is an economical and efficient source of energy and a raw resource convertible through petrochemistry into innumerable useful materials. . . . It is indispensable in our way of life, and vital to the national defense.

It is comforting to know that today's reserves are ample for today's needs. And if incentives to undergo the heavy risks involved are continued, there is no doubt that more oil will be discovered and produced to replace the oil we use . . .

The United States has found, produced, refined, and used more oil than any other nation. This has made petroleum products a feature of the abundant American life. Americans use more petroleum products than any other people on the globe.

The past is prologue to the future. During its second century, oil can serve you and your grandchildren, and the nation, as well or better than ever before.

The Humble Company, incorporated in 1917, has participated in the development of new and better ways to find and produce oil, and in the research that has improved petroleum products and discovered countless new uses for oil and natural gas. Humble is a major producer of U. S. oil, with production extending all across the southern tier of states from Florida to California. Marketing operations are carried on in Texas, New Mexico and Arizona. Humble's Baytown refinery, near Houston, is one of the great refineries of the world. (Humble Pipe Line Company, a major transporter of crude oil and finished products, operates more than 9000 miles of pipe lines in Texas.)
