START GARDEN IN PLANT BED

Garden plants like tomatoes, cabbage, pepper, lettuce and egg-plants can be started now in a plant bed and transplanted later to the garden.

Starting vegetables in plant bed has a big advantage. The practice will give slow-growing, frost tender plants a good head start, under protection... and will make it possible for you to have them put in the garden and producing vegetables from six to eight weeks earlier... before the hot, dry weather sets in.

Any small container that can be picked up and brought into the kitchen on cold days will serve as a plant bed, the horticulturists say... an old washtub or dispan will serve the purpose... or a wooden box four or five inches deep is good.

There are several good soil mixtures that can go into the plant bed.

In timbered areas, rooted leaf mold from the woods can be used. Or a mixture can be made of equal parts of well-rotted manure and top soil... or better still, a mixture of one-fourth well-rotted manure, one fourth sand, and one-half top soil. Make a layer two to three inches thick of any of these mixtures and then add a layer of course sand... an inch thick... over the top. Then mark off your rows two inches apart, plant four to six seed in every inch of row space... and cover them with only a half inch of soil. Scatter a thin layer of pea-size gravel over the surface and sprinkle freely with water. The gravel will cut down danger of "damping off" of the small plants.

Bear in mind that your plant bed should be started from six to eight weeks before time for setting the plants in the open garden.

Cataracts Removed, Child Can Now See

Shirley Ann Wolfe, 3, daughter of Mr. and Mrs. Johnnie Wolfe of 8 1/2 miles and 2 1/2 miles east of Littlefield, who underwent an eye operation about two weeks ago at the Lubbock General Hospital, where Dr. Hutchinson removed cataracts from the child's eyes, is getting along nicely.

This child is reported to have been blind since birth; and now doctors declare there is no reason why Shirley Ann cannot see. They pronounce the operation a success.

This child can now see through the kindness of 200 friends, who all contributed towards fund to pay for the operation and all incidentals. A total of \$554.00 was contributed to 200 neighbors and friends of the Wolfe family, and the Lions Club. This club contributed \$94.90.

The good neighbor who went about and gathered up the money reported this to the Leader office, but refused to give his name.

This man and all those who contributed are to commend on carrying out such a worthy deed and service to this little child in bringing her sight back.

**Miss Fay Steed and John Rasberry
Wed at Rosebud Recently**

Miss Fay Steed, daughter of Mr. and Mrs. C. L. Steed of Nacogdoches, and John Rasberry, Jr., son of Mr. and Mrs. John Rasberry, Sr., of Rosebud, were married Sunday afternoon at 4 o'clock in the Central Baptist church, Rosebud, Texas.

Dr. Ira C. Cole, Pastor, performed the double ring ceremony.

The bride, who was given in marriage by her father, wore a white satin wedding gown with scalloped neck line, set off by seeded pearls. The long, fitted sleeves came down into a point over her hands. Her fingertip veil of white net was held in place by a coronet of seed pearls.

The princess style gown was made with a long, flowing train. The bride carried a white Bible topped with an orchid with white streamers flowing from it. The Bible was a gift of the bride's mother.

Attendants were Miss Laverne Rasberry, sister of the groom, was maid of honor, and John Calvin Williams, best man.

Miss Rasberry wore a blue net gown with a white round neck line. She carried a bouquet of pink carnations tied with pink streamers.

Ushers were Jack Stewart of Oklahoma City, Oklahoma, Jimmie Newton and Jack Morris. Mr. Stewart lighted the candles preceding the ceremony.

The altar was decorated with white carnations and white dahlias set palms. White candles in twin candelabra flanked the altar and white trellises were placed on either side.

Miss Mary Lois Steed, sister of the bride, was pianist. She played "Always," "I Love You Truly," "Perfect Day," and the traditional wedding march.

Miss Nan Stroud of ETBC sang "Oh Perfect Love" and "The Lord's Prayer."

The bride's mother wore a grey suit with black accessories and a corsage of white carnations.

The bride chose for traveling a two-piece grey tailored suit with black accessories. Her corsage was a white orchid.

Mr. Rasberry is a graduate of the Littlefield High School, having attended from 1934 until he finished

in about 1942. He is a nephew of Mrs. Alice Hodges of four miles west of Littlefield. He was recently discharged from the Marine air corps, in which he served as a fighter pilot. He is also a student at East Texas Baptist College.

Immediately after the ceremony a reception was held at the home of Mr. and Mrs. James Snyder, 701 N. Grove. The living room was decorated with white candelabra, candy tuft, cananans and chrysanthemums.

The centerpiece of the dining table was of candy tuft and white dahlias against a background of crystal-prism candelabra.

The tree-tiered wedding cake was placed at one end of the table. Miss Ida Mae Loden poured coffee.

The bride and groom, Mr. and Mrs. C. L. Steed, Miss Laverne Rasberry and Jimmy Newton greeted the guests.

After a brief wedding trip to Shreveport, the couple will be at home at 2007 N. Franklin. Both will continue to attend ETBC.

Out of town guests attending the wedding were Mr. and Mrs. Eddings, Tyler; Miss Mary Lou Seale, and Miss Marie Collins, Nacogdoches; Miss Linda Joe Goldberg of Spring Hill; Merlen B. McGee, Mr. and Mrs. A. C. Massey, Patsy and Flo Massey and Miss Billy Jean Knight of Pasadena, Texas; Mrs. Ann Turk, Longview; and Joe Wyman, Jimmy Newton, Joe West, Herb Myline, Leona Stewart and Neal Laughlin of California.

Word games were played with prizes for the winners, which were won by Mrs. M. A. Gamble for the first one and Mrs. Newt Harkey for the second. Both winners presented the prizes, a set of measuring spoons and hand-made crocheted pot holders, to the bride.

Mrs. J. C. Smith, Jr., had charge of the program.

The gifts were neatly arranged in a white tissue covered box, decorated with white and lavender paper bows which was placed by the chair of the bride.

The refreshment table was laid with a lovely lace table cloth, centered with a vase of lavender and white sweet peas. Sweet peas were also used in the living room.

Farm Commodities Register Sharp Gains for Past Week

Farm commodities registered sharp gains last week, according to the Agricultural Marketing Administration, U. S. Department of Agriculture. Cotton, grain, and hogs led the advance, but most products sold at steady to higher prices.

All classes of hogs went up sharply during the week, averaging a dollar or more higher at some markets. Butcher hogs topped at \$24.50 at San Antonio and \$26 at Fort Worth. Friday's bulk of Good and Choice grades went at \$26.50 to \$27 in Oklahoma City; \$26.75 to \$27 at Wichita; and \$27 to \$27.50 at Denver. Steady prices were paid for most sheep, but lambs at Wichita lost 25 cents for the week. Medium and good fat lambs sold at San Antonio for \$15 to \$19.50; and at Fort Worth for \$18 to \$21.50. Friday's sales of good and choice lots at Oklahoma City netted \$21; and Wichita \$21.50 to \$22.35. Calves and Yearlings weakened at Texas markets, but mostly steady to higher prices were paid for other cattle at southwest terminals. Hous-

bulk of common and medium slaughter steers and yearlings; while Fort Worth moved medium and good kinds at \$16 to \$21.50. Low to average medium grass fat steers at San Antonio brought \$17.25 to \$18.50, and yearlings \$18 to \$19.50. At Denver medium to high good steers ranged from \$17.50 to \$23.35 for the week. On Friday's market at Oklahoma City good and choice vealers and calves realized \$18 to \$20. Seasonally increasing receipts of fresh eggs were fairly well absorbed at mostly unchanged prices of around 36 cents per dozen at most central points. Live poultry marketings slowed, but prices held generally steady at 24 to 26 cents per pound for heavy hens and 27 to 30 for fryers and broilers. Potatoes gained strength at Colorado shipping points last week and sold mostly at \$2.30 per hundred pounds. Sweet potatoes remained about steady in Louisiana but demand was light. Trading slowed in the Lower Rio Grande Valley toward the end of the period. Cabbage weakened to the season's lowest level of 75 to 85 cents per 50 pound sack in straight cars. Carrots and beets were a little lower in dull trading. Broccoli held about steady and greens were scarce. Citrus fruits went down, as Valencia oranges lost last week's gains in heavy shipping. Southwest markets for shelled peanuts strengthened. Dealers report the supply limited of seed holdings and exports. Cotton climbed steadily again last week, gaining around \$3 to \$4 per bale. Higher spot prices brought fairly active selling. Some twelve-month wools sold in Texas at \$1.03 to \$1.06 per pound, clean basis. More active contracting of mohair was reported at 62 cents for adult and 882 for kid hair of the better clips.

LEAVES FOR MANILLA

Title To Old Court House Property Remains In Lamb

In the District Court before Judge C. D. Russell Friday, G. T. Sides vs. Lamb County, Trespass to Try Title case, came up for trial, and the Court decided in favor of Lamb County. This case was brought to try title to the former court house property at Olton. W. P. Soash gave the County a deed to this property in 1908, which was used as a Court House until

recently, when the records were moved to Littlefield. Following the removal of the Court House to this city Mr. Soash deeded the same property to G. T. Sides. The Court ruled that Soash had no right to re-deed this property, and that the title was in the County of Lamb. Two divorce cases were also granted Friday.

Special Employment Program Is Announced

A special employment program to aid Littlefield workers and employers engaged in rural industries was announced today by F. A. Wells, TUCS district director, for the Amarillo district.

Mr. Wells said that the program would make the necessary labor available to employers of rural industries on a planned basis and help workers engaged in peak farm activities most nearly attain "year-round" employment. Rural industries include processing of all agricultural products.

"We hope that this program will prove of value to employers in securing the workers they need at once and thereby preventing loss of raw products subject to spoilage, reducing overhead personnel costs and loss of production time," Wells said. "Our plan should also be of service to the worker by shortening the time that he is between jobs and enabling him to maintain a higher annual income."

This special rural industries program conducted by the State Employment Service is designed to assist communities in organizing and planning for the handling of peak seasonal labor in rural industries by

making the greatest possible use of the local labor supply and reducing unnecessary in-migration of transient labor, Wells said.

"This is part of the over-all Texas State Employment Service program and employers and workers in rural industries will receive complete benefits of all services offered by the Littlefield local office," Wells said.

Visits are now being scheduled to employers in rural industries, Wells said, in order to get labor requirement estimates for the 1947 season and to explain how the Texas State Employment Service can assist them in getting labor and in placing their workers when laid off at the end of peak seasons.

Employers who have seasonal layoffs can help reduce their unemployment compensation tax rate by notifying the Texas State Employment Service at the earliest possible date of planned reduction in force so that these workers can be placed in other employment with the least possible loss in working time, Wells said.

DELIGHTS FROM WASHINGTON

By GEO. MAHON

It is rather pleased to read in this newspaper recently that Mahon is one of the hardest men in Washington these days. I don't want to enter into a controversy with the press and therefore, deny the statement.

During the last ten years, Senator Mahon has been in the forefront of the fight against the budget busters. He has been a constant thorn in the side of the budget busters, and he has been a constant thorn in the side of the budget busters.

requirement for our national well-being. As a member of the Joint Senate-House Committee to do the spade work on the job and report to Congress, I have attended all the meetings. At the final meeting last Friday, I voted against the six billion dollar cut which was proposed and approved by the committee. I made a speech in opposition to the action of the committee, asserting that the Republican members had concealed from the Congress and from the American people the facts and figures as to just where the cuts were to be made. I said that the report would be meaningless and ineffective unless backed up with an itemized list of the major cuts. Senator Taft agreed with me on this point and, to demonstrate his good faith, he himself gave some specific figures as to where he would support certain reductions, but the figures were inadequate and inconclusive. As to the Armed Forces, he thought a cut of one billion dollars would be in order. My thought is that some cut in military appropriations can safely be made, but not that much. Cuts in the military should

be made in civilian personnel and in Army construction, but not in such things as military personnel, research and development, and aviation. At any rate, it is estimated by those best acquainted with the facts that if the six billion dollar cut actually goes into effect, the Army and Navy will be decidedly reduced, the Federal road program will be curtailed, the school lunch program for next year will be abolished, the administrative expense of the Veterans Administration will be reduced by 200 million dollars, AAA payments already committed will be reduced by 100 million dollars, authorization of REA loans to local co-ops will be reduced by more than 125 million dollars, the Soil Conservation Service will be pared down, support prices for agricultural crops will be jeopardized. The Department of Agriculture on a percentage basis would take the most drastic cut of any agency. I have said to my colleagues here that Government economy was in the interest of agriculture but that it was poor economy to try to balance the budget out of the hide of the farmer, and I could not go along with the Republican-sponsored plan for agriculture.

One day last week General Omar Bradley came down and said he needed two billion dollars in additional funds for the Veterans Administration. We are going to provide part of the money now and more later when he needs it. The OPA has 14,000 employees and plans to spend 28 million dollars for operating expenses between now and July 1st. But we are asking Congress to reduce this expenditure by one-half, recapturing some of the funds appropriated for OPA before the President lifted most controls last November.

One of the members of our committee said he got a letter from a man in his district in Missouri a few days ago which began like this: "I'm so mad at the OPA that I am shouting to my stenographer as I dictate this letter."

As this session of Congress gets under way, clashes between Democrats and Republicans become more pronounced, but this is understandable because we live in a country where men in and out of public life are permitted to have different opinions and freely express them. This is unlike Russia, where Joe Stalin in his district recently was elected by a vote of 110,691 to nothing.

Mr. and Mrs. Ray Parker and son, Phil, spent a recent weekend as the guests of Mr. and Mrs. Ivan Fowler. Mr. Parker is a member of the firm of Parker & Parker, dirt contractors at Odessa.

In the meeting last Friday, 102 members of the House and Senate were permitted to participate. We made a motion to permit members of the press to listen to the proceedings so that a full report could be given to the people. The motion was voted down. A motion was made that three billion dollars of the six billion dollar expenditure reduction be applied on the public debt. This motion was likewise voted down. Senator Barkley, on behalf of three members of the Senate, and Cannon, Doughton and myself of the House, offered a motion that no income tax reduction be considered by Congress until we had passed the major appropriation bills through the House and had actually demonstrated that the proposed savings would be made. This motion was likewise rejected. The whole controversy has now

gone to the floor of the House and Senate. It will be confusing to try to follow this controversy. But I hope that many needed economies will be made and Government spending reduced, without the impairment of essential Government operations. Everybody wants to cut expenses and reduce taxes. The argument comes over the extent of the cuts and where they are to be made. The Bureau of the Budget has recommended the spending of 37 1/2 billion dollars next year, but Congress thinks that's too much and we feel the people agree.

Miss Roberta Sullivan Presented in College Musical Program

The student body of the Littlefield high school was pleased Thursday when Miss Roberta Sullivan, a former Littlefield high school student, and now a student in the Eastern New Mexico College, was presented in a musical program with other students of the college by the head of the music department of that school, under the arrangement of K. C. Lee, an executive of the institution.

The group was introduced by Eugene Carter, president of the senior class of the Littlefield high school who presented a program of varied types of music.

A violin ensemble rendered several classical selections which followed by a solo by Miss Sullivan accompanied by the ensemble. She later appeared on the program when she and a male student sang a duet. She received a hearty applause from the entire student body.

Another pleasing phase of the program was two Latin American students, dressed in beautiful gowns, representative of Mexico, were presented at which time one rendered a violin solo, "Lapaloma" and the other a piano solo. The violin solo was accompanied by the second young lady at the piano.

Miss Sullivan finished the Littlefield high school with class of 1943-1944 as an honor student, and following a term in Wayland College, Plainview, she has been a student in the New Mexico college last term and this year.

ANTON TO SOON HAVE BANK

It looks now like Anton will soon have a bank in operation. It will be recalled that charter was granted by the State Department of Banking, about a year ago, but after every preliminary arrangement had been made, the man who was to be the "banker" flew the track and blocked it all. But now a man who appears to be just the man of whom the directors have been waiting, has agreed to take the necessary stock and go into the bank. He is a Mr. Lewis of Spur, and is an experienced banker.

The bank directors have leased the old bank building from the City, and the directors are getting the subscribers to sign up again for the stock subscribed. When this is done rapid developments are expected.

Have You Ever Seen A Gadget Like This?

It's a "LIGHT METER" to test Lighting in Your Home or Place of Business

The "camera bug" in the family may say it's an exposure meter, but that's wrong. It's another sort of meter, designed expressly to measure the amount of light received on any eye task in your home or place of business.

When our lighting specialist finishes his survey you'll know just how good or bad your lighting is. Is there enough light to read by in that easy chair? Should you sew by the light of those wall lamps? Do the children have enough light in their room? Is that bed lamp right for reading?

All these questions will be answered at no cost or obligation to you. Just fill in and mail the coupon, or call your nearest Public Service Company office.

Total of \$9,307.50 Is Raised in Littlefield Community Chest Campaign

L. C. Hewitt, chairman of the Littlefield Community Chest drive, reports that, with a goal of \$11,000, the total received up to Feb. 15 was \$9,307.50 and, although the campaign continues on a volunteer basis, first payments are being made to the participating agencies as follows: The Salvation Army, first payment, \$1,000; total allotment, \$3,475. Littlefield Girl Scouts, first payment, \$420; total allotment, \$1,687. Littlefield Boy Scouts, first payment, \$420; total allotment, \$1,687. USO, first payment, \$303; total allotment, \$303. No disbursement was made to the City Youths' Recreational program due to the fact that the actual program to be carried out this summer has not been acted upon. According to Mr. Hewitt, the board of directors reserved the right to approve the program before actually spending the money. After payment of \$33.08 for office supplies and printed matter, it

leaves a balance of \$315.42 unobligated in the fund. All requests for donations of any kind must be submitted to the secretary, who will present same for appropriate consideration.

Bert Solves the Labor Problem

You hear a lot about capital and labor nowadays, as if the two could never get together. But look at Bert Childers—who has 320 acres of producing land, a fair-sized herd of cattle, and two farm hands working for him.

If you called Bert a "capitalist" he wouldn't know what you meant, and neither would Spike and Sandy, the hired men. Bert works side by side with both of them; and in the evenings they sit around the fire together—sharing a friendly glass of beer or two.

If anybody has a beef—whether it's about wages or hours or equipment—they talk it over at those friendly evening sessions.

I don't say all labor problems are as simple as Bert's. But from where I sit, the basic principle applies to any farm or factory or business: A principle of confidence and mutual respect, of daily talks together in a friendly and congenial atmosphere.

"Gallant Bess," Coming to Palace Theater Sunday and Monday Is Gripping Tale of Seabee Hero and Magnificent Equine Star

Anyone who loves horses will get a great kick out of the new M-G-M picture, "Gallant Bess," which will be shown at the Palace theatre Sunday and Monday.

Here is vibrant and moving tale of a sixteen-year-old boy whose loss of parents is made up for by his love for an intelligent and devoted mare named "Bess." Although the boy, Tex, wants to make a beginning at owning a horse ranch, he is moved by the call of patriotism and joins the Seabees. Then "Bess" dies while in seal, and not even the excitement of being shipped to a Pacific atoll can take the lonely Tex's mind from the horse he loved.

But in the midst of the island fighting, Tex discovers another horse who has been abandoned by her owner, and before long she fills the void in the young rancher's heart. And when Tex, wounded, is about to be shipped back to the United States, the faithful and devoted new "Bess" refuses to be left behind but swims after LST which is carrying her master away.

This moving tale is faithfully depicted by a fine cast, headed by young Marshall Thompson who lends an earnest credibility and sympathy to the role of Tex. The amusing Geo-

rge Tobias, playing Thompson's Seabee pal, is responsible for most of the picture's laughs; Chill Willis has an arresting bit as a Seabee recruiting officer; Clem Bevans is fine as the general owner of a general store, and others who merit praise include Jim Davis, Murray Alper, Henry Morgan and Don Curtis.

Of considerable aid in adding realism to the picture's outdoor scenes is the fact that it was filmed in the new Cinecolor, a color process ideally suited to outdoor photography. Cinecolor is impressive because the process reproduces outdoor settings in colors actually as viewed through the naked eye.
