No. 29

## ALVIN COOLIDGE WINS

### MRS. FERGUSON IS SET TEXAS GOVERNOR

The tabulation of the vote is not yet complete as the returns are not sufficient to show that Alvin Coolidge will receive at least 100 votes to win in the electoral college and the indications are that he has polled the largest plurality vote in the history of the United States. In Texas it is already conceded that Miriam Ferguson will be the governess, the tabulation of votes to date showing 167,825 for Mrs. Ferguson and 124,908 for Coolidge.

In Texas John W. Davis received a vote of about four to one over Coolidge and La Follette together. Very little interest was shown in county elections as most of the county officers were considered settled in the second primary. Arthur Hannett was elected governor of New Mexico by a good majority, while Governor George P. Hunt returned to office in Indiana.

### WHITHARRAL SCHOOL

Being Hauled Out This Week For New Building

The lumber is being hauled to the new school building at the new town laid out south of Littlefield. The school is located on Yellow Hill and will be 24x43 feet. The building has been recently completed and the settling has begun, many farm buildings and breaking out this year's crop.

### WARNING

Ordinances have passed since the traffic ordinance came into effect. It is not the desire of the officials to cause anyone any expense nor inconvenience in the past we have been lenient. However, in humanity the traffic laws should be observed, and the warning given to you.

### READY FOR CANYON

Prof. Parnell Has Two Judging Teams Ready For Meet.

Prof. E. D. Parnell has his stock judging team well trained for the meet soon to be held at Canyon. There are now about 80 boys in the Vocational Agricultural classes and others expected to be added.

Last week the boys did some practical demonstration work in laying a concrete walk from the entrance of the school house. It was a good job and adds wonderfully to the appearance of the school grounds.

Parnell also organized a plant judging team which will go to Canyon.

### ROBBERY AT SUDAN

Last Friday night some one entered the office of the Higginbotham-Bartlett Co., lumber yard, at Sudan, broke into the safe and took \$44.00 in money, leaving behind several dollars in checks which they could not use.

There were also three \$50.00 liberty bonds in the safe which they overlooked. Officers have no clue as to the identity of the robbers.

### GOVERNOR NEFF HERE TO SPEAK ON NOVEMBER 12

Governor Pat M. Neff, who will be the principal speaker at the cornerstone laying of the Tech. College in Lubbock Armistice day, will be in Littlefield the following morning, November 12th, and will speak at The Lee Theatre, beginning promptly at 8:30 o'clock. This will be Governor Neff's first visit to Lamb county, and everyone is urged to be present for the speaking and to greet Texas' Chief Executive.

### HALLOWEEN PARTY

The B. Y. P. U. entertained the members of the Christian Endeavor Halloween eve at the Baptist church. There was a large attendance, refreshments were served and a fine time enjoyed.

### FATHER IS LOCATED

Body of Auto Victim Will Be Sent to Minn. For Burial.

Officers have succeeded in locating the father of "Skeets" Embody, who was killed by an automobile last week near Roundup. The father is E. F. Embody, and he resides at Duluth, Minn. He has instructed that the body of his son be held in Lubbock, where it was taken following the accident, until he can make arrangements to send for it.

Embody was in the employ of the Lamesa Motor Co., driving a truck from Littlefield to Lamesa when the accident occurred. His given name is "Harold."

### ELECTRICITY SATURDAY

All the machinery for the Littlefield electric light plant has now arrived, and as this newspaper goes to press the majority of it has been installed.

It is the desire of the management to be able to turn on the "juice" by Saturday night if possible.

### YELLOW HOUSE CO. SELL THOUSANDS OF ACRES IN LAMB CO.

That the virgin soils of Lamb county continue to attract buyers in large numbers is evidenced by the prospectors constantly thronging to Littlefield.

During the past ten days every land company represented here has been doing a flourishing business, the Yellow House Land Co., reporting sales running up into thousands of acres, as follows:

H. P. Pannell, Travis County, 177 acres; C. L. Burns, Lamb county, 177 acres; D. Birks, Falls county, 177 acres; A. C. Rehnut, Williamson county, 88 acres; W. J. ### PROPERTY DEMAND IN LITTLEFIELD GROWS AS SETTLERS ARRIVE

If anyone has an idea that town lots in Littlefield are not going like hot cakes they have another idea coming, and, not only are lots selling rapidly, but the buildings are going up on them like pop corn in a skillet.

A brief survey of the townsite the first of this week revealed the fact that there are now 26 buildings in the process of construction, which it is estimated will total more than \$200,000, and it is a known fact that within the next two weeks there are contracts let for business buildings totaling \$12,000.

This week there is a party in Littlefield figuring on the construction of one brick building which will cost in the neighborhood of \$50,000, and the Leader knows of two more persons who are now figuring with contractors for the construction of brick buildings, each of which will cost approximately \$15,000.

The Leader has no record this week of the lots in various additions that have been sold, but during the past ten days, the town lots sold in the original townsite have been as follows:

### CONSTRUCTION OF NEW RAILROAD TO BEGIN IN 8 WEEKS

Clifford Grunewald, president of the Memphis, Lubbock and Roswell Short Line Railway Company, together with Carey Shaw, secretary and treasurer of the company stated Monday morning just before leaving for his home at Houston, that actual construction work on the line would begin within the next six weeks and at most within eight weeks.

"All preliminary work has been done. We have been on the job completing every arrangement for the actual construction of the road for more than a year and feel that now the time is ripe." Mr. Grunewald stated.

Some changes were announced in original plans following the trip of inspection the officials made over the proposed route for the road southwest from Lubbock upon their return here, however the route from Wellington, in Collingsworth county to Lubbock will be along the old survey and right-of-way of the Altus, Memphis, Lubbock and El Paso company, which has been bought by the Short Line company of which Mr. Grunewald is president. "The road will be built out of Lubbock on a direct route to Roswell, New Mexico, with perhaps a few changes to the north, if proper inducements are offered." Mr. Grunewald stated. Any changes to the north to include points near the Texas and New Mexico line would in all probability materially change the route out of Lubbock as first proposed unless a direct route to Plains in Yoakum county be taken as first proposed before the route be turned northward to include points in New Mexico.

The railroad officials are eager to have the building project under way materially. According to Mr. Grunewald they have built the road on paper many, many times, and their engineers have familiarized themselves with the character of work to be done in making the right of way out of Lubbock and their reports have been filed in the office at Houston and are in such condition that contractors can be figured with from them.

### AN EXPLANATION

This is the second time during the life of the Leader, or in the past two years, that the paper has failed to get into the mails on the stated day of publication, but we believe our readers will agree with us that the reason is justifiable.

This week we have installed a big Scott quarto news press which is the cause of the delay, but in the future it will mean a much better newspaper and far better service to our readers and advertisers.

The Leader is doing everything within its power to give the people of this section a newspaper of which they may be proud. As its name indicates, we want this newspaper to always be in the lead of the town and surrounding community.—The Editor.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

### WATERWORKS NEEDED

The action of the 60 members present last Friday night at the meeting of the Littlefield Chamber of Commerce asking the city officials to take immediate steps toward the construction of a city water supply system is indeed commendable.

With an abundance of pure water easily obtainable there is no real reason why a water system should not be enjoyed. In fact, nothing is more needed. The wells are insufficient for families in given neighborhoods, and the only available municipal supply, furnished by the Littlefield Hotel is greatly overtaxed. There is absolutely no water for fire fighting purposes—not even enough wells to muster a decent bucket brigade.

Littlefield citizens all realize the necessity of immediate relief. They are ready to vote favorable for a municipal water plant. Let the city officials take immediate action!

### FIRE ENGINE NEEDED

It is not very often that the editor of this newspaper "rides a hobby," but it is his avowed determination that he will never let up until Littlefield has some means of protection against fire.

Water is badly needed, a city water system is paramount, but in the meantime a chemical engine would be valuable, and might save a big holoanist. Such an engine could be purchased at a very reasonable price. The Leader is advised of one that is practically as good as new and that can be bought for perhaps half the original cost. It would reduce the insurance rates—but best of all it might put out fires that otherwise would cost the citizens thousands of dollars. This is a matter that should not be delayed!

The Leader heartily recommends the actions of Mayor Cogdill in his "warning" published in this issue of the Leader.

Violations of the city and state traffic laws are inexcusable. Of course, once in a while some one may forget; but the general thing a little fine of three to five dollars is a mighty good stimulant for the memory of those people who persist in using their forgetory.

### A LIVING DEATH

A man serving a life sentence dies at an average of 10 years after the penitentiary gates clang behind him. So claims Warden Whitman, of the Joliet, (Ill.) prison.

Recently speaking of Leopold and Loeb he declared if they are alive 20 years from now they will have accomplished a miraculous feat, which statement causes us to wonder how many of the readers of this newspaper would prefer the death penalty to that of life imprisonment?

We are by nature beings that love liberty, and monotony is one of the worst afflictions that may befall us. The tiger in his circus menagerie cage has it easy compared with the cell inmate who has no hope of release. Unlike the tiger, man has the power to think, reflect, consider, give sorrow for his past and anticipate the future, all of which intensifies his incarnation. The days in the prison workshop and nights in a cramped, barred cell are not life—but a living death.

Small wonder is it that the average "lifer" exists only about 10 years after sentence has been imposed. Yet how hard it is for the man who enjoys his freedom to realize what a time of incarnation would mean to him.

Of course, while people enjoy freedom outside the walls of the penitentiary they are to a certain degree prisoners—the victims of certain customs, regulations, system of econ-

omics and the inexorable laws of nature. The problem of getting enough to eat and enough to wear, of having a place of comfortable living is a life sentence itself for the average person who otherwise boasts of his freedom. Industry and superstition have many of us jailed. We are under life sentence, tho in many respects the power of this slave—master sentence is slipping away. Yet when compared to the "lifer" who must pass out the rest of his earthly existence behind grey stone walls under the point of a shotgun, "life, liberty and the pursuit of happiness" becomes a countless blessing.

### GOBS TAKE NOTICE

One of the interesting features attending the corner stone laying at Lubbock on Armistice Day will be the coming together of the ex-service men of the Plains country.

All the Gobs, Doughboys, Sea Doggies, Canary Tenders, Couch Pilots, M. P.'s, Y. M. C. A. lads, Chaplins, Q. M. C.'s, Gold Brickers, Good Soldiers, hard working transport corpsmen—in fact the whole blasted lot of ex-service men from whatever department they may hail, if they call West Texas their home, or happen to be visiting in this section—they are invited to attend the big chow scheduled for the night of the 11th and dig into the slum, java, beans and hard tack, fight the war all over again and decide which branch of the service won it.

### A THOUGHT FOR TODAY

A man that flattereth his neighbor spreadeth a net for his feet.—Prov. 29:5.

Flatterers are the worst kind of enemies.—Tacitus.

Hallowe'en has its origin in pagan times, and judging from some of the antics of hallowe'en last week, it would seem that the present had again reverted to times pagan and semi-civilized. It is alright for young folks to have a good time hallowe'en night, but the mutilating and destruction of property on that night is just as much a crime as on any other night of the year. One can not help but wonder where was the city marshal and night watchman.

Sawyer, deceased, whose names are unknown; and Dempster Mill Manufacturing Company, a private corporation, which is a non-resident of the State of Texas, to be and appear before the District Court of Lamb County, Texas, to be held at the Court House of said county in the town of Olton on the 4th Monday in November, 1924, being the 24th day of November, 1924, then and there to answer the petition of E. K. Warren & Son, a private corporation, as plaintiff, filed in said court on the 17 day of October, 1924, in Cause No. 103, styled E. K. Warren & Son, a corporation, vs. John H. Nafziger et al, wherein E. K. Warren & Son, a private corporation, is plaintiff and John H. Nafziger and wife Hattie I. Nafziger, whose names are sometimes written "Nafziger," Morris G. McGawn, Carl F. Moeller and wife Anna Moeller, Jessie Coldren and the unknown heirs of Stevens A. Coldren, deceased, Annie E. Ames and her husband Elmer E. Ames, Ellen M. Bloom and her husband David H. Bloom, Ward B. Sawyer, Frederick L. Sawyer, Robert B. Sawyer, Chas. M. Sawyer, Ida E. Tait and her husband William G. Tait, the unknown heirs of L. M. Sawyer, deceased, and Dempster Mill Manufacturing Company, a private corporation, are defendants, in which suit a brief statement of plaintiff's cause of action is as follows:

Plaintiff sues on two series of promissory notes each series designated as Class "A" notes, executed by defendant John H. Nafziger and subsequently assumed for payment by defendants Carl F. Moeller and by Hattie I. Nafziger, payable to Edward K. Warren, dated January 1, 1917, each series numbered One to Seven, inclusive, Nos. 1 to 6, inclusive, of each series being for the principal sum of \$214.00 each and No. 7 of each series being for the principal sum of \$216.00 each, Note No. 1 of each series being due Jan. 1, 1919, and one of each of said series being due in consecutive numerical order on the first day of January of each successive year thereafter until all are paid, each of said notes bearing interest at 6 per cent per annum from date thereof and providing for 5 per cent attorneys' fees; Notes Nos. 1 and 2 of each series are alleged to be paid as well as interest on all of said notes to January 1, 1920.

Plaintiff alleges that one of said series of notes evidences part of the purchase price for the E 1/4 of the S 1/4 of Sur. No. 36, Block W of the Edward K. Warren Subdivision No. 1 in Bailey, Lamb, Parmer and Castro Counties, Texas, and that the other series of said notes evidences part of the purchase price for the W 1/2 of the S 1/4 of said survey, both of said tracts lying in Lamb County, Texas, and both tracts having been conveyed by said Edward K. Warren to defendant John H. Nafziger on Jan. 1, 1917, by deeds of that date, wherein it is recited that part of the purchase price is to be paid according to the terms of promissory notes, being, as alleged by plaintiff, the notes sued on, and plaintiff further alleges that payment of said notes is secured by deeds of trust dated January 6, 1917, executed by defendant John H. Nafziger to defendant Morris G. McGawn, trustee for said Edward K. Warren, one of said deeds of trust conveying the said E 1/4 of the S 1/4 of said survey, securing payment of the said series of notes given in part payment thereof, and the other of said deeds of trust conveying the said W 1/2 of said S 1/4 of said survey, securing payments of said series of notes given in part payment thereof; each of said deeds of trust stipulating that default in the payment of said notes thereby secured, or any part thereof, for sixty days after maturity should, at the option of the holder of said notes, mature all of them, under which provision plaintiff has elected to mature all of said notes now unpaid, due and has placed same in the hands of its attorneys for collection and suit, contracting to pay said attorneys' fees stipulated in said notes.

Plaintiff alleges that said lands were by said defendant John H. Nafziger conveyed to defendant Carl F. Moeller, who assumed payment of said notes and who subsequently conveyed said lands to defendant Hattie I. Nafziger, who also assumed payment of said notes; that plaintiff is the present owner and holder of said unpaid notes and of the original vendor's and contract, mortgage and deed of trust liens upon said lands securing payment thereof; that all of the defendants are asserting claims of right, title and interest in and to said lands, the nature of which is not fully known to plaintiff, but known to defendants, all of which rights, titles and interests, if in existence, being subject and inferior to plaintiff's rights, liens and interest therein.

Plaintiff sues for judgement against defendants John H. Nafziger, Carl F. Moeller and Hattie I. Nafziger, jointly and severally, for its debt consisting of the unpaid principal, interest and attorney's fees on said notes and all costs of suit; for judgement against all of said defendants decreeing their interests in said lands subject, inferior and subordinate to plaintiff's liens, rights and interest in, upon and to said lands, and foreclosing plaintiff's said vendor's contract, mortgage and deed of trust liens upon said lands to satisfy said debt and judgement, for order of sale, writ of possession and general relief.

Herein fail not, but have you then and there before said court, this writ with your return thereon showing how you have executed the same.

Given under my hand and seal of said court at Olton, Texas, this 17th day of October, 1924.

(Seal) M. R. Cavett,  
Clerk of the District Court, Lamb County, Texas.

Oct. 30, Nov. 6-13-20.

### COCHRAN COUNTY INTERESTED IN PROPOSED NEW RAILROAD

Clifford Grunewald, president of the M. L. & R. Ry., accompanied by Carey Shaw, secretary-treasurer of the road were in Ligon last Saturday talking with leading citizens regarding the proposed building of a railroad through this section of the country.

Mr. Grunewald stated that the old survey had been purchased by his organization and that work on the construction would begin shortly. He also stated that some of the rolling stock had already been contracted for.

Mr. Shaw stated that before visiting Ligon conferences had been held with Dr. Geo. Veal, E. Dick Slaughter, C. C. Slaughter and Ira P. DeLoach, all of whom were ready to cooperate with the organization.

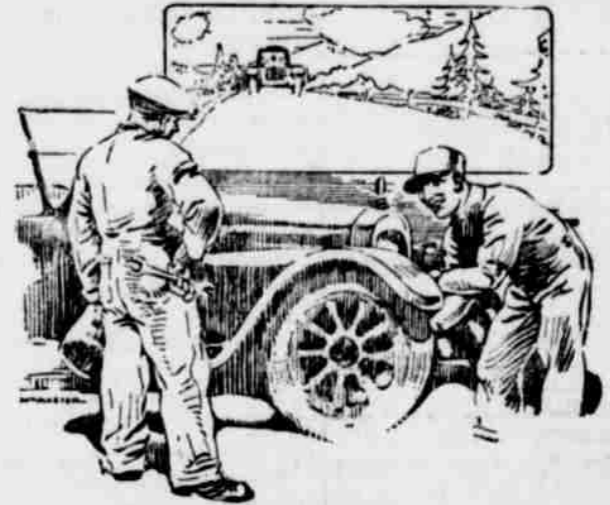

It is thought the new road will run south of Ligon.

There are at present about 1,200,000 cows kept by people in cities of the United States, while in the country cows number more than 25 million.

A modern threshing machine can do as much work in a day as could be done by fifty men with the flail of former days.

## The Aggi Teachers Hold an Interesting Meet at Lubbock

The meeting of the Panhandle Vocational Agricultural teachers was held last Friday in Lubbock, R. C. Mowery, agricultural instructor in the Lubbock schools, presiding.

One of the interesting features of the meeting was the fine display of work presented by the Lubbock high school. Following the program, there was a round table discussion led by Mr. Rutland.

The members of the Domestic Science Department served a very dainty luncheon in the dining room of the school building, at which time Superintendent Dupre, of the Lubbock schools gave a splendid talk on the qualifications of a teacher, especially stressing the point that a teacher should thoroughly know his subject and have an interest in the student with whom he deals.

The teachers present were Mr. and Mrs. Gourley, of Farwell, Mr. and Mrs. Write, Muleshoe, Mr. and Mrs. Ryan, Sudan, Mr. and Mrs. Hunt Olton, E. D. Parnell, R. R. Tippit, Hale Center and R. C. Mowery, Lubbock.

## Contract Let For More Buildings at W. T. Tech. College

The Board of Regents of the Texas Technological college of Lubbock has let contracts for the construction of two more buildings. The two new buildings on which the contracts were let were for Home Economics and Textile study. Amon G. Carter, president of the board of governors, said:

J. B. Marey, of Lubbock, received the contract for the erection of the Home Economics building, while J. D. Tillory, Fort Worth man, was low in the building on the Textile structure. The granting was the first contract to be secured by Tillory but Maxey, in a former letting, was given the contract to construct the home for President Paul W. Horn and is progressing nicely in the work.

Before the meeting was closed it was decided to hold another session in Lubbock on November the eleventh when the members are gathered to take part in the celebration. According to statements made by president Horn and Amon G. Carter the school is an object of interest all over Texas and neighboring states and a banner enrollment expected when the first semester opens.

Just why the contracts were not let on the sanitary and heating plants for the school, is not known here at this time. According to a statement made by President Horn prior to his leaving Lubbock contracts were to be let for these improvements, in addition to the drilling of water wells on the campus of the institution.—Lubbock Avalanche.

## Poem by Uncle John

Of course, there may be reasons for a feller's uppish ways, when the right to win distinction paves the road to better days,—and I don't begrudge my rival if he swaggers jest a bit—for, if I can't be magnanimous, I'll simmer down an' quit!

And still—there is occasions when I'd criticize a friend, when the means he takes advantage of, don't justify the end; for instance—here's Simp Wiggleton, who don't know "gee" from "haw"—he's learnt to play bull-fiddle in the Hickville Orchestra. . . .

Now I don't envy Simp at all—for this here country's free,—and the world don't stop revolvin' when he fails to speak to me—I only mention Simp's case to show how men may reap—if they seize the opportunity when glory comes so cheap!

## Hi School Leopards Beat Amherst Boys 25-5 On Thursday

The second team of the Littlefield High School, The Leopards, trimmed the Amherst High School football team by a score of twenty-six to six, Thursday, Oct. 29, on the Amherst field. Both teams showed some good fighting and also some good spirit, but the local lads had them beat as a team in every way.

Amherst made her touch down in the first quarter when Linn intercepted a forward pass on the twenty yard line and Amherst bucked the line five times for a touch down. Wood starred for the local team by his ability to receive passes and T. J. Linn for the Amherst team.

The Littlefield line-up was as follows:

N. Dixon, right end; A. Collins, right tackle; A. Bennett, right guard; L. White, center; J. T. Allen, left guard; E. S. Rowe, left tackle; Payne Wood, left end; Travis Baker, left half; Lee Bell full back; Glenn Allen, right half; J. K. Baze, quarter.  
Subs: Harry White, Jack Brannon Fred Faust.

Yards Gained: Wood, 78; Baze, 54; Bell, 47; Allen, 32; Baker, 22.  
Time of game: One hour, forty five minutes.

## "Barnavista" Wiped Out By The Flames On Saturday Night

The influx of new settlers has wiped out many of the old landmarks of this vicinity, but it remained for the ravages of fire last Saturday evening to obliterate a spot very dear to the hearts of many of the older settlers, when the building now occupied by Mr. R. C. Hopping as a garage was licked up in maw of the ravaging flames.

This building, erected by C. J. Duggan in 1913 as a home in which he took his bride, was the first house to be erected in the south part of Littlefield. It was there they spent the happy days of their honeymoon and numerous were the social functions enjoyed within its walls, people often coming from 20 to 30 miles around to enjoy their hospitality. Later, when Mr. Duggan moved away, the little cottage became the home of Rev. Duncan, a Methodist preacher, and who was the first regular minister to live in Littlefield.

A few years ago it was bought by Judge R. C. Hopping who, immediately erected a larger and finer residence on the same property, using the little homestead, which had long been dubbed "Barnavista," as a garage and wash house.

Just how the fire originated that wiped it out Saturday night is unknown, but the women folks had been washing that afternoon, and it is supposed that it started from the fire which inadvertently had not been put out.

## IF EDITORS TOLD THE TRUTH

Only a short time ago the editor of a paper in Indiana grew tired of being called a liar and announced that he would tell the truth in the future and his next issue contained the following items:

"John Benin, the laziest merchant in town, made a trip to Beoville on Monday.

John Coyle, our groceryman, is doing a poor business. His store is

dirty and musty. How could he expect to do much?"

"Dave Conkey, died at his home here Tuesday. The doctor gave it out as heart failure. Whiskey killed him."

"Married—Miss Silvia Rhoades and James Collins last Saturday at the Baptist church, by the Rev. Gordon. The bride is a very ordinary girl who doesn't know any more about cooking than a jackrabbit and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duct. The groom is an up-to-date loafer. He has been living off the old folks at home all his life and not worth shucks. It will be a hard life."

### LUBBOCK PLANS TO HAVE 30,000 PEOPLE ON ARMISTICE DAY

Senator Guinn Williams of Decatur, Deputy Grand Master of the Blue Lodge of Texas Masonry, will be in charge of the laying of the corner stone of the Texas Technological College at Lubbock Armistice Day. He will be assisted by more than 1,000 Masons, including the officers and representatives of practically every masonic lodge on the Plains. Judge E. R. Bryan of Midland, will act with Senator Williams in the formal work of placing the stone.

Governor Pat M. Neff will deliver the principle address of the day with Col. Earnest O. Thompson of Amarillo to present the American Legion in honor on Armistice Day. The National Guard and Ex-service men will participate in a formal military program to conclude the ceremonies.

Plans are being made to take care of 30,000 people on that day. At least five bands have signified their intention of being in the Grand Parade that will precede the opening of the ceremonies. More than twenty Plains town will officially take part in this parade which will be headed by the Masonic bodies, speakers of the day, visiting officials of neighboring towns of West Texas, the Board of Regents, state and school officials from over Texas and adjoining states, and will include, in addition to at least 5,000 automobiles, more than 3,000 school children on foot—each carrying a Texas flag.

The Allen Brothers Post of the American Legion is planning a huge Army Feed and Ex-service men's party for the evening following the ceremonies at the Tech Site. More than 1,500 ex-service men are expected to attend and a program of army fun is being arranged that will knock the spots off of all former parties of the buddies and finally determine that long-discussed question of "Who Won the War?"

Daddy Dickinson and Bennie Hilburn, a pair of shave-tails who somehow or other stood the benzine test and ranked a pair of stripes on their shoulders are in charge of the dirty work and promise a hard-boiled program full of thrills—even for the ex-M. P.'s and field clerks.

### Amherst, Sudan & Littlefield All Get New Preachers

Rev. W. W. Edgar, who was pastor of the Methodist church at Littlefield, Amherst and Sudan the past year has been transferred to the Lubbock circuit. Rev. Silas Dixon, a conference member will be pastor at the year. Rev. J. E. Payne has been appointed pastor of the churches at Amherst and Sudan. Rev. E. E. Robinson is returned as presiding elder of the Lubbock district. Rev. R. R. Gilbreath is returned to Olton.

The annual session of the Northwest Texas Conference of the Methodist Episcopal Church, South, which closed at Abilene last Sunday night, was probably the most interesting of any session in the history of Methodism on the West Plains of Texas, because of the accomplishments of the various minister members during the past year.

With scarcely a single exception glowing reports of great revivals, enlarged memberships and excellent financial conditions prevailed, while several of the preachers reported new churches organized and new buildings either constructed or in the process of erection.

Bishop A. M. Dickey, one of the most learned and eloquent of Methodist divines, was the presiding officer of the conference, preaching Sunday morning at St. Paul's church, where hundreds were turned away for lack of seating accommodations.

The Sunday night service was a tense one, for it marked the destiny of the 169 itinerent preachers of this conference. According to the Methodist system of episcopacy their pastors are "sent" instead of being "called," as is the case of other evangelical denominations. Their appointments for the next year depend upon the action of the conference cabinet, which is composed of the presiding bishop and the district elders. It is always a time of mingled feelings, some disappointed over not being returned to their former charges, while others are made happy over being given another and perhaps better appointments. For lack of space the Leader is publishing herewith only the appointments in the districts adjacent to this section, as follows:

### HAS A GASSER

Indications There is Abundance of Gas in This Section.

E. B. Rosser of near Abernathy, was in town Friday and stated to the editor of the News that the oil well four miles west of that town continues to give forth gas though the hole is filled with 3,600 feet of water. At times the gas causes the water to

bubble considerably. The drilled several years ago of about 4,500 feet. A pocket of gas was 100 feet, and here and there of oil.

Mr. Rosser says several men have stated it is possible field is near, and if a large quantity of nitroglycerine were put in the well and exploded it would blow the wall between the well and the field, and a big gas well would be opened.

Peter Brooks, of Grand Mich., has sold a silver mine in 1804, to a New York man for \$3,000.

Panhandle Telephone System Now Offers Good Service.

Local Manager, A. R. Hendricks of the Panhandle Telephone System advises that his company is this week putting the finishing touches to a \$10,000 copper wire long distance telephone line from Littlefield to Lubbock, which represents a complete rebuilding of the old line.

Parties talking over the newly constructed line during the past few days declare the service to be perfect and the conversation to be as distinct as the persons talking were but a few blocks apart.

Tuesday a telephone booth was established at Anton, the new town on the Spade ranch, which will be a great accommodation to the public interested in the development around that point.

### LITTLEFIELD BAND ORGANIZED AND IS PROGRESSING NICELY

Monday night, October 26 the Littlefield Chamber of Commerce Band was organized. S. T. Price was elected as the business manager of the organization and will also act as chairman at all business meetings held and S. G. Forsner was elected as secretary and treasurer. A committee was appointed to draw up a constitution and by laws for the organization.

The Littlefield Chamber of Commerce Band has many plans which are to be carried out in the future; one of greatest importance and that is being talked most among its members is the prospect to enter the band contest held annually in connection with the annual convention of the West Texas Chamber of Commerce. As is well known, this convention is to be held at Mineral Wells, Texas this year, and it is the intention of the organization to enter as a first year band. It is the general feeling, also that they will be able to bring back a prize and are going to work diligently to that end.

Monday and Thursday nights have been chosen as the regular rehearsal nights and a large high class repertoire is being worked up. It will be only a short time until regular Saturday afternoon concerts will be given which will be a great trade drawing feature as well as a means of high class entertainment.

The present size of the organization is twenty members, the Personnel being as follows:

Cornets: S. T. Price, S. G. Farquhar, Will Youngman, Michlink; Clarinets: W. B. Dillard, Bon Hamilton; Altos: Amel Timian; Trombones: J. E. Watson, Wallis Timian, Lois Forquer; Baritones: Jess Mitchell; Saxophones: Ira Smith Jr., Garland Lewis, Hendrix; Bass: B. F. Cogdill, Herman Staggers; Drums: J. K. Baze, Glen Allen; Piccolo: Jost. Director: Clayborn Harvey.

#### BUMPER SEED CROP

C. W. Hargrove Realizes \$36.75 Per Acre From Cane.

With the coming of harvest time

fine crops begin to come in also, and it is a real pleasure to chronicle the successful achievements of the new farmers of this section.

G. W. Hargrove is not exactly a new settler, but he is a new farmer, and his 177 acres of fine land a few miles from here is bringing him in handsome returns.

Last week Hargrove threshed out 40 1-3 acres of Red Top Cane seed,

obtaining 84,990 pounds, or about 2,125 pounds per acre, and has still remaining on the ground about 18,000 bundles of fine feed, worth from 2 1-2 to 3 cents per bundle.

The cane seed was sold for \$1,487.32, which meant a gross receipt of \$36.75 per acre.

Hargrove has about 50 acres in cotton which he is just beginning to pick.
