

LHS Woodwind Quintet to Play at Lubbock

The Littlefield high school woodwind quintet, composed of members of the high school band, has been invited to play in the program to be presented at the formal concert Sunday, March 18, at Texas Tech, Director Don Hayes announced Wednesday.

The five members of the woodwind ensemble are, Jo Pickrell, flute; Wynema Johnson, oboe; Norma Moss, clarinet; Charlotte Doss, bassoon, and Joyce Tharp, French horn.

Four of the five players were selected to play in the recent concert of the All-State High School Band at the music educators convention in Galveston. They were the Misses Johnson, Moss, Doss and Tharp.

The quintet also will be featured in the forthcoming concert planned by the Littlefield high school band for the school patrons of the community.

Date for the concert has been set for 8 p.m., March 8, in the High school auditorium. The quintet at the concert here will play two numbers, "The Melody of San Souci," and "Marche Hungrois," Mr. Hayes said.

Lamb 4H-FFA Stock Show Set for April 2

Ten Percent Increase Is Asked in Electric Rates

Trip to Austin Await Winners

A 10 per cent increase in rates in two classifications of electric service in Littlefield is asked by the Southwestern Public Service Co. in a letter delivered Monday to the city hall addressed to Mayor A. C. Chesher and members of the city commission.

Littlefield Legion Post To Observe 32nd Anniversary of National Group

The Littlefield American Legion Post will observe the 32nd anniversary of the founding of the organization with a birthday party at the Legion Hut here the night of March 19, the regular Monday meeting night.

April 2 has been the date set by the Littlefield Chamber of Commerce for the annual Lamb County 4H-FFA spring stock show.

The show will be held at the Lamb County fair grounds where all animals must be brought not later than 4 p.m. April 1. Entries must be made at the Chamber of Commerce offices not later than March 2.

City Secretary W. G. Street said Wednesday the request probably would come before the commission at its next meeting, date for which is not yet set because of the absence from the city of Mayor A. C. Chesher.

Teachers Invite Public to County-Wide Meet

An all-country meeting of teachers in Lamb County schools, with all interested citizens and school patrons invited, will be held at the Littlefield high school auditorium Monday night, March 5, starting at 7:30 o'clock.

Noted Baritone in Concert Here Tomorrow Night

Norman Farrow, noted Canadian baritone-bass, will present a program of songs at the Littlefield high school auditorium tomorrow (Continued on Center Page)

Any 4-H or FFA member in Lamb County will be eligible to participate in the classification show if he complies with the rules governing the exhibition.

Final respects to a man whose later years of life were linked inseparably with the growth and development of the Littlefield area.

OUT OF MOTHBALLS—The famous USS Revenge, Navy minesweeper which led the way into Tokyo Bay at the end of World

War II, has returned to sea duty. The ship was taken out of mothballs and re-commissioned at Orange, Tex. On August 28,

1945, the proud Revenge led the way for larger ships entering Japanese waters to receive the surrender delegation. (AP Photo)

LITTLEFIELD---AS OTHERS SEE IT

How other folks see Littlefield is related in an article written by Kenneth May, Avanché—Journal staff writer, and published in the Sunday edition of the Avanché, as follows:

"From out of what was once the sprawling Littlefield ranch has been born a thriving farm capital for a great cotton and grain-producing county. They call the city Littlefield, the county Lamb. "Littlefield is a city of 6,000-plus. It did not just happen. It has had no booms other than agriculture to spur it on. By all odds it should still be small, like many of its neighbors it long since left behind.

"But it isn't. While other towns were sunning in the attainment of present prosperity, Littlefield during the last 40 years was planning ahead. In 1912, for example, the small 'whistle stop' on the Santa Fe incorporated itself and began water and sewer programs and later street paving. "It has continued to build and grow.

Ready For Development
"Today, as the large oil companies are beginning an intensive search for undiscovered oil in Lamb county, Littlefield is ready for whatever awaits at its threshold. If an oil boom develops, Littlefield will absorb the influx of business and population in easy-going stride. The foundation has been and is being built today for a larger city—when it is larger, it will not decline for lack of substantial planning.

"Forty years ago, the 300,000 acres surrounding what was to become the city of Littlefield was included in the far-flung George Littlefield ranch. His LFD brand cattle wandered over the area, feeding on the short grass and mesquite bushes which thrived for life on the plains.

"When the George Littlefield ranch was surveyed and the land began to be sold, Littlefield built a hotel which still stands in the city which bears its name so that land prospectors would have a place to stay. First came, later two, three, four businesses were established.

"In 1912 the railroad was built through the town, bringing an ever-increasing number of prospectors and farmers eager to speculate on the land or to make a new start on a farm in a new area. Gradually, ox, mule, and horse-drawn plows turned under the grasslands of Lamb county and the population grew as cotton and grain crops began to replace the mesquite brush and LFD cattle.

"The city is still growing. Last year, \$1,279,719 worth of new construction was started—a per capita total of more than \$206, a high average for any city. Mayor Art Chesher said indications are the city will continue to grow just as fast as government restrictions and material shortages will allow.

"Littlefield was made the Lamb county seat in 1946 following numerous attempts by city residents—and an extended bitter fight with Olton, the previous seat—to get the county offices moved here. Littlefield offered as an inducement the use of the city hall as a courthouse and promised not to instigate a bond election for the purpose of building a new courthouse. City offices are located now in less-imposing structures.

Proud Of Record
"Residents here are proud of the city's crime—or lack of crime—record. With a police force of four,

Tired, Happy Littlefield High School DE Group Back From State Convention

Three members of the Littlefield high school Distributive Education class with the high school faculty DE coordinator, Jesse G. Foster, returned Sunday night from the state DE convention in Houston, filled with enthusiasm over their four-day trip.

The group—Louise Dunn, Emil Macha, Robert Attaway and Mr. Foster—left here at 4 o'clock Thursday morning to meet a chartered bus in Big Springs carrying the West Texas delegation to the convention city.

Approximately 600 delegates attended the convention at the Shamrock Hotel, where the group had reservations. Mr. Foster said Friday was spent in a tour of Foley Bros. Houston's leading department store, and on a sight-seeing trip over the city, to the University of Houston, the San Jacinto battlefield and the concrete embedded Battleship Texas.

In the business session of the convention Saturday Emil Macha assisted in conducting a model initiation ceremony. A Lubbock boy, Johnny Wardrop, was elected president for the coming year and El Paso was chosen as the scene of the next gathering.

The boys and girls attending from all parts of the state got an unprogrammed thrill in the appearance at the convention Saturday afternoon of Jack Benny, noted radio comedian, who spoke from the platform.

Several also met and obtained autographs from Movie Star Charles Boyer, a guest at the hotel, and from Glenn McCarthy, multimillionaire oil man owner of the famous hostelry, Mr. Foster reported.

Note: Although tired, Mr. Foster was back on the job at school Monday after the strenuous trip. Some of the others had to stay home and rest.

Lamb Farm Bureau Sets Up Program Of Work In 1951
A partial program for 1951 work was adopted by the Lamb County Farm Bureau at a county-wide meeting Thursday night in Spade. About 100 members were present from all parts of the county.

A constitution and by-laws were adopted and an application drafted for a state charter. Speakers included County Agent Dave Eaton and Marvin Carter of Waco, state organization director for the Texas Farm Bureau.

Mr. Carter praised the accomplishments of the Lamb County unit in the short period since its organization, in which it has enrolled nearly 500 members. He commended the organization here for the progress and the fine spirit shown.

County President J. H. Angeley presided. The four points in the partial program set for 1951:

1. To give opportunity to each of the 14 communities represented to organize community Farm Bureau units.
2. To seek better service in cotton classification this fall.
3. To institute a county-wide program to eradicate Johnson grass.

LHS Festival Nets \$125 For School Annual

The Annual Festival at the Littlefield high school last Thursday night netted a total of \$125 to help defray the expenses of publication this spring of the school yearbook. Principal Troy Armes announced.

A story of the festival and the announcement of the selections of the outstanding boy and outstanding girl in the school and the "All-Wildcat" boy and girl was carried in a previous issue of The Leader.

The festival was staged by the staff of "The Wildcat" with the aid of Mrs. Edward Pettis, faculty adviser.

The outstanding boy and girl selected by the faculty were Gene Renfro, all-star football backfield ace, and Mary Jane Coen, yearbook editor.

Chosen by vote of their fellow students as the "All-Wildcat Boy" and "All-Wildcat Girl" of 1951 were two other senior class members, Lehman Pace, daughter of Mrs. Sid Pace of Star Route 2, Littlefield, and Marvin Klobber, Route 2. Marvin is the son of Mr. and Mrs. Joe Klobber, of Littlefield, Route 2.

Miss Coen, editor of the school yearbook, is the daughter of Mrs. J. R. Coen, of 702 East Eight street. Renfro is the son of Mr. and Mrs. J. J. Renfro, of Littlefield, Route 1.

Stanley Doss Buys Y & S Grocery & Market

Meat Prices Expected to Remain High Due to Demand, Report States

DES MOINES —AP—The strong demand for meat is expected to hold prices above last year's mark, according to the Iowa State College Extension Service in its monthly farm outlook. However, a nine per cent larger 1950 pig crop will soon begin to move to market in larger numbers, which may

hold pork prices at a moderate level, the service reports.

With feed prices rising, the service says, only a moderately favorable hog-corn ratio can be expected this year. A moderate increase in the 1951 spring pig crop is in the offing if farmers follow through with their intentions, the report states.

Television Praised For Part Taken In Promoting Youth Dental Hygiene

BALTIMORE — AP Television's role in the development of youngsters has gained new prestige here. The visual medium recently got a kindly pat on the antenna from the Baltimore Dental Society.

At a meeting here dentists noted that there is an increase in the number of youngsters

who want their front teeth deformities corrected. They claim that youngsters are quick to notice deformities of performers on TV, particularly the chipped-teeth variety which appears on small-fry programs. Children "to-day feel such deformities divert attention from their talents.

The stock and equipment of Y & S Grocery & Market has been purchased by Stanley Doss, R. M. Yarbrough who has taken lease on the building, and the business is now being operated in the name of Doss Grocery Market.

Mr. Doss has been a resident of Lamb County for the past 23 years and has been in the grocery lines here during this time, the exception of the year he served the County as Justice of the Peace, and the time spent in the service.

Assisting Mr. Doss in the operation of the Grocery and Market are: Mrs. Doss, Leonard O. Checker, and J. W. Billie, Jr.

Mr. and Mrs. Doss are to all their friends and customers to visit them in the location for their grocery store.

Retail Selling Course To Open Here March 12

A retail selling institute designed for salespeople and management personnel in all fields of business here will open in Littlefield March 12 under the auspices of the Chamber of Commerce in cooperation with the Distributive Education program of Littlefield high school.

Shaped for adults in business fields, the course will be conducted by H. F. Johnson, retail training specialist on the staff of the University of Texas.

Anyone interested in the classes may enroll or obtain additional information at the Chamber of Commerce offices.

An enrollment fee of \$1.50 has been set for the selling courses and a fee of \$2 for the management courses. The courses are from 10 to 12 hours each and will extend over a period of approximately two weeks, CC Manager Bob Crowell said.

Rev. Schulte Back From Conference

Rev. C. Schulte, pastor of St. Martin Lutheran Church, returned from a two-day session of the Lubbock Pastoral Conference of the Texas District, American Lutheran Church, held at Wilson, Texas, Monday and Tuesday, February 19 and 20.

Pastor Schulte presented a paper to the conference entitled "The Pastor And His Community," which was much discussed and well received.

The Rev. L. D. Braun of Winters is chairman of the Conference and the Rev. D. Schorlemer of Amarillo is Secretary. The Rev. Carl Schulte is vice-president and chairman of the program committee.

About 15 pastors of the Lubbock Conference were in attendance. The conference covers an area including Amarillo in the North, San Angelo in the South, Wichita Falls in the East, and Littlefield in the West.

Sustains Injury To Arm Monday

Mrs. Bob Smith was admitted to the Payne-Shotwell Hospital Monday suffering from a broken right arm.

Mrs. Smith fell as she was going to the F. A. Jones funeral services.

A cast which was put on her arm Monday had to be taken off Wednesday due to swelling, causing her considerable pain.

ILL IN HOSPITAL

Donna Foster, 3 months old daughter of Mr. and Mrs. M. F. Foster of Lamesa, is very ill with whooping cough and pneumonia at the Payne-Shotwell Foundation.

The child was a patient several days last week, and was taken home but was re-admitted Sunday night, and has been very ill.

Hospital authorities reported Wednesday that the infant was slightly better.

The child is the granddaughter of Mrs. Farrell of this city.

George Durand of Clovis, father of Mrs. John Nail, was reported in much improved condition Wednesday following a heart attack at his home last Sunday. Mrs. Nail is in Clovis, where she hastened Sunday from San Antonio, where she and Mr. Nail were visiting.

Personal To Women With Nagging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and plain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Morton Indians Are Honored At Banquet Tuesday

The Quarterback club of Morton honored the Morton Indians football team with a banquet at 7:30 p.m. Tuesday at the High School cafeteria.

Frank Kimbrough, head coach at West Texas State College was the main speaker, bringing with him Bill Cross and Charley Wright, the top ground gainers of the nation in minor college statistics.

Fred Morrison, president of the Quarterback club, was in charge of the program, which featured the awarding of jackets to the 1950 Indian lettermen.

Coaches Herman Raphael, Hov Marcum and Bill Hartgraves shared the spotlight with the football players. Over 150 persons had been expected to attend.

Last Rites Held For Mrs. Holden

Last rites for Mrs. Grace Eleanor Holden, 81, who died at her home at 3106, 21st Street, Lubbock, about 2 p.m. Thursday, were conducted at 10 a.m. Saturday at the Nix Funeral Chapel, Lubbock, Rev. Burgin Watkins, Pastor of Forest Heights Methodist Church, officiating.

Mrs. Holden was a resident of Littlefield for a number of years and had a host of friends over this area.

She moved to Lubbock in 1945. Survivors include two sons, Dr. W. C. Holden, Museum Director at Tech College, Lubbock; and Tom C. Holden, also of Lubbock; one granddaughter, Jan Holden, of Lubbock, who previously attended Littlefield schools and one sister, Mrs. J. P. Turner of Littlefield.

Burial took place in the City of Lubbock Cemetery.

Mrs. Holden was always active in church work and while living here was a member of the Methodist Church.

ATTEND GIFT SHOW

Mr. and Mrs. Weldon Findley left Saturday for Dallas to attend the Gift Show. They were accompanied by his sister, Mrs. Lynn Kester.

THREE MORE MAKE 17— Mrs. J. S. Spencer, 38, wife of a tenant farmer, gave birth to triplets—two boys and a girl—in her Lamar County farm home. They make 17 children for the Spencer family. Sixteen children are living. The oldest is 21 and there is one set of eight-year-old twins. The triplets, left to right, are Linda Kay, Ronnie Floyd and Lonnie Boyd. Dr. C. L. Lunsford says the babies are in good physical condition. (AP Photo)

Last Rites

(Continued from Page one)
Between the States. Mr. Jones would have been 90 years old this fall. He had been in failing health some time.

Mr. Jones was converted early in life and united with the Baptist Church. He had been an active and faithful member of the First Baptist Church here until his health began to fail.

Music for the services was provided by Mr. and Mrs. L. W. Jordon of Plainview, long friends of the Jones family. Accompanied by Mrs. Johnny Edwards, they sang favorite hymns of Mr. Jones, "The Old Rugged Cross" and "Amazing Grace."

Burial was in the Littlefield Cemetery under the direction of the Hammons Funeral Home.

Married in 1889

Mr. Jones was married in Mississippi in 1889 to Miss Emma Snowden and the family first moved to Texas in 1913, settling in Bay City. After two years in the gulf area town Mr. Jones moved to Knox County, where the family resided 10 years before coming to Littlefield in 1925.

In addition to his wife, of the home on Park avenue, Mr. Jones is survived by three sons, Arthur, Otto and Travis Jones, all of Littlefield; three daughters, Mrs. Emma Lou Woods of Lubbock and Mrs. Ona Cagle and Mrs. Nona Manley of Long Beach, Calif.; fifteen grandchildren and four great-grandchildren and several nephews and nieces.

Active pallbearers were Sam Hinson, Bob Armstrong, Arnold Purzell, Walker Boren, Herbert Dunn and Alvis Mann.

Honorary pallbearers included Rr. C. E. Payne, Gss. Shaw, Jimmie Brittain, Bob Smith, C. O. Griffin, Lon Campbell, Art Chesher, E. J. Foust, Eldon Nichols and W. C. Warren.

City Election

(Continued on Page Four)
The present commission members were drafted for the jobs in the last election, their names being placed on the ballots through petitions circulated by interested voters.

An announcement of candidacy for any of the three posts must be made by March 3, City Secretary W. G. Street said Wednesday. The commission places are non-salaried posts and the only allowances made members are fees of \$5 for each regular meeting and \$3 for each called meeting.

The city commission appoints the various city department heads and they in turn select their own personnel, Mr. Street said.

Teachers

(Continued from Page one)

Plans for the public session of the county teachers include a guest speaker and several musical numbers from each school in the county, he said.

It is expected the interesting program being arranged for the meeting will attract a capacity audience of teachers and citizens of the county.

The meeting is a feature of the observance here of Public School Week, in which the vital part played in American life by its public schools will be stressed.

Plans for the observance of the week in Lamb County have been under the leadership of J. Ernest Jones, county superintendent, and Joe Hutchinson, Littlefield superintendent of schools.

epilepsy are usually more difficult to distinguish from less serious types of unconsciousness.

Many tests are available to add to the information your doctor gains from questioning you about a faint or lapse from consciousness. One of the newest tests, which is a tremendous step in helping to locate the site of difficulty in the brain, is made with the electro-encephalograph.

which a cap fits over the head and charts a graph of the electric activity of the brain.

Seven From Lamb

(Continued from page One)

imately every ten days has cut down on the number being sent from the Littlefield offices, Sgt. G. T. Gutshall, in charge, said Wednesday.

Leaving here Wednesday for Army service were Donald A. Hodges, Route 2, Littlefield, and Marcos Garza Jr. of Littlefield. John M. Hodges Jr. of Olton left Tuesday and Donald C. Waxler, son of Mr. and Mrs. George E. Wexler of 62 East Eight street, Littlefield, left Feb. 8. All were slated for 14-weeks basic training at Fort Sill, Oklahoma.

Kenneth Pharris, son of Paul Pharris of Littlefield, left for Air Force duty Wednesday; Ronald Timlan, son of Mr. and Mrs. H. M. Timlan of 506 East Seventh street, left Saturday and Charles Askew, of 412 West First Street, Littlefield, left Friday. All were to be stationed at Lackland Air Force Base in San Antonio for basic training.

zations—Harry Crowley of the Legion and Odell Matthews of the Vets—at the door with Mrs. Vernon Hofacket of the Legion Auxiliary to greet visitors.

The Legion, the Auxiliary and the VFW have planned to surprise the newly married couple with separate gifts. Other close friends of the couple may add to the collection.

Program is Planned
The Legion Auxiliary has arranged a program of entertainment for the evening, but that, too, is to be somewhat in the nature of a surprise. Refreshments will be served callers.

Bill Street is chairman of a special committee in charge of Objective: Housewarming for the Littlefield VFW.

Among the guests who are expected is Manager Sisson of the Lubbock office of the Veterans Administration. Pink's new home was built under provisions of the GI bill with VA supervision.

Pink was resting up today for tonight's party. He doesn't want to tire before he has had an opportunity to greet all his friends in this area and welcome them to his new home.

Ten Percent

(Continued from Page 1)

titude in the matter," he said, "and I have little doubt that when the commission meets that in view of the small amount of the increase asked in only two classifications of service the request will be given favorable consideration."

In his letter, Mr. Shelby pointed out that the rate of return to the company in 1950 was 6.17 per cent and that the estimated return for 1951 even under the proposed new rates would be only 5.60 per cent.

Cost Rise is Cited
"As a result of increases in prices of new machinery and other facilities which we are constantly installing to keep ahead of electrical service requirements in this area and also increases in taxes and in the cost of labor and materials necessary to operate our system," Mr. Shelby's letter stated, "we are asking you to allow us to increase our rates to residences and commercial establishments by 10 per cent."
We are increasing industrial power rates by this amount or more as contracts expire."

C. C. Directors

(Continued from page One)

plans for area work. Harry Kline, banquet general chairman reported 293 persons were served at the recent dinner at the Littlefield Country Club. County Agent Dave Eason was a guest.

Attending the directors meeting were David Keithly, president; Nelson Naylor, vice-president; Bob Crowell, manager; Dr. B. W. Armistead C. O. Griffin, Allen Hodges, Harry Kline, W. C. Cannon, Skipper Smith, Ernest Connell, F. L. Newton, Boyd Roberts and U. D. Walker.

Red Cross

(Continued from page One)

gave a report on the home nursing classes in the county.

A film, "Disaster Town," was shown.

A feature of the meeting was the presentation to Mrs. Lindley of a Red Cross disaster nurse badge. The Payne-Shotwell superintendent is the only Red Cross disaster nurse in the county.

In the Earth-Springlake district joint chairmen were named for the community. In Springlake V. T. Tanner will head the drive and in Earth the chairman will be the Rev. Carl McMaster, assisted by Schools Supt. Leo Duffy and Ted Boren.

Mr. Duffy announced collections in the Earth schools would be divided between the two communities.

**Attend Funeral
 Of Cattleman
 At Big Spring**

Pat Boone received a telegram Monday morning to the effect that Norman Reed of Big Spring had passed away in his sleep early Monday morning.

Mr. Reed, who was 52 years old at his death, and a prominent cattleman of that section, was Past Grand Patron of the Order of Eastern Star of Texas.

Mr. and Mrs. Boone attended the funeral services, which were held Tuesday afternoon at the First Baptist Church of Big Spring, with burial in the local cemetery.

Noted Baritone

(Continued From Page 1)

(Friday) night in the second of the series of concerts offered by the Lamb County Concert Association.

Mr. Farrow has won wide acclaim wherever he has appeared because of the fine quality of his voice and the pleasing program he presents.

Admission is by concert association membership ticket only.

Lamb --H

Naylor were Harry Kline, Dr. C. C. Nance, David Eaton, Bill Rodgers David Keithley and Bob Crowell.

The purpose of the show is to encourage the feeding for commercial purposes of livestock in this area, to utilize the grains grown here that are now being shipped out of the country.

Nurse Tells How Hadacol Was So Helpful To Her

Supplied Vitamins B₁, B₂, Iron and Niacin Which Her System Lacked

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins B₁, B₂, Niacin and Iron which HADACOL contains.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy."

Why HADACOL Gives Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B₁, B₂, Niacin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B₁, B₂, Iron, and Niacin but also helpful amounts of important Calcium and Phosphorus.

—elements so vital to help maintain good health and physical fitness.

Why These Vitamins and Minerals Come In Liquid Form

There's a very good reason why HADACOL comes in special liquid form. These precious Vitamins and Minerals are more easily and quickly absorbed into the blood stream this way—ready to go right to work. A big improvement is often noticed within a few days.

Don't Be A 'Doubting Thomas'

After reading Mrs. Adele's wonderful experience with HADACOL—how can you doubt that this great new nutritional formula will help you if your system lacks Vitamins B₁, B₂, Iron, and Niacin?

What HADACOL did for Mrs. Adele, it can do for you if you're troubled with aches and pains in the shoulders, legs, and arms, certain nervous disturbances, insomnia when due to an upset stomach, stomach distress and a general run-down weakened condition due to such deficiencies.

So what are you waiting for? Don't you see that HADACOL is the kind of product you need—the kind you should buy and the kind you should start taking immediately!

Sold On A Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin content of your blood (when Iron is needed) to course through your body, carrying these great health-building elements to every body organ. No wonder HADACOL helps you feel wonderful.

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around—a burden to yourself and your family—when relief may be as close at hand as your nearest drugstore if you suffer a deficiency of Vitamins B₁, B₂, Niacin and Iron. This great HADACOL is inexpensive, too—costs only a small amount a day. Trial size, only \$1.25. Large family or hospital size, \$3.50. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana. © 1950 The LeBlanc Corporation.

LYMAN'S

RECIPE OF THE WEEK
By Mary Lee Taylor

Easy Fish Chowder
Broadcast: February 24, 1951

1 can condensed cream of mushroom soup
1 1/2 cups Pet Milk
1 cup water
1/2 teaspoon salt

few grains pepper
1 1/2 cups canned salmon or tuna
4 teaspoons finely cut parsley

Mix soup, milk, water, salt and pepper in saucepan. Add salmon or tuna, broken in pieces. Cook over low heat until steaming hot; but do not boil. Stir often. Sprinkle each serving with parsley. Serve hot. Makes 4 servings.

You Will Need:
Pet Milk, Condensed Cream of Mushroom Soup, Canned Salmon or Tuna, Parsley.

Notice To Subscribers

The Lubbock Avalanche has advised this newspaper that as of March 1 subscription prices will be increased, as follows: Effective March 1, the price for the Lubbock Morning Avalanche with the Sunday will be \$12.95 per year. The monthly price will remain the same except for six months which will be \$7.50. The Lubbock Morning Avalanche without Sunday will be \$11.00 per year with no change in the price for 1 month and 3 months. The price for six months will be \$6.00. The Lubbock Evening Journal with Sunday will be \$11.00 a year with the monthly rate the same. Six months will be \$6.00 instead of \$5.00. The Lubbock Evening Journal without Sunday will be \$9.25 per year with the monthly rate the same. Six months will be \$5.10 instead of \$4.50. You are invited now to renew your Avalanche or Journal with a combination rate for the Leader.

Heart Study Needs Great Heart Study

This week on the program for research progress in Littlefield, Texas, Dr. F. B. Faust is in aid of cardiovascular research.

Dr. Faust discussed the most serious cause of this disease is the hardening of the arteries. This has been the case for the past several years. It has been shown that the deposits of cholesterol in the arteries is a chemical process which is burning up and destroying the arteries.

Dr. Faust was the speaker at a lecture given by the American Heart Association at the University of Texas at Dallas. He described his new test for cholesterol in the blood. This test is a simple and accurate method which appears to be the most promising of the new types of tests.

The American Heart Association is sponsoring research in the heart and blood vessels. The national office will be interested in research in cardiovascular disease. The Association is continuing its program of research within the field of cardiovascular disease. The program provides for the career investigation of fellows, and for research supported by the Research Council of the Association.

Plug-In Light New Auto Idea

A portable spotlight, that plugs into the automobile cigarette lighter (arrow, lower right) and furnishes brilliant illumination, is introduced by Chevrolet in its 1951 accessory line. Demonstrated here by Marjorie Zupner, the chrome-plated light comes with enough wire for use all around the car as a trouble lamp, or as a spotlight from inside the car.

Dr. Faust is developing additional intellectual centers for cardiovascular research over the country as a whole will be considered. The program of the American Heart Association provides the essentials for a national public health campaign for the "Heart of America". Medical science cannot do the job alone. The success of the program depends on financial support by the public. It is only recently that the heart disease fight has gotten on a major national scale. However, if the efforts against heart disease are to be comparable with those made against other serious diseases, citizens throughout the nation must be aroused to the full magnitude of the problem. Only the informed and responsive citizenry can assure hopeful and effective action.

County Red Cross Annual Report Cites Work Here

The annual report compiled by Mrs. Lyle Brandon, executive secretary for the Lamb County Red Cross, now issued, cites the work done by the organization both in Lamb county and in aid of the national Red Cross.

The report points out the following salient accomplishments: Total number of cases handled by chapter during 1950 were 760. One hundred and fifty-eight were service men; 489 were veterans, and 121 civilians. Financial assistance was given on 191 cases. Nineteen were service men, 89 were veterans and 83 civilians. A Home Nursing Instructors school was held in the Amherst hotel on November 8, Lamb county women were trained for instructors. Five Home Nursing classes have been taught in the county, and 35 certificates awarded. A class for colored women is now in progress. One swimming class was conducted by Jackie Shelby at the Littlefield swimming pool. Eleven certificates were awarded. Sid White of Amherst was sent to Red Cross Aquatic school at Denton College, and trained in Water Safety and Life Saving as instructor.

Total amount of money raised in March, 1950, campaign was \$6,658.66. Total amount sent to National was \$2,100.83. Total expenditures for 1950: \$1,978.66 financial assistance; \$737.96 Western Union, telephone, mileage, postage, etc.; \$88.27 Home Nursing; \$49.15 Water Safety and First Aid; \$1,554.00 salaries; \$57.15 office supplies, and \$14.15 fund campaign.

RELIEF AT LAST For Your COUGH

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back. **CREOMULSION** for Coughs, Chest Colds, Bronchitis

Glass Is Slated For Many New Uses Director of Research Reports

TOLEDO, OHIO—(AP)—Glass may be used to replace many metals which are being restricted for the current mobilization program, says Dr. George B. Watkins, director of research for Libbey-Owens-Ford Glass Co. In World War II, Glass was used successfully as a substitute for aluminum. For example, the

Federal Communications Communications Commission used it as backing on records for its recordings file. Glass evaporator plates in air conditioning equipment replaced steel plates. One kind of glass today eliminates the need for almost all metal framing and cross-pieces on store doors.

Orange and Semi-Sweet Chocolate Make Novel Flavor Combination

Newest of dessert treats combine the flavors of fresh orange and semi-sweet chocolate. A delightful way to enjoy this flavor harmony is in a home-made orange cake that can be iced with a delicious chocolate frosting made with semi-sweet chocolate morsels, or the cake can be topped with ice cream and sauced with chocolate. Also included is a simple Chocolate Duet recipe that makes either frosting or sauce, depending on the amount of milk added.

Orange Cake
3 cups sifted cake flour
3 teaspoons baking powder
1/2 teaspoon salt
3/4 cup shortening
1 cup sugar
3 eggs
1/4 cup orange marmalade
2 tablespoons grated orange rind
1 cup orange juice

Sift flour with baking powder and salt. Cream shortening, add sugar gradually, blending together until light and fluffy. Add eggs one at a time, beating well after each addition. Stir in marmalade and orange rind. Add flour alternately with orange juice, mixing well, ending with flour. Turn batter into well greased pan (10"x15"x3 1/4"). Bake in a moderate oven (350° F.) 30 minutes. Cut cake into squares, top with slice of ice cream, and serve with chocolate sauce, or frost cake with chocolate frosting. If desired, top with whole or chopped nuts. YIELD: 24 squares.

Chocolate Duet (Frosting or Sauce)
1 package semi-sweet chocolate
2 tablespoons butter or margarine
1 cup sifted confectioners' sugar
3 to 4 tablespoons hot milk, for frosting
1/2 cup hot milk, for sauce
1 teaspoon vanilla

In top of double boiler put semi-sweet chocolate and butter. Heat until melted and mix until smooth. Remove from heat. For frosting add milk and sugar alternately, adding enough milk to make a spreadable consistency. For sauce: D: Frosting for top of 10x10 inch cake, or 1/2 cups chocolate sauce.

Governor Approves the 'Texas Star'

Governor Allan Shivers says "Yes" with a smile to Lee Bedford, Sr., of Dallas, right, to attend the Square Dance Festival to be held March 23-24 at Dallas. Bedford is chairman of the Festival from which all proceeds go to charity.

Aberdeen Angus Breeders Plan To Organize West Texas Cattle Association

Interest in formation of an Aberdeen-Angus breeders association in West Texas will be tested at a meeting in Lubbock next Saturday, said K. L. Riggs, Lubbock. Riggs is an insurance man and Aberdeen-Angus breeder whose herd is in Hale county.

The meeting will begin at 11 a.m. in the Lubbock hotel dining room. Lunch will be served.

Jess Alford, of Paris, president of the Aberdeen-Angus Breeders Association of Texas, will attend, as will Milt Miller, national association fieldman from Brady.

"Breeders from all over West Texas have shown considerable interest in formation of an association," Riggs said.

Dates for a field day this summer will be set at the meeting. Riggs said the field day will be similar to that held last year at Texas Tech. The Aberdeen-Angus breeders expect to hold a field day and sponsor a registered and commercial cattle sale in 1952, Riggs said.

The South Plains region is located in zone 2 of the state association. Art Chesher of Littlefield is zone chairman of zone 1, which includes the Panhandle. W. L. Stangel, dean of agriculture at Texas Tech, is a director of the state association.

Nine Students Enroll In West Texas State

Canyon—Nine students of the Littlefield area are enrolled at West Texas State College for the spring semester. Of this number,

IT'S OFFICIAL!
Here is the official portrait of the 1951 Maid of Cotton, pretty Jeannine Holland, of Houston, Texas. The brown-eyed, brunette Maid is 21 years old and was a senior at Texas State College for Women before she was chosen King Cotton's 1951 fashion and goodwill ambassador. Maid Jeannine is making a 64,000 mile trans-continental tour, visiting more than 40 cities in the United States, Europe, and Latin America as the cotton industry's emissary.

six students are from Littlefield and three are from Amherst.

Littlefield students include Margaret Brotherton, Delphine Covington, Barbara Dunn and Elouise Gray, freshmen; Tommie Matthews, sophomore; and Betty Sue Brotherton, junior.

Amherst students are Birgean Fields, freshman; and Alton L. Goodin and William F. Taylor, junior, seniors.

Earth, Springlake March of Dimes Nets \$689 Total

Earth and Springlake Dimes campaign netted a total of \$689.00, according to the Town and Country Study club president, Mrs. Herman Haberer, which is below the quota of \$800.00 set for the area. However, the club, sponsor of the drive, wishes to express thanks to each person who donated to the polio fund and to the Lion's club for their unceasing assistance.

A special "thank you" goes to the Earth Cafe, Star Cafe, Mann's Bread Co., and Baldrige Bakery for generous donations.

Springlake raised \$351.00 of the above amount from an auction sale last Saturday afternoon when Judge Otha Dent gave an address concerning the March of Dimes campaign. Frank Bozeman was the auctioneer and Floyd Crawford acted as clerk.

The Circle Home Demonstration club brought a beautiful quilt to the auction.

Hubert Dykes Is Employed by Soil Conservation Board

Hubert Dykes of Sudan has been employed by the Lamb County Soil Conservation District board to operate the new motor grader which was purchased recently from bids secured in December of last year.

The new grader will be ready for use as soon as minor adjustments are made. A half ton pickup has been ordered by the board to be used in connection with the operation and servicing of district machinery.

TEXAS TECH COACH—Dewitt Weaver (above) is the new head football coach and athletic director at Texas Tech in Lubbock. He succeeds Del Morgan. Weaver is a former Tennessee football star and ex-line coach at the University of Tulsa. (AP Photo)

Attend Frigidaire Meeting Monday

Cal Harvey and Robert Bridges of Cal Harvey Appliances attended the all day meeting Monday at the Hilton Hotel, Lubbock, of the Frigidaire Corporation, which was attended by a large number of the Frigidaire dealers of the South Plains, Panhandle and Eastern New Mexico.

The new 1951 Model Frigidaire was also displayed, and the special features explained.

Foursquare Church Revival Service To Be Held Here

Revival services are to begin this week at the Littlefield Foursquare Gospel church, 715 South Phelps avenue. The services start at 7:30 o'clock.

The revival will be conducted by Mrs. Mary Edwards and Mrs. Sandeman, widely known evangelists.

They recently closed a revival at Lubbock in which near 40 were converted and many sick bodies were healed. Also a deaf mute received hearing. All are invited to come and hear and see God work.

Baptist Training Zone Meeting Sunday Afternoon

The Baptist Training Union Zone meeting will be held Sunday afternoon with the Spade Baptist Church.

This meeting will open at 3 o'clock.

All Training Union Workers are urged to attend. The local First Baptist Church will have a portion of the program.

Initiation Is Held At Local Chapter Meeting Thursday

The local Chapter of Eastern Star met in regular session Thursday night at the masonic hall with Mrs. Marye Sales, Worthy Matron, Mrs. Dan Pickett of Fieldton presiding.

PRIZE WINNER—This Owen English of the Tex. Gazette, titled "The Heart of a Texan" the winning spot and winner of the in the annual photo

to contest of the Texas Associated Press Managing Editors Association. The picture shows a Marine reservist weeping as he departed by train with his unit for active duty last summer. (AP Photo)

by today has three of surviving at ad, even in 1915, every 1,000 babies

died in their first year. Today, the rate is less than 30 per 1,000. Dr. Gambrell points out that the same situation prevails with the mother. Where, as recently as 1933, 6.2 mothers died for every 1,000 births, the rate today is less than 1 per 1,000.

Looking at medicine's contribution another way during the last half-century, Dr. Gambrell points out that in 1900 the average worker lost 28 days per year due to illness. Today, he loses less than eight days.

Diphtheria is virtually eliminated as a fatal disease. In 1900, 40.3 deaths occurred per 100,000 people, and forty years later, the rate has been slashed to only 1.1 per 100,000. An interesting sidelight on American control of diphtheria is that it is a disease about which all countries have the same knowledge. Pointing up this nation's progress is the fact that, armed with the same information as this country, English and German medicine, at the last comparable set of figures, still had a death rate roughly triple that in America from diphtheria.

Typhoid, in 1900, accounted for 21.1 deaths per 100,000, and forty years later, was rendered rarely fatal, with a death rate down to 1.1 per 100,000. Even the great killer, tuberculosis, has been practically conquered, with a 1900 death rate being reduced from 191.4 to 45.9 per 100,000 in 1940.

Dr. Gambrell flatly declares that imposing compulsory health insurance on Texans would reverse the remarkable contributions made in the last fifty years. In the first 18 months of the British experiment, the death rate in England went up rather sharply. In the first quarter of the program's operation in England and Wales in 1948, 93 out of every 10,000 people died, compared to 89 in the same quarter the preceding year. In the fourth quarter of the same year, the figure was 115 as against 111 per 10,000 in the previous comparable period.

COWS, 34, DIES—AUCKLAND, New Zealand —(AP)— Barbara, New Zealand's oldest cow, died recently of a broken leg suffered in a fall. She was 34 years old, and the mother of 29 calves.

Water Recharging Work

Many thoughtful and far-sighted residents of Lubbock and the South Plains doubtless have long recognized that the time would come when attempts would be made to reclaim the large areas of valuable land in the "wet weather lake" basins which dot the entire region above the Caprock.

The prospects appear most encouraging that a project soon will materialize under the leadership of the City of Lubbock and Texas Technological college which well seek the reclamation of lands and methods of returning lake waters to nature's underground reservoirs.

The success of either undertaking would be enormously valuable. But the most valuable in its potentialities would be the development of some practical method or recharging the underground strata with water which accumulates in the wet weather lakes.

Most of the moisture which falls above the Caprock drains into these basins, remaining there until it is evaporated. Enormous quantities of precious water now are allowed to go to waste. If some method can be discovered of returning this water underground, the danger of the serious depletion of these supplies would be eased considerably.

Scattered attempts have been made to recharge the underground strata from lake areas. But they have been made on a hit-or-miss basis by individ-

uals who have lacked facilities and scientific knowledge to conduct them. The usual experiment has consisted of drilling a hole in the middle of a lake basin. The usual experience has been the filling of the hole with silt after the first heavy rain.

It remains to be demonstrated conclusively whether recharging is practical. We can't think of any agency which is in better position to find the answer to the question of whether it can or cannot be done than Texas Tech. The college has the knowledge, the equipment and the intensity of interest to conduct the experiments scientifically and systematically, and to evaluate and benefit from whatever results the investigations might produce. No such investigation into the possibilities of recharging ever had been made above the Caprock.

It already is late to begin experiments of this kind. Fortunately, there is no reason that it is too late. And it is most fitting that the City of Lubbock and Texas Tech should be willing to take the lead in undertakings which could prove of inestimable value, not alone to this region, but to those large areas of the nation and the world which are alarmed because of declining underground water tables. The recharging experiment, in particular, could bring world-wide recognition to Texas Tech as one of the great scientific institutions of the nation.—Lubbock Avalanche.

Texas Out of Step

One of the things that modern knowledge, replacing superstitious fear, has taught us in that, there is a wide difference between mental illness and criminality. Yet Texas, alone among the states of the Union, still assumes the medieval attitude toward those afflicted with mental illness and subjects them to the same treatment as criminals.

Although the state maintains hospitals for the treatment of mental patients, no person may be admitted to them, except on a temporary basis, until he has undergone arrest, confinement, trial and conviction on a charge of lunacy. In other states the determination of insanity is made by physicians competent to pass on such matters. In Texas it is done by a jury composed of laymen who may have no qualifications whatever for diagnosing mental illness. What chance of recovery the patient might have may be jeopardized greatly by the ordeal he has to endure before he is given the opportunity for treatment.

The Senate at Austin has voted to submit to the people of Texas a constitutional amendment which would authorize the commitment of mental patients

to state hospitals without jury trial. The amendment now goes to the House, where it should receive prompt and favorable action. The people of Texas voted in 1935 to permit commitment of mental patients without jury trial for 90 days of observation and treatment. If such a provision is good on a temporary basis, it should be equally desirable for patients who need more extended care and treatment. The result in the increased number of cures effected, could be a substantial saving to the taxpayers in operation of the facilities they must provide for such cases.

Two years ago the voters turned down a similar opportunity to change their archaic method of handling the commitment of mental patients. Senator Vick of Waco, sponsor of the new amendment, lays the 1949 defeat to the fact that the proposal was linked with other controversial constitutional changes submitted at the same time. With several other proposed amendments now pending in the Legislature, a question we would like to ask is how the lawmakers are going to assure that the same thing will not happen again.—Fort Worth Star Telegram

BULL LAKE PHILOSOPHER OFFERS LITTLE HELP TO LEGISLATURE IN ITS SEARCH FOR NEW TAX SOURCES

Editor's note: The Philosophy on his Johnson grass farm on Bull Lake seems to be talking about taxes this week if we understand his letter, which we aren't always sure we do.

Dear editor:

I borrowed a copy of a newspaper off the front of my neighbor's car's radiator, which he'd put I guess to protect it during the freeze some time ago. Some newspapers are fine for keeping out the cold, others for keeping out ideas. Like-wise they're good for keeping out the heat in the summer time, protect your face from gnats when you're taking a nap, fine for putting on a tractor seat to keep it from getting too hot when you go to the house for a drink of water in the middle of July, what I like about a newspaper is it's a year-round article, good in any season, can't say the same for the radio, ever hear of anybody tryin' to protect a radiator with one? Be the worst mess you ever saw.

At any rate, I figured the freeze was over and took the paper and went home and after helpin' my wife with the dishes, figured a gentleman ought to do this every once in a while, just to experience the let-up in naggin', didn't work, she kept right on, and sat down and read where the Texas Legislature is eying the state closely huntin' for new tax sources.

The people's demandin' more spendin' and more economy simultaneously can be handled satisfactorily durin' the campaign, but when the Legislature gets in session and the facts stare em in the face, the tax hunt gets under-

Health Talks

BY STATE MEDICAL ASSN.

Sudden blackouts, faints or any brand of unconsciousness will usually scare the daylight out of you, send you seeking medical advice as to what in the world is causing it. Actually, sleep itself is a form of unconsciousness but is probably the only brand that is sought after or welcome.

Even sleep may have its bad points, however. Involuntary sleep or excessive sleep leave the welcome realm, joining up with that way.

Now understand, I'm in favor of doin' what's necessary, everybody's in favor of economy and good roads too and if it takes more taxes to accomplish it, it's all right with me, but in the interest of savin' the state some travel expense money, I would like to let the Legislature know there ain't no use extendin' its hunt for new tax sources out to my farm out here at Bull Lake. I have already looked high and low and there ain't a possible spot you could extract another penny from. The place has not only been taxed to death, but I've taken all the remainin' cash out of it myself for my own use, me and erston together. Tryin' to get more taxes out of this place out here would be about like tryin' to get vitamins out of a bale of my Johnson grass hay. Can't be done. I got cows to prove it.

Yours faithfully,
J. A.

other undesirable phase of sleep or lack of it, insomnia.

Fainting is probably the most common form of lapse from consciousness, a form that most people experience at one time or another. The common faint may be brought on by emotional impact such as bad news or pain; it may result from standing in a strained position for a long time especially in a hot and stuffy atmosphere; or it may naturally follow a long illness, particularly one with high fevers. Those are the more obvious causes, but when fainting attacks appear and recur without any such obvious reasons, they are likely to cause more alarm and apprehension.

Several Causes For Fainting

Since blood works uphill to get to the head, anything that may interfere with the pressure pushing the blood to the top of the body may result in a faint; a faint is considered to result normally from lack of blood reaching and circulating in the brain. When the fainter is laid with his head level with his heart, the blood returns to the head and he regains consciousness under normal circumstances. But he may stay weak and woozy for some time after the faint and should not try to get back up on his feet again until all feeling of nausea or all sweating has stopped because if he does he might faint again.

When your doctor starts find- especially if it happens often, he asks all kinds of questions that will paint for him the exact picture of your passing out. He may start out by asking how long after you had eaten that you fainted and what you ate or drank at the last meal or snack. He might even enquire what you were wearing, in detail, since tight collars, belts or binding clothes of any kind may have some significance under certain circumstances. Whether you were alone or at a party or

with a group of friends, whether you were just standing around or exercising such as dancing or playing ball, whether you were indoors or out, whether you were calm or excited—anything that contributes to the exactness of the situation preceding the faint may give him definite information as to the cause.

Warning Usually Given

Most people know when they are going to faint; there are symptoms of blurred vision, perhaps, or belching, yawning, sweating and such that will usually cause the person to remark, "Oh I'm going to faint" at just about the moment he crumples to the floor. How you knew you were going to faint or whether you didn't know are also important in discovering the cause.

The questions that may be asked for fainting would generally apply to any form of unconsciousness. Any jerky movements of the body during the faint would probably depend upon an eye-witness to the disturbance, of course, but may be of vital importance. The length of time before consciousness is restored and any aftermath such as headache or sleepiness may lead to information which would take the lapse of consciousness from the class of common faint into something more serious.

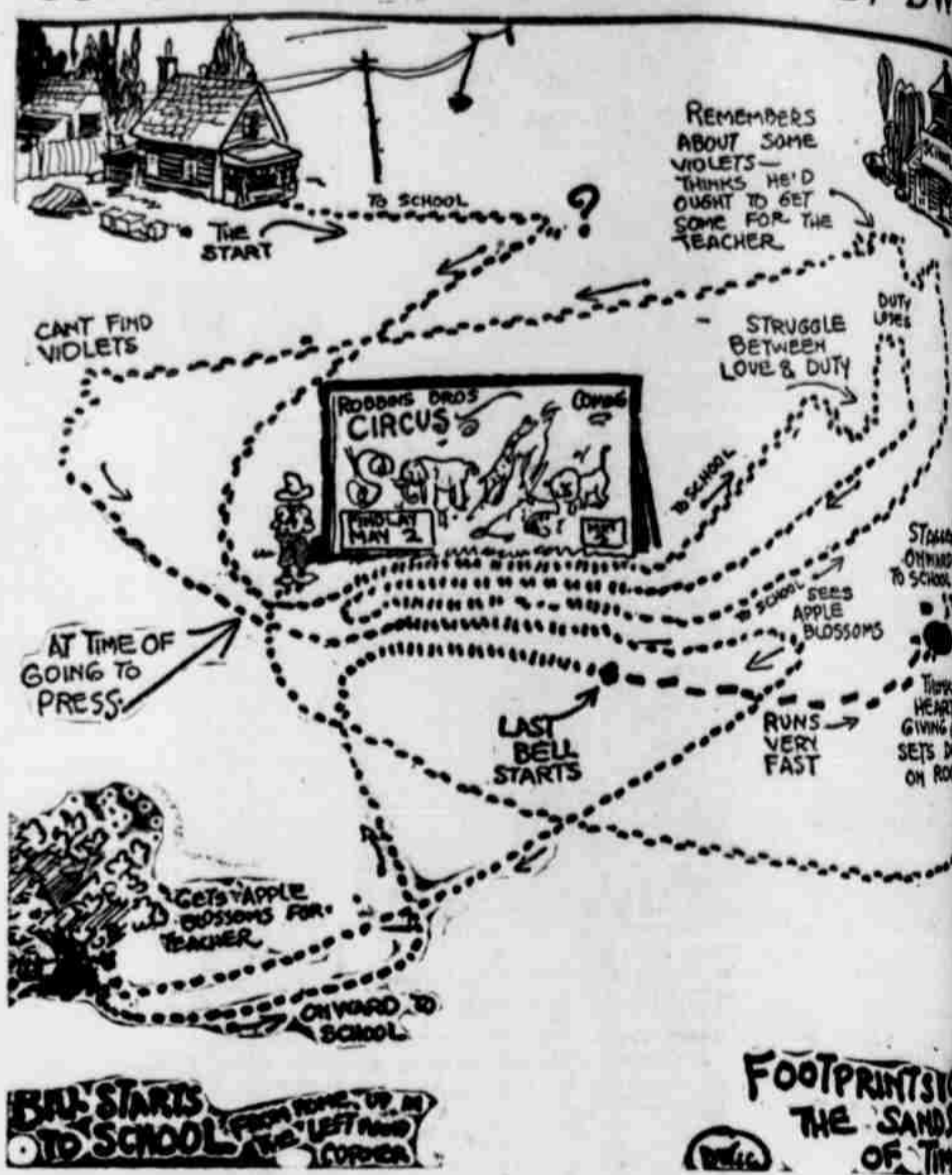

Causes Arise From Brain

Blows on the head, infections and tumors of the brain can cause unconsciousness, as well as drugs, poisons, alcoholic drinks, exposure to high altitudes, insulin shock, hysteria and petit mal, a form of epilepsy.

The states of consciousness and unconsciousness arise in the brain. Any repeated change from normal (Continued on Back Page)

Sleeping on the Job Pays Off Here

Hard at work testing electric blankets at the General Electric plant, Frances Greene is too busy even to take time for lunch.

BRIDGEPORT, CONN. — Believe it or not there are people in this world who get paid for sleeping on the company's time. What's more the company knows who they are and invites them to do it.

Not only are some workers at the General Electric plant here encouraged to lie down on the job, but they are conducted to a comfortable bed in an air conditioned room and told to go to sleep.

The welfare state has not achieved blanket coverage overnight nor has the G-E management been taken into custody by white-coated attendants with soothing voices. The people who do the sleeping on the company's time are actually testing automatic electric blankets. The best way to try out new developments in electric bed coverings is to try them out on actual sleepers.

Volunteers from the G-E sleep laboratory and office of the automatic blanket division have made hundreds of tests in response to earnest invitations from R. E. Sambleson, chief engineer, to sleep on the job.

"We never have a shortage of volunteers," Sambleson reports with a straight face. "although many people find the work difficult at first."

It seems that these poor people become self-conscious in the laboratory and are unable to relax and sleep knowing they are under scrutiny. After eight hours of struggle with insomnia they come home from work exhausted and

have to go right to bed.

Tests are made day and night under every possible combination of bedroom temperatures and outside atmospheric conditions in order to measure the blanket's automatic adjustment to keep the sleeper at a desired warmth.

When the tester has reported for work, he or she dons comfortable night clothes—pyjamas or nightgowns are optional—and goes to bed. Thermocouples, which measure body temperature, are attached to sixteen places on the sleeper's body with adhesive tape. The tester's temperature, together with wattage, voltage and current reading of the blanket, are recorded on the continuous graph of a machine called an automatic multi-point temperature recorder. That's all there is to it—unless the tester turns in an unsatisfactory performance by staying alert and wideawake on the job.

The only shortage on the roster of volunteers for sleep tests is in the husband and wife category. Married teams are necessary to test the double bed, two-control blanket for couples who agree to disagree on proper sleeping temperatures.

Asked if there were any spot in his laboratory for people who have a proven capacity for sleeping on the job but who have never found the proper encouragement for their talent, Sambleson declared that his volunteer roster was more than adequate.

Just one more proof that all the best occupations are overcrowded.

O. L. Shannon To Head Sudan C of C Noted Columnist Speaks in Earth Thursday Night

O. L. Shannon, one of Sudan's most outstanding citizens, will head the Sudan Chamber of Commerce for the year 1951. Shannon was elected unanimously at the recent annual meeting of the Chamber in the De Lux Cafe. He succeeds Bill Lyle, vice president of the First National Bank who has served as president during the past year.

Wayne Brown, prominent Sudan Impment dealer was selected to serve a second term as vice-president of the organization. Preston Hawks, publisher of the Sudan Beacon was named to serve as Secretary of the organization, succeeding Harold Close, Sudan druggist, who has served capably in that capacity for the past two years.

The meeting was opened with Secretary Close reading recent correspondence addressed to the Chamber. A resume of activities during 1950 was also discussed.

Noted Columnist Speaks in Earth Thursday Night

An unusual treat is in store for the citizens of the Earth-Springs area in the appearance of Wes Izzard of Amarillo, noted columnist and commentator, as speaker at the First Methodist church, Earth on the evening of February 22, at 8:30 p.m.

Mr. Izzard is noted for his originality in speech and foreseeing world situations such as we are confronted with today. Sponsoring the occasion is the Town and Country Study Club, Earth of which the Lions club will be guest at a banquet held prior to the address.

Social Security Expert To Be Here February 28

John G. Hutton, Manager from the Lubbock Social Security Office will be at the Post Office in Littlefield at 1:30 on Wednesday, February 28 to assist persons who wish to file claims for survivors or retirement benefits and to assist in furnishing information about the new Social Security law.

The expanded, more liberal social security law became effective September 1st. A wage earner living on and after the effective date of the amendments can qualify under the more liberal provisions of the new law.

Last Rites Held For W. T. Rice

Funeral services for William Tillman Rice, age 75, were held in the Sudan First Baptist Church Sunday, Feb. 11 at 3 p.m. with Rev. Wayne Perry and Rev. Ben D. Johnson, of Lubbock, officiating.

Mr. Rice, the father of W. L. Rice, of Sndan, was born in Montgomery, Alabama, but had spent most of his life in Quanah, Texas. He had been living with his son here for the past few months.

so plan now to get yours early. This will be a play you'll regret to miss.

He died at the Amherst hospital Friday, Feb. 9 at 4 p.m.

Other survivors include a son, C. O. Rice of Lubbock, and seven grandchildren.

Persons attending the funeral were from Muleshoe, Childress, Quanah, and Fresno, California, and Sudan.

Pall bearers included Ted Walker, Homer Morris, Don Yeary of Sudan and William Lambert, Rufus Gilbreath and Harold Sneed of Muleshoe.

Flower girls were the Misses Dorothy McCarty, Donna Robinson, Louise Maxfield and Barbara Preston.

Interment was made in the Sudan cemetery.

Reddy Writes a Letter...

Reddy's letter went to your mayor and the governing body of your community to tell these officials, who are in charge of Reddy's rates—his wages, so to speak, why he needs a raise in those rates or wages.

Reddy told them that the costs of the equipment necessary to provide you with dependable electric service have gone up and up in the last few years, and that they've reached the point now where his wages must be raised a little to help him meet these increased costs.

Another part of Reddy's letter told them about the expansion program that Reddy has had underway for about seven years. Because of this expansion program, Reddy has spent more money during several years to improve his service to you than he has taken in for his services. To keep this expansion program going, Reddy has had to borrow money from folks all over the country, from insurance companies, fraternal organizations, savings and loan societies, and just plain folks, butchers, bakers, teachers, the 11,000 individuals who are stockholders in this company.

Now, borrowing money is like working, in one sense. When you take a job, you determine with your employer how much you'll work for, and you want to be sure that his business will earn enough to pay you. Reddy goes through pretty much the same process when he has to go out and borrow money. He has to pay interest on the money he borrows—and interest is really a form of wages. And when he goes to borrow money to improve your

service—to bring "new" money into our part of the country, money that creates jobs, taxes, business for stores and shops here—he's asked by the folks from whom he wants to borrow if he's going to earn enough out of providing your electric service to make it a good investment for these folks to loan him money. In other words, Reddy has to convince these folks that loaning him money is a sound investment, just as you want to know that a new job will offer you a sound future.

Up to now, Reddy has been able to borrow this money, and meet his obligations when due, just as you have to meet your bills. But now Reddy has more than \$100,000,000 invested in providing you with dependable electric service, and his earnings on that investment have been reduced to the point where he must get a little more in wages from you.

Reddy is asking for a 10 per cent increase in his wages. He hasn't had a pay hike for many years. Reddy is sure you'll agree his request is a reasonable one for a worker who serves you 24 hours a day.

Reddy wants our area to have plenty of electric power to attract new industries, new people, and new businesses. With this small wage increase, he'll be able to borrow additional money, and be reasonably sure of paying the interest, the wages for borrowing, on the money. And, most important to you, and to Reddy, electric service will continue to be the biggest bargain in your family budget.

Power for Every Need!

Since the end of World War II, we have more than doubled our generating capacity. Additional units totaling more than 100,000 horsepower are scheduled to go on the line in 1951 and 1952. With these vast sources of power we are striving to meet your needs and the nation's needs for the critical days ahead.

other undesirable phase of sleep or lack of it, insomnia.

Fainting is probably the most common form of lapse from consciousness, a form that most people experience at one time or another. The common faint may be brought on by emotional impact such as bad news or pain; it may result from standing in a strained position for a long time especially in a hot and stuffy atmosphere; or it may naturally follow a long illness, particularly one with high fevers. Those are the more obvious causes, but when fainting attacks appear and recur without any such obvious reasons, they are likely to cause more alarm and apprehension.

Several Causes For Fainting

Since blood works uphill to get to the head, anything that may interfere with the pressure pushing the blood to the top of the body may result in a faint; a faint is considered to result normally from lack of blood reaching and circulating in the brain. When the fainter is laid with his head level with his heart, the blood returns to the head and he regains consciousness under normal circumstances. But he may stay weak and woozy for some time after the faint and should not try to get back up on his feet again until all feeling of nausea or all sweating has stopped because if he does he might faint again.

When your doctor starts find- especially if it happens often, he asks all kinds of questions that will paint for him the exact picture of your passing out. He may start out by asking how long after you had eaten that you fainted and what you ate or drank at the last meal or snack. He might even enquire what you were wearing, in detail, since tight collars, belts or binding clothes of any kind may have some significance under certain circumstances. Whether you were alone or at a party or

with a group of friends, whether you were just standing around or exercising such as dancing or playing ball, whether you were indoors or out, whether you were calm or excited—anything that contributes to the exactness of the situation preceding the faint may give him definite information as to the cause.

Warning Usually Given

Most people know when they are going to faint; there are symptoms of blurred vision, perhaps, or belching, yawning, sweating and such that will usually cause the person to remark, "Oh I'm going to faint" at just about the moment he crumples to the floor. How you knew you were going to faint or whether you didn't know are also important in discovering the cause.

The questions that may be asked for fainting would generally apply to any form of unconsciousness. Any jerky movements of the body during the faint would probably depend upon an eye-witness to the disturbance, of course, but may be of vital importance. The length of time before consciousness is restored and any aftermath such as headache or sleepiness may lead to information which would take the lapse of consciousness from the class of common faint into something more serious.

Causes Arise From Brain

Blows on the head, infections and tumors of the brain can cause unconsciousness, as well as drugs, poisons, alcoholic drinks, exposure to high altitudes, insulin shock, hysteria and petit mal, a form of epilepsy.

The states of consciousness and unconsciousness arise in the brain. Any repeated change from normal (Continued On Back Page)

Conway Is Agricultural Teacher at Sudan

Conway has been made agricultural teacher at Sudan. He is a graduate of the Agricultural School of the appointment of Conway as teacher of agriculture at Sudan.

Conway replaces Don McTeague, who was one of the teachers who conducted here. Conway is a graduate of Texas Agricultural College. He was employed on a farm in Colorado. Conway is a World War II, having served in the army.

Conway is at present about taking agricultural classes as the first class was organized in 1949, with Conway as instructor. Mr. Conway remains in charge of the school.

Conway states that attendance in the agriculture classes is increasing. He is conducting a study of farm management and poultry production, and also various subjects. He is also in charge of the training in the classes, a veteran in his control of ownership, a sufficient size to maintain a standard of living for the family. His production and adequate supply of the program is being increased. He is also in charge of the training in the classes, a veteran in his control of ownership, a sufficient size to maintain a standard of living for the family. His production and adequate supply of the program is being increased.

Sleeping on the Job Pays Off Here

Hard at work testing electric blankets at the General Electric plant, Frances Greene is too busy even to take time for lunch.

BRIDGEPORT, CONN. — Believe it or not there are people in this world who get paid for sleeping on the company's time. What's more the company knows who they are and invites them to do it.

Not only are some workers at the General Electric plant here encouraged to lie down on the job, but they are conducted to a comfortable bed in an air conditioned room and told to go to sleep.

The welfare state has not achieved blanket coverage overnight nor has the G-E management been taken into custody by white-coated attendants with soothing voices. The people who do the sleeping on the company's time are actually testing automatic electric blankets. The best way to try out new developments in electric bed coverings is to try them out on actual sleepers.

Volunteers from the G-E sleep laboratory and office of the automatic blanket division have made hundreds of tests in response to earnest invitations from R. E. Sambleson, chief engineer, to sleep on the job.

"We never have a shortage of volunteers," Sambleson reports with a straight face. "although many people find the work difficult at first."

It seems that these poor people become self-conscious in the laboratory and are unable to relax and sleep knowing they are under scrutiny. After eight hours of struggle with insomnia they come home from work exhausted and

have to go right to bed. Tests are made day and night under every possible combination of bedroom temperatures and outside atmospheric conditions in order to measure the blanket's automatic adjustment to keep the sleeper at a desired warmth.

When the tester has reported for work, he or she dons comfortable night clothes—pyjamas or nightgowns are optional—and goes to bed. Thermocouples, which measure body temperature, are attached to sixteen places on the sleeper's body with adhesive tape.

The tester's temperature, together with wattage, voltage and current reading of the blanket, are recorded on the continuous graph of a machine called an automatic multi-point temperature recorder. That's all there is to it—unless the tester turns in an unsatisfactory performance by staying alert and wideawake on the job.

The only shortage on the roster of volunteers for sleep tests is in the husband and wife category. Married teams are necessary to test the double bed, two-control blanket for couples who agree to disagree on proper sleeping temperatures.

Asked if there were any spot in his laboratory for people who have a proven capacity for sleeping on the job but who have never found the proper encouragement for their talent, Sambleson declared that his volunteer roster was more than adequate.

Just one more proof that all the best occupations are overcrowded.

O. L. Shannon To Head Sudan C of C

O. L. Shannon, one of Sudan's most outstanding citizens, will head the Sudan Chamber of Commerce for the year 1951. Shannon was elected unanimously at the recent annual meeting of the Chamber in the De Lux Cafe. He succeeds Bill Lyle, vice president of the First National Bank who has served as president during the past year.

Wayne Brown, prominent Sudan Impment dealer was re-elected to serve a second term as vice-president of the organization. Preston Hawks, publisher of the Sudan Beacon was named to serve as Secretary of the organization, succeeding Harold Close, Sudan druggist, who has served capably in that capacity for the past two years.

The meeting was opened with Secretary Close reading recent correspondence addressed to the Chamber. A resume of activities during 1950 was also discussed.

Sudan Heads Get New Contracts

Principals of the Sudan public schools were given new contracts Monday night of last week at the regular business meeting of the board of trustees.

In addition, the board gave one year contracts to Coach Francis Smith, Assistant Coach Johnny Cardinal, Edgar Chance, vocational agricultural instructor and Mrs. Ray May, Homemaking instructor.

A two-year contract was given to O. B. Stamper, principal, of Sudan high and a one-year contract to Rodney Cathey, grade school principal.

In discussing the football schedule for next year, A. Dooley, superintendent said plans are to continue, as nearly as possible, a normal schedule with tentative 8 games at home and away. Such

Noted Columnist Speaks in Earth Thursday Night

An unusual treat is in store for the citizens of the Earth-Springlake area in the appearance of Wes Izzard of Amarillo, noted columnist and commentator, a speaker at the First Methodist church, Earth on the evening of February 22, at 8:30 p.m.

Mr. Izzard is noted for his originality in speech and foreseeing world situations such as we are confronted with today.

Sponsoring the occasion is the Town and Country Study Club, Earth of which the Lions club will be guest at a banquet held prior to the address.

Social Security Expert To Be Here February 28

John G. Hutton, Manager from the Lubbock Social Security Office will be at the Post Office in Littlefield at 1:30 on Wednesday, February 28 to assist persons who wish to file claims for survivors or retirement benefits and to assist in furnishing information about the new Social Security law.

The expanded, more liberal social security law became effective September 1st. A wage earner living on and after the effective date of the amendments can qualify under the more liberal provisions of the new law.

Daughter Is Born To Mr. and Mrs. Allan Owen at Dover, N. M.

A message was received in games may include engagements with Clovis and New Mexico Military Institute at Roswell.

Littlefield Saturday to the effect that a daughter was born to Mr. and Mrs. Allen Owen of Durham, New Hampshire, at a hospital at Dover, N. H. early Saturday. Mr. Owen and daughter were reported getting along satisfactorily. The infant weighed eight pounds at birth. Mrs. Owen is the former Miss Matadell McFarland of Littlefield. Mr. Owen is assistant director of instrumental music at the University of New Hampshire. Mr. and Mrs. Owen have another child, a son, David, aged two years.

Last Rites Held For W. T. Rice

Funeral services for William Tillman Rice, age 75, were held in the Sudan First Baptist Church Sunday, Feb. 11 at 3 p.m. with Rev. Wayne Perry and Rev. Ben D. Johnson, of Lubbock, officiating.

Mr. Rice, the father of W. L. Rice, of Sudan, was born in Montgomery, Alabama, but had spent most of his life in Quanah, Texas. He had been living with his son here for the past few months.

so plan now to get yours early. This will be a play you'll regret to miss.

He died at the Amherst hospital Friday, Feb. 9 at 4 p. m.

Other survivors include a son, C. O. Rice of Lubbock, and seven grandchildren.

Persons attending the funeral were from Muleshoe, Childress, Quanah, and Fresno, California, and Sudan.

Pall bearers included Ted Walker, Homer Morris, Don Yeary of Sudan and William Lambert, Rufus Gilbreath and Harold Sneed of Muleshoe.

Flower girls were the Misses Dorothy McCarty, Donna Robinson, Louise Maxfield and Barbara Preston.

Interment was made in the Sudan cemetery.

Reddy Writes a Letter...

Reddy's letter went to your mayor and the governing body of your community to tell these officials, who are in charge of Reddy's rates—his wages, so to speak, why he needs a raise in those rates or wages.

Reddy told them that the costs of the equipment necessary to provide you with dependable electric service have gone up and up in the last few years, and that they've reached the point now where his wages must be raised a little to help him meet these increased costs.

Another part of Reddy's letter told them about the expansion program that Reddy has had underway for about seven years. Because of this expansion program, Reddy has spent more money during several years to improve his service to you than he has taken in for his services. To keep this expansion program going, Reddy has had to borrow money from folks all over the country, from insurance companies, fraternal organizations, savings and loan societies, and just plain folks, butchers, bakers, teachers, the 11,000 individuals who are stockholders in this company.

Now, borrowing money is like working, in one sense. When you take a job, you determine with your employer how much you'll work for, and you want to be sure that his business will earn enough to pay you. Reddy goes through pretty much the same process when he has to go out and borrow money. He has to pay interest on the money he borrows—and interest is really a form of wages. And when he goes to borrow money to improve your

service—to bring "new" money into our part of the country, money that creates jobs, taxes, business for stores and shops here—he's asked by the folks from whom he wants to borrow if he's going to earn enough out of providing your electric service to make it a good investment for these folks to loan him money. In other words, Reddy has to convince these folks that loaning him money is a sound investment, just as you want to know that a new job will offer you a sound future.

Up to now, Reddy has been able to borrow this money, and meet his obligations when due, just as you have to meet your bills. But now Reddy has more than \$100,000,000 invested in providing you with dependable electric service, and his earnings on that investment have been reduced to the point where he must get a little more in wages from you.

Reddy is asking for a 10 per cent increase in his wages. He hasn't had a pay hike for many years. Reddy is sure you'll agree his request is a reasonable one for a worker who serves you 24 hours a day.

Reddy wants our area to have plenty of electric power to attract new industries, new people, and new businesses. With this small wage increase, he'll be able to borrow additional money, and be reasonably sure of paying the interest, the wages for borrowing, on the money. And, most important to you, and to Reddy, electric service will continue to be the biggest bargain in your family budget.

Power for Every Need!

Since the end of World War II, we have more than doubled our generating capacity. Additional units totaling more than 100,000 horsepower are scheduled to go on the line in 1951 and 1952. With these vast sources of power we are striving to meet your needs and the nation's needs for the critical days ahead.

ity desired in the landscape of a country home.

To achieve the desired effect in landscaping one must choose his plants as to color of blossom, color and amount of foliage, and as to height that they will grow. A standard plan of landscape design cannot be made, yet the same principles do apply. One must plan to fit his home layout.

In beautifying the city home the same principles apply as in the country home except that it can be formal, the space is limited to a lot or two in most cases, the walks straight, and trees evenly spaced in a straight line, and pos-

side the shrub border. Trees that grow taller than the house should be set in back of the house to give a background to the landscape picture. Now, by the side of the house opposite the driveway should be the outside livingroom. It is there that one enjoys the evenings outside. It should have a tree and shrub border, lawn, some shade, flower beds and rose beds in the shrub borders, barbecue pit, etc. The part of the yard behind the house is the service area, and it is here that you have the clothes line, milk house, trash container, or other utilities necessary in the farm business. This area should have a lawn and screened from the front lawn and outside livingroom by shrubbery.

Tie House To Ground
The house should be tied to the ground with shrubs. The door should be accented by a shrub on each side, a tall shrub at each corner, small shrubs under the windows, and tall shrubs between the windows. There should also be a cluster of color at the foundation of the house on each side in front such as perennial phlox or President cannas with Lantanna immediately in front.

The entrance to walks and drives may be marked with a shrub on each side or a cluster of shrubs may be planted in corners of the front lawn to mark the corners. It is well to have some evergreens to give color in the winter. Curved walks and trees that are not in a straight line nor the same distance apart add to the informal-

Arbor Day Period is Planting Time

By W. W. HALL

(Littlefield High School Vocational Agriculture Instructor)

If you plan to plant trees or shrubs and have not already done so, this Arbor Day period is the time. But before planting, one should make or have in mind a plan. In planning the beautification of the farmstead or the city home one may be compared to an artist, because he is actually painting a picture with the house as the center of interest, using grass, trees, shrubbery, and flowering plants for color.

In planning for beautifying the farm or city home, one should plan for beauty, for maximum enjoyment by the family, for ease of upkeep, and economy. Homes are the foundation of the nation. With clean, attractive, pure homes the youth become strong, upright, honorable citizens.

Proper landscape design for a country home is different from that of a city home. The plantings for a country home should give an expensive appearance. A more attractive appearance may be achieved if you do not have a yard fence.

Start With Lawn

The lawn is the foundation for the landscape picture and should be broad and open in the center in front to give the expansive appearance. It should be framed with trees and shrubs at its borders, and should not have flower beds or roses setting in it. Flowers may be set in the borders directly in front of the shrubs. An entrance driveway should be out-

ALL THE COMFORTS OF HOME

Maybe not quite all the comforts of home—but this cotton balloon cloth sleeping bag hits the spot with tired soldiers. Designed for use in cold climates, the bag weighs less than 11 pounds. Attached to the shell is a canopy which can be brought up over the sleeper's head. The canopy rolls into a carrying case. The wind-resistant, water-repellent sleeping bag keeps a soldier warm in 40° below zero climates.

Formal Opening of Esta Mae's Sewing Department Announced

Esta Mae's Department Store have announced the formal opening of their new Sewing Machine Department, and the presentation of the new Necchi Sewing Machine for Thursday, Friday and Saturday.

The Necchi is the machine reported to do everything. In one compact unit, it is said to do the functions of 11 specialized factory sewing machines costing more than \$5,000. One can change from one operation to another in a jiffy.

This machine sews plain, it sews zigzag, it sews on buttons, makes button holes, embroiders, darns, makes monograms, etc.

A number of free prizes will be given away at the Esta Mae's Department Store Saturday. Included in these prizes will be a \$75 merchandise certificate on a Necchi machine; second prize will be a \$50 merchandise certificate, and third prize will be a \$20 merchandise certificate. There will be other prizes.

The public are invited to register now for these prizes, which will be awarded Saturday, 5 p.m. Esta Mae's Dept. Store is opening her sewing department in their

balcony, which is very attractive. Several different style Necchi machines are on display. They are available in the desk, console or Jet type, and in Blond, mahogany

or Walnut finish. Freddy Kahn, specialist from the factory, will be at Esta Mae's Dept. Store Saturday to demonstrate the machine.

Bond Is Posted In DWI Arrest

\$500 appearance bond was posted by Robert R. Miller, by State Highway Patrol and Littlefield city police last night and charged with a motor vehicle while under influence of liquor.

Muleshoe Wins District Title From Levelland

Muleshoe's Mules copped the District 4-A boys basketball crown by defeating Levelland, 56-47, in the Sundown high school gym Saturday night.

Ed Nichols was the big gun in the Muleshoe attack, however, with 16 markers.

Don Ulse and Pierce paced Levelland, Wise sinking 13 points, and Pierce chalking up 12.

Muleshoe led all the way. The Mules took a 19-10 lead at the end of the first period, and were on top, 38-25, at the midway station.

At the close of the third stanza, Muleshoe was in front, 45-34.

Levelland advanced to the finals by defeating the Post Antelopes, 54-37, in the afternoon.

Phelan had 14, and Burnett had 13 points for the Lobos, while Jack Kirkpatrick tallied 16 counters for the Antelopes.

Post clinched third place in the first game tonight, downing Tahoka's Bulldogs, 48-38, with Gene King and Kirkpatrick combining to score 28 of the winners' points.

King was high for the game with 15, while Kirkpatrick and Wayne Tekell of Tahoka each had 13 points.

LHS Athletes Await Calls For Track, Grid Drills

With the basketball season ended and the official start of spring now only about a month away, the Littlefield high school young man's fancy now lightly turns to thoughts of track and spring football practice.

At the nonce, an unwonted innocuous desuetude enshrouds things athletic at the high school in the interim before the joint calls for track and spring football drills.

Coach Forrest Martin is expected to issue his clarion call for the short shorts squad in about two weeks, while Coach Jay Fikes' football hopefuls are not expected to take to the field before about April 1.

LENTEN ADVENTURE — CHEESE FONDUE

Lent, known as a time of abstinence—of "giving up"—marks a change in habits of living and eating. But the wise homemaker takes advantage of a change in routine. She puts fast-day foods to work in brand-new recipes!

Her menus will count heavily on cheese, milk, eggs and fish for hearty flavor and to meet the body's need for protein. Many dishes will include enriched yeast-raised bread—as a stuffing, binder or extender. Bread or bread crumbs will increase the value of dishes in which they are used. Enriched yeast-raised bread supplies energy, protein, vitamin and mineral values.

Bread has always been important during the Lenten season. For example, traditional Hot Cross Buns, rich with spices and currants, brighten many meals and the end of the forty-day fast is marked with traditional Easter breads.

For your scrapbook of Lenten dishes, and for use throughout the year, here's an adventurous recipe with cheese, milk, eggs and bread combined for flavor perfection.

CHEESE FONDUE

2 cups soft bread crumbs
2 1/2 cups grated cheese (Cheddar or other sharp cheese)
1 teaspoon salt
1/2 teaspoon cayenne pepper
2 tablespoons minced onion
1 teaspoon dry mustard
2 1/4 cups scalded milk
4 eggs
Put crumbs, cheese and seasonings in a large bowl. Pour in scalded milk. Stir lightly. Separate eggs. Beat whites until stiff but not dry. Then beat yolks until thick and lemon-colored. Slowly stir yolks into bread mixture. Fold in whites of eggs gently; do not beat. Pour into greased two- quart casserole. Place baking dish in pan and fill pan with hot water up to 1 inch from top of casserole. Bake at 325° F. (slow oven) or until lightly brown and firm when touched in the center. Serve immediately. Serves 6.

Lubbock Team Captures Cage Title at Anton

Thomas Tinkers of Lubbock defeated the Anton American Legion, 51-48 in Anton Saturday to win the Anton Independent Basketball tournament.

Charles Pinnell and Wayne Bowes paced the Tinkers to the victory Pinnell getting 18 points, with Bowes hitting 11. Bill Kelly had 14 for Anton, with Don Bagwell getting 11.

Goodpasture Grain of Brownfield had to go into overtime to edge the Earth Lions, 60-59 for third place. Joe Wheatly had a field night for Goodpasture, scoring 30 points. Ted Haberer notched 26 for the losers.

Sgt. C. T. Taylor Writes of Visit To Death Scene

Mr. and Mrs. C. T. Taylor of Route 2, Littlefield, have received a letter from their son, Norbin Taylor, now a sergeant at Camp Chaffee, Ark., telling of a visit made to the mine shaft near Joplin, Mo., where the desperado Bill Cook tossed members of the Mosser family after slaying them.

Sgt. Taylor entered the service here in October. Mrs. Taylor, the former Lorena Salmon, is with him. Both are Littlefield high school graduates.

Amherst School Play March 2

A comedy, "The Funny Fullers," will be presented Friday night, March 2, at the Amherst high school auditorium.

The production is the annual play of the high school senior class.

Admission will be 50 cents for adults and 35 cents for students.

MORE and BETTER COTTON

ANTHRACNOSE boll rot can reduce the grade of your cotton

If you've had some points taken off by the grader for spotty cotton, you know what anthracnose, or pink boll rot, can cost you as a cotton grower. It is expensive and persistent; but it can be controlled now by measures that cost you little.

Anthracnose is a fungus disease, and is at its worst in times of heavy rainfall and where cotton grows rank. The fungus lives over the winter on diseased bolls and stalks left in the fields, and in or on the seeds from infected plants. Clean fall plowing and rotation of your crops helps to control it.

You will also find that treatment of your seed with an organic mercury dust before

planting helps a lot to kill off the anthracnose fungi. This treatment cuts off the disease at its source. Used with other control measures, it can practically wipe out the disease from an entire area in a few years. Mercury dust treatment will also control seed decay and damping-off (sore shin) organisms and reduce angular leaf spot.

The cost of the chemical amounts to less than 10¢ per acre. Treatment can be done on your farm or by many ginners and delinters. Ask your County Agent or Farm Extension Service about the value of seed treatment and about where the treaters are in this area.

Olton Reports March of Dimes Drive Over Top

Olton was the first community in Lamb county to go over the top with its March of Dimes Campaign. Pink Lawson, drive chairman there, reported.

With a quota of \$1,225, Olton had raised \$1,262.68 before the drive officially closed on Feb. 1.

Cooperating with Lawson in the drive were the Olton Home and Garden club and the Olton Garden club with the drive chairmen, Mrs. J. C. Scruggs and Mrs. G. H. Bley.

Lawson listed the following businesses and churches as contributors:

Primary School \$38.50; City Cafe, \$20.30; Ideal Cafe, \$15.67; Church of Christ, \$100.10; Church of Christ of Latter Day Saints, \$1.18; Presbyterian Church, \$15; Grade school, \$48.60; Lunch room, \$10.06; Roxy Theater, \$220.10; Ann's Cafe, \$6.00.

The drive chairman expressed his appreciation for the support given in the drive and said that he was sorry he could not thank each contributor personally.

Olton School Bond Vote Set For March 3

An election will be held in Olton March 3 to determine if \$17,500 in school tax bonds shall be sold to finance construction of a Negro school in Olton, Supt. J. T. Jones announced.

The election was set by the Olton school board in sessions which lasted two nights. Also at the meetings, the board accepted the resignation of J. B. Millsap as high school principal and hired Coach Levi Maples to fill the vacated position.

The total amount of \$17,500 bond issue for the Negro school would raise school tax valuations between 5 and 10 per cent Jones said.

The proposed building would be of fireproof construction, with overall dimensions of approximately 32 by 53 feet. Rest rooms and offices would cut the space available for two classrooms, to be separated by folding doors so that they may be utilized as an auditorium, to 20 by 25 feet.

At an estimated cost of \$9 per square foot of construction, Jones said that the cost of the building would be \$14,500, with the cost of the site with water and sanitation equipment running about \$3,000.

The bonds have been sold on agreement to Olton State aBnk on the "best bid" of 2 1/2 per cent of bonds maturing during the first four years and 3 per cent for all other bonds.

Olton Baptists Plan Revival

A week-long revival has been scheduled for March 11-18 at the First Baptist Church, Olton.

Olton Girl Now Recovering After Serious Injury

Wilma Durham, 17-year-old Olton girl, unconscious in Olton Memorial hospital for more than three days after she was pinned under an overturned pickup, was reported progressing satisfactorily this week.

Miss Durham was the most seriously injured of four girls involved early Friday night, Feb. 10, when a 1950 Dodge pickup, belonging to Wallace Hackler and driven by Charlotte Ogle, overturned near the Fred Schaefer home north of Circle.

Miss Durham and Margaret Hackler were said to have been riding in the rear of the pickup and Miss Ogle and Eulynne Wilson in the cab of the vehicle when deep ruts in the road caused it to overturn.

Miss Durham was pinned under the pickup until Schaefer and Leonard Jones were able to lift it and remove her. She was unconscious from the time she arrived at the hospital until Tuesday morning.

Her injuries were listed by Dr. Gale Seigler as a skull fracture, a crushed right kidney and right chest and critical condition of shock. Dr. Seigler said that, barring complications, she could no longer be considered critical.

Miss Hackler, who had been thrown clear of the pickup, sustained a deep laceration of the

Olton Purchases New Maintainer

Purchase of a \$6,281 grader from Plains Machinery company of Lubbock has been approved by members of the Olton city council.

In a special council session council members met with Willard McClurg representative of the company, and completed the contract for the grader.

Purchased by the council on the advice of Julian Smith, Lubbock engineer for the city's paving project, the machine has a 12 foot blade and a 40 horsepower International motor. The maintainer is one of the leaning-wheel variety with hydraulic controls.

Pavements on the grader will be at the rate of \$1,000 per year with a four per cent interest rate on the principal.

Mayor Lefty Hollingsworth said that purchase of the grader will not increase the valuation or tax rate. Payments will be made from expected yearly increases in valuation due to new construction, he said.

The old grader was accepted as trade in with \$1,000 value allowed against the purchase price.

left thigh and multiple bruises and abrasions. Dr. James Fite, who is attending her, said that her condition was never considered critical.

The other girls, who suffered only slight shock and bruises, were not admitted to the hospital.

On a Luxury Flight to Europe

In the top photo all passengers relax in deep pile lounge seats, or can go below to the cocktail lounge while flying direct from New York to London or Paris. On the overnight flights to either capital, delicious meals and complimentary cocktails are served enroute at no additional cost. Winter rates, now in effect, offer a substantial saving. Thousands of people wait for the first couple of months of any year to visit Paris, London or other European cities. The photo shows a capacity crowd on a Pan American World Airways "Strato" Clipper enroute direct to Paris, while the lower photo shows how berths are made up. A crew of nine men and girls fly the clipper and serve the passengers. This flight which leaves New York in the late afternoon and arrives in London or Paris the next morning, represents the last word in airborne luxury.

Conducting will be Rev. Jimmy Dolan, pastor of the Odessa Baptist Church, and Sheldon Russell of Plainview, Russell will conduct song services.

The Bureau of Naval Personnel has pointed out that women line ensigns will normally not be assigned to overseas billets.

From where I sit... by Joe Mar
Sometimes Good Intentions Aren't Enough

That fire at the Griffin place didn't do much damage last week, but Volunteer Chief Murphy was pretty angry about it. Spoke to some of us over dinner and a bottle of beer.

"Griffin's farm is a good mile from town," he said. "And by the time we'd dodged all the people on the highway who were going to watch, we hadn't a minute to waste."

"Then blamed if those sight-seers hadn't parked cars right in Griffin's driveway and there was a mob of people milling around the house—just gawking. Joe, tell

folks a fire's no sideshow. Ask to think of the other fellow!

From where I sit, some need to be reminded occasionally that even though our intentions are good we may be unfairly interfering. Whether it's blocking right-of-way of fire equipment, criticizing a person's right to joy a temperate glass of beer and then—the American Way—give way, and give the other fellow his fair "share of the road!"

They're HERE! MORE POWERFUL than ever!

NEW DODGE "Job-Rated" TRUCKS

The trucks that do the most for you!

Here's what's NEW about power
You get more horsepower than ever in the new Dodge "Job-Rated" Trucks! Eight efficient engines—94 to 154 horsepower—with power increases up to 20%! You get the right power for your job with top economy. Yet, these new trucks are priced with the lowest!

Here's what's NEW about styling
Distinctive new lines, massive new grille, new two-tone cab trim, and new appointments make these the best-dressed trucks on the road! Lower hood lines make it easier to see more of the road ahead. More comfortable, redesigned seats, too!

Here's what's NEW about ease of handling
You can turn these new trucks sharper—in a smaller circle. Handling is easier because of new worm-and-roller steering gears, more convenient steering wheel angle, cross-steering, wide front tread, and short wheelbase.

Here's what's NEW about safety
Never before such safe, smooth, quiet truck brake action—thanks to new molded, tapered Cyclobond brake linings. (On trucks 1 1/2-ton and up, except air brake models.) Improved hand brake operates independently of service brakes. "Pilot-House" cabs offer extra visibility.

More than 50 brand new features...including:

- NEW! More economical performance with higher compression ratio—on models through 1 ton.
- NEW! Easier bad-weather starting with new moistureproof ignition and high-torque starting motor.
- NEW! Twin carburetion and exhaust system for more power—available on all high-tonnage models.
- NEW! Smoother ride with new "Oriflow" shock absorbers—standard on 1/2, 3/4, and 1-ton models.
- NEW! Easier-to-read instruments—now grouped in a cluster in front of the driver.
- PLUS THIS EXCLUSIVE! 94-154 Field Drive available on 1/2, 3/4, and 1-ton models.

Lamb Sends 15 Persons to Prison in 1950...Second Highest Number in History

(Special to Leader)
Fifteen persons committed to the State Prison system from Lamb County in 1950 is the highest for the county since 1940 when the figure was 17. Five were sent in 1949, and four in 1948.
Figures were revealed by Bert Koeninger, director of the State Prison at the prison and the sociology department of Houston State Teachers College. His advanced students conducted the survey which dates from Lamb County over the period was 133.
Take-off from a ship in Littlefield was made on Nov. 15 by Eugene Ely.

Wildcats Select Football Captains

Freddy Howard and Joe Walden will lead the 1951 edition of the Littlefield high school football Wildcats.
The two were chosen by vote of the lettermen who will return for the gridiron campaign next fall.
Howard is line captain. He played center last year and will play offensive tackle and middle linebacker on defensive this year.
Walden is backfield captain. Last year he served as wingback. This year, he will play in the tailback position and serve as defensive left halfback.

Mules and Lobos Win Playoff Games

SUNDOWN—Muleshoe trimmed Tahoka 52-38 and Levelland posted almost an identical score, 53-38, in blasting Post Thursday as the District 4-A tournament opened.
Both games were close most of the way, but the winners began to open up margins with the second half. Tahoka held an early lead over Muleshoe, but Levelland never was headed in its game.
Friday night Tahoka was to play Post in the first game of the second round and Muleshoe took on Levelland.
Whipple and Nickels each had 11 points to lead Muleshoe's Mules in their victory, while Walt Tekell had 17 to pace the losers and take scoring honors.
Tahoka's Bulldogs led the eventual winners, 13-5, at the end of the first quarter, but the Mules caught up and passed the Bulldogs, leading 24-19 at the half. After that is was Muleshoe all the way, somewhat similar, although Levelland jumped into the lead and kept it. The Lobos had an 11-6 margin at the first quarter and upped this to 27-19 at the intermission. After that Levelland kept well ahead.
Don Wise led the Lobos with 13 points, but yielded scoring honors to Jack Kirkpatrick of Post, who had 15 points.

Whitharral Wins In Hockley County Tourney Opener

LEVELLAND—Smyer, Sundown, Whitharral and Levelland teams advanced to the quarter-finals in the Hockley County Girls Basketball tournament in its second day here, with semifinal round matches due Saturday.
Whitharral beat Ropesville 35-23, after taking a 38-28 licking at the hands of Smyer. Ropesville was eliminated by the Whitharral defeat, having dropped an earlier game despite beating Anton 28-26.
Sundown joined Smyer and Whitharral in the quarter-finals by topping Pettit, 36-33, while Levelland advanced by eliminating Pettit with a 43-23 victory.

Lockney Slates Littlefield, Sudan On Grid Schedule

LOCKNEY, (Special)—The football schedule for the 1951 season has been announced by Lockney school officials, with the Longhorns remaining in District 3-A.
Coach Curtis Kelley's crew, which finished fourth in league play last season with a 4 and 3 record, will face Tahoka, Floydada, Dimmitt, Paducah, Sudan and

Secretary of State John Ben Shepperd (seated, left) takes from Dr. W. M. Gambrell of Austin, president of the State Medical Association of Texas, the application for extension of a 50 year charter which founded organized medicine in Texas in 1901. The Medical Association seeks to extend its charter a second half-century. Standing (left to right) are trustees of the Association . . . which numbers more than 6,500 physicians and surgeons . . . Drs. F. J. L. Blasingame, Wharton; T. C. Terrell, Fort Worth, chairman of the board; Merton M. Minter, San Antonio, vice-chairman; and G. V. Brindley, Temple; and Tod Bates, Austin, executive secretary. Missing from the picture is Dr. E. A. Rowley of Amarillo, secretary of the board.
Original incorporators of the Medical Association in 1901, all now deceased, were Drs. B. E. Hadra, Dallas; Taylor Hudson, Belton; R. F. Miller, Sherman; H. P. Cooke, Galveston; and H. A. West, Galveston. Approximately 100,000 charters have been issued by the Secretary of State between the first medical charter and its first half-century extension, Shepperd said.

Littlefield besides their league opponents.
The complete schedule: Sept. 7—Littlefield at Littlefield; Sept. 14—Sudan at Lockney; Sept. 21—Paducah at Paducah; Sept. 28—Dimmitt at Dimmitt; Oct. 5—Abernathy at Kress; Oct. 12—Floydada at Lockney; Oct. 19—Hale center at Lockney; Nov. 2—Abernathy at Lockney; and Nov. 9—Tahoka at Lockney.

Want more THRILL per dollar?

WHAT are the things you hope some day to have in an automobile?

Is it power that rises to every challenge?

Is it the satisfied feeling of being a very important person there at the wheel?

Is it day-long comfort and ample dimensions that make every trip a pleasure?

Is it the durable goodness of sound construction—the sturdy strength that will outlast the years?

Well, sir, the time has come for you to take to heart these three words of sensible advice—"SMART BUY'S BUICK."

Every Buick has Fireball power—an exclusive combustion principle that makes each drop of fuel do extra duty.

Every Buick has coil springs on all four wheels—that add to your comfort and never need service.

Every Buick can be had with Dynaflo

Drive,* which lends extra smoothness to all the miles you drive and saves wear on tires, engine and transmission for long-run economy.

Every Buick sparkles with added conveniences, refinements, appointments that lift these 1951 beauties far above the "utility" level and make them a special joy to own.

And when it comes to price—we ask you to compare Buick with the field. Come see us soon. Lots of folks are comparing and finding there's no buy like a Buick.

*Standard on ROADMASTER, optional at extra cost on other Series. Standard equipment, accessories, trim and models are subject to change without notice.

NO OTHER CAR PROVIDES ALL THIS:

DYNAFLOW DRIVE—saves strain on driver and car • **FIREBALL POWER**—high-compression, valve-in-head engine gets more good from every drop of fuel • **PUSH-BAR FOREFRONT**—combines smart style and unsurpassed protection • **WHITE-GLOW INSTRUMENTS**—greater clarity at night • **TORQUE-TUBE DRIVE**—steadies ride, improves driving control • **4-WHEEL COIL SPRINGING**—cushions ride, saves servicing costs • **DUAL VENTILATION**—outside air fed separately to right or left of front compartment • **SELF-ENERGIZING BRAKES**—hydraulic—multiply pedal-pressure five times at brake drum • **DREAMLINE STYLING**—tapered, car-length fenders, gleaming sweepers on most models • **Plus:** Self-locking luggage lid, Step-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

About People You Know

Roy Wade re-admitted to the Payne-Shotwell Hospital Friday for medical treatment. Mr. Wade was a patient three days suffering from bruises and shock following the tragic accident in which the Fire Truck and a automobile collided, and two people lost their lives. Mr. Wade is still suffering from shock.

Mrs. J. M. Blessing, who had been a patient of the Littlefield Hospital for sometime, was taken home Tuesday of last week. Her condition is about the same. Mrs. Blessing is suffering from Arthritis.

George Price was ill with Flu and confined to his home all last week.

Mrs. J. H. Gallain and daughter, Mickey Rose, of Modesto, Cal. is spending a month with her sister, and brother-in-law, Mr. and Mrs. W. E. Bass. They arrived about February 4.

Mrs. W. B. Little was admitted to the Payne-Shotwell Foundation Monday of last week suffering from a painful condition of her left limb. She had previously injured her leg when she struck it against a brick kiln in her ceramic kitchen, but according to Mrs. Little she thought she had completely recovered from the injury, and her trouble is believed possibly to be a recurrence of a plebitis condition suffered sometime ago following surgery. Mrs. Little is getting along better.

Mrs. Colla White of Littlefield was dismissed from Payne-Shotwell Foundation Saturday after being a patient since February 9, when she fell and broke her left arm. She is reported doing nicely.

Miss Loreta Burnett of Spade was released from the Payne-Shotwell Hospital Saturday last after being a patient since Feb. 15 for medical treatment.

Mr. and Mrs. G. M. Shaw returned home last week from Kerrville, where they had spent two weeks on business.

Mr. and Mrs. Bernard Collins and adopted daughter of Midland, Texas, visited in the home of Mrs. Charlie Hawk over the week end.

Eldsel Hank, who is a radio mechanic in Civil Service for the Navy, sailed last Monday from San Francisco, Cal. for Pearl Harbor. Mrs. Hank and two children, Linnie and Bobby, have gone to

visit her parents at Myersdale, Pa. They will join Mr. Hawk at Pearl Harbor later.

Mr. and Mrs. F. G. Martens moved Saturday to Tucson, Ariz. from Roswell, N. M. Mr. Martens is employed by the United Seismograph Company. Mrs. Martens and daughter, Pamela, have been in Littlefield a month visiting Mr. Martens' mother, Mrs. J. A. Martens.

Mr. and Mrs. Pat Boone, Sr. left Friday for a few days visit at Roswell, N. M. with relatives. They returned to Littlefield Monday.

Acrey Barton underwent surgery for ruptured appendix at the Littlefield Hospital early Friday morning, and is reported getting along as well as could be expected. His daughter Frances, Home Ec. Teacher at Kerrville, and his brother, Alfred Barton of Bertram arrived in Littlefield Friday to be with Mr. and Mrs. Barton for a few days.

Mrs. Jim Douglass has returned home after spending a month with her mother, Mrs. Provia McGruder, at visalla, Cal. Mrs. McGruder, who is in poor health, was 88 years old in December last.

A. W. Ray was ill and confined to his bed with Flu Tuesday and Wednesday of last week. He is now feeling better.

Mr. and Mrs. Ranse Gillespie of Live Oak, Calif. were visitors in the home of Mr. and Mrs. Gilbert Cocanougher Sunday and Monday last.

Mrs. Leona Walker has been a patient at a seagraves hospital since Sunday of last week when she underwent an appendicitis operation.

Dan Heard has been a patient for the past two weeks in the Harris Memorial Methodist Hospital, Fort Worth, for treatment for arthritis. He will remain there another week.

Mr. and Mrs. Troy Howton, who were here for the funeral of her mother, Mrs. L. M. Easley, Monday of last week, were accompanied home to Amarillo by Mrs. Howton's father, L. M. Easley, and brother, L. G. Easley to spend a few days, returning here Thursday. Mr. and Mrs. Howton report that they have purchased a new three bedroom home at 4115 Tyler st. Amarillo.

Mrs. Dan Heard returned last week after being absent from Littlefield nearly three weeks. She spent some time with her husband, who is a patient of the Harris Memorial Methodist Hospital at Fort Worth, and visited relatives at Lancaster and Dallas. She also visited her son, Johnny Millican, at Chillicothe, Texas.

A. W. Ray, Mrs. James Ray and Mrs. Edwin Brown left Saturday night for Dallas, where they arranged the Gift show, which opened Sunday and will continue through Friday, Feb. 23. They planned to buy for the Gift Department of Ray's Butane.

Miss Doris Rathiff, who underwent an appendicitis operation Saturday Feb. 10 at the Payne-Shotwell Hospital, is getting along nicely, and was released from the hospital Monday.

W. O. Yeary left Friday for Abilene on a business trip, returning to Littlefield Sunday.

Congratulations To:

Mr. and Mrs. Rufus Elton Nixon of Spade on the arrival Sunday, February 11, at the Littlefield Hospital, of a son weighing 6 lbs. 11 oz., and named Gaylon Don. Mother and son are doing nicely.

Mr. and Mrs. Robert Douglas Barrett, of Cotton Center, on the birth at the Littlefield Hospital Tuesday, February 13, of a daughter weighing 5 lbs. 6 oz. The

little lady has been named Charlotte Lea.

Mr. and Mrs. Virgil Irio Pierson of Rt. 1, Abernathy, Texas, on the arrival of a son at the Littlefield Hospital Friday weighing 7 lbs. 2 oz. and named Lewis Gerald.

Mr. and Mrs. Piodosa Gumaldo Estrado of Littlefield, on the birth of a daughter Saturday, Feb. 10, at the Payne-Shotwell Hospital, weighing 6 lbs. 5 oz. The infant has been named Rachel Lupe.

Mr. and Mrs. Roy Byers, Jr. are the proud parents of a son born Sunday morning at the Payne-Shotwell Foundation. The infant weighed at birth 7 lbs. and has been named Rickey Roy. Mr. and Mrs. Byers have another son, Daney Lee, aged 4. The Byers family are now living at Springlake, where Mr. Byers is operating the grain elevator.

To Present Pupils In Piano Recital

Mrs. Winnie Zoth, of Littlefield, will present Miss Fatsy Lou Griffin in a Senior Piano recital at the Methodist church of Spade, on Tuesday night at 8 o'clock, February 27th.

Miss Griffin is the daughter of Mr. and Mrs. J. Griffin, of Spade, and a member of the fifty-one graduation class of Spade High school. She has been pianist for the Elementary and high school for several years, assistant teacher to Mrs. Jackson, who was director of music in the Spade school for a number of years.

Miss Griffin plans to continue her study in piano upon entering Texas Tech next fall. The public is invited to attend this recital.

ICE CAUSES HEAVY DAMAGE—A residential street in Palestine, Texas, is completely filled with broken branches from trees after a hard freezing rain covered

wires and trees with a heavy coating of ice. Electric service to this East Texas town was disrupted for a time, and all communication lines are down.

Estimates of damage to property in the area ran into hundreds of thousands of dollars. (AP photo)

The program is as follows:
 Second Mazurka—Op. 54, No. 2—Godard
 Moonlight Sonata—Op. 27, No. 2—Beethoven
 Minute Waltz—Op. 64, No. 1—Chopin
 Patsy Lou Griffin
 Reading—Willie's Foreign Count-

try—Parcher
 Sarah Lou Armstrong, Littlefield
 Prelude in G Minor—Rachmaninoff
 Clair de lune—Debussy
 Two-Part Invention No. 8—Bach
 Patsy Lou Griffin
 Sonata Pathétique, Op. 13—Beethoven
 Harold Byers

Vocal: "Love Sends a Little of Roses"
 Helen Tibey
 The Flatterer, Op. 50—Chopin
 Sonata in B Flat—Chopin
 Prelude in C Sharp Minor, Op. No. 2—Rachmaninoff

when you drive FirePower

You will drive the most basically new car in 27 years!

NEW YORKER 4-DOOR SEDAN

180 HORSEPOWER

Here you see the central secret of FirePower's unmatched ability... the new Chrysler Hemispherical Combustion Chamber, heart of the finest motor car engine built today. In this dome-topped, clean-walled area, you see the only ideal combustion chamber in a motor car engine today... the only way to develop full combustion, full compression, full work and value from every drop of fuel!

FirePower specifications:
 180 hp at 4000 rpm; Bore and Stroke, 3-13/16 x 3-5/8; Piston Displacement, 331.1 cu. in.; Compression Ratio, 7.5 to 1.

WHETHER you can own one this year or not... you owe yourself a turn at the wheel of a new Chrysler for 1951. Here is basic progress so deep and so great you will feel its impact for years to come.

Here is FirePower... Chrysler's revolutionary new powerplant which at one and the same time gives you 180 horsepower... and the most efficient use of gasoline ever developed in a motor car. With FirePower, you can outperform any car on the road. Yet with FirePower you will have less carbon deposit, longer engine life, less need for care and attention, than with any engine you ever owned. Here, on all new Chryslers, is the comfort marvel of Oriflow, an exclusive new shock absorber with over twice the shock-absorbing power of any other car's.

Here, optional at extra cost, is the amazing new steering ease of Hydraguide power steering, the new Chrysler "first" that removes four-fifths of the human effort from steering. Here, with over 70 various changes this year—and with deep-down Chrysler goodness clear through—is the most basically new car you ever drove! For the thrill of a lifetime... come drive a Chrysler!

Chrysler FirePower > *Finest engine ever built in an automobile*

IDEAL MOTORS

XIT DRIVE and FIFTH STREET

LITTLEFIELD, TEXAS

SNOW-BLOOMING CAMELLIAS—Dmitri Vail, noted Texas portrait artist and sculptor, this week proved he is also something of a horticultural magician. With Mrs. Vail, above, the portraitist is shown in the garden of their fashionable Dallas home as he picks a number of full-blown blooms to provide Mrs. Vail with a corsage of her favorite variety of camellias before attending a concert of the Dallas Symphony Orchestra.

DALLAS, TEXAS, Feb. 8.—Dmitri Vail, distinguished southwestern portrait artist and sculptor, is also something of a botanist and inventor. This week, in Dallas, Texas, the noted portraitist who has painted many of the leading industrialists of this region, had a unique opportunity to test the efficiency of his horticultural experiments with his rare specie of camellias as the city's snowfall reached a depth of two and two-tenths inches.

For two days, sleet, hail, rain and snow had blanketed Dallas, and the mercury had, at one time, dropped to five above zero. But Mr. Vail was not visibly concerned about the welfare of the valuable and delicate Prince Eugene Napoleon camellias that bloom in the widely acclaimed gardens surrounding his home on Dallas' fashionable Armstrong Parkway. Later, however, it developed that the painter's seeming over-confidence was attributable to his faith in one of his inventions. He had ingeniously adapted to his purpose a product already on the market

but never before used to protect plants out-of-doors.

In effect, the contrivance consists of a thermostatically controlled series of electric heating cables which, properly installed in shelters of Mr. Vail's creation, provide plants with a normal degree of regulated warmth throughout the winter. At as low as 2 degrees above zero, Vail has been able to pick a dozen large, radiant blossoms of his favorite Prince Eugene Napoleon.

But this week, with heavy snow and ice covering his garden, the artist successfully put his ingenious contraption to the supreme test that has made him the envy of Dallas flower lovers. Just prior to leaving home with Mrs. Vail to attend a concert by the Dallas Symphony Orchestra, Vail, tail-coated and top-hatted took his wife to the snow-banked garden, reached into one of his heated shelters and with all the aplomb of a magician, produced five magnificent specimens of her most cherished variety of camellias as her corsage of the evening.
