## Reward of \$5000 is Offered In Search for B. E. Needles

A reward of \$5,000.00 has been announced for information leading Needles, tire dealer of Lubbock, probable amnesia victim, "dead or alive," who disappeared March 22, at Wichita Falls, where he made a trip on business. This reward was increased Thursday last from \$500 to \$5,000.

**Circulate Notice of Reward**

Picture postcards announcing the reward, and bearing a picture of Mr. Needles, are being circulated over much of the nation.

When last seen Mr. Needles is believed to have been wearing a square-cut gold-mounted ruby ring on the ring finger of the left hand, and probably carried a silver pocket watch mounted in a tire and on back of which was engraved "B. F. Goodrich Rubber Co." and wore gold-rimmed glasses.

**Physical Description Given**

A physical description of Mr. Needles is: 57 years old, 5 feet 7 inches tall, weighing 175 pounds, originally was reddish brown, blue eyes, thinning gray hair that

B. E. NEEDLES

pendicitis scar, and two upper front teeth loose.

**To File Claim with Sheriff**

Claims for the reward must be filed in writing by July 30, 1947, with Grady Harist, sheriff, Lub-

bock, Texas, who will be final judge of any claim and in his discretion may prorrate between claimants.

### Large Tire Distributor

Needles, Lubbock tire distributor before the war, reputedly was among the 20 largest distributors of tires in the nation from a standpoint of annual volume.

He registered at a modern tourist court, soon afterward telephoned Mrs. Needles from a pay phone of Kemp hotel, then vanished without any reported trace. No new clues have been found the past few days.

His locked car, with ignition keys in it, was found next the Wichita police station. His clothing—all that he had taken on the trip—was found in his tourist camp room, as were two empty bill-folds.

The family has held constantly to a belief that Needles, former city commissioner, was a victim of amnesia, but the "dead or alive" reference indicates its realistic attitude toward all possibilities.

## Mother-Daughter Tea April 29

In place of the annual Mother-Daughter banquet, the Home Economics Club is planning to have a Mother-Daughter tea Tuesday night, April 29, in the Home Economics Department; and at the same time to observe open house for the club members' mothers.

The Home Economics Department has been redecorated, and considerable new equipment added, including new electric refrigerator, 8 new Majestic Chef ranges, and new electric iron; and open house is being held so that the mothers may view the greatly improved home economics department.

According to Commissioner E. C. (Buck) Ross, the contractors' road machinery is now on the ground for the paving of the 41 miles of roads in District 1-A, and work will get started this week.

**U. S. IN DANGER . . .** William C. Bullitt, former ambassador to Moscow, told the house un-American activities committee that the Communist party in the U. S. is an agency of Russia working for an "ultimate assault" by the Soviet government.

## Commission Goes To Austin In Interest Of Lamb Roads

Judge O. H. Dent and the Commissioners met the first part of this week in Austin in the interest of House Bill 650, which came up Wednesday afternoon at 2:30, and which would, if passed, provide funds for farm-to-market roads in this county.

Ed Martin, engineer, and Judge Dent and Viggo Peterson left by plane Monday for Dallas, and from there went to Austin.

Commissioners E. C. (Buck) Ross, George C. Brown, Sam Cearley and Fred Wilson left here Tuesday.

A public discussion on the House Bill was scheduled to take place at 2:30 Wednesday afternoon.

In an interview with Judge Dent Saturday, he stated that 15 miles of farm-to-market road was under construction now; that 15 more miles in Lamb County were set up to start in June if this bill passed providing for the State's portion of the expense; and that other projects are contemplated if the money is forthcoming from the State.

Work will start sometime this week, according to Judge Dent, on the 41 miles in Road District 1-A as provided in the recent bond issue.

## Family Reunion Held At D. C. Lindley Home

A family reunion was enjoyed at the home of Mr. and Mrs. D. C. Lindley Sunday, March 30, when all members of the family were present to celebrate the birthday of Mr. D. C. Lindley, Sr.

Those present were: Mr. and Mrs. Leslie Curb and son, Jess David, of Raton, N. M.; Mr. and Mrs. R. G. Wilson, of Earth; Mr. and Mrs. Troy Kelsey and daughter, Torress, of Anton; D. C. Lindley, Jr., student at Wayland college; and Mr. and Mrs. Spencer McCarrie of Plainview, and Mr. and Mrs. D. C. Lindley, Sr.

A fried chicken dinner with all the trimmings was enjoyed.

## Will Also Take Figures on Street Work April 25

City Also Plans to Retop Existing Paving Over Town

Members of the City Commission met at the office of the City Secretary, W. G. Street, Thursday night, and canvassed the votes of the three elections held two days previously.

### Commission Sworn In

A. C. Chesher was declared elected mayor, and L. C. Hewitt and Lon Campbell, commissioners. They filed the oath of office and were sworn in.

The two elections Tuesday of last week for the authorization of bonds, one issue for street improvements, and the other for park improvements, were declared carried by the City Commission.

**To Receive Bids on Bonds April 14**

It was decided by the body to receive bids for the sale of bonds in both matters on Monday, April 14, at 2 o'clock p. m. at the office of the City Secretary.

**To Receive Paving Bids April 25**

It was also decided to receive bids on the paving work on Friday, April 25, at 2 o'clock p. m.; and also bids for a seal coat on the existing paving over the entire city.

## J. L. Warner Buys Winningham Grocery

J. L. Warner of Littlefield has purchased the Winningham Grocery, and took possession April 1.

Assisting in the operation of the business will be Mrs. Warner; also, Mrs. C. E. Cowan and A. K. Hood, the latter an experienced butcher.

Mr. Warner has been a resident of Littlefield for the past four years, coming here from Hale Center, where he was in business a number of years, and lived in Hale Center and vicinity since 1908. He was connected with local stores, in charge of markets, for the past four years.

and George Brown will attend the Judges and Commissioners Convention at Mineral Wells, which convenes Thursday, Friday and Saturday.

Judge Dent and the commissioners went to Austin in connection with road matters.

John Schmidly of Whitharral was admitted to the Lubbock Memorial hospital Monday to have his right leg operated on. He is suffering from a varicose vein condition.

## To Attend Meeting at Mineral Wells

Enroute back to Littlefield from Austin, Judge O. H. Dent and Commissioners Sam Cearley, Fred Wilson

**ALL IN ONE BASKET . . .** A bonnet and basket all in one is the latest product of female ingenuity. This bonnet, made from an ordinary basket and a few wisps of ribbon, created quite a stir at the spring fashion show staged by Peter Bond in New York. This basket could be used for carrying home the groceries—or when not needed for this purpose, it can be worn on the head.

## "Womanless Wedding" To Be Presented Tuesday, April 15

The "Womanless Wedding," sponsored by the Home Economics Club, will be held Tuesday night, April 15, opening at 8:30 o'clock.

Billy Hall will play the part of bride, Archie Dale as groom; Mr. Dale's mother, and Ed Packwood the bride's father.

Tickets are 50 and 35 cents; and the money derived from the play will go towards defraying expenses of the Mother-Daughter tea to be held April 29, and to pay for silverware, linen and dishes for the Home Economics Department.

The United Nations Commission investigating disturbances on the borders of Greece is nearing the end of its fact-finding journey which, sometimes by mule-back and jeep, has taken it through the heart of the snow-bound Balkans. Here the Commission is questioning one of the hundreds of witnesses heard on the spot, a political prisoner in the Pavlos Melos internment camp near the Greek city of Salonika.

Schools of the world's war-torn nations have staggering rehabilitation requirements. A typically overcrowded, badly-equipped school in Europe is shown here. To bring such schools

back to normal, the United Nations Educational, Scientific and Cultural Organization (UNESCO) with the help of 53 voluntary international organizations is campaigning for \$100,000,000 in aid.

Democratic leaders are urging liberal support of this year's Jefferson Day Campaign in Texas, which is now well under way, with Robert L. Clark of Dallas, brother of Attorney General Tom C. Clark, as chairman. Col. Myron G. Blalock of Marshall, Democratic National Committeeman, announces that the campaign will end with a Jefferson Day Dinner in Dallas Saturday, April 5, to which subscribers to the funds of the Democratic National Committee will be invited. Pictured above making plans for the appointment of county campaign chairmen are, left to right, Mr. Clark; Mrs. P. H. Weinert of Seaguin, Democratic National Committeewoman; Col. Blalock; Robert W. **IMMENSE INCREASE IN FIRE LOSSES**

Committees of experts preparing data for the President's Conference on Fire Prevention are faced with the fact that America's fire losses for 1947 are rising. Losses for the first two months of this year already have exceeded last year's losses for the same period by more than 20 per cent.

Losses so far this year totaled \$121,939,000. Losses for the 12 months ended February 28, 1947, were \$581,347,000, the greatest this country has ever known. This exceeded by nearly \$20,000,000 the highest annual fire waste the nation has ever experienced—\$561,980,000.

No fire disaster has taken a large toll of lives in 1947 to compare with the tragedies of the Winecoff and La Salle hotel fires last year. Yet the death toll is mounting steadily because of the thousands of smaller fires occurred throughout the country.

The fire prevention conference, which President Truman has called in Washington on May 6, 7 and 8, will be the first organized national effort ever made to combat the fire menace that delays recovery after every war. State and municipal authorities will join with fire protection experts, scientists and others in studying ways to reduce the death toll and keep property damage at a minimum. Fire experts say that, if losses follow the same trend as they did after World War I, the destruction will reach a billion dollars a year by 1953.

To gather data for the conference, the coordinating committee appointed by the President is conducting a nation-wide survey of fires, their causes and fire losses over the last five years. More than 4,000 cities are included in this survey. Data are being obtained through the fire department in each city.

Work of the conference is being done by six committees—building construction, fire prevention education, fire-fighting services, laws and law enforcement, organized public support and research. These committees' reports will form the basis for the conference work.

Major General Philip B. Fleming, Federal Works administrator and administrator of the Office of Temporary Controls, who has been appointed general chairman of the Fire Prevention Conference, is directing the assembly of data on which the conference will act.

LITTLEFIELD

**Alexander and Lonnie Wyatt Establish Lumber Supply Company in Littlefield**

Alexander and Lonnie Wyatt established the Alexander and Wyatt Company, builders' supply, in Littlefield formerly occupied by the building formerly occupied by the building, and are now open for business.

These men are well known in Littlefield. Mr. Alexander has been in Littlefield for the past 15 years. He was employed with the Galbraith Lumber Company of Littlefield for six years and, for a number of years, with a local lumber company.

Wyatt has been a resident of Littlefield for the past 10 years. He spent some 20 months in the service with the Infantry, and was stationed in the Philippines for 15 months. He was discharged Nov. 2, 1946. He was connected with the Cameron Lumber Company for eight years previous to going into the service. He is married and has a young daughter, Bettye Sue, aged 6.

The new firm is carrying a large stock of wallpaper, paint, Venetian blinds, linoleum rubs and linoleum by the yard; asphalt tile, glass and sun-

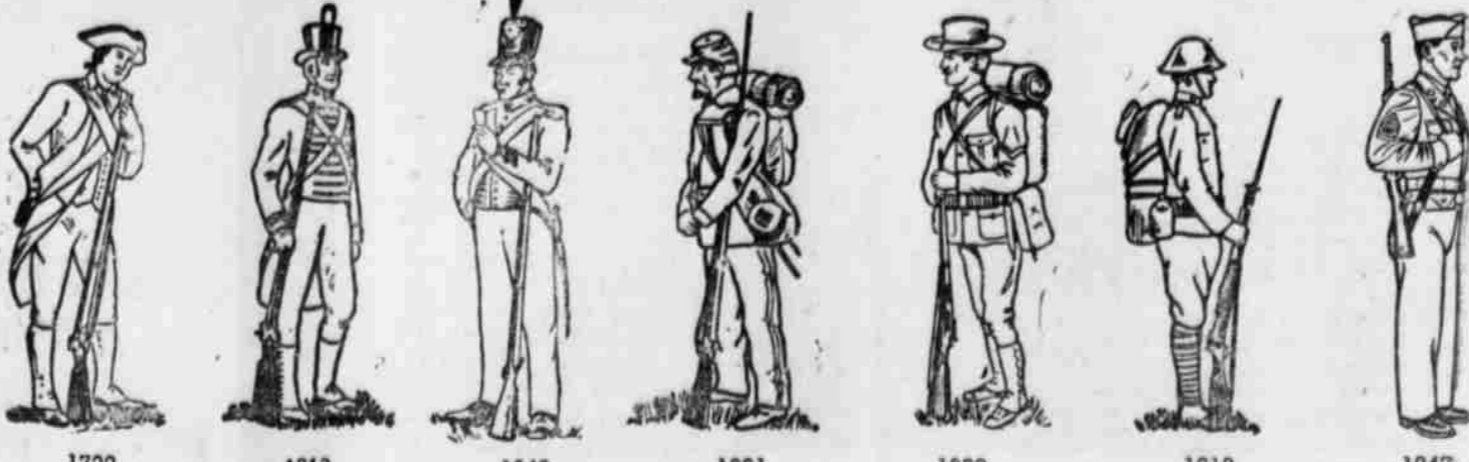

**AMERICAN KIDS IN GERMANY . . .** Children of American army personnel are looking at the ruins of the German Reichstag, which now serve as the tombstone for the Nazi hopes of world domination. It was the burning of the Reichstag (now known to have been inside job—a party job) that gave Hitler the excuse to grab power. The bombs wrought the real destruction of the building.

**UNCOVERED IN 'MYSTERY HOUSE' . . .** In the rubbish in the brownstone Fifth Avenue mansion of Langley and Homer Collyer, reclusive others who have lived like hermits for almost 40 years, was this poster of more than two decades ago, urging the election of Alfred E. Smith as governor of New York. Police were digging through the junk-packed "mystery house" in search for Langley Collyer.

**THIS** dressy white Irish linen blouse is the perfect complement to your new spring suit. Lovely open-work lace forms the tailored collar and cuffs, a demure tailored bow lies beneath the wing tips of the collar. Trim pleating gives the front an extra tailored chic. Fragile and feminine this blouse appears, it is practical for Irish linen can be tubbed frequently and still retain its freshness and original sheen.

**EVOLUTION OF UNIFORM AND EQUIPMENT OF THE U. S. ARMY INFANTRYMAN**—The progress of the United States in providing for its national defense is pictured graphically in the sketches above. The pitifully small but courageous force mustered by the new government in 1790 paraded in cocked hat and long-tailed coat and carried the ancient flintlock musket. In the War of 1812 the uniform was improved but the flintlock remained, except for Jackson's famous riflemen in New Orleans. The percussion musket, along with the rifle, came in 1846 late in the Mexican War, when a conspicuous uniform and a cockaded cap made the soldier a perfect target. In the War Between the States the same long-barreled rifle remained. The uniform was blue, a color that was popular with the quartermasters as well as writers of war songs, until khaki was introduced in the Spanish-American War in 1898. The breechloader and repeating rifle came in during the Indian campaigns in the 1870s. World War I saw amazing improvements both in uniform and equipment. Infantry units embraced machine gun platoons and the new steel helmet was of practical service. The sketch labeled 1947 was made from a photograph of a soldier in the latest outfit, with battle jacket and overseas cap. The color is "O.D. 33", a shade of olive drab. The sketch shows a carbine, but the infantryman may also carry the M-1 rifle and hand grenades, and among his comrades are teams trained in the use of the machine gun, the bazooka, the tommygun, automatic rifle, etc.

### R. L. Livingston Passes Away

Richard Len Livingston, 62, father of Mrs. Alvin Bagwell and Mrs. C. Le Bouef, of this city, passed away at 1 a.m. Saturday at a local hospital, as the result of encephalomalacia, a brain ailment, from which he had been suffering for the past two weeks.

The remains were taken overland, by Hammons Funeral Home, to Frederick, Okla., leaving here Saturday afternoon. Funeral services were conducted at the Gish Funeral Home at Frederick at 3 o'clock Sunday afternoon, and interment took place in the Frederick cemetery.

Mrs. Alvin Bagwell, who underwent a major operation at a Lubbock hospital recently, is still a patient at the hospital, and was unable to attend the funeral services for her father.

Mr. and Mrs. Le Bouef and Mr. Bagwell left here Saturday morning for Frederick.

Mr. Livingston was born in Alabama on June 9, 1884, and was a retired farmer.

### Last Rites Held Thursday For Mrs. J. D. Nelson

Mrs. J. D. Wilson, 19, of Plainview, passed away Tuesday night, April 1, at the Plainview Sanitarium, after a two-months' long fight for life. Funeral services were held Thursday afternoon at 3 o'clock at the First Methodist Church in Plainview. Rev. H. R. Gilbreath, Plainview, and Rev. Berry Baker, Amherst, both Methodist ministers, officiated.

Mrs. Wilson gave birth two months ago to a daughter at the Plainview hospital. The baby weighed only 25 ounces and physicians held little hope for its survival. But the baby clung to life tenaciously and is now a thriving youngster.

The mother fought for life, too, but a weak heart and other complications persisted despite every effort of physicians. She lived probably mostly through sheer will, several weeks longer than at first was believed possible.

Survivors are her husband and daughter; her mother, Mrs. Lenora

### Gene Autry Comes to Lubbock June 11

The South Plains will have the opportunity of seeing Gene Autry and his famous horse, "Champ, Jr.," when they appear with Everett Colburn's rodeo at Lubbock, June 11-14, in the same RCA approved show presented each in Madison Square Garden, New York.

The rodeo is an annual event, sponsored by the Lubbock American Business club, for the purpose of raising funds to finance the building and expansion program of the Lubbock Boys' club.

Autry's Lubbock appearance will be one of the seven he will make this year outside of California. The western screen and radio star will also make his regular weekly broadcast over the Columbia Broadcasting System from Lubbock the following day.

Colburn, whose headquarters are at Dublin, Texas, is widely known in rodeo circles as the producer of top-notch performances with the best hands in the business.

The rodeo probably will be held in the present football stadium at Texas Technological college.

Why the difference? Fred and Howard started out with the same number of acres and the same amount of money.

Fred often admires Howard's prosperous farm, but seems to have forgotten that he "waited another year" even though Howard bought his Wintroath pump right off. He hasn't forgotten how much money he lost, though, as a result of that bad first year with the long dry spell. Every year he fell farther behind.

Don't take a chance like Fred did and "wait another year!" Be sure of enough water THIS YEAR! Check into the many

economical features of Wintroath pumps! Now on display.

Blind since he was shot down in one of the early Fortress raids over Germany, John Paul Moriarty has returned to work at the Timken Roller Bearing Co.'s Canton plant, thanks to a war-time developed electronic gauge which enables blind workers to inspect precision parts as rapidly and efficiently as a sighted person. Timken officials said they began working on the development as part of a plan designed to provide postwar jobs for handicapped veterans. Leaders in rehabilitation work hail this as a far reaching step in their program to make the handicapped independent and self-supporting. The gauging machine now operated by the veteran uses sound as a substitute for sight. By distinguishing between oscillating notes on a small loudspeaker, attached to the machine, the blind operator is able to tell whether the bearing being measured is proper or defective. The smiling Moriarty, except that he wears a red cap, would not be noticed by the visitor. The girls working on the same production line have only one complaint,—he works too fast. Moriarty and his wife, Catherine, have three children, Cecelia, age 21 months, and the twins, Kathleen and Maureen, now one-year-old.

Cotton declined around \$3.25 to \$4.50 per bale last week. Spot markets remained rather quiet but more active than in recent weeks. All sources bought mainly to take care of immediate needs only.

Grain markets described a steady downward trend last week, as demand slowed, and offerings became more plentiful. Wheat closed Thursday at around \$2.75 per bushel for No. 1 hard at Fort Worth and Galveston; white corn, \$1.98; yellow corn, \$1.94; barley, \$1.54; and oats, \$1.01 to \$1.03. # This Month We Commemorate Our First

# Twenty years in west Texas

The above map shows the area we serve. "Fastest-growing section of the U.S.A."

Counting from the founding of our company, we mark our twentieth birthday this month—on April 14, to be exact.

We mention our birthday, not because we feel deserving of any particular acclaim for having attained twenty years of age, or for having served well for nearly that long. Rather, we mention it because these twenty years have witnessed such a tremendous development of the territory we serve. We believe it's the fastest-growing part of the nation. And we sincerely believe, too, that the availability of good Natural Gas Service is contributing substantially to this rapid development.

We express our appreciation for the thousands of fine friendships that have grown up between us and the people of west Texas. We shall strive to hold and deepen these friendships, and to make many more, during our next twenty years.

Some of these are larger and have wider activities than others, but all are charged with the duty of assisting veterans and their dependents.

Q. What identification data should I give in writing about my claim for benefits administered by the Veterans Administration?

A. If you are making application you should give your full name, grade, organization, serial number, date of entrance into service, date of discharge, and date and place of birth. After the claim is filed it will be assigned a claim number which should be mentioned in all subsequent communications.

Q. Why is it that National Service Life Insurance premiums are so low, yet there are no restrictions as to occupation, travel or residence?

A. Premiums are kept at a minimum because all operating expenses and all excess costs resulting from death or total disability traceable to the extra hazard of the military or naval service are borne by the government and paid from separate appropriations.

Q. I would like to reinstate my

National Service Life Insurance term policy which lapsed in 1945, and would like to know how to go about it?

A. Through Aug. 1, 1947, the requirements to reinstate a term policy up to and including Aug. 1, 1947, regardless of the date of lapse, are the payment of only two monthly premiums and a signed statement that you are in as good health as you were on the date of such lapse. Such statement of comparative health ordinarily will be acceptable. You can obtain an application for reinstatement at any Veterans Administration office.

Q. What is the due date of my premium on my National Service Life Insurance policy?

A. The date on which a premium is due is the same date in the month as that on which the insurance originally was made effective. This is on the insurance certificate.

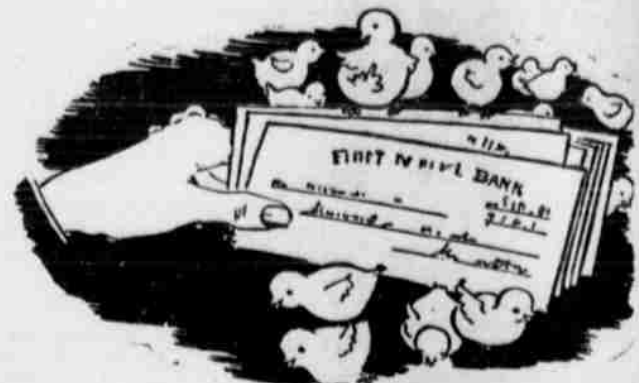

Q. My National Service Life Insurance premiums have been waived due to a total disability. Can I convert my term insurance to a permanent plan and still have my premiums waived?

A. You have the privilege of converting to ordinary life, 20-payment life, or 30-payment life and the waiver of premiums will remain in effect as long as you are totally disabled.

National Service Life Insurance carries no restrictions on the residence, travel or occupation of insured veterans, Veterans Administration says.

Sanitation and Disease  
Control On the Farm

Livestock health authorities this week announced April 6-12 as the dates for the nation's annual "Farm Cleanup Week," designed to help control livestock diseases and parasites and step up 1947 farm production.

With an immediate program of "common-sense measures for sanitation and disease control on the farm," the American Foundation for Animal Health declared that farmers can increase their livestock profits substantially by joining in these spring cleanup measures:

"Clean and disinfect livestock quarters, particularly where young animals or poultry are to be born or housed.

"Clean up barnyards and livestock lots and haul out all manure. Old yards and manure piles are often heavily infested with parasites.

"Drain or fence off low spots in barn lots; germs and parasites thrive in stagnant water.

"Remove old straw stacks; they harbor parasites and germs. Scatter the straw on fields.

"Pick up nails, glass and other sharp objects which can cause cuts and bruises, or might be swallowed by livestock with fatal results.

"Move young animals to fresh, clean ground as early as possible. As further protection against disease, have pigs vaccinated against cholera, and against erysipelas in erysipelas areas."

Livestock organizations and farm groups throughout the nation are being invited to cooperate in observing cleanup week this year, authorities said.

GEMS OF THOUGHT

Hospitality consists in a little fire, a little food, and an immense quiet.—Emerson.

Like many other virtues, hospitality is practiced, in its perfection, by the poor.—Mrs. Kirkland.

He who is afraid of being too generous has lost the power of being magnanimous. The best man or woman is the most unselfed.—Mary Baker Eddy.

In good company, you need not ask who is the master of the feast. The man who sits in the lowest place, and who is always industrious in helping everyone, is certainly the man.—David Hume.

Men of the noblest dispositions think themselves happiest when others share their happiness with them.—Duncan.

If a man be gracious to strangers, it shows that he is a citizen of the world, and his heart is no island, cut off from other islands, but a continent that joins them.—Bacon.

The strongest principle of growth lies in human choice.—George Eliot.

The measure of choosing well, is, whether a man likes and finds good in what he has chosen.—Lamb.

Choose always the way that seems the best, however rough it may be; custom will soon render it easy and agreeable.—Pythagoras.

The objects we pursue and the spirit we manifest reveal our standpoint, and show what we are winning.—Mary Baker Eddy.

Annual McMurry  
College Spring  
Meeting April 10

Lamb county residents who are members of the McMurry College Alumni and Ex-Students Association have been invited to return to the campus at Abilene, April 10, to meet for the first time in a building which they sponsored and saw opened this spring—the \$135,000 Iris Graham Memorial dining hall.

It will be the annual spring meeting for the association, and is expected to attract several hundred McMurrans, Dr. Bruce Johnson, Lubbock physician, and president, said this week.

The new structure, said by educators and builders to be the finest of its kind in Texas, handles a peak load of 1500 persons an hour for meals, and seats 400 at one time.

lege available only to veterans. It is backed by the United States Government."

The new law gives the Administration authority to determine the conditions of reinstatement by Administrative Regulation.

General Omar N. Bradley, Administrator of Veterans Affairs immediately announced that National Service Life Insurance term policies which have lapsed at any time may be reinstated by payment of two monthly premiums provided the holders are in as good health as they were at the time of lapse.

These liberal reinstatement provisions will remain in effect until August 1, 1947. Previously a deadline of February 1, 1947 had been set for such reinstatements on a comparative health basis.

Under the new law a veteran may obtain any permanent National Service Life Insurance plan from the VA without the necessity of previously holding term insurance.

Under the old law VA was required to issue National Service Life Insurance originally on a term plan and it had to be carried on that basis for one year before it could be converted to a permanent plan.

The new act provides in certain cases for automatic conversion of term insurance to a permanent plan for policy holders who are totally disabled. Under the old law if they failed to convert within the term period their insurance protection ceased.

All National Service Life Insurance policies provide for a waiver of premiums for veterans who become totally disabled for six or more consecutive months. Even though premiums are being waived those veterans can convert their term policies to all types of permanent insurance except that for an endowment plan. The premiums will be waived during continuance of the total disability.

The term plan of National Service Life Insurance administered by Veterans Administration provides the maximum degree of temporary protection at the lowest cost.

From where I sit... by Joe Marsh

And That Ain't Hay  
—Or Is It?

I guess all of us secretly hanker, from time to time, for the good old days and the good old-fashioned pleasures. Leastways, Buddy Richards done a thriving business reviving the old-time hayride.

With a team of horses, and a stout straw-bedded rack, Buddy can take as many as thirty adults—at fifty cents a head!

Two or three times a week they start from Town Hall, and go out along the river; stop for a friendly glass of beer at Shoreside Tavern;

and come home by way of Pound Ridge . . . nine miles in all.

Not very exciting, you might say. But from where I sit it's not excitement that we need these days—but those simple country pleasures that are part and parcel of America—the old-fashioned hayride, with its song and jollity; the horseshoe games; the friendly glass of beer; and the good companionship that they engender.

## Announces Details of \$20,000,000 Price Reductions

Details of the recently announced International Harvester policy of making price reductions to save users of our products approximately \$20,000,000 a year have now been worked out.

We have reduced prices on 163 models. These cover 12 basic models of farm tractors, 123 basic models of farm machines, 16 basic models of industrial tractors and engines, and 12 models of motor trucks, as well as certain motor truck attachments. The new lower prices are effective as of March 10, 1947.

These reductions were made not because of any decline in demand, but because we believe nothing is more important to this country than to lower the prices of the goods people buy.

While prices have not been changed on all products, we have made reductions wherever possible, in the amounts possible. Prices of many of our most popular products have been substantially lowered.

Altogether, more than half of the company's customers will be benefited by the reductions, which range from 1% to 23.8% and from \$2.50 to \$300 per item, based on list prices, F.O.B. Chicago.

Since the people have demanded that the government withdraw from price control in peacetime, the responsibility to keep prices in check is back where it should be—in the hands of business and industry. The business outlook makes it possible for us to move toward the goal of lower prices, and we have felt a duty to act as promptly as possible.

Our ability to maintain these lower prices will depend on the supply and price of materials we buy from others and on uninterrupted production at reasonable wage levels.

The prices listed here carry out our announced policy that "Any price is too high if it can be reduced."

Farm Markets . . .

(Continued from Page 1—Sec. 2) were suspended for the time being. Bran, shorts, and cottonseed meal fell about \$4 per ton, but meat scraps and gliter feed and meal advanced an equal amount. Hay quotations moved up \$2 per ton. Seed peanut demand picked up in all major peanut areas. Soured Texas and pulled fine wools found some demand, but price uncertainty retarded buying.

Cattle commanded generally steady to higher prices last week. Medium and good cows brought \$12.50 to \$16.25 at San Antonio; and \$13 to \$15 at Fort Worth. Good cows moved at \$14.50 to \$15.50 at Houston; \$15 to \$16 at Wichita; and \$16 to \$17 at Oklahoma City. Medium to good yearlings cashed at \$18 to \$19 at Houston; and \$17.50 to \$21.65 at San Antonio. Medium to good steers and yearlings cleared at \$18 to \$23 at Fort Worth; \$19 to \$23 at Oklahoma City and Wichita; and \$19.75 to \$24.50 at Denver.

Hogs ruled steady to 50 cents higher at Texas points, and 50 cents to \$1.25 up at other southwest terminals. Closing bulk of good and choice butcher hogs cleared at \$25 to \$25.50 at Fort Worth; and \$26.50 to \$27 at Denver. Closing top was \$26.75 at Oklahoma City; and \$27.10 at Wichita. San Antonio's top for the week was \$24.

Sheep and lambs sold steady to mostly 50 cents higher at southwest markets last week. Choice spring lambs brought \$22.50 at San Antonio; and \$24 at Oklahoma City and Denver. Good and choice kinds moved at \$22 to \$23.50 at Fort Worth; and \$23 at Wichita.

GRANDMOTHER A STOWAWAY . . . Mrs. Grace Albanese, Italian-American wife of a Bronx, N. Y., grocer, as she arrived aboard the army-operated American liner Marine Perch—a stowaway. Mrs. Albanese sailed to Italy last November to visit her falling mother and her married son, Tony, a sailor, who won a Silver Star in action. Stranded after four months, she walked aboard the Marine Perch in Genoa. The adventurous grandmother arrived wearing a navy jacket, on which she sewed her navy son's service insignia.

Owners' Verdict Is Most Gratifying To Chrysler Corporation

"With many thousands of postwar Chrysler cars in the hands of owners and an aggregate driving experience of millions of miles attained, it now can be said definitely that public acceptance of our current models is the most enthusiastic in our history," says Stewart W. Munroe, general sales manager of the Chrysler Division, Chrysler Corporation.

"Of course, we knew when the car was introduced that it was thoroughly qualified to win a place in public esteem. Every conceivable test in Chrysler Corporation's engineering laboratories and on the road, including numerous trans-continental trips, which had subjected it to all manner of difficult driving conditions imposed by extremes of temperature, bad roads, steep grades, heavy traffic and other punishing factors, had proved that. We knew that it had been endowed with more improvements over the preceding model than ever before had been incorporated in a single model change.

"But, regardless of the severity and diversity of the tests made by the manufacturer, the final verdict on any automobile rests in the hands of the public. Consequently, we never consider a new model a complete success until it has been driven by all sorts of owners under all sorts of conditions. It is thus extremely gratifying to have this public verdict expressed in such glowing terms of approbation.

"It is all the more gratifying in that earlier in the model year there

was some loose talk to the effect that postwar cars were not so good as those immediately preceding them. It was said by some few misinformed persons that manufacturers, in their haste to get into production, were using less than their customary care in building cars. Such reports not only were unfounded but were absurd on their face, because manufacturers are as keenly jealous of their competitive position as they ever were, and as keenly aware of the danger to their good name should they break faith with the public.

"It would be miraculous, with some 2,000,000 cars produced in 1946, if some minor defect did not occur in a few individual vehicles. After all, automobiles are produced by human beings and no way yet has been found entirely to eliminate the element of human fallibility. But an indictment against the whole postwar product because of the few exceptions that prove the rule is totally unwarranted.

"We have had an unusually good opportunity for checking public reaction lately through a survey of Chrysler owners in six large cities. This sample of opinion covered thousands of individuals. These owners were asked to fill in a form giving their reactions to the car. Never before had we received such warm praise, in spite of the fact that the questionnaire was a frank invitation to record adverse as well as favorable opinions—and the general tendency is for a dissatisfied owner to take more trouble to express himself than will be taken by a happy one. The overwhelming preponderance of praise in this survey would be less than believable unless there had been an occasional mild complaint. There

A new \$250,000 boys' dormitory is nearing completion. A girls' dormitory will be built, and the main buildings will be remodeled and enlarged.

is a small percentage of the public that will refuse to give its complete approval to anything. But these complaints were very, very few and on very minor matters that could readily be adjusted.

"Chrysler owners have been particularly enthusiastic over our new hydraulically-operated transmission introduced in the postwar models. They find that this improved transmission brings out the very best in our long-established gyroil Fluid Drive, giving greater versatility and flexibility in performance and eliminating the necessity for using the clutch under all ordinary driving conditions except when reversing. Our full-flow oil filter, an exclusive standard feature on our current models, also is meeting with great success."

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
  - 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.
- Try Cardul. If it helps, you'll be glad you did.

The number of disabled veterans awaiting induction into training for vocational rehabilitation continued to decline during January, 1947, Veterans Administration said. National Service Life Insurance proceeds are exempt from creditors' claims against the insured or the beneficiary, Veterans Administration says.
