LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, OCTOBER 14, 1926.

NO. 26

## TWO DROWNED IN LOCKNEY LAKE LAST SATURDAY

LOCKNEY, Oct. 9.—Martin Allen, and Fred Allen, 16, were drowned this afternoon in the Allen lake five and one half miles from Lockney. The boys, in company with Melvin Walters and Wood Allen had constructed a raft of cans and lumber and had had a boat ride on the lake, which was more than half a mile wide. When they reached the center of the lake Martin Allen decided to take a swim in water about a foot over his head. His younger brother seeing he was in difficulty went to his aid and both boys drowned.

Other boys swam to the bank and spread the alarm and neighbors more than one hundred Lockney turned out to find the bodies. The body of Martin Allen was found. Frank Jones, diving brought his body to the surface. Herbert Nichols immediately brought the body of Alfred Allen to the surface. The bodies were within inches of each other when they were found.

The dead boys are sons of Mrs. W. W. Allen, who lives in the Chappel school house, five miles north of Lockney. No funeral arrangements have been made at this time.

## COMMERCIAL BODY AN IMPORTANT MEETING TUESDAY

There was a full representation of members of Commerce directors at meeting held Tuesday noon, and first item of business transacted to clean up the premium list for present community fair held here. Committees were appointed for the fair by President Chesler.

It was stated that as a result of correspondence between President and Supt. J. F. Anton, of Santa Fe system, the railroad's plan was here Monday relative to drainage about the company's property in Littlefield.

Mr. Shaw made a report of the exhibits sent various fairs. He discussed the difficulties of securing space and then of getting the desired products for exhibit, the there was abundance of such in the community. At Lubbock the Lamb county exhibit took seventh place, at the Austin fair Lamb county ranked second place. The report at Dallas fair has not yet been received.

It was stated that there were 61 exhibits at the Dallas fair, more than at any previous year of the fair. His opinion was that first place would be between Garza and Henderson, and that Lamb county would come trailing along about the middle.

In appearance and arrangement the Lamb county exhibit equal to any of the others, but there were several items on the exhibit which could not fill, also he received 25 points for failure to

## PUMPHREY HOME BURNED. Fire Department Did Good Work. Loss is Unknown.

Again the Littlefield fire department is to be highly commended for its excellent fire fighting skill.

Tuesday morning an alarm was sent out from the home of H. C. Pumphrey on the west edge of town and the fire boys spent little time arriving at the scene. As the engine arrived smoke was coming through the shingle roof and a total loss seemed evident, but immediately they covered the openings in the house where a draft might enter and spread the flames, and the chemical from the engine soon extinguished the fire. Mr. Pumphrey was the only one at home, his family having gone to town.

The origin of the fire was unknown, but it was believed it started from matches in the kitchen cabinet probably becoming ignited.

The amount of damage has not yet been estimated, but there was considerable damage done by smoke and water.

arrive with exhibit on time. A vote of thanks was extended Mr. Shaw by the Board for the interest and activity he had manifest in these various fair showings. A vote of thanks and appreciation was also extended H. C. Pumphrey, local Santa Fe agent, for courtesies shown the fair committee in shipment of the various exhibits.

On vote of the body it was decided that the local commercial body would co-operate with the International Harvester Company in arranging a series of lectures to be held by their agriculture lyceum group in Littlefield. This series of lectures will be within the next sixty days and are of great value to all persons living in an agricultural community, and especially to the farmers.

Mrs. W. G. Street and Chas. Harless, representing the Women's Study Club, of Littlefield, were present and proposed putting on a "Flappers Contest" in co-operation with the Chamber of Commerce. It was stated that all the flappers would be men wherein the flappers would all be dressed in the latest ludicrous designs decreed by ultra-fashionable classics. Various prizes will be offered, and it is probable the show will be held in the Palace theatre, the date of which has not yet been determined.

## NEW DODGE AGENCY.

Boggs Motor Company Opened for Business Here this Week.

The Boggs Motor Company, a new firm now located in Littlefield, opened the doors of the building formerly occupied by Crockett-Blair Motor Co., this week, and the Dodge car will be handled exclusively. From three to four show cars will be on the floor of the sales room at all times and Dodge service will be rendered from the Littlefield Service Station garage located just back of the sales room.

J. B. Cardwell, of the Royalty Motor Co., Plainview, is here this week getting things in shape to carry a full line of parts. He states that it is possible that a building will be erected here in the future adequate in size for a sales room and garage.

George E. Boggs, formerly of Kauffman, but who for the past few months has been located at Plainview, will have charge of the management of the new firm.

## WILSON CHURCH DEDICATED.

Pastor and Members of Local Church in Attendance.

Rev. C. E. Ahlbrand and several members of the local Lutheran church attended the dedication of the Lutheran church at Wilson last Sunday.

The dedicatory sermon was preached by Rev. J. H. Sieck, pastor at Canyon, and the dedication service conducted by Rev. Ahlbrand.

Among those attending from Littlefield were D. B. Beisel and daughter, Miss Martha; Dave Beisel and family, Paul Manthey and wife, John Stockinger, Miss Louise Stockinger, Miss Hattie Huse, A. R. Kelm and family, Amel Timian and Rev. Ahlbrand.

The first Spanish settlements in Texas were made in the vicinity of Nacogdoches in 1716.

## NOTHING COULD BE SLICKER

By A. B. CHAPIN

## MATTHEWS & COX COMING HERE FOR REVIVAL IN JAN.

Rev. C. E. Matthews, pastor of Travis Avenue Baptist church, Fort Worth, and Prof. Jerry Cox, former music director of the same church, will be in Littlefield some time during the month of January for the purpose of conducting a revival meeting for the local Baptist church.

These men were here about two years ago in a revival meeting which was generally conceded to be the best one ever held in Littlefield. Rev. Matthews is an excellent Christian gentleman, a forceful speaker, sincere, logical and well balanced in all his utterances and void of the extraneous and flamboyant methods that sometimes characterizes traveling evangelists. He is a gentleman who wins people to the Church not only through his forceful and convincing preaching, but also through his own pleasing personal character and sincere contact with his fellowman.

Prof. Cox has conducted the music for two revival meetings in Littlefield, and his good work is too widely and favorably known to need commendation. He is an excellent soloist and one of the best chorus leaders of the state, while his genial personality and consecrated Christian life wins friends for him and adherents to the cause he represents wherever he goes.

## CUNDIFF CONGRATULATED.

State Comptroller Commends Local Tax Assessor's Report.

E. C. Cundiff, Lamb county tax assessor, is this week patting himself on the back as result of a very commendable letter received from State Comptroller S. G. Terrell, of Austin.

Mr. Terrell takes occasion to compliment Mr. Cundiff very highly upon the quality and correctness of his report, there being only two slight errors discovered in the rechecking, which speaks pretty good for the local accountant, since the report embraces about \$7,000,000.00 divided into ten different funds.

## JONES BABY DIES.

Velma Imogene, age 9 months and 20 days, daughter of Mr. and Mrs. R. L. Jones, died at the family home four miles west of Littlefield early Tuesday morning. Funeral services were held Tuesday afternoon at the Littlefield cemetery where interment was made.

Don't be disappointed with mail order houses.

## GAS IN WHICKER WELL MAKES BAD FOR THE DRILLERS

"There is no question about there being plenty of water in the Bledsoe vicinity," said R. S. Thomas Monday morning, when questioned regarding the progress of the Whicker oil well. At 295 feet the drillers have struck a stream of water, 22 inches in diameter, that raised 60 feet in the well, and which the driller declares would pump 100 barrels per hour without diminishing, according to Mr. Thomas.

This week the water is being cased off and the 20-inch casing is being set. The gas struck in the well last week was also cased off, and the drill is being sent on down to locate the oil which is confidently believed to be in that vicinity.

Bulletins of the progress of the well are now being posted daily at the local office of the Whicker Land Co.

Wednesday morning it was reported that the gas in the well was bubbling so strongly below that it had become so offensive the drillers could scarcely stand over the hole to work the tools, and it was thought gas masks would have to be resorted to in order to continue the drilling. Great precaution is being taken regarding smoking or fire of any kind about the rig, as present indications are that this seepage is from heavy gas pressure a few feet farther down and which may break forth at any time. The drillers are now working day and night shifts.

It is said that practically all the land around this well is now leased, and the leasing is continuing rapidly into Lea county, New Mexico. Some of the Bledsoe leases have already been changing hands at increased values.

## BANK MAKES LOANS.

\$20,000.00 Approved by Federal Inspector Last Week.

Fred Graham, official inspector for the Federal Land Bank, was in Littlefield last week inspecting property in this section and approved loan applications totaling \$20,000.00, according to E. C. Cundiff, secretary of the local organization.

Cundiff states that land in this vicinity is due for a higher valuation by the government and such is expected in the near future.

Grated raw carrots may be served in salads with other raw vegetables. Combinations such as raw carrot, cabbage, turnip, celery, green pepper, and onion, in almost any preferred proportions, are recommended because of their high vitamin content.

## MISTLETOE AND SWIFT GIVE TO LFD. STOCK SHOW

When outside business firms put their money into the development of any given community it is indisputable evidence of their confidence in that particular section. When such concerns lend their co-operation in a financial way toward the promotion of trades days, community fairs, etc., it is concrete proof of their faith in such occasions.

Of the \$82.50 given in premium at the Littlefield Trades Day and Stock Show given two weeks ago, E. C. Cundiff, manager, reports that nearly half that amount was contributed by business concerns outside the city, \$25 being given by the Mistletoe Creamery and \$15 by Swift & Co. Local contributors to the fund were Littlefield Coal & Grain Co., \$5; J. T. Bellomy Produce Co., \$5; Littlefield Chamber of Commerce, \$30.50.

That it was one of the best trades days ever held in Littlefield is the consensus of opinion expressed by those attending, while the stock show feature was such as to arouse greater interest among the farmers, especially those interested in dairying. Clearly such events are of inestimable value to the community and should be held more frequent.

## MECCA CAFE OPEN.

Chili King Cafe Expert Back in Business Here.

V. A. Valles opened the Mecca Cafe, which was formerly the Palace Cafe, Tuesday. Chili and coffee were served throughout the day free to the public.

Mr. Valles is experienced in the cafe business. He previously operated the Chili King cafe here.

## POSTAL INSPECTOR HERE.

A government postal inspector was here Monday and went over two of the proposed star mail routes out of Littlefield.

One of these routes includes the Fieldton territory and the other leads to Olton. It was stated by those who accompanied the inspector that he was very favorably impressed with the routes and their benefits to the people living on them, and that it would be likely the Department would soon issue a call for bids to handle same.

## ERROR OF THE PRESS

A horse belonging to Jed Applegate died last night from a very strange MELODY!

## LFD. SCHOOLS TO CLOSE FRIDAY TO PICK THE COTTON

At a recent meeting of the Littlefield school board a decision was made to close the local schools Friday, for two weeks, in order that the children might help to gather the cotton crop in this vicinity.

This was quite a problem that confronted the school board, as to know the right thing to do under the existing circumstances was not an easy matter to decide upon as the school must run nine months in order to keep its classification and to obtain affiliation. However, with the extremely low price of cotton and the shortage of help to gather the crop it was necessary that some move be made to relieve the situation and this temporary decision was made subject to further action or announcement before the expiration of the designated time as the closing is merely an experiment, and school may be closed for a longer period than two weeks while work may be resumed in a shorter length of time.

It is absolutely imperative that the time lost in closing be made up, which will necessitate teaching on Saturdays, according to Supt. B. L. Harrison.

## P.-T. ASSOCIATION ORGANIZED IN LFD. LAST WEDNESDAY

Wednesday of last week Supt. B. M. Harrison asked the teachers to send out invitations for a call meeting Thursday of the parents and teachers of the Littlefield community. The purpose of this meeting was to discuss the recognition of a Parent-Teacher Association. We are glad to report one of the largest meetings of this kind ever held in Littlefield. Many fathers, as well as mothers, were present.

The meeting was called to order by Mr. Harrison who stated the object of the meeting and gave a splendid talk on the work of the Parent-Teacher Association. In this talk he stated that "no school could function as it should without a wide-awake Parent-Teacher Association." As a result of this talk, a Parent-Teacher Association was organized with the following officers: Mrs. E. A. Bills, president; Mrs. R. E. McCaskill, vice president; Mrs. B. M. Harrison, second vice president; Mrs. J. N. Scheuer, third vice president; Miss Elizabeth Booten, secretary; Mrs. A. G. Hemphill, treasurer, and Mrs. Bessie Baze, reporter.

Mrs. Bills appointed a program committee as follows: Mrs. R. E. McCaskill, Mrs. Pat Boone and Mrs. T. Wade Potter.

There were 59 people signed for membership at this first meeting. So come, parents, and help us make this the best school year Littlefield has ever known.

MRS. BAZE, Reporter.

The Leader for printing.

## Cruel and Inhuman!

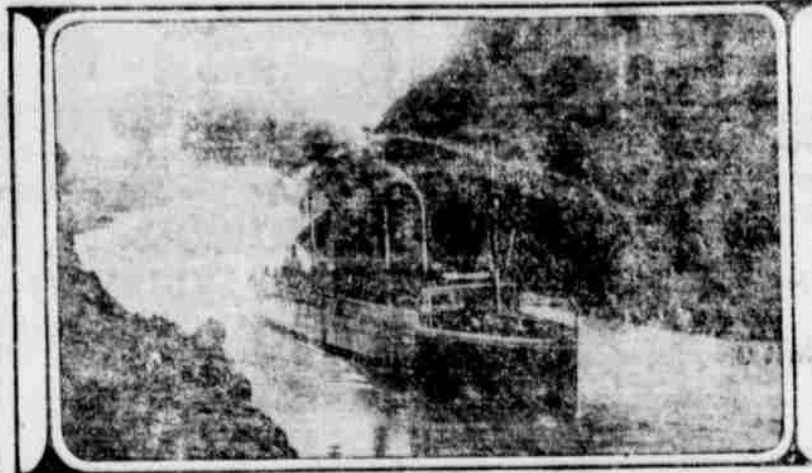

When Nebraska imposed bread and water diet on bootleggers many called it cruel and inhuman. Howard T. Jones, Department of Justice Official at Washington is existing on these slim rations for two weeks to find out how it feels.

W. Bradford, has been elected new Grand Sire of the O. K. at their convention in Littlefield. A monster welcome of seven thousand members met him in Washington.

## OUR PANAMA CANAL LEADING BRITISH DITCH AT SUEZ IN TRAFFIC TONNAGE

U.S. TRANSPORT "NORTHERN PACIFIC" PASSING THROUGH THE PANAMA CANAL

GATUN LOCKS

Increase of Freight via Panama Route, Largely Due to Oil Shipments, Indicates Rise of United States to Leadership of World's Commerce.

U.S.S. PENNSYLVANIA AT CHAGRES RIVER CROSSING

By JUDSON C. WELLIVER  
One of the striking evidences of America's rapid rise toward commercial and industrial leadership of the world, is the Panama Canal, which almost certainly will handle more freight in 1926 than will Suez. For several years the two canals have been in a neck and neck competition whose implications are the more interesting because the Panama ditch is owned by the American Government, and that at Suez by the British Government.

Of course both Canals are open to the ships of all nations; and the competition between them is not only between the United States and Britain, but in a larger and even more significant view it is competition between old world and new world.

When the Panama Canal was opened in 1915, Suez was already transiting about 25,000,000 tons of freight annually. Almost nobody believed Panama could ever attract anything approaching such a volume. But during the war fear of German submarines in the Mediterranean caused many vessels to take the Panama route between the far east and European or American ports. This gave Panama its introduction and it has not only held but greatly increased its business since the war. In 1923 Panama transited 5037 vessels, against 4621 for Suez; Panama handled 25,150,000 cargo tons against 22,770,000 for Suez. This was the first year of Panama's lead.

### A Close Race

The following year Suez barely exceeded Panama's tonnage; and in 1925 comfortably held its lead. But reports for 1926 to date indicate that Suez is losing, owing to Britain's industrial depression, while Panama is doing better and is pretty certain to resume the lead.

The present Suez Canal has been in operation nearly sixty years, Panama only eleven. Although few people except antiquarians know it, the first canal at Suez was built more than 3,000 years ago. It was in operation as early as B. C. 1389; how long before, is mere conjecture. Before the Christian era began the ditch had been built, destroyed, rebuilt, silted up and built up again, time after time. When Alexander the Great conquered Egypt the Canal was one of the oldest of engineering works.

Between 1904 and 1915 the present Panama Canal was constructed. It cost about \$400,000,000, Suez about one-fourth that sum. But Suez is a simple, sea-level ditch across a sandy plain; while Panama is a lock canal, the greater part of its length lying 85 feet above sea level, so that most of the distance from ocean to ocean is through an artificial freshwater lake.

### Early Profits Unexpected

When Roosevelt started building at Panama, neither he nor any other prophet of optimism would have dared suggest that within its first decade the Canal would earn a profit. Its chief justification concerned the national defense, and the establishment of competition with the trans-continental railroads.

Although both Canals are open to shipping of all nations, British vessels constitute the majority of those using Suez (55.8 per cent), while American vessels are 54.5 per cent of those using Panama.

For 1924, ships of 21 nations used

the Suez route, while 24 nations were represented in the maritime caravan at Panama.

The World War was not the only unexpected factor in bringing Panama so quickly to equality with Suez, nor the most important. The enormous increase in Panama traffic in 1923 was represented almost entirely by petroleum and its products, moving from California to the east coast and Europe. In the year ended June 30, 1924, tolls aggregating \$24,290,000 were collected, of which \$9,671,000 was from tankers carrying petroleum. An even more striking statement of the matter is that for the same year exactly 50 per cent of all tonnage through the Canal was between the two ocean fronts of the United States; that is, 13,500,000 tons; and of this, considerably over 3,000,000 tons, or more than two-thirds was petroleum. It was of course chiefly from California, en route to eastern refineries. In the succeeding year this petroleum movement fell off heavily; but for 1926 it is again increasing and the increase is likely to continue for many years. But for the petroleum traffic, the Canal would have shown a deficit in every year of its operation.

The enormous petroleum business has been in other ways advantageous to Panama. A constantly increasing proportion of maritime shipping now, adays uses oil fuel. Oil-burning ships seek routes on which they can most cheaply buy oil; and because California oil can be put so cheaply into the bunkers of vessels passing through the Panama ditch, there is a substantial inducement to prefer this route. This will increasingly favor Panama and militate against Suez, as the number of oil burners increases. Moreover, Panama's advantage will still further increase as the enormous oil resources of Venezuela, Colombia, and other South American countries are developed.

### Great Service of Panama

If cheap petroleum has thus served Panama so well, Panama in turn has equally served the American motorist, who consumes most of the world's petroleum products. For Panama has brought the Pacific Coast petroleum to the eastern market at costs which, but for the Canal, would be vastly greater. Thus the Canal has given the United States the cheapest petroleum products in the world, and helped build the automobile industry and our modern highway system.

This mutually helpful relationship between the Canal and the petroleum users is the more impressive when one realizes that it was not even remotely anticipated at the time President Roosevelt started building the Canal. So late, indeed, as 1910, when Admiral Evans wrote his articles about the Canal and decided that it could not be profitable for several decades at least, he based all his calculations on the probable cost of coal for bunkering ships. He did not dream that merchant marines were on the verge of the revolutionary change from coal to oil. So he figured that, as there is practically no bunker coal in the countries bordering on the Pacific, that ocean could not compete, by way of Panama, for a greatly increased share of shipping. The oil development overturned the prophecies of Admiral Evans, and of all others who had foreseen that fuel problems would make Panama unprofitable.

## FEDERAL BOARD SAYS CROP TO BE 16,627,000 BALES

Following the monthly government crop report issued last week, cotton prices immediately dropped \$4 per bale. The report indicated a prospective yield of 16,627,000 bales. According to that report the indications are that this year's cotton crop will be the largest ever gathered.

The report showed an indication of 61.3 per cent of normal. The September condition was 59.5 per cent, indicating a crop of 15,810,000 bales. Last year's production was 16,103,679 bales and the October 1 condition was 56.6 per cent.

The indicated yield per acre is now placed at 168.4 pounds compared with 160.0 pounds a fortnight ago and 167.2 pounds the final yield last year.

The condition on October 1 and the indicated production by states follows: Virginia: Condition 65 per cent; production 44,000 bales.

North Carolina, 68 and 1,200,000. South Carolina, 56 and 1,200,000. Georgia, 59 and 1,340,000. Florida, 61 and 25,000. Missouri, 64 and 225,000. Tennessee, 56 and 390,000. Alabama, 65, and 1,310,000. Louisiana, 62 and 700,000. Texas, 69 and 5,350,000. Oklahoma, 60 and 1,630,000. Arkansas, 64 and 1,379,000. New Mexico, 85 and 79,000. Arizona, 80 and 105,000. California, 91 and 122,000. All others 67 and 17,000. Lower California (Old Mexico) 92 and 82,000.

## STRIKING

The diamond-shaped pocket is particularly smart on this sports coat of black and gray wool plaid. Patricia Avery explains that she didn't lose the other pocket—it is supposed to be that way. The very newest! The gray fox collar is very flattering.

### Big Value of Soy Beans for Production of Milk

In some of the recent experiments reported from the South Dakota experiment station, ground soy beans were found to be similar in effect in the ration to linseed meal, and of somewhat greater value for milk production. Soy-bean hay was found to be more valuable for milk production than alfalfa hay. The ground soy beans do not appear to have any effect on the quality of butter when fed in reasonable quantities, although with some cows they tended to increase the percentage of butter fat.

Since the development of oil factories in Illinois, the feeding of soy bean cake from which the oil has been extracted is likely to be considered more practicable than the feeding of the whole ground soy bean.

### Proper Growth of Trees

In the care of one's yard caution should be taken against irregular growth of trees and means adopted to rectify any fault in the tree's growth at the start. Many trees are inclined to lean in a certain direction through being forced into that position by prevailing winds from the opposite point, and, unless braced while young, it will be impossible for them to grow upright as they should. It is well that a sufficient space be spared up around the tree, and the ground fertilized.

### BE SURE OF THE SIRE

The quality of the sire at the head of the dairy herd is important. He may lower the production of his daughters as compared with the production of their dams.

### AIR FEED MOLDS

It is time for the silo to be made ready for the silage crop. Air leaks will cause loss of silage by mold.

Uncle Sam is paying a lot of money to the Flathead Indians for oil land, but they're not the only flatheads who are getting money from him.

The reason some weddings are scheduled is because the groom doesn't know as much about the bride as her younger brother.

## MRS. TOLBERT IS CONTEST WINNER AT AMARILLO FAIR

News was recently heralded here that Mrs. Frances Lee Tolbert was winner of first place on the short story contest of the Literary department of the Tri-State Fair held at Amarillo.

Mrs. Tolbert, who recently returned to Littlefield after an absence of seven years, is a member of the local school faculty. She has written several short stories together with a large number of poems, all of which portray real American life and are proofs of her rare ability as a writer.

A superintendent of the Literary department of the fair gave the following comment regarding the contest: "The honor attached to winning literary prizes at the Tri-State fair is not to be held lightly. Those who received even third place may consider themselves most fortunate; for it was a real contest. There were more entries this year than ever before and the work was of higher quality. There were entries from all parts of the

Panhandle, Kansas, New Mexico and even New York."

The judging and criticizing was done by Willard E. Hawkins, of Denver, who is unquestionably one of the best literary critics in the United States. For years Mr. Hawkins was on the staff of one of the big western dailies, he was teacher of journalism in the Denver university; and is now editor of the "Author of Journalism," a magazine that is widely known among writers all over the country.

In a letter from Mr. Hawkins to the superintendent of the Literary department of the Tri-State fair, he made the following comment on the story written by Mrs. Tolbert: "This is remarkable, not only for its vivid cross sections of life, but for its fine character portrayal. The story has a theme rather than a plot. It should appeal to magazines of the more literary type."

Another excerpt from Mr. Hawkins' letter gives the following statement: "I have endeavored to view all manuscripts in these contests in the most impartial light of which I am capable. It is natural, however, that the human equation should enter in, and that my personal prejudices, complexes, likes and learnings should influence judgment in many instances. There should be consolation to the losers in the fact that another judge of different temperament would doubtless grade the entries differently than I have done, at least in some instances. In the absence of a yardstick by which genius or literary excellence can be measured, a heavy burden is placed upon frail human judgment."

### RESUME OIL DRILLING.

Several truck loads of standard machinery was hauled out to the Yellow House well No. 1, the latter part of last week and rig builders have completed their work, and as soon as the engine can be set drilling will be resumed, after being temporarily suspended waiting for the standard equipment.

W. B. Lang, of the United States department of the interior geological survey, was here Monday and made a trip out to the well to secure information relative to potash development. He left the same day for Midland to visit the potash field in that vicinity.

It was reported on the streets the first of the week that gas was bubbling from the Yellow House well, just as it bubbled from the South Camp well when drilling several years ago. The report, however, has not been verified by any of the officials connected with the well.

## Society

### PRESBYTERIAN AUXILIARY.

The Presbyterian Auxiliary met Tuesday afternoon with Mrs. W. G. Street, at her home, with about 12 members and a few visitors present.

Mrs. E. A. Bills conducted an interesting lesson on Alaska, at the close of which delicious refreshments were served.

The next meeting will be Tuesday at the home of Mrs. E. A. Bills with Mrs. W. H. Rutledge hostess.

### MRS. STEEN ENTERTAINS.

Mr. and Mrs. R. W. Steen entertained a number of their friends Wednesday evening of last week at their home. Bridge furnished entertainment for the hour and at the conclusion of the games refreshments were served to the following: Messrs. A. C. Chesher, Kirk Albright, W. J. Harris of Amberst, C. C. Clements, John P. Butler, Doc Miller, Mrs. Earl Hopping, Miss Dess Key, Bogan Higgins, the host and hostess.

### SUPT. ENTERTAINS FACULTY.

Despite the rain of Friday night twelve teachers and the secretary of the school board and wife responded to an invitation from Supt. and Mrs. B. M. Harrison to a faculty party at their home.

A number of games of "42" were enjoyed and at their conclusion delicious refreshments consisting of pink and white brick cream and white cake were served to the following: Mr. and Mrs. E. G. Courtney, Mr. and Mrs. T. Wade Potter, Mrs. Bessie Baze, Misses Hazel Morris, Vivian Courtney, Margaret Teel, Louise Magee, Esther Cooper, Lillian Eusher, Wales, the host and hostess.

### MRS. ARNETT ENTERTAINS.

Mrs. W. D. Arnett was a delightful hostess to the Senior Bridge Club and additional guests Thursday afternoon at the home of her daughter, Mrs. R. W. Steen.

The entertaining suite was decorated with garden flowers, where tables were arranged for the club game. Refreshments in two courses were served to the following:

Mesdames R. S. Thomas, J. M. Stokes, H. W. Wiseman, F. G. Sadler, Bessie Baze, Frances Tolbert, L. E. Howard, Arthur P. Duggan, B. L. Cogdill, G. M. Shaw, W. G. Street, A. C. Chesher, Kirk Albright, P. W. Walker, Pat Boone, Ray B. Jones, Earl Hopping, R. W. Steen, Miss Dess Key and the hostess.

### Pep Paragraphs

The gin is now running every day. Twelve bales have been ginned to date. Bill Fortenberry is very efficient manager. Cecil Cagle is bookkeeper for the gin, also public weigher. A. G. Jungman is our notary public.

John Kuback, of Munday, was here a few days looking after his fine crop near Pep. He says he is well satisfied with his income here.

Our school this year is all that could be expected. Mrs. Rose Mingle is the principal and Mrs. Bonnie Fortenberry assistant. The following pupils were on the honor roll this month: Lucile Stengle, 8th grade; Eugene Berik and Blanche Stengle, 7th grade; Leonard Albus, Raymond Gerik and Gladys Jungman, 5th grade; Clarence Albus, Lorena Jungman and Estell Gerik, 4th grade; Bennie Gerik, and Wilbert Albus, 3rd grade. Gladys Jungman earned 85 headmarks for perfect lessons. Leonard Gerik 80, and Raymond Gerik 77.

Mr. and Mrs. John Stengle made a ten days' trip through South and Central Texas, visiting friends and looking after business. They passed thru 23 counties and stopped in ten cities, seeing lots of signs of prosperity, also some of disappointment. They report a fine trip, but the greatest pleasure of it was getting back home. Pep is a "purty" good place.

### NEW PRODUCE HOUSE HERE.

Among the new firms opening for business in Littlefield this week was the Littlefield Produce Company, located in the brick building just south of the Mecca cafe, owned by Mrs. Hessa Bivins.

Besides a general poultry business equipment has been installed for a cream station.

B. F. Cox is manager of the new firm.

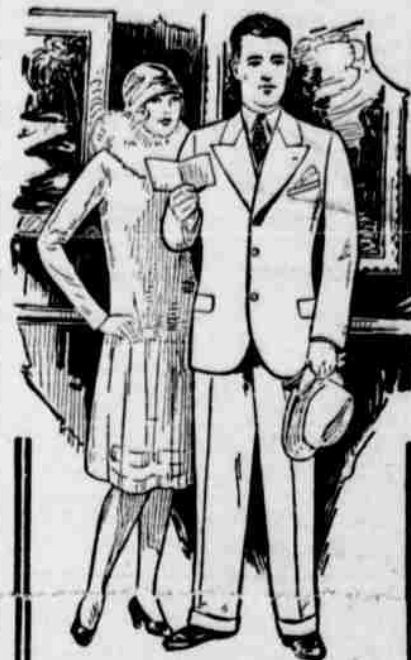

Don't let the mail order house deceive you.

## WHAT IS DOING IN WEST TEXAS

Tulia—Contract has been let for the construction of a 42-room modern hotel here, the cost of which will be approximately \$70,000.

Carlsbad, N. M.—Carlsbad will be host to members of the Pecos Valley Musical Association on October 28th. A trip to the Carlsbad Cavern is included in the convention program.

Marfa—A bond election fostered by the local Chamber of Commerce recently carried here for the issuance of \$58,000 for waterworks and \$56,000 for sewerage.

### "Snap" and "Go"

**SANITARY CLEANERS AND DYERS**  
VAN CLARK, Prop.

Phone 48 - Littlefield, Texas

Bledsoe—Building operations for a new gin with four 80-saw stands have begun here.

Artesia—Streets in the paving program for Artesia are being surveyed preparatory to the work of contractors which will begin at once.

Stamford—The West Texas Chamber of Commerce is ready to serve farmers of its territory in the shipment of car load lots of extra good native vaccinated Missouri pigs averaging about 80 pounds.

Alamogordo, N. M.—A saw mill with 100,000 board feet capacity per ten hour shift, and a large box factory are under construction here by the Breece Lumber Company of Albuquerque.

Winters—The Winters Chamber of Commerce directors have worked out a model method for the renewal of memberships to the West Texas Chamber of Commerce. They proposed that each director of the Winters Chamber of Commerce renew a certain number of memberships and secure new ones in lieu of continuing the service of the regional membership solicitor. In exchange the West Texas Chamber agricultural manager

is to show motion pictures to rural communities tributary to Winters, and the publicity manager is to aid in community advertising schemes. The proposal has been accepted by the West Texas Chamber of Commerce as a great saving will be effected thru the arrangement and at the same time Winters will have the benefit of personal work of the regional staff members. Winters offers this plan to all West Texas towns.

### SURVEY BILL PASSED.

Monday Arthur P. Duggan, president, West Texas Chamber of Commerce, received official notice that the bill calling for a tax survey introduced at the special session of the legislature, and which calls for the appointing of a committee to thoroughly sift the matter of equality of taxation for both county and state, was passed by both the house and senate.

It is reported that W. H. Bledsoe, senator from this district, voted against the measure.

There are thirty cities of more than ten thousand population in Texas.

Texas is second among the states in value of livestock.

## PUMPKIN OR SQUASH EXCELLENT DISHES

### Different Ways for Preparing Vegetables for Table.

(Prepared by the United States Department of Agriculture.) In addition to plain mashed steamed pumpkin, seasoned with butter, salt and pepper, or baked squares of pumpkin, this excellent vegetable may be served creamed, glazed or en casserole.

To prepare the pumpkin or squash cut it open, remove the seeds and stringy portion and pare. Very young, tender squash of the round white or yellow crooknecked varieties may be cut up and cooked without paring. When baking Hubbard squash or pumpkin it may be cut up into three-inch squares clean of seeds and baked without paring, rind side down. One

Pumpkin Bread, Pudding, Corn Bread and Timbales Are All Good Pumpkin Possibilities.

of the most satisfactory methods of cooking pumpkins or squash is by steaming it till tender in a colander or steamer over boiling water. Cooked in this way it is less watery than when boiled.

Creamed pumpkin consists of pieces of stemmed pumpkin baked in a sugar and water or other sirup to which butter has been added. In preparing a casserole of pumpkin the vegetable is diced raw and placed with a little water, butter and seasonings in a covered baking dish to cook until the pumpkin is tender and all the water absorbed. It is served hot in the same dish. Pumpkin timbales, soup, custard, bread pudding, corn dodger and corn bread are other excellent ways of using pumpkin when in season. Squash may be used if more convenient.

C. J. Duggan made a trip to Lubbock Sunday.

Mr. and Mrs. L. B. Tooke are the happy parents of an eight-pound boy, born last Thursday.

## THE BOY SCOUTS HERE LAY PLANS FOR ACTIVE WORK

Boy Scout work takes on new life at Littlefield. Ross White has been selected by the troop committee of Troop No. 1, composed of the following men: L. W. Jordan, J. P. Davis and T. O. Boles, to serve as Scoutmaster and be in on the job. He will have a good right-hand man, a merit badge scout from the Panhandle Council. They will make things hum. But they got too, because look whose Scoutmaster and Assistant of Troop No. 2.

Prof. Willingham and Mr. Spinks both will do everything they possibly can to put over the Scout program in Littlefield. They are selecting the patrol leaders and the boys that have the spirit of Scouting at heart, and will do some real work this week.

The troop committee of troop No. 2 is as follows: B. L. Cogdill, B. M. Harrison, J. T. Hilliard and T. Wade Potter, and they are going to stand right behind the two leaders of the troop.

The Scout program has the hearty indorsement of both Prof. Chisholm, Supt. B. M. Harrison and Rev. C. A. Dugger, the chairman of the Littlefield local council. He seems to never tire of his work and is always ready to go again. A. P. Duggan is also an enthusiastic supporter of the Scouting program. You will always find him on the right side of any question.

Watch Littlefield Boy Scouts, folks. They need your help.

SCOUT EXECUTIVE.

### WILD TOMATOES HERE.

As further evidence that nearly anything will grow in this section, a farmer brought into the Whicker real estate office this week a bunch about 18 inches high and which contained nearly 200 wild tomatoes.

It is said that wild tomatoes grow prolifically in some sections of this country, being found chiefly where the cat-claw grows heavily. This wild vegetable is true to type, color and flavor.

### QUARTERLY CONFERENCE.

The local Methodist church will hold its fourth quarterly conference

October 27th. It will be presided over by Rev. D. B. Doak, presiding elder of the Lubbock district.

The annual conference of this church will be held November 10th, at Childress, and will be attended by Rev. H. G. Scoggins, local minister, and several members of the local church.

Texas has eighteen members of the lower house of Congress. The eighteenth Texas district contains fifty-three counties.

The cotton crop of Texas is equal to that of India and exceeds that of any other nation in the world. It is one-tenth the total for the United States.

## COLD CHECKERS TO BE HANDLED UNLESS THEY PAY

"Cold checkers" had better quit their kind of business or else hide out their parts unless they are willing to square up or else suffer prosecution, according to the statement of Littlefield business men. It appears that along about this time each year "cold checkers" become more numerous, and it is the opinion of one business man that there is probably not a business concern in the city but has one to fifty cold checks lying in its safe. The time has come to call this an unlawful business, they

one business man on the street last week had a "cold check" in his hand, looking for the giver, declared it was the third one he had received from him in that many weeks. Other business men admitted having much confidence in human nature that his total pile of cold ones amounted to more than \$250.00. Several other business men admitted they turned over a quantity of such checks to local attorneys for collection instruction to prosecute, if neces-

sary. Frequently business men say people giving cold checks absolutely refuse to make them good. Others will not answer correspondence regarding them. No business man wishes to give his customers any trouble; but he is entitled to his money on the basis of value received for goods sold.

The cold check law is a good one where it is used it brings results promptly. Littlefield business men don't like to use it; but many of them declare they are doing so now.

## GINNERS INCREASE \$3.00 PER TON THE COTTON SEED PRICE

The goppers of Littlefield and the farmers of this vicinity met in a joint meeting Saturday afternoon in the balcony of the Littlefield State Bank. The purpose of this meeting was to try to reduce the price of ginning and cotton picking. As a result the goppers agreed to pay \$3.00 per ton more for cotton seed which is approximately ten cents on the hundred, more than the present market.

As to reducing the price of cotton picking nothing was definitely done, and other plans whereby the producer could sell his cotton in a way that it would materially assist in the move-

## Newest Pro

ment of raising the price of cotton, were discussed. F. K. Albright is this week assisting in this movement by getting in touch with several brokers, but as yet a definite plan has not been formulated.

## LITTLEFIELD HIGH BEATS PORTALES HIGH; SCORE 39-0

The Littlefield High School football team took the Portales High School team into camp Friday to the tune of 39-0.

The teams were well matched in weight, but the superior training and fighting qualities of the Wildcats began to wear down the Portales aggregation after the beginning of the second half, and then the scoring began in earnest.

Valley Wilson, of Portales, is due a great deal of praise for his splendid showing, but one man cannot win a ball game.

Payne Wood, captain of the Wildcats, was the outstanding player on the field, as he slashed, side-stepped, circled ends or bucked his way for repeated gains. Other backfield men who showed that they are made of good stuff were J. K. Baze, who handled his men like a real field general, Lee Harris, Lloyd Davenport and Emil Timian.

The line was working as a man and superior team work was evident at all times.

This is the second victory for the Wildcats who, in their first game, met the Ralls High School Plainsmen on the Panhandle-South Plains fair ground, during the fair, and administered a stinging defeat to their hopes for a championship team.

The outcome of the game was never in doubt from the time the first whistle blew until the run ended the game. The only question that arose was how long a score the Wildcats were going to roll up.

The game was played in a sea of mud and water and it was difficult to distinguish the men from the first four downs. Littlefield scored within five minutes after the game started and then scored again in the second and in the third quarter. During the fourth quarter Coach Tucker ran in his reserve men and gave them a taste of the mud and water as well as to test out their metal as fighters.

Littlefield has a team that will go a long ways toward the district championship this year provided she can get the support of all the townspeople and the people of the surrounding country.

Play Tahoka Friday. Coach Garland Lewis is bringing his Tahoka Tigers here Friday for a game of football with the local high school team. "Our aim for Friday is 1,000 fans on the side lines. Just put aside all excuses, close your stores, put on your 'rooting' paraphernalia and be there with all the other loyal high school fans—'Yea! Wildcats,'" says Prof. Boles.

## HAYNES TO SPEAK HERE.

Col. H. H. Haynes, Republican candidate for governor of Texas, will speak here some time during the latter part of this month, according to County Chairman C. L. Yeager, who is making arrangements for the occasion.

Yeager stated that he would probably come to Littlefield in the afternoon between the speaking dates at Plainview and Lubbock.

## USE VERY LITTLE WATER FOR GOOD PASTRY

A Delicious Confection, Finished and Ready for the Table.

(Prepared by the United States Department of Agriculture.)

The United States Department of Agriculture, in a series of investigations concerned with the effect of various fats in pastry and other baking, has used the following recipe for pie-crust, with good results:

### Plain Pastry for Double-Crust Pie.

2 1/2 tablespoonfuls water 1/2 cupful fat (a little more than 1/2 level tablespoonful)

Place the flour, salt and lard into a bowl and cut with a biscuit cutter until it looks mealy. Take out one-fourth cupful of the finely divided flour-and-fat mixture to be used later on the upper and under crusts. Add the water gradually to the remaining flour-and-fat mixture, cutting with the biscuit cutter until the water is evenly mixed in.

Divide the dough into two approximately equal parts: one for the upper and the other for the under crust. Shape each into a flattened ball and roll until about five inches in diameter.

Take one of these flat cakes of dough; place about one-eighth cupful of the finely divided flour-and-fat mixture which was reserved onto the half of the dough nearest the worker and fold the other half over this, pressing the edges together. Roll slightly and fold the right side over two-thirds of the way toward the opposite edge; then fold the left side similarly toward the right edge, thus making an oblong piece of three thicknesses. Fold this oblong piece of dough through the center to form a square.

Shape the dough with the hands so as to round the corners, thus making a round cake. Roll lightly until the dough is large enough to cover the pan. Cover the pan with the dough, taking pains to see that no air is en-

closed between the pan and dough. Put the pie filling in place.

Roll the upper crust in the same manner as that just described for the lower. Cut perforations in the upper crust to allow for the escape of steam. Moisten the rim of the under crust with water, place the top crust in position and press the two edges together again, using the tines of a fork. Bake twenty-five to thirty minutes in a moderately hot oven, i. e., at about 450 degrees Fahrenheit.

No more water should be added than called for in the recipe. The proportions given have been tested innumerable times, and the addition of extra water will only result in a cracker-like pastry. Extra flour will not offset extra water because the proportions of the entire recipe will then be altered. If handled and measured correctly, this recipe is always satisfactory.

The old idea that only ice water should be used for all kinds of pastry is more or less a superstition. On the contrary, if the fat is very cold, as it will be if it is kept in a cold room or out-of-doors in freezing weather, hot water is better than cold for mixing the dough. In very warm weather, however, it is well to use cold water if the fat seems very soft.

In putting the pie crust on the pan it should be cut enough larger than the pan to allow for shrinkage. It should be well pressed into the pan and around the bottom with the fingers so that no air can be enclosed beneath it. A single pie crust or shell, baked as undercrust for a lemon or chocolate or custard pie, should be pricked with a fork in many places to allow any air that is below the crust to escape, otherwise it will puff up in the middle. The upper edge of this undercrust should be rolled under the edge of the pan. This gives a good appearance to the finished pie.

## CAN RASPBERRIES FOR WINTER USE

### Water-Bath Method May Be Used for All Berries.

(Prepared by the United States Department of Agriculture.)

The water-bath method of canning may be used for all berries, says the United States Department of Agriculture. The general method is the same for all, so that as the season progresses, one can apply it equally well to raspberries, currants, blackberries, blueberries, dewberries, huckleberries, logan blackberries, and gooseberries.

Only fresh, clean, sound fruits should be used. Can them as soon as possible after picking; within two hours is desirable. Wash the berries thoroughly, drain them and pack them closely in clean jars or cans. Fill the containers up with boiling hot sirup, made by bringing to the boiling point 1 part of sugar and 2 parts of water or fruit juice. For gooseberries, equal parts of sugar and water or fruit juice are generally used.

Put the rubbers and tops on glass jars and adjust the springs half-way, or place screw tops on loosely. If tin cans are used, seal them completely. Set the jars or cans on a rack or false bottom in the canner. They should be entirely immersed in the water and the canner should have a cover that fits well. A wash boiler or any covered vessel of sufficient depth may be used, if equipped with a rack that permits the water to circulate under the jars. The pressure canner at 212 degrees F. may also be used for berries.

Process quart jars of berries for 20 minutes, pint jars for 15 minutes, and No. 2 and No. 8 tin cans for 10 minutes, counting the time as soon as the water surrounding the jars begins to boil actively. Then remove the jars from the canner, seal air-tight at once, invert, and place out of drafts.

All jars and cans should be so marked that each lot can be identified. Keep them at room temperature for at least a week. Discard any showing signs of spoilage and watch others of the same lot until it is certain that they are keeping.

## Shrinking Wash Goods

Shrinking goods before making up is less necessary now than formerly because most garments do not fit so closely. It is objectionable in that it takes the original finish out of the garment. No wash material stays clean and fresh as long after it has once been laundered. If the material is left in its original folds and immersed in the bathtub in boiling water, it may then be lifted out and dried over a broom handle so as to make ironing almost unnecessary.

## Thomas W. Miller

The former U. S. Alien Property Custodian who is being tried with Harry M. Daugherty for alleged fraud in connection with the American Metals Products Co., a \$7,000,000 concern.

## RECEIVED 904 LAMBS MONDAY.

Messrs. Bounds and Crosby, ten miles southwest of town, were here Monday to receive a shipment of 904 lambs that they will winter on their farms. Both these gentlemen have a large acreage of feed and are using this method in disposing of it. The lambs weighed 60 pounds, average and were of high grade stock.—Sudan News.

WE STRIVE FOR A MAN TO MAN RELATIONSHIP THAT WILL PREVENT MISUNDERSTANDINGS, MERIT MORE CONFIDENCE, AND CREATE FRIENDSHIPS.

**THE YOUNG LADY ACROSS THE WAY**

The young lady across the way says she wonders why they call us healthy old gentleman as Doctor Lorenz, "the bloodless surgeon," but anyway that's a good deal better than heartless.

**Fabrics in Curtains**  
Tub-fast, light-fast fabrics are good fabrics for summer curtains. If the furnishings of the house are simple inexpensive materials such as unbleached muslin, crepe, gingham, English prints, and cheesecloth are suitable. Linen, either dyed or in natural colors, cretonnes and chintzes in various colors and patterns are also appropriate, and the good qualities of these fabrics go well even with fine mahogany and walnut furniture.

M. Jones, formerly of Littlefield, but who now resides in San Angelo, accompanied by Earl Hopping, made a trip to Lubbock Wednesday.

**CITATION BY PUBLICATION.**

THE STATE OF TEXAS.  
To the Sheriff or any Constable of Lamb County—Greeting:

You are hereby commanded to summon R. J. Honeycutt by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 64th Judicial District, to appear at the next regular term of the District Court of Lamb County, Texas, to be holden at the Court House thereof, in the town of Olton, Texas, on the fourth Monday in November, A. D., 1926, the same being the 22nd day of November, A. D., 1926, then and there to answer the First Amended Original Petition of Plaintiff filed in said Court on the 1st day of October, A. D., 1926, in a suit numbered on the docket of said Court as No. 168, wherein Simon D. Hay is plaintiff and R. J. Honeycutt is defendant, and Plaintiff's said First Amended Original Petition alleging as follows, to-wit:

That the plaintiff, Simon D. Hay, is a resident of Lamb County, Texas, and that the residence of the defendant, R. J. Honeycutt, is unknown to said plaintiff.

That heretofore, to-wit, on or about the 29th day of November, A. D., 1924, defendant, R. J. Honeycutt, did make, execute and deliver to the plaintiff, Simon D. Hay, his eight certain promissory Vendors Lien notes each in the principal sum of \$580.70, dated Nov. 29th, 1924, bearing interest at the rate of 7 per cent per annum, payable annually, due respectively one, two, three, four, five, six, seven and eight years after date, providing for the usual ten per cent attorney's fees in the event same be collected through suit, and providing that failure to pay either of said notes or any interest thereon when due shall at the election of the holder thereof mature all of said notes and that the holder of said notes should have the right, in the event of default in payment, to foreclose the Vendor's Lien retained in said notes as hereinafter more fully set out, all of said notes being executed by the said defendant, R. J. Honeycutt, and payable to the order of the said plaintiff, Simon D. Hay, whereby the defendant became liable and bound unto the plaintiff for the amounts specified in said notes, the interest thereon, and the attorney's fees stipulated therein; said notes also provided that past due interest shall bear interest at the rate of ten per cent per annum until paid.

That plaintiff is the legal and equitable holder and owner of said notes, that Note No. 1 of said series of eight notes, being for the sum of \$580.70, is now long past due, that same fell due on the 29th day of November, 1925; that defendant has failed and refused to pay the same or any interest thereon or any interest on the other notes of said series which is long past due; that plaintiff has, therefore, exercised his option to declare all of said notes due and payable, and having so elected and declared, all of said notes are now due and payable, together with the interest thereon; that plaintiff has placed said notes in the hands of E. A. Pills, an attorney, for collection, and has promised to pay said attorney the ten per cent attorney's fees therein specified, which is a reasonable and customary fees, and for which defendant is now liable. That the total amount due at this time on said notes, including principal, interest and attorney's fees, is the sum of \$5,817.62, in which sum plaintiff has been damaged by reason of the failure of defendant to pay said notes and interest as aforesaid, and will continue to be damaged so long as said notes remain unpaid at the rate of the interest therein specified, for all of which plaintiff sues.

Plaintiff further alleges that said notes, as therein specified, were given for a part of the purchase money for the following described real estate and premises situated in Lamb Co., Texas, to-wit:

Labor No. 9, in League No. 214, out of the Crockett County School Land in said County, containing 177.1 acres of land; that said property was heretofore, to-wit, on the 29th day of Nov., 1924, conveyed by plaintiff to defendant by plaintiff's deed of writing of that date, recorded in Vol. 18, page 468, Deed Records of Lamb County, Texas, in consideration, among other things, of the eight notes above described, and that in said deed of conveyance the Vendor's Lien was reserved on said land and premises to secure the

payment of said notes; that said notes, and each of them, provide that failure to pay either of them shall give the holder thereof the right to foreclose said lien, and the said first note having not been as aforesaid, and the same being now past due, and plaintiff having elected to declare all of said notes due and to foreclose said lien, the same should be foreclosed.

Plaintiff prays for citation hereon, for judgment of his debt, damages, interest on principal and past due interest as specified in said notes up to date of judgment, and interest on said judgment from and after its date, for attorney's fees, for costs of suit, for a foreclosure of the Vendor's Lien of said land and premises and that the same be decreed to be sold according to law, that the sheriff or other officer executing said order of sale shall

places the purchaser of said property sold under said order of sale by session thereof within thirty days after the day of sale, and for such other relief, special and general, in law and in equity, that plaintiff may be entitled to receive.

Herein fail not, and have you fore said Court, at its aforesaid regular term, this writ with you turn thereon, showing how you executed the same.

Given under my hand and seal of said Court, at office in Olton, Texas, this 1st day of October, A. D., 1926.

M. R. CAVETT,  
Clerk of the District Court,  
Lamb County, Texas.

Patronize Home Merchants

**THEY MAY "KID" YOU ABOUT YOUR "TIN LIZZIE" BUT—**

**COAST TO COAST RECORD IS MADE**

The daily papers of Sept. 21 carried dispatches stating that Cannon Ball Baker had arrived in Los Angeles, California, after slicing a generous slice off three coveted transcontinental motor records in one great spurt—driving his own privately owned Ford roadster sealed in high gear, just five days, two hours, thirteen minutes after leaving New York City. He was officially timed at start and finish by Western Union officials. This cuts eleven days, five and three-fourths hours off the old high-gear, "speed record" over this course—made by a six cylinder car.

It is also 2 days 13 1/2 hours faster than the fastest time ever made before by any kind of a car with one man driving the entire distance from coast to coast without relay of drivers. The previous record over this course had been made by Baker in 1920, driving a high-priced car, and had never been equalled until he made this flight at the wheel of a lowly flivver.

Baker's new record with the Ford is also 16 hours faster than the best time ever made across the continent on a motorcycle. In other words, this was the fastest trip from ocean to ocean that has ever been made by any sort of road vehicle with one man doing all the driving without relief.

It was Baker's seventy-fourth trip across the American Continent.

—when the army of summer vacationists and cross country tourists start their trip you will notice that about 90 per cent of them

**TRAVEL IN A FORD!**

—The jokes about the "Lizzie" are usually applied in an affectionate sense, for the keen autoists know from experience and observation that when it comes to steady sustained speed, over all kinds of roads, in all kinds of weather, there are no Fords at the finish when the timer's pistol cracks than any other make of car.

**DON'T LET THEM FOOL YOU ABOUT SPEED**

**ENDURANCE, AND RELIABILITY!**

Just stick it up around thirty or thirty-five and keep your foot on it and you will have these high-priced fellows hanging on the ropes while the referee blows his whistle.

PERMANENT WAVES!

**Enochs Echoes**

Enochs news items have been  
out the last week or two. We  
all our share of rain as well as  
our communities. In fact, too  
poorly for the pessimists.  
Henry and sons, Roy and  
were transacting business in  
old Friday.  
Clark was in Littlefield the  
week.  
Collier and son, of Hale Cen-  
here this week looking after  
south of Enochs, and also  
Mrs. Collier's parents. Mr.

and Mrs. J. H. Dunn.  
Mrs. R. D. McCormack has been  
confined to her home the past week  
with rheumatism.

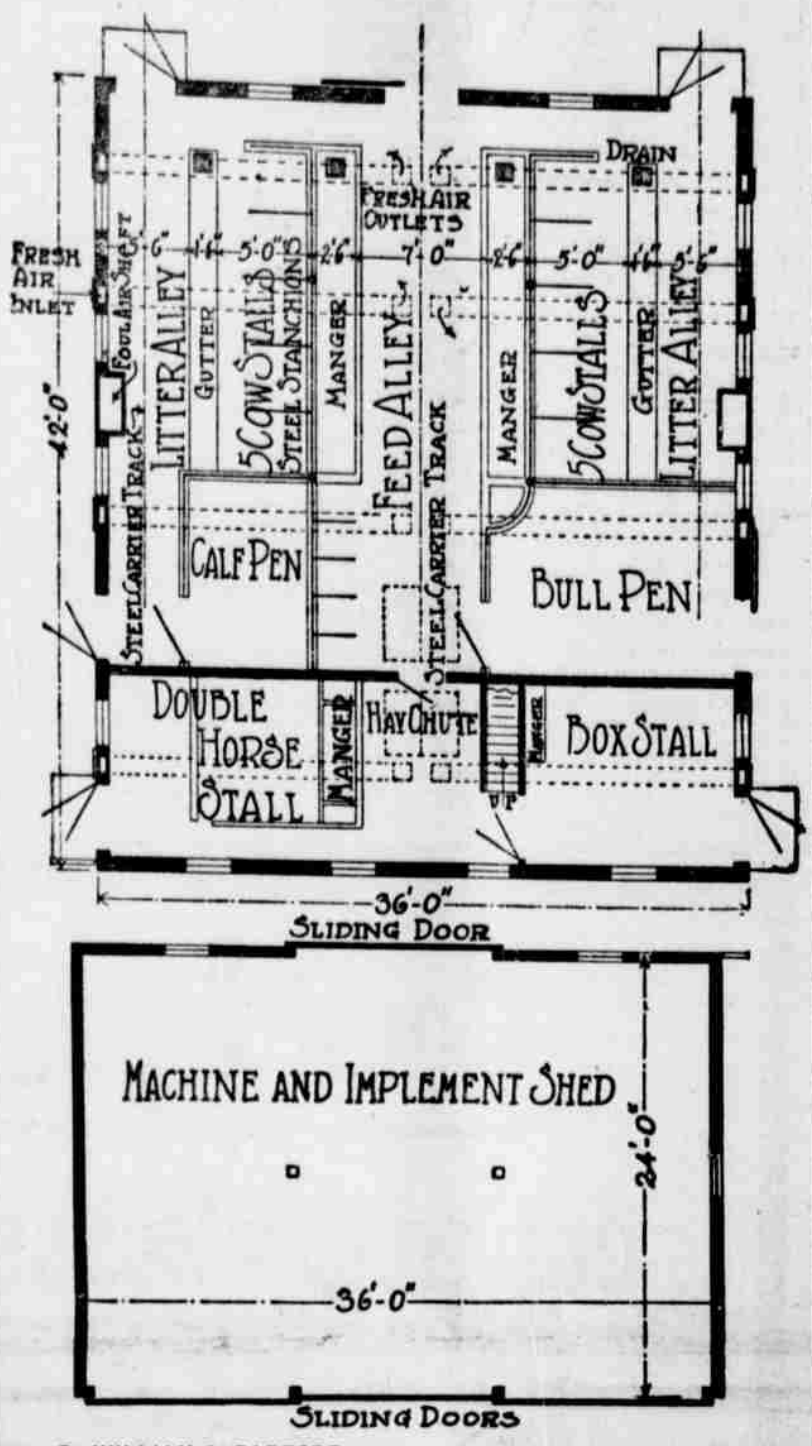

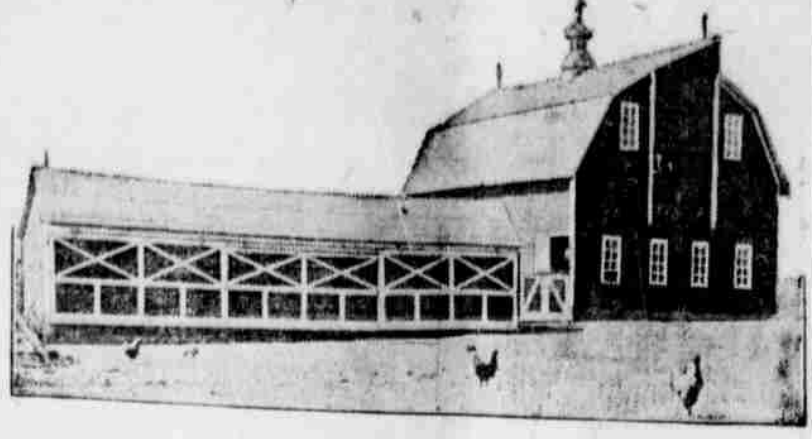

Enochs school is progressing nicely  
under the supervision of Mrs. H. J.  
Stanley. The high school students are  
for the present being carried by school  
busses to the new Bula high school, so  
that all Enochs children have the best  
of school privileges.

If the Sunday School keeps on in-  
creasing as it has in the past few  
weeks, it won't be very long until we  
will have to enlarge the school build-  
ing. However, it is already rumored  
that a new church building will soon  
be in Enochs.

Childress—Work is now in progress  
here on a new lighting system which  
calls for the installation of approxi-  
mately 100 new lights. Extension of  
the city sewer ditches and construc-  
tion of a new disposal tank is pro-  
gressing rapidly also. Approximately  
\$84,000 is being expended in this  
work.

**STILL MAD**  
Ebenezer:—"Lo honey, does you  
done forgib yoh honey? I see you a  
smilin'."  
Mandy:—"Don't pay no 'tention to  
dat smile—ah's jes' restin' mah face!"

**Dairy Barn and Implement House  
That Saves Labor and Expense**

By WILLIAM A. RADFORD  
Mr. William A. Radford will answer  
questions and give advice FREE OF  
COST on all problems pertaining to the  
subject of building work on the farm.  
for the readers of this paper. On ac-  
count of his wide experience as editor,  
author and manufacturer, he is, with-  
out doubt, the highest authority on  
the subject. Address all inquiries to  
William A. Radford, No. 1827 Prairie  
avenue, Chicago, Ill., and only inclose  
two-cent stamp for reply.

Arranging the various units of a  
farm building group so that time and  
labor are saved is an interesting as  
well as a profitable study, one which  
farm engineers and practical farmers  
are constantly at work on to cut down  
time and labor in farm operation.

In the farm building designs pre-  
sented here, an interesting arrange-  
ment of two important farm buildings  
has been made. The barn is a com-  
bination dairy and horse barn. Ad-  
joining it is the implement house,  
wherein are housed the farm tractor  
and the farm implements the horses  
are expected to pull. It is obvious  
that getting out the teams, hitching  
them to the implements and starting  
out for the day, is quickly and easily  
accomplished. It is just as apparent  
that the teams are put away with con-  
siderable less labor and a great saving  
in time.

The barn is the gambrel-type struc-  
ture, 36 feet wide and 42 feet long.  
At the rear end are the horse stalls,  
while back are two rows of stanchions  
for ten cows. Besides there are a  
calf pen and a bull pen. The interior

arrangement of the barn is shown by  
the floor plan.

The implement shed is of the gable  
type, 36 feet long and 24 feet wide.  
The front is closed by a series of  
three sliding doors, while a fourth  
sliding door at the back enables the  
owner to get out implements stored  
in the rear portion of the building.

The arrangement of the barn is ac-  
cording to the modern ideas of barn  
planning. The section for horses is  
separated from the cow stable by a  
solid wall broken with a single door  
leading into the feed alley. There  
are two single horse stalls and a box  
stall. The stanchions for the cows  
are ranged on two sides of the cen-  
ter feed alley, while at the back of  
the stalls is the litter alley. An over-  
head track carrier takes the feed to  
the mangers, and the carrier over  
the litter alleys is used for removing  
manure. The barn is well ventilated  
by a suction ventilating system.

The extension of the gable over the  
hay door takes care of the hay-car-  
rier track so that the hay is put away  
by a sling. The hay is removed  
through the hay chute in the center of  
the barn at the front and opposite  
the door and carrier track leading  
into the cow stable.

The convenient arrangement of the  
barn and the placing of the two build-  
ings, make this grouping one that will  
appeal to the farmers who are inter-  
ested in cutting their labor costs and  
in saving time in the various farm op-  
erations.

**Suggests Elimination of  
Speculation in Building**  
A plan whereby certified appraisals  
made by experienced appraisers  
appointed from the real estate boards  
of the various cities can be used as  
a basis for construction financing is  
suggested as a safeguard for investors  
in the real estate mortgage field, in  
an article on real estate financing ap-  
pearing in a current issue of the  
World's Work. Such a plan would  
act as a check on speculative building  
and would give the investor definite  
knowledge on which to base an opin-  
ion as to the safety and conservatism  
of the investment, the writer points  
out, showing the salutary effect the  
plan would have upon the future real  
estate mortgage market.

**Fungi Blown About by  
Wind Cause Wood Decay**  
Aided by the presence of oxygen,  
small plantlike growths or fungi are  
responsible for the rotting of wood.  
These organisms feed upon the starch  
and other materials in the cells of the  
timber, finally reducing it to dry pow-  
der. The plants in turn throw off  
billions of tiny spores or cells which  
are carried about by insects, the winds  
and in many other ways. The air is  
often so loaded with them that wood  
is liable to decay almost anywhere, if  
exposed as the plant cells become at-  
tached to it and develop. In most  
climates it is practically impossible,  
experts say, to avoid the presence of  
these fungus spores and cells.

**Entrance Light**  
The entrance, with its electric light  
set at either side, is the first greeting  
of the well-wired home to friends and  
visitors. Adequate wiring endows the  
home with the personality of the  
owner and projects it as far as its  
lamps can throw their rays.

**Decorations**  
The large pattern material should  
be selected only for large rooms, and  
then sparingly, as one is apt to grow  
restless from seeing too much of it.  
This does not mean that large designs  
are bad, but that they require extreme  
care and skill in their selection, where-  
as a small pattern is always safe.

**NOW DRIVE THE CAR!**

Only those who have driven a Dodge  
Brothers Special Sedan—or any Dodge  
Brothers car BUILT RECENTLY—can  
fully appreciate all that Dodge Brothers  
have accomplished during the past few  
months.

So swiftly has improvement followed  
improvement, that today the car, to all  
intents and purposes, is a different and  
incomparably finer vehicle.

The announcement of smart new body  
lines and attractive color combinations  
first attracted general favor. But since  
then, improvements even more funda-  
mental have been accomplished  
mechanically.

Drive the car NOW! Observe its im-  
pressive new silence, smoothness and  
elasticity of performance, and you will  
then begin to realize just how vital and  
varied these and other later improve-  
ments actually are.

## LOCAL HAPPENINGS

E. A. Bills made a business trip to Olton Friday.

Ralph Dunbar has purchased a new Nash roadster.

Mr. and Mrs. Otha Key made a trip to Lubbock Monday.

C. D. Ward, of Lubbock, was here on business Saturday.

J. T. Street made a business trip to Lubbock Thursday.

H. C. Branch, of Lubbock, was here Monday on business.

Mr. and Mrs. Ed Aryain made a trip to Lubbock Sunday.

Marshall R. Cavett, of Olton, was here on business Tuesday.

Mr. and Mrs. W. J. Harris, of Amherst, were here Monday.

Miss Vada Walden spent the week-end with home folks at Post.

L. H. Bates, of Enochs, was here the latter part of last week.

Arthur Mueller, who is working in Olton, spent Sunday in Littlefield.

Mr. and Mrs. C. E. Ellis and son, Billy, made a trip to Lubbock Sunday.

John H. Arnett made a business trip to Lubbock Wednesday of last week.

Leet I. Austin made a business trip to Lubbock the latter part of the week.

Ottis Elder, who is a student in the Tech College, spent the week-end here with home folks.

J. A. Rix, of the Rix Furniture Co., at Lubbock, was transacting business in Littlefield Friday.

Mrs. T. S. Sales left Saturday for McGregor to visit her parents, Mr. and Mrs. O. B. Gariner.

Rev. and Mrs. C. E. Ahlbrand are the happy parents of a 9-pound baby girl, born last Friday.

The Bell-Gillette Chevrolet Co. this week received a carload shipment of late model Chevrolet cars.

Ira Smith, formerly of Littlefield, but who now resides in Lamesa, is here on business this week.

Mr. and Mrs. A. R. Lee and children visited in the home of Rev. and Mrs. Payne, at Muleshoe, Sunday.

The regular meeting of the order of Eastern Star was not held Friday evening on account of rain.

Mrs. R. A. Bigham and baby returned Saturday from a three months visit with relatives at Killeen.

W. O. Stockton returned Sunday from an extended business trip thru Oklahoma and Central Texas.

Wm. Hay and family, of Hale Center, were here Tuesday visiting old friends and transacting business.

Earl Phillips spent the week-end here with home folks. He is attending the Tech College at Lubbock.

Claude Ferrell, formerly of Littlefield, but who now resides in Amarillo, spent the week-end here with his parents.

Mr. and Mrs. L. E. Key, accompanied by Mrs. Otha Key and Miss Dess Key, visited friends in Lubbock Sunday.

Mr. and Mrs. W. H. Gardner left Tuesday for a three weeks visit to Liberty Hill where they lived before coming to Littlefield.

Mr. and Mrs. D. P. Earnest, from the Lyon's ranch, were here the latter part of last week visiting their daughter, Mrs. Earl Hopping.

R. O. McDermott, of Fort Worth, is here this week. He will buy cotton in Littlefield this fall, representing Crespi & Co., of Waco.

Kenneth Hemphill, who is attending the Tech College at Lubbock, spent Sunday with his parents, Mr. and Mrs. A. G. Hemphill.

Mrs. T. A. Henson returned Thursday from Rotan where she has been visiting her daughter who was very ill, but who is much improved.

Hon. M. H. Goldsmith, of Austin, member of the legal firm of Garrett, Brown & Goldsmith, was in Littlefield the first of the week on business.

Messrs. and Mesdames J. C. and J. E. Whicker, of Bledsoe, were guests in the home of Mr. and Mrs. R. S. Thomas the latter part of last week.

Mr. and Mrs. W. D. Arnett and daughter, Miss Alyne, from the south Spade ranch, spent the week-end here with their daughter, Mrs. R. W. Steen.

Mr. and Mrs. Arthur P. Duggan spent the week-end in Roswell, N. M., visiting their son, Arthur, Jr., who is a student in the New Mexico Military Academy.

Arthur P. Duggan this week received an invitation to attend the big "Pecan Day" celebration to be held at San Saba, November 8th, and to

be one of the speakers on the program. Other prominent men on the program will be Hon. Dan Moody, Homer D. Wade and Senator A. E. Wood.

John Porter, Misses Mae Davis and Fern Hoover, who are attending Draughon's business college at Abilene, spent the week-end here with home folks.

Messrs. L. E. Key and R. S. Thomas left Tuesday for Vernon, Wichita Falls and other points in that part of the state, where they will spend a week on business.

Mr. and Mrs. W. L. Wade and Mr. and Mrs. Alex Reeves visited Bledsoe Sunday. Mr. Wade said there were about thirty carloads of people to visit the Whicker well during the day.

Mrs. Jess Mitchell and little son, Willis, returned Saturday from Waco where the former was called several weeks ago to the bedside of her father, J. T. Andrews, who died there the latter part of last month.

T. B. Priddy, who lives near Amherst, was in Littlefield Tuesday and subscribed for the Leader. He had the honor of winning the most prizes of any individual making entries at the county fair recently held here. He was awarded six 1st prizes, three 2nd prizes and one 3rd prize.

Mr. and Mrs. J. T. Bellomy returned Sunday from Amarillo where they went to visit in the home of their son, Mr. and Mrs. Ray Bellomy, who left Monday for Detroit, Mich., where the former has accepted a position as head engineer in the architectural department of a motor company.

Mrs. A. H. McGavock left the first

of the week for Plainview to join her husband where they will reside until the first of the year, at which time they will move to Olton where the former will take up his duties as county and district clerk. Mr. and Mrs. C. E. Smith will occupy their residence here. Mr. McGavock is now associated with the Chrysler company, at Plainview.

Word has been received here that H. L. Smith, who, with his wife, has been visiting their daughter, Mrs. Tom Darnell, at Peoria, Ill., has been confined to his bed for several weeks on account of illness and it will probably be several weeks before he is able to return to his home here. He also reported that heavy rains in that section was causing overflow of the rivers and considerable destruction to crops in that section.

### LITTLEFIELD FANS SEE CHAMPIONSHIP FOR THEIR SCHOOL.

Interest grows in the race for High School football supremacy in this section of the country. Last week an ardent supporter of the Littlefield High School team came into the office highly incensed because The Herald had deigned to suggest that Slaton had a chance of winning the Class B championship.

"We beat Falls 19 to 0 at the South Plains Fair; we are going to give Slaton the same treatment and also register a win when we play Plainview in November. If Plainview wins the Class A banner we will give them a second drubbing in district play-off," said this enthusiastic individual.

If this is an example of the spirit being manifested by the Littlefield supporters we are forced to recognize that team as very likely to carry off honors in its division. That is the

spirit that makes a team fight for all it is worth and a spirit we are forced to admit is sadly lacking in this city save in a pitifully few dyed-in-the-wool fans.

Littlefield has a strong team this year, there is no doubt of that, they have an experienced team composed of a majority of last year's letter men and are working under a good coach. Plainview fans should see a real game when the two teams meet in November.—Plainview Herald.

### A GOOD REASON

Teacher to mother of pupil—I came in to ask why you made your boy stop taking saxophone lessons, Mrs. Smith? "We were afraid to let him go on after the Chief of Police moved next door."

### TIT FOR TAT

Spiteful:—"We are going to move soon and will be in a respectful neighborhood!" "So will we."

### "On Trial"

Late picture of Aimee McPherson, Los Angeles list who is the center of court actions. Mrs. McPherson claims she was abducted, authorities seek to link her disappearance with Kenneth Slaton, former radio operator Angelus Temple.

### Be It Ever So Humble—

—"there is no place like home." That is true. Perhaps you don't realize now that you have it and can live in it, just how much you really do love it.

Suppose your home burned down? Could you replace it? You could if you had it insured. Don't wait for the bell to ring, insure now.
