Girls Come To Rescue

BY BILL TURNER

TRAIL RIDERS—These four girls will hit the trail along U.S. 385 from Burlington, Colo., to Loveland Aug. 2 on a horseback trek designed to boost the newly federalized road into national prominence. From left are Clyde Prestwood, of Loveland, one of the planners; Halle Cardwell of Sudan, Kay Bradley of Amherst, Georgia Stephens of Sudan and Eloise Terrell of Amherst. See "Spoutin' Off."

FOR THIS MONTH, Clyde Prestwood, dean of Loveland's Plains College, made a pitiful appeal to the Littlefield Rotarians, inviting them to go on a horseback ride to Loveland, Colo., to Level a boost for newly federalized roads.

Rotarians, I guess, figured getting too old for that stuff and nobody volunteered to join the ride. All 470 miles in a saddle or a fellow the raw end of a 16-year-old Lamb County horse come to the rescue of Mr. Prestwood.

FOUR decided they'd go on the trip, which will start in Burlington and end Aug. 2 at Loveland. They'll come to Littlefield Aug. 19. The girls are Halle Cardwell, daughter of Mr. and Mrs. H. C. Cardwell; Kay Bradley, daughter of Mr. and Mrs. Bill Bradley; Georgia Stephens, daughter of Mr. and Mrs. W. O. Stephens of Sudan; and Eloise Terrell, daughter of Mrs. H. W. Terrell of Amherst.

porter Never Forgot Littlefield

20 YEARS, memories become hazy, especially if you're trying to remember a place in the span of a few months.

Littlefield made a deep impression on Ben Bradford, and he never forgot the reporter Lamb County Leader who came back in 1939. He died in Dallas, the month in Dallas, the life-long heart condition had gone from the

BY, when he was told of his death, recalled several of these letters revealed the heart for Littlefield, Tex., 1956, Ben wrote:

"CHILI BILL" was the late V. A. Valles, who used to run a cafe where Slim's Cafe is now located. Mrs. Valles still lives here. Many will remember the late Rev. Marvin B. Norwood, who was pastor of the First Methodist Church here. Brother Norwood died in March last year in Dallas. It prompted a letter from Ben to Morley, which read in part: "Until I saw his obit in yesterday's Times Herald, I had no idea whatsoever that Brother Norwood was anywhere near these parts. If I had, I would have visited him many times and talked over many things with him. Only one other pastor... has made as much of an impression on me as Brother Norwood."

"Now Bill, it's not that I don't think garlic juice is good for you, it's only that I'm saving it for the day when I'm really sick. "Actually since those days in Littlefield I have read that both garlic and onion juice has high medicinal value; that research in Europe has proved it. So, you were right and I was wrong."

BRADFORD is survived by his wife, Sue, and son, Mark, who was nine when he wrote Morley in March of 1958. Ben said this of his son: "Mark is now 9 years old, and is just about everything a man could want in a son. He's hard as nails, but gentle as a lamb. He likes peace, but he'll knock the block off any kid his size, or bigger, if he gets pushed too far. He's no Einstein, but he's no simpleton, either. He's wild as a buck when he's out with his contemporaries; but around adults, like at church or eating out or visiting, he is quiet, well-mannered and a gentleman." These words made sense to the Drakes. "To them, it brought back memories of the boy they knew 20 years before. He was given the add-

Tentative Schedule Set For Highway 84

2,000 Acres Hard-Hit

Hail Rips Area North Of City

Swift - striking hail plastered a 2,000-acre area of cotton and feed north of Littlefield late Tuesday afternoon, as a thunderstorm roared in from the northeast.

The hardest hit area was between Littlefield Country Club, north of town, to the Fieldton area, on the east side of U.S. 385. The storm brought little moisture to the Littlefield area, but it unleashed devastating fury on crops north of here.

Moisture recorded at Western Cottonseed was .16 of an inch. KVOW measured .20. At Fieldton, a half-inch was recorded, but west of there rain was heavier.

East of here, Spade received only a sprinkle. There were no reports of heavy rain or hail there, or to the west and south of Littlefield.

Hail was reported northeast of Olton, but it thinned out as it approached the town itself. Golfball-size hail beat up cotton at the Ernest Jones farm nine miles northeast of Olton. Rainfall in that area measured about a half-inch.

The latest blow came while farmers were battling a nother menace - cotton aphids, or lice. In the hardest area north of Littlefield, crops at the farms of C. C. Slaughter, Eldon Hill, Pappy Farmer, S. G. Cowen, Robert Dymart, Robert Sullivan and A. M. Cowen, all near Fieldton, were heavily damaged by hail.

Several farmers in the Fieldton area thought Wednesday morning that their cotton was completely knocked out, but that they might have some feed left.

Other farmers hit hard by the hail were Bub Stewart, northwest of Fieldton; and Floyd Rogers, J. B. Davis, Doyle Tapley and Melvin Dutton in the Rocky Ford area.

THE WEATHER

Today's forecast - Partly cloudy with afternoon and night time thunder showers.

Temperatures - Sunday high 84, low 65; Monday high 90, low 64; Tuesday high 90, low 64; Wednesday high at 9 a.m. 78, low 66.

Moisture - .16 inches record Tuesday afternoon; 2.80 inches for the month; 11.96 inches for the year; and 10.76 inches for this time last year.

Hockley Line To City First

The stretch of U.S. Highway 84 between Littlefield and the Hockley County line - - - infamous for death-dealing wrecks in the Bainer area - - - will get first attention from the State Highway Department in plans to widen the road to four lanes across the county.

This was confirmed early this week in a letter from O. L. Crain of Lubbock, district highway engineer, to County Judge Pat Boone Jr.

Crain listed this tentative schedule for actual construction:

- 1. From Hockley County line to Littlefield.
- 2. Route around Littlefield from present U. S. 84 southeast of Littlefield to U. S. 84 northwest of Littlefield.

3. From Bailey County to Sudan, 4. From Sudan to Littlefield. It is unlikely, Crain said, that sufficient funds for construction of the entire Lamb County route will be available at once.

But he said that the sections, as listed, will be programmed as funds become available and right-of-way is secured.

The district engineer referred to the schedule as "tentative" and subject to change if later conditions warranted.

His letter to Boone was in reply to a letter from the county judge on July 15, in which Boone informed the highway department of the voters' approval of right-of-way bond elections in three county road districts.

In reply, Crain said, "It is our thought that right-of-way purchase should proceed as rapidly as possible for the entire section of U.S. Highway 84 across the county, except at Sudan, including the section from the Bailey County line to 1.7 miles southeast, which is now programmed for right-of-way purchase and also construction."

In saying "except at Sudan," Crain was referring to the fact that no right-of-way will be needed at this time because the highway will be left as it is in Sudan.

Average \$14 Per Acre

Conservation Reserve Rate Unchanged In '60

The average per-acre rate of payment for land put in the conservation reserve of the soil bank for the 1960 crop season will remain at \$14 per acre in Lamb County, the same as for 1959.

This was announced Tuesday by Lamb County ASC Office Manager Lamar Aten.

Forms for farmers to use in requesting average rates for their farms will be available from the county ASC office about the middle of August, Aten said.

The period for filing such requests will be Aug. 24 to Sept. 10. "We don't know yet what the county's total allocation for 1960 will be," said Aten, "but it may be about the same as it was this year."

The first allocation for 1959 in this county was \$101,562. After that had been used, another \$37,000 was allocated for this county.

Aten bases his belief that the allocation for Lamb County will be about the same on the fact that the state's goal in 1960 is 452,000 acres, about the same amount as last year.

The 1960 crop season will be the fifth year of the conservation reserve under which farmers contract to withdraw general crop land from production and protect it with conservation uses for periods of three to 10 years.

The 1960 program will be similar to the 1959 program. Principal changes have been made in regulations relating to publicly owned land, tenure of ownership, the method of setting payment rates and the determination of priorities when more applications are received than can be accepted.

JAYCEES TO SEEK WEED SHREDDERS

Littlefield Jaycees, who have been delayed in a campaign to mow weeds on vacant lots here because of a lack of shredders, will make a new attempt to get equipment this week.

The city has agreed to pay rent and damages, if any, on any equipment loaned to the Jaycees for the project.

Members of the club will contact farmers for use of both tractors and shredders, and they ask that any farmers interested in the project contact R. E. Chandler, club president, at 660.

Wheat Vote Set Today In County

Four voting places will be used in Lamb County today when wheat growers will make their decision on marketing quotas, L. D. Aten, ASC office manager here, said Monday.

Growers in this county will join with wheat farmers in 38 other states in a referendum to decide the type of marketing control program they will have for 1960 crop of wheat.

The four voting places include: Saunders - Parish Elevator, Olton; Courthouse, Littlefield; Earth Elevator; and Feeders Grain, Sudan. Polls will be open from 8 a.m. to 6 p.m.

The vote is held at this time so that farmers will know at winter wheat planting time whether marketing restrictions will be in effect at harvest time in 1960.

If producers approve marketing quotas, under the proclamation announced June 1, the national average support price available to eligible growers will not be less than the minimum support to be announced before the referendum.

On the basis of the present supply of wheat and present legislation, the legal minimum wheat support price for the 1960 crop would be at 75 percent of parity. Individual farm marketing quotas will be the normal production or the actual production from the farm acreage allotment, whichever is larger.

At least two-thirds of the producers voting in the referendum must approve quotas for the 1960 crop if they are to be in effect. Growers who will have more than 15 acres of wheat for harvest as grain in 1960 will be eligible to vote in the referendum.

New City Manager Moves Into Town

James W. Harrison, Littlefield's new city manager, and his family moved into a home at 612 E. 17th this week.

Harrison, who was employed by the city council in June, will take over his new duties Aug. 1.

He has been assistant city manager at Borger the past three years.

At Rocky Ford Tuesday

Mexican Consul Asked To Attend Farm Dinner

The Chamber of Commerce, in a goodwill gesture, has invited the Mexican consul at Lubbock, Cecilia Molina, and her staff to attend a farm dinner at the Rocky Ford community next Tuesday night.

This was announced at a meeting of the C-C's board of directors Tuesday night.

Miss Molina was the center of a recent controversy at Lubbock which led to Mexico's blacklisting of Lubbock in the bracero program.

"She told us she will come, if she can work it into her schedule," C-C Manager Jack Lacy Jr. said. "She will let us know for certain Monday."

Tickets to the farm dinner, an ice cream social, may be purchased from any C-C board member for \$1.25 per plate. Local merchants will buy two tickets, one for themselves and one for a farmer.

The dinner is set for 8 p.m. Tuesday at the farm of Doyle Tapley.

In other activity at Tuesday night's board meeting, the C-C announced that the second farm dinner of the year will be held at Witharral the week of Aug. 9-14.

Directors also heard and report the C-C's goodwill tours. The public relations committee, headed by James Lee, will meet next week to reschedule the tours, which were postponed from July 18 and July 25, both Saturdays.

Tentative plans call for the tours to be held Aug. 5 and Aug. 12, both Wednesdays.

The C-C also adopted a policy favoring the location of Curry Motor Freight Lines here and offered assistance to the company. Curry is asking the State Railroad Commission to establish a new line here which would give overnight service from long-distance points in the state.

Show For Dogs Slated Saturday At Local Store

Saturday will be a day for dogs if the canines have a youngster for a master.

Piggly Wiggly will stage its annual Dog Show, beginning at 9:30 a.m. Saturday at its store, two blocks south of the courthouse in Littlefield.

Youngsters 16 years old or younger may enter their dogs. However, dogs of all ages, and all sizes and colors are eligible to enter.

Prizes will be awarded for the dogs in the following classes: largest, smallest, best trick dog, best costumed, and most obedient. Entry blanks are available at the Littlefield store.

Included in attractions are Chief Black Hawk of a dog-ratation company, who will be passing out Indian headbands, and the store will be treating spectators and entrants to ice cream, balloons and candy.

Trouble Stalks Couple Here For Hoover-Schkade Vows

When Mr. and Mrs. Lawrence Schneider of Iraan, Texas were here Saturday for the Linda Hoover - Fred Schkade wedding, they ran into trouble - both coming and going.

When they arrived here, Schneider dropped into the Littlefield Press office and asked who was getting married at the First Methodist Church that night.

Catholic Church Is Dedicated

PEP - The new St. Philip Neri's Church was dedicated Tuesday at 5 p.m. with approximately 500 people attending.

The Most Rev. John L. Morkovsky, Bishop of Amarillo, dedicated the church, followed by a High Mass sung by the parish choir, directed by V. H. Diersing, assisted by Mrs. A. A. Homer at the organ.

The \$90,000 building is located north of the rectory on land donated to the parish by Mr. and Mrs. A. H. Diersing.

The contract was let Nov. 20, 1958, under the leadership of Father Fredric Hyland, pastor.

After the dedication a barbecue supper was served at the church.

ress, plus some difficult directions. With that part of the trouble over, the Schneiders settled back to enjoy their stay here, only to run into more problems as they started to leave.

Checking their car before leaving, Schneider found someone had stolen a black suit (size 44) and two white shirts that belonged to him, and a duster with matching dress that was Mrs. Schneider's.

The theft had occurred Saturday night, sometime during the party that followed the wedding.

Huston Hoover, Linda's father, came to the rescue. He had insurance to cover the loss.

Police were investigating the theft early this week.

Retail Council Plans More Yule Decorations

The retail council of the Chamber of Commerce decided to increase Littlefield's Christmas decorations at a breakfast Wednesday morning.

Twenty halos with lighted stars and 40 three-foot red bows will be added to the downtown decorations. Twenty of last year's 27-inch bells will be added to the "off of main street" decorations.

Quannah P. Maddox of Lubbock made the presentation of decorations to the group and reported that these additional items would cost around \$600. Last year's decorations were purchased from Maddox.

In discussing the purchase the council felt that by Christmas of 1960 the city will have enough decorations purchased to run complete lights and ornaments across the street.

The council has set up two objectives: to buy new ornaments each year to offset depreciation and loss and to constantly increase coverage of incoming highways and other key streets besides Phelps Avenue.

Chairman Wendell Tooley reminded the group about the agribusiness ice cream social at the Doyle Tapley home in the Rocky Ford community on July 28 at 8 p.m. The group also discussed better cooperation with the Chamber's Goodwill tours to neighboring towns.

School Committee Meeting Scheduled

A regular meeting of a 40-member committee studying school needs here will be held Thursday at 7:30 p.m. at the high school library.

Reports from several subcommittees are scheduled to be heard, according to Dr. Ralph Schilling, superintendent of schools.

ONLY ALL-Stars Lose, Win Area Tourney At Lubbock

Age Dixie Stars, 11-9, Stay Alive

Littlefield PONY League lost one game, then came out to win the Dixie PONY League at Lubbock 11-7, hopes alive in the Area League Tournament at Lubbock. The team is coached by Kaykendall - Bennett.

Littlefield won a 15-1 decision to stay in the PONY League. The team was led by pitcher, Hilton Craddock, David Bawcom, and John Dick Carl led the 12 hit Butane attack by scoring three runs apiece. The winners' cause was aided by 10 walks, three Foust errors, and 30 stolen bases.

After a scoreless first inning Bawcom broke loose in the top of the second inning. Craddock, Bawcom, and Carl singled; Mike Lumsden and Mickey Oliver walked and Bill Nelson and Hutson followed with hits to score six runs before the first man was retired.

The Major League Little League All-Stars brushed up for their encounter with Sundown at the district tournament by trimming a group of picked Little Leaguers, 14-3, in a practice game at Little League Park Monday night.

League president and head base umpire Howard Horne probably set some sort of record when he crossed the plate with a run for the Little Leaguers in the bottom of the last inning.

The All-Stars scored in every inning; they gathered 19 hits in all. The three All-Star pitchers, Jerry Cox, Wilmer Williams, and Junior Gonzales limited the Little Leaguers to four hits—one of those a single by Mr. Horne.

James Black, Sammy Pair and Jimmy Langford scored in the first inning for the All-Stars. Black reached base on an error, Pair walked, and Langford followed with a home run.

Steve Lowe homered in the second to account for the fourth All-Star tally.

Junior Hodge accounted for the other circuit clout—a three run blast in the fifth inning.

The All-Stars play their first game in the District Tournament at Levelland against the Little League All-Stars from Sundown.

Big Innings Give Bawcom Victory Over Foust Food

Hutson scored on Jimmy Smith's bunt single and Radison Smith singled. Then Craddock, Bawcom, and Carl followed with their second hits of the inning.

Foust tallied all four of its runs in the bottom of the third. Howell, Trull, Johnny Williams, and Carroll Sexton all hit and scored.

Bawcom added another run in the fourth inning on Radison Smith's double.

The game was called at the end of the fifth inning.

Birkelbach used a hit batsman, a single, and two errors to gain three tallies in the bottom of the first. Lewis Taylor, Macky Hodge and Paul Hager scored the runs.

Birkelbach's Charles Thornton tripled to right field and later scored on an infield out.

Foust again took the lead in the top of the third as they countered for a four run blast. Wolfe, Carroll Sexton and Gary Gibbs led the attack.

Foust put the game on ice in the top of the fourth with another four run uprising. Wendell Ashley and Terry Ross walked to start the inning. Doug McNeese scored both runners with a single, and McNeese crossed the plate on the pitcher's error on Howell's grounder. Sexton singled and scored later in the inning.

Taylor and Jackie Atkinson scored single runs for Birkelbach in the bottom of the third and fourth innings.

The Veterans were awarded seven free passes by Birkelbach pitching, and two errors, a double by Jerry Nipp, and a single by VFW pitcher Lyndell Stansell made up the nine run total. Thirteen men batted during the big inning.

In the top of the first, Birkelbach had moved ahead 2-0 when Mackey Hodge, Ray Dinges, Harlin Gilley, and Melvin Crayton all singled.

VFW added two runs in the second on singles by Charlie Sanders and Nipp, a free pass to catcher Loyd Allan, and several stolen bases.

When rain made play impossible VFW was at bat in the bottom of the third inning.

Hail Rips

(Continued From Page One) of town, said his cotton took a real battering from the hail.

At Western Cottonoil, Buster Owens estimated the hard-hit area at about 2,000 acres, with many more acres "ragged up" by the hail.

The stuff fell, in sizes ranging from marbles to golfballs, about three to five minutes, but was accompanied by 60 mph winds, Owens said.

Several farmers in the hail-struck area also "got it" last year, Owens said.

Meanwhile, County Agent Bill Kimbrough early this week warned farmers that cotton aphids (plant lice) are "awful bad" in June cotton south of the Sandhills.

He recommended that farmers poison now, and go a little higher than recommendations.

"Everybody has to get after it," said Kimbrough, "or we'll keep having reinfestation."

He recommended use of a pint and a half or parathion or two to three pints of malathion per acre in combating the lice.

But he warned against using parathion with ground rigs. Farmers who don't have the equipment to use parathion should hire it done, if they use it, because it is highly dangerous to humans.

Kimbrough said a whole lot of cotton in the area needs poisoning for lice now.

Lady bugs will kill out the lice, but they may be slow in getting here, he said. Hot, dry weather is what is needed most.

Aphids, he said, will cut cotton yields and make it later if farmers don't "get after them."

Funeral Rites Are Held For W. C. Murray

Funeral services for W. C. Murray, 66, Melvin, father of Norman Murray of Littlefield, were held Monday at 3 p.m. in the Day-Loveless Chapel at Eden.

Murray was born March 16, 1893, and died Saturday night in a car wreck between Eden and Brady.

The Rev. A. C. Knight officiated, assisted by James Crouch.

VFW Crushes Birkelbach In Rain-Shortened Game

VFW batted around in the first inning to gain a 9-2 lead, then held on as rain interrupted play in the bottom of the third inning enroute to downing Birkelbach Machine, 11-2, in a Minor League play-off contest at Little League Tuesday night.

The Veterans were awarded seven free passes by Birkelbach pitching, and two errors, a double by Jerry Nipp, and a single by VFW pitcher Lyndell Stansell made up the nine run total. Thirteen men batted during the big inning.

Mishap Occurs At U. S. 84, 385

Police investigated a traffic accident at the intersection of U.S. 84 and U.S. 385 Tuesday about 5:45 p.m.

Involved were autos driven by Rev. John Kershaw of Lubbock and Bobby Lee Heffington of Littlefield. Damages were \$300 to the auto driven by Rev. Kershaw and \$10 to the Heffington car. No one was hurt.

Rev. Kershaw was traveling east on U.S. 84 and Heffington was going north on U.S. 385, officers said. Heffington stopped at a stop sign, then pulled into the path of the other car, they said.

Highway 84

(Continued From Page One) prior to the bond election was dropped from current planning.

This bypass, according to Crain, will not be needed for 8 to 12 years.

Rhea Bradley, resident engineer for the highway department, said Tuesday that the department's first step will be to run surveys to determine property lines along the route.

He said the department will not be able to devote full time to the Highway 84 project until Sept. 1. The department is busy at present on U.S. 60 in Parmer County.

Once the survey of property lines and tracts is completed, the department will prepare maps to show the proposed improvements, Bradley said.

These maps must be approved by the Bureau of Public Roads and by the State Highway Department, he added.

Once this approval is obtained, the improvements will be presented at public hearings.

After 50-50 right-of-way deeds are drawn, final appraisals must be made. When the appraisals are approved, the county will receive the deeds to begin negotiations with property owners along the road.

The detailed work on Highway 84 is expected to take several months, possibly a year, before negotiations with property owners can begin.

James Roberts Elevated Former C-C Head Here Gets High Boston Post

BOSTON, Mass. (Sp.) — James G. Roberts, 37, of Wellesley, Mass., formerly of Littlefield, Texas, has been named executive vice president of the Greater Boston Chamber of Commerce. He succeeds William J. Bird, who resigned this week to become Western vice president of the John Hancock Mutual Life Insurance Company.

Ge, Rankin Attending H-SU

Robert P. Tibolt, Chamber president, made the announcement following a special meeting of the Chamber's board of directors. Roberts has been general manager of the Chamber since September 1958. In that position he has had full charge of Chamber staff and administration. He has worked closely with Chamber committees and has given direction to all phases of the organization's broad program. Roberts began his career as a professional Chamber of Commerce executive after his discharge from service in World War II, with his first post as manager of the Littlefield, Texas, Chamber. He was at the time the youngest of 300 Chamber executives in the State of Texas. After two years, he joined the Amarillo, Texas, Chamber where he served as manager of the retail, wholesale and industrial departments. In 1950 he was appointed executive vice president of the Plainview, Texas, Chamber where he served two years. In 1952 he joined the staff of the U.S. Chamber of Commerce as the first manager of the newly-created Tulsa District embracing Oklahoma, Arkansas, and Missouri. Prior to his arrival in Boston, Roberts was Southwestern Division manager of the United States Chamber of Commerce in Dallas. In this post he was responsible for an area encompassing eight states

12 Jailed; One For DWI

County officers had a light weekend, arresting only two persons Saturday night, but city officers jailed 10 persons Saturday, Sunday and early Monday. In county jail Monday was Fred Romero, Littlefield Latin, on a charge of driving while intoxicated. He was arrested Saturday and pleaded not guilty in county court. Bond was set at \$1,000. The other person jailed by the county and the 10 jailed by city were on drunk charges.

LEAVE FOR UTAH—Mrs. Bayne McCurry of Spade, left, was among four Farm Bureau representatives who left Littlefield Friday for Salt Lake City to attend the Farm Bureau conference workshops on education. The workshops were held in the University of Utah July 19-22. Others, from left, were Mrs. Bruce Parr, Paducah; Mrs. C. H. DeVaney, wife of the State Farm Bureau vice-president, Coahoma; and Melvin Dansby, Farm Bureau field representative from Bowie. Delegates to the workshops were selected and appointed by the state Farm Bureau as a "Farm Bureau team on education." STAFF PHOTO

Beating 'Summer Slump'

An executive of a big department store recently had something to say about how retailers can move goods, particularly during the so-called "summer slump". He put it in a jingle:

Early to bed;
Early to rise;
Work like hell;
And advertise."

Then he dealt with newspapers as an advertising media: "Newspaper circulation stays up in the summer. There is no appreciable change in the number of papers distributed, and this means that our advertising will get full readership and may even be more effective because people are more relaxed and have more time to read."

No matter what the season — and in spite of the emergence of newer forms of advertising media — newspapers remain a prime vehicle for interesting people in goods and services and persuading them to buy. You can beat the written word.

Grassroots Opinion

PORT HURON, MICHIGAN, TIMES-HERALD: "We realize that a big country cannot be run by a small government—you can't operate an automobile factory with a sewing machine motor . . . But bigness is not, and never was, an excuse for inefficient, wasteful spending—YOU have a right to demand that every dollar of the money of the taxpayers be well spent and accounted for accurately and to demand that dollars intended to be spent unnecessarily be left in the pockets of you and me and the rest of us . . ."

PALATKA, FLORIDA, DAILY NEWS: "Every time an incident such as the plastic bag deaths happen the public becomes a mob raving for legislation to end the 'killers.' It never occurs to us that it couldn't happen if some parent had been on the ball. We can't expect legislation to cover for our individual neglect."

HARTFORD, KENTUCKY, THE OHIO COUNTY NEWS: "A writer for this newspaper, visiting in Europe a few years ago, observed that the average European family gets much more out of the simpler things than the average American family. This is interesting, in view of the great material wealth of the American family—as compared with the average in Europe . . . The moral of all this is to develop a philosophy of life which will allow you to enjoy what you are doing, or to find a way to do something you enjoy doing. At the same time, of course, you will have to make a living and meet your responsibilities as a citizen . . ."

STRATTON, COLORADO, PRESS: "Parting Thought—Our national debt may reach the moon before any rocket does."

WHITEWATER, KANSAS, INDEPENDENT: "The other day we started to explain to a friend why we hoped to continue operation of The Independent. Since we felt the future of our nation depended on intelligent grass-roots thinking, we felt the smallest community in the nation was far more important than the biggest city . . . that the smallest newspaper was perhaps more important than the largest daily . . . that if the smallest community couldn't take care of its own welfare, the county couldn't, or the state, or the nation, or the world."

Polish Farmers May Be Wiser Than You Think

Editor's note: The Sandhills Philosopher on his Johnson grass farm discusses the foreign situation this week, you might say.

Dear editor: Not knowing much for sure about farming in this country, I couldn't be expected to know anything about farming in Poland but I read an article last night about a situation over there that attracted my attention.

As I understand it, the Communists over there are trying to get the Polish farmers to get rid of their horses. There are 2,700,000 horses in Poland, they graze over 5,000,000 acres of pasture, and eat over 3,000,000 tons of grain a year.

The Communists are saying, it takes too much grain to feed those horses, last year they ate more grain than all the city-dwellers in Poland got, and the thing to do is get rid of them, switch to government-owned tractors.

The Polish farmers though are resisting. They don't have to be told that while a tractor doesn't eat grain, it does consume gasoline, and very few farms in Poland produce gasoline.

Them Poles ain't so dumb. When it comes to a choice of feeding grain to horses or to Communists, they favor the horses.

I never have sat down and figured it up, I don't mind sitting down, it's the figuring that gets me, but maybe you could tell me: how much production does a tractor consume? In Poland they figure it takes 15 per cent of the land to support the horses. What per cent of a farm does it take to sup-

port the tractor it takes to work it? I know a man can work a lot more land with a tractor, but you can't raise a tractor, you have to buy it, and if somebody stopped and figured up how much production it takes to buy a tractor, maintain it, keep it in gasoline and oil, replace it when it wears out, he might come up with some interesting figures.

Understand, I'm not planning on going back to horse farming, a tractor that won't start is bad but a mule that won't is worse, yet I have a great deal of sympathy with those Polish farmers. It's now how much grain you raise that counts, it's how much you have left over for yourself, to eat or sell, and if they come out better with horses, that's their business. Personally, I never have seen that horse I wouldn't rather feed than a Communist.

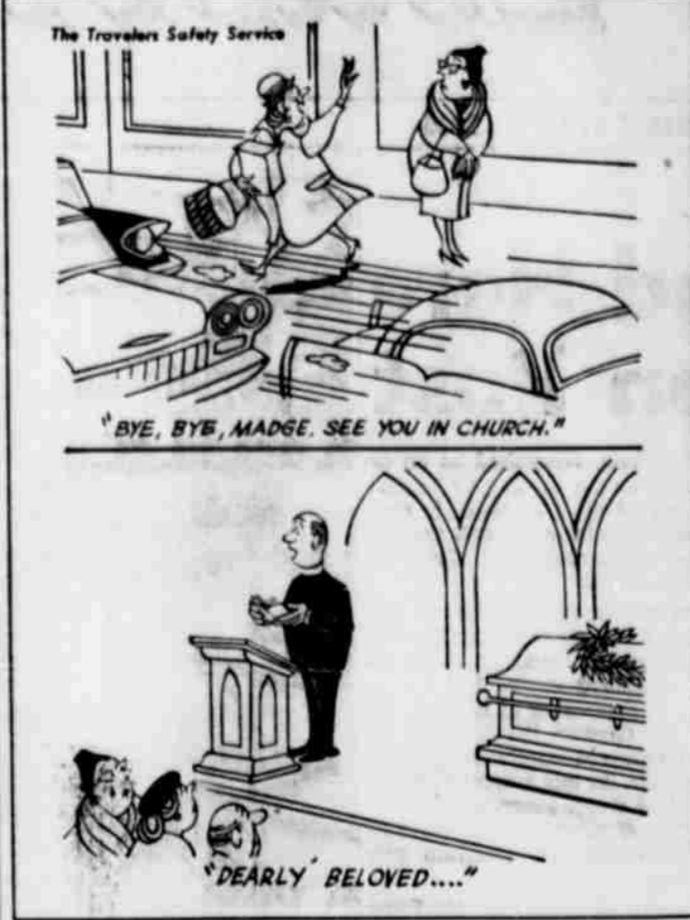

Yours faithfully
J. A.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

By VERN SANFORD
Texas Press Association
AUSTIN, Tex. — Texas' 56th Legislature fizzled to the end of its third session and 180th day with its main job—providing money to run state government — still undone.

Gov. Price Daniel called a fourth session to begin just hours after the last one ended.

House members repeatedly voted down tax bills presented by joint conference committees of senators and representatives. Senate voted favorably each time.

First House rejection was by a vote of 81-to-64. This was on a bill to tax tobacco, natural gas production, corporation franchises, utilities, motor vehicles, liquor, wine, boats, motors, airplanes, radios, TVs, phonographs, cameras and liquor by the drink in private clubs.

Speaker Waggoner Carr named a new House conference group composed of members who had voted against the bill. They met with the same Senate conferees that had worked twice before.

Only change in the new report was that the private club tax was cut out and the radio and TV tax slightly increased.

House rejected it again, this time 83-to-66.

More conferences and more votes followed in the final frantic hours. All futile! None made any apparent progress toward compromising the basic bone of contention, whether to tax gas pipelines. House favors this "severance beneficiary" tax by a narrow margin. Senate is flatly against.

Along with his new call, Governor Daniel issued a sober warning. Unless a tax bill is passed and effective (requiring a two-thirds favorable vote) by Aug. 15, there won't be time or money to get Sept. 1 checks to 225,000 old age pensioners.

CARR FOES BACK DOWN — During the tense, short-tempered days in the wind-up of the last session, Speaker Waggoner Carr was, for a time, the target for pent-up frustrations and pressure.

Carr had worked to get the House to accept the Senate-passed tax bill. When the House turned the bill down, Carr said that "obstructionists" had defeated it.

This was a red flag to members already sensitive to public criticism of a "do-nothing" Legislature. For several days they simmered. They accused Carr of trying to thwart the will of a House majority, talked of voting him out of the speakership.

In a dramatic showdown, Carr stepped down from the rostrum and challenged his critics to remove him if they thought it would make things any better.

Nobody accepted his dare. A few minutes later, on motion of Rep. Joe Burkett, the man Carr defeated for the speakership, Carr was escorted back to the speaker's chair.

numerous other household items will be sold. Housewives are asked to make a check of their needed items and purchase them from a member of the club.

And the wearying legislative battle began again.

STUDENT FEE BILL OKAYED — A bill to require state college students to pay an activity fee passed both houses by very narrow margin.

Measure would allow the colleges to charge students up to \$30 a semester to support health services, book rentals, cultural and athletic events, campus publications, parking, etc.

Any college may exempt from the fee up to 10 per cent of its enrollment in cases where the charge would cause "undue financial hardship."

Bill was hard-fought. Opponents declared it would make "free public education" available only to the rich. Backers said the colleges had to have more money. It was estimated the bill could bring in as much as an extra \$1,000,000 a year.

BEACH BILL PASSES — Both houses passed and sent to the governor a bill guaranteeing public access to state-owned beaches. It took a conference committee to work out the differences between House and Senate ideas on the bill.

As finally passed, the bill says the public shall have the right to come and go from public beaches. No one, it says, shall erect a fence or barrier to prevent this.

Beaches that cannot be reached by public road or ferry are exempt.

WAIT, YOUNG LOVERS — Governor Daniel's expected signature on a newly passed bill will put a damper on the elopement plans of Texas teen-agers.

It will require boys under 21 and girls under 18 to wait three days after obtaining a license to get married. Also, to get the license, the youngsters must be accompanied by parents or guardians.

Some lawmakers said it would mean more running across the state line to marry. However, Oklahoma recently passed a similar law.

NEED MONEY FIRST — Amid the legislative tax deadlock, the Commission on Higher Education decided to stop studying new money-spending programs until there's money to spend.

Commission's job is to determine needs of the state's colleges and universities and make recommendations to the Legislature. Expanded programs and new degrees are being sought by many schools.

But when the Commission met, there was no money in sight even to open the schools next fall, let alone expand them.

Commission resolved to "approve no programs which entail additional expenditures until such time as monies are provided for the programs and offerings already in existence."

down to nine producing days again for August.

Railroad Commission ordered the same production as for July — 2,700,164 barrels a day on a nine-day schedule.

Major oil purchasing companies and independent producers were virtually agreed that production must be kept low to reduce excessive stocks.

WATCH THAT PAINT — If someone slips on a strip of wet city paint, is the city liable for personal injury damages? State Supreme Court has this issue under consideration in a case that could affect all Texas cities.

City of Austin is being sued for injuries of a person who slipped on fresh paint marking a car parking slot. Lower courts held the city was liable.

About Your Health

There is a new killer in our midst! Actually it isn't so new. There have been deaths from this cause for a few years now.

The tragic thing about this new killer is he strikes at infants and toddlers—children—the ones that can't protect themselves!

This killer comes in several forms. He appears as a crib sheet, pillow case, bib, and worse of all, a TOY.

However, this killer is easily recognized by grown ups. It is the clear plastic that is used for so many purposes these days.

Take shirts. Bags made out of this plastic are just perfect for protecting the shirt from dust and at the same time displaying the product.

But when such plastic materials are used as crib sheets?

Last year in Texas, three infants eight, seven, and five months old suffocated because they accidentally pulled the plastic sheet over their face.

Pillow cases too, are just as deadly. Early this year a four month old child was found in bed with its head buried in a plastic pillow case.

A month later a plastic sheet

claimed another victim. And still plastic clings. When the another month later a five month tries to breathe it clings old infant playing with a plastic tighter. The result is suffocation. So, protect little children to tear the material from suffocated. (This is a weekly feature Public Health Education Health).

IT'S THE LAW in Texas

Made your will? If not, the State of Texas may wind up as owner of your estate upon your death. Under our statutes, the estates of persons having no heirs who die intestate revert, or "escheat", to the State.

Mrs. Gene Williams and family of Littlefield, Vancaan remained for a longer visit.

Mrs. L. H. Pickrell and son, Benny, visited in Lubbock last Wednesday with her mother, Mrs. Mark McCurry, and her sister, Mrs. Louis Suttle and family.

Linda Pickrell returned home Saturday from a three-day visit with her sister, Mrs. Harvey Grigsby and family, in Clovis, N.M.

Mrs. R. W. Stanfield left Sunday for a visit in Ft. Sumner, N.M., with her daughter and family, Mr. and Mrs. G. W. Woods and children.

mon law. There, under such circumstances, the estate escheats to the British crown. The theory of the process is that the sovereign (or State), having been the original owner of all lands before they were parceled out to individuals, is entitled to a return of such lands when the possibilities of legal inheritance have been exhausted.

This idea has been expanded to include personal property as well as real estate. It also applies in the case of a person absent for a term of seven years and not known to exist who leaves no heirs and no will.

Presumably, there is hardly a person who does not have some individual or charity that he would prefer to have his estate, rather than have it go to the State by default, so to speak. Yet, surprisingly, estates worth many thousands of dollars do escheat to the various states from time to time.

Now, before you shrug the matter off with the idea that these statutory provisions could not apply to you, better think a minute. Suppose you and your spouse have no heirs besides each other and your children. Many people do fall into this category.

In event of a catastrophe resulting in death for you and your entire immediate family, no legal heirs would remain. Therefore if you had no will, your property would go to the State. In preparing a will, it is possible to provide for such an eventuality.

In this hypothetical case, you would probably want to designate some friend as executor, to take care of all necessary arrangement

and then distribute the estate according to your wishes. On the other hand, if you have plenty of possible heirs, a will could be used to designate which of them shall participate in the division of the estate. And even if you wish your property to be distributed entirely in accordance with our statutes of descent and distribution as explained in previous columns, a will can perform useful functions. Among other uses, a will could provide for an orderly and economical partition of your property, preventing any waste of the assets by heirs impatient for a settlement.

What happens to property which escheats to the State? Following certain required legal formalities and court proceedings, all escheated lands are set apart to the Permanent Free School Fund of the State, and may be leased and sold by the Land Commissioner under certain regulations. Escheated personal property is sold by the local sheriff under a court writ and the money received therefrom paid into the State Treasury.

One of 7 Big Bests Chevy gives you over any car in its field

Open invitation to excitement, the Impala Convertible... and America's only authentic sports car, the Corvette.

You've got more to go on than our say-so: Every motor magazine has given Chevy's standard passenger car and Corvette V8's unstinted praise. SPORTS CARS ILLUSTRATED says it this way: "... surely the most wonderfully responsive engine available today at any price." And if you want the thrift of a six, you still get the best of it in a Chevy.

BEST ECONOMY No doubt about this: a pair of Chevy sixes with Powerglide came in first and second in their class in this year's Mobilgas Economy Run—getting the best mileage of any full-size car, 22.38 miles per gallon.

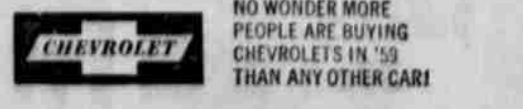

BEST BRAKES Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds. *National Association for Stock Car Advancement and Research

BEST RIDE A few minutes behind the wheel will leave no doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

BEST TRADE-IN Check the figures in any N.A.D.A.* Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two." *National Automobile Dealers Association

BEST ROOM Official dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room, for example, is up to 5.9 inches wider than comparable cars.

BEST STYLE It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

Relaxation

If someone were to deprive you of the right of relaxation you would be a slave.

Yet relaxation itself can enslave us!

Nero is a villain of history because he fiddled while Rome burned. He couldn't have put out the fire . . . but what a colossally stupid time to relax!

There are hours in every week when we need to relax. And there are hours that challenge our mightiest effort.

It is like those hours when, with millions the world over, we have opportunity to seek in our churches truth . . . faith . . . God!

The value of relaxation is unquestionable. But the value of religious and moral growth is *supreme!*

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

GETTING THE WORD—Marine reservists Cpl. Murry E. Young, Lubbock, PFC William H. Kirby Jr., Star Route, Hale Center, PFC Warner L. DeSautell, 502 Sunset Ave., Littlefield, and Sgt. Joaquin Jackson, 606 West First, Littlefield, pick up literature during off duty hours in California from cover girl Madeline Voburg of Coronado. The reservists, all members of Lubbock's 40th Infantry Company, are in South California to undergo two weeks of amphibious training with the Marine Corps' Landing Force Training Unit.

Jackson, DeSautell Begin Training in California

CORONADO, Calif. — The 40th Infantry Company, USMCR of Lubbock, arrived here Sunday via military air transport ready to begin its annual two-week summer training program. This year's training will be provided by the Marine Corps' Landing Force Training Unit.

In the company are two Littlefield reservists, Sgt. Joaquin Jackson and Pfc. Warner L. DeSautell.

On hand to welcome the reservists to Southern California was Lieutenant Colonel John A. Copeland, who represented the commanding general of the training unit, Brigadier General H. C. Tschirgi. Major Gerald H. Sanders, the unit's commanding officer, accepted the greetings on behalf of his men.

The Landing Force Training Unit, which will train the Texas contingent this year, was activated on July 16, 1953, with the mission of training individuals and units in the principals, doctrines and techniques of amphibious warfare.

This year's summer training program will emphasize amphibious landings and establishment of beachheads, both amphibious and airborne.

Tailoring the courses to meet the individual needs of the units being trained, LFTU presents basic instruction both for new and experienced personnel and as a refresher course for seasoned troops.

Employing Marine Corps helicopters, the Lubbock marines will learn various phases of the vertical envelopment concept. This form of landing accents speed, mobility and split-second timing in landing behind the enemy's

main defenses. The helicopter landings will take place during the unit's second week of training.

High point of the unit's training schedule will be a one and one-half hour Landing Force Assault Demonstration. The demonstration is a terrain model depicting the modern concepts of employment of a landing force of regimental landing team size illustrating the use of nuclear weapons, helicopter landing forces and sea echelon movements of ships.

It demonstrates the modern concepts of an amphibious operation, the phases of an amphibious operation in the proper sequence and the employment of forces during the assault phase of an amphibious operation. Here they see the big picture. As orders are issued the landing force, they watch the overall landing force and the effect that each order has upon the individual units within the landing force.

The training unit's Landing Force Assault Demonstration is known throughout the Pacific Command for its high instructional value.

The Texas contingent is one of the 22 reserve units scheduled to participate in the summer training program at the Naval Amphibious Base, Coronado, California, this year.

best suited for. After completing 11 weeks of basic training Charles will be transferred to Camp Pendleton, Calif., to attend four weeks of advanced combat training, before coming home on 20 days leave.

If Charles qualifies for assignment to the aviation arm of the Marine Corps he will omit the four weeks of advanced combat training and be granted 20 days leave following his graduation from "boot camp."

Governor-For-Day Rogers Shows Interest In Farmer

AUSTIN—One of the first official duties of Senator A. J. (Andy) Rogers when he was Governor of Texas for a day (July 9) was to proclaim "Agricultural Appreciation Week."

This gesture, according to Texas Farm Bureau Legislative Director Bob Lilly, was symbolic of Senator Rogers' concern with the welfare of Texas farmers and ranchers.

"Senator Rogers has proven himself one of the greatest friends of agriculture during his years of service in both the House and Senate," Lilly said. "He has not only authored many vital agricultural bills, but he is also willing to use his vast influence in promoting and protecting interests in other pieces of legislation."

July 9 was a day to be long remembered in the lives of Senator Rogers and his wife, Georgia Ann, and their three children. The day began officially at 9:30 a.m. when the Senator and his wife started receiving friends and relatives in the Governor's Reception Room in the State Capitol Building. Coffee and cookies were served throughout the day. Proclamations were signed and pictures made. The list of official duties included signing a parole releasing a resident of the 30th Senatorial District and the signing of two land patents from the General Land Office.

At noon, Senator and Mrs. Rogers and their families were guests at the Governor's Mansion. This is another custom in the traditional "Governor for a Day" festivities honoring the President Pro Tem of the State Senate. Senator Rogers was elected President Pro Tem June 17.

The day ended with a huge banquet and program at the Villa Capri in Austin. Due to the illness of Secretary of State Zollic Steakley, Judge Otha Dent of Littlefield, member of the Board of Water

Engineers in Austin, presided at the dinner. Invocation was given by the Rev. W. H. Townsend, chaplain of the Senate, and the benediction by the Rev. John Barclay, pastor of Central Christian Church of Austin, who was Mrs. Rogers' pastor before her marriage.

General Earl Rudder, president of Texas A. and M. College, told of Senator Rogers' early days, his school life and military service. He was followed by Dolph Briscoe, Jr., prominent South Texas rancher who served with Senator Rogers during his tenure in the House of Representatives. Senator A. M. Aikin, Jr., of Paris then spoke of his association with Senator Rogers since he has been a member of the Senate.

Senator Rogers was then introduced to the banquet audience and spoke briefly, thanking all those who had participated in the affair. He is the youngest Senator ever to be President Pro Tem and Governor for a day.

In addition to designating the week of July 9-16 as "Agricultural Appreciation Week," Senator Rogers also proclaimed the following "days": Texas Tech Day, July 13; West Texas State Day, July 14; and Midwestern University Day, July 15.

He graduated from High School in May of 1914 and was a member of the National Honor Society. When he was given his commission in the Air Force he scored higher in the exam phase of the exam than had been made at the Station previously.

Valley View Club Meets In Crank Home

WHITHARRAL - Mrs. Elva T. Crank was hostess at her home here Thursday evening to the Valley View Community Club. Mrs. Hayes Denney presided at a brief business meeting. The club will not meet during the month of August. The next meeting will be on Sept. 3, with the place to be named later.

Mrs. Bobbie Brock of Littlefield gave a "world gift show." Mrs. A. B. Roberts was the "lucky lady."

Punch, cookies and nuts were served to Mesdames Denney, Roberts, Norman Hodges of Rantoul, Ill., Bob Crank and Sandra of Levelland, Brock and Jimmy Starnes of Littlefield, Johnnie Miller, V. D. Hodges, Buddy Miller, the hostess, Richard Crank, Bob Crank and Doug.
