

"Enemy" Drops Behind U. S. Lines

Paratroopers of the 82nd Airborne Division — the "enemy" in joint Army-Air Force maneuvers at Fort Hood, Tex.—make a mass jump with heavy equipment into "U. S." territory. One man was killed when his chute failed to open. Thirty-nine others were hurt in the maneuver drop. (AP Wirephoto).

SIMULATED ATTACK

'Atomic' Weapons Used In Maneuver

By WILBUR MARTIN FT. HOOD, Tex. (AP)—A mushrooming cloud of smoke billowing lazily upward in a blue sky signaled the use of mock atomic weapons in a mock war that is coldly realistic.

An hour and a half after a brigade of 82nd Airborne "aggressor" troops parachuted from giant transport planes yesterday, the atomic cloud burst over the drop zone.

The Army communique—No. 2 of Operation Long Horn, biggest air-ground maneuver in U. S. military history—stated briefly without detail:

"The U. S. ground forces delivered an atomic attack against the aggressor ground forces." There were no U. S. planes in the air. Aggressor aircraft controlled the sky.

Prior to the maneuver's start, Lt. Gen. William Hoge, Fourth Army commander and maneuver director, had announced atomic "weapons" would be used in sim-

GIs Cussing Dust; Cause Road Trouble

By TIM PARKER WITH LONG HORN AGGRESSOR IN TEXAS, March 26 (AP)—Dust is the common enemy.

Every soldier taking part in Exercise Long Horn, biggest joint Army-Air Force maneuvers in U. S. history, has taken time from his battle action to curse the dust.

The drought has made the Texas dust almost unbelievable. On well-travelled dirt roads, it lies in pillowy depths of six to twelve inches.

Scattered rain over the maneuver area last night brought some relief. But — unless this rain develops into a drought breaker — a few hours of sunshine will bring back the dust.

The dust is treacherous and many a jeep has slid into a ditch. Dust provides a deceptive cover for holes in the road.

For a convoy of vehicles, it's almost a roadblock. The lucky jeeps in the leading vehicle get only what dust is hanging in the air from previous traffic. Those behind the leading vehicle have real trouble.

A layer of soot, penetrating dust — caliche, Central Texas call it — shrouds everyone. Few soldiers are without their goggles. Convoys are often slowed to five and ten miles an hour.

A contrary gust of wind will bring a column to a near-halt. The blinding dust settles slowly and drivers must creep along meanwhile. If they don't, they end up in the ditch.

THE WEATHER

BIG SPRING AND VICINITY: Clear to partly cloudy this afternoon. Light to moderate breeze. High 70, low 50. High 70, low 50. High 70, low 50.

Military Urges All-Out War Of Ideas On Reds

WASHINGTON (AP) — The State Department had military support today in urging that this country wage an all-out war of ideas against the Communists and their "sinister" hate-American campaign.

"We cannot do the job halfway," Gen. J. Lawton Collins, Army chief of staff, told a House Appropriations Subcommittee. "We must go all out in the battle of ideas. Only thus can we hope to convince potential aggressors that another war cannot pay."

The committee released testimony supporting a 170-million-dollar State Department request for its overseas "Campaign for Truth" for the next fiscal year, starting July 1. That amount is more than double the 85 million dollars Congress approved last year.

State Department witnesses ran into sharp questioning from committee members critical of the size of the request. Rep. Cleveland (R-Ohio) accused the administration of carrying on a "scare campaign" based on the threat of Soviet aggression.

Collins told the group this country must "enter into the struggle for men's minds with every resource at our command."

"We must make maximum use of every means of communication we possess," he said. "We must regain the psychological advantage. We must employ a positive approach instead of a negative defense."

Mose Harvey, chief of the State Department's Research Division for Russia and East Europe, testified that America faces a new "sinister" twist in Soviet propaganda.

Where the Russians once "limited themselves to arousing antagonism against systems or ruling circles," he said, they have since Jan. 21, 1950, taught the individual Russian to hate the individual American.

This "being bolstered, Harvey said, with atrocity charges dating back to World War I and "is global in extent."

The current objective is to "isolate the United States, to force it out of Europe and Asia," he testified. He estimated the Soviet

BY MID-APRIL Europe Army Pact Signing Seen Soon

By CARTER DAVIDSON PARIS (AP) — Gen. Eisenhower stands a good chance of seeing the six-nation European army treaty signed and ready for ratification before the Maytime departure, he is generally expected to make from his job as supreme Allied commander.

Experts predicted today the voluminous treaty creating the international force will be complete by mid-April. Shortly after, the foreign and defense ministers of France, West Germany, Italy, The Netherlands, Belgium and Luxembourg are expected to meet in Paris to sign it.

That would just about complete the top priorities of Eisenhower's second "crusade in Europe." Most of the general's associates believe he will go home in the last two weeks of May to campaign for the Republican presidential nomination.

These associates speculate Eisenhower may send his request next week to President Truman for relief from his mission as top Atlantic Pact military commander. The President already has said the general can come home whenever he wants.

After the treaty is signed, it must be approved by all six national parliaments before German troops can be recruited. In two of those legislatures at least — France's and West Germany's — it faces heavy sledding. Treaty backers are optimistic, however, that it will be ratified before the end of the year.

Eisenhower's interest in the European army is so keen that he has assigned two of his officers to help iron out the technical difficulties still standing in the way of agreement.

Assigned to this ticklish job are Brig. Gen. John H. (Mike) Michells, Korea war hero, and Col. Robert Richardson. They have been meeting with experts of the European nations for some months.

This group has solved, to their satisfaction anyway, all major problems merging the military power of the six nations into an international land-sea-air force of some two million men and 6,000 planes within the next three years. What remains are such administrative problems as uniform disciplinary regulations, a common uniform and pay scales.

Chambers Appearance At Jury Sets Off New Spy Trial Reports

NEW YORK (AP)—A surprise federal grand jury appearance by Whitaker Chambers has set off reports of a new spy inquiry.

Chambers, one-time Communist courier and principal witness against Alger Hiss, was closed with the jury for 90 minutes yesterday.

He wouldn't say afterwards what it was about except for "matters which were familiar to me."

Combat correspondents of the 1st Marine Air Wing in Korea, whose stories are often censored but whose dreams cannot be scrutinized, have voted actress Mary Castle (above) their "No. 1 Dream Girl." (AP Wirephoto).

McGrath Talks At Hearing On Justice Dept.

WASHINGTON, March 26 (AP) — Atty. Gen. McGrath told congressional investigators today the Justice Department would lose overnight "a majority of its best attorneys" if they were barred from outside activities.

McGrath testified at the first open hearing of a House Judiciary Subcommittee that is looking into his department's operations.

He chose to testify under oath, although the committee had decided he need not swear to tell the truth.

"Under the circumstances there are people who would wonder why the attorney general should not be sworn," he remarked.

The subcommittee inquiry was aimed, among other things, at unearthing the truth of charges that the department had not pressed some tax fraud prosecutions as it should.

Chairman Clegg (D-Ky) said in an opening statement: "Our investigation will be searching and painstaking — lacking the carnival bally-hoo which many would like to witness. This is no witch hunt or fishing expedition."

Clegg also promised "to exercise every available safeguard against bringing into public investigation the name of persons, companies, or associations who are not guilty of wrongdoing."

20 Tons Of Hay Are Dropped In Nevada To Snowbound Cattle

ELKO, Nev., March 26 (AP)—Air Force fliers dropped 20 tons of hay on remote, snowbound Nevada ranges yesterday while Army crews cleared more miles of roads with big bulldozers. The aerial haylift will end today, weather permitting.

However, 10 more days of good weather will be needed to alleviate the livestock emergency, said Huston Mills, state coordinator.

City Commissioners Approve \$589,724.50 Budget For Year

A budget calling for appropriations totaling \$589,724.50 during the fiscal year beginning April 1 was approved Tuesday by Big Spring city commissioners.

Estimates on city revenues for the coming year are based on the tax rate of \$1.70 per \$100 valuation, which has remained unchanged since 1950.

However, water revenues, a principal source of income, are expected to decline substantially during the summer months. In his budget message to commissioners, City Manager H. W. Whitney called attention to water supply problems now faced by the city.

Whitney said he assumed that lake sources would be depleted and that first supplies from the Colorado River Municipal Water District would not be available before Oct. 1. If rains should replenish the supplies at Moss Creek and Powell lakes, water revenues

would exceed budget estimates, the city manager explained.

Valuation of taxable property in the city is pegged at \$15,000,000, the highest in the history of the city. Increases have resulted from new building projects and the addition of new areas to the corporate limits, the city manager said.

'More Frankness' Noted In Talk On POW Exchange

Plans To Bring Reich To West Moving Ahead

Russians Told Germany To Be In Defense Line

By JOHN M. HIGHTOWER WASHINGTON (AP) — The Western Powers gave evidence today of pushing ahead with plans to cement as much of Germany as possible to the Western world regardless of Russia's tactics.

The toughened policy of the United States, Britain and France was spelled out in a note sent to Moscow yesterday and made public by the three nations last night.

This 600-word declaration, responding to a new Soviet proposal of March 10 to start work on a German peace treaty, did two things:

1. It served notice on the Kremlin that Western nations, in close cooperation with the anti-Communist government of West Germany, are firmly committed to tying Germany in whole or in part to a purely defensive European community.

2. It challenged the Russians to prove the sincerity of their declared interest in uniting Germany by permitting a United Nations commission to go into the Soviet zone and find out what opportunity exists there for holding free elections.

Officials here predicted the new notes would be followed by a long series of exchanges such as has taken place regularly in the past five years.

These exchanges have consistently reflected a hardening of the antagonistic positions of the Communist and free nations.

Increasingly, the Russians have wrapped Soviet-controlled German into their Eastern European satellite system. The Western Powers

Taft's Name To Stay On N. J. Ballot

TRENTON, N. J., March 26 (AP)—State Superior Court today ruled Sen. Taft's name will remain in the New Jersey April 15 presidential preference primary.

Judge Ralph J. Smalley dismissed a state suit seeking removal of Taft's name after Atty. Gen. Theodore D. Parsons told the court there was "an overriding public interest" not to remove.

Taft announced last week he was withdrawing from the New Jersey primary election campaign and later wrote a letter to the secretary of state formally requesting that his name be taken off the preferential ballot.

Progress Is Made After Ban On News

MUNSAN, Korea, March 26 (AP) — Truce negotiators displayed "much more frankness" today in seeking a compromise on exchanging prisoners—one of the three key issues blocking a Korean armistice—an Allied spokesman reported.

"Some slight progress" was made behind the screen of a news blackout, Brig. Gen. William P. Nuckols said, "but they have not gotten down to brass tacks."

His disclosure came after a second group of staff officers cleared the decks for tackling the sole key issue remaining before it—whether Russia should help supervise the truce.

The last of the minor problems was cleaned up, a U.N. Command communique said, when the staff committee reached "complete agreement on the ports of entry question."

The Allies then tried to solve the key issue of proposing again that Russia and Norway be dropped from the list of six "neutral nations" who will police the armistice. But the Communists insisted on including Soviet Russia.

The deadlock is so firmly established that they carried on the brief debate over the Russian question without either side once naming Russia.

Two other deadlocks stand in the way of a truce: (1) whether the Reds will be allowed to repair their bomb-shattered airfields and (2) whether prisoners of war will have a choice of going home.

The airfield question is not now under discussion. Armistice delegates told staff officers not to talk about it.

The prisoner problem was discussed freely by staff officers for the second day in off-the-record talks. They met in secret for two hours and 17 minutes but results were inconclusive, an Allied spokesman said. However, U.N. officers got a clearer idea of what the Reds were driving at.

The session was "as amicable as can be expected when it's a meeting between belligerents," said Col. George W. Hickman.

The Communists refused to relay an offer of help to the North Korean Government, said General Trygve Lie of the United Nations.

The message, delivered Tuesday by Col. Andrew J. Kinsey, offered the technical assistance of the World Health Organization in combating epidemics in North Korea the Reds say were started by germ warfare.

North Korean Col. Chang Chun San returned the message, Wednesday, undelivered. He said it was "nothing to do with the armistice agreement. Therefore I hereby return it to you."

200 Said Suicides In Chinese Campaign

HONG KONG, March 26 (AP)—The independent Chinese newspaper Wah Kiu Yat Po today said in a dispatch datelined Canton that at least 200 businessmen killed themselves in the first five weeks of Red China's anti-corruption campaign.

In that period, the paper said, 38,000 persons were charged with bribery, tax evasion and profiteering.

62 Cases Of Whiskey Are Stolen In Gotham

NEW YORK (AP) — Two men hopped onto a truck loaded with 62 cases of whiskey—worth about \$40,000—and drove off yesterday as its driver was getting his papers checked in a warehouse.

The truck was found six blocks away. Sixty-two cases were missing.

How does it happen?

If you asked the boys with the slide rule, they'd tell you that most auto accidents are caused, not by faulty cars, but by faulty drivers. Sure, the reckless drivers have their share of smashups. But it's the normally careful driver, who gets careless only once in a while, who has most of the accidents. Keep it in mind next time you drive, won't you?

# Missouri Friend Of HST Talks In Grain Probe

By EDWIN B. HAARINSON  
WASHINGTON (AP)—"I hope I never see another kernel of corn again as long as I live."

Thus spoke Harry Easley as he prepared to resume testimony today at a Senate Agriculture Committee investigation of quick profits in storing grain for the government.

Easley said he is a "small town" loans and investments operator from Webb City, Mo., who learned about the grain storage business the hard way. That was when the floor of one of his storage buildings collapsed under the weight of corn that arrived by the carload.

Easley also said he is a friend of President Truman, having been active in Democratic politics in Missouri.

"And I hope this does not get him involved," Easley told a reporter.

The Webb City man was called back to give more details about the Midwest Storage and Realty Company and its handling of government corn.

The Senate group is delving into details of this company's lease of surplus Army buildings at Camp Crowder, Mo., and its contract with the Agriculture Department to store grain there.

Sen. Williams (R-De), critic of many administration operations, contends that Easley and four Missouri associates reaped big profits after setting up the storage firm in 1949.

Chairman Ellender (D-La), after two long sessions of testimony yesterday, told reporters he could "see nothing wrong" thus far.

Ellender said the Agriculture Department was anxious to find any kind of approved storage space for its huge grain supplies in 1949 and Easley and his associates apparently helped out.

Senators planned to question Easley and his associates today about how they quickly arranged both the lease for the Army buildings and the storage contract.

Woodrow W. Walton, former Agriculture Department official who signed the contract, testified emphatically yesterday there was "no political favoritism nor official favoritism" involved.

He and other department employees were unable to explain why a required financial statement on the Midwest company was missing.

## China Reds Recruit

HONG KONG, March 26 (AP)—The pro-Nationalist Kungsheung Daily News says in Canton dispatch China Reds are recruiting 500,000 men in South China for the Chinese Communist Army.

## ENGINEER BELIEVES

# Drouth May Force Better Water Laws

By MAC ROY RASOR  
AUSTIN, March 26 (AP)—Some good may yet flow from Texas' severe drouth.

That is the opinion of H. A. Beckwith, chairman of the State Board of Water Engineers, who probably has listened to as many moans and groans about the current water shortage as anyone in Texas.

"If the drouth pinches hard enough, people may forget their personal differences long enough to seek better conservation practices and stronger water laws that will serve everyone to better advantage," he said.

In the past, numerous attempts to revise Texas' anemic water laws have rammed into stone-wall resistance growing out of divergent philosophies of control and ownership of surface and ground waters.

A between-sessions committee worked two years at a comprehensive remodeling of the system but its recommendations were scrapped by the last Legislature.

Meanwhile, demand on Texas

streams for water has grown greater and greater. When the drouth moved in and streams ran low, water users often found their supplies seriously curtailed or cut off.

It didn't even take a drouth to bring about action on some Texas streams. Direct diversions of water have been denied for years on numerous streams, among them the Guadalupe, Rio Grande, Leon, Brazos, Spindletop, Guiley, Lavaca, and Austin and Bastrop Bayous. The Guadalupe has been closed since 1919. Others have been closed gradually since.

On these streams, new appropriations are limited to flood waters—when the stream is flowing at some specified above-average peak.

The board has taken every opportunity to recommend and encourage storage of these flood waters during peak flow.

"About 54 million acre feet of water a year flow unused into the Gulf of Mexico," Beckwith noted. "If that water could be caught and stored, there would be water in abundance the year round for everybody."

Plenty of it could be used now, he said. Many streams are running so low water permits already issued far exceed the available water supply.

## OFFICIAL REMARKS

# Worst Yet To Come In Texas' Drouth

By The Associated Press  
The Texas drouth, steadily growing more critical, was accentuated Wednesday by the statement of a soil conservation official that the worst may be yet to come.

Regional Soil Conservation Service Director Louis P. Merrill said the next 30 to 45 days may be the most critical of the current season of dust storms.

Chancellor Gibb Gilchrist of the Texas A&M College system called a meeting of heads of six parts of his organization now dealing with the problem.

Some scattered showers were forecast for Wednesday. Tuesday light rain fell at Alice, Palacios, Austin, Corpus Christi and Mercedes.

Gilchrist said out of the A&M meeting would come recommendations for action to be given the A&M system's board at its May 3 meeting.

Gilchrist expressed "serious concern" over the critical water situation.

"Already our agricultural extension workers are dealing on the ground with problems of water conservation and use in agriculture, both in irrigated areas and in those depending on rainfall," the chancellor pointed out.

"Our engineering extension people are working with industrial and municipal water supplies. Considerable research has been done recently by our Agricultural Experiment Station in the field of most effective use of irrigation and it has been found that much less water will do an effective job if properly applied at the right time.

"Our Engineering Experiment Station has done much research on problems of water storage, transportation and purification. The Forest Service is dealing with problems of land use in our principal watersheds of East Texas. This statewide organization, legally charged with responsibility in these fields, enables us to attack this problem on a broad front at the lowest possible cost to the state."

# Safety Rules Ignored Before Hotel Disaster

LOS ANGELES (AP)—With the disclosure that several safety regulations had been ignored, two separate investigations have been ordered into a fire at the St. George Hotel that caused seven deaths.

Fire Chief John Alderson said after inspecting the brick building yesterday that a door at the bottom of the rear stairs was bolted and nailed. There was a rotten fire hose on the second floor and a drop ladder on a fire escape had been wired, making it unusable, he said.

He said, however, there was no evidence the violations contributed to the death toll, worst in 20 years here for a hotel fire. Damage to the building was not extensive.

"The loss of life and the extent of the fire was principally the result of unprotected vertical openings," he said.

After hearing his report, the City Council and the State Assembly Interim Committee on Fire Hazards scheduled inquiries.

The fire began before dawn yesterday in a third floor room of the six-story structure and raced up a rear stairway to the upper stories. Five men died of suffocation. A sixth fell to his death after climbing through a window and a seventh died later of burns.

Feinsinger told newsmen on arrival that he actually thought a great deal of Wilson and "I think things are back on the track."

"From all I can gather," said Feinsinger, "the steelworkers' union and the steel companies have a big job ahead in bargaining new contracts and they ought to be left alone so they can get their job done and not be heckled."

Left unanswered, however, were the two big questions: (1) Were the WSB's settlement recommendations actually out of line? (2) Would the steel companies have to get price boosts, as they claimed to pay the higher wages?

The WSB's proposals call for a

Contributions to the Cheerio Club's fund to purchase power tools for Lowell Holland, veteran blind in Korea, have amounted to \$11 so far.

The club, which is made up of the blind and almost totally blind, has already paid down more than three times this amount and needs about \$200 more to pay for the woodworking instruments. Persons wishing to share in this cause may mail checks to Mrs. J. Tom Rogers, 808 W. 15th, club secretary, or leave them with Joe Pickle at the Herald.

The FBI said the money and securities were stolen from a Uvalde rancher Oct. 1, 1950. They had been hidden in a clothes hamper. The rancher was not named.

The FBI said the loot included \$30,700 in cash, \$25,000 in Treasury bonds and \$19,000 in stocks.

# Administration Scrap Simmers As Steel Dispute Talks Go On

By NORMAN WALKER  
WASHINGTON (AP)—A bitter scrap among high administration officials over wage policy simmered down today as steel firms and the CIO United Steelworkers returned to negotiations.

A strike of more than 650,000 workers in the vital steel industry is threatened for April 8, only two weeks away. Officials urged both sides to work for a speedy settlement to avert a walkout.

Negotiations got under way this afternoon in Pittsburgh between the union and U. S. Steel Corp. and Jones & Laughlin Steel, two of the largest producers. Talks with other major firms start tomorrow.

The administration row centered around Defense Mobilizer Charles E. Wilson. He touched it off by labeling Wage Stabilization Board proposals for settling the steel wage issues "a serious threat" to inflation controls.

Wilson later sought to ease the situation by issuing a statement saying that, while he hadn't changed his mind, the WSB plan was appropriate as a basis for trying to work out a settlement.

WSB Chairman Nathan P. Feinsinger seemed satisfied. He had cut short a Western speaking tour to fly back to Washington for what looked like a showdown fight between the WSB and Wilson that only President Truman could settle.

Feinsinger told newsmen on arrival that he actually thought a great deal of Wilson and "I think things are back on the track."

"From all I can gather," said Feinsinger, "the steelworkers' union and the steel companies have a big job ahead in bargaining new contracts and they ought to be left alone so they can get their job done and not be heckled."

Left unanswered, however, were the two big questions: (1) Were the WSB's settlement recommendations actually out of line? (2) Would the steel companies have to get price boosts, as they claimed to pay the higher wages?

17 1/2-cent hourly pay boost of which 5 cents worth would be paid in the future—plus other benefits, including the union shop. The latter proviso would require all steel workers to belong to Philip Murray's CIO union.

A spokesman for Wilson said he definitely still feels the union ought to take less than the WSB recommended. Wilson had planned talks with Murray and steel firms, but Murray refused to attend, calling Wilson a "damned big business man."

Wilson formerly was head of the General Electric Company.

It appeared beyond question that whatever is done about the steel row, it will have a vast influence on the drafting of legislation to extend present economic controls, and the ultimate congressional debate. The present controls law expires June 30.

Chairman Maybank (D-Sc) of Senate Banking Committee said Monday that big steel wage and price boosts might result in kicking out all controls.

But after talking with Wilson yesterday, Maybank announced his

committee would start drafting new legislation right away. He predicted a bill with controls just about matching those now in effect, Sen. Sparkman (D-Ala.), a committee member, said in a Philadelphia news conference last night that the group had decided to provide for "gradual decontrol of present controls."

The ranking Republican on the committee, Sen. Capehart of Indiana, hinted his GOP minority would go along with such a measure.

The House Rules Committee voted 7-4 yesterday for an investigation of the WSB's actions, but it was indicated the probe, which must be approved by the House, would be some time in getting started.

Admissions — Charles Lindsey, City; Verd Van Gieson, City; Mrs. J. C. Smith, City; Mrs. Paul Godfrey, Odessa; Mrs. J. B. Olson, City; Mrs. May Zan, City; John Hayden, City; Mrs. C. A. Schull, City.

Dismissals — Mrs. R. T. Motley, Midland; Mrs. Leon Burke, Snyder; Mrs. Charles Lindsey, City; Mrs. W. E. Hanson, City; Mrs. Paul Godfrey, Odessa.

## Survey Of Streets To Determine Need For More Paving

City commissioners Tuesday instructed the city engineer to make a survey of city streets to determine recommendations for a substantial paving project.

Plans for a new paving campaign are tentative at this time, but commissioners said they wanted studies made as soon as possible so that definite consideration could be given to the proposal.

Commissioners indicated that a paving project, by contract, would be considered. The city would finance its portion of costs by issuing short-term paving warrants.

City Engineer E. L. Killingsworth said the survey of streets probably would be completed in about two or three weeks.

## 6,900 On Strike

NEWARK, N. J., March 26 (AP)—Some 6,900 plant and accounting employees of New Jersey Bell Telephone struck today in a wage dispute.

## P-TA Plans District Meet In Sweetwater

About 50 Big Spring women will be in Sweetwater Thursday to attend the annual meeting of District 16, Texas Congress of Parents and Teachers.

Some 300 representatives of 16 West Texas counties will be represented at the general conference Thursday, Mrs. W. N. Norred of Big Spring, president of the City Council of P-TA, will attend the board meeting and dinner Wednesday afternoon and evening.

Counties included in the district are Andrews, Borden, Coke, Dawson, Ector, Gaines, Glasscock, Howard, Martin, Midland, Mitchell, Nolan, Runtels, Scurry, Sterling and Taylor.

Registration for the convention proper will begin at 8 a.m. Thursday at First Baptist Church, Mrs. Glenn Baker will be in charge.

At 9 a.m. will come the first general assembly in the church auditorium presided over by Mrs. J. J. Black of Midland, district president. Carl Anderson, head of the Sweetwater school board, will welcome the conclave, following invocation by the Rev. Timothy Guthrie of First Methodist Church, Mrs. Norred of Big will respond.

Announcements will be made by Mrs. C. A. Jewell of Sweetwater, and life membership call will be given by Mrs. Jack Hutchins of Abilene.

Scheduled for 10 a.m. is the main

speech by Mrs. Bleecker Morse of Dickinson, state vice president. After Mrs. Morse's talk, at 11 a.m. will come the first workshop period. Eight workshops will be conducted both morning and afternoon. All will be the same with one exception—the civil defense workshop of the morning will become the publicity workshop in the afternoon.

Morning workshops will include one on home and family life, one on councils, one of character and spiritual education, one on safety, one on programs one on legislation; a general section; and the civil defense meeting. They will be held in the educational building of the church.

After attending lunch served by the Sweetwater Chuckwagon in the high school gymnasium, the congress will reassemble in workshops at 2 p.m.

The general afternoon session will start at 3:30 p.m. in the auditorium, and reports will be made on the workshops, yearbooks and publicity books. This session will include a panel discussion of work done and discussion of points made or observed during the meeting.

Closing event of the day will be a tea given by the Nolan County P-TA Council, headed by Mrs. A. J. Marth of Roscoe, in the church basement.

## Red Cross Donations Told; Williamses Have Party

GARDEN CITY, (Sp)—According to J. F. Jones, Red Cross chairman of the Glasscock division of the Howard-Glasscock Chapter, \$300 has been turned in by Mrs. I. L. Watkins and Mrs. A. M. Geiger, who worked Garden City proper. Mrs. John Priddy brought in \$11 from the Lino community. Results of a contest among the school children has not been announced

as yet but estimations are that it will run near the \$500 mark.

Glasscock County turned in something over \$700 last year and from present figures they will run over that this year. If you have not made your Red Cross donation please do so at once.

Mr. and Mrs. Bill Williams entertained with a canasta party Friday evening at their home in the Garden Hill Station.

Mrs. Bill Jessie won high score prize and Henry Nixon won the consolation prize.

Refreshments were served to Mr. and Mrs. Bill Jessie of Driver, Mr. and Mrs. Henry Nixon of Forsan and Mr. and Mrs. E. F. Pryor.

Mr. and Mrs. R. N. Williams of Corsicana are guests of their son and his wife, Mr. and Mrs. Bill Williams, of the Garden Hill Camp.

Recent guests of Mr. and Mrs. Walter Teele were Mr. and Mrs. L. H. Pappé and Mr. and Mrs. Wessee of Monka, Minn.

Week-end guests in the W. K. Scuddry home were Mr. and Mrs. J. S. Ballard and Danny Fowler of Waco, arriving Monday for a visit with the Scuddrys were Mrs. J. K. Easton and children of Ft. Worth and Houston.

A. M. Geiger left Monday morning for Colorado City to spend a few days with his mother and grandmother.

## Jean Madison Is Honored At Party

Carla Jean Madison, daughter of Mr. and Mrs. Carl Madison, was honored recently with a party on her ninth birthday in the home of her parents, 302 Lorilla.

Games were played and Billy Bob Satterwhite won the prize for the boys. Jean Dooley was awarded the prize for the girls.

Refreshments carrying out the Easter theme were served to Jim Bob Trout, Tom Myers, Pat Lindsay, Geraldine McMurray, Sue, Don and James Drake, Lana Jean Satterwhite, Sandra Payne, Pamela and Camille Steward, Sylvia Richardson, Dickie Madison, Richard and Carol West, Geneva Wade, Rheadine Smith, Clea Sneed, Norma McMurray and Terry, Tommie and Charles Dooley.

## Junior's Clothes Look Like Dad's In Fabric, Style

Junior will look like a tiny replica of Daddy, this Spring, in trousers, sweaters, jackets and coats all mimicking the grown-ups in fabric and styling.

The trench coat, ridsescent lining, is warm enough for those "in between" days and sturdy enough for a small boy's hard wear. Popular too, in Spring coats, are the fly-front water-repellent twills, styled to make son and father look like brothers.

Tartans appear in sleeveless sweaters with fabric front and knit back. Sport shirts, in bright tropic prints and bright solids, fit well with a knitted waistband.

Tots just learning to walk won't scrape knees as much with the new overalls that have foam rubber pads slipped into knee pockets.

## Teresa Reeder Is Honored At Party

Teresa Jan Reeder of Springfield, Colo., was honored on her first birthday with a party while visiting her grandmother, Mrs. Edna Lindsay at the Reed Hotel. Teresa is the daughter of Mr. and Mrs. Earl Reeder.

Attending were Mrs. H. Clay Read, Mrs. Gladys Whipple, Mr. and Mrs. G. C. Scarafiotte, Mr. and Mrs. H. E. Williams, Mrs. H. E. Moore, Earl Read, B. B. Smith, Glenn Roberts and Mrs. Reeder.

## Square Dance Meeting

It has been announced that the Circle 8 Square Dance Club will meet at the hall of the YMCA Saturday at 8 p.m. The pot luck supper that was planned for that time has been postponed.

## Homemakers Class

Mrs. William Dale, president, has announced that the Homemakers Class of the First Christian Church will have its regular monthly social at 7:30 p.m. Thursday.

Mrs. Gladys Whipple has returned to her home in Cleveland, Ohio after visiting her mother, Mrs. H. Clay Read, and her brother, Earl A. Read.

Basic Bolero Dress

No. 2699 is an especially flattering ensemble version! Under matching bolero, dress is a soft cap sleeve basic with skirt in six gentle gores. Size 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44 and 46. Size 18, 4 3/4 yds. 39-in.

Send 30 cents for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

Just off the press! The SPRING-SUMMER FASHION BOOK, with its delightful presentation of the newest fashions in the form of dependable, practical, easy-to-sew pattern designs—over 125 of them, for every age and every type. Be an early bird, sew now with this book as your guide. Price just 35 cents.

476 Lilac Transfers

Delicate, wonderfully-colored spring-time lilacs are in the two-color, dye-fast transfer process which requires no embroidery. Just iron onto your materials the sweet lilac color, the leaf green of the stems and leaves. There are four large motifs measuring 6 1/2 by 4 inches, four smaller bunches of 3 inches in the pattern. Lovely on summer frocks, on pretty aprons, on pale pink or green tea cloths with matching napkins—you'll enjoy using them, enjoy the decorated garments or linens!

Send 25 cents for the LILAC TRANSFERS in TWO COLORS (Pattern No. 476) complete transferring and laundering instructions, YOUR NAME, ADDRESS, PATERN NUMBER TO CAROL CURTIS

Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

## WMS Head Appoints Chairmen

Two new chairmen were appointed by Mrs. Virgil James, president, Tuesday afternoon at the regular business meeting of the Hillcrest Baptist WMS at the church.

The group sang the WMS hymn for the year, and Mrs. Don Duke gave the opening prayer. Mrs. D. W. Overman led the devotional.

Mrs. Overman was appointed mission study chairman and Mrs. Clarence Hinkle stewardship chairman. All chairmen gave quarterly reports, and Mrs. Troy Harrell, program chairman, distributed parts for the Royal Service program next week.

Announcement was made that the Annie Armstrong offering for home missions had reached \$52, and that the group now had 11 members.

One visitor, Mrs. Gladys Armstrong, and 7 members were present.

## MENU FOR TOMORROW

THE BRIDE COOKS DINNER  
Broiled Lamb Chops  
Whipped Potatoes  
Peas and Mushrooms  
Salad Bowl  
Bread and Butter  
Beverage

Apple Sauce Crumb Pudding\* (Recipe for Starred Dish Follows)  
APPLESAUCE CRUMB PUDDING

Ingredients: 2 tablespoons butter or margarine, 1 cup stale (dry but not hard) nut-cake crumbs (firmly packed), 1 cup sweetened applesauce, 1-3 cup cream, 2 teaspoons confectioners sugar, few drops vanilla.  
Method: Melt butter or margarine in a skillet over low heat; add nut-cake crumbs and mix well; remove from heat. Sprinkle a little more than half the cake crumbs in the bottom of two individual heat-resistant glass 6-inch pie plates; spoon applesauce over crumbs; sprinkle with remaining crumbs. Bake in very hot (450F.) oven until just hot through, 7 or 8 minutes. Whip cream with sugar and vanilla and serve on top of warm puddings. Makes 2 large servings.

## Hyperions To Give Tea For Newcomers

Colored films of their European tour were shown Monday evening by Mrs. Willard Sullivan and Mrs. Nell Frasier to members of the 1955 Hyperion Club and their husbands in the home of Mrs. Shelby Read.

Announcement was made that the 40-voice Howard County Junior College choir would present the program at the newcomers tea to be given by the club April 2 at 3:30 p.m. in the college auditorium.

## Delegates To Attend Spring Conference

Among the delegates that will attend the spring conference of the P-TA in Sweetwater Thursday are five delegates from the Airport group. They include Mrs. T. E. Welch, Mrs. Roy Young, Mrs. Glenn Earhart, Mrs. W. T. Bradberry and Mrs. W. L. Vaughn.

## Tee Pee Club Makes Plans For Egg Hunt

Resignation of Mrs. A. C. LaCroix as vice president of the Tee Pee Recreational Club was accepted at its meeting during the week end at the Carpenter's Hall.

She will be succeeded by Mrs. Drew Dyer. H. L. McDermont was elected an assistant to the vice president.

In games, Mrs. T. M. Lawson was high scorer at bridge; G. D. Therell in dominoes; Mrs. H. W. McCambled in canasta; J. F. Boydston in chess. The special prize went to N. W. Deberry.

Approximately 60 members attended and took part in plans for an egg hunt for the children during the Easter season. Also discussed were plans for a covered dish dinner for members.

## Mary Cole Vice Grand Of Rebekahs

Josie McDaniel, past noble grand, presided in the absence of Leta Metcalf when the John A. Kee Rebekah Lodge met Tuesday night at Carpenter's Hall.

Mary Cole was elected vice grand to fill the vacancy created by the resignation of Fern Pulseek. Viola Robinson, representative to the Rebekah Assembly held in Galveston, reported on the meeting.

A program honoring Schuyler Colfax, Rebekah founder, was presented by Martha Brady, Beatrice Bonner and Dortha Henderson.

The Big Spring Odd Fellows presented their team in a drill and the Rebekahs responded with a drill. Refreshments were served by Mary Wright, Ida Hughes and Mary Cole to 62.

## Choir Schedules Dallas Appearance For College Ass'n

The Howard County Junior College choir, composed of 40 voices under the direction of Elizabeth Cope, will leave early Thursday morning, April 3, for Dallas to make a guest appearance.

The choir will appear that night before the junior college division of the Association of Texas Colleges, which will be holding its annual meeting in Dallas.

In addition to members of the choir and its director, President E. C. Dodd and B. M. Keese, registrar of the college, will attend the meeting.

## Mrs. Gammon Gives Mission Study

Mrs. James Gammon conducted the study on the first chapter of "Baptist Missions Among the American Indians" when the Lucy Belle Circle of the East Fourth Baptist Church met Monday in the home of Mrs. R. C. Armstrong.

Prayers were offered by Mrs. Stanton Johnson and Mrs. Milton Kirby.

The next meeting will be Monday in the home of Mrs. Maple Avery. Six attended.

DESIGNING WOMAN

## New Coffee Tables Serve More Than One Purpose

By ELIZABETH HILLYER

A coffee table can do more to restyle a room than any other single piece of furniture. A change from a small, fussy, out-of-date table to a big, smooth modern one makes a striking difference at once. For all its great convenience in holding ashtrays, glasses and magazines near at hand, the coffee table is an unusual piece for the room. It can contrast with rather than match other furniture and it provides a show-off spot for a decorative object or two, a prized accessory, a plant or flowers. But new coffee tables do more than all this. Many of them can be had with cushions so they can be sat on. When extra seating is needed, they are handsome benches made comfortable by resilient foam rubber. A new favorite spot for the long coffee table is in front of the picture window, where it looks better than furniture of any other kind and can be used either as a table or as a seat. Sketched is a black table that is a table and a bench at the same time. The removable foam rubber cushion, instead of extending the full length of the top, goes only part way.

## Lomax HD Club To Make Cookies For State Hospital

Plans were made to make cookies for the women's ward at the State Hospital for Easter at the Monday afternoon meeting of the Lomax Home Demonstration Club in the home of Mrs. S. R. Farum. Roll call was answered with "A Helpful Idea." Mrs. Doris Blisard gave the devotional, and Mrs. L. A. Newman and Mrs. T. E. Newman were in charge of recreation. Three visitors and 12 members were present.

## Kirbys Are Hosts To Double Six Club

Mr. and Mrs. M. L. Kirby were hosts Tuesday evening in their home to members of the Double Six "42" Club.

High score was won by Milton Kirby and Mrs. Loleta Grimes, low by Milton Brown and Virginia Bryant.

Ten members and two guests, Mr. and Mrs. Neal Bryant, were present. Mr. and Mrs. John E. Brown will be next hosts April 14.

## Elbow 4-H Club

Mrs. Eugenia B. Toland gave a demonstration on choosing accessories at a recent meeting of the Elbow 4-H Club in the primary room of the Elbow school. Present were Mrs. A. L. Sampson, Mrs. Ted Fields and five members.

## Beards Sprout At College For Ranch Week Festivities

Beards, levis and plaid shirts will be much in evidence this week end when Howard County Junior College goes all-out for its annual Ranch Week activities.

Election of officers, including a sheriff and posse of deputies, was to be held Wednesday morning during activities period, and kangaroo court will be held at the same time Thursday, Friday and Saturday mornings.

Thursday evening the Lasso Club will be in charge of an impromptu fun night program in the auditorium, and a hayride has been

planned Friday night. An all-college skating party will be held Saturday night at the roller rink, and to climax the activities a Western dance will be given Monday night in the gym.

Jim King and his Cosden Playboys will provide music and admission will be free for HCJC students and all senior high school students in the area. Couples only will be admitted, and prizes will be awarded for the best costumes.

B. M. Keese, registrar, is the faculty sponsor in charge of arrangements.

## Lillian Brown Is Initiated In Candlelight Service

Lillian Brown was initiated Tuesday evening in a formal candlelight service at the IOOF Hall by the Big Spring Rebekah Lodge 284.

Hattie Bolting was elected to membership by transfer.

Ruth Wilson was installed as treasurer to fill the unexpired term of Gracie Majors, who resigned.

Debs Herring was installed as chaplain. Nannie Adkins, lodge representative, reported on the annual Rebekah Assembly held in Galveston this year.

Attending the assembly from the Big Spring lodge were Ruth Wilson, Earl Wilson, Luella Thomas, Eugene Thomas, Audrey Cain, Leon Cain, Bonnie Phillips and Nannie Adkins.

During the meeting, a skit was presented by members to commemorate the birthday of Schuyler Colfax, who perfected the Rebekah ritual.

Refreshments were served to 33.

## Brenda Kay Sztar Has Operation

Mr. and Mrs. J. W. Sztar have returned from Dallas where they were at the bedside of their daughter, Brenda Kay, 3 1/2, who underwent an operation on her right leg Monday.

She is a patient in the Scottish Rite Hospital there and is suffering from Allbright's disease.

This is the second operation the child has undergone in a month. The parents expect her to be home in about two weeks and she will be in a cast for three months.

## Woodmen's Meeting

It has been announced that the Woodmen's Circle will meet Friday at 2:30 p.m. at the WOW Hall for a special meeting. All members are urged to attend.

## A Bible Thought For Today—

God might do that but God himself cannot deliver the unjust man from his own memory and conscience. "Deliver me from the deceitful and unjust man." — Ps. 93:1.

## Languages Are Important; They Are Bound To Be More Important

The language-record business is booming, according to makers of this handy high-pressure method of learning at least the rudiments of unknown tongues. The big increase stems from the growing number of firms with international connections, where the presence of American personnel is required and a knowledge of the language is essential.

French, Italian, German and Spanish. To no one's surprise, Spanish is the most popular of all, thanks to the growing importance of Latin America in our scheme of existence. Also, it is a lot easier to learn than, say, Russian or German.

Throughout our history languages have been neglected by our public schools and colleges. Now that we must perforce live in closer contact with the rest of the world, we are beginning to awaken to the importance of developing at least a bilingual system of education, and Spanish happens to be the one most likely to be useful to the average student in later life.

The de-emphasis or outright discard of

Latin in our schools and colleges is suspect. It was discarded on the ground that it was a "dead" language, however, it lives in a half dozen major languages. Take the words of Latin ancestry out of English, and we would have a poor language indeed. Take it out of Spanish or modern Italian and you wouldn't have much left.

Teach of all states should make Spanish compulsory in its public schools, starting on a small scale in the grammar school, and carrying on with increased emphasis in the high school.

In Western Europe almost everybody is at least bilingual, and nearly all college graduates can get along in three or four languages. This was a case of sheer necessity.

Sheer necessity will force it upon us, and the sooner the better. The public schools should take the lead in languages, among pupils as young as practicable, and carry it along to the point where it does some good, not chop it off short of some worthwhile results.

## The Truth Is Admitted; Current Sand Plague Is The Worst Ever

We note that it is now admitted in some quarters that conditions on the Great Plains are the "worst ever." About a week ago the Soil Conservation Service was saying that while the drought had created a dangerous situation, it wasn't as bad as the dust bowl days.

Well, that all depends on where you are. Where we are, that isn't so and it hasn't been so for a matter of weeks. Now the SCS admits it.

It is altogether possible that the total acreage involved is not as extensive as that back in the dark days of 1934 when tons of soil from parts of Kansas, Oklahoma and Colorado as well as the Texas Panhandle swirled southward.

This area suffered, but much of the suf-

fering was in the discomfort of fine dust which drifted down upon us. Our own erosion problem in this general sector was not critical.

Our current situation finds us the target for repeated strong gusty winds which have churned and chafed until thousands upon thousands of acres have been streaked and pocked, or have been streaked with drifts. Between the density and frequency of this year and the "dust bowl" era, there is hardly any comparison on these lower reaches of the Plains. And it's no reflection on conservation measures and mechanics to admit it. These might mitigate, but they can't continually thwart the forces of a cancerous drought.

## Editors Roundtable—James Galloway

### Most Editors Don't Think Ike Primary Victories Very Clear

To a very large minority of editors General Eisenhower's strength in the Minnesota GOP primary, after his victory in New Hampshire, indicates a degree of popular support probably assuring that the General will receive the Republican Presidential nomination. But a majority of editors, most of whom agree that these primaries show that the Eisenhower movement is gathering speed, do not yet see any very clear indication that Eisenhower's popular appeal will be so great as to overcome, at the GOP convention, Senator Taft's lead in delegate strength—and the popular strength Taft may yet win in other primaries.

ST. LOUIS (Mo.) **GLOBE-DEMOCRAT** (Ind.): "The write-in votes for Eisenhower in the Minnesota presidential primary were astounding in their numbers, amazing in their revelation of the terrific hold he has on the affections and respect of the people. For the General it is another spectacular endorsement. One or two more of the kind and he will go into the Chicago convention an almost assured nominee. His next hurdle is the New Jersey primary. His chances there were vastly enhanced when the popular Gov. Driscoll announced he will support Eisenhower."

CHARLOTTE (N.C.) **OBSERVER** (Ind.-Dem.): "When Taft ran second in New Hampshire, nobody proclaimed that it was a great victory for Taft. But, when Eisenhower ran second to Stassen in Minnesota, it was called a political miracle. It is hardly miraculous, however, for a man to run second to a candidate who is generally considered washed up politically. Write-in campaigns are not new in American politics, and sometimes they have produced surprising results. There was admittedly a vigorous organization behind this one."

LOUISVILLE (Ky.) **COURIER-JOURNAL** (Ind.-Dem.): "Supporters of Taft were able to claim in New Hampshire that the support of the state Republican organization in behalf of General Eisenhower accounted for the startling victory of the absent candidate over the one who stumped the state. In Minnesota, however, both Taft and Eisenhower were write-in candidates. The General not only passed Taft out of sight, but ran a close second to Minnesota's favorite son, Stassen. Taft must take cold comfort in his own claim that it was the result of a cam-

paign by Eisenhower's backers for a big write-in, while he conducted none."

CINCINNATI (Ohio) **TIMES-STAR** (Rep.): "Taft is not opposing any 'favorite' sons. The General's backers early decided not to make a try in Stassen territory. But the New Hampshire outcome caused Ike's Minnesota supporters to put on a vigorous campaign for 'write-ins.' The result is that Eisenhower, who did worse in New Hampshire than his backers counted on, made a better showing in Minnesota than they hoped for. With returns still trickling in, Stassen had a total of 128,000 votes to Eisenhower's 106,000. As for Senator Taft, although he asked the voters not to write in his name, some 25,000 did anyway."

KANSAS CITY (Mo.) **TIMES** (Ind.): "It was only a last-minute ruling by the state attorney general that permitted the write-in voting. There was little campaigning for Ike. Little opportunity for it. As additional primaries are held, there is growing assurance that the popular response will be continued in great strength. It is a signal to party leaders in states that select delegates by conventions or similar means. They should want a winner, a man of demonstrated ability who has the confidence of increasing numbers of the people. They are being shown they have such a winner in Eisenhower."

NEW YORK **DAILY NEWS** (Ind.): "Eisenhower gets no Minnesota delegates out of this, under that state's primary laws. But coming on the heels of his New Hampshire victory, the general's showing in Minnesota is bound to push his political stock to a new high. It should warm Taft's backers to work like the devil for his nomination. If Truman decides not to run, the professional politicians at the GOP convention—most of whom prefer Taft to Eisenhower—may figure the Republicans can't lose, and give the nod to Taft after considerable flinching around."

CHRISTIAN SCIENCE MONITOR (Ind.): "Much can happen before July. Taft may score heavily in Wisconsin, Illinois and Ohio. The New Jersey Republicans may prove unwilling to flock behind their leaders under the Eisenhower banner. New supporters may spring out of Nebraska and Oregon that may prove as upsetting as in 1948. Withdrawal by President Truman may reshuffle the whole Democratic set-up—and reshape the whole Republican strategy. But Minnesota has pretty well demonstrated that one thing will not happen—the professionals will not continue to assume the voter can be 'sold'."

**Potato Shortage Strikes In Canada**

OTTAWA (AP)—An unusual potato shortage in Canada has pushed prices three times higher than a year ago, and placed new wealth in the hands of the successful potato grower.

It is also reversed a traditional trading pattern, Canada, which usually sells most of her surplus potatoes to the United States, is leaning more and more on American supplies to fill the gap in her needs.

The irony is that in this potato crop year which started last July, the United States had been prepared to allow a bigger quota on shipments of Canadian potatoes to the U.S. market.

### Even The Sweetness In Steel Dispute Appears Only As A Fleeting Illusion

WASHINGTON (AP)—A certain amount of sweetness, but no light, has suddenly invaded the steel dispute, which is a gorgeous mess.

And even the sweetness is probably only a fleeting illusion.

This dispute remains a powder keg which could explode in a strike or the wreckage of wage-price controls unless there is a public explanation, or solution, by President Truman, Defense Mobilizer Wilson, or some other source.

The sudden squirt of sweetness came from Wilson, who first torpedoed his own Wage Stabilization Board and then threw out the lifelines, and from Nathan P. Feinsinger, board chairman, who alone seems to be seeing a silver lining.

The dispute began with the CIO United Steelworkers' demand for a wage increase which the industry said it couldn't grant unless the government, controlling wages and prices, permitted a price increase.

So, because of the government's control program, there were two basic questions from the start:

1. Were the steelworkers entitled to a wage increase at all, and if so, how much?
2. If the workers were entitled to an increase, could the industry afford to grant it without raising prices?

There was no doubt that if steel prices were permitted to rise sharply, since steel is a basic industry, the Office of Price Stabilization would have to grant increases to other industries dependent on steel.

But OPS officials said steel could afford, out of its large profits, to grant wage increases without

raising prices. It was up to WSB to decide what wage increase, if any, the steelworkers should get.

Last Thursday Feinsinger's 18-man WSB recommended a sizeable wage boost for the steelworkers. Would that increase, if the steel industry granted it, upset the government's efforts to stabilize wages in general?

Feinsinger said the board's recommendations were "in all respects fair and equitable and not untabling."

Defense Mobilizer Wilson thought otherwise. He flew to Key West to consult Truman and on his return Monday night told reporters: "There is no question in my mind but that, if the wage increases contemplated under the WSB's recommendations are put into effect it would be a serious threat in our year-old effort to stabilize the economy."

This must have upset Feinsinger, who by this time was out in Colorado. He decided to fly back. Before he got here Wilson poured soothing syrup on his previous crack about the board. He said yesterday he realized the board had acted "after much study" and the recommendations should be used "as a basis for trying to work out a settlement." Notice he still didn't say the recommendations were good.

Feinsinger arrived and told reporters "things were back on the track." This was encouraging but hardly enlightening for there was still the important question of who was right: Feinsinger, who said the recommendations wouldn't upset the applicator, or Wilson, who said they would?

The union and the industry start negotiating all over again today.

Philip Murray, president of the United Steelworkers, swallowed the recommendations of the Wage Stabilization Board in the steel wage dispute like a cat the canary. He's now prepared to defend that nice, round, friendly 22 1/2-cent-an-hour gain with a strike. Hasn't an official government agency spoken?

So the next move is up to President Truman, Defense Mobilizer Charles E. Wilson, and Economic Stabilizer Roger L. Putnam. They must decide whether the steel industry is entitled to a price increase. Surprisingly, that's easy. The Wage Stabilization Board's findings were so far above most expectations that any other decision would be out of order.

The Capehart Amendment will only permit price increases sufficient to pay for about a third of the wage boost, if that. Nor is the Eric Johnston profits standard a help in this crisis. Even if steel companies could eke out a price rise with it, profits would drop by a third or more. Steel company executives would have no choice. Without a compensating rise in price, they'd have to reject the recommendations. Result: A strike.

If WSB hadn't been so generous, if it had suggested what other workers have been getting—say 9 cents for the cost of living and 4 cents for supposed increased productivity—Truman, Wilson and Putnam would face this argument: Other industries are getting along on the Capehart Amendment allowances, why can't steel?

The timing is awkward for the President. Sen. Burnet R. Maybank (Dem. S. C.), has indicated that a price increase beyond the Capehart formula might doom extension of price controls. Furthermore, on the day the WSB recommendations were released, the Bureau of Labor Statistics' cost-of-living index for February dropped 0.6 per cent. Here's the sign Michael V. DiSalle was looking for so he could go into the Ohio senatorial campaign proclaiming, "I did it."

The price drop conflicts with the WSB's graduated wage proposal: A 12 1/2 cents an hour wage boost retroactive to January 1; another 2 1/2 cents on July 1; another 2 1/2

## Notebook—Hal Boyle

### Television Can Destroy, Just As It Also Builds

NEW YORK, March 26 (AP)—Stray thoughts of a "new video" fan: A new form of exercise in the American home is getting up and answering the telephone on all. It isn't your own phone ringing—it's the phone on a television program.

It gives you a sheepish feeling, but on the other hand it also gives a man a good excuse at least for not answering his own phone at all. Television is credited with building up a national public for several political figures.

But this little view box can destroy as well as build. And isn't this already becoming evident?

The American people love a hero but the glamor of a hero who talks too often and is seen too much soon wears thin. Part of the success of Franklin D. Roosevelt's famous fireside chats lay in the fact he didn't make one every day.

Are some statesmen already making the mistake of inviting themselves too often into American living rooms via the television screens?

It is a thought that must cost them considerable soul searching because it is a long time between now and November. The political epitaph of some candidates may be this:

"I voted against him because I was just plain tired of seeing his face and couldn't stand the idea of looking at it for another four years."

The trouble with using television as an electioneering medium is that even the wisest speaker, the most veteran campaigner, doesn't realize the point at which he may begin to bore more people than he interests.

Television is without doubt the greatest entertainment bargain since the free shows the Caesars put on in the Coliseum at Rome.

Mediocre as many of the programs are, the average man, whatever his interests or educational level, can find 10 to 15 hours of entertainment worth his attention.

The programs would be even better if as much time, talent and effort were put into them as are put into the commercials. That is why more and more thoughtful viewers prefer the artful and tuneful commercials to the drab programs that precede and follow them.

Maybe the answer is for the sponsors to concentrate even more on the commercials and drop the programs altogether.

My small goddaughter, no longer

looks at the programs. But she drops her toys and comes running to watch the commercials. They're more exciting.

Much has been written about the effect of television on children. But how about exploring its impact on housewives and household pets.

My own wife, for example, hasn't darged a pair of socks or sewn a button on my clothes since our set arrived.

"I've got TV eyes," she explains. "Just can't see to thread a needle anymore."

As to household pets, a friend of mine who owns a cat had to give up television in her home altogether. "I had to choose between it and my cat," she said. "My cat was jealous. Every time I turned on television she attacked the set and tried to scratch it to death."

On the other hand I have heard of another lady whose cat likes to sit and stare at the television set all day. Doesn't care about any particular program, but wanders about the house, restless and unhappy, until the set is switched back on.

I have also been told about a dog that whines unless the video screen is tuned to a western movie.

"The only way I can figure it out is that he is a city dog," said the owner, "and it is only by looking at western movies that he ever gets to see trees."

West Texas Chapter Of Contractors Due To Receive Charter

Charter for the newly formed West Texas Chapter of the Associated General Contractors of America, Inc., is to be presented Saturday evening at Abilene.

Ceremonies will be held at the Woolen Hotel at 6 p.m. and presentation will be by Burt L. Knowles, engineer advisor of the national office of the organization at Washington, D. C. Among guests will be S. Horner, Denver, Colo., national AGC president; Fred Fischer, president of the Houston AGC chapter; Frank J. Kelly, Colorado City, president of the West Texas Chapter of Commerce.

The J. D. Jones Construction Company in Big Spring is among the charter members of the chapter.

## This Day In Texas

By CURTIS BISHOP

The grant on this day in 1834 to one James Grant of exclusive privilege to manufacture cotton and woolen goods in the Mexican departments of Saltillo, Monclova and Parras had more than casual effect upon the Texas story.

For this monopoly, as well as property interests, influenced Grant and others in their plans for the separation of Texas from Mexico. For instance, Dr. Grant was by no means satisfied when the Texans captured San Antonio in December, 1835. To make himself and his associates secure in their Mexican investments, the Texans must cross the Rio Grande River and conquer at least the border provinces of Mexico.

The Scotsman was able to influence others, even against the orders of General Sam Houston, and a sizeable number of them marched away from San Antonio early in 1836 bent upon invasion. They carried with them most of the supplies captured at San Antonio and thus left the garrison at the Alamo almost completely stripped of material.

Dr. Grant paid with his life for his faithless. According to one participant in the battle, the Scot doctor was run through several times by a lance.

Grant had considerable mining interests in addition to his manufacturing concessions.

them closely, and we know how they are formed.

We may see, for example, that each of them has a single eye near the front of its head. This has led to the name of "cyclops," but, in size, water fleas are a long distance from the gigantic, single-eyed Cyclops of the old Greek myth.

A water flea also has a pair of feelers which can be stretched out in front of the head, or to the sides. These feelers are used as paddles, and they make swimming possible.

Two tiny shells cover much of the body of a water flea. These are transparent, and it is possible to look through them, under a microscope, and see what is inside the body.

A water flea has a heart. This heart beats, but it is like a pin point in size. There are many kinds of water fleas, each a little different from the rest. Some are even smaller than those I have described.

Water fleas move fast, but often they move into the wrong places. If they get too close to the little plant-like animals known as hydras, it is goodly for them.

FOR NATURE section of your scrapbook.

Tomorrow: Crayfish.

Interesting life stories of Mozart, Beethoven, Chopin, Brahms, Strauss and Liszt are told in the illustrated leaflet called MASTERS OF MUSIC. This will be sent without charge to any reader who asks for it and encloses a stamped, self-addressed envelope. Address your letter to Uncle Ray in care of this newspaper, and allow about 10 days for reply.

## Uncle Ray's Corner

Water fleas Use Feelers

We are likely to think of fleas as insects which jump around in the open air. We know that they fasten themselves to the bodies of animals, including dogs, and may even become too closely acquainted with people.

True fleas are like that, but there are "water fleas" as well.

It would be a mistake to call water fleas "true fleas." A scientist who studied them three centuries ago gave them the name, and it has clung to them ever since. Modern scientists class them among the crustacea.

Water fleas are hardly the size of the head of a pin. Ten of them, end-to-end, might make a line an inch long.

In actual life, water fleas never get into a line. They are quick in movement, now in one place and now in another. Their fast, jerky motions—like jumps through the water—suggested their name.

Water fleas look like specks, if they are seen at all in the ponds where they live. Thanks to the microscope, we can study

## Around The Rim—The Herald Staff

### Report Of Land Commissioner In Early Years Is Interesting One

The State's leasing policies within a few years after the organization of Howard County weren't exactly popular. Not only did a number of people make use of school lands without the formality of a lease, but one spoke rather harshly of the legislature which dreamed up the lease.

This is borne out from records unearthed from the biennial report of the land commissioner to the governor and legislature in the year 1884. The report of the land office agent, J. D. Stephens, was unearthed recently by Curtis Bishop, a Big Spring product now turned to writing books and who shortly is to have one of his stories made into a movie.

You may find Mr. Stephens' report interesting, and old timers may remember some of the facts:

1. D. P. Atwood—Is fencing a large pasture. Will make application to lease soon.
2. C. C. Slaughter—Takes small portion of northwest corner in his large pasture.
3. Rush Bros.—Have 128 miles fenced north of Big Spring, but have all leased.

"Remainder of county not under fences."

"The following parties have purchased and failed to settle on land: John Snoddy, Henry Degen, James B. Kite, R. A. Smith, John E. Ennis, P. T. Blake, R. R. Wakefield, W. E. Rhoten.

The three-section rule is being abused.

"The following persons are grazing sheep on school land without leasing": T. Lee, 500; Demorest Bros., 1,530; Dil-

lon & Cooper, 1,900; Fuller & Co., 2,500; Bartlett Bros., 4,000; J. C. Smith, 2,600; Sutherland, 1,400; B. B. Smith, 2,000; B. F. Wolcott, 1,050; J. B. Wilson, 800; Ernest Bros., 5,000; Hobbs Cattle Co., 5,000 to 6,000; B. F. Roberts 300 to 500; B. F. Kennedy, 700 to 1,000; S. M. Milburn, 300 to 500.

"Mr. J. C. Cotter lives on a section of land in this county, section 18, block 38, T. 1N. (Stephens must have erred on his block number.) This land has a waterhole on it that holds water about 10 months in the year, but if it is a rainy season, it will hold water the whole year. It is fed by a seep, or spring, but is a natural tank. In winter time thousands of cattle flock there for grass and water, and stay there until they eat up the grass for miles around it. Two sheepmen desire to lease lands around this section, but cannot do so unless this hole of water can be controlled. These sheepmen will have to move their herds unless they can fence the water. If men will lease the lands, they should be allowed to fence this waterhole. It is different with running water. This section cannot be utilized unless this water can be controlled.

"Mr. Willingham, a sheepman, told me that he would hang every member of the Legislature that passed the lease law, if he had it in his power."

"Stockmen have generally rendered for taxation a less number of cattle than they own, and at less than their market value."

"A great many wells would be dug on leased land if the lessee could be assured that the section on which wells are made would not be sold to settlers during his lease."

—JOE PICKLE

## Business Outlook—J. A. Livingston

### Timing Poor On Steel Award—Just As Cost Of Living Drops

Philip Murray, president of the United Steelworkers, swallowed the recommendations of the Wage Stabilization Board in the steel wage dispute like a cat the canary. He's now prepared to defend that nice, round, friendly 22 1/2-cent-an-hour gain with a strike. Hasn't an official government agency spoken?

So the next move is up to President Truman, Defense Mobilizer Charles E. Wilson, and Economic Stabilizer Roger L. Putnam. They must decide whether the steel industry is entitled to a price increase. Surprisingly, that's easy. The Wage Stabilization Board's findings were so far above most expectations that any other decision would be out of order.

The Capehart Amendment will only permit price increases sufficient to pay for about a third of the wage boost, if that. Nor is the Eric Johnston profits standard a help in this crisis. Even if steel companies could eke out a price rise with it, profits would drop by a third or more. Steel company executives would have no choice. Without a compensating rise in price, they'd have to reject the recommendations. Result: A strike.

If WSB hadn't been so generous, if it had suggested what other workers have been getting—say 9 cents for the cost of living and 4 cents for supposed increased productivity—Truman, Wilson and Putnam would face this argument: Other industries are getting along on the Capehart Amendment allowances, why can't steel?

The timing is awkward for the President. Sen. Burnet R. Maybank (Dem. S. C.), has indicated that a price increase beyond the Capehart formula might doom extension of price controls. Furthermore, on the day the WSB recommendations were released, the Bureau of Labor Statistics' cost-of-living index for February dropped 0.6 per cent. Here's the sign Michael V. DiSalle was looking for so he could go into the Ohio senatorial campaign proclaiming, "I did it."

The price drop conflicts with the WSB's graduated wage proposal: A 12 1/2 cents an hour wage boost retroactive to January 1; another 2 1/2 cents on July 1; another 2 1/2

cents on January 1. All that plus other benefits.

Thus steel wages may well be going up when auto, electrical equipment, railroad and other wages are going down—because of cost-of-living escalator clauses. All industry would be out of step but steel!

The industry members of WSB—the dissenters—regard the recommendations as a "major inflationary impact on the economy"—another twist in the wage-price spiral. I wonder.

The danger is that this will be the last straw, the final distortion to break inflation's back and cause deflation and unemployment. Today we're in a two-sided economy. Defense industry is strong. Most other industry is not so strong. It's hard going to sell autos, refrigerators, men's suits, women's dresses.

Yes, the steel industry can pass along a price increase. Steel's short. But what about six to 12 months from now? A steel price rise would put pressure on automobile, refrigerator, washing machine and other companies to advance prices. One more upward push, and then what? Would still more consumers be priced out of the market?

After all, if wages of workers in other industries go down, because of long-term cost-of-living contracts, then there'll be just that much less buying power for products made with higher-priced steel. Inference: Lower production, lower employment in consumer durable goods industries.

For Wilson, the decision is particularly difficult. When he first took his job, labor walked out, claiming he was unsympathetic and business-minded. Now, if he were to set aside or modify WSB's findings substantially, labor again would find him unsympathetic. Murray would strike—not against the steel industry, but against him, against the government.

In light of that experience, Wilson's statement that the WSB findings were a serious threat to the economy took great courage.

## Drastic Steps In Tunisia Are Taken By France

TUNIS, Tunisia — France cracked down with a heavy fist on Tunisia's independence-seeking Nationalists today, arresting Premier Mohammed Chenik and three of his Cabinet. Martial law and press censorship also were ordered.

The drastic steps were taken after the Tunisian government and the French protectorate's nominal ruler, the 70-year-old Bey of Tunis, had balked at what was described

as a "policy of appeasement." The French action climaxed three months of Nationalist rioting and sabotage in this North African trouble spot and World War II battle-ground. In the violence nearly 100 lives have been lost. Hundreds have been arrested and put behind barred wire.

Muslims in Tunis went on strike today in protest against the French action, which included a curfew from 9 p. m. to 5:30 a. m. and transfer of all police powers to the military.

Tunisia wants more self-rule and has asked the United Nations for help.

French Resident General Jean de Hauteclocque in a call on the Bey yesterday, offered more self-government to the protectorate on condition that Chenik and his pro-Nationalist Cabinet be ousted.

The Bey, Sidi Mohammed al-Amin, refused and asked through President Vincent Auriol asking recall of the demand and an end to de Hauteclocque's "procedures of intimidation."

## Pink Bollworm Attacks Being Set By USDA

WASHINGTON, March 26 (AP)—The Agriculture Department is getting ready for a new attack on the pink bollworm, costly pest in the cotton region.

Avery S. Hoyt, chief of the Bureau of Entomology and Plant Quarantine in the department, has written Rep. Gathings (D-Ark.) that his agency is reshuffling some of its other work in order to make additional funds available for research on ways to eradicate the pest.

Gathings advised by cotton farmers in his area that the pink bollworm seems to be making headway, asked Hoyt about the control program.

In recent years, Hoyt said, weather has been unfavorable to spread of the insect and unfavorable for application of control remedies.

As a result, he said, there has been an alarming spread of pink bollworm northward across Texas "until the infestation now has reached the southern part of Oklahoma and is closer than ever before to Arkansas."

Hoyt said fairly effective control measures have been found but they don't work unless the weather is right.

"We are hoping to be able to find some effective measures of controlling this insect which may not be equally dependent on the weather," he told Gathings.

## Spent Sulphuric Acid To Be Used In Plant

NEW YORK, March 26 (AP)—Large amounts of spent sulphuric acid will be used in a new chemical plant to be built at Texas City by Chemical Construction Co.

The new plant, for which ground was broken a fortnight ago, is the phosphate fertilizer and mineral supplement plant "signed for Texas City Chemical Co."

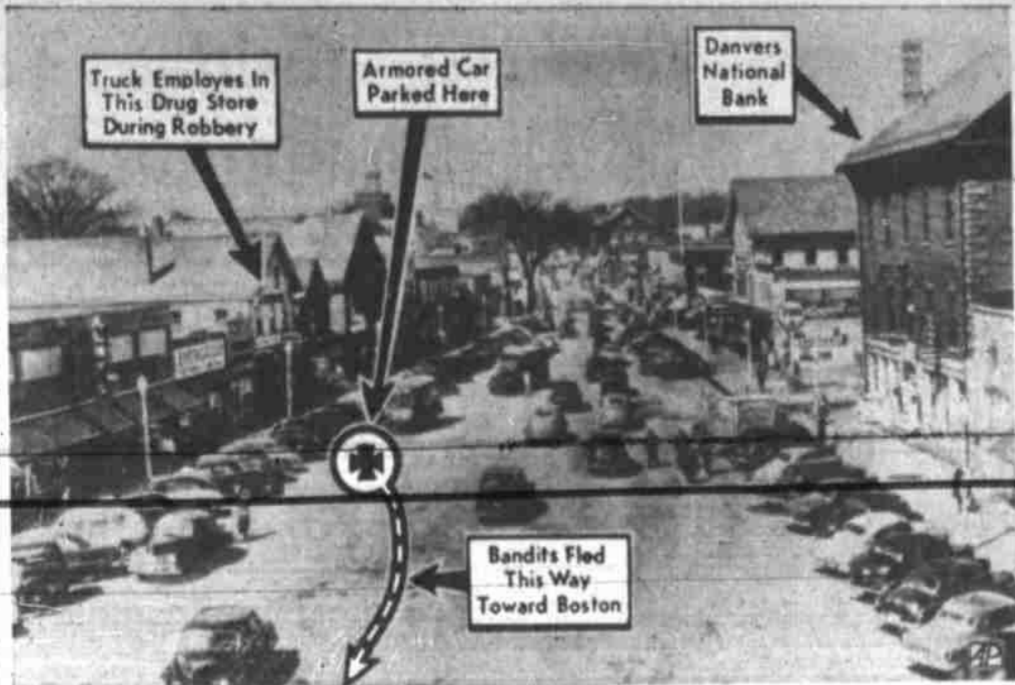

Use of the spent acid, Maj. Gen. William N. Porter said yesterday, will help ease the Texas sulphur shortage. R. L. Wheelock of Corsicana, Tex., and Jack Winfrey, Dallas, announced construction of the plant about three weeks ago. Winfrey, Wheelock, W. L. Plekens of Dallas and H. H. Coffield of Rockport are principal stockholders in the new plant.

Actual construction of the plant, Chemico officials said, would start around July 1.

## Pace Due To View Joint Maneuvers

FORT HOOD, March 26 (AP)—Secretary of the Army Frank Pace was to take a look today at Exercise Long Horn, mammoth Army-Air Force maneuvers.

Pace was due to arrive at Kil-leen's Gray Air Force Base last night.

## How Gunmen Pulled \$600,000 Robbery

This is a photo-diagram of the scene on the main business street in Danvers, Mass., where three gunmen robbed an armored car of about \$600,000 in cash. Three armored car employees were in Ropes Drug Store having lunch at the time of the robbery. They had delivered an estimated million dollars to banks and business houses before arriving in Danvers for a delivery to the Danvers National Bank. This view of Maple Street was made an hour and a half after robbery. (AP Wirephoto).

## Driver Of Car Looted Of \$600,000

Joe Riley, the driver-guard of the U. S. Trucking Corp., armored car that was robbed of \$600,000 in Danvers, Mass., leaves the police station after questioning. The car, which was left unattended while the three guards stopped at a drug store for coffee, is in background. (AP Wirephoto).

## Net Income Of Lone Star Gas Down Nearly \$2 Million

DALLAS, March 26 (AP)—A decrease of nearly \$2,000,000 in net income was reported yesterday by Lone Star Gas Company.

D. A. Hulley, president, said in his annual report to stockholders increased income taxes and merchandise revenue depressed by federal credit controls accounted for "more than the full difference between net earnings for 1951 and those of 1950."

Net income in 1950 was \$11,579,321 and shrank to \$9,695,776 in 1951, Hulley's report said. This represented \$1.76 per share of common stock outstanding compared with \$2.11 per share earned in 1950.

Operating expenses, excluding taxes, amounted to \$36,446,901 last year, an increase of \$6,691,010 over 1950. When adjusted to exclude net merchandise revenue, the increase in operating expenses amounted to \$5,245,655.

Operating revenues in 1951, largest in the company's history, amounted to \$59,105,028.

Hulley said merchandise earnings were drastically affected last year by federal credit controls.

"Net merchandise revenue decreased in 1951, as compared with 1950, in the amount of \$1,445,355."

The comparative statement of consolidated income revealed Lone Star's total operating revenues in 1951 exceeded 1950 by \$7,487,763.

## Oklahoma Increases April Oil Allowable

OKLAHOMA CITY, March 26 (AP)—The Oklahoma Corporation Commission approved an April oil allowable of 525,000 barrels daily yesterday.

The allocation is 5,000 barrels above the March figure. March production has averaged 523,500 barrels daily.

## Search On For 3 Robbers Who Got \$600,000

DANVER, Mass. (AP)—A methodical search of two communities and the 15 miles of known getaway route was undertaken today by investigators seeking their first tangible clue in the fantastic \$681,000 armored car robbery by three icy-nerved bandits.

FBI agents and local police said they hope to find by nightfall at least one person who saw the men break into the armored car and transfer the money into a 1950 Buick sedan in bright daylight yesterday in Danvers Square.

The men were seen speeding from the scene and two getaway cars, used in relay, have been found, but investigators said no one who actually saw the robbery itself has yet come forward.

An official of the United States Trucking Company, which owns the armored car set the exact amount of loot last night, correcting an earlier estimate of \$600,000.

How much the bandits left behind was not known definitely early today but estimates ranged from \$100,000 to nearly a million dollars.

It was the biggest armored car robbery in U. S. history.

The robbery was executed under a bright sun while the three gun-carrying guards assigned to the armored car sipped mid-morning coffee in a drug store only 20 feet from where they parked the vehicle.

Patrolman Edmund Noonan, directing traffic about 100 feet away, started toward the bandits' car to reprimand the driver for double parking on a busy street.

As he neared the car, it sped away.

## Snyder Man Dies

SWEETWATER, March 26 (AP)—Robert E. Flowers, 33, Snyder, died yesterday of injuries received in a traffic accident several weeks ago.

## Anti-Everything Campaigns Make Shanghai Rough Place

By FRED HAMPSON

HONG KONG (AP)—Picture yourself as a small merchant in Shanghai, the bustling metropolis of Eastern China now under Red rule.

Travelers say the city is living under an ordeal of terror. One 25-year resident newly arrived here said, "This is the worst I ever saw the town terrified."

Even Shanghai Red publications such as Liberation Daily tell of the troubles, but blame them on the

middle of an "anti-corruption, anti-waste, anti-bureaucracy" campaign.

The small shopowner is not accused directly of tax evasion, corruption, bribery or malpractice. That is not the Communist way. You are the small merchant.

A loudspeaker suddenly appears and blares out that you will be accused soon if you don't confess. It shrieks raucously day and night. Your customers cringe and slip away.

Businesses footstep Shanghai streets, urging shopworkers to "lay an airtight trap so that not a single lawless merchant can escape."

Signs blossom on your store front: "Hey, Boss, have you confessed yet?" "Boss, if you don't confess I am going to denounce you."

"Confess! Confess!" The loudspeaker tells you where to go, and when.

Zone by zone the Red campaign moves across Shanghai. It now is in the dense downtown Whangpoo

district, says Liberation Daily, among the solid and once prosperous

shops of Nanking Road, The Bund, Tibet Road.

Travelers say: Thousands of big and small merchants have been carted off. Firing squads work overtime. Trains leave daily for work camps.

Whole families of small merchants commit suicide when the Red pressure descends upon them.

## "How Can Phillips Make Such a Guarantee?"

JUDGE FOR YOURSELF! Fill your crankcase with new Phillips 66 Heavy Duty Premium Motor Oil. Try it for ten days—or up to 1,000 miles. If it doesn't satisfy you on every count go to any Phillips 66 Dealer and he'll arrange for a refill using any available oil you want at our expense.

The reason we dare make this guarantee is simple. We are sure this new and improved Phillips 66 Heavy Duty Premium will please you. It's a great motor oil. It gives you a new high in Lubri-tection:

**WEAR PREVENTION!** Yes! It keeps corrosion and friction from harming your engine—guards piston rings and cylinder walls.

**BEARING PROTECTION!** Yes! Acids are neutralized—protecting bearing surfaces from pitting.

**CLEANING ABILITY!** Yes! And a clean engine means more power, and less gasoline consumption.

**LOW OIL CONSUMPTION!** Yes! It resists decomposition—keeps oil control rings free. So—fewer

make-up quarts are needed over thousands of miles of operation.

It's because of important features like these that Phillips 66 Heavy Duty Premium Motor Oil surpasses manufacturers' specifications for all makes of cars. It's truly a "Heavy Duty" motor oil—will do an outstanding job in trucks as well as passenger cars. Try Phillips 66 Heavy Duty Premium Motor Oil today. We guarantee satisfaction!

Martin Appeal Set In Water Decision

STANTON—County Judge James McMorris said that a state-wide meeting to map plans for a fight to preserve Texas' underground water reserves will be held here within a month.

here Monday, voted to go ahead with an appeal of the decision of Judge Jack Roberts who granted a permanent injunction last Saturday to the Colorado River Municipal Water District against the Martin District.

Tides Hearing Is Now Going On In Calif.

LOS ANGELES, March 26 (AP)—Southern California's offshore islands have had close economic ties with the mainland since the earliest days of statehood, according to testimony at a hearing on the tides-

He charged that the lack of controls over the Colorado River Municipal Water District production would cause a more rapid depletion of water levels. From the standpoint of economics, there won't be any water left before so very long. That would leave "drinking water and that's about all," he said.

Budget-Cutting Drive Continues

WASHINGTON (AP)—The House budget-cutting drive passed the billion-dollar mark today and a \$492,434,763 Interior Department appropriation bill was set up as the next target.

John McMorris took issue with "shot hole" data presented during the trial, which covered more than two weeks, at Austin. It came from oil company records, and the companies were looking for oil and not sands and gravels, hence the information was not reliable for water levels, he said.

W-F To Lose Court Under Redistricting Plan Of State Bar

AUSTIN, March 26 (AP)—Wichita Falls would lose one of its three courts under a judicial redistricting plan announced by a State Bar committee yesterday.

House passage late yesterday of \$1,783,242,968 bill financing the Labor Department and the Federal Security Agency for the fiscal year starting July 1 sent the total cuts thus far slightly over a billion dollars.

Squirting Motorist Is A Costly Affair—6 Months In Jail

MONTGOMERY, Ala. (AP)—Squirting another motorist with a fire extinguisher to resolve a traffic dispute was a costly affair for Barney Garrett, a 35-year-old truck driver.

Howe said he turned down the challenge, whereupon the truck driver let go with the fire extinguisher, drenching him and three other occupants of his car, including two women.

Texas Areas Out Of Unemployment List

WASHINGTON, March 26 (AP)—Two Texas areas, Laredo and Beaumont-Port Arthur, were withdrawn yesterday from a list of unemployment areas which should receive preferential labor treatment.

Judge John B. Scott convicted Garrett of disorderly conduct and sentenced him to six months at hard labor.

Cleburne Woman Is Church Unit Proxy

FORT WORTH, March 26 (AP)—Mrs. E. L. Reld, Cleburne, is the new president of the Methodist Central Texas Conference's Women's Society of Christian Service.

But in identical notes, the Big Three declared that such a national military force "would be a step backwards and might jeopardize the emergency in Europe of a new era in which international relations in Europe would be based on co-operation and not on rivalry and distrust."

Small Casualty Rise

WASHINGTON, March 26 (AP)—Announced U. S. battle casualties in Korea reached 106,794 today, an increase of 127 since last week. This was the smallest weekly rise since the start of the Korean fighting.

# Technicians Are Needed At AFB Immediately

Authorization has been granted for the immediate hiring of skilled civilian technicians in a variety of assorted specialties. Big Spring Air Force Base officials revealed today.

W. A. Farrow, director of civilian personnel at the base, indicated the Civil Service positions will cover a variety of maintenance and supply fields.

Listed as immediately needed, with scheduled starting hourly wages are: supply inspector, \$1.44; plumber, \$1.49; electric lineman, \$1.59.

Also needed are aircraft technicians in the following fields: sheet metal manufacturer and repairer, \$1.63; reclamation inspector, \$1.63; welder, \$1.59; fabric and leather worker, \$1.44; maintenance inspector, \$1.68; radio repairer and installer, \$1.59; servicing electrician, \$1.59; painter and doper, \$1.40; service mechanic, \$1.59; propeller repairer, \$1.59; senior radio repairer and installer, \$1.68; instrument repairer and installer, \$1.68; engine assembler and disassembler, \$1.59; hydraulic and landing gear repairer, \$1.59; woodworker, \$1.59.

Applicants should present proof of prior Civil Service rating, or a properly executed Civil Service Form 57, at the civilian personnel office, located in the headquarters building at the air base. Form 52 may be obtained at any Postoffice or Civil Service office.

## Trucking Groups End A Protest Parkdown

SOMERSET, Pa. (AP)—The United Truckers Association early today announced the end of a protest parkdown against Pennsylvania's 45,000-pound gross weight law for trucks.

A spokesman for the organization said its Board of Directors had voted to call off the parkdown temporarily because the owners and operators want to deliver their loads and return home before their licenses expire Monday night.

## ITCH

Don't Suffer Another Minute No matter how many remedies you have tried for itching eczema, psoriasis, infection, athlete's foot or whatever your skin trouble may be—anything from head to foot—WONDER SALVE and Wonder Moisturizing Soap can help you. Developed for the boys in the Army—now for you folks at home.

WONDER SALVE is white, greasyless, antiseptic. No ugly appearance. Safe for children. Get WONDER SALVE and WONDER ANTISEPTIC SOAP—results or money refunded. Truly wonderful preparations. Try them.

Sold in Big Spring by Collins, Waigreen, Cunningham & Phillips, and Walker Drug Stores; or your hometown druggist.

### Four Cups Going To The Dogs

Here's a scene to break any restaurant owner's heart. Tobby, 3-year-old fox terrier performer of GI shows in Germany, flattens his ears and wears a proper hangdog expression as he comes a cropper at a performance. However, Tobby's more successful bag of tricks has made him a great favorite with GI audiences. The dog was trained by a former German juggler, who seems to have passed on some, but not all, of his skill. (AP Wirephoto).

### Four Are Killed In Plane Crash

EL PASO, March 26 (AP)—Three Texans and a Mexican were killed Monday when a light plane crashed into a hillside between Chihuahua, Mexico and El Paso.

Dallas Hill, Abilene, owned and piloted the plane. The other dead included William D. Mora and Lee V. Naudin, both of El Paso, and Victor Colunga, Delicias, Chihuahua.

The plane was found by a flying service operator. It had crashed into a mountain 15 miles east of Villa Ahumada on the Pan-American Highway. An iced carburetor was blamed.

The men were returning from a Mexico City business trip.

### Tax Evasion Charge Brings Heavy Fine, Jail Term In F-W

FORT WORTH, March 26 (AP)—An \$8,000 fine and an 18-month prison sentence, probated for one year, faces Jake Gachman, charged with attempting to evade payment of part of \$945 and 1946 income taxes. The penalty was assessed in Federal Court yesterday by Judge T. Whitfield Davidson.

Gachman is president of the St. Louis Waste Material Corp. of Fort Worth. He waived indictment and entered a nolo contendere (no contest) plea.

U. S. Atty. Frank Poer told the court Gachman owed about \$19,000 in taxes for both himself and his wife for the two-year period.

Gachman's attorney said his client's failure to report his entire income came through neglect, not intent to defraud.

## KEFAUVER LEADS SEN. KERR

# Nebraska Newsmen Believe Eisenhower Has Slight Edge

(Editor's Note: Nebraska is one of two states holding primary elections April 1. It's a confused situation, with only a few names on the presidential preference ballot, but "write-in" movements active on behalf of others. With the help of newspaper and correspondent scattered over the state, The Associated Press conducted a survey which is reported below.)

By E. E. MAKESKY and ODELL HANSON  
OMAHA (AP)—Nebraska newspapers and newsmen, taking soundings in all sections of the state, believe Gen. Dwight Eisenhower is narrowly leading Sen. Robert A. Taft as the presidential choice of Nebraska Republicans.

Whether this will be translated into votes at the primary election next Tuesday is problematical. Neither of the leading GOP candidates is on the ballot. But campaigns to write in their names are in full swing. The man who is on the ballot—Harold E. Stassen—runs fourth, behind Gen. Douglas MacArthur, in the survey reported today.

In a neck-and-neck three-way Democratic race, Sen. Estes Kefauver held a lead over Sen. Robert S. Kerr with President Truman a close third, the survey showed. Since Truman is not on the ballot, and Kerr is running as his stand-in, the combined Kerr-Truman sentiment could mean that Kerr would outrun Kefauver Tuesday.

This picture of popular sentiment is a composite of polls, surveys and observations.

Among Republicans with a preference, the estimated popularity percentage shaped up like this: Eisenhower, 42 per cent; Taft, 39; MacArthur, 8; Stassen, 7. Gov. Earl Warren, Sen. Everett Dirksen (R-Ill.) and Gov. Thomas E. Dewey were among those getting scattered mention.

Among Democrats with a choice, Kefauver got the nod from 34 per cent, Kerr from 33 and Truman from 30. Gov. Adlai Stevenson of Illinois, Sen. Richard Russell of

Georgia and Sen. Paul H. Douglas of Illinois received minor mention. Significantly, about one-fifth of the Republicans and one-fourth of the Democrats were pictured as undecided. Also, there was considerable evidence of shifting sentiment as primary day approached.

On the basis of his previous showings in Nebraska plus the fact that he is the only candidate actually on the Republican ballot, Stassen could be expected to do considerably better than this survey indicates.

But write-in votes are permitted in Nebraska, and supporters of both Taft and Eisenhower are becoming more and more active in hopes that the "write-in" fever from Minnesota is catching.

National convention delegates also are elected at the primary. They are not bound to abide by the presidential preference results. They don't even have to say which man they favor as nominee. Associated Press surveys, however, have shown a predominance of Taft backers among the GOP delegate candidates, and Kerr-Truman backers among the Democrats.

Contributing to the Nebraska survey were 11 daily and 12 weekly or semi-weekly newspapers, plus eight selected long-line community news reports. They represented areas embracing well over half of the state's voters.

Seven of the participating newspapers published straw vote ballots which readers were invited to mark and return. Four others conducted polls by telephone. The remainder coupled general observations with spot checks and samplings.

Most of the participating papers have withheld formal endorsement of any candidate.

The current fluidity of political sentiment in the Cornhusker State was pointed out dramatically in two straw vote polls conducted by the Grand Island Daily Independent.

## GREAT REVOLUTION

# Transplant Glands From Young To Old

By ALTON L. BLAKESLEE  
Associated Press Science Reporter  
NEW HAVEN, Conn. (AP)—One of the great potential revolutions in medical science was disclosed today.

Three sick men and women have been given glands transplanted from very premature babies to turn out hormones for new health. It is an amazing and promising

experiment in giving humans new spare parts. It may lead to many new methods of treating a variety of diseases.

Little pieces of glands were taken from unborn babies and put into stomach muscles of two men and a woman. The men got adrenal glands because their own adrenals had stopped making hormones, including cortisone. The woman got a thyroid gland, after her own sick thyroid was removed.

Animal tests indicate new gland bits will stay alive, grow, and make hormones. It is still too early to tell about the humans.

If it works for them, humans someday may get new glands to control diabetes without insulin; a gland hormone; to replace sex glands; to control thyroid diseases; even perhaps control some kinds of cancer. New glands might come from animals as well as humans.

Humans might be able to replace worn-out or lost sex glands, realizing the monkey gland experiments 30 years ago of the late Dr. Serge Voronoff.

Human or animal bodies might supply successful transplants of nerves or blood vessels or other spare parts that would take root and stay alive or grow.

The big secret is using embryonic tissue—glands or other parts from very young, unborn humans. Only embryonic tissue and some cancer tissue can be transplanted and stay alive in another body.

The facts to date, and the future potentials, were disclosed in reports of research at Yale University Medical School. They were described during a tour of cancer centers sponsored by the American Cancer Society.

Dr. Harry S. N. Greene, Yale pathologist, showed that embryonic glands of animals could be transplanted successfully from one kind of animal to another. The bits of glands lived and produced hormones, even when transferred from an unborn mouse or rabbit or guinea pig into another, adult, animal of a different species.

Dr. Eugene E. Clifton, a surgeon, transplanted the bits of human embryonic glands into the men and women. The glands were taken from unborn babies lost in miscarriages or in an operation necessary to save the mother's life.

ent—one last January and the other late last week. Readers clipped and mailed published ballots.

In January, Taft led Eisenhower 50 per cent to 38 per cent in the Grand Island test. Last week the positions were reversed, Eisenhower leading Taft 44 to 36 per cent. MacArthur climbed from 3 to 8 per cent in the interim, while Stassen's backing dropped from 7 to 5 per cent.

Each community's report in this survey was "weighted" to reflect the approximate number of voters in the area covered, based on the primary election turnout two years ago. Thus a survey report from a county with 10,000 voters was given 10 times the "weight" of one from a county with 1,000 voters.

## Death Terms Are Commuted By Gov. Shivers

AUSTIN, March 26 (AP)—Death sentences of James Craft and Bob Wall, convicted of slaying a night watchman at Waco, were commuted to life yesterday by Gov. Shivers.

His action was on recommendation of the State Pardon Board only a few hours before Craft was to have been executed.

Wall was slated to die April 1. The men were sentenced for slaying Jacob Coleman, who was found choked and robbed in his hotel room Aug. 27, 1950.

The board noted the jurors and the district judge in Craft's trial had requested that the penalty be reduced to life. A niece of the slain man also asked the commutation, saying she did not believe Craft had intended to kill her uncle.

Board Chairman L. C. Harris said the board felt whatever action was taken in one case should be taken in the other. The board's recommendations were by a 2-1 vote with Member H. A. (Smoot) Schmid dissenting in each case.

## Anti-TB Pill Cost Only 2 1/2¢ Apiece

NEW YORK (AP)—A manufacturer of the new anti-tuberculosis pills says they will cost hospitals 2 1/2 cents apiece—about half the price estimated when they were first announced.

Millions of tablets of the drug, nicotinamide hydrazide, have been given to hospitals for experimental use, but so far none have actually gone on sale. Doctors want to know a few more things about the drug before accepting it as a cure.

# OVER THE ROAD or OVER THE ROUGH -you can't beat a GMC!

KNOW why, more and more, GMC's are becoming first choice of so many cost-watching truck operators in every type of hauling?

One of the big reasons, they will tell you, is they can always get a GMC that's exactly "engined" for their particular kind of work.

There is no need for a GMC owner to strain away with an underpowered truck—or lose profit to a gas eater unsuited to its job.

That's because GMC builds the widest range of truck engines in the industry—GMC famed valve-in-head gasoline engines from 100 to 200 H.P.—GMC

exclusive 2-cycle Diesels from 110 to 225 H.P.

And it's the kind of power you don't have to pamper!

Each GMC engine is specially lubricated against wear, specially ventilated against acid-forming fumes even when idling—specially designed for truck duty!

Why not let us recommend the GMC truck, tractor or six-wheeler perfectly powered for your job? It will be a real truck all the way—exactly the right combination of engine, axle, transmission and frame blended by the world's largest exclusive manufacturer of commercial vehicles!

## Answers Varied About Write-Ins In Illinois Vote

CHICAGO (AP)—Will the Illinois presidential preference primary on April 8 bring a heavy write-in vote like that in the Minnesota primary?

The experts—campaign managers, election officials and candidates—have different answers. But it's a good question, they agree.

Illinois citizens legally can cast their votes for write-in candidates. A few of them have done it in the past.

Listed in this year's Illinois primary are Riley Alvin Bender, a little-known Chicago hotelman Senator Robert A. Taft and Harold E. Stassen as Republican candidates in the presidential preference poll. The only Democratic candidate on the ballot is Sen. Estes Kefauver of Tennessee.

Announced presidential candidates who are widely known but not entered in the Illinois primary are Democratic Senators Richard Russell of Georgia, Robert S. Kerr of Oklahoma and Hubert Humphrey of Minnesota, and Republican Governor Earl Warren of California.

Several others are being boomed. They include President Truman, who has not announced whether he wants another term, Gen. Dwight D. Eisenhower, Sen. Douglas MacArthur and Governor Adlai Stevenson of Illinois.

Illinois law says voters "may write in the name of any other person affiliated" with the party whose ballot is used.

Voters who use machines may write the name of a candidate in a slot provided on the machine above the name of the office.

### Greene On Program At C-C Managers Meet For April 21

J. H. Greene, manager of the Big Spring Chamber of Commerce, is on the program for annual meeting of the Chamber of Commerce Managers Association of West Texas.

He is to lead the discussion on April 21. His topic is "Financing the Chamber of Commerce through the Membership Plan."

Other speakers on this portion of the program include Ben F. Blanton, Wichita Falls manager, Rex Baxter, Amarillo manager, W. C. Cantrell, Dalhart, president of the convention, William J. Bird, Dallas, assistant manager of the southwestern division of the U.S. Chamber of Commerce, and DeWitt C. Greer, Austin, state highway engineer, are on the program.

Denoting Public Service

Marvin Miller, center, is shown receiving scrolls from the Disabled American Veterans and the Veterans of Foreign Wars on behalf of Cosden Petroleum Corp., and its employees for their radio sponsorship locally of the program, "I Was A Communist For The F.B.I." Miller, vice-president of Cosden, accepts the scrolls from Bill Griese, left, of the DAV, and J. B. McKinney, of the VFW. The scrolls denote Cosden's contribution to public service in contributing to alertness as to the inside of Communist activities. The radio program is to be presented Sunday evenings at 5:30 p.m. over radio station KBBT. It is based on actual experiences of Mike Cvetic, F.B.I. agent who became a Communist to report its activities. Cvetic's story was also made into a movie.

## AF Plans Inventory Of Reserve Strength

By RAY HENRY  
WASHINGTON (AP)—The Air Force plans to start taking in early summer an inventory of 300,000 reservists on the shelf since World War II.

At a total cost of 2 1/2 million dollars—about \$8 a man—the Air Force hopes to interview most of them personally. The inventory will take a year to complete. Twenty-five specialty trained teams will fan out over the nation to do it.

The idea is to get up-to-date information on men who signed up in the reserve after they came off World War II duty. These men agreed to go back on active duty if needed. Most have never taken an active part in reserve affairs. It wasn't expected they'd ever be needed. Their records, by and large, have been gathering dust in untouched files and the Air Force didn't have the money to think seriously about shaking the dust off.

Then came the Korean War. Some of these men were needed—and fast.

The Air Force dived into the files and came up dismayed. Most were completely out of date. Many of the reservists had been disabled, some had died, many had moved and couldn't be reached. Sometimes four or five men had to be called up to get one who would qualify.

Fortunately, the Air Force had enough men in the organized re-

serve—with up-to-date records—to answer most of the immediate need.

But out of the dust and those first anxious moments came the idea for the inventory. Last fall a trial survey was run in Dallas, Tex., to shake the kinks out of the idea.

The purpose of the survey will be to bring personnel records up to date, check job classifications with current skills, tell the re-

servants the delay they might expect if called to active duty, answer questions and make a personal contact with the men.

In the Dallas test each man was asked by letter to show up at inventory headquarters and was given a date and time to do so. A new appointment could be arranged easily.

If a letter was returned undelivered, tracers went through telephone books and city directories. Even the police and FBI were called.

Some 2,897 reservists were listed in the Dallas area—2,210 officers and 687 enlisted men. About 79 per cent were interviewed. Twenty-one per cent weren't available. Only six couldn't be located. The Air Force found in the

Dallas interviews—and expects the sample findings to be borne out nationally—that about 30 per cent wanted to get out of the reserve and that 84 per cent were physically qualified plus another 10 per cent physically qualified with a particular deficiency waived. About 65 per cent were given a different Air Force job classification.

The inventory turned up some radical job classification changes. One man listed as a cook in World War II had since been ordained as a priest. Another man listed as a dentist had become a doctor.

### Forsan Youth Earns ACC Sports Letter

Virgil Bennett, Abilene Christian College sophomore from Forsan, has earned his second letter on the Wildcat basketball squad. He was the fourth high scorer on the ACC team, accounting for 145 points during the season.

The 6-3 forward was a starter, jumping at the center position. Bennett is the son of Mr. and Mrs. V. L. Bennett, Forsan. He is a secondary education major.

ACC's 1952 basketball team shared this year's Texas Conference crown with McMurry and Howard Payne colleges.

### Wife Runs Away, So Father Asks Police Care For Kids

BLUEFIELD, W. Va. (AP)—Five youngsters, in step-ladder size from 8 years to 9 months old, frolicked happily at the Union Mission today, apparently not realizing they had been abandoned by their parents.

Their father, Kelly Hall, a Pocahontas, Va., coalminer, left them on a downtown street yesterday with instructions to the oldest, blonde Joyce Ann, to take a scribbled note to the police station.

She herded the little ones, while carrying the youngest, the three blocks to the station and meekly gave the note to Chief C. N. Wilson. The note explained their mother left home Thursday night with another man while he (the father) was at work and "she ort (sic) to be made to care for the little kids."

City officials took them over to the mission and made arrangements to care for one with an infected ear and another recovering from the chicken pox. Then they began looking for Hall and his wife.

Authorities across the state line in Tazewell County, where the small mining town of Pocahontas is located, acknowledged that Hall had tried to pay someone to care

for the children while he worked.

The letter said in part: "I have went everyplace to look for somebody to take care of them but I can't find anybody. You just ask the neighbors if I don't work all the time . . . I heard she, my wife, caught the bus Sunday from Bluefield to Roanoke . . ."

"So it's up to you to get the press on it. Maybe she will see their pictures in the paper and come to see the little baby which cries all the time for her, and the other kids too."

### Fine Local Man For Transport Of Liquor

LAMESA — Willie B. Sheppard, Big Spring, Monday entered a plea of guilty to a charge of transporting liquor in a dry area and was fined \$500 and costs.

The costs amounted to \$23.40. He was taken into custody Saturday night near Lamesa by state highway patrolmen. In the car at the time were 90 1/2 half pints of whiskey, officers said.

Studies consistently show that people blink more frequently under trying seeing conditions.

NO WARREN COMMENT

Stassen Maneuvers To 'Give' Ike Votes

By JACK BELL. MILWAUKEE (AP) — Competition among Taft's opponents to get on the Eisenhower bandwagon seemed to leave the Ohio senator a claim today to a large segment of the GOP vote in next Tuesday's Wisconsin primary.

this reporter that Stassen's action was no more than "an evidence of weakness." Although Coleman didn't claim it, it seemed likely that Taft would be the ultimate beneficiary of Stassen's move.

Warren, due to resume campaigning in the state tonight, declined comment in California. He said he will release without strings, any delegates pledged to him if he finds he can't win the presidential nomination.

Rhee Says That He Would Like To Return

PUSAN, Korea (AP) — President Syngman Rhee, on his 77th birthday, said today: "I would like to retire to make way for young and able men."

Door-To-Door Selling To Hit A Record Peak During Year

Editor's Note: This is the second of three articles on a state-by-state Associated Press survey of business conditions.
By The Associated Press. Salesmen will buzz around customers' doors this year in the most concerted selling effort since years.

It will be the greatest test of selling forces since before World War II. And the biggest customer of all—the federal government—may hold the key to whether business will be as good as many leaders expect.

These are the prospects disclosed by an Associated Press nationwide survey on the status and outlook for the nation's business. For a variety of reasons, sales this far in 1952 have fallen behind the admittedly swollen totals of scarce-buying early 1951.

Western Allies Have Insufficient Ships, McCormick Says

WASHINGTON (AP)—The Western Allies have insufficient ships in the Atlantic to face war in Europe, says the supreme naval commander for the North Atlantic Treaty Organization.

Dr. Pepper Earnings Increase During '51

DALLAS, March 26 (AP) — Dr. Pepper President L. M. Green reported to stockholders yesterday that the soft drink firm's sales, earnings, and taxes increased in 1951 over 1950.

"Daddy!"

To five-year-old Maria Antoinette her daddy, deposed president of Cuba, is still tops. After arriving in Miami, Fla., with her mother and sister from Mexico City to join her father, Carlos Prio Socarras in exile, she broke through quarantine to race across the ramp, pig-tails flying, and leaped into his arms in this exclusive picture by Staff Photographer Ralph Kestly of the Miami Daily News.

Demo Precinct Team Holds An Austin Workout

By DAVE CHEAVENS. AUSTIN, March 26 (AP) — One of Gov. Shivers' model Democratic precinct teams wheeled smoothly through a workout last night under the eye of the head coach himself.

About 200 of his friends in West Austin's Precinct 12 put on a mock convention perhaps staged as a state-wide model. Without missing an important signal, the convention took two major actions.

There wasn't a mention of President Truman's name, but the chairman keynoted the affair when he said most of the voters present knew why they had come.

One Precinct 12 voter absent was Fagan Dickson, executive director of the Local Democrats. They are fighting Shivers' plan for an unstructured delegation and denying they are strictly pro-Truman.

Navy Man Acquitted In Greyhound Crash

OAKLAND, Calif. (AP)—A Superior Court jury yesterday acquitted a Navy chief of responsibility for the Bay Bridge bus plunge that killed eight persons and injured 21 seriously last October.

Men In Service

Cpl. Francisco R. Molina of the medical company 351st Infantry Regiment, has been promoted to rank of sergeant, effective as of Feb. 16. A native of Big Spring, Sgt. Molina is the son of Mrs. Molina who resides at 100 N. W. 4th.

Pfc. Donald R. Gross is home on a 15-day furlough to visit his parents, Mr. and Mrs. J. T. Gross. He has just completed the turret mechanic school in Denver, Colo., and when his furlough is complete he is to report to Mountain Home, Ida. for assignment.

Seven Texas Plants Given Tax Benefits For Expansion

WASHINGTON, March 26 — Federal tax benefits for 587 defense plant expansion projects involving proposed outlays of over 908 million dollars were approved yesterday by the Defense Production Administration.

Seven of the plants are in Texas. The certificates entitle each company to write off in five years in depreciation for tax purposes a part of the cost of the new structures. Normal write-off is 20 or 25 years.

Phillips Petroleum Co., \$5,446,400 for propane and butane production in Ector County, portions approved in part for 65 per cent write-off, the rest at 40 per cent.

# Kansas Opposes St. John's Tonight In NCAA Finals

## Illini Stumble Before Redmen

By JIM HUTCHESON

SEATTLE (AP)—It will be Lovellette and company of Kansas against the giant killers of St. John's for the national collegiate basketball crown tonight.

Kansas got to the throne room doorway the easy way in the semifinals of the NCAA playoffs last night, as big Clyde Lovellette led the way to a 74-55 victory over Santa Clara.

St. John's of Brooklyn got there by the margin of a game-ending gap, with a 61-59 win over favored Illinois.

In the title classic tonight it will be the clever passing game of St. John's against the power that comes from having a tower of strength like 6-foot-9 Lovellette in the slot.

The big Kansas center scored 33 points against the Santa Clara Broncos, and he stood out as a playmaker and backboard bulwark as well as a scorer. His 33 ran his three-game NCAA 1952 playoffs total to 108 to set a new record. The old mark, in four games, was 83. It was set by Don Sunderlage of Illinois last year.

If crystal ball gazers want to look into the past competition between the two finalists for a weather-vane reading, the edge is with Kansas. It won a 52-51 victory over St. John's when they met last year in Madison Square Garden.

But these St. John's hoop magicians have thrown the book out the window. The experts didn't even think they would get to the national tourney. They did it the hard way. In the regional tourney, by beating Kentucky, No. 1 team in the Associated Press national poll, Illinois, the Redmen's victim last night, was the No. 2 rated team in the same poll.

One goal was clinched by both St. John's and Kansas by their semi-final victories. Both qualified for the U. S. Olympic Games trials.

While Lovellette stood out as the No. 1 individual performer in the semi-finals, St. John's flashed a star of its own who may give the Kansas center a run for his money tonight. He was center Bob Zawoluk, a mere 6-foot 6-incher. He tallied 24 points for St. John's, was a strong man at the backboards and his nine field goals were within three of Lovellette's total.

## Fifth Grade Ball Clubs In Action

Second round of play in the Fifth Grade division of the Ward School Softball League race will be under way on four diamonds Thursday afternoon.

College Heights plays host to Airport, Central Ward and Kate Morrison have it on the Central diamond. East Ward and Park Hill tangle on the East Ward diamond while West Ward invades North Ward's diamond.

Big Spring (Texas) Herald, Wed., March 26, 1952 11

Discus Jockey

University of Southern California's big Jim Innes, who last Saturday battered the American discus record by more than two feet with a toss of 182 feet, 5 inches, practices for upcoming meets and for a berth on the U. S. Olympic team. Innes, a former high school teammate of Bob Mathias of Tulare, Calif., has shown tremendous improvement this year and his coach, Jess Mortensen, expects him to better 190 feet before the season is over. (AP Wirephoto).

## AT SAN ANGELO

### Bobcats Trounce Herd Again, 11-1

SAN ANGELO—San Angelo High School's Bobcats checked off an 11-1 victory over the Big Spring Steers here Tuesday afternoon.

The win was the second in a row for the Bobcats over the Steers, who were not at full strength for the clash. Raymond Glistrap, one of Coach Roy Baird's better hurlers, was not eligible to play and both of Big Spring's catchers,

James Hollis and Frank Long, were not suited out due to illness. The Steers were limited to two hits by Herbert Bieberman and Bill Warrick. Ted Scott got one of the blows and Kenneth Fields the other.

The Steers scored in the fifth when Jimmy Stewart raced home on Scott's blow.

### Airport Defeated By 11 To 3 Count

Park Hill defeated Airport, 11-3, in a Sixth Grade division game of the Ward School Softball League Tuesday afternoon on the Airport diamond.

The win was the second in three league starts for Park Hill. Gristley, Park Hill pitcher, surrendered only four hits to the opposition.

**League Will Be Taken To Court**  
WICHITA FALLS, March 26 (AP)—Midwestern University has filed an injunction and damage suit against the Texas Interscholastic League over a TIL order prohibiting the annual Oil Bowl charity football game.

**Morrison Drubs North, 16 To 2**  
Kate Morrison drubbed North Ward 16-2 in a fifth grader baseball game Tuesday at Kate Morrison school. For the winners Ventura Correa was the pitcher; for North Ward Andres Chavez and Chon Chavez.

East Ward sixth graders turned back the West Warders of the same grade level 6-4 with Rogers as the winning pitcher.

**Medina Assigned To Sweetwater**  
DEL RIO—Juan Medina, an infielder with Big Spring early last season, has been assigned to Sweetwater of the Longhorn League.

Medina is in spring drills here with the Braves and other clubs belonging to A. C. Gonzales. After being cast adrift by Big Spring, Juan caught on with Chickasha of the Sooner State League, where he hit .35.

## LITTLE SPORT

## Odessa Beaten By Westerners

ODESSA — Lubbock got off to a fast start in District 1 baseball play by defeating Odessa, 3-1, here Tuesday afternoon.

The Westerners picked up two runs on Bo Sexton's fifth inning single and added the third one on James Solley's double in the seventh.

Carroll Walker, Lubbock hurler, lost his shutout when Frank Gee singled home Tommy Warner in the fourth. Warner had reached second on a two-base error.

Bob Cochran was the losing pitcher. He was the victim of some fielding lapses on the part of his mates.

## Steerettes Get Sweet Revenge

The Steerettes of Big Spring High School gained sweet revenge for a recent loss inflicted by Abilene by trouncing the Eagles, 36-10, in a girls' volleyball game played here Tuesday night.

The locals opened up with a thumping good game in the last half after the visitors had made it fairly close through most of the first period.

Abilene led the court at the intermission, trailing, 17-6. Rose Rice scored 11 points for Big Spring while Sue Dennis and Mona Lee Walker each had nine. Richardson and White were Abilene's top point getters with three each.

The Big Spring B team romped to a 26-22 victory in the opening game. The Steerettes held a 14-11 advantage at half time in that one.

The locals will take a rest until the district tournament which comes off a week from Saturday in Odessa. Last night's victory was the 19th in 22 starts this year.

## Wayland Loses In Fem AAU

WICHITA, Kan., March 26 (AP)—The defending champs still are going strong but last year's runner-up has stumbled in the National AAU Women's Basketball Tournament.

Hanes Hosley, Winston-Salem, N. C., had little trouble in handling Dowell's Dolls, Amarillo, Tex., 55 to 39, last night in a second round game. The North Carolina team won the tourney last year.

Wayland College of Plainview, Tex., the 1951 runner-up, went down 45-44 before Iowa Wesleyan College. A field goal by Connie Lou Cornish in the final seconds gave the Iowa team the win.

Earlier the American Institute of Commerce, Davenport, Ia., breezed past the Oklahoma, Ia., Van Zees 44 to 27.

Nashville, Tenn., Business fought from behind to edge the Denver, Colo., Vipers, 27-26, in another second round contest.

## Roe Off To Bad Start In Camp But Unworried

By RALPH R'ZDEN  
Associated Press Sports Writer

Preacher Roe is off to a bad start but the ace left-hander of the Brooklyn Dodgers isn't worried. Roe, who posted an amazing 22-3 record last year, has been hit hard in each of his three outings this spring.

The lean veteran was tagged for 11 hits in six innings yesterday as the Dodgers defeated the Philadelphia Athletics, 9-5, at Miami, Fla. Roe said after the game:

"I figure I'm just about throwing the way I should be at this time. My stuff is spotty, some of it good, some of it bad."

"My control isn't what it should be yet. It was better than last time at least. I'm getting the ball over the plate, but I'm not getting it where I want it."

Roe yielded all of Philadelphia's runs including a two-run homer by Eddie Joost. He left with a 6-5 lead. Young Billy Loes protected the margin.

Bobby Thomson slammed a home run in the eighth inning to give the New York Giants a 7-6 triumph over the Chicago Cubs at Phoenix, Ariz.

Home runs also featured the Cleveland Indians' 7-5 victory over the Chicago White Sox at Tucson, Ariz. Larry Doby clouted a three-run homer and Al Rosen and Jim Fridley followed with bases empty blasts in the sixth to wipe out a 2-0 deficit.

## Coahoma Plans Lighted Field

COAHOMA—A drive is now underway for money to build a lighted softball diamond here.

The diamond, if it becomes a reality, will be located on a plot offered by Donald Lay, west of the Coahoma High School.

Proceeds from the Coahoma Independent Basketball Tournament, which will be held this week end, will go toward purchase of lights for the field. The tournament is being sponsored by the women's softball team of Coahoma and will extend over three nights, starting Thursday.

First round pairings Thursday will send Knot against Dibrell's Sporting Goods at 7 p. m., Coahoma against Forsan at 8 and Garden City against American Legion at 9.

Nutt's Drive Inn of Big Spring drew a first round bye and will play the winner of the Garden City-Legion game Friday night.

## Delatorre Shines In Early Drills

LUTCHER, La.—The Midland Indians of the Longhorn League, who have been plagued in early drills here by heavy rains, have released Jack Norman, rookie infielder, to Abbeville of the Evangeline League.

Bruce (Gabby) Blumenthal has been looking to advantage in his mound starts for the Warriors. Julio Delatorre, third-sacker, has been shining with the stick.

## LOOKING 'EM OVER

With Tommy Hart

The 1952 edition of Street and Smith's BASEBALL, which is due to reach the newsstands shortly, has one face familiar to local fans.

A picture of Manny Junco, who is trying out with Chattanooga of the Southern Association, is included on Page 91. Manny, the Big Spring Bronco's 1951 center fielder, hit .335 last year and was named winner of the 'most popular player' award.

Bob Harvick, a 27-year-old infielder from Tahoka who tried out with Big Spring a couple of seasons ago, is attempting to win a place in the Lamesa infield.

Harvick's play afield was adequate but he couldn't hit. He has recently been in the Marines; is supposed to have clouted 335 in 90 games for the Devil Dogs. Perhaps the curve ball doesn't give him the trouble it did when he was here.

LUBBOCK, PLAINVIEW TO HOST TOURNAMENTS  
Lubbock and Plainview will be beehives of activity in softball this season.

Lubbock will host the International Softball League state meet starting Aug. 11. Plainview will be the scene of that organization's national tournament starting Aug. 25.

The local champion is eligible to compete at Lubbock.

Incidentally, the local Army Air Base may enter several teams in the city league, when it takes shape next month.

Sickness has again slowed the baseball progress of Midland's former shortstop, Scooter Hughes. The little fellow got a chance to play AA ball a couple of years ago but a combination of ailments put him out of action.

This spring, Scooter checked in late at the Wichita Falls camp due to an infected throat.

Were he stronger and more durable, Hughes might be playing in the major leagues. No one ever covered more ground than the Tulsa youngster.

## RICHARDS IMPROVES CLUB

# White Sox Sweep To Flag Forecast By Few Experts

By BOB MYERS

TUCSON, March 26 (AP)—For 41 stirring and somewhat surprising days, the Chicago White Sox held the lead in the pennant race in the American League last year.

The Sox may not hold the lead so long this season, but there are those with the club who profess to believe they'll hold it when it counts — meaning the final day.

Much of the optimism is based on the point that Paul Richards is the manager, tactician and brains of the outfit. He worked a small miracle in getting the Sox ablaze and into a final station in the first division in his freshman year as a major league manager.

With what most critics think is a stronger club, Richards in his second go-round might just up and do that much better.

The principal strengthening efforts were aimed at third base this winter and certainly this position looks better.

Richards, General Manager Frank Lane and company came up with a star from the International League, Hector Rodriguez, to fill the gap. Rodriguez, 31, now another member of the Cuban colony on the team, is a veteran of Latin American baseball, but he fielded well, hit .302 and stole 26 bases for Montreal, as well as driving in 95 runs.

Richards cut Bob Dillinger loose yesterday and presumably is going along with Rodriguez, with Utility Man Sam Dente from the Senators to back him up.

Richards' catching is improved, too, with acquisition of Sherman Lollar from the Browns to share the job with Veterans Phil Masi.

And bidding for attention is J. W. Porter, 19, the big kid from Waterloo, Ia., and Oakland, Calif., high school.

The pitching should be adequate and deep, if not star-studded. Saul Rogovin, Bill Pierce, Ken Holcombe, Chuck Stobbs — these names stand out. Joe Dobson, Howie Judson, Louie Kretlow or possibly such newcomers as Skinny Brown or Marvin Grissom from Seattle, or Al Widmar from the Browns, might be factors. And able relief is to be expected from Luis Aloma or Harry Dorich.

The infield, aside from third, is excellent. Eddie Robinson at first, Nellie Fox at second and Chico Carrasquel at short are fixtures, ranging from Robinson's power hitting to Fox's slashing offense and fine defense, and Carrasquel's brilliance at short.

There are some who think Fox may have played "over his head" last year. Richards thinks the youngster is just coming into his own.

Big gun of the outfield is the imitable Saturnino Orestes Arrieta Armas Mino, or Mino, for short. The American League "rookie of the year" from Cuba powdered the ball for .326, second high in the league.

Jim Busby and Ray Coleman have been regarded as Mino's regular mates in the outfield, but the returns may not be all in from Al Zarilla or Eddie Stewart.

The 1951 surprising Sox finished

in fourth place, 17 games behind the Yankees. But they were first in team hitting, beating out the potent Yankees by one percentage point and the Red Sox by four, and

they were second by a close margin to Cleveland's great pitching staff in the earned run department. The White Sox think they have reasons to feel optimistic.

## Three S'West Conference Teams Achieve Victories

By The Associated Press

Three of four Southwest Conference baseball teams won victories Tuesday as Rice Institute dropped a 4-3 decision to Sam Houston State's Bearkats.

Southern Methodist's Ponies, and the University of Texas Longhorns pounded out lopsided diamond wins as Baylor's Bears edged Minnesota in a baseball thriller.

Cotton Davidson's slick relief pitching brought the Baylor's 5-4 victory over the Gophers despite five Bear errors.

Davidson relieved starter Mill Ienberg in the sixth after a big fifth inning in which the Bears scored four times and Gophers crossed the plate twice. Minnesota had led, 4-1, as Baylor came to the plate in the fifth.

Solid hits by Mickey Sullivan and Larry Isbell, three walks and two Gopher errors were enough. Davidson blanked the Gophers the rest of the way as Baylor nipped two Gopher rallies with fast twin killings.

The Longhorns won their third in a row with a 13-hit, 10-4 decision over the Hardin-Simmons Cowboys. Texas took a two-run lead in the fourth and never was headed, turning on steam as the game grew older.

Righthander Dick Robertson started for Texas and didn't allow a Cowboy on base until one was

out in the fifth. The performance gave him seven and one-third innings of perfect pitching.

Southern Methodist used 13 hits and played errorless ball to whip Carwell Air Force Base, Fort Worth, 14-5.

The Ponies' sturdy righthander, Holly Morton, blanked the airmen for four innings before Coach Alex Hooks pulled him. Carwell made three runs in the fifth, but SMU pulled away in his half of the inning to make it 8-3, then wrapped it up in the seventh stanza with an eight-run spurge.

Rice bowed to Sam Houston as Jess Hernandez, a righthander, let the Owls down with five scattered hits, struck out 16 and singled in the tying and winning runs.

Sam Houston bunched six of its seven hits in the fourth to score all its runs as two Rice errors helped the Bearkat cause.

Bobby Sheridan, who took over the Rice mound chores in the fifth, hurled hitless ball the rest of the way, but the harm had been done.

## Lahar Is Hired

HAMILTON, N. Y., March 26 (AP)—Colgate University today announced appointment of Harold W. Lahar, line coach at the University of Pittsburgh, as head football coach. Lahar, 34, succeeds Paul O. Bixler, who resigned Jan. 14.

We call it Cream of Kentucky because it tastes double-rich

## Gen. Wedemeyer To Stump For Sen. Taft In Nebraska

OMAHA (U) — Retired Lt. Gen. Albert C. Wedemeyer, who spurned a favorite son candidacy in the Nebraska presidential primary, comes back to the state today to stump for Sen. Taft.

Rep. Howard Buffet (R-Neb), who is heading a write-in drive for the Ohio senator in the April 1 Republican preferential presidential primary election, said Wedemeyer will spend tomorrow and Friday campaigning for Taft.

Wedemeyer, author of the report on China which bears his name, is now vice president of the Avco Manufacturing Company in New York.

He had been proposed as a favorite son candidate in the Nebraska primary several weeks ago, and at one time gave Mrs. Mary Kenny of Lincoln conditional approval to enter his name. He later withdrew it.

Afterward, Mrs. Kenny herself filed for the primary as a supporter of General MacArthur. She and Harold Stassen are the only Republicans whose names will appear on the ballot.

## Mayor Is Freed Of Charge On Morals

JOPLIN, Mo. (U) — H. Tiffin Teters, mayor of nearby Carthage, was freed of a morals charge yesterday at a preliminary hearing.

Magistrate Ted Bethea ruled evidence was not sufficient to bind Teters over for trial in Circuit Court.

Morris Shaffer, 48, a Carthage beauty operator, testified for the state that an unnatural act between him and Teters occurred at the mayor's home in November, 1949. Teters, a 39-year-old lawyer, denied the charge.

## Missionary To Be BTU Mission Rally Speaker Thursday

A native Texan who has spent the past six years on the island of San Andres is to be the featured personality at a BTU mission rally Thursday at 7:30 p.m. in the East Fourth Street Baptist Church.

He is C. W. McCullough, a graduate of Howard Payne College and of the Southwestern Baptist Theological Seminary at Fort Worth. Although the meeting is an association rally, the general public is invited to attend and hear of the work among the all-Negro population.

San Andres is in the Caribbean off the coast of Colombia. Originally a British possession, it was populated with Negroes when much of its 287-mile area was put to cotton. Later it was abandoned and taken over by Colombia.

The Rev. McCullough and his family are the only whites on the island. Interestingly, English is the native tongue there.

When the Rev. McCullough returns to San Andres, he will take with him a 50-ft. boat which was provided out of the first \$10,000 to the annual denominational Lottie Moon missions offering. The offering of the associational rally here will be dedicated to him, also. Program details are in charge of Carlos McCloud, associational director.

## Sponsorship Of TV Shows Split Due To Expense

By WAYNE OLIVER

NEW YORK (U) — The traditional single sponsorship of network programs that prevailed in radio is crumbling in television because of high costs of producing and airing shows.

Television still has a number of shows that have only a single sponsor, but there is a growing proportion with sponsors that either share commercials or alternate in presenting them.

A big network TV show costs up to \$100,000 a week or five million a year, and there's only a limited number of companies with advertising budgets big enough to underwrite such an expenditure for a single item.

The networks are offering the alternate sponsorship or shared sponsorship plan as an answer. A leading exponent is Edward Madden, sales and operations vice president of the National Broadcasting Company. He contends this plan puts TV within reach of the modest budget advertiser, and at the same time will enable TV to make enough to meet its high costs, which are headed even higher.

Madden points out that NBC's lavish "Show of Shows" has six sponsors sharing the cost of nearly \$170,000 a week or \$8,000,000 for a 39-week season. Three sponsors share the cost of \$100,000 a week or \$4,000,000 for a 44-week season of "All Star Revue." Four share the cost of four million dollars for a season of the Kate Smith night-time show.

There are numerous other examples of alternate or shared sponsorship, such as Arthur Godfrey's Wednesday night show on CBS, "Kukla, Fran and Ollie," "The Goldbergs," Robert Montgomery Theater, "Television Playhouse" and "One Man's Family" on NBC, and "Space Patrol" on ABC.

"I think we're going to more multiple sponsorship shows," says Madden. "Conceivably, television could go according to the magazine concept."

## Easter finery for Tiny Tots

## It's Policy, But Maybe They Are Sorry It's So

OKLAHOMA CITY (U) — The Junior Chamber of Commerce asked the City Council for free rent at the Oklahoma City Auditorium for two mock conventions of the Future Voters of America, high school students.

G. A. Stark, a councilman, said sadly, "I know it's a worthy cause, but we have a policy against free rent."

So the councilmen and their associates began a campaign on the spot to raise \$250 for the rent. Each was "locked" for a \$10 bill.

Policy is policy.

## Riding THE GRUB LINE With Franklin Reynolds

Mr. and Mrs. Rayford Martin from the Horace Reagan Ranch were down in the Waco country over the week end and report seeing lots of green grass, in addition to getting mixed up with a two-inch rain. Rayford told Mrs. Martin he wished he could have brought a pocketful of it home with him. He wished it more than ever when they reached home and Mrs. Martin put him to work on a house cleaning job made necessary because of the sand that had blown in during their absence.

Quite a change from a two-inch

rain of water to a two-inch rain of sand.

The 49 purebred Herefords consigned to the Oklahoma Hereford Breeders Association sale in Oklahoma City last week averaged \$1,273, when the 20 bulls averaged \$1,829, and the 29 females hit an average of \$890.

The reserve champion bull, Larry Domino V 22, consigned by the Vanderworks at Waukomia, brought the top price of \$3,600, and the champion bull of the show, another Vanderwork, consignment went for a flat \$3,000. The Vanderworks also consigned the top female and she went to Oklahoma A&M College on its \$1,500 bid.

At the second Oklahoma City sale of Herefords last week, the one sponsored by the Central Oklahoma Hereford Breeders Association, the 17 bulls averaged \$1,055, and the 35 females averaged \$905. The top selling bull was HE Larry Domino 400, consigned by Hudson and Edinger of Enid, and he went to a new owner at \$4,000.

The top selling female was Larryetta Domino 45, consigned by Good as Gold Hereford Ranch, Enid, and she went to another Oklahoma buyer at \$2,500.

On April 5th, the Jenkins Brothers, Loyd and T. C., plan a "complete" dispersion of their Quarter Horse band at the ranch, four miles northeast of Fort Worth. Fifty-one horses are entered in the auction, 14 of which are consigned by the Volney Hildreth Ranch at Aledo.

The Jenkins boys say they are keeping only three geldings for ranch use. This auction is a further indication of the passing of the old-fashioned muscular Quarter Horse. Loyd has had bad personal luck with his horses these last few years, but they have added to his fame and to his bankroll.

A yearling kicked him about three years ago and broke his leg. About the time this healed, there was another accident and another break. As a consequence Loyd had to have a leg amputated.

For years he has shown the King Ranch Quarter Horses, and his relations with this ranch in the Quarter Horse field have been comparable with those of E. H. Lane in the Thoroughbred racing field.

Plans to offer a full program of entertainment and instruction to an expected 1,500 visitors to the National Hereford Congress in Fort Worth, May 12th and 13th, are nearing completion by the executive committee of the Texas Hereford Association.

In another item of business the committee has called on Henry Elder, secretary, to investigate the possibility of a round-up sale and to make preliminary arrangements for such a sale.

### Kimball To Tokyo

TAIPEH, Formosa (U) — U. S. Navy Secretary Dan A. Kimball and his party left for Okinawa and Tokyo today after discussing "common problems" with Generalissimo Chiang Kai-shek.

### Youth Kisses Brother Then Dies In Flames, Pinned Under Tractor

DUSTIN, Okla. (U) — A farm boy, unable to free himself, died beneath a burning tractor after kissing his younger brother goodbye.

Richard Dale Foreman, 14, and his 11-year-old brother Glendell were riding on the tractor when it suddenly swerved, overturned, and burst into flame. Glendell was thrown clear but Richard, the driver, was pinned underneath and unable to free his leg. The younger boy began beating at the flames with his coat.

### Formosans Executed

TAIPEH, Formosa (U) — Chinese Nationalists today executed six Formosans convicted of being Communist agents.

In the 14th Century, some people thought eyeglasses were an invention of the devil.

### Agrees To Take Over Father's Ceylon Post

COLOMBO, Ceylon (U) — Dudley Senanayake today agreed to succeed his father as Prime Minister of Ceylon.

The 41-year-old son of the late Don Stephen Senanayake, veteran Ceylonese statesman and the British Commonwealth country's first and only Prime Minister, had refused earlier to take the post left vacant when his father died Saturday of injuries suffered in a fall from a horse.
