LHS A CAPELLA CHOIR TO SING FOR WEST TEXAS TEACHER GROUP

Another honor has been paid the music department of the Littlefield high school with the selection of the school a capella choir, directed by Bob Irby, to sing at the convention of the West Texas Teachers Association in Lubbock Friday, March 9.

One choir and one band from the area will appear on the convention program in the Friday afternoon session, starting at 2 p.m. The band invited is that of the Plainview high school.

The Littlefield high school and Plainview high school bands were the two selected by the Texas State Fair Assn. last fall to represent this area in the State Music Festival in the Cotton Bowl.

The college group will appear in the high school auditorium here that night in a benefit for the high school choir. Proceeds from the a capella concert will be used to start a fund for the purchase of robes for the Littlefield choir, Mr.

Irby said. Don Hayes, LHS band director, has previously announced the band woodwind quintet, composed of Joe Pickrell, Wynema Johnson, Norma Moss, Charlotte Doss and Joyce Tharp, had been invited to play in the Texas Tech formal concert in Lubbock March 18.

More Moisture Benefits County

Extension Talks Are Slated Here

County Agent Dave Eason announced this week the first of three subdistrict extension service meetings in this area would be held in Littlefield Tuesday, March 13, starting at 10 o'clock.

The thin, mist-like drizzle that started in Littlefield early Friday and continued as the day progressed was general over Lamb county and the immediate Plains area.

The Sante Fe reported the same conditions prevailed all along its line from Lubbock to Texaco, and telephone calls to Earth and other places in the county showed they were having about the same degree of moisture as Littlefield.

This group includes, Eaton said he had been informed, Dr. T. R. Timm, extension economist; M. C. Jaynes, organization and marketing specialist.

Baptist Church Brotherhood Group Invites All Men to Meeting Here

All men of the Littlefield community have been issued a blanket invitation to attend a dinner and Brotherhood meeting starting at 7:30 o'clock Monday night at Wofford's Fine Foods, formerly Dyer's Cafeteria.

The meeting is under the sponsorship of the Parkview Baptist Church Brotherhood. An exceptionally attractive program has been arranged for the evening with view of attracting men of all faiths as well as Baptist members to the meeting.

Song Program Pleases Here

Norman Farrow, outstanding Canadian baritone, presented a pleasing program of songs Friday night in the Littlefield high school auditorium in the second of the series of concerts sponsored by the Lamb County Concert Association.

The next of the series will be Friday night, April 13, when the Zuckers, a two-piano team, will appear at the high school.

Ribbon Winners To Get Fine Trip

Ye Ed's Car Wash Gets Quick Results

A pebble can start an avalanche. Friday night the Leader's editor made a decision. He was tired of innocent (?) queries of well-meaning (?) friends about the color his car, under its coating of dust.

So he took it to the car wash rack. When he started to drive away it started to rain. The drizzle continued through Friday.

Everybody knows what that means to the farmers and business men of this country. Ye Ed, of course, doesn't claim any undue credit and he firmly rejects all offers by farmers and merchants to finance another wash job.

Never-the-less, he did have his car washed—and it rained! He said he will pay for another one himself for the same result.

Entries will close Friday, March 2, in the Lamb County 4-H-FFA stock show in the fairgrounds April 2, it was announced by Bob Crowell, manager of the sponsoring Littlefield Chamber of Commerce.

About 75 boys in the county are expected to enter animals in the show, in which the ribbon-winning exhibitor boys will be rewarded with an educational trip to Austin as guests of the Littlefield business organization.

In order to be eligible for entry, all steers must have been purchased by the boys not later than November 15 and all barrows must have been the boys' property not later than December 15.

Commercial Judging Basis All animals entered in the show must be at the fairgrounds by 4 p.m. April 1, Mr. Crowell said. The pigs and calves will be judged by a packer-buyer. Following the commercial-type show, each exhibit animal must be sold in a group on the highest local market.

Boys whose calves or pigs are placed in the blue ribbon group, and those whose calves rate a red ribbon will leave Littlefield about 1 p.m. Monday for an expense-paid educational trip to Austin. Trip Features Planned At Austin, the group will meet various state officials, visit the (Continued On Back Page)

Friends Warm Heart and Home of Pink Johnson and His Family

It was a heart-warming influx from Littlefield and other points in this area Thursday night that brought smiles of happiness to the faces of W. P. (Pink) Johnson, his recent bride and two stepdaughters.

Lost Only One Game The Dimmitt Bobcats this year have lost only one of 30 games played. Their lone loss coming in the hands of the Canyon Eagles, defending state Class A champions. Otherwise, the Bobcats have taken all opposition in stride.

Pink's buddies of the American Legion, the VFW and the DAV and friends of the former Mrs. Agnes Hess turned out en masse to help the disabled former Marine sergeant warm his new home and to wish him well both with words and a shower of a beautiful and appropriate personal gifts and gifts for the home.

Harry Crowley, commander of the Legion, represented his organization in a short presentation ceremony; Bill Street, past commander of the Vets, made the presentation for the VFW in the likeness of Commander Odell Matthews, and Mr. Jones acted for the Lubbock DAVs. Mr. Crowley and Mr. Street, together with Mrs. Vernon Hofack, president of the Legion Auxiliary; Mrs. W. D. T. Storey, acting for the auxiliary; Mrs. J. W. Watson, a firm friend of the

Johnson family; Mrs. Lyle Brandon, executive secretary of the Lamb County Chapter of the Red Cross, and Doug Ward, representing the business men of the community, took the leading part in arranging for the reception and housewarming. The brief ceremony with Mrs. Brandon as program chairman included talks, "Here We Are," by Commander Crowley; "Your Friends," by Mr. Street; "Home," by Mrs. Storey; a talk by Bob Kirk and a humorous talk by Jimmie Zed Robinson, "How The Lady Got The Feather In Her Hat." Mrs. Hugo Beyer of the Legion Auxiliary was in charge of registra-

tion. More than 75 signed the registration book and it was estimated that again as many visitors failed to leave their automobiles. Mrs. Audry Brown served sandwiches and cakes to the callers and Mrs. Frances Ray presided at the tea and coffee service. Mrs. Dee Meyers headed a committee of six in charge of food preparation. Others were Mrs. E. J. Busanmas, Mrs. Herman Busanmas, Mrs. Catherine Johnson, Mrs. Charles Calvert and Mrs. Ray McKinney. Nurse Tells How Hadacol Was So Helpful To Her

Supplied Vitamins B₁, B₂, Iron and Nicotin Which Her System Lacked

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins B₁, B₂, Nicotin and Iron which HADACOL contains.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy."

Why HADACOL Gives Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B₁, B₂, Nicotin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B₁, B₂, Iron, and Nicotin but also helpful amounts of important Calcium and Phosphorus

K-F Offers '51 Version Of 2-in-1 Traveler Sedan

THE '51 VERSION of the Kaiser Traveler utility car, now offered in two-door as well as four-door models, is being introduced by Kaiser-Frazer dealers. Indicative of its 62½ cubic foot load capacity is the winter sports paraphernalia which fits neatly into the multipurpose sedan. A close-up of the folding seat arrangement appears below. With seat upright, the Traveler is a conventional six-passenger sedan.

Kaiser-Frazer Introduces 1951 Traveler in 2 and 5-Door Styles

Our new models in the 1951 line have been added as Kaiser-Frazer dealers introduced the two and four-door Traveler sedans. The Batson Car Company of West on Highway 84, are dealers for the Kaiser-Frazer cars.

The utility models originated by Henry J. Kaiser, board chairman, and first produced by K-F in 1949, the new models are designed to combine style and comfort of a sedan with the cargo features of a station wagon.

The 1951 Travelers have the same appearance of the Kaiser sedan and four-door sedans, with no change in their dual-purpose interior. Inside, they are conventional six-passenger sedans until the rear seat is flipped forward to provide 62½ cubic feet of cargo space.

With the rear panel open and the "tailgate" extended, the cargo capacity is increased to 105½ cubic feet, and a floor area of 46 inches is provided.

The rear panel-tailgate assembly is the car from floor to roof for easy loading. The spare tire is mounted into the floor, out of sight out of the way.

Available in the deluxe models and vinyl recently developed by Kaiser for the "Golden Dragon" Kaiser series. Box grain vinyl is used for the interiors of the Traveler models. Both deluxe and special models are offered in a choice of interior colors in combination

with six harmonizing interiors.

Walter deMartini, K-F vice-president in charge of sales, said that the utility sedans originated by K-F have proved among the most popular body styles in the entire K-F line.

"In addition to their general family utility," deMartini continued, "the Travelers have demonstrated their adaptability as special purpose vehicles for ambulance, farm and sales work, as well as in many service occupations in which bulky loads must be carried."

"A Traveler quality having particular appeal for outdoorsmen," he added, "is that it can serve as a 'camp on wheels'. Thousands of other owners who have maintained two cars to serve varied transportation requirements have found that a Traveler eliminates all need for a second vehicle."

DeMartini said the Traveler prices, previously announced, are

Garden Timing Keyed on Final Frost in the Spring

Average Date of Last Killing Frost for Principal Cities. From U. S. Department of Agriculture Weather Reports.

Unless you live in a tropical climate, every outdoor garden task in your locality must be timed with reference to a key date, which is the average date of the last killing frost in spring.

The number of days between this date and that of the first killing frost in fall determines the entire list of crops which can be grown. One of the first things the amateur gardener should learn is the length of this frost-free season in his locality, and he should keep it in mind in selecting varieties of both vegetables and flowers to grow.

In most localities there is a date in the spring which is accepted as the time when tender plants, which would be injured by frost, can be safely set out. It will probably be found to fall near the date shown on the U. S. Department of Agriculture map which illustrates this article.

The dates shown on the map for the various areas give the average experience. There is always the chance of an exceptional year, when a frost will occur long after the average time, and many tender

things may be nipped. But some risk must always be accepted in gardening. Remember that seeds of tender crops can be sown a week earlier than their plants can be set out.

Look up your location and talk to your gardening neighbors about their practice, and you will find it easy to decide on the date to accept as safe from frost in your garden.

Of course some years you may win with a long-shot and get a crop from an early planting of a tender crop because of an exceptionally warm spring. If you want to figure the odds against this kind of chance taking, you may estimate that the risk of losing tender plants is exactly doubled, when they are set out two weeks before the frost-proof date.

There is nothing to be gained, moreover, by taking this risk with plants which have been started indoors, since they may be seriously injured by a hard frost which does not kill them, and always do best when they continue growing without a check.

Cotton Lint Contest Offers \$100 Prizes

A \$1,000 cotton lint growing contest will be held this year for South Plains 4-H club members, G. L. Jackson, of Abernathy, has announced.

Jackson is president of Plains Co-op Oil Mill which is sponsoring the contest jointly with the Texas A. and M. College Extension service in providing the administration.

There will be two divisions, irrigated land yields and dryland yields. First prize in each will be \$250, second will be \$150 and third will be \$100.

18 Counties in Area Counties from which club members may compete include: Bailey, Borden, Castro, Cochran, Crosby,

Dawson, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Parmer, Swisher, Terry and Yoakum.

The contest is open to any 4-H club member in the eligible counties who is between 9 and 21 years old on July 1 this year, Jackson said. Crop record books must be turned in to the local county agent by Jan. 15 of 1952 and the county agent will submit the record of the county winner to the district agent, W. H. Jones, in Lubbock.

Acres entered in the contest will be restricted to five and the patch must be designated not later than July 4. It must be designated

to the local county agent or county judging committee, Jackson said. The contestant must have a bona fide half interest in the crop, Jackson said.

"Only highest number of pounds of lint cotton per acre will be considered for awards," Jackson said.

Wayland College To Proceed With Plans For Proposed Dormitory

Wayland College trustees held their semi-annual meeting recently with W. A. Mays, Amarillo business man, presiding. The trustees adopted a motion by E. M. Osborne of Plainview, chairman of the trustees' building committee, to proceed with the laying of structural steel for the proposed girls' dormitory at Wayland.

The trustees also heard President W. Bill Marshall report that Wayland's enrollment was higher than last semester's, despite the

fact that college enrollments over the country are dropping sharply. "Many a aid that with the college's high Christian standards, students would stay away," Dr. Marshall said, "but instead of that our enrollment has been climbing."

The trustees endorsed a request from Rev. C. C. Sewell, assistant to the president, that active promotion be given to a program for having oil royalties assigned to the college.

Another part of the financial program he presented which the trustees also endorsed was a plan to secure "living endowment" income from friends of the college.

Under this plan an individual would give the college each year an amount equal to the income from endowment. For example, a man could give each year 4 per cent of \$1,000, which would be \$40 or \$10 a quarter.

The trustees also backed Sewell's plan to contact financially able individuals to give \$5,000 apiece to the proposed girls' dormitory.

Through Chairman Mays, one gift of \$50,000 has already been secured for the girls' dormitory from Mr. and Mrs. J. C. Ferguson of Evanston, Ill. Other sums previously given for the dorm also will be available when needed.

The "living endowment" program, Mr. Sewell reported, already has been successfully operating to bring income for current expenses at such institutions as Princeton University, McMurray College, Wake Forest College and the Southern Baptist Theological Seminary.

Dean H. Preston James stated that Wayland's chief needs to get higher accreditation are additional endowment, 50 per cent more books than the library now contains, and more science equipment.

"These are the quantitative goals we have set," Dr. James said. "In the qualitative field, we need better instruction, as indicated in part by more and higher academic degrees among the faculty."

Mr. Mays appointed five trustee committees to deal with library, science, finance, endowment and athletics.

On the library committee, the trustees endorsed his selection of Kenneth Kendricks of Stratford, A. T. Moseley of Odessa and Mrs. Cecil Goff of Dumas.

On the science committee are Dr. Frank B. Malone of Lubbock, Chester Watt of Olton and E. J. Green of Plainview.

Finance committee members are E. M. Osborne, A. Hope Owen and Burton Craig of Plainview, Lee Hemphill of Littlefield and John Hammond of Canyon.

Athletic committee members are Bill Mead of Lubbock, Moody Womble of Morse, J. H. Wright of Levelland and Douglas Carver of Pampa.

Reports by Business Manager J. L. Harden were adopted.

Old Spanish Fort Becomes Museum

(By Associated Press) Pascagoula, Miss. — Pascagoula's historic Old Spanish Fort, built 230 years ago by an officer of a French exploring party, has been rededicated with a challenge for antiquity.

The Jackson County Historical Society, which helped rehabilitate the sturdy three-room structure, claims it's the oldest building in the Mississippi Valley. Other sections of the valley were challenged to produce an older one.

Pomp and pageantry marked the day long ceremony dedicating the structure as an historic shrine.

Actually the name of the shrine is a misnomer. The structure was neither Spanish-occupied nor intended as a fort.

It was built by Sieur Joseph de la Pointe, an officer with the French explorer Jean Baptiste Bienville, for his home. Later, however, it was occupied by Spanish troops—hence, Old Spanish Fort.

Walls, made of oyster shells, moss and sand, are almost a foot thick. The low, wood-shingle roof is supported by hand-hewed timbers.

TOO MUCH ADVICE—Frankfurt, Germany—(AP)—West German tax advisers whose business it is to save their client's money had better be soft-spoken about how they do it.

One such enterprising counselor proudly bared in a newspaper ad his gimmicks for easing the taxpayer's burden. State authorities promptly brought suit and a fine of \$23.80 was levied against the man. It was, said the court, illegal to exploit publicly the weaknesses of the tax laws.

OFFERED SHELTER — Tel Aviv—(AP)—Catholic authorities in Nazareth, (Northern Israel), have offered winter shelter to Jewish children now in cold-threatened immigrant camps. At the same time the appeal to house such children now in cold-threatened immigrant camps. At the same time the appeal to house such children in Jewish homes in established villages and towns has made good progress.

You and Your Congress

THE GREAT DEBATE in Congress on foreign policy and on domestic mobilization is beginning to produce preliminary decisions and jelling of sentiment on some important issues.

1. Unanimously, the Senate Armed Services Committee has approved legislation calling for the drafting of 18-year-olds.

2. The House Ways and Means Committee has decided to take its time in considering new tax legislation.

3. More than 117 Republicans—and at least one Democrat—in the House signed a statement of principles asserting that any foreign policy must be determined with full participation and approval of Congress.

These three developments may prove to be only straws in the wind, but they did represent attempts by Congress to get off the "dead" corner on which it has rested for six weeks.

UNDER the forceful leadership of Senator Johnson (D-Tex.), the Senate Armed Services Committee is asking Congress to provide at once for the drafting of 18-year-olds for military training.

Chairman of a subcommittee which conducted weeks of hearings, Johnson agreed successfully for the new legislation on grounds that our security requires the most prompt building of our Armed Forces, and that we must decide now on a long-range system of training and manpower readiness.

The Committee's unanimity goes far beyond, however, that the comparable House committee—or the full Senate and House, for that matter—will follow suit in the House, especially the pressure from back home against the 18-year-old draft, except as a last resort, was forcing the military leaders at the Pentagon to cast about for "easier" ways of obtaining manpower. Still very much alive were the possibilities of drafting veterans and married men without dependents and of calling up many reservists.

THE ACTION by the House tax experts looked like a sharp setback for the Administration's request for \$10 billion in new taxes now and another \$6.5 billion later.

Publicly, the committee members said they

wanted to give thorough consideration to all kinds of new taxes. Probably, some of them indicated a desire to hold off final decisions on the trial of new revenues until they could see how much money Congress was going to appropriate. They didn't want to tax in the dark.

It became known, however, that there would be some delay in the House Appropriations Committee. The National Defense Establishment will not be ready before April 1 to start explaining in detail how it would use the \$41 billion President Truman has asked for the defense effort.

REPUBLICANS in the House drafted their policy statement as individuals and not under the sponsorship of their leaders. In fact, the three top leaders had not signed it when it was presented to the House.

But the statement did reflect the party views. It did attempt to bring into sharp focus major issues in the foreign policy debate. It did draw immediate, sharp replies from the Democrats.

Beside calling for Congressional approval of foreign policy, the Republicans said we must make this country impregnable to attack, reduce non-essential civilian expenditures, build a strong defense system in the Western Hemisphere, establish a strong defense line in the Atlantic and Pacific, and conclude peace treaties with Germany, Japan and Austria.

They said we should refuse aid to West Europe unless we are persuaded that Western Europe is carrying its full share of the burden. "In any case," they concluded, Britain and the British Commonwealth should be invited to "participate fully in this program."

HOW AND WHETHER these principles would be translated into action remains to be seen.

But they came as Secretary Acheson declared anew that any attack on Yugoslavia would threaten world peace.

And that came as the Senate Foreign Relations Committee opened its doors to hear General Marshall plead for a Senate statement of principle permitting the sending of troops to Europe.

Texas 4-H'ers Honored for Best Achievement Record

STATEWIDE recognition has been accorded E. F. Wicker, Jr., 28, of Wilson, and Yolanda Ellis, 18, of Phloxview. Each will receive an artistic pair of statuettes symbolizing achievement from the National Committee on Boys and Girls Club Work.

Indian Adventure in New Texas Book

"Arrow Lie Still" is the first novel of a Texas who uses the medium of high adventure to suggest a formula for draining off all kinds of conflict-breeding hates and poisons.

Frank Cheavens has compounded a wealth of Karankawa Indian lore, pioneer Texas romance and modern psychology into a volume that should be good mental medicine for many war-jaded readers.

The author should perhaps be identified as one of the writing Cheavens. His brother, Dave, is head of the Associated Press capital Bureau at Austin and one of the best-known newspapermen in the state. Sister Martha is a distinguished novelist and fiction writer in the East, with many books and stories to her credit. All are products of Baylor University and other Texas schools.

While it is adventure and drama from first to last, the book is a great deal more than that. It deals fundamentally with the basic human problem of hostility. Nathan Turner, a New England professor who turns up on the Texas frontier in the rugged and bloody Austin colony days, has decided that the ideal of returning good for evil is not enough to resolve these conflicts, but that a practical process is needed.

Nathan's philosophy is that locked up hate is a "slow but deadly-consuming fire" and that the way to dispense it is to haul it out into the open. How Nathan, "A genius for helping people" fared is woven into the narrative. There are emotional high points in Nathan's romance with Madelon, a fairly-beautiful Karankawa Indian woman whose first lover was one of La Pitte's lieutenants—first lover and father of her son, Don-Al.

Frank Cheavens, author of this unusual book, is a counselor with the Austin public schools and a consultant for the Hogg Foundation for mental hygiene. He holds degrees from Baylor University, Southwestern Theological Seminary and the University of Texas.

Cheavens writes extensively for technical journals of psychology and more popularly for the outdoor magazines. His poetry has been widely published. The influence of these fields of interest is manifest throughout "Arrow Lie Still," a book which would have been much improved by more skillful editing, but which nevertheless holds many a moving passage of rare writing, craftsmanship, some of it vering on the poetic.

GIs Change German Taste in Cigaretts

FRANKFORT, Germany—(AP)—The American GI has left a different taste in the German's mouth—one calling for U. S. cigarettes. German smokers have turned 80 per cent in favor of American grown Virginia tobacco. Before the war almost 90 per cent of all Germans preferred the Oriental brand.

Before the war, an average 35,000 tons were yearly bought from Greece, Turkey and the Balkans, while less than 8,000 tons came from America. Latest available figures indicate that 3,600 tons of American tobacco were imported in one month compared with 1,100 tons from Greece and Turkey. (The lively pre-war trade with other Balkan countries is almost down to zero since the Communists took over there after the war.)

"GIVE ME THIS '51 DODGE for long life...dependability"

Here's why Dodge delivers more miles per dollar
EVERYTHING about this great new '51 Dodge—the way it looks, feels, rides and handles—tells you that here's a car that's built to last. It's a car that's stunning to look at, with plenty of head, leg and shoulder room—a car engineered from bumper to bumper to last longer, go farther at lower cost.

Shock Absorbers not only give you a truly new kind of ride—but the resulting smoothness and freedom from wheel "hop" and "bounce" mean less car wear, prolong car life. Famous Dodge Fluid Drive, with its smoother starts and stops, "cushions" all moving parts from engine to rear wheels—adds to car life, saves tires, lowers costs.

Cotton Leaders Fight Diseases

An educational program to fight diseases of cotton is being con-
ducted in Texas and across the cotton belt by agricultural leaders. The
objective of the campaign is to reduce the huge annual losses which
cotton farmers suffer because of seed rot, sore-shin or damping-off,
angular leaf spot and anthracnose boll rot.

Proper treatment with a seed disinfectant can reduce the effects of
all these diseases and the importance of seed treatment is being empha-
sized by a poster and by educational releases on the subject from the
Texas Extension Service. Because of the huge cotton production goal for
1951 and a below average supply of cotton seed, the treatment of seed is
particularly important this year.

Texas leaders are shown above examining the poster for the cam-
paign, which is being distributed for display in county agent offices,
cotton gins, seed stores and other farm headquarters. Left to right are:
Dr. G. M. Watkins, head of the Department of Plant Pathology,
Texas A. & M.; Fred C. Elliott, Cotton Specialist, Texas Extension
Service; and J. D. Prewitt, Chairman of the Texas Cotton Production
Committee and Associate Director of the Texas Agricultural Extension
Service.

DAV Cartoon Of The Year

CINCINNATI—Eugene Craig of the Fort Wayne (Ind.) More than 50 published cartoons appeared in daily newspapers throughout the United States as a contribution to the DAV.

Farm Land Boom Soars In Iowa

(By Associated Press)
DES MOINES—Good Iowa corn land—and that's about as good as you can find—is riding a price teeter-totter these days.

On one end is demand. It's strong. On the other is supply—which is quite limited. Very little choice farm land is offered for sale.

Occasional deals, upsetting the standoff, are at high figures for top producing land.

Could this situation explode into another land boom-and-bust similar to 1920 when farms sold for as high as \$700 an acre?

That is what economists are asking as they study such reports as these:

Bankers and brokers, according to an Associated Press survey, estimate land prices have increased from \$ to 20 per cent, much of the price jump coming in the months since the start of the Korean war.

One Iowa farm sold for \$555 an acre. Another went for \$478 and still another for \$400. A farm appraised at \$75 an acre five years ago sold recently for \$175 an acre.

A Mason City banker advised Iowa farmers.

"If you don't want to sell your farm, don't price your land at what you consider an unreasonable price just to get rid of the buyers. The speculators might buy."

In terms of dollars, real estate men report prices up in the last year from \$5 to \$30 an acre on poorer farms and up to \$50 an acre on good farms.

W. F. Wahrer, secretary of the North Central National Farm Loan Association which serves four north Iowa counties, says the average farm price is up to 60 to 70 per cent over five years ago.

In the 1920 land boom, 10 per cent of Iowa's farm land was sold during the year ending March 1, 1920. In one county alone 516 farm sales were recorded, twice as many as for any single year for the 19 previous years. The average sales price was \$289 an acre.

The grim harvest was reaped first with the break in the 20s and then with the general mortgage foreclosures in the 30s. In 1933, eight per cent of the state's farm land was owned by corporations. This mounted by 1939 to 12 per cent. Insurance companies held the greater part of this.

By 1946, most of this land was back in private hands. Farmers who were wiped out in the 30s, today own farms again and are in a good financial position.

Since 1940, the average per acre price of Iowa farm land has been steadily rising. In 1940 it was \$77, and as of Nov. 1, 1949 it was \$179.

136 Texans On Capitol Hill

There are 115 Texans on capitol hill, other than the lone state delegation of 21 representatives and two senators.

They're the congressional secretaries.

With the possible exception of Austin, there's probably no other spot in the world where you can get such a comprehensive and concentrated cross section of Texans.

In each Texas congressional office you'll find one or more employees hailing from the district represented by his boss.

It wouldn't be possible to pick out anybody that typifies rep. Omar Burleson's West Texas district more than his top secretary, John Hardesty of Abilene with his easy-going manner and soft wrawl.

In rep. Lloyd Benson's office you'll find two charming Latin-American señoritas from the Rio Grand Valley, Hermila Anzaldúa and Lolita De Los Rios. In charge is Mrs. Celia Hare Martin former-

ly on the staff of the McAllen Evening Monitor.

It is the congressional secretaries who must do the bulk of the work on capitol hill. It would be physically impossible for congressmen to contact the government departments on all of the problems they handle. Their secretaries must do much of this, as well as the work of sorting through the mail and writing letters for the boss to sign.

There is a wide range in pay for members of congressional to \$7,500 per year in the house. Some are in effect acting congressmen, handling the affairs of the legislator when he is away or tied up on other matters. Some, of course, simply do straight stenographic tasks. The top job on the senate staff pays \$10,000.

Here are the staffs of the Texans in congress at the end of January (changes occur from time to time throughout the year):

Senator Tob Connally—Mrs. A. S. E. Carr, Arthur C. Perry, Mrs. Marion Huff, Mrs. Grant Conway, Mrs. W. W. Naramore, Jr., Miss Sue Srygley, Mrs. H. K. Osgood, Mrs. Paul Gale, Charles Leslie, Lloyd Kath, Jack Hight, Miss Laura Ann Bick, Pat Holt, Harold Kennedy.

Senator Lyndon B. Johnson—Walter Jenkins, Warren Woodward, Mrs. Sarah Wade, Mrs. Dorothy Nichols, Miss Mary Rath-er, Mrs. Mary Long, William Jackson, Gene Lattimer, Glenn Stegall, John Wildenthal, Ed Cazares, Miss Frances Russess, Dave Goodman, Miss Pauline Grinstead, Leslie Sharp, Edgar Shelton, Miss Willie Day Taylor, Wallace Engle, Mabel Birchfield, Mrs. Marjorie youngblood.

Summer School to Be Held for Mothers of Deaf

According to Elam C. Caldwell, field worker for the State Department of Public Welfare, the Texas School for the Deaf, in cooperation with Hogg Foundation, the University of Texas, Texas State Department of Health, Texas Educational Agency and the State Department of Public Welfare, will hold a summer school from June 6 through June 15 for the mothers of pre-school deaf children.

Any mother who has a pre-school deaf child who has never attended school and who is a resident of the State of Texas will be eligible to attend this school. The mothers, with their children, will be provided room, board and laundry as guests of the Texas School for the Deaf during this ten-day period. Each mother with her child will have a separate room in one of the dormitories during the session.

To Aid in Child Care
The instruction and lectures will be primarily designed to aid each mother in the care of her child before the child is eligible to at-

tend school. No attempt will be made to train the mothers, but to help them understand the problems and treatment of a young deaf child entering school.

During the mothers' stay at school, people will be available to take care of the children. The mothers are in charge of the children. Attempts will be made to line up if the children attend school. Have any hearing present could be utilized in the treatment of speech and language.

To Report to Supervisor
Any worker knowing a mother of a pre-school deaf child who would be interested in attending this type of school should contact the Superintendent of the Texas School for the Deaf, 1100 Congress Avenue, Austin. Please send the child's name, parents' name, birth date and address of the family. If the family lives in a rural area, give directions for reaching the school, retired at the end of month.

Lloyd Benson Jr. (McAllen)—Celia Hare Martin, Hermila Anzaldúa Lolita De Los Rios.
Ken Regan (Midland)—Mrs. Marita Fanning, Miss Glenna Loughran, Mrs. Kate George, who headed Regan's staff and was a congressional secretary for 32

years, retired at the end of month. Hardesty, Mrs. Eddie Lee, Miss Kathryn Cummings, Miss Helen Wheatly, Walter Rogers (Pampa) Dodson, Mazie Blewsee, Caraw Florence Fletcher.

March 15 Is Deadline For Making Applications For Prior Approval

Farmers of Lamb County are again reminded that applications for prior approval for the following practices must be made by March 15, 1951 if they plan to earn payment for carrying out the practices.

The practices are: Chiseling or subsoiling at least 3 inches deep to break up hardpan or plowsoils. The practice of contour listing, contour chiseling or chiseling not on contour (regular chiseling will qualify under this practice) and the practice of deep plowing sandy cropland to prevent wind erosion at depths of 12 to 15 inches, 15 to 18 inches, and 18 inches or deeper.

These practices must be applied for by March 15th and reported as completed by April 15th if payment is to be earned this year.

Farmers who desire to plant grasses this year may make application for these after March 15, 1951, by furnishing a sales receipt.

Jury Trials Set For March Term

A county court jury has been summoned for Monday, March 5, and the regular district court jury has been summoned back for the following Monday.

Jury cases scheduled for trial in the county court included DWI, had check and assault charges, while those docketed in the district court for March 12 include such charges as forgery, thefts, and one DWI case based on a previous conviction on the same charge.

Judge Otha F. Dent will preside at the county court trials, with Judge E. A. Bills occupying the bench when the district court is convened.

Brownfield Cubs Honor Scorers

Joe Don Auburg, center, playing his first year on the "A" squad, led Brownfield Cub scorers this season with 232 points, according to figures released by Aubrey Culp, scorer.

Auburg, who will be back next year, finished the season 72 points ahead of Doyle Bradley, who in second place with 160 points.

Dale Cary, 152; Max Black, 148; Max Proffitt, 104; Paul Billings, 87; Donnie Boyd, 25; Charles Mayfield, 15; Glenn Paden, 9; Eugene Brumley, 2; Jackie Stockton, 2; Loma Jones, 2.

chance to go all the way in the district territory. The Eagles have won 34 out of 41 games played this year and Marlin Sasser, a six foot senior, has scored 539 points to lead the way. Right behind him is Fred Jones, who has pitched in 332 points.

From the Panhandle comes another threat in Adrian, which has won 20 of 33 games.

The South Plains counters with Meadow's Bronchos, who have captured 20 victories in 24 starts. Two of those defeats were at the hands of Class A quintets.

HERO of the Month

From pre-war painter to post-war court reporter!

That's how World War II affected the career of John Victor Brower of Las Vegas, Nevada, foreman of a paint crew prior to enlistment in the Infantry in 1944, and today, minus one leg, court reporter for the Eighth Judicial District Court.

Brower

Physical fitness is a pre-requisite for a painter who climbs around on high scaffolds and other hazardous spots. So John Brower, with the aid of friends and his own courage, began a new career for which he acquired new skills.

This ability to overcome a serious handicap caused by wartime service and to become a self-sustaining citizen has earned for Brower selection by the Disabled American Veterans as "Hero of the Month."

His selection is part of a national program to honor each month a seriously disabled veteran who has successfully rehabilitated himself.

The experience of Brower and thousands of other disabled veterans, according to Boniface R. Malle, national DAV commander, emphasizes the importance of safeguarding the rehabilitation program for disabled veterans and not letting false economy moves wreck the program.

a land mine which blew off one of his legs below the knee. It was three hours before medical aid arrived.

They shipped him from one hospital to another during convalescence and he finally wound up at Bushnell General Hospital in Brigham City, Utah, from where he was discharged January 24, 1946.

In Las Vegas he met such notables as Judge Frank McNamee and Judge A. S. Henderson of the district court, who became interested in Brower's economic and rehabilitation problem.

As Brower states it in his own words: "Without the help of these men, and other good friends, including Jack Walsh, manager of Hotel Flamingo, I would not have had the intestinal fortitude to go into such a subject as shorthand and typing and all the hard work and study which was necessary to assure that I could do a proficient job."

He enrolled in the College of Commerce at Long Beach, Cal., to learn his new profession and then returned to Las Vegas for on-the-job training under Margaret Hinson, head of the Court reporter staff.

Today he is considered thoroughly proficient in his work. He has a new artificial limb too which he manipulates so well that his gait is just as natural as it ever was.

Brower is married and has a family of three children with two boys ages 14 and 10 and a girl age 4. In addition to his new job, the war also brought him decorations including the Combat Infantry Badge, a bronze campaign star, the Victory Ribbon, Purple Heart, European-African and American Theater ribbons. He is a member of DAV Chapter No. 11 in Las Vegas.
