Street Markers To Be Revamped By City Workers

The Street Department is in the process of resetting, repainting and restenciling the street markers all over Littlefield. The process began nearly two weeks ago and will probably take some time to finish because no additional labor is being hired for the job. Employees of the department are doing this job in addition to their regular work.

After the markers have all been straightened and painted white, the street names will be stenciled on in black.

The project was undertaken because many of the street markers had become completely illegible, making it difficult for strangers to find their way about the town.

SUDJARIVO TJONDRONEGORO

Sudan, Texas, September 23 — Twelve to eighteen thousand people are expected to gather in this little West Texas town this weekend to promote peace, goodwill and the brotherhood of man.

Sudan's annual Fall Festival which opens Friday promises to out shine any of the town's past celebrations.

This year the United Nations and the U. S. State Department are sending representatives to participate in the celebration.

Four Year City Audit Completed; New Highs Set for Income, Expense

The first audit of city finances, which has been made in the past four years was completed this week by Alvin C. Webb, after several months of sifting city records. The audits show that the city's financial condition has improved during this period.

Copy of the audit for the fiscal year ending March 31, 1950 was not available Thursday morning, but figures taken from the audits for the three years since then show that the city's assets have increased during this period by \$57,867 to \$1,781,538, \$1,507,352 of this is in capital investments, such as the water system, city buildings, etc., which are being depreciated over a period of 50 years.

At the same time the city's liabilities have decreased, so that its net worth has increased in two years by \$68,000 to \$474,059. Its bonded indebtedness has decreased as of March 31 to \$389,000, as compared to \$435,913 at the end of March, 1951.

Revenues Up
Total city revenues jumped nearly 50 percent last year over the year ended March, 1951. The increase of \$139,128 was due to \$19,000 more ad valorem tax collections, \$17,000 more water profits, \$11,000 more in police fines and parking meter revenue and \$1300 more in utility franchise taxes.

Although ad valorem tax receipts almost doubled to \$43,330 in two years, and water profits rose from \$24,259 to \$41,298, a still more spectacular rise took place in police court fines. The audit for March, 1951 shows them totalling \$4711 for the previous 12 months. By March, 1952 they had moved up to \$5469 and by March of this year had skyrocketed to \$16,264. This is exclusive of parking fines, which are up only \$350 at \$1578. Collections from the meters themselves have re-

Kat's Korner

Hi, Kids! How did you like the football game last Friday at Hereford? If you ask me, the boys did a swell job. If you didn't know it, we beat Hereford by the score of 26-7. All of the pep squad and the band were there to cheer the boys on. A lot of hoarse voices were a result of the game, but I don't think anyone was sorry for yelling, and was that snake dance really "George!"

Thursday the fair parade was really a success for the school organizations. The band was awarded first prize. The F. H. A. float got 2nd prize, worth \$35 and the pep squad received 3rd prize on their float. They received \$20.

The basketball girls are having inter-squad scrimmages, and I hear that they are doing pretty good. Keep working, gals, and maybe we'll have a championship team!

After the pep rally Thursday I wasn't sure about my ear drums at all. Something went out of whack during the pep rally and I guess it was because of the loud, screaming, yelling, cow bell ringing, boisterous noise. I don't think I ever heard so much noise in one place in my life! After the pep rally a new mascot for the pep squad was elected and Linda Webb got the honor. Talk about a real cuts kid!

The rumor goes that a lot of kids in school are wanting a baseball team this year. Personally, I'm in favor of it. If we can ever get it through the red tape that it takes to get one, I think it would be a wonderful thing for LHS. If anyone has any arguments against or for the team, I would like to hear your comments.

If you see someone in the role of drum major this Friday that looks

Family Night To Be Held By Sheriff's Posse

Announcement was made Tuesday by Lon Campbell, secretary-treasurer of the Sheriff's Posse, that the organization will meet Monday night at 8 o'clock at the American Legion Hut for "Family Night." Mr. Campbell urged all members to be present.

Oh Friday of this week the Posse will take part in the Portales, N. M., annual Fair and Rodeo. Horses will be loaded at 8:30 a. m. Friday morning at the rodeo grounds.

On Saturday, the organization will go to Sudan, where they will take an active part in the Fall Festival parade.

Springlake Wins Again, Over Idalou

Coach Colle Huffman's Springlake Wolverines measured the Idalou Wildcats 26-7 at Springlake Friday night for their second win in as many starts this young grid season.

L. R. Taylor, Wildcat back from Idalou, tabbed an ice-breaking TD in the second quarter. He went five yards off tackle for the mark. End Jimmy Joiner took a pass for the extra point that put Idalou 7-0 in front.

The embattled Wolverines, playing at home, came back strongly with two second quarter touchdowns. Back Kenny Watson got the first one on a 30-yard pass play. Point was missed and Idalou still held a 7-6 edge.

However, Springlake chalked another second quarter tally when Fullback Wayne Davis intercepted a pass and ambled 30 yards for the important TD that sent the Wolverines out front to stay. Davis ran over the extra point.

The winning Wolverines notched two fourth quarter insurance touches. Watson plunged two yards for one and the extra point was missed. Jimmy Atteaway, Springlake quarterback, gouged three yards for the final TD of the night. Davis ran the point.

Watson turned in a good double-duty job on offense and defense for Springlake, Franklin Starkey, tackle, and Bobby Green, guard, joined him in defensive service.

Taylor was the offense standout for Idalou with Joiner and Donathan sparking the defense.

Springlake operates in District 2-A and Idalou in 3-A. The Wolverines now hold two important wins. They dumped Hale Center last week, 7-6. Idalou bounced Whitarral handily last week and now owns a 1-1 win and lose record.

SPADE-ING UP NEWS
Hi, I'm here again, and this time I will welcome some new students. The freshmen welcome Gene Loman, the sophomores welcome Wayne Loman, and the juniors welcome Wayne Bales.

Roy and Troy Young had a birthday the 15th. I hope you had a happy birthday and no one spanked too hard.

A contest for the most beautiful

girl and most handsome boy is being sponsored by the seniors. All ballots were to be handed in by Thursday and the run-off will be next week.

Either the freshmen boys are babies or the older ag. boys sure poured it on in their initiation. The boys let out some very loud yells.

I understand that they had to sit on ice to say the creed. Was it comfortable, boys?

The seniors will be selling "beat tags" for each football game. Buy them and the class will surely appreciate it. The boys will feel more like we're rooting for them.

I imagine the old gin office heard more noise the 11th than ever before. Maudean and Meredith Tinsley had a slumber party in it. Those present were Lavonne and Katherine Snow, Ann Adams, Tam Pointer, Mary Shaw, Gloria Gray, Gloria Sealey, Lyn Bryant and Willie Griffin, who all reported a good time, but they were sure sleepy.

The high school basketball girls were very disappointed when Mr. Lumsden told them that Lazbuddie had called off their game for Tuesday night, but there is always a good side to everything. Spring-lake will play at Spade Tuesday night. Everyone is welcome.

Mr. Dykes gave the girls their test to see who would get the new basketball suits, a few of them were scared. The girls who received them are Lavonne Snow, Mary Shaw, Willie Griffin, Christine and Colleen Bundick, Maudean Tinsley, Tam Pointer, Margaret King, Lyn Bryant, Kay Hoelscher, Ann Adams, and Pat Pointer. Congratulations, girls. Let's give those suits good use this year by winning all our games!

The first year F. H. A. girls found a new way to get in the Home Ec. building. Monday and Wednesday Mrs. Grigsby didn't have the door unlocked, so the girls (very lady-like) crawled in window.

I'd like to know who pushed me down the dressing room stairs Wednesday. Don't worry though, it didn't hurt.

Helen Dubec likes to smell medicine. She smelled some the other day and liked it so well that she put some on her nose. How was it, Helen?

Did anyone attend the Southland and Cotton Center football game at Spade Thursday night?

Spade was well represented at the County Fair. The Ag. boys won 4th place on their booth. Good work, boys!

Whitharral Panthers Drop Game, Losing To Ropesville By Touchdown

Southland Whips Cotton Center In 6-Man Contest

Cotton Center's baptism in football was an unpleasant one as Southland won a District 2-B six-man opener, 45-12, at Spade Thursday.

Charles Basinger scored four of the winners' markers with long runs over 40 yards.

H. C. Poage scored the first Cotton Center marker with a 15-yard spurt and Danny Terry got the other with a 30-yard end run.

Our boys really worked hard Friday night. Even though they didn't win we are proud of them. The scores were 48-26.

Wha was it that Wanda Bryant walked off the football field? Would you students like to help make this column larger? If so, tell me what you see and hear. Betty.

Whitharral's Panthers much better second game Ropesville last Friday though they lost 44-0. The part of the Panthers the Mulse, left end, played standing game.

Melvin Christopher of the Ropesville Eagles, only touchdown, but was trying for the extra point.

Coach Eugene Carter harral will put his team reference play against the row at Bovina, and one of the best passing the district in Bobby Gage, Leslie Hulse, Joe and Claude Horton.

Wildcats Claw Whitefaces 26-7 in First Game

The young Wildcats got into the Hereford for their opening game on last Friday night, winning at Hereford, 26-7. The play by Tom Shelby, a personal total of 167 yards out of the 287 made and beautiful passing yards for 191 yards gain, a debut of Coach Jay experienced team.

Hereford's receiver and raced to the Hereford one-yard line, from which Shelby drove over for the second touchdown, 13-0.

Half-time Band Show
At the half, the Littlefield band put on an excellent marching and playing display, saluting Hereford on the field. Half-time commentary over station KVOW was by Rev. Henry Haupt, pastor of the First Presbyterian Church in Littlefield.

Hereford returned to the 37-line after the third-quarter kick, but couldn't drive further against the Wildcat wall. When Littlefield gained possession, Howard's pass to Shelby gained ground, and another Howard-to-Shelby throw put the pigskin on the Hereford 4-yard line.

Attempting to complete a pass in the end zone for a touchdown, Howard's throw was intercepted by Dewayne Wallace of the Whitefaces, who made the most spectacular run of the game, 105 yards from his own end zone for Here-

Amherst Passing Is No Match For Hale Center Owls Advance

Amherst's Bulldogs were no match for the steady advance of Hale Center's Owls last Friday night at Amherst. Coaches all over District 3-A are betting their dollars on James Dollar, who led the Owls to victory with three personally-conducted touchdowns, winning 50-13.

Women Wrestlers Will Grapple In Championship Match Saturday

Mildred Burke, unparalleled champion of women wrestlers, comes to Littlefield's Sports Arena Saturday night to stand off a challenge by one of the best of the "younger set," Carol Carota of Cincinnati.

The match, for the world's women's championship, headlines a double main event which marks the return of the Mad Russian, Ivan Kalmikoff. The bearded, barefoot Russian meets a newcomer from the West Coast, Bill Fletcher, in the first section of the double feature.

Each contest is for two out of three falls or to a one-hour limit. Fletcher, who claims Boise, Idaho, as his home, recently teamed with Glen Detton of Washington to win the Northwest tag team title. He is a veteran wrestler, specializing in strong-arm stuff, and is not about to continue being a "gentleman" when the opposition wants to get rough. Kalmikoff, who has been working in Canada most of the summer, definitely is not on the "sissy" side.

Unique in athletic annals is Mildred the Magnificent Burk. Still under 40, she has held the accepted world's championship among women since first winning it in 1937, and has never tasted defeat. She is believed to be the only athlete to hold a title continuously over so long a period of time. She has engaged in approximately 5,000 matches without losing one.

Nearest thing to a "knockout" for Mildred came in 1951 when she figured in a near fatal automobile accident. But she recovered from six broken ribs and other injuries

to wrestle again in less than six months.

Handsome young Carol Carota, one of the leading women athletes, is ambitious for the title, but she is not fooling herself into thinking she or anybody else can beat La Burke just now. She can, however, give the champion a good battle—and it is due to be a lively, rough contest.

In Milwaukee Stadium, home of the Braves, the distance from home plate to the right field corner and to the left field corner is the same—320.

Anton Mustangs Beat Sudan

Joe Turner of Olton, who is big enough to say that it will be rough this year, took back his comment after his wild Mustangs trampled Sudan 35-7 last Friday night. Coach was lamenting his ground power last week. The Mustangs beat Abernathy with a strong air offensive. Complaint was shaken Friday, when Olton racked up 437 against Sudan, with terrific R. V. Alcorn, halfbacks Bryant and Bobbie Straw, quarterback Archie Souter dominating.

Bula Bulldogs Should Bid Strong For District Title In 6-Man Play

By M. J. McDaniel, Journalism Instructor, Bula High School
Making a good showing in their initial bid on their home field, Bula's six-man football team will give strong competition in District 2 this season. Starting the season with the loss of four seniors, three of whom were all-district men, the Bulldogs outclassed the Flomot Longhorns 26-0 in a non-conference game Sept. 11.

When practice began Sept. 1, 23 hustling boys reported to Coach Claude Morrison for suits. During the first two weeks of scrimmage there was plenty of competition for positions. The only setback was a broken leg suffered by promising end, Bobby Pool. All-district candidate Richard Skinner was running true to form.

Reporting for practice were 7 seniors, 3 juniors, 7 sophomores and 6 freshmen. Of this group 10 were returning lettermen and 7 were returning squadmen. The team is well balanced, being two and three deep in all positions. Some of those who showed considerable improvement over last year and who are expected to play a lot of ball this year are Curtis Snitker, Jimmy Bellar, Walter Cunningham, and Quinton Nichols. Coach Morrison uses the T-formation line for deceptiveness and speed line for deceptiveness and power. Operating from the quarterback slot will be Jimmy Gage,

senior, who steered the Dogs to touchdowns during the first half of the Flomot game, and Gerald Neel, sophomore, who guided them to two touchdowns in the second half. This year the squad is out to improve last year's won-lost record of 4-2. The Bulldogs came out third in District 2 competition. Bula has 8 district games remaining.

Bula Wins Over New Home, 39-13

Bula's Bulldogs got their teeth on New Home Friday night, winning the 6-man play 39-13 in the game played on Bula's field. This was Bula's first conference game. Richard Skinner, who is expected to be an all-district candidate, carried the ball 15 yards to a touchdown, his only time in the game.

Anton Homecoming Guests See Bulldogs Beat Cooper Pirates

The Anton Bulldogs sneaked past the Cooper Pirates Friday night, 13-12, at Lion Field to give their Homecoming fans a victory in a ball game that saw the lead change hands each time a touchdown was scored.

The game was a duel between quarterback Donny Skipworth of Cooper, who passed for the two tallies, and Kenneth Hice, Anton fullback, who carried the ball for both Bulldog touchdowns. Skipworth passed to Halfback Roy Heinrich, who carried the ball for 55 yards and the initial Cooper tally in the first quarter. Soon after the start of the second quarter, Hice carried the ball off tackle for 29 yards and six points for the Bulldogs. Hice also ran the extra point.

er had the ball inside the Anton 10-yard line but fumbled each time. Each team netted 11 first downs, but the losing Cooper team amassed 235 net yards rushing and passing, while the Bulldogs had only 174 net yards. Cooper scored its final tally in the second quarter when Skipworth ran around left end for 70 yards to set up the touchdown, and then passed to Heinrich for the needed 19 yards. Early in the fourth quarter Anton's Hice ran 50 yards in a series of downs and carried the ball across on a 20 yard touchdown run.

One of the shortest boxing bouts on record occurred on May 12, 1940 when Willard Dean knocked out Claude Allen in 11 seconds at Corpus Christi, Texas.

Kennemer Weds Bob Westbrook

Kennemer became Mrs. Bob Earl Westbrook when she was married Sunday, September 21, at the Littlefield Missionary Church.

She is the daughter of V. R. Kennemer, Sr., and Mrs. Westbrook. Her parents are Mrs. Irene M. N. M., and Earl Westbrook.

Meers, soloist, sang "I Love You" written by Mrs. Westbrook who played the traditional march and recessional.

B. Meers, pastor, officiated at the service. The bride wore a ballerina gown with a white tulle skirt and tiny cuffed sleeves. She wore white opera gloves and a white tulle veil of fingertip length with a net of ruffles. Her hair was styled with graceful satins and the white Bible was carried.

Kennemer, who is a graduate of the Littlefield High School, was honored for her sister's service in the army. Her wedding dress was made of white tulle and white accessories.

Kennemer, brother of Earl Westbrook, is a member of the Littlefield Baptist Church.

Her mother, the late Mrs. V. R. Kennemer, died in 1948. She was a member of the Littlefield Baptist Church.

MR. AND MRS. BOB WESTBROOK

The wedding bell topped the cake. White candles in crystal holders were used on the table, with punch bowl and appointments of crystal. Mrs. Paul Throckmorton served, assisted by Miss Joy Walker.

The bride changed for a short wedding trip to Lubbock to a blue orlon suit with navy accessories, and wore a tiny shell hat of matching color.

Mrs. Westbrook was graduated from the Merritt, Okla., high school in 1950, where she was a member

of the basketball team. She has been employed by the General Telephone Co. in Littlefield for the past 20 months.

Mr. Westbrook, who is assistant manager of the C. R. Anthony store in Littlefield, completed his education at Spade High School in 1951, after serving four years in the navy. He lettered in football at Spade two years, and was voted "All-Around Boy" his senior year. The couple is at home at 800 East 5th in Littlefield.

Norma Kay Moss Wed to John G. Terry, Jr.

White candles on the end pews of the Littlefield Drive Church of Christ shed soft light as Miss Norma Kay Moss exchanged marriage vows with John Guy Terry, Jr., on Saturday evening. The bride's parents are Mr. and Mrs. Troy O. Moss, and Mr. Terry is the son of Mr. J. G. Terry, Sr., and the late Mrs. Terry.

Before a background of candleabra interspersed with baskets of white gladiol and greenery, Harrell A. Collard, minister of the Church of Christ, read the double ring ceremony.

Proceeding the ceremony, candles were lit by Misses Janet and Glenda Simpkins, cousins of the bride, as a Littlefield Drive Church of Christ choral group sang "The Lord's Prayer," "Because," and "At Dawning." The choir sang the traditional wedding march as the bride entered on the arm of her father, who gave her in marriage.

Bride Wears Dawn Pink

The bride's extremely lovely dawn pink hand-made gown featured a deep pointed bodice with scooped neckline, fashioned of lace over satin, with tiny rhinestones winking in the center of each lace flowerlet. A tiny ruffle of plaited tulle banded the neckline, and the sleeves were of unusual design, with lace over satin fitted over the upper arm, with fan-pleated fullness of tulle floating to wrist length.

The skirt of the bridal gown was made with a layer of satin covered with one layer of net, and two layers of tulle on the outside, falling to a short train. A panel of lace and rhinestone extended down from the deep point of the bodice.

For the wedding veil, pink tulle fell to fingertip length from a tiara of pearls and rhinestones.

An arrangement of dainty lavender flowers in tulle, centered with a purple orchid, covered the white Bible which the bride carried, trailing orchid streamers.

The maid of honor, Miss Bobbie Reed, wore a gown of deep orchid, fashioned with tulle and lace in the bodice, sparkling with rhinestones in the lace flowers, and a plaited tulle ruffle around the scooped neckline. Her skirt was of layers of tulle over taffeta.

Bridesmaids Carry Nosegays

The bridesmaids, Misses Nancy Morrow, Mary Jo Porcher, Bobbie Jo McShan, and Erna Jane Jones, wore matching strapless gowns with layers of tulle draped across the bustline, covered with lace and rhinestones. Stoles were draped over their shoulders, and the skirts of tulle had hip panels of lace sparkling with rhinestones.

Reception in Church

remained almost constant in the vicinity of \$16,000 per year.

Such items as occupation taxes, animal licenses and television aerial permits, raise only negligible revenue—amount to \$100 or \$200 per year each.

Expenditures Up Too

In most departments expenditures are up for the same period. Exceptions are "administration" and "public service." Administrative costs at \$25,846 are down a few hundred from two years ago. Public service, which includes such items as the park, the youth center and the library, is down from \$4023 to \$3230.

The Police Department has gotten the biggest increase in money to spend. It spent \$6500 more in the fiscal year ending March '52 than it had in the previous 12 months, and its costs increased another \$2500 last year to \$26,216.

The Street Department, which spends the biggest slice of the city's dollar, is up \$7000 for the two years to \$39,670.

The Fire Department spent \$8861 last year as compared with \$5945 for each of the previous two years.

The Health Department's expenditures nearly doubled between the '51 and '52 audits but dropped \$750 last year to \$5224.

Retirement Fund contributions appeared in only the last two audits—amounted to a little over \$1700 each year.

nation. In the various Indian nations the U. S. government attempted to enforce rigid prohibition.

Just across the river was the famed Corner Saloon. A few yards from their back door was a rum-runners' trail. Dad seemed to be gone quite a lot at that time, and Mom was alone with two babies in the wilderness. Normally a courageous person, Mom says she was virtually scared to death the entire two years they lived there.

Dad was an adventurous soul who made two of the famous land runs into Oklahoma and apparently loved the excitement of it all. Until his death a few years ago he never left the state except for short visits.

We saw our first Texas sand storm Friday night.

Sam took the girls to Hereford to the game and I took care of the Leader booth at the County Fair.

I had just gotten settled down for the night in the fair booth when Mancill Hall called me to the north door of the building and said, "Come see what a West Texas rain storm looks like."

Had it not been for the rosy glow to that dark cloud in the north, I would have thought it was a thunder shower enroute. A few minutes later the sand reached the fair grounds, which called a halt to all activity. Some of the men bolted the double doors on the north. Deverell Lewis turned on an exhaust fan in the Western Auto booth to try to pull out the fog of dust that the first gust of wind had brought in.

They tell us this is only a sample of what to expect next spring when the same sort of thing hangs on for days.

Below is a letter we received yesterday morning from Mrs. W. B. Little, who is accompanying her Austrian guest, Frau Renee von Bronneck, on a speaking tour in the Panhandle area.

Just a few lines to keep you in touch with our vivacious visitor from Vienna . . . Renee.

She spoke Monday in Canadian. A very nice crowd heard her and were very pleased indeed. The ladies of Canadian had tea in the afternoon for us. Somehow I manage to get in on these things even though I am the chauffeur. It is a lot of fun to be a chauffeur for such a distinguished person.

From there we went to Pampa for a morning coffee. This was a lovely party at hte country club. The table was beautiful with porcelain figurines of Vienna waiters in lace dresses.

Renee visited the 6666 ranch near Borger, a thrill for her. We drove to Dumas Thursday and she spoke to the club there in the afternoon. Friday she spoke at Hartley.

We drove to the 6666 Sunday and spent the night there. Renee knows now what a sand storm is. We really had a good one today. She had now seen a whirlwind and mirages. She could hardly believe her eyes when she saw a big lake . . . and then found there was no lake there.

We are meeting so many nice people in the Panhandle of Texas. This has been a busy week but a joyful one. So long for now, Ruth Little.

Auction to Be Held

Several bales of cotton will be auctioned off Saturday afternoon by Roarin' Jack Rowland, Littlefield, with proceeds to go to UNICEF, a United Nations relief organization.

A special children's program featuring a well-known musician is also scheduled for Saturday afternoon. Band concerts will be presented by the Texas Tech and Dunbar bands later in the afternoon.

Joe Salem, Sudan businessman and chairman of the Festival committee, returned last week from Milwaukee, where he was a special delegate representing the Festival at a meeting of the United Nations committee, the UNESCO. Mr. Salem attended the meeting held on the campus of the University of Wisconsin at the invitation of the State Department.

BEEF BENEFITS YOUR BUDGET

By CECILY BROWNSTONE

Associated Press Food Editor
Lean beef is the order of the day. Range cattle are coming to market, and thrifty housewives can take advantage of the lean cuts that are more reasonably priced than fat-marbled steaks and roasts.

No one will mind eating lean beef if it's prepared, as in the recipe below, with a delicious sauce and small white onions. When our taste-testers sampled this dish, two of them said it was delightfully like sauerbraten in flavor.

What to serve with this Braised Beef and White Onions? Mashed potatoes are a good choice; so are green peppers cut into eighths and cooked in boiling water until they are tender-crisp. (A pound of the peppers will give ample portions for four.) Or instead of the peppers, serve snap beans cooked whole and doused with melted butter or margarine, salt and plenty of freshly ground pepper.

Chances are that with lean beef plentiful, you'll be serving lots of hamburgers. But please don't keep offering them the same old way. Give your family a surprise be inventive. We'll start you off by suggesting that you divide a pound of chopped beef into four portions; make each portion into a ball; now poke your good strong forefinger down into the center of each. Put finely chopped onion mixed with a little chili sauce, crumbled crisply-cooked bacon, Roquefort cheese or what have you down into these holes; mold the meat over the filling into pleas-

Lubbock Fair Boosters To Stop Here Today

Littlefield will be host to a group of Lubbock business men on Thursday, Sept. 24, when they are scheduled to arrive here at 9:10 a. m. in a chartered bus to publicize the 36th annual Panhandle South Plains Fair, according to Jesse L. Everett, Jr., manager of the Littlefield Chamber of Commerce.

Everett has been working with the Good Neighbor Committee of the Lubbock Chamber of Commerce in arranging for the boosters' 35-minute stop here.

Arrangements are pending with Haldis Pearce, superintendent of Littlefield public schools, to dismiss pupils so they can enjoy the special program the group will present.

On hand to provide entertainment will be a six-piece orchestra from Reese Air Force Base. A special sound truck will be used so that everyone on hand will be able to hear the entire program. A special feature of the visit will be the appearance of E. Y. ("Impossible") Gibbs, widely known South Plains magician, who will perform during the group's stay.

According to present schedules, four one-day tours of the South Plains have been arranged, Thursday, Sept. 24, the stops are scheduled for Shallowater, Anton, Littlefield, Amherst, Sudan, Muleshoe, Farwell, Clovis and Portales.

"We are hoping these special one-day bus tours will acquaint all the South Plains and western New Mexico people with the new features we are planning for this year's Panhandle South Plains Fair, which opens in Lubbock Sept. 25 for a six-day run," Charles L. Adams, Jr., fair association president, said.

Band Will March in Lubbock Parade

The Littlefield High School band with 90 pieces, directed by Beryl Harris, will march in the parade at Lubbock to open the Panhandle-South Plains Fair Monday.

Capt. George Attridge, supervisor of bands for the Air Training Command, Scott Air Force Base, Ill., has been secured as judge for the first annual band contest of the Panhandle-South Plains Fair, officials announced Thursday.

Judging stand for the band contest will be located on the balcony of Hotel Lubbock.

Bands in the contest here will compete in four qualifications of the Interscholastic League's designation.

Bands have been entered by high schools of Levelland, Abertamy, Sundown, Whiteface, Olton, Halls and Morton, and the two new entries, Sudan and Littlefield.

High schools of the South Plains are urged to enter their bands in the contest. Winners in each of the four classifications will appear on Lubbock radio and television programs and the two top winners in each group will receive trophies.

Caravan of 300 Attend Soil Tour

The Soil Conservation Tour recently sponsored by the Blackwater Valley Soil Conservation District, Muleshoe State Bank, and Muleshoe Chamber of Commerce proved to be one of the highlights of this year's agriculture activities.

In the morning a caravan of approximately 50 cars toured the West Camp area stopping at ten farms. Commentaries by J. K. Adams, County Agent, Ben Chapman, work unit conservationist, and each farmer provided a very interesting and educational program. Discussions on conservation practices extended from sheep and cattle on irrigated pastures to New Era Cowpeas in combine maize, castor beans, cotton with commercial fertilizer and a very interesting commentary on sesame by James Wedel.

Following the tour, a barbecue was served to about 300 guests by Muleshoe Rotary Club at Verney Townes farm.

Following this barbecue "Cotton John" Smith of KGNC, Amarillo, introduced officials and guests of the organizations participating in the program. The climax of this program was reached when Paul Walster, state conservationist spoke to the assembly on soil conservation. Mr. Walster stated that "it is only a short way from farm to town and that the economy of not only the state of Texas but the entire nation is based on permanent agriculture which is in turn based on soil conservation practices, and that it is not only the task of the farmer, but it is OUR job "to keep good land good."

Parkview Baptist Church Sends Annual Letter To Association

The Parkview Baptist Church sent their annual letter of reports to the West Plains Baptist Association which met at the First Baptist Church in Littlefield last Friday.

The Parkview letter includes reports from the Sunday School, the Training Union, the Woman's Missionary Union, the Brotherhood, the Church Treasurer and the Church Clerk.

Some of the highlights in the reports include the new members 143 in number with a net increase of membership, 116. The Church Clerk, Mrs. Bernice Reeves, read the letter and called attention to the fact that there were 69 baptisms, an increase of 36 over the previous year.

The letter reported an increase of total receipts in to the treasury during the Associational year of \$6,387.93 over the previous year. This made a grand total of \$13,628.93 for the last Associational year at Parkview. Out of this amount \$1558.54 was given to missions.

The Sunday School report showed an increase in enrollment from 210 to 231 with an average attendance of 125 over 101 the year before. There were two new classes begun in the Sunday School.

The Training Union gave an increase in enrollment from 114 to 137. The average attendance there was 68 for this Associational year, also 60 the year before.

The W. M. U. reports 51 meetings for the year with a total of 5 organizations and an enrollment of 51. The Brotherhood reported 10 meetings with 39 members and \$100 given through their Community Mission Fund.

The clerk called attention to the fact that in 1950 the church had less than 100 members. In 1951 at the end of the Associational year 178, at the end of 1952 216 members and at the end of this year the Parkview church has 320 members.

The church letter was approved unanimously and the church clerk, Mrs. Reeves, and the moderator, the pastor, signed the letter for delivery to the Association last Friday.

Gin Office Serves As Community Center

The new office building recently completed by the Watkins Gin of Sudan is designed to double as a community building.

One room of the new frame and stucco building is arranged to serve as a meeting place for various organizations in the town. According to Drew Watkins, owner of the gin, the Farm Bureau is holding its meetings there and the various study clubs have been invited to meet there also.

New 45-foot scales have been installed in preparation for a big year, Mr. Watkins said.

Band Parents Have Fair Booth

The Band Parents Club sponsored a booth at the oCounty Fair this week and at the meeting held last Monday night in the high school auditorium Mrs. V. E. Roberts, Mrs. Boyd Montgomery, Mrs. R. M. Club meetings will be held the second Thursday of each month at 7:30 p. m. in the high school auditorium, and Mr. Harris will be in charge of the program.

Mr. Jones appointed the following committees for the year: Food, Norman Renfro, E. J. Foust, Boyd Roberts; Property, Roy Wade, Lynn Reams, Earl Rodgers; Building, W. C. Cannon, Carl Morrow, Loyd Crosby, W. O. Hampton and Ray Hulse.

South Plains Music Group Votes Girlstown Fund-Raising Concert

A special benefit concert featuring the Girlstown Choir from Whiteface and Mitchell Zablomy, concertmaster of the violin section of the Lubbock Symphony Orchestra, has been added to the South Plains Musical Association concert season.

Members of the board of directors of the association voted the addition, which will be held a week before Christmas in Levelland, sponsored jointly with the association by the Levelland Junior Chamber of Commerce to raise money for the Girlstown lunch fund. Tickets will be \$1 each.

Howard Vaughn, president of the association, has been forced to resign because of ill health, and Mrs. W. R. Simon, vice-president in charge of finance, acted as chairman for the meeting held September 6. Dr. Leslie Boone was elected to the post of president by acclamation, replacing Mr. Vaughn.

In accepting his election, Dr. Boone remarked "It is my conviction that this section of West Texas will support and sincerely appreciate the efforts of all those who make possible the South Plains Musical Association."

Herbert Colvin, talented young pianist, will be the soloist at the first concert on October 6, to be held at 8 o'clock in the senior high school auditorium in Levelland. Victor King is conductor of the South Plains Symphonette, and

Larger Terry Gin Opens at Sudan

An extensive expansion of the Terry gin at Sudan is nearing completion, according to Tom Wright, one of the owners and managers of the firm. Upon completion of the new installations the capacity of the new gin will reach 150 bales every 24 hours, which is double its present capacity, Mr. Wright said. The gin, which has been closed for several weeks due to the remodeling program, was scheduled to open about September 23. Some two dozen employees will handle the ginning this year, which the owners expect to hit 6000 bales. Owners of the company are W. V. Terry and Tom Wright. The late W. W. Terry, father of one of the present owners founded the business. Mr. Terry and Mr. Wright bought the business last year.

POLICE PLAN 3-D COLOR OMAHA (AP)—Omaha police, who have already begun using color pictures for identification purposes, are now looking forward to adding a three-dimensional depth system as soon as funds are available. Local officers think the 3-D system may be the first in the nation. The idea of both color and 3-D is to provide more lifelike pictures, when projected on screen, for identification purposes.

Texas Air Tour Will Stop Here For Polio Drive

The 1954 March of Dimes will fly into town when the 5th Annual All Texas Air Tour stops here on October 14, en route from Plainview to Hobbs and Carlsbad, N. M. The Air Tour plans 37 stops in their week-long 3,000 mile flight, October 10 to 17. Plans have been made for the Tour participants to distribute March of Dimes leaflets and lapel tags and every plane will carry a March of Dimes decal, with speakers at all stops. Asa Burroughs, manager of the tour, says the pilots, who have used their private planes to transport victims of polio to hospitals, carried iron lungs, nurses and doctors, are doing this as a public service since the polio incidence has been so high this year. There will be no fund raising at this time, since the March of Dimes drive will be made in January, 1954. This year's tour is also celebrating the 50th anniversary of powered flight. The tour is sponsored by the Texas State Aviation Association, Texas Private Flyers Association, Texas Flying Farmers, Texas Ninety-Nines, Texas Wing, Civil Air Patrol with the Texas Aeronautics Commission acting as co-ordinating agency.

Paul Cites Onesimus As Example That Christ Holds Door Open to All

In a discussion of next week's national Sunday school lesson by the Rev. W. C. Taylor, pastor of the Baptist Church and the Littlefield Ministry. Each month an article will be asked to be in the column.)

W. C. TAYLOR, Pastor
Baptist Church

TEXT: "There is neither Greek, there is neither Jew, nor ye are all one in Christ."
TRUTH: The practical Christian Gospel leads to the solutions of our racial problems.

It is no longer an issue in our day, but attitudes toward race are still very different. For instance, some Bible scholars hold that the Christian is not democratic. Christian, while others believe that God intended to be publicly segregated, the cost of shameful discrimination and injustices. Many southern ministers believe that integration is not basically against the scriptures or social customs are involved.

Onesimus was a runaway slave, undoubtedly converted to Christ in Rome. Undependable, he had run away from his master, Philemon, a prominent and wealthy member of the church at Colosse. When Paul was sending a letter to that church he decided that Onesimus should accompany the messenger, Tychicus and return to his master. Paul wrote this remarkable letter. Philemon, to the master. The principles of its teachings can be applied in the problems of human

relations today as in the first century. Rather than brandishing authority, as an apostle, Paul used PERSUASIVE LOVE in seeking the right relationship between Philemon and Onesimus.

The next principle was RECONCILIATION. True love must ensue in restitution. Onesimus must return, and Philemon's duty as a Christian was to receive his fugitive slave with forgiving love as a BROTHER. Paul made no revolutionary attack upon slavery. However, the principle of BROTHERLY LOVE has more influence in a permanent way than any violent insurrection. Brotherly love undermines slavery and discriminatory practices. Brotherly love destroys any relationship that violates the dignity and worth of a human being.

Brotherly love born of the new life in Christ is a most revolutionary principle that brings about better human relations. It seems that the Christian faith in BROTHERLY LOVE influenced more than anything the abolition of slavery in Britain and America.

One of the greatest principles of this lesson is this, "Changing the man will help society, rather than changing society will change the man." We live in a world where dependence is too easily placed upon the manipulation of social techniques. In this age of human tensions we must realize more than ever our need of changed men in solving human problems.

Let us see what the Apostle Paul suggests. Onesimus was a runaway slave, undoubtedly converted to Christ in Rome. Bovina High School Burns Down

There is no high school in Bovina now, for the Bovina High School building was completely destroyed by fire last Thursday night. School Supt. W. B. Willoughby estimated the damage at \$250,000, and it was only partially covered by insurance.

While the blaze was still raging, the school board met in an emergency meeting to consider what to do about school facilities. The building had been constructed in the late 1920's to serve Bovina and community. Fire departments from Clovis and Texico, N. M., and Friona and Hereford joined the Bovina firefighters in battling the blaze.

Felony Charges Filed Following Car - Motorcycle Accident

E. E. Bundick, US Graduated From New London, Conn.

Ernest E. Bundick, fireman, USN, son of Mrs. Ada L. Bundick of Littlefield and husband of the former Miss Eili Pittirich of Amherst, was among the 103 future submariners graduated on Sept. 11 from the Enlisted Basic Submarine Course, Class 99, at the U. S. Naval Submarine Base at New London, Conn. Students receive theoretical and practical training during classes held at the school and aboard "schoolboats" operating in the area, for 8 weeks.

Felony charges were filed here last Monday against Oscar Owen, Sr., age 73, of Albuquerque, N. M., for failure to stop and render aid. Owen was arrested in Lubbock Saturday by city police shortly after he had failed to stop when he collided with a motorcycle driven by Bernard Peterson of Littlefield. The accident occurred 2 3/4 miles east of Littlefield on Highway 84. Both vehicles were traveling east. Peterson was knocked unconscious and was taken to Payne-Shotwell hospital for emergency treatment. The Albuquerque man entered a plea of not guilty before Justice of the Peace G. S. Glenn. Owen waived examining trial.

AMERICA'S NEW RAILROAD

Every 3 days a new diesel joins the Santa Fe fleet!

A 10-year record of "building new" on the Santa Fe

Christened with California champagne, Santa Fe's first multiple-unit diesel locomotive rolled out of Chicago on Tuesday, May 12, 1936.

It powered the first Super Chief. 39 1/2 hours later it rolled into Los Angeles—and the new age in railroading was born.

There were 3600 "horses" in that one. Five years later, the first multiple-unit freight diesel rolled on Santa Fe rails.

There were 5400 "horses" in that one. Today, there is more than 2,100,000 Hesel horsepower on the Santa Fe—1524 mighty diesel units.

From 1943 through 1952, a total of 1261 diesel units were placed in service. Better than one every 3 days for a 10-year record!

And still they come! 222 in 1953!

Every diesel added, every mile of heavier rail, makes America's New Railroad a little more completely new. Why, enough new rail has been laid on the Santa Fe in the last seven years alone to reach from Chicago to Los Angeles!

All new—but always the old pride that all this building new costs you, the taxpayer, not one tax penny.

TEXAS STATE FAIR TO INAUGURATE PAN-AMERICAN LIVESTOCK SHOW

How Texas farm and ranch families meet their water problems will be featured in "Agriculturama" at the 1953 State Fair of Texas, October 19-25. According to Jack Sloan, visual aids specialist for the Texas Agricultural Extension Service, exhibits from the 12 Extension districts, have been planned by committees from different agricultural areas of the state and include everything from irrigation to water systems for the home. In addition, there'll be a 4-H Club exhibit and one from Prairie View A. and M. College.

The Extension exhibits will feature the variety and quantity of farm and ranch products from the principal crops grown over the state. They will be 20 by 14 feet in size with a three-dimensional effect, explaining in a few words the major use of water in every part of the state from the Panhandle to the Gulf Coast, from the Piney Woods to the Big Bend's irrigation area.

The Panhandle as displayed by Extension district one, will show large fully mechanized farms where the agricultural production per man is as high as anywhere in the world. This is the major land for the state which grows high protein wheat for good baking qualities.

District two will show the South Plains which produces ten percent of the United States cotton. Here water conservation-minded farmers operate 20,000 wells and irri-

gate more than two million acres of land into a water conservation district.

The Rolling Plains, shown by District three will feature grass as its most important crop, where land freed from mesquite has increased from 30 to 50 percent in beef production per acre over land with no mesquite control.

North Texas, featured in the District four exhibit, will show a diversified agricultural area, leading in sale of dairy products and production of hogs. The exhibit honors the Porter Farm in Kaufman County where Agricultural Extension work first started.

Northeast Texas, District 5, will feature water conservation as practiced by use of terraces, deep-rooted legumes, crop rotation and contour farming bring about better living for farm families. The exhibit will include a "Texas Weatherman" broadcasting from a helicopter as he tours over the farm lands of the area.

District 6 in the Big Bend area, noted for its production of fine wool, quality beef and long staple cotton will exhibit people who profit from the conservation practices done on 230,000 acres under irrigation. The persons in the exhibit will show typical clothing and recreation in the form of square dancing done to an original song, "The Great Big Bend of Texas." Words of the song show western spirit—"Yes, we laugh and we sing thru all kinds of weather, for we

Muleshoe to Hold Public Auction For City Park

The benefit auction to be held on September 26 to raise money for the city park at Muleshoe has been drawing contributions from many business people and citizens. Heading the list of articles offered is a Sabetland pony and a used automobile, and many rural people contributed hay, feed, and other items to support the drive to build a park.

Tom Morgan and Ray Franz, who have been soliciting for contributions, report success and a real desire on the part of the Muleshoe citizens to have a park.

grow men of courage and we all stand together."

Conservation of water in lakes of the Edwards Plateau, District 7, provides electricity for farm, ranch and home, leading to efficient farm operation and comfortable living. The exhibit will show how a farm home uses electrical equipment.

The "Heart of Texas" will be featured in the District 8 exhibit to show a harvest scene where poultry and livestock are important.

District 9 in the "Piney Woods" will show a farm pond. Real fish will swim in the pond to demonstrate fishing as a source of meat as well as recreation for farm families.

South Texas where District 10 is located, will show how its plentiful supply of annual rainfall is conserved by long rooted legumes. Bees will hum and move around in the exhibit demonstrating that a hive of bees to an acre of legumes increases seed yields three times.

The Gulf Coast, District 11, which receives a plentiful supply of water each year will feature dairying. A mechanical cow will demonstrate that three gallons of water is required for each gallon of milk she produces.

The Rio Grande Plains of District 12 where the Valley and the Winter Garden areas use irrigation, will show this conservation method with the river flowing through fields of citrus fruits and vegetables.

"The exhibit will appeal to all your senses," Sloan says. "It is just another pictorial presentation of the story of agriculture in Texas and will be as informative as it is interesting."

A 30-Year Dream Coming True!

He used to stand on the curb in front of his father's house—and watch the Cadillacs sweep majestically by—carrying fine ladies and gentlemen on happy excursions.

That's when the dream started in his heart—and refused to leave.

Six times, before today, he has signed his name to an application for a motor car title—and, on every occasion, he knew it was a compromise.

But not *this* time! He is taking the keys to a beautiful 1953 Cadillac—and his 30-year-old dream is coming true.

And what a fulfillment it will be, as he rolls out into the highway and takes the longest way home!

First of all, he'll get those quick glances of approval which tell him the dream he dreamed for so many years is still in the hearts of others.

And then the car's great performance will begin to unfold itself.

Silence—almost complete silence—just the soft sound of the wind slipping by... the quickest,

easiest response to the accelerator he has ever imagined... steadiness and roadability and handling ease that remove all but the merest effort from managing the car.

And, oh, what marvelous comfort! It's like sitting in the easiest chair conceivable—and moving smoothly and effortlessly through space.

And then, almost before he knows it, he'll be home—and in the driveway—with the family rushing out with the final voice of confirmation.

Man—this was worth waiting and working for!

And, of course, the years and the miles will add their proof as to the wisdom of his choice: dependability—long life—economy of upkeep and operation—and unusual resale value.

Yes, there is every practical reason for owning a Cadillac—as well as every personal one.

Better come in and see us today. It's probably easier than you think to make your dream of Cadillac ownership come true.

To be eligible for loan the grain sorghum must contain not in excess of 13 percent moisture for both warehouse and farm-storage loans. On warehouse grain sorghum loans storage is deducted from \$2.38. At this time it is netting the farmer \$2.20 per cwt. It is necessary in all cases for the producer who wishes a loan on grain sorghum to obtain a certificate as to the liens on this crop from county clerk's office before the loan may be approved by the County PMA Committee.

The discount for grain sorghums which grade No. 3 and contain not in excess of 10 percent moisture shall be 8 cents per 100 lbs.; and for grain sorghums which grade No. 3 and contain not in excess of

Antique Cars Prove to Be Popular Entries in County Fair Parade

Two of the most popular entries in last week's Lamb County Fair parade were antique cars entered by the Garland Motor Company and the Tom Hewitt Chevrolet Company.

The 1928 Chevrolet was driven by its owner, Jack Nichols of Amberst. Still using its original motor, the old Chevrolet coach was brought here from California some time ago.

The 1917 Dodge was purchased recently by B. D. Garland, Jr., from the Watkins estate near Excelsior Springs, Mo. Mrs. C. A. Mason now owns and operates the famous estate where the oldest woolen mill in the United States is located.

Waltus Watkins, the original owner of the farm, homesteaded 1800 acres there in 1834. In 1845 he made his own brick kilns and began construction of his two story brick mansion which was completed six years later. In 1861 he built his large four story brick woolen mill. Using slave labor, he operated the mill until the end of the Civil War. The mill was closed for 51 years, with everything just the way the slaves had left it suddenly at the end of the war.

John Watkins, the son of Waltus Watkins, was the owner of the Dodge, purchased in 1917 in Kansas City. The car was used for several years at the famous Watkins farm. He died in the early 30's and the car remained on the estate until Mr. Garland bought it in August.

Tires for the car were bought in Kansas City early this month. Even though the engine had not been started for at least 10 years, the motor started immediately after a new battery was attached.

An interesting sidelight is that the Jesse James home joined the Watkins farm on the south. The James farm has also been kept as it originally was by Frank James' son, who still lives there.

HORSE COLLECTS WOLF
CLINTON, Mo. (AP)—A dog-bait-horse trampling the wolf to death from a wolf earned some satisfaction for itself and \$5 for its owner. J. H. Mays, a farmer in this vi-

city, said the nag chases any dogs that venture on the pasture. Recently one did venture—chasing a young wolf. The horse took out after both of them.

It ended, Mays said, with the horse trampling the wolf to death and then chasing the dog from the pasture. "A grandstand play if ever I saw one," the farmer said. "And besides, I got the five-buck wolf bounty out of it."

ACCIDENTAL HAY MARKET
SEDALIA, Mo. (AP)—R.E. Callen discovered an eager market for his hay the hard way. His truck piled with the stuff and en route to another county, cracked an axle and toppled over a few miles north of this Pettis County seat. Almost immediately, hay-hungry farmers began converging on the trucker, who escaped before either the highway or a wrecker arrived on his load. "I didn't know hay needs hay so badly," he had several offers and the truck stopped on its side.

COUNTY AGENT'S WEEKLY NEWSLETTER

Dairymen Should Familiarize Selves With Milk Law Changes

All dairymen selling milk for pasteurization should acquaint themselves with the revisions in the 1953 milk ordinance and code that became effective Sept. 1, 1953. COWS' HEALTH: All milk for pasteurization must come from herds located in a modified accredited tuberculosis-free area, which have been tested not more than six years before adoption of the ordinance and at least every six years after such tests. Herds located in an area failing to maintain such accredited status or having an incident of bovine tuberculosis exceeding 0.2 per cent must be accredited by the B. A. I. as tuberculosis-free or otherwise must pass an annual tuberculin test. Within a period not to exceed five years, all milk or milk products for pasteurization must come from herds, certified by the State Livestock Sanitary Authority as following either Plan A or Plan B approved by the B. A. I. for the eradication of brucellosis. All additions to the herds must be brucellosis free, tests and retests shall be made, and any reactors disposed of in accordance with the requirements of the B. A. I.

C-A-C
The well spacing restrictions of the Lamb County water district received an overhauling last week. There must be at least 500 yards apart on 10-inch wells; 400 yards apart on 8-inch wells; 300 yards apart on 6-inch wells; 250 yards apart on 5-inch wells; and 200 yards apart on 4-inch wells. All wells will have to be located at least 60 yards from the property line.

You can get application blanks from the Chamber of Commerce office in Littlefield or our office. Remember you will have to measure the distances between wells and your proposed well. You will have to have the legal description of your farm. You will have to have specifications for your pump, etc. So, if you intend to drill a well it would pay you to start getting your application for a permit approval well in advance.

We wish to thank all of those who contributed so generously in the way of floral offerings. May God bless them all.
