LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, OCTOBER, 17, 1968

NUMBER 24

REPRESENTATIVE HONORED—The applause was loud and here Monday night for State Rep. Bill Clayton, center. Left is Ben Barnes, speaker for the appreciation dinner. Myrtle Clayton, wife of the legislator, is seated at left, and

Myrtle Clayton, his mother, stands at right. Approximately 1,000 persons, including many state officials, turned out for the dinner.

Clayton Fete Draws Packed House Here

Bill Clayton, said speaker Ben Barnes, is guilty of only one crime. He is guilty of being a politician who works too hard.

Clayton works too hard. He has spent the past six years in the Texas House of Representatives. He has received the applause of about 1,000 persons attending an appreciation dinner here Monday night.

He praised Clayton's "courage, integrity and intelligence," saying that is what it takes to be a statesman, "plus one other factor—experience, which you have given him the opportunity to receive."

Then Rep. Gus Mutscher of Brenham, speaker-elect of the Texas House, said "I respect Bill Clayton's dedication, motivation and influence."

Barnes, at the outset of his talk, complimented Littlefield, saying "this gym is the most

beautiful place ever used for this sort of occasion."

He was referring to the red, white and blue decorations which abounded in the banquet area, and to the "obvious hard work" which had gone into staging the event.

"I want to thank you," he told the crowd, "for being interested enough to thank people who are doing a good job."

Barnes said Clayton, with his background as a farmer and businessman, has come to be known throughout the United States.

TIE-BREAKER DIFFERENCE

Perfect Entries Win Prizes

For the first time this year, a perfect score won the weekly Leader-News football contest.

In fact, there were two perfect scores.

One entry submitted two perfect sheets, and failed with his tie-breakers to cop the first place money of \$7.50.

Don Hevern of Amherst was the weekly winner, edging steady

Reception Set For Rep. Price

A reception for Bob Price, Republican Representative from the 72nd Congressional District, will be held here Monday.

The reception will begin at 6:30 p.m. in the XIT Room of the Security State Bank, local Republican leaders announced.

The reception will precede an address by Price to a meeting of the Farmers Union to be held in the Willy Room of the REA building beginning at 8 p.m.

Area Bank Deposits Show Steady Advance

\$3.1 Million Gain Over October 1967

The eight city and trade area banks, including Littlefield Federal Savings and Loan, show an increase of just over \$3 million in deposits since October 1967.

Included in the computations is the Citizens State Bank of Anton, which is considered to be a part of the local economy. Deposits as of Sept. 30 to Oct. 4, 1967, the corresponding report last year which shows deposits at that time of \$45,597,573.39.

The reports do not exactly correspond since last year's figures are based on the official quarterly bank call which did not come until Oct. 4, whereas this year's figures are as of Sept. 30.

All banks except the Citizens State Bank of Earth showed a healthy increase in deposits. The Earth bank dropped off \$78,974.90 in deposits from the same time last year.

A part of the heavier deposits since June 30 can be attributed to diverted acreage and price support payments released to farmers through the U. S. Department of Agriculture. L. D. Aten of the USDA began mailing out over \$10 million in checks to farmers the first part of September. Total amount for the county was slightly over \$14 million, a part of which was issued last spring.

As one bank official put it, "those support checks surely do give a shot-in-the-arm to the economy during the third quarter of the year."

Three banks indicated a drop in total loans from that shown in 1967, and the 1967 loan figure for the Littlefield Federal Savings and Loan were not available. Those banks showing a drop in loans include First National Bank of Sudan, First National Bank of Amherst and the Citizens State Bank of Earth.

Total loans for all eight banks for 1968 was reported at \$31,345,165.38. Total loans as of

Oct. 4, 1967, exclusive of LFB-S&L were reported at \$18,879,508.24.

Individual reports as of Sept. 30, 1968, show Security State Bank of Littlefield deposits \$10,238,148.66 and loans and discounts \$5,209,226.13. Oct. 4, 1967 deposits were \$9,232,102.88 and loans and discounts \$4,875,667.23.

First National Bank of Littlefield, deposits Sept. 30 \$6,402,581.30 and loans and discounts \$4,238,380.73, as compared with Oct. 4, 1967 deposits of \$5,697,537.04 and loans and discounts of \$3,752,695.14.

Olton State bank showed deposits Sept. 30 of \$7,107,085.92 and loans and discounts of \$4,751,838.68. This compares to Oct. 4, 1967 deposits of \$6,591,821.88 and loans and discounts of \$4,341,265.67.

The First National Bank of Sudan reported Sept. 30 deposits of \$3,345,270 and loans and discounts totalling \$1,108,636, as compared to Oct. 4, 1967 deposits of \$2,788,697.87 and loans and discounts of \$1,292,035.73.

READY FOR NEW ADVENTURE—Mrs. James Ball and sons Scott, 11, and Kent, 9, were all anticipation when their photo was taken on the eve of their departure for Luanda, Angola, on the west African coast where they will join their husband and father, James O. Ball, of Littlefield. Ball has been in Angola for seven months of an eighteen month contract with a construction company as a commercial pilot. The family departed Lubbock airport Tuesday morning for the jet flight which will take them by way of New York and Lisbon, Portugal.

Ball Family Sets Off For African Adventure

A Littlefield mother and her two sons departed Tuesday on an African adventure that should be the envy of all red-blooded young boys everywhere.

The trio, Mrs. James Ball and sons, Scott and Kent, departed Lubbock airport by jet to join the head of the family who has been stationed in Angola, on the west coast of Africa for the past seven months.

Ball is seven months into an 18 month contract as a commercial pilot with the Brown and Root Construction Company. The company has not yet received delivery on their aircraft, so Ball is presently operating heavy equipment on construction of a pipeline near Cabinda, Angola, for Gulf Oil Co.

The family will make their home in Luanda, the capital of Angola, where the boys will attend the international school. Scott, 11, and Kent, 9, will enter the school as 5th and 3rd graders respectively. The school is operated by Americans, according to information received by Mrs. Ball.

Angola is situated on the coast immediately south of the Congo and is a Portuguese possession. The official language is Portuguese.

The family was to make connections in New York with Trans Portuguese Airlines for the trip to Lisbon, Portugal, and continuation to the African location. There was a possibility that Ball would meet the family in Lisbon, Mrs. Ball said on departure.

The trip was expected to take a total of 36 hours.

Both Ball and his wife were reared in the Littlefield area. He graduated from Spade High School in 1952 and she attended Littlefield High School through the eleventh grade and graduated through a correspondence school.

Mrs. Ball and sons have been making their home for the past few months with her parents, Mr. and Mrs. A. O. (Preach) Dickson, northwest of Littlefield while the necessary preparations for their trip were being made.

Ball graduated from the American Flyers Academy at Ardmore, Okla., in August 1967 and served as a flight instructor there for nine months prior to accepting the assignment to Africa.

When asked how they felt about taking on an adventure in darkest Africa, the two boys

were somewhat unresponsive. They had just spent a long 16-hour day in travel preparations and farewells and their apathy at that point was understandable.

Later on in the interview, however, they were responding like youngsters setting out on a grand adventure.

Local Woman Hurt In Crash

A Littlefield woman received multiple injuries in a two-car crash at E. 9th St. and Wroe Ave. Saturday afternoon, according to police reports.

Mrs. Christina Parker, 65, reportedly pulled out into 9th St. while traveling north on Wroe where she was struck by a 1966 Chevrolet driven by Marcial Echvarria, 30, also of Littlefield.

Police diagrams indicate that Mrs. Parker's 1965 Oldsmobile was struck broadside on the left receiving an estimated \$450 in damage.

She was thought to have suffered multiple abrasions and bruises and was taken to Littlefield Hospital where she was treated for her injuries.

Trudi Grizzle To Make Pacific Tour With USO

Miss Trudi Grizzle of Littlefield is one of 14 Texas Women's University students who will leave Oct. 18 on a tour of military installations in the Pacific area, sponsored by the USO-Department of Defense.

singing group to the Caribbean Command, including Guantanamo Bay, in 1962; to the North Atlantic area of Greenland, Newfoundland, Iceland and

Labrador in 1964; and to Southern Germany for an eight-week tour of Army bases in the summer of 1967.

Miss Grizzle, a junior music therapy major, is daughter of Mr. and Mrs. L. G. Grizzle, 700 E. 15th St. of Littlefield.

In high school, she was a member of the U.S.A. High School Band and Chorus, and appeared in the musical comedies "South Pacific" and "Carousel."

Miss Grizzle has sung with the Lubbock and Amarillo Symphonies and is a member of the TWU Modern Choir and of the Aglaian Literary Social Club and Alpha Mu. She participated in Class Stunts, 1966-'67.

Her future plans include travel and working as a music therapist.

Interests other than music include sports, camping, cooking and reading.

TRUDI GRIZZLE

School Board Okays Tax Roll

Littlefield school trustees approved the current tax roll and heard an enrollment report in a short meeting Tuesday night.

Total of the tax roll was okayed at \$423,303.09.

The report on enrollment showed the schools at the end of the first six-weeks period were even in enrollment with the figures of the first week.

A breakdown shows the following totals by grades: first, 216; second, 202; third, 181; fourth, 157; fifth, 154; sixth, 164; seventh, 181; eighth, 148; ninth, 145; tenth, 145; eleventh, 105; twelfth, 102.

The total is 1,900, not including 62 students enrolled in special education.

Of the entire 1,962 students, 1,765 are white and 197 are Negro.

In other activity, the board approved the monthly financial statement and heard a report on the recent meeting of Texas School Boards and Administrators in Austin.

FRIENDLY OPPONENTS—When Bill Armistead and Pat Downs meet these days, they "Indian Wrestle" instead of shaking hands. Dr. Armistead is the local campaign manager for Rep. Bill Clayton, a Democrat, and Downs

heads the local boost for GOP candidate Frank Ford of Hereford. But it's a friendly greeting when they meet, and both say they'll probably be working together on some civic project when the election campaign is over.

Three Arrested On Check Charges

Sheriff's office activities continued at a slow pace early in the week with three persons being charged with check law violations.

Jerry Cavazos, 32, of Olton, was apprehended late Saturday and charged with passing a worthless check.

Bond was set in the case at

\$2,000 in the justice of the Peace court of J. N. Bowen and Cavazos was released the same day after posting the bond.

Two juvenile brothers, aged 15 and 16, were taken into custody Saturday afternoon charged with forgery and passing worthless checks.

They were each assessed a one-year probationary sentence by county judge G. T. Sides and released Tuesday after spending the better part of four days in jail, according to the sheriff's reports.

Artists Meet See Techniques

Littlefield Art Club met in the Reddy Room of Southwestern Public Service Company Monday for an all-day meeting.

Dick Chestam, artist from Lubbock, demonstrated painting techniques in water colors and oils.

Hostesses, Mrs. O. W. Still and Mrs. E. J. Wicker, served a luncheon to those attending.

Members present were Mmes. E. J. Bussanmas, J. D. Hagler, Cal Harvey, Les Hewitt, E. A. Mercer, J. C. Nichols, Frank Rogers, Bub Stewart, C. O. Stone and Mrs. O. I. Bennett Sr.

Honor Society Slates Activities

The Joe C. Hutchinson Chapter of National Honor Society met at Littlefield High School Monday morning.

Eleven members were present and an induction ceremony was planned for probationary members, to be conducted Oct. 29.

Pat Hinds will head the refreshment committee and aiding her will be Debbie Hill and Jane Nowlin.

A brief officers' meeting will be held Oct. 21 to complete plans for the ceremony.

A new committee was selected to clean trophy cases. They are Rosendo Soria, chairman; Allen Williams, Nancy Hall and Janie Hyatt.

Give Your Wife A Tune-Up

YOUR WIFE is an extremely sensitive highly sophisticated mechanism. Theoretically she should last you a lifetime and operate at peak level regardless of age, but every married man, to get the most out of his spouse, must be aware of things that can go wrong, whether in a 1969 model or as old as a model—design of domestic, new or used.

WHAT ARE SOME of the defects that wives are from? One woman may be slow in getting started when it comes to fixing break-

downs—battery recharge—in the form of a good night's sleep without staying up to watch television—could put her in better condition. Why not give her a check-up and find out what kind of service she needs. Even if she seems perfect, preventive maintenance is desirable.

Some men care for their cars with an almost religious fervor, polishing chrome, buying seat covers and simonizing the vehicles regularly.

Their wives are ignored by comparison. Yet the great majority of husbands are more concerned about staying in the good graces of the good woman than they are with keeping their automobiles running smoothly.

IN A RECENT POLL, it was found that nearly all men are satisfied with their wives, although some may think that they wound up with lemons.

When such a feeling occurs, it's time to shift into high gear and to apply some of these suggestions.

Remember, it's far better to give your wife a tune-up than to start searching for a new one.

THERE ARE MANY WAYS of warming up a wife without getting her overheated. One is by telling her how nice she looks before as well as after she's been to the beauty parlor.

Another is to tell her that she dances as well as younger models. And if she needs a new gown to go dancing in, get her one. The chassis of the modern wife is low-slung and sleek. The body is streamlined and luxurious. She features many accessories.

CHANCES ARE, your wife never rolled off an assembly line. Like the cars that do, however, she needs an occasional tune-up. Why not give her a check-up and find out what kind of service she needs. Even if she seems perfect, preventive maintenance is desirable.

Get Out The Vote

IN THE LAST ELECTION, one third of the nation's eligible citizens failed to vote and thereby carry out the first obligation that every U. S. citizen owes to himself and his country.

Every voter should make sure that he is registered and take the time to familiarize himself with candidates and the point of view they represent.

IN THIS YEAR'S general election, the American people will select a President and thousands of other office holders, including U. S. Senators and Representatives, governors and state legislators.

These officials will make and administer the laws of the land under which we all must live. They will decide on the role of

government in our lives, the amount of taxes we must pay, the wars we must fight and how many of our young men must serve in which branches of the armed forces and for how long.

Every voter owes it to himself to take part in selecting the best men and women to carry out these vital functions.

IF YOU EXPECT to be away from home on election day, Nov. 5, arrange to cast an absentee ballot.

It is estimated absentee voting accounts for from one per cent to six per cent of the total vote. This can mean victory or defeat for the candidates of your choice. This November, know the issues and the people—then VOTE.

THE FARMER'S WIFE

Bravery?

BY LIBBY MULDGETT

NOBODY would have dared except this one man.

Not right now, just before elections and just after Pope Paul's encyclical against birth control that has split the Catholic world down the middle.

MORE AND MORE priests are dissenting from the Pope's decision and asserting that contraception is not only permissible but necessary. No sooner do they issue their "statement of conscience" than they are disciplined by their cardinals and, in many cases, defrocked.

Never before have people stalked out of church in the middle of Mass; in one instance, 200 of them. They were immediately accused of defying the hierarchy and of considering "tradition" an obscene word.

SO WHO HAS the guts to plunge right into the middle of this major controversy? No one running for any kind of office, although I have an idea this man would have said the whole bit even if he were.

No, not Lyndon. Even he wouldn't want to antagonize the Vatican.

Nope, not the Supreme Court yet, even though any day now I expect them to issue their own encyclical on the subject.

WELL NOW, just think for a moment. Who figures everything out with a slide rule and sticks to the answer come hell or high water?

Who has the stubborn tenacity of a bulldog and the icy coolness of a mountain lake? Who ignores tradition in the name of economy to the point of "standardizing" all servicemen's belt buckles, thereby forcing the Marines, who also have bulldog tenacity, to paint their own buckles black?

YOU GOT IT! Robert McNamara, that's who.

Sure, he realizes that he has stepped into a politico-religious battle that could shake the world, but his slide rule says one thing and the Pope has said another.

Saith Robert: "This is a thorny subject which it would be very much more convenient to leave alone, but I cannot". So he openeth his mouth and committeth the World

Bank, of which he is now head, to take "new initiatives in population control".

HIS SLIDE RULE tells him that at the present rate the world's population will have doubled to 6 billion people by the end of this century.

His slide rule also tells him that the added mouths to feed tend to swallow development funds and result in a lowering of living standards.

This does not suit Mr. McNamara's sense of balance, so he turns to his slide rule once more and figures out that a country that can cut its birthrate in half can be 40% ahead in 25 years of a country that listens to the Pope or of one that just lets nature take its course.

COST-EFFECTIVENESS enters the picture here and anybody that paid any attention whatsoever to Robert during his days as Secretary of Defense knows how he feels about getting effects for costs. So, to choke off the population explosion, he proposes three things:

1. An educational drive to convince developing nations that their population growth is a serious handicap in the economic race.
2. World Bank financing for population-control programs and facilities.
3. Aid for research in birth-control techniques and the administration of national birth-control programs.

WOW! THAT SHOULD SEND the Pope straight to his lawyers to see if there's some way of stripping Mr. McNamara of his frock, or bank, or mouth—just stripping him period.

However, cucumber Robert is undaunted and says "the optimum employment of the world's scarce development funds requires attention to this problem."

This following touchy question arises: Will World Bank loans now be conditional on cooperation by nations in birth control?

Well, you know how Robert McNamara is about something he feels strongly.

THE ABUNDANT LIFE

Use It Or Lose It

BY BOB WEAR

WE HAVE GREAT and noble ideals and principles which have been passed along to us as the elements of our heritage. They have been tested time and time again, and have successfully passed each testing.

THERE SEEMS TO BE NO JUSTIFIABLE reason for doubting their worth; however, they must continually be examined and evaluated. Part of their strength and worth are in the fact that they are constantly exposed to all questioning and testing.

Their value is enhanced by the fact that they leave us free to test them as often as we wish. We honor and appreciate them for their intrinsic value. We also find much aesthetic pleasure in them, and are often thrilled by the eloquent recounting of them by dedicated persons. In all of these considerations, however, there is little of practical value for us.

ON EVERY HAND, there is evidence which, if it is being properly evaluated, indicates a wide disparity between the theory of our basic principles and their practical application. Historically, the problem of implementation seems to have been a stubborn one in all civilizations.

No civilizations have fallen because of lack of worthy principles. For example, the Greco-Roman society did not crumble because of unworthy or generally false principles. The failure was in their inability or unwillingness to implement their principles so that they became patterns of behavior.

ALL OF US KNOW that a noble concept is of value to us to whatever extent we are willing to establish it in our lives as a working standard of behavior. Of course all of us will be able to take a better game than we play. We must, however, sincerely continue our efforts to live by well-established standards and ideals. It is the same with the generally accepted principles of our social

order. The good must be permitted to have its proper good influence upon society.

We will never be perfect, but conscientious and continued effort to grow toward the behavior that fits the principle will strengthen all of us. We must continue with hope and enthusiasm.

In theory, we are the people of the "golden rule". We advocate it, we exalt it in poetry, song and in all manner of lofty preachments; however, it is self-evident that there is often too much difference between theory and the practice.

WE TALK ABOUT FAITH, and the importance of faith, but a look at our actions often prompts us to ask, "Where is our faith?" From observations and Divine pronouncements, too, we learn that "faith without works is dead." To be effective, faith must be implemented.

We must work to preserve our time-tested ideals and principles. If each of us will begin with self, move to the family and then act so as to extend the right influence, part of our problem will be solved. If we teach the right views; but act out of harmony with them, we are contributing to the destructive forces in human society.

IF WE ARE TO BE STRONG, there must be a high degree of harmony between our well-established principles and our actions. All of us can help by honestly and sincerely doing our very best to behave as we believe and teach. We must not stand around and wait on each other, but start on our own.

We are not suffering from want of sound ideals and standards, but from unwillingness or inability to put them into practice. We must become concerned enough to do our best to close the gap between our good ideas and our actions, if we don't use them we will lose them.

This Is Littlefield

Littlefield, a community sitting off the main road (now) in the middle of a big cotton patch, became for an evening the focal point of politics of the entire state of Texas one night this week.

In an effort to pay tribute to Bill Clayton, State Representative of the 72nd Legislative District, the Democratic Party Monday night staged the largest indoor event ever held in Littlefield.

A roaring, applauding and appreciating crowd of approximately 1,000 from the six-county area cramed into the gymnasium of Littlefield Junior High School.

There were many...frankly from both Democrat and Republican parties...who said earlier the crowd would hardly fill a portion of the gym floor. They never dreamed such a swarm would arrive, filling the bleachers almost to capacity as well. A large delegation of state office holders was prominent.

Littlefield was complimented by state party delegates for its undertaking, its decorations and its interest in public welfare.

A community that, for an evening at least, held the limelight of politics in Texas. This is Littlefield.

Dear Turnrow Tunkel:

O. C. McBride.

I UNDERSTAND that a new limousine is being built for presidential use. It will weigh 8,000 pounds.

If Geo. Wallace should be elected, it would take a lot of LSD to make a demonstrator crazy enough to lie down in front of that thing.

DON'T YOU THINK Curt Flood should have caught that fly ball in the seventh inning in the last game of the World Series? Yes, but that's the way my luck runs. I had a little bet on the Cards, and Flood comes up with "Dodge Fever" on a crucial play.

DID YOU READ that Orville Freeman is being mentioned for a job as head of the Association of American Railroads?

That figures. The railroads are trying to eliminate many of their passenger trains, and Orville is an expert at elimination. He has eliminated more farmers than the boll weevil.

DO YOU THINK newsmen are guilty of biased reporting of riots and violence in the U. S.?

Maybe in a few cases, but most reporters are just trying to do their jobs, and it's their duty to be where the action is. I felt sorry for one fellow I read about—after covering the Chicago convention, he was assigned to the corner of Commerce and Akard on the night before the Texas-O.U. game. I understand he has asked to be sent to Vietnam for "Rest and Recuperation".

HAVE YOU READ that Red China's defense minister has abolished rank in the Chinese army? All soldiers are considered to be equal. That should be a fighting outfit, but most of the fighting will be to decide who pulls K.P. duty.

WHAT DO YOU THINK of so many new apartment houses that have a policy of renting to single people only?

That's what I call "housing discrimination." I don't think people looking for an apartment should be penalized for a past mistake.

PAUL HARVEY Hanoi Influence Election?

NEVER IN MY RECOLLECTION has any American election been subject to so much potential manipulation by an outsider.

A pipsqueak Communist President of one-half of a sixth-rate nation could influence, conceivably could determine, our next president.

Sept. 30, Vice President Humphrey "spoke out" on Vietnam.

MORNING EDITIONS, Oct. 1, headlined "Humphrey Breaks With L.B.J." and "Humphrey Says Stop Bombing."

Humphrey did neither. His stop-the-bombing suggestion was as qualified as Mr. Johnson's has been: "The enemy must give some indication of co-operation."

Richard Nixon, describing Humphrey's predicament, also described his own: "If Humphrey breaks with Johnson policy on Vietnam, he may sabotage the Paris talks. If he does not break with Johnson policy, he has nothing to offer the voters."

SO NOW THESE CANDIDATES, thus intimidated, apparently expect you to go to the polls and "gamble" on what the war policy of each will be.

The fact is, of course, that the Paris peace talks are fraudulent and not worth "protecting."

The talks in Paris were calculated by the enemy to reduce our bombing and by Washington to take the heat off during an election year.

ALMOST EVERY AMERICAN mother finds some solace in these "negotiations," however deadlocked they remain. Any candidate who would reject them as worthless or argue them to "break off" could reap disastrous political consequences.

That's what Mr. Nixon meant when he said, in effect, that Humphrey is "dunned if he does and dunned if he doesn't."

Also, if Hanoi's Reds should consider Humphrey more dovish than Nixon, they might reduce hostilities in Vietnam—however temporarily—in order to improve Humphrey's position at the polls.

IT WOULD BE VERY DIFFICULT for a Hawkish candidate to get elected if the shoot-

ing is reduced and the November headlines are shouting peace slogans.

Indeed, Nguyen Gia Hien, the president of the senate of South Vietnam, expects that North Vietnam will co-operate—so that there can be a bombing halt—before our Election Day.

And now the military-political considerations have a third dimension.

WITH CURTIS LEMAY as running mate for George Wallace, one party's war posture is definite. THESE TWO AGREE THAT WARS ARE TO BE WON!

Indeed, if Wallace should appear to be closing in on the White House, Hanoi might try to sidetrack these "Hawks" by backing off, perhaps even stopping the shooting, however temporarily.

Thus, as never before, this election time the American electorate must be alert to the possibility of manipulation by outsiders.

TROUBLE IS WHERE YOU FIND IT AN' I LIKE TO LEAVE IT RIGHT THERE!

Education, Water Get Clayton Priority

Education in West Texas is tied to water resources development, according to Rep. Bill Clayton, who is seeking re-election to the Texas Legislature for the 72nd district. "Without the water importation project," said Clayton, "the economy of West Texas will fall. This will cause people to leave, a lower tax base, and consequently less need for schools, churches, and public institutions."

Texas water development program.

We have to maintain our leadership with water in the legislature. Everyone involved and interested in education in West Texas surely realizes the necessity for imported water to keep our economy going," he concluded.

Higher pay for teachers is emphasized by Clayton as necessary for continued progress in education. With Rep. Red Simpson of Amarillo, Clayton introduced a tax bill to provide enough teacher pay raise next year without having to pass still an additional tax bill in 1969.

City Crime Wave Continues To Grow

Thefts and burglaries in Littlefield appear to have taken up where they left off last week as a number of new cases were reported early in the week.

A major house burglary was reported to have occurred at 126 McCarty either Sunday night or Monday morning.

George Willard reported to police that intruders entered his home during that time through the rear door and carried off items totalling \$804 in value.

Tracks were left to indicate that a vehicle was parked on the north side of the house into which the stolen goods were loaded and transported away.

List of items taken include a color TV set valued at \$485, two men's suits, a sport coat and a pair of trousers with a combined value of \$230.

Also taken was a .410 gauge shotgun valued at \$89 and a substantial amount of meat from the refrigerator.

A set of chrome wheel covers were reported stolen from a 1967 pickup at the Garland

Motor Co. used car lot Saturday night or Sunday morning. The covers are valued at \$80.

A car was reported stolen from in front of his residence at 217 E. 21st St. sometime Sunday night or Monday morning by Loyd Jaques.

The keys were reported to have been left in the car, which was a 1968 Volkswagen. A state-wide stolen car bulletin has been issued on the which is beige in color, according to police reports.

Four decorative wheel covers were stolen during weekend from the Chevrolet at 610 E. 4th St., according to a report to police by Rob Richardson.

The extra-fancy wheel covers, taken from a 1963 Corvair, have a total estimated value of \$80.

Draft Call

The December draft call for Texas is 869, up from 820 November, according to Col. Morris S. Schwartz, state Selective Service director.

This compares with 774 and 683 for October and November, respectively. The highest monthly call in 1968 in May in which a quota of 2,223 was set. Monthly call for 1967 ranged from 674 to 1,000.

The allocation to all states for December is 17,500 men, 10 for the Army and 2,500 for Marine Corps. The Marine Corps has requested no more through the draft previously year.

Mrs. Simington Nursing Student

Mrs. Barbara Simington of Littlefield has enrolled in the Methodist Hospital School of Nursing. She began classes in September with aspirations of becoming a Registered Nurse (RN).

Mrs. Simington attended South Plains College in Leveland and was formerly an LVN at Methodist Hospital.

She is active in the Women's Missionary Society and her church choir.

She and her husband, Leonard Simington, reside in Littlefield.

Methodist Hospital School of Nursing is a basic professional diploma program accredited by the Board of Nurse Examiners for the State of Texas and the National League For Nursing, Inc.

The School of Nursing's typical program lasts 126 weeks, 36 of which are spent as a full-time college student, and the remaining 90 of which are spent as a full-time student in the School of Nursing.

Graduates of the school are entitled to take state examinations and become qualified registered nurses.

WOULD YOUR CONGRESSMAN VOTE FOR GEORGE WALLACE?

Some fine Texans are tempted to vote for the 3rd party candidate because they admire his stand and his statements on some of the major campaign issues...

STOP AND THINK WHAT WILL ACTUALLY HAPPEN...

The best that Wallace supporters can hope for is enough strength to throw the election into the turmoil of a Congressional election by the House of Representatives...

THEN WHAT HAPPENS?

The answer is certain and simple. Wallace supporters are at the mercy of Washington Politicians! Every vote for George Wallace automatically becomes a vote for Hubert Humphrey!

THERE IS A BETTER CHOICE...

A vote for the NIXON-AGNEW ticket is a positive vote for "change" with the definite promise that our National Affairs will take a new direction... the direction you want it to take!

County Irrigation Survey Now Available To Farmers

Farmers and businessmen in
 Lamb County will want to ob-
 tain a copy of the 1968 High
 Plains Irrigation Survey now
 available at the County Exten-
 sion Office, reports County Ag-
 ricultural Agent Buddy Logsdon.

The survey contains a wealth
 of valuable information on ir-
 rigation in the County as well
 as 41 other counties in the
 Panhandle and South Plains.

For instance, says Logsdon,
 the survey gives the total num-
 ber of irrigated farms, irriga-
 tion wells and current irrigated
 acreage for each county. It also
 shows the irrigated and dryland
 acreages for individual crops
 and pasture for this year.

Irrigated acreages are listed
 by both surface and sprinkler
 irrigation methods. Data on the
 kind of fuels used by the ir-
 rigation power units are also a
 part of the survey.

In addition, trends over the
 past 10 years in irrigated a-

creages of major crops are
 included in the report, points
 out the agent. Other trends
 shown are pump capacities
 pumping lifts and the number
 of wells required to supply
 water.

The survey is of value to in-
 dividual farmers and others who
 keenly observe conditions,
 changes and trends in irrigation.
 Industry and commercial firms
 find the survey valuable in plan-
 ning business activities.

The survey is prepared an-
 nually by the Texas Agricul-
 tural Extension Service, having
 been published since the early
 1950's when irrigation in the
 High Plains really began to
 boom.

All the facts and figures on
 each county in the irrigation
 survey are obtained through the
 efforts of the county agricul-
 tural agent. This county in-
 formation is then sent to Leon
 New, Extension area irrigation
 specialist at Lubbock, who com-

pletes the complete report, says
 Logsdon.

The survey is sent to equip-
 ment firms, fertilizer, chemical,
 seed and utility companies and
 government and education agen-
 cies throughout the area.

Olton Chief Resigns

Olton -- Henry Ogletree,
 chief of police, offered his re-
 signation at a recent City Coun-

Auto Mechanics Learn Way To Make Living

VICKI ELLIOT, sweetheart of the VICA is standing with the officers of the organization. From left to right are Jimmy Ellis (Secretary), Johnny Moore (Treasurer), Vicki Elliott, (Sweetheart), Chip Joyner (President), and Carl Davis (Parliamentarian).

Although many people today know that we must end the war in Vietnam, that we must appeal to law and order, and that we must succeed as far as aerospace is concerned, they are not aware of the one great, most important goal of the American people; and that goal is that every young American shall obtain as much education as he wants; as much training as he can absorb and use. This training is accomplished through vocational education.

There is no future in this country for the unskilled worker. Machines are going to replace all manual laborers; if it has not already. In the past ten years the number of skilled workers has increased by about 7 million. While the number of laborers has gone down by some 155,000.

We are living in an era in which our major development is automation. A casual view of automation is that it creates as many jobs as it destroys, even more. What all of this comes down to is that the new jobs almost all require some skill whereas this was not true before.

There was a time when a girl or boy could leave high school with or without a diploma, and he or she would be employed in a job where he did not need any skill in doing any kind of work. Now jobs are very scarce. Every young American has to learn some skill in order to make a living later in life. To many of them this spells out Vocational Education. We are living in an expanding universe of knowledge and change where we must know something about a field of work.

Yet, these are the facts; out of every ten fifth graders today, only two will go on to college, only seven will go to finish high school. Of the nearly 12 million boys and girls in high school, only 1.9 million receive any kind of vocational education.

A system of education and training which is responsive to the changing skill needs of the economy is essential both to help accelerate and sustain economic growth and to stop the human tragedy of unemployment. This system is vocational education.

There have been many provisions which have been adopted to strengthen and expand vocational education. One of these is the requirement that state plans for vocational education must include cooperative arrangements with and use of the services of the public employment offices. This is to help assure that training will be related to occupational demand in the labor market.

These provisions take into account the need for assuring that the vocational education system can meet the requirements of economic growth and the constantly shifting occupational demands of automation developments.

They recognize the need for expanding and updating the system and for introducing flexibility in the programing of vocational education. But, there is the urgent need for additional voc-ed facilities, equipment and personnel. We must help this if we want our young people to succeed.

The Auto Mechanics department of LHS represents only one of the many vocational education classes here. Mr. Landers, the teacher of the auto mechanics, also states that the main purpose of this class is to help the student make a living.

VERNELL KEMP, center, explains to auto mechanic students, the use of various scientific machines used to check sick automobiles. The boys are (left to right) Sammy Boyd, Gary Whitley, Frank Perez, Bernell Kemp, Landro Agurrie, Mathew Hodge, and Mike Kimble.

Fourteen Students Attend UIL Session

Several students from LHS attended a special UIL clinic at Odessa College Saturday. A total of fourteen students attended the clinic in hopes of better preparing themselves for contests at Snyder later this year.

At the clinic, called by everyone there as UTULNTSA or the University of Texas University Interscholastic League North Texas State Association clinic, students attended sessions in science, poetry and prose, debate, informative and persuasive speaking, and one act play.

Mrs. Elizabeth Ayers, sponsor of all literary UIL activities, said that many promi-

nent men taught in the sessions. The students who attended the clinic had a high opinion of it and they were especially gratified in the way the sessions were organized. In sessions such as poetry and prose the teachers utilized two of the students as demonstrators, who had a great effect on what was learned by the students.

After the clinic which lasted some four hours, the students had the opportunity to look over the campus. One of the students, Juanita Samanlego, was quoted as saying, "This clinic was a most impressive one and I am sure that all of us have learned quite a lot from it."

SKAT STAFF

The SKAT is edited by the first period Journalism students of LHS, and published each Thursday by The Leader-News without expense to the school or taxpayers.

The SKAT invites other media to use stories or articles therein.

THE WILDCAT coaching staff includes (left to right) Raymond Birchfield, James Duncan, Jimmy Bartlett, and Wilson Elliot. The coaching staff have lead the Wildcats to a 2-2 standing thus far in the season.

Here Are Sketches On Your Football Coaches

Every few years LHS has the opportunity to employ some really good coaches. This year the coaching staff consists of: Raymond Birchfield, head coach, James Duncan, Wilson Elliot, Jimmy Bartlett, Jerry Trees, and Jack Christian.

Jerry Trees comes to us from Texas Tech where he majored in PE and minored in government. Coach Trees teaches world history in junior high. This is his second year as a coach, and both of these have been in Littlefield. He and his wife, Janell, who teaches typing and shorthand, have one boy, Jay, who is six months old.

Jack Christian resumed coaching duties this year in LHS, where he also teaches health and math. Coach Christian was the Texaco Distributor here in Littlefield before returning to coaching. He graduated from Texas A&M where he played guard on the football team. He coached twelve years before coming to Littlefield from Spur. He and his wife,

Dorothy, have two daughters, Judy, who is married and Jan, who is a junior in LHS.

Raymond Birchfield, head coach, comes to us from Rockdale, Texas. Coach Birchfield, who teaches economics, health, and American History, went to college at Southern State College in Magnolia, Arkansas, where he majored in PE and minored in social studies. This is his fifteenth year as a coach, and his second year in LHS. Coach Birchfield and his wife have three daughters, Carla, Kay and Ann.

James Duncan, who is an assistant football coach and the head basketball coach, comes to us from Mt. Pleasant, Texas. He attended college at Kilgore Junior College in Kilgore, Baylor University in Waco, and graduated from Southern State College in Magnolia, Arkansas. He majored in social studies and minored in business. Coach Duncan, who has been coaching for fourteen years, teaches

government. This is his second year in LHS.

Jimmy Bartlett came from Leaverttes Chapel, Texas. Coach Bartlett teaches PE and World History. He attended Blinn College in Brenham, and graduated from Sam Houston State College in Huntsville with majors in PE and government. This is Coach Bartlett's sixth year as a coach and his second year in LHS. He and his wife, Mary Jane, have three children: Robert, 6, Mark 5, and Karen 4.

Wilson Elliot is here from Cameron, Texas. Coach Elliot, who teaches chemistry in high school and general sciences in junior high, attended Tarleton State College in Stephenville, and graduated from Sam Houston State College in Huntsville with majors in P.E. and biology. Coach Elliot has been coaching six years, three of which have been in LHS. He and his wife, Addie, have one daughter, Debbie, who is seven.

Dear L&M:

I am a young, eager, handsome boy looking for a mate with these qualities: age 15 or 16, has her own car (not a Volkswagen), long hair, (to make up for my short hair), and last but not least 36-24-36. I would appreciate any help your paper can give me. Thank you, LOOKING

Dear LOOKING:

Get out and circulate. It is doubtful that you will find one girl with all of these qualifications. Don't forget that personality means a lot too. Happy hunting. L&M

AND the BEAT GOES ON ***

BY DANNY GOWEN

As you look around you may find that there is a world out there that you probably want no part of with all the violence, decline in morality, and lack of justice. It may seem that all these things root for several different reasons but in my opinion they don't.

Discipline now seems to be the only thing that can help the world of which we are a part. The lack of discipline can be considered a chain which links all of the troubles of this sick world of ours. This chain is composed of links consisting of the lack of discipline between the parent and child, the parent and the law, the people and the government, and even our government and other governments.

This chain which we have gradually constructed over the years is a strong one and cannot be broken in a day. But what about tomorrow, shall we let our lives become only another link in the chain or do we really have a choice?

The young people of today are our only hope, yet most are scorned and blamed for today's problems.

Geysers exist in many volcanic regions of the world such as Japan and South America, but their greatest development is in Iceland, New Zealand, and Yellowstone National Park.

STEPPING HIGH in front of the band are the Littlefield High School Majorettes. They are (kneeling) Janie Hyatt and Scarlett Hatley and (standing) Carolyn Lumsden, and Nancy Henson.

Ring Design Given Approval

A committee to study present senior rings and the opinion of the students decided Wednesday, October 2, in their final meeting to keep the present ring worn by seniors for at least two more years.

Those on the committee were Marsha French, Nina Manley, Mike Collins, Kim Hill, Diane Perkins, Diane Maner, Marshall Allan, Steve Owens, Mark Jordan, and Joe Williams.

The Netherlands has a maximum dimension of 180 x 190 miles.

Majorettes Amaze Crowds

Stepping high in front of the band are the Littlefield High School Majorettes. These four young women combine skill and lots of practice to amaze the crowds with their own routines. The twirlers are not limited to simple baton movements, but also twirl with fire and flags to make their routines more lively and seemingly dangerous.

This year's majorettes are Janie Hyatt, Scarlett Hatley, Nancy Henson, and Carolyn Lumsden. Although most of their duties are connected with football games, they also go to contest to prove their ability. Every year the twirlers go to

Coeds Vie For Lion Sweetheart

The judging for the Lion Club Sweetheart will be held October 30. The Club as a whole will elect their Sweetheart. Contestants are judged mainly on poise. The girls give a speech about themselves, what type of job they hold if any, the type of honors they may have won, and the organizations that they belong to, and the honors they may have received. Several girls from LHS have signed up for this contest.

ATHLETICS IN ACTION

BY ROY BOLTON

Tomorrow night the Littlefield Wildcats take on the Golden Toros of Lamesa, Lamb County, in the 2-3 game of the season. Last night the Golden Toros of Brownfield, they will be a team to beat but the Wildcats out to make it 3-2.

Last Friday night the cats upset Lakeview's team coming with a score of 21-14. Travis Danford, Wildcat back, went out on the town scored four touchdowns, a point conversion, intercepted two passes, and covered a fumble.

Senior quarterback Roy had an evening for himself as he passed for three of Ford's touchdowns and his point conversion. But passed to senior tight end Walker for a touchdown kicked three extra points and ran for a two point conversion.

The other two Wildcat touchdowns came on a plunge by fullback Vernell and a 22 yard run by quarterback Charlie Hill.

Senior tackle Jerry Fudge senior guard Windell achieved part of every man's dream as they were on their chances to run the ball. Fudge picked up yards on three carries and lay picked up three yards one carry.

Let's all go to Lamesa tomorrow night and watch 'Cats take on the Golden Toros.

National Merit Test Now Open

Littlefield High School students who expect to complete their secondary school requirements and to enter college in 1970 can register now to participate in the 1969-70 National Merit Scholarship Program.

The first step for all students who wish to enter nationwide competition is to take the National Merit Scholarship Qualifying Test (NMQT). The test will be given in school at 9:00 a.m. Tuesday, Feb. 18.

Participating students pay a \$1.25 fee. If an unusually promising student is unable to pay the fee, it will be paid by National Merit Scholarship Corporation (NMSC) at the request of his school.

SUGGESTED FOR IMMATURE AUDIENCES

Happiness Is ...

HAPPINESS IS NO REPORT CARDS

Kathy Turner

ARE YOU CONTENTED? Is your mind at ease? Can you sleep nights? Aren't you reeling? How's the old writing hand? Where are all those butterflies go? Wasn't algebra a bummer, and ooooooh, that English! Not to mention science!

In the next five weeks we can have fun, relax, and enjoy ourselves. Then we return to the "hall of doom".

Now that the tests are over, worrying will be a thing of the past. D-Day (Dooms day) has arrived and only your report cards show for the results.

THE JUNIOR HIGH pep rally was held last Thursday in the gym. It will be held today at 3:30 in the gym, also. All boosters are invited to attend. The cheerleaders appreciate all the help they have received. They can always use help in decorating the gym.

LAST TUESDAY, the eighth grade teams played Hereford. The A team's score was 30-0. The B team fought in a no scoring tie. Today they play Slaton. It will be at the Wildcat Stadium at 5 o'clock.

LAST THURSDAY, the freshman team played Abernathy. After quite a struggle they were also defeated. Today they play Olton at 5:30. We want those Wildkittens to get out there and.....

MRS. KEELING TO BRENDA: "What a cute skirt! What did you make with the rest of the tablecloth?"

from Governor Connally and from many other Clayton supporters. Entertainment was provided by a band from Lamesa. A meal was also served.

DAVID BARTON: "I did. I shook my head," MR. ANTHONY: "But you didn't expect me to hear it rattle all the way up here, did you?"

BEAT OLTON!

BEAT OLTON!!!

BEAT OLTON!

THROUGHOUT THE six weeks, we sat in class like this. But when it came to exam time, we tried to sit like this.

SATURDAY NIGHT: How was the scavenger hunt?!

FRIDAY NIGHT at the show: You tell 'em freshmen. Yea, King Kong!

JIM CAWTHON: "But mother, my report card was the highest of all who failed!"

CHRIS POPE: "Pull your head in out of the car window, Mother, you're knocking over the phone poles!"

MR. ANTHONY: "Why don't you answer me?"

HAVE A GOOD WEEK and don't forget to bring your report cards back.

Mr. Hoover: "Tell me, Jerry, if you had candy bars and gave seven of them to me, five to Martha, and eight to Gail, would you have them?"

THE JUNIOR HIGH band is still on the playing field. The band has learned one-third of its show so far. They are learning more each day.

GOOD LUCK AT CONTEST!

The Junior High band is a very active one. On Thursday they played at the freshman ball game. They also play at our pep assembly. In short, the band is very needed and without it, where would we be? Thanks, Mr. Hoover!

JUNIOR HIGH SCHOOL Band are, standing, left to right, Amy Owens and Cheryl Carter; seated, right, Carla Owens and Wanda Cotter. All are freshmen, except Cheryl Carter, who is an eighth grader. Each plays an instrument in the band.

MRS. MABEL CALDWELL and her dog Butch pose outside a house made of more than 3,000 bottles. The house is round and represents a bottle, with a paradise tree growing out of the roof, or bottle neck, of the house. Made of discarded bottles found along the side, Mrs. Caldwell plans to display her fruit jars and antique bottles in the garden.

Unique Round Bottle House Constructed By Collector

BY NILAH RODGERS
This is the house that Mabel built. And a most unusual house it is, made of more than 3,000 bottles, built to resemble one giant bottle. Mrs. Mabel Caldwell who lives three miles east and one and one-half miles north of Muleshoe built the unique round house from bottles picked up along roads and in roadside ditches. "I got the idea," Mrs. Caldwell said, "from a lady about my age who has a bottle village in California. She has 11 houses made of bottles." Mrs. Caldwell is a bottle collector and from this idea she decided to build her a bottle house to display her bottle collection. About a month before she began building she started picking up bottles from roadsides. When she had about 1,600 quart bottles she called the lumber yard and had them deliver sand and cement. The round bottle house is built around a paradise tree and the trunk of the tree grows up through the center of the house which is the neck of the oversized bottle. The neck of the bottle house contains about 1,600 smaller bottles, and the roof is covered with crushed colored glass. Mrs. Caldwell laid the bottles down with the base of the bottle forming the outside wall and using mortar fashioned the house in brick mason style. The necks of the vari-colored bot-

tles extend inside the house. The sun shining through the various colored bottles makes an interesting view. The finished bottle house is six feet on the outside walls and 10 feet at the neck of the house—oops, bottle. The bottle house is surrounded by a rock and cactus garden. In addition to being a show place for some of her bottles, Mrs. Caldwell plans to move some of her cactus inside the house which cannot stand the cold of winter. Some of Mrs. Caldwell's most prized possessions include her 85 varieties of canning jars. A complete set of Swayze Improved jars in the half gallon, quart and pint size is a rare collector's item. A four-piece matched set of Ball Ideal including a hard to find half-pint is another favorite. The oldest jar in Mrs. Caldwell's collection is an old wax sealing jar from Australia. Besides finding and trading for bottles and jars to add to her collection, Mrs. Caldwell "purples and ambers" her glass in a big plywood box equipped with ultra violet rays. She also enters some of her bottles and jars in fairs for added enjoyment of her collection. Among her treasures are 16 ribbons won at the Lubbock fair last year and this year. Mrs. Caldwell has three children. One lives in Muleshoe, one in Idaho and one in Nevada. "Everywhere I go," Mrs. Caldwell said, "I look for old

bottles, rocks to go in my cactus garden, or another of cactus". Mrs. Caldwell belongs to the Muleshoe Hobby Club. She often leaves early in the morning and make a long search for bottles, antiques, and other items of interest. Sometimes the group goes to Silver City and other places of interest in New Mexico. Mrs. Caldwell has been a widow for five years, but so many interests, she is busy at heart and keeps her busy in interesting activities.

Many Farm Families Using FHA Loans

During fiscal 1968, 164 Lamb County farm families availed themselves of Farmers Home Administration operating loan credit, Truman J. Jones, County Supervisor, said today.

Jones said that \$1,191,430 was advanced during the 12 months ending June 30 for such expenses as new machinery and equipment, livestock, fertilizer, feed, seed, pasture improvements and fencing. Operating loan funds were used to refinance debts and pay family living expenses.

"This type of credit," Jones said, "has enabled many small farm operators to stay on the land."

As the fiscal year ended, farm families that included nearly 440,000 people nationwide were benefiting from the program which serves family farmers who can find no other source of necessary operating loan credit.

Loans are made through county offices of the Farmers Home Administration serving all rural areas of the United States. All loans are accompanied by technical assistance in farm and financial management. The local FHA county office is located at 110 E. 6th Street, Littlefield.

In addition to operating loans, Farmers Home Administration makes loans to purchase and develop farms, to develop community water supply systems, and to obtain housing in rural areas, including housing for farm laborers and senior citizens. It is also used to meet the emergency credit needs of farmers suffering from a natural disaster such as hail, flood, or drought.

Health Careers Meeting Slated For Lubbock

An invitation has been issued to all school counselors, school nurses, principals, superintendents, and persons working with youth groups concerning careers, to attend a special, day-long Health Careers Conference to be held at Lubbock's KoKo Palace, Thursday, Oct. 24.

No registration fee will be charged and lunch will be served courtesy of the Texas Health Careers Program. Registration begins at 8:30 a.m. and the meeting will end at 4:30 p.m. Eighteen speakers will make presentations concerning the various careers associated with the health care industry. Each of the 18 speakers is presently active in the particular profession they will discuss.

The invitation is open to people throughout the South and Eastern New Mexico.

The program is being sponsored by Texas Health Careers Program, Texas Nurses Association (District 10), as Chapter American Physical Therapy Association, Plains Society of Radiologic Technologists, American Association of Medical Records Librarians, Lubbock District Culicosis Association, Medical Hospital School of Nursing, Lubbock Vocational School Nursing.

Anyone needing additional information should call the School of Nursing office at Medical Hospital, Lubbock, PHONE 2-1011.

Frank Ford Speaks For Family Farmer

Frank Ford, Republican candidate for State Representative, spoke at this week on the need for strengthening the family-sized farm.

"Texas has lost one-sixth of its farmers since 1960," said Ford, "and the average age of the farmer in Texas is now 54 years. If the family farmer is unable to make a decent living due to the cost-price squeeze, then we will lose many of our small businesses and small towns also, as the corporate farmer will usually by-pass local merchants with volume purchasing."

"Maximum effort should be made at every level," Ford continued, "to reverse this

trend toward centralized population and purchasing power. We must push for research and promotion for Texas agricultural products."

"We can also continue to see that processing plants for all our products are sited in our area, where food and fiber is raised."

Ford is a candidate in 72nd Legislative District.

Area Teams Enter Title Race Friday

Springlake-Earth, Whitharral and Bula join Olton in the title race tomorrow in the conference games. The four schools, A and eight conference schools, have finished their conference schedules and are now in the business of preparing for the business of the conference games. The Mustangs, led by high-scoring Stuart McMeans who has six touchdowns and seven PATS for 43 points, have lost only to ATeams, Friona and last week to undefeated Friendship 18-7. They have scored 108 points to 54.

Sudan's counter to McMeans is the leading Class A scorer in the area, Jerry Bellar, who has 85 tallies to his credit. And Larry Hanna is right up there with them, with 36 points. Sudan is ranked eighth in the state by the Associated Press this week.

The Hornet-Mustang game, being a conference clash, starts at 7:30, instead of 8 p.m. Another 7:30 p.m. District 3-A contest is at Springlake-Earth, where the Wolverines host Farwell's double-tough Steers.

Springlake-Earth, undergoing a rebuilding year with a 2-3 record, faces a team that is given the best chance to unseat highly-touted Sudan for the title. The Steers romped 54-14 over Sundown last Friday, and it was the Roughnecks who put the lone blemish on the Hornet record. Farwell has lost only to Friona while compiling 164 points and allowing only 56.

Leading Farwell's point production are Dean Stovall, 36, Al Phillips, 34, Craig Phillips, 24, and Danny Prince, 20. The Whitharral-Bula battle at Whitharral could possibly be the one to determine which club will wind up in the cellar of that conference.

Whitharral's Panthers have won only one contest thus far, and the Bulldogs are still looking to break their losing skid that hasn't let up since early in 1967.

That eight-man battle is scheduled to start at 7:30. Amherst's Bulldogs host the top Class B team on the South Plains, Lazbuddie. The 'Dogs are 2-2 for the season, following Friday's 34-19 routing of Hart. Lazbuddie took last week off for an open date, resting on an undefeated record.

Anton travels to Hart to try for the same outcome as Amherst had last week. That contest starts at 8 p.m. Mustang mentor Don Beck is hoping his Olton club won't be down after taking their big hurdle Dimmitt last week, as they've got an upset minded Hale Center to take on tomorrow.

Winners Compete Saturday

Young men will be representing Littlefield in the zone pass and Kick contest in Saturday morning. The six winners of last year's annual P, P & K contest are Rodney Hall, David Hall, Matt Grace, Buddy Brown, Gary Wayne Brown and Tommy Wilson.

County Red Raider Club To Be Formed Wednesday

Organization of a Lamb County Red Raider Club will take place at a meeting Wednesday night in the Willie Room of the REA building.

Leete Jackson, executive vice president of the Red Raider Club, will speak at the meeting, which is to begin at 7:30 p.m. Jackson will also show the colored film highlights of the 1967 Red Raider football games.

The general public is invited to attend. Jackson points out that 19 such clubs have been formed over the area, among which 40 per cent of the membership have never attended Tech.

Coffee will be served.

Four Games Set Today

Littlefield's two Eighth Grade football teams will host Slaton in a doubleheader this afternoon, while the Freshmen and Junior Varsity travel to Olton.

The Eighth Grade B team will start at 5:30 followed immediately by the A team clash.

At Olton, the Freshmen kickoff at 5:30, with the Junior Varsity taking the field as soon as that game is over. Both these Littlefield clubs are still looking for their first wins of the season, standing at 0-4 and 0-5 respectively.

The Eighth B fought Stanton Junior High of Hereford to a 0-0 tie last week. Their record is now no wins, two losses and two ties.

A 30-0 shutout was the fate of the Eighth A club, which has a win over Muleshoe and three losses.

Dennis Hartley and Don Chesser scored touchdowns for the Littlefield Frosh in their 32-12 loss to Abernathy last Thursday.

Hartley, who scored on a 21-yard run on the final play of the first half, was the leading local rusher with 30 yards.

Jim Graves was the favorite pass target, snagging four aeri-als for 82 yards. Chesser, who scored on a 31-yard pass from Glenn Short, caught three for 55 yards.

The Frosh earned 11 first downs to Abernathy's 13, and rushed for 81 yards to the 'Lopes' 172. But in the passing department, Littlefield completed seven of 12 for 137 yards to Abernathy's four of six for 54, giving the locals 218 net yards total offense to their hosts' 226.

Fumbles kept Littlefield in trouble most of the evening. They lost five to Abernathy's one.

OPEN LETTER To Area Cotton Producers

The Consumption of U.S. Cotton is dropping. To avoid further losses of markets, we must get competitive and stay that way.

To accomplish this, the only certain answer is to be sure your cotton is used, not just stored.

You can be sure if you sell to the Independent Merchants of the South Plains. These men make up the most competitive cotton market anywhere, and their only function is to move your cotton efficiently into the mills of the world.

We urge you to sell your cotton if at all possible, that's why you raised it, and that's what will allow you to continue raising it.

If the loan must be used, we suggest Form A. The simplicity and convenience of handling Form A Equities makes them more valuable.

DON'T JUST THINK PRICE, THINK CONSUMPTION. TOMORROW'S PRICES DEPEND ON TODAY'S CONSUMPTION!

Junior Graham 'Cat-Tor Clash' Rated Toss-Up

Junior Graham Week's Booster

Junior Graham was named "Booster of the Week" at Tuesday night's Quarterback Club meeting.

As the week's "Booster", Graham will ride the bus with the Wildcat football team to Lamesa, stay with them in the dressing room, on the bench during the game, eat with them, and return on the bus.

Lamesa has scored 82 points against opponents' 73 in five games, as compared with Littlefield's four game record of 80 against 83.

Coach Birchfield is hoping the momentum gained by the Wildcats against Lake View is still holding. A 3-2 record would be pleasing, indeed, to the 'Cat tutor Saturday morning when he turns his sights toward the Snyder Tigers.

Littlefield and Lamesa, two evenly matched clubs fresh from victories won last weekend, clash tomorrow night in the stadium of the Golden Tornadoes at 7:30.

The Wildcats are heartened with a 2-2 record and feel they have found themselves after humbling Lake View 49-16.

Lamesa is feeling its oats since upsetting favored Brownfield Friday, 23-6.

Coach Raymond Birchfield has a full crew of healthy Wildcats. He says the club's workouts have been much more impressive than last week when they were preparing for the San Angelo trip.

The mentor warned that if the 'Cats played as badly in the first half Friday night as they did against the Chiefs, they'll lose.

"We weren't ready to play when we got there. However, we hooked up some in the second half and looked a lot better," Birchfield stated.

The big Tors have already equaled their winning record of last season with two victories, and they've got five more contests in which to better that posting.

Lamesa has nine offensive and six defensive regulars back from last year, when Littlefield edged the Tors 14-13, Friday's hosts are large and impressive.

Against Brownfield's touted defense the Cubs beat Littlefield 10-0 in the third game of the season, Lamesa ran for 175 yards and passed for an additional 77.

Roy Burk, starting Wildcat quarterback, remembers well the possibilities of passing against the Tors. Last year he completed six of eight for 63 yards.

Brownfield found passing much easier against the Tors than running. The Cubs completed eight of 18 for 168 yards, but were able to run for only 61 yards against the stout Tor defense.

Against the big Cub defense Friday, Lamesa's leading rusher was Aaron Manuel, who breezed for 110 yards. Bennie Williams was next with 50, followed by Terry Kinard with 38.

And the Tors have a kicking game going for them, also. Larry Harris kicked a 19-yard field goal to open the scoring against the Cubs.

Commissioners Okay Budget For County

Approval of the county budget for fiscal year 1969 was the main item on an abbreviated agenda considered by the Lamb County Commissioners court Monday.

A total budget of \$1,429,175.44 was approved by the commissioners. This represents a substantial cut from the estimated \$1,491,616.28 for fiscal year 1968 and the whopping expenditure of \$1,536,558.64 for fiscal year 1967.

In other business, the panel approved the quarterly county treasurer's report and approved transfer of \$12,000 from the general fund to the officers salary fund. The funds will be used to meet salary requirements for county employees.

The court also approved all departmental reports submitted and authorized the payment of \$125 to the state to be applied to the salary of state trapper Lloyd Sweet. The payment will be matched by a like sum from Hale county on a share-the-cost agreement.

All commissioners with the exception of Precinct 2 commissioner Henry Lewis were present at the meeting. Lewis remains in critical condition in Methodist Hospital in Lubbock from injuries received in an automobile accident in early September.

States as "the expert on water." He said he attended a meeting in Denver Monday morning and nearly all of the officials there, who were from all areas of the U. S., were quoting Clayton.

Clayton serves as the chairman of the Interim Water Study Committee.

Barnes said Texas is moving, and that it should strive to "continue this growth and prosperity by making sure people like Bill Clayton will be in Austin to help move this state forward."

Introduced toward the close of the banquet were Clayton's wife, Delma; their children Tommy and Brenda; his mother Mrs. Myrtle Clayton of Springlake; his brother, Don and sister, Ann. Bill Armistead, general chairman for the event, thanked various chairmen and workers who helped in staging the appreciation dinner. He said 192 people were involved in the planning.

Estimates of the crowd varied from 900 to 1,500 in various reports after the banquet, but it was established finally at about 1,000.

The 600-odd seats on the floor were filled and about 400 persons sat in the bleachers.

The Rev. Don Holmes of Springlake, Clayton's pastor, and Rep. Ralph Wayne of Plainview were masters of ceremonies. Entertainment was by The Slumtown Symfunny of Lamesa. After pledges to the flags, the singing of "America" and the invocation, Mayor J. E. Chisholm welcome visitors to Littlefield.

He said the community had gone to tremendous effort "to show our representative we appreciate him--and we really do."

Two letters were read to the crowd, from Gov. John Connally and Lt. Gov. Preston Smith, who could not attend. Among the many state officials introduced was Judge Otha Dent, former Lamb County judge who now serves on the Texas Water Rights Commission.
