couldn't believe it when the committee announced Littlefield wasn't going to have Christmas decorations this year.

Mostly, most people in the same reaction. It was just what it took to get us out of our complacency to overcome our "I don't care" attitude.

Ward was irate enough to be ball rolling. He inspired other leading merchants to go to work. Within 24 hours had raised enough to guarantee us better decorations.

A good example of what we can accomplish when it is important to us.

**FINAL INSPECTION**—Rhea Bradley, at rear, State Highway Department resident engineer, and H. C. (Doc) Brown, inspecting engineer, look over new construction on Highway 51 north of Littlefield. Work on the \$450,000 project was completed Saturday. Center line will be painted this week. The new construction includes a 26-foot-asphaltic concrete roadway with eight-foot paved parking shoulder, the highest type two-lane construction used by the State. The highway was rebuilt from Littlefield to 1 1/2 miles south of Springlake, where a new roadway had been completed earlier. Contractor on the job was Henry L. Stafford of Lubbock. (STAFF PHOTO)

## In Poker-Game Shooting 'Missing Bills' Led To Argument

**By BILL TURNER**

Oilfield worker Delbert Jackson, who died last Thursday after the Springlake poker-game shooting, might be alive today had it not been for two "missing \$20 bills."

The two bills may have been the cause of an argument which led to the shooting, Sheriff Dick Dyer said Monday after taking a second statement from Joe Stark of Springlake.

Stark, who is charged with murder with malice in connection with the shooting, changed his story about the argument after submitting to a lie detector test, Sheriff Dyer said.

Stark said in the new statement that he went out to the L. H. (Peg) LaDuke farm, scene of the shooting, to get back two \$20 bills that he missed during the poker game, Sheriff Dyer said.

## CITY TAX ROLL LARGEST EVER

City commissioners have approved a tax roll totaling \$120,270 for 1958, City Secretary Joel Thomson announced Monday.

The roll is the largest in the history of the city. It is based on a \$2.00 tax rate and a valuation of \$6,013,531, Thomson said.

The valuation, which topped \$6,000,000 for the first time, was \$5,795,000 in 1957.

The increased valuation means the city has about \$4,360 more on its tax roll than last year.

Of the \$6,013,531, real property totals \$4,974,652 and personal property is \$1,038,879.

## Cloninger Picks 13, Wins Second Grid Contest

Cloninger of Littlefield, Leader's second football team this week.

13 of 15 games on the losing end. The Littlefield team broke by only six points.

Hutchinson missed the Springlake-New Deal game and the D-d-py-Friona clash, while Collins missed on Amarillo-Pashoel and Anton - Whiteface. Hutchinson guessed 50-8 on the tie-breaker, 10 points off, and Collins guessed 27-0, 21 points off.

Another contest appears in today's Leader. Entry deadline is 6 p.m. Friday. The feature games include Littlefield at Brownfield, New Home at Whitharral, Sulphur at Sundown, Amherst at Bovina, Springlake at Muleshoe, Anton at Cooper, Hale Center at Olton and Spade at Bula.

**In California-- Safe And Married**

## Missing Earth Teenagers Located

**Work Plan Proposed For 1959**

**EARTH**—Two teenaged Earth couples, missing since Sept. 9, were located Tuesday—safe, working and married—in California.

A two-week search for the youngsters ended Tuesday about 1 p.m., when the boys, Mike Simmons, 17, called his parents, Mr. and Mrs. Dennis Simmons.

The Simmons boy told his father that the two couples were together at a ranch near Bakersfield, Calif.

The parents were told that the couples are married and that the boys have jobs driving tractors on the ranch.

The couples are Simmons and Carolyn Blackwell, 13, daughter of Mr. and Mrs. Carroll Blackwell of Earth, and Kenneth Powell, 17, son of Mr. and Mrs. Woodrow Powell of Earth and Charlene Leonhart, 15-year-old daughter of Mr. and Mrs. Kenneth Leonhart of Earth.

Simmons and Miss Blackwell and Powell and Miss Leonhart had gone together while attending Springlake High School and their parents believed they may have run away to get married.

The relieved parents were together Tuesday night and talked to the youths by long-distance telephone.

A relative said the parents described the couples as "happy and well and making a living."

The youths reportedly told their parents they plan to come home sometime in November, after they have finished with crops at the ranch.

The two couples were reported missing Sept. 9 after they failed to show up for classes at Springlake High School. That set off a search that eventually spread throughout the Southwest.

## Work Plan Proposed For 1959

New Christmas decorations for Littlefield were ordered Tuesday by the Chamber of Commerce's board of directors after the problem of "to have or not to have" decorations this year got a thorough airing Tuesday at a general C-C membership meeting.

About 30 members who attended the meeting called for a planned Christmas program, including the decorations, and also drew up a proposed C-C program of work for 1959.

Several merchants protested after the C-C's retail council announced last week that the city probably would not be decorated for Christmas this year.

The council said, in making the announcement, that the old decorations could not be used and that there was little hope of raising enough money to buy new ones.

## Four Hurt In Mishap Near Earth

**EARTH**—Four persons were injured Monday about 12:10 p.m. in a head-on collision on U.S. Highway 70 near the west city limits of Earth.

The injured are Clennon F. Williams, 51, Rt. 2, Springlake, his wife, 46, John W. Ellis, 73, Paducah, and his wife, 58.

Mr. and Mrs. Williams, hospitalized at a Muleshoe hospital, were in good condition Wednesday, attendants reported. Williams suffered a foot injury and facial lacerations. His wife received severe facial lacerations and a minor facial injury.

Mr. and Mrs. Ellis were in fair condition Wednesday at Medical Arts Hospital here, attendants said.

Ellis received a broken leg, multiple fractures and facial cuts. Mrs. Williams also suffered a broken leg, a knee injury and a head injury.

Investigating officers said Ellis was driving a 1948 model pickup west on Highway 70 and Williams was traveling east in a 1955 model car.

Ellis told officers he reached down in the floorboard to straighten some clothes and his pickup moved across the center line of the road.

When he looked up, he said, he saw the Williams car and pulled into a ditch beside the road. Williams also took to the ditch in an attempt to avoid the collision, officers said. The car and the pickup met head-on in the ditch.

## Trustees OK Parking Lot, Lunchroom Paving Projects

A \$6,600 contract for paving around the school cafeteria and a 75 by 265-foot parking lot was approved by Littlefield school trustees Monday in a special meeting.

The contract was awarded to Thomson Construction Co. of Denver City, the contractor who has been handling the city's paving projects.

The board announced only a week before that it was considering the special projects. It made money available for them by authorizing a change in the district's sinking fund.

The decision to pave the new parking lot, located north of the high school building, came after it was learned that the lot east of the high school, which has been used for student parking, had been sold.

The land east of the school was sold by Sacred Heart Catholic Church to Mrs. Floyd Dyer. It will not be available for future parking.

Mrs. Dyer plans to build rent houses on the land.

The school board, which had considered purchase of the land, then began studying the paving of the lot north of the school.

The new parking area will be located from a driveway on the north side of the high school building to an oil well which is situated further north.

The 75 by 265-foot lot will accommodate about 70 cars, Supt. Ralph Schilling said.

## C-C Slates Second Farm Dinner At Pep

The Chamber of Commerce's second farm dinner of 1958 will be held Thursday, Oct. 2, at 7:30 p.m. at the Pep School, it was announced this week.

Tickets are on sale at the C-C office, C-C Manager Jack Lacy Jr. announced.

## Cats, Brownfield To Tangle Friday

**By ALEX DUGGAN**

The Littlefield Wildcats, hot from two straight victories, will meet "the test that tells" at Brownfield against the Brownfield Cubs, Friday at 8 p.m.

The Cubs have gone winless in their first two contests. They took a 41-6 drubbing at the hands of the Levelland Lobos, then dropped a 14-0 decision to Plainview last week.

However, Coach Don Williams had this to say about the coming game after a check on the scouting report and the workout Tuesday:

"It looks like it's going to be a rough night—an awfully rough night."

One senior from the Wildcat team that played against Olton will be missing from the line-up Friday. He is Ray Minyard, who cracked a rib in the Monday workout.

Captains for Littlefield are Gus Gallini, Minyard, and James Blackwell.

Last year Littlefield scored in the last minute to take a one-point victory over the Cubs at Littlefield. This year the game may stack up just as tight.

The Cubs operate from the winged T with Oswald, the quarterback, running the team.

Players who showed well against Plainview for Brownfield are Hensen, Wright, and Murphy, three of the Cubs' starting backfieldmen, Coach Williams said.

## Tickets On Sale Here For Brownfield Game

Tickets to the Brownfield-Littlefield football game Friday night at Brownfield are on sale at Brittain's Pharmacy, Dr. Ralph Schilling, superintendent of schools announced.

Tickets are \$1.50 each and may be purchased through 4 p.m. Friday, Dr. Schilling said.

## Theory Thrown Out

That theory was thrown out the window Tuesday, however.

The merchants, led by Amos Ward, joined with the board of directors Tuesday afternoon in a campaign to raise \$1,953, enough to buy new decorations.

By Wednesday afternoon, more than \$1,100 had been raised. The directors and merchants, 17 in all, conducted a store-to-store drive to collect enough money for the purchase.

C-C directors were sure enough of the drive by late Tuesday afternoon to go ahead and order the decorations.

The campaign team planned to continue the drive through the rest of this week, if necessary.

Plans call for some of the old decorations to be used, if possible, along Delano and Hall Avenues and 10th Street.

The program of work outlined by the membership at Tuesday's meeting is a proposed plan and will be submitted to the board of directors for approval.

## Work Program

Main parts of the program, by committees, include:

- Safety Council—Develop a traffic safety committee.
- Governmental Affairs—Continue "Get Out The Vote" campaigns; support state's advertising program.
- Agriculture Council—Develop a good agriculture program, work for better relations between business and agriculture, continue farm dinners, secure additional vegetable markets and encourage more farmers to take part in the C-C.
- Business Development—Seek more new industry to diversify the economy, work for more paving and parking, assist expansion of present businesses.

## Civic Affairs

Work for sewage in Flats, four-lane highway 84, city and park beautifications and an annual city-wide event and parade.

Retail Council—Have a Christmas program, hold a training program for clerks, have a store-front modernization campaign, start a mid-week promotion, carry on a shop-at-home campaign and develop an annual event and parade.

Public Relations—Get more people active in the Chamber.

Board of Directors—Increase the present budget, hold a membership campaign and maintain a strong decision-making board.

## THE WEATHER

Today's forecast: Cooler today and Friday with precipitation moderate to locally heavy.

Temperatures—Sunday high 60, low 58; Monday high 80, low 61; Tuesday high 86, low 68; Wednesday at noon, 84, low 64.

Moisture for this week, 1.15 inches; moisture for September 1.92 inches; moisture for year, 14.57 inches and moisture at this time last year, 17.79 inches.

**TOUGH LUCK, RAY**—Ray Minyard, center, is a captain for Littlefield's Wildcats this week, along with Gus Gallini, left, and James Blackwell, right. But Minyard, a halfback, will be forced to miss the Brownfield game with a cracked rib. (STAFF PHOTO)

### Littlefield Toastmistress Club Holds Installation Of Officers

The regular meeting of the Toastmistress Club was held Monday noon at the court house with the president, Margaret Murdock, presiding.

Due to the fact that the installation of officers was to be held at this meeting, Topic Mistress Ann Rutledge appointed only three speakers.

They were Ella Lindley, who spoke for a minute on hospital procedure for charity patients; Mickey Stephens who spoke on present cotton allotments; and Betty Schellin, who spoke on the value of music in our town.

The toastmistress, Betty Schellin, introduced the speaker, Bess Atchison, a Dale Carnegie graduate, who spoke on memory improvement.

The whole club participated by naming objects until Mrs. Atchison had a total of 29 to remember.

After she called them back in the order that they had been named to her, the group called out numbers, to which Miss Atchison would respond with the object given to her in that place.

The installation of officers followed the speech by Miss Atchison, with past president, Mickey Stephens in charge of the installation. Margaret Murdock, president; Pearl Brandon, program chairman and first vice-president, installed by proxy with Betty Smith, second vice-president, standing in the absence of Mrs. Brandon; Ann Rutledge, secretary; Ella Lindley, treasurer and Mickey Stephens, club representative.

The next regular meeting will be held at the court house, Monday noon, Sept. 29.

Mrs. Murdock extended a welcome to all ladies to attend the meeting.

### National Citizenship Day Observed By HD Council

National Citizenship Day was observed when the Lamb County H. D. Council met Wednesday, Sept. 17, at the court house. Mrs. Bayne McCurry, a member of the State Citizenship Committee for the past year, led the pledge of allegiance to the flag and spoke on the procedure of becoming a citizen.

She urged clubs to emphasize citizenship in forthcoming programs and to plan to attend the next naturalization ceremony that is held in Federal Court in Lubbock.

Roll call was answered with interesting facts about United States presidents. Mrs. McCurry had compiled these bits of information and had distributed them to those attending at the beginning of the meeting.

Mrs. Leonard McNeese presided at the business meeting. Mrs. Lady Clare Phillips announced a 4-H Adult Leaders' training meeting to be held Sept. 30 at 2:30 p.m. at the Courthouse. The Year Book Committee will meet Oct. 1 at 2:30, and all club vice-presidents are urged to attend and bring suggestions for programs and for roll call.

At the close of the council meeting, the three Lamb County delegates to State THDA meeting, Mrs. Johnnie Lee Feagley, Mrs. Bayne McCurry and Mrs. Allen Haley, gave a report on the state meeting which was held Aug. 13-15 in Austin. The report, given in the form of a skit, was interesting, original and informative.

The Rocky Ford Club served refreshments of cakes and cookies to the following Mrs. Ted Robbins, H. W. Kendrick and Allen Haley, Pleasant Valley; V. M. Peterman, J. L. Feagley, John Vrubel, Marit Hamill and Leonard McNeese, Rocky Curry, Spade; C. C. Solesbee and E. J. Graham, A. L. Aldridge and C. E. Jones, Oklahoma Avenue; W. Q. Hampton, Sunnydale; A. B. Morgan and W. B. Gwynn, Hoff House; Fred Duffy, Yellowhouse; and the agent, Lady Clare Phillips.

Barbara Ann Huff Is Shower Honoree. A bridal shower, honoring Barbara Ann Huff, of Roswell, N.M. was given in the home of Mrs. Emerson H. Banta, Roswell.

The table decorations were in the bride-elect's chosen colors of blue and white.

Mrs. Gene Fronterhouse and Mrs. Nellie Bains presided at the serving table covered with a white, cut Madiera cloth imported from South America. The center piece was an arrangement of blue forget-me-nots and bridal wreath, surrounded by white satin streamers and wedding bells. Silver candelabras with white tapers were featured on each side of the arrangement.

Punch and white sheet cake, decorated in blue, were served to the guest.

Out of town guests were Mrs. Don Oliver, sister of the bride-elect and Mrs. Raymond Oliver, both of Hale Center and Mrs. Nellie Bains of Abilene, maternal grandmother of the bride-elect.

Mr. and Mrs. William Carnie and their daughter, Barbara Ann, were formerly of Hart Camp and Barbara attended school at Olton.

# Olton Boy Wins Top Honor In Sears 4-H Swine Show

An 11-year-old Olton boy won top honors in the annual Sears 4-H Club Swine Show at Lubbock Saturday. The champion pig was from 12 area counties in the livestock judging pavillion at Texas Tech.

Danny has been showing pigs for almost two years. Danny was a guest of Sears, co-sponsor of the show with the Texas Agricultural Extension Service, at a noon barbecue. Another area youth, Lamar Polard of Sudan, showed the fourth place boar in the show. Leonard Albus of Pep had the seventh place boar.

# Area Football Teams Have Full Slate On Tap This Week

A full schedule is again on tap for area football squads following a week which saw three different teams break into the win column for the first time this year. The Springlake Wolverines snapped a long losing streak by clubbing New Deal, 8-6, and the Wolverines will be trying to make it two wins in a row with a victory over Muleshoe at Muleshoe Friday.

test New Home at Whitharral this week. The Bala Bulldogs will host another area team, Spade, at Bala this week. This six-man tilt is always a big one, and this year the game will be almost a toss-up. Twice beaten Olton will try to get back to winning ways at Olton against the Hale Center Owls. The peppy Mustang team will be given even odds against them.

# B-Team To Meet Lubbock; Others Face Cub Elevens

All the football teams in the Littlefield schools will hit the gridiron this week. The B-team will journey to Lubbock, the freshman will host Brownfield here tonight, and the eighth and seventh grade teams will travel to Brownfield this afternoon for contests that will be forerunners for the varsity's clash with the big Cubs Friday.

The freshmen under Coach Bill Harman will face the Cub Frosh at Wildcat Stadium tonight. Captains for the Littlefield team will be Ronnie Rice and Jimmy Glover. The eighth graders, who slammed Morton 30-0 at Morton last week will attack the eight grade Cubs at Brownfield tonight at 7. Eighth grade captains are Roger Morris, Spike Jones and Don Pitts.

# Texas Tech Red Raiders Meet West Texas Saturday

LUBBOCK—Texas Tech entertains West Texas State in the 23rd renewal of a regional grid rivalry in Jones Stadium at 8 p.m. Saturday. For the Red Raiders the game is likely to be as harrowing as last week's 15-14 victory over Texas A&M. West Texas State makes a habit of keying high for the contest, and the strong Buffaloes have trounced the Red Raiders in their past two meetings.

difficult than last week is the fact that they'll have less than a week to prepare for the T-split-T running Buffaloes, while they had worked since Sept. 1 toward the single wing Aggies. Weaver hopes the Raiders will make a better offensive showing. Tech, in coming from a 14-0 deficit, gained only 111 yards rushing and a scant 18 passing. Although sell-outs to the Baylor and Arkansas games loomed even before the victory over the Aggies, both reserved and general admission tickets will be available Saturday night. Tech holds a 16-6 edge in the rivalry begun in 1925. West Texas beat the Raiders 34-14 two years ago and 19-0 last season.

# Monday Night Rain Slows County's Farm Operations

More rain Monday night slowed farming operations in Lamb County, and farmers in the area began wishing for dry, sunny weather. Rains averaging about an inch hit most parts of the county. Western Cottonoll reported 1.15 inches in Littlefield. About .30 was recorded east of Spade, but elsewhere the moisture generally about an inch. County Agent Bill Kimbrough said the moisture would tend to hurt cotton grades some, but no much if farmers get dry weather and let their cotton mature. In other farm news, the Employment Commission said Monday that about 25 had been ginned in the area. The TEC also reported has unfilled orders for farm workers. Carl Phipps, TEC said the office employed 6,000 workers. The start of the season was at hand Tuesday, Phipps said he saw the best per of the season since dryland field southwest herst.

**THE BIBLE SPEAKS**  
 International Children's Sunday School Lessons  
**BY DR. KENNETH J. FOREMAN**

Bible Materials: Amos 1:1-9; Isaiah 1:10-27; Micah 2:1-4, 6-8; Matthew 23:1-42; 25:1-13.  
 Devotional Readings: Psalm 37:1-42.

**Final Verdict**  
 Lesson for September 25, 1953

ONE THING the Bible teaches quite plainly: God is the final court of appeal, his is the final verdict. This is true in two ways. First, only God's judgment is final, because all other judgments are partial, they are based on a comparatively ignorant point of view. We never see the inside of people, or not very clearly at best. We cannot even examine our own minds and hearts with any accuracy. We are ignorant, moreover, of many of the circumstances surrounding or leading up to the acts of other people. Only God knows man inside and out, only God knows the "intents of the heart", only God knows all the circumstances leading up to men's decisions.

Dr. Foreman

In another sense God's verdict is final, because it will be the last one. After all a man's friends and enemies have had their say, after history has enshrined him, blasted him or forgotten him, God will have the last word. Not man's opinion of him, not other men's opinion of him, is finally decisive. Every man's destiny depends, in the long run, on what God thinks of him.

**Justice comes first**

The great prophets, and our Lord who was "more than a prophet," bring this home to everybody with a working conscience. Amos had his vision of God testing the walls men have built, with his own plumb line, ready to tear down every wall not meeting the test. Isaiah tells his church-going city that God has no use for any religious thing they do, because they have been content with injustice. The first thing to do is to "seek justice." Micah proclaims the doom of God on those who make themselves rich by making others poor. Jesus in his great provision of the Last Judgment, divides men right and left on the basis of how they have treated their fellow-men, especially their fellow-men in distress. And then there is the Sermon on the Mount. People argue over this and try to by-pass it, in many ways. They debate over whether it is a practical ideal or not. The fact is, Jesus presents it as God's way of life for man. The Golden Rule, for example, Jesus' principle of justice in one short sentence (Matt. 7:12), is not just a nice idea if you can do it: it is a rock in life's foundation. Build on my sayings, Jesus says, in effect, and your house will stand the storm. Pay no attention, or memorize them if you like—just listen and don't do, and the great storms will bring your house of life to certain ruin.

**Justice is not optional**

Every one agrees that it takes all kinds of Christians to make the Kingdom of God. A Christian can serve God and men in various ways. It is by no means necessary for all Christians to be ministers, or to enter politics, or to be professional men. A good Christian dishwasher—if that is the most he can do with the mind he has—is just as faithful a Christian as a good Christian governor of a state.

But there is one thing that is not optional, not an extra that a Christian can take on as a hobby if he likes, but an absolute essential: justice. We have seen in these past weeks that the Bible idea of justice is not confined to the courtroom (though it is there, of course). Treating people as you would wish to be treated, seeking the good of others as if it were your own: this is justice, in the home and everywhere. This is the ABC of living as a Christian.

**Justice Comes Last**

So it should not be surprising, though Jesus hinted more than once that a good many people will be surprised—it should not be surprising that at the last, when God sums up the case and his final verdict, he will judge (I Peter 1:17) "each one impartially according to his deeds." And since it is very hard to perform any act whatever without affecting other people, this means that after all other judgments are in, God's last judgment of each of us will be based on that question: How did you treat people?

**THE GREATEST TEACHER**

OUR NEW TEACHER'S NAME IS MISS THOMAS

That girl at the blackboard is Ellen Blake. She is a sixth grade student at Fairview Heights School, and she has just written my name. I'm the new teacher—Mary Thomas.

Being a teacher is a big job. Each Sunday I say a special prayer for guidance in my work. But I am well aware that the task of training these children for good citizenship is one I can't possibly accomplish alone.

This is a wonderful age, but it is often terrifying. There are so many diversions, so many activities and so much knowledge that seem apart from the Church. And yet God created everything, and God's love is universal. Today's children need help that only the Greatest Teacher of all can give them. They need the teachings of the Church, and a firm basis of Faith.

I'm gratified when I see so many of my students at church with their parents. The Church needs all; all need the Church.

Copyright 1953, Kestler Adv. Service, Strasburg, Va.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**About Your HEALTH**

A weekly public service feature from the Texas State Department of Health. HENRY A. ROLLE, M.D. Commissioner of Health.

If you have small children or if you have raised them into adulthood, you have at one time or another had a sick child on your hands. Today, if you are like most parents, you call the doctor right away.

This puts the doctor on the spot. He can't see your child over the telephone, so the only way he can get a small understanding of the problem is for you to give him a reliable and full description of symptoms your child is displaying.

An adult or older child can describe his own symptoms — "It seems to hurt right here doctor, a sort of sharp pain..." But a small child, even if he can talk, has a great deal of trouble explaining how he hurts or what is bothering him, because usually he has a fever and is not thinking clearly.

For this reason there are several things you can do to have this information ready BEFORE the call or visit so the doctor will not be burdened with a guess in the dark.

First, his temperature with a reliable thermometer (a rectal thermometer is best) following directions carefully. Feeling a child's skin tells little unless the temperature is exceptionally high and by then the child may be seriously ill.

Notice carefully the appearance of the skin—rash, yellowish cast, grayish, pale — and make certain to note the type of rash, whether it is flat or raised above the skin level.

Is the breathing unusually heavy or light? Take count of the breaths per minute and pass this information on to the physician. It is often as important as a temperature reading. Also, check other symptoms, such as wheezing, coughing, etc.

Important to the doctor, is whether the child is restless, drowsy, or if there are peculiar movements of a jerky or wild nature. If he is quiet, is he unconscious and slow to respond or just dazed? The parent is the best judge of these signs since he is familiar with the normal child. Don't omit them from your report.

Stewardship night was observed at the mid-week services of the Hart Camp Baptist Church Wednesday night. The Sunbeams, under the direction of Mrs. D. R. Leonard, quoted scriptures concerning stewardship. Taking part were Steve Burleson, Brenda Leonard, Ronnie and Karen Howell.

The Junior G.A.'s under the direction of Mrs. Edwin Oliver including Suzanne Martin, Shirley Leonard and Jerolyn Timmins were participants of the program. Frances Pressley, a member of the Crusaders for Christ gave a part. Mrs. Junior Muller, Mrs. Dewey Parkey, and Mrs. Leonard Sullivan of the W.M.U. also cited facts concerning stewardship.

Mr. and Mrs. Delbert Timmins and Deborah recently made two trips to Oklahoma.

Mr. and Mrs. Thurman Moody and Elizabeth of Tucumcari spent the weekend in the home of her parents, Mr. and Mrs. Luther Pressley and Frances.

Mr. and Mrs. Roy Black of Spade and Mr. and Mrs. Sedell Black and son of Littlefield visited in the J. C. Muller home Sunday afternoon. The Don Mullers and Junior Mullers were also present.

Mr. and Mrs. Mack Wheeler and Julie of Lubbock were guests over the weekend in the home of his parents, the M. W. Wheelers. Aubrey Neinst and Junior Muller were in Ft. Stockton on business Tuesday.

## Zone 5 Voters Will Elect SCD Supervisor On Oct. 7

Zone 5 residents of the Lamb County Conservation District have an election date to keep on Oct. 7. Wes Fuchs, acting work unit conservationist at Littlefield, classifies the election as very important and urges all eligible voters to cast a ballot.

A qualified voter, according to Fuchs, is a Zone 5 (Spade area) landowner who is over 21 years of age. Wives of landowners are also eligible to vote and he urges them to do so since they too are interested in soil conservation district activities.

Zone 5 voters will elect a farmer or ranchman as their supervisor and representative on the Soil Conservation District Board for the next five years.

The Zone 5 election in Lamb County will be held in a hearing in the Spade School cafeteria at 7:30 p.m. Oct. 7. Albert Lookwood is the present supervisor.

He points out that the soil conservation districts are sub-divisions of the State of Texas and are governed by locally elected farm and ranch landowners. The districts play a major role in local soil and water conservation programs. Through their technical assistance, equipment, leadership in small watershed projects and many other services are provided to the cooperating landowners.

It is because of the great importance of the districts and the supervisors who direct their programs that Fuchs urges all eligible voters to participate in the Oct. 7 election.

County Agent Bill Kimbrough or soil conservation supervisors can supply information on the election and also on how a farm or ranch owner may become a district cooperater.

### Friday Deadline For Applications On Soil Bank

Friday is the deadline for a farmer to apply for a maximum payment rate under the new soil bank program. County ASC Office Manager Lamar Aten reminded farmers this week.

Almost 200 farmers are in the new conservation reserve program so far, Aten said.

Average payment rate in Lamb County is \$24 per acre, but the rate will vary from \$13.30 to \$14.70, according to the maximum rate set by the County ASC committee.

After the farmer has been notified of his payment rate, he has until Oct. 17 to apply for a soil bank contract. When he applies for the contract, he specifies the lowest payment rate he is willing to accept for land placed in the soil bank.

### 'Missing Bills'

\$12, which he put in his pocket, the sheriff said.

Stark said he got his .32 caliber pistol and then went to the La-Duke farm, where Jackson and Bownds got in the car with him, with Bownds sitting in the center.

Stark, who said he had the .32 pistol in his hand but didn't point it, then asked the return of the two \$20 bills, according to the statement he gave Sheriff Dyer.

Jackson refused and got out of the car, but Bownds handed Stark some money, Stark told Dyer.

Jackson came back, Stark told Dyer, with a .22 rifle and demanded the money back. When Stark refused, a fight started, Dyer said Stark told him.

Stark said the three of them were fighting outside the car, but he managed to reach his gun, which he had left in the front seat, he told Sheriff Dyer.

The fight continued and Stark fired two shots and Bownds and Jackson fled, Stark said.

It turned out that Jackson had been hit in the upper right leg, the bullet apparently severing an artery, Bownds took him to Littlefield Hospital about 4:15 a.m. Thursday. Jackson died about 7 a.m.

It also turned out that Bownds apparently handed Stark more than \$100 at the scene of the shooting.

When Stark was arrested by Sheriff Dyer Thursday morning, the sheriff took \$118.25 from him.

Stark told Dyer that he did not know how much money Bownds had handed him at the time. He said that all he had before Bownds gave him the money was about \$14.

Stark also stated that he did not know he had hit anyone until he was arrested, Sheriff Dyer said.

Sheriff Dyer said that a .32 calibre bullet was taken from Jackson's leg after the shooting. Dyer said a .32 pistol was taken later from Stark.

### 14 Jailed Here Over Weekend

City and county officers arrested 14 persons over the weekend. Most of them were jailed on drunk or disturbance charges.

City officers jailed seven persons, all on drunk charges. County officers arrested four for disturbance and one for drunkenness.

Only one man was jailed on a felony charge, Margarita Lara, who was charged with family desertion. Lara's address was listed as Galveston.

### Sudan Youth Wounded Sunday In Hunting Mishap

A 17-year-old Sudan area boy was critically wounded in a hunting accident Sunday.

He is Harold May, who suffered a 16-gauge shotgun wound in his left side.

May was described as in fair condition at West Plains Hospital in Muleshoe Wednesday.

He was wounded while hunting with his twin brother, Carroll, and two friends, Jackie Moos and David Swinford.

The four were hunting late Sunday afternoon on the Tom King Jr. farm near Sudan. The May brothers and Swinford are students at Sudan High School.

### New Parking Lot For Farm Workers Being Sought

A new parking area for cotton workers who come to Littlefield was being sought here this week after the Santa Fe Railroad roped off an area near the depot which has been used.

Chamber of Commerce and city officials reportedly were working on the project. Texas Employment Commission Manager Ed Vaughn also said he is interested in the project and said he would work with the C-C and the city to acquire a lot.

Santa Fe officials had no comment on the closing of the lot "at this time." The Santa Fe has made the space available for parking of farm implements and trucks in the past.

### Family Appeals For Vases Taken From Gravesite

A Littlefield family issued an appeal this week for the return of two vases which were taken from a grave in Littlefield Cemetery last week.

The family, which asked not to be identified, said the two vases were part of a set of three which they filled with flowers and placed near the grave.

"The guilty party will know where to put them," a member of the family said.

"Whoever took the vases took the flowers out and scattered them over the grave," the member said. "The vases were put there for a purpose and we certainly wish they would be returned."

### Street Selected Best Speaker

Bill Street was selected best speaker of the evening and Jack Christian the best participant at the regular meeting of the toastmasters club Monday evening.

Viggo Peterson was toastmaster and Jack Christian was topic-master. Speeches were made by Cecil Hall, Bill Street, and Vernon Hofackel.

General evaluator was Calvin Price; speech evaluators were Joe Wilson, Wendell Tooley, and J. D. Hagler.

Visitors present were Bob Saunders and Paul Jensen with Viggo Peterson and Rev. R. C. Dearman with Calvin Price.

The club voted to hold its regular dinner on Tuesday nights hereafter instead of Monday nights.

jailed by county officers, one on a simple assault charge and the other for disturbance.

The man charged with assault was transferred to the Border Patrol for deportation. The other, who suffered a minor knife wound, was released to his employer.

## Five Killed In First Half Of Year Mishaps Involving School Buses

Five persons were killed and 197 injured in rural traffic accidents involving school buses in the first six months of the year, Col. Homer Garrison, director of the Texas Department of Public Safety, announced today.

State laws regulating traffic on highways read as follows: The driver of a vehicle upon a highway outside of the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may then proceed past such school bus at a speed which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children. . . The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or passing a school bus which is on a different roadway or when upon a controlled-access highway and the school bus is stopped in a loading zone which is a part of or adjacent to such highway and where pedestrians are not permitted to cross the roadway.

## Applications For NROTC Now Being Taken, Brune Announces

Applications are now available for the Navy's 13th annual competitive examination for its nation-wide Regular NROTC college training program, according to a recent announcement by the Navy Department. The mental examination is scheduled for Dec. 13, 1958 and is open to all high school seniors and graduates who can qualify.

The deadline date for receipt of all applications is Nov. 15, 1958, the Navy stated.

Applications for this program leading to a career in the naval service are available from William Brune, secondary education coordinator, at Littlefield High School.

Male citizens of the United States between the ages of 17 and 21 are eligible to apply for the Navy College Aptitude Test. Persons attaining a qualifying score will be given the Navy's rigid midshipman physical examination next February.

**HE'S A COUGAR NOW**—Mike Greer, sophomore halfback from Littlefield, is expected to see action Saturday when the University of Houston Cougars take on the Texas Aggies in 70,000-seat Rice Stadium in Houston. Greer was an all-district halfback with Littlefield's Wildcats in 1956, his senior year, when the Cats advanced to the State AAA semi-finals. He's the son of Mr. and Mrs. Mackey Greer.

## New Grove Of Woodmen Circle Slated

A new grove of the Supreme Forest Woodmen Circle will be organized at the Northwest Texas district convention in Dumas, September 29.

The announcement was made by Mrs. Iva Mae Dabbs, national representative and district manager of Dumas. The grove will be located in Cactus, Mrs. Dabbs said.

## Swimming Pool Committees Meet

**EARTH**—William L. Mann, Carroll McDonald, Ted Borum, and Mrs. Mildred Knight of the Earth Chamber of Commerce met with Golden Ferguson, W. L. Barton and Eugene Lee of the Jaycees in a joint meeting of the two organizations, Wednesday night in the local CoC office.

The purpose of the meeting was to screen the tax roll and select any other prospects for the preparation of pledge cards to be used in the forthcoming campaign to build a swimming pool in Earth.

## Whitharral School Menu

Thursday — Steak and gravy, butter carrots, mashed potatoes, sliced tomatoes, rolls, frosted cake squares, milk.

Friday — Roast and gravy, green beans, canned sweet potatoes, cabbage, apple salad, pears, and milk.

From the pool of qualified candidates remaining in competition, approximately 1800 young men will be selected for appointment as midshipman and will enroll in one of the 52 colleges of their choice where a Naval Reserve Officers Training Corps Unit is located.

The Regular NROTC is maintained for one purpose—to train and educate young men for ultimate commissioning as career officers in the Navy and Marine Corps. Successful candidates will start their Naval Careers in colleges and universities across the country in 1959.

After a normal college education and substantial Navy training, graduates will be commissioned as regular officers in the Navy or Marine Corps, for active duty with the United States Fleets, throughout the world. For those who qualify and apply, assignment to flight training will open new careers in Naval Aviation.

In addition to the normal college curriculum, midshipmen in the Regular NROTC will study a planned course in Naval Science. All tuition, fees, and books will be furnished by the Navy, plus an annual retainer pay of \$600 for a maximum of four years. Regular NROTC midshipmen will spend part of three successive summers on training cruises with various Fleet units.

## Fish Hatcheries' Production Down From 1957 Record

**AUSTIN**—Requests for restocking ponds and lakes from State fish hatcheries this year have been about one-half that of 1957, according to the director of inland fisheries of the Game and Fish Commission.

Demand was heavy in 1957 due to rains increasing volumes of reservoir water after the drought. A rise in fish-carrying capacity, therefore, brought about a statewide fish restocking program, the director said.

Hatcheries produced and distributed 14,852,999 fish in 1957. Of these, 9,310,133—or about 63 per cent—were placed in public waters such as city reservoirs or state dam projects. The rest went for stocking private farm ponds and lakes over the state.

Black bass was the most popular species with 9,607,363 being distributed. Next largest number produced was 2,030,665 channel catfish. The remainder was made up of crappie and sunfish.

Some South Texas hatcheries have finished distribution at this time, while others are beginning their fall distribution schedules, the director said.

Anyone may get fish for stocking free of charge if present pond supplies are depleted from drought, drainage, or treatment. Application should be made by postal card to the Game and Fish Commission, Walton Building, Austin, Texas.

## Act Of 1958 Starts New Era In Farm Economics

The Agricultural Act of 1958 is a document of tremendous significance to the entire agricultural community. Its vast implications go far beyond the few commodities affected immediately.

It launches a new era in the practical economics of farming, according to officials of the Department of Agriculture—who were primarily responsible for the type of legislation Congress approved in the past session.

The key to farm production, income and spending during the immediate years ahead lies in the principle adopted now for the first time in 20 years by the Congress as being national farm policy.

The principle holds that agriculture, and the nation, will prosper from farm production adjusted almost purely by supply and demand. Less government interference, more freedom for the farmer, this is the doctrine advocated by Secretary Benson as the answer to the problems of low farm income and over-production.

The new farm law (in the form of amendment to existing law) does not go as far in the direction of free enterprise as the Secretary advocates—but it takes a giant step, and shadows further advances on this route next year.

Specifically, the law breaks down the barrier which prevents price supports of the so-called basic commodities from going below present levels. This floor is 75% of parity—parity being a constructed yardstick showing the position of the farmer relative to the economy. It reduces the floor to 65% of parity for cotton, corn and rice, but continues the 75% minimum for wheat, peanuts and tobacco.

In the case of cotton and rice, the decline in minimum supports will be in stages until 65% is reached in 1962. In the case of corn, growers will vote in December whether they prefer the new program of no production controls and 65% floor in 1959, or the present control program.

Another major change is the repeal of the so-called escalator clause in current farm laws covering the major crops. Removed in the case of cotton, corn and rice (but retained for wheat, peanuts and tobacco), this clause directs that as supply of a commodity is reduced, the level of price support must be increased.

This clause was killed on the basis that it tends to defeat surplus removal programs by encouraging production increases once supplies have been reduced.

What these changes mean, according to federal economists, is that farm production during the next few years will continue huge. Prices of farm commodities will adjust to lower support levels and be more responsive to supply and demand. And, long-range, lower prices will open new markets to absorb surpluses, and farmers will make up in sales volume the income they lose in lower unit prices.

As supplies go down, farm prices will go up. In periods of big supply farmers will cut production if there is no artificial support price incentive.

As it turned out—Congress decided to start moving the government out of agriculture only a few days after the USDA predicted a new record total output of field crops this year. Washington observers consider this coincidental.

The debate in Congress did not indicate that the action came as a result of the crop news. What was finally contained in the farm bill was decided by hot and heavy horse-trading between Southern lawmakers and Administration forces.

As one Southern legislator put it, it was a matter of yielding some points to the Administration—or no protection for cotton and rice allotments. The new law prevents sharp acreage cuts scheduled for cotton and rice next year.

1958 crops production is destined to give not only rural areas, but the national economy, a solid shot in the arm, say federal economists. To the farmer, it means more income; though prices will be down, volume sales will make the difference. To buyers, it means abundant supplies of most crops at lower prices. To farm suppliers, it means a bigger sales potential—chemicals, equipment, transportation, etc.

Total harvest this year will hit 116 on the all-crop production index, compared with the previous high on 106 (1947-48) as 100 established first in 1948 and matched in 1956 and 1957. Most crops show increases over 1957.

### Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Teacher pay raises, an issue that has packed legislative galleries in past years, will probably return next session.

Base pay raises of almost \$600 a year will be recommended to the Legislature by the Hale-Alkin Committee. This group of 21 lawmakers and private citizens has spent almost two years in a massive study of ways to improve Texas' public school program.

Its recommendations, now being readied for final presentation, would, for the most part, involve extra spending running into the millions. Cost of moving up the floor on teacher salaries is estimated at \$70,000,000 a year. Advocates say better salaries are necessary to attract and hold enough good teachers. But even within the committee there were objections.

Rep. L. DeWitt Hale of Corpus Christi, co-chairman, voted against the raise recommendation. He said this, plus other proposals would mean "about a quarter of a billion dollar tax bill."

Other committee members said they felt the problem was not a shortage of teachers, but unequal distribution. While small districts may have trouble filling faculties, they said, some cities have a surplus.

Many legislators, elected on "economy in government" platforms, can be expected to echo Hale's sentiments. Since a huge state deficit is foreseen without raising the cost of anything, the squeeze could be especially acute.

Teachers, always a potent force because of their number, might be substantially reinforced by the current concern to "catch up with the Russians" in education. A head-on clash between these groups and the economy forces might well provide the flashiest fireworks of the next session.

NO THANKS—Another Hale-Alkin Committee suggestion: Texas should quit accepting federal money for the school lunch program and vocational education.

Federal funds now received are estimated at \$9,000,000 a year. Committee said local districts and parents should pay for these services. It did recommend, however, that federal aid be continued to districts where military installations bring in a large non-tax-paying attendance.

Other committee recommendations:

1. State should quit levying tax, leave this source to local districts.

2. Permanent School Fund should be kept as an endowment, not spent for current needs.

3. Counties, not state, should bear the cost of maintaining county school superintendents' offices.

BRIGHTER WEATHER — Texas Securities Board reviewed its first year as a separate state agency and declared the "investment climate" had improved under tougher regulation. Securities Board was set up the last Legislature by combining functions formerly handled partly by the Secretary of State's office, partly by the Insurance Department.

Texas investment climate "was very poor" when the new law went into effect, said Board Chairman Maurice Bullock. Score for the "tightening up" years: (1) a drop of 37 per cent in the number of licensed securities dealers, (2) investigation under way in 215 cases of possible securities law violation and (3) 75 cases referred to district attorneys over the state.

Bullock said the Board's aim was to weed out the wild promo-

## DOWN MEMORY LANE

(Taken from files of the Lamb County Leader, Oct. 2, 1941)

Littlefield's undefeated Wildcats, playing before the largest group of fans to witness a game on Seeley field in several years, defeated the Floydada Whirlwinds, the team highly favored to win district 4A, by a margin of two points, 9 to 7, last Saturday.

Eldon Trotter nearly brought down the house last week. He and his father, C. T. Trotter, were repairing the roof of the sheet rock ceiling, the boy folding over one of the rafters and tumbled to the floor.

Approximately 40 girls attended the first meeting of the F.H.A. chapter, home-making club, held at Littlefield high school Wednesday, Sept. 24, to elect officers and plan this year's club work.

Muddy roads, in many places absolutely impassable, delayed traffic generally this week, and on both Monday and Tuesday, the fleet of Littlefield school buses were unable to make their routes.

With the best feed crop in several years now maturing in Lamb County the Farm Security Administration is encouraging its borrower families to stabilize their business and increase their incomes by properly conserving and utilizing their crop resources.

Confidence in Texas securities, but not to be so zealous as to discourage legitimate offerings.

LOCAL PARKS URGED—Several parks now under the administration of the State Parks Board should logically be in the hands of local communities, according to State Auditor C. H. Cavness.

Cavness' audit report on the Parks Board noted that Gonzales State Park had been turned over to the city of Gonzales. Others used on a community basis also could be community operated, he said.

Cavness also noted the addition of six new parks to the state system.

COLLEGE BUILDING ADVANCED—Twelve state colleges have sold \$12,375,948 in building bonds —after adjusting to "buyers market" difficulties.

Representatives of the schools, meeting in Austin, first offered \$17,500,000 worth of bonds on a 10-year payback basis, but got no offers. Several of the schools already had let contracts for construction feeling sure the bonds would sell.

Bonds were then re-offered on

an 8-year basis and partially sold. Remaining bonds may be offered later.

WATER NEEDS FORECAST — Demand for Texas surface water is expected to triple in the next 50 years. Prediction is by Harry P. Burleigh, area engineer for the U. S. Bureau of Reclamation.

Where will it all come from? Burleigh says enough water is now being wasted to meet that demand. Problem of saving it is up to engineers to solve. Needed is a simple, low-cost means of capturing run-off water now flowing into the Gulf of Mexico and delivering it to points where it is needed.

Burleigh was one of 10 speakers at a water conference sponsored by Texas A&M College. Gov. Price Daniel praised the recently adopted statewide water program and urged against sliding back into apathy as a result of recent drought-breaking rains.

Revision in the rate structure for city water users was proposed as one means of conservation. Lubbock hydrologist W. L. Broadhurst said that increasing the rate instead of decreasing it as more water is used would cut

## Sandhills Philosopher

### He Says Little Rock Idea Gives Much Better Football

Editor's note: The Sandhills Philosopher on his Johnson grass farm has his tongue in his cheek this week, and possibly his foot in his mouth. You decide.

Dear editor:

I have been keeping up with what's going on in Little Rock, Arkansas, not because I know the answer but because it's interesting to find out what other people's answers are, and I'm just as confused as you and the rest are, yet there's one point that has been developed there that the rest of the country seems to have overlooked.

As I understand it from reading the newspapers that turn up out here on this Johnson grass farm, even though the schools are closed in Little Rock, the football team is going ahead and playing.

This seems to be one of those great historic discoveries that nobody at the time seemed to recognize, but as I see it, it opens up a brand new idea and is exactly what the schools, especially the colleges have been needing.

As everybody knows, classes close in the way of football practice on most college campuses; you try flying half way across the United States to play football on the weekend and still get back to class on Monday, when you ought to be watching the films of the game and finding out what you did wrong so you can correct it before the game on the next week end, and you'll see what I mean, although personally I've never tried it. A college team that doesn't eat, sleep and talk foot-

down household waste.

HIGHWAY WORK AT PEAK — Two-thirds the way through 1958 the State Highway Department already has placed as much highway construction work under contract as in the entire record-setting year of 1957.

Total for this year reached \$224,000,000 this month. Low bids opened in a two-day tabulation for this month's proposed projects amounted to \$28,669,432. Department spending on Texas roads in the next three years is expected to reach one billion dollars, Highway Commission Chairman Marshall Formby said.

ball, well, it just ain't any bowl game.

However, if it's possible to have a football team without classes—I'm talking about professional football, not professional ball until you make a name for yourself in college—then I don't see why we can't try to help the game. Don't misunderstand me, I'm not saying the players didn't have to attend classes and could spend their entire time to it. Little Rock experiment can be done, there's the rub. By the way, I sure would see Littlefield play this week. If you've got a pass, I'd be glad to buy one. Yours faithfully, J. A.

**CLINTON DAVIDSON**  
 This week is watching more than usual interest in the congressional election campaign that are just now beginning to get into full swing across the country.

Some of the experts predict a Democratic victory in the House and the Republicans to think they can gain a majority in the Senate which would mean a change of administration in January.

There are 34 senatorial elections from Alaska for the Senate and 456 congressional elections including one in Alaska which election campaign is now under way.

The 85th Congress adjourned last month there were 100 Democrats and 47 Republicans in the House. The House was controlled by Democrats, 200 Republicans and 100 Democrats.

Representatives have announced their intention and approximately 100 representatives either have been re-elected or were defeated for reelection in the primaries.

**Issues**  
 Issues being debated in the House vary all the way from international. Foremost of these is the preservation of the peace and honorable peace. The threat of congressional action as a result of the Free World.

The world is taking cautious steps toward the goal of eventual peace. Atomic and hydroelectric power are weapons which could be used to destroy civilization.

The peaceful use of atomic energy, on the other hand, offers new opportunities for all nations.

Issues which are emphasized include Federal spending, national debt. Congress has set a record for a record of \$50 billion and as a result will go another \$8 billion into debt this fiscal year.

Some of the thorniest issues in the House is that of school desegregation. The Supreme Court has ruled in favor of desegregation. Has it exceeded its constitutional authority as a judicial branch of government?

Has it encroached on the legislative authority? Congress by a vote of 300 to 100 has voted to strip the jurisdiction of the Supreme Court.

CLARENCE DAVIS, Mgr.

## County Man Reports— Increased wheat yield bushels per acre

Billingsley, successful High Plains farmer, says: "I applied 100 pounds per acre of Phillips 66 Agricultural Ammonia to my irrigated wheat and increased my yield from 42 bushels per acre. I figure my net profit increase around \$40 per acre."

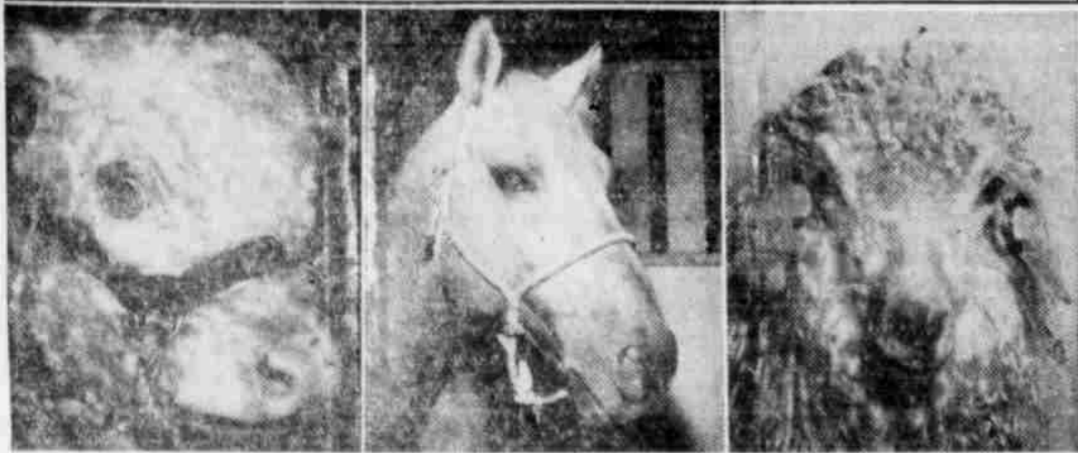

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields . . . and more profitable crops. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in corn and maize land. They know that the 82% nitrogen helps dispose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia has more nitrogen per dollar than any other form of fertilizer—a full 82%.

## State Fair Portrait Gallery

All the animals will be there, the blue-bloods in all their proud splendor, at the 1958 State Fair of Texas in Dallas, October 4-19. The fabulous Pan-American Livestock Exposition will present purebred champions of 26 breeds of beef and dairy cattle, horses, swine, sheep and goats. Eighty-six different ring events will require over 1,000 separate class judgments in the 42 individual shows and sales in State Fair livestock and poultry divisions.

## 73rd State Fair Of Texas Opens In Dallas Oct. 4

All is in readiness of the 73rd edition of the State Fair of Texas, America's largest annual exposition.

The fair opens Saturday, Oct. 4, and the spic-and-span fairgrounds awaits the expected two-and-a-half million visitors who will flock to the 187-acre, \$35,000,000 State Fair Park during the 16-day run.

The emphasis on the 1958 State Fair program is on fun for all the family. There are great shows

like "The Music Man" and "Ice Capades," bigtime college football games like SMU-Notre Dame, Texas-Oklahoma and SMU-Rice, and personal appearances by such entertainment personalities as Tennessee Ernie Ford and Molly Bee, Eydie Gorme and Steve Lawrence and George Gobel and "Red" Foley.

A record entry list appears in prospect for the Pan-American Livestock Exposition during the first week of the fair, the Junior

Livestock shows during the second week and the horse shows which will be featured all three weekends.

The fair this year is saluting "Higher Education In Texas" and daily appearances at the fair have been scheduled of outstanding college marching and concert bands, drill teams, drama, opera phase of the fair.

Daily free home-sewing fashion shows will be staged in the Women's Building, and entries in competitive divisions of the Women's Department indicate a greater interest than ever before in this phase of the fair.

The Texas International Trade Fair, featuring exhibits by foreign nations from all over the world, will be inaugurated at the 1958 fair. The 42nd annual Southwestern Automotive Exposition will sport a number of the new 1959 model cars. The "Agricade" will depict the progress of agriculture in Texas over the past generation.

"The Music Man" and "Ice Capades" both have daily performances during the fair. Special events include Rural Youth Day and the SMU-Notre Dame grid game Oct. 4, Tennessee Ernie Ford Show Oct. 5, Tito Guizar Show Oct. 6, Meredith Willson conducting the fair's Music Festival Oct. 7, Eydie Gorme and Steve Lawrence Oct. 9, "Sky King and Penny" children's show Oct. 10, Texas-Oklahoma football Oct. 11, Achievement Day Oct. 13, East Texas Day and the George Gobel Show Oct. 14 "Red" Foley Jubilee Oct. 15.
