

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, OCT. 27, 1960

NUMBER 23

## County's Vote Total May Hit 6,000 Mark

### Record Turnout Likely

Between 6,500 and 7,000 persons in Lamb County are eligible to cast their ballots in the November 8 General Election a check of the records revealed Wednesday.

Herbert Dunn, county tax assessor-collector, said 5,510 persons have paid their poll taxes for the year and another 160 persons who have become 21 since January 1, 1959, have been granted exemptions. This makes a known total of 5,670 who are qualified to vote.

Another 1,000 persons who are above 60 and do not have to pay poll taxes or secure exemptions may be expected to cast their ballots. In counties having no city with a population above 10,000, it is not necessary for the above-60 group to secure an exemption. For this reason, it is impossible to tell exactly how many persons are eligible in such counties for voting. County officials estimate 1,000 in the above-60 bracket in Lamb county.

Exemptions also are issued to those who have moved to Texas within the past year as well as to those who have recently become 21. Period for securing exemptions, however, ended on October 8.

Meantime absentee balloting is under way in County Clerk Charles Jones' office. Up to Tuesday night, 40 persons had cast absentee ballots since the period opened last week. Absentee ballots may be cast up to 5 p. m. November 4, Jones explained. He expects the number voting ahead of time to increase considerably during the next few days.

A breakdown of the absentee voting showed six ballots had been cast in No. 1, one ballot each in Nos. 4, 6, 11 and 13; three votes in No. 2, and No. 8; 4 votes in No. 16 and west Littlefield; 6 votes in No. 1, 4 in No. 16 and 16 in No. 12.

With interest in the presidential contest high, balloting in Lamb county is expected to be exceptionally heavy and upwards of 6,000 votes are expected to be cast in the November 8 election. A check of the records for 1956 shows that the Eisenhower-Stephenson race drew a total of 5,185 votes, Stephenson getting 3,325 of that number.

### C-C To Name 4 Directors From Roster

Littlefield Chamber of Commerce will start the process of naming four new directors for next year when ballots are mailed out November 1 to all members of the organization, Jean Brock, secretary, said Wednesday.

Directors whose terms are expiring January 1 are Glenn Batson, Dr. Glenn Burk, Bob Manley and Kenneth Reast. The board is composed of 12 members.

Mrs. Brock said all members are asked to select 15 names from the roster and return their ballots to chamber headquarters before November 10.

From these lists, 15 top candidates will be drawn, and a "run-off" will be staged to pick the four directors who will become members of the board.

Mrs. Brock said the chamber hopes every member will find time to check the ballot and pick 15 names for board candidates. The same thing is true of the "run-off" when the members will receive their second ballots listing the 15 high men.

Every member of the chamber is eligible to vote for a director, she said.

### Two Businesses At Sudan Robbed

Deputy Sheriff Homer McClary at Sudan reported Wednesday two minor break-ins this week which netted a total of less than \$80.

Some \$33 in cash was taken from the Lamb County Butane Company at Sudan after thieves gained entrance through the front door which apparently was unlocked. Next door NICO Trailer Co. reported \$5 missing from a change drawer.

### Lamar Pollard Takes First

## Sudan Man Hits With One Miss

This week's first place winner in the Press grid poll, Lamar Pollard, RFD 1, Sudan, came up with the most perfect listing of predictions yet entered in the contest. Pollard's guesses coincided with the outcomes of 24 of the 25 games listed. A slip of the pencil may have cost him a perfect sheet in that the game he missed—Florida's victory over LSU—was not marked on the paper.

The guess of the tie-breaker between Littlefield and Phillips entered by Pollard was 22-7, Phillips—only one point away from the actual 22-6 Phillips victory.

Pollard received a check for \$7.50.

Almost as good was the second and third spots. Darrell Nichols, Box 1224, Littlefield, and John Martinez, Box 214, Littlefield, both entered pages with only two incorrect games on them. Both missed the outcome of the Seminole-Pecos scrap with Nichols guessing wrong on the Kress-Springlake game and Martinez missing the Tulsa-Cincinnati affair.

Nichols came up with the second prize of \$5 with a prediction of the Cat-Hawk game of 21-7, Phillips—two points off.

Martinez netted the \$2.50 check with a 24-12 forecast—eight total points off.

Another contest appeared in the Sunday edition of the County Wide News. Rules are the same as in previous weeks and entries must be turned in before 1 p. m. Friday to any of the grid sponsors or to the Press office.

### Littlefield Needs Win

## Dumas Confronts Cats In 1-AAA Tilt Friday

The Demons from Dumas make the long trek down the Texas Panhandle Friday to open their 1960 1-AAA campaign battles by taking on the Littlefield Wildcats in Wildcat Stadium at 8 p. m.

Dumas played a non-conference game against Dalhart last weekend, trouncing them 32-19 while the rest of the loop opened up conference play.

Littlefield's debut was spoiled by the rampaging Phillips Blackhaws, 22-6—which means that for the Cats to stay alive with any championship hopes at all, they have to have this game.

Demon coach Burl Bartlett said in an interview earlier this week that he feared the Cats.

"...reports tell us that Littlefield has a fine ballclub," Bartlett said. "They played Phillips a fine ball game last week."

Bartlett expressed some doubt as to the effectiveness of the Demon defense after Dalhart managed to score 19 points against it.

"We got beat worse offensively by Dalhart than by any other team this year with the exception of Borger," Bartlett said. (During on the Littlefield Wildcats in the Bulldogs early in the season.)

Analyzing his chances against the Cats, Bartlett said: "Anytime you have to face a passer like De Pierce and a runner like Jerry Koller, you have your hands full. Littlefield has a well balanced attack. Injuries have hampered them all season and they have still done a good job."

The Cats came out of the Phillips game without any serious injuries.

Bartlett rates Phillips as the team to beat for the title with Levelland and the Cats, battling contenders.

Dumas has a 4-2 record, the four wins coming in the last four tilts after losing their opener to Palo Duro (Amarillo) 18-6 and

the Borger contest. The wins have been over Canyon (40-0), Clovis (42-6), Perryton (32-6) and Dalhart.

Offensively, the Demons will rely on their ace runners, halfback Ray Casas and quarterback Mike Boxwell. Casas has scored 44 over the season while Boxwell has racked up 36.

Big guns in the line, expected to give the Cats a rough time, are David Baldwin, and Mike Milligan. Both boys are returnees from last year and fill in equally well on offense and defense.

The Demons are the offensive leaders in 1-AAA scoring 154 points in their six games for a 25.7 average.

In the four games they have won—the last four—Dumas has scored 148 of their points for a towering 37 point average per game.

Littlefield has scored 110 points against seven foes for a 15.7 average. (Continued On Page Six)

## Jewell To Head Army's Campaign For \$7,200

Thurman R. Jewell will head the Salvation Army's drive for funds in Littlefield this year. The drive begins with a breakfast in downtown Littlefield Tuesday morning.

Goal for the drive is \$7,200. Jewell reports that all committees are organized and all workers as well as committee heads will be expected at the breakfast Tuesday morning.

Jack Sharkey of the Dallas Salvation Army headquarters will be on hand to aid in the drive. Jewell said that he wanted the public to know that none of the Littlefield proceeds would go to Sharkey, who is employed by the Salvation Army to help each community as it makes its fund raising drive each year.

Jewell also emphasized the fact that 90 per cent of all funds given the Salvation Army stays here. Only 10 per cent goes to headquarters for organization.

"Littlefield is the smallest town in the state of Texas with a Salvation Army Corps," Jewell said. "...and the success of this campaign means much in whether we shall continue to have headquarters corps here for aid to this area."

The Salvation Army asked for \$8,100 last year from the United Fund and actually received around \$6,200. Operations were continued and curtailed to some extent due to the deficit, according to Jewell.

John Clayton will head up the employ phase of the drive, B 11 Street will handle advance gifts. Joe Fenn and Wendell Tooley will be in charge of general solicitation.

A campaign office will be open for the convenience of workers in Bill Street's office. Phone number is 285-4477.

What did the Salvation Army do for this area the past nine months? Human need is greater than ever. The local post has already administered more help to the needy this first nine months than all of last year.

LT. Dale Kirkpatrick has administered 72 indoor religious services.

## Shivers Says Kennedy Farm Plank Socialistic

"The only trouble with agriculture is that too many politicians have been fooling with the farm program and not enough farmers have been fooling with it," Allan Shivers, former governor of Texas, told a "Democrats for Nixon and Lodge" audience here Wednesday afternoon.

The former governor, who penned the Kennedy farm program, labor plans and the Kennedy foreign policies, spoke to a street audience here of some 250 persons.

Shivers said the Kennedy-

Johnson farm plan is fathered by a democratic platform. About 250 area people heard him charge that if Kennedy is elected, "the nation will be controlled from Washington—farms, labor, schools and everything."

visor, J. K. Gilbert, a Harvard economics graduate. They got on a yacht and worked out a program for the farmer which would put every farm item under the control of Washington. It would reduce acreage by 25 per cent and at the same time would put in production controls." He also claimed that the Kennedy farm program would reduce farm employment.

Shivers said that the "Nixon program for the farm is not perfect," but added that Nixon is "willing to accept the advice of farm experts in working out a first class program."

"One thing of which you may be certain," he said, "and that is that the Nixon farm program will not run every farm in the nation from Washington, such as Kennedy's farm program would provide for."

He charged that "no communist country in the world today has such a rigid farm control program as would be put into effect under Jack Kennedy's plan."

The former governor said that Kennedy has "promised Walter Reuther, the labor boss, anything he wants if he is elected." He claims that all right-to-work laws would be eliminated if Kennedy is elected.

"For that matter," he said, "Kennedy also would unionize agriculture."

"In fact, his program is that a bigger federal government, with

## Seven Colleges Entered In Soil Contest Here

Soil-judging teams from seven southern and southwestern colleges will pour into Littlefield Saturday for the first college soil-judging contest to be held on the South Plains.

This is the annual Region Four

contest, sponsored by the American Society of Agronomy with the student chapter at Texas Tech as the host group this year, it was explained.

The judging will be done on farms "near Littlefield," it was announced, but exact location of the farms will not be made public until the day of the judging.

Schools which have entered the contest include Mississippi Louisiana Tech, Louisiana State University, Oklahoma State University, Texas A & M and Texas Tech.

Lamb County Soil conservation district and Littlefield Chamber of Commerce are co-operating. Contestants will check the lay of the land, erosion, depth, texture, permeability, and other features that determine the best use of that soil.

Soil pits at each judging site are being dug through the courtesy of the Bill Ross - Gene Ratliff Excavating and Ditching Service.

A dinner for the contestants and presentation of awards to the winning teams will be at Loy's Cafe following the contest.

Those wishing to see this contest should be at the county courthouse at 8 a. m.

### Speedster Draws \$400 Fine Here

Municipal Judge Joel Thompson "threw the book" at a traffic violator in court here last week when a \$400 fine was assessed against David Jenkins.

It was believed to be one of the stiffest fines ever assessed here in city court.

Jenkins was arrested by James Cox and Allen Cavitt, city policemen, after a chase which extended from downtown Littlefield almost to the city limits of Amberst.

Thompson found Jenkins guilty of drunk in car, speeding and resisting arrest.

Wednesday he was still being held in jail.

## Noted City Planning Expert To Speak Here

Littlefield's City Planning Commission will take another look at a proposed "Master Plan" for city development tonight when a second planning engineer speaks to the group, B. D. Garland, Jr., chairman, said Wednesday.

Joe E. Ward, Consulting Engineers' firm, Wichita Falls, is sending its general manager, H. A. Thomason to Littlefield to explain Master Planning to the planning commission.

Thomason, who is recognized as one of the leading engineers in city development programs, is well known throughout Texas for this work. For a number of years he was city manager of Wichita Falls.

Thomason will be the second engineer to appear before the commission; last month Frank Von Zuben, an engineer with the state health departments, spoke to the group. Von Zuben is also dispenser of federal funds in Texas for city Master Plan programs.

Thomason is expected to delve deep into the advantages of such a program, a long-range plan projected 20 to 25 years in the future. If such a survey is decided upon, the federal government will pick up the tab for the survey costs, although carrying out the various phases of the program must be done through other financing means, it was explained.

Included are virtually all parts of a city's development, both private and public. Population trends are studied carefully and an accurate estimate is made on the possible population 20 years hence. On this figure, all other planning is based, since the program is geared to meet an expected population in 1980 or later, it was explained.

## 'Found Faithful' Theme For 75th State Baptist Convention, Lubbock

The Baptist General Convention of Texas will meet in its 75th Annual session in Lubbock from October 31 through November 2. More than 7,500 Baptists from throughout the state are expected to attend the annual meeting of the 1 1/2 million member convention.

Opening session will pay tribute to Dr. Forrest C. Frezer, Texas executive secretary who retired December 31, after seven years in the state's top Baptist post.

Three of the six general sessions will outline programs of three major Commissions of the Texas Baptist Convention — State Missions, Human Welfare, and Christian Education.

The theme of the sessions is: "Moreover, it is required of stewards that a man be found faithful." I Corinthians 4:2. The following is a list of some of the highlights.

Monday evening: M. B. Carroll, pastor of the East Grand Baptist Church, Dallas, president of the Convention, will give the president's message.

Tuesday: Dr. Gordon Clinard, professor at Southwestern Theological Seminary, Fort Worth, will give the annual sermon in the morning session. Dr. Leo Edleman, president of New Orleans Baptist Theological Seminary, will give the principal address of the night session portraying the convention's vast state missions program. Tuesday afternoon Alumni and Committee meetings will be held.

Wednesday: "Found Faithful in Christian Vigilance" is the topic of the morning message by John Haldeman, pastor of A11-24 Baptist Church, Miami, Fla. Reports on hospitals, schools, and children's homes will be given in the afternoon session. Dr. Ramsey Pollard, pastor of Bellevue Baptist Church in Memphis, Tenn. and president of the Southern Baptist Convention will bring the evening message. ## Driver's License Trips Bogus Check Givers

A driver's license proved the undoing of two Oklahoma men who face charges here of giving forged checks to law enforcement officials. Police Chief Gerald said Wednesday.

The two men, who are one in Denison and one in Ardmore, Okla., are Aubrey D. Jackson and Jack Huffman. They were jailed at the county jail at Littlefield.

Fitzgerald said he cashed checks at the field stores October 27. A saleswoman at stores listed Jackson's driver's license number, the checks, and information that the checks were forged on a Littlefield, allegedly of work which the Huffman from in Oklahoma, Fitzgerald there before to Littlefield.

### Garden Society Entertains With Golden Age Tea

The Amherst Garden Club entertained senior ladies with a golden age tea Friday afternoon in the home of Mrs. Lee Payne. Members of the club called for them at 2:30 o'clock and were greeted on arrival by Mrs. Wallace Gosdin, club president and Mrs. Payne.

The entertaining rooms were decorated with arrangements of fall garden flowers, reflecting the talent of club members.

The tea table was laid with a lace cloth, over yellow, decorated with an arrangement of bronze and yellow chrysanthemums, accented with a tall lighted green candle in a bronze candlestick.

Mrs. J. W. Chatwell served spiced tea and cake squares decorated with yellow confection roses.

These honored on the occasion were Mrs. J. C. Autry, Mrs. T. H. Pennington, Mrs. Lucy Cantrell, Mrs. Jareta Duggan, Mrs. U. V. Watson.

Mrs. Mary Camp, Mrs. W. E. Bennett, Mrs. Maude Bennett, Mrs. C. V. Harmon, Mrs. Stella Lee, Mrs. J. L. Crosby, Mrs. J. H. Bradley, Mrs. Dave Black, Mrs. G. D. Lair, Mrs. B. O. Shavor, Mrs. Eva Attaway, Mrs. O. G. Wagner and Mrs. J. S. Rawlis.

Mrs. Lee was presented a corsage of yellow chrysanthemums, trimmed with gold ribbons and sequins, by the club, for being the eldest guest attending.

The Golden Age tea is a therapy project of the Texas Garden Clubs. Mrs. E. L. Black is local chairman.

Club members are Mrs. George Harmon, Mrs. E. L. Black, Mrs. Jim Nix, Mrs. C. A. Thomas, Mrs. Wallace Gosdin, Mrs. Lee Payne, Mrs. J. W. Chatwell, Mrs. W. P. Holland, Mrs. Victor Reynolds, Mrs. Clay Williams, Mrs. Bill Workman, Mrs. Horace Woodward and Mrs. A. L. Robertson and Mrs. Joe Rone, Sudan.

We see only wires! But at this very moment a woman in San Francisco may be speaking to her husband in Tokyo . . . a boy at Princeton may be inviting a girl in Albuquerque to a football game . . . and Mrs. Green of R. D. No. 1 may be placing her order with Mr. Brown of the Crossroads Store.

Here — where sixty wires cling to the cross-arms of a weathered pole — the ends of the earth meet!

It's like that in our local churches on Communion Sunday. Whether fifty or five hundred receive the Holy Sacrament . . . the ends of the earth meet. For the Lord's Supper is not a rite of one church or one denomination. It is the common sacramental feast of millions of Christians all over the world.

Are you availing yourself of this blessed privilege, and are you attending your church regularly? As you receive this Sacrament in your church, your life is linked to the lives of Christians everywhere. And you and they are united in a common communion with God!

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**Shivers Here**

(Continued from Page One) bigger and bigger spending will cure any ailment."

The Kennedy program, Shivers charged, "is a master blueprint for socialism."

Shivers claimed that under the Kennedy plan schools will be put under control of the federal government. "I happen to know that here in Lamb county you have excellent schools," he said, "and I believe you believe that those schools can be better controlled here in Littlefield than they can in Washington, yet Kennedy, if he is elected, will favor a strong federal education program which eventually would take control of your schools out of your hands."

Shivers also bitterly assailed the Kennedy Youth Conservation Corps which he said has been proposed to "give children an enlightened environment." He charged that such corps "are the type of thing that Hitler set up," and he added: "Do you want somebody snooping around your home, peeping in your windows to see whether your children have an enlightened environment?"

He said he "didn't mind Kennedy and Johnson getting on the Democratic mile and riding off together, but the only thing that I don't like is for them to use a socialistic platform for a saddle blanket on that mule."

The former governor said that Texas' 21 electoral votes "are very important in this year when the vote is likely to be very close," and for this reason, he said, "the Democrats are sending every senator they can find into Texas to speak for the Kennedy-Johnson cause. Texas' vote just might turn the tide."

He charged that the Kennedy iron - fist policy for Cuba "might - and probably would - bring on a rash of wars in other Latin American countries, like the Truman Korean war which Truman had neither the courage to stop or to win."

"If we deal with Cuba in such a manner we might have a whole flock of Korean - type wars springing up all over the hemisphere little Korean wars which had to be settled by Eisenhower and Nixon after they came into office."

He claimed that Kennedy was "picked by his wealthy father when he was a very young man to be the political mule of the family. Accordingly he sent him to the London School of Economics where he studied under Laski, one of the world's leading socialists, and it was under him that Kennedy learned politics."

He said he wants a president "who is not fearful to prosecute such men as Hess." And he added:

"This I want to impress upon you: You have never had it so good, either in peace or war, as you have had it under Eisenhower and Nixon."

He was introduced by Harold Allison, a Pleasant Valley farmer. Representing the city on the platform was Bob Manley, city councilman, and Arnold Neumann represented the Littlefield Chamber of Commerce. Also on the platform was Mrs. George Corry.

OUR preachers are getting smarter every day. . . it's getting so you can't stay home from church anymore and have a good excuse for going so.

The Rev. Auy Cockrell has just returned from an evangelistic crusade in Illinois. Under his special program, the visiting preacher conducted services on Sunday morning while the local preacher got out and made house to house calls and invited people to church.

It's pretty easy to give a preacher an excuse during the week of why you were not at church last Sunday, but I would imagine explanations would be pretty hard to arrive at when you're out mowing the lawn on Sunday morning and here comes your preacher down the street and gets out of his car!

Well, he's just like you. . . he should have been at church preaching, just like you should have been there in attendance to the services.

# Amherst Meets Powerful Ropesville As Sudan Tries Re-Charged Kress

Amherst travels to Ropesville record, and the Kangaroos are Friday night for the featured 3-B game in District 3-B competition this weekend.

The Bulldogs lost their first conference game last weekend, going under to Anton in a high scoring 52-37 contest. Lawrence Cook's crew now holds a 1-1 district mark, having downed Meadow in first game.

Ropesville is the strong man in 3-B, having taken seven games this year without a loss, the last being two district affairs against Whiteface and Meadow.

Sudan's Hornets also hit the road Friday, traveling to Kress for a 3-A encounter with the Kangaroos. Sudan has taken its only district game, downing Springlake 48-0 while Kress has fallen to Farwell before grounding out to Ropesville and Whiteface losing a 14-2 decision over the Wolverines from Springlake last weekend.

The Hornets have a 0-1 season's ed.

## Springlake Youth Wins Honors At Dallas Fair

EARTH — Springlake's FF Chapter received a first prize in exhibits at the State Fair, Dallas last week. Judging was on the basis of pen and show stock cleanliness.

In individual honors, Tracy Angeley, Earth, showed the reserve grand champion of the approximately 700 entries in the swine show. The same animal, a 19-pound, six month old barrow, placed first among light weight Poland Chinas and was named champion of the Poland China Division. Angeley also showed the second place medium weight and the 9th place light weight Polands.

From the total 31 hogs shown, Springlake chapter members received the following honors: Jerold Hadaway showed the reserve champion Poland China, the same animal taking second place honors in the light weight class. Hadaway's animals also placed first in the light weight class, Hadaway's animals also placed first in heavy weight and second in medium weight Polands.

Anthony Haberer exhibited a third place light weight Poland China and an eighth place medium weight Chester White.

Sawrie Branscum showed the sixth place Chester White in the medium weight class.

A second place heavy weight Poland was shown by Billy Shirey who also exhibited the 51th place medium weight in Polands.

Honors received by Charles Axteel were 3rd place for his 11th place weight Berkshire and 15th place for a light weight Poland.

Hogs shown by Lonnie English placed 15th in light weight Berkshires, 25th in medium weight Berkshires and 16th in heavy weight Polands.

Don Curtis had a third place place medium weight Berkshire.

Longhorns are still upset over last week's loss to Rice and will be out to better the Owl's score (47-0) over Meeks and his meek Mustangs — Texas 35, SMU 6 (if they're lucky).

Phillips, the titan in 1-AAA with six consecutive victories and a state ranking as the number two team in Triple-A goes for its second conference win of the year Friday by entertaining a strong Hereford team in Blackhawk Stadium.

Phillips topped Littlefield 22-6 last Friday while Hereford was losing a tough 14-6 decision to Levelland.

Littlefield's Wildcats, pre-season favorites in the conference, try for their first conference win of the season by playing host to a red-hot Dumas eleven.

Dumas opens its try for district flag this weekend, having beaten a non-conference foe, Dalhart, 32-19 last week while the Cats were losing to Phillips.

Levelland plays its final game against outside competition when Canyon makes the trip to Lobland.

The Littlefield Golden Gloves boxers, under the guidance of the Jaycees, travel to Levelland Saturday night for another set of team matches.

According to Slick Chandler, the group of boys making the trip will be the same as the one that went to Lamesa last week.

Littlefield will sponsor a series of team matches here on November 3, and Chandler said that he expects more hometown boxers to be entered in that one.

The public is invited to attend all the matches.

### 1-AAA Battles Are Close Ones Grid Forecasts Spark Questions About Sanity

It seems that the 1-AAA circuit is as close this year as it has been in a long time.

The Cats lost to Phillips Friday night in a game that could have been the other way except for a few breaks in the Hawks' favor. It was a tough one to lose — and the Cats probably felt down after the loss.

But there are three more TOUGH opponents to face — and the league crown is still anyone's.

Why not Littlefield's?

Reports put the game between Levelland and Hereford even closer than the 14-6 score indicated. The Whitefaces were playing without the services of their top fullback, Eddie Skypala. A break in the Hereford column could have swung things around the other way.

So it looks as if the league is pretty well balanced with no team the up-and-above power — despite the Phillips press raves that have them listed as THE team in 1-AAA.

We don't think that any team — the Blackhaws included — can go through conference play without losing a game.

These next few weeks will prove the worth of the teams in the league regardless of early season records — and we still feel that it's anybody conference.

The outcome of last week's football predictions has left us with a slight phobia over men in any kind of white coat — and thanks to the joker who sent us the classified ad looking for chicken pluckers.

Well, here we go again with the way we see 'em for this weekend:

Littlefield - Dumas — The Cats entered district competition with last week's loss to Phillips but this is the first encounter that really counts this year for the Demons. They'll no doubt be up in order to make a good start in loop play.

This game is a must for the Cats. A loss would virtually eliminate them from any chance for the crown — plus putting a heavy weight, morale wise, around the team's neck.

The Demons are the leading scorers in the league, racking up 154 points in six games to the Cats 110 in seven.

Littlefield hasn't lost at home this year (seemingly tied the Cats 20-20 here) and we don't think they will let the string be broken. Look for the Cats to get ready (mentally) and take the Demons one — Littlefield 19, Dumas 16.

Texas - SMU — Those poor Ponies — Mike Cotton and the

Whitarral - Meadow — The Panthers should have little trouble taking their second 3-B win — Whitarral 22, Meadow 7.

Amherst - Ropesville — Ropesville is undefeated in seven games this year and will probably lead Lawrence Cook and his pack of Bulldogs down that primrose path — Ropesville 26, Amherst 12.

Arkansas - Texas A&M — Frank Broyles and the Porkers are boiling over last Saturday's field goal dispute with Ole Miss — and they'll use that weapon to root the Aggies further into the SWC cellar — Arkansas 17, A&M 6.

Baylor - TCU — The Froggies have disappointed everyone but are just about full of swattings. The Horned Frogs take a big one — TCU 19, Baylor 13.

Texas - SMU — Those poor Ponies — Mike Cotton and the

### Golden Gloves Boasts Family Boxing Plan

The Jaycees' Golden Gloves program has been on only a couple of weeks or so, and reports are that they team is looking considering the scant time that the boxers have had to get into shape.

An interesting sidelight to the boxing team are the Galvez boys — Carlos, Jessie, Johnny and Joe. They live out by Amherst and according to Elmo Jones, the boys have set up a gym of their own in a barn, complete with punching bag and all the works.

The team is working out in the old FFW hall and all boys in the area are invited to come out and try their hand at the manly art.

Team Matches Are Planned

According to Slick Chandler, the group of boys making the trip will be the same as the one that went to Lamesa last week.

Littlefield will sponsor a series of team matches here on November 3, and Chandler said that he expects more hometown boxers to be entered in that one.

## Of Cotton Ball Set Hock Country Club

The Fifth Annual Cotton Ball will be available from any one of the members of the Commerce, Commerce, Raymond King and Company, and president of the Texas Cotton Assn.

Also, J. B. Kyser, manager of Graniteville Co., in charge of Cotton buying, Augusta Ga.; W. Gordon McCabe Jr., vice president and director of J. P. Stevens and Co., Greenville, S. C., and a director of the New Orleans Cotton Exchange; and Mrs. Paul Austin, Owner and Director of Irma Austin School of Modeling and Self-Improvement, and one of the top three models of Dallas.

These five judges will be honored at the Ball where all attending will dance to the music of the well-known Johnny Long orchestra, billed as "Young America's Favorite." He has recently played outstanding engagements such as hotels Statler and New Yorker in New York, Sheraton Plaza in Boston and the Paladium in Hollywood.

His 13 piece ballroom band has been praised by critics as "one which has maintained a rhythmic style and danceable beat that has kept it a favorite of the younger dancers even during the dance recession."

Bandleader Long has the unique distinction of being the only prominent left-handed violinist in America. He began his musical career in college in 1931. He has recorded many numbers, one of the most famous of which was his arrangement of "In Old Shanty Town" in 1940.

Tickets for the dance will cost \$7.50 per person. The chamber of Commerce is receiving applications for hopeful young "Maids" from a 23-county area representing the leading cotton producing area of the world.

## Baylor's A Cappella Choir To Present Program Here

WACO — Baylor University's 46-member A Cappella Choir, under the direction of Dr. Euell Porter, will perform in 10 cities during their West Texas tour, Oct. 29 - Nov. 2.

The choir will present program at First Baptist Church, Littlefield, October 31 at 7:30 p. m. Highlight of the 5-day tour is their performance at the Texas Baptist Convention Nov. 1 in the Lubbock Coliseum. They also will appear at Wayland Baptist College in Plainview.

The A Cappella Choir repertoire includes the works of the masters of the early choral schools and extends to anthems, folk tunes, spirituals and modern music.

Dr. Porter, who also is director of the Baylor Chapel Choir and the Seventh and James Church Choir of Waco, was recently cited by the Choral Conductors' Guild "in recognition of outstanding work in the general field of music." He is a professor of sacred music at Baylor and music director of Seventh and James Baptist Church, which is located adjacent to the Baylor campus.

The choir is now planning a 28-day tour to New York City and Europe for the summer of 1961. The choir will tour in New York City, British Isles, France, Germany, Switzerland and Holland. Upon their return from Europe and son Willard and grandchildren, Mark and Peggy Cahill, Lubbock visited the Marvin Kuhler family in Whiteface last week.

'61 Cotton Quota Is Set; Dec. 13 Election Called

COLLEGE STATION — A national marketing quota of 15,562,700 bales and a national acreage allotment of 18,398,424 acres have been proclaimed by Secretary of Agriculture Ezra T. Benson for the 1961 crop of upland cotton. Both increases over those for 1960.

The Secretary also set December 13 as the date for the referendum on 1961 upland cotton marketing quotas. A two-third favorable vote will be required to keep marketing quotas in effect for another year.

Secretary Benson said, "It is significant that it is not only possible to increase cotton acreage for 1961, but that it is essential to do so in order to maintain a desirable supply situation. We are moving in the right direction when our farmers have more freedom to plant."

The United States is currently seeking to maintain and improve the position of cotton both at home and elsewhere in the face of rising competition from synthetic fibers and foreign-grown cotton.

If quotas are voted out, the allotment program will remain in effect and price support will be available to cooperators at 50 per cent parity, as provided by law.

Texas Markets Well-Filled With Thanksgiving Foods

COLLEGE STATION — Farmers have produced another record harvest, filling Texas food stores with a bounty of good things to eat.

Turkeys and cranberries will be particularly abundant, reports the Texas Agricultural Extension Service, College Station.

Also available in heavy supply throughout the month will be onions, cabbage, dates, pork, beef, potatoes, sweetpotatoes and vegetable fats and oils.

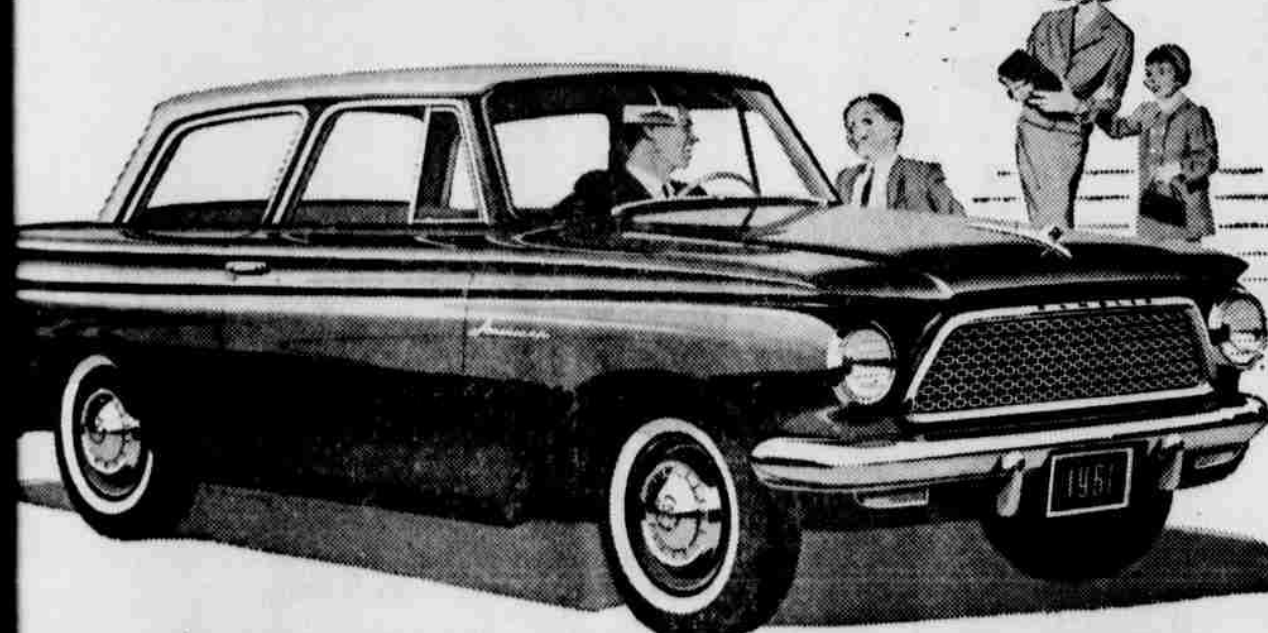

These items have been given the "plentiful" tag by USDA's Agricultural Marketing Service because supplies of each are expected to exceed normal demand.

Food markets throughout the state will tie special promotion efforts to national programs in - tended to encourage consumption. Consumers will reap the benefits of these activities, as plentiful offers are played up as weekend specials.

This year's turkey crop is estimated at 82.3 million birds, a new record. Heavy-breed birds are especially abundant. Many of these come from Texas' \$15 million turkey industry. New crop cranberries also are from a record - large harvest.

Both beef and pork are on the November list to provide meat variety for hearty meals. Total meat production has been running considerably higher than a year ago.

IN TEXAS YOU PAY 90¢ TAX ON TEN GALLONS OF GASOLINE!

HOW DID YOU VOTE? No matter how you voted, these facts on gasoline taxes are important to you:

- Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy!
- Gasoline taxes across the nation amount to a 50% sales tax—and that's five times as high as the tax rate on luxuries like diamonds and mink coats!
- Since World War II, there have been three increases in the Federal gasoline tax alone. This brought the Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon!
- In the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 5.5% during the same period!
- Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

**HIGHWAYS AND GASOLINE TAXES**  
New highways are built to help, favor construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — For years a high chain link fence marked the boundary of the Austin State Hospital grounds.

Sturdy and forbidding, with intricate barbed wires at the top, it was a fence that suggested the plight of the people it confined. It was a depressing, prison-like, mile-long fence that paralleled Lamar, one of Austin's busiest boulevards.

Now, each spring, Austinites make a point of driving out Lamar to see the mass of climbing red roses covering the fence. Today this long stretch of roses is a symbol of the change that has come to state hospitals — during the past 10 years as a result of volunteer services.

University engineering students donated and planted the rose bushes. Thousands of people over the state have landscaped the grounds, redecorated the dining halls and reception rooms, built swimming pools, given parties, conducted classes, wrapped gifts and in hundreds of other ways brought ease and warmth to state hospitals and schools.

In its fall report, the State Hospital Volunteer Services Council shows that volunteers gave 162,904 hours of time to state institutions during the past year. Figured at only \$1 per hour and adding in contributions of food, clothing, prizes, furniture, etc., volunteers enriched life in state institutions by more than \$338,996 during the year. This does not count considerable sums collected for all-faith chapels at several schools and hospitals.

Last year, 36,000 citizens went into 18 different state hospitals and schools to do volunteer work. Impact of these volunteers is two-fold, says Miss Helen C. Burn, coordinator of volunteer services for the State Hospital Board. First, they help to create a

pleasant environment which gives patients a better chance to respond to medical treatment.

Second, the volunteers learn the problems of the hospitals and schools and are an effective force in educating the community as to needs and goals.

"State money can't be spent for pictures or parties or swimming pools," said Miss Colburn. "It has to go for beds and food. But these other things are important. Patients respond to environment, and they respond to the people. And they know the difference between people who are paid and people who come to help them out of sheer kindness."

Right now the volunteers are getting ready for their biggest undertaking of each year — Christmas. It means securing, wrapping and tagging about 26,000 gifts to keep up a three-year record of having a gift for each patient in the state system. It means decorations, trees, parties and caroling. In some cases it means setting up shops where patients can get gifts to send to their families — often more ardently desired by the patient than a gift for himself.

**Rate Decision Postponed** — State Board of Insurance voted 2-0-1 not to adopt a recommended 13.3 per cent rate increase in certain types of auto insurance.

Board members R. W. Strain and Ned Price said they wanted to study the new safe driving plan more before approving any rate changes. They have been at odds with Board Chairman Penn J. Jackson who has recently advocated abolishment of mandatory merit rating. To scrap merit rating, said Dr. Strain, would penalize the 70 per cent of drivers who earn a discount for good driving records.

Board also refused by a 2-1 vote to allow insurance companies to disregard penalties against drivers involved in accidents presumably not their fault. This must be decided by a court, said Strain and Price.

Very few drivers seem to mind paying higher accident insurance rates because they are involved in accidents. But many do resent the assessment of a penalty based on traffic tickets issued. Especially tickets they feel were not warranted.

Still others contend that they are insuring their cars against accidents and not insuring themselves against traffic fines. Therefore if they are paying a premium for fines they should be reimbursed for those fines.

**Average Speed Lawful** — Average speed of Texas passenger cars on rural roads is 55.9 miles per hour, reports the State Highway Department.

This is below the legal limit of 60 miles per hour on most stretches of highway.

Average speed of busses, however, is 60.7 miles per hour. Trucks average 51.2 miles per

## It's the Law in TEXAS

### BANKRUPTCY

In bygone days when a man got himself hopelessly into debt, the courts would jail him until he paid. Or, as in our colonial days a man became an "indentured servant, and would come to America to work off his debt.

Neither jail nor servitude proved practical. A man in jail could not earn anything to pay his debts. It was drastic — something like the Siberian salt mines — to send a man to serve for years across the seas.

Through hard luck, illness, easy credit, impulsive buying, or shifts in world affairs, men and women may find themselves hopelessly in debt.

Our bankruptcy laws aim to permit an honest but unlucky or weak debtor to turn over a new leaf. They allow him to file a voluntary petition in bankruptcy. He accounts for all of his property and turns it over for his creditors' benefit. The court sets up machinery to get as much of their money back as possible.

The court then adjudges the man a bankrupt. This means, with some exceptions, that the court will discharge him of his debts. Any income he gets after that time cannot be reached in court to pay his old debts.

Debtors may try to gain in ways not intended by the bankruptcy laws. If so, creditors may object. Besides, the courts may deal drastically with such debtors under our criminal laws.

Under the bankruptcy laws, a man is not required to surrender to his creditors certain items. In this State they usually include the family stove, refrigerator, radio, wearing apparel, working tools of one's trade and certain other items which vary with each individual case.

Even though items may be exempt from the creditors in bankruptcy, however, if they were purchased under a conditional sales contract, the unpaid seller may nevertheless repossess such goods despite a bankruptcy; so, too, the holder of a chattel mortgage on such goods may require them to be turned over to him.

hour. Legal limit for trucks and busses is 55.

Statewide speed survey is taken by the Department each year with concealed radar devices. Department found that 19.3 per cent of passenger cars were exceeding 60, a 2.6 per cent decrease from last year.

**Students Galore** — Texas is getting set for a bumper crop of college graduates in the sixties.

Commission on Higher Education reports the highest ever enrollment — 90,035 students in the 18 fully supported state colleges and universities.

This is up 5,391 from last fall and a 60 per cent increase over 10 years ago. Biggest enrollments (in state schools) are at the University of Texas, Texas Tech, North Texas State, Arlington State and Texas A&M, in that order.

Biggest gains this year were UT and Arlington State.

**Road Lag Averted** — Release of additional federal funds will largely prevent an expected winter slowdown of highway work in Texas, State Highway Engineer D. C. Greer announced.

Only the November bid letting will be affected, said Greer.

This month the Highway Department tabulated low bids totaling \$19,030,137 for highway work. Next month the contracts are expected to total only about \$12,000,000, but by December the total should be increased again to about \$17,000,000 or \$18,000,000.

This will mean fewer workers laid off for the winter by contractors doing state highway work.

**Short Shorts** — Texas Railroad Commission announced that the eight-day oil production pattern will continue through November, making seven consecutive months of wells shut down 22-23 days a month. Daily allowable will be 2,667,508 barrels.

... Texas' cotton acreage allotment for 1961 will be 7,849,916 acres, the U. S. Dept. of Agriculture announced. This is a slight increase over over this year's 7,377,151 acres.

### Philosopher Doesn't Like Working After Election

**Editor's Note:** The Sandhills Philosopher on his Johnson grass farm has discovered the election is getting close at hand, his letter this week reveals. That must mean everybody knows it by now.

Dear editor:

It's getting closer all the time to the election on November 8 and I heard a man on television say he'd be glad when it's here and past so the country could get some work done.

I don't know what part of the country he's talking about, but it's not my Johnson grass farm out here. I fail to see any connection

between electing a President and me going to work.

I thought it was the other way around. When we elect a President, he's the one that goes to work.

One of the troubles with this country is that we take time off to elect an office holder, then go back to work and forget about him till next time. I don't follow that procedure, I like to keep my eye on him all the time, and any man who can't look over the grass and weeds in his own crop to keep his eyes centered on Washington, is taking the type of short-sighted view that results in farm surpluses.

I don't intend to work any more after the election than I did before, and I'll say this, if whichever candidate gets elected works as hard running the office as either of them did running for it, the fur ought to fly in Washington.

One reason I don't think we'll ever have one government for the entire world is that no candidate for World President could ever make all the whistle stops around the earth. As it is now, Presidential candidates have three months from the time they are nominated till election day to crowd in every section of the country they figure they ought to show up in, and they still miss a good many; but if they had to cover the entire world, it'd take em five years to do it and by the time they'd gotten to the last country, the people in the first would have forgotten what they said.

The problem is too big for me. I'll be glad when the election is over, but not because I'm going to work.

Linda Parrish was home from Lubbock over the weekend to visit her parents, Mr. and Mrs. Truman Parrish.

Mr. and Mrs. W. O. Parrish returned last week after spending a number of days at Graham.

Mr. and Mrs. M. C. Engram were in Lubbock Monday to return their son, Roy, for a checkup. Roy recently underwent surgery at a hospital there.

Mrs. R. E. Aills was honored with a coffee and housewarming Thursday morning when guests called at her home for the occasion.

### LIPSTICK LOGIC

Wary householders are stocking up this week for trick-or-treat. And since Halloween comes on Monday, doorbells will probably begin to ring about half past six Saturday evening, for a three-night run.

Small spooks, the kind that work their own neighborhood only, usually arrive early. Made bold by their weird costumes, these young terrorists demand hand-outs with the same bravado they 'command' Mother to give them a cookie.

Properly warned against real vandalism, and against strangers who 'act funny', these kids are more refreshing than frightening to their grown-up victims.

Vandalism of the kind once associated with October 31st has become a year-round threat from the wrong kind of youngsters. One neighbor twice recently has had raw eggs thrown into the open window of his almost new car. Another neighbor had he all-glass sun porch pecked out in a dozen places by mischievous boys with slingshots.

Vandalism was not a part of the ancient Halloween, which antedates Christianity. The two chief qualities of the observance in those days were the lighting of bonfires and the belief that on this night ghosts and witches were most likely to wander abroad.

Americans have done a good job of civilizing their young on Halloween observance. Some towns stage Halloween parades with prize-winning floats and most churches schedule parties for their young on All-Saints' Eve. Many schools carnivals. Within the last few years, some groups have even made it a night for cash contributions to some worthy cause.

Halloween spook night is actually a blessing in this over-mechanized civilization. Youngsters are given the opportunity to make a flight into the old-fashioned world of imagination with their outlandish get-ups and paper-sack treasure troves.

### About Your Health

Texans are prone to think of their state as one of wide open spaces, while the truth is, cities claim the overwhelming proportion of the States' population.

It is fallacious for Texans to think that air pollution is a problem only in Pittsburgh and Los Angeles or that Texas cities can't have their own air pollution problems.

The fact is that even small towns with a cotton gin as the sole industry often have their own peculiar air pollution problems.

Air pollution abatement engineers from the State Health Department's Division of Occupational Health have thick files on instances of local air pollution problems in small and large cities alike.

Several Texas cities comprising large urban complexes have experienced somewhat severe air pollution conditions, especially during temperature inversions which prohibit the natural dissipation of pollutants.

However, active cooperative programs undertaken by municipal, industrial, and civic groups can do much to alleviate the air pollution problem in most cities.

Industries can install special smoke reducing apparatuses and devices which significantly reduce odor, soot and dust.

Municipalities can utilize landfill disposal of refuse instead of the once popular open incineration. Cities often pass ordinances which make it mandatory for new industries to install air pollution control devices before operations can begin.

Civic groups can spread the word that everyone can do his part to control air pollution. Ma-

### Watch Grains For Post-Frost Prussic Acid

COLLEGE STATION — The first frost of the winter should be here before long, and when it comes it could mean trouble for livestock producers, Johnson grass and sorghum sometimes develop a high prussic acid content after a frost, and this is very dangerous to livestock.

Dr. C. M. Patterson, extension veterinarian, explains that certain chemical changes occur in the frost-wilted plants, and these changes produce the prussic acid. The poison acts quickly and can kill an animal within a very short time after the damaged plant is eaten. Whether a poisoned animal can be saved depends upon how quickly a veterinarian can get to it, Dr. Patterson points out.

Frosted Johnson grass or sorghum should not be grazed until it is completely dry, warns Patterson. If it is ready to cut before a frost, it may be cut the first day after the frost. Even so, care must be taken to see that it is completely dry before baling.

Silage is another way to use the frosted plants. Generally,

enough prussic acid is lost during the ensiling process, and as silage is removed and fed, to make it safe for livestock. Animals shouldn't be allowed to self-feed from a silo filled with frosted sudan or sorghum, however. If there is any doubt about the silage it should be tested. This may be done by a local veterinarian or by feeding the silage to one or two inferior animals.

#### Raiders Tackle Rice Saturday

LUBBOCK — Getting past the halfway mark of their 1960 schedule didn't move Texas Tech's Red Raiders through their "murderers' row" of football opponents.

Still ahead of the Red Raiders are Rice in Houston this Saturday, Tulane, Wyoming and Arkansas — the latter trio in Lubbock.

Rice, with a crushing 47-0 victory over Southern Methodist and a 7-0 triumph over favored Texas, has become the team to contest Baylor for the Southwest Conference title — if Arkansas doesn't follow up its 24-23 win from Texas.

Tulane, with a better team than the one that downed Tech 17-7 last season, was barely edged 14-6 by Georgia Tech last week. The Green Wave, winner over California in its opener, held Bear Bryant's Alabama team to a 6-6 tie and Rice to a 10-7 decision.

Wyoming, loser of only one game this season, blanked the U. S. Air Academy 13-0 last week.

Bound to set a school attendance record in its first year of Southwest Conference play, Texas Tech still has reserved and general admission seats available for its three remaining home games — afternoon contests with Tulane Nov. 5, Wyoming Nov. 12, and Arkansas Nov. 19.

Thirty two thousand saw the Red Raiders rally to notch their first Southwest Conference football victory, 28-7 over SMU last week.

#### Cotton Bowl Tickets On Sale

DALLAS — Ticket applications for the 1961 Cotton Bowl Football Classic on January 2 will be accepted by mail only during the period starting Friday, October 21, and lasting through Wednesday, November 2.

The Cotton Bowl Classic is the official Southwest Conference post-season bowl game, and the conference champion automatically becomes the host team. This will be the 25th annual Cotton Bowl game, the Silver Anniversary of the famous gridiron classic.

There will be no limit on the number of tickets that can be ordered. As usual, after all applications have been received, a drawing will be conducted to determine the allocation of the 25,000 available tickets. Tickets will be mailed and unfilled applications and checks will be returned to the senders shortly after December 1.

The price of tickets for the 1961 Cotton Bowl Classic is \$5.50 each, and a 25-cent mailing fee should be added to each ticket order. Checks or money orders must accompany all applications.

Applications should be mailed to arrive during the period specified, October 21 - November 2, to Cotton Bowl Athletic Association, P. O. Box 7185, Inwood Station, Dallas 9. Envelopes must be postmarked not later than midnight, November 2.

Applications received for more than ten tickets from any one person will be placed in the draw in groups of ten or less. In other words, any number of tickets can be ordered, but they will be drawn so that they will be in blocks of ten.

The board of directors of the Cotton Bowl Athletic Association has announced that the 1961 Cotton Bowl Classic will be blacked out for television in Dallas and the area within 100 miles of the city if the stadium is not 90 per cent sold out for the January 2 game.

Syracuse's 1959 national champions defeated Texas 23-14 in the 1960 Cotton Bowl Classic played on last New Year's Day.

The paint brush has been changed to appeal to women. Pink, blue, aqua and yellow nylon filaments are being used with color-coordinated handles.

**In The Martin Manner**  
By Ramon Martin

IN LESS than two weeks, America will go to the polls. They have just counted up the total eligible to vote, and the figure runs to better than 100 million.

Of this number, only a relative small percent actually will go to the polls November 8. Oh say, three-fourths will vote — if it doesn't rain!

This matter of why people do not vote has always interested me, so I set up several weeks ago to conduct a little one-man investigation on the subject. "Why don't people vote?" It's one of the great freedoms of Democracy, a chance that many people in other countries would give their eye-teeth to enjoy. Yet our people stay away from the polls by droves.

So, as I said, I asked a few questions and came up with some answers which interested me.

"I HAVE lived in Texas for 20 years," said one resident, "but I have never voted, and I never expect to vote in Texas. I positively will NOT pay for the privilege of voting, a privilege that our forefathers fought for and which, in the poll tax system, we defeat."

He said he had no objection to paying the \$1.75 fee which now goes for poll taxes in a "sidewalk use fee," or any other kind of tax. "But," he explained, "I do not think it is constitutional to make me pay for the privilege of voting. After all, this poll tax business is a carry-over from the post Civil War days when it was designed for the purpose of preventing Negroes from voting. Yet I lived in one town in Texas which had some 300 Negroes and

ed up and went into a considerable speech for voting machines. Seems he had lived in the east where the machines are used extensively, and he said, "voting there was a matter of only two or three minutes at the most," and he added, "it is the only accurate system yet devised." He pointed to the strides that book-keeping has made since the advent of the machine age, and summed up with: "Yet our voting system is as obsolete as the book-keeping systems in use in 1908. I believe if machines were used exclusively everywhere we would know the results of an election before midnight throughout the nation — the accurate and true results."

BUT BY far the greatest number of non-voters whom I contacted gave the "nothing-to-vote-for" answer. One woman put it like this: "I can see absolutely no difference between the Democratic and the Republican platform. I'm not smart enough to see that difference. As a result, I'm not voting this year. I could go along with the Constitution party on most matters but not on their unrealistic isolation plank, and besides they have swung entirely too far to the right; it would bankrupt the nation."

So, that's another view. Incidentally, I didn't pick up all these answers in a single day. I've been asking questions for some time and storing up the answers I received. Many told me they "probably will vote, although at the moment I don't know for whom," or words to that effect. I hope by now they have made up their minds.

In fact, I expect more people will stay away from the polls on the theory that it doesn't really matter anyway, since the two platforms are so similar, they feel

BUT PLEASE don't ask me who said what: I promised solemnly that I would not reveal names. I had to make that promise in some instances before I could get people to talk. In fact I didn't even list their names.

There were other reasons given, but the ones I have cited are the ones which I received most commonly. One cited the fact that residence requirements are too strict. Said he: "I am 50 and have lived in the United States all my life, yet have lived in this state only six months. I can't vote here, yet I think I should at least be permitted to vote for the national ticket. The same president will serve this state as will be president of (and he named his previous state) so why should I be allowed to vote?"

As I understand it, he can vote absentee from the state which he left six months ago or he can return there to cast his ballot. Frankly I think the election laws should be the same in every state, especially for national elections.

Anyway, it was fun conducting this little survey, and I offer the results above for whatever they are worth.

A qualified voter who neglects to register thereby loses his vote.

**Vote as a Free American!**

Vote the Ticket that is BEST FOR TEXAS

HERE'S HOW TO DO IT

**OFFICIAL BALLOT**

Look for these names at the top of one of the columns:

**For President and Vice President**

**RICHARD M. NIXON and HENRY CABOT LODGE**

- Find the names of RICHARD M. NIXON and HENRY CABOT LODGE at the top of your ballot.
- Leave the names NIXON and LODGE unmarked on the ballot; scratch all other names for President and Vice President.
- To complete your ballot, leave the name of the candidate for whom you wish to vote for each office and scratch the rest.

**WARNING!**

You may be told that you cannot vote for Nixon and Lodge if (1) you voted in the Democratic Primary or (2) your poll tax receipt or exemption certificate is stamped "Democrat." THIS IS NOT TRUE. You CAN vote for any candidate you wish, no matter how you have voted, or not voted, in any previous primary or election. THIS IS YOUR RIGHT AS A FREE AMERICAN.
