San Antonio Man Seriously Hurt In Head-on Car Collision

J. P. Fergusson, 67, and daughter, Mrs. Charles W. Easley, 22, both of San Antonio, were admitted to the Payne-Shotwell Foundation about 5 o'clock Saturday evening suffering from injuries received in a head-on automobile collision about 15 miles west of Littlefield.

Severely Injured According to the attending physician, Dr. R. E. Maurer, Mr. Fergusson is suffering from several broken ribs, a broken shoulder blade, neck injury and numerous bruises, and Mrs. Easley from shock and bruises.

Mr. Easley also sustained slight cuts and bruises. In the Fergusson car at the time of the accident were: Mr. Fergusson, and his three daughters, Mrs. Charles Easley, Mrs. Glenn Rhines, Mrs. Elvert Webb, and Mr. Easley, driver of the car.

In the other car featuring in the accident were: Mr. and Mrs. George Harvey Collins and son, Ted, of Sudan.

They escaped injury with the exception of scratches.

Just Released From Hospital According to one of the daughters of Mr. Easley, while visiting at his sister's ranch at Kenna, N. M., her father had fallen from a ladder, following which he was a patient of a Clovis hospital, from which he had only been released Friday. The San Antonio group had gone to Clovis for their father and were enroute to San Antonio when the accident happened.

Both cars were demolished. Lamb County officers are reported to be investigating the accident.

Hockley Wildcat Nearing Pay Zone

Humble Oil & Refining company No. 1 Hobgood, a wildcat going down six miles west of Anton, is drilling in prospective horizons.

The venture was last reported drilling below 8,260 feet in chert and dolomite, possibly upper Pennsylvanian.

The No. 1 Hobgood already has shown for a possible discovery from a Permian zone, but operators intend to test all formations down to and including the Ellengurter before returning the complete from the Permian zones.

Draft Begins; 20 Men Called For Physical Test

The wheels of the Selective Service Boards over the country started to roll this week as the initial notices were issued.

The Lamb, Bailey and Cochran Tri-County Draft board received a call for 20 men to answer the first call.

These men were notified to report to Amarillo August 8 for their physical examinations. Those who pass will have at least 21 days at home before reporting to active duty.

The call for men came a little sooner than was expected. Only a few days have elapsed since Maj. Gen. Lewis B. Hershey, director of selective service stated that it would be approximately 60 days before the service would be organized and ready to issue "greetings."

Governor Shivers Takes Easy Victory; Brooks and Ramsey Face Runoff Race

Gov. Allan Shivers held at least 75 per cent of the votes throughout Saturday's primary election tabulations in the race for governor. His nearest opponent was Caso March, a professor at Baylor University, who said he would run again.

Pierce Brooks, a Dallas insurance man, and Ben Ramsey, former state senator and secretary of state, led ten other candidates in the race

C. White and Charlie McClellan were close together in second and third place.

A runoff was almost certain for place 3 in the State Supreme Court with incumbent Meade Griffin of Plainview at the top and George Harwood of Dallas second.

Will Wilson and Fagan Dickson may go into a runoff for place 1 in the State Supreme Court. Wilson was comfortably ahead at last report.

Almost a million votes were cast over the entire state of Texas. The total voting strength was estimated at 1,600,000, according to the voting bureau.

Attorney General Price Daniel was the only candidate for that office.

W. A. Morrison of Cameron was running second and facing a possible runoff with Robert A. Lattimore for the court of criminal appeals.

Robert W. Calvert was ahead by about 85,000 votes in the race for place 2 in the State Supreme Court. His nearest opponent was Hicks Harvey of Cass County.

For Comptroller of Public Accounts Robert S. Calvert led Clifford E. Butler by a substantial margin.

Rascom Giles stayed far in the lead of James L. Allred of Tarrant County for Land Office Commissioner.

GOV. ALLAN SHIVERS

for lieutenant governor. According to late tabulations Brooks and Ramsey face a runoff race. Brooks had a slight edge over Ramsey with about 18,000 votes, Sunday.

Incumbent agriculture commissioner, J. E. McDonald, lacked a few votes having sufficient lead to avoid a runoff election. John

Dent, Jones, Wilkinson Win In Stiff Contests

Cearly and Tapley To Be In Runoff For Commissioner

Judge Otha F. Dent was re-elected county judge with a 443-vote margin over Herbert Dunn in Saturday's primary election.

J. Ernest Jones took a 538-vote win over Mrs. Anne Louise Wiseman in the race for County Superintendent of Schools.

Curtis Wilkinson, who sought the office of County attorney, was elected when he defeated Willard C. Street, Jr., 2,387 votes to 1,319.

CURTIS WILKINSON

After a total of more than 3700 votes were cast throughout the county, only one runoff race was in sight. Sam Cearly led L. R. Tarpley 153-119 in the race for commissioner of Precinct 2. Cearly's margin over other candidates was not sufficient, however, to keep him out of the runoff which will come in August. E. C. Clayton ran a close third with 113 votes.

With 430 votes George C. Brown won over R. D. Bryant's 386 to win the race for commissioner of Precinct. The Springlake box, which went 88-35 for Brown, won the office for him. Olton and South Olton were won by Bryant.

Fred W. Wilson won the office of commissioner of Precinct 4 by a total of 587 votes to Hugh Vincent's 146 and Eli Young's 155. The largest number of votes—362—won by Wilson, came from Anna's.

Young won 64 there and Vincent none. Other boxes Vincent 3, Wilson 78 and Young 21 in Hampton. Vincent 131, Wilson 113 and Young 49 in South Sudan. Vincent 12, Wilson 31 and Young 24 in 1st P.

Mrs. Littlefield said Houston police called Mrs. Bevil in Lubbock as soon as Betty Lou had identified herself and revealed her grandmothers' telephone number.

Mr. and Mrs. Littlefield and a brother of Mr. Littlefield left here Tuesday and returned about 9 p. m. Thursday with the girl.

Littlefield and Lubbock authorities have been searching for Betty Lou since she disappeared from a revival service in Lubbock she was attending with a local church group.

Littlefield and Lubbock authorities have been searching for Betty Lou since she disappeared from a revival service in Lubbock she was attending with a local church group.

F. V. "SKEET" DILLARD

Fred V. Dillard received more than twice as many votes as Robert Wilson to win the race for constable of Precinct 4. The final count was Dillard 786, Wilson 388.

Judge Dent received 2095 votes to Herbert Dunn's 1652. Dent lost in six of the 15 boxes in the county. These boxes and the tabulation there were: Hampton Gln 52-50; Sod House 22-14; Spade 94-70;

New Commemorative Postage Stamp Will Go On Sale At Local Post Office

Another series of National Sesquicentennial Commemorative Stamp goes on sale August 3, 1950. The central design of the stamp is a reproduction of the United States supreme court building.

Across the top in a single line of dark modified Roman is "Washington 1800-1950". The bottom border is complete with a dark panel in which is the wording "United States Postage" in shaded Gothic.

Superimposed on this panel, at the left, is the shield of the United States on which is a circle bearing the denomination "3c" in dark Roman.

man. Just below the central design is the identifying wording "U. S. Supreme Court" and "National Capitol Sesquicentennial in dark Gothic.

This beautiful Commemorative stamp, according to the local Postmaster, will be placed on sale at the Littlefield postoffice August 3, 1950.

Stamp collectors are advised that Commemorative stamps are limited and within a few weeks after they are sold out they will not be available. They cannot be bought after the supply is exhausted.

Bedside Surprise Party For Youth

Friends bearing gifts, big cakes, ice cream and other delicacies walked into room 211 of the Payne-Shotwell Foundation, and when his eyes became accustomed to all the bright colors, James Swanner of Whiteface, paralyzed victim of an auto accident, realized that he was the recipient of a surprise bedside birthday party.

James, who sustained a broken back May 16 when enroute home from Levelland, his car skidded and overturned on a slippery dirt road northwest of Sudan was greeted on his 20th birthday by more than 40 friends from all over Texas, Wednesday at 3 p. m.

Over 100 birthday cards and 15 presents came to James through the mail in addition to the many gifts brought to him in person. Several weeks ago an item in

the Lubbock Avalanche expressing James' desire to receive cards or letters to cheer him in his hospital bed brought response from more than 156 persons over a seven-state area.

James reported that being called on in person was even more pleasing than the cards, flowers and letters. He said he enjoyed the party as much as any he had ever had.

Two large birthday cakes were cut and served with home-made ice cream from a large freezer. Guests included Mrs. Nell Matthews and Mrs. Boyd Valentine of Whittharral; Arthur Williams, Louie Seawright, Sarah Cannon, Doris Twilley, Leroy Gotfried, Donna Cartram, Mamie Shotwell, Dr. Roy Johnson, Rev. Walker, Iva and

June Martin, Mesdames D. C. Ludley, RN, Bernice Biles, Irene Edmonds, G. C. Mobley and H. Brown, all of Littlefield; Mrs. Aubsey Kirby of Levelland; Tod Lucas, Mrs. A. Q. Lucas, Mrs. Charles Coffman, Mrs. Melvin Woodly, Linda Kay Coffman, Tommy Coffman and Mrs. Grace Swanner, all of Whiteface; Mesdames Roy Cunningham and F. W. Coffman of Circle Bark; Bruce Giles of Earth; Betze Davis of Carbon Hill, Alabama; Dr. Jesse Benuto, Monterrey, Mexico, Mr. and Mrs. Miles L. Nations, Grand Saline, Texas, Mrs. Mae Phillips and J. O. Phillips of Baileysboro, Mr. and Mrs. Harold L. Arant of Sinda, and Mrs. Billy G. Ward, Linda S. Ward and Jerry Lane Ward of Lamesa, Texas.

Betty Lou Littlefield Returned From Houston

Betty Lou Littlefield, who has been missing from her home here since June 29, returned Thursday with her parents to Littlefield from Houston where she said she had been living for about three weeks.

The girl's mother, Mrs. G. A. Littlefield, said members of the Houston police department had called Mrs. John Bevil of 2608 Colegate, Lubbock, Betty's grandmother, and notified her of the whereabouts of her granddaughter.

The 14-year-old College Heights school girl said she had gone to Houston to visit an aunt, Mrs. Virg Harris, but was unable to locate

All July Rain Records Broken By Downpours Here This Week

Most of Lamb County stood under water at the beginning of this week after a deluge of rains fell from Wednesday through Saturday.

Heaviest falls were reported in the area southeast of Littlefield on U. S. 54, where a flash flood overflowed the road Thursday night and early Friday morning, leaving automobiles stranded and the floors of several buildings covered with water.

Crops, particularly young plants, were reported washed away at several points in the deepest part of the flooded area. Damage to

vehicles and buildings was reported to be moderate. A station wagon, however, was reported to have overturned on the highway when it struck a deep puddle. The driver was uninjured.

An unattached trailer house parked near the Rhoten Service Station at Bainer was picked up by the swirling waters and floated several hundred feet away. The current caught another trailer house which was in tow behind an automobile and turned it broadside in the highway.

Flood water covered two stretches of the highway for more than a mile near Bainer (also called Yellowhouse junction.) Persons living in the flooded area reported that waters rose as high as four feet above the highway and ten feet or more in some parts of the right-of-way.

The rain began Thursday night about 10 o'clock after a huge lightning-studded thundercloud blew in from the northwest. Blinding sheets of water swept through the streets of Littlefield. Seconds after the rain began, water ran curb-deep

HEAVY, BUT IT FLIES . . . Willard R. Custer, Hager-waves cheerfully from his plane, the "Custer Channel" which he thinks will revolutionize the aviation industry. It is the best flown.

"Flyingest Salesman"

Sam Keener, 62-year-old millionaire businessman, is renowned as the world's most colorful sales personality and "flyingest salesman."

He spends two-thirds of his time traveling around the world in his private aircraft chasing-down customers no matter where in the world they may be.

The rest of the time he spends in Salem, Ohio, where he is president of the Salem Engineering Company, and a top executive of allied companies in Canada and England.

His prized sales tools are his three airplanes at a cost of over \$500,000.

His DC-4 is an executive's dream office equipped with every modern business convenience imaginable . . . a new Dictaphone Time-Master, a sound-movie projector, filing cabinets, desks, typewriters, swivel chairs, and a bicycle for use at out-of-the-way airports.

He can carry and sleep eight people in his C-87. And his DC-3 is an elaborate flying living room.

Another of Sam Keener's claims to fame are his colorful uniforms. "I have three uniforms, says Mr. Keener quite proudly, "two twilight blues, and one white flannel for formal." These have rated him salutes all over the world. Even the Shah of Iran has saluted salesman Sam Keener.

His twilight blue uniforms have a matching visored cap, four gold stripes on the sleeves with

One of his flying workshops (top). Cruising along at 200 miles per hour thousands of feet up, Sam Keener (above) the "flyingest salesman", does much of his dictating while flying to the next airport and his next customers.

four gold stars on the left one, a pair of wings embellished with the American flag over the heart, and the insignia of his engineering firm.

The stars represent 400,000 miles of commercial air travel. The stripes help cut red tape and detailed questioning in foreign countries.

He has crossed the Atlantic 53 times. And during the past 25 years, he has flown millions of miles, including some 8500 hours at the controls.

Mr. Keener's company designs, supervises construction, and trains personnel in the operation of many varied industrial installations.

When not flying after business, and maintaining his claim as the "flyingest salesman", he dons his uniform and sports cowboy chaps, and a ten-gallon hat.

Special Services Available To Smaller Schools Under New Plan

The smaller public schools of Texas now have available many special services which have raised the standards of education and improved the health of the children.

Until enactment by the last legislature of the Gilmer-Aikin school laws, only the larger and richer school districts could afford the numerous services now being utilized throughout the state.

Increased state funds for districts, after they have met state requirements as to financing on the local level has made available teacher supervisors, student counselors, librarians, visiting teachers, nurses, physicians, itinerant teachers, more vocational teachers, home economics and trades and industries courses, distributive education, and more training of exceptional or handicapped children.

"The time is past when children in rural areas cannot have an education as good and in as many fields of endeavor as students in the centers of population," Miss Walker commented.

State aid to schools is offered on a variety of bases.

Schools are allowed funds for a supervisor or counselor on the basis of one to every forty classroom teachers. Supervisors work with the teachers to improve education. Counselors devote their time to guiding and advising children.

Librarians, health nurses, doctors and visiting and itinerant teachers are provided for on the basis of the school districts having their choice of one of those for each twenty classroom teachers.

Visiting teachers work with parents to overcome conditions which prevent children's regular attendance at school. Itinerant teachers

are those specializing in such subjects as art, music or physical education who give instruction in several schools in the same district daily or several times a week.

Vocational education departments increased during the last school year by more than 500, making a total of 2,087 in the 2,492 school districts in the state.

State aid has enabled these high schools, when they have enrollments of sixty or more pupils, to hire instructors in vocational agriculture, trades and industries and home economics.

There has also been a big demand for more distributive education and it is being met. In these courses high school students devote half of their school time to classroom work and the other half to gaining actual experience in their chosen fields, whether it is mechanics, printing, selling, farming, merchandising or work as beauty operators.

Classes for handicapped children increased 50 per cent throughout the state for the last school year. Another such increase is anticipated during the 1950-51 school year as more teachers trained in this highly specialized work become available.

Smaller school districts can also combine to establish joint classes for these handicapped children. Miss Walker expects that practice to be expanded.

"Handicapped children benefit greatly under specially trained teachers, but outside the larger centers of population there are so few in many school districts it is not feasible from an economic standpoint to hire instructors. Two

Air Force Recalls To Be Voluntary

All of the United States Air Force recalls to active duty will be on a voluntary basis, the Department of Defense announced this week.

The officers accepted for active duty will be Reserve or Air National Guard officers and the airmen will be from the Reserve components of those who have prior Air Force service. Both officers and airmen eligible for recall should have certain special demilitary skills currently required by the Air Force.

Greatest current need for officers is for those in the Reserve or Air National Guard who have been trained as navigators, bombardiers; communications, radio and radar specialists; medical and dental officers, weather specialists and armament officers.

There is also a requirement for a smaller number of officers in most other categories of Air Force assignments.

The Air Force may have a later requirement for additional pilots. However for the present it is planned to meet the immediate pilot augmentation by returning to flying status those pilots recently converted to ground duties due to budgetary restrictions.

Airmen whose specialties are currently required include those with experience as aircraft and engine mechanics, radar and radio operators, communications personnel, armament specialists and medical personnel. As with officer requirements, a smaller number of airmen are also required in other USAF general fields.

or more districts generally have a sufficient number of children to make possible this badly needed service," the state association president declared.

Last Rites Held For Mother Of Mrs. Bruce Porcher

Funeral services for Mrs. R. W. Pankey who passed away Saturday morning, July 15, were held at the Presbyterian church at Harper, Texas, the next afternoon at 3 p. m.

She was 78 years, four months

and 29 days old. Mrs. Pankey was the mother of Mrs. Bruce Porcher, of State Key of Denver, Colo., one daughter, Mrs. Bruce Porcher and one son, child, Mary Jo Porcher, and one sister, Mrs. Eva Stewart of Harper.

More Than 20 Candidates Speak At Jaycee Candidates' Rally

Over 400 citizens gathered near the First National bank on Phelps Avenue Wednesday at 9 p. m. to hear 22 candidates for public office tell why they thought they should be elected in the Democratic primary Saturday, July 22.

The candidate's rally, sponsored by the local Junior Chamber of Commerce, was broadcast over station KVOW.

Jaycee President "Skipper" Smith said the organization had received several favorable comments concerning the rally, which was sponsored with the intention of stimulating public interest in the Saturday election.

Further efforts were made to encourage voters to do their duty as citizens on election day when the Jaycees furnished automobile transportation for those who wished to go to the polls to vote. Two cars were furnished and one man stayed near telephone No. 558 to receive any requests for transportation.

Plans had been made earlier to take up a collection for the anti-polio campaign also sponsored by the Junior C. of C. These plans were abandoned however, when the organization decided to take a house-to-house canvass next week to raise funds necessary for the campaign.

Speakers at the rally and the of flock they sought included Bill Young and Fred Wilson for Com-

missioner of Precinct 4; Roy Gilbert for Commissioner Precinct 5; George Brown, for Commissioner Precinct 1; Mrs. Bill Pass, for County Treasurer; Mrs. Anne Louise Wiseman and Ernest Jones, for County Superintendent; E. A. Bills and Bob Kirk, for District Judge; Clarence Davis, for Tax Assessor and Collector; Sid Hopping for County Sheriff; Joel F. Thomson, for County Clerk; Curtis R. Wilkinson and Willard G. (Bill) Street, for County Attorney; Otha F. Dent and Herbert Dunn, for County

Judge; Mrs. Treva Jennings Quigley, for District Clerk; Joe Sharp, for District Attorney; Horace J. (Doc) Blanchard and Harold M. LaFont, for Representative of the 120th District of Texas; Herbert C. Martin, for Associate Justice of the Court of Civil Appeals, 1th Judicial District of Texas; and T. Wade Potter, who spoke for Meade F. Griffin, a candidate for Associate Justice of Supreme Court, Place 3.

## THE BEST WAY TO WASH DISHES By Hand or by Machine

From Maine to California women spend up to two hours every week on the "meanest job of all"—washing dishes. In 30 years of life the dishes stack up a pile as high as the Empire State Building, an estimated 340 plates, cups, glasses, prep-ared dishes, pots and pans, not to mention silverware. With a job of this size, efficiency saves a housewife countless steps and time. There are almost as many ways to wash dishes as there are women—some splashing the hot water at one extreme, others placing them in an automatic electric dishwasher at the other. For the majority of women who wash them in a hot pan of water, Hotpoint recommends these steps for greatest ease and speed. First, segregate glasses, cups, saucers, and silverware. Place a rubber scraper on a stool and use it to remove food from plates. Rinse sticky and cups under the faucet. The dish pan use a sudsy soap in powder or liquid form. New products drain the off without leaving the spotted. Do not use too much soap since longer it will be required. In order to wash the dishes not too important but most start with the glasses and wash and wind up with the rubber scraper. This cuts down the number of water changes needed. Rubber gloves are a big help in saving your hands, but also in permitting you to use hotter water than your hands could stand. Not only dishes look clean when you wash them, but also they should be washed to sufficient suds to be clean. The dish cloth is more effective than a dish brush. A brush can be used not only on pots and pans, but also on the removing adamant food from the dishes. When the dishes have been placed in the rack, hot water can be used over them with a faucet attachment or poured over with a teakettle. If you are a very small number of dishes it is handier to hold them under the hot water faucet. The dishes should be left in the rack long enough to drain well.

Silverware should not be left too long in the pan of heated water. A few pieces at a time should be given short soaking and then wiped off with a dish cloth. While many detergent users let the dishes dry in the racks, glasses and silverware should be dried with a towel. A good supply of towels should be on hand for these items and for times when you want to dry all the dishes by hand to get them out of the way. Experience shows that cleaning pots and pans encrusted with grease or food matter is the biggest time killer a woman faces. This is a tough problem to solve but best tips are to have a good scraper on hand, wash these utensils as soon after use as possible or, if you must leave them till later, put hot water in them to soak. Also watch that food does not boil over on them while cooking. The above suggestions represent a brief consensus on how to do the time involved in dishwashing by hand but to top up to an hour and a half from the job, many women have been considering the purchase of an automatic dishwasher. Reports from several thousand owners sent to Hotpoint, largest dishwasher producer, indicate that these machines require less than one half hour daily, since women merely place the dishes in them and start the machine. There are several types of automatic dishwashers, but the best known and the most automatic have a rack that slides out when the front is opened leaving the top of the appliance as free working surface for stacking dishes. The racks hold 60 dishes, cups, saucers, pots, pans and glasses plus silverware. These are washed, rinsed and electrically dried at the turn of a dial. Women who use dishwashers reverse the ordinary hand routine and place the pots and pans in the dishwasher immediately after use to let the machine wash them while the family is eating. The racks are loaded with the dinnerware five to ten minutes after dessert dishes have been cleared. The appliance takes over when the dial is set and 30 minutes later the dishes are dry and can be put away. Some women leave the dishes stored overnight in the machine until ready to use them again next morning. With a large group, the appetizer and dinner dishes can be put in the machine to wash while dessert is served. This leaves only the final course dishes and coffee cups and saucers to be put in the racks before the housewife can rejoin her guests. The preparation of pots, pans and dishware for a dishwasher is similar to preparation for hand washing which means brushing off all loose foreign matter and for greasy ones, running them under hot water. For fine china and stemware, a good dishwasher is neither kinder nor harder than hand washing. Where the machine has heated forced air for drying, a point to watch when shopping for a dishwasher, glasses and silverware will dry spotless and sparkling. Because good dishwashers use water at 150 degrees, which is hotter than the hands can stand, they do a more thorough washing job than can be done by hand. Before you purchase any dishwasher, you should discuss installation with your dealer or contractor. The best models all require plumbing but with the increased popularity of this modern work-saving appliance plumbers are experienced in installation.

## To Dedicate Earth First Methodist Church July 30

Dedication of the First Methodist church building of Earth will be held Sunday morning, July 30, at 11 a. m. Rev. Hugh F. Blaylock of Miami, Texas, will hold the services. Rev. Blaylock was pastor of the Earth church during the erection of the building and assumed a heavy responsibility throughout the time of construction. Dinner will be served at the church at noon.

## Olton Pioneer Observes Birthday

E. N. Burrus of Olton celebrated his 79th birthday Sunday, July 16th, at the home of his son, Paul Burrus. The family group gathered at the old home-place now occupied by Mr. and Mrs. Paul Burrus and family. Those present to enjoy this occasion were: Mr. and Mrs. Roy Burrus and son, Tom Nell of Hart, Texas; and Mr. and Mrs. Paul Burrus and Ed Lynn, Naomi Ann and Charles T. and the honoree, Mr. E. N. Burrus and his wife. Mrs. Paul and Mrs. Roy Burrus served home-made freezer ice cream to the group. Mr. Burrus is a pioneer of Lamb County and served several terms as County Judge.

## Springlake Church Of Christ To Conduct Revival

The Church of Christ at Springlake, Texas is conducting a Gospel meeting from Monday, July 24, through August 2nd. Norman Gippson from Amherst will be the principal speaker at all the services and Dennis Kellogg also of Amherst, will direct the singing. Services will be daily at 10:30 a. m. and 8:30 p. m. The public is cordially invited to attend any or all of these services. Dinner on the ground and singing in the afternoon, Sunday, July 30th.

**BUYS REGISTERED JERSEY**  
COLUMBUS, O.—LeRoy Armstrong of Olton, Texas has purchased the registered Jersey, Volunteer Lady Nests from the herd owned by Dudley Roach of Springlake, Texas. Jerseys are registered at the national office of the American Jersey Cattle Club in Columbus, Ohio. The Club has kept complete records on all registered Jerseys in the United States since 1868. Jerseys are especially noted for producing milk that averages more than 5 per cent butterfat. The breed also calves and begins producing milk from three to six months sooner than other dairy breeds. This means faster herd

## Littlefield HS Band To Play For WOW Annual Convention August 7

Littlefield's high school band, which is the official national band for Woodmen of the World in the United States, will leave here August 7 to attend the annual WOW Summer encampment which will be held at a place to be announced later. Don Hayes, director of the band and head of the music department of Littlefield school, said this announcement of the name of the convention city will be delayed by the unsettled state of world affairs. A meeting will be held August 1, Hayes said, and the name of the convention city will be announced then. Selection will be made at that meeting of about 45 or 50 members of the regular 90-piece band who will attend the convention, and other details will be arranged. The band will be stationed in one centrally located city, will play several concerts there and visit the nearby WOW encampment to play concerts and march in parade. Director Hayes urged all band members to attend the meeting August 1 so that final details of the trip may be worked out. For the third year since the

WOW commander appointed it the official national band for WOW, the Littlefield organization will attend a WOW convention. In 1948 the band played for the National WOW convention at Hot Springs, Arkansas, and last year for the state encampment at Mineral Wells. Besides being chosen official band for WOW the group won three contests to cop the sweepstakes award at the state-regional band convention at Cameron last spring. They took first place in concert playing, marching and sight reading. The WOW convention will take the band away from Littlefield probably for a week, Hayes said.

**INGENUITY DOLBLES DELIVERY**  
One oil man has cut costs and speeded service in a standard-home home development by equipping trucks with duplicate pumps and meters. Deliveries thus can be made to two homes simultaneously. Each line unloads 57 gallons a minute. Each truck serves 80 homes a day. Individual initiative like this spurs competition and identifies the oil industry as a servant to the citizen.

## Texas Pageant To Be Held New Braunfels August 4-5

Beauty may be enough to make a woman a star on the street corner, but it won't be sufficient to carry her very far in the Texas Pageant in Landa Park, New Braunfels August 4 and 5. The contestants will be chosen to represent the Lone Star State at the National Finals in Atlantic City, September. More than a pretty face is required for the state finals here. The contestants will be judged on the same system of judging as the National Finals of the Texas Pageant. Qualifications for contestants will include: 1. Talent. 2. Beauty and figure. 3. Health and body. 4. Intelligence. 5. Poise, personality, disposition, general culture. 6. Stage and 7. Voice and diction. The contestants will have the opportunity to appear personally with all contestants before they appear in the competition, thus being able to make notes for reference during the contest. Ballots will be cast only at the official contest when all entries will compete in evening gown competition, bathing suit competition and for talent. Governor Allan Shivers and John Ben Shepperd, Secretary of State, will be on hand to crown Miss Texas at the gala pageant in beautiful Landa Park, New Braunfels on the night of August 5. In other words, "Miss Texas" will be not only easy on the eyes but also easy to get along with and lots of fun, too.

**Pete Peterson Gives Jaycees Box Of Cigars**  
Usually a man must get married, become a father or strike oil before he gives away a whole box of cigars. Not so with Viggo "Pete" Peterson of Wayne Milk Company. He walked into a meeting of the local Junior Chamber of Commerce Thursday night and handed a full box of delicious stogies to the Jaycees. He met their questioning faces with this reply: "Help yourselves, boys. These cigars are given in appreciation of the fine service the Jaycees are rendering our community." The Jaycees blew smoke rings and thought that one over. They liked everything about it.

### LEGAL NOTICES

**NOTICE OF HEARING ON STREET IMPROVEMENTS TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING ON THE HEREBELOW MENTIONED PORTIONS OF STREETS AND AVENUES IN THE CITY OF LITTLEFIELD, TEXAS, AND TO ALL HOLDING ANY LIENS ON ANY OF SAID ABUTTING PROPERTY, AND TO ALL OWNING OR CLAIMING ANY INTEREST IN ANY OF SAID ABUTTING PROPERTY:**

The City Commission of the City of Littlefield, Texas, has, by ordinance duly passed and adopted, ordered that the hereinbelow mentioned portions of the streets and avenues of the City of Littlefield, Texas, be improved by raising, grading, excavating, and filling, and paving with calcine base and double asphalt surface, and by constructing curbs and gutters where necessary, all as provided in the plans and specifications for said improvements prepared by the Engineer for said City and now on file in the Office of the City Secretary and heretofore approved by the City Commission; and a contract with certain supplements has been made and entered into with L. A. Purcell for the making and construction of such improvements, which contract has been executed by the City and is on file in the office of the City Secretary, which said plans and specifications and said contract are referred to for all pertinent purposes. It is proposed and provision will be made that a portion of the costs of all said improvements will be assessed against abutting property and owners thereof, as follows: Not exceeding nine-tenths (9/10) of cost of all improvements in front of the property, and not exceeding nine-tenths (9/10) of the cost of all improvements on sides of property. By the term "front" as used herein is meant: Where a parcel of property is unimproved the front thereof is the street or avenue on which same faces according to the official recorded maps or plats of the original town of Littlefield, Texas, and any additions where improvements are ordered made; and where parcels of property are improved the front thereof is the street or avenue on which the improvements face. Estimates of the costs of such improvements of the portions of the streets and avenues in the various districts or units of construction as hereinafter designated and set out, have been prepared and filed by the Engineer and approved by the City. The portions of such streets and avenues ordered to be improved are divided into and designated as separate and independent districts or units as hereinafter set out. The

**DISTRICT NO. 69, SIXTEENTH STREET,** from the East property line of Phelps Avenue to the West property line of State Highway No. 51; Estimated cost of improvements is \$18,123.11; estimated amounts per front foot to be assessed for all improvements in front of property is \$3.50; estimated amount per foot to be assessed for all improvements on sides of property is \$2.50; and the total estimated amount to be assessed against property and the owners thereof is \$16,311.50.

**DISTRICT NO. 71, FIFTH STREET,** from the East property line of Whicker Avenue to the East property line of Candiff Avenue; Estimated cost of improvements is \$3,199.33; estimated amount per front foot to be assessed for all improvements in front of property is \$3.50; estimated amount per foot to be assessed for all improvements on sides of property is \$2.50; and the total estimated amount to be assessed in the entire district or unit against property and the owners thereof is \$1,297.69.

**DISTRICT NO. 77, FIFTH STREET,** from the West property line of West Side Avenue to the East property line of Whicker Avenue; Estimated cost of improvements is \$4,199.33; estimated amount per front foot to be assessed for all improvements in front of property is \$3.50; estimated amount per foot to be assessed for all improvements in sides of property is \$2.50; and the total estimated amount to be assessed in the entire district or unit against property and the owners thereof is \$3,778.61.

**AND NOTICE IS HEREBY GIVEN** that hearings will be given and held by and before the City Commission of the City of Littlefield, Texas, on the 31st day of July, 1950, at 10:00 o'clock A. M., in the regular meeting place in the City Hall of Littlefield, Texas, to all owning or claiming any property abutting upon said portion of said streets and avenues in said districts or units, and to all holding liens on any of said abutting property, and all owning or claiming any interest in any of said abutting property. A separate hearing will be held for each separate district or unit, as above designated, separate from and independent of the hearing on any other district or unit. At said time and place all owning or claiming any such abutting property in any district, and all holding liens on any of said property, and all claiming any interest in any of said property, shall be and appear and will be fully heard concerning said improvements and the cost thereof, the amount to be assessed therefor, the benefits to the respective parcels of abutting property by means of the improvements of said portions of said streets and avenues in any district, and concerning the regularity, validity and sufficiency of all proceedings, including contract for the work, relating to such improvements and proposed assessments therefor, and concerning any matter or thing as to which they are entitled to hearing under the law in force in the City and under the proceedings of the City with reference to said matters. Evidence will be heard on all the matters above mentioned. Following the hearings, if evidence justifies, assessments will be levied against abutting property, each district to be considered separately. The assessments will be levied against the abutting property owners thereof, and when such assessments are levied same shall be liens on the abutting property and personal obligations and liabilities of the owners thereof, and shall constitute a first and prior lien upon the property as provided by law and according to the Act of the First Called Session of the 40th Legislature of the State of Texas, Chapter 106, being title Article 1105b of the Revised Statutes of Texas now in force and any amendment thereof. In conducting hearings, in hearing evidence, and in considering all matters in connection with said improvements and the assessments to be made, each district will be considered separate and independent of any other district as aforesaid and a separate hearing will be held for each district, and the assessments to be made in any one district will not depend upon the assessments to be made in any other district, and assessments will be made in any particular district according to the benefits arising from such improvements in that particular district and independent of the costs and benefits arising from improvements in any other district.

All owning or claiming any such property or interest therein, as well as lien holders and others in any manner interested or affected, will take due notice.  
**DONE BY ORDER of the City Commission of the City of Littlefield, Texas.**  
**WITNESS MY HAND and official seal of the City of Littlefield, Texas, at the 15th day of July, 1950.**

### Gospel Meeting To Open At Anton Church of Christ

The Gospel meeting at the Anton Church of Christ will begin July 30 and continue through August 11. Evangelist N. E. Rhodes, Jr., of Urbana, Arkansas, will do the preaching. A cordial invitation to attend is extended to everyone.

### ENROLLS IN 3 WEEKS' COURSE

County Agent David Eaton left recently for College Station to enroll in a three-weeks course at Texas A. & M. college. Twenty-one county agents in Texas have enrolled for the course, "Government and Agriculture." Eaton is scheduled to return to the county Aug. 5.

**SUPER-TRUCK SPEED PLANE REFUELING**  
Faster refueling for planes is achieved by a recently developed system. The new truck carries gasoline through two hose systems, each with a flow of 200 gallons per minute. Conventional rate is 75 per minute.)

**COMPANY BUDGETS FOR 'OIL FOR FARM'**

As part of the oil industry's continuing contributions to farming, one oil company has announced a \$1.5 million research program for the year. Part of the effort will be in the development of new chemicals from particularly insecticides and glides to improve fruit activity.

### World Labor Leaders Meet

Six leaders of labor take an informal time out from the Conference of the International Labor Organization (ILO) met recently at Geneva. The Conference of ILO, a United Nations Specialized Agency, brings together representatives of labor and government from more than 50 countries. From left to right: Syndolpo de Azevedo Pequeño, of Brazil; J. Moreschi, U.S.A.; Building and Common Laborers' Union; Fernando Ibañez Aguilá, Chile; George P. Delaney, American Federation of Labor; and Paul Finet, ILO.

SEE THE LAMB COUNTY LEADER

**From where I sit by Joe Marsh**

**Take Your Choice**

Sitting around last Friday evening, the talk turned to the best way of getting to sleep when it seems you just can't. "The way I always do," says Sandy Johnson, "is to breathe deep and make believe I weigh a ton."

"Just throw away the pillow—it works every time," says Buzz Ellis. When counting sheep came up, right away was the question: What kind of sheep?

From where I sit, you could argue 'til Doomsday and never get complete agreement on a lot of things. Now, take me. I'm all for having a glass of beer or ale on occasion. Your "social beverage" may be a "Coke"—or buttermilk or maybe a cup of hot coffee.

But enjoying our profession is a right in this country and each of us is entitled to his own. The important thing is to respect that right in the true democratic spirit of understanding! As a matter of fact, what a tiresome old world this would be if we all did have the same likes and dislikes!

**Joe Marsh**

CONDUCTS MEETING IN TENNESSEE

Brother Walter Bostick of the Sudan Church of Christ left last week for Terezerant, Tennessee, where he is conducting a meeting from July 23rd through August 2nd.

At the conclusion of the meeting in Tennessee, Brother Bostick will return to his church in Sudan.

FOR BEST RESULTS—  
USE LEADER CLASIFIEDS

**HOT SPOT**—N. R. Dower, president of the West Texas and New Mexico delegation to the World Conference of Seventh-day Adventists at San Francisco's Civic Auditorium, gets a personal briefing on the Korean situation from Shang Uk Pak, treasurer of the Seventh-day Adventist hospital at Seoul, who left there just four days before the unexpected outbreak of hostilities. Pak learned the startling news while he and others of the Korean delegation were en route to San Francisco—and his wife and children were in Seoul. They are still there and he has been unable to contact them. At the extreme right is Dr. John Scharffenberg, director of the hospital, who left the hospital later under fire just before the city fell. Dower heads a list of 25 to 30 from West Texas and New Mexico who are representing the area in a group of 850 official delegates from 68 countries and more than 15,000 others attending the conference. He is shown with Pak at a huge globe, the focal figure of the world-wide convention, studded with vari-colored lights indicating centers of Adventist activities in 228 countries of the world.

## It's Old Retail Battle, But Quality Wins

LUBBOCK, July 24. — In these days of rising prices a survey made at Texas Technological College confirms what many have thought all along—give the consumer quality and not quantity.

The "consumer services" survey, made by Gene Conley, Quanah, and Bill W. Abell, Ralls, found that 37 per cent of the interviewed consumers thought quality all-important. Only 26 per cent said they looked for low prices first. Twenty-one per cent thought sales personnel courtesy most significant.

Check-cashing was easily the most desirable customer service, with an overwhelming 87 per cent of the consumers making it first on their list. Free alterations, rest rooms, gift wrapping and "cheerful refunds" followed in that order. Credit and free delivery were rated at the bottom of the list.

The survey also found that about half of the consumers believe credit, free delivery and free alterations are added to the price of goods in "hidden" charges. Only 24 per cent thought such services really were "free." Another 28 per cent thought it all depended upon the firm where the goods were purchased.

The Tech students found 61 per cent of the consumers did not base their buying habit on customer services, and 64 per cent were not influenced by the public relations programs of stores, such as college scholarships.

Twenty-five per cent of the consumers had suggestions for improved retailing. They favored lounges and snack bars in larger stores. Gasoline-buying tourists thought free maps were necessary.

Fish supplies the same high quality protein that is found in other meats and is an easily digested food. Most fish provide the consumer with vitamins A and B and the salmon and mackerel also contain the recently discovered vitamin D.

## Award Sears Swine To 4-H Club Boys

Eight gilts and one boar have been awarded to nine 4-H Club boys in the county.

These pigs are given to the 4-H Club boys in the county by the Sears-Roebuck Foundation. The contest is open to all 4-H members in the county and the boys that entered the contest had to write an essay entitled "The Value of Producing Hogs as a Source of Cash Income." The pigs were awarded to the boys that wrote the best essays. Several fine essays were written and the judges had a hard time selecting the winners.

The pigs were awarded to: Wayland Hukill, Hart Camp 4-H Club; Jim Willis and Doyal White, Spade 4-H Club; Monte Eugene Berry, Fieldton 4-H Club; Leroy Barlow and Wendell Tarpley, Springlake 4-H Club; Kenneth Rhodes, Amherst 4-H Club, and Carl Don Humphreys, Sudan 4-H Club. The Sears boar was awarded to Ernest Gohlke, Littlefield 4-H Club.

## TESTS PROVE UP GASOLINE MILEAGE

Present-day gasoline contains more miles per gallon than the average motorist is getting out of it, recent tests made by one oil company show. Driving carefully-checked factory model cars over a 751-mile run with every imaginable road condition, 31 amateur drivers averaged 22.07 miles per gallon at an average speed of 41½ miles per hour. The best performing stock car achieved 26½ miles per gallon. By such tests and examinations the oil industry strives constantly to boost operating economy for all motorists.

## Five More Men Volunteer Here

The following named men from Littlefield and Sudan were accepted for enlistment in the U. S. Air Force and U. S. Army by T/Sgt. Gerald F. Cutshall, local recruiter: U. J. King, Sudan, who volunteered for the Airforce; Charles F. Franz, Air Force; Francis Holberg, Air Force; Robert H. Cornelius, Army; and Archie R. Wilson, Army, all of Littlefield.

With the exception of U. J. King, who was sent to Amarillo Saturday, the remainder went to Amarillo Monday for final examination before actually being accepted in the service.

## Sooner Oil Man Chosen or Tech Commencement

Don Emery, vice president of the Phillips Petroleum company of Bartlesville, Okla., has accepted an invitation to deliver the summer commencement address at Texas Technological college, Aug. 23, Pres. D. M. Wiggins said today.

Emery has been associated with the Oklahoma firm since 1921. He is a member of the Texas bar association and is now serving on the Board of Regents of the University of Oklahoma.

Twenty-five years ago only about one-fifth of the agricultural income in Texas came from the sale of livestock, while today more than 45 percent comes from that source.

## Antelope Hunt Details Announced

The Executive Secretary of the Game, Fish and Oyster Commission announced details of the special antelope hunt west of the Pecos, October 2 to 10, inclusive. First priority will be given permit holders for the 1948 hunt who withdrew their names in time for assignment of an alternate. The alternates were those whose names were not selected in the drawing which was required when more than 702 applications for permits were made.

Regulations for the hunt provide that persons who did not apply for an antelope shooting permit in 1948 shall have number two priority. The 1948 permit holders have number three priority.

The number of permits for this fall will not be set until the results of the 1950 antelope census is completed. The Executive Secretary indicated that the total permits allowed may be less than during the last open season in 1948.

Texans with a first priority rating are being notified and are being sent application blanks. Other hunters may receive the blanks by writing the Game Department. Their names will be placed on the eligible list when they return the filled-out blank along with the \$5.00 special license fee.

## COEDS THINK GAL'S PLACE IS IN HOME

Coeds at Texas Tech evidently go along with the old saying. By a 2 to 1 majority, they believe the woman's place is in the home.

Mrs. Jean Jenkins, head of the Tech placement bureau, reports that 200 of the 275 women spring graduates are now either married or engaged.

**TALK SOUTHEAST ASIA DEFENSE**... A joint survey mission from the departments of state, defense, and ECA, under the mutual defense assistance program, left Washington recently for southeast Asia to meet with U.S. and foreign officials to discuss implementation of current military assistance programs for Indo-China and other countries in the area. Left to right are John Ohly, director, mutual defense assistance program; Major General Lyman Lemnitzer, director, office of foreign military assistance; Major General Graves B. Erskine, commanding general of first marine division; John F. Molloy, special assistant to the assistant secretary of state for far eastern affairs.

## NEW T5CH DEAN IS FROM OHIO

Mrs. Margaret Ann Twyman, former assistant dean of women at Ohio University, has been appointed dean of women at Texas Technological College.

Mrs. Twyman, a native of Oklahoma, is a regular contributor to Mademoiselle/magazine. Her column is called "Notes from a Dean's Desk." Before going to Ohio, she served in a similar post at the University of Oklahoma.

## Tech Students Want Swimming Pool

Texas Tech students are impressed by the \$4,200,000 building program going on now but still want a swimming pool.

A poll taken by the student body newspaper, the Toreador, showed the swimming pool idea was foremost in the interviewed student's mind when asked, "What do you think Tech needs most?" Other improvements which the Techs mentioned included a new field house, an auditorium and basketball diamond.

**J. ERNEST JONES**  
Lamb County  
Supt. of Schools

# Easy

to overnight service  
**Fort Worth-Dallas and Houston**

- ★ Easy departure... you board train in Littlefield at 5:40 p. m.
- ★ Easy to enjoy... step into the diner for an unhurried Fred Harvey dinner... relax in the comfortable lounge.
- ★ Easy traveling in comfortable, cool Pullmans and chair cars.
- ★ Easy arriving... you reach Fort Worth 6:25 a. m., Dallas 8 a. m., Houston 8:15 a. m.
- ★ Easy to secure your tickets, just call Santa Fe Station, Phone: 47, Littlefield.

# I WISH TO TAKE THIS METHOD OF SAYING THANKS TO THE PEOPLE OF LAMB COUNTY

For the complete faith and confidence shown by you in the recent election by offering opposition for my office.

**TREVA JENNINGS QUIGLEY**  
District Court Clerk, Lamb County

TO THE VOTERS OF PRECINCT NO. 4

and to the entire citizenship of Lamb County:

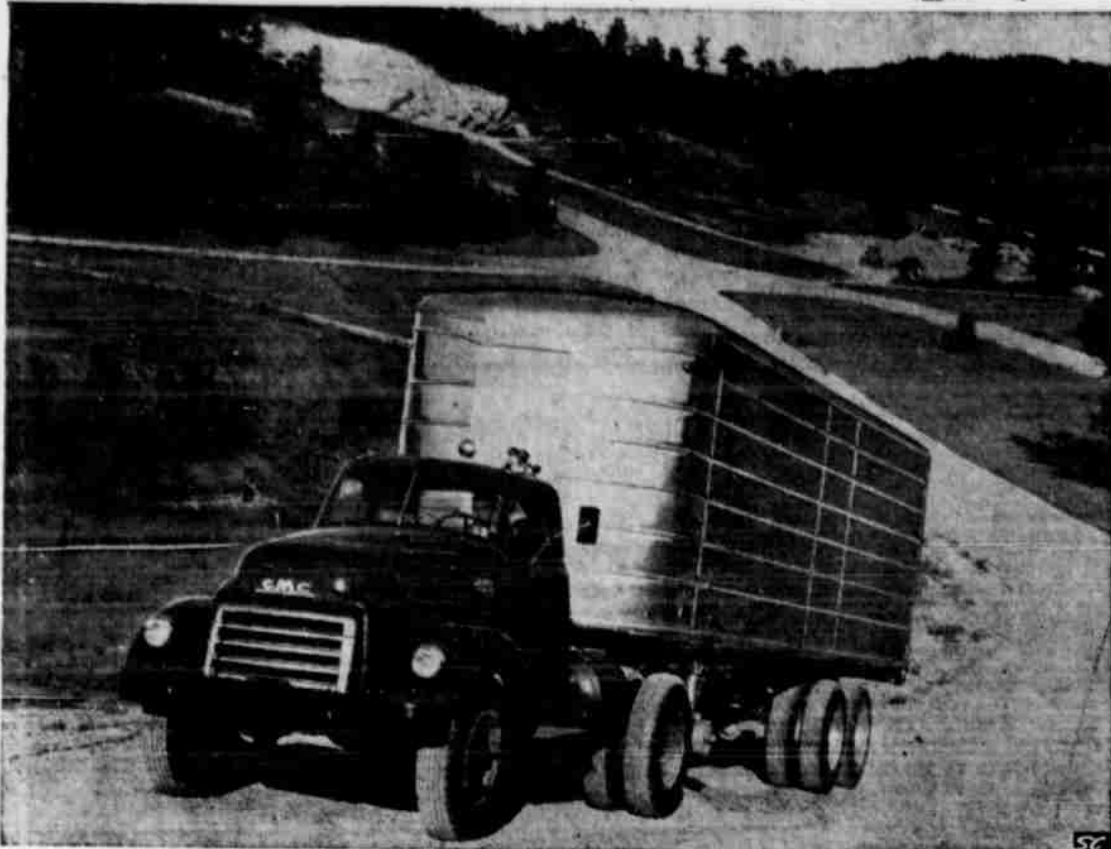

THANKS for Your Vote and Support in Saturday's Election.

Your confidence in electing me as your Constable inspires me to render the very best possible service.

Thanks Again Friends!

**F. V. (Skeet) DILLARD**

### Diesel With A Destiny Gets Grueling GMC Tests

Thousands of hours of tortuous travel over the famed General Motors Proving Ground at Milford, Mich., was but one of the soul-searching tests to which the new GMC diesel-powered 650 truck and its running mate the 640 were subjected before being okayed for production. Here, a GMC 650 takes a grade with ease as its two-cycle diesel engine—an exclusive GMC feature—pours on the power. The introduction of this new truck marks the first full-scale diesel invasion of the lighter end of the heavy-duty field by this General Motors division. New economy of operation through long life, low fuel consumption and low maintenance costs are features of this type of power plant, which hauls loads up to 55,000 pounds. The engine is the smaller brother of that used in the giant GM diesel locomotives.

### State Accepts Two Top-Notch National 4-H Award Programs

Two highly important national 4-H awards programs—Meat Animal and Soil and Water Conservation—have been accepted for the current year by the Texas State Club office.

This will be the 21st consecutive year that Thos. E. Wilson, meat packer and chairman of the National Committee on Boys and Girls Club Work, has provided incentives to help encourage 4-H boys and girls in livestock club work. Awards in the Meat Animal activity include gold-filled medals, gold watches, Chicago 4-H Club Congress trips and \$500 college scholarships.

On county, state, sectional and national levels, respectively. The Soil and Water Conservation program is now set up for two age groups—one for boys and girls 15 to 21 years old, and the other for those 18 to 14, inclusive. The older group is required to complete a more comprehensive project.

Medals for county winners, and gold watches and \$25 Savings Bonds for State champions are provided by Firestone Tire & Rubber Company. Sectional winners get Chicago Club Congress trips. National awards are \$300 college scholarships. This revised program is the result of combined planning by representatives of the Cooperative Extension Service, Soil Conservation Service, Firestone and the National Committee.

Bennie John Gallagher, of Clarkwood, Nueces county, was last year's national and State champion in the Meat Animal program. Carroll Fowler, of Lakeview, Hall county, won sectional and State honors in Soil Conservation.

Complete information on these programs may be obtained from County Extension agents.

#### RESEARCH 'PEPS UP' GASOLINE

Thanks to continued oil industry research and refining process, the average regular grade gasoline being sold today exceeds in anti-knock qualities the best premium grade gasoline of 20 years ago. It is better, in fact, than the aviation fuel which carried Charles Lindbergh across the Atlantic in 1927.

### Army Suspends Movement Of Dependents To Pacific Area

The Department of the Army today indefinitely suspended transportation of dependents of military personnel to Pacific destinations, including Hawaii and Alaska, due to the assignment of available air and water lift to higher priority personnel, according to information received at Reese Air Force Base. The Army order cancelled all

port calls scheduled for air or water movement after July 14, 1950. Those who can sail to Pacific destinations before that time will proceed as scheduled.

Dependents of military personnel arriving at Ports of Embarkation too late to depart by July 14 will be returned with household effects to points of origin or such other United States addresses as they specify.

It was pointed out that the instructions apply only to dependents and not to civilian employees now awaiting transportation to Pacific destinations.

### Corpus Christi To Stage Air Fiesta July 29 And 30

It'll be eyes up for spectators of the Corpus Christi Air Fiesta July 29 and 30 when Jack Huber, human comet, will fall two miles before opening his chute.

It's not that Huber isn't punctual. He delays things just for the thrill of it. After giving a fast go-by to two miles of atmosphere, he pulls the rip-cord at about 1,200 feet. Then his diaper-shaped parachute, the only one of its kind, opens up to take some of the wind out of his sails.

To keep Huber from being bored, Ray Miller, aerobit, circles in an up-side down flight position, his small plane sending out a stream of smoke.

Huber is a chute artist who has hit the nylon over all the big-time air shows and still manages to keep both feet on the ground between sky-lifts. For twenty-two years, he has been the nation's number one long distance delayed opening parachute jumping champion. Huber has fallen farther than any other man, over 2,200 miles in twenty-two years of professional test chute jumping.

Huber's delayed parachute jump will be one of the big-time attractions on the Air Fiesta program that promises to keep the breeze battered every Cuddihy Field at both afternoon performances. Aerobatics, fireworks and exhibits are all in the entertainment announced by Dot Lemon, managing director.

### Beginners' Band Class Will Start August 15

The first class for beginning band members will be held August 15 in the band hall. It was announced this week by Don Hayes, music director of Littlefield schools.

Parents of children in school up to the 8th grade, who wish to play in the band, were urged to see Hayes at the band hall some time August 15 so that arrangements can be made.

In most cases band members will be required to furnish their own instruments, Hayes said. He added that he should be contacted by parents before instruments are purchased so that he may advise them on the proper selection for each individual.

In a few cases when a child shows unusual ability school-owned instruments will be available, Hayes said.

The bandmaster will be at the band hall all day August 1 to interview parents and make arrangements for the beginners' class.

Increased consumption of milk by city people would be a big step toward improving their diets. In 1948 sixty per cent of all city families were using less than five quarts or its equivalent per person per week.

### New Book Store To Open Here

Miss Eula Trummell, former Salvation Army worker here, will open the Glad Tidings Book and Bible Store July 29.

The new business will be located at 611 X.I.T. Drive and will carry a varied line of books, records, plaques and novelty merchandise. In addition to these items, Miss

Trummell announced she will have a lending library of books written to help children with the moral problems of the day. In the "for sale" section will be a rich and varied selection of best-selling novels. Miss Trummell has been in the field since 1936 in connection with her work in the Salvation Army work here and time has worked with civic organizations for the benefit of the community.

### WHEN YOU COOK

*Electrically*

HEAT HUGS THE BUT NOT YOUR KITCHEN

Your Electric Range is a real lifesaver in the summertime! Electricity's clean, radiant heat truly "hugs the pan" . . . to keep your kitchen many degrees cooler . . . even on the hottest day! It's quicker to cook electrically, too, because this same hugging heat brings your food up to cooking temperature . . . fast! And there's lots more time for leisure when you have an Electric Range. Put the food on . . . set the accurate controls . . . your range does the rest, automatically!

Add up the advantages . . . clean, quick, food-stretching, cooler electric cooking makes July menu-planning a pleasure instead of a chore. See the many beautiful Electric Ranges at your dealer's . . . there's one for any size kitchen or budget. See for yourself how economical it is to cook electrically . . . through dependable, low-cost Electric Service.

SO Cool SO Clean

### REFRESHING PICKUP

On the 2,600,000 Boy Scouts, summer is adventure time. On camp or at home they're always on the go. And they enjoy time as a refreshing food at mealtime and around the pickup. According to the National Dairy Council, Boy Scouts' ice cream consumption to nearly five and a half quarts a year.

### Plans Under Which Veterans Mortgage Loans Designated

In a country in which mortgage financing is essential, it is not surprising that eligible veterans who served in World War II may qualify for government mortgage loans. A recent act of Congress designated today's Veterans Administration, virtually all of the metropolitan areas of the United States, to that about 4,000,000 per cent of those for GI loan benefits, areas. The House made available for such direct home loans, effective after where VA found financing from private sources not available. In such an event conditions must be met:

1. The veteran must not previously have used any part of his GI loan guaranty entitlement;
2. The loan may not exceed \$10,000;
3. The veteran must be a satisfactory credit risk, and the monthly payments on his mortgage must bear a proper relationship to his income.
4. He must show that he is unable to obtain 4 per cent financing from other sources, including loans from the Secretary of Agriculture in the case of farm housing.

As in the case of other GI loans, the VA direct loan bears 4 per cent interest, may be made repayable over periods up to 30 years, and the veteran receives a gratuity credit of 4 per cent of the amount which ordinarily would have been guaranteed by VA, up to a maximum of \$150.

Most VA Offices have at least one county or part of a county designated as an eligible area. However, in 8 offices no direct loans were authorized. These offices serve Massachusetts, Rhode Island, Connecticut, Delaware, Hawaii, and the greater metropolitan areas of New York City, Philadelphia, and Washington, D. C.

The 67 VA regional offices which administer the GI loan guaranty program in their respective regions have been furnished a detailed listing of the areas in which veterans may apply for direct loans. Veterans who wish to apply for a direct home loan should write to the Loan Guaranty Officer at the nearest VA Regional Office, stating the location and price of the property and the amount of the loan which will be required to finance the purchase or construction of the home. The VA Office will supply an application form. The areas designated as eligible for direct loans were selected on the basis of records showing the relative unavailability of GI home loans for veterans from private sources, as well as upon the recommendations of the Regional Loan Guaranty Officers who are familiar with current lending activity in their regions.

VA stressed that the mere submission of an application for a direct loan does not assure that it will be granted, even if the property desired is in a designated area. Both the property and the credit of the veteran will have to meet VA standards.

VA cautioned each veteran not to invest in land or materials or make a deposit on the assumption that he will receive a direct loan. Every applicant should wait until he hears from the VA Regional Office handling his application.

VA indicated that if time and funds permit, changes in the list of designated areas for direct loans will be made as the availability of private capital improves or falls below acceptable standards. Of the \$150,000,000 made available for direct loans, \$100,000,000 has been allocated for use in the designated areas. The balance will be allocated to the areas where the greatest relative need is evident as the program progresses.

### Sudan Santa Fe Agent Bowman Completes 30 Years Of Service

A "premonition" which occurred to Raymon Bowman, Sudan Santa Fe agent in 1920 can possibly be credited for Bowman's 30 years of railroad service, which was realized at 1:00 p. m. July 15th.

He started in railroad service during World War I, being too young for Army service and his parents would not let him volunteer, firing a locomotive out of Kansas City. A "premonition" he had, kept him from going on his regular run one morning, and the locomotive he would have been on turned over and the fireman was killed. Needless to say, that was the last firing job held by Raymond.

He transferred to the telegraph department and worked various jobs, mostly tower positions, in both Kansas City and Chicago. In 1923, he transferred to the Station division of the Santa Fe and worked his first job in Brownfield. From there, he worked as operator in Lubbock and in 1925, he went to Bledsoe as the first Santa Fe agent in that growing town for 16 years. Then in 1941 he was assigned to Sudan where he completed his 30 years in railroad work.

According to those associated

of resigned areas for direct loans will be made as the availability of private capital improves or falls below acceptable standards. Of the \$150,000,000 made available for direct loans, \$100,000,000 has been allocated for use in the designated areas. The balance will be allocated to the areas where the greatest relative need is evident as the program progresses.

with him in his capacity as an agent, say he knows his job inside and out, and that when he decides to retire, the Santa Fe will have lost the services of a very capable employee.—Sudan News.

### O. L. Shannon To Build Two Sheet Iron Warehouses

O. L. Shannon, owner of the Shannon Elevator and Shannon Compress and Warehouse Company, has announced that construction would start immediately on two new sheet iron warehouses, which would hold one-half million bushels of grain.

Shannon also announced that 100 feet will be added to his Compress to provide additional space for Compress operations.

square feet of sheet iron to be used in the construction of the new Shannon warehouse.
