Following the meeting Mrs. Wanda Fern Neinstad and Mrs. Adelle Wells served coffee, cake and sandwiches.

## Glenda Maner Says Vows With Verlie Throckmorton

WHITHARRAL — The  
Lums Chapel Baptist  
Church north of  
Whitharral was the  
scene of the wedding  
of Miss Glenda La-  
Nell Maner and Verlie  
D. Throckmorton  
Saturday evening at  
6 p.m.

The Rev. Joe Al  
Bryant, ministerial  
student at Hardin-  
Simmons University  
at Abilene read the  
double-ring ceremony  
before a background  
of white gladioli,  
white tapered cande-  
labra and emerald  
foliage.

The parents of the  
couple are Mr. and  
Mrs. Doss Maner of  
Rt. 2 Littlefield, L. D.  
Throckmorton of  
Floyd, N. M., and  
Mrs. Ben Pointer of  
Rt. 2, Levelland.

Mrs. Weldon New-  
son of Whitharral  
played traditional  
wedding music and  
accompanied Miss Jo  
Ann Market of Colo-  
rado City, cousin  
of the bride, who  
sang "I Love Thee",  
"Because", and "O  
Perfect Day".

Given in marriage  
by her father the  
bride wore an origi-  
nal model of white  
imported French  
lace and nylon tulle  
over net and taffeta.  
Designed with  
Sabrina neckline  
framed with esca-  
loped lace, the  
fitted bodice had  
long sleeves ending  
in a point over the  
hands. Lace applique  
held a plain mid-  
riff of tulle that  
terminated with  
point at center  
front waistline.  
From this stemmed  
a magnificent skirt  
made of tulle, fully  
shirred, encircled  
by a wide band of  
esca-loped lace that  
came to a point  
at center front and  
back. An immense  
wide ruffle of tulle  
outlined the bottom  
and swept into a  
small train at back.  
Hoops and crinoline  
were worn to em-  
phasize the fullness.  
She carried an  
orchid corsage show-  
er with stephanotis  
atop a white Bibbe.

ate of Whitharral  
High school has at-  
tended the Texas

Women at Denton.  
Her husband also  
is a graduate of  
Whitharral and  
attended the Naval  
Electronics School  
at Treasure Island,  
Calif., and holds  
LT2 rating in the  
Navy.

Education is a two-  
edged sword — it  
makes a diligent  
man more effective  
and productive, but  
it also makes the  
criminal far more  
dangerous.

LINDA LATIMER

# KAT'S KORNER

Hi there!  
Boy, don't these warm  
days make you wish  
for the end of school  
just that much more.  
All the tennis fiends  
are really turning  
up the courts after  
school this week.

All the people who  
take courses under  
Mr. Goodwin were  
glad to have him  
back Monday morn-  
ing. I know Mrs.  
Abbott, his substi-  
tute was glad he was  
back. She was  
about ready to ring  
our necks.

Last Friday night,  
the Band Concert  
went off like a  
band director's  
dream. Mr. Harris  
said later, to the  
Senior Band, it was  
the best concert  
they had ever  
played and some  
more very com-  
plimentary things  
that swelled every-  
one's head some  
more.

The Choir will  
present their  
concert tonight  
and will try to  
outdo the band.  
I'm sure. Any-  
way it will be  
worth your time  
to go hear them.  
And it won't be  
on a Teen Town  
night like the  
band concert was.

Speaking of Teen  
Town: I guess  
that's the greatest  
thing that hap-  
pened to Little-  
field since it was  
incorporated. And  
it's going to get  
better all the  
time. The Student  
Board met last  
Monday night  
and made some  
pretty big deci-  
sions. They are  
going to build a  
miniature golf  
course that will  
make Twin Lakes  
look like a kiddie  
pool. Just because  
they will have  
really put them-  
selves into it. They  
also decided that  
on the next pret-  
ty afternoon after  
that meeting, some  
of the interested  
high school stu-  
dents would go to  
the park and start  
laying out and  
marking off the  
sites for the tennis  
courts, baseball  
diamond, volleyball  
court, miniature  
golf course, and  
all the other stuff  
that is being  
dreamed about  
and planned for.  
I sure hope all  
the outdoor games  
are put together  
in the park. That  
will really be a  
lot better than  
having all the  
over town to see  
all the different  
tournaments that  
are being plan-  
ned. That's the  
way most of the  
kids I've talked  
to want it.

Oh! Guess what!  
The bowling alley  
is supposed to be  
open within the  
next four weeks  
and the skating  
rink about the  
middle of March.  
Isn't that tremen-  
dous!

A few of the  
Senior play cast  
members went to  
Dimmitt to see  
the Senior play  
there. It is the  
same as ours. They  
came back with  
their heads full  
of ideas to make  
our play better.  
So don't you  
dare miss it. It's  
gonna be a whop-  
per, and one you  
won't forget the  
next day either.  
Besides all that,  
you might be in  
the play. You  
never can tell  
about these things.

Two more Wildcat  
fans joined the  
ranks of the "old  
married people"  
last Friday night.  
James "Red" Dur-  
ham and Lavilla  
Rushing were  
married there at  
the Fieldston  
Baptist Church.

Some more pic-  
tures for the  
annual of some  
of the organiza-  
tions were taken  
last week. All  
the girls whose  
pictures were  
taken had to  
suffer the tor-  
tures of a dress  
on Friday! Can  
you imagine such  
an inhuman thing?

The Student  
Council has elected  
their representa-  
tives to the State  
Convention at  
Galveston. They  
are Carol Caldwell,  
Gerald Zybura,  
Charlie Duval,  
and Larry Cox.  
Those lucky  
guys will get to  
miss school while  
they are enjoying  
the sun in Galves-  
ton. Some people  
get all the breaks.

The debate  
teams from the  
Speech Class  
entertained the  
Lion's Club and  
the Rotary Club  
this week by  
debating the  
State Interscholastic  
League Contest  
question for them.  
They really en-  
joyed doing it  
because they  
miss a little bit  
of school on  
Wednesday  
and Thursday.

The delegates  
to the D. E. Con-  
vention are leav-  
ing tomorrow  
for San Antonio  
for three days.  
The representa-  
tives of Littlefield  
are Phillip Adkins,  
Jimmy Bennett,  
and Richard  
Shipleigh.

Those six-week  
tests have to be  
studied a little  
bit, even so I'll  
see you at the  
Choir concert  
tonight at eight  
o'clock sharp!

beautiful.

## Janelle Dent Is Bride Of Bob Price In Home Rites

EARTH — The home  
of Mr. and Mrs. E. C.  
Clayton was the  
scene at 7:00 o'clock  
Monday evening for  
the wedding of Miss  
Janelle Dent, daughter  
of Mr. and Mrs.  
"Chubby" Dent, and  
Bob Price, son of  
Mr. and Mrs. Jack  
Price.

W. E. Irvine, Church  
minister, read the  
double ring service.  
The traditional  
wedding march and  
"Always" were  
played as background  
music.

Escorted by her  
father, the bride  
wore a white faille  
street-length dress  
complimented by a  
lace bolera. The  
dress designed on  
princess lines with  
mandarin collar  
had tiny lace covered  
buttons down the  
front. She wore a  
tiny feather hat  
trimmed with  
rhinestones. Her  
corsage was of red  
roses.

For something old  
and borrowed the  
bride wore pearls  
belonging to Mrs.  
Virgil Lewis, for  
something blue, she  
wore a blue garter  
and a penny in her  
shoe for good  
luck.

### Social Security Representative To Be In Littlefield March 7

A man stormed into a social security office and waved a social security card before the startled face of a claims assistant. It was his first old-age benefit check.

"See here, young man" he said. "You told me when I made out a claim for retirement payments that I was fully insured."

"Well, sir, you were," said the social security man. "And now you've started to get your monthly benefits."

"But this check is only for \$85.70. My neighbor gets a check for \$108.50 every month, and he's no more fully insured than I am."

His last statement was correct. Everyone has to be "Fully Insured" to get old-age benefit's upon retirement. Where he had gone off the beam was in his interpretation of the adverb "fully." For social security purposes it simply means that you have been in work covered by the law long enough to be entitled to benefits at the time you claim them. The amount of your monthly check depends on the amount of the average monthly earnings credited to your social security account.

He had average monthly earnings of \$235; his neighbor had a monthly average of \$350—the highest average that can count towards benefits.

Let's look at it this way. The

### Four Services Planned World Day of Prayer

Under the sponsorship of the Littlefield Council of United Church Women, the World Day of Prayer will be observed with four services here this year to cover the needs of all ages.

For the convenience of working people it was thought necessary to have an evening service in addition to the morning service. A service has been arranged for 10:00 the morning of March 8 at First Methodist Church, with Mrs. T. A. Hibun in charge. Mrs. Allen Hodges is in charge of an identical service at 8:00 p.m. the same day, also in the Methodist Church.

There will be special music at both services, with different participants for each service.

Children from five to ten are invited to the morning service which will be a separate meeting from the one in the sanctuary. Mrs. Robert C. Sumrall will be in charge of this meeting.

Since public schools are to be dismissed on March 8, a meeting for young people is being planned for March 7 at school.

Love of books is a passport to the greatest, purest and most stable satisfaction that God has prepared for his children. It enables one to commune with all the great minds of ages past, from the comfort and tranquility of one's own fireside.

## Over 20% Pledged At Dinner In New Methodist Building

### Workers Pledge \$20,228 First Step Of Fund Drive

The Methodist building program got off to a fast Monday night when more than 20% of the initial \$100,000 was pledged at a kick-off dinner held in the church building.

Forty-eight members pledged a total of \$20,228 at the dinner during the coming year. The goal for this year is \$100,000. If pledges are received for this amount during the present drive, construction will begin this spring.

Most of the building will cost less than \$400,000. The first \$100,000 is expected to be raised in the first year.

The new building will be built on the site of the old building, designed for a school enrollment of 1,000. It will also serve as a sanctuary for the present. Tentative plans include a chapel which will seat 60 people.

The church offices will be located in the educational building. The kitchen and lounge will be located in the Fellowship Hall. The main floor space in the new building program is 21,000 square feet at an estimated cost of \$100,000.

Plans call for a 7,000 square foot sanctuary, a 4,000 square foot recreational hall, and a building of covered walks connecting the buildings. All of the buildings will have central air conditioning and heating.

According to the architect's estimate, the total cost for the building program is \$106,000.

W. C. Smith, pastor of the Methodist Church, was the speaker at the dinner at which building fund solicitors were present. More than 75 percent of the pledges were made by the workers. The initial pledges were made by the solicitors.

H. Hoover, chairman of the building fund steering committee, was master of ceremonies and instructed the workers. The initial pledges were made by the solicitors.

Just Slightly Stimulating

Someone has written or said... we don't remember who... these inspiring words: "We must always have old memories and young hopes."  
—mbd—

Elbert Yearly, well known in the automobile service station business in Littlefield, and over a wide area, appears to have a very good memory.

Elbert told us a few days ago the kind of automobile we were driving when we first came into Littlefield in our contemplated plan to buy the Lamb County Leader. In fact, Yearly says he sold us the first gasoline we bought in Littlefield.

The service station was a Phelps and Fifth, now the location of the building fund steering committee was master of ceremonies and instructed the workers. The initial pledges were made by the solicitors.

Samuel Johnson... which

den Drug. Being even more definite about the transaction, Elbert told us that we bought five gallons, and asked him a number of questions about the Leader, then owned by the late Jess Mitchell.

"You didn't say too much, but you sure knew what you were after," commented the service station operator.

Elbert, we are happy that we are both alive, that we have had the pleasure and privilege of watching and participating in the growth of Littlefield and that the opportunity to "shoot the breeze" together comes with pleasing frequency.  
—mbd—

Samuel Johnson... which

Samuel Johnson we do not know... said:

"The true art of memory is the art of attention."

In other words, a good memory has its foundation in the ability to store away in the mind the passing events of the days, the weeks and the years."  
—mbd—

"If George Washington is so honest, why do they have to close the banks on his birthday?" Don, 8, son of Mr. and Mrs. Ralph Douglas, inquired of his parents.

That's not a \$64 question, that's a \$128 question!  
—mbd—

Other small towns may be clamoring for dial telephones but residents of Van Alstyne, in North Texas, population 1,850, want no part of them.

"Don't get us wrong. We're in favor of progress, but the old telephone system fits our needs better," Mayor Roscoe Garver said.

"One of the reasons the people here want to keep the system is that operators usually know where everybody is. If anyone needs a doctor and he's not in his office, the operator can locate him without trouble. A dial system can't find your doctor when he's not near his phone," the mayor said.

When the Texas Telephone Co. asked Van Alstyne for a rate increase to cover conversion to the dial system, the City Commission took a poll of the 370 telephone subscribers. Of the 275 replying, 98 per cent favored the old system with local operator service.

The subscribers don't object to the proposed rate hikes. They say they will be willing to pay more if they can keep the operator system.

There are two reasons for wanting to keep the operators: one is economic, the other is a sentimental.

The citizens do not want to lose the payroll for the operators, estimated between \$900 and \$1200 a month... and they don't want to lose the girls. A "robot" system cannot substitute for the musical rhythm of the "number, please," girls, especially if you know the girls personally.

As cities grow larger, the personal element in public services gradually passes from the picture. The modern tendency is to obscure the individual into machine-like service in which everybody is taught anew how to walk... how to talk.

People live in small communities by choice... they want to stay away from the machine-like

### Amherst Group Visits Florida

Mr. and Mrs. Jack Durham of Amherst, Texas were visitors today at the Clermont Citrus Tower en route to Killarney, Fla. With them were Mr. and Mrs. V. R. Stagner, all of Amherst.

The Citrus Tower, located on Highway US 27, opened this past summer as a monument to the Multi-Million Dollar Florida citrus industry. It stands like a huge map tack, pin-pointing not only the geographical and population centers of the state, but the heart of the citrus development as well.

Mr. and Mrs. Durham plan to spend a month in Florida.

This woman is "sitting pretty" with her electric clothes dryer. She knows that clothes dry better electrically. She's seen the results of outdoor sun-drying... bright colors faded, the life literally bleached out of them. Why don't you start "sitting pretty" with an electric clothes dryer. Eliminate bending, stretching, stooping, the carrying of heavy baskets of wet clothes and the harsh fading of our bright Southwestern sun.

Are you, too, losing  
1 bale out of 7  
needlessly?

If you are a typical cotton farmer, diseases are robbing you of one bale out of every seven! Yet it needn't be... for if you plant red-tinted, Panogen seed (seed that is treated with Panogen liquid seed disinfectant), you stop diseases like seed decay, anthracnose, and rhizoctonia damping-off (sore-shin)... which cause serious losses.

Normally, you can expect that seed which has been treated with liquid PANOGEN will give you up to 15% more bales, but agricultural college tests show that during cold, rainy periods, Panogenized seed gives 5 to 10 times more plants than untreated seed... and may mean the difference between a good stand and having to re-plant.

Cost is only a few cents an acre to have your seed Panogenized at your local custom seed processor's.

#### Poles Exhibit Independence

The new Polish Government continues to evidence interest in independence. The latest move is a change in the rate for the zloty. The Poles have devalued the zloty and, whereas the Russians claim that four zloties equal one dollar, the Poles now admit, and officially exchange, the zloty at the rate of twenty-four to one U. S. dollar.

Financial experts believe that devaluation of the Polish zloty could mean major problems for the entire Communist bloc, especially the Soviet Union, and it is because of this that the latest Polish move, in opposition to known Moscow policies, becomes of major interest.

The devaluation should create conditions more favorable for Polish trade with the Western world and may complicate trade with Russia. That is true because the zloty now has a more realistic value in comparison with foreign currencies.

Solving the rate of exchange between the zloty and the ruble appears to be a knotty problem. Whether the Soviet Union will accept the zloty as equal to the ruble, after devaluation, is another question.

In summary, then, the Polish move seems to be a major step toward economic independence and one which, is not very pleasing to Moscow.

#### The Romance Is Busted

Soviet Farshal Georgi K. Zhukov, the leading military hero of Russia, has apparently busted his romance with President Eisenhower. The Soviet Defense Minister has been exchanging letters with the President for several years, even when other Soviet leaders had their hackles up with Mr. Eisenhower. Mr. Eisenhower has been replying to these notes.

However, there was no Valentine spirit left between Zhukov and Eisenhower when Valentine, 1957, arrived. On the contrary, the Soviet Defense Minister, touring India on a propaganda and politics excursion, warned that the President's new plan for the Middle East was the road to war.

He also indicated that he was through with his polite exchange of letters with the President and that he felt that the new U. S. Policy was a cloak for U. S. capitalism in the Near East. Zhukov added that he thought the people of the Middle East would reject the new capitalist policy of the United States in that area, and warned that acceptance of the plan would probably mean eventual armed conflict in the area.

These were rather strong words for the usually soft-spoken Zhukov. His blast evidences the strong opposition in the Soviet Union to the new Eisenhower program in the Middle East, which is very near the Soviet Union, some of the countries bordering on Russia. That country looks upon U. S. activities in the area with great disfavor and Russian military leaders view it with some alarm.

If the Eisenhower program can do in the Middle East what NATO has done in Western Europe, then the Eisenhower Administration's new program will have been a success. If, however, the Middle Eastern countries do not line up behind U. S. leadership, then a delicate and dangerous situation will continue to prevail in that area and chances of war will have predicted.

### Highlights and Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

AUSTIN, Tex. — Investigations and appointments have snatched the Legislative limelight from the more humdrum business of passing laws.

Governor Daniel asked the Senate to withdraw six appointments made by Gov. Allan Shivers just before Shivers' term ran out. They were appointments to vacancies on the University of Texas and Texas A&M Boards of Regents.

Daniel said "personal and political considerations" are not involved. He called the appointees "capable and qualified," but questioned the legality of the late-season appointing.

Named by Shivers were Joe C. Thompson of Dallas, Thornton Hardie of El Paso and J. P. Bryan of Freeport to the University board; L. H. Ridout, Jr., of Dallas, E. B. Darby of Pharr and Herman Hoop of Brown and Austin to the A&M board.

Daniel said he would "no doubt" re-submit some, if not all of them. There was some talk, however, that Thompson might not be re-submitted. Daniel pointed out that this would give two of the six appointments to the board to Dallasites.

One day after Daniel's surprise move the Senate confirmed a long list of Shivers appointees. Included was John Osorio, chairman of

the Board of Insurance Commissioners.

Daniel previously had called on the Legislature to abolish this board and substitute a re-organized set-up.

Out of the confusion came suggestions by some observers that the statutes be amended to clarify the appointive prerogatives of out-going and incoming governors. INSURANCE INVESTIGATION — A five-member House committee will search for the factors that put ICT Insurance Co. on the rocks.

ICT, now in temporary receivership. But its management still hoped to raise some \$1,500,000 to salvage the company. Its assets are estimated at \$3,325,000; its liabilities at \$4,350,000.

Most of the firm's 14,000 stockholders are union labor members. They invested some \$7,000,000 in it after the State Federation of Labor entered into a management contract with BenJack Cage in 1951.

Labor leaders say they later found out that Cage dissipated the company funds in a long series of unsound promotions and bad risk insurance. His contract was terminated in 1955, and the company is still pressing a claim of \$1,800,000 against him.

sin of BenJack, was made president in January, 1956, and "tightened management" was instituted. By the middle of last year the company had begun to show a profit—though not enough to offset liabilities carried over from prior management.

James G. Cage said he felt it is still possible to put the company on its feet and prevent loss to its thousands of small-income stockholders.

On the heels of these disclosures came a rash of new insurance regulations in both House and Senate. Several would provide tighter restrictions on company officials handling funds and stiff penalties for mis-handling.

Among the proposed regulatory measures are two bills by the Texas Press Association. One calls for published financial reports of all insurance firms doing business in Texas. The other calls for fine and imprisonment for making a false report to the insurance commission. Rep. Jack Welch of Marlin has introduced these two bills. They are among 15 "Better Government" proposals made by TPA.

OIL PRODUCTION UPPED — More oil for Europe, more revenue for the state treasury are in prospect.

Texas Railroad Commission set the March allowable at 3,733,054 barrels a day on an 18-day production pattern. It is an all-time high, an increase of nearly 211,000 barrels per day.

Coupled with the 35-cent per barrel price increase in gasoline, the greater production, if continued, could bring an additional \$10,000,000 a year into Texas tax coffers.

Independent producers, who have battled the major companies' drive for higher allowables, did not contest the March quota. They claimed, however, that ma-

for companies still are, "misusing" much crude oil by refining it into gasoline, unneeded here and unwanted abroad. And independent still have marketing problems, they said. Renewing the charge that major buyers have denied them sufficient pipeline connections to their wells.

RAINS CAME — Crop prospects were described as "best in five years" after gentle, soaking rains fell over most of the state.

U. S. Dept. of Agriculture's weekly report reflected the brightened picture almost border to border. Cotton planting under way in the valley. Revived wheat and oats on the plains. Lush, new pasture grass in the north and northwest.

And some areas even reported it was "too wet to plough."

It was so good it scared some people. John C. White, State Agriculture Commissioner, wired Washington to the effect that one rain does not break a seven-year drought. It will be a long time, he said, before the soil is restored and drought aid is still needed.

NEW TEACHER PAY BILL — A counter-proposal to the \$399-a-year teacher pay raise bill has been introduced by Rep. Harold B. Parish of Taft.

It would give a \$606 a year raise and remove some 900 school counselors and supervisors from state support. His plan would cost some \$400,000 a year less than the other, said Parish.

SCHOOL BILLS ABOUND — A number of other Legislative proposals would effect changes in the public school setup. Among them:

1. A suggested constitutional amendment creating a Public School Building Authority. It would build school buildings and lease them to the districts. Some districts can't afford expansion de-

### Suggests Brainwashing

#### Sandhill's Philosopher Wants One-Strand Fence

Dear editor:  
If there's one thing I don't know anything about, and to tell the truth there's a lot more than one thing I don't know anything about, it's brainwashing.

But I was reading in a newspaper last night about an expert who had been studying the Russian system of brainwashing in Korea and he said it was so successful "a single strand of barbed wire could hold hundreds of prisoners without any trying to escape."

Now understand I'm not in favor of brainwashing, on human beings, that is, but I've been thinking what couldn't I do if I knew how to brainwash my cows into believing one strand of barbed wire would hold 'em.

In fact, the idea is one of the newest ever thought of in the cattle business, and I would like to see you use your influence to get the agricultural experts to working on it.

2. A constitutional amendment permitting broader investment of the permanent school fund. It would follow lines approved by voters last November for the University fund. A safe way to get more income from the \$320,000,000 endowment, said its author, Rep. Scott McDonald of Fort Worth.

3. A detailed survey of the entire educational system. Rep. Wade Spliman of McAllen in a report on the House Investigating Committee's work said that local boards are losing control.

You can get plenty of information on how to build a fence, with properly placed corner posts, pull wires, sheepproof wire at the top; bobfire at the top; treating posts to keep them from rotting, etc., but all the building information you are able to get puts all the blame on the farmer and the position that cows are always will be, but this you could brainwash a turning back at the sight of a single strand of wire, open a new territory for ranching.

If you ask me, the payoff will have been spending too much on human beings and too little on cows and horses.

Sec. Benson has been along the farmer and he will have to learn to work to produce stuff cheaper. I don't know of any idea that would be more economical than a strand fence, although it would stop at one strand of wire, I believe they could step further and get back at a strand of baling wire then I know production would come down.

If the agricultural experts willing to tackle this, I'll the cows for the expense they can brainwash them staying in my pasture, they only save me a lot of trouble expense but will make a lot of neighbors mighty happy.

Yours faithfully,  
J. A.

phone call to Dumas by Lanier, a sister of the group, who lives in Amherst. It was learned that the boys were the hit of a party at the theater.

paree-clad teenagers by the storming the Paramount Theatre.

They smashed glass, danced barefoot in the aisles and at one time tore the shirts from the four entertainers.

To get the audience out of the theater so that a new crowd could get in the Rhythm Orchids threw autographs out of their dressing room windows overlooking W. 44th Street.

It took 175 policemen to maintain even a semblance of control over the mob.

The Rhythm Orchids are composed of Jimmy Bowen and Donnie Lanier of Dumas, Buddy Knox of Happy and Dave Allred of Clovis, N.M.

Bowen and Lanier have been

performing together since Dumas High School days and Buddy Knox, the composer of "Party Doll" and several other songs, joined the two at West Texas State College. After they recorded "Party Doll" and "I'm Sticking With You," Allred joined the group.

It was the popularity of "Party Doll" that earned the group the week's appearance in New York.

During today's performance a radio announcer asked a girl in the crowd if she was still for Elvis Presley, and she answered, "No, I want Jimmy (Jimmy Bowen)."

The crowd was so determined that the boys had to spend the night in their dressing rooms at the theater.

## How's the View?

The view across the landscape may be gorgeous on a crisp cloudless day, the valley green and sparkling as fresh as a dewdrop. But how is your view of the future, is it cloudless and sharp? Of course it isn't. No one can really foresee the future and no time-shrinking binoculars can be made to help us. The future comes bringing we know not what, how shall we meet it? The Church proclaims news about One who holds the key to the future. If we know Him as the God of love and infinite mercy, the future holds no fears for us. We can walk confidently on through the years. Go meet Him at the Church of your choice.
