## Philosopher Wonders About New Scientific Farming

Editor's note: The Sandhills philosopher on his Johnson farm discusses scientific farming this week, a subject so strange for him.

Editorial:

A lot of people lately have been talking about scientific farming. I've been noticing, and I've been giving this idea considerable thought.

They say, a farmer has to get scientific if he intends to make money in the land these days, and I say they're right in one way, in another way I'm afraid I'll find it takes more than science to farm. What more, I don't put my finger on right now, but mean, scientific farming is

sort of like scientific fishing. If you've got a high-powered boat to get you to the fishing spots and all the modern gear and tackle to catch them with, you can catch some fish, maybe more than the men sitting on the bank with a pole, but you won't catch them all the time.

You can have all the farming equipment available to man, all the scientific know-how on insects, poisons, fertilizers, soils, etc., but that doesn't mean you're going to wind up every year with a profit, or even with much of a crop some years.

I read in a newspaper last night where a farmer was talking to a group of city people

studying the farm problem and he told them "it's not just a matter of intelligence as to whether you make a success of farming or not," and of course he's right. Intelligence helps, I suppose, I'm not too experienced along that line, but I doubt if you could say the most successful farmer around here is the most intelligent, any more than you could say the most successful business man in town is the most intelligent.

Or take politics. Politics is sort of like farming. Intelligence helps, provided you haven't got too much, but there's a whole lot of luck involved. That is,

## Department Invites Game Warden Applications

SAN ANGELO, April 27-- Applications for employment of a limited number of game wardens are now being accepted by the Game and Fish Commission. The Commission is interested in receiving these applications from young men between ages 21 and 40, who are high school graduates and have an interest in wildlife conservation. The need for the additional applications has been brought about through reorgan-

ization of the Game and Fish Commission, which has created additional opportunities for advancement of men who can meet the requirements.

Application forms are available at local Game and Fish Commission offices or from the Personal Office in Austin. Completed applications must be received by the personal office prior to May 15, 1962. Written and oral examinations will be conducted in selected areas throughout the state in June, to make final selections.

Newspapers do a tremendous amount of public service but they seldom blow their horns about their publicity for the common good.

Police officers report that business, with them, is always humming.

## TEC Introduces New Placement Program For School Teachers

Billy L. Lynch, manager of the Texas Employment Commission office said today that the Commission now has a new statewide placement program for teachers.

"Beginning this spring," Lynch said, "the TEC State office in Austin will serve as a clearing house for both teacher's applications and requests for teachers from school administrators."

He explained that this gives school administrators a statewide selection of teachers and at the same time it provides teachers with a wider range of teaching opportunities.

"This service to the teaching profession is the first of this type ever to be offered by the commission," Lynch said. "Our office now has resume forms for teachers who wish to file an application for a new position next fall. The form provides for a complete history of the teacher's educational and professional background. Sch-

ool administrators can file their vacancies with our office. These requests, like the teacher's resume will be sent directly to the State office. There, TEC's specialists in the teacher placement field will match teacher resumes with the requirements of existing vacancies as they are sent in by school officials. Teacher resume forms can also be obtained by writing to the Texas Employment Commission, Teacher Placement Service, TEC Building, Austin 1, Texas."

Mr. Lynch said that TEC's centralized teacher placement service will provide each teacher with a selection of positions which reflect his qualifications. Teacher resumes will be re-

produced and sent to those administrators whose vacancies they are qualified to fill. In this way the administrators will have a large selection of qualified candidates for teaching positions.

"The immediate effect of this new program," Lynch said, "is to enable TEC to assist teachers in locating positions which they are most qualified to fill."

The Teacher Placement Service will operate without cost to the school system and to the teacher.

Until now, no complete statewide placement service was available both to teachers seeking employment and to school officials seeking teachers.

## Who Is This Man Named Formby?

"A Big Texan . . . Friend of the People."

Formby, an announced candidate for Governor in the Democratic Primary, has always supported the Democratic ticket, but is considered a conservative Democrat—as political labels go. He stresses the fact he is not obligated to any Washington or Austin cliques and that his administration will be an independent one.

He will tell you frankly he was born in the Bethel community in Hopkins County, in the same house his father was born in. He says the only reason he wasn't born in a log cabin is that his mother was occupying the northeast room of the farmhouse, instead of the log cabin part. Formby's grandfather was born in Georgia, moved to Arkansas where he served in the Civil War, and moved to Hopkins County in 1868.

When a boy, Marshall moved with his family to McAdoo, in Dickens County, on top of the Plains. His mother still resides at McAdoo, his father having passed away in 1957.

### TYPICAL TEXAN

Formby is as typically Texan as a Stetson hat, as typically American as they come. He has combined a political career with his business career and has been highly successful in both.

We feel that during the next two years Texas will need a man seasoned in the business world, one who knows what it means to find money to meet a payroll every Saturday night. Formby is a practicing attorney in Plainview, helps operate four radio stations, farms his 960 acres of land in Hale County and owns other property. For several years he published the Plainview Tribune. He is co-owner of radio stations in Hereford, Floydada, Andrews and Levelland.

He is a Baptist, Rotarian, is Chairman Advisory Council of Southwestern Baptist Seminary; Director Texas Broadcasters Association; on Advisory Council of University of Texas Journalism School; on Texas Tech Foundation Board; and a former president of Texas Tech Ex-Students.

At the age of 25, he was elected county judge of Dickens County. Four years later, when 29, he was elected to the State Senate from the old 30th district embracing Lubbock, Plainview and Big Spring—24 counties in all. During part of his four-year term in the Senate, he was in the Army. He was overseas in 1944 and did not seek re-election to the State Senate. He spent four years with the Army engineers, with 20 months spent in the European theatre.

He graduated from Texas Tech in 1932, at the age of 21.

After the war, he earned his Master of Journalism degree at the University of Texas. There he met and married Miss Shari Wells, a graduate student from Alabama. They have two children; Frances 6 and David 4. Later Formby studied law at Baylor University and obtained his law license.

We say he has a "passion for economy." With the help of his county commissioners, he put Dickens county on a cash basis back during the depression by following the old fashioned method of spending less than the county took in.

Judge Formby also gave Dickens county its lowest tax rate in 22 years, while putting it on a cash basis.

### HIGHWAY BOOSTER

Formby was appointed to the Highway Commission in 1953. In 1957 he was named chairman. He retired from the commission on March 16, 1959, not seeking re-appointment.

While he was chairman, the huge interstate highway program in the state got under way and the state inaugurated its first right-of-way buying program.

When he retired, he was widely congratulated by newspapers over the state for having had a state-wide viewpoint of the State's road problems.

Marshall Formby being sworn in as Highway Commissioner.

## Formby To Operate On Cash Basis

Marshall Formby has some old-fashioned ideas—such as the belief that a government should spend less than it takes in.

Marshall Formby was 25 years old when he took office as County Judge of Dickens county Jan. 1, 1937. During the four years he was in office, he helped get Dickens county on a cash basis for the first time in 15 years and gave its citizens their lowest tax rate in 22 years.

"I had the help and encouragement of four commissioners, of the other county officials and the citizens of Dickens county," Formby said. "Without their help, I could have done nothing."

"I believe that a Governor, by working with the Legislature and other state officials, can get Texas back on a cash basis and keep it there. There is no justification in Texas continuing to operate in the red."

"I just simply believe that the state government should spend less than it takes in. There is no excuse for doing otherwise, and I pledge to the people of this state, when elected Governor, that I shall make every effort to operate the Texas government on a cash basis."

## Bond Sales For County Released

Savings Bonds sales for the first three months of 1962 in Lamb county totaled \$79,335. Of this amount \$15,022 were purchased in March according to a report released by C. O. Stone chairman of the county Savings Bonds Committee.

Texas purchased \$41,512,602 E & H Bonds during the first quarter of the year and March sales were \$17,031,657.

"Today many Americans are asking, 'What can I do?' The Treasury Department's Freedom Bond Drive is an answer to that question. It is designed to remind every citizen of an opportunity for patriotic service through the Savings Bonds program -- to ask him to invest his dollars in his country, for the strengthening of our economic defenses against the danger we face. Buying bonds is a practical beginning to answering this challenge and I urge all patriotic citizens to do so," Chairman Stone said.

# VOTE FOR W.T. (BILL) MILLEN

## FOR STATE REPRESENTATIVE 91st DISTRICT

### BASIC PLATFORM

I believe in the God given rights of the worth and dignity of the individual. I believe that the power to govern and to spend public funds is a sacred trust and that every effort should be made to keep governing authority as close to home as possible. I am and shall always be opposed to any efforts aimed at more centralization of government at the state or national level. I favor honesty, integrity and fiscal responsibility in county, State and National Government; therefore, if elected I will take a long hard look at any new taxes or increase in existing taxes.

I believe our natural growth will continue to increase revenues in proportion to our needs. If we continue to increase taxes, we will create an unhealthy tax climate for business and bring a halt to the migration of new business into Texas.

I will keep an ever constant eye on those who would raid the public money for giant welfare and giveaway programs, thus causing a welfare State and Nation. I refuse to barter incentive for a dime.

I believe that a nation that values its privileges more than its principles will surely fall; That we must uphold our constitution against all those that would tear it down. If elected I shall represent two groups, the 91st District and Texas.

# 19,000 Brave Elements During Six Flags Opening Day

Intermittent rain, thunder showers, high winds and overcast skies plagued the four-day opening festivities at SIX FLAGS over Texas, but 19,000 hardy souls who braved the elements were treated to a spectacular show as the 10.5 million dollar Park laun-

ched its second season of operations.

With typical Texas fanfare and flourish, the big tourist attraction opened on April 20 as many local and state dignitaries, including Governor Price Daniel, participated in the opening ceremonies.

Hundreds of visitors were in attendance, along with more than 500 of the Park's costumed hosts and hostesses, to hear the Governor emphasize his tourism program for Texas. Governor Daniel lavished high praise on Angus G. Wynne, Jr., president of great Southwest Corporation, for "building this attraction, a place of entertainment and recreation stressing the wonderful heritage we are privileged to enjoy in this state. SIX FLAGS should inspire all of us to build a bigger and better Texas, and because of the Park's history and entertainment, far more people are coming here to visit than any other place in Texas."

Mr. Wynne welcomed the visitors, outlined the 1/2 million dollar expansion program and gave credit to the "wonderful SIX FLAGS hosts and hostesses who make the Park what it is."

Following the ceremonies Wynne, who is also president of SIX FLAGS, conducted the Governor, his family and other platform guests on a two-hour tour of the facility pausing first to witness 10,000 beautiful white Easter lilies which were in full bloom around the Star Mall.

Most pleasing to SIX FLAGS officials was the goodly number of out-of-state license plates which is due to hit an estimated 12-13% of the total number of visitors to SIX FLAGS this season. Oklahoma, Louisiana, Arkansas, New Mexico, Illinois, Idaho, Pennsylvania, New York, Utah, Nevada, California, Montana, Wyoming and Missouri were all represented during the four-day opening

period.

Despite the rain swollen clouds that enlivened their loads on the crowds during the Easter holidays, Mr. Wynne, together with other SIX FLAGS officials, look towards the forthcoming week-ends of operations until May and followed by a summer long daily operation, with much favorable anticipation. "A 1.5 million attendance is predicted this year and with a little more cooperation from the weatherman, we'll make it quite handsomely," said Wynne.

# Davis Makes Statement In County Judge Race

**J. B. (DOBB) DAVIS**

I am your democratic candidate for county judge of Lamb County. I was the first man to announce for this office. I did this of my own free will and accord. This is my first time to ask for a public office in this county or any other county.

I am 48 years old, a grain and cotton farmer in the Rocky Ford community, near the center of Lamb County. I have lived here for 27 years. I married Joyce Winters, a Lamb County girl that was reared in this county. We reared our two children in Lamb County, Diane Hatia of Dimmitt, Texas and Tommy Davis who is serving in the United States Army stationed at Milwaukee, Wisconsin. I finished Vernon High School, and attended Arlington State College in Arlington, Texas.

I belong to the First Metho-

dist Church, and have served on the official board and was M. Y. F. Counselor. I belong to the Masonic Lodge, was a member of Lamb County Water Board for six years, three of which I was chairman. I was awarded honors in National 4-H Alumni Program. I have been active in Lamb County Stock Shows, 4-H Club, F. F. A., and sponsor of educational tours for 4-H and F. F. A.

You voters of Lamb County are going to have to pick a new county judge, because your present county judge is going to be your district judge.

Should you place your confidence in me and go to the polls and vote for J. B. Davis on May 5, and again in November, then I shall be your county judge.

I will get along with your young people, because I know young people.

I will devote all my time and be honest, fair and work hard.

Should I be elected as your county judge of Lamb County, it would do my heart no better than in four years or the years to follow, that you might say, J. B. (Dobb) Davis made us the best county judge we ever had.

I will appreciate your vote on May 5, 1962.

Thanks, J. B. (Dobb) Davis
