General Rains Over Area Bring Much Needed Moisture

Precipitation Measuring An Inch Falls Here

Additional Rain Is Forecast For South Plains

As indicated by the gauge of the West Texas Cotton oil mill, an inch of moisture fell over Littlefield and area since the dull drizzly weather set in Thursday night.

Moisture started falling here Thursday night about 9 o'clock, and continued throughout the night and Friday. 57/100ths of an inch was reported here.

Again Sunday night a slow falling rain set in, continuing throughout the night, all day Monday and Monday night, continuing part of Tuesday with a light drizzle. 42/100ths of an inch was reported up to Tuesday morning. Skies continue downcast with a drizzle throughout Tuesday and Wednesday. Additional rain is forecast.

The rain is reported to be general over the Plains. Reports indicated rain had fallen from Slaton to Clovis, N. M., north into Oklahoma, to Lamessa, Seagraves, and elsewhere in the area. State reports also indicate rain as far east as Fort Worth, and south to Big Spring.

This moisture fell in such a manner as to soak into the ground slowly, and to be of especial benefit to the farmers wishing to plant wheat. It broke the drouth, which has continued over the area since last June.

Whitharral, Amherst Tilt This Afternoon

PARKING METERS

Little Ones and Big Ones

Perhaps you are not aware of the fact that there are two sizes of parking meters in Littlefield - - - little ones and big ones.

The little ones - - - the penny-nickel machines - - - are everywhere - - - the big one, the master, that papa of them all - - - is at the city offices, perhaps high on a counter.

Last week, the first week of the royal reign of the "nickel bandits," city police poked nice little cards, all printed in red, in the windshields of the cars of offending owners - - - just polite little reminders that we'd been naughty - - - forgetful - - - or had a complete loss of memory. About 750 of these little courteous reminders were deposited in windshields.

There came the Sabbath, and it was peace toward all mankind, but, with the rising of the sun the following morn, all was different - - - the coppers snatched up their little books - - - Lawrence Walraven, chief, E. B. Huff, E. B. McKnight, J. W. New - - - and cocked their eyes for cars relaxing in front of meters displaying the little red sign, "expired."

Most car owners receiving summons to appear at city hall, and the publisher of the Leader was not overlooked, expected to get a stern look and perhaps a \$1 fine.

But everybody over at city hall was very pleasant. Offenders were asked to sign their ticket, admitting that they had been naughty, and to deposit 25 cents in that great big two-bit meter.

Maximum Fine \$100

There's a report over at city hall that second offenders will be called on to deposit 50 cents.

And the maximum fine under the ordinance is \$100.

About the only justification for a \$100 fine, so goes the talk in administrative circles, would be the busting of a cop in the nose and the

carrying of a meter to the city dump - - - if anyone knows where the dump is located.

But what's the use of running a-foul of the law - - - just feed in some pennies, one for 12 minutes, two for 24 minutes, three for 36 minutes, four for 48 minutes, a nickel for one hour, a few more pennies if you might not get back within the hour, and to play absolutely safe just poke in a couple of nickles and go whistling on your way.

Feed 'Em Regular

To keep the "nickel bandits" happy it is necessary to feed them pennies and nickles from 8 a. m. to 6 p. m. on Mondays through Friday and on Saturday from 8 a. m. to 9 p. m. Sunday and holidays the "bandits" fast.

The meters are declared to be popular; in fact, most folks like the new system because they can find parking space.

Farmers are happy about being able to find a place to park when they come to town on business; they formerly looked all over for a place to nose in the family chariot.

Revenue from the meters since they were installed up to Wednesday morning totaled approximately \$850.

Fines Total \$259 For Drunks, Fights

Drunks and fist fighters were fined \$259 in city court.

Two cases of disturbance of the peace were reported early Sunday.

A Latin-American was chased out of the Flats by officers, Walraven, McKnight and Huff.

A little later, the Latin-American is said to have tried to shoot out some street lights. His marksmanship was not equal to his intentions.

Initiative Is Taken By C. of C. Group; Meeting Is Held

Full-Time Garbage Collection Crews Part of Plan

At a meeting Monday night in Payne-Shotwell Hospital, the Chamber of Commerce sanitation committee, headed by Dr. C. E. Payne mapped plans for an intensive campaign designed to culminate in a well-rounded sanitation program for Littlefield.

"Unsanitary conditions present a health hazard too obvious to be overlooked," said Dr. Payne. He pointed out that garbage stays too long on the streets and that few of the garbage cans have covers. A statute, already on the city's books, requires garbage containers to have a cover.

One of the salient points in the Chamber of Commerce program for the year is to sponsor a sanitation program to provide full time garbage crews to insure sanitation in the city.

The C. of C. sanitation committee is composed of Dr. Payne, Dr. F. W. Janes, Dr. C. W. Finley, Dr. O. W. Still, Jimmy Brittain, Norman Renfro, H. L. Fisher, E. C. Rodgers, Roy Byers, Jess Elms, J. B. Kempton, and Archie Dale.

Colored Couple Burned Seriously

Fire completely destroyed a 25x60 granary and a large warehouse at Bula belonging to V. C. Weaver, Farmer, Sunday afternoon about 4 o'clock.

At the time of the fire 50 cotton pickers were occupying the building as living quarters, and assisting the Weaver family in gathering their cotton.

Fire was caused by a colored boy throwing coal oil in a coal stove to make the fire burn better. The bachelor heater exploded throwing the blaze as far as eight feet.

Mr. and Mrs. James Matts, colored, were seriously burned and are still patients at the Payne-Shotwell Hospital. Another colored boy was treated, but later dismissed.

H. O. Bigham, who was at the home of a brother-in-law, Cecil Cox, at the time, saw the fire and went to the scene and carried colored folks to the hospital.

Neighbors of Mr. and Mrs. Weaver were most kind, providing shelter for the occupants of the building, who lost most of their personal belongings. One colored man had \$50 burned up.

Besides the buildings, \$1000 worth of tractor tires, saddles, bridles, electric brooder, etc., were destroyed by fire. The loss to Mr. and Mrs. Weaver was estimated at \$5000.

Mr. and Mrs. Hersh Return Here

Mr. and Mrs. Mac Hersh, who have been living in Dallas, have returned to Littlefield, and will be associated with Mr. and Mrs. Dan Berg in the operation and management of Replin's Dry Goods Store.

Mrs. Hersh and Mrs. Berg are daughters of Mrs. Sam Replin and the late Mr. Replin.

Mr. and Mrs. Hersh are living at 320 East Eighth street.

The former Littlefield residents are being welcomed back to this city by a large circle of friends.

Plow Stalks Under And Starve Weevil

MEMPHIS, Tenn. —Reduce next year's boll weevil damage now by plowing under cotton stalks, the National Cotton Council today recommended to producers in areas where the harvest is just being completed.

If stalks are plowed under, the weevils will be deprived of a source of food and shelter and will enter hibernation in a weakened state, the Council said. Previous experience has proved that when stalks are plowed under as early as possible, the weevil infestation the following spring is greatly reduced.

The Council is conducting the "starve the boll weevil" campaign in cooperation with federal and state Extension workers and with experimental station entomologists.

Tigers Tounce Abernathy 34 - 7

Slaton's Tigers displayed a well-balanced offensive attack Friday night as they scored a 34-7 win over Abernathy in a District 6-A conference tussle.

The Tigers, with Backs Ed Burton, Lawrence Morgan, John Smith and Tom Smith sharing the offensive load, built up a 20-7 lead during the first half, then punched across two more touchdowns while holding Abernathy scoreless during the final two periods.

In the line, Guy Gentry and Sam Burnett were outstanding for the victors.

Though some were bashful, everyone had to participate. This was reported most en-

joyable. New members say a jumbled mass of chairs and tables on the stage. However, all furniture had previously been removed so no one was hurt. Refreshments were served.

Lobos Trounce Wildcats In Major Upset; 19-7

Thousands See Cats Lose Shot At District Title

Sparked by the shifty running and deadly passing of Bob Hart, the potent Levelland Lobos ground the Littlefield Wildcats into the soggy turf, 19-7, at Seely Stadium Friday night.

An estimated 7,000 fans saw the Lobos shove Littlefield out of the running for the District 5-A championship. Ranking contenders for the title throughout season, Littlefield was stymied from the start by injuries to its best players.

Jack Shelby, stellar fullback, suffered a wrenched knee early in the game. After a short stint on the sidelines, he went back into buck the marauding Lobos. In the third quarter, his knee was hurt and this time he went out for good.

Spurred by Travis Price and the rangy, title-hungry Bob Hart, who repeatedly snagged the Littlefield airmails.

The upset Friday night was the District 5-A tilt for Levelland. Littlefield will play Tahoka, Dec. 4 for district honors.

Littlefield put up a game struggle in the first quarter with Lee and Price leading the offense against the Lobos. They kept up a continuous threat, but the Lobos' power-line blocking and accurate passing piled up the margin that spelled title for the Lobos. Levelland's passing machine was one of the best in a Class-A ball game. The Lobos worked together like relentless automatons in their conquest of the toughest opponent this year.

In the first quarter it looked as if Littlefield would turn the battle into a walk. Jack Shelby broke the Lobos' defense to score in the three minutes of the game. This was made in six line plays. Then he faked a kick and circled his end to add the final point.

Littlefield's teams were stopped by fumble-through nearly all of the second quarter. With seconds to go before the half, Bob Blundell, Lobo fullback, intercepted Price's pass on the 23 and ran all the way, for a beautiful interference, for a touchdown.

Littlefield's Lobos chalked up their last points late in the third quarter. Bob Hart trundled a Wildcat 15 yards to Littlefield's 15 yard line. Co-captain W. A. Wise lunged for the touchdown, with Hart adding the extra point. In a frantic effort the Wildcats

tossed passes that were blocked or intercepted by the speed demons from Levelland. But the visitors fumbled two opportunities to add to their score.

The Wildcats were handicapped in the second half by the absence of Jack Shelby. Standout Wildcat performances: Gene McCanlies and Warren Rutledge.

Quarterback Bobby Hart and Halfback, Bobby Blundell were the wheel-horses of the Lobo eleven.

The score by quarters:

Littlefield	7	0	0	0-7

Whitharral Defeats Anton 19-7

Whitharral threw district 3B into a three way tie by defeating Anton 19-7 on the Anton field last Friday afternoon.

Stopped on the ground in the first quarter by a strong defense, Whitharral took to the air to score 12 points in five minutes. Dale Hughes passed to Jack Milburn for the first counter and Bill Jones tossed to Brace Hicks for the second.

Anton's only score came in the third quarter when Bill Estes plunged over from the one yard line. Bill Estes scored the extra point.

The final Whitharral touchdown came on a pass from Dale Hughes to Bill Jones. Joe Wade plunged for the extra point.

Winners of district 3B will be determined by a play-off between Whitharral, Amherst, and Hale Center. Amherst and Whitharral will play Nov. 20 at Littlefield. Hale Center will play the winner of the Whitharral-Amherst game November 26 at Littlefield.

BULL LAKE PHILOSOPHER DOESN'T WANT SCIENTISTS TO CONTACT MARS, FIGURES THEY MAY WANT LOAN TOO

EDITOR'S NOTE: The Philosopher on his Johnson grass farm on Bull Lake doesn't seem to be able to make up his mind what he favors, as his letter this week reveals.

DEAR EDITOR:
I read in a copy of the New York Times which turned up out here on Bull Lake Monday without no explanation and which seems about as out of place out here as a copy of the Lamb County Leader would be on an intellectual giant's desk on the 31st floor of the Empire State building in New York, where some scientist has formed the opinion again that there is life on Mars.

Now I ain't got no objection to forming an opinion, you and me and a lot of politicians I know do it all the time don't make no difference whether we got any facts at hand or not, but if them scientists really believes there is life on Mars, my suggestion is that they lay off, give up tryin to get there, turn their thoughts to makin more streamlined automobiles or better strikin matches or improved mechanical cotton pickers or easier ridin cultivators.

For all I know, there may be life on Mars, maybe human beings, but as I see it we ought to leave em alone, we can't even run the world we got, let alone takin on another one. We ain't even smart enough to operate this world without pullin off a war ever fifteen or twenty years and squabblin all the time in between and right now half the world

ain't got enough to eat and inflation is about to get best of the other half and we ain't hardly clear of the second world war when the foundations is bein land for the third. Looks like the last thing we need is another planet full of people to worry with.

Also, who knows but what the people on Mars ain't no better off than we and the second trip over after communication was established between the two planets half the governments of Mars would be after the United States for a loan, and after we get through with Europe I don't believe we could stand it.

Nope, I tell you science can go too far and my advice is to leave them other planets alone unless they're dead sure ahead of time there ain't nobody livin on them.

On the other hand, though, come to think of it, maybe the folks on Mars is better off than we are and we could swing a loan from them. On second thought, I won't stand in the way of the advancement of science and progress. I could use a loan myself.

Yours faithfully,
J. A.

Thanksgiving holidays at TCU won't dampen the spirit of Homecoming, promises Al Gill, head yell leader of the Froggies and chairman in charge of Homecoming plans this year.

Black Spots On Rose Bushes Sign of Trouble

If you're seeing black spots when you look over your rose bushes, it's time to get busy with the dusting gun—black spots on rose leaves are a sure sign of trouble.

Dampness caused by dew, rain or sprinkling of the bushes encourages the black spot disease. It is most active in the spring and fall.

You can recognize the disease by the dark brown or black spots—some very small, some nearly as large as a dime. The leaf usually turns yellow and drops off the plant. When that happens, it's a good idea to get rid of the dead leaves, because rain or water splashing will spread the disease to fresh growth and it will start all over again.

Black spot may cause the bush to die limb by limb—It usually starts at the stem of a bloom and goes down the plant until it reaches the rest.

Miss Hatfield says that the Texas Agricultural Experiment Station at Tyler, the heart of the rose country, has excellent formula for controlling the disease, 10 per cent copper and 90 per cent sulphur. It's usually sold as copper sulphur dust, or rose dust. A plain cotton-dusting sulphur after each rain will help control the spots. Remember, if your roses have black spots, use copper sulphur or

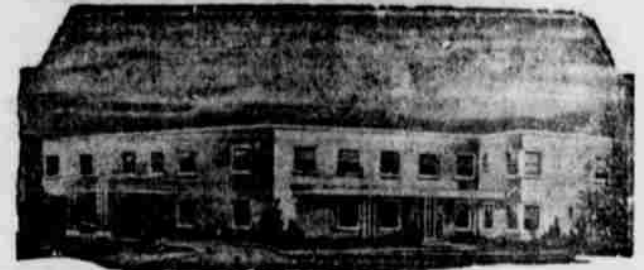

rose dust, especially during the wet seasons of the year. Read the label when you buy the dust be sure it contains 10 per cent copper.

Social Security Expert To Be Here November 26

Elliott W. Adams, Social Security Administration Representative, will be in Littlefield at the U. S. Post Office at 10:30 a. m. on Wednesday, November 26, 1947, for the purpose of answering any questions you may have on Social Security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits; and taking applications for Social Security account number cards.

There is no statistical summary of the number of needy Americans who have lost—or are losing—benefits under the Federal insurance provisions of the Social Security Act bought with their own money or that of their husbands and fathers. But experts say that the number is impressive—thousands of persons, millions of dollars per year.

And the biggest single reason for this loss is ignorance of the law plus failure to visit the nearest Social Security office at age 65 or death strikes down wage earner the family.

From where I sit... by Joe Marsh

Metropolitan Papers Please Copy!

Folks here were burned up over an article on Our Town I reprinted from a city paper. Made us sound like a bunch of "hicks" who whit-tled sticks and wore chin whiskers. (Last person I saw with chin whiskers was passing through on his way east.)

So I ran an editorial on how we spoke of city "slickers"—as over-dressed wisecracks, only interested in making money, and spending it in night clubs.

Fact is, if we got to know each other we'd probably find we're not

much different, underneath. City folks work hard; like to come home at night to their families; and relax with a moderate glass of beer, like we do.

From where I sit, it doesn't matter if you live in an apartment house or on a farm—work in an office or a cornfield—the American tradition of quiet home life, temperate habits, and neighborliness is common to all of us.
