DICK STANSELL GETS WIDE RECOGNITION FOR EFFORTS TO RESCUE WAR COMRADES

Sgt. Richard Stansell, Littlefield
young man, who is helping drive
the Germans out of Italy, has re-
ceived national recognition of his
bravery in attempting the rescue of
four comrades.

News of his brave efforts came in
a dispatch from a correspondent
with the 5th army in Italy. The
story was printed in countless num-
bers of daily newspapers throughout
the country.

A news agency telegraphed the
editor of the Lamb County Leader
for a personality sketch of Sgt.
Stansell. They wanted to know if
he had a wife and children or a girl
friend, his favorite songs, his hob-
by, his nickname, his occupation
previous to enlisting, and a whole
lot more information.

This editor cheerfully furnished
the information in a telegram to
New York; it was easy for us to
tell them all about Dick because we
knew him long before the days when
he was an Al soda skeet at Stokes
Drug . . . long before the days
when he took special delight in try-
ing to tempt us into boxing a little
with him, which would have been
plumb suicide for us.

Among First To Enlist
Dick was among the first to en-
list from Littlefield when it looked
like the United States would prob-
ably have to fight Germany. And
all through his military service Dick

has been proud of his job . . . en-
thusiastic in all his undertakings.
We know that attempting to rescue
his comrades was just routine with
Dick . . . just another job.

Dick, the folks back home are
proud of you!

ITALY, Sept. 15 (Delayed) (AP).—
The path ended in a pile of rocks
about a quarter of a mile below the
topmost peak of the mountain. Not
even the jeep could go any farther,
and a jeep can go almost anywhere.

The sergeant got out and squinted
up toward the top. He drew his car-
bine from the holster on the side of
the jeep and put a couple of extra
clips of ammunition in his pocket.
Then he said to the driver:

"If I'm not back by dark you go
on down the hill, but wait as long as
you can."

We watched him until he disap-
peared around a shoulder of rock
covered with scrub pine.

"He's got guts," said the driver.
"I'd hate to have to do what he's
doing."

Four soldiers are missing some-
where up there. They went up to
establish a lookout post and then
they simply disappeared. No sign
had come from them for two days.

The sergeant, RICHARD STAN-
SELL OF LITTLEFIELD, TEXAS,
had come up to find them.
"They probably got the snafoo
from a German patrol," said the
driver. "These hills are full of Ger-

Local Flyer Leads Squadron In Recent Bombing Of Rome

To Lieut. Sam Edwin Blessing,
son of R. E. Blessing of 3 1/4 miles
northeast of Littlefield, goes the
distinct honor of piloting a B-24
Liberator plane which lead one of
the squadrons in an air raid over
Rome on July 19 last.

Lieut. Blessing reports that an
enemy fighter attacked and dam-
aged the plane he was piloting, and
that heading out to sea, and flying
so low that they were just above
the waves of the ocean, they saw a
small island. Pulling up high enough
to bale out, they all managed to
parachute out. All of them landed
on land, except Lieut. Blessing, and
he landed about three miles out in
the ocean, and was obliged to re-
main out several hours before he
was picked up by a boat. Several of
the crew members were reported in-
jured.

Lieut. Blessing was commissioned
and received his wings March 20
last.

Mrs. O. K. Yantis, cousin of
Lieut. Blessing, received a letter
from him last week in which he
said he had been in the Middle
East, but that he was back in Eng-

Postcard From Son
Tuesday First Word
Received By Parents

There was great rejoicing at the
home of Mr. and Mrs. A. H. Mc-
Farland on Oklahoma Avenue, and
in fact by all residents of this city,
Tuesday when a card was received
by the parents from their son, Thom-
as J. McFarland, from a Japanese
Prison Camp, at Moulmein, in Bur-
ma.

The card was addressed to Mr.
and Mrs. McFarland in their son's
own handwriting, as well as writing
on the other side of the postal card.

On this card appeared the follow-
ing communication:

"Imperial Japanese Army
"I am interned at the War Pris-
oners Camp at Moulmein in Burma.
My health is good. I have not had
any illness. I am working for pay
at 10c per day. I am with friend,
F. H. King, Shamrock.

"Merry Christmas
"Happy New Year
"From Thomas J. McFarland."

On receiving the card Mr. Mc-
Farland endeavored to get Mr. King,
the father of F. H. King, by tele-
phone, to pass this information on
to him, and talked with him Tues-
day. Mr. King stated that he also
had received a like card from his
son stating similar information and
that he was "with friend, Thomas
J. McFarland."

Thos. J. McFarland enlisted in
the Marines at Abilene, Texas, June
2, 1941, and left Dallas for San
Diego a couple of days later. He
was assigned to special detail duty
as orderly to Admiral Hart on
U.S.S. Houston.

The U.S.S. Houston, a Cruiser,
was sunk on February 28, 1942, by
the Japs in sea battle off Java Is-
land. The last letter received by Mr.
and Mrs. McFarland from their son
was dated Feb. 10, 1942, and re-
ceived on Mother's Day in May,
1942.

On March 16 a telegram arrived
from the War Department stating
that T. J. McFarland was missing
from line of duty in action on the
U.S.S. Houston, which was sunk in
the Java conflict.

SOMEWHERE A BOY HAS A RENDEZVOUS WITH DEATH

Somewhere an American boy has a rendezvous with death tonight. Whether on a carrier's deck in the Pacific, amid the burning sands of North Africa, or in the tropical forests of New Guinea—whether swift and perilous, or terrible and slow his going—he is giving to his fellow men the greatest gift a man can give. The year un-lived—the warmth and the laughter and the tears, and—most precious gift of all—his sons that might have been. All these he is giving.

No effort of ours, now, can stay the speeding bullet that has his number on it. What to him, now, are the bonds we buy, or the guns we build?

With nothing that is bought or sold, with nothing that is made of human hands, can we share his sacrifice.

What gift can we give to match his—what sacrifice can we make? The answer will come from that still small voice within our own hearts.

For no one can tell us how many bonds to buy, how hard to work on the guns and planes and tanks we build, to keep his gallant effort from having been in vain. Yes, we must each decide the measure of our own obligation—the gasoline we do not use, the pints of blood we donate, the food we do without, and all the other appeals we answer—to make the precious gift he made worthwhile.

Not for the boy who is dying tonight, but because he is dying, we can make our sacrifices to the cause of freedom. — Reprinted from General Electric Monogram, internal company publication.

Don't Fail Our Troops!

America is proud of the way you answered her call for help. In the First and Second War Loan Drives you opened your hearts—and your purses—and invested generously.

But this is no time to say, "Sorry, I've done all I can."

Not when our troops are smashing ahead.

Not when the cry from every front is for more tanks . . . more guns . . . more planes to strike the knockout blow.

Today, everyone who possibly can, must invest in at least one extra \$100 War Bond. More if you possibly can. That's in addition to your regular War Bond subscriptions.

A big job? But INVASION is a big job, too! And that's what the 3rd War Loan is for—INVASION!

And it's for your loved ones, too . . . for the sons and brothers, sweethearts and husbands who are doing the fighting.

Can you look into your heart and say to them, "I've done all I can?"

Can you tell that to the Invasion Troops?

Of course you can't! No true American could! So now . . . when America needs your help as it never has in all history . . . make up your mind to do MORE in September. Invest in the safest way in the world! Invest out of current income, out of idle or accumulated funds. Back the invasion with at least one extra \$100 War Bond this month.

THE 3RD WAR LOAN DRIVE IS ON!

BACK THE ATTACK—WITH WAR BONDS
Where Would We Be If The Men Of Our Fighting Forces
Said...“WE’VE DONE ENOUGH”

**Do More
In September**

—at least an EXTRA
\$100 War Bond for everybody!

Look at the headlines in this newspaper today. They tell vividly what our men are doing on battlefronts all over the world.

We thrilled to victory in Tunisia... victory at Munda... invasion of Sicily. And tomorrow more victories will fill us with pride in our fighting forces.

But what would happen to us if our men in Service said, “We’ve done enough”? It would be the end of all of us.

We know, of course, that they’ll never quit.

We know, too, that YOU won’t let America down. That YOU won’t say, “I’ve done all

I can.” For your job is no less important than that of the man in uniform. And this month your country asks everyone who possibly can to invest in at least one extra \$100 War Bond.

You know the benefits of War Bonds. They’re the safest investment in the world. They secure your future. They help your country and your loved ones doing the fighting.

Get at least an extra \$100 Bond in September in addition to your regular purchases. More of possible.

Invest not only out of current income but out of idle and accumulated funds. And do it NOW!

FOOT RELIEF

When the arches of the feet begin to sag, weaken and finally flatten, a terrific strain is placed on the muscles, ligaments and nerves. Excruciating pains and cramps develop; corns, callouses, weak ankles, rheumatic-like pains and cramped toes make their appearance.

All this suffering can be avoided by the use of Dr. Scholl's Foot Comfort Appliances. These devices, gently but firmly, support the weakened arches and restore them to normal position.

Hundreds of satisfied customers will vouch for our efficiency, but a personal demonstration is the most convincing evidence in the world.

Dr. Scholl's Foot-Ezzer
Stops foot pains. Eases feet, body and nerves. Relieves tired, aching feet. \$3.50 pair.

FREE FOOT PRINTS
This is a Podo-graph Print which shows arch weakness. Let us make prints of your foot. They may disclose the cause of much of your foot suffering. In using Dr. Scholl's Podo-graph all footwork is eliminated.

Bond Rally—

(Continued From Page 1)

Committee, C. O. Stone, County Chairman of Third War Loan Drive; W. J. Chesher, chairman of Littlefield drive; and Lieut. Thurmon of Public Relations office, South Plains Army Field.

Clarence Davis, gunner on a fighter plane, in service in the South Pacific for 15 months, and now home on leave, addressed the group. He participated in two major battles in the Guadalcanal area, first on November 13, 14 and 15, on Guadalcanal, when his squadron sank 27 of the Japanese ships out of a convoy of 65, when they met them 80 miles out; and later in December when 14 of the Jap ships were sunk. He took part in 28 missions on Solomon Islands.

Granville Smith, Seaman First Class of the U. S. Navy, and son of Mr. and Mrs. Bob Smith, was also introduced at the Rally. Seaman Smith is home on leave after being in service two years, with 14 months overseas. He served on the ill-fated Helena when it was sunk in the Solomon Islands area on July 5. He has taken part in three major battles in the South Pacific. The first one on October 10, 11 and 12, in Guadalcanal, and later on November 12 and 13. When the Helena was sunk Seaman Smith was obliged to stay in water 4 1/2 hours before two destroyers came and picked up the sailors.

Seaman Smith said the Americans were doing their part over there, and were "working the Japs down to their proper size."

Mrs. Max Stansell and Mrs. Leon Stansell, sisters-in-law of Dick Stansell, whose bravery on a certain mission in the hills of Italy recently has been published in all the daily newspapers in the country, and is contained in this issue of the Leader, were introduced at the rally, in recognition of Dick Stansell's service.

Cpl. Josephine Roberts, who enlisted in the WAACS in November last, and is now serving as Baker at Mariana Army Flying School, at Tucson, Ariz., on home on furlough, was introduced and spoke a few words.

The campaign got underway in a big way here Wednesday, with about 100 businessmen and farmers canvassing the business establishments, homes, and farm homes for war bond sales.

land have tried in every way to get some word of their son's whereabouts, the first information received was the postcard which arrived Tuesday.

When this card arrived about noon Tuesday, there was great rejoicing among the postal staff, and Arbie Joplin, Assistant Postmaster, carried the postcard to Mrs. Joplin, employed at the Ration Board, in the City Hall, and Mrs. Joplin and Mr. and Mrs. W. G. Street went to the McFarland home on Oklahoma Avenue to take the good news that their son was alive.

Lieut. Bill Street, son of Mr. and Mrs. W. G. Street, in the Army Postoffice stationed at Camp Cooke, Calif., and Thos. J. McFarland grew up and went through school together, and were great friends.

When Mr. and Mrs. Street and Mrs. Joplin arrived at the McFarland home about 12:45 noon and handed Mrs. McFarland the card, she exclaimed, "Praise the Lord," and like a mother, cried over the good news.

Mr. McFarland was absent from his home, and was enroute home from his other farm three miles east of his place on Oklahoma Avenue, when Mr. Street met him, and when he told him the news, Mr. McFarland said: "Oh, Bill, you don't mean it."

With South Plains Men In U. S. Service

Pvt. Roy Ferguson of the Marines, stationed on some South Pacific Island, writes home that he is still cooking at headquarters; that he and his group were sleeping in what used to be a Nazi church; that the mosquitoes were awfully bad, and that they slept with head nets. He said he was awfully sun-tanned, and he hoped his parents had received the grass skirt he had sent his sister.

Aviation Cadet David A. Keithley, son of Mr. and Mrs. J. W. Keithley of Littlefield, has completed the U. S. Army Air Forces course in aerial gunnery after six weeks of intensive training in "how to do-able in lead." Winning his gunnery wings at Harlingen Army Air Field, young Keithley has been sent on to a post for advanced training, which upon completion of the work there, will graduate him as a second lieutenant. He is believed by his parents to be now stationed at San Marcos.

His training at Harlingen has enabled Cadet Keithley to "handle everything from a camera to .50 calibre machine guns," even to tearing them down and reassembling them while blindfolded. Much of his target training was done in planes over the Gulf of Mexico.

Cadet Keithley has been in Service since October, previous to which he was manager of the Walters Drug Store at Amherst a year.

Paul D. Bennett has been advanced to Sergeant. He is in the student officers detachment department at the Laughlin Army Air Field at Del Rio, Texas. He and Mrs. Bennett are expected home to spend his furlough with his parents, Mr. and Mrs. W. E. Bennett of Amherst.

At an impressive ceremony at El Paso, Texas, last week, Tech 4-Gr. Leonard Bryan of Anton, Texas, was awarded the soldier's "Good Conduct" medal by Colonel George M. Edwards of the Army Service Forces, commanding officer of the William Beaumont General Hospital.

The Good Conduct medal is awarded in recognition of exemplary behavior, efficiency and fidelity during one year or more of active federal military service, and entitles the recipient to wear the official red and white striped ribbon on his uniform.

Mr. and Mrs. L. T. King had a joyous surprise recently. They had started to Oklahoma to visit relatives, and had got as far as Amarillo and were preparing to board a bus to go on. When the bus arrived at the Amarillo station, off stepped their son, Leslie, who is in the Navy and was on his way to visit them. It is needless for us to say that they were glad to return home with him.

Technical Cpl. William McKay of Fort Brown, Texas, Radio Operator in the Mechanized Cavalry Division, arrived Sunday on a 13 day furlough, for a visit with his uncle, Frank Rutherford, of Whitharal, Texas.

T-Cpl. McKay was formerly from Hall County.

Cpl. James Zachary, who has been in the radio division stationed at the Army Airbase at Pampa, for sometime, and in the "limited service," which means only service in the United States, due to some eye trouble, was recently transferred to the regular Army, and although still in the radio division, he is now subject to overseas service.

Mr. and Mrs. W. C. Zachary hear

regularly from their son, Pvt. Billie Zachary, who is with a tank Corps of the Marines, and writes home that he is getting along alright, and that when he gets back he will want lots of cool beer and cigarettes. His parents believe he is in India, although they do not know.

To the People of this Community:

DRIVE DEPENDS ON YOU!

Would you take a free ride on a wounded soldier's back? That's exactly what you would be doing if you did not do your duty in the Third War Loan.

Your idle weight would be felt by him on the battlefield. Every civilian counts in this kind of war. Every civilian must make his energy and his dollars work for victory.

Keep in mind that while our national goal in this drive is 15 billions of dollars, this money is being borrowed from you and you and you. You are, as an individual, the deciding factor as to whether we reach this goal. An extra \$100 War Bond becomes an extra rifle, extra bullets and extra fighting power of every type.

The West Plains Baptist Association met at the Sudan Baptist Church Thursday last in an all-day meeting.

Miss Blanche Groves of Bridgeport, Texas, Missionary to China for 22 years, addressed the gathering on China and some of her experiences, and conditions in that country since the war. Miss Groves was a war prisoner for six months, and returned to this country on the Gripsholm.

Other out of the association speakers were: Rev. Willis J. Ray of Dallas; Rev. J. L. Ponder, District Missionary, of Plainview; J. M. Cook of Abilene, who spoke in the interest of the Baptist Standard; and Rev. Perry Evans of Fort Worth, who addressed the meeting in the interest of Buckner Orphans Home, Dallas.

Rev. Ray, former Littlefield First Baptist pastor, who left here to accept District Missionary work with headquarters at San Antonio, is now State Evangelist in charge of Rural Churches, and covers the entire State of Texas. Rev. and Mrs. Ray make their headquarters at Dallas. Reports of the various phases of the work were made, and plans discussed for the coming year.

Navy Man From Foreign Service Visits In York Home

Rev. and Mrs. C. Frank York have as guests this week their nephew, John B. Hurt, Storekeeper Second Class of the U. S. Navy, and Mrs. Hurt and their small son. They arrived Thursday, and will spend several days here.

Hurt has been 18 months in the Service, and about six months overseas. He has seen service in the South Pacific, including the Solomons. He landed in the United States September 10.

Rev. and Mrs. York regard their nephew as a son, he being reared in the York home.

Mrs. Hunt and son make their home with her parents, Mr. and Mrs. Johnnie Brookshire, in Seaman Hurt's absence.

Rev. and Mrs. York also reared a brother of Seaman Hurt, Francis V. Hurt, of the U. S. Navy, Yeoman at Naval Base stationed at Grand Prairie, Texas, in service about 15 months. He is doing administrative work.

Colored School News

The Colored School and its newly elected teachers seem to be making some progress.

The first month's work will end Friday, September 24.

Friday night, September 12, the school sponsored its first entertainment in the form of a weiner roast, and ice cream supper. The affair was well attended and enjoyed by all. The funds raised went to purchase a water keg, so the pupils would not have to walk two blocks to drink from an unsanitary hydrant.

Tuesday night, September 14, patrons met with the teachers and organized a PTA with the following officers:

J. Henderson, president; Rosa B. Bates, vice-president; Dovie L. Jones, secretary; J. Booker, assistant secretary; Andrew Hodge, treasurer.

Last Friday night, September 17, Mrs. N. L. Powell, primary teacher, sponsored another weiner roast and ice cream supper to raise funds to purchase scripts and charts for the primary pupils.

The teachers are working hard without anything to work with. They seem to be able to put over worthwhile programs of all will cooperate. Thus far they have had splendid cooperation from all sources. They solicit the continued cooperation and support. Their greatest need is a building and something to work with.

"... AND THEN JAPAN" LATEST MARCH OF TIME AT PALACE THEATRE THIS WEEK END

"... And Then Japan" the latest March of Time, which will be featured at the Palace Theatre Saturday midnight, continuing through Sunday and Monday, contains some of the most sobering facts and exciting scenes to come out of the Orient in many months. Americans, hungry for every scrap of information about their mysterious, and far too little known enemy, will be certain to welcome this dramatic film.

Taking its keynote from a forward by former U. S. Ambassador to Japan, Joseph C. Grew, who speaks in the film of what it will take to defeat Japan, the scenes

trace rapidly the gains Japan has made, and shows how she is converting all her newly won wealth into armaments and weapons.

Other scenes show the people, at home, in night clubs along the famous Ginza, and at work in Japan's primitive industry. The training of children for what Japan believes may be a hundred years' war is particularly significant.

Exclusive scenes of the Japanese people at war, and the impressive warning of Ambassador Grew make this a film no American with an interest in the outcome of the war can afford to miss.

A musical extravaganza, "DuBarry Was A Lady," will be a feature attraction at the Palace Theatre Saturday midnight, Sunday and Monday.

Red Skelton's "I Dood It," Lucille Ball as DuBarry, Tommy Dorsey's music, Gene Kelly's singing, and the Varga Girls, plus a bevy of dance specialties in Technicolor makes DuBarry a dazzling picture for lovers of musical comedies. The cast consists of dozens of others.

mans. Particularly snipers. A sniper could knock him off so quick he'd never know what hit him. He's sure got guts."

The sun dropped below the horizon and the plain far below was bloody red. The artillery was still hammering and slamming home somewhere down beneath the haze.

"That's bad enough," said the driver, "but what he's doing is worse. Those guys can see what is ahead of them, but he can't see a thing. A Jerry could pop right up in front of him before he knew it."

The shadows lengthened across the plain and crept slowly up the slopes of the mountains. Pools of darkness were forming beneath every clump of pine and in the pockets of rock.

"The thing is," the driver said, "he wouldn't really have to stick his neck out like this. He could come up just this far and look around right from here and then say he couldn't find those guys. And nobody would ever know any different. I'd sure be tempted to do just that if it was me."

The hills were deathly still. A bird called mournfully in the fading light. An hour passed. Then the sergeant came back. His brown shirt was blotched and stained with sweat and his face was dripping. He was breathing hard.

"Not a sign of them," he said, "not a single solitary sign."

He poured a canteen of water over his head and let it run down his cheek and arms and into his pants. Then he sat down and lit a cigaret.

"There's just one other thing, Jim," he said to the driver. "You see that point over there. They might have gone over there."

"Sure, I see it," said the soldier. "Well, how about you taking a look over there? You got maybe half an hour to light left and you ought to be able to make it," said the sergeant. "I'm plumb tired out or I'd go myself."

"Sure," said the driver. He took his rifle and made sure it was loaded. Then he began climbing.

"He's a good guy," said the sergeant. "He isn't scared to go anywhere."

Brothers In Service

A brother, Max Stansell, was killed in an automobile accident two years ago on a trip home from California, where he was employed. His three remaining brothers are in the service of their country: First Class Petty Officer Leon Stansell, with the Seabees in the South Pacific; Pfc. Thomas D. Stansell, formerly of Bonham, Texas, with the Army Engineers in Alaska; Pvt. O. C. Stansell, formerly of Clovis, a member of the military police and stationed in San Francisco. The Stansell boys are the sons of W. C. Stansell, formerly of Littlefield, now employed in a shipyard at Houston.

Sgt. Stansell is of fair complexion, freckles, blue eyes, light brown hair, likes dance music and boxing, and has a jovial disposition.

No, girls, Dick isn't married . . . at least, we haven't heard about it . . . and as far as we know he hasn't a special girl friend. But we could be all wrong about the girl friend angle . . . these blue eyed young men with a happy disposition do get around.

Farmers, Ranchers May Secure Needed Ammunition On Farm

Lamb County farmers and ranchers may purchase during any calendar quarter 100 rounds of .22 caliber long rifle cartridges or other rim fire cartridges; 40 rounds of center fire cartridges such as .30-30 caliber and 25 rounds of any gauge shotgun shells by executing Certificate No. 4 of L-286 according to E. C. Clayton, Chairman of Lamb County USDA War Board. The War Food Administration has been concerned for some time about the shortage of ammunition for use by farmers in controlling predatory animals and birds, E. C. Clayton said. The amount available for the past year has been so inadequate that many farmers have been unable to obtain the small quota permitted under War Production Board Limitation Order L-286.

A program has been adopted under which approximately 100 million shotgun shells, 12 million center fire rifle cartridges and 100 million .22 caliber rim fire cartridges will be available for distribution.

Farmers and ranchers who need ammunition should execute Certificate No. 4 which can be obtained from their dealer or from the Lamb County USDA War Board. Those needing a larger amount of ammunition than can be secured by using Certificate No. 4 may purchase a special quota (50 rounds of .22 caliber long rifle cartridges, 20 center fire rifle cartridges, and 25 shotgun shells) by using certificate No. 5, provided they secure these amounts prior to October 1 or their written orders are in the hands of the dealer by that date. If a farmer or rancher needs a larger amount of ammunition than can be secured by using Certificates No. 4 and 5, he may apply to the Government Division, War Production Board, Washington, D. C., using Form PD-860.

Ferry Planes To Sherman For Safety

Mrs. G. W. Ross of Oklahoma Avenue received a note Monday from her son, Lieut. Geo. Lieut. Ross said they started to Sherman, but the weather closed in on them—one fellow crashed—and the rest of them scattered all over Texas—that 75 sat down in Dallas, including Lieut. Ross.

The group at Dallas had expected to return to Beeville Tuesday, according to Lieut. Ross.

3 REASONS why I head for

1 My boy is a fortress bombardier in the Southwest Pacific. So it means something special to me that Phillips is putting a mighty shoulder to the wheel in our war effort, making lots of 100 octane aviation gasoline and butadiene for synthetic rubber.

2 I like the kind of service I always get at Phillips stations even when I don't buy a thing. "Good Neighbor Service," they call it; and they're right.

3 For more than ten years, Phillips 66 Gasoline and Phillips 66 Motor Oil have been my favorites. They still are!

Phillips car-saving service includes inspection of battery, air filter, and radiator; lubrication at every point specified by your car manufacturer.

Good products... Good Neighbor Service... offered by an organization wholeheartedly devoting its best efforts to war production... doesn't it all add up to three good reasons why you, too, should head for the Phillips 66 pump, whether you buy one coupon's worth of famous Phillips 66 Gasoline or merely want water or air!

Supt. Rogers Talks Over KICA In Interest Bond Drive

on everyone to buy War Bonds... also that extra \$100 War Bond that is going to be needed to put this drive over.

The Committee is reminding everyone that the invasion is now on... that it costs large amounts for equipment, munitions, and supplies that must reach the front in a never ending stream... if the boys in foreign service are to have the machinery with which to go on and on to victory... that those men are fighting for us... bleeding for us... ready to die for us... no matter what we have to sacrifice... no matter how much it pinches... we cannot let them down.

To the People of this Community:

HURRY-UP JOB!

The Third War Loan is a hurry-up job for the home front. The government must rush billions of dollars to the fighting fronts in the form of extra munitions.

It's actually a matter of life or death for Americans in uniform. Once the invasion got under way we committed ourselves to the use of large numbers of troops and great stores of supplies. Any let down or crack-up in the supply trains could prove fatal.

Your job is to see to it that there is no shortage of anything needed to make the invasion swift and sure. We do not want another Bataan or Corregidor. Get that extra War Bond today. Show that you are with our boys in this critical hour of invasion.

Dead Vines Or Dry Grass Spaded Under To Improve Soil

Instead of burning dead leaves and dry grass from the lawn and garden, the foresighted gardener will use them to make a compost heap for the improvement of future gardens. Vegetable trimmings and leafy refuse from the kitchen add valuable material to the compost heap.

A compost heap furnishes organic material to improve garden soil. Finished compost is a well-turned or spaded mixture of soil and decayed plant material, usually with some or commercial fertilizer added.

A simplified method of making compost, suitable to the small vegetable gardener, is suggested by the specialists of the Department of Agriculture.

Start a heap six or seven feet

square, with a two- or three-inch layer of soil. Follow with a six-inch layer of waste such as leaves, grass and dead vines or plants (but avoiding pine needles or very heavy weed stalks). Then alternate these layers, keeping the sides vertical and the top either flat or dished. Boards or old fencing may be used to hold the compost heap together. It may be built up four or five feet high.

To assist in the rotting, water the heap enough to keep it damp clear through and add to each layer of plant waste fresh animal or poultry manures, or a few handfuls of a complete fertilizer high in nitrogen, cottonseed meal, or similar nitrogen-containing plant food. The soil in the compost heap absorbs the products of the decayed vegetable matter, prevents loss, and makes compost convenient to handle.

Do not add lime or wood ashes to the compost heap, because they may cause loss of nitrogen from the fermenting vegetable matter.

Turn the pile two or three times a year to make good compost. It takes a year or more to make fine compost, although a rough, usable product may be made in less time.

Compost, the garden specialists say, does not replace fertilizer, but is used primarily to improve the physical condition of the soil. Good compost is much richer than most soils, so it should be kept carefully stored in piles so that it will not be

"This War Will Become Bigger and Tougher . . . During the Long Months to Come"

Franklin D. Roosevelt

Italy has fallen—but the war is not over and you know it! Think of Berlin and Tokyo—think of the men dying *at this moment*.

Can *we*, you and I, afford to let them down—to turn *their* battlefield victory into a home-front defeat? Let's buy *more* War Bonds than ever... let's back up *their* victory with *ours*—the success of the 3rd War Loan!

There are battles coming—tough, bloody, hard-to-win battles—before this war is over. And it's the *last* battle that counts. We've got to back up our fighting men . . . we've got to buy War Bonds with every dollar, every dime we can scrape up.

PRESIDENT ROOSEVELT said it, as Commander-in-Chief:

"I say that we Americans will not be satisfied to send our troops into the fire of

the enemy with equipment only equal to that of the enemy. We are determined to provide our troops with overpowering superiority of quality and quantity of arms and armaments..."

Our fighting men will do *their* job—it's up to *you*, personally, to keep their victories safe by *buying War Bonds NOW* with every dollar you can—not with what you'd ordinarily save or invest, but *more*—every bit more you can manage.
