Otters in China and India are Committees Named **To Direct Formation** Of Such Project

Expect to Put On Benefit Show In December or January

Plans are under way by the Junior Chamber of Commerce and the Rotary and Lions clubs to organize a Boys' Club in Littlefield.

Committees from these organiza tions have been named to direct the formation of such club, as follows: Mancil Hall, Jack Christian and Supt. Joe Hutchison from the Rotary Club; E. E. Easley, Bob Taylor and Jimmie Zed Robinson from the Jaycees, and Leo Duffey, Earl Rodgers and Wel-

don Findley from the Lions Club, Ralph Dyckman, supervisor of the Maverick Club, Amarillo, a lik ganization to the one planned for Littlefield, is said to have intimated he would come to this city and put-on a benefit show, the receipts of which would all go towards the formation of a Boys' Club here.

According to those sponsoring the project, it is hoped to have the benefit show presented either on December 13 or January 3 in the high school auditorium, in which 49 boys from the Maverick Club would put on a two-hour show.

According to E. E. Wesley, who has been appointed chairman for the project, a boys' club would avail boys of this area all kinds of sports and good entertainment which is enjoyed

Progress Reported By Savings & Loan

The Littlefield Federal Savings & Loan Association is progressing nicely

According to J. W .Keithley, secretary-treasurer the association now has a number of investors and a total of 22 loans have been closed.

The organization is composed of local business men, and can now boast of 74 shareholders.

The purpose of the association is to promote home building, making loans at a low rate of interest to encourage the building of homes in this

The money so invested is insured by the Federal Insurance Corporation, the same as the banks-all funds are guaranteed up to \$5,000 for each account, and it is expected by this association to pay a reasonable dividend

to all investors on July 1, 1947.

In an interview with Mr. Keithley
Saturday, he said: "We can pay 2
per cent on the money invested. We are also soliciting more accounts, and we invite inquiry from the general public as to what the association isfrom those who are not familiar with it. We also invite savings accounts of \$5 up. It is a fine thing for any one, either children or grown-ups to open a savings account, and save their money for any purpose, such as buy-ing a car, going to college, etc., and would teach one to be thrifty instead of spending everything as they go. In other words, as little as \$1 would open an account, and any amounts would be received by the association towards such a saving account.

days. We have savings accounts and count." investors' accounts. In the investors' in the savings accounts a passbook is ments and also invites the public to issued. In the investor's case, he is open savings accounts with this firm, issued a share certificate, and on that reminding those with miney to invest share certificate he draws a dividend that their money is insured just the July 1 and January 1, which is paid same as bank accounts for each ac- renewals to Avaianche-Journal and by check and in the savings account count up to \$5,000.

SAVINGS BONDS... A GOOD INVESTMENT

Nationally speaking, the cash income of American farmers in 1946 will be the highest in history. With a few exceptions, bumper crops have been evident throughout the year. With a national income of all Americans totaling 20 billion dollars more than goods and services available, it is imperative that this surplus cash be put into purchasing power for the future.

With this condition prevailing, the U. S. Treasury is conducting the promotion of Savings Bonds during the period between Armistice Day and Pearl Harbor Day, December 7. During this promotion, every effort will be made to divert excess income which inflates prices to a drastic degree into Savings Bonds. Special appeals are going forward to farm communities which are enjoying their highest incomes in history.

In Texas, a quota of \$35,000,000 in Series E Savings Bonds has been set. To reach this goal is of importance to every individual and every community in the years to come. With Series E Savings Bonds still drawing the same rate of interest as during the war (4 for every \$3 invested), this great backlog of savings will provide a source of individual financial reserve at all times and will insure cash for purchases of now scarce items.

"Savings Bonds are still the best investment in the world," said Nathan Adams, Dallas banker, who is chairman of the Texas Advisory Committee on Savings Bonds.

"No matter how much money a farmer has today," Adams continued, "there are many things that he cannot buy on present market prices. A wise farmer will invest his income now in Savings Bonds and take advantage of future normal supply and prices for his equipment and buildings.

"A span of ten years marks a great many ups and downs with those who till the soil. Weather, insects, prices and many other factors enter the pic-

ture to make a good year or a bad year in a farmer's life. With an adequate reserve in Savings Bonds, the bad years can be tided over. And if the bad years never come, the thrifty farmer will have a nestegg to provide for his leisure years, to send the children to college; to travel, or to do the many things a man works and saves for in life.

"During the Treasury's promotion in November and December," concluded Adams, "I know that farmers all over Texas will invest all their excess income in Savings Bonds and will continue to invest in 1947 where they can. All during the war years, the farmers of Texas made a splendid record on War Bonds to back their country's future. Today, they are backing their own future with Savings Bonds."

Savings Bonds, which are obtainable in the same denominations as War Bonds, may be purchased at your bank, post office or other issuing agents.

GEMS OF THOUGHT

COURAGE

Courage is that virtue which champions the cause of right.—Cicero.

Where true fortitude dwells, loyalty, bounty, friendship, and fidelity may be found.-Sir Thomas Browne.

Immortal courage fills the human breast and lights the living way of life. -Mary Baker Eddy.

Who then is the invincible man? He whom nothing that is outside the sphere of the moral purpose can dismay.— Epictetus.

Courage is, on all hands, considered as an essential of high character.-Froude.

The bravest ar the tenderest,-The loving are the daring.

-Bayard Taylor.

Christian Science Thanksgiving Services

Thanksgiving Day services are held each year by the Mother Church, the First Church of Christ, Scientist, in Boston, Mass., and its branches throughout the world. The order of services includes the reading of the Lesson-Sermon on the topic of "Thanksgiving," and opportunity is afforded for testimonies of gratitude casion. The public is cordially invited to attend these services.

The Golden Text is: "Let the peace of God rule in your hearts, to which also ye are called in one body; and be thankful" (Collossians 3:15).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let all those that seek rejoice and be glad in thee: and let such as love thy salvation say continually, 'Let God be magnified' (Psalms 70:4).

The Lesson-Sermon also includes the following passage from the Christian textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Let us learn of the real and eternal, and prepare for the reign of Spirit, the kingdom of heaven.-the reign and rule of universal harmony, which cannot be lost nor remain forever unseen" (page

MILK SHORTAGE FOR TWO YEARS FORESEEN

The milk shortage will continue in West Texas for at least two years, it was predicted by Prof. K. M. Renner, head of the department of dairy manufacturers of Texas Technological College.

Because of the scarcity and high cost of feed, many dairy farmers have either sold outright or reduced their herds, and it will be at least two years before production can again be built up in the area, he said.

Information For Veterans

Q. Does a veteran who is going to school under the GI Bill have to report money he earns through overtime work

A. The veteran must report those wages received for the standard pe- tion and will be paid accordingly riod of the establishment where he is employed, including overtime work customarily scheduled. It will not include overtime beyond the standard work period of the establishment.

Q. I am taking training under the GI Bill and am working at night for which I receive the usual 10 per cent differential. Do I have to report this differential to the Veterans Administration in making a report of my incem? ---

A. Yes. Both the base pay and the 10 per cent differential would be included as wages in determining the rate of subsistence allowance payable and accordingly must be reported by the veteran and the employer.

Q. Can my subsistence allowance be apportioned in event my wife and I decide to separate?

A. Yes. The subsistence allowance is subject to apportionment on the basis of 70 per cent to the veteran and 30 per cent for the wife. in the case of children.

Q. Is a veteran following a course of vocational training entitled to a

vacation during the time he is in training?

A. Yes. A leave of absence may be granted but not to exceed 30 days in any consecutive 12 months.

Q. Will subsistence allowance be reduced during the leave of absence or vacation of the veteran?

A. No. The veteran will be considered as pursuing his course of vocational rehabilitation while on vaca-

OTHEL WALKER BAGS AN EIGHT-POINT BUCK

Mr. and Mrs. W. H. Walker were eating venison this week, thanks to their son, Othel, who killed an eightpoint buck on a hunt last week southwest of Hatchita, N. M.

Accompanying Othel on the hunt were B. H. Howard, A. T. Walker and Willie Duke. Each killed a deer. They were gone about 10 days.

FSA and ECFL Are

Credit facilities and services formerly provided by the Farm Security Crop and Feed Loan Division of mitted for medical treatment Thurs- Farm Credit Administration are available to all eligible farmers through the Lamb County office of the Farmtained on the playground at the Olton ers' Home Administration, Lester J. Cappelman, Texas State Director of

Mr. Cappleman also announced the designation of Mr. Pegues W. Houston, Lamb County supervisor of the Farm Security Administrator, as inof Littlefield are the parents of a terim supervisor in charge of the daughter, Katherine Floydetta, born Lamb County FHA office, which is located on the second floor of the First National Bank building in Littlefield, Texas.

The Farmers' Home Administration, created by the 79th Congress, took over functions of FSA and ECFL effective November 1. The new agency will make production and subsistence loans as well as loans for farm purchases. Facilities are available only to farmers who are unable to get the loans they need at interest rates not exceeding 5 per cent from banks, co-operative lending agencies or other responsible sources in their communities.

The farm purchase loans made by the new agency are similar to those formerly made by the Farm Security Administration. Loans are made for 100 per cent of the purchase price of family-type farms, plus needed improvements. Repayment is scheduled over a period of 40 years, and interest rate is 3 1/2 per cent

Operating credit extended by the Farmers' Home Administration under its production and subsistence loan program includes both annual loans and adjustment-type loans at 5 per cent interest.

The adjustment-type credit is similar to the "rehabilitation" loans made by the Farm Security Administration, and is based on farm and home operating plans worked out by the borrower with the aid of FHA supervisors. It is accompanied by onthe-farm management assistance provided by FHA personnel. Loans may be repaid over a maximum period of five years.

The annual loans made by FHA are similar to the "feed and seed" loans made by the Emergency Crop and Feed Loan Division of the Farm Credit Administration. Farm and home plans are not required as a basis for these loans, but they must be repaid within 12 months.

Production and subsistence loans to any one borrower may not exceed \$3500 in any one year. Total indebtedness of any one borrower may not exceed \$5,000.

Veterans will be given preference in all phases of the Farmers' Home Administration program.

The sugar beet belongs to the same family as the garden beet and the mangel-wurzel.

> Five hundred cubic feet of inspired air, enters the nose every 24 hours.

From where I sit ... by Joe Marsh

A Lesson

In Conservation

We were sitting on Bill Webster's porch the other night, chatting over a glass of beer-when the talk turns to forest preservation, soil erosion, and other things that affect a farm-

ing community. Judge Cunningham speaks up: "It's all right to worry about conserving our natural resources," he says, "but there's a far bigger problem when it comes to conservation-and that's preserving our democratic way of life, our sense of personal freedom, our respect

for one another's rights."

From where I sit the Jedge is right. All America's great resources, our abundant natural wealth, are lost the minute we lose the right to work them as free people in a free land!

Whenever you see or hear of an encroachment on our rightswhether it's the right to free speech, or the right to vote as we see fit, or the right to enjoy a friendly glass of beer in licensed. law-abiding places . . . watch out!

Copyright, 1946, United States Brewers Fou

BYERS FEED STORE IS NOW CUSTOM

MIXING STATION FOR PURINA FEED R. L. Byers Feed Store, local feed distributor, have just been made an

approved custom mixing station, according to an announcement just received by them from the Ralston Purina Company, St. Louis, Mo.

"We are fully qualified," they say, "to render the type of custom grinding and mixing service the Ralston Purina company authorize in the announcement. We are completely equipped to grind the farmer's own grains and mix with them a balancer that the Purina laboratories and Purina Experimental Farm have found ent. to be practical and economical. By grinding the farmer's own grains and blending with them the proper Purina balancer, it is possible to increase the return a farmer gets from his grains when he markets them through his livestock in the form of beef, pork, eggs or milk."

Certain definite standards had to be met before they could become a Purina Custom Mixing Station, it was announced.

"We have been provided with the Purina rations service which entitles us to the help of the Purina laboratories and farm on any special needs of our customers, in addition to having these laboratories provide a complete set of rations made of corn, oats, wheat and barley, rye, sorghum grains and Purina balancers. As a Purina custom mixing station we send samples of mixtures as made by our grinder and mixer to the Purina analytical laboratory, so they can test the efficiency and accuracy of our machinery.

"This arrangement," they say, "makes it possible for us to render an unusually high standard of accurate, uniform and profitable mixing service to the farmers in this vicinity-a service particularly adapted to local feeding conditions."

R. L. Byers Feed Store will also handle the complete Purina feeds, as well as Purina concentrates.

Agriculture has a considerable stake in air transportation, because of the speed with which perishable UNITED PENTECOSTAL CHURCH products can be carried to distant markets.

> See W-W Electric for Light Fixtures.

> tend these missionary services each Tuesday at 2:30 p.m.

Report on Trial of Matsujiro Nakasai

A report on the trial of Matsujiro Nakasai, charged with mistreatment of American prisoners of war, has been furnished the Leader by the supreme commander of the Allied Powers, as follows:

"During the fifth day of trial, Nakasai took the stand in his own de-He admitted participating in four out of twelve war crimes charged against him, apparently in the hope of being merely found guilty of beating and mistreating four Amercans. The Legal Section accuses him of beating kicking and mistreating 27 American prisoners of war. In connection with the mistreatment, Chief Prosecutor Morrison charges specifically the burning of prisoners, their To reduce to a minimum the num- being forced to assume painful posupon in order of oldest dated certifi- ber of veterans' priority certificates tures, and being exposed, naked, to inclement weather.

M/Sgt. Ronald V. Tuck, 521 East 40th Street, Savannah, Ga., describes an unmerciful beating he received, together with 12 other prisoners of war. The Japanese had found out that these men had been trading some of their meager personal belongings to Japanese mine personnel to get additional food. Tuck, in a sworn affidavit says that he "was beaten in the face and about the head with a broad piece of rubber and fiber belting. This procedure was repeated three times, bursting both of my eardrums. My eyes were two pools of black blood, my head was swollen to the Church Has New size of a melon. In addition, I was burned on the back of my neck with slow-burning punk. We were cursed and beaten some more, then stripped naked and thrown in an open guardhouse with foul urine over the floor. There was snow on the

About 1300 the next day they were guardhouse, made to lie on the ground and beaten some more. At the end of this last beating, the 12 prisoners were doused with buckets of cold water. They were then told that they were released, if they they were not holding a grudge against the Japanese camp personnel.

Tuck, under oath, states that: "I am still suffering from blackouts, ter-12 others received no medical attention with public schools. tion after this mistreatment, but were sent right back to work. The Japanese camp commandant, Shotaro Furushima, who has already been ence at Sugamo Prison, told these 18 1746 by Prof. John Winthrop.

men that their lives were spared by the grace of the emperor and that their bodies belonged to him and his subjects to do with as they saw fit. Unosuke Mantani, former sergeant and second in command, has also already been tried and convicted. He, too, is serving a life sentence at hard iabor at Sugamo Prison. Tuck identified Nakasal as one of the guards who participated in these atrocities.

Nakasai Draws 20-Year Sentence

A later report also gives the following information as to the result of Nakacai's trial:

Matsujiro Nakasai, a Japanese who was charged with commiting war crimes against th eAllied prisoners of war, has been sentenced by an Eighth Army Military Commission to 20 years' imprisonment at hard labor. While being sentenced he appeared shaken and very nervous.

Nakasai was formerly employed by the armed forces of Japan, in the Nagoya Area Prisoner of War Camp Number One, Honshu, Japan. He was accused of kicking, beating, torturing American prisoners of war and exposing them, naked, to inclement

Legal Section prosecutors for this case were Allan Ross Morrison, of 4496 Aukai Street, Honolulu, Hawaii, and E. E. Sinn of Far View Beach, Milford, Conn.

LITTLEFIELD OPEN ALL NIGHT WHOLESALE and RETAIL

Two things are necessary to cash in on the full feeding value of your grain. First, select the proper supplement for the kind of stock you intend to feed. Second, mix the supplement so thoroughly with the grain that every quart of mixed ration is in the same balanced form as every other quart. This is absolutely essential when correct feeding is so vital to the cause of capacity food production today.

Shovel mixing is tedious and cannot possibly provide the necessary uniformity. But accurate mechanical mixing — such as is available to you through our NEW Approved Purina Custom Mixing Service — makes the mixture much more uniform and

ture much more uniform and dependable.

Our Fermulas are thoroughly tested and proved for turning your grain into balanced feeds for poultry, hogs, cows and steers. Our grinding and mixing machinery is operated by trainedmen. Bring in your grain for proper balancing to help step it up to capacity feeding value.
