Legionnaires Make Plans For Armistice Day Breakfast

Wayne Butler and Fred Ray Named Mess Sergeants
Program Will Include Big Army Style Meal

At a meeting of the local unit of the American Legion Monday night plans were discussed for the holding of Armistice Day breakfast, Friday morning, November 11, and Wayne Butler and Fred Ray were named as mess sergeants in charge.

Big Army Style Meal
According to Vernon Hofack, post commander, the affair will be a general get together of World War I and II veterans, and there will also be entertainment. It will include a big army style meal.

Kitchen Improvements About Complete
The building committee reported that the Legion kitchen improvements are about complete.

The parade at Big Spring Centennial was also reported on. Russell Tidd, Harry Crowley, Wayne Butler and Curtis Lee led the Veterans Parade at Big Spring, Oct. 5, and won a trophy.

Teachers Meeting To Be Held Nov. 14
A county-wide teachers meeting will be held here at the high school auditorium the night of November 14th. Every teacher in Lamb county is urged to be present.

Delegates will be elected at this meeting to attend the state teachers convention which convenes in Fort Worth, Thursday, Friday and Saturday, Nov. 24, 25 and 26th.

Local High School Band Wins Trophy In Brownfield Parade
The Littlefield High School Band, accompanied by their band director, Don Hayes, left Littlefield Wednesday morning for Brownfield, where they competed in the third annual Harvest Festival parade, in which the Texas Tech band and nine other bands from neighboring cities took part.

A loving cup was given by the Brownfield Rotary club to the marching band placing first in the parade, and Littlefield brought home the cup.

There are 80 members in the Littlefield band.
Mayor C. C. Primm delivered the welcome address.

The guests attending included Elmo Wasson of Big Spring, district Rotary governor.

The flowers are crepe paper replicas of the famous poppies of France and Flanders, that flourished and bloomed amid the war's desolation. They are being arranged for city-wide distribution on Poppy Day. Disabled veterans confined to various hospitals in the state have made the poppies.

Members of the American Legion auxiliary will distribute poppies on the streets Saturday, until the supply of 2,000 is exhausted. They will receive in exchange for them contributions for the Legion and Auxiliary welfare work among the disabled veterans and needy families of veterans.

PICTURED above is the "swanky" exhibit of choice Lamb County grown grain sorghums, that thousands of people have visited and are visiting daily at the Texas State Fair in Dallas. Last Friday was Lamb County day at the fair, and all Lamb County citizens who visited the fair were proud of the exhibit from their county. More than \$1000.00 was contributed by civic minded citizens over the county covering the cost of the elaborate exhibit. David Eaton, Lamb County Agent, was in charge of the booth until last Friday, when Pat Mann, secretary of the local Chamber of Commerce will be in charge until the fair closes.

Donkey Ball Game To Produce Laughs, Spills, Chills, Thrills . . . and Plenty of Sore Spots

Saturday night in Littlefield will be a period of laughs, spills, chills and thrills.

All the foregoing will be provided through a donkey ball game at the softball field, fairgrounds, participated in by two local teams and a whole flock of donkeys, all known for their unpredictable disposition and antics.

These mules have played more than 200 games of donkey ball in 20 of the central states, from the Gulf of Mexico to Canada in 16 seasons.

If you have witnessed a donkey ball game you'll want to see another. If you have never seen a game, then you have missed plenty.

And here's a chance to break into public prominence. All persons interested in playing on one of the teams are invited to contact O. K. Yantis at the Christolm Floral by Friday noon.

Saturday night's game will be sponsored by the Veterans of Foreign Wars. Game starts at 7 p. m.

After refreshments were served the group carried the gifts to the honoree at the hospital, where they were unwrapped and admired.

Elizabeth Warns Britons Against Divorce Dangers

LONDON. —Princess Elizabeth told Britons Tuesday to mend their morals and slow down on divorces. The heiress to the throne voiced alarm at the divorce rate in the sharpest statement that has come in years from any member of the royal family. It broke tradition, and recalled the time 13 years ago when another outspoken member of the royal family —Elizabeth's uncle—gave up the throne to marry an American divorcee. Usually, British royalty avoids public mention of controversial matters and speaks only along inspirational lines.

ERNEST BROCK

MRS. ERNEST BROCK

CLYDE HUDSON

A deal was consummated last week whereby Mr. and Mrs. Ernest Brock purchased from Stanley Doss the grocery store, stock and equipment of the Doss Grocery and took possession on Thursday.

Mr. Brock has been operating a farm northeast of town, while Mrs. Brock has been employed at Esta Mae's Department store.

Mr. and Mrs. Brock first came to the South Plains about 25 years ago, but left here in 1930, and had lived in Pampa, Borger, Texas, and Los Angeles Calif. before returning to Littlefield two years ago.

The grocery store had recently been re-arranged and new equip-

ment added including a new help-

selfy dairy case. In charge of the market at this grocery is Clyde Hudson, who has many years experience in this line, and has long been recognized as an outstanding market man, who knows good meats, and who does not attempt to sell anything but the best in meats.

Also assisting Mr. and Mrs. Brock in the operation of the store are their son Stephen Brock, and Dean Clark, both high school boys, who are working after school and on Saturdays.

Mr. and Mrs. Brock state they will endeavor to give the same friendly and efficient service enjoyed under the Doss regime, and invite all their friends to visit them for their food needs.

To Select 21 Members to State Board Education

Voting To Take Place in County Court House

Wednesday, November 9th, a special election in Texas will be called for the purpose of naming 21 members to the State Board of Education, to elect four legislators and to vote on ten proposed constitutional amendments. This is the largest special election ever to be held in Texas.

More constitutional amendments are presented than in any previous presentation. Ten will be on the ballot this year. In 1947 there were nine.

The outstanding amendments are—The raising legislator's pay and for annual sessions, permitting women to sit on juries, and trial of lunacy cases without a jury trial.

One member of the newly created Gilmer-Aiken education board will be elected in each of the 21 congressional districts. After this special election the board members will be regularly elected with preceding primary nominations which require majority selections. Members elected on November 9 will serve until Jan. 1, 1951. After that time all 21 districts will again elect members in 1950 but the first seven will serve two years; the second seven, four years; and final seven six years. Votes for the members and for the ten amendments will be counted by the State Canvassing board on Nov. 23.

Within ten days from that date Secretary of State Ben Ramsey will issue his call for the school board to have its first session when it will formally organize. The law says it shall adopt rules of procedure, elect a chairman, vice-chairman, and secretary to serve such terms as the board may prescribe.

IF A LAMP CARRIES
THIS TAG

IT'S GOT TO BE GOOD

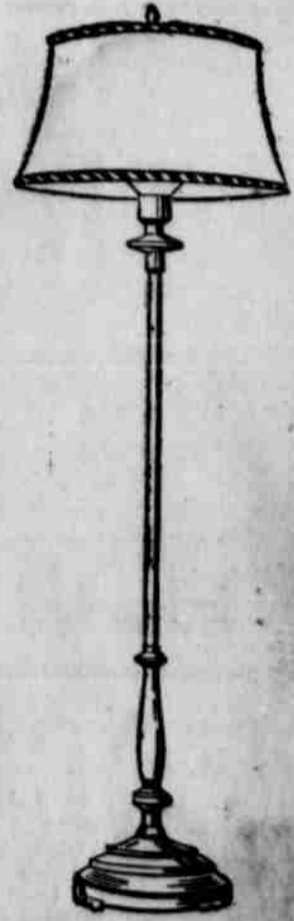

The appearance of the "Certified" tag on any lamp, of any type, assures you that the lamp has been submitted to rigid testing by an impartial testing laboratory. It assures you that the manufacturer of that lamp, one of over 100 leading American companies, has submitted his product to a complete test.

For example, the laboratory has determined that the switch will operate efficiently. It has ascertained that the cord is at least seven feet long, has a certified plug, to assure safety. The lamp itself is properly weighted to resist tipping, and of a finish which will ordinarily resist scarring or marring.

And above all, the "Certified" lamp has an exclusive new type reflector which will gain the most light from the bulb, and apply the light correctly for the use for which the lamp has been designed.

The next time you buy a lamp, make sure it is "Certified." Inquire at your favorite store for this new lamp.

'ALMOST PERSUADED' SUBJECT OF REV. H. A. HECKMANN

The "Almost Persuaded" Christians are the church's greatest enemy, Pastor H. A. Heckmann declared last Sunday morning from Emmanuel Lutheran's pulpit.

Basing his remarks upon the incident in Agrippa's life who admitted to Paul that he almost persuaded him to be a Christian, the speaker gave sufficient evidence that such people, the almost persuaded, were both inside and outside the Christian church. Though the difference between the lip and life confession of many nominal Christians is responsible for some of these almost persuaded people, yet in the end the almost persuaded will be held responsible for their own position when face to face with the Great Judge. A plea to those in attendance to use Word and Sacrament diligently, brought to an end this message which boils down to this, that almost persuaded is altogether lost and altogether persuaded is altogether saved.

Literary Department Of Woman's Club To Sponsor Plantation Dinner Nov. 15

A real treat is in store for all who attend the Cotton Program and Plantation Dinner, being sponsored by the Literary Department of the Woman's Club, to be held at the First Methodist church, Tuesday, November 15th.

The program will begin at approximately 10:30 o'clock in the morning. No admission will be charged. All school children and faculty members have been extended a cordial invitation.

The exhibits will consist of products made from the cotton plant, including some of the newer discoveries of research, which will be attractively and cleverly arranged. Mrs. W. D. T. Storey, chairman of the hospitality and publicity committee, said Saturday.

Tickets for the Plantation dinner, to be served at 7:30 p. m. in the dining room of the Methodist church, will go on sale in the near future. They will sell for \$1.50 each and only two hundred will be offered, due to the limited seating capacity of the dining room. However, show visitors are welcome at anytime during the day and evening.

Banquet guests are asked to assemble in the main auditorium of the church, where they will be entertained with a brief organ program of southern melodies.

Following the dinner, Mrs. Roy McQuatters, sr., will speak briefly on "King Cotton, the Benevolent

Monarch." She is chairman of this festive occasion, and is well qualified to bring an interesting talk. She has long been interested in cotton, and has made a deep study of her subject. Mrs. McQuatters, with her husband, attended the National Cotton Council held in Los Angeles, California, last March, and in July they attended the Cotton Research Congress held in Dallas. In 1937 the McQuatters family was awarded the Master Farmer Family Award, given by the extension service.

Mrs. A. B. Brown, chairman of the Literary department, will act as toastmistress.

Also, following the dinner, an interesting feature of the program will include a style show, when twenty-five smart dresses will be modeled, made entirely from the lowly "feed sack", or more modernly called "Cinderella Sacks", revealing possibilities of cotton in its lowest form. The entire wardrobe is being furnished by the National Cotton Council of Memphis, Tenn., and styled by the McCall Pattern corporation.

Plate favors and table decorations will be of cotton, to fit into the colorful decorative scheme.

The proceeds from the dinner will go into the general fund of the Woman's Club treasury to be used toward building the new club house.

Cats Loom As "Team To Beat" For 4-A North Title

Hale Center Owls Crowding Olton For District 3-B Honors

Olton's hard-running Mustangs are at the top of the District 3-B standings, but Hale Center's never-say-die Owls still are in position for a last-ditch defense of the title they won last year.

Olton took over top spot last week by shattering Dimmitt's undefeated record, 13-0. It was the fifth successive conference win for Coach T. M. Cox's Mustangs, who haven't been beaten since they lost to Class A Andrews at the start of the season.

Hale Center, plugging steadily along under Coach Ralph Huntington's direction, racked up its fourth straight district victory by thumping Amherst, 18-6.

Dimmitt's loss dropped the Bobcats to third place, a notch ahead of still-dangerous Anton.

Both Olton and Hale Center face tough assignments this week. The Mustangs journey to Farwell, while the Owls entertain Springlake. While Farwell and Springlake each have absorbed two conference defeats, neither falls in the "breather" category.

In other games this week, Dimmitt is at Anton, Friona at Whitharral and Spade at Amherst.

Pickin' 'em

By JIMMIE CHAPMAN

Last week we were "lucky" in our pickings. We pulled two upsets that we really didn't expect to win. We picked Sudan to beat Levelland and Olton to upset the strong Dimmitt Bobcats. All we could hear Thursday and Friday were complaints from our "fans." When Saturday rolled around we didn't hear a word from anybody.

SUDAN OVER MORTON.—The Hornets will keep their records clean. It looks now as though the Littlefield-Sudan game will decide the North Half race.

MULESHOE OVER SUNDOWN.—Muleshoe will be after their first conference victory, and should get by the Roughnecks easy. The Mules have a three win, three lost record so far this season.

LEVELLAND OVER BROWNFIELD.—Those Lobos will take this one easy. They still have an outside chance for a tie for the district championship and will want to keep their record as clean as possible.

POST OVER SNYDER.—The Antelopes have only Slaton to beat to win the South Half again and they have another good team this year, after getting off to a slow start.

OLTON OVER FARWELL.—Coach T. M. Cox's Mustangs will have a tough time at the border city, but they are intent on keeping their district lead intact. The Steers may give them a rough go of it.

SPRINGLAKE OVER HALE CENTER.—The Wolverines are going to spoil the Owls' hope for another district championship. Too much power in the Barlow to Smith combination for Hale Center to stop, and the Wolverines have a line to hold the light Owls away from their goal post.

DIMMITT OVER ANTON.—Coach John Blaine's Bobcats will be on a terrific rebound from last week's loss to Olton. Should be one of the best games in District 3-B this week.

FRIONA OVER WHITHARRAL.—Chiefs all the way as the Panthers will taste another defeat.

AMHERST OVER SPADE.—One of these teams are going to get into the win column for the first time this year. The Bulldogs have a better offense, but the Longhorns have them better in the line.

Mr. and Mrs. John Nail and children, Susan and Randy, left Saturday afternoon to spend the weekend in Wichita Falls with his parents, returning to Littlefield Monday.

LAST WEEK'S RESULTS

Littlefield 48, Muleshoe 0.
Sudan 26, Levelland 7.
Slaton 12, Morton 0.
Post 70, Tahoka 0.
Olton 13, Dimmitt 0.

Wildcats Gain Easy 48-0 Victory Over Muleshoe Yellowjackets

The Littlefield Wildcats won their second conference game of the season Friday night when they defeated the Muleshoe eleven by an overwhelming 48 to 0 score.

It was Muleshoe's second conference loss and it virtually eliminated them from the 4-A North Half race. They had lost to Sudan two weeks earlier, 15 to 0.

Littlefield kicked off to Muleshoe to start the ball rolling. R. E. Bryant took it on their 10-yard line and ran it back out to the 29-yard line before he was met by a hard-charging Wildcat line.

They lost two yards in three plays and were forced to punt. Brock took Goss' punt on his own 35-yard line and ran it back to the Yellowjackets 28-yard line before he was knocked out of bounds.

Littlefield was forced to give the ball up on downs to the Yellowjackets on their 17-yard line. Muleshoe again had to punt and this time it was a high punt that went out on their own 39-yard line. From there the Cats moved the ball on power plays by Gage and Bailes to the three-yard line. Bailes fumbled and Muleshoe recovered on the two-yard line.

On the first play, they punted and it was blocked in the end zone to give the Cats their first two points.

Early in the second quarter the Cats finally caught fire and Tommy Bailes ran 40 yards behind good blocking to score the Cats first touchdown. Bailes also tried to run the point over, but was stopped at the line.

Late in the same period, Tommy Bailes "made up" for his fumble

when he recovered Goss' fumble on the Littlefield 40-yard line.

Gage gained two yards and a pass from Crossley to Edwards moved it to the middle stripe. Bailes then circled right end and ran 50 yards to score standing up. Gene Renfro, "The Line Wrecker", smashed over for the extra point to put the Cats ahead, 15 to 0.

Just before halftime, after Goss' bad punt went only 10 yards and out on the Yellowjackets 30-yard line, Bailes again ran over another touchdown.

Renfro ran the extra point over to give Littlefield a 22-0 lead at half time.

Littlefield took the second half kick off and moved downfield in a series of power plays before the drive bogged down on the Muleshoe 20-yard line. Muleshoe again was forced to punt. Brock took the punt on his own 25 and carried it to the 50 before they drove him out of bounds. The Cats moved the ball to the Yellowjackets 20-yard line, featured by a screened pass from Crossley to Renfro good for 20 yards. Tommy Bailes circled left end for the remaining 20 and the touchdown. This time Frank Gage ran the extra point over.

On the first play Muleshoe punted, after taking the kickoff, Tommy Bailes intercepted Ed Nichols' pass and raced 40 yards to score again. Gage again ran over the point and this gave them a 36-0 lead.

In the middle of the final period, Frank Gage took a pass from Donald Crossley and ran 11 yards to score. The try for point fizzled when Bailes was stopped at the line.

Late in the final quarter, the Cats scored their last touchdown when Bailes scored his fifth touchdown of the night on an end sweep that was good for 35 yards. Crossley's kick was no good, and Littlefield was in the front of a 48-0 score.

The Wildcats showed better spirit this game than they have all year. All the plays were ran good but the most spectacular bit of football playing of the night was the good downfield blocking that the Cats gave their runners. This was what really enabled the long runs and scores. There were no "stars" as the whole team worked like a clock to roll up the 48 points.

Undefeated Owls Win In Bulldog Tilt

Hale Center preserved its perfect District 3-B record Friday night at Amherst by downing a hard-fighting Amherst eleven 18-6, before approximately 1000 fans.

It was the fourth straight conference win for the Owls. Amherst scored early in the game when it took the initial kickoff and in three plays crossed the double stripe.

The visiting Owls came to life with a bang and promptly scored the first of their three touchdowns. The other two Hale Center scores came in the third and in the fourth quarters.

W. T. State to Play Hardin-Simmons Saturday Afternoon

When West Texas State Teacher's College and Hardin-Simmons play football at Canyon Saturday afternoon, November 12th, Littlefield High school band will perform during the half.

Don Hays and his 80-piece band have been extended an invitation by Hardin-Simmons band director, to take their place.

ATTEND DISTRICT CONFERENCE AT RHEA LAST WEEK

Emmanuel Lutheran's pastor, the Rev. H. A. Heckmann accompanied Pastors Reber from Lamesa, Riske from Sparenberg, and P. Heckmann from Wilson to Rhea, Texas, where the fall conference of part of the Texas district was held last Tuesday through Thursday. The conference program stressed the private life of the pastor and through papers and discussion every effort was made to help the leader in the congregation to become more spiritual, to walk closer to God. Also the two subjects, "The Means of Grace" and "The Call of A Pastor" came up for consideration. Host pastor was the Rev. Ed Lichtman.

Sudan Hornets, Tied With Local For First Position in North Half, Is Strong Contender For Crown

The Littlefield Wildcats and Sudan Hornets are the only teams that remain undefeated in conference standings.

The Levelland Lobos fell to Sudan last week to the tune of 26-7 and have now only a chance at a tie for first place. They still have Littlefield and Muleshoe to play in conference games.

Sudan has Morton, Sundown, and Littlefield left in that order. Morton, Sundown and Muleshoe are virtually eliminated with already two conference losses out of two starts.

Littlefield "Team to Beat" Littlefield now looms as the "team to beat" in the North Half as they defeated the Muleshoe Yellowjackets 48-0, on their home field. Sudan, two weeks earlier, defeated the Muleshoe team by a score of 15-0 with the help of two blocked punts in the end zone.

Littlefield has three remaining conference games. This week they rest, then they take on Sundown, Sudan and Levelland in that order to finish out their regular schedule.

Friona Is Downed By Springlake

Springlake High school rolled to an unexpected easy 25-7 victory over the Friona Chiefs at Springlake Friday night before 500 fans in a District 3-B conference game.

The Wolverines scored in every quarter, although making eight first downs the same as Friona, Springlake power in the line proved the difference.

Junior Smith scored two of the winner's touchdowns, although his finest effort, a 75-yard punt return, was stopped short of a score when he was hauled down from behind. It set up a touchdown, however. J. J. Barlow passed 42 yards to Smith for the second touchdown by that back.

Barlow also found his way to payoff territory when he ambled 20 yards and Roy Dale Underwood brought the scoring to an end with a 12-yard jaunt that capped a sustained drive.

The lone Friona score came when Tommy Laceywell went 60 yards for a tally and then converted.

Earl Jordan, Springlake tackle, was the outstanding linesman on the field, while Laceywell was the top Friona player.

EARTH GINS HANDLE 531 BALES COTTON

According to the records of the three Earth gins, 531 bales have been ginned to date. A vast amount of cotton is open in the territory and harvesting is delayed for want of labor. It appears that the usual influx of Mexican labor is retarded by the excessive crop farther south.

Sudan Hornets Outclass Favored Levelland Lobos

A free-passing, hard running Sudan eleven outclassed the favored Levelland Lobos, 26-7, before an estimated 2,500 chilled spectators in Maston stadium Friday night.

The victory moved the Hornets into a two-way tie with Littlefield in District 4-A North.

Sudan, behind only once after 100 powered across its first touchdown in eight minutes of the opening quarter, wound up a tight first-half leading 12-7 after another tally in the second quarter, then moved on to demoralize the Lobos with another seven points in each of the remaining stanzas.

Lobos Score in First Period The Lobos lone touchdown came in the end of the first period when Left Halfback Perry Heard skirted right end for 24 yards. Coach Truett Rattan's charges set up the score when Quarterback Dee Winsor returned a Hornet punt to his own 40. Heard and Winsor split-

ting the distance between that point and the Sudan 24 with a series of end sweeps. Heard kicked the point.

Sudan returned the ball to its own 30-yard on the opening kickoff keeping possession for 70 yards, and the first six points of the game when Wing Back Clifford Johnston went over from the five with a pass from Tommy Sherrill. Fullback Ross Hammock's kick was no good.

The Hornets added six points shortly before the end of the half when Hammock went over from

the one. Hammock's kick again went wild.

Heavy Scoring in Second Half In the second half, it was the Hornets all the way. Coach F. M. Smith's boys traded punts with the Lobos, then settled down to a passing and running attack which sent Hammock over from the five-yard in the third period, and Sherrill across from the 25 late in the fourth.

A run by Hammock and a pass from Sherrill to G. W. Maxfield counted for the conversions.

Sherrill and Hammock in the backfield and Buddy Wiseman, Buddy Whitmore and Ballard Montgomery in the line starred for Sudan, while Backs Perry Heard, Dee Winsor and Don Wise handled their assignments well for Levelland.

The game ended with Levelland on the winners' 15-yard line.

CHRISTIAN SCIENCE SERVICES
 "Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 25.
 The Golden Text is: "Thou, O

Lord, remainest for ever; thy throne from generation to generation" (Lamentations 5:19).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Remember the former things of old: for I am God, and there is none else; I am God, and there is none like me" (Isaiah 46:9).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Let us learn of the real and eternal, and prepare for the reign of Spirit, the kingdom of heaven—the reign and rule of universal harmony, which cannot be lost nor remain forever unseen" (page 208).

STAYS SILENT... LASTS LONGER

Serval
 The GAS Refrigerator

Every year, more and more families are choosing the Gas Refrigerator. Women like its new time- and work-saving features. Men appreciate its simpler, different freezing system. And both agree that Serval's lasting silence and longer life are benefits they want this time.

Serval stays silent, lasts longer, because it operates without a single moving part. There's nothing in the freezing system to wear or cause noise. A tiny gas flame does the work. That's why many of the almost 3,000,000 Serval-owning families report that their Gas Refrigerators are still noise-free and worry-free after 15, 18 and even 20 years.

You'll find every latest convenience in the beautiful new models. A big frozen food compartment, plenty of ice cubes, dew-action vegetable fresheners. Come in today. See Serval for yourself—the choice of people with experience!

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry; irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Age Problem Serious Matter South Plains Farmers

South Plains farmers have one of the most serious problems in the state. It is the age of their milo crops. The problem is acute because the farmers have no adequate storage facilities. The elevators and the railroads are profit losers in the present situation, the real problem is the farmer.

get box cars to ship off the supply that's already in the elevator.

One of two alternatives is left the farmer. He can take the milo home and dump it on the ground or he can leave it at the elevator to be dumped on the ground.

If he takes the latter course, the farmer has to wait until the milo is moved into the elevator before he can get a bonded warehouse receipt.

While he is waiting, his crop deteriorates and lessens the grade price he will receive eventually.

A good rain will increase the moisture content and then he will really have a hard time finding an elevator to take his milo.

But then the farmer's troubles are only beginning. His banker asks him about current loan payments. His crop is in, so why can't he pay, the bankers reason.

The farmer then has to explain he can't get his Commodity Credit corporation payments without the bonded warehouse receipts. The banker calls the elevator operator who explains he can't take the crop until he has emptied his elevator and that he can't do that until he gets some box cars.

Then the elevator operators contact the local freight agents. It all makes for ill feelings and doesn't help anybody's pocket book including the salegirl who isn't making any sales to the farmers.

George Hopp, manager of the Tullia Wheat Growers Co-operative Farmers elevator, says Swisher county alone has an estimated 135,000-acre crop with an average acre yield from between 2,500 and 3,000 pounds of milo.

His 330,000 bushel capacity elevator was already half filled with wheat before it was quickly filled with milo. That means a large portion of the \$7 million crop is lying on the ground in Swisher county.

"The railway isn't supplying a tenth of our current box car needs," Hopp said. "Something is going to have to be done with-

HOME WITNESS HOME . . . Denver millionaire Henry M. Blackmer, who fled to France 21 years ago to avoid testifying as government witness in Teapot Dome scandal, was revealed to have returned to the U. S. recently, supposedly to enter pleas to five indictments returned against him in 1928.

In a few weeks," he added. In similar shape is Harold King, an elevator operator at Muleshoe. He says the situation is the same at Morton, Levelland, Littlefield, and Amherst, "where 25 car lots are stacked on the ground."

"We just can't get transportation," King said.

However, the Ray C. Ayers elevator at Slaton is in good shape. "We haven't had much of a crop here," he says, "and we are increasing our storage facilities."

Many farmers would be glad to make use of Ayer's storage facilities but can't afford the high transportation costs of trucking.

E. G. Farr, assistant district attorney, says farmers can't afford to use trucks because it eliminates their profit. Shipping by rail is much cheaper," he added.

H. O. Wagner of Slaton, Santa Fe division superintendent, admitted it was true "the division is short of box cars."

He said many of the division's box cars are in the East and that it has been difficult to get them back because they are rented to other railroads on a per diem basis "and some of the lines find it cheaper to pay rent on our cars than repair their equipment."

Wagner estimated his division is 200 cars short. "But we will get

our cars back in due course of time," he added. He did not answer a charge by the elevator operators that 900 cars had been taken from the division recently but insisted that the report was a rumor.

"We are just as anxious to provide shipping facilities," he declared, "as anyone else because it will mean more division earnings and more employment of crews in the area. It's just an unfortunate situation," he added.

And most milo farmers on the South Plains agree.

Olton Postal Receipts Show Large Increase

Postal receipts for the Olton postoffice for the third quarter of the year, July, August and September, showed an increase of 22% over the corresponding period for 1948.

Receipts for July, August, and September 1949, were \$2,380.00, while receipts for the same months in 1948, were \$1,960.00.

While July, August and September is supposedly the quiet period and receipts are supposed to drop the fact is that the receipts were highest of the year during that time as during the first quarter, January, February, and the month of March receipts totaled \$2,027.00, and the second quarter, April, May and June, receipts were \$1,999.00.

This is another indication that Olton is in a healthy growing condition.

Gene Lee Slover, 14, son of Mr. and Mrs. H. L. Slover of Whitharal was released from the Payne-Shotwell hospital Saturday after being a patient since the previous Wednesday suffering from bronchial pneumonia.

BULL LAKE PHILOSOPHER ISN'T WORRIED OVER CHANCES OF SCIENCE MAKING STEAK OUT OF PULP WOOD

Editor's note: The Philosopher on Bull Lake Johnson grass farm on Bull Lake has been reading the newspapers again, his letter this week reveals.

Dear editor:

I picked up a copy of a newspaper out here yesterday afternoon out of force of habit and when I noticed a headline about atomic energy I started to put it down as I have a rule now against reading

about Atomic energy oftener than once a week, it's like eating cornbread three times a day, you can get enough of it, but since I ain't prejudiced against gettin in a rut, in fact I've been in one most of my life and have noticed most folks who claim they're gettin out of one are merely climbin over into another, I kept the paper and sat down and read where some scientist who got tired of his laboratory and wanted in the newspapers claims in the future a handful of atomic energy will run a ship across the Atlantic ocean two of three times, and all the present

sources of fuel will be obsolete. A man with an oil well will be about like a farmer with a gyp-water well. Not so long ago I read where scientists was working on a formula that would duplicate a T-bone steak without having to cut it from a steer, and from time to time I've read other claims about how simple life is gonna be when the scientists stop talkin and get down to work. One claims a teaspoon full of atomic energy will do all the work around a farm for a whole year.

Now my neighbor has a tendency to believe all this, and while it may be handy to use as an excuse for not working, after all no use raisin cattle if science is gonna make steaks out of pulp wood, no use plowin if you can get it done with a pinch of atomic energy. I personally ain't being swept off my feet.

In the first place, talkin about manufacturin a steak as good as one from a fat steer is one thing and doin it is another, just like runnin a ship or a plow with atomic energy is one thing in the talkin stage but something else when it comes to actually doin it and I ain't heard of anybody lettin his cattle die off because they was obsolete or gettin any plowin done with atomic energy, and in the second place a thinkin man doesn't have to wait on science to avoid work. I been doin it successfully for years out here, long before anybody split an atom.

Yours faithfully, J. A.

Cotton Control Program Seen

The government, which holds a \$550,000,000 cotton surplus, proposed a rigid control program last Thursday designed to cut 1950 production at least 20 percent below this year.

The program would include acreage planting allotments and marketing quotas.

Cotton held by the government was acquired under grower price support programs. It represents supplies from 1948 and 1949 crops not needed by the market.

The quotas must be approved by at least two thirds of the growers voting in a referendum before they can be put into effect. Growers will vote Dec. 15.

Proposed by the agriculture department, the program would seek to hold next year's crop to about 11,733,750 bales compared with 15,446,000 produced this year.

The control program would go as far as the law permits in restricting production. It sets a national planting allotment of 21,000,000 acres and would limit penalty-free sales to the amount grown on those acres, providing, of course, growers voted for quotas.

By comparison, farmers planted about 26,380,000 acres this year.

If quotas are approved, growers will be free to sell all the cotton they produce on their planting allotment. Cotton grown on excess acres would if sold, be subject to a penalty tax equal to half the June 15, 1950, parity price of cotton. At present parity rates, the penalty would be about 15 cents a pound, or slightly more than half the market value.

The 21,000,000 acre planting allotment will be divided among cotton growing states and counties and then apportioned among individual farmers on the basis of formulas in farm laws. These formulas take into account past planting by individual farmers and recent trends in state acreages.

The referendum will be held in all cotton producing counties of these states. Only farmers producing cotton this year will be eligible to vote. Any person who had an interest in the 1948 crop as owner, tenant or sharecropper may vote.

The department is required by law to propose marketing quotas whenever the cotton supply exceeds what the law describes as the "normal" supply for the marketing year ahead. The normal supply is the quantity estimated to be needed by the market plus a reserve.

The department said current supplies are about 27 percent above

normal. The department said its state and county production and marketing administration committees are now compiling information on which to base individual farm acreage allotments. It said each farm operator should receive his individual allotment before the referendum date.

South Plains Cotton To Reach 1,600,000 Bales
 Weekly report of K. N. Anderson, Clayton & Co., is that this year's cotton will be 10 to 15 percent above his Sept. 1 prediction of 1,400,000 bales.
 The first freeze usually occurs between Nov. 3 and 10. The precise average date is Nov. 10. But they have occurred as early as Oct. 19 and as late as Dec. 5.
 Clapp said, however, that the date of the freeze this year probably is more important than ever before in the history of the South Plains.
 Much of the cotton is late—particularly so in irrigated areas which comprise about 600,000 of the 2,750,000 acres planted in the staple in the area this year. The lateness of this crop is attributed chiefly to excessive watering. In large areas, fields have been soaked with rains too soon after they have been irrigated.
 The result is that the cotton in many of these fields still is maturing. Stalks are laden heavily with green and immature bolls. Until the first freeze occurs, these bolls will continue to grow and fill with cotton. Given enough time, the bolls will fill with staple.
 But the freeze, whenever it occurs, will bring growth to a standstill. An early freeze would mean, on many thousands of acres, that the stalks would bear many bolls, but not much cotton—and the cotton would be inferior grade.
 In short, Clapp said, the difference between an early and late freeze will be many millions of dollars to the South Plains.

DIVIDEND RATE CLOSED BY VA

to information from capital, every veteran who took out National Life Insurance before he will receive as his \$2.5 billion dividend, \$1,000 per month for each \$1,000 carried, up to a maximum of \$5,500 for each individual veteran.

Multiply the number of months premiums were paid, counting only up to the month in 1948 which was the anniversary of the month insurance was issued in any prior year, by 55, then multiply the result by a figure representing the amount of insurance carried.

If a veteran carried a \$10,000 policy he would receive as a dividend \$5.50 for each month the policy was in effect; or if he carried only \$2,000 insurance his dividend would be \$1.10 per month; \$3,000 policy would be \$1.65, and so on up to the maximum of \$5,500 for \$10,000.

Mailing of dividend checks will begin early in 1950.
