## HIGH-UP MASONS VISIT HERE FOR SPECIAL MEETING

Wilbur Keith, ex-secretary of the Masonic Service and Educational Committee, of the Texas Grand Lodge, J. W. Howerth, assistant secretary of the same committee, and R. D. Woodlee, district deputy of the 97th district, grand lodge, from Dimmitt, were here last Thursday afternoon and evening for special services with the local Masonic lodge.

In the afternoon a special meeting was held in the Masonic hall, at which time Mr. Howerth gave a very instructive and interesting address on the "Antiquity of Masonry," showing its origin to have been back in the early Egyptian days and later revived during the time of King Solomon, of the Jews. His remarks on what it constitutes to be a Mason and the great work that is outlined for members of this organization were especially pertinent.

At night a meeting was held in the high school auditorium with addresses by these gentlemen, and a showing of moving pictures of some of the work done by this particular committee. The pictures of the humanitarian work being done in the various homes and hospitals maintained by the Masonic order were especially interesting.

## CACTUS CLUB MEET.

The Cactus club enjoyed a meeting at the home of Mrs. C. W. Phillips last Friday with Mrs. Phillips and Mrs. C. J. Duggan as hostesses.

The decorations were beautiful yellow nasturtiums. After several interesting games of "42" with Mrs. W. H. Gardner high score winner, a delightful frozen fruit course was served to the following: Mesdames C. P. Baker, A. J. Barton, T. Y. Casey, B. L. Cogdill, S. J. Farquhar, W. H. Gardner, W. W. Gillette, Chas. Harless, A. G. Hemphill, J. C. Houk, C. O. Stone, D. C. Houk, H. G. Scoggins, M. M. Brittain, J. T. Elms, S. N. Davis of Snyder, T. L. McMillan of Dallas and the hostesses.

The club will meet at the home of Mrs. W. W. Gillette. Mrs. Gillette and Mrs. S. J. Farquhar will be hostesses.

Anemic children need iron-rich foods. Give egg yolk, prunes, rasins, orange juice, and green vegetables, especially spinach, as often as possible. Liver has been found especially valuable to persons having such trouble.

## LAMB COUNTY'S FAIR BLANK IN

Lamb county has sent in her entry blank for the county exhibit department of the Panhandle South Plains Fair with the word that crops in that county are the best they have ever been and that she are expecting to rank with the best exhibits when the exposition opens September 29.

Crops are excellent, according to Gus Shaw, of Littlefield, who was here Friday afternoon and the exhibit committee is now busy gathering the specimens for the fair. The committee is urging all farmers and stock raisers to enter their agricultural exhibits and their livestock and poultry in the individual exhibits of the fair.

Littlefield will attend the fair in large numbers again this year, Shaw stated Friday.—Plains Journal.

## WHITEFACE AND LEHMAN TO GET SCHOOL BUILDINGS

The attorney general last Saturday approved the issue of \$60,000 school bonds for Common School District No. 5 of Cochran County. District No. 5 comprises the territory around Lehman and Whiteface and the proceeds of the bond issue will be divided equally between those towns for the building of a school building at each place.

Architect Butler of Lubbock has prepared plans for the building at Lehman and Glenn of Littlefield is handling the plans for the Whiteface building. It is understood that operations will begin soon on both of the buildings.

Trustees Arthur Adams, J. W. Robinson and W. E. Angley are to be complimented on the sale of the bond issue, having received therefor par plus a premium of the expenses of the issue and three thousand dollars. Both these towns are to be complimented on their enterprise in providing good school buildings for the children of their respective communities.—Morton Monitor.

WASHINGTON, D. C.—Walter B. Lang of the U. S. Geological Survey has completed field investigations of the potash deposits of West Texas and has published his findings in a bulletin just issued by the Department of Interior entitled "Potash Investigation in 1924." This bulletin contains highly interesting and instructive information and may be obtained by writing the Department of Interior thru the congressman.

Don't be disappointed with mail order houses.

## ACTIVITY IN OIL IS NOW GROWING AROUND MORTON

Considerable activity continues in Cochran county looking towards the testing of the county for oil. Several "lease hounds" have been in the county during the past week and negotiations are reported of several contracts for tests to be made.

It is reported that a test will probably be made in the vicinity of the southwest part of the Maple Wilson ranch. This is to be procured by a combination contract on a part of the Wilson ranch and on the Figure Four Ranch. Reports are current that the Enoch interests are negotiating for a test north of Morton. And Morton J. Smith was over Monday contracting acreage for a test in the immediate vicinity of Morton.

The Whicker No. 1 near Bledsoe is now rigging up preparatory to spudding in a well in the near future. The Gulf Production Company is rigging up for drilling on the Yellow House lands near the old headquarters place. It is also reported that C. C. Slaughter is considering a test on his land lying adjacent to the town of Morton. It now looks as if this year will see a pretty thorough test of the possibilities for oil in Cochran county.—Morton Monitor.

## HELP "WIDOW WOMAN."

Mrs. Doc Miller was the recipient of a handsome vanity dresser last week, the gift of Mayor L. R. Crockett and members of the Littlefield fire department.

Her innocent and unsuspecting husband was prevailed upon to unload a truck full of oil barrels and lend the assistance of himself on a truck toward delivering the choice piece of furniture to a "widow woman" living in the southwest part of town. As he passed his own home, a bunch of the fire boys held him up at the point of a fire nozzle, advising him this was the residential place of the supposed widow.

Following the presentation speech a good social time was enjoyed and refreshments served by the "widow."

WHEELER—A fact that was generally overlooked in connection with the recent Eighth Annual Convention of the West Texas Chamber of Commerce was the fact that the Wheeler band was the youngest band at the convention, yet playing under the same conditions and before the same judges as the older organizations, won the gold medal offered for highest score.

## SCOUTS TO TAKE TRIP.

Boys Will Visit Carlsbad Cave and White Mountains.

Local boy scouts are planning a vacation trip to the White Mountains in New Mexico, with a trip to Carlsbad cave, according to Scoutmaster Ross White. Just when the trip will be started has not yet been fully decided, but some time within the next three or four weeks.

White states that one of the requisites for the trip is that every boy making it must first qualify as a second class scout, and also earn \$10 for the expense fund of the trip. Just how they can earn that "X" spot is up to the boys, and he says they are willing to chop cotton or do most any kind of work they can obtain.

The boys will make the trip in school trucks and be accompanied by Mr. White and Prof. F. O. Boles.

## COCHRAN CO. RAIL ROAD COMMITTEE IS PROGRESSING

The Chamber of Commerce Railroad Committee this week received a strong bid from Goodland for the building of the railroad through Morton and northwest. Goodland and its community is up and on the job and promise to make somebody talk turkey or let them have a share in the benefits of the new line.

McCleby Brothers, of Temple, owners of the Figure Four Ranch, have placed their names to an offer of a townsite of 514 acres of land and a bonus of one dollar per acre of all lands within a certain distance of the line. A townsite of 514 acres of well located and beautiful land is no mean offer to a railroad company. Situated as Goodland is, a fine town could be built with the railroad to help in the development of the community. It is located in as fine a section of farming lands as will be found on the South Plains. It is 20 miles from Morton, 22 miles from Bledsoe, 40 miles from Littlefield, and 30 miles from Muleshoe and Sudan.

The townsite offered by the McCleveys will make over three thousand and good sized town lots. Three thousand town lots in a new and growing railway town would be a neat bonus for any railroad. To this, however, the people there add the dollar per acre on the lands in cash.

The railway committee hopes to be able to lay a concrete proposition before the Santa Fe company on or before August 1st, and are confident that if the people will stand together and squarely behind the proposition the road should be built soon.—Morton Monitor.

## AMHERST GIVES BANQUET.

Local Fire Boys are Entertained by a Neighboring City.

Members of the Amherst fire department gave a banquet to the Littlefield fire boys last Friday night which was thoroughly enjoyed by all attending.

The banquet came as a result of a victory won by the Littlefield lads over the Amherst fire department in making the quickest hose connection during the Trades Day celebration held there last week. The water fight on that occasion was declared a draw.

There was a good deal of repartee and speech-making, after which the hosts served an excellent dutch luncheon that tickled the palates of all present.

## MRS. GRANTHAM ENTERTAINS.

Mrs. E. M. Grantham entertained with a bridge party Wednesday afternoon at the home of her parents, Mr. and Mrs. D. C. Houk, honoring their guest, Mrs. Blanch Rodgers, of Los Angeles, Cal.

Refreshments of three-and-one ice, fancy cakes and candy were served to Mrs. R. S. Thomas, P. W. Walker, Chas. Harless, Otha Key, B. L. Lindley, Ray Jones, Jimmie Brittain, J. C. Houk, Lawless, Rodgers and the hostesses.

Mrs. Key held high score, winning a large box of bath powder.

Buy it in Littlefield.

## TECH HAS STRONG TEACHING FORCE FOR COMING YEAR

LUBBOCK, Tex., July 14.—Eighty-six instructors, all with high degrees and with many years of experience are included in the list of professors for the second year of the Texas Technological college which will begin September 23, according to Dr. Paul W. Horn, president.

The school opened its initial year last fall with a staff of forty-six professors, but when the 1,043 students began crowding the class rooms of the new college, the faculty had to be increased in order to give the students proper attention.

The faculty and board of regents of the Tech are expecting from 1,500 to 1,750 students this year and in selecting the staff of professors to give them instruction, the best teachers available were secured.

Among the faculty, we find twelve with Ph.D. degrees; 46 with master of arts degrees and only 9 with bachelor of arts degrees.

Every student who enrolls in the Tech will have as good a staff of professors as can be found in any college in the Southwest to give him instruction. The July illustrated summer bulletin will be off the press in the next few days, according to Dean J. M. Gordon and will be sent to all of last year's students and to high school graduates over the entire state.

## POLITICAL RALLY IS ATTENDED BY 5,000 VISITORS

The big political rally held at Littlefield yesterday went off in tip top style, people gathering here for many miles around, until by 2 o'clock in the afternoon it was estimated there were fully 5,000 guests enjoying the various functions of the occasion.

At the noon hour there was a big basket dinner on the grounds, and barbecued chicken was served gratuitously to the guests. There was a carnival company here that furnished plenty of diversion and entertainment, there were numerous concessions of different kinds on the grounds, there were doll and cane racks, shooting galleries, and numerous other stunt features. There were several racing events, a baseball game between Littlefield and Plainview teams, the score being 8-4 in favor of Littlefield, and a football game between members of the local high school and fire department, playing to a draw.

In the afternoon there was plenty of speaking, candidates for various county and district offices presenting their claims for office to the voters present. There were also speakers for Mrs. Jim Ferguson and Dan Moody, candidates for governor.

It was a jolly day throughout with nothing to mar the pleasure of the occasion, just such a day as will serve as a standing invitation for the people of surrounding communities to want to come to Littlefield again when she advertises another similar event.

## GIVES BRIDGE PARTY.

Mrs. Pat Boone entertained a number of ladies last Thursday evening at her home in honor of her sister, Mrs. T. H. Wingo, of Las Vegas, New Mex. Three tables were laid for the games, after which refreshments of sherbet and cake were served.

Those present were as follows: Mesdames G. M. Shaw, W. G. Street, F. A. Butler, Earl Hopping, J. M. Stokes, B. L. Cogdill, A. C. Chesher, J. D. Jones, R. C. Hopping, R. H. Wingo and the hostess.

Dr. C. C. Clements and wife have gone to Copperas Cove to attend a family reunion of Dr. Clements' parents. He will return to Littlefield about the 15th of August.

## BIRTHDAY PARTY.

W. B. Phipps, Jr., was surprised Tuesday afternoon by twenty of his friends rushing in and presenting him with a number of nice presents. After several interesting games, ice cream and cake was served.

DECATUR—Wise county farmers will import ewes from Southwest Texas. It is planned to pool several car loads among Wise county farmers and ship them in co-operatively.

Mr. and Mrs. W. O. Stockton spent the week-end at Scrapeout Ranch.

Ed Yelverton went to Abilene to get his wife last Friday.

## EAST TEXAS MAN'S IMPRESSION OF THE SOUTH PLAINS.

I have many friends located all over these South Plains, and a few over the North Plains and Panhandle, from whom I have received glowing reports of this vast territory which they have given the name "Wonderful." Of course I easily believed that a few of the stories told of this country by my various friends, when they visited "the folks" back East, were true; but to believe all of them, never! But they continued to spin their yarns, nevertheless. So this summer, having a few days to spare I wanted to take a vacation. I then recalled those stories of that wonderful Plains Country, and, out of curiosity more than anything else, began to ascertain its altitude to learn whether or not it would be high enough to be pleasant during the hot summer months. The result of my search was that I learned that the height above sea level was easily sufficient to give the Plains Country a much cooler climate than I was at that time residing in. So the culmination of trying to decide which way to go to spend my few days' vacation was that the Plains Country was selected, for I could have the opportunity of enjoying the good climate promised by the higher altitude, and find out if my friends exaggerated about the country of which they had given such wonderful accounts.

After coming to this country and giving it "the once over," seeing the many things that have been done here during the past two to four years, the most excellent school systems, churches, court houses, and the rapidity with which the country is being settled and developed, I decided that, instead of exaggerating, my friends surely left out something.

The rapid development of the rural sections is a doubt dispeller. The number of brick business houses to be built for such a short length of time is astonishing. And the quickness with which roads are built in this country is what an old time Easterner would call impossible. And the hurriedness in which water systems, sewerage systems, light systems and other public utilities have been installed in this western country would prove to anyone that there surely must be some very wide awake people behind its development.

But of all the many rapid changes of the country, none, it would seem to me, impresses the average newcomer as much as do the most modern school systems and church houses to be found on every side. There are no better buildings, or better equipped buildings to be found in the school systems of any part of the state that excel these on the South Plains. And the churches seem to be all that one could desire.

All of these great changes from a vast undeveloped prairie to that of a well developed, prosperous community teeming with many inhabitants has all come about with law and order.

This, it seems to me, is a great country for a man who is looking for a home to come to. As for me, I have as yet no home, but I believe that I will go back East and ask Mollie if she will come to this country with me and we together settle here as partners.

Dr. Nolan T. Barnes returned this week from San Antonio where he has been on the R. O. T. C. medical staff. He is attending the medical department of Vanderbilt University, Nashville, Tenn., and will spend the remainder of his vacation period with his parents, Mr. and Mrs. T. W. Barnes.  
 The Leader is in receipt of a fine, big peach sent by our fellow-citizen, T. S. Sales, now visiting in McGregor. The luscious fruit measured 10½ inches in diameter. Sales advises us that it was the smallest one he could find in his back yard; but didn't have nerve enough to tell us how big the largest one was.  
 Arthur P. Duggan, Jr., sends out an S. O. S. call for a copy of the Leader which his busy dad failed to send him last week. Arthur is enjoying a two months' vacation at Stewart's boys camp, Kerrville. From what he intimated, we think he must be writing a book of his experiences with a second-hand Ford he recently

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

## THE PRIMARY.

Next Saturday the citizens of Texas will be called upon to express their preference for county, district and state officers for the coming year, and it is sincerely hoped that every man and woman casting their ballot will do so with but one purpose in mind, that of voting for the persons whom they believe to be best qualified to fill the duties of the respective offices to which they aspire.

Running the affairs of our State is as big business as there is, and it should have in these responsible offices the very best talent and most capable persons available. No voter should allow personal friendship, sympathy, jealousy or factional feeling to enter into his choice of officials for the coming two years. Our government is a trust, the men who are elected to fill its various offices are trustees, and as such are responsible to the people at large in the performance of their duties.

It is natural that politics will be played by some candidates; but voters should be interested in man of sattenlike qualifications rather than the shallow flamboyant politician. The politician is not to be trusted. He wants the office for personal purposes, the real statesman realizes that the office is an honored gift of the people, and as such, he will respect its importance and give his very best to the satisfactory fulfillment of its duties.

What the people of this state, county and district should want is men in office who will efficiently handle their state, district and county affairs. It is expensive to put men into office who at heart are not sincere and who will not personal aggrandisement above public welfare. Especially in

these western counties, during these days of formation and development it is highly essential that men of character and ability be elected to our public offices. There is but one way to do this, and that is for every voter to be exceeding careful in casting his or her ballot.

## NO ROOM TO KNOCK

Nothing retards the growth, prosperity and advancement of a town like a "knock" from someone who lives in it, and nothing injures a country as much as having it placed in a false light by its editors, authors and public speakers.

Insofar as Littlefield is concerned, we have always preached the doctrine of "move out if the town doesn't suit you." There is no law forcing a man to live in any town he doesn't like and he should keep this in mind when he feels an urge to "knock" that town, or any of its people or institutions. And, so far as the country at large is concerned, the man who is unpatriotic enough to criticize it or its institutions does not deserve the protection the flag affords him.

When we celebrated the Fourth of July this year we celebrated the birthday anniversary of a nation that gave \$2,000,000,000 to help rebuild Europe after the war, and in addition masked off as paid three billion dollars of honest debts that were due us. We give more each year for charity than all the other nations of the world combined, and more to religion in one year than Great Britain gives in five.

That ought to prove we are not "money-grabbers," as other nations contend, and ought to be sufficient to silence the "knockers," just as our local "knockers" will be silenced if

they will take a look at a few other towns before they start in to "knock" their own.

## GET READY FOR FAIR

Now is the time for the various committees of Lamb county to begin planning for the fall fairs and marking and gathering their products for these expositions. Just what kind of fair will be held in Lamb county is not yet known, but it is certain there will be at least some community show-nings.

Several important products are ready to be gathered at this time, such as wheat, barley, rye, speltz, alfalfa, sweet clover, wild and tame grasses may be gathered now or a little later. There is also fruit and plenty of premium garden stuff that should be taken care of for this occasion.

The good season of last fall and the heavy rains of this spring have contributed to putting crops of this section in an excellent condition with fine prospects of making heavy yields. When the time comes for the official "show windows of the Plains" to become effective Lamb county should be there with her products.

## OUR FAVORITE FOODS

Every man in Littlefield doubtless has his favorite dish, and probably wonders why everybody else doesn't like it as well as he does.

It is a difficult thing to please everybody, especially when it comes to appetite, and yet there certainly must be some foods that are in greater favor than others.

These things, according to several thousand restaurant men from all over the U. S., gathered in convention at New York the other day, are apple pie, vegetable soup and roast beef, in the order named. Restaurant people say more people eat these three foods than anything else served in the average restaurant, and they make that statement after checking up on the appetites of millions of Americans.

Now think it over, and we'll wager that in your case, too, at least one of these three foods is numbered among your favorites.

## UNCLE SAM'S ADVICE

In a government report reaching this office we are asked by Uncle Sam to broadcast a little timely advice to Littlefield housewives. So we are giving it here word for word as it reaches us:

"Careful screening of windows and doors during the summer months, with supplementary use of sticky fly-paper is one of the best protective measures known against house flies. Fly poisons are also helpful in eradicating the pests, but arsenic preparations should be carefully handled and placed out of reach of children. A very effective fly poison is made by adding three teaspoonfuls of commercial formalin to a pint of sweet milk or water sweetened with a little brown sugar. Flies breed in filth. Refuse and garbage from the kitchen should be burned when possible or placed in cans with tight lids. A fly is a small thing, as size goes. But one fly can carry and distribute enough disease germs to start a serious epidemic."

## WHAT TO PRINT.

The principal purpose of a newspaper is to publish news; not suppress it, tho sometimes the editor brings the condemnation of some of his subscribers down upon him for publishing news that may affect them not too pleasantly and of which they would prefer the public be not apprised.

Sometimes there is a dearth of local news, which frequently brings forth murmurings from locally inclined gossipers. There is generally enough happening every week to fill two newspapers the size the Leader generally is, but if it was all printed it would raise more h— in this town and surrounding community than anything else we know about. Some people who criticize the editor for printing some things about them seldom thank him for not printing a whole lot more he knows about them, and which would be just as legitimate news.

A newspaper should be appreciated as much for what it does not print as for what it does. If this newspaper contained one-half the gossip and hints and allusions that go the rounds of society, much of which can be well

given, if it told of half the under-lying tricks, dishonest deals, slanderous words and actions, shady actions and petty criminal deeds that come to its notice, there would be a good many people in this community who might wish they were living elsewhere, and perhaps some of them would move on.

But the newspaper don't, it endeavors to carry as much favorable and constructive news as possible, and then frequently gets cussed by some shallow pated sap-head that hasn't enough brains to grease a wheelbarrow for putting out a clean and respectable sheet.

## MORE TRUTH THAN POETRY

Once a lion was telling a leopard why he roared in the jungle. "Doing business openly and with plenty of advertising," the lion said, "is the way I got my reputation. I earned the name of king of beasts by blowing my horn. Always let the other fellow know you are around and they will respect you and never bother you."

A rabbit hiding nearby heard the advice and decided to try it. So he filled his lungs with a great breath and started out to terrorize all the other animals by roaring like a lion. A wolf, learning of the rabbit's whereabouts by his roar, hopped onto the rabbit and ate him up.

If you haven't got the goods there is no need in advertising, and if you don't advertise it's a pretty good sign that you haven't got the goods.

## DUGGAN SPOKE AT BIG CELEBRATION AT PECOS, WED.

Captain Arthur P. Duggan, of Littlefield, president of West Texas Chamber of Commerce, accompanied by Mrs. Duggan, left Sunday afternoon for Pecos, Texas, where he attended the big celebration held there Wednesday in jollification of the \$2,000,000 government appropriation made by Congress for the Red Bluff irrigation project of that section. Fully 20,000 people attended the big function.

It was the occasion of Captain Duggan's first general address as president of West Texas Chamber of Commerce, and, according to advices received by the Leader, his speech struck a keynote for the coming activities of the organization during the fiscal year, and was greeted by a hearty response from the numerous auditors.

Mr. Duggan drew a colorful picture of the wonderful transformation that would soon come over the Pecos country under irrigation, depicting the beautiful and prosperous homesteads of that section under the touch of the emponded water that would soon be spread in silvery streams across the breast of Mother Earth as a string of pearls adorns the bosom

of a bride. He emphasized the value of diversified farming, as ably championed by his predecessor, Col. R. Q. Lee. He told of the inequality existing regarding taxes throughout the entire state and of his determination to leave no stone unturned during this year to rectify this important matter. Throughout his address it was frequently interrupted by outbursts of applause from the populace assembled there.

Other speakers of the occasion were Congressman Claude Hudspeth,

## THE PROGRESS OF TEXAS AS MEASURED BY PUBLIC UTILITIES

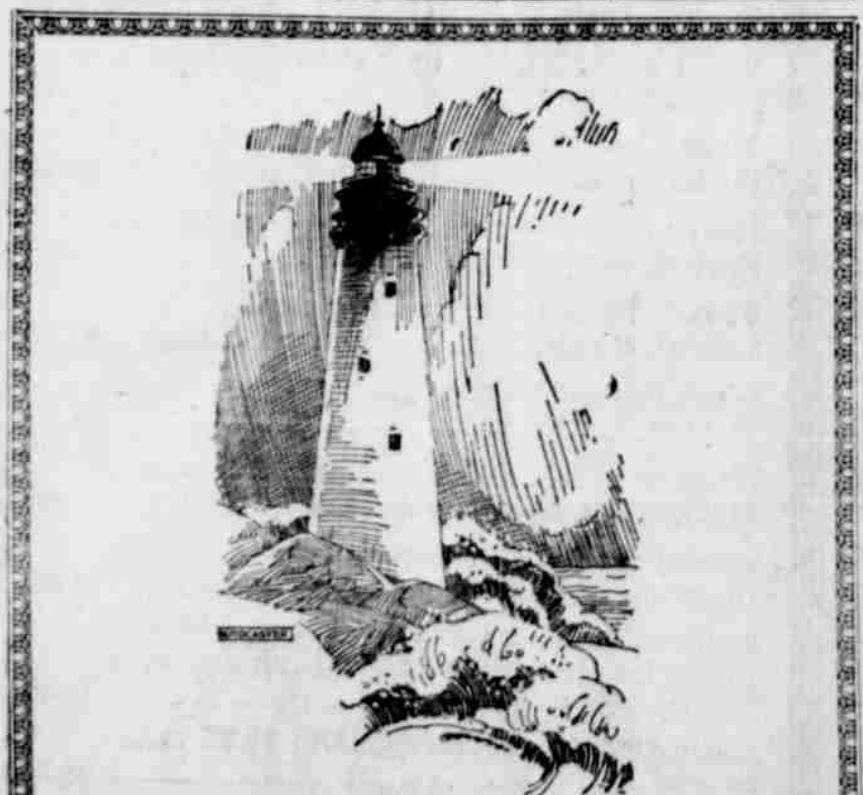

A glance backward and a look ahead which business men everywhere take at the beginning of a year shows that Texas has made making progress during 1925. It shows that the prospects for further advancement during 1926 is good.

And in every phase of the review and prospect it seems that progress of the several essential public services upon which growth and achievement have depended.

The service of the telephone in this community is one of the items that have made for development here and without which the development of the past year could not have been accomplished. In the outlook for the present New Year this company is expected to be a major factor in the building of this community and still better service to the people.

The service of the Panhandle Telephone system and the growth of this community go hand in hand. Our aims and ambitions, if they are right, are identical.

season Littlefield's baseball team took the count from the Amherst boys Monday afternoon.  
Hollingsworth, the new left-handed pitcher for Amherst, scattered his hits and held Littlefield to a shut-out. In the fifth inning, George Harmon caught a Littlefield man at home plate with a long throw from left field when it looked like a sure run, and Hanks as catcher did good work in that put out as well as all through the game.  
The Amherst boys played good ball Monday and were backing up the pitcher and on their toes in every inning.  
No errors were recorded on either side. The score:

## Dr. Frank Crane Says—

Our Friends are Part of Us.

I confess to be strongly affected by this liquid that runs from heart to heart through the spirit veins that web the fabric of all souls. When I meet one who does not like me it gives me a kind of depression, I am sick at my stomach a bit, I want to run.

Some people enjoy enemies. They enjoy the spiritual attack. Dislike rather tones them up.

But there are those, including me, who have such weak heads the least intoxicating draught of sympathy or antipathy sets them humming.

This class includes also dogs. I have just been over to see a lady who has a dog she calls Ford. Her husband is in the automobile business. I will not offend by saying what Ford looks like. There is a point of ugliness, especially in dogs, which when passed begins the realm of beauty. He is a sort of glorified microbe. But his main trait is affection.

Ford is a veritable sensitive plant. When his mistress speaks crossly to him he shrinks like a withered leaf. His light of life has gone out. He is killed. He is the picture of utter, abject misery.

And when she speaks kindly he ties himself into bok-knots, leaps, runs, barks, laughs and turns somersaults.

So when I say I am human as a dog, I feel to be boasting.

Sympathy, ethologically, means "suffering with," and we usually use the term for the communion of griefs only. That is good of course. It helps a lot for any one to feel sorry because you have bumped your nose. Still, it is a deal easier to share grief than joy. People who understand our moods of happiness are rarer than they that comprehend our woe. If you would be my real and longed-for friend, I pray you cultivate a capacity for sharing my lighter moments. Then I know that you are genuinely sympathetic, that between us run the cords of a unity of heart and soul that mean something.

You can't escape. Sometimes you think, when you have been particularly oppressed by the woes of others, that you would be happier if you could crawl into your shell, shut out the rest of humanity and get along with your own personal joys and glooms.

But it will not work. To retreat from your kind is as if the land ran away from the rain or the flowers hid from sunshine. It means dryness, hardness and death.

There are certain goods you get from life as you go along. For instance, there is food and drink for your belly and clothes for your back, shelter for your head and money for your pocket; there is the impact of familiar things at home, the cat and the dog and the old blue china tea set; there is a cigar for a man and a new dress for a woman; there is a deal of enjoyment one way and another, but not the least considerable of all satisfactions is this vale of tears is that warmth which comes to the cockles of your heart when you meet the man who takes to you and believes in you and the woman who understands and likes you.

This world would be a poor slave-ship if all appreciation were banished and there were no more greetings of friendship and fat hours of fellowship. For good or ill my friends are a part of me, and so are my enemies.

## VOTERS.

The County Judge of this county has a threefold duty to perform. He is the County Superintendent of schools, sits as a judge to try the cases, both civil and criminal, filed in your county court, and is a member of and presiding officer over the Commissioner's Court.

My many years' experience as a teacher, and my training and experience as a lawyer, equip me for the duties of this office.

I believe the taxes should be lowered in this county. If elected County Judge will oppose heavy bond issues and the issuing of heavy warrants at this time for any purpose. I shall favor good roads leading from all the farming sections into the towns, but shall oppose hard surfacing the two state highways.

If I am chosen your County Judge I shall do all in my power to advance the educational interests of this county, shall try all cases fairly and impartially, and shall absolutely give a square deal to each and every community and treat all alike.

If elected I shall always be found at the Judge's office at the county seat ready to attend to the business of the county in a legal and efficient manner.

I solicit your vote in Saturday's election on the basis of qualifications.

Respectfully,

E. A. BILLS,

Candidate for County Judge.

## Supplement to "KNOW LAMB COUNTY" MAGAZINE

Inadvertently the name of Judge John H. Woods of Amherst was left out of the Magazine when it was published. Judge Wood was one among the first to take subscription to the Magazine and gave his copy to Forest L. Kyle, which was never turned into this office, but Judge Wood did not know this, and the office had no record of the transaction. One of the articles in the Magazine was also written by Judge Wood for which proper credit was not given.

Judge Wood has had many years of experience in the school room, and has been a practicing attorney for the past 15 years. He has all of the qualifications necessary to properly attend to the duties of the county judge and he will appreciate a favorable consideration at the polls Saturday, July 24.

The News regrets that the omission occurred and wishes to say Judge Wood is one of our best friends. We hope that the voters, with the above explanation, will understand why his advertisement was not in the Magazine.—Pol. Adv't.

## Fifty Years of Panhandle History

By PHEBE K. WARNER.

Few of the visitors at the West Texas Chamber of Commerce convention held last week in Amarillo fully realized just how great an occasion that was. It was more than a mere convention. It was, in reality, the semi-centennial celebration of the first fifty years of Panhandle history. Perhaps it would ring more true to say it was the celebration of the first fifty years of the Panhandle's history. For millions of years the Panhandle of Texas, like all other new countries, had been lying here under the starry skies of our country waiting the touch of a human hand to transform it almost magically into a land of beautiful homes and farms and towns and schools and churches. It will be fifty years on July 4, 1926, since the first white man left

his home in Colorado to establish a cattle ranch in the Panhandle of Texas. Few men live to see their dreams of a new country come true. But Charles Goodnight, now 90 years young, is one of those few. On July 4, 1876, while the nations of the earth were celebrating the hundredth anniversary of American Independence in Philadelphia just as they will be again this year, Charles Goodnight and his brother-in-laws, the Dyer Brothers, finished packing up their chuck wagon, cut out a few hundred cattle from their Colorado ranch, and turned their faces toward the then almost unknown Panhandle of Texas. They took their time allowing the cattle to graze along the way at their ease and three months later they dropped their herd down into the Palo Duro Canyon near a place that today is known

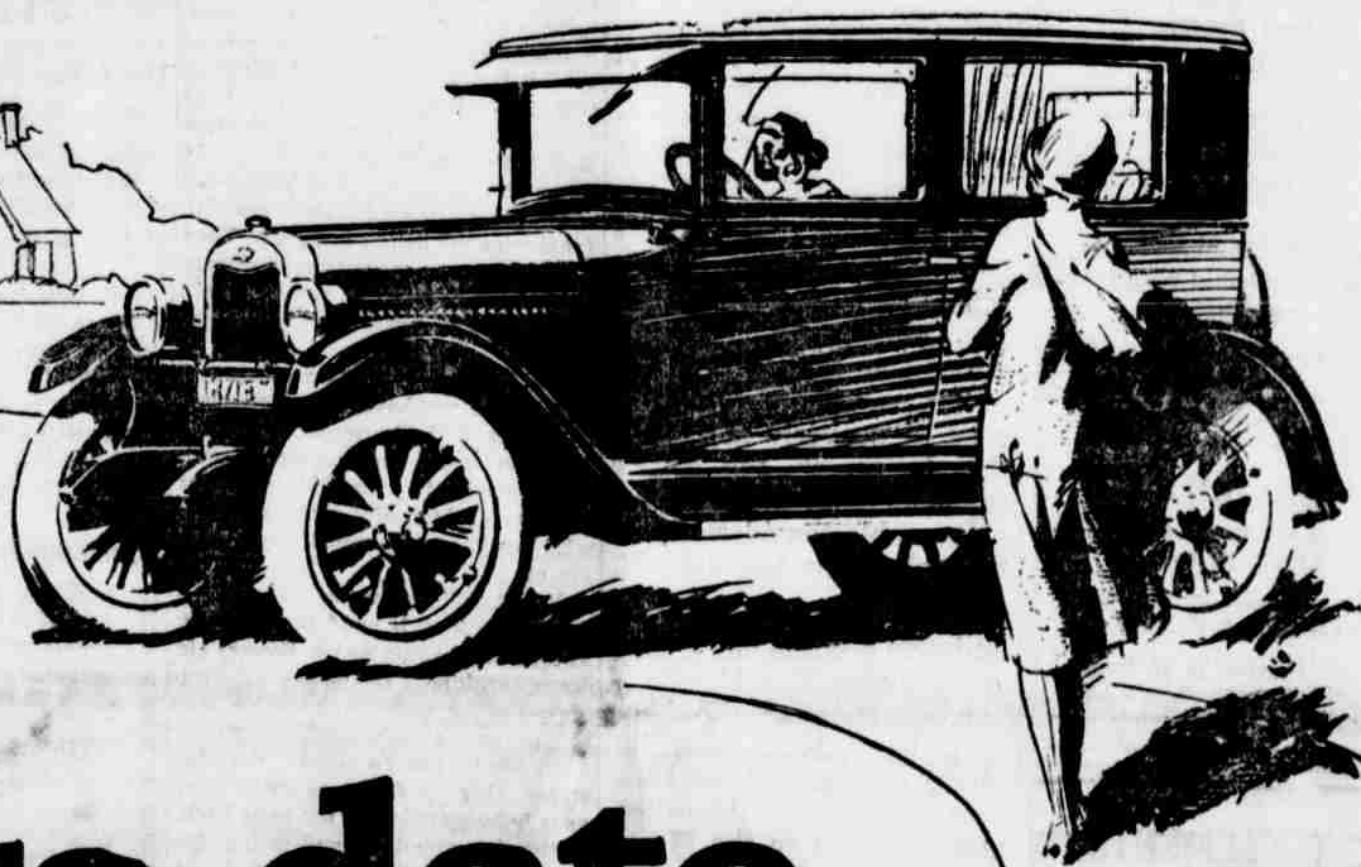

as Wayside, in Armstrong county. That same year they established what has been known ever since as the Goodnight Ranch. The next summer, 1877, Mrs. Goodnight and Mrs. Adair accompanied their husbands to the new ranch at which time Mr. Adair became a partner in the ranch which then took the name of the Goodnight-Adair Ranch. This was the beginning of the cattle business in that part of the country known as the Panhandle of Texas. Other brave men and women followed soon and in a few years the Panhandle had become famous as a ranching country. For about twenty-five years the ranchmen held full sway in the Panhandle and then it began to dawn upon the people that the country had agricultural possibilities. No one was more active in making this discovery than Col. Goodnight himself. The evolution of the Panhandle would make a most thrilling story.

So far there would be only two principal chapters with many sub-topics. The first quarter of a century was devoted to the development of the ranching business. The second twenty-five years has been devoted to the agricultural development, which has meant the building of many wire fences, highways, railroads, and towns with their schools and churches and business centers, and the planting of trees and gardens and flowers. Fifty years ago there was scarcely a tree in all this country except in the canyons and skirting the few little streams. It is not hard to predict what the next twenty-five years will reveal in the Panhandle. Already the third period of Panhandle history is destined to be its industrial period. Ranching will go on but on a less extensive scale. Farming will increase as the ranches decrease. But already the industrial day of the Panhandle of Texas has dawned with the bursting forth

from far beneath her sod rivers of oil and oceans of gas. The parade at the West Texas Chamber of Commerce meeting in Amarillo was one of the most impressive and interesting as well as entertaining that was ever formed in any State. There in an hour's time the entire history of the Panhandle from the first little log cabin in the canyon with the first white man still living and sitting in the door of his improvised cabin to the discovery and operation of the greatest oil fields in the world was written in the most human, living, moving pictures. The evolution of the railroads, of agriculture, education, transportation, machinery, mail service, art, morals and youth itself, all were beautifully demonstrated in that parade. The Santa Fe and the Corpus Christi Shortline gave proof of the present and future developments in the railroad business. Crosby County's pic-

ture of the evolution of agriculture that county from the one-go-devil to the magnificent growth of the country. The route from the one-horse cart traveled a few miles a day to the service that brought the Fort papers three hundred miles in hours showed both old-time reverence and new day pep. Col. floats proclaimed the coming of progressive educational institutions while the evolution of art in Texas was gloriously depicted by contrast between Estelline's one-horse B. V. D. band and the forty uniformed bands in line. Every mode of transportation from Cochran County baby buggy and the old covered wagon to the highest powered Lincolns were in line. Diversified farming which is the goal of the West Texas Chamber of Commerce was beautifully illustrated by the display of farm, garden, orchard and range products.

### MRS. McCASKILL ENTERTAINS

Tuesday morning Mrs. R. E. McCaskill gave a lovely bridge luncheon from nine till twelve, honoring her cousin, Mrs. E. D. Dickson, of Warsaw. The rooms were attractively decorated with a profusion of sweet peas, dahlias and ferns, while the most pleasant morning added to the enjoyment of the occasion.

At the end of the games Mrs. J. H. Stokes won the prize for high score and was given a novelty picture. The honoree was presented with an electric percolator.

A delicious plate luncheon of salad, sandwiches, stuffed olives, potato flakes, ice tea, and pineapple which was served. Plate favors were sweet peas.

Those present were Mesdames A. C. Chesher, W. G. Street, Lena Howard, Chas. Harless, Otha Key, R. S. Thomas, G. F. Sadler, Ann Rutledge, the honoree, Mrs. Dickson, and the hostess.

D. L. Payne, father of Zeb Payne, Sudan, at a trial there last Monday, was adjudged insane.

## JUDGE JOINER OF LAINVIEW URGES CAREFUL VOTING

In the election of a District Judge, wishes of either candidate are not primary consideration of the voters, declared Judge R. C. Joiner, of Lainview, the first of the week, when by a Leader representative regarding the near approach of the primary election. Continuing he said:

In the present campaign we have a situation; the present judge, at expiration of his term of office have served for a period of 12 years. His opponent, who is now district attorney, has been in office 16 years, so the question of tenure in office is not a matter to be considered. The record of the present district judge is an unusual one, as will be seen from the following: In eleven years and a half that the present judge has been on the bench business of the district court has been 90 per cent civil business, and that length of time Briscoe county has not had a single reversal by the other courts, either civil or criminal. Fisher county has only had one civil reversal, Castro county only one,

Bailey county none, Lamb county one, and the more thickly populated counties and where the principal litigation has been, Hale and Floyd, only eight civil cases have been reversed in the eleven and a half years, making in all eleven civil cases in the entire seven counties reversed in the eleven and a half years, a record unsurpassed by any judge in Texas, unless it be that of Judge Young of the Fort Worth district.

"These are not idle statements, but matters borne out by the record, declared Judge Joiner.

"The showing made should be of interest to the tax payers of the district, for the reason that it saves expense to the litigants and cost to the tax payers, as it is expensive to have to try a case over and over again. This fine record is due mainly to the fact that the present judge has had 20 years active practice prior to the time he was elected district judge and was therefore fully qualified to pass upon the many intricate questions arising in the trials of cases.

"In contrast to this experience, the opponent of the present judge, while a graduate of the law department of the University of Texas, has never had a contested civil suit in any district court of Texas in his life. This statement is not made as a matter of reflection, but only as a matter of fact to be considered by the voters of the district when they cast their ballot in the coming primary for district judge."

Judge Joiner insists that in the selection of public officials the voter should weigh the relative merits of the candidates and pass upon the situation from a business standpoint in the same manner as if it were his own individual business. To illustrate, any corporation or individual that may have in its or his employ one who has given entire satisfaction and rendered faithful service in the position occupied by him, will not even consider discharging such an employee in order to make way for another, whose sole plea is that he desires promotion.

The matters just stated should be of interest to the voters of Lamb county in as much as the population of this county is composed of newcomers in a great part, or people who have not had occasion to investigate the record of the present judge, which facts can easily be verified on inquiry of the clerk of the Court of Civil Appeals, at Amarillo, Texas.

**Warm Weather Is Now Here!**

—And with it comes a multiplicity of needs and opportunities. Screens are essential for the summer weather, if you value your health and comfort. Flies are not only a source of annoyance, but the most prolific carriers of disease. Why endure this source of worry and endanger the entire health of the family when they may be shut out at small cost?

We have a nice line of Screen Doors, different sizes, patterns and prices, also all widths of screen wire, with mesh small enough to keep out any stray mosquitoes that may be lurking around.

### CHICKEN FENCING

Of course you are raising some chickens this summer—nearly everyone is. And you don't want them messing around the lawn or in the garden scratching up the plants—no need of it when they may be corralled so nicely with a little cost.

We have a nice supply of woven wire fencing, different heights and weights, all heavily galvanized and rust proof, one and two inch mesh, and guaranteed to give good service for many years to come. Better invest in some of it NOW!

### PAINT—PAINT!

Spring and summer is always clean-up and paint-up time, and we have a very complete stock of the famous Sherwin-Williams Paints, both for interior and exterior work. Also a good line of Varnishes of different kinds to make the home look clean and bright—and the brushes to put it on with.

### THE SLEEPING PORCH

Already the days are here when the inside bedroom has begun to feel stuffy. Why not a sleeping porch for the summer months? We have all the material and plans for the making of them. Let us show them to you—not much cost, and the enjoyment of a sleeping porch during the summer months will bring big returns in comfort and added health conditions.
