ON THE AIR

# Broadcasting Station Officially Opens This Morning; Local and National Programs Scheduled

Littlefield and Lamb county took another step forward with the opening of KVOW, in a new, ranch-style building located in Broad Acres Addition, just off the Clovis highway. A full-time station, KVOW will bring the news and entertainment of the world—as well as wide coverage of the local scene—to the living rooms of Littlefield.

Completion of the radio station has been delayed by equipment shortages. J. C. Rothwell filed application for the Littlefield station on July 16, 1946, and final permit for construction was granted by the Federal Communications Commission Jan. 14,

1947. Key personnel of the station have been selected, with additional staff members not yet named.

Rothwell, the station licensee, recently sold a broadcasting station at Huntsville, and was formerly a member of the partnership operating Radio Station KVOP at Plainview.

J. B. McShan, who will serve as business manager, will purchase an interest in the station as soon as the sale is approved by the Federal government. He was formerly manager of the Huntsville station. Both Rothwell and McShan were in the newspaper business before entering radio

in 1941. KVOW will go on the air at 6:30 a.m. this (Thursday), and will broadcast daily from 6:30 a.m. to 10 p.m. It is a 250-watt station—1490 on your dial.

J. W. Robinson, chief engineer in charge of constructing KVOW, is a veteran of 20 years in radio, and was formerly with Station WRR in Dallas. During the war he was chief communications engineer at Camp Berkeley, Abilene.

Henry W. Smith, engineer-announcer, is a former student at the University of Texas, served in the

This bill is on Governor Jester's

desk, awaiting his signature. It is expected that the governor will sign the bill.

# Nix Indicted In Lamb Shooting

Trial of Harvey Nix, about 40, former Lubbock policeman who was indicted Monday by a 110th District grand jury of Lamb County on a charge of assault with intent to kill his father-in-law, H. P. Pointer, about 60, probably will be conducted before Judge C. D. Russell in the August term of court, officials have said.

Bond of \$2,000, conditioning trial appearance, was set for Nix and probably will be posted shortly, Sheriff Hugh Rice of Lamb county said.

Both Nix and Pointer went to Littlefield hospitals after a shooting on April 11 at the Pointer farm home. Pointer was hit once in an arm. Nix was seriously shot in the stomach.

In Littlefield, where Sheriff Rice and his deputy, Prentiss Graham, took statements from the two men, Nix's pistol was found to have four exploded shells in it, it was announced at the time.

Officials said that Nix went to the Pointer farm to see his estranged wife, who was living in a house her father had constructed for her, and his eight-months-old daughter. Officials said he requested to take the baby with him. The request was refused. The shooting followed.

# 2 New Features ON Editorial Page

At your convenience, please turn to the editorial page.

This week two new regular features of the Leader are making their appearance. They are:

"They'll Do It Every Time," a true-to-life panel by Jimmy Hatlo.

"The Philosopher of Bull Lake."

The famous panel by Jimmy Hatlo has long been a big feature of the comic pages of many of the leading daily newspapers of the country. Having thoroughly enjoyed this comic for some time, the Leader editor determined that if this feature was available to weekly newspaper, it would become a part of the Leader. His efforts have been rewarded and he hopes that you, too, will like "They'll Do It Every Time."

Now, as regards "The Philosopher of Bull Lake," we haven't got much to say; he seems so capable of speaking for himself.

We hope you'll like "The Philosopher of Bull Lake," who will write regularly from his Johnson grass farm. Watch for his picture next week!

# Urge Whisker Growing for Rodeo

It looks like Littlefield barbers are to have a vacation . . . at least, as far as the male population in this city is concerned.

Members of the Junior Chamber of Commerce have already started their whiskers growing in preparation for the rodeo, which will be staged here in July.

All men in Littlefield are urged to let their whiskers grow and feature a mustache, whiskers goatee, or sideburns, between now and the rodeo dates—as an advertising stunt.

Miss Peggy Roberts and James A. Starnes Wed Friday Evening

—Picture by Chisholm and Nail.

Mr. and Mrs. James A. Starnes cut their wedding cake at reception following their marriage Friday evening.

Marriage vows uniting Miss Peggy Roberts, daughter of Mr. and Mrs. S. Roberts, of the Valley View community, and Mr. James A. Starnes, son of A. J. Starnes, of Littlefield, were read in a very impressive ceremony in the First Baptist Church at Whitharal Friday evening 7 o'clock.

The Rev. Hal Verner, pastor, read ceremony before an altar banked with palms, candelabra and Piccadilly chandeliers.

Mrs. A. A. Gray, pianist, played "Scarrolle" very softly as Misses Theora Verner lighted the candles, and accompanied her daughter, Miss Marianne Gray, who sang "Love You Truly."

Miss Doralyn Roberts and Miss Ed Hooper served as bridesmaids. The brides wore an aqua crepe dress with white accessories and a corsage of pink carnations, while Miss Hooper's dress was fashioned of pink crepe, with white accessories, and she wore a blue corsage of delphinium.

Given in Marriage by Father the bride, given in marriage by her father, wore a white crepe dress with a straw pokebonnet styled hat, carried an arm bouquet of pink buds and blue maline. She wore a cameo necklace belonging to Mrs. J. Newgent of Littlefield, and a brooch in her shoe.

Miss Patsy McDaniels, maid of honor, was dressed in soft pink crepe, with white accessories, and wore a corsage of white carnations.

Reception Held Following the wedding, a reception was held in the Tipton home, in the Valley View community. The bride's table, covered with a work linen cloth, was centered with a crystal bowl of multi-colored sweets. The three-tiered cake was decorated with a miniature bride and groom, where, after the first toast made by the bride, Miss Doralyn Roberts presided, while Miss Hooper presided at the punch bowl.

A number of Littlefield friends were present at both the wedding and reception.

Following the reception, the happy couple left on a trip to various points in New Mexico and, following their return, will make their home in Littlefield.

The J. H. Carpenter family, of which Mrs. E. S. Rowe is a member, enjoyed a family reunion at the home of Mr. and Mrs. Rowe, 823 Phelps Avenue, over the past weekend.

A total of sixty attended the reunion, which were all relatives, with the exception of Mr. and Mrs. N. H. Seymour, of Earth, special friends of the family, Mr. Seymour being a childhood friend of Mr. Carpenter back in McLennan county.

According to Mrs. E. S. Rowe, relatives began arriving Friday last and continued coming until Sunday, when all had arrived, and sixty enjoyed dinner on the spacious, cool back lawn at the Rowe home.

Leslie Floyd, brother-in-law of Mrs. Rowe, of Midland, and Frank Carpenter, her brother, of Abilene, were in charge of the barbecue pit, and began operations Saturday night.

From a long table, laden with delicious barbecued beef, salads, cakes, pies, ice cream, coffee and everything good to eat, men, women and children Sunday noon helped themselves, and then sat around on the back lawn en-

joying the picnic style meal, the hospitality of the host and hostess, and the association of members of the family and relatives.

This event is an annual affair, and has been taking place each summer since 1939.

Mr. and Mrs. Carpenter, though 78 and 79 years of age, respectively, are very active. Mr. Carpenter oversees operation of his farm and ranch near Abilene.

Mr. and Mrs. Carpenter were married at Cuthbert, Texas, in Mitchell county, February 8, 1891, in a double wedding in which Mrs. Carpenter's brother and sister-in-law, Mr. and Mrs. John Ellard, were the other couple.

To this union were born six children, all of whom are living, and who were present Sunday.

They are: Mrs. E. S. Rowe and Mrs. Wayne Carlisle, Littlefield; Mrs. Mary Loven, of Clyde, Texas; Ed Carpenter, of Vincent, Texas; Frank C. Carpenter, of Abilene; and Mrs. L. E. Floyd, of Midland.

Mr. and Mrs. Carpenter celebrated their golden wedding anniversary in 1941 and, at that time, all members of the family, all in-laws, and all grandchildren were living and present, there not being a death in the family for 50 years.

All members of the family have returned to their homes, with the exception of Mr. and Mrs. Carpenter. Their daughter and son-in-law, Mr. and Mrs. Wayne Carlisle, will accompany them to Midland this weekend, where they will visit in the home of another daughter and son-in-law, Mr. and Mrs. L. E. Floyd.

Those attending the family reunion were: Mr. and Mrs. J. H. Carpenter, Abilene; Mr. and Mrs. Will Johnston, Dunn, Texas; Mrs. Mary Crockett, Dallas; Mr. and Mrs. Bill Hunter, Coahoma; Mr. and Mrs. S. Mr. Newberry was born in Gardon, Ark., July 30, 1887. When he was 7 years old the family moved to the county seat town of Arkadelphia, where he attended the primary grades of the Arkadelphia Methodist College, now the Henderson State Teachers College. He also obtained his B.A. degree there in 1906. Two years later he received his Master of Arts degree in Vanderbilt University.

At Vanderbilt he became a member of the Phi Kappa Sigma fraternity.

Following his graduation at Vanderbilt, he taught for one year in the Union City Training School at Union City, Tennessee, then for two years in his Alma Mater at Arkadelphia, and for one year was acting professor of history in the University of Arkansas. He completed his law studies in the law offices of Calloway and Huie at Arkadelphia, and was admitted to the bar.

After serving in the Arkansas legislature, he entered field work in Southern Arkansas for the Woodmen of the World Insurance Society. He was elected head consul of the jurisdiction of Arkansas in 1915, and in 1918 was appointed state manager of the Woodmen of the World in Arkansas, and served in that capacity for 17 years. In 1932 he became a director of the Woodmen of the World, and in the fall of 1935 removed to Omaha, Nebr., where he served in various departments, particularly in field work, and helped to organize several nation-wide membership campaigns.

During his long service as field man and state manager of Arkansas he sent to headquarters under his own contract approximately 18,000 applications—an outstanding produc-

tion record. Both at Little Rock and Omaha, he has served as a steward in the First Methodist Church. He married Lila Lee Thomasson of Little Rock. They have two sons, Farrar Newberry Jr., of Columbia, S. C., and Nick T. Newberry of Charlotte, N. C.

He has published three books which are: "A Life of Mr. Garland of Arkansas," "The Life of J. C. Root and the Glories of Perfected Woodcraft," and "James K. Jones, the Plumed Knight of Arkansas," and has contributed numerous articles to newspapers and magazine.

On March 15, 1937, he became secretary of the society to succeed John T. Yates, who had resigned. He was named president on March 22, 1943. **Radio Station**

(Continued from Page 1, Sec. 1)  
 Merchant Marine during the war, and graduated from the U. S. Maritime Commission radio school, Gallipoli Island, Boston, Mass., in 1941.  
 Wayne Robinson, announcer, is a native of Littlefield, a veteran of World War II, and a former announcer at Station KFYO, Lubbock.  
 Bobby Foust, announcer, was at one time connected with KVOP, Plainview.  
 Minnie Kate Jones will be receptionist and bookkeeper at KVOW.  
 Radio Station KVOW will feature the full leased wire service of the Associated Press, largest newsgathering organization in the world. The up-to-the-minute Associated Press news of the world will pour in to the station 24 hours a day, at the rate of 60 words a minute. News broadcasts will originate in New York City, with periodic reports of Texas news emanating from Dallas.  
 The station will give daily coverage of livestock, cotton, wheat and other markets—from the market centers of the nation, as well as local markets. All available weather information will be reported several times daily.  
 KVOW will make every effort to encourage and develop local talent and an invitation for auditions has been extended to all singers, instrumentalists, and musical organizations in this area.  
 A number of "remote" broadcasts will originate from various points in the area, with permanent broadcast lines and equipment established at schools, churches, and other community gathering places.  
 Each week day at 10:15 a.m., Station KVOW will feature "Lessons in Living," a 15-minute program which will be conducted by pastors of Lit-

tlefield and Lamb County churches. Other programs of a religious nature will be carried by the station.  
 One of the station's local-interest programs will be the "Anniversary 7:15 each morning, when listeners will be satuted on their birth and wedding anniversaries.  
 Three request programs will be heard each day, now scheduled for 9:30 a. m., 4 p. m. 9:15 p. m.  
 Plans have already been made for broadcasting all Littlefield High school football games, wherever played, as well as other games played in this area.  
 A variety of transcribed and recorded music will be presented by the station. In addition to a regular transcribed musical library, featuring everything from "hillbilly" music to the works of the Masters, KVOW will purchase all new recordings as they are released, assuring listeners all that is new and popular in music, as presented by the world's foremost entertainers.  
 Radio Station KVOW will broadcast with a power of 250 watts, both night and day, covering an area of approximately 100 square miles. Major equipment was purchased from the Gates Radio Equipment Co., of Quincy, Ill., and the Windcharger Corporation of Sioux City, Iowa. All equipment is new and manufactured especially for KVOW.  
 The 165-foot radio antenna will serve as a Littlefield landmark, day and night. Painted in alternate stripes of international orange and white, the tower will be lighted from top to bottom at night, with aircraft warned of the hazard by a flashing beacon atop the antenna. A total of 20,400 feet of copper wire has been buried fan-wise from the tower to secure maximum power.  
 KVOW's transmitting equipment, studios and offices are in a white

stucco building recently constructed on a three-acre tract of land, in the Broad Acres Addition to the city of Littlefield, located just off the Clovis highway, approximately one mile west of town. The building includes a large studio, control room, transmitter room, reception room, two offices and storage room. The control room has dual-speed turntables to play recordings and transcriptions. All studio activities are regulated by the control room, including all programs, wherever originated. Also located in the control room is the transmitter, heart of the radio station which beams the programs out over the air. In addition to the station itself, a downtown office will be maintained in the Hall building, over George's Bakery. At the studio glassed-in windows permit the public to view the programs.  
 "Name" stars of radio, stage and screen will be heard regularly on KVOW programs. Here are just a few of the outstanding entertainers who will be heard on the station during the next few hours:  
 George Burns and Gracie Allen; Ginny Simms, Bud Abbott and Lou Costello, Morton Downey, Kay Kyser and Ish Kabibble; Phil Harris, Carmen Cavaliero.  
 Also Jack Benny, Dianah Shore, Bob Hope, Bing Crosby, Don Ameche, Henry Morgan, Fibber Magee and Molly, Duffy's Tavern," John Boles, Gaius Swarthout, Phil Baker, Lauritz Melichor, One Man's Family, and the Aldrich Family.  
 University Extension work in the United States was started in 1888, when it was introduced by Dr. Melville Doxey, then librarian of Columbia University.

**Swimming Pool**

(Continued from Page One, Sect. 1)  
 for these events.  
 E. C. Cundiff, manager of the pool, asked the Leader to extend the appreciation of the swimming pool personnel to all those who assisted in any way with the opening ceremony Saturday, adding that the co-operation of the Littlefield high school band and others in any way contributing to the success of the undertaking was much appreciated.  
 Hours for public swimming are Monday, through Friday, 2 p.m. to 9 p.m.; Saturdays, 2 p.m. to 10 p.m., and on Sundays, from 2 p.m. to 6 p.m.  
 Sanitation of the pool will be up to standards as required by the Texas Health Department.  
 E. C. Cundiff is manager of the pool, and the committee in charge is composed of Joe Walters, Wayne Brown and Dr. Ira Woods, who urge on all those wishing to swim, to do their bathing when the pool is open, and not enter the grounds when no one is on duty.  
 One of the members of the committee stated to a Leader reporter: "This is a community project, and a lot of money is being spent to make it one of the best pools in this section of the country and, in order to do all that we need the co-operation of all citizens, including the children who use the pool by swimming when the pool is open and an attendant on duty, and to refrain from using the pool or entering the premises at other times when it is closed."

It is hoped that the public will heed the appeal of the committee and co-operate in every way, as these men have worked hard to give the city the best possible project.  
 The Mason and Dixon Line was surveyed between November 14, 1763 and December, 1767, by two Englishmen—Charles Mason and Jeremiah Dixon.

## Offerings of New Crop Wheat Break Market and Prices Fall

Active demand at firm to higher prices ruled the majority of south-west farm markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture. Wheat, cows, calves, shorn lambs and hens were the losers. Liberal offerings of new crop wheat broke the market early last week, and prices fell 50 cents per bushel after the long holiday weakened. Later rallies recovered only a little of the loss, and Friday closed \$2.45 for No. 1 hard at Fort Worth and Galveston. New crop oats and barley dropped some, too, but corn and sorghums gained.

Seasonal dullness ruled rice markets last week. New crop made rapid growth and looks well. Principal feed ingredients maintained strength despite abundant green feeds. The weather held back alfalfa cutting, but dehydration plants continued to operate. South Texas' peanut crop looked good, and other areas tried to finish planting. Choice 12 months' Texas and Territory staple wools found good demand. Finer mohair sold steady.

Onions of generally good quality and medium to small sizes moved in volume from North Texas areas last week in a strong market. Fifty-pound sacks of U. S. No. 1 yellow Bermudas brought \$1.75, and Crystal White Wax \$2. Tomato shipments declined in the Lower Rio Grande Valley and increased in East Texas amid advancing prices. Valley haulings of green corn lightened, and grapefruit strengthened near the season's end. A few cantaloupes moved out. More Coastal Bend watermelons came on the market.

Spot cotton prices climbed steadily last week to score total advances of around \$4.50 per bale. The new crop made favorable progress in most areas.

Eggs and most poultry maintained steady to firm prices last week. Hens showed slight weakness, and sold mainly steady to firm prices last week. Hens showed slight weakness, and sold mainly at 22 to 26 cents per pound. Most areas bought eggs at 36 to 38 cents per dozen; but South Texas and Louisiana centers paid 40 to 50 cents.

Hog prices fluctuated some last week, but netted mostly gains of 25 to 75 cents. Heavyweights at Wichita showed the only real weakness. Clothing bulk of good and choice butcher hogs brought \$24.75 at Fort Worth and Denver. Closing top was \$25.25 at Oklahoma City, and \$24.60 at Wichita. Week's top was \$24.25 at San Antonio.

Spring lambs gained mostly 50 cents to \$1 at southwest terminals last week, but aged sheep and low grade shorn lambs dropped almost as much lower. Good and choice spring lambs brought \$20 to \$21.50 at San Antonio; \$24.50 to \$25 at Fort Worth; and \$24.50 to \$25 at Wichita. Oklahoma City bought medium to good kinds at \$20 to \$24.

Generally steady to slightly weaker prices prevailed at Denver last week

for steers, heifers and cows, while low-grade cows and calves moved generally lower at other southwest markets. Bulls and some stocker classes showed weakness at San Antonio and Oklahoma City. Canner and cutter cows sold at \$8.50 to \$10.50 at Houston; \$8.50 to \$11 at San Antonio; 8 to \$12 at Fort Worth \$9 to \$12 at Oklahoma City; \$10.50 to \$13 at Wichita; and mostly \$11.50 to \$14.50 at Denver.

## Use of DDT And Sulphur Urged

DDT and sulphur mixture can mean dollars saved to West Texas alfalfa growers this year, judging from the experience of Hale County farmers.

Hale County Agricultural Agent M. W. Ayers reports that the DDT and sulphur mixture now has the nod of approval from several farmers who had a severe infestation of pea aphids on alfalfa recently. Before the aphid poisoning could get underway, however, the insects had slowed down alfalfa growth to the extent that some farmers lost their entire first planting.

A local insecticide dealer cooperated with the county agent and a few farmers in running some field trials in an effort to find the best poison to use against the aphids on alfalfa. Their best results were obtained with 10 per cent DDT and sulphur, applied at the rate of 20 to 30 pounds per acre. Most of the poison trials were done by airplane.

The farmers who have used the treatment are well satisfied that it will pay dividends, says County Agent Ayers.

## Radio Listeners-In Treated to Impromptu Program by KVOP

Late tuners-in locally Sunday night were treated to a splendid impromptu program put on by KVOP — "Lamb County's Own Radio Station" — when they turned their dials to 1490. The program was given as a try-out — the first — for Littlefield's new radio station.

A number of splendid selections were aired by the station, and the splendid fidelity and clarity of the music was commented on by many Monday who happened to dial in at the right time. It was strictly a preview of things in store for radio fans in the future, as the program was not a scheduled affair — just an initial tryout.

Starting today (Thursday) Station KVOP will be on the air daily from 6:30 a.m. to 10 p.m. Daily programs are to be announced later.

## JUST WHY HE STOPPED SMOKING

A prominent business man of Littlefield, who does not particularly care for his name to be mentioned, tells the story of how he quit smoking cigars.

This is how it goes:

During the war, and for some time after the war, cigars were scarce. . . . When you wanted a cigar you had to beg for it. There is one drugstore in Littlefield in particular where I used to go for cigars. If the owner was in, I would get my cigars; if the owner was not in, the girls would say: "We don't have any." Well, one day . . . and I wasn't in a very good humor at the time . . . I went to this

particular drugstore. The proprietor was not in; two of the girls went behind the counter, got down on their knees and, after some time searching, they said: "We don't have any today!" This so aggravated me that I said: "If I have to beg for cigars and to cause two innocent girls to tell 'stories' and probably go to hell, I'll just quit smoking, and walked out. And I haven't smoked since . . . until today.

And he leaned leisurely back in his chair and took a long, contented pull at his cigar . . . It sure was good!

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic cramps.

**Legal Center Is Established At S. M. U., Dallas**

Establishment of a legal center, second of its kind in the United States, where jurists, lawyers and the lay public will conduct research and study to meet needs of a changing world, will be made at Southern Methodist University, Dallas, by the Southwestern Legal Foundation, Dean Robert G. Storey of the S.M.U. School of Law has announced. Detailed plans for the center were told in Dallas by Dean Storey at a banquet held to honor members of the Texas Supreme and appellate courts. Dean Storey, who was a prosecutor of Nazi war criminals at the Nuernberg trials, was elected earlier as president of the Foundation.

The center, to be operated in conjunction with the S.M.U. Law School, will be dedicated to study and research in special fields of government law, foreign affairs, international law, and will conduct laboratory tests of proposed laws.

A free legal advice clinic, to furnish advice to those who cannot pay, also will be maintained.

The Foundation plans to exchange students and professors with friendly foreign governments, and will conduct an annual institute of foreign affairs. Special grants, fellowships and specific research undertakings will be financed by the Foundation, Dean Storey revealed.

"The legal center is a post-graduate laboratory for outstanding members of the teaching profession, judges, and leaders of the bar, aided by the foremost men in government, industry and labor," the dean said.

A similar center is in operation at New York University.

**Morton Child Is Drowned**

Lyndell Dwight Long, 17-month-old son of Mr. and Mrs. Grady Long, of 10 miles northwest of Morton, was drowned about 2 o'clock Thursday afternoon when he fell into a stock water tank near the family's farm home.

All efforts at artificial respiration, administered by Dr. M. V. McKay of Morton, who worked with the child for about two hours, failed and the child was pronounced dead.

The youngster was found floating in the two and one-half foot stock tank about 20 minutes after leaving the house where the mother was washing dishes, it was said. Other children of the family were playing away from the area and did not see the tragedy.

The child was a grandson of Mr. and Mrs. A. J. Zuber, longtime residents of Cochran county, who live south of Morton.

Franklin Pierce, fourteenth President of the United States, carried all but four states of the United States at that time. He received 254 electoral votes, while his opponent received only 42. He saw military service in the Mexican War.

**ARRESTS MADE IN HALE CENTER BANK ROBBERY**

Bond of \$10,000 was set for each, Sheriff Ted Andrews of Hale Center said.

**GOES TO VET HOSPITAL**

Mrs. Stevens was called to Amarillo because of her husband's serious condition.

SENATE JOINT RESOLUTION NO. 4

Proposing an amendment to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the issuance of a proclamation therefor.

Be It Resolved by the Legislature Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sec-

tions 17 and 18 which shall read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate hereinabove levied.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Five (5c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at the designated institutions of higher learning; and the governing board of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January of each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to a period of thirty (30) years from the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and ac-

crued interest.

"Not later than June 1st of the beginning year and each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session, full-time student enrollment for the preceding five (5) year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5c) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participated in the allocation or re-allocation of such funds shall not thereafter receive any other state funds for the acquiring or construction of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any institution, in which case an appropriation in an amount sufficient to replace the loss so incurred may be made by the Legislature out of other state funds. From where I sit... by Joe Marsh

Here's to the Women-Folk!

There's a line at the heading of the Woman's Column in my paper that reads:

"Women through the years have stood keepers of the flame..."

Pretty easy to see what it means; whether it's the flame on the hearth, or the candle in the window, or the feeling of warmth that surrounds a home.

It's the women who are guardians of the things we cherish about homelife—who are tolerant of ashes on the rug; the rings a glass of beer can leave on table; or the

comfortable but too-worn chair that we can't bear to throw away.

From where I sit, those little satisfactions become more and more important in this world of strife and change. Smoke rings curling from a meadow pipe; a glass of beer; a comfortable chair before the fire. And I'd like to salute the housewives — "keepers of the flame" — whose tolerance and understanding helps preserve them!

Plunkett's Variety Show, with ten members of the family giving the show company its name, will set up in Littlefield June 16-17-18.

A new flame-proof tent will house the show on the lot location, two blocks east of the bank, on Fourth Street. The show is sponsored by the Littlefield Fire Department.

The Plunkett family has operated a stage show on the road since 1929, and has had a tent show since 1934 in Texas. Twenty-five people are in the company of entertainers, presenting a three-act comedy play and ten acts of vaudeville, with a complete

change of program each night.

On the vaudeville bill are Miss Jerrie Plunkett, songstress; Kennedy Swain and Goofy Gibbs; Captain Fuzz Plunkett and his four trained animal acts, dogs, seals, monkeys, and Congo, the educated Chimpanzee, and the famous Plunkett troupe on the bounding trampoline.

The Plunketts furnished most of the vaudeville on the Harley Sadler Show in 1942.

Guard Against Hog Losses . . .

Every pig that dies this year before it is ready for market represents seven times as great a loss to the farmer as did the loss of a similar porker in 1934.

Citing these dollars and cents comparisons, the American Foundation for Animal Health this week said that swine disease control on farms this summer will be more financially important than at any time in the past 20 years. In late spring of 1934, the report showed, market hogs were around \$3 a hundredweight, while this year they have ranged from \$20 to \$25 per hundredweight.

The Foundation pointed to three major threats to this summer's hogs, and urged farmers to take special precautions against them. Hog cholera, erysipelas and enteritis were named as the

greatest hazards for the next three months. Steps listed by the Foundation to guard against them included:

"All spring pigs should be vaccinated against cholera. In areas where erysipelas is a threat, they should be vaccinated against this disease, also.

"Fresh, clean pasture should be used as a protective measure against enteritis. Careful control of rations is also a safeguard against this problem.

"Newly-purchased animals should be isolated from the home herd until the owner is sure they are disease carriers.

"If sickness does appear, a prompt diagnosis is the first step toward preventing serious losses.

"As insurance against brucellosis in the fall pig crop, breeding stock should be blood-tested now, to weed out brucellosis carriers."

MAN LIVING OUT IN VICINITY OF BULL LAKE

SURPRISED TO DISCOVER LITTLEFIELD STILL

HAS A NEWSPAPER; WRITES LETTER ABOUT IT

[EDITOR'S NOTE: A man living out on Bull Lake, who signs himself "J. A." and says he is referred to as the Bull Lake Philosopher, has written us the following letter, and has offered to write others. We will let our readers be the judge of whether we ought to give this fellow space every week. The letter follows, in his own language, in-sults and all.]

Dear Editor: I was sittin' out here on the bank of Bull Lake the other afternoon wonderin' if my cork was goin' under from a fish or a snag, as there ain't no use exertin' yourself unnecessarily in these days of manpower shortage and lashing' your line out on the bank and makin' a fool of yourself if there ain't nothin' on your hook, when I seen a copy of the Lamb County Leader floatin' down the river and since I was gonna change positions anyway and it drifted over near where I was sittin', I leaned over and picked it up and was surprised to find it was a recent issue, as I am frank to say I didn't know Littlefield still had a newspaper as I had been dependin' on the W. Lee O'Daniel News until it stopped.

But since I have discovered the Leader is still in existence, I figured you might be interested in an occasional letter from me if we can agree on a satisfactory price, which won't necessarily be high, as a thinkin' man can find lots to write about without no trouble if he is confronted with a choice of writin' or goin' up one row and down another, wearin' himself and his mule out like some of my neighbors fightin' Johnson grass as though the stuff could finally be whipped.

Speakin' of Johnson grass, I noticed Gov. Beauford Jester says there is thousands of acres of land over-run with Johnson grass in Texas due to strikes holdin' up production of farm equipment, and while I ain't in favor of no strikes as my wife has been waitin' for a new churn for four years now and I can't buy a radio tube right when the Republicans is in control and a man ought to be on guard, I would like to suggest to Gov. Jester that while maybe he can convince his wife the strikes is to blame for the Johnson grass on his farm, I ain't had no such luck. My wife just bluntly tells me I ain't usin' the equipment I already got to no advantage, and mentions a lot of other things which I am too much of a gentleman to repeat, addin' that I'd have Johnson grass don't make no difference if I had ten thousand dollars worth of equipment.

I'm in favor of Gov. Jester's eliminatin' Johnson grass, but if he thinks eliminatin' strikes will do it, I'm afraid he ain't takin' no practical view of the matter. We're liable to have Johnson grass as long as a man had rather prop his feet on the porch than get corns on them followin' his mule or on other areas drivin' his tractor, and as far as I'm concerned that's gonna be forever.

Yours faithfully, J. A.

Mr. and Mrs. L. G. Wilson of Lubbock are moving to Littlefield, and will occupy the apartment over the Southwestern Public Service Company formerly occupied by Mrs. Addie Hewitt. Mrs. Wilson is the former Virginia Walker, and the building is owned by her father, P. W. Walker.

Plans were made to hold a social at a later date.

During the social hour, afternoon refreshments were served to the following members: Mmes Ray McKinney, Earl Drerup, Herbert Dolle, Joe Macha, Ben Wiggins, H. J. Miller, Will Servatius, Dee Myers, Wesley Reznik, H. R. Renden, Norman Fisher, A. C. Mann, O. L. Schlottman, Joe Foltyn; Misses Mary Rietman and Dorothy Servatius; and Rev. F. M. Higgins.

The next regular meeting will be in September.

### Legislature Votes Plan to Guarantee Redistricting of State Every Ten Years

The House last week joined the Senate in voting final approval of a plan designed to guarantee redistricting of the state for law-making representation every ten years.

It was the first time since 1921 that any legislature had taken positive action on the issue. It was rated by many as the major accomplishment of the session, in that it affects every citizen in the state.

The 50th session is a last-minute resurgence of sentiment on redistricting, voted to submit to the people a constitutional amendment empowering a board to reapportion the state if the legislature fails to follow the existing constitutional mandate to do so.

The amendment, if adopted by the people at the general election in 1948, provides that a board re-allocate legislative representation after each succeeding federal census if the legislature fails to act, as it has for the last 26 years in the face of shifting populations.

This board would be made up of the lieutenant governor, the speaker of the House, the land commissioner, the comptroller, and the attorney general. The plan would go into effect after the 1950 census.

It was the second submission of a constitutional amendment voted during the day. The Senate finally approved one authorizing establishment of retirement system for the judiciary.

### Rev. Ruth Zimmerman Honored at Bridal Shower Recently

Rev. Ruth Zimmerman was complimented at a miscellaneous bridal shower at the Foursquare parsonage Saturday evening, May 24.

Hostesses of the occasion were: Mmes Jo Ann Zahn, Pauline Dunn, Paul Zahn, Irma Reeves, and Rev. Arizona Hawes.

A pantomime of the bride and groom's romance was displayed in shadowgraph.

To lead them to a surprise gift, the bride and groom had to wind 10 yards of twine into a ball. This led them to a gift—a girl's best friend (chore girl).

Pictures of the bride (as everyone saw her) were drawn, cut out and mounted on paper and presented to the bride and groom with a word of advice to both.

A beautiful array of gifts were presented to the honoree, which were displayed by the Rev. Hawes.

Those present were: the Rev. Ruth Zimmer, and Virgil Zimmerman; and

Mmes Jo Ann Zahn, J. D. Zahn, Paul Zahn, Emma Reeves, Walter Kirk, Ina Jones, Stella Zimmerman, Nona Masters, Martha Ann Osborn, Pauline Dunn, Claude Wren, Johnnie Wolfe, Grace Banister, E. P. Price, and the Rev. Arizona Hawes; John Paul Zimmerman, Miss Elizabeth Jo Dunn, Miss Goldie Biles, Miss Ruth Biles, Larry Wren, Melvin Wren, Donald Wren, Shirley Wolfe, and Walter Kirk.

### Warned Against Taking Drugs Promiscuously

"It is an unfortunate fact that some people are willing to risk their health—possibly even their lives—by prescribing for themselves and taking a drug that they have read about somewhere and which has been termed a 'miracle drug,'" states Dr. Geo. W. Cox, state health officer.

"Although such drugs as penicillin, streptomycin, thiouracil and sulfa drugs have been of great value in combatting diseases that have heretofore been very difficult to control, nevertheless, they can be very dangerous products in untrained hands. They were never intended to be used promiscuously for self-medication," the state health officer asserted.

If a pharmacist refuses to sell a particular drug and explains that it cannot be supplied without a physician's prescription, the would-be purchaser should not become provoked. That pharmacist is giving sound public health advice and is also complying with the law. The state health officer declared that self-medication is never advisable, and even "miracle drugs" should be taken only when a doctor prescribes them.

### New President is Elected For Christian Scientist Church

MRS. HELEN C. ELWELL

BOSTON, Mass., June 2.—Affirming that God rules the affairs of man, the Christian Science board of directors told the annual meeting of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, that neither fear nor animality can give evil power to boast itself over good.

Supporting this challenge, Mrs. Helen Chaffee Elwell, newly-elected president of the Mother Church, urged both pulpit and press to unite in a crusade of righteousness. The hour has struck, she indicated, "for the church to dare to be a David."

To "the harassed employer and the dissatisfied worker" and to nations generally, the directors and president of the church held out the hope of harmony, not as a miracle, but rather as a simple witnessing to the fact that amity springs naturally from the application of spiritual power.

Not only improved industrial relations and better government, but

also the health of the individual can be attained through spiritual understanding, the directors contended.

Continuing in this theme, Mrs. Elwell said: "There are those who see little hope for amity among the nations, who even despair of establishing harmony, peace, or even friendliness among the families of the earth. Their world is dark, indeed."

Beyond that, there are many persons who despair of coping with the unleashed material forces of an atomic age, she pointed out. "Such thinkers," the speaker added, "need to learn the immanence of heaven, the omnipotence, omniscience, and omnipresence of the infinite God, good. . . ."

"How shall they hear without a preacher?" the speaker asked. She answered her own question, thus: "The church is that preacher, and to the Christian church has come the opportunity, unparalleled in Christian history, so to present the true concept of God in His relationship to man and the universe, that men will turn naturally to the teachings of Christ."

The directors' and the Mother church president's remarks highlighted one of the largest annual meetings in years, with members of the church in session from various parts of the world. From California, England, Europe, Australia, New Zealand and South Africa came reports of a growing resurgence in religious activities.

This resurgence was evident in announcements of the largest circulation in the history of Christian Science periodicals. Lifting of import restrictions have increased sales in the British Isles and opened world-wide distributing channels once more, according to the trustees of The Christian Science Publishing Society.
