Mrs. Mary Hodges, of 7515 College Avenue, Lubbock, died in the Lubbock Sanitarium about 11:20 o'clock Tuesday morning. Clint S. Martin, about 44, formerly of San Francisco, evidently driver of the car in which Mrs. Hodges, her three, and two other children were riding, was killed instantly.

Watch Out For Rackets

Under the present economic conditions in Littlefield we can expect THE GREATEST INFUX IN THE HISTORY OF THE CITY OF THAT PARTICULAR GROUP OF MEN AND WOMEN WHO SPEND THEIR LIVES IN SHARP SHOOTING, SMOOTH TALKING HONEST FOLKS OUT OF THEIR MONEY.

They come as wolves in sheep's clothing.

AND HAVING ACCOMPLISHED THEIR PURPOSE they smile in gluttonous satisfaction AND DEPART.

THESE SHARP SHOOTERS, SMOOTH TALKERS employ all kinds of RACKETS. They tell you that if you will accept what they have to offer that your problems will be solved, new wealth will come to you, and that your daily life will be just ALMOST HEAVEN ON EARTH.

AND THEY WILL ALSO TELL YOU THAT IF YOU DON'T ACCEPT THEIR PROPOSITION THAT YOU WILL BE PLUMB RUINED: THAT SOME OTHER CITIZEN OR BUSINESS MAN WILL ACCEPT THE PROPOSITION AND THAT REMORSE WILL BE YOUR LOT.

The schemes that the GYP ARTISTS employ are too numerous to mention. Sometimes it is some kind of junk merchandise that they are peddling from door to door; sometimes it is some kind of an advertising scheme that had whiskers on it when Noah assembled the colony for the ark. Of course, most generally the scheme is all dressed up in 1933 clothes with a heavy odor of perfume to make it so very, very attractive.

LOCALS TO MEET FAST TEAM IN FIRST CONTEST

But Good Old Littlefield Spirit Expected to Aid Locals

Coach Barksdale took his charges to their first scrimmage of the season last Friday afternoon. The boys had a taste of the real rough and tumble of the game at that time. The scrimmage showed that there was much work to be done before Littlefield has a finished football team but the encouraging thing about the matter is that the boys are working hard and realize that they must work. The boys were the first to recognize that there was much to learn to do.

The football spirit is permeating the atmosphere of the entire high school as the time for the first game approaches. On Thursday of last week the school had its first chance to see the boys that are to represent the school this year and give them a cheer.

On Friday of this week the boys journey to Brownfield to tackle the first game of the season. Coach Barksdale picked a strong team to tackle the first game. The boys at Brownfield won the district championship last year and have several of the boys back on the team this year. Littlefield will go into the game as the under dog but it is felt that with plenty of spirit and fight the boys will have a fighting chance.

The probable line up for the starting game will be as follows:

McKnight, L. E.; Kendrick, L. T.; Swanner or R. Brantley, L. G.; Smith or Beckner, C.; Hall, R. G.; Lightsey or Ervin, R. T.; Cook, R. E.; G. Hemphill, Q. B.; Duffey, R. H. B.; J. P. Brantly, L. H. B.; and Dow, F. B. The above mentioned boys together with such boys as Henderson, Lakey, Beebe and Irvin are working hard to represent the school this week.

VIRTUALLY ALL EQUIPMENT FOR CREAMERY HERE

New Concern Expects To Be in Operation in Two Weeks

Practically all of the equipment necessary for the new creamery is now in Littlefield awaiting installation, according to Jack Wayne, one of the owners of the new enterprise.

Mr. Wayne arrived in Littlefield Friday, and is in charge of the installation of the new machinery.

A stainless steel lined pasteurizer has been installed in the building, as well as a churn, of the capacity of 1000 pounds of butter.

Installation of the refrigeration was started Wednesday.

Mr. Wayne said they probably would have everything in readiness for business in about two weeks time.

School Executives To Meet Here

A meeting of the Superintendent and school trustees of the different schools of the county will be held Thursday morning at 9 o'clock in the court room of the Littlefield city hall for the purpose of hearing discussed the new rural aid law.

G. D. Halbrook, Deputy State Superintendent of Public Instruction for the Lubbock District, which comprises 15 counties, will be the chief speaker for the occasion.

All trustees and superintendents of schools in Lamb county are urged to be present.

Whitharral School Is Reopened Monday

The school has 11 teachers. B. M. Hays is superintendent.

Littlefield Bridge Players Will Play Friday Afternoon in Initial Game of Nation-Wide Tournament

On Friday afternoon, September 22nd, at two o'clock sharp at the American Legion Hall will occur the most pretentious contract-bridge activity that has ever taken place in this community. It is the first elimination tournament in the nation wide pair championship and team of four championship events for 1933.

Every player of contract bridge in Littlefield or its locality is most cordially invited to enter this tournament. The fee is fifty cents which permits the player to participate in the two primary events.

Littlefield feels quite proud of the fact that she is the only city in West Texas with the exception of Fort Worth to have registered for these national bridge events, and whether or not her players get any farther than city or regional championships this year; the "Littlefield Bridge Club", (which includes every bridge club in the city and county, is from now on an affiliated member of the U. S. B. A., and each year she may hope that her players will end a little nearer the grand national prize.

The plan of the tournament is this: Two events in this city to be held on the above mentioned date and on Wednesday, September 27th will eliminate 50 per cent of the players. The decisions being made upon match points. The winning 50 per cent will play in the finals for pair championship on October 4th. Another 50 per cent elimination will decide the players for the team of four tournaments to be held October 11th. High scorers of this contest will be the city champions and will then play against other regional winners for regional championship. Should our players win in this tournament they have next the state championship to play for. The winners of this event will have all their expenses paid to the National Tournament (which will probably be held in New York or Chicago) by the U. S. B. A.

It is the urgent desire of the committee that no player hesitate to enter these contests because of inexperience. He will find himself playing against many other inexperienced players and these tournaments are sure to be of a very constructive nature. No player knows how good he is—or isn't—until he has played against a better player.

Trophies will be given for the city pair championship and the city team of four championship, to be held by the winners until the 1934 tournaments.

Players, please select your favorite partners and try your skill in match play. Call Mrs. C. E. Cooper or Mrs. R. A. Johnson to register for the game Friday.

We Do Our Part

The Farmer And Littlefield

Littlefield is a reliable place in which to make purchases of all kinds... a city in which the products of the farm can be sold to good advantage to the seller.

Ever since the founding of this city every effort has been exerted to make Littlefield the kind of a trading center that attracts people back day after day, Saturday after Saturday.

There is no particular reason why the foregoing statements should be written at this time, but from time to time it is in order to express appreciation of the people who have made our city possible and who have helped so much to make it grow and thrive, even under most trying national economic conditions. If it wasn't for the farmer and his family Littlefield wouldn't exist; we owe our every success to the farmer.

Littlefield appreciates the friendship of the farmers and their families.

We each have our problems, but the problems of all of us can best be solved by united effort. The better we know each other, the better we can work together.

Guaranteed Infertile

Eggs, guaranteed infertile last year, came into disrepute on account of carelessness on the part of some well intentioned people who did not take their guarantee seriously but put in all kinds of fresh eggs, representing them as the kind the buyers in distant markets could most safely use.

Dealers this year say the egg producers have been more careful, but that the price could, in the run of years, be made better if there would be no exceptions and everybody follow the rule. If you are one of those who do not take the guarantee seriously, please bear in mind that you are hurting yourselves and your neighbors. A temporary advantage you may obtain is dearly paid for later on.

Drive to Reopen Closed Banks

At President Roosevelt's direction an intensive campaign to reopen the nation's closed and restricted banks will be started within a few days.

We understand each other and the better we can work together.

Black-Draught Clears Up Sluggish Feeling

"I have used Theford's Black-Draught for constipation for a long time," writes Mrs. Frank Champion, of Wynne, Ark. "If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away, and in a day or two I feel like a new person. After many years of use we would not exchange Black-Draught for any medicine."

Hog Reduction Quota Increased

Instead of 4,000,000 pigs, the number to be bought for the farm administration in its emergency hog reduction campaign may be about 4,428,000, according to Dr. A. G. Black, chief of the hog production section.

Two factors are responsible. One was the rush of pigs to market as a result of the program and the other that many farmers in drouth stricken areas are being forced to market the swine because of their lack of feed. Farrowing sows will not have their

original quota of 1,000,000 raised. There is no occasion to increase it since from last reports only about 75,000 had been sent to market.

Black said processors at the following points had been given additional quotas: Oklahoma City, Okla., East St. Louis, Ill., St. Louis, Chicago, Kansas City, Wichita, Kansas, Houston, Texas, Fort Worth, Texas,

Arkansas City, Kansas. The government is paying premiums to the farmers who sell the pigs and sows at markets authorized to buy them. The end of the reduction campaign has been fixed for September 29.

GENUINE BAYER ASPIRIN DOES NOT HARM THE HEART

A SIMPLE STATEMENT OF FACT....

A kilo-watt hour is the unit of measurement for your electric service, just as a gallon of water or a pound of meat are units of measurement.

As recently as 1927 the average cost for a kilo-watt of electric service in the average home was 9 cents—today the average cost per kilo-watt hour is only a little over six cents, a decrease of nearly 33 1-3 per cent.

This decline in the cost of electric service has been made despite a large loss of business similar to other businesses, and an increase in taxes to the point where our taxes now constitute an amount equal to one-fourth of our entire operating expenses.

Realizing the low cost of your home electric service, we believe it advantageous for you to use more electricity for fans, refrigeration, cooking, washing, ironing and lighting, for economy reasons alone, not to mention comfort and convenience. Then, too, there's the matter of beauty in the home, and health. Plenty of light bulbs throughout the house will cause to keep interior beautiful throughout the year. Electric cleaners draw dirt from rugs and assure better health for youngsters as well as the older folks.

Take the word of a "Man about Gobi"

Next to a Camel Chevrolet gives most miles per gallon

CHEVROLET No argument about the camel. When it comes to miles per gallon, there's nothing in all the Gobi desert—or Sahara—or anywhere else—that can beat him. No argument about Chevrolet, either. It's the most economical form of full-size transportation on wheels. You can travel a long, long way in a Chevrolet Six without a single stop for gas or oil. In fact, you can get more miles out of a gallon of gas in a Chevrolet, than you can get in any other full-size car. The best proof of this is the way Chevrolet is being preferred by leading national business firms. These firms know their mileage figures. And today, Chevrolet is their first choice by an overwhelming count. Chevrolet is also first choice of the American public by the widest margin in history.

Barney Oldfield Coming To Amarillo

Attractions already signed up for the 10th annual Tri-State Fair, which will be held here September 23 to 30, indicate it to be the outstanding exposition of its history.

One of the main attractions will be Barney Oldfield, above, old maestro of the race track—cigar and all, who will appear September 30 at the race track behind the wheel of his "plow horse" which has turned "race horse."

This tractor, driven by Oldfield, recently set a world's record at the Wisconsin State Fair.

There are so many other attractions it is impossible to mention them all.

Another main feature will be the horses, with legalized betting.

Stoves, drums, pipe at Thaxton Bros.

There will be five days of racing, six races daily and purses of more than \$5,000. Race horses from eight states have entered.

Two nights of the huge exposition, September 28 and 29, the annual Fine Horse Show will be held. Lovers of beautiful horses will find two nights of perfect entertainment.

Championship prize fights will be held on the nights of September 23 and 30. The most expert pugilist are will be brought here.

There will be laughs, fun and frolic galore. Zeigler's shows, with a personnel of 250 people, 15 cars, 12 rides and 25 ride shows will be down the midway. Sam B. Dill's big three-ring circus, with Roberta Beeson,

greatest wire performer of the nation, may be seen twice daily.

A really new feature will be the Donkey Baseball Games, the nights of September 25, 26, 27 before the grandstand.

The baseball games will be played from the backs of trained donkeys.

More than \$15,000 will be offered in prizes and premiums during the fair. There will be the swine, cattle, poultry and agriculture shows, merchant and manufacturer exhibits.

The second day, September 24, of the fair will be turned over to the Amarillo Ministerial Association. A mammoth religious service will be held throughout the day.

MORATORIUM LAW DEC UNCONSTITUTIONAL

Texas' real estate moratorium has been held unconstitutional by the fourth court of civil appeals in Antonio in deciding a case appealed from Hidalgo county.

"Provisions of the house number 231, which attempt to per stay of trustee sales provided in deeds of trust are plainly unconstitutional and we therefore such provisions void and of effect," said the court's opinion by Judge W. O. Murray, a justice.

The law was passed by last legislature granting a year's moratorium to property owners from the loss of their property to court sales.

There was not much left to eat around the place after you sold off your feed, and we were left to rustle for ourselves. I sure has been a hard fight this summer—so hot and dry. We are wondering if you are going to treat us this way next year. I know you have not been receiving the usual returns, but all we want is just a chance this winter. IF YOU WILL ONLY BUY US SOME ECONOMY MINERALIZED EGG MASH, and give us lots of home grains, so we can grow some new clothes for the winter, we will GUARANTEE you in return eggs that will bring you a REAL PROFIT. We are wondering if you are going to forget us when your cotton check comes. Yours very truly, Mrs. Hen

Spade School News

We take this opportunity of expressing our gratitude to every person who purchased anything from our stands. It helped immensely. We believe we have the best patrons of any school in the state. Willing to cooperate on any project we launch, they usually cause us to put it over. We also take this opportunity of thanking the crowd for good behavior. In spite of the great crowd there were no rows or rough talk; it was a very fine group of people.

We invite everyone to attend the basketball game here Friday night. We will play Cotton Center.

It is easily seen that prosperity is returning. When someone dropped a penny last Friday, not a soul grabbed for it. Visit with us.

Crowded streets, chatefing humanity, the hum of business, barking of salesmen, row after row of automobiles, this was the impression left by the sight of Spade last Friday. It resembled a thriving metropolis. The two refreshment stands did a thriving business all day.

There were approximately 1800 people in the gym and on the grounds. The money from the stands will go to pay for the new basketball suits which were ordered last week.

Several notable speakers were present to honor the occasion. Members of the Holiday Association from all over Texas and New Mexico were present. However, the crowd was not as large as had been expected, due to general rains and bad weather.

W. Blalock.

Congress Likely To Be Asked to Revise Liquor Tax, Tariff

Believing prohibition repeal is inevitable, Chairman Harrison of the senate finance committee, said congress would be asked in January to revise the tax and tariff laws with a view to raising \$700,000,000 a year from liquor, wine and beer levies.

The Mississippian told newspapermen the entire \$700,000,000 could be raised through internal revenue taxation and that the tariff question would involve which foreign liquors are to be excluded and those permitted entry on a tariff basis.

Budget Balance Seen

Predicting the budget would be balanced under even present taxes with beer revenue surpassing all estimates and taxes on stock transfers jumping sharply, Harrison said the large incomes from liquor taxes would permit repeal of the special taxes levied at the last session to raise \$227,000,000.

Repeal of those taxes is required by law and would take effect on various dates after the end of prohibition. The taxes involved include the half cent boost in the gasoline levy, and the corporation dividend, capital stock and excess earnings taxes.

Harrison said there would be some question whether the internal revenue tax on liquors would be \$1.10 a gallon, as now carried on medicinal whiskey, or somewhere between that and the \$6.40 tax on liquor diverted to illegitimate channels. He believed, however, it would be around \$1.10.

VIOLATION OF LAW

A ruling from Washington recently closed a gap in regulations concerning the use of acreage retired from wheat. It will be a violation of the contract to shift food crops grown for home consumption, or feed crops for use of work stock on the farm, from land now in use to the contract acreage.

Previously the ruling simply had been that the 15 per cent taken out of wheat could be used for growing food or feed for home consumption. Some farmers who have been growing oats, for example, marketing part of the crop and feeding the remainder to their domestic stock, were understood to be considering planting the same area in oats, and marketing all of the crop while using the acres retired from wheat on which to grow feed for their work stock.

Side Quit Hurting, Got Stronger, Well; CARDUI Helped Her

Mrs. R. L. West, of Huntsville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I grew nervous over my condition—this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well."

Large Number Return To Work Through NRA

Secretary Perkins estimated Friday that 750,000 workers returned to work in August, and that payrolls in 89 of the principal manufacturing industries increased \$12,000,000 indicating "the success of the NRA and other efforts toward industrial recovery."

It was estimated that 380,000 found employment in factories and 370,000 in 16 non-manufacturing concerns in August.

The factory employment gain over July was 6.4 per cent and the payroll increase 11.6 per cent.

She estimated a 2,200,000 gain in employment in both manufacturing and non-manufacturing industries since March, the low point.

Payroll gains since March for factory workers was placed at \$40,000,000, a gain of 55.4 per cent.

Interpreting her statement at a press conference the Labor Secretary warned that the figures should not be taken too literally because employment was still 28.4 per cent below the normal average in 1926 and payrolls were 48 per cent below that year.

The August employment index reached the highest point in more than two years and the payroll figure was the highest since December, 1931.

"Factory payrolls moved faster than employment," Miss Perkins said, "indicating that purchasing power of factory workers was being to some extent revived."

Of the 89 industries surveyed, 81 reported increased employment last month, and 83 had higher payrolls, compared with July.

Chevrolet Report 68,650 Cars and Trucks For August

Domestic retail sales of Chevrolet cars and trucks as reported by dealers for August were 68,650. This is an increase of 39,420 units, or 134 per cent over the same month in 1932, according to H. J. Klingler, vice-president and general sales manager of the company.

Total sales for the year to September 1 were 441,405 units. Total sales for all of 1932 were 378,811. Thus the sales for eight months of 1933 exceed those of 12 months of 1932 by 62,594 or 16.5 per cent. The original sales objective for this year was set in June by Mr. Klingler when it became apparent that the upward trend of May and June was being sustained.

Not only did August distinguish itself by surpassing every month in 1932, but it was the fourth best August of 1927, 1928 and 1929.

SPADE P.-T. A. MEET THURSDAY

The Spade P.-T. A. met Thursday afternoon, Sept. 14, at 3 o'clock in the school gymnasium. In spite of the rain and muddy roads there was a good attendance and a good program.

The P.-T. A. formed a new resolution at this meeting to help the attendance record and give each one present the right to represent some child in the contest among the rooms. Those patrons who do not have children in school are urged to take some child that has no one to represent him, and act as his representative on attending the P.-T. A., and count as his mother in the contest. In this manner many children who are now not represented may have someone to count as their parents. The women who have no children in school are asked to find a child to "adopt" right away. See some officer of the P.-T. A. for instructions and come to the next meeting prepared to count in the contest as the mother of some child.

15c COTTON ASKED

A plea for 15 cent cotton by the Southern farmers was brought to Washington Monday last by 200 business men, farmers and political leaders representing virtually every state where the staple is a big money crop.

The march on Washington originated at a meeting in Columbia, S. C., where a four point program including abandonment of the cotton processing tax and inflation of the currency was adopted.

Fixing the 1934 cotton crop at 9,000,000 bales and setting a minimum price of 15 cents a pound for cotton were the other main points asked by the southerners.

SUGGESTED FARM CODE IS APPROVED AT FARM HOLIDAY MEETING FRIDAY

A suggested farm code, of which the chief feature is the obtaining for the farmer at least cost of production, was adopted at the state convention of the Farm Holiday association, which was held at Spade last Friday.

The suggested code will be presented at a meeting of the board of the National Farm Holiday association, which will be held in Des Moines, Iowa, on September 22.

The action of the state association was in line with a suggestion of Milo Reno, president of the National association.

The proposed code will be presented to the national board by a committee of the state association, which will be in Des Moines for the meeting on September 22.

This committee consists of Judge L. Gough of Amarillo, president of the Texas state association, as chairman, and R. S. Norman, Plainview, C. W. Smiley, Littlefield, and W. S. Strain, Hart's Camp.

The code embodies all features of fair competition, and is designed to place the farmer in a more favorable economic position.

Allege Market Manipulation The association went on record as deploring and condemning alleged wheat and cotton market manipulations which, in the opinion of the farmers' organization, are detrimental to the farmers' interests in that the market is declared to rise and fall without any relation to the laws of supply and demand.

A number of other resolutions were presented and approved, all directed toward improving the economic position of the farmer.

The morning session was given over to routine business and a few brief talks.

Afternoon Session The afternoon session was devoted to the principle talks of the day, and to the discussing and approving of resolutions.

The principal address was delivered by Rev. A. W. Cameron of Clovis, president of the New Mexico Farm Holiday association.

The address of Mr. Cameron was followed by an address by Rev. J. Frank Mason of Clovis, state lecturer for the New Mexico association, who is in this section of the county at this time doing organization work for the Texas Farm Holiday association.

There were numerous other speakers, some of them from distant points.

The morning and afternoon sessions were presided over by Judge Gough.

Several hundred residents of Lamb

and other counties and residents of New Mexico were in attendance at the convention, which was unanimously voted the most successful which has been held by the Texas association. The Texans were very much pleased at the presence of so large a number from New Mexico. These men were very helpful in the success of the convention.

The Texas Farm Holiday association wishes to express its appreciation to all who in any way contributed to the success of the state meeting.

The association wishes to make particular mention of the splendid music furnished by the Anton band. Merchants of Littlefield, Anton, Spade, Hart's Camp and other places also assisted in various ways in the success of the convention, and their cooperation is very much appreciated.

"Too much cannot be said in praise of the Spade unit of the Farm Holiday association and the people of the Spade community generally for the splendid way in which they entertained and extended courtesies to the association members and their guests," said C. W. Smiley, state secretary.

"We were certainly royally treated by the people of Spade," he added.

Lubbock Fair Boosters Visit

Twenty-two automobiles, led by Lubbock business men, accompanied by the Lubbock High School Western band, visited Littlefield Tuesday morning on a good will trip to handle South Plains Fair, which is to be held in Lubbock October 2 to 5. This trip was first scheduled for Friday last, but on account of late weather was postponed until Tuesday.

The automobile caravan arrived about 9:15, and a program was given in front of the High School by the Lubbock High School band, the children forming outside to joy the program.

Joe Hale, secretary-manager of the Littlefield Chamber of Commerce, gave the welcome address, which was followed by a talk on "The Fair" by Jess Levens, attorney of Lubbock.

The booster group then proceeded to the downtown section, and the musical program was repeated on Fifth Avenue and Fourth Street.

From Littlefield the good will trip was continued to Amherst, Sudan, Muleshoe, Morton, Levelland, and Smeyer. The schedule called for arrival back in Lubbock at 4:30 p. m.

(g) If any person shall sell or offer for sale, within the corporate limits of the City of Littlefield, whether as principal agent, any beer unless the same be in or from the original container bearing the original label with the full name of the brewer or manufacturer of such beer both upon the label or bottle and/or upon the cap or cork of such bottle or upon the keg, or

(h) If any distributor or retail dealer whose license does not authorize the sale of beer for consumption on the premises, shall permit the beer to be consumed on the premises, or

upon conviction thereof, shall be fined in any sum not less than Five Dollars (\$5.00) and not more than Two Hundred Dollars (\$200.00).

SECTION 22: If any Section, paragraph, sentence or phrase of this Ordinance be invalid, then such invalid portion shall not in any way affect the remainder of this Ordinance, and it is hereby declared as the intent of the City Commission of the City of Littlefield, that the remainder of this Ordinance would have been passed by the City Commission, notwithstanding the invalidity of such section, paragraph, sentence, or phrase, and that each part of this Ordinance has been passed upon and adopted irrespective of the remaining portions thereof.

SECTION 23: The fact that House Bill No. 122 passed by the 43rd Legislature of the State of Texas, became effective on the 15th day of September, 1933, and that persons, firms and corporations are entitled to receive license authorized by the State of Texas to engage in the business of manufacturing, distributing, and selling beer, within the corporate limits of the City of Littlefield, and that persons are now contemplating engaging in the business of manufacturing, brewing, selling or distributing beer within the City of Littlefield, and it is important that such persons know as soon as possible the amount of license fees which will be required to be paid by them, and the fact that it is necessary and expedient for the City of Littlefield to license such persons who may lawfully engage in such business, and that it is necessary that the City should have an Ordinance regulating the conducting of such businesses, creates an emergency and public necessity requiring the rule that Ordinances shall be read on three separate days or meetings, prior to final passage, be suspended, and such rule is hereby suspended, and shall be in full force and effect from and after its passage, approval and publication as required by law.

INTRODUCED and finally passed and approved at a regular meeting of the City Commission, all members being present and voting for passage of same, this 18th day of September, A. D., 1933.

3.2 IS PLACED ON SALE MONDAY IN LITTLEFIELD; SIX RETAILERS AND 2 WHOLESALERS HANDLE BEVERAGE

Sale of 3.2 beer within the city limits of Littlefield, which was approved by the voters in an election Saturday, September 9, began at 11 a. m. Monday, after the necessary licenses had been granted at Olton.

Beer is for sale at five cafes and the Littlefield Hotel. The cafes are the Palace Confectionery, Sweet Adeline Sandwich Shop, Big Sign Cafe, Hamburger King, and the Royal Cafe.

There are two wholesalers, Jim Etter and the Carter-McDonald Co.

Sale of 3.2 beer has attracted large numbers to Littlefield, many from distant points. Long before the time set for the commencing of the sale of beer, large numbers gathered at the places where the beverage was to be placed on sale. A thriving business was enjoyed throughout Monday afternoon and Monday night. Tuesday and Wednesday the volume was lighter than on the first day of the sale of the beverage.

Assistant Attorney General's Ruling

Elbert Hooper, first assistant attorney general, ruled recently that transportation of beer into dry territories was not prohibited under the law regulating the manufacture and sale of beverages containing not more than 3.2 per cent alcohol.

Hooper said it would be lawful for a person to purchase beer in wet territory and transport it to his home for personal consumption. It also would be legal to have it delivered in dry territory by transportation agencies, he ruled.

The law prohibits places whose principal business is sale of beer from from disposing of the beverage between the hours of 12 midnight and 7 a. m. of any day.

Lamb County First To Raise Quota For Storm Stricken Area

Lamb county was the first county in Texas to raise its quota for the storm stricken section of the Rio Grande Valley, and remit to the National Red Cross Headquarters at St. Louis, Mo., as announced by Rev. J. F. Grizzle, County Chairman.

Mr. Grizzle contributes this record to the prompt action of Carl Arnold, County Relief Chairman, who, he says, went to work at once to collect the funds upon being advised of the telegram received by the County Chairman setting out Lamb county's quota. This telegram was received Wednesday morning, September 6, and the check was mailed to National Headquarters Monday, September 11.

Mr. Grizzle says that the records show that Lamb county has received between \$35.00 and \$40.00 from the Red Cross organization for each dollar contributed by this county to the cause.

Mr. Grizzle also said: "New Red Cross goods are arriving every day, and within the next few days representatives from all branches of this county will meet at the Littlefield office, and the new goods will be divided between the different branches. Besides overalls, socks and hosiery, we now have invoices for 1200 yards of cotton goods to be distributed and made into school clothing for all the children of the different school districts of the county. The ladies of the Baptist, Methodist and Presbyterian churches will meet at the city hall and make garments from the new goods for the needy within the next few days."

"The County Chapter, as well as the local Littlefield branch, solicits the cooperation and good will of the citizenship of this city and county."

"County roll call workers will be at work in the county in a short time."

DAIRY DEMONSTRATOR REPORTS INCREASE IN BUTTER FAT PER COW

Roy B. McQuatters, Littlefield dairy demonstrator, cooperating with D. A. Adam, county agent, closed his second year, and upon comparing his second year record with his first, found he has raised the average butter fat per cow 130.2 pounds.

Mr. McQuatters attributes this to close culling and the addition of better cows in his herd, and in his feeding operations he has built his ration around good pastures and soy bean hay.

Average for this herd is five cows with a total production of 35,990.5 pounds of milk, with an average test of 4.9 and a total butter fat production of 1788.95 pounds. Total value of skim milk and butter fat is \$471.35 with an average price of butter fat for the year of 18.7c.

Pasture was charged at \$26.60. Total cost of roughness, 8060 pounds, worth \$19.02; concentrates fed was 13,986 pounds, worth \$91.15, giving a total feed cost of \$116.77 and net profit above feed cost of \$334.58. Feed cost per pound of butter fat was .077 cents.

Mr. McQuatters stated: "That the cream check isn't very large, but it surely is a life saver during this depression, especially so, when there is actual profit in the check through the application of practical methods in production."

investigate any complaints made in regard to NRA compliance.

In this regard Dr. Woods points out that all complaints must be filed in writing, duly signed, with the chairman of the Compliance Board. The representative will then call upon the NRA employer complained of, and secure his conception of the facts, and if the complaint is not entirely groundless, or if the cause of complaint has not already been corrected, he will be given every opportunity to comply with the President's agreement. When all other efforts have failed to secure compliance, the Board will report the facts to the Administration at Washington with recommendations to withdraw the Blue Eagle, as the local board will have no authority within themselves to do this. In cases where necessary the Federal authority will take this action.

With the appointment of the compliance board, Dr. Woods said, "this will eliminate all whispered complaints or criticisms on the part of the public, for if they know it to be a fact that someone is not complying with NRA, they may file their written complaint, and if they do not know it to be a fact, they should keep quiet on the subject."

COMMITMENT SECURED

In an effort to keep the Government's butchering campaign operating long enough so that Texas pig raisers might dispose of their stock, Representative Marvin Jones obtained from the Department of Agriculture the commitment that if the recent increased allocation of 10,000 pigs to Fort Worth was not enough, the department would make sufficient additional allotments to keep the campaign in operation until the end of the week, which will be another week.
