Total Of \$7,906.25 In "E" Bonds Sold

According to C. O. Stone, County Chairman of the Fourth War Loan Drive, a total of \$7,906.25 in "E" Bonds were sold as of Saturday last, or about 25 per cent of the "E" Bond quota of \$308,000 set by the State.

In commenting on this figure, Mr. Stone said: "Of course, this is low, and we are appealing to every man, woman and child in Lamb County to buy bonds. Eight days of our working time have already gone, and we are all going to have to do our part if we are going to put this campaign over. I am urging on everyone to stop long enough to think of his or her responsibility, and then do their duty. It is everybody's job, and while we know that each one will do his part, we only have until February 15 to sell the County's quota in war bonds—\$690,000. Lamb County has always done her share, and we know that everyone plans to do his or her duty, but we are appealing to everyone to do this as soon as possible, and in that way cooperate with the various committees in putting the Fourth War Loan over. Let's Everyone BACK THE ATTACK AND HASTEN VICTORY BY THE PURCHASE OF WAR BONDS TODAY."

Mr. Stone stated that a report on the sale of other series of the bonds would be made later.

Seaman Cecil E. Woodworth Victim Of Meningitis

C. W. Woodworth received a wire Monday morning to the effect that his son, Cecil Elmer Woodworth, S 2-C, was confined in the U. S. Naval Hospital, San Diego, Calif., seriously ill with spinal meningitis, and that the Military authorities would keep him informed as to his condition.

On seeking advice from Dr. C. E. Payne, Mr. and Mrs. Woodworth, who were thinking of going to San Diego to be with their son, were informed that this type of meningitis is very contagious, and that he would be quarantined, and even though they were to make the trip, in all probability they would not be allowed to see the sick man.

A telegram was sent Monday by the local Red Cross office asking for a report on Seaman Woodworth's condition, also a prognosis, inquiring if it would be possible for father to see son, and if he made the trip to San Diego, could he get lodging accommodation.

Through the Red Cross office Tuesday morning Mr. and Mrs. Woodworth received a telegram to the effect that their son was responding to treatment; that his condition was improved; that father's presence not necessary, but that he might visit San Diego, but accommodations were scarce, and that a letter would follow.

C. W. Woodworth, Jr., brother of the sick youth, employed at Lockheed Aircraft at Los Angeles, was advised of his brother's condition, and is expected to make a trip to San Diego in the near future.

Funeral For Mrs. Velta
Jackson Is Held Sunday
Morning At Anton

Mrs. Velta Jackson, 30, of Anton, passed away at a local hospital at 3 p. m. Friday as a result of burns sustained in a fire Thursday about noon, which did estimated damages of between \$15,000 and \$20,000 to the Hodge's Service Station at Anton, where she was employed.

L. W. Hodge, owner of the station, also injured in the fire, and in a serious condition from burns, has remained in the Littlefield Hospital and Clinic since the accident occurred. His condition Wednesday night was reported as improved.

Several Rush to Rescue

Deputy Sheriff Jack Anders of Anton, who was passing by the station at the time of the fire, and two negroes, subdued the flames, which engulfed Hodge and Mrs. Jackson. In an effort to save him from getting burned, the clothes of Mr. Hodge, which were ablaze, were torn from his body.

THIS FARM BOY GAVE ALL...

You Are Only Asked To Lend Your Money!

LIUTENANT (j.g.) PAUL BAKER, Navy pilot, with five Jap aircraft to his credit in the day's fighting, was hovering over the aircraft carrier Lexington at dusk, awaiting the signal to land. His gas tanks were nearly empty. Suddenly, over the horizon Jap planes were spotted. It was feared the Japs might discover the Lexington and try a suicide attempt. Baker's order to land never came. His landing lights might have given the Lexington's position away. Without hesitation, Lieutenant Baker turned his plane away from the big carrier and headed for the open sea, luring the Japs after him. He disappeared into the night, never to be seen again. The Lexington was safe.

You can buy extra Bonds!

Get Ready For The Day When Johnny Comes Marching Home

Paul Baker had a big decision to make. It took him about two seconds.

We, at home, also have a decision to make. We are asked to buy extra War Bonds at once. Our boys at the front are depending on us in this Fourth War Loan. Our patriotic impulse is to say "yes" first and look around for the money afterwards. Let us obey that impulse! It will do us good in more ways than one!

Paul Baker sized his situation up in two seconds... and acted. We, whose duty is so trifling by comparison, need scarcely more time in which to do ours!

Think! We are asked to make an investment, not a sacrifice! We are asked to invest the money we would normally use to replace automobiles or farm machinery or repair buildings and fences. We are asked to establish

a depreciation reserve which will be available for replacements after the war. We are asked to build up a financial reserve for unfavorable years that may come later, or for the education of the children, unexpected hospital bills, or the payment of taxes and debts.

War Bonds are the best form of financial reserve ever offered you. Your money helps finance the war. By postponing unnecessary spending you speed production of planes and munitions to win the war. The gradual expenditure of your reserve after the war will provide jobs for returning soldiers and help stabilize the nation's finances in the postwar adjustment period.

Ask yourself: Have I a single valid reason why I should not buy extra War Bonds?

Then, like Paul Baker, make your decision and act!

If you have a boy in the service, think what it will mean to have him come back and share with you the joy of equipping the farm with the best in tractors and other machinery. Think what it can mean for you to have the cash to put the children through college. Think what it can mean, a few years hence, to have new farm buildings or a new home or complete modern conveniences about the place.

To thousands upon thousands of farm and ranch owners who have bought extra War Bonds, these things are assured. For the first time in their lives they are going to be able to have the things they've wanted. Some of them are your neighbors. How about you?

Of course no one should cash a Bond unless he has to; but if an emergency comes along, your War Bonds are like money in the bank. Uncle Sam will redeem them in cash—at full purchase price—any time after you've held them 60 days. Don't hold back a single dollar unnecessarily from the purchase of War Bonds. YOUR HELP IS NEEDED.

The Fourth War Loan is on! Your dollars are needed as much by Uncle Sam today as you will be needing them tomorrow.

This window sticker identifies you as the purchaser of extra War Bonds during the Fourth War Loan. It is a badge of honor to be displayed with pride. Be the first in your neighborhood to have one. Buy an extra War Bond today!

IT'S IN THE AIR. You can feel it, every time the Axis is struck. This is the climax year, the year of decision.

In history, 1944 will be the big year of the war—every stroke for victory counts more now. That's why it's vitally important for every American to beat his post, doing his part right now.

You, personally, have an important job in winning the war—buying War Bonds. It's not glamorous—no, not even a sacrifice, really, because you are only lending your money, to be returned with

interest. But it is essential to complete victory.

Your part in this year of decision is at least one extra \$100 Bond, above your regular Bond buying. That is your minimum individual quota. But don't stop there. Remember wars are won only by all-out effort. So buy \$200, \$300, \$500 worth—buy more than you can afford. And buy your Bonds where you work—at the plant or at the office.

Your country is counting on you—let's make the year of decision OUR year!

This sticker in your window means you have bought 4th War Loan securities.

Dear Friends:

We are out of material at the surgical dressing room again and we want to express our appreciation for the grand response of our local women in helping to complete this work so quickly. Please don't feel that you are not needed so badly because we run out of material, but come right on back to work as soon as the next shipment comes in. We had more workers this month than any month since the other two rooms were opened in the county.

We are making an appeal for used clothing to be distributed locally among the needy. Especially I need a warm coat for a size 12 and 10 year old girl. Also some warm clothing for a boy 9 and a little girl 5 years old. Anyone having old clothing not in use please bring them to the Red Cross Office as we are having calls for clothing quite frequent.

Anyone having a desk they would like to contribute to the boys training to be pilots at the South Plains Army Air Field please get in touch with me at the Red Cross Office.

Sincerely Yours,
MRS. LYLE BRANDON,

McKnight Is Graduated From Bombardier School

Completing an intensive six weeks course in the latest bombing tactics and advanced bombardier instruction techniques, Lieut. Elmer B. McKnight, of Littlefield, Texas, recently was graduated from the Central Bombardier Instructors School at the Midland Army Air Field, of the nation's bombardier training program. He is the son of Mrs. Larado McKnight of Littlefield.

This Central Instructor's School serves as a "refresher" for the professors of Axis blasting. But its training goes far beyond that covered in cadet bombardier schools. The techniques it teaches are the latest, and in addition to intelligence reports from the combat zones, it receives a constant flow of combat veterans who provide first-hand knowledge of how to blow the enemy off the map.

Everything that could possibly improve the already deadly work of the bombardier is included in the curriculum at the instructors school. Bombs and bombsights, of course, get a thorough going over, and in addition there are courses in navigation, meteorology, target identification, instrument calibration and maintenance, armament, automatic pilot, and many other subjects listed as "secret."

The professors of destruction also learn to teach their deadly art during their training here, getting schooling in rating procedure, methods and techniques, and classroom discipline; learning to develop methods in the classroom and then to test them in action, in high flying "laboratories."

When they complete the course at this instructors school, they are, according to Army Air Forces officials, "the most thoroughly trained bombardier in the world."

Red Cross Serves On Many Fronts

Washington, D. C.—As the global conflict grows in intensity, and the crucial stage of the war is at hand, the American Red Cross is "stepping" up its activities to keep pace with the growing needs of the Armed Forces, Chairman Norman H. Davis, who recently concluded a tour of inspection to the European theatres, said.

The American Red Cross now has men and women workers with troops in 53 strategic continental and insular areas. In Europe, Africa, and the fronts of the Far East, Red Cross workers either went into the theatres with invasion forces or else followed within a short time.

Services to the armed forces are not confined to the activities of Red Cross workers abroad, for practically every chapter in America is engaged in making surgical dressings; in Home Service assistance, in collecting blood, or in some activity for members of the Armed Forces.

The American Red Cross is now operating 35 blood donor centers and 63 mobile units for the collection of the precious fluid. The Army and Navy have asked for 11,000,000 pints of blood to be processed into the miracle medicine—blood plasma. Already, 6,000,000 pints have been collected and the centers are going ahead with their task at the rate of 100,000 pints weekly.

During the past year, 6,475,000 emergency cases were handled by Home Service, Camp and Hospital workers and the 3,756 chapters in the country for soldiers, ex-servicemen and their families. These emergency cases included every conceivable task—from buying pigs for a boy's Christmas present, to delivering tragic messages of death. Daily thousands of cases concerning allotments which have been delayed, emergency loans, or other problems are handled throughout the nation. Every chapter is obligated by the Congressional charter to conduct Home Service. In 2,153 of the smaller chapters, this work is done entirely by volunteers.

The Production Corps of the American Red Cross has made 925,000,000 surgical dressings for the Army and Navy during the past year and 12,000,000 knitted and sewn garments, and has provided departing troops with 2,500,000 kit bags filled with comfort articles. The Production Corps is the largest of the volunteer services. It is estimated that more than 4,000,000 volunteers are now aiding in the gigantic tasks of the American Red Cross. These workers in 1943 contributed 256,491,827 hours of labor.

The organization is now operating 375 clubs and recreation centers in foreign theatres of operation and 85 clubmobiles, which visit the smaller outlying camps on these foreign battlefronts. The American Red Cross has furnished 2,300 sunrooms in military hospitals, and 245 recreational buildings.

Four centers are now being operated—in Philadelphia, New York, Chicago and St. Louis—packing food parcels to be shipped to United Nations prisoners of war. The total packages packed and shipped number 5,390,000. The food parcels, designed to offset the vitamin deficiency of prison diet, are shipped to the prisoners through the International Red Cross Committee at Geneva, Switzerland. Centers are manned entirely by volunteer groups and the parcels are packed on assembly lines. More than 5,000 women are enrolled as packers at the four centers.

Farm Sales Increase

United States farm real estate values rose 3 per cent in the four months ending November 1, and if the present level of voluntary transfers of property is maintained through the winter, sales volume for the real estate year, 1943-44, will exceed that of any early year of record, including the boom year, 1919-20, according to the Bureau of Agricultural Economics of the United States Department of Agriculture.

In regions of greatest activity, non-farmer buyers were of continuing or increasing importance, although a substantial amount of land was going into active-farmer ownership.

Average values in the four months ending November 1 rose in all geographic divisions and in all but six states. Increases as high as 6 per cent occurred in a number of Mountain and Pacific states. During the past year values have risen 15 per cent. Nine states showed the highest rate of increase on record outside the boom year 1919-20.

Measured from 1935-39 averages, values have increased almost one-half in the East and South Central States and about one-third in the East North Central, South Atlantic, Mountain, and Pacific States. Rises in other geographic divisions ranged from 21 per cent in the West South Central States down to 10 per cent in New England.

A cargo valued at \$1,500,000 was shipped to prisoners of war held in the Far East on the recent trip of the Gripsholm. Pointing with pride at the past accomplishments both on the home front and abroad, Chairman Davis said activities of the first two years of the Red Cross services in war time would be dwarfed by the staggering tasks ahead of the organization.

"The Red Cross spirit springs from human desire to alleviate suffering and pain in war and times of disaster," Chairman Davis said. "In this war, we have carried that spirit to every part of the globe where American men and women are serving this nation. Bringing that same spirit back from the battle fronts, the Red Cross has inaugurated a new arm of protection—aid to the disabled servicemen in the interim following his discharge from service and until he begins to receive government benefits."

Brings Plane Here From Amarillo In One Hour Only

Operating a plane has gotten to be such a habit with certain local business men that when they want to go any place in a hurry they just naturally crawl into their plane, and off they go. When Mr. and Mrs. W. J. Chesher received a message from Mrs. Chesher's brother, George Stogner of Oklahoma City, that he would arrive in Amarillo by train Saturday afternoon, Mr. Chesher went by plane to meet his brother-in-law, making the trip to the Panhandle City in one hour and 15 minutes. Returning with his passenger it took him only one hour to make the trip to Littlefield, which is about 100 miles flying distance.

Mr. Stogner will spend a few days here.

Salvation Army Financial Drive To Get Underway

Plans are underway for the annual campaign to raise funds for the local unit of the Salvation Army, which will be staged at an early date.

According to Capt. Ivor J. Williams, in charge of the work here, he will call a meeting of the members of the Salvation Army Advisory Board in the near future when plans will be made.

HEN BELONGING TO J. F. WOODY LAYS LARGE ROUND EGGS

J. F. Woody of six miles east and three miles north of Littlefield has a hen which lays large round eggs. Saturday last he brought three of these eggs to the Leader office. One weighed four ounces, one 3½ ounces and one 3 ounces.

On inquiring as to the kind of bird which laid this unusual egg, Mr. Woody said it was a cross between a White Leghorn and an Austria White hen. He also said this particular hen had laid six eggs.

January Quota Of Dressings Completed

Work was completed Thursday on the January quota of surgical dressings at the local Red Cross room, and work will be resumed again as soon as a new shipment of materials arrives.

Seaman Second Class Willie Bradley, son of Mrs. H. W. Bradley of this city, completed last week a special course in plane phase and radio at Memphis, Tenn., and has been promoted to Petty Officer, Third Class, which is the same rating in his branch of the service as Sergeant is in the Army. It is reported that Seaman Bradley was one of 17 out of a total class of 170 to make this rating. He expects to be stationed at Memphis, where he will be instructor of Naval-Aviation.

Sgt. George E. Stevenson, Cook in the Chemical Department, stationed "somewhere in England," who has been in the service nearly two years, and in England about three months, composed and sent his wife, who makes her with her parents, Mr. and Mrs. Coy Hollon, of Spade, the following prayer:

"MY PRAYER TO YOU"

"Dear God, please take care of her,
Wherever she may be;
Watch over her and comfort her,
And keep her safe for me.

"Please give her strength and courage,
God, to bear the aching pain
That she must feel for all the things here,
She longs to see again.

"Thank You, Dear God, for love like ours
That reaches o'er the sea,
And thank You, God, for keeping us
Together spiritually.

"Please keep her trusting, loving me
Until we meet again,
And tell her every night how much
I love her, God—Amen."

Sgt. Kennedy has been overseas a year, and in the service 18 months. He attended Tech, taking a pre-law course. He is in the Signal Corps.

He also said in his letter that he didn't mind staying over there a "little longer" if it would help get the war over soon.

The Navy Department casualty list for publication in papers of Tuesday, January 18, 1944, includes the following name of an Olton man and his next of kin:

**Farmers Receive
AAA Payments**

The New Year for thousands of Texas farmers will be brightened by the receipt of AAA payments which they have earned for building soil fertility and increasing food production for the war effort.

B. F. Vance, State AAA administrator, announced recently that payments covering 138,804 applications have already been made to over 195,000 producers, and the pay off program is just getting under full headway.

Under the 1943 AAA Agricultural Conservation Program payments totaling \$38,644,000 will be made to Texas' farmers who cooperated in the program, the Administrator said. Payments for 1943 will include \$16,854,000 for cotton; \$2,622,000 for wheat; \$100,000 for Irish potatoes; \$250,000 for fresh vegetables; and \$14,547,000 for soil-building practices.

**Simplification In
Income Tax Returns
Is In Prospect**

(Special to Leader)

Washington, D. C.—Congressman George Mahon, who himself voted against the present complicated income tax law, stated in Washington this week that he felt confident the regulations would be simplified but simplification would probably be too late to be of assistance before March 15. He said that one of the most frequent and justified complaints which he heard during his recent visit to West Texas was in regard to complicated tax returns. Mahon explained that simplification for the small income tax payer

**Lt. Smith Wounded
In New Guinea**

Lieut. J. Floyd Smith, son of Mr. and Mrs. E. F. Smith of 2521 Twenty-sixth Street, Lubbock, and grandson of Mr. and Mrs. T. M. Springer, formerly of three miles east of town, but now making their home with Mr. and Mrs. Smith, has been wounded in action in New Guinea, the War Department announced last week.

Lieut. Smith is a pilot in a fighter squadron.

Mr. and Mrs. Springer had lived in the Littlefield area for many years, and until they sold their outstanding farm, with several sets of improvements to Mr. Pritchard of Anton, who with his family now occupy the Springer place. Mr. and Mrs. Springer left Littlefield about a month ago for Lubbock. They planned to live for a time in the Smith residence, until they could find a suitable home of their own.

**TO START USE OF
NEW RATION TOKENS
ON FEBRUARY 21**

The nation's retail grocers will begin the use of the new ration tokens on February 21, when housewives will begin to receive them as change in the purchase of rationed food for points.

The new token plan will enable the housewife to buy about the same amount of rationed processed foods and meats-fats as she now buys, according to J. Doyle Settle, district OPA rationing executive.

The present 16 points for meats and fats becoming valid as the beginning of each week roughly total 64 points a month. Under the token plan 30 points (three stamps) will become valid at the beginning of each two weeks period, a total of approximately 60 points each month. For processed foods, 48 points become valid each month. Under the token plan 50 points will become valid the first of each month.

The tokens are red and blue in color. The red ones will be used for meats-fats and the blues will be used for processed foods. They are about the size of a dime and have a point value of one each.

Under the token plan each stamp for meat or processed foods, regardless of the printed designation, will have a point value of 10. Sugar is not affected. Tokens will be issued only as change in bona fide purchases, and only enough tokens will be issued as change to reach the value of the number of stamps nearest the point purchase. In other words, a purchase involving 27 points will be paid for with three ten-point stamps, and change of three tokens will be given by the grocer. The supply of tokens will not permit the grocer to exchange them for more stamps than are needed for the purchase, and grocers will not be permitted to change stamps for tokens where no bona fide purchase is made.

Stamps will be valid for a period of 12 weeks with a new series of stamps and should eliminate the buying rushes incident to the expiration of short validity periods.

Consumers are urged to familiarize themselves with the use of tokens, and to cooperate in every possible manner with the retail grocer in distributing them.

The attention of housewives is called to the fact that it will still be necessary to present their war ration books to the grocers, and to tear the stamps out of the books in the presence of the grocer. Loose stamps may not be accepted by the grocer.

Consumers' war ration books should be carefully safe-guarded, as War Ration Book Four will probably have to last for the duration, and will be difficult to replace if lost.

was attainable but cautioned that in cases where large incomes and complicated transactions are involved, many of the regulations would have to remain highly technical in order to plug loopholes and prevent loss of revenue.

**Be Quick To Treat
Bronchitis**

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

WILL BE GRANTED GASOLINE IN CASE OF SOLDIER'S ILLNESS
 To aid servicemen in recuperating from illness or wounds received while on active duty, the Office of the Administration today announced that they may be issued special gasoline rations for use in traveling and from their homes or their places of convalescence. The action was taken at the re-

quest of the War and Navy Departments which said that the use of an automobile may, in some cases, aid greatly in a serviceman's recovery to health. Today's amendment provides that this special ration, covering the needed gasoline is to be issued upon presentation of leave papers to a local board, together with a letter from the attending medical officer certifying that transportation by automobile, rather than by any other

Two of these were in the Navy and one in the Army. Boys from this school are scattered all over the world in every zone of action. This community has a right to be proud of them. This pride should be transplanted into action by buying War Bonds during this Fourth War Loan Drive. In the third drive,
