Royal Flora, 30-month-old Guernsey, also won first in her class. These cows have recently been purchased by Mr. K. K. Kent of Sudan. This is a start that should pay Mr. Kent.

Mr. Ellis, of Earth, showed his registered Guernsey, and had a 30-month-old cow that won the production contest in her class.

## You Can Help Electrify Rural Lamb County 100 per cent

Do you have electric service on your farm? Are you included in the K or L section which will be constructed upon the arrival of wire?

Does your line application meet the required revenue of \$7 per mile? If not, contact your REA office in Littlefield, because we are preparing another application to request funds for constructing new lines.

It is regrettable but, with the acute shortage of some materials, it takes several years to construct a line after all applications are in shape. If your application is not in shape, see about it today.

The REA now serves 79 per cent of all farms within its territory, and hopes to make it 100 per cent. In order to do this, the help of all has been requested.

## Quonset Hut Under Construction By Veterans of Foreign Wars

Construction is underway by the Veterans of Foreign Wars on the erection of a quonset hut, a circular type, all-steel building. Work got started on this structure April 10, and it is expected to be completed this week.

BUILDING IS 40 BY 100 FEET

This building will be available to the Fair Association for seven days in the year, and used by the veterans the balance of the time. It is being constructed on the Fair grounds and due south of the Memorial hospital.

The project will represent an investment of about \$13,800. The trustees of the college grounds contributed \$4800 towards the cost of the structure, and the Veterans of Foreign Wars are raising the balance, according to J. E. Chisholm Jr., com.

## R. T. Badger Deeds Eight Lots to City For Park Purposes

R. T. Badger, former Littlefield resident but now of Austin, last week deeded a number of lots in the Highway Addition to the city of Littlefield for the purpose of a park in that section.

Included were lots 3, 4, 5, 6, 7, 8, 9 and 10, in block 11, Highway Addition.

This is, indeed, a very noble deed for Mr. Badger to provide a park for the use of the people living in that section of the city, and he is to be highly commended for his generosity.

A condition in the deed is to the effect that this property can be used for no other purpose than a park.

## Rev. Carter McKemy To Preach April 30 at Presbyterian Church

Rev. Carter McKemy, pastor of the Presbyterian church at Cleburne, Texas, will be in Littlefield next Wednesday, April 30, and will preach at the Presbyterian church on Wednesday evening at 8 o'clock.

All members of the church are especially urged to be present, and all others are invited.

Mr. and Mrs. Paul Timmons and little daughter, of Amarillo, spent the weekend with Mrs. Timmons' parents, Mr. and Mrs. F. A. Bills.

Y. Onstott, of the Batton hotel, was a Lubbock visitor Saturday.

## Study Being Made To Decide on Plans For Best Program

Fair Will Be Held Late In September Or Early October

Plans are underway for the holding of a fair in Littlefield this Fall. A supper-meeting, for the purpose of discussing and organizing a permanent fair association, was held at the Starr Drive-Inn Cafe Thursday evening, at which farmers and stock raisers from over the county were invited to attend.

E. C. Curdiss Presides at Meeting  
E. C. Cundiff, secretary of the Littlefield Chamber of Commerce, presided at the meeting.

Meeting In Favor of Fair  
It was the unanimous opinion of those attending that a fair should be held, and it was decided that Mr. Cundiff and Jess Elms, chairman of the agriculture committee, would go to Lubbock and discuss the matter with the Lubbock County Fair Association, and get some pointers from them as to the organization of a permanent fair association, and the holding of a fair.

Fair Directors Named  
Mr. Elms, as chairman of the agricultural committee of the Chamber of Commerce, named the following to act as fair directors at the meeting Thursday night:

Truitt Sides, Olton; W. G. Sanderson, Springlake; Floyd Burgess, Wilcox; Branscum, Pleasant Valley; Ernest Black, Amherst; A. L. Perry, Fieldton; and V. H. Diersing, Pampa.

Another Meeting to Be Called  
Another meeting will be called in about two weeks' time, when it is hoped representatives from every part of the county will be present, and that a permanent organization will be set up.

The fairgrounds, containing 33 acres, are located in the southeast part of town, on Highway 51.

To Build Sheds and Stock Pens  
Plans are now being discussed for the erection of stock pens and sheds on the fair grounds.

The Veterans of Foreign Wars' organization is erecting a building on the fair grounds, due south of the Lamb County Memorial hospital building, which will be used jointly by the Veterans and also by the fair association. The fair association will use the building seven days out of the year and the Veterans the balance of the time.

It is expected that the fair will be held the latter part of September or early in October.

## Matched Roping Sunday Next

A matched roping is scheduled to take place at the rodeo arena Sunday next between Troy Fort of Lovington, N. M., and Red Whatley of Crosbyton, opening at 2 o'clock in the afternoon.

According to T. G. Shaw, secretary of the Littlefield Roping Club, sponsors of the affair, the calves have arrived.

Wins Over Mansfield  
Each contestant in the roping contest is to rope ten calves. Fort recently won over the widely-known Toots Mansfield in a contest at Leveland.

Advance tickets are on sale at Brittain's Pharmacy, Little Drug, Brown Tire Store, and Robbins News Stand.

"Buy early and avoid the rush," advised Mr. Shaw. Tickets are, adults \$1.50 and children 75 cents.

Special Meeting Friday  
A special meeting of the Roping Club will be held Friday night, April 25, at the courthouse, opening at 8 o'clock.

## Mrs. Arthur P. Duggan Presents Calla Lily Centerpiece Arrangement

Mrs. Arthur P. Duggan of Austin and Littlefield was sent by the Garden Club of Texas to Mexico City and Guatemala to demonstrate floral arrangements for their garden clubs. Mrs. Duggan has just returned to the Mission Inn, Riverside, Calif., where she spends part of every year, and is shown at the inn with her idea of a calla lily centerpiece.

## REA to Make Application for Further Extension

As announced by J. H. Carl, manager of the Lamb County Electric Cooperative, this association is preparing to make application for another extension of lines in an effort to bring everyone as nearly as possible into REA service.

Towards this end, Mr. Carl is urging all farmers who have not heretofore made application, and those who don't know whether their revenue meets with the \$7 per

mile requirements of REA, to go to the REA office and sign up.

He explained, however, that this appeal does not apply to those who now have REA service, farmers in the K or L section, or those whose application meets the required \$7 per mile.

Mr. Carl added: "If we don't put an application in, we won't be able to give those REA power who haven't got lights, but if we do, and get the money, we will some time be able to supply them. With the critical situation is regard to material, it is necessary that we have the funds before we can enter into a contract for the material, and this material is always on order for some time before it is delivered, so it is up to the farmers to put in their applications now, so that they sooner or later will get service."

## School Aid Bill To Become Law

Governor Beauford Jester Saturday night told the people of Texas that he would allow the teachers' pay bill to become law without his signature.

The bills, by Rep. Blankenship of Dallas, are designed to raise Texas school teachers' salaries to a minimum of \$2,000 a year. They do not, however, guarantee such a minimum. Speaking over the Texas State network, the governor told his listeners, "the school teachers of Texas deserve better than these bills offer them."

"The children who attend the schools and those children who do not attend but who should attend deserve better."

The State of Texas with the large allocation of funds which it makes to the schools—the State of Texas deserves better than this stop-gap, inefficient legislation."

The bills provide for payment of a minimum per capita apportionment of \$55 and establishment of a minimum salary schedule of \$2,000 a year when sufficient funds are available for such a schedule.

"I would not be honest to my convictions if I took any part in perpetuating or expanding this method of public school financing in Texas," Jester declared adding:

"I cannot conscientiously and, therefore, I will not sign the per capita bills."

The governor thoroughly criticized the per capita system—under which state money is paid to schools on the basis of scholastic population—as a system which has been tested by time and, in my sincere judgment, has been found wanting."

"It has been tested by time, and has proven to be an inadequate, inequitable, improper method of providing for the schools and school teachers of our state," Jester said.

He described the per capita system as having " manifold deficiencies" which had to be taken care of "with a patch-work plan, including a stop-gap equalization fund."

Noting that Texas has been listed as thirty-second in public school efficiency while it is fifth in the amount of tax money contributed by the state to public education, Jester suggested that if the statements are true, then "we should find out the reason."

He said that during the current biennium the state is spending in excess of \$158,000,000 for public schools in Texas and that he had recommended addition of another \$20,000,000 to this amount for the next biennium.

"Why haven't we obtained a better education result for these huge expenditures?" the governor asked.

He questioned whether the fault lay exclusively in the people of Texas or "just upon the state" if Texas is

thirty-second in educational standing among the states of the nation.

Jester told his audience, "we hear much talk about the per capita bill which guarantees the school teacher a \$2,000 minimum salary."

"I tell you that the bills which we are discussing will not guarantee the school teachers of Texas a minimum salary of \$2,000, and I say to you, in all sincerity, that in this respect the per capita bill is a snare and a delusion as far as the school teachers are concerned."

The governor said that members of the legislature and himself had been subjected to one of the most active lobbies in behalf of this bill and the greatest deluge of letters and telegrams he had seen during five years in public office.

The per capita bill which goes into practical effect in September does these things:

1. Calls for payment to all public schools of a maximum of \$55 for each school child, as determined by the state approved school census each year.

2. Provides that the state comptroller must transfer to the available school fund from the clearance fund whatever amount might be needed to insure the \$55 per capita if sources of revenue for the available school fund are not sufficient.

2. Provides that the state comptroller must transfer to the available school fund from the clearance fund whatever amount might be needed to insure the \$55 per capita if sources of revenue for the available school fund are not sufficient.

2. Provides that the state comptroller must transfer to the available school fund from the clearance fund whatever amount might be needed to insure the \$55 per capita if sources of revenue for the available school fund are not sufficient.

2. Provides that the state comptroller must transfer to the available school fund from the clearance fund whatever amount might be needed to insure the \$55 per capita if sources of revenue for the available school fund are not sufficient.

welfare and teachers' retirement payments).

The salary schedule bill does these things:

1. Establishes a minimum salary of \$2,000 per year for teachers holding a bachelor's degree, with increases to be paid for additional college training, teaching experience and efficiency.

2. Provides that if enough money from all sources is not available, "then the highest salaries possible with the revenue available shall be paid." (This provision is indicative that if local school tax rates are not high enough, teachers in such schools will not receive the \$2,000 minimum).

3. Provides that additional pay based on college training and teaching experience shall be paid on a schedule "not less than that provided in the state equalization aid law."

4. Requires filing of evidence with the committee on affiliation and accreditation that the provisions of the act as to minimum salaries and increases are being "faithfully complied with, or that the salary schedule actually being paid is approved by the state superintendent of the state board of education."

Such evidence must be presented before any school of any district is affiliated or accredited or continued on the list of affiliated or accredited schools.

Mrs. L. K. Whitaker, who was injured when she was hit by a truck in Amarillo about six weeks ago, and who has since been a patient in an Amarillo hospital, is hoping to be able to come home in about two weeks' time, according to Mr. Whitaker.

## Miss Thelma Lunsford and Forrest Byrum Wed Sunday

The farm home of Mr. and Mrs. L. A. Jones, of Anton, was the scene of a lovely wedding last Sunday afternoon.

In a double-ring ceremony, performed at 3 o'clock, Miss Thelma Lunsford, daughter of Mr. and Mrs. O. G. Lunsford, became the bride of Mr. Forrest Byrum, son of Mr. and Mrs. D. R. Byrum. Rev. Arnold Banks of Abernathy read the ceremony.

Miss Jessie Kathryn Jones greeted the guests at the door as they arrived. Miss Wovie Nell Jones presided at the piano and played "Lilac Serenade" as the guests assembled in the living room for the occasion.

The bridal party entered the rooms as the Lohengrin wedding march was softly played, to take their places before the fireplace, where large vases of pink gladiolus stood on either side and a spray covered the mantel.

Miss Inez Dow was bridesmaid and Mr. A. R. McGuire was best man.

The bride chose for her ensemble a Palomino dressmaker suit with chocolate brown accessories. Her corsage was of white carnations.

Miss Dow wore a light crepe dress of gray-beige with added color of blue insertions. She chose black accessories and carried white gloves. Her corsage was pink carnations tied with blue ribbon.

In carrying out the old tradition, "something old, something new," etc., the bride wore a lapel watch once belonging to her grandmother. Her costume served as the "something new." Her gold ear screws were borrowed from the bridesmaid, and she carried a blue handkerchief.

Mrs. Lunsford wore navy with black accessories, and wore a white carnation corsage. Mrs. Byrum wore a dusty gold suit with black accessories. Her corsage was of red carnations.

A reception was held immediately after the ceremony and the couple cut the first slice of the three-tiered cake.

Miss Dow presided over the cake, and Mrs. Jones served fruit punch to the following:

Mr. and Mrs. O. G. Lunsford, James, Robert and Nadyne; Mr. and Mrs. A. R. McGuire, Mr. and Mrs. Nelson Naylor, Mr. and Mrs. J. R. Austin, Lois, Donald and Estelle; Miss Inez Dow, Ray Kesey, Mr. and Mrs. Wayne Grace, Mr. and Mrs. A. H. Vincent, Mr. and Mrs. E. L. Pettiet, Effie Ruth, Charlyse and Jimmy; Mr. and Mrs. J. J. Williams, Jane and Judy; Don, Bo and Louise Rather; Messes Jessie Kathryn and Dovie Nell Jones, Miss Virginia Howard, Miss Cleve Joyce Young, Wayne, Ruby and Eloise Rather; Owen Kirby, and Neva Williams; Mr. and Mrs. E. R. Williams, Mrs. Gertrude Rath-

er, L. S. and Belle Rather, and Mr. and Mrs. L. A. Jones.

After a short wedding trip to New Mexico, the happy couple will be at home on a farm near Anton.

Mrs. Lollis gave a demonstration on the care of the skin.

Refreshments of punch, sandwiches and cookies were served to Mesdames J. N. Carden, T. L. Matthews, John Dirickson, L. P. Carnes, Glen Simmons, E. M. Davis, Mattie Turkett, Allen Rhodes, C. R. Cox, W. T. Fowler, H. L. Atwood, Fannie Rice, Frankie Hudson; Misses Mamie Hernandez and Janice, and Mary Simmons, and the hostess.

## Littlefield Theatre Management Gives Patrons 'Extra'

The local theatres Sunday accorded movie-goers (to use newspaper parlance) an "extra." This extra feature was one depicting scenes of the last week holocaust at Texas City. The pictures vividly brought out the scenes of devastation in the coast city, victim of one of the nation's all-time greatest disasters.

Bringing this feature to screens of two local theatres—the Palace and Ritz—within a matter of three or four days following the occurrence speaks volumes for the hustle and enterprise of the management of the movie houses.

## Bill Lavender Gets More Publicity!

Bill Lavender of the Lavender Motor Company, Littlefield, is sure making headlines since he received delivery of his new Chrysler lavender automobile, which was built and finished in lavender for the personal use of Mr. Lavender.

In the Chrysler Tonic Chrysler publication, under date of April 8, there appeared the following:

"Sales of smoked eyeglasses have reached unprecedented volume in Littlefield, Texas, and vicinity since William A. (Bill) Lavender, Chrysler dealer in that metropolis, took delivery on his new personal car. This vehicle is so dazzling that to gaze upon it without some protection for the eyes would be reckless. It is painted lavender—quite the most brilliant lavender that ever shot from spray guns.

"The idea, of course, is that the lavender color of the new Chrysler club coupe ties in with Bill's name, and this is an advertisement for his business. Nobody can see it without getting the connection. It's all part of Bill's general scheme to use lavender whenever possible—in his showroom, on his business stationery, etc.

"Dealers named Black, White, Brown, Green, Blue, etc., probably won't fall in with Bill's idea, however. You have to have something 'different,' like 'Lavender,' to get the full benefit."

## Masons and O.E.S. Feted At Dinner and Program

About 175 Masons and their wives, and Eastern Star members enjoyed the dinner and program sponsored by the local Masonic lodge Friday night.

The affair was staged at the Masonic hall, with the dinner served buffet style by Masons.

The program included slides of last year's rodeo, presented by T. A. Hill; two skits, "Murder in the Light House" and "Milk, Eggs and Toast," with Mrs. Quinton Bellomy as director, and Mrs. Wm. Rumback, Mrs. Albert Lockwood, Mrs. J. D. Dodgen and Mrs. Allen White of Amherst, taking parts; and three songs led by Mr. and Mrs. Jack Yarbrough of Amherst—"America the Beautiful," "America" and "Home On the Range."

## Revival Meeting Opens at Olton Church Friday

A series of revival services will open at the Cumberland Presbyterian church, Olton, Friday night, with Rev. R. E. Boyles of Petersburg, Texas, doing the preaching.

Services will be held mornings and evenings.

In 1800 dishes were an almost unknown luxury in Newfoundland. Ten-inch iron hoops were fastened to the tables in public restaurants and the food placed within the hoops.

**Collage Student Is Raising Silkworms**

Ruth Holman, North Texas State College (Denton) co-ed, is raising her stockings these days. Raising the silk, that is. Some people have dogs that jump through loops, others have parrots that talk, but the Gainesville co-ed has worms that weave. Placed in boxes in her dormitory room, the eggs, which were refrigerated, have hatched into silkworms. After feeding the sensitive miniature weavers for another three weeks, Miss Holman claims they will spin a web around themselves for

about two days, forming a cocoon. When the 25 cocoons Miss Holman now has increase to 300, she plans to have them made into a pair of hose.

About 6,000 Americans are killed every year because of mishaps originating in home kitchens.

Statisticians estimate that unaided medical practice saved the lives of 80,000 Americans in World War II who suffered wounds which would have proved fatal in previous wars. Balsa wood weighs half as much as cork.

**It's Time to Plant Your Garden**

It's time to plant the garden on the Plains of Texas.

Horticulturists of the Texas A. and M. College Extension Service list the vegetables that are ordinarily planted on the Plains during early spring. Here they are: Beets, spinach, onions, potatoes, mustard, English peas, lettuce, radishes, cabbage, carrots, Swiss chard and a few other hardy plants.

The horticulturists say that experienced Plains gardeners hold off on planting the not-so-hardy vegetables, such as tomatoes, peppers, sweet potatoes, cucumbers, squash and pumpkin until danger of frost is past.

The battle against garden insects will begin as soon as the first green shoot breaks through, the horticulturists say, so a smart move now for gardeners will be to check up on the latest information and materials for controlling insect pests. Agents in county extension offices will give gardeners—city or rural—information on controlling insects.

**GEMS OF THOUGHT**

Seeing that we have to attain to the ministry of righteousness in all things, we must not overlook small things in goodness or in badness, for "trifles make perfection," and "the little foxes . . . spoil the vines." — Mary Baker Eddy.

Trifles discover character more than actions of seeming importance; what one is in little things he is also in great. — Swift.

In great matters men show themselves as they wish to be seen; in small matters as they are. — Gamaliel Bradford.

The unobtrusive friendly things,  
The "won't-you-let-me-help-you things,  
That make our pathway light.

**WORLD WAR II OCCUPATION MEDAL**

The War Department has announced that distribution of the World War II Occupation Medal will be made as soon as an adequate supply is available. The medal is now in process of procurement.

Medal eligibles are requested not to write or apply to the War Department for the medals or information in obtaining them. The public will be advised as to proper procedure when sufficient medals are on hand for general distribution. Due to reduced personnel and stress of work, the War Department will be unable to answer letters pertaining to the medals.

To early Spanish gold seekers in America, platinum was a nuisance.

Dainty feminine star and chalk-faced clown present a sharp contrast to the gigantic bulk of Babylon, huge elephant with C. R. Montgomery Wild Animal Circus.

**Elephant Serves Circus in Two Valuable Ways**

Not the least among the attractions with C. R. Montgomery Wild Animal Circus coming to Littlefield Tuesday, May 6, is the rough, rugged and ready elephant.

An elephant is indispensable to a circus in more than one way. Elephants symbolize the circus more than any other animal, and certainly no circus would be complete without an elephant.

But they also earn their daily "wages" of hay and peanuts by an entirely different form of service. In setting up the circus, they do double duty by hoisting the heavy canvas of the big top, rolling wagons into place, and being generally useful wherever power is needed.

Likewise they lend a helpful push or pull after the night show and in pulling stakes when the tented city is folded and loaded for movement to the next day's town.

Whether entertaining her public in the menagerie, or pulling a mired wagon off a muddy lot on a rainy night, Babylon, the huge C. R. Montgomery pachyderm is equally obedient and dependable.

Babylon shares honors in the C. R. Montgomery Wild Animal Circus with a variety of other wild animals and domestic trained beasts, these together with an amazing assemblage of outstanding circus stars and celebrities make up this modern circus. Performances will be given at 2 and 8 p.m., with doors to the menagerie opening one hour earlier to allow ample time for a leisurely inspection of the many strange beasts here assembled from the four corners of the earth.

**How women and girls may get wanted relief from functional periodic pain**

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion,\* thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

# Farm Commodities Move at Steady Slightly Higher Prices Past Week

Farm commodities moved at steady to slightly higher prices in the wheat markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture; but sheep and hogs weakened materially.

Prices for vegetables improved. Lower Rio Grande Valley last week. Cabbage prices strengthened, season neared its end, and declined. Carrots sold a little better, too; and potatoes found demand unchanged prices. Corn moved slowly in a weak market. Shipments were expected to taper off rapidly. Squash and beans remained in light demand. Citrus held about steady. Leafy vegetables moved into market and strawberries brought a little better price.

and poultry markets strengthened last week. Heavy hens mostly 28 to 30 cents per pound and fryers 32. Week's egg prices averaged 37 cents per dozen at Lubbock and San Antonio; 38 at Oklahoma City and Waco; 39 1/2 at Orleans; 40 at Dallas, Fort Worth, Denver, Corpus Christi, and 42 at Houston and Carlsbad; 44 at Shreveport.

slaughter cattle sold mostly at some higher last week, but classes lost ground at some points. Good heavy cows clearly at \$15.50 to \$16.50 at Lubbock and Wichita, and \$16 to \$17 at Oklahoma City. Medium and good cows moved around \$13.50 to \$16.50 at Lubbock and San Antonio; \$14 at Oklahoma City and Waco; \$15 at Orleans; \$16 at Dallas, Fort Worth, Denver, Corpus Christi, and \$17 at Houston and Carlsbad; \$18 at Shreveport.

dropped \$1 to \$3 or more at some markets last week. Close prices at Fort Worth ranged from \$2.25 to \$24.75 on good and medium weight butcher hogs; \$24 on heavy weights; and \$19.50 on sows. Late top was \$21 at San Antonio and Oklahoma City; \$22 at Wichita; and \$24.50 at Lubbock.

lamb sold 50 cents to \$3 per hundred pounds as various southwinds, but aged sheep held steady. Bulk of good and medium weight lambs sold at \$20 to \$22 at San Antonio, Fort Worth, and Oklahoma City; \$21 to \$22 at Wichita; \$21 to \$21.25 at Denver. Clipped goats brought \$7 to \$8 at San Antonio.

recovered from its early slump to close Friday just a little higher at \$2.87 per bushel in Lubbock and Galveston. Other grades sold most readily. Light offerings and slow market for most grain markets. Corn markets remained firm. Cool weather held back prices. Alfalfa hay developed a firm to higher. Light demand for ample supplies of most grades little changed. Wet weather delayed peanut planting in Texas, but other areas went on schedule. CCC ceased operations April 15. Good French wool failed to sell at \$1.02. Cattle climbed early last week, but hogs climbed back up to net \$1.75 to \$3 per bale. Demand improved some, but better grades sold most readily.

**STEALERS CAUGHT BLACK-HANDED . . .** When the body is cold and miserable, the sense of distinction between "mine" and "thine" becomes nonexistent. Small wonder then that in coal-starved Europe the stealing of coal is no longer regarded as reprehensible. Shown here is a raid by women and children on coal cars at a siding near Frankfurt, Germany.

## Special Centennial Services to Be Held At Lutheran Church

The Rev. K. W. Keller of Lubbock will preach at a special centennial service next Sunday at 11 a.m. in Emmanuel Lutheran church, it was announced by the pastor, Rev. E. H. Riese. A special thanks offering will be made by the members of the local congregation in the same service for the one hundred years of growth and development.

The Missouri Synod of the Lutheran church was organized by 20 pastors and 12 lay members in Chicago on April 26, 1847. Sixteen congregations became charter members of the body, numbering less than 4,000 souls. Today the Missouri Synod numbers more than a million and a half souls. This body is represented in nearly every part of the world.

The Synod is divided into 33 districts, each free to elect its own officers and to control its own internal affairs. Foreign mission work is carried on in China, India, Africa, and the Philippine Islands. Some 4,000 active pastors and missionaries are on the Synod's roster, while 1900 ministerial students are enrolled in its colleges.

Christian education of the young is prominent in the Missouri Synod of the Lutheran church. There are more than 1,000 congregations which maintain full time Christian schools; eight high schools; 20 junior colleges, and four seminaries, the latter located at St. Louis, Mo.; Springfield, Ill.; River Forest, Ill.; and Seward, Nebr.

Dr. J. W. Behnken, the president of the body, now of Oak Park, Ill., but formerly a pastor of Trinity Lutheran Church in Houston, has proclaimed next Sunday, April 27, as the day of celebration and thanks for the individual congregations located all over the world.

## INFORMATION For Veterans

### QUESTIONS AND ANSWERS

Q. Does my right to obtain a guaranteed loan continue indefinitely?

A. No, but you have until 10 years after the termination of World War II.

Q. Are there any charges for guaranteeing or insuring a GI loan?

A. No. Commission, brokerage and similar charges may not be legally made against the veteran for securing a guaranteed or insured loan. Of course, customary out-of-pocket fees usually borne by the borrower, such as appraisal, title examination fees and other costs and expenses incident thereto, may be charged against the veteran by the lender, the same as against all borrowers.

Q. What will happen if I do not make my loan payments?

A. That depends upon the terms of your loan, the attitude of the lender and the laws of the state where the veteran and security are located. If payments are not made when due, the loan is in default and the lender may take such action as is provided in the loan agreement and is permitted by the state law and by the regulations for guaranty and insurance of loans.

Q. Does Veterans Administration make loans or find a lender for me?

A. Veterans Administration does not make loans, nor does it find a lender for the veteran. VA is not permitted to make loans. Within the limitations established by law, grades sold most readily.

it guarantees or insures the repayment of a part of the loans made by lenders to veterans. In addition, Veterans Administration pays the lender as a credit on the loan 4 per cent of the guaranteed portion of the loan. The veteran is not required to repay this amount.

### Lubbock C. of C. Writes Leader

The Leader is just in receipt of a letter from the Lubbock Chamber of Commerce renewing their subscription to the Lamb County Leader, in a letter complimenting this newspaper, as follows:

"Our copy of the Lamb County Leader is always very, very welcome, as it keeps us informed as to your community's activities, and is of definite aid to us in our effort to promote the section as a whole rather than Lubbock alone. Your freely-given time and trouble for this com-

mon goal have been greatly appreciated.

"We will appreciate very, very much the opportunity of rendering any assistance possible to you and your community."

This paper appreciates a letter such as the above from the Lubbock Chamber of Commerce, as it has always been the policy of the Leader to use its best efforts in promoting the growth of Littlefield and this great South Plains area.

### Spring Conditioning Now More Important Than Ever Before

Although nearly three and a half million new cars have been produced since the end of the war, there are still over 21,000,000 passenger vehicles registered whose minimum age is five years and whose average will be better than eight. Thus the arrival of Spring makes it more important than ever before in the history of industry for owners to have their cars properly serviced. Thousands of these old cars barely staggered through the winter and they need a good stiff Spring tonic if they are to go much farther.

William A. Hilman, director of service of the Chrysler Division, Chrysler Corporation, urges every motorist to heed this warning. He points out that by having Spring conditioning done now, the owner not only will save money but, more important, may avert the disaster of being without personal transportation.

"In my opinion," says Mr. Hilman "the owner's best interests will be served by having a thorough conditioning job done as soon as he can make an appointment with his dealer, rather than a little here and a little there. The dealer's service manager will be the best judge of what should be done to any car, but I suggest the following as more or less standard operations in Spring conditioning:

"First and foremost, check the brake system thoroughly and make all indicated adjustments, repairs or replacements. The car is going to be driven farther and faster now that warm weather is approaching and good brakes are the most important single factor in safety.

"Drain and flush radiator (preserving anti-freeze compound that may be usable). Check water pump, hose connections and fan belt. Change oil in crankcase to warm-weather grade. Check transmission and differential as to condition of lubricants. Check distributor points and timing. Clean fuel pump and air cleaner. Adjust carburetor for warm-weather operation.

"Make a thorough check of electrical system, including headlights, stop-light and tail-lights, replacing bulbs if necessary. Inspect all electrical wiring for signs of loose connections or fraying, and by all means check the battery completely and carefully, as batteries are a scarce item.

"Check muffler and exhaust pipe for possible rusted or burned spots that may cause a fire hazard and permit the escape of dangerous exhaust gases into the body of the car.

"Tire rotation, recommended as a war conservation measure, is still highly desirable. Tires should be inspected for abrasions and cuts. Another means of saving tire wear is to have front-end alignment corrected.

"The program of repairs and ad-

### Veterans Contact Man to Be Here Twice Monthly

Houston H. Boyd, contact representative from the Veterans Administration regional office in Lubbock, announces that he will be available, in the office of the county service officer in the Yellowhouse building from 1:30 to 3:30 p.m. every second and fourth Wednesday of each month for the purpose of assisting any veteran or his dependent, or other beneficiary, regarding any of the right or benefits to which they may be entitled. Previously, a contact representative visited the Littlefield office every other week.

Full explanation and assistance will be afforded any veterans or beneficiary on any matter. Veterans who feel that they are entitled to service-connected disability compensation are urged to see Mr. Boyd. Deceased veterans widows, either World War I or World War II, will be explained their rights, both for themselves and for the children of

the veteran. Many widows are entitled to pensions for which they have not filed a claim.

Mr. Boyd likewise urges all veterans to continue their GI insurance. He will have necessary blanks and information available for reinstating and converting insurance.

Lump-sum settlement is now avail-

able on GI insurance, providing veteran designates that method of settlement.

**"As Homelike As a Barn"**

Cy Hartman finally got his new barn painted, but plenty of folks had a hand in it. Whenever someone got a free day, or a little extra time, they'd come over and help out with paint and brush.

And Cy, to show his appreciation, held a big "barn warming" Saturday—for all the folks who'd helped him (but not barring those who couldn't). Ma Hartman supplied sandwiches, and Cy rolled out a mellow keg of beer.

You'd never think of a barn as "homelike." But with those lanterns

## Mahon Reports On Labor Bill

Representative George Mahon reports that the long-awaited labor bill designed to protect the public and prevent abuses by labor bosses and management passed the House of Representatives in Washington last week by the overwhelming vote of 306 to 107. The bill now goes to the Senate for consideration where some revisions are anticipated. Mahon expressed the hope that when the bill is put in final shape it will be reasonably fair to all concerned, meaning fair to labor and industry, and not, least of all, the public.

The Texas members are divided on the final vote on the bill. Mahon along with 13 other Texans, voted for the measure, and five voted against it.

Down . . . down . . . down. That's the way electric rates have been going for years.

Since 1942, when your Public Service Company came to Littlefield, there have been two substantial reductions in electric rates. Both of these have come while other prices were skyrocketing.

Even though the cost of practically everything else has gone up and is STILL sky-high, the cost of your electric service has gone down constantly and is one of the smallest items in your family budget.
