No. 19

## LITTLEFIELD SCHOOLS OPEN WEDNESDAY SEPT. 4; 1644 ENUMERATION ACCEPTED BY STATE DEPARTMENT OF EDUCATION

Littlefield public schools will open for the fall term, Wednesday, September 4, according to announcement made this week by Superintendent M. Harrison. Mr. Harrison requests that all school students report for registration as follows:

Seniors and Juniors, 8:00 a. m. to 10:00 a. m., August 29; Sophomores 1:00 p. m., August 29; Freshmen, 8:00 a. m. to 5:00 p. m., August 30.

Registration has been received by Harry J. S. Hillard, of the Littlefield School Board, that the scholastic achievement of this district submitted to the State Department at Littlefield has been accepted in toto. Enumeration is 1,644. Last year's enumeration was 1,301.

Teachers employed in the Littlefield schools for the coming year are as follows:

G. M. Irvin, Mechanical Training.  
L. D. Rochelle, Science and Mathematics.  
Lloyd Neeley, History.  
Mrs. Mallory Etter, History and Latin.  
Mrs. Pat Boone, English.  
Miss Penelope Floyd, English.  
Miss Carrie Lee Collins, Home Economics.  
R. A. Box, Agriculture.  
Miss Grace Davenport, Spanish.

**Grammar School**  
J. E. Chisholm, Prin., Miss Thelma Killough, Miss Lucille Killough, Mrs. R. E. Riley, Mrs. Stanley Lamber, Miss Daisy Ross, Mrs. J. M. Tunnell, Miss Dahlia Hemphill, Miss Gladys Wales, Miss Audie Terrell, Miss Eva Carmichael.

**Primary Building**  
Mrs. B. L. Cogdill, Mrs. Anne Louise Wiseman, Mrs. R. A. Davis, Mrs. B. M. Harrison, Mrs. Wm. Fulton, Mrs. Janie Power, Miss Margaret Teel, Miss Gladys Porter, Mrs. W. G. Street, Miss Ruth Matthews.

**High School**  
M. Harrison, Superintendent.  
H. Bales, Principal.  
R. Tucker, Mathematics and

## TRUCKS & BUS. M'GR. COLLEGE TO MOVE HERE SOON

Leader has been advised that in connection with Littlefield being pushed with vigor. Mr. E. F. Duckworth and Business Manager R. O. Conner, have recruited many of the neighbors in behalf of the College and arranged for extensive advertising in the sections visited. The college is getting in touch with every citizen in Lamb County and adjacent counties.

Mr. Duckworth, "we will have our families moved to Littlefield before September first. We are coming out here to live and to work for the school. My duties as a member of the college make it necessary for me to be on the ground and I expect to know the people here and to be the very best of them both in and out of the county."

## COGENARIAN DIES

W. C. Crews, age 81 years, died at his home in the W. C. Crews, Littlefield community, August 20. He had been a faithful member of the Baptist church for more than half a century.

Funeral services were held at the Littlefield school building, by Rev. J. M. Blessing, pastor of the Tabernacle church, Littlefield. Burial was in charge of the Mason Co., was in charge of the arrangements.

## BAD AUTO ACCIDENT

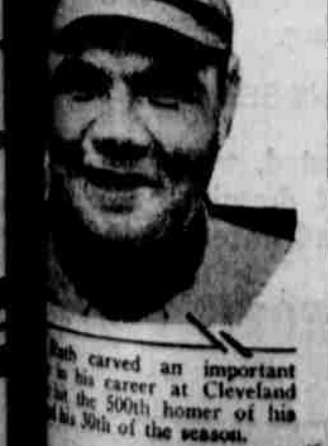

Saturday night, the Chevrolet coupe driven by A. I. Bridges, belonging to a Mr. Davis, and a Ford roadster driven by Cecil Deever, collided about two and one-half miles from town on the Lubbock highway, about nine o'clock. While the roadster was passing a car it collided with the coupe, according to report.

J. M. Blessing brought the injured to the doctor. Bridges' left arm was broken, 3 ribs crushed and the cut on his neck required 5 stitches. He was taken home in the Hammons' ambulance, in a rather serious condition.

Deever's hip was dislocated, otherwise he was uninjured.

Both cars were totally wrecked.

## METHODISTS BEGIN REVIVAL MEETING HERE SUN. NIGHT

The Methodist church will begin a series of revival services next Sunday, in charge of Rev. Joe Michael, minister, and Victor Harrison, song leader and personal worker. The Sunday services will be held in the church, and, beginning Monday night, will be held in the tabernacle, near Walters drug store.

During the past two weeks the congregation has been getting ready for these special services, according to the pastor, Rev. Geo. Turrentine. Commenting upon the coming meeting, Rev. Turrentine said:

"We have secured the services of two very capable and consecrated men. Rev. Joe Michael will conduct the preaching services at 10:00 a. m., and 8:30 p. m., each day. Mr. Harrison, a singer of rare talent, possessing a splendid tenor voice, will lead the singing, assisted by Zeb Robinson and his choir. A special feature of the meetings will be the services held for young people and other services led by Mr. Harrison for the children, his wit, talent and special knack being very attractive to the young folks. His serial story, 'The Modern Prodigal Boy,' is most interesting, entertaining and conducive to higher ideals and better morals among the children."

"When the pastor called Rev. Joe Michael he agreed to come with the understanding that he would fight sin. He is just from a successful revival where the church was increased in membership by half, and this pastor has had him in a most successful meeting in Colorado. His preaching will be with frankness and without fear or favor, except of God. We will do all that is humanly possible to pick up the stones from the roads that lead to the city of refuge. We will work to reclaim the down and out, the up and out as well. The indifferent will be shown the folly of neglect and delay. Our motive is the redeeming love of Christ, and our challenge will be to live the life that is victorious over self and sin."

"Everyone, regardless of church affiliation, is urged to attend these meetings."

## LAMB COUNTY BUREAU GIN LEADS STATE AND COTTON PROSPECTS FOR LITTLEFIELD ARE FINEST, SAYS PRESIDENT LYNN STOKES

Lamb County members met in Littlefield Thursday, August 15th, for a report on the Farm Bureau gin located here. Lynn Stokes, president of the cotton association, was present and had a very fine report to make to the members and patrons of the gin.

He had only words of praise and encouragement to the kind of people living in Lamb County, and told them that if they would stay with their gin program it would not be many years until they would be able to draw their "own money on their own cotton" instead of being forced to borrow from the banks at harvest time.

The gin was completed in its present state, together with the five acres of land adjoining the railroad property, for the sum of \$47,467.32. After allowing 10 per cent for depreciation there was a net profit earned of \$23,783.06, or more than six dollars per bale on the cotton ginned last year. With the gin about one-half paid out, and a prospect of as much cotton as was produced last year, there should be a chance to pay out this gin next year. Then the members who patronize this plant the most will profit most, as they will receive 75 per cent of all the earnings on the per bale patronage basis, in the form of a dividend check, and 25 per cent to go in their reserve fund.

In this way, when the farmers pay for a gin, they will get a deed to it and can use it for any purpose even to using it for collateral to carry out their program of putting cotton in a merchantable package and carrying it direct to the man that uses it for consumption, the president explained.

Mr. Stokes was high in his praise of the excellent crop prospects around Littlefield. He stated he had occasion to travel throughout all parts of the State of Texas, and nowhere had he seen its equal. He also spoke in the highest terms of the efficient management of the local bureau gin by J. T. Ems, who had charge of it last year.

Fritz Englehart, Bureau director from the San Antonio district, was also present at the meeting. He stated cotton crop prospects in that section were far from being the best, and expressed his opinion that the Government, in its last cotton report made public, had considerably overestimated the condition in Texas. "You people around Littlefield should be proud of your cotton outlook, for it is the best I have seen anywhere in the state," he said.

J. W. Hammonck, county bureau representative, declared the outlook for association members in this county was never better.

## SHIPPING IN MORE SHEEP

Messrs. Boswell, Kahn & Wamble are this week rearranging their pens, located in the north part of town in preparation to shipping in more sheep for feeding purposes this fall.

Last year they fed about 12,000 sheep here, and it is their plan to feed a larger number here this year.

## LFD TRADES DAY HELD SEPT. 2nd; A GOOD PROGRAM

The next first Monday Trades Day in Littlefield will be held September 2. The Chamber of Commerce has voted that these Trades Days shall be held regularly each first Monday of the month.

The popularity of these Trades Days was evidenced in the last one when the largest crowd ever assembled in Littlefield was present. There were 38 prizes given away at the drawings and the visitors were entertained by athletic events, band music and horse races.

Fall merchandise is now arriving at the stores and special prices will be offered for the next occasion. Littlefield has long ago gained a reputation for value-giving at her business houses and for hospitality among her citizenship. Those who have been missing these Trades Days have been passing up opportunities of spending a very pleasant day as well as of getting extra full value for their money.

Arrangements are being made to have several barrels of ice water located at different points on the streets for next Trades Day, and the visitors are also assured of plenty of entertainment. A general invitation is extended the public to come enjoy themselves.

## MULESHOE vs. CUBS

The Littlefield Cubs played the Muleshoe team last Sunday, the score being 8-10 in favor of Muleshoe. The game was well matched up to the last inning.

They will play Amherst next Sunday afternoon.

## CATALOGS COMING IN

There were 540 catalogs of a well known mail order house received at the Littlefield post office this week.

This is about one-half the general shipment of this particular concern, while there are one or two others that generally ship in a similar number of catalogs each year.

## REV. GRIZZLE OF PORTALES COMING BAPTIST CH. HERE

Rev. Joe F. Grizzle, former pastor of the First Baptist church, Portales, New Mexico, has accepted the pastorate of the First Baptist church, Littlefield, effective September 1, at which time he will be here to preach.

Rev. Grizzle has been pastor at Portales for nearly five years, during which time the membership has practically been doubled under his effective ministry, now numbering nearly 600 on the church rolls. In fact, his many years of ministry have been especially effective and successful, there being several Littlefield citizens who have been acquainted with him during the years past, have intimate knowledge of his past successes and are greatly pleased that he is so soon coming to this city as one of its pastors.

## REV. SAFFLE HAS GOOD MEETING AT LUMS CHAPEL

Rev. J. W. Saffle last Thursday closed a 10 days revival meeting for the Baptist church at Lums chapel, and reports a real old time occasion with much spiritual demonstration.

The revival was of steady growth from the beginning, each meeting showing more interest than the preceding one.

There were 44 conversions, 35 baptisms and a total of 59 added to the church at that place.

## TO ELECT TRUSTEES

An election of trustees for the Spade school district, a district recently formed east of Littlefield, has been called for Tuesday, August 27.

Citizens selected to be voted on are as follows: Jack Fowler, C. B. Blankenship, T. B. Elder, Ben Gann, C. E. Strawn, Hybe Potete and J. W. Duke.

Is any feeling finer than that which comes from doing a hard job particularly well?

## WHICKER DEMONSTRATES FRUIT GROWING OF PLAINS

J. C. Whicker, hospitable proprietor of the Littlefield hotel, last week brought into the Leader office a generous sample of as fine Elberta peaches as were ever grown anywhere in any avowedly fruit country. Several of them measured nine inches in circumference and were all of a wonderfully delicious flavor.

Mr. Whicker stated the fruit came from four year old trees, two of which would yield about 20 bushels. In addition to these trees on the back yard lot of the hotel property he also has apples, plums, grapes and figs, all yielding this year.

Such production is conclusive demonstration of the fruit-growing proclivities of this section, the altitude giving it a crispness and flavor that insures a superior product.

## Clark Has Big Yield

W. A. Clark, another fruit raiser, brought samples of Elberta and Chinee cling peaches to the Leader office all the equal of the above mentioned ones. He lives one and one-half miles southwest of Littlefield and has about three acres in orchard that has been bearing abundantly each season for the past seven years. In this orchard there are, besides the peaches, cherries, apples, plums, black and golden prunes. His peaches this year are yielding an average of four bushels per tree, all nice big luscious fruit; he picked 68 gallons of cherries from eight trees this spring, there was a harvest of plums that broke down many of the limbs, while the apple trees are all heavily laden and just beginning to ripen.

## TO FIGHT AT BORGER

Lee Fraley, local pugilist, has signed contract to pull off a fight at Borger, next Tuesday night, with an unknown fight artist.

Lee will weigh in around 158 pounds, and has stipulated that his opponent shall not weigh more than 165 pounds.

Several local fist fans will attend the event.

## Heads Fruit Board

Julius H. Barnes is to be Chairman of the Board of a nationwide fruit and vegetable growers' cooperative marketing organization, the United Fruit Growers of America, with a capitalization of \$50,000,000. The organization will work in harmony with the Agricultural Marketing Act and in accordance with the policies of the Federal Farm Board.

## THE FRUIT CROP AROUND LFD. IS HEAVY THIS YEAR

FINE PEACHES RAISED HERE  
BY MRS. A. P. BELL

If anyone doubts the ability of fruit to attain its largest proportions and most delicious lusciousness, they should see the generous sample brought to the Leader this week by Mrs. A. P. Bell, of this city. They were all of large uniform shape and fine color, anyone of them crowding a pint cup to get in it. They came from a tree about five years old, about five bushels being produced by this one pomological product. Another tree in her back yard produced about four bushels of the choice Elberta variety. She has eight trees all together, all of which gave a high yield this year.

There are also cherry and plum trees, a nice grape vineyard and good size strawberry plot, all of which yielded abundantly.

These instances reported in the Leader all go to show the high quality and large production of fruit of every variety that is capable of being yielded in the Littlefield territory. In fact, fruit is one of the best coming crops of this section of which its citizens may well boast.

## WHICKER DEMONSTRATES FRUIT GROWING OF PLAINS

J. C. Whicker, hospitable proprietor of the Littlefield hotel, last week brought into the Leader office a generous sample of as fine Elberta peaches as were ever grown anywhere in any avowedly fruit country. Several of them measured nine inches in circumference and were all of a wonderfully delicious flavor.

Mr. Whicker stated the fruit came from four year old trees, two of which would yield about 20 bushels. In addition to these trees on the back yard lot of the hotel property he also has apples, plums, grapes and figs, all yielding this year.

Such production is conclusive demonstration of the fruit-growing proclivities of this section, the altitude giving it a crispness and flavor that insures a superior product.

## The Fedelco WASHING MACHINE is faster and better. We have them!

Speed is the outstanding characteristic of the Fedelco—speed with safety. It will do your washing in less time. Your daintiest things can be trusted to it.

The porcelain tub is easy to keep clean. 8-position swinging wringer with large, semi-soft rolls. Legs are adjustable to the most convenient height. It takes up little space.

The price is exceptionally low. Try the Fedelco in your own home. In no other way can you fully appreciate this marvelous speed-washer.

The FEDELCO TABLE IRONER is a worthy auxiliary that can be attached to the Washer in place of the Wringer, yet carrying its own motor may be used in any room of the home. It is a wonderful labor saver.

Ask us for prices and a demonstration. They are sold on a down payment and reasonable terms, paying the remainder along with your current light bill.

## Littlefield Citizen Comments Favorably on Ford Car in a Recent Trip Taken to Canada

Fred Kraushaar, Littlefield citizen for several years, writes to John H. Arnett in a letter published this week in the Leader. He commends very highly a new Ford in which the trip was made. The letter in full is as follows:

John H. Arnett Motor Co.  
Littlefield, Texas.

Dear Mr. Arnett:

I am writing you in regard to my trip to Canada in my Model A Ford Sedan. Alex and I left Littlefield on April 18th, 1929 for Winnipeg, Canada. The first day we drove in mud all the way into Newton, Kansas and arrived there at nine p. m. We visited Mr. Kannan there for a few days. We left there at nine o'clock bound for Clisiton, South Dakota. It rained all day on us in Nebraska. We encountered lots of bad roads, one place of about six miles was almost impassable. They were pulling cars through with teams. We had on chains and decided to try to go through by our own power, so I told Alex to step on it, we and one more Model A Ford were the only ones to go through on our own power.

We stayed all night in Nebraska that night, leaving early the next morning for Cissiton, South Dakota. We drove in at 6:30 the same evening, stayed all night there and started for Winnipeg, a distance of 565 miles. We got to the International bridge at 7:00 o'clock that night. We were tied up there for about two hours get-

ting our passports and making bond for the car. On the last 565 miles we held an average of 55 miles per hour all day long. From Winnipeg we made a trip to Saskatchewan, a distance of 700 miles. The roads were fine and we didn't have any trouble. We stayed one month in Winnipeg and one month in Saskatchewan, then went back to Winnipeg for another month.

We started home on July 25th, drove to Newton, Kansas in two days. While we were there my son Alex matched a race with a Hupmobile, belonging to Harold Goertz. I was not there, so they raced and had to call it a draw. They ran two miles and neither could pass the other. We drove into Littlefield in two days from Newton, making a total of four days coming back and three going.

I kept an accurate expense account on our trip and counted all expenses. Gas and oil, eating and sleeping at the hotels every night—the total cost going up there was \$35.00. We averaged 25 miles on the gallon of gas and made the trip there without a single flat tire. We had one flat in Winnipeg and one in Kansas on the way home. There weren't but three cars passed us on the way up there and they were Model A Fords. Alex had a little trouble in passing one of the larger cars but when we got them on a hill—around we would go.

Our total number of miles on the trip was 7,640 and our total expense going and coming was \$60.00. We were tickled to death with the way our Ford performed and know that a fellow can't go wrong by buying one. You may give letter to Mr. Mitchell for publication, if you desire. Thanking you for all past favors, especially the Ford sedan, I am, your friend,  
—FRED KRAUSHAAR.

Government authorities tell us that thirty different diseases are transmitted by flies. Any one of these often proves fatal. Flies must be killed. Use FLY-TOX the scientific product developed at Mellon Institute of Industrial Research by Rex Research Fellowship. It is harmless to mankind but death to all household insects. Just follow instructions on blue label of bottle. INSIST on FLY-TOX with the perfume-like fragrance.—Adv.

## STATE AD VALOREM RATE IS FIXED AT 30c BY OFFICIALS

The state tax rate was partially fixed Saturday, when the automatic tax board agreed to a 30c ad valorem levy and a 7c Confederate pension allotment, but failed to adopt the amount of school purposes, which is now 35c, the constitutional limit.

The present ad valorem levy is 22c and the pension fund allotment 7c, the constitutional limit. The constitution permits a 35c ad valorem levy. Should the levy for school purposes be left at 35 cents, the rate for the year would be 72 cents.

It was not stated when the board would meet again to try to reach an agreement on the levy for school purposes.

Saturday's meeting lasted for more than an hour and was executive.

It was reported that Governor Moody had contended for lowering the 35 cent levy for the schools, arguing that the \$3,500,000 balance now in the Treasury to the credit of the school fund would be more than enough with the 35-cent levy, to provide an apportionment of \$17.50. The board heretofore has always set the school rate at the constitutional limit.

The Board of Education failed to meet Saturday as scheduled to fix the scholastic appointment. Mrs. Jane Y. McCallum, Secretary of State, a member of the board, was out of town on her vacation.

Members of the board are the Governor, State Treasurer W. Gregory Hatcher and Comptroller S. H. Terrell.

### Whitharral News

Farmers are feeling better since the rains, everything is looking good now.

Grandpa Crews died Thursday, Aug. 14th at 1:00 o'clock. He was 81 years of age, was the father of William Crews, who lives northeast of Whitharral; had been making that his home for several years. Funeral services were held in the school house. Rev. Roy A. Kemp, of Littlefield, conducting them, after which he was followed by a large procession, where he was buried in the Whitharral cemetery. The family has the sympathy of all their friends.

The Missionary Baptist church revival has been going on all this week, and will close today, Saturday, and the B. M. A. Baptist will start tonight.

Several from Whitharral attended the baptizing at Lum's chapel Wednesday evening. There were 34 baptised.

Rev. Kemp from Littlefield preached for us Thursday night. He delivered a fine sermon.

Lee Crownover attended the ginners convention at Lubbock, last Saturday.

Mrs. Fred Newsome was in Lubbock shopping, Saturday.

Mr. and Mrs. Chas. Hauk went to Lubbock, Saturday after their daughter, Louise, to spend the weekend at home.

W. T. Wright and family visited in the Hauk home, Thursday.

Roy Thurman is in Jones county visiting relatives.

Miss Oletta Kelly, of Lubbock, is spending the week with Alletta and Lois Thurman.

Douglass Roberson from Oklahoma is visiting his sisters, Mrs. Fred Lewis and Mrs. C. B. Edgar.

Several from here went to Anton to the ball game, Friday evening.

Mrs. Nick Grey visited Grandma Kenney, Monday.

Miss Lucille Alverson visited Miss Grace Godwin, Saturday night.

Miss Erma Harbin visited Juanita Hauk, Wednesday evening.

Mrs. Chas. Hauk visited Mrs. Clarence Kenney, Monday.

Texas spent \$65,128,019 on public schools in 1928.

Texas has 638 National and 743 State banks.

From March to June Texas shipped 889,000 head of cattle to market.

## AGRICULTURE NOTES

By D. A. ADAM  
Lamb County Farm Agent

The Lubbock Experiment Station is holding its annual field day for Lamb County farmers, Tuesday, August 27, in Lubbock. The county agent will be in charge, and anyone interested is invited to attend. This is Lamb County day, and it is hoped a good crowd of folks from this county will take advantage of this, and see the results of the experiments going on there. Those who are going please notify the county agent, if possible, so he can notify the superintendent of the number coming.

Cotton leaf worms are present in greater numbers than before as far north in the state as Georgetown, according to information received by the county agent. Their spread into this section depends largely upon weather conditions. If the weather stays hot and dry as it has for the past few days there is not so much danger, but should it start to shower regularly, an infestation can be expected. Millers are present in rather large numbers in Lamb county, but there are no worms to amount to anything at present.

Our recommendation for their control should be an infestation appear is that calcium arsenate be applied either in the dust or spray form, preferably spray for this country. In spraying the poison should be applied at the rate of two to three pounds to the 50 gallons of water, being sure to keep the mixture well agitated, as calcium arsenate does not dissolve in water.

When calcium arsenate cannot be obtained, lead arsenate is to be used in the same proportions, but will prove to be more expensive. Paris green and others are likely to prove injurious to the cotton and farmers should be very careful in applying or buying some patent mixtures sold by some insecticide companies. Calcium arsenate is available but the stocks are very low throughout the country.

The county agent during the past week helped lay off terrace lines on best stubble land for A. Clark west of Littlefield.

Last week Jess Elms and the county agent began work on several bull circles in the Littlefield community. Two were placed, and about 15 more will be available under the bull circle system. Every man that is interested in the bull circle proposition should get in touch with the county agent within the next week or so. It is estimated that five circles be completed at the Amherst and Littlefield territories within the next 45 days. Much interest is being taken, and the meeting with great success. There have been placed southeast and west of Littlefield.

It has been found that butter fat increased three cents per pound, and cows were taken off the clover in the Geo. Bohner herd at Littlefield. Cost per pound of butter in the month of May, according to cow mail association figures, was 28c. In the month of June the price increased to 30c as the sweet cream pasture played out, and cows were placed on native grass pasture.

During the past week the county agent inspected several fields of alfalfa being grown by farmers in the county for seed and is finding them in good shape and most of them in the process of roguing. Inspections were made at the Bohner farm, Martin White farm, and L. May farm and others within the next week.

Fields on the C. D. Lair farm northwest of Littlefield are being heavily damaged by hail. There are 15 180 foot rows which produced a yield of 250 pounds and is receiving 6c per bushel. This one crop of fruit has had each year if the hail properly taken care of. The vineyard is one of the best in the county, and is well along in the time to stop and look

one of the 4-H boys of the community, has some of the watermelons produced in the county. They are of excellent quality, alternating rows with cotton burrs, the best producing the finest

Mr. and Mrs. Clara Blackwell and little son left Tuesday for Frederick, Oklahoma. They accompanied their nephew, Weldon Page, who has been visiting relatives here the past two weeks, to his home. They will visit in that vicinity several days.

Mr. and Mrs. J. E. Chisholm and family, after a two weeks visit with relatives in Nocona and points in Oklahoma, returned Friday afternoon. Mr. Chisholm said the crops around Littlefield look as good as any they saw on their entire trip.

Carbon Paper and Second Sheets, at the Leader office.

## INDIAN POPULATION 350,000

Washington, D. C.—The Indian population of the United States is roughly estimated by the Department of the Interior at 350,000 persons. Of this number, about 225,000 are in some respects wards of the Government. They are located in twenty-four states and there are something over a hundred jurisdictions. The larger groups of this Indian population are located in the states of Arizona, California, Minnesota, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Washington, and Wisconsin, with considerable groups in Idaho, Kansas, Michigan, Nebraska, Nevada, Oregon, Utah, and Wyoming. The Government has responsibilities also in connection with groups of Indians in North Carolina, Mississippi and a few additional states.

The 1929 commercial tomato crop of Texas brought an estimated return of \$3,500,000, more than twice the value of the 1928 crop.

## NOTICE FOR BIDS

Notice is hereby given to all persons, firms and corporations desiring to act as depository of the funds of the Littlefield Independent School District for the scholastic years beginning September 1st, 1929, and ending August 31st, 1931, that sealed bids, stating the rate of interest offered on said funds will be received by the undersigned not later than the 30th day of August, 1929, and all such persons firms and Corporations desiring to submit bids are hereby notified to place sealed proposals in the hands of the undersigned before said date.

J. S. HILLIARD, Secretary, Littlefield Independent School District, of Lamb County, Texas. 18-3tc

THE NEW EMBLEM DEDICATED TO BETTER MOTORING

## What the MARLAND CONTINENTAL Merger MEANS TO MOTORISTS

THE consolidation of the resources and facilities of the Marland Companies and the Continental Oil Company, under the latter's name, is more than a corporate merger. It is a happy union of well balanced production, manufacturing and marketing operations from which will come a host of unusual advantages to the millions of customers and thousands of distributors.

### Wide Field for Crude Selection

Out of a total area of more than two and one quarter million acres in eight states, Continental selects the crudes best suited for its manufactured products. Raw materials for oils, greases and gasolines may often come from widely separated regions. Continental controls its own crude supply and chooses the best for each refining operation and thus assures a standard uniform output from year to year.

### Strategic Location of Eight Refineries

Economical and efficient operation of petroleum manufacture frequently depends upon the relative locations of the raw

product, the refinery and the market. Continental is fortunate in that its eight modern manufacturing plants are well placed to afford prompt and economical delivery both before and after refinement. These properties are located at Baltimore, Maryland; Ponca City and Sapulpa, Oklahoma; Artesia and Farmington, New Mexico; Wichita Falls, Texas; Florence, Colorado; and Glenrock, Wyoming.

### Exclusive Processes Insure High Quality

Continental refinery engineers enjoy a national reputation in the oil business. Not only have they adopted the newest and most efficient mechanical equipment for these big refineries but they have designed machinery and developed processes which are exclusive to this company. Under centralized control, these facilities now are made available in the manufacture of petroleum products of exceptional quality.

### Conocoland Covers Tremendous Area

More than forty years marketing experience has spread the distribution of Conoco products over an area which reaches from the western slope of the Rockies, far east to the Mississippi River. Practically half of the United States is dotted so closely with Conoco Stations that a motorist may drive anywhere in that tremendous area without introducing other than Conoco products to his car. The outposts of Conocoland range from the Pacific Northwest to the shores of the Great Lakes and from the Atlantic Seaboard to the California boundary.

### Prestige Established in Foreign Lands

The Continental coastwise and export fleet operate from terminals at Texas City, Texas; Newark, New Jersey; Baltimore, Maryland; and Norfolk, Virginia; to a dozen foreign countries. Petrol pumps deliver Conoco gasoline to automobilists in the shires of England and Conoco motor oils lubricate industrial plants in north Europe, South America and the Orient.

In brief, the joined forces of these two great companies afford greater, better service to the users of motor fuels and lubricants wherever the sign of the Red Triangle is displayed.

## PERSONAL ITEMS

Miss Irene Hobbs is visiting in Pasadena this week.

Jim Houk and family motored to Sedan, Sunday.

Mr. and Mrs. T. P. Wright were in Levelland, Saturday.

J. W. Duke and family are visiting in Texarkana this week.

Mr. and Mrs. McAlester, of Lubbock, attended to business here Saturday.

Jack Easley and Miss Ruth Easley are visiting relatives in Post this week.

Miss Mildred Stuart is visiting in Roswell, New Mexico, this week.

Mr. and Mrs. T. S. Sales were Lubbock visitors, Sunday.

Mr. and Mrs. George R. Long were Lubbock visitors, Sunday.

Mrs. Payne Wood and Miss Lora Ann were Lubbock visitors, Sunday.

Vaughn Corley, of Lubbock, visited friends in Littlefield, Monday.

Mat Snowden and son, Homer,

made a business trip to Lubbock, Monday.

E. Porter and J. Blank were in Morton on business, Monday.

J. N. Porter is visiting friends and relatives in Hillsboro this week.

Burnett Cox, of Lubbock, is in Littlefield attending to business this week.

Wayne Harless visited in Plainview and Hale Center, Sunday.

Misses Vera Foust and Esther Williams visited friends in Bovena, the latter part of last week.

Mr. and Mrs. Ben Summerhill, of Sherman, are visiting G. D. Lair and family this week.

Charles Glenn, Harmon and Elvin Denton, who have been working in Nebraska, returned last week.

Mr. and Mrs. Corbin Snow, of Marshall, are visiting Mr. and Mrs. Jim Davenport this week.

Maurice and Vernon Houk, of Clovis, New Mexico, visited Jim Houk and family over the weekend.

T. A. Henson Jr., spent the past week with his sister, Mrs. Ted Ball, in Amarillo.

Mr. and Mrs. Ed Aryan left Sunday for Dallas, to market for the Fair Store.

F. E. Burne and J. E. Ruff, of Ranger, visited Mrs. N. T. Dalton, over the weekend.

Mr. and Mrs. Hines, Mrs. Bastin and Fad and Billie Blessing, of Dallas, spent the weekend here with relatives.

Mr. and Mrs. Raymond Renfro, after several days visit in Hot Springs, New Mexico, returned home, Sunday.

Mr. and Mrs. Foy E. Smith, of Levelland, spent Sunday with R. L. Gattis and family.

L. C. Kemp residing south of town, is just finishing a new bungalow with modern conveniences on his farm.

John Stringle is building a large up-to-date poultry house on his farm near Pep.

Miss Florine Morris, of Lubbock, is the guest of Miss Kahtoleen McCasland, this week.

Mr. and Mrs. W. T. Thaxton, of Levelland, visited Mr. and Mrs. W. C. Thaxton, Sunday.

Mr. and Mrs. E. J. Arnn, of Carey, spent last week with his parents, Mr. and Mrs. J. W. Arnn.

Mrs. John R. Martin, of Georgetown, is visiting her parents, Mr. and Mrs. J. R. Wales, this week.

Mr. and Mrs. Leon McCasland and

daughter, Katholeen, spent the weekend in Lubbock.

David Cummings and Stacey Doss were Lubbock visitors Saturday night.

Fred Kraushaar underwent an operation in a Lubbock sanitarium, Saturday.

F. M. Coulson, who has recently moved from Oklahoma, is building a new house in the west part of town.

Miss Fannie Weaver, Bill Jeffries and Ben Lyman attended the show in Lubbock, Sunday afternoon.

Norman Arnn, of Hobbs, New Mexico, visited his uncle, J. W. Arnn, the first of the week.

Misses Mercedes and Marie Allen, of Anton, were the guests of Miss Tommie Killough, last week.

Mr. and Mrs. W. P. Kirk and children, after an extended visit in Ellis county, returned Saturday.

Mrs. G. G. Shirley and children visited Mrs. W. H. Mayes, of Ralls, the latter part of last week.

Mr. and Mrs. Marvin McCuan, of Canyon, spent the weekend in Littlefield, with her father, Dr. W. H. Duke.

J. D. Porter, Tom Lowe, Aubrey Wilf, Hubert Jackson and Bill Wingfield were Lubbock visitors, Saturday.

Miss Maud Pepper was the guest of Miss Nona Caraway, of Amherst, Sunday.

Mr. and Mrs. Ezel Clark, of Levelland, spent the weekend with Mr. and Mrs. J. L. Pate and family.

Miss Bessie Bellomy, after a week's visit in Lubbock, in the home of Senator Pink L. Parish, returned home, Friday.

Mrs. J. R. Wales and daughters, Misses Blanche and Gladys, Mrs. M. W. Etter and Mrs. John Martin left Wednesday for El Paso and points in New Mexico, to visit relatives.

Miss Emma Ruth Jones, after an extended visit with relatives in Tennessee and Mississippi, returned home Friday.

Mrs. W. C. Thaxton and little daughter, Bettye Alice, and Miss Mary Louise Thaxton left Tuesday for Clyde to visit relatives.

Mr. and Mrs. M. P. Reid, son, Bill, and daughter, Mildred, after a week's visit in Ft. Cobb, Oklahoma, returned home, Tuesday.

Mr. and Mrs. Frank Potter and two children and Miss Evelyn Phelps, of Amarillo, are visiting Mr. and Mrs. T. Wade Potter this week.

Miss Pearl Hudson, of Knox City, who spent the past week with her cousin, Miss Lillian Pate, returned to her home, Saturday.

Mr. and Mrs. Sam Cearley, Mr. and Mrs. Cary Cearley and Mr. and Mrs. Henry Doughty, of Earth were the Sunday guests of Mr. and Mrs. Roy Blessing.

**NOTICE**

TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING UPON THE HEREINBELOW MENTIONED PORTIONS OF STREETS IN THE CITY OF LITTLEFIELD, TEXAS, AND TO ALL OWNING OR CLAIMING ANY INTEREST IN ANY SUCH PROPERTY:

The Governing Body of the City of Littlefield, Texas, has ordered that the hereinbelow mentioned portions of streets be improved by raising, grading and filling, and installing concrete curbs and gutters where adequate curbs and gutters are not installed on proper grade and paving with Reinforced Concrete Pavement, and contract has been entered into with Dozier Construction Company for the making and construction of such improvements. Estimate of the cost of improvements for said streets has been prepared. The portions of streets to be improved, together with the estimated cost of the improvements, and the amount or amount per front foot proposed to be assessed against the abutting property owners thereof on said portions of streets are as follows:

**DISTRICT NO. 7**  
On LFD Drive from the Southwest property line of First Street to Southwest property line of Street, the estimated cost of improvement is \$26,194.90; the estimated amount per front foot to be assessed for curb is \$0.45; the estimated amount per front foot to be assessed for improvements exclusive of curb is \$5.4631; the total estimated amount per front foot to be assessed is \$6.3736.

**DISTRICT NO. 8**  
On XIT Drive from the Southwest property line of Fifth Street to Southwest property line of Street, the estimated cost of improvements is \$6,616.40; the estimated amount per front foot to be assessed for curb is \$0.45; the estimated amount per front foot to be assessed for improvements exclusive of curb is \$5.4871; the total estimated amount per front foot to be assessed is \$5.9371.

**DISTRICT NO. 9**  
On Sixth Street from the Northwest property line of Avenue, the estimated cost of improvements is \$2,795.69; the estimated amount per front foot to be assessed for curb is \$0.45; the estimated amount per front foot to be assessed for improvements exclusive of curb is \$7.9835; the total estimated amount per front foot to be assessed is \$8.4335.

**DISTRICT NO. 10**  
On Sixth Street from the Southeast property line of LFD Drive to the estimated cost of improvement is \$2,795.69; the estimated amount per front foot to be assessed for curb is \$0.45; the estimated amount per front foot to be assessed for improvements exclusive of curb is \$7.9835; the total estimated amount per front foot to be assessed is \$8.4335.

A hearing will be given by and before the Governing Body of the City of Littlefield, Texas, on the 23 day of August, 1928, at 10 o'clock, P. M., in the City of Littlefield, Texas, for the purpose of hearing and claiming any property upon said portions of streets all owning or claiming any such property. At such hearing all owners or claimants of property, or any person claiming to be fully heard concerning improvements, the cost of improvements to be assessed thereon, and the amount or amount per front foot to be assessed thereon, shall be heard and the proceedings relating to all proceedings relating to improvements and proposed thereon, and concerning as to which they are entitled under the law in the City and under the process of the City, with reference to following such hearing, shall be levied against the property and a first and prior lien shall be created in favor of the City and the proceedings are taken, passed at the First Called of the 40th Legislature of Texas, and known as Section 100 of the Constitution of Littlefield, Texas, (BEAL)

# Here's Howe

BY E. W. HOWE  
"The Sage of Potato Hill"

## THE SAME OLD WORLD—A WONDERFUL STORY OF PROGRESS—RURAL EXTRAVAGANCE

A recent magazine writer contends that friendship is passing. . . . It is the same old world—so far as friendship is concerned, and in nearly everything else, except that we have more ways to play with. . . . The modern man, when time hangs heavily, turns on the radio, to see what sort of development is going on in other parts of the world; in an older generation, a bored man shouldered his rifle, and went out to shoot an Indian.

I have observed that Literature is unfriendly to men. Yet, in all fairness, and justice, the most marvelous thing is the progress men have made. Tell me, if you can, a tale as wonderful as the growth of man from barbarism or worse to his present state.

A writer in a farm publication says: "No century has ever seen such a thing as rural extravagance." . . . Extravagance is as common in the country as in the towns. When a farmer buys more machinery than he needs, and lets it stand out in the weather when not in use, what is that but extravagance?

When he over-borrows at the bank, that is extravagance. When he spends more time in town than is necessary or profitable that is another exhibition of it. Farmers live too economically so far as food and housing go, and are too extravagant with agents, and in the use of their working hours. We sympathize with farmers because their calling is not very profitable. This is true of many others. Teachers and preachers are worse paid than farmers.

There are millions of clerks who are not so well paid as farmers, and factory employes everywhere are appealing to the government and public for help. And in all the hullabaloo the fact remains that citizens of all classes may do pretty well in this fat country if they accept generous opportunities, and handle them with reasonable intelligence and efficiency. And the fact remains that those who chose to appeal for aid cannot be much helped by public appropriations or taxes. We can no more make everybody prosperous than we can make everybody healthy; there are elements en-

tering into the profit in going back to heredity, fatalism; general preaching, general prayers, bulk sympathy will not do; life is a problem to each individual, and we can only treat him as well as he treats us.

I lately heard a woman talk of a male relative who had been a drunkard all his adult life, and she made one statement that interested me. She said all the man's relatives, friends, and acquaintances were in league to keep him away from whiskey but that he could go into any strange community anywhere on earth without funds, and within a few hours secure all the whiskey he wanted, and be howling drunk. . . . Often the needful things may not be had for love or money, but whiskey and pistols seem to be within reach of anyone wishing to use them.

I often hear of what mothers should "tell" young daughters. The first should be the agony and danger the best of wives suffer, the second, the inevitable disposition of men to be less thoughtful as husbands than as lovers. Such information is gross and material, but young girls are entitled to know what they are stepping into when they put on wedding dresses.

## Proper Handling of Milk Goes a Long Way Toward Better Quality and Higher Price; Adam Gives Potent Advice to the Dairymen

"Increased consumption of dairy products depends very largely on producing a better quality product which the consumer will find more appetizing," said County Agent D. A. Adam, who returned last week from the Farmers Short Course meeting held at College Station. Mr. Adam took a bunch of farm club boys down with him, and states that the course was highly interesting and instructive.

"Of course, we were much interested in the dairying phase of the discussions," he said, and now that Lamb county is getting into the dairy game I want to see its farmers get in right. While many pure bred and high grade dairy animals are being brought into the county, it is well to understand that there are other things vital in the dairying business besides the cows from which the milk comes. A quality product is highly essential, and, incidentally means more money to the producer.

Two things are involved in producing clean milk, the speaker pointed out. The first consideration is the equipment. A strong, well-built barn should be provided with a separate room for the handling of the milk. The utensils should be of good quality and free from cracks, seams or other flaws that make them hard to clean. An adequate cooling system is the tubular cooler with circulating water or brine, or if this is not available, the producer will find the conical cooler with ice water in the center a very satisfactory method.

"The best equipment available is not a guarantee of clean milk if the operator is not careful in his methods," Mr. Adam said. The four im-

portant sources of dirt and contamination in milk to be considered are: The man, the cow, the utensil and the barn and corral. Negligence in regard to one of these points may be the cause of sour cream and milk and failure in the dairy business. Sterilization may be either by the use of some chemical disinfectant in the rinse water or by heat. A better method is to steam the utensils. In cleansing the utensils, dish rags should not be used because of the difficulty of keeping them clean and free from odors. The brush and plenty of good dairy washing powder is suggested as satisfactory method of cutting the film of casein from the utensils. Milk should be cooled as soon as possible to 50 degrees or lower.

### MAGIC PICTURES

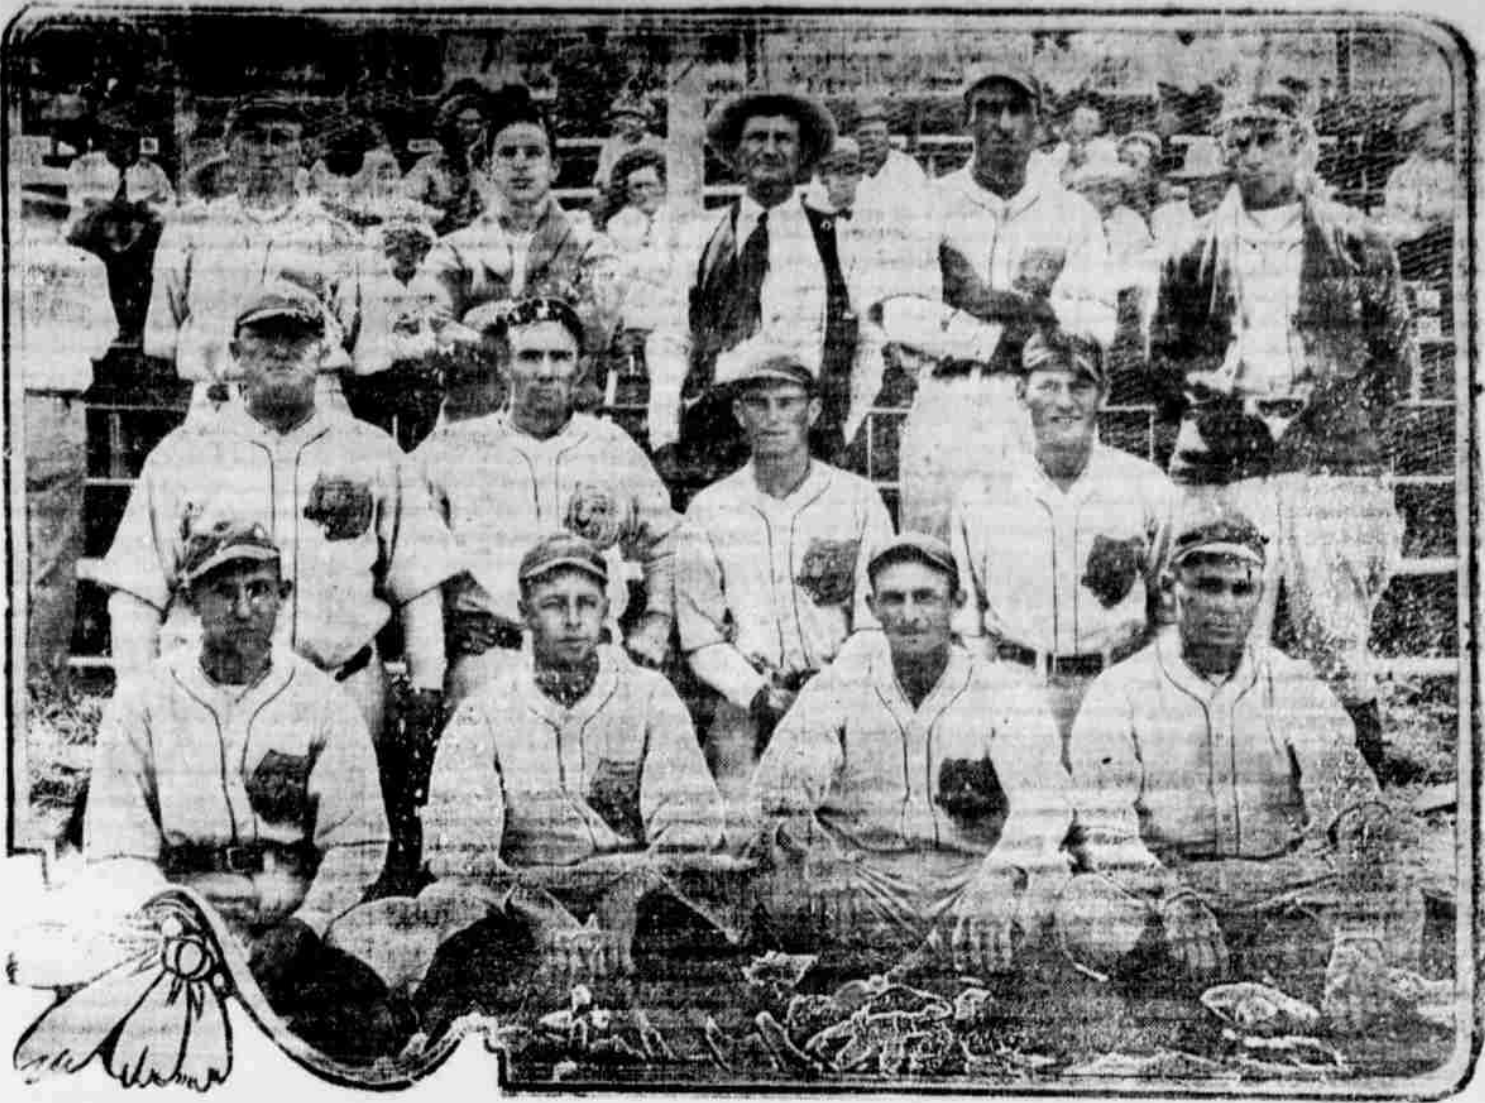

My house has magic windows in its walls. Windows that open on a land of dreams. A land of quiet meadows and cool streams. Or forest paths and radiant waterfalls. Here are forgotten cities, and old halls with high-arched ceilings built of blackened beams. Where Rembrandt's mystic inner sunlight gleams. On armored men, and women in quaint shawls.

And here are quays where boats with colored sails discharge exotic cargoes from far shores! Ivory and gems, baskets of precious ores. Old wines in earthen jars, and silken bales. Through time and space, in fancy, he may roam. Who has these magic windows in his home.

### YOUR FACE VALUE

We all pass for our face value. The face you carry around with you is the only one you will ever have. But it is possible for you to give it a lot of change. Your face is a publicity agent for you. It tells people all about you, sometimes a great deal you would not want them to know and at other times many things you are glad to have known. You can never spoil a face with smiles, but you can ruin it with frowns. The face grows in beauty and power under the workings of a mind that sees and believes in things that are good. Give your face a chance!—Contributed.

## LITTLEFIELD "CATS," FAST INDEPENDENT BASEBALL NINE

LITTLEFIELD BASEBALL CLUB, one of the best independent nines in the State. Members of the team, from left to right, are: top row, Pruitt, West, Business Manager Ratliff, Hanks, H. Mueller. Middle row, DeLong, McWilliams, Thornton, Edgar. Bottom row, Stone, Manager A. Mueller, M. Ratliff, Walker. The Littlefield nine has won 16 and lost but three games this summer

## LITTLEFIELD BASEBALL TEAM HAS FULL SCHEDULE OF GAMES WITH HEAVY TEAMS INCLUDING COMING OF FORT WORTH CATS

Last Sunday the Littlefield Cats carried their baseball pepper to Lockney and returned with the small end of the gate percentage and the third loss of the season, 11-5.

With Hanks, local receiver on the injured list, an dthe failure of Alex McCall as relief hurler after the heavy hitters of Lockney were pelting Pruitt's curves to the far corners of the park; coupled with the effective hurling of Matthews for Lockney, were the chief reasons for the loss of the game.

Pruitt retired the first two men in order, but before the third man was out one score was registered.

Again in the second three more counted. It began to look bad for the locals. In the third inning Matthews weakened and permitted the Cats to fill the bases with but one man out.

"Red" Hill, (catching for Hanks), got a Texas leaguer over second base, scoring two more, and scored later before the side was retired. The score scoring two, Art Mueller got hold of a curve and doubled to left field, then stood 5-4 in favor of Littlefield, but the Lockney lads scored one more and Pruitt was replaced by McCall.

McCall failed as a pitcher and was bombarded to all corners of the lot in two and one-half innings. Lefty McWilliams, local first base man replaced McCall and stopped them in their tracks. The first six men to face him went the strike out route in the first, and of twelve men to face him seven struck out. Lefty must be given wrold of credit since this was the first time he ever attempted to pitch baseball for any club. In the last three and one-half innings he allowed but two hits, Matthews allowed the Cats but five scattered hits with the exception of three coming in the third inning for five scores.

Next Sunday Olton plays here with the locals in Panther park. Doc Holt has assembled a bunch of all stars together and hopes to beat the Cats on their own grounds. Silverton, Tulia, Hale Center and a number of other fast semi-pro teams have been beaten by the OKeh litle.

Newty Moore will likely be pitching ehoice for this game for the locals and Doc Holt has assured an equal mound artist for the game. This game will be a thriller, so don't fail to boost for the Cats.

Two games have been matched with Roswell, New Mexico, at Roswell, on the 1st and 2nd of Septmebr, (Labor Day). Any fans who can join the Cats on this trip will no doubt find time well spent. Remember the dates 1st and 2nd of September at Roswell.

Following these two games the Cats take on the best hitting Lamesa Lobos for two games; one to be played in Lamesa and one in Littlefield. By all means come to the 8th and 15th of September. The third week in September if you can likely the Fort Worth Cats will be in Littlefield again, the nothing but has been earned as yet with the Littlefield team

will be bolstered with new men to add strength to the team. Two pitchers will be added and with the returning of either Al Mueller or Dick Ratliff by the last of this month will add to the Club's power.

The Littlefield fans may rest assured that the baseball calendar is full of hard games from now on to the finish of the season, and to win, must rely on the support of every fan in the Littlefield territory. Don't forget the dates!

### MRS. BRITAIN ENTERTAINS

Mrs. M. M. Brittain was hostess Wednesday morning at a lovely bridge breakfast given at her home.

A delicious breakfast of grapefruit, hot rolls, fried chicken, doughnuts, coffee or tea and jelly was served. After breakfast, five tables of bridge was in progress until nearly noon.

The rooms were beautifully decorated with cut flowers, each table was adorned with rose buds.

Mrs. P. W. Walker won high score, the prize was a beautiful piece of silk lingerie.

Those enjoying this delightful occasion were: Mesdames J. N. Arnett, aPt Boone, J. R. Coen, C. C. Clements, M. W. Ector, W. W. Gillette, C. L. Harless, J. C. Hilbun, E. S. Rowe, F. G. Sadler, W. O. Stockton, J. M. Stokes, W. G. Street, Lena Howard, P. W. Walker, H. W. Wiseman, Irvin Miller, Ray Jones, Miss Lois Farquhar and the hostess.

### Phosphorus in Foods

Foods containing a high percentage of phosphorus are buttermilk, codfish, celery, spinach, lettuce, cauliflower, cottage cheese and asparagus.

### NEW GAS LAW

Last week the Leader published information regarding obtaining refund on the new gasoline tax where such gasoline was used for farming purposes. The exemption proceedings seem to be so plentifully bundled up with official red tape as to ardently deter any farm gas user from attempting of usage. Probably only the large consumers will ever go to the trouble to unwind the tape in seeking recovery.

The exemption to the farmer, for which the law is said to have been passed will, apparently not be much, if any. True, it is granted, but the process of obtaining it will, in many instances be more costly in time than money than paying the tax and letting it go at that.

Large power plants using gasoline

as fuel, airplane owners and manufacturers and motor boat operators will doubtless benefit from the new law, but not many of the small farmers, for it takes 25 gallons of gasoline to pay for just the application for return of taxes paid.

Clearly the exemption will benefit the large users, but for the little fellows, it is principally a joke or a hoax, and most of them will go on paying the double tax they have been trying to get away from.

### SOME BOY AT 102

Fairmont, W. Va., Aug.—On his 102nd birthday John Skinner walked a mile, danced a lively jig, performed his daily dozen with a 160-pound black smith's anvil and did a few chores around the house to work up an appetite for his birthday dinner.

# LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.  
Subscription: \$1.50 per year; 75 cents for six months.  
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

## A THOUGHT FOR THE WEEK

Job 35:16: "He multiplieth words without knowledge."

So frequently a man or a woman comes into our office, or we meet up with one on the street or elsewhere, who seems to fit completely into this description so graphically condensed by the patriarch of old. BUT—how about me, myself—am I ever guilty, and should I now blush?

## SHOPPING DRAWBACKS

More and more residents of the smaller towns and rural communities are coming to realize that even though the auto has provided them with a quick means of reaching the larger city stores, there are still many drawbacks to doing their shopping there.

The larger the city the more difficult the parking problem, and nearby larger cities than Littlefield are no exception. During the shopping hours there are always hundreds and sometimes thousands of people who are jamming and clamoring for a place to park their cars. In case the car is stored there is a charge of from 25 to 75 cents. There is the added danger of violating some parking or traffic ordinance and losing valuable time, or perhaps paying out as much in a fine as the shopping expedition would cost. If one must park in a time limit zone there is the added fretting and worrying for fear there will be a red tag on the steering wheel when one returns.

In addition to these reasons there are the added facts that after all there is nothing to be saved by shopping in the larger cities. True, these merchants may buy their goods in larger quantities and, consequently, at a slighter lower price, but their general overhead expense of running business is invariably much higher than in the small town, hence their selling prices seldom lower.

Again, very few people when going to the larger cities to do their trading ever stop to count the total cost incident to placing themselves in a position to obtain the expectant lower prices. In the first place, there is a loss of considerable time because of the longer distance to travel for shopping, and in these days time is worth much. Furthermore, the shopper says, "It only takes a couple of gallons of gas to run down to such and such a city;" that is true; and two gallons of gas is only a matter of about 50 cents; but that is not all the expense by a good deal. Automobile authorities figure that it costs from six to eight cents per mile to run the average car. This includes cost of gas, wear on tires, machinery wear, needed lubrication, body wear and general depreciation. Seven cents a mile for a 40 mile trip to a neighboring city and return costs \$5.60, and there are few shoppers that ever save that much on their average purchase when going away from home to buy merchandise. From an economic standpoint, there is no way to figure a saving on outside purchases.

By far the better way would be for every buyer to patronize home business concerns, thus building up home enterprises that will eventually be able to more than compete with the city establishments, for the small town merchant has the advantage every time when given an equal opportunity—and this advantage reacts to the benefit of the customers.

## DON'T BE AN OSTRICH

There is an ancient belief that the ostrich has the least discriminating appetite of all beasts.

Recently an autopsy was performed on a West African specimen, and the following things were found in the birds "innards":

Several gloves, three handkerchiefs, wire clippings, a tire valve, a coin, several film spools and 65 articles of no known food value.

Science is to be congratulated on this discovery.

People will scoff at the idea that human beings may be as careless of their diet as this particular ostrich, but it is nevertheless true.

People who overeat, fill themselves when not hungry, or eat when angry or excited, are every bit as foolish in the matter of food as this ostrich. While it is true they do not consume gloves, handkerchiefs and tire valves, they consume many things that will ultimately prove just as harmful to them, and contain as little food value as these articles.

Watch what you eat! Take only the purest, finest food into your system. Balance your diet—plan the proper combination of food. Be careful of when and what you eat—don't be an ostrich!

Since it only took ten years for women's skirts to go from their shoetops to their knees most all of us want to live ten years longer.

## A MAD-DOG FALLACY

Exchanges contain reports of the usual number of "mad dog" cases within the past few weeks, and some dogs so afflicted have already been reported killed in Littlefield. So it might be a good idea for folks here to be on their guard.

But one popular belief can be dispensed with, according to those who have studied the affliction of the canine world. That is that a dog afflicted with rabies always "foams at the mouth." This is not always true, so experts say, and they insist that many dogs afflicted with worms often foam at the mouth and lose their lives because some one thinks they have rabies.

About the first sign of rabies one can notice is the growing sharpness and wildness of the dog's eyes. "Wave your hand down in front of a dog with rabies," they say, "and its eyes will follow your hand with sharp attention, with an almost fixed glare, and it may even attempt to jump at your hand. But bear in mind that a dog may froth at the mouth without having rabies, and that a dog may have rabies without frothing at the mouth.

It has long been known that rabies frequently result during hot weather from a lack of drinking water, and the dog owner who wants to safeguard his pet will, therefore, make it a rule to keep water in abundance where the dog can get it as often as he wants it. If all dog owners will do this during the hot season the chances are that not a single case of rabies will be heard of in this section.

Why is it that most of us would rather get praise that we don't deserve than criticism that we do.

## GET OFF THE ROAD

We believe every motorist in the country would be surprised to learn how many people meet death every touring season through failure to get their cars well off the road when they are forced to stop to change a tire or make other needed repairs.

It is common custom to stop the car dead in its tracks when there is a puncture, instead of forcing it a foot or so more to where it will be safely out of the traffic lane. And when the repair to be made is on the same side as the line of traffic it is even more dangerous, because that forces the one doing the work to stand immediately in the road.

If you must change tires under such conditions, put someone on guard to watch for approaching cars and

# GUIDEPOSTS TO Health and Happiness

By Bernarr Macfadden

## LEARN TO SWIM WHY YOU SHOULD

If I were asked to name the one sport which man could least afford to give up, I should unhesitatingly say: "Swimming." Swimming is the one form of exercise in which every muscle of the body is brought into play, and also many of the major internal organs. As a beautifier of the human form, it has no equal, for it takes off flesh in the wrong place and puts it back again in the right place. It gives symmetry and grace to the figure and carriage.

Aside from its highly beneficial results, I consider swimming indispensable to the prolongation and safety of human life. If I had my way it would be taught in all schools right from the beginning—along with the three R's. The time to learn to swim is before some older person has had a chance to tell you that you can sink.

If you have any choice in the matter, learn to swim in fresh water rather than salt. Also it is better to learn to swim in warm water, because in warm water the muscles relax—and relaxation is one of the chief essentials to good swimming and endurance.

Don't learn the breast stroke first. It is an awkward position for the body and forces the beginner to screw up his face, squint, and "ship" an unnecessary quantity of water. The first stroke to learn—the easiest and the simplest—is the "crawl." And of course it is beautiful to look upon.

warn you of their coming. There are plenty of ways to get killed out on the highways without resorting to this careless method of doing it.

The folks who figure up the amount of goods in a woman's skirt now are usually short in their accounts.

## LITTLE LEADERS

The hardest job a Littlefield kid faces is that of hearing good manners without seeing any.

When proposing it's a bad idea for any Littlefield boy to tel lthe girl he is unworthy of her. She may know it already.

A man dropped dead in a Vermont town while cutting weeds, but we positively refuse to accept that as an alibi from any Littlefield man.

The luckiest young man around Littlefield these days is the one whose sweetheart boasts that she has a darning needle and knows how to use it.

Most any Littlefield citizen can spend money foolishly, but no male resident of the town that we know of is crazy enough to blow in anything on face powder that gives the appearance of sunburn.

The reason some Littlefield men have turned out pretty well is because

The side stroke, in which the arms are never raised above water is also graceful and good for one who tires quickly. Back swimming and floating are also important because they afford an opportunity for rest.

Once you have gained confidence and do not take fright at every drop of water that gets into your mouth, the next important thing to remember is that the really good swimmer does not hammer and pound the water. His arms cut the water with surprising rapidity and few splashes. Really scientific swimming involves swimming with the head under water—inhaling through the mouth on the level of the water and exhaling through the nose, below. Man is a land-animal and sometimes he experiences discomfort when trying to adjust himself to a different element. If the constant submersion bothers your ears, use small rubber plugs, which can be bought at all athletic and drug stores.

Swimming holds out one of the few encouraging inducements to fat people; they learn more easily than thin people because their flesh is more buoyant, and while they are learning they are also reducing. So if you have not already learned to swim—do so now this summer. You will be well repaid in increased vigor, build, and general health—and I might add in social attainments, for the man or woman who doesn't swim nowadays isn't—well, he just isn't "in the swim."

after they reached the age where their parents didn't have any more influence over them they got wives who took up the training.

Reporter: "And in what state were you born, professor?"

Professor: "Unless my recollection fails me, in the state of ignorance."

Reporter (scribbling): "Yes, to be sure. And how long have you lived there?"

Texas has 8.8 per cent of the total land area of Continental United States.

## 1928 GOOD FARM YEAR!

Washington.—Owners of good-sized farms had the best year in 1928 since the big farm slump in 1921, according to a Department of Agriculture report. They averaged \$1,334 in cash returns against \$917 for the low year of 1922. Food raised on the farm and consumed at home was estimated worth an average of \$269.

The cash returns included the return on the labor of the farmer and his family, estimated at an average of \$768 at ordinary farm wages.

Expenses were higher in 1928 than in 1927, averaging \$1,518, the department found. Increases in income were greatest in the Central States.

Reports were received from 11,800 farms, averaging 284 acres and representing an average investment of \$15,417.

## TRY THIS ONE!

Here's something to take your mind off your cross-word puzzles:

A rope is passed over a pulley. At one end is a weight. A monkey is at the other end. The rope weighs four ounces per foot. The age of the monkey and the age of the monkey's mother together total four years. The weight of the monkey is

as many pounds as the mother years old. The monkey's mother was twice as old as the monkey was when the monkey's mother was half as old as the monkey will be when the monkey's mother was three times as old as the monkey.

What probably was the largest "potato patch" in the world was the 2,150-acre potato field of the Sugarland Industries at Sugarland, produced 200 bushels to the acre the year and the crop was valued at half million dollars.

# A SUCCESS STORY

"Twenty-five years from now I want to be worth at least \$50,000," said a young man one day.

So he opened a bank account, and saved about \$90.00 out of each month's income. Part of his money was kept in the bank and part of it was wisely invested otherwise under the direction of his banker.

He really saved from his pay check only a little more than \$20,000, yet at the end of the 25 years he had almost \$60,000. Such is the power of interest in behalf of money that is wisely kept at work.

This bank will be glad at any time to assist in your investment and other financial problems.

**FIELDTON SCHOOL**  
**IS OPENED WITH A**  
**COMMUNITY MEET**

Last Monday was community day at Fieldton, and there were about 300 people present to enjoy the occasion. It was also the opening day of school for that district, nearly 150 of the 193 scholastics of that district being enrolled the opening day.

About 11:00 o'clock patrons of the school and citizens in general throughout the community began arriving at the school center, bringing with them all the needed articles for a great feast. A table 50 feet long was piled high with choice culinary specimens from Fieldton community kitchens, those participating realizing to their full satisfaction the many skilled cooks of that section. If anyone failed to have their appetite more than satisfied, it was entirely their own fault, for there was enough left over to feed another crowd of similar number. Suffice it to say, after dinner everyone present felt a tightening of the belt, and a bulging in equatorial region of their anatomy which gave a satisfied expression to their face and a congenial mental disposition.

The crowd then assembled in the school auditorium where they were called to order by Superintendent O. L. Smith. After a piano number by Mrs. G. W. King, teacher of English, and a couple of yo-yo contests by some of the youngsters of the school, County Agent D. A. Adam was introduced and gave an excellent talk on agricultural matters, speaking in highest terms of praise regarding the excellent crops of the Fieldton section, and giving some advice regarding their care at this time and how to ward off injurious insects that sometimes become a prey to them during this period.

 At Bell-Gillette Chev. Co.

iod. He was followed by Editor Jess Mitchell in an address on "Community Co-operation." The crowd then dispersed to the ball grounds, where there was a game between local feds and Olton, and one between the Circle and Fieldton teams.

Fieldton, located in the north end of the Spade pasture, about 16 miles northeast of Littlefield, is one of the most rapidly developing sections to be found in Lamb county. They have in that section very fertile soil, and it is being populated by a thrifty class of people who are working out a large plan of development. Perhaps nowhere in the South Plains country is there any inland community center that is showing a higher spirit of cordial co-operation and community activity.

Last year the school districts of Olton and Amherst were divided, and portions from each went into the formation of the Fieldton Independent school district. An \$18,000 brick school building, entirely modern in every respect was erected, and the community also boasts of a cotton gin, stores, filling stations, and two church organizations.

This year there are five teachers in the school. O. L. Smith, retained for his second year, is superintendent. He is a graduate of Southwestern Teachers College, Weatherford, Okla., and taught 14 years in that state before coming to Texas, where he has taught three years. Mrs. G. W. King is teacher of English, and a product of Baylor-Belton college, having had three years experience in the profession. L. B. Dodson attended school at Wayland in Plainview, and the State Teachers normal at Canyon; Mrs. Naomi Koen received her finishing work at the Canyon State normal, while Miss Colene Holland attended school at the Canyon State normal and the State Technological college, Lubbock. This year the full high school course is being carried in the Fieldton school, looking forward to application for credits of affiliation with the State Department of Education.

Fieldton boasts of a good Parent-Teachers association, this organization last year raising nearly \$200 for school benefits. They will hold their first meeting this year at the school house Tuesday, September 3.

**T. U. BUILDS NEW LINE**  
 The Texas Utilities company, serving the South Panhandle-Plains with electrical current, has just completed a new electric high line. The new line will serve Dimmitt, Hart and Olton. This line replaces the isolated plants that have supplied these cities for the past several months, and puts on a line with the largest cities in the area. Plants are located at Clovis, Plainview, Lubbock, Canyon and Amarillo. Construction crews are now laying new high lines from Canyon to Clovis by way of Dimmitt which will give Dimmitt a direct circuit from two points on the system. A tap line is also being constructed which will serve Bovina.

Have your printing done at home.

**Amherst Dissenters**  
**Gain Little Through**  
**Action of the Court**

Being within or without the corporate limits of a city, does not make any great difference, according to the Amherst Argus of last week's issue. Two weeks ago the incorporation of Amherst was dissolved by District court action on a plea entered by members of that city who had property tracts, ranging in size from 30 to 80 acres, within the corporate limits, and who wanted to be outside the limits. Just how much these litigating citizens will save from being without and how much they will lose from being within, seems to be a mooted question.

The Argus, commenting upon the dissolution action said: "The revenue derived from taxes from these tracts of land, including their pro-rata part of the water bonds, is about \$750 annually. They will not have to pay any more city taxes with the exception of their pro-rata part of the water bonds. This amounts to about 77 cents; the city tax rate is \$1.25, leaving only about 28 cents they will not have to pay. However, their insurance will be doubled as the city has a rate of 68 cents, while the farm rate of about \$1.50 will apply to them. This will not mean such a large amount saved after all.

"There were several of the tract men who did not want out, and a few of them are trying to get a part of their land back into the city under a new charter.

"A new charter will be submitted to the voters within a short time. This has not been worked out, but when completed will likely mean about the same revenue as before.

"A new set of city officials will have to be elected as soon as the charter has carried."

**TECH. STARTS SEPTEMBER 20**

Lubbock, Texas, Aug. 20.—Plans for freshman orientation for the opening of the fall term at Texas Technological college have been worked out by the deans of the college and Roy McCullough, Y. M. C. A. secretary.

Orientation will begin September 20 and last through Sunday, September 22, during which time new students will be given practical suggestions as to their registration and general information that will be of help to them in starting their college work.

**METHODIST MISSIONARY**  
 The Missionary Society met at the home of Mrs. B. L. Cogdill, Monday afternoon for a social meeting. Mrs. C. H. Grow, W. C. Thaxton, R. A. Davis and B. L. Cogdill were hostesses. Several games were played during the afternoon, one of which was a guessing contest. Each one present had been asked to bring a picture of themselves before they were married, the pictures were taken up and it was great fun guessing who each was. Dainty refreshments were served to a large number of members.

**Herb Pennock's Sensational Return to Form**

Herb Pennock - his return to form feature of 1929 campaign

Last winter it was believed that Herb Pennock's pitching days were over. He contracted neuritis in his pitching arm, and nobody looked for a comeback. But Miller Huggins handled him carefully, and now he's again one of the Yankees' best bets in pitching. His great return to form stands out as one of the big events of the 1929 season.

**AN EGG WORTH WHILE**  
 Montgomery, Ala.—S. O. Armstrong owns a white Wyandotte hen that has set a new high mark. She laid an enormous egg twice the weight and size of an ordinary hen's egg. Breaking it, Armstrong discovered another completely formed egg on the inside. The outer egg was perfect in every respect except that the yolk was missing. The inner egg had a shell of darker color but was none the less firm and contained a yolk.

**COLD STORAGE PLANT NOW OPEN**

**Auto Dealers Shed Tears of Sympathy for Owner Who Parts With Old Family Bus; Yet 40 Percent of Auto Sales Are Made Today on the Trade-In Basis**

"Forty per cent of the new automobiles sold today," remarked a Littlefield auto dealer to a Leader representative this week, "are sold on the basis of taking in a used car of more or less ancient vintage. And what wonderful values some of these old busses have," he continued.

"Why, if I believed everything told me regarding the spectacular performance of these used cars, the remarkably good material that went into them—so superior to present day makes, how wonderfully easy they ride, how economical in the use of lub. and gas, some of them almost having a seventh sense of automatically driving themselves up to the front door, standing without being hitched and of never getting in front of another car though it be travelling at from 60 to 90 miles per hour—why, if I could bring myself to believe all these good points related by the used car owner, sometimes with tears in his voice at the thought of parting with the old family bus, I would feel like giving him a new car and \$25,000 to boot just for the pleasure and honor of being the owner of that faithful old predehuvian gas buggy which has hung up such a time-honored record."

Littlefield auto dealers declare a man can wax more eloquent trying to put an old car in on the purchase of a new one than in most any other matter. The vocabulary of some of them would exceed that of Patrick Henry, Daniel Webster and Horace Greeley. Some grow more eloquent than ever did William Jennings Bryan or Rufus Choate, while others will present figures and compiled data that would rival the acceptance of Roger Babson, America's foremost statistician.

Not a day passes but some prospective buyer visits some local auto dealer in his old car and proceeds to rave by the hour regarding the super-eminent and transcendently superior virtues of that old gas buggy, and how lucky will be the man who buys it. He will tell you how the motor has but recently been overhauled; the tires, no matter what make, are still good for 10,000 miles, the body is in excellent condition and just needs a little cleaning up and polish; it is always an exceptional car of that particular make, has the most economical carburetor the inventor ever put out, etc. The owner would like to have a car of the dealer's particular selling contract. His competitor has offered him such and such a price for the old one and he will have to take it unless this particular dealer can give him a better price, and so on, ad infinitum, ad nauseum.

"This used car problem is every year becoming greater and greater," said the dealer. "In every deal of this kind it means two sales before the dealer can get all or a part of his regular profit accruing from a straight sale, and frequently he must shave that profit to make the deal, while

**PRACTICE OF THRIFT INSURES ONE AGAINST FAILURE IN OLD AGE**

By S. W. STRAUS, President American Society for Thrift

Thrift insures against failure and possible dependency in old age.

Those who practice thrift faithfully may be sure that they will not entirely fail. They may not gain world renown or immense wealth; they may not become possessors of great power, but they may be certain that they will occupy respected places in the affairs of men.

Advantages of thrift are too little appreciated. One great tragedy of life is the dependency of old age, the possibility of which often causes heart-

THE STATE OF TEXAS, County of Lamb.  
 M. M. Brittain, County Treasurer of Lamb Co., Texas, who being by me sworn, upon oath, says that the within and foregoing report is true and correct.

M. M. BRITTAIN, County Treasurer

Sworn to and subscribed before me, this 12th day of August, 1929.

A. H. McGAVER, Clerk  
 County Court, Lamb County, Texas  
 By A. G. ROTHELL, Deput.

## WHAT IS DOING IN WEST TEXAS

BALLINGER is making plans for the entertainment of the Heart of Texas Press Association on September 8. The program will include a luncheon, an automobile ride, golf tournament and a special program of Ballinger talent. An attendance of 150 editors, publishers, reporters, supply men and others is expected.

The Graham Chamber of Commerce has started issuing a bulletin every month carrying details of the work done by the body. Civic improvements, service library, the fair, the stock law, advertising, airways, airport opening, highways, the membership drive and paving were topics covered this month.

BIG SPRING city development was given a boost when more than \$100,000.00 was raised in four hours by nine business men to assure the erection of a fourteen story hotel building. The building will cost approximately \$425,000.

SPUR has changed the position of its White Way. The light posts until recently were in the center of the street, but are now shedding their light from the curb. This expensive move was found necessary because the posts were a hindrance to traffic.

MATAGORDA, one of the oldest towns in Texas, recently celebrated the introduction of electric lights af-

ter existing as a town 101 years without that convenience. The Central Power & Light Co., is supplying the town.

The Tulla Chamber of Commerce sponsored a movie to help finance the building of a band stand recently. The band played for the audience, and a large number of prizes were given at the "Country Store." All ladies present received free of charge a piece of silverware at the entertainment.

DIMMITT will enter enthusiastically into the preparations for the 28th annual anniversary picnic of Castro County. Hundreds of sandwiches will be prepared and wrapped for the guests. Concession rights have been sold, and speakers are being procured.

OLTON will be reached by the new High line of the Texas Utilities company. It will come in by Hart, thence south to Olton into the main plant, dropping back one mile north to Lee Highway and on into Plainview, tying up all their plants into one.

CLARENDON is doing quite a bit of building. The Latsen building on the corner of Kerney and Second Streets will be started in the immediate future. The new building will be of brick and will cover the entire fifty foot front and will extend back to the alley.

ALLANREED will have lights and power in the future since a contract was recently consummated with the Panhandle Power and Light Co., for these modern commodities. New oil derricks on the edge of town are causing an increase in population and a shortage in hotels and residences.

PAMPA will entertain the second annual American Legion rodeo August 30 and 31, and September 1. Lon Blansett and Bill Jackson of Pampa will manage the affair. Rodeo stars from Cheyenne, Wyoming will be present. A purse amounting to \$2,130 has been guaranteed for prizes.

LOCKNEY is bidding for a new post office. Congested office conditions caused by rapid increase in population during the past several years was the reason given for the enlargement of quarters.

Unquenchable optimism seems to be one of God's gifts to fools.

## TRUCK ROUTES OF LFD. SCHOOL ARE GIVEN BY BOARD

At the last meeting of the Board of Trustees, Littlefield Independent school district, truck routes for the next school term were assigned the following parties, providing they can qualify and make bond as required under the bill regulating school trucks, as passed by the last legislature:

Edgar Purvis, W. J. Carter, J. L. Pogue, W. S. Mitchell, J. R. Tucker, P. S. Hanks, Donald Love, J. D. Noble, G. W. Parsons, H. B. Hutson, T. W. Floyd, J. R. Wade, J. W. Stewart, W. T. Duke, B. E. Baker, J. P. Skelton, O. D. Yeager, H. L. Woody, T. B. Elder, R. N. Carpenter, T. B. Wood, C. L. Houk, J. R. Hawkins, P. H. Smith, J. G. Harrell.

All routes will be rerun this season, and many of them will be entirely changed, as the country has settled and the population increased said Secretary J. S. Hilliard.

## PRESBYTERIAN AUXILIARY

Mrs. Ray Jones entertained the ladies of the auxiliary at the church on Tuesday.

The usual business session was held at 3:30 p. m.

Mrs. Chas. Barber was in charge of the devotional, and gave a passage of scripture, also, Freda Charles Bills sang a solo.

Mrs. N. A. Douglas was in charge of the lesson on "Stewardship," which thought was further carried out by an interesting playlet in which Laura Virginia Bills and Ray Barber took a part.

The hostess served refreshments of ice cold watermelon to one visitor Mrs. Edwards, and the following members: Mesdames Harry Wiseman, L. M. Touchon, Irwin Miller, J. S. Hilliard, N. A. Douglas, M. V. Cobb, C. C. Clements, E. A. Bills, Chas Barber, W. F. Fulton Jimmie Brittain, Chas. Houk, Sam'l Rombach, and Miss Lulu Hubbard.

The ladies will meet next Tuesday with Mrs. Jimmie Brittain.

Saturday, August 24 the ladies will serve chicken dinner down town, cafeteria style. Everyone welcomed!

Do business problems worry you, or are you a golfer?

## A BIG ATTENDANCE MARKS SERVICES OF TABERNACLE CHURCH

"Last Sunday there were mountain peak experiences at the Tabernacle Baptist church," said the pastor, Rev. Roy Kemp. There were 10 to join the church, one of them by experience and baptism. "Every inch of the building was packed with humanity," said the pastor who, at the morning hour preached upon the theme: "Eternal Happiness."

Sunday night services were held two miles from town. "The multitudes were there," said Rev. Kemp—"the common folks—from everywhere. The scene was impressive. Fifty-eight cars many of which were trucks, and all loaded, were there."

Rev. Kemp states that money for building the new tabernacle is coming in nicely, and plans for its construction are being made. It is also stated that a revival meeting will soon be held by the church.

## OTHER NEWSPAPER USES

What is more useful than a newspaper? When new, it supplies news and advertising that give its readers essential information. When old, it is used to wrap things in, in place of a tablecloth at picnics, etc. Now another use has been found that should interest every housewife.

May Kiethline, of the South Dakota State College, has discovered that old newspapers make an excellent substitute for moth-proof bags for storing clothing during the summer months. She says if clothing is wrapped carefully in several thicknesses of newspaper, protection is provided at very small cost. Newspapers make especially good moth-proof wrappings because printer's ink is objectionable to moths.

She recommends that garments be dry cleaned before being stored away for the summer, since soiled clothing attracts moths more than clean clothing. Garments should also be brushed to remove moth eggs which may have already been deposited. Thoroughly sun the garments—then put them away—and, if you are inclined to believe in the efficacy of Miss Kiethline's idea, use the newspaper.

(P. S. Newspapers also keep businesses from being moth-eaten. The secret lies in wise, effective advertising.)

## FARM BOYS LEAD IN YIELD

Springfield, Ill. — Four hundred forty-two farm boys in 187 schools in Springfield raised corn in class project work, producing an average yield of 50.99 bushels of corn per acre. The state average was 38.4 bushels. In wheat the boys reported an average of 19.34 bushels per acre, as compared with the State average of 15 bushels. An average yield of 42.2 bushels per acre was obtained by boys who

planted oats, while the State figure was 37.5 bushels.

When having your crankcase filled with oil, be sure that the car is standing on level ground. Otherwise, you make a liar out of your oil gauge.

When a squeak develops in a spring it means that a leaf needs lubricating and this attention should not be neglected. A broken leaf may be the penalty.

Kwitcherbelliak and smile.

## ANNOUNCING

# A VARIETY OF COLORS

on the Chevrolet Six  
at no extra cost!

In keeping with the progressive policies that have carried Chevrolet to record-breaking heights of success—the new Chevrolet Six is now made available in a wide variety of colors at no extra cost.

Still further enhancing the inherent beauty of the marvelous bodies by Fisher, these striking new colors give to the Chevrolet Six an order of smartness unapproached in any other low-priced car in the world.

And when you drive the Chev-

rolet Six, you will realize that its performance is equally as outstanding as its beauty. It flashes away at the traffic signal. It tops the steepest hills with an abundant reserve of power. The steering wheel responds to your slightest touch. And the quiet, non-locking, four-wheel brakes are unusually quick and positive in action.

Come in today. See this sensational Chevrolet Six which actually sells in the price range of the four.

The Roadster, \$525; The Phaeton, \$525; The Coach, \$595; The Coupe, \$595; The Sport Coupe, \$645; The Sedan, \$675; The Imperial Sedan, \$695. All prices f. o. b. factory, Flint, Mich.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

L. L. Midcal and wife, of Brownwood are here this week visiting Mrs. Midcal's parents, Mr. and Mrs. T. I. Jones, and family.

Henry James and family, of Goree, are prospecting here this week. He said that rain could not save the crop in Knox county.

Misses Frances Blalock, Prudence Courtney, Estell McNutt and Olga Reed Henson spent Wednesday afternoon in Lubbock, swimming.

Mrs. Ed Sharp and son, Robert, of Matador and Mr. and Mrs. Elmo McClellan, of Slaton, visited Mr. and Mrs. B. L. Cogdill, Sunday.

Mr. and Mrs. Cul Barton, their daughter, Miss Iva Barton, and grandson, Herman Barton, of Bertram, and Eva Barton, of Clyde, are visiting Acree Barton and family.

H. B. Yates, scout executive of the Boy Scouts at Lubbock was here Tuesday in the interest of the local Scout organization. He contemplates establishing a Court of Honor here.

Mr. and Mrs. F. R. Jones and son, Arthur, left Sunday for an extended visit with relatives in Mississippi. This will be the first time Mr. and Mrs. Jones have seen these relatives in 10 years.

The Leader is in receipt of a letter from B. M. Harrison, superintendent of the Littlefield schools, stating that he will arrive in Littlefield next Saturday. He has been taking some post-

graduate work at Southern Methodist University, Georgetown.

The fire alarm Saturday night was occasioned by a blaze that broke out at the Walker elevator. It was put out without much damage. Mr. Walker believes it was of incendiary origin.

Clay Pumphrey this week began a general remodeling of the Wm. Lowrimore property he recently purchased. The improvements consist of new hardwood floors, and redecorating within and without.

Mr. and Mrs. Clifford Woods and little daughter, Helen, of Altus, Oklahoma, and Mr. and Mrs. A. D. Vandigriff and little daughter, Edith, of Elmer, Oklahoma, are visiting Mrs. C. P. Mathews and family.

Mr. and Mrs. E. J. Fultham, of Henrietta, Mr. and Mrs. Clyde Speth, of Byers, and Mr. and Mrs. Herbert Carpenter, of Lubbock, are visiting Mr. and Mrs. J. P. Spinks and Mr. and Mrs. Jim Thornton and family.

Arthur P. Duggan came in Sunday morning for Wichita, Kansas, leaving early Monday morning for Long Beach, where he will join Mrs. Duggan, son, Arthur Jr., and daughter, Mrs. David C. Gracy, of Austin, who have been there for the past two months. He was accompanied on his California trip by Mr. Gracy.

W. H. Davenport and wife, of Portales, New Mexico, are here this week visiting their son, J. A. Davenport, and family. They are accompanied by Joe B. Thompson and family of the same place. They report good crop prospects in their vicinity.

The Leader is this week in receipt of a letter from Conrad R. Lam, former director of Littlefield band. He is now attending the Yale medical school at New Haven Connecticut. Lam says there are times "when I am affected by an over-powering curiosity to know what is happening in Lamb county," and orders a subscription sent to his school address.

J. T. Cunningham, formerly of the Bula community west of Littlefield, was here Tuesday looking for an opportunity to come back home. He has been living near Tahoka and reports very adverse crop conditions. While here he took a subscription receipt to the Leader back home with him so he could keep cases on the fine conditions here. J. T. said it actually made his mouth water to see such fine crops around here.

W. D. T. Storey, former superintendent of Littlefield schools, accompanied by L. C. Wines, of Brownfield, were here Tuesday looking after business interests and shaking hands with old friends. While here they called at the Leader office, paying their respects to yo editor and their compliments to the fine crops of this section. Prof. Storey is one of the leading county agricultural agents in

Arkansas, now residing at Magnolia.

Mr. and Mrs. E. F. Lowrimore, after a two week's visit in East Texas, returned the latter part of last week.

Mr. and Mrs. Romulus W. Jones enjoyed a visit last week from their aunt, Mrs. S. W. Smith, of California. She was accompanied by her son, George P. Smith, also of California, and her daughter, Mrs. Lillie Davenport, of El Paso. During their stay here, many other relatives and friends of the family from adjoining towns and communities visited them and enjoyed the pleasant associations. Mrs. Smith, who is 84 years of age, is enjoying the trip from California and return very much. They are making it in a Ford coupe, having left there in April. They left here the 12th for Portales, New Mexico for a few days visit, following which they will return home through Arizona visiting enroute

Sunday, the 11th the following partook of dinner at the home of Mr. and Mrs. R. W. Jones: Mrs. S. W. Smith and Geo. P. Smith, of California; Mrs. Lillie Davenport, El Paso; S. C. Hukel and family and Mr. and Mrs. Frank Clements, Yellow House switch; Joe Pinkerton and family, George Pinkerton, Misses Ina and Davie Pinkerton and Miss Ilva Wilson, all of Turkey; A. C. Massey and family of Hereford; Mr. and Mrs. W. M. Merrill and little son, James, Hale Center; Clarence Annie Hukel, Clarendon; Mr. and Mrs. Tuerman, Rosston, Oklahoma; Miss Jones, son Rowell and daughter, Edith making a total of 40. Others who visited with them during the week were Mr. and Mrs. A. M. Pinkerton and son Tom, of Turkey; Chas. W. Watkins and family and Mrs. Albert Martin, of Petersburg; Mr. and Mrs. J. Frank Copeland and two daughters; Mr. and Mrs. Sam Price and little daughter, of this place.

It's discouraging to do your best and then find out it isn't good enough.

This airport is located at Le Roy, New York. It is pictured as a model small city airport.

## JOE LOWRIMORE IS SERIOUSLY INJURED IN WRECK SUNDAY

Joe Lowrimore, 23 son of Wm. Lowrimore, former Littlefield citizen, but now of Lubbock, sustained a triple-broken leg and severe head wound Sunday night when crossing a street in Lubbock he was struck by a motor cycle said to be driven by Alvin P. Risinger, a young student at the Tech.

As a result of the collision Risinger was hurled from the machine, striking his head against a street curb, sustaining a frontal skull fracture and brain concussion. Lowrimore's condition is said to be serious, but probably not fatal, while the condition of Risinger is still questionable, though he has short periods of consciousness while lying in a Lubbock hospital.

Many of the papers run a column of clippings from their old files of the event of years ago. We note one of them says, under the heading, "Twenty-five Years Ago Today," "The wholesale price of whiskey was \$1.07 a gallon." Seems like a dream.

## Heal Those Sore Gums

Even after pyorrhea has affected your stomach, kidneys, and your general health, **Leto's Pyorrhea Remedy** used as directed, can save you. Dentists recommend it. Druggists return money if it fails.

Stokes-Alexander Drug Company  
Texas shipped 27,000,000 pounds of dressed poultry to major markets in 1928—a record for the State.
