

# THANKSGIVING DAY 1964

LET US GIVE THANKS FOR THE BOUNTY OF THIS GREAT LAND

## Stock-In' Festival Begins Friday

The Christmas Shopping Season gets its big sendoff this Friday and Saturday when Littlefield merchants present their seventh annual Christmas Stock-In' Festival.

The two-day sales event, complete with a visit by Santa Claus and this year offering \$1,000 in gift certificates, annually moves the Christmas shopping season into high gear.

Stores will shine out with their usual day-after-Thanksgiving look, a tie-in with downtown Christmas street decorations. Stores are trimmed for the Yule season and the Christmas street lights will be turned on for the first time Friday night.

Santa Claus will make his first appearance of the season Friday and Saturday at his temporary "Santa's house", located in the 400 block of Phelps Avenue. Santa will be on hand with lots of candy for the young-

sters all day both Friday and Saturday.

The Stock-In' Festival will offer Christmas shoppers of Lamb County and surrounding communities a fine array of gift items, with special prices on many items that are now included of the shoppers' priority gift lists.

Parking on Littlefield streets will be free Friday and Saturday for the event.

Sponsored by more than 50 Littlefield business houses, the Festival is co-ordinated by the retail council of the Chamber of Commerce.

In keeping with the retail council's recommendation that merchants remain open, a number of business houses will stay open until 9 Friday and Saturday night for the Stock-In' event.

An entry blank to become eligible for the \$1,000 in gift certificates is published in today's edition of The Lamb County Leader. You may cut it out and deposit

in a container to be located in front of the Littlefield Publishing Co. offices at 506 Phelps Ave., or you may come by the Leader-News office and pick up an entry blank.

Three drawings for the gift certificates will be held Friday and four on Saturday. All drawings will take place in front of Santa's House in the 400 block of Phelps. The Friday drawings are scheduled for 12:30 p.m., 2:30 p.m., 5:30, and 7 p.m., while the lucky names will be drawn Saturday at 10:30 a.m., 12:30 p.m., 3:30 p.m. and at 7 p.m. A minimum of \$100.00 in certificates will be given away at each drawing.

Winners need not be present, but if they are present when their names are drawn they will receive double the amount of the gift certificate. All gift certificates will be good through the following Saturday, Dec. 5, at 5:30 p.m.

Winners who are not pre-

sent at the drawings may claim their gift certificates at the Chamber of Commerce office, in city hall, before closing time next Monday, November 30.

Merchants participating in the big city wide promotion are: Abe's Shoe Store, C.R. Anthony's, Wright Drug, St. Clair's Department Store, First National Bank, Thornton's Cafeteria, McAnally Jewelry, Fair Department Store, Ben Franklin, Perry Bros. 5&10, Huckabay Cafe, Heydon Shoes, Franklin Dress Shop, Past Time Club 1 and 2, Mi Tierra Cafe, Ortiz Bros. ## Burglars Strike For Cash, Smokes

The Sunday night break-in of a Littlefield grocery store resulted in a huge haul of cigarettes, cash and various other items.

Some 351 cartons of cigarettes, along with \$200 in change, a radio, two new wrist watches, another watch with a date-changer, a supply of work clothes and

seven books of American Express money orders, were taken in the break-in reported at Evans Jim Dandy Food Store at 322 West Delano.

Entrance to the store was made through a back door. In addition to the stolen items, the burglars or burglars damaged one of the cash registers in the store.

In other thefts reported to police, Grady Tate reported a Sunday night break-in at his cabinet shop, 1319 East Ninth. Listed as stolen were an electric felt sander, valued at \$69; an electric rowder valued at \$60 and a repaired electric disc sander.

Weldon Findley reported the theft of an orange-colored boys bicycle from his residence at 620 West Second and Norman Emfinger listed a tire and wheel as being stolen from his pickup truck while it was parked at the intersection of Rowe and Ninth streets over the weekend.

Only one traffic accident was listed for the Saturday-through-Wednesday morning period. It occurred Tuesday at the intersection of College and Austin when a 1963 pick-up truck driven by Jessie A. Streeby, Route 2, collided with a 1962 county-owned vehicle driven by County Commissioner J.L. Yeager of Littlefield. Damage was estimated at \$900 to the Streeby pickup and \$190 to the county vehicle. There were no injuries.

## Friona Girl Crowned FFA Sweetheart

Miss Sheryl Long of Friona was crowned District FFA Sweetheart Tuesday night at the annual District Awards Banquet and Sweetheart Contest held at the Littlefield Junior High School. She is the daughter of Mr. and Mrs. W.H. Long of Friona. Runner-up was Miss Becky Camp, daughter of Mr. and Mrs. Bernis Camp of Muleshoe. Miss Connie Stowe, daughter of Mr. and Mrs. David Stowe of Morton was the second runner-up.

D.P. Lancaster of Muleshoe and Don Bonner of Clovis were awarded honorary chapter farmer degrees for their active interest and outstanding service to Vo-Ag teachers and FFA chapters. The district officers headed by the president, Stanley Black of Muleshoe, made the presentations. Approximately 350 persons attended the annual event.

"MOM, CAN'T WE HAVE HAM FOR THANKSGIVING DINNER?" - This seems to be the thought of Scott and Danny Alford as they watch their brother Phil lend a helping hand with the hatchet. Sherry is excited about the

idea of a Thanksgiving holiday and doesn't really care if the table is adorned with ham or turkey. Pictured with the Alford children is their mother, Mrs. Doyle Alford. (Leader Staff Photo).

## Farm Census Underway

Compilation of the U.S. farm census is underway this week in Lamb County, with Marvin Earl of Sudan serving as crew leader.

Questionnaires of farm operators have gone out to all rural holders in Lamb County and operators are starting their annual interviews with farm and ranchers.

Recipients of the questionnaires through the mail, who are agricultural operators, are asked to develop information from their records which will be given to an enumerator who he or she makes their

personal visits to the farms. The U.S. farm census is taken each five years, in years ending in "4" or "9". Information gathered on the

## Area Bands Score Well In Contest

Six area school bands scored with three Superior and three Excellent ratings in the annual University Interscholastic League's regional band marching and playing contest, held Tuesday in Texas Tech Stadium at Lubbock.

The Littlefield High School Band, directed by Don Hayes, won a Division I (Superior) rating for the second consecutive year in Class AAA, joining Levelland and Brownfield as the only bands to receive the highest rating in that class.

Also scoring with Division I honors were Olton in Class AA and Springlake in Class A. Division II (Excellent) ratings were bestowed upon Sudan in Class A, Anton in Class B and the Littlefield Junior High School in Class CC.

Bands were graded according to this system: I, superior; II, excellent; III, good; and IV, in need of improvement.

A total of 43 bands, containing approximately 3,050 students, participated in the all-day judging contest. Judges were Pete Long of Ponca City, Okla., High School; Frank Pierson of Iowa State University; and Jim Jacobson of Texas Christian University.

census is highly confidential and will not be released by the enumerator or otherwise. Farm and ranch operators are required by law to complete the information forms. The data gathered is "vital in making decisions affecting many segments of the U.S. economy," according to statements from the U.S. Department of Commerce.

About three weeks will be required to complete the enumeration. (See CENSUS, Page 7)

## Band Boosters Start Christmas Tree Sale

The second annual Christmas Tree Sale, sponsored by the Littlefield Band Boosters, will begin Dec. 1 and continue through Dec. 21. Booster officials today announced. The trees will be displayed

and sold on the lot across the street from the Security State Bank on Phelps Avenue in downtown Littlefield.

A ticket sales campaign for the trees will be conducted, starting Friday, with tickets being worth \$1 on the purchase of any tree at the Band Booster lot. The tickets will be on sale during the Stock-In' Festival this Friday and Saturday at the Security State Bank, Anthony's, Ware's, Penney's, St. Clair's and at the First National Bank.

All proceeds from the Christmas tree sales project will be used for the overall band program of the Littlefield schools.

## Sudan Man Charged In Gun Death

A 52-year-old Sudan man, Roosevelt Sloan, is free under \$2,000 bond after being charged with murder in the Sunday shooting death of Elret McLaughlin, 31, also of Sudan. The sheriff's department said the shooting apparently resulted from an argument between the two men. McLaughlin was shot twice. Details of the incident remain under investigation.

In other activity, the sheriff's office reported the apprehension of two additional persons wanted in a shoplifting spree in local business houses back in July. Returned to the Lamb County jail on felony theft charges were Maris Jewell Inglehart, 24, and Alberto Degrate, 26, both of Waco. Another person wanted in the shoplifting is in jail in Denton and a fourth person is free under \$2,000 bond.

Other arrests by county authorities since Saturday include Herman Lee White, 19, of Asan, Ark., theft under \$50; Pedro Guzman, burglary; and a 13-year-old Amberst youth, released by the county judge after being charged with theft.

"A sure sign of old age is when you feel your corns more than your oats."

## Santa's Back!

Santa Claus will be in Littlefield Friday and Saturday, with lots of candy for the youngsters and a reminder for Mom and Dad that there are only more Shopping Days until Christmas, and that the Stock-In' Festival is a fine time to take advantage of the many Yule gifts offered by Littlefield merchants.

Santa will be in his special sleigh on the west side of the street in the 400 block of Phelps Avenue, all day Friday and Saturday.

AN "EXCELLENT" JOB - Littlefield's Junior High Band, directed by Doug Hillock, is shown as it completed its marching performance at the Regional University Interscholastic League Band Contest in Texas Tech Stadium Tuesday morning. The band earned a Division II (Excellent) rating in Class CC. The

"big brothers and sisters", - the Littlefield High School Band, directed by Don Hayes, scored with a Division I (Superior) rating in Class AAA for the second straight year. A total of 43 bands, with more than 3,000 students, competed in the contest. (Leader Staff Photo).

**LITTLEFIELD'S NEWCOMERS** - Rev. and Mrs. John Hutson moved here from Wichita, Kan. several weeks ago. They had lived in Wichita for a number of years. Rev. Hutson is the minister of the Assembly of God Church. Mrs. Hutson is also a licensed preacher. The family can often be found gathered around the piano enjoying a song fest. The children all play the piano as well as string instruments. The children are, left to right, John, Martha and James.

## Rev. Hutson and Family Move To Littlefield From Kansas

Littlefield's newest minister is John M. Hutson, pastor of the Assembly of God Church. Rev. Hutson and his children moved here from Wichita, Kan. about three weeks ago and Mrs. Hutson came about a week later. Rev. Hutson began his twenty-fourth year of preaching with his first sermon here. He is a graduate of Southwestern As-

semblies of God College, Waxahachie, which is one of their nine colleges in the United States.

The Hutson's three children are John E., age 16; Martha, 14; and James, 12. The entire family enjoys music. The children all play the piano. Mrs. Hutson, the guitar; and John the violin. Besides playing the in-

struments the family enjoys song fests. They sing on various occasions as a quintet, quartet or trio.

Mrs. Hutson is a licensed minister also. She helps her husband with church work and especially enjoys working with children's groups. Martha loves to sew and cook. She makes nearly all her own clothes. The boys can usually be found doing something to earn money. John had a paper route several years in Wichita and his brother was a substitute carrier for other boys during their vacations. James enjoys leathercraft and is taking shop in school. Mrs. Hutson also works with leather and likes various types of art.

Rev. Hutson says he enjoys hunting and fishing but doesn't get to go very often. Completing the family is Molly Bee, a Labrador retriever, who has been with the Hutsons about a year.

The Hutsons say they like a smaller town such as Littlefield and think they will enjoy living here very much.

### CITY BIT

Mr. and Mrs. Forbes Tatum and girls will be spending the Thanksgiving holidays with Mrs. Tatum's sister and family, Mr. and Mrs. Strauss Baker of Hobbs, N.M. Their mother, Mrs. Mae Vandiver of Seminole, Okla. will also be a guest.

**Cultural Arts Discussed by Panel at PTA Meeting Tuesday**

The Primary - Elementary PTA met Tuesday in the Junior Auditorium. The program presented by a panel consisted of Jay Bridwell, Edwin Mrs. Al Chambers, and Don Chihak. Their topic "Together We Help A Child Cultivating An Appreciation of the Cultural Arts."

The invocation was given by Billy Tom Gram. Mrs. Farmer gave a brief account of the State Convention she attended in Dallas Nov. 11-13. Attendance awards went to Loda Hardin, Primary;

Miss Clara Florence, Elementary I; and Mrs. LaVerne McCown, Elementary II.

Mr. Hall made a few remarks concerning the need for cultural arts; then he directed questions to the other panel members.

Mrs. Chihak, who has just returned from England where her husband was stationed in the armed services, said the home life in England was not centered as much around the children as here, but the English did stress the arts, especially operas.

Mrs. Chambers said she believes a child should be intro-

duced to music early in life and that if an explanation of the story of the music was given to the child, there would be better understanding and appreciation of music.

Mr. Bridwell said not to give a child a box of crayons and a color-by-number-picture to color where he would be confined to the exact outline of the picture, but let the child draw his own picture as an expression of himself. They all agreed that in the end it was the parent who makes the choice of what kind of art and music the child will see or hear; therefore, the parents, should become more interested in the finer aspects of art and music in order to help the child have a better appreciation for the cultural arts.

Coffee and cookies were served to the group after the meeting.

# THE WILD WEST

## 9 Ex-Champs Renew Dreams

By BERT C. WEST

Former state schoolboy champions remain in the hunt for 1964 titles. Only one, and of Four-A, is seeking a title won last year, but former kings in the area are Odessa (1946) and Grandland in Four-A, although Grandland was a 1957 champ in Triple-A; Dumas (1961-62) in Triple-A, with Deer Park in Triple-A, with Deer Park's titles being won in 1954-55 as a Class A out-stamford (1955-56-58-59), Deer City (1960) and Katy in Triple-A, although Stamford's title was later taken away as a violation and Katy its title in 1959 as a Class A; and White Oak in Class A having tied Mart, 7-7, in 1957 title game.

Defeated and untied teams the running are Amarillo Hills, Dallas Hillcrest and Waco Park in Four-A; Dumas, Vidor and Vidor in Triple-A; Dallas, Atlanta, Taylor and Palacios in Triple-A; Hull-Daisetta and Three Rivers in One-A.

Defeated but tied are San Antonio in Triple-A; Iowa Park in Double-A; Clifton and Rose in One-A.

BREAKS...Dallas Hillcrest owns the longest all-time streak among the footers, 13 straight. Galena and Atlanta have won 12 in a row, while Vidor, Denver, Canton, Taylor, Hull-Daisetta, Dallas and Three Rivers won 11 straight. With 10 in a row are Amarillo Tascosa, Andrews, Palacios, DeSmet and Bishop, while Springlake has captured nine straight, and Odessa has won 23 games via the out route.

Deer Park has gone through 12

straight without a loss, including that 14-14 tie with Phillips. Clifton and Phillips have gone 11 straight without defeat, but Clifton had a scoreless tie with Midlothian last week and Phillips had that disastrous tie with Iowa Park.

Another note of interest is Hull-Daisetta which has now won 22 of 23, with 19 of them being shutouts.

OUR PICKS...For the record, our selections as finalists in each of the four classifications, with our state champ choices in caps are as follows: GARLAND and Galena Park in Four-A; PSJA and Sweetwater in Triple-A; IOWA PARK and Taylor in Double-A; SPRINGLAKE and Three Rivers in One-A.

FOUR - A NOTES...Two teams, Houston Jones and Waco Richfield, are in the state playoffs for the first time...Nederland is the "dean", having been in the playoffs 15 times, but this is the first year in Four-A... Spring Branch is in there for the fourth straight year, best in the class...The oldtimer is Texarkana which reached the playoffs for the first time back in 1923...Odessa reached the activity for the initial time in 1924.

TRIPLE - A NOTES...Three schools in Class AAA are in their first playoffs--Vidor, Cypress-Fairbanks and Austin Lanier...Dumas is there for the fourth straight year, tops in that class...The "dean" is Athens, which is striding on the playoff trail for the 12th year... Deer Park, the old Class A power now in Triple-A is in there for the 10th time...District 3-AAA king Sweetwater is in for the eighth year, the first being in 1927...Palestine is the oldtimer, having gained the playoffs for the first time way back in 1922.

CANDIDATES...The Rock-

wall coaching staff has dispatched material to Texas sportswriters, boosting senior tackle Harold Chenault and tailback Marc Noel for All-State Class AA honors.

They have worthy credentials. Chenault averages between 12 and 15 tackles per game. Noel gained 1,154 yards in 10 games for a 6.8 average. In addition, he returned nine punts for 223 yards and had a punting average of his own of 40.2 yards.

CRYSTAL BALL...Bating .797 for the season, our picks on the 32 playoff games this week, goes as follows:

Odessa over Yaleta, Tascosa beating Castleberry, Hillcrest dropping Paschal, Garland over Texarkana, Spring Branch stopping Houston Jones, Galena Park slugging Nederland, McAllen mashing Waco Richfield, San Antonio Highland over Burbank.

Andrews to upset Dumas, Sweetwater over Hirschi, Westherford stopping Bonham, Palestine pounding Athens, Vidor over Cypress-Fairbanks, Deer Park whacking Lamar, San Marcos besting Austin Lanier, PSJA crushing Kerrville.

Iowa Park hooking Denver City, Stamford stomping Dublin, Nocona over Marlin, Atlanta over Canton, Taylor tipping Katy, Port Acres humbling Humble, Devine dropping Palacios, Bishop kayoting Los Fresnos.

Springlake slugging Stratford, Seagraves over Big Lake, Goldswaiter over Archer City, Clifton downing Honey Grove, White Oak chopping Jefferson, Rosebud clipping Lexington, Hull-Daisetta hammering Waller and Three Rivers beating Ingleside.

Spade Teams Defeat Bula In Net Games

The Spade basketball team took two victories from the Bula team at Spade Monday night. In the girls' game Debbie Hall, Vanetta Mouser and Carolyn Ramage held the Bula offense to only 24 points. Sue Holly, Channie Nabers and Lynette Hall scored 32 points to win their first game of the year. Lynette Hall put 26 points through to be high point of the night.

In the boys match Spade scored first and held the lead throughout the game. Gary Smith turned in an outstanding defensive game to help hold the

40-yard punt.

As to penetrations, that is one offensive play started from inside the opponent's 20-yard line. If a player carries from the rival 30 to the 19, that is not a penetration. The next play would be a penetration, providing it did not lose yardage beyond the 20.

# Springlake Guns For Regional Win

Springlake's mighty Wolverines, Lamb County's lone representative on the state school-

## The Records

boy football championship trail, take aim on a regional title Friday when they battle Stratford in a do-or-die affair.

The game, marking Springlake's first appearance in a regional, will be played in Amarillo's Dick Bivins Stadium starting at 2:30 p.m. Coach Jodie Mahon's Wolverines will be favored to win their 10th straight and advance their overall mark to 11-1. The winner will acquire playing credentials in the quarterfinal round against the winner of the Seagraves - Big Lake game, set for Friday night in Odessa.

Springlake boasts a powerful offense that has averaged 31.6 points per game to date. Sparking the offense are the backs Thomas Gregory, Jerry Don Sanders and Floyd Bennett. Between them, the threesome have accounted for 284 points. Gregory, 185-pound senior, leads the pack with 128 and scored all three touchdowns last Saturday as the Wolves bounced defending state champion Petersburg, 21-15. Sanders, perhaps the No. 1 kicker in Texas' schoolboy ranks, has tallied 80 points, including five field goals -- and one of those was a 45-yarder. Sanders is a 186-pound junior who plays both quarterback and halfback. Bennett, 155-pound junior, has scampered for 76 points.

The usual quarterback for the Wolverines is Doug Messer, 140-pound sophomore who is an excellent left-handed passer.

Top hands on the Springlake line are Jose Triana, 162-pound sophomore guard; Floyd Henderson, 163-pound junior end; and Danny Byers, 205-pound senior tackle. Byers was injured early in the season and was considered lost for the season, but he displayed remarkable determination and came back to resume his aggressive duties with the Wolverines.

The Stratford Elks failed to win their first four games, but came on with a rush to capture their next six and win the 1-A crown, then defeated White Deer in bi-district last week. The Elks are in the playoffs

score down. Bob Jones and Jim Johnson each scored 19 to lead the five to their second straight victory. Bill Adams and Billy Anderson showed a lot of hustle throughout the game and were always putting pressure on the Bula five.

The next game for the Spade teams will be December 3 when they travel to Smyer to play in the Smyer tournament.

Elks, Coached by Jim Greenwood, Colors, blue and white. Won district titles in 1963 and 1964. Second time in Regional. Seasonal record now 7-3-1, with seven straight wins. Seasonal record as follows:

# Hatla Wins Money In Final Contest

It was a three-way tie between L.F. Hatla, Ed McCamies and J.W. Bitner in the final weekly football guessing contest of the season. The three each missed three games to finish ahead of five others who had four muffs each.

Hatla, however, claims the \$7,500 top money on basis of picking Littlefield to beat Brown-

field in the tie-breaker game, with a total of 34 points to be scored in the game. Actual number of points scored totaled 21. McCamies grabs the \$5 second place money as he had the Wildcats winning, but with a guess of 35 points for the game. Bitner was closest to the actual points, he guessed 20, but he had Brownfield winning the game; thus, he takes down the \$2,500 third place loot.

Scoring with only four misses, but finishing out of the money were Jimmy Butler, James F. Collins, D. Starnes, Ronnie Smith, all of Littlefield and A.A. Smith of Olton.

Two games, Army vs Navy and Houston vs Cincinnati, were incorrectly listed in the final contest and did not count in the judging.

MIGHTY MIDGET---Farmer McGregor will be tackling Beau Brummel in a midget wrestling feature at the Sports Arena Saturday night. Other events on the card will have Dory Funk, Jr., grappling Tokyo Tom and in a return match it will Killer Kox against Don Curtis.

**43 Years Of Schoolboy Champs**

Texas' gigantic public high school football program, the largest and perhaps the best organized program of its kind in the world, has been turning out properly accredited state championship teams since 1921. Since 1948 it has been producing annual champions on a multiple basis.

During that 43-year span of competition, 84 champions have been crowned and on four occasions, when the title game ended in a tie, co-champions have been declared.

Abilene and Waco are the all-time champs. Abilene has won six titles and been in the finals on two other occasions. Waco has won 5 1/2 titles and has been in the final round of decision three other times. Wichita Falls is a close third. The Coyotes have won five titles in eight trips to the title fountain. All three schools, however, gained recognition as gridiron giants at times when they were the lone public high school in town. Since then additional high schools have appeared on the scene in each of the three cities, calling for a wider distribution of player talent.

One of the most impressive records belongs to Class AA Stamford. The Bulldogs grabbed four championships in a five-year period, although one of the crowns was later taken away because of a rule violation.

The present system of four champions each year was established in 1951. Since then only one school, Garland, has won state honors in two classifications. The Owls won the AAA marbles in 1956 then scored with the AAAA trophy last season.

Results of the title games down through the years have been as follows:  
 1921 - Bryan 35, Dallas Oak Cliff 13.  
 1922 - Waco 13, Abilene 10.  
 1923 - Abilene 3, Waco 0.  
 1924 - Dallas Oak Cliff 31, Waco 0.  
 1925 - Waco 20, Dallas Forest 7.  
 1926 - Waco 20, Dallas Oak Cliff 7.  
 1927 - Waco 21, Abilene 14.  
 1928 - Abilene 38, Port Arthur 0.  
 1929 - Port Arthur 0, Breckenridge 0 (tie).  
 1930 - Tyler 25, Amarillo 13.  
 1931 - Abilene 13, Beaumont 0.  
 1932 - Corsicana 0, Masonic Home 0, (Corsicana won on penetrations, 3-0).  
 1933 - Greenville 21, Dallas Tech 0.  
 1934 - Amarillo 48, Corpus Christi 0.

- 1935 - Amarillo 13, Greenville 7.
- 1936 - Amarillo 19, Kerrville 6.
- 1937 - Longview 19, Wichita Falls 12.
- 1938 - Corpus Christi 20, Lubbock 6.
- 1939 - Lubbock 20, Waco 14.
- 1940 - Amarillo 20, Temple 7.
- 1941 - Wichita Falls 13, Temple 0.
- 1942 - Austin 20, Dallas Sunset 7.
- 1943 - San Angelo 28, Lufkin 13.
- 1944 - Port Arthur 20, Dallas Highland Park 7.
- 1945 - Dallas Highland Park 7, Waco 7 (tie).
- 1946 - Odessa 21, Jefferson 14.
- 1947 - San Antonio Brackenridge 23, Dallas Highland Park 13.

In 1948, several changes were made in the program, with the net result being establishment of three champions in three different classes. Those divisions and finalists were as follows:

- CLASS AA**  
 1948 - Waco 21, Amarillo 0.  
 1949 - Wichita Falls 14, Austin 13.  
 1950 - Wichita Falls 34, Austin 13.
- CLASS A**  
 1948 - Monahans 14, New Braunfels 0.  
 1949 - Littlefield 13, Mexia 0.  
 1950 - Wharton 13, Kermit 9.
- BIG CITY**  
 1948 - Fort Worth Arlington Heights 20, Houston Lamar 0.  
 1949 - San Antonio Jefferson 31, Dallas Sunset 13.  
 1950 - Dallas Sunset 14, Houston Reagan 6.

The present system of four annual state champions in the upper four classifications was established in 1951, with the results by conference since then being as follows:

- CLASS AAAA**  
 1951 - Lubbock 14, Baytown 12.  
 1952 - Lubbock 12, Baytown 7.

**Dumas, Tascosa Top Final Polls**

Undefeated Amarillo Tascosa and equally undefeated Dumas were named to No. 1 posts in the final Class AAAA and AAA football rating polls this week as the state playoffs prepared to get underway.  
 Dumas won the state crown

in 1961 and repeated in 1962. Tascosa reached the playoffs for the first time last year. The top 10 rankings for each class in the final poll, with won-loss, point records are as follows:

## Alaskan Visitors Return Home

Mr. and Mrs. Bob Coffee, Juneau, Alaska, left Monday for home after a visit here with her parents, Mr. and Mrs. A.H. Scivally. Also with her brother and family, Mr. and Mrs. A.J. Scivally and children who are houseguests of their parents.

An early Thanksgiving dinner was served Sunday in the home of Mr. and Mrs. A.H. Scivally. It was also their 45th wedding anniversary. Present were Mr. and Mrs. Scivally, their son A.J. and family, a daughter and husband, Mr. and Mrs. Bob Coffee, Juneau, Alaska; Mr. and Mrs. Jim Ryan, Clovis, N.M.; and their mother, Mrs. E.M. Sullivan.

Several from here were in Lubbock Sunday afternoon to attend the golden wedding anniversary celebration of Mr. and Mrs. Oscar Woody, former residents of Fieldton. Among those from Fieldton were Mr. and Mrs. Truman McCain, Mr. and Mrs. Royce Goynes, Mr. and Mrs. Paul Hukill, Mr. and Mrs. J.C. Muller and Mr. and Mrs. R.A. Reed.

Your Hat. Coat

sign over the coat rack "Not responsible for lost articles." John glanced at it as he hung up his coat and then turned to assist his wife, in taking off her hat. He put it on a hanger as usual.

Two of them drifted across the corridor into the salon and were assigned to the hostess. The hostess was exceptionally good and the minutes were flying. The minutes were flying. The minutes were flying.

"Golly, it's almost 1 o'clock. Better get going."

When they got back to the coat rack, Jean's fur coat was missing.

"Sorry, sir, said the hostess, but we're not responsible for lost articles. We have a coat rack for the convenience of our patrons, but that is your own hat and coat. I'm sorry, but we just can't help everybody's possessions."

It is that in the case of the restaurant where the coat had been left. One who takes off his hat and places it on a rack, as one would do in a club, retains the power of control over it.

Under such circumstances, the operators of a restaurant have no responsibility because they have not received the possession and dominion of the coat.

Case would be different, where the coat had been delivered to an employee's room. In such event, management probably would be liable. So, also, in the case where a customer checks his automobile with a bathing house operator, or with a hotel clerk, he is responsible for the automobile with the attendant to be stored for him, those who have possession of the customer's property have the duty to take care to see that the customer's property is returned.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

**AUSTIN** — State Representatives who were sworn to the 1965 Legislature on Monday have military matters very much on their minds. Constituencies of these lawmakers with military bases in their districts stand to be affected by both Federal and State proposals.

Some lawmakers were sworn in with the knowledge that many Federal workers in their districts stand to lose their jobs by U.S. Defense Department cutbacks. Operations will be cut out at James Connally Air Force Base at Waco and Amarillo Air Force Base and cut down at Dyess Air Force Base in Abilene and Eagle Mountain Army Maintenance facility at Fort Worth.

San Antonio bases and Carswell AFB at Fort Worth stand to gain by the big shift. And that also will present new problems for State Representatives.

**REDISTRICTING** — Congressional redistricting, one of the major problems facing the 1965 Legislature, may cause a headache for legislators whose districts embrace bases.

Bob Johnson, executive director of the Texas Legislative Council, believes the Legislature could — if it chose — leave out military and State hospital populations in deciding the "population" of a county for redistricting purposes.

By State constitutional provision, persons in State mental hospitals cannot vote, nor can persons in military service who enlisted in other states. Therefore, they could be left out of population totals if the Congressional redistricting goal of "one man, one vote" is considered paramount.

However, Johnson conceded

**CITY BITS**

Mr. and Mrs. Lloyd Crume, David and Gary of Herford spent the weekend with her parents, Mr. and Mrs. Robert Golehon. They also visited Littlefield friends while here. The Crumes are former residents of Littlefield.

Ellen Webb Massengill, a teacher in the Seminole schools, will spend the Thanksgiving holidays with her mother, Mrs. L.L. Massengill.

Rev. and Mrs. Houston Hodges, three sons, Bruce, Chris and John, and daughter Susan of Lubbock, spent the weekend with Rev. Hodges' parents, Mr. and Mrs. Allen Hodges. Rev. Hodges is the Presbyterian campus minister at Tech.

**INDUSTRIAL GROWTH** — A study of UT's Bureau of Business Research's monthly reports on industrial growth from January through November shows that a total of 611 new plant locations and significant plant expansions were announced for Texas in those 12 months.

The Houston metropolitan area led 11 others with 126 new plants and expansions; Dallas with 81 was next; and Fort Worth followed with 65. However, there were dozens of little towns which boosted big industrial booms.

**COLLEGE FUND PLAN AD-**

**OPTED** — Texas Commission on Higher Education has adopted a plan for distribution of \$11,700,000 in federal building funds among 90 junior and senior colleges in 1965.

Forty-five per cent of points allocated to schools under the system must be based on projected enrollment increases and utilization of existing facilities.

Formal applications of schools can be submitted after the U.S. Office of Education approves the state plan — probably about December 1. January 15 is deadline for application.

**RIO GRANDE WATER ESTI-**

**MATED** — Texas Water Commission has estimated Rio Grande Valley has water supplies to irrigate up to 680,000 acres over the requirement for municipal and industrial purposes.

Commission figured 124,000-acre feet annually would be needed for municipal and industrial uses. Report was written for the attorney general who is participating in a giant lawsuit over Rio Grande water rights involving Starr, Hidalgo, Cameron and Willacy Counties.

**OIL ALLOWABLE** — Texas Railroad Commission set December oil allowable at 29 per cent of maximum for propped wells, compared to 28.4 per cent in November.

Increase is expected to be 29,914 barrels a day higher than the estimated November average of 2,541,909 barrels a day.

**TB CONTROL PLAN MAP-**

**PED** — A sweeping new plan for tuberculosis control aimed at consolidating all TB services under one agency and providing treatment of patients close to home has been recommended by the Governor's Committee on TB Eradication.

Committee found the state's program, now divided among four agencies and costing some \$16,200,000 a year, not equal to the job at hand. It proposes placing all related activities in the TB Services Division of the State Health Department.

Recommended treatment procedures, calling for shorter hospitalization but careful at-home treatment after the infectious period is passed and a lifetime "follow-up", would cost more but would be more effective, the committee believes.

## Thanksgiving Prayer

Dear Lord, we give Thee thanks this day,  
But not alone for daily bread —  
For all Thy gifts which bless our lives.

We thank Thee for love, that makes life's burdens light.  
For friendships shared, for hope and joy,  
But mostly for the precious right

To think and speak as conscience leads,  
To worship Thee, each in his way,  
To walk in freedom where we will,  
Lord, as we pause to praise and pray.

### Good Service Is Evans Washateria's Watchword

New equipment has been added to Evans' Washateria to make it one of the most complete self-laundry and cleaning centers in West Texas. The latest piece of equipment that has been added is a pressing machine, enabling patrons to press their coats, suits, pants, etc., after using the coin-operated cleaner.

For the past 17 years, Evans' Washateria has been serving Littlefield and surrounding area. Since it's inception, Reba Evans has been striving to give the best in DO-IT-YOURSELF clothes washing and drying equipment. Keeping abreast of the times, he has many modern up-to-date washing machines, dryers, a coin-operated cleaner and a new steam press to do your own pressing. To save time

and money on cleaning and pressing clothes his COIN-OPERATED CLEANER and STEAM PRESS fills the bill for those who like to do their own work.

Evans and his personnel will gladly assist you in the operation of any of their equipment where you will also find a pleasant atmosphere. They are located at 1201 E. 9th and their phone number is 385-5054.

For the convenience of his patrons, Evans' Washateria is open from 7:30 a.m. to 9 p.m. Monday to Friday, 7:30 a.m. to 6 p.m. Saturdays and 9 a.m. to 6 p.m. Sundays.

### Affable Service Is Building Dave's Business

Since Dave Stafford took over the interests of Dick Salmon Service Station located at 901 Hall Ave. January, 1962, he has made it a point to give his customers the service that makes them come back.

Dave and his personnel are experienced and friendly operators and give the kind of service that one expects from a one stop efficient service station. Washing - greasing and lubrication are done with attentive care. Atlas tires, batteries and accessories are renowned for durable service. "Enco products"

Humble gas puts a tiger in your tank," says Dave. You can count on DAVES ENCO PRODUCTS at 901 Hall Ave.

With the help of Leonard Castillo and Robert Domingo they are rendering to their patronizers a service equal to the best and much better than many in the same line of endeavor. The station is ready to serve you every day from 6:30 a.m. to 8:30 a.m.

Dave is a native of this area, reared in Spade. He attended schools in Spade and Littlefield. He had

worked in service stations previous to his purchase of the station.

## March of Medicine

### Feeding Baby Through The Ages

Ever wonder what mothers of olden days did when they couldn't nurse their babies?

In this day of plastic bottles and canned formulas, we tend to forget that for over 2,000 years all of the world's wise men, including Galileo, Leonardo and even Merlin, were unable to improve upon the pottery

baby feeding bottle of antiquity complete with its pottery nipple.

Pottery nursers were clumsy and unsanitary and it's certain that no infants ever mistook them for the real thing but they were the best that technology could provide until well into the last century.

Examples of the feeding pots date back long before Christ. Crudely constructed, much like a pitcher with an over-long spout, they were often buried with the infant dead of the Greeks and Romans.

Artisans of the Christian era up through the Renaissance improved vastly on the design and decoration of the pots but were unable to improve on the idea.

About the time of the American Revolution, a major step forward was made - old-fashioned pottery was replaced with

pewter, tin or even silver. Some say that after his midnight ride has long been forgotten, Paul Revere will be remembered for his silver nursing bottles.

Nurses of previous metals, of course, were reserved for the infant of means. Poorer children - especially those who joined the Pioneers in their westward trek - had to content themselves with cruder versions carved out of wood, bone or cattle horn.

By the middle of the 19th century, glass was no longer a curiosity, and its use in baby bottles gave horrified mothers their first chance to see inside baby's bottle, thus began our first notion of modern sanitation.

Crude rubber nipples were developed about the beginning of the present century, and grateful generations of infants grew up with what quickly became known as the "traditional" nipple shape. But scientists were launching space satellites right and left before they again turned to the problem of infant feeding and finally developed the rib design.

For the first time in 25 centuries, a nipple was designed to fit the baby's mouth. Introduced by the Kendall company, makers of Curry products, the rib design has made bottle feeding almost comparable to breast feeding for the first time. Hollow side ribs in this unique design seal out air, assure steady milk flow, make it impossible for baby to bite the nipple shut.

W. O. Elson, medical research director for Kendall, said that modern sanitary methods, tailor-made formulas with nutritional supplements, and the rib nipple combine to actually improve on natural feeding in many cases.

"Any wonder that more than two-thirds of American mothers today actually prefer bottle feeding?" he asked. "For the first time in history, they have a real choice and need not feel they are neglecting their babies if they choose the artificial means."

## WAIF PARTICIPATING IN UNITED FUNDS IN TEXAS

Since the beginning of the WAIF (WORLD ADOPTION FUND) program in 1954, more than 10,000 foreign children have been placed in adoptive American homes. These children, orphaned by war, poverty and illness, are now enjoying the benefits of a full and happy family life; and couples who otherwise would have been forever childless know the joys of family of their own.

In 1963, WAIF processed 207 requests for service from all over Texas, from communities

both large and small, indicating the continuing growth of service to Texas.

With chapters all over the world, working with 64 countries, WAIF works with and through other agencies, never duplicating services. International Social Service program, American Branch, in 1963, served 7,185 cases involving more than 30,000 men, women and children. Among problems encountered were: reunion of families, desertion or non-support crossing national boundaries, adoption and paternity problems of children, sociological problems, migration, loss of contact, etc.

### Bula Class Officers Elected

**BULA** -- Class officers, student council representatives and class favorites for the Bula high school are: freshman, president, Mike Richardson; vice president, Dennis Newton; treasurer, Joyce Sowder; secretary, Barbara Clawson; reporter, Cheryl Smart; class representative, Glenn Salyer; Class favorites, Joyce Sowder and Dennis Newton.

Sophomores, Juana Young, president; John Fred, vice president; Marilyn McCall, secretary; Betty Salyer, treasurer; Nancy Sales, reporter; Class favorites, Marilyn McCall and John Fred.

Juniors, Mike Capeheart, president; Dennis Quirney, vice president; Brenda Clawson, secretary; Sammy Nichols, treasurer; representative, Barbara Autry; class favorites, Lana Aduddell and Kenneth Overland.

Senior class, Linda Grusen-dorf, president; Diana Cox, vice president; Beverly Clawson, secretary and treasurer; Michael Overland, class representative.

Keeping a child in the public schools, elementary and secondary, cost \$455 on the basis of average daily attendance in 1963-64, or \$22 more than in the previous year, according to National Education Association figures.

## Consumption, Exports Cause Upland Cotton To Disappear

Dr. M.K. Horns, Jr., Chief Economist of the National Cotton Council states that domestic mill consumption of cotton has risen from an annual rate of 8,443,000 bales in the first quarter of 1964 to 9,205,000 bales in the third quarter and states that the new competitive price for raw cotton has played a big part in this rise.

The increased use of cotton was reported after an extensive mill survey, which showed shifts from rayon-cotton blends to all-cotton in woven apparel fabrics, suiting yarns, bedding, rug backing and sales yarns for knit wear and other uses. Dr. Horns states that: "Since the price of cotton to domestic mills was lowered on April 11 by enactment of new legislation, our long three year record of net competitive losses has been stopped. Checking the momentum of these losses had to be cotton's first objective. This has been done, it is a major accomplishment, and a start

has been made toward regaining the two-million-bale market that had been lost to man-made fibers over the past three years."

The report also showed that a number of mill managements are now considering additional switches back to cotton on account of the reduced price. Dr. Horns stressed that the main effect of a fiber price change cannot be expected within a six-month period since most

textile production is programmed far in advance. If present price relationships continue, the largest competitive gains for cotton will come over the next several years as the textile industry responds to lower cotton prices and stepped-up research and promotion programs.

Commenting on cotton's competitive losses during the three years prior to enactment of the one-price cotton law, Dr. Horns said they would have con-

tinued at an even faster rate if the price had not been lowered. Numerous mill managements had well-advanced plans for further switches to cotton early this year, but put those plans on hold pending the fate of the legislation after its expiration July 31, 1966.

Typical was the statement of one large company which shifted more than 30 per cent of its production to man-made fibers in the past three years. It had plans to shift another 10 per cent of its production from cotton in the next three years, but the plans were held up by the lower price.

The hard, cotton-killing freeze which descended on the High Plains November 20 can rightfully be described as a double blessing to farmers in the area. The year's first freeze, which traditionally paves the way for full-throttle harvest operations, this year brought the added benefit of applying the brakes to spraying operations in the area's huge Boll Weevil Control Program.

A killing frost spells doom for boll weevils and stops the necessity for further spraying in a diapause control system by destroying the weevil's only food supply. The lateness of the freezing weather—latest on record since 1946—has been a growing source of irritation to officials in the boll weevil control program as they helplessly watched costs mount beyond original estimates. Early-fall guesses on the aggregate number of acres it would be necessary to spray in order to stop weevil migration and reduce the number of weevils going into hibernation before frost ran only to about 750,000 acres, but an exceptionally heavy build-up of the pest populations, plus the record-setting late freeze, boosted the final figure to about 1,100,000 acres sprayed. Final cost figures for all phases of the program are not yet complete but observers close to the program feel that the belated weevil-stopping frost has probably halved expenses somewhere near the \$1 1/4 million mark.

Despite adverse weather conditions in the form of wind, fog, and rain which have hampered spraying from the start, officials of the Plant Pest Control Division of the USDA are confident that the 1964 leg of the program has accomplished its major objectives. And, other entomologists who have helped to monitor the program—from the Texas Agricultural Extension Service, Mississippi State College and the Agricultural Research Service's boll weevil laboratory at State College, Mississippi—are all in agreement.

Dr. E.P. Lloyd of the State College weevil laboratory, after extensive and scientific field checks in the latter stages of the program, said: "While exact results cannot be determined until weevils begin to emerge from hibernation next spring there is every indication that the number of weevils killed before they could leave cotton fields for hibernation sites has been in excess of 90 percent." By reducing the number of hibernating weevils each fall for three years running, the program is designed to bring weevil control along the eastern edge of the area down to a matter of fighting local outbreaks.

Don Anderson, Chairman of the Boll Weevil Steering Committee—made up of farmers in the control zone—stated that there can now be no doubt that this year's spraying stopped the

tremendous westward migration potential of weevil population which exploded in the late Summer and early Fall to levels above any previously seen in the United States. Many feel that such extremely high numbers of the pest would have sparked movement west into many of the now weevil-free counties on the Plains had it not been for the initiation of a spray program this year, and Anderson said that he believed High Plains farmers have "gotten their money's worth" from this migration halt alone.

Cost of the control effort is being borne jointly by farmers in the 23-county High Plains territory served by Plains Cotton Growers, the State of Texas and the Federal Government. Federal funds are committed to match State and local expenditures up to \$1 million. Producer contributions are being made at

the rate of 50 cents per bale, collected at area compresses with refunds available to those who do not wish to be a part of the program. Funds collected in this manner are kept in a completely separate Boll Weevil Control bank account, and any money from this year's crop which is not used will be carried over to help with the cost of spraying in 1965. Cost of the program next year will be dependent on the degree to which this fall's sprayings have succeeded in keeping weevils from entering hibernation and on the extent of in-season control next Spring on the eastern High Plains and just off the Cap Rock.

George Pfeifferberger, Executive Vice President of Plains Cotton Growers, said: "This program is the perfect example of the pull-together attitude which has made the High Plains the most concentrated—and one of the most prosperous—cotton producing areas of the world." He went on to say: "A program of this size and complexity could not have been successful without the highly organized teamwork of all, and in the long run it will save literally thousands of dollars for each individual High Plains cotton farmer. Plains Cotton Growers is proud to be a part of it."

## Cosa Nostra White-Collar Swindles Noted

If you are an average American—with the average American's trust in his neighbor—be careful! You may be marked as a target for the Cosa Nostra.

So lucrative has the white-collar swindle become that the Black Hand Society has begun moving in for its share of the grand prize—the \$63 million a year that is bilked from the gullible and unsuspecting public by every conceivable means of mail fraud.

Fortunately, the Cosa Nostra's interest in robbery by mail has attracted the attention of the oldest and one of the most respected law enforcement agencies in America—the Postal Inspection Service.

And if the recent past is indicative of things to come, some members of the dread underworld "family" will find themselves behind bars within the next 12 months.

Last year, more than 12,000 persons—a thousand a month—were arrested by the Nation's 1,000 Postal Inspectors for violating the postal statutes, according to Chief Postal

percent of all cases brought to trial resulting in convictions.

### Cosa Nostra Trick

One of the areas in which the Cosa Nostra is now active involves a merchandising scheme in which the reputation and credit standing of a financially stable and well-known business firm are invoked to mislead the victim into trusting the swindler.

One of the most successful con men of all time—Hyman David Novick—several years ago fleeced millions from businessmen in America and other countries by chartering such firms as Safeway Chain Stores (to be confused, he hoped, with Safeway Stores, Inc.), A-P Supermarkets (mistaken by some, regrettably, for A&P Food Stores), the J. C. Penny Co. (which looks almost like and sounds exactly like J. C. Penney Co.), and many other variations on successful business themes.

By culling the sales ads of small firms from business publications, Novick had no trouble at all building up a profitable list of prospective "customers."

Once he had them hooked,

Novick would order merchandise—often by the carload—sent on a "bill us later" basis to an address in Canada. When the bill finally arrived—usually after Novick had conned the victim out of several reorders—the swindler was nowhere to be found, and the merchandise had long since been disposed of by Novick at a neat profit.

Novick is now behind bars, thanks to the Postal Inspection Service—which nailed him when he crossed the Canadian border one day, to pick up some mail.

### Pornography

The Postal Inspectors brought one case to court last year that lifted a lot of eyebrows. A man was charged with mail fraud because he did not deliver to a customer the pornographic materials he promised in his "bait" brochures.

At first blush, this might make it appear that the Inspection Service is on the side of the devil. In actuality, however, it is a test case. If a conviction is obtained, it will give the Post Office Department an extremely valuable double-edged weapon to use

against those who would vilify the mails to undermine the public morality.

It will enable prosecution obscenity dealers under mail fraud statutes if pornography is promised and delivered, or under the morality laws if it is promised and is delivered!

In either case, justice will be done.

Since the present Administration took office in 1961, cases brought by the Post Office Department to enforce the obscenity laws are handled through criminal procedures—rather than through

Over half of the public school teachers in the country inclined to oppose the state time programs in which parental school students spend a day of their school day studying non-denominational subjects in the public schools, a study the National Education Association shows.

## 'Little Gal of the Golden West' Is National March of Dimes Child

A blue-eyed lady of four years, known affectionately in her home town of Denver as the "Little Gal of the Golden West," is the 1965 National March of Dimes Child. Her name is Michaeline ("Mickey") Lea Heinicke.

Mickey symbolizes the quarter-million American infants born every year with severe birth defects on whose behalf contributors to the March of Dimes have financed programs of research, medical care and education.

Mickey's mother, Maxine, tells of the tragedy that today befalls one in ten families in the United States.

"Like tens of thousands of other couples, Paul and I were heartbroken and numb when we learned the truth a few days after Mickey was born. I am a nurse, and I had had some experience with babies born with an open spine, which was the case with Mickey. I was under no rosy illusions that this third child of ours would ever walk.

"But," asks Maxine, "do you remember that song, 'Did You Ever See a Dream Walking?' The refrain comes back to me every time I see Mickey walking on her crutches and braces, or furiously riding her hobby horse in the parlor, or doing an Indian war dance to her phonograph records. I say to myself, 'that's my little dream walking'."

"But my husband and I would never have experienced this real-life dream without the March of Dimes help."

Mickey, whose spinal rupture was repaired when she was only three days old, is now midway through a tour that precedes the coast-to-coast March of Dimes campaign in January. Although severely handicapped, this four-year-old thrives on the long days, tedious air-hops between cities, appearances at conventions and the strain of meeting Senators, Congressmen, Generals, stars of stage and screen and other public figures.

Mickey is already a veteran trouper, unimpressed by the mighty in high places. Her mother says, apprehensively:

"In January, when we expect to have the privilege of visiting the White House, I know I will faint dead away when Mickey will undoubtedly bubble over to the President, 'Hiya, Podner,' or something awfully familiar and western to the First Lady."

Birth defects are the greatest medical problem threatening the nation's children. To help provide patient aid in this area, contributors to the March of Dimes now support 50 treatment and study centers at leading medical centers and university-affiliated hospitals.

Basil O'Connor, president of The National Foundation-March of Dimes, says that the need for many more such centers is acute.

"Birth defects," he adds, "are a much more serious problem than polio ever was."

"To attain the same successful end that was achieved in eliminating polio, we need not 50 birth defects centers but fully 150 centers to help these afflicted infants and children. Funds are also needed desperately to support research inquiries into the many scientific problems involved."

"I sometimes look at the crippled Mickeys around our country, at children born without arms or legs, at other tots doomed unnecessarily to lives of mental retardation—all due to birth defects; and I wonder how many of our warmhearted citizens can fail to demand and to finance a means to end this shocking destruction whatever the cost."

## Native of Israel To Speak at Anton Church

ANTON -- Farank Qubty will be the speaker at the Lawrence Avenue Church of Christ in Anton November 29.

Supported by the Churches of Christ, Qubty attended Abilene Christian College and after graduation in 1962 returned to his native Israel as a missionary for the Churches of Christ. His wife is from Plainview.

In returning to Nazareth, he was not in "new territory" because he was returning to the home of his parents. His father, the mayor of Nazareth, lived in the same block in which Joseph, the father of Jesus, had his carpenter shop.

The area in which Qubty works is much of the same territory that Jesus covered many years ago, such as Dan, Beer-sheba, Nazareth, Cana and Galilee.

At present, Qubty is in the United States reporting on his work in the mission field.

The elders of the Lawrence Avenue Church of Christ extend a welcome to all to attend this service.

## Hospital and You

The acute shortage of young people interested in making nursing or other health professions a career is no new problem, but continues to be a very real and serious one to hospitals. Considerable thought and study has been given to possible solutions.

Many of the Texas hospitals, large and small, have opened a rather new avenue of "recruitment" for the high school graduate who may be considering a career in the health field, through their Junior Volunteer Service Programs.

Many young people think strongly that they would like to become a nurse or acquire the technical knowledge required to become a medical technician but lack the courage to test their idea. Many are afraid to invest the money necessary to prepare themselves for one of the health careers without first being sure that it is what they want to do, and is the career for which they are best suited. Others have a desire to serve in a hospital even though their career direction is still undetermined.

The junior volunteer activity sponsored by the adult senior auxiliary or the hospital offers a new approach to overcome the concerns of those already interested in this field and to stimulate such an interest in others. This volunteer program, specifically designed for the teen

youth but operating as an integral part of the hospital's total educational and volunteer service program, can give these young people an opportunity to observe the hospital and its functions on the scene and to participate in some of its activities.

Orientation courses are planned for the volunteers which provide them with basic knowledge of the hospital and its relationship with the community. More extensive training is often provided the volunteer when the demands of the hospital operation make it necessary for the junior auxiliary to perform in more departments of the institution. Usually the volunteers are guided by a modified constitution and bylaws along the lines developed for the management of the senior volunteer organization.

As of June 1964 there were 98 junior volunteer programs operational in Texas hospitals with a total of 5,938 volunteers participating.

Interested hospitals, service organizations or groups will find splendid guide line materials for establishment of the junior volunteer service program through the Texas Hospital Association and the Texas Association of Hospital Auxiliaries headquartered in THA's new headquarters building in Austin.

## Proper Care, Cooking Advised For Game Meat

COLLEGE STATION -- Many homemakers will soon have game meat available with which to prepare delicious and palatable meals if proper care and cooking are exercised.

Game meat adds variety to meals and is high in nutritive value, report foods and nutrition specialists for the Texas Agricultural Extension Service. It is an excellent source of high-quality proteins, fats, minerals, iron, copper and phosphorus and the B vitamins, thiamin, niacin and riboflavin.

Fresh and properly handled game meat can be tender and palatable when cooked by dry or moist heat. The method of cooking is determined by the quality and tenderness of the carcass.

Young and tender game is best cooked by dry heat such as roasting, broiling, pan-broiling and frying, say the specialists. Dry heat preserves flavor and insures tenderness. Basting with additional fat may be necessary if the meat is lean.

Old and less tender game, on the other hand, is best prepared by moist heat such as braising, stewing and simmering. Swiss steaks and pot roasts should be braised, and a small amount of liquid should be added to meat cooked in a covered container. Stews, fricassees and broiled game should be prepared by sim-

mering in hot liquid partially or completely covering the meat. With moisture, the high temperatures necessary or comparatively necessary to soften connective tissues can be obtained.

Parboiling strong game will reduce any objectionable flavor, point out the specialists. This will produce a mild gamey flavor; however, some soluble nutrients from well-conditioned carcasses will be removed.

However, the strong, gamey flavor that some people find objectionable is concentrated in the animal fat. To reduce this flavor, the fat must be removed in more nature, highly fattened carcasses.

Many people prefer to marinate meat from more nature animals to reduce gamey flavor and make the meat more tender, report the specialists. A marinade is made by combining one-fourth part vinegar, three-fourths part water, sugar and seasoning. Meat should be placed in the solution and refrigerated for 72 hours or longer.

Various methods of preparing and cooking big and small game and game birds, as well as numerous game dinner menus, are found in the Extension bulletin, "Wild Game Care and Cooking," available at your county Extension office.

## AMHERST NEWS

# Baptist Church to Honor Senior Citizens Sunday

Next Sunday will be a special day at the First Baptist Church for adults, with emphasis on senior citizens. The eldest lady and man attending as well as charter members of the church will be recognized, the pastor, Rev. Raymond Quick, announced. Following the morning service a picture will be made of the senior citizens attending.

Visiting her parents, Mr. and Mrs. F.W. Gardner are Mrs. Kenneth Jones and three children of Louisiana. They had spent three years in Germany and later two years in Maine before moving to Louisiana recently. Jones is in the Navy and has two years sea duty out

of Portland, Oregon. Guests of Mr. and Mrs. Ray Alguin in Enoch Sunday were Mr. and Mrs. Luke Swart and Glen.

Bruitt Black of San Antonio visited his father, Mr. and Mrs. Dave Black and sisters, Mrs. Carlton Bowman, Mrs. John Moreland, Mrs. Victor Reynolds and families and other relatives.

Donna, Connie and Rocky Bowman of Fieldton spent the weekend with their grandparents, Mr. and Mrs. Carlton Bowman.

Mr. and Mrs. Rodney Ivey and children spent Sunday with his brother Alvie and family in Lubbock.

## Grass, Bark Reduce Value Of Late Cotton

(This is the second in a series of articles on cotton classing and problems encountered by cotton producers prepared by W.K. Palmer of the USDA's Cotton Classing Office, Lubbock.)

The late cotton crop soon to be ginned on the South Plains will cause some problems because of the method of harvesting. Mechanical harvesting of cotton has increased during recent years.

Cotton that is snapped or harvested mechanically tends to be lower in grade and may contain more irregularities than hand-picked cotton. Most of the cotton in this section of the state will be machine-stripped. This method of harvesting strips the cotton plant from bottom to top. In addition to open cotton, immature bolls, limbs, foliage, bark, and grass, gathered with the cotton are often quite difficult to remove at gins even with the best equipment.

The most difficult of the foreign matter to remove by gins is grass and bark, both of which also cause problems in the cotton classing laboratory. Samples that contain grass and bark are reduced in grade, resulting in a lower value of the cotton. When a bale containing grass or bark is used by a cotton mill, this foreign matter must be removed, and therefore means more waste, additional spinning costs, and in many instances, a lower grade of finished product.

Causes for bark in a bale of cotton are usually attributed to maladjusted machinery or stripping when the field is wet

from rain or dew, or too soon after the plant is killed. If the stalk is dry, and the machinery adjusted and operating properly, cotton with bark in it is rare. Farmers should watch their machines closely when harvesting. It should be remembered that the grade of cotton is only as good as the quality of harvested cotton delivered to the gin.

The Canarsee Indians sold the site of what is now Brooklyn, N.Y., to the Dutch. The tribe was nearly wiped out when it defied the Mohawks.

Mrs. Alma Vaughn of San Luis, Colo. is visiting her daughter, Mrs. Laverne Nicholson, and family. She will visit her son, James Porter, and family, also in Lubbock.

M/Sgt. and Mrs. Bobby Ray Vaughn left last week after a visit with his parents and brother, Mr. and Mrs. L.E. Vaughn and Glenn. They had spent three years in Germany and since their return had visited her relatives in Cheyenne, Wyo. They are now in Little Rock, Ark. where he is stationed.

While they were here M/Sgt. and Mrs. Ray Anderson of Big Spring were their guests. They were friends while stationed in Chicago before the overseas tours-of duty when they were together often.

Donald Priddy of Harlingen visited his brother Gene and family during the weekend. They, with Glenn Vaughn, attended the Tech-Arkansas game in Lubbock, Saturday.

Weekend guests of their parents, the Cletis Duns and Clyde Boltons were Mr. and Mrs. Bokey Miller and little son of Lubbock.

Mr. and Mrs. Willis White of Springlake were in Amherst Friday enroute home from Postum Kingdom.

Rev. Raymond Quick, R.B. and Ranell went to Bowie Friday when word was received that Mrs. Quick's mother died there at 4:30 p.m. Mrs. Quick had spent some time there. He and the children attended the services Sunday.

Mr. and Mrs. Charles D. Jones and three children recent-

ly visited relatives in east Texas.

Mr. and Mrs. Frank Ray visited their son Ed and family in Canyon Friday evening. Mr. and Mrs. Johnny Eddings of Littlefield were Amherst visitors Sunday.

Mr. and Mrs. Merle Trout of Mobestie spent the weekend with their daughter, Mrs. Charles Nixon and family. Mr. and Mrs. Jedd Blessing, Billy Gene and Jedd of Floydada visited his parents, the Ray Blessings, Friday.

Mr. and Mrs. Delmer Hill and children of Filmore, Calif. arrived during the weekend due to the critical illness of her mother, Mrs. Velma Melton.

Rev. and Mrs. Hugh Blaylock of Dimmitt visited their daughter, Mrs. Dwayne Key and family Friday.

Guests in the E.E. Gee home Friday evening were Mr. and Mrs. Bennie Pickrell of Littlefield.

Mr. and Mrs. Larkin White, Charlie White and Misses V.O. and Willie White visited their sister, Mrs. Essie Chapman, in Winters several days.

Mr. and Mrs. Martin White of Sudan spent Saturday with their daughter, Mrs. Leon Hardwick, and family. Friday night guests in the Hardwick home were their daughter and husband, Mr. and Mrs. Dean Chisholm of Lubbock. They attended the Amherst-New Deal football game.

John Nelson occupied the pulpit of the First Baptist Church at both services Sunday, during the absence of the pastor, Rev. Raymond Quick. He is a member of the Amherst Grade School faculty.

Mr. and Mrs. Gene Campbell and daughters spent Saturday in Pampa with his sister, Mrs. Otis Holiday, and family.

Mr. and Mrs. Guy Hufstetler, Guy Jr., Jimmy and Katie Sue Hardwick were in Lubbock Saturday. They visited his niece and husband, Mr. and Mrs. Pete Wallace, who were there from

Fort Worth. Their daughter, Pat Wallace is a junior student at Tech.

Home for a weekend visit with their parents, the Alfred Schroeders and S.E. Lightners were Mr. and Mrs. Ronnie Schroeder and Chad from Lubbock.

Mr. and Mrs. Bob Donnell of Levelland were here early last week to visit her parents, Mr. and Mrs. Leslie Morrow.

They brought their two children, adopted in Austin, on November 13, Kenneth is age

Dotty is three. Mrs. Truman Anglin daughter Anita of Morton visited her uncle and aunt, Mr. and Mrs. J.L. Crosby, Friday before Mrs. Judy Hyners recital. They were in Sunday guests of Mrs. Carol Baker. Her son Morris played a recital.

**Contents Chosen For 5,000-Year Time Capsule**

WORLD'S FAIR, N. Y. — Pieces of the first atomic reactor and of Lt. Cmdr. M. Scott Carpenter's Mercury spacecraft Aurora 7 will rest alongside a "Beatles" record for the next 5,000 years. Each is a part of a key to our civilization for the distant future which has been compiled by a group of world experts for the Westinghouse Time Capsule. The contents selected are examined here by Mrs. Robert Peirce, Westinghouse secretary, and Dr. John C. R. Kelly, Jr., director of materials research and development, Westinghouse Research Laboratories. The telephone books in the background represent the more than 50,000 pages of information that will be microfilmed for inclusion in the Capsule which will be buried at the end of the New York World's Fair, Oct. 16, 1965, not to be opened for 5,000 years. The Capsule will be lowered into the ground next to its sister Capsule — the famed Westinghouse Time Capsule of the 1939-40 World's Fair — at the site of the Westinghouse pavilion in Flushing Meadows. The Capsule's contents, which will bring up to date the chronicle of the "history, faiths, arts, sciences and customs" of our civilization for the people of 6929 A.D. will be displayed at the Westinghouse pavilion during the 1965 season of the World's Fair.

### Scientists Speak On Programs For Cotton Research

COLLEGE STATION — A TEXAS A&M University plant scientist says use of "non-deteriorated seed" is essential in getting cotton crop off to a good start.

Dr. L.S. Bird, associate professor and a speaker at the Textile and Plant Disease Conference here Nov. 10-11, said high quality seed is necessary to achieve "seedling disease escape."

"Seedling disease escape," he explained, is selecting for insect seed and seedling traits which help avoid and resist soil-borne ailments. Disease escape involves evaluating material and selecting for low temperature germination, seed deterioration resistance, rapid seedling emergence and low post-emergence damping-off.

"The main point we want to get out is the importance of seed deterioration and its relationship to low temperature germination and seedling emergence," Bird said. "We want to emphasize its importance in getting a good uniform stand of cotton plants."

Cottonseed deterioration when exposed to high moisture levels, especially when combined with high temperatures, he said. The condition can occur in the field between boll maturity and harvest, in trailers as they sit in the gin yard, and in storage if moisture is not reasonably controlled.

Bird said higher temperatures are required for seed germination, seed germination and seedling growth rates are

## Cotton Quality Declines

Cotton quality declined slightly during the past week at the U.S.D.A. Lubbock Classing Office, according to W.K. Palmer, in charge of the Lubbock Office.

Virtually no cotton was harvested on the South Plains during the past week but volume received was still high because of the backlog of cotton at the gins and warehouses.

The three U.S.D.A. Offices on the South Plains classed 94,000 samples during the week ending Friday, November 20th, bringing the season's total to 317,400. At this date last year the three offices had classed 452,100 samples.

During the past week, approximately 60 per cent of the cotton classed at the Lubbock Classing Office was in the White grades with 14 per cent of all cotton classed being Middling or better. Strict Low Middling was the predominant grade, making up 36 per cent of the total. Light Spotted grades accounted for approximately 40 per cent of the total with Middling Light Spotted being the most predominant with 27 per cent.

Average staple length declined slightly. During the week 71 per cent of all cotton classed was 15/16 of an inch and shorter with 15/16 of an inch accounting for 55 per cent. The previous week 66 per cent was

15/16 of an inch or shorter. Micronaire readings continued to decline slightly but were still very good. Eighty-four per cent of all cotton "miked" in the Lubbock Office the past week was in the desirable category of 3.5 and better. The previous week 87 per cent of all cotton "miked" was in this category.

The U.S.D.A.'s Agricultural Marketing Service reported continued increased trading in new crop cotton. Prices for white grades ranged from 50 points under CCC loan levels to 50 points over the loan. Light Spotted grades were still in best demand, bringing from 20 to 140 points over CCC loan rates.

Average prices in the Lubbock market for the most predominant qualities were: Middling 15/16 - 28.75, Middling 31/32 - 29.35, Strict Low Middling 15/16 - 27.65, Strict Low Middling 31/32 - 28.10, Middling Light Spotted 15/16 - 28.05, Middling Light Spotted 31/32 - 28.50, Strict Low Middling Light Spotted 15/16 - 27.05, and Strict Low Middling Light Spotted 31/32 - 27.30.

Turkeys and peanuts, including peanut products like peanut butter, head the list. Also designated plentiful by USDA's Agricultural Marketing Service, this month, are apples, red tart cherries, cranberries, canned ripe olives, broiler-fryers and beef.

Turkey marketings are expected to run about 6 percent larger than last year. In early November, farm prices were running 1-1/2 to 3-1/4 cents a lb. lower than a year earlier. Marketings of beef and broiler-fryers will continue large, to provide a wide choice of meat entrees.

## Holiday Tables Will Reflect December's Plentiful Foods

COLLEGE STATION — Holiday tables will reflect the abundance of food so obvious this Christmas month.

Eight items are especially plentiful. They make up the U.S. Department of Agriculture's December list of plentiful foods, reports the Texas Agricultural Extension Service.

Unusually large packs of frozen and canned tart cherries indicate a big supply of this popular holiday fruit. Colorful cranberries and canned ripe olives, always popular festive delicacies, also will enhance the Christmas season if served often and generously.

Apples will continue plentiful as the harvest is estimated at 141 million bushels, the most since 1937.

Spending the weekend with

estimates at 2.1 billion pounds, it looks like an abundance of these munching favorites. That estimate is 6 percent larger than in 1963 and 25 percent above average.
