OIL INTEREST APPROACHES PEAK HERE

Young No. 1 To Get Test

Oil development in Lamb County area approached a new peak in interest here Wednesday, with hopeful citizens awaiting developments on three wildcats in the area and with the prospect of a new well field near the county line to the south.

Scheduled today is testing on a Wildcat, the Delfern Oil Company's Glenn Young No. 1, located eight miles southwest of Littlefield.

Officials at the well this week said that the company may have a good well in Young No. 1, but they added that the true production capacity won't be known until testing is done today.

Total depth of the project is 4,130 feet, and 5 1/2" casing has been run.

"We could have a pretty fair well here if we don't have too much water," one official said. Livermore Drilling Co., which handled the project, moved its rig off early this week to a city location west of the high school.

Another development which may come today is a hearing scheduled in Austin which will determine whether a new field will be created near the George White Ranch south of Littlefield.

Drillers have brought in three good producers on the White ranch and are working on a

Some people will go to any lengths to sell their products. Supt. Ralph Schilling was disturbed Wednesday morning over a couple of salesmen using the school's name to help sell their wares.

A slip was apparently handed out to all children in the lower grades immediately after school Tuesday afternoon, giving information about music lessons . . . and requesting the slip be returned to the school if the parents were interested.

Last weekend, school officials had reports that a book salesman was phoning parents, saying he was "calling from the school".

"I certainly advise parents to thoroughly investigate any sales scheme that is done in the name of the school," Supt. Schilling warned.

The school has the full cooperation of the city police in trying to stop this sort of thing. However, so often the school officials know nothing about it until after many parents have bought.

Littlefield's Industrial Foundation is getting lots of attention from other towns in the South Plains. Even though towns all over the county are organizing foundations, we're the first in West Texas to use this approach to attract industry.

Last week Homer Garrison and Howard Horn were guest speakers at the Muleshoe Lions Club. Apparently civic leaders there are considering using the same plan.

According to a story in the Muleshoe Journal, Horn and Garrison told how the interest in industry in Littlefield was born, and kept alive by regular weekly meetings of the business men. They described the activation of the Board of City Development by a city election . . . and the actual organization of the Foundation.

"Now that we're really in business, the future looks mighty bright," one of the speakers commented.

Building Project Gets Underway Plans For New Methodist Church Site To Be Shown

The First Methodist Church will unveil architect's plans for a new, modern church building project here Sunday.

Rev. Harry Vanderpool, pastor of the church, announced the move Wednesday after almost 100 committee members of the expansion program met Monday night as part of a Stewardship Education program of the church.

A large picture of the master plan of the building will be on display in the church vestibule Sunday, Rev. Vanderpool said.

Under the program, the church will relocate in the southwest part of the city in a new structure

Lobos Win 'Points For Polio' Cage Game Easily Over 'Cats'

Levelland's Lobos raced to an easy victory over the Littlefield Wildcats in a March of Dimes "Points For Polio" game in Lovelland Tuesday night, 73-45.

But the real winner of the game was the anti-polio drive, where Littlefield and Lovelland Rotary Clubs were in a contest to see who could raise the most money to combat the dread disease.

As it turned out, it appeared that Lovelland had won both the game and the March of Dimes money. Lovelland Rotarians said they raised \$380 from the game, while B. D. Garland Jr., president of the local club, said the local organization raised \$325.

Littlefield dropped its third straight conference game with the loss. In the B game, Littlefield also fell, 40-34. Leading the Wildcats scoring were Bill Jeffries with 11, Buddy Jones with eight and James Pearsley with seven. Lovelland was paced by Bert Bailey with 14 and Jesse Suddorth with 15.

Littlefield plays Phillips at Phillips Friday night in its next game.

Lockney Men Contract Vegetable Average Here

ENJOYING A COFFEE BREAK during an all-day vegetable meeting held here Tuesday, A&M marketing specialist J. F. Rosborough, second from left, talks with Lamb County vegetable producer Johnni Gallini. Listening are County Agent Bill Kimbrough, left, and Specialist Joe Cole of Lubbock.

Lamb County Seen As Top Produce Area In Meeting

Lamb County can grow produce that will match any other area's, but to sell it on fast-changing, competitive markets, area farmers will have to overcome three problems, a Texas A&M Extension Service Marketing specialist said here Tuesday.

"Your problems now," said J. F. Rosborough, the Specialist, "are to (1) get together, (2) draw in buyers and (3) learn the best practices for this area to make sure you get top quality."

Rosborough, speaking before about 60 Lamb County farmers in a day-long vegetable meeting here, said "areas that are growing in vegetable production are doing so because they are organized."

"They plan out their programs on a long range basis and talk with the trade on what crops to produce," he said.

With Lamb County still in the

fledgling stage as a vegetable producing area, the A&M specialist recommended that area farmers begin by planting "crops that are less perishable like potatoes, onions, carrots, beets and cabbage."

"Nearly all of the big vegetable producing areas of today started out with only a few crops," Rosborough stated. "You can produce vegetables here that will match anybody's—and you can outproduce most areas."

"Take the onion crop for instance," he said. "Other parts of Texas are dry and onion production may be low this year. If this area gets moisture, and other areas don't, then you should plant onions. When you're deciding what crop to plant, look at the overall picture before you leap."

Rosborough's talk came at the end of the Tuesday meeting, after farmers had heard three other

A&M Extension Service experts discuss other phases of vegetable growing and production.

Earlier in the afternoon, B. G. Hancock, extension horticulturist, talked on vegetable production; Dr. Harlan E. Smith, extension plant pathologist, explained plant diseases and methods of control; and C. F. Garner, extension entomologist, talked on insects and control.

Joe Cole, vegetable specialist with the Lubbock division of the extension service, joined the program with recommendations of varieties suitable for this area. County Agent Bill Kimbrough, and his assistant, Bob Harey, handled arrangements for the meeting.

In an interview during the morning, Rosborough said that this region has an advantage over other parts of Texas because of cool nights here. He said that

Littlefield Is Center Of Operation

Two independent Lockney vegetable men announced this week they have contracted for 200 acres of Onions to be grown by Littlefield area farmers.

The men, Maury Wade Wiley and Calvin Duncan, said they have signed "growing agreements" on 10-20 acre plots totaling 200 acres in the area and 150 acres of onions in Hookney County. All of the production is to be processed in Littlefield, they said. Duncan is planning on moving to Littlefield to make it the center of his operation.

The announcement came as Lamb County began a push to raise interest in farm diversification.

Wiley and Duncan told local men interested in the move that they will employ local help to plant, harvest, and process the crops. Two crews of 25-30 workers will be needed for each plot.

Planting will get underway between the last week in February and the first week in March. Harvesting probably would come between June 10 and July 1, with processing to follow.

Wiley and Duncan said they expect a yield of around 500 bags to the acre in Lamb County. They will furnish the plants, arrange for labor to plant, harvest and process, furnish processing facilities, handle sales, and supervise production and control.

Under the contract signed with area farmers, the Lockney men will receive 20 percent of the profits, with the other 80 percent going to the farmers. The farmers will pay for labor.

Total cost per acre is expected to run between \$150 and \$175, they said. Setting of the plants was contracted at \$35 per acre, with 30,000 plants to the acre. Plants are to be set down in two 12-inch rows on a 40-inch bed.

Because land in the plots will be heavily fertilized, Wiley and Duncan said there would be possibilities of following the onion crop with carrots or lettuce, if the farmers desire to go on with the programs.

Gallini Plans 100 Acres Of Onions

Johnnie Gallini, one of Lamb County's top vegetable producers, said Tuesday he will plant 100 acres of onions on his farm east of Littlefield.

Gallini's onion acreage, however, is not connected with contracts set up locally this week by two Lockney men. Gallini will work with an Eagle Sales operation.

JAYCEES PUSH POLL TAX SALES

Littlefield Jaycees will be selling poll taxes here Saturday in an effort to pick up lagging sales in the county to date.

Trying to make sure citizens will not lose their vote this year, the organization plans to set up a booth in downtown Littlefield on Phelps Ave.

Even though 1957 is an "off year" for voting, Jaycees reminded citizens that special elections will be coming up and urged citizens to purchase their poll taxes.

KS' CHESTY S PHILLIPS

Littlefield Wildcat fortunes are looking up. The great coach Chesty Phillips, who had made Littlefield until 1956, at Blackhawk country University of Washington, accepted an assistant coach position Tuesday night.

KAT'S KORNER

By GAY DOUGLASS

Well, gang, it's back to the old grind again. The start of a new semester is always something of a letdown and a time to look forward to all at the same time. You feel let down when you think of all the work ahead of you and you look forward to it because you realize the year is half over now. Who will be choir sweet-heart? That's the big question in school these days. The choir will crown their queen tonight at a party for the choir members.

"Fort Worth or Bust" is the motto of the Ag boys now. This weekend they are leaving for their trip to the Fat Stock Show in Fort Worth. I know they will have a wonderful time.

The Forum will be entertained tonight by a one-act play from the Speech Department. The name of the play is "Sugar and Spice". It was presented as an assembly program not very long ago.

The Seniors will begin work in earnest on their class play soon. The play to be presented is "The Night of January 16" and it promises some real surprises for all who attend.

The final plans for the football banquet have been worked out and things are starting to hum now. Everyone is getting excited and the Student Council members are getting anxious for fear everything won't happen just exactly like it's supposed to.

Just five days after the Banquet the Student Council is sponsoring the Honor Festival, so they will be busy for quite a while.

The Seniors have invaded the library! Mrs. Lynn, Senior English

Mrs. Kinkler Hosts Lubbock Brunch

Mrs. Hugo Kinkler and her daughter, Mrs. Billy Wayne Sisson, of Plainview, were hostesses at a brunch Saturday at Lubbock County Club honoring Miss Vera Kinkler, niece of Mr. and Mrs. Hugo Kinkler.

Miss Kinkler is to be married February 9 to James D. Martin, III. Guests were girls of her wedding party.

The hostess gift was sterling salt and pepper shakers.

Other Littlefield residents attending were Mrs. V. S. Cassell and Mrs. Jesse Harlan, both lifelong friends of the bride-elect.

teacher, has assigned a ten page research theme for each six weeks this semester for each of her students, so the reference books are going to be pretty busy for a while.

I hear there is a move to have Teen Town for Senior High one week and Junior High the next week. How about that?

Guess what! The educators of our country are trying to initiate a move to have schools all year long! Their purpose is to try to combat teacher shortage and juvenile delinquency. Jeppers, I'm glad I'm graduating! But don't feel too bad, kids. European schools have been doing it for a long time. The only compensation is that you won't have to go the full twelve years.

Well, Sir Homework is calling. See you next week.

Duval Hits For 20, But Cats Beaten By Plainview

By J. D. TRULY
The Littlefield Wildcats dropped a non-conference game to the Plainview Bulldogs, 78-43, Saturday night. Plainview just had too much height for the Wildcats, and they outscored them in every quarter.

Plainview opened the scoring in the first period. Littlefield was held scoreless for four minutes and forty-five seconds. Charles Duval broke the ice for Littlefield with two free throws to make the score nine to two. The Wildcats' first field goal came with only two minutes and fifteen seconds to go in the first period. Hilton Hemphill hit a shot from far out. Littlefield hit three for 14 attempts from the field in the first period and the score was 21-10 at the end of that period.

In the second quarter, the Wildcats were held to only 10 points. Duval hit a field goal and four free throws for a total of six points. The height of Bobby Grace, Plainview's 6'5" junior was just too much for Littlefield to handle. At the end of the first half, Jones and Stephens both had four fouls, and Plainview led 44-20.

In the third quarter, Stephens fouled out in the first minute and forty-five seconds of play. Jones fouled out three minutes later. Plainview scored 15 points to eight for Littlefield and they led 57-28 at the end of the third period.

The Wildcats scored more points in the final period than at any of the others, but the Bulldogs lengthened their lead by outscoring the Wildcats, 21-15. The Wildcats hit five for 13 attempts for a 39 per cent from the field.

Littlefield committed 20 fouls and Plainview turned these into 24 points. The Bulldogs had a 73 per cent at the charity toss line. Plainview committed 18 fouls but the Wildcats were able to hit only 15 of 28 attempts for a 54 per cent. Littlefield hit 14 shots from the field for 50 tries and a 28 per cent average.

The high point man for Littlefield was Duval with 20 points. Grace was the high man for the night by scoring 24 points. He was backed up by Tregel with 14.

The Plainview B-team walked off with their game against the Littlefield B-team, 56-49. McCowan was the high man for Littlefield

with 17 points. He was backed up by O'dell with 11.

'Train' Clements In Grudge Battle With Duke This Week

At an invitation of Duke Keomuka, savage Japanese judo-chopper Ray "Big Train" Clements, once one of the most feared wrestlers in this part of the country, will discard his white referee's bibches for a pair of wrestling trunks in this week's main event at the Littlefield Sports Arena.

Promotor John Ussery, after listening to Keomuka insult Big Train in a lengthy discussion, signed the pair to appear in a tag-team tussle on next week's main event. Keomuka will bring Juan Humberto, the big and rugged Mexican, into his corner with him as a partner to do battle against Clements and popular Roger Mackey. Keomuka's foe here last week.

Keomuka was indignant toward Clements after last week's main event between the oriental and Mackey had been declared a no-contest. The crafty Japanese toughie declared Clements was, in his words, "plenty tough when he was hiding behind the white pants of a referee and had the state of Texas backing him."

"But I'd like to see him get guts enough to discard his fancy white suit and climb into the ring where he can swing his fists legitimately," continued the Duke.

Last week Clements became engaged in the festivities after being kicked around by Keomuka and the "Train" lost his temper and apparently forgot his position as referee. He became involved in another wild and woolly fracas that ended in a "no contest" ruling by local wrestling commissioner F. L. Newton.

Big Train, no stranger to the mat after having spent over half of his life under the bright lights, declared he "wasn't afraid of Keomuka or any other man that ever stepped into the ring" and if Ussery would give him the chance, he'd show Keomuka.

Ussery saw tremendous possibilities in the match. Clements, although primarily a referee now, still works occasionally as a grappler. He's still in fine shape and experience-wise is plenty capable of taking care of himself in the roped-off area. And too, Clements has a capable partner in Mackey, former junior world heavyweight champion.

With Clements' experience and ring-savvy and Mackey's youth

'BIG TRAIN' CLEMENTS

and speed, this team should be hard to handle, even for two ring veterans like Humberto and Keomuka. The match has been scheduled for the best two out of three falls with a one-hour time limit.

In a one fall preliminary scheduled for 20 minutes, Clements will battle Keomuka in a match that should kindle the fire for the main event. To further fan the flames for the hot tussle, Mackey will square off against Humberto in another 20 minute preliminary. The matches start at 8:15 at the new Sports Arena on the Levelland highway.

Raider Cagers To Meet Canyon's West Texas Buffs

LUBBOCK — To climax a week of battling the books, the Texas Tech Red Raiders meet another formidable opponent in the West Texas State Buffaloes at Canyon Saturday night. The Raiders' next home game is with Baylor Wednesday night, Jan. 30.

West Texas has always been tough for the Raiders, particularly at Canyon, and the added handicap of mid-term finals isn't expected to sharpen Tech's shooting eyes. Tech hasn't beaten West Texas in a regularly scheduled game at Canyon since 1951. The Raiders edged the Buffaloes in a tournament at Canyon in December, 1952, but dropped the January game there.

Coach Polk Robinson's big hope is that his 8-6 sophomore center, Leon (Podd) Hill of Sudan, is able to play. In Tech's exhibition loss to Phillips 66, 85-61, Hill chipped an elbow.

Since the game with the National Industrial League leaders was merely an exhibition, the loss does not count against the official record, which reads five wins and eight losses.

Tech's freshmen, earlier winners, 104-77 over the Calves, meet the West Texas freshmen at 6 p.m. Saturday.

Pat Goodwin Fund Started By Students

Following an assembly of Littlefield high school students Wednesday morning, a spontaneous drive for funds was started for Pat Goodwin, science teacher who is hospitalized at Methodist Hospital, Houston.

A jar has been placed in the principal's office at the high school to collect donations to the fund. The rare heart operation which Goodwin is undergoing is quite expensive and the students are taking this means of expressing their appreciation of a teacher devoted to their welfare.

Anyone wishing to write to Goodwin may address the letter to Pat H. Goodwin, Room 554, Methodist Hospital, Houston.

Local Adults Attend Youth Conference

Attending the Northwest Texas Methodist Conference Convocation for Adult Workers With Youth in Lubbock January 25 and 26 will be Lloyd Lust, Mrs. J. E. Davis, Mrs. Dale McGaugh and Mrs. George Ligon.

Theme of the Saturday afternoon sessions will be "My Job", discussed on various age levels. Workers in local churches, counselors, teachers, superintendents, pastors and parents of youth are in attendance at the conference.

Wayland Opens Way For Three Hungarian Men

PLAINVIEW (Special) — Wayland Baptist College has offered international student scholarships for three Hungarian refugee students in answer to an appeal from World University Service, a non-denominational organization, according to Dean Bryan Robinson, international student adviser.

In the statement issued jointly by World University Service, Institute of International Education and the International Rescue Committee, President A. Hope Owen was informed that between 1300 and 1500 university students, largely male are among the Hungarian escapees who have fled from their homeland into Austria.

A conservative estimate has been made of 300 to 400 students who will seek to continue their education in the United States with most of them wanting to study medicine, forestry, engineering.

Further information about the possibility of students who may want to continue liberal arts courses in a liberal arts college will be sent to Wayland after the students have been screened. These students are being screened at Camp Kilmer, New Jersey, along with other escapees.

A North Carolina Baptist college has given a leave of absence to a Hungarian Baptist who is a member of its faculty so that he may help face refugees in the United States. It is expected that he will be of assistance especially to those of the Baptist denomination who have sought refuge in this country. Although Hungary is largely Catholic, Baptist mission work through the years has resulted in the establishment of Baptist churches in many sections prior to Communist occupation.

Any students recommended to Wayland College will have to meet the standards for admission just as all students coming under the program which was set up 10 years ago to attract students from other lands to the campus.

Dairy scientists have discovered that dairy cows will consume much larger quantities of hay than is generally believed and still support a high level of production. This information will be used to try to increase forage consumption by cattle.

Texas Farmers May Continue In Price-Cost Squeeze In '57

Texas farmers will continue to be in a price-cost squeeze during 1957 although crop restrictions and increased agricultural exports may tend to relieve pressure created by large surpluses of cotton and wheat, says extension economist John G. McHaney.

Overall large supplies of agricultural products will prevent any great price increases to boost farmer income and production costs may even average slightly higher than 1956 figures, McHaney added.

Additional funds may still be in the farmer's reach, however, in view of a scheduled government agricultural expenditure rise from 4.9 billion dollars in 1955-56 to 5.7 billion for 1956-57 as a result of the Soil Bank Program. With a fair amount of rain in 1957, McHaney says the Texas farmer can expect a better year than 1956. The Suez situation and other world trouble spots will not tend to decrease the agricultural export market and a general level of good economic activity is predicted for the new year by McHaney.

Government economic and fiscal policy will definitely play a leading role in the 1957 picture, he points out, and 1956-57 total outlay scheduled by the federal government is up 2.7 billion dollars over a year ago chiefly because of national security programs. Tighter credit and higher interest rates will probably make for a continuing strong demand for firmer check on expansive forces, but won't seriously affect a 1957 agricultural products.

Sheriff's Officers Make Four Arrests

Sheriff's officers Tuesday reported the arrest of four men on charges ranging from liquor law violation to vagrancy.

Picked up Monday were a Littlefield Negro for speeding, a Sudan white man for liquor law violation, and an Arizona white man who suffered a fit of epilepsy. Officers made transportation back to Arizona available to the man.

A Lubbock Mexican woman was jailed Tuesday on a vagrancy charge.

HINTS GIVEN ON MANAGING FRONT LAWNS

Good lawns don't just happen. They are the product of considerable time and effort, says E. M. Trew, extension agronomist. A fertile soil, adapted grasses, and drainage along with proper watering, fertilization and mowing are essential for establishing an attractive lawn.

A sandy loam soil high in organic matter is considered best for lawns. The lawn area should be graded for proper drainage and smoothness. Sand may be added to clay soils or clay to loose sandy soils in order to make them suitable for lawns, says Trew. A soil test is recommended in order to know just what kinds and amounts of plant food should be added to the soil. The fertilizer should be worked into the soil by plowing or spading. The addition of organic matter will improve the tilth and water holding capacity of the soil but in new lawns, Trew recommends the use of a nitrogen fertilizer along with the organic matter to take care of the decomposition process.

Only adapted grasses should be used in the lawn, but most widely adapted for Texas, San Antonio recommends the use of the siren. Eminent horticulturist are recommended for areas. Certain grasses are recommended for home owners. It is necessary to mow and maintain lawn this grass is used. Perennial ryegrass and Kentucky bluegrass can be used in the permanent lawns.

Trew says that high quality seed is not a matter of cost. It is selected with care depending upon the type of lawn desired. The new lawn should be established. Topsoil and in increments. Mow frequently, about a half inch each mow. Fertilize the growing season. Vigorous growth.

Tech To Hold Tennis Clinic January 28th

LUBBOCK — All West Texas area high school tennis teachers and coaches are invited to a clinic to be conducted by Tut Barton and Mary Hardwick Hare at Texas Tech Monday, Jan. 28.

George Philbrick, Tech tennis coach, who has arranged the clinic, said that if inclement weather prevails the clinic will be moved from the varsity courts, across from the Tech Gym, into the Gym. The event is scheduled for 3:30 p.m.

Ranked fourth nationally, Barton, a native of San Angelo, is a former intercollegiate and National Clay Courts champion as well as a U. S. Davis Cup team veteran. Mrs. Hare is the former English Women's singles champion and Wightman Cup player.

No charge will be made. Getting out of a rut seems to be one form of mountain climbing.

The deadline for voters to settle up on the matter of \$1.75 for the tax is January 31. Receipts cannot be issued after next Thursday. With 1957 an "off year" for elections, many persons were forgetting that an election will be

held to name a new state senator to replace Governor Price Daniel. Aside from that, local city and school elections, as well as others, will come up. Persons who were 60 years of age before January, 1957, are exempt from the tax payment. Persons becoming 21 are also entitled

to an exemption for their first poll tax. Citizens becoming 21 this year may obtain the exemption and "free votes" at any time during the year. They must obtain the exemption at least 30 days prior to the election in which they wish to vote.

Three Mishaps Are Investigated
City officers investigated three minor traffic accidents over the weekend, with none of the mishaps amounting to much damage. One occurred on S. Westside Ave. when a 1953 auto driven by Jean Bell Smith of Eunice, N.M., was struck from the rear by a 1951 vehicle operated by Charles Coffey of Anton. Another took place at the intersection of LFD Drive and Court-house drive when a 1956 car driven by Peggy Davis of Amherst and another 1956 auto driven by Linda Truelock of Amherst were involved in a collision. The third mishap occurred on Phelps Ave. when Ruth Ann Pierce, Olton, backed her 1952 auto from a parked position and struck a 1956 car driven by Richard Shipley.

From Vienna

Austria Symbol Of Liberty Fleeing Hungarians

MAN LINDHURST
Jan. 20 — The Austrians are receiving tens of thousands of refugees fleeing from Hungary as the Communist drive for trade with the West.
Vienna has resumed its traditional role as the clearing house for southeastern Europe's trade with the West. This trade is increasing rapidly, thanks to the Communist drive for trade with the West.
At present Austria is striving for a closer link with the port of Trieste, once the great commercial center of the Austro-Hungarian Empire. Since its return to Italy, Trieste has stagnated because of its poor competitive position, as an Italian port, with its neighbor Venice.
And the Austrians are not neglecting the Alps and the waltzes. Tourism has revived rapidly. The 1956 season was the biggest since the war.
Next season promises to be an even bigger one particularly if the Austrians succeed in renovating their famed Danubian castles in time.
Along with the 300 plants, the Soviets seized 50 castles. Most of them lining the Danube between Linz and Vienna. The Soviets carted off the furnishings and all other removable objects, leaving the Austrians only the shells.

A mighty fortress is our God,
A bulwark never failing,
Our helper he amid the flood
Of mortal ills prevailing.
As we look around us, and
study the growth and progress
of Littlefield, Lamb County, and
the Great South Plains, we are
impressed by the fact that all
denominations have made im-
portant contributions material-
ly and spiritually.
We do not wish to refer to the
contributions to the cause of reli-
gion by any group or groups, but
it seems entirely in order to men-
tion that latest activity in church
construction; the campaign launch-
ed by the First Methodist
Church to erect the first unit of
a new church in the southwest
part of Littlefield.
We are reminded at this time of
two famous quotations:
"Every man must get to heaven
his own way" and "tolerance is
the only real test of civilization."

When Kenneth May, outstand-
ing Avulanche-Journal reporter,
was assigned to write the story of
the February, 1956, blizzard, he
attacked the big job with the zeal
that has characterized his work
throughout his writing career...
his only thought was to gather
the news... then write it in a
manner that would give readers
the complete picture as they per-
used their newspaper in the cosy
comfort of their homes.
May... a young man who
has lived a full life... bucked
the weather, perhaps beyond the
call of duty... but his day of
reward came... the glorious,
sunshine flooded in upon him;

he was awarded top Texas news writing honors for 1956.
Announcement of May's honors came Saturday night in Galveston, where members of the Texas Press Editors Association held their annual meeting.
May won first place in the spot news writing classification in competition with all reporters on staffs of Associated Press newspapers in Texas, which means nearly all of the daily newspapers published in this state.
The story which won him the award was his narration of the February blizzard. You may remember the headlines:
"South Plains Reels Under Punch Of Record Storm; Towns In Food Pinch"
Congratulations, Kenneth! You're a credit to the profession!

Will you have about 100 head of 600 to 750-pound Hereford steers early this spring?
If you'll have the steers, it looks like we have found you a buyer.
Owen Roche, president of Drysdale Roche Gibson Associates, New York, has written this "colony letter" a letter telling us about the needs of his company for livestock. Roche informs us that "about 30 years ago I personally lived not too far from your town."
Roche's letter reads in part:
"We have some excellent pasture land in Upstate New York where Herefords would thrive and would like to stock it with about a hundred head of 600 to 750-pound steers early this spring. We would pay the going rate for good steers in your area, all cash, but would prefer to buy all from one owner. The stock should be in good enough condition to stand the long trip and would have to pass a veterinary examination."
"If you have a few friends among local stockmen who might be interested in a deal of this sort we would appreciate it if you gave them our address. We know that your paper is a sort of public service institution in your area anyway."

1957 To Be Another Tight Farm Year, White Predicts

This year will be another one of tight margins for Texas farmers. And for those who have another belt notch left lingering drought and slim profits, a further hitching up may be in order. Commissioners of Agriculture John C. White predicts.
Although the soil bank program will benefit some farmers, its value in drought-ridden Texas is doubtful, since there is no present potential on which to base payments. So the Texas farmer will have to look to his crops and produce for income. Here, in part, are his prospects:
COTTON — Fortunately for Texas' big cotton industry, price prospects are most encouraging here. The unexpected export of seven million bales in 1956 reduced Commodity Credit stockpiles considerably. That, plus war threats and probable reduced production through the Soil Bank make the cotton outlook better. It is even possible the Administration may have to raise the support level.
WHEAT — The 1957 wheat crop is expected to be considerably shorter than that of last year, due to reductions from Soil Bank and drought. Surpluses will probably drop, especially if exports continue to improve. All this, however, is not calculated to bring prices much higher. Supports will likely remain unchanged, although market prices should be up very lightly.
CORN — No prospects for improvement as prices still will depend entirely on support levels. The corn inventory is high.
GRAIN SORGHUM — Prospects here are poor price-wise. The crop promises to be big and cheap, al-

though the drought will likely pare down the estimate notably. The market will probably be below loan rate.
POULTRY AND EGGS — The broilers have already gotten off to a bad start this year, but prices can't go any way but up. The climb will have to be gradual, and though prices should top the dreary '56 picture, they still won't be high. Egg prices are currently low and may remain below the same period last year until late spring. After that, they should be about the same as last year.
LIVESTOCK — Pork production will be down which means some improvement, although it will likely be very slight. Fat cattle prices averaging better than last year's lows are predicted, although feeder cattle prospects are doubtful with little or no improvement in sight. Sheep population is expected to increase and lamb prices should average slightly higher. Wool will remain well below the incentive payment level of 62 cents. Dairy prospects are doubtful with little or no im- late-year gains anticipated being eaten up in production costs.

SCOUTS GET NEW CHARTER

WHITHARRAL — Scout leaders met in the lunch room Tuesday evening for a Charter Review. A new Charter was prepared with the assistance of Field Director Phil Peques of Lubbock and the District Commissioner of Scouts, the Rev. Bill Pearce of Levelland.
The new leaders are as follows:
Scout Master — Ed Johnson;
Asst. Scout Master — T. C. Wade;
Cub Master — Ralph Wade; Asst. Cub Master — Ervin Sadler.
Institutional Representative — L. C. Jordan; Pack Chairman — Weldon Newsom; Pack Committee — Don Armstrong and Orville Kirby; and Den Mothers — Mrs. Bruce Weldor, Newsom, Mrs. Bruce Wren, Jr., and Mrs. L. C. Jordan.

Adult Welding Class Scheduled At Whitharral

WHITHARRAL — An adult welding class scheduled to begin Jan. 28 at the Vocational Ag. Shop is being announced by O. L. Harris, ag teacher.
The classes will be held from 7 to 9 p.m. every Monday night and are free to any farmer who wishes to learn welding.
When computed on a man-hour basis, farming is nearly four times as hazardous as all industrial occupations, according to a survey conducted at the Pennsylvania Agriculture Experiment Station.

Highlights and Sidelights From Your State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN, Tex. — Gov. Price Daniel has lined up an impressive array of goals for himself and fellow officials during the next two years.

His message to the Legislature detailed 25 points. He labeled four as "emergencies."

Getting top priority were (1) water conservation (he suggested doubling the proposed \$100,000 bond program), (2) additional highway patrolmen and other safety measures, (3) laws to facilitate right of way buying for highways and (4) a crime commission to guard against official misconduct, curb lobbying, etc.

Governor Daniel also recommended pay raises for teachers and state employees, local decisions on school segregation, in-

creased old age pensions, abolition of dual banking-insurance operations, more money for insurance law enforcement, improved penal statutes for insurance and security controls, use of state funds for advertising and upping workmen's compensation benefits.

He said he favors a \$5,000,000 prison building program, a paid adult parole system, laws to curb juvenile crime, revision of the state constitution, a continued state constitution, a continued state office building program (including an archives building), improved narcotics laws, study of the needs of the handicapped, election law changes and long-range study of the state tax structure.

Legislative comment following the talk was favorable.

Enactment of the total program would almost certainly require more revenue than the state has in sight. Daniel made no flat promise against new levies, except for sales and personal income taxes.

His budget message, to come later, will detail costs, with suggestions for new revenue, if necessary.

WELL-HEELED COWHAND — Texas' new temporary U. S. Senator, William Blakely, personifies the Southwestern success story.

He began his career as an Oklahoma wrangler, went on to become a Dallas lawyer, CPA and top-bracket financier. His millions are spread among tremendous real estate and oil holdings, three insurance companies and a controlling interest in Braniff Airways.

His first whirl at politics seems destined for success too. He is a friend, not only of outgoing Gov. Shivers, who made the 11th hour appointment, but also of new Gov. Price Daniel, Senate Majority Leader Lyndon Johnson and President Eisenhower.

Blakely said he will vote with Democrats in the Senate, not up setting the party's perilous 48-47 majority. Nor will he seek election.

SENATE LEADERS — Key chairmanships in the Texas Senate are in the hands of Sens. William S. Fly of Victoria and Wardlow Lane of Center.

Lt. Gov. Ben Ramsey assigned Jones, who is nothing if not frank, admits without any quibbles that his client is no saint. He depicts George B. Parr as a man who gets what he wants when he wants it and who isn't overly squeamish about methods.

And Jones had admitted as much in open court, many times.

The well-dressed little lawyer, who presumably knows what is going on inside the Parr machine, has some interesting ideas about the future of Duval.

Should George B. Parr lose his battle, even be sent to prison, this does not mean the end of the Parr dynasty. Another Parr, the Duke's nephew, Archer Parr II, is ready to take over.

Should this switch happen, Duval history would be repeating itself. George Parr deposed his father just twenty years ago.

Archer Parr is a personable young man, 35, a Marine veteran, a family man, educated, and well schooled in the rough and tumble of Duval politics. He has served as sheriff under his uncle.

George B. Parr "did time" in Federal prison, in El Reno, Oklahoma, back in 1936. The charge was cheating on his income tax.

When he got back home to San Diego he was greeted as a hero, as a man who had suffered persecution for the sake of his people. He was met by a brass band and by dancing in the streets.

But he returned to find that wire cutters had been at work on the Parr political fences, that his father, Senator Archie Parr, the then reigning Duke of Duval, was unable to ride the range as of old.

George took over the power in Duval. His father went into exile, to live at the Nueces Hotel in Corpus Christi until his death.

Again George Parr is under indictment for income tax cheating, and again his followers say he is being persecuted for their sake. Should he again be convicted, on the tax charge or any one of a number of other Federal or State charges now pending against him, including a charge of using the mails to defraud, anything can happen in the county of Duval.

However, Luther Jones to the contrary, there is a vast difference between the Duval of 1936 and the Duval of 1956. (As a matter of fact, there is a vast difference between the Duval of 1954 and 1956, which will be the subject of the two final articles in this series.)

Twenty years ago the Parr power was solid as the Rocky Mountains, and seemingly as permanent. Men in Austin and Washington fawned upon the Duke, courted his favors, jumped when he crooked his little finger.

Parr could, and did, deliver 100 to 1 majorities in any election. He could loftily ignore the mundane doings of ordinary politics. He was the puissant prince, after the fashion of the Middle Ages.

But Parr has been projected, head over heels, into the unsympathetic new world of the mid-twentieth century. The alchemy of his time has changed his countenance. George B. Parr was born just 500 years too late.

Actually, it was more than alchemy that changed Parr's county. The last two articles of this series will deal with what radical changes can be made in a boss-ridden county when one Attorney General gets it into his head that feudalism has got to go.

Fly to the finance committee, Lane to state affairs. Sen. George Parkhouse of Dallas, who headed the interim Water Resources Committee, will be water and conservation chairman.

Senate committee system was overhauled this year and the number trimmed from 39 to 24. Al chairman, expect Charles Herring of Austin (state departments and institutions) are returning members.

Others are: agriculture and livestock, George Moffett of Chillicothe; banking, Jarrard Seecrest of Temple; claims, David Rathoff of Stamford; constitutional amendments, Jimmy Phillips of Angleton; contingent expenses, Crawford Martin of Hillsboro; counties, cities and towns, Frank Owen III of El Paso; education, Doyle Willis of Fort Worth; game and fish, Abraham Kazen Jr., of Laredo; insurance, Searcy Bracewell of Houston.

Also, interstate cooperation, Otis E. Lock of Lufkin; jurisprudence, R. A. Weinert of Sequim; labor and management, Carlos Ashley of Llano; legislative, congressional and judicial districts, Martin; military and veterans affairs, Ray Roberts of McKinney; governor's nominations, Loeck; oil and gas, Dorsey B. Hardeman of San Angelo; privileges and election, W. T. Moore of Bryan; public health, Mrs. Neveille Colson of Navasota; rules, Weinert; transportation, Jep Fuller of Port Arthur.

STEAKLEY SWORN IN — First executive appointment approved by the Senate was Austin Attorney Zollie Steakley, Gov. Daniel's choice for Secretary of State.

Steakley's swearing-in by Chief Justice John E. Hickman followed within 24 hours. It was the new streamlined oath authorized by one of last November's constitutional amendments.

Quipped Governor Daniel, a spectator: "I'm glad they left out that part about never fighting a duel, because I've almost had to do some of that recently."

Steakley's immediate predecessor, Tom Reaveley, has joined an Austin law firm to be known now as Powell, Rauhut, McGinnis and Reaveley.

"BILL" BOARD — With the legislative session well underway, hundreds of bills have flooded the hoppers. Some of the more significant would:

1. Transfer one per cent of the permanent school fund (now \$340,000,000) to the available school fund. By Rep. Luis Dugas of Orange.

2. Create a separate Securities Commission which would combine operations now performed by the securities divisions in the Secretary of State's office and Insurance Commission. By Rep. Barlow Sanders of Dallas.

3. Empower cities to tax agricultural land they annex at a lower rate than other property. By Rep. Richard C. White of El Paso.

4. Give the Railroad Commissioner power to regulate rural telephone rates. By Rep. Jack Welch of Marlin.

5. Control interest rates on small loans. One bill, by Rep. Ed Sheridan of San Antonio, would prohibit interest of more than 10 per cent a year. Another by Rep. Tony Koriotoh of Sherman would limit interest to three per cent a month.

6. Prohibit sale or use of fireworks except in displays authorized by the fire marshal. By Rep. Gordon Forsyth of Corpus Christi.

7. Abolishing absentee voting. By Rep. E. H. Dewey, Jr., of Bryan.

8. Provide for automatic congressional re-districting every 10 years if Legislature fails to do so. By Dewey.

9. Provide a four-year term for Governor with a two-term limit. By Rep. Dixon W. Holman of Fort Worth.

10. Require school board candidates to run for places to prevent election of a member by a minority vote. By Rep. Ben Ferrell of Tyler.

THIS WEEK -In Washington-

With Clinton Davidson
The new Congress has been in Washington for only three weeks, but it already has made two points perfectly clear.

First, that it doesn't like the present farm program, and second, that it doesn't have much hope of doing anything about it.

Barring some unexpected development, President Eisenhower and his Agriculture Secretary are going to have pretty much a free hand in trying to solve the farm problem during the next two, and probably four, years.

The President likes the farm program now in effect and feels that there is very little additional authority he needs from Congress. Congress, likewise, recognizes that there is almost no chance of passing farm legislation which the President does not approve.

President Eisenhower and a majority of Congress agree that farm income now is unreasonably low. They disagree, however, on measures needed to raise income to a level that would give farmers a living standard equal to that of urban people.

Secretary of Agriculture Ezra Taft Benson insists that there is no quick or easy method of doing that. Congress insists that there has to be; that unless there is improvement soon, many thousands of farmers will be bankrupt, and that this could drag the whole country into another 1932-33 depression.

The Benson farm program boils down to a 5-year plan. It is intended to solve the surplus problem and make good, by 1960, President Eisenhower's promise of fair prices in the market place.

The program has five major parts:

1. Authority to adjust price supports for all crops except tobacco (fixed by law at 90% of parity). For corn, cotton, wheat, rice and peanuts, supports must be between 75% and 90% of parity, and for most other crops from zero to 99% of parity.

2. Authorizations for the use of more than \$1 billion a year to subsidize exports of agricultural surpluses; plus half a billion for School Lunch and other disposal programs at home.

3. The \$1.2 billion a year soil bank program for financing removal of about 45 million acres from cultivation. This program is available until 1960.

4. A greatly expanded program of agricultural research with emphasis on development of new markets. The most spectacular of these was authorization of \$100 million to finance search for industrial uses of farm surpluses.

5. The Rural Development Program.

Sand Hills Philosopher

Editor's note: The Sand Hills Philosopher on his Johnson grass farm has gotten word of the national budget, his letter this week indicates.

Dear editor: The other night during that cold spell after I'd gotten my chores done, well, they weren't actually done according to some standards, but they were by mine, which is to say I just let em slide. I was sitting by the fire reading the news from Washington in a copy of a newspaper I'd found earlier, in the day on the road near by house where it'd blown off the radiator of a car where somebody had tied

it to keep his block from busting, and I got interested in President Eisenhower's budget for this year. As I understand it, he says we'll have to spend more money but won't have to raise taxes. He says it will take about 72 billion dollars to run the government for the next twelve months, which is an increase of about 3 billion over what it took last year, and while I'll admit it doesn't make much difference to me, I don't know the difference between 69 billion and 72 billion anyway, they lost me way back there. I did notice that Ike's advisors were telling him that the increase wouldn't throw the government in the red, as on without a tax increase, because they were figuring there'd be more money coming in this year because of more income tax payments because of higher incomes, and thus the budget will stay balanced.

Well, now, I'll tell you, I sure hope Ike ain't basing his plans for a balanced budget on any increased earnings on my part. I don't believe I can swing it. I'd

sure like to help him out, but the United States government counting on me to keep some in 1957 to balance the rest, they better rest whole thing.

If the Washington counting on me to keep the red, my advice is counting their chickens their eggs are hatched, they'd better check up on too. I did notice that Ike's advisors were telling him that the increase wouldn't throw the government in the red, as on without a tax increase, because they were figuring there'd be more money coming in this year because of more income tax payments because of higher incomes, and thus the budget will stay balanced.

Well, now, I'll tell you, I sure hope Ike ain't basing his plans for a balanced budget on any increased earnings on my part. I don't believe I can swing it. I'd

sure like to help him out, but the United States government counting on me to keep some in 1957 to balance the rest, they better rest whole thing.

Chevrolet shows you some important differences in low-priced cars just by

the look on its face!

Wouldn't you say that most of the '57 cars look good from 50 feet away, but what about from 50 inches away?

What does a close-up of the grille tell you, for example? Is it solidly made like the new Chevrolet grille? Or, in comparison does it look less rich in design—feel less strong and solid? Compare the quality and construction of the bumpers and headlights, the fit of the chrome trim.

The more closely you look all around the car, the more clearly you'll see that Chevrolet has the edge in the way it's put together. You'll find, for instance, that Chevrolet is the only car in its field with a lacquer finish... that only Chevrolet Bel Air models give you foam rubber cushions in front and rear seats as standard equipment. These are just a few of the advantages of Body by Fisher. And Chevrolet, you know, is the only low-priced car that has a Fisher Body.

We'll be glad to give you a close-up, comparative look at this new Chevy any time you care to come in. This week, maybe?

COUNTERPANE CATHEDRAL

There was a man who had stopped going to church because, he said, "Church doesn't make me feel any nearer to God."

One night he stepped into the children's room to kiss them good night. And suddenly he felt as though he were in church. There was a pillowed altar and a devout congregation in prayer. Yet he didn't feel any nearer to God.

And in that moment he learned the truth that every soul must learn; religion is not some outer force that brings God close to a man. Religion is man's inner yearning which reaches up and discovers how near God is.

And so, from the example of his children, he learned how to find the faith which had eluded him. And, finding it, he returned to church to share with other Christians the rich experience of worship . . . to receive the spiritual gifts of Word and Sacrament . . . to serve Christ in the vital, challenging work of the Church.

He knows that in church—or in a moonlit nursery—God is near those who want Him near!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible, daily.

Serves Two Weeks In Beaumont

City Manager Guy McCraw Completes Navy Duty Tour

Completing a two-week tour of duty at the Beaumont National Resources Conference last week was Guy L. McCraw, chief yeoman, USNR, city manager at Littlefield.

McCraw served during the two weeks as assistant to the Conference Administrator, Lt. Col. James E. Higgins, Jr., since beginning January 4th when he was called to temporary active duty. He assumed clerical duties and other administrative duties.

McCraw was born in Belden, Mississippi, January 9, 1918, and attended school in LaGrange, Texas, graduating from LaGrange High School in 1936, he enrolled in Tyler Commercial College where he majored in accounting. In 1946 he matriculated at Blinn Memorial College where he graduated with Associate of Arts degree in 1947. McCraw worked as municipal consultant and tax accountant while attending school and after graduating and in 1941 was called out of the Naval Reserve for active duty. In 1942 he served in the North Atlantic on convoy duty. In 1943 he participated in the African and Mediterranean invasions.

He was then transferred to the Pacific Fleet and took part in seven major invasions serving with the Amphibious Forces. He was released in 1946 and again took up his post in LaGrange, Texas, as public auditor, tax and municipal consultant.

In 1950 McCraw was recalled to active duty to serve in the Korean conflict. He was again released to inactive status and went to Kingsville, where he became assistant city manager. Following his stay in Kingsville, he became city manager of Littlefield in 1955.

McCraw is married to the former Doris Mae Tiemann, of LaGrange. The McCraws have a 15-year-old daughter, Sandra, and the family resides at 1301 West 3rd, Littlefield. They are members of the First Baptist Church. McCraw is a member of the Littlefield Lions Club.

Pfc. J. D. Lawson Takes Part In Army Exercise

Army PFC Jerald D. Lawson, son of Mr. and Mrs. William G. Lawson, Star Route 1, Olton, Tex., recently participated with the 11th Airborne Division in "War Hawk", a field training exercise in Germany.

Lawson, a cook in the 3d Battalion Headquarters Company of the division's 503d Infantry Regiment, entered the Army in May 1955 and completed basic training at Fort Campbell, Ky.

He was graduated from Springlake High School in 1954.

Health Department Says City Water Supplies Are Improved

AUSTIN, January 24. — State Health Department engineers say water supplies in most Texas cities are in better shape today than they were three years ago, despite continuation of the parching drought.

But they hasten to add that if the dry spell is prolonged it will bring serious hardships.

The engineers say reports indicate that the majority of public water facilities have been expanded in such amounts as to prevent rationing.

V. M. Ehlers, veteran director of the department's Division of Sanitary Engineering, explained the paradox like this:

Cities facing water bankruptcy in 1953-4 have gotten busy and developed other sources of supply. Some dug deep wells or additional wells; some made contracts with water districts having abundant supplies; some constructed impoundments.

Ehlers said many Rio Grande Valley towns formerly depended on water drawn from the border river. But when the river went dry the cities were forced to dig wells.

Then when the Rio started running again, they found they had two sources of water — the river and the wells.

Ehlers said cities have not only found auxiliary sources of water, but they have also built or expanded or bettered treatment plants, built booster pump stations, and extended pipe lines.

In 1955 some 40 cities developed completely new water systems, 69 dug extra wells, 23 put in additional pumping facilities, and 13 built new treatment plants or expanded the old ones.

Ehlers said the state's underground water table is sinking lower and lower, but as an example of civic initiative he cited the North Texas Municipal Water District, whose 10-member town spent \$9,000,000 to stand off the spectre of short water rations.

The district pooled funds to build a common treatment plant

on the Lavon Reservoir, a federal flood control project near Wylie, and put in lines to carry water to its member cities. The system went into operation in November.

Cities composing the district are Forney, Garland, Mesquite, McKinney, Plano, Rockwell, Farmersville, Wylie, Royse City, and Princeton. Terrel, though not a member of the district, is also being served, and 10 million gallons per day are being delivered to Dallas under the contract.

Meanwhile, stream flows are diminishing as the drought continues, causing a shortage of dilution water and giving rise to sporadic complaints of pollution. Odor problems have been created, but no increase in cases of water-borne disease has been observed by health authorities.

Vets Reminded Of Deadline For Buying State Land

AUSTIN — Texas veterans were reminded Friday that they have only until Feb. 5th to submit bids on 56 tracts of land which the Veterans' Land Board has for sale.

Land Commissioner Earl Rudder, who is chairman of the VLB, explained that — unlike normal procedure in the Veterans' Land Program — veterans are not required to obtain an application number to purchase any of these tracts.

The lands to be sold, which are located in all sections of the state, have been forfeited by original owners who purchased the property through the Veterans' Land Program.

Commissioner Rudder urged veterans who are interested in this sale to inquire immediately of the Veterans' Land Board in Austin for information.

Cadillac

Pride of the Neighborhood!

It is a happy occasion indeed when a new Cadillac first appears in the driveway of its happy owner. As you would expect, it signals the most joyful of family celebrations—and occasions the heartfelt congratulations of friends and acquaintances. But you might be surprised, we think, to learn of the widespread rejoicing which the arrival of a new Cadillac frequently inspires.

In fact, the car invariably becomes a source of genuine pride and satisfaction throughout the entire neighborhood in which it resides.

The neighborhood understandably delights in having a beautiful new Cadillac to grace its streets . . . and takes great pleasure in knowing that one of its own has been able to realize the dream that lives in the hearts of so many.

And we think you might also be surprised to learn that this happy event is currently taking place in a great many neighborhoods that have never before laid claim to a Cadillac car.

For there is an ever-growing awareness that Cadillac—with all its incomparable motoring virtues—is one of the soundest and wisest purchases a motorist can make.

From a standpoint of purchase price, maintenance, operation and resale value, the car represents a truly extraordinary investment.

Surely, in view of this, you should consider a Cadillac this year.

We will be happy to put you behind the wheel at any time for a personal demonstration.

In fact, why not come in and see us today?

Former Lamb County Agent Leaves For Post In Turkey

COLLEGE STATION (Sp) — D. A. (Andy) Adam, veteran employee of the Texas Agricultural Extension Service, will leave on January 27 for Washington, D. C. for orientation and briefing in preparation for a year's assignment in Turkey, Mrs. Adam will accompany him.

During the past six years Adam has served as staff assistant and has handled the foreign visitor program which has involved co-operation between the Texas A&M College System, USDA International Cooperation Adm., a general and private organizations, foundations and foreign governments. Approximately 2,500 individuals from 58 foreign countries have visited Texas under the program. Turkey has sent some 300 to Texas for training in many subject matter fields including about 80 who came especially for training in Extension work. The Turk-

ish Minister of Agriculture was a participant.

Despite his physical handicaps, Turkish officials requested that Adam be sent to their country to fill a vacancy on the ICA staff. They knew of his ability for planning and conducting training programs and in Turkey he will serve as Extension Advisor to the Minister of Agriculture. As an ICA staff member, he will work closely with Turkish extension staff members in developing programs, methods and teaching techniques.

Adam has been an extension employee since 1928 when he was named county agent for Lamb county. In 1935 he was transferred to the same position in Young county where he served until 1943 when he joined the state staff handling the Emergency Farm Labor program. In 1947 he became 1950 staff assistant.

Adam is a native of Falls county and a 1926 graduate of Texas A&M College. From 1926 to 1928 he was employed by the Texas Farm Bureau Cotton Association and was stationed at Post.

Spade Scoops

By Mrs. Joe Prater

Mr. and Mrs. R. E. Ginn of 2404 10th St., in Lubbock have a new son who was born Jan. 18 at 8:15 a.m. in the Taylor Hospital in Lubbock. He weighed 7 pounds and 3 ounces. The father is a Texas Tech student. The mother is the former June Heard, daughter of Mr. and Mrs. Deck Heard.

Mrs. Joe D. Greer and son, Ricky Joe, of Lakoside, Oregon are visiting her parents, Mr. and Mrs. Lou Wilson of Littlefield. Joe D's parents, Mr. and Mrs. J. A. Greer of Spade and other relatives in this area.

Mr. and Mrs. Doyle Gilbert and family are living at Portales, New Mexico. Mr. and Mrs. David Hutchins and son have moved to the R. A. Leonard farm northwest of Spade which was recently vacated by the Doyle Gilberts.

Mrs. J. R. Matthews, Sr., went to Hale Center the last of last week to visit her parents who are ill.

Mrs. Deck Heard returned home last Friday from the Medical Arts in Littlefield after spending about a month there.

Mr. and Mrs. C. H. Park and family have moved to Hale Center. Mr. and Mrs. Dwayne Gray have rented the farm vacated by the Park family and will make that their home this year.

Mrs. Ted Hutchins went to Waco the latter part of last week to spend a few days visiting relatives.

Mr. and Mrs. C. D. Anderson have sold their farm 2 miles South and 1 mile west of Spade.

In state laws could make a difference to you and your family.

If you are new in Texas he should take a second look at his legal standing in the light of Texas law. If one should move to another state, he should do the same thing when he gets settled there. Or if one has a plot of land in Florida or California as part of his retirement plans, let's say, or even minor interests in another state, he should protect himself beforehand against any possible complications due to differences in state laws.

The best-laid plans in your home state might put you or your heirs at a disadvantage when interpreted under the laws of another state.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Whitharral FFA Gets Calendars

WHITHARRAL — The Whitharral F.F.A. boys have received their F.F.A. calendars and have been distributing them in this area. They take this method of thanking the merchants of Whitharral, Lovelland, Littlefield and Antea for their aid in developing the calendar.

Boys of this chapter who were winners of the Cotton Field Contest for F.F.A. and 4H club members of Hockley county were Billy Thetford, county and district winner in dryland cotton, and Gerald Pair, 2nd place winner in dryland cotton, in the district.

Thetford's 5-acres yielded 2231 lbs. of lint cotton. He received \$40 as county winner, and \$20 for district winner. He will also receive a trophy from the county.

Fair's 5 acres yielded 1150 lbs. of lint cotton, receiving \$30 as second place winner.

Harris and the F.F.A. boys said they appreciate the sponsorship of the gins in the county.

City, County Officers Jail 8

Eight arrests were made by city and county officers over the weekend.

On Saturday, local police jailed two Mexican males on drinking in public charges and on Sunday, the city officers arrested a local white man for drinking in public and for not having a driver's license. A Negro man was jailed later Sunday for no driver's license.

County officers arrested a white man for drunkenness and another for vagrancy Saturday, a Mexican male for driving while intoxicated Sunday and picked up a Negro male Sunday for the State Highway Patrol.

Got 5 minutes for fun?

That's all the time it takes to fall in love with Ford's spunkier V-8 power, its smooth as velvet ride, its easier-than-ever-handling

Love at first sight! That's the case with thousands of folks all over America. And why not? Those Ford Custom models are over 16 distinguished feet long. Those Fairlane models over 17 elegant feet long. And those lower, longer, sleeker lines! No wonder Ford's years-ahead styling sweeps you right off your feet. But if you aren't sold on looks alone, remember Ford's beauty is more than skin-deep. Inside you'll find oceans of space to stretch out in. Breath-taking color schemes. Luxurious upholstery. And thanks to new "Inner Ford"

advances, you'll discover the smoothest riding, easiest handling low-priced car ever.

And of course, you'll find new, snappier power to go with Ford's out-of-this-world ride. And there's more of this skeddadle right through Ford's entire V-8* and Six lines. What's more, with a whole host of engineering advances, you can expect traditional Ford economy at its finest.

You bet! 5 minutes in the new kind of Ford and you'll want to drive it home. Why not visit your Ford Dealer's today. You have nothing to lose but your heart.
