Liquor Law Case Filed On Woman

A Sudan woman was jailed late Saturday on a charge of liquor law violation after officers found four pints of vodka in a field near her home three miles south of Sudan.

The woman, Mrs. J. W. Jones, was charged with possession for purpose of sale.

Liquor Board Agent Loyd Dunlap said Mrs. Jones will face the possibility of a maximum penalty—up to \$2,000 fine and 2 years in jail—in the case.

Dunlap said she faces possibility of an enhanced penalty because of a prior liquor law conviction, in February of this year, when she was fined \$300 and court costs.

Dunlap, Sheriff Dick Dyer, Deputy Homer McLauri and Sudan City Officer Nathan Mears investigated the case.

The officers said they found the vodka in a field back of the Jones home, sitting under a tumbleweed.

Batson Defeats Cox

When Batson defeated Littlefield Butane Tuesday, it marked the first loss for Butane's pitcher Jerry Cox in Little League play.

Batson was trailing, 6-4, entering the Batson half of the fourth inning; however in the big fourth, Batson used three walks, an infield error and two hits to score four runs.

After Butane tallied two more times in the top of the fifth, Batson trailed, 4-8. Again Batson scored four runs tying the score at 8-all.

Butane loaded the bases in the sixth, but Batson hurler Ricky Miller retired Al Mann to end the inning.

Smith stepped in against Cox after two batters had been retired, and slapped Cox's third pitch over the center field fence to insure the victory for Batson.

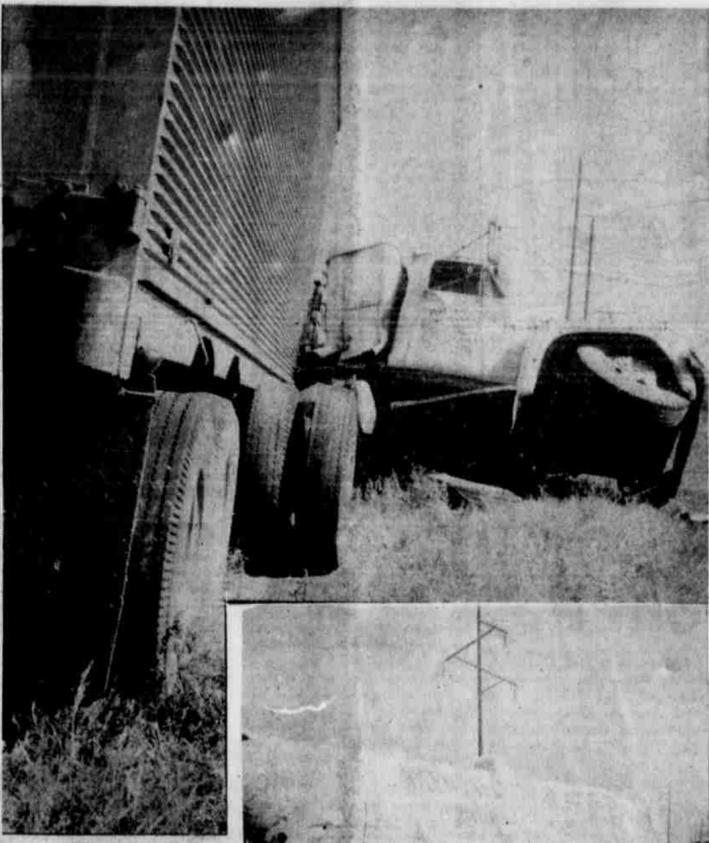

Pat Abeyta and Smith led the Batson attack with two hits, Steve Lowe, Miller, and Ronald Sifton each scored two runs apiece for the Motormen.

Maek Steffey and Mann tallied twice for Littlefield Butane, Jerry Smith, Edy Wikerson, and Sammy Pair also were standouts in the Butane rallies.

The Batson victory offset Butane's 3-1 win Monday night.

All-Stars Score Often
The PONY League All-Stars scored more than one run in all but one inning while hitting three Ware-Keeling pitchers en route to their 16-11 victory.

THE TRUCKS in these photos were involved in a side-swiping mishap 2.3 miles south of Littlefield on U.S. 385 Tuesday about 8:30 a.m. The vehicle above came out much the worse for wear, and the driver of it was injured. Damage to the Butane truck, below, was estimated at \$200, while damage to the truck at top was figured at \$5,000. Note how wheels under trailer at top were jarred loose. (STAFF PHOTOS)

Trucker Injured In Mishap

A Denver, Colo., truck driver was injured and damage was heavy Tuesday about 8:30 a.m. when the truck, tractor and semi-trailer he was driving collided with a butane truck on U.S. 385 south of Littlefield.

The two big trucks only nicked each other, narrowly avoiding a head-on collision that could have spelled havoc if the butane tank had been ripped open.

Robert Duvall, 28, Denver, was hospitalized at Medical Arts Hospital with a slight concussion, cuts, abrasions and bruises. He was thrown from his truck onto the highway shortly after the impact.

Henry M. Ford, 37, Littlefield, driver of a Wilmon-Crawford Butane truck involved in the mishap, escaped injury.

Duvall was driving his truck to Denver, with the trailer empty. Officers said Duvall was headed north on the highway, with Ford driving south.

Duvall's truck edged over into Ford's lane, officers said, and the trucks sideswiped each other.

Dr. Hemphill Back 'Home' For Service

Dr. Lee Hemphill, Hardin-Simmons University vice president, will preach at both services Sunday in the First Baptist Church of Littlefield.

Dr. Hemphill will be returning "home" to the church he served as pastor for 16 years before accepting the H-SU position last spring.

While pastor of the First Baptist Church of Littlefield, Dr. Hemphill led the church in providing all the building facilities it now has, including residences for the pastor and the educational director.

A native of Coleman, he graduated magna cum laude from Hardin-Simmons University in 1929 and received the Th. M. degree from Southwestern Baptist Theological Seminary in 1936.

He married the former Luelle Nix of Lamesa and they have two children, Hilton Hemphill, who graduated from Littlefield High School last spring, and Mrs. Mildred Priehard of Abilene.

Business Position Reflected

Lamb County ranks third among 20 counties on the South Plains in both farm income and retail sales, according to an annual survey of Standard Rate and Data Service, nationally recognized newspaper advertising authority.

The survey gives the latest figures on farm income, retail sales and consumer spendable income, and emphasizes the county's importance in the overall South Plains business picture.

It shows Lamb County to have a total of \$33,168,000 in retail sales annually, along with an annual farm income of \$89,109,000.

Here is the breakdown on the survey:

POPULATION—1. Lubbock 169,800; 2. Hale, 37,300; 3. Hockley, 27,700; 4. Lamb 22,900.

FARM POPULATION—1. Lubbock 10,100; 2. Lamb, 8,400; 3. Hale, 7,400; 4. Hockley, 6,400.

SPENDABLE INCOME—1. Lubbock, \$309,787,000; 2. Hale, \$65,738,000; 3. Hockley, \$42,089,000; 4. Lamb, \$41,709,000.

The Long Trail Home

The ride was getting harder and so were the saddles Wednesday as riders on the first International Parks Trail Ride entered their fourth day on the 470-mile trail under U.S. 385 from Burlington, Colo., to Lovelland.

Dispatches from Orlin Brewer of Lovelland, only newsman on the trip, indicated the ride is no picnic, although some of the stops have provided merriment for the saddle-sore riders.

Taking part in the ride are six Lamb County youths—Kaye Bradley, 16, Eloise Terrell, 15, and Lyndia Morrow, 19, all of Amberst; Georgia Stephens, 16, Sudan; and Harry Miller, 20, and J. W. Bitner, 18, both of Littlefield.

The riders left Burlington Sunday after a big send-off.

Acting as chaperon for the girls until Wednesday was Eloise's mother, Mrs. H. W. Terrell. Mrs. Emma Ann Garms of Littlefield joined the group that day to act as a dust cloud moved in. Rain peppered down and some missed their supper rather than brave the elements.

Juvenile Loses Driving Privileges

A Littlefield teenager arrested last week on charges of drinking and driving has been barred from the steering wheel for a month.

County Judge Pat Boone Jr., in a hearing Tuesday, took away the boy's driving privileges for a month and ordered that he stay home during that period except when he is on his job.

The Tuesday ride took the group from First View through Kit Carson to Addington Ranch near Rush Creek, a total of 27.2 miles.

After three days in the saddle, the riders had covered about 77 miles.

Newsman Brewer, interviewing riders on the trip, talked with several of the Lamb County group Tuesday. His questions centered (Continued on page six)

Saddle-Wear Riders In 4th Day

The riders arrived at Cheyenne Wells, Colo., at noon Monday and tied up there until 3:30 p.m., when they headed west toward Kit Carson.

They set up camp Monday night at First View, a small community which has a store, a couple of homes and a clump of trees.

Five autos, two trucks and a wagon are accompanying the riders.

ROUTIN' OFF

A GUARDSMAN at Lam Palace sounds like he is in Tuesday morning's paper told about a guard who got fed up with an American woman who was touring the gardens.

The woman, Mrs. J. W. Jones, was charged with possession for purpose of sale.

Liquor Board Agent Loyd Dunlap said Mrs. Jones will face the possibility of a maximum penalty—up to \$2,000 fine and 2 years in jail—in the case.

Dunlap said she faces possibility of an enhanced penalty because of a prior liquor law conviction, in February of this year, when she was fined \$300 and court costs.

Dunlap, Sheriff Dick Dyer, Deputy Homer McLauri and Sudan City Officer Nathan Mears investigated the case.

The officers said they found the vodka in a field back of the Jones home, sitting under a tumbleweed.

Mrs. Jones pleaded not guilty in the case and went free on \$1,000 bond posted by Cleo Whitnir and J. B. Harper.

4 New Teachers Hired For Spade School District

SPADE - Four new teachers have been employed by the Spade School District, Willis Apple, superintendent, announced Tuesday.

Joe Giddens, a Littlefield High School and West Texas State graduate, will coach football, basketball and other sports.

Ron Davis, of Littlefield, will teach 7th grade, while Ralph Usery, junior high principal at Springlake the past four years, will teach 6th grade.

Mrs. Odessa Lindley, a beginning teacher formerly of Abernathy, will teach 1st grade.

C-C Cancels 'Howdy Tours'

The Chamber of Commerce Tuesday called off its proposed "Howdy Tours" of 19 area towns.

The tours were scheduled yesterday and next Wednesday, Aug. 12.

Legion Team Captures Lorenzo Championship

Littlefield, after dropping the opener 7-2, came back in the second game of a doubleheader, using strong pitching by Jerry Koller to whip Denver City, 9-2, and win the championship of the Lorenzo Legion Baseball Tournament Saturday night.

Beside winning the first place team trophy, Littlefield placed two outfielders, Max Ball and Pete Estrada, on the all-tournament team.

Pierce and Ronnie Rice reached first on the second baseman's error and Bridwell singled to score Pierce. Tony Estrada followed with a long single to score Bridwell and Rice. Mutt Hodge singled and P. C. Contreras and Pete Estrada reached base on errors to score Tony Estrada, Hodge, and Contreras.

Denver City posed threats in every inning, but Koller, backed by tight infield support, was stingy with men on base. Denver City stranded 11 men.

Leading 2-1 in the top of the sixth, Littlefield broke loose, capitalizing on three singles and four Denver City errors.

Pierce and Ronnie Rice reached first on the second baseman's error and Bridwell singled to score Pierce. Tony Estrada followed with a long single to score Bridwell and Rice. Mutt Hodge singled and P. C. Contreras and Pete Estrada reached base on errors to score Tony Estrada, Hodge, and Contreras.

Denver City won the first game in much the same fashion that Littlefield won the last one.

The score was tied 2-2 at the end of the fourth inning. In the top of the fifth Denver City broke loose to score two runs, and added three more insurance runs in the seventh inning.

Littlefield had taken a 1-0 lead in the first when Pete Estrada singled and scored on Rice's booming double.

Denver City gained the lead, 2-1, in the third when first sacker Ralph Townes homered off Littlefield pitcher Larry Pollard.

Pierce tied the score in the third. He reached base on the shortstop's error and crossed the plate when Koller's grounder went through the shortstop's legs.

Denver City's All-Tournament catcher Mike Hubbard cracked a home run to account for two of Denver City's runs in the seventh. (Continued on page six)

Eight Ways To Increase Gas Mileage

Your car can be made to yield more miles per gallon of gasoline, according to the editors of Changing Times magazine. On an annual basis, the difference in gasoline cost between the highest and the lowest mileages recorded in this year's Mobilgas Economy Run, for example, would be around \$60.

The first step, the editors say, lies in the choice of an economical car. That means selecting the lightest car that is spacious enough for transportation needs; an engine of modest displacement; the lowest rear-axle ratio available; the most economical transmission.

Once a car with built-in economy features has been selected, the keys to gasoline savings are maintenance and driving habits. Briefly, the editors set up these rules:

1. Engine tuneup - Tune it every 5,000 to 10,000 miles. Carburetor and timing adjustment is important. Change spark plugs when needed.
2. Brake adjustment - Check periodically to see that wheels turn freely with no binding or dragging.
3. Wheel alignment - Watch front tires for signs of faulty alignment.
4. Tire Pressures - Keep tires inflated at least to recommended pressures; three or four pounds above will save a little gas.
5. Accelerate moderately - Avoid abrupt starts, most gas is consumed in getting the car moving from a standstill.
6. Shift up to top gear as soon as possible - Top gear is the economy gear; stay in it as much as possible.
7. Keep a constant speed - Anticipate slowing traffic and stops; when the brakes are used, gas is wasted.
8. Idle sparingly - An idling engine wastes about a penny's worth of gas every four minutes.

Thought Littlefield had everything, until this weekend when I was at Ardmore, Oklahoma. They have a beautiful lake just five miles from town and after work each day, the folks go out for water skiing, boating, fishing and swimming. They have a nice sandy beach for the children. You can picnic under the trees while you watch the children play in the water.

Man Jailed After Striking His Wife

Papers to commit a Littlefield Latin American man to a state mental institution were being drawn up Tuesday after the man allegedly struck his wife on the head with a hammer earlier. The woman was not believed seriously hurt.

The man had been jailed earlier by police on charges of assault on a female. He was later transferred to county authorities.

Texas Fisherman Nabs 1,000 Tons 'Cleaning Up'

HOUSTON, (AP) - Louis O. (Pete) Deshazo is a remarkably successful fisherman who casts about daily in the Port of Houston harbor. His catches total more than 1,000 tons a year.

Deshazo and the crew of his small vessel fish for debris littering the harbor. His job as harbor control officer is to keep it free of anything that might pose a navigation hazard.

On a day's jaunt they may hook anything from a tree limb to a full-sized barge.

Deshazo, skipper of the "Port Commission No. 1," and his engineer-helper, Arnold Sporn, have worked together for 15 years. Deshazo himself has worked the harbor and ship channel for 30 years.

Their targets are logs, garbage and even craft which have been stranded. They once moved a barge 200 by 75 feet to clear the way for channel traffic.

But garbage is probably their prime sore spot. Efforts to educate litterbugs, they say, have been futile.

"Some people just have to be told but others have to be shown," Deshazo says.

The crew once picked up enough wood to build a pier. The Port Commission had only to pay for nails and labor for the structure.

It's now the foundation for "Shamrock No. 2," a shack where the crew wash and clean up.

"They need it," said Sporn.

The work may be dirty. But the Port Commission No. 1 is all spit and polish.

3 Stolen Bicycles Returned To Owners

Three bicycles stolen last week have been recovered this week and returned to their owners.

The bikes were taken from residences of Bill Ross, J.C. Hill, both on East 15th Street, and Lloyd Hood, 522 E. 7th.

The Ross and Hill bicycles were found in a vacant lot near Piggy Wiggly. The Hood bike, taken Thursday, was found near the home Saturday.

Agriculture - wise it looks like another good year for farmers in this area. Plenty of rain has guaranteed the dry land boys a good crop and the irrigation farmers are pouring the water to their crops. Some farmers were hailed out, yet percentage wise to the entire amount of acres of cotton and sorghums this won't hurt the overall picture appreciably.

About the most amusing thing we've seen in the last week or two is our seven-year-old daughter trying to eat corn on the cob without her two front teeth.

The scene was a street in a London slum. Three urchins, eight to 10-years old, were playing in a gutter, when a Rolls-Royce pulled up and out jumped a beautiful, expensively dressed blonde. She picked up the youngest, hugged him, kissed him, gave him a box of candy and a parcel of toys. Then she filled his two grubby hands with money, kissed him again, jumped back into the car, waved her lily white hand, and drove away.

The other two boys watched goggle-eyed. Finally one said: "Gorblimey, Tommy, woz that yer fairy godmother?"

The beneficiary looked at him with scorn: "Naw, that woz my sister wot woz ruined."

Looking back to last year we see that the first milo came in on August 6th. It was dryland grain from Bula, and possibly the earliest milo crop in many years. In talking to our area grain men, most of them figure it will be the last of the month before the first load hits town this year.

As to price, most figure it will sell on the market, above the loan price of \$1.31.

The dryland milo is beginning to burn. Most of it is pretty tender and does not have a good root system. So it will need more rain to really classify as a bumper crop. Many dryland farmers will make a good milo crop with the underground moisture they now have. We have a rumor that one area grain firm will contract this year's crop at \$1.50.

Mrs. Otis Smith came by Monday, one of the hot days of the year and reminisced about her recent vacation up at Lake City, Colorado. It's been two years since I was up there, but I can still remember getting my limit of trout on old Blue. . . real cool. . . no, cold nights and a shower every afternoon. I want my representative to introduce a new bill making it compulsory that we all get a month's vacation from now on for more leisure, fishing and all that in the interest of everybody living longer more happily.

It looks like Milwaukee and Chicago for the world series. . . at least that's what my expert baseball adviser says. Of course I still believe the old St. Louis Cardinals will be in there.

Looking at the advertisements in today's Leader we see another good selection of grocery buys. . . and many special prices in this group. . . David Keithley reminds everyone about the decreasing auto insurance rates. Mae Harold opens a new beauty salon. Anthony's come out with some new nylon jeans for back to school. The Spudnik Drug features one day film developing service and a roll of film free, and Dunlap's tells about their charge account plan.

Crowder instructed the troopers in his region in using traffic citations on violators of this law. Vehicles exempt from mandatory mud flaps law are school buses, truck-trailer combinations.

Mud flaps must be made of metal, rubber, rubberized material, or any other substance. The safety of mud flaps must be at least as good as the tires behind them. They are suspended or attached to the rear axle of the highway vehicle. Conditions of loading to prevent slush, mud, or grime transmitted from the rear wheels to the face of any following vehicle.

Owners and operators of wheeled vehicles were reminded Wednesday by Major R. Crowder, Commander of the Department of Public Safety that certain vehicles equipped with guards on the rear axles or cement action by the mud flaps law.

Diligently Pray For The Work of Your Church

This Series is Sponsored By the Business Firms and Individuals Listed On This Page. These Firms Along With the Ministers of Littlefield Hope That Each Weekly Message Will Be An Inspiration To Everyone.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	John	12	25-36
Monday	Psalms	84	1-6
Tuesday	Job	5	8-17
Wednesday	Isaiah	9	1-6
Thursday	Jeremiah	12	15-17
Friday	Lamentations	2	22-26
Saturday	John	14	6-13

Have you ever been deep in a woodland, where it is so dark that you think light can never enter? Then suddenly a shaft of sunlight strikes through the trees, and you find yourself standing in unexpected beauty.

Life can be like that, too. At the darkest moment, suddenly there can be light—if you have the power to see it. But that's an important "if." So many of us fumble through the days and years when the greatest candle of all, the Church, stands ready to light our path.

If you have been depriving yourself of the guiding strength of the Church, start now attending its services. It will help you find your way both in sunlight and in shadow.

RAYMOND McKINNEY dodges a Tony Estrada pitch during the fourth inning of the first play-off game between the PONY League all-stars and Ware-Keeling. Ware-Keeling won, the first game, 9-2, but the All-Stars, behind McKinney, took the second, 16-11. (STAFF PHOTO)

Ware-Keeling Rips Stars In First Play-Off Game

Tony Estrada struck out 17 All-Stars and allowed only three hits as Ware-Keeling continued winning ways with a 9-2 victory over the PONY League All-Stars in the first of the best-of-five series between Ware-Keeling and the All-Stars at PONY League Park Monday night.

Estrada yielded single runs in the third and fourth inning, but he retired the side in order in the other five innings.

Ware-Keeling tallied twice in the first inning off All-Star pitcher Ken Polk, added single runs in the fourth and fifth innings, then broke the game wide open in the seventh inning with a five-run outburst.

Four All-Star errors in the first inning paved the way for the two-

Ware-Keeling runs in the first inning.

Estrada and Robert Moore reached base and scored as a result of the errors.

Raymond McKinney gained first on Dugwood Conley's error in the third inning for the All-Stars, and he scored on Larry Wood's double.

Jerry McCain singled and scored Estrada's third run in the fourth inning.

Terry Gage doubled off Estrada in the bottom for the fourth then came home on Polk's single for the All-Stars. Estrada retired the last nine batters.

Larry Hutson was hit by a Polk pitch in the fifth and later scored.

Ware-Keeling marked five times on six hits in the top of the seventh inning.

Sam Pair Pitches Butane To 3-1 Win Over Batson

Sammy Pair and Littlefield Butane limited Batson Motor to one run and three hits en route to a 3-1 win over Batson in the first game of the Little League best-of-three play-offs at Little League Park Monday night.

Butane scored one run in the first inning, added two more in the bottom of the fourth, then switched Pair lose in his bid for a shut-out as Batson scored its run in the sixth inning.

After Pair had suppressed a Batson threat in the top of the first inning when Batson hurler Pat Abeyta moved to third base, Butane scored its first run.

Jerry Smith singled, stole second and third, and scored on the catcher's error.

The Motormen loaded the bases third, but Pair fanned All-Star Ronald Sitton and forced first baseman Ricky Miller to ground with one out in the top of the back to the mound.

Butane's Jerry Cox reached first base in the fourth inning and advanced to third on Pair's double to left field.

Cox scored on the third baseman's error and Pair came home on Al Mann's single.

Terry Hyatt walked and scored Batson's only run in the last inning. He stole second and third, and crossed the plate on an infield out.

Spoutin' Off

by the dozens proved they are good drivers.

PEOPLE WHO criticize young drivers, however, do have something with which to back up their argument.

It's been proved statistically that teenagers are involved in twice as many fatal accidents for the number of miles they drive as drivers over 25.

That's why parents who have teenagers driving their cars pay more for insurance.

Whether teenage drivers as a whole are good or bad, they all could benefit by following a few tips, provided by professionals - state patrolmen, test track drivers, truckers.

In fact, grown-ups should take notice, too. Here they are:

1. DON'T show off or clown behind the wheel.
2. Have guts enough behind the wheel to chicken out when common sense tells you it's time to give in. Never mind who's right - Be smart, stay alive!
3. The public highways are for sharing, not competing.
4. The squeal of tires and roar of the exhaust may sound like hot stuff to a driver who needs it to build up his ego. But it tags him as strictly an amateur to the rest of the world.
5. The pro gives in to bad weather, bad roads and traffic jams, and slows down.
6. Would your coach send in a player who has been drinking? Well it goes double for driving. Remember - a half-loaded driver is more dangerous than a loaded gun.

Services Held Wednesday For Mrs. Jones

Funeral services for Mrs. Curtis Jones, 51, sister of Paul Van Dyke of Anton, were conducted Wednesday at 3 p.m. in the Texaco - Farwell Methodist Church, pastor, officiated, assisted by the Rev. Hugh Blaylock, Friona.

Mrs. Jones died Tuesday at 12:04 in the West Texas Hospital at Lubbock.

Survivors include her husband; two sons, Don Jones, of the home, and Dean Jones, of near Farwell; one grandchild; five sisters, Mrs. Percy Moore and Miss Edna Van Dyke, both of Blossom, Mrs. Sam McMillin, Lubbock, Mrs. Harry Wright, Odessa and Mrs. A. L. Clifton, Slaton; two brothers, T. C. Van Dyke, Dallas, and Paul Van Dyke.

Interment was in Bailey County Memorial Cemetery under direction of Sanders Funeral Home, Lubbock.

City Council Meeting Slated

City councilmen will hold a regular meeting at 7:30 tonight, with a full agenda due to be discussed in their session at the city hall.

Up for discussion are the employment of an airport manager, a proposed paving program, development of a new addition on Sunset Avenue and several routine items.

The city is looking for a new airport manager after Jerry Haire, present manager, resigned last month. Haire promised to stay on until the city found a new manager.

The airport situation was discussed Saturday afternoon in a special meeting of the Council.

but the Denver driver "couldn't remember how it happened."

The Denver truck careened 225 feet down the highway after the impact and skidded off the road. Most of the damage to the truck was done after the impact, officers said.

Lawson estimated damages at \$200 to the butane truck and described the other truck as a total loss. The truck - tractor was worth about \$5,000, Lawson said. The trailer itself was not damaged.

Legion Wins

Ball, who was injured in a motorcycle accident and was unable to play in Saturday's contests, accepted the Littlefield team trophy.

The Lorenzo tournament closed out the Littlefield Legion schedule for 1959. Littlefield's record for the season was 18 wins against 7 losses.

Coach Jimmie Chapman's team was the only area team club to defeat the Lubbock Bell Checks, the district representative in the state tournament.

Eleven members of this Littlefield team will be back next year.

Ex-Flyer Serves Air Force Careers For Two Countries

By PHIL GUNBY
COLUMBUS, Ohio (AP) - M. Sgt. John Vandenberg is nearing the halfway point of a 20-year Air Force career - his second.

The 41-year-old Vandenberg served 10 years as a sergeant-pilot in the Netherlands Royal Air Force, including a tour of wartime duty in the southwest Pacific.

Now as an American citizen, he is only a few months shy of 10 years service in the U.S. Air Force as a maintenance sergeant in the Strategic Air Command at Lockbourne AFB in Columbus.

On the record, Vandenberg served 20 years in the Dutch Air Force, for the Netherlands credits him with twice the actual service because of hazardous duty in tropical zones. He gets a retirement pension.

During the war, Vandenberg was credited with shooting down four Japanese planes.

He was captured by the Japanese in Java but escaped with 16 other prisoners of war in a stolen transport plane. The plane was shot down near Darwin, Australia, but Vandenberg and 13 others survived.

After he was discharged from the Dutch Air Force, he and his family - a wife and three children settled in Florida. He enlisted in the U.S. Air Force as a staff sergeant in 1949 and became a citizen in 1950.

Vandenberg, who no longer

M. SGT. JOHN VANDENBERG Two Career Man

flies because of poor eyesight, often is asked the difference between the two air forces in which he has served.

"In the NRAF," he says, "we earned flying pay according to the number of hours we actually flew, not a flat rate per month as in the USAF."

"It meant that a sharp pilot, eager to fly, served his country better and earned more money while doing it."

Last Rites Read Wednesday For Mrs. Dobson

Funeral services for Mrs. Leola Dobson, 55, mother of Mrs. Paul Cody of Bula, were held Wednesday at 3 p.m. in King Funeral Home Chapel at Crosbyton.

The Rev. Wayland Boyd, pastor of the First Baptist Church, officiated.

Mrs. Dodson died Monday at 8:30 p.m. in Crosbyton Clinic-Hospital after suffering a heart attack that afternoon at 4.

Survivors include a son, Wayne Dobson, Crosbyton; six sisters, Mrs. Paul Cody, Mrs. J. C. Stanton, Brownfield; Mrs. J. J. Dewbre, Lubbock; Mrs. Tommy Hickman, McAdoo; Mrs. Jimmy Vick, Cone and Miss Oma Dobson, Crosbyton; four sisters, Mrs. S. E. Casey, Decatur; Mrs. Will Jones, Justin; Mrs. R.D. Moore, Belk, Ala.; and Mrs. R. N. Owens McAdoo; four brothers, W. L. Powell, Fort Worth; C. F. Eola; C. R., Levelland, and Doyle, Lorenzo and 14 grandchildren.

Saddle-Weary

(Continued from Page One)

around why they had decided to make the trip. Their comments:

HARRY MILLER - "I haven't got the vaguest idea. I had already backed out and Bitner talked me back in to coming."

MRS. TERRELL - She told how she ended up in the saddle, with ten miles of hot pavement in front of her and no chance for relief. "I was just going to ride a little bit," she said, after she exchanged her seat in the wagon for her daughter's horse.

"Old Bo French ran off and left us and I had to ride the whole way."

Mrs. Terrell, stiff and saddle sore after that ordeal, was still sold on the ride, although she planned to leave Wednesday for Amberst. "If I had time I'd like to go the whole trip," she said. "But I've got a flower shop and I've got to get back to it."

ELOISE TERRELL - "I don't like it... not today (Tuesday). I liked it before today." Hay fever was giving her trouble, besides the saddle.

KAYE BRADLEY was influential in getting J. W. BITNER to go on the ride.

"I went over to Kaye Bradley's house and she told me about it," said Bitner.

Kaye's reason: "They jumped me with it real quick and before I had time to say anything, daddy already had it planned. I don't know why I came. I came to meet all these handsome boys." Then she added quickly: "Don't put that in the newspaper."

But Kaye's practical joking friends had already taken care of her boy friend at home. They wrote him a note about what a wonderful time she was having on the trip, then signed it "Sam" - the name of the dog Clyde Prestwood Jr. is taking with him on the trip.

LYNDIA MORROW is swapping out with Kaye, riding her horse half the time.

"I never have done anything like this before," she said. "I guess I'm just the adventurous kind."

Commenting on GEORGIA STEPHENS, Brewer wrote:

"Possibly the best horseman among the girls is Georgia Stephens, who told others before the trip she wanted to make the ride 'just for the thrill of being around horses'."

"I'm still glad I came," she said - an opinion which seemed to sum up how all the trail riders feel about their "great horseback adventure."

Views From Pleasant Valley

Mr. and Mrs. B. H. Bickle have returned from their tour of the southeastern states. They visited their daughter and family in Louisiana while they were gone.

Mrs. Kenneth Briscoe and Polly went to Amarillo Saturday. Polly was a guest on Cotton John's Farm and Home Program. Cotton John featured Bailey County vegetables on the program Saturday.

Alton James of Tahoka is visiting in the John Inman home this week.

Mrs. Kenneth Duncan has been dismissed from the West Plains Hospital and is at home.

Mrs. Ott Robinson of Lubbock visited the John Wests last Wednesday.

Mrs. Les Bruns and children were visiting in the Kenneth Briscoe home this week.

Sullins spoke on fertilizer sales Tuesday morning. The meeting was sponsored by Mathieson Chemical Corp.

Watches Stolen From Discount Firm

Three watches were taken Saturday night from the front window at Littlefield Discount House, police reported.

Officers said someone broke the windows and made off with the watches. Police were investigating the theft early this week.

Cotton Bales Fire Doused By Firemen

Fire which broke out Tuesday about 12:40 p.m. at Irving Gin north of town destroyed four bales of "barkey" cotton, firemen reported.

Littlefield volunteers prevented the blaze from spreading to nearby bales.

Damages \$6000 In Accident On Highway

Damages totaled about \$6,000 in a three-car accident on Highway 84 2.7 miles east of Littlefield about 2:15 p.m. Tuesday.

Two persons were hospitalized, driving west. John N. Glover, 54, of a car driven by her son, 20, and Truma Faye Lubbock, driver of another car, were injured.

Investigating officers estimated damages to the Glover car, and the Martinez auto, at \$6,000.

The car driven by the Glover car, following the Glover car, hit the rear of Glover's car. Glover's car, owned by Martinez, auto, was damaged.

Damages were estimated to the Atwood auto, and the Martinez vehicle.

The Man At The Lathe

There has probably been more discussion of the inflation problem than of anything else except the international situation. Much of the discussion has been informed and wise. But almost all of it suffers from a big weakness. It is carried on in statistical terms—billions, tens of billions, and hundreds of billions of dollars—that only a tiny, specially educated minority of the people can even begin to comprehend. In other words, it just doesn't come down to life and living as we understand it.

President Eisenhower realizes this. Some time ago he spoke, extemporaneously to a group of magazine editors. His subject was saving the dollar. And in the course of his remarks he said: "... Today, think of the man at the lathe, the drill press, who is earning money which he is putting away in his pension with his company or into an insurance policy. If we today cannot assure him that forty years from now he is going to be able to have a good living left, then I say, sooner or later, he will quit buying insurance policies; he will not have any confidence in the government bond; and he will not think very much of his pension."

Later on, the President added that, if we have more and more inflation, "it won't be the rich that will be suffering. Instead it will be all those millions who with their hands and brains, typewriters, shovels, and all the rest, are producing the wealth of the United States..."

Inflation destroys material values, as everyone knows. But infinitely more important is the destruction of human values.

Fact And Opinion

Columnist Marquis Childs writes: "The surplus of wheat stored today under loan or government inventory is 1,200,000,000 bushels valued at more than three billion dollars."

"It is stored in boats on the Hudson River and boats on Puget Sound. It fills great warehouses from one side of the nation to the other and the new crop, for lack of space, spills out on the ground along railway sidings and farmers' storage bins."

"Whether the dam will break the 18 months he still has to serve, Secretary Benson does not venture to say. But he is confident that when it does the politics of the price support system will be swept away. With at least a comparatively free market the farmer will again hold up his head in sturdy pride and, what is more important, he can begin to find new markets for his produce."

—oOo—

According to a Gallup poll, 50% of the American people think it would be a good idea for President Eisenhower to invite Premier Khrushchev to visit this country, 36% say no, and 14% are undecided.

—oOo—

Last January, Chain Store Age forecast that the chains would spend \$1,570,000,000 for new and remodeled stores during the year. Now the magazine thinks that figure will have to be revised upward.

—oOo—

Ralph T. Moore writes in the Oregon Voter: "National labor control law has been moving into local areas so completely as to virtually pre-empt all labor controls. Now-adays, if one's business establishment chances to have a migrating robin light on its roof it becomes interstate and so amenable to federal rather than state law."

—oOo—

According to a Newsweek feature article, our mail often travels no faster than it did 99 years ago. The magazine calls "staggering" the post office's use of hand labor, and reports that every piece of mail must be picked up, read, and put somewhere an average of 12 times. Many post office methods stand untouched from the day when Benjamin Franklin was sworn in as the first Postmaster General in 1775.

Forty-three per cent of the assets of public pension funds in California are invested in public utility bonds and debentures. With 600,000 active and retired members, says a publication of the Pacific Gas & Electric Company, these funds have combined assets totaling almost \$2.4 billion, a sum greater than the assets of all but 10 of the nation's largest banking institutions.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. — With the bottle-neck broken on a tax bill for regular spending, legislators began to look down the road.

Rep. Murray Watson of Marit proposed a resolution that opened up the lawmakers' uneasiness about having more rough decisions before the year is out.

Watson's resolution called on Gov. Price Daniel to say immediately whether he would call another special session to raise money for the Hale-Aikin school improvement program.

Hale-Aikin proposals, which include an \$800 a year salary boost for teachers, would cost an estimated \$120,000,000 a year.

There have been repeated rumors that the governor will recall the Legislature next fall to enact Hale-Aikin. Also floating around is the rumor that a 1 per cent per gallon hike in the gasoline tax is being "saved" for that purpose.

Watson charged, "I think there's been a definite deal made with the Texas State Teachers Association. Somebody else should know what's going on here instead of just the governor and the teachers' lobby."

Governor Daniel's supporters called this unfair. They declared that the governor, like everyone else, couldn't tell how it would be until after the dust settled from the fracas over raising money for the basic budget.

This is well over the required two-thirds to make the bill effective immediately on the governor's signing.

House, which had been hamstringed for seven months on the tax issue, came unstrung so suddenly it surprised the bill's advocates. Voting ended good naturedly with "yea" votes recruited in the atmosphere of an old-fashioned revival meeting.

Most talked about feature of the new bill is a severance beneficiary tax of 15 per cent on natural gas. It was the first time the

Senate had approved this tax. Many House members had said they would not vote for any bill that didn't include it. It will bring over two years if not ruled unconstitutional.

Three-fourths or more of the bill's revenue will come from selective sales taxes. Newcomers are a 3 per cent tax on jewelry and furs, a 3 per cent tax on hotel and motel room rentals, 3 per cent on boats, motors, cameras, air conditioners, 25 per cent on tobacco products other than cigarettes.

Taxes on cigarettes will go up 3 cents a pack; liquor and wine, 20 per cent; motor vehicle sales, from 1.1 to 1.5 per cent.

Utility gross receipts will go up 20 per cent, and the corporation franchise tax will go up by 75 cents per \$1,000 capital for one year, 50 cents per \$1,000 thereafter.

LADIES DAY — Senate debate on the tax bill was enlivened by the arrival of a "women's march on the Capitol."

Gallery was filled with flowery hats and excited chatter as some 40 to 100 women (estimates varied widely) swept in "to show those lobbyists what's what."

Leaders were Mrs. Jud Collier of Mumfords and Mrs. Minnie Fisher Cunningham of New Waverly, both workers in the militantly liberal Democrats of Texas Clubs.

They were, according to Mrs. Collier, "infuriated by the scandalous lobby which has blocked action on the tax bill."

Specifically, they favored a bill heavy on gas taxes and light on selective sales taxes.

LEGISLATING ENDED ABRUPTLY — Tax bills have had a lot of attention during the current special session of the Texas Legislature. But there were more eyes on charming Miss Carol Ralphs when she stopped in for a capitol building visit than ever looked at a tax bill.

This fetching miss from Farron, Utah, whose theme song is "Re-

member the A-La-Mode", is America's Miss Dairy Princess. She was accompanied by Mrs. Anne Reeve, whose husband Lew is publisher of the Oceola (Wis.) Sun. Mrs. Reeve is the chaperone for Carol's journeys about the country.

Miss Dairy Princess was introduced in the House, addressed the Senate, and was the recipient of complimentary resolutions from both branches of the legislature.

Then the lawmakers settled down to work again. 71 NEW PATROLMEN — A total of 46 new patrolmen now are manning Texas highways. These trainees have just graduated from the Law Enforcement Academy of the Texas Department of Public Safety. Also graduating were 20 drivers license patrolmen and five license and weight patrolmen.

Presenting diplomas to the group was Col. Homer Garrison Jr., director of the department. He announced that there still are 73 openings on the force. Eligible to fill these posts are young men 21 to 35 years of age — and they are badly needed.

CITY BUSES LOSE OUT — Another cause, apparently lost for this year, is that of exempting city bus systems from the state gasoline tax.

Rural area senators, led by Sen. Wardlow Lane of Center, voted it down.

City spokesmen say the buses, needed by low-income people, can not stay in the black unless they get tax relief. San Antonio's transit system went to the wall, was taken over by the city.

Senator Lane made a scathing attack on "taking care of Highland Park" (a swank Dallas suburb) when the state is having a hard time finding money "to pay the old age pensioners."

DANIEL OPPOSES FEDERAL TAX — Governor Daniel asked the National Governors' Conference to join him in opposing an increase in the federal tax on gasoline.

Congress is considering President Eisenhower's recommended 1.5 cent per gallon increase to pump new life into the federal highway building program.

Governor Daniel charged the federal government would have plenty of money for the highway program if it would quit using gasoline tax money for other purposes. He said further gasoline taxing should be left to the states, which need the money worse.

Earlier this year the governor mentioned the gasoline tax as a possible source of additional future revenue. State gasoline tax is presently 5 cents a gallon; federal tax, 3 cents a gallon.

grass farm seems to be defending himself this week, which is a pretty go sized job.

Dear editor:

A man stopped by my place out here yesterday, said he was in a big hurry, had to get back to work, but took long enough to say he didn't approve of my letter to you last week, said I was defending laziness.

"Trouble with the world now is it's got too many lazy people in it," he said, and hurried off to work.

Well, it may be that the trouble with the world today is it's got too many lazy people in it, but this is the first I knew the hydrogen bomb was built by lazy people. Or guided missiles. Or bacteriological warfare.

Now I'm not saying everybody ought to be lazy, every time I turn on an electric light bulb I'm thankful Thomas Edison wasn't lazy, although it's suit me if the light company was a little lazier about reading the meter, but on the other hand some of the world's greatest mischief has been caused by busy people. How much further along would the world be today if Hitler had been a lazy man?

It all depends on what a man's busy at. I guess one of the busiest men I've ever read about was that burglar who arrested in California the other day who averaged breaking into a home six nights a week for two years in twenty states.

My position is, and understand I'm not defending it, I figure a man can take a position without defending it, is that if a man feels like keeping busy, he ought to, and if he feels like loafing, he ought to, if he can get by with it.

When Edison perfected the light bulb, I don't figure he objected to a man's switching it on and opening up a newspaper and sitting back and enjoying himself under it. You're not going to catch me getting so busy I don't have time to enjoy the results of some other man's work. It wouldn't be fair to him.

I guess I could find out the

Morton's POTATO CHIPS

news of this part of the country by getting out and digging it up, but it's a whole lot better to sit back and let you and The Lamb County Leader dig it up for me. And I have a notion you prefer it this way, too.

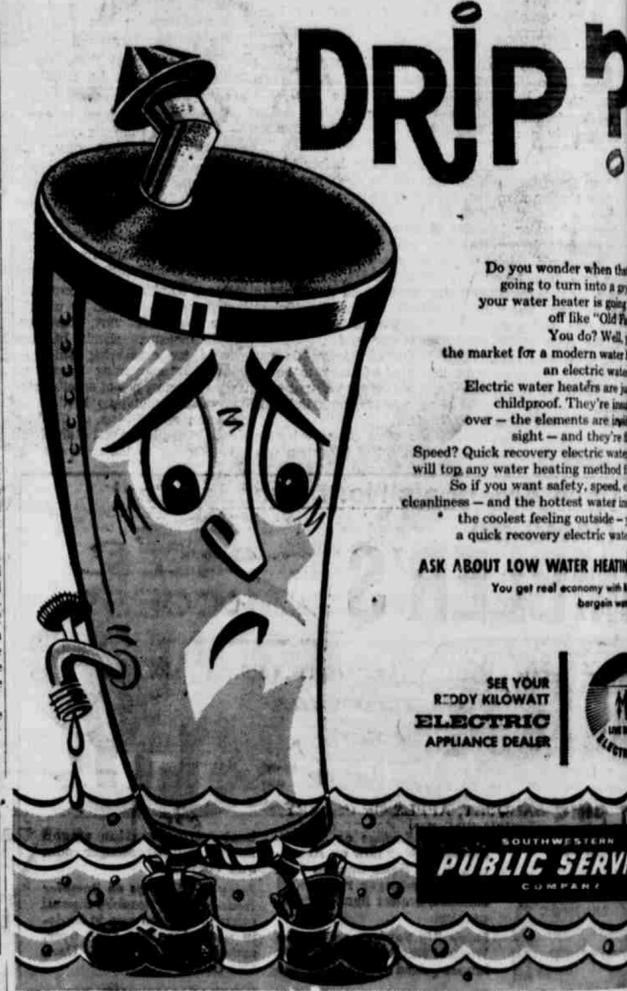

Yours faithfully, J. A.

James Pirkey, Ag Teacher, To Be Honored

James Pirkey, vocational agriculture teacher of Littlefield, will be honored in Fort Worth, August 12 by the Vocational Agriculture Teachers Association of Texas for 10 years of outstanding service to agriculture in Texas. The award is a part of a four day conference, opening August 11. Sponsored by Texas Agency and the Association of the conference, designed to bring to the attention of the public the technical agricultural procedures. About one thousand agriculture teachers are attending the conference, H. G. Barber of Floyd, Tex., president of the Association. About 16 million storms crack over the state this year, says the National Phic Society.

Murals Improve Outlook For Mental Patients

TERRELL, Tex., (AP) - Blanketed by Dr. Manuel J. Otero, clinical director of Terrell State Hospital, the walls of the hospital have been changed to something Dr. Otero, who originated the idea, has called "mental patients' paradise." Many good things have seemed to come about because of the murals.

And all the credit goes to Mrs. cause of them.

Mrs. P. Becker, a professional artist who lives at Richardson, Dallas County, in the dining room of a men's ward, where some of the hospital's sickest patients live, Mrs. Becker painted a peaceful country scene complete with a house, barn, trees, flowers and reflecting pool.

Men who eat there no longer throw food at the walls, attendants say. They seem more relaxed and eat better. Authorities have been able to put knives and forks back on the tables. There's even talk of unlocking the doors to the ward for the first time in three years, voluntarily.

In another ward where Mrs. Becker painted murals, attendants say they have observed a "definite change for the better" in the 3,500 square feet she painted. They are less depressed and more receptive.

These paintings have been the Mrs. Becker painted beautiful springboard for a whole new series of murals, in the hospital's canteen, immediately

the patients changed the name of the place to the Tropicana Room, and it soon became the favorite place on the sprawling hospital campus.

Hospital officials found money to purchase new tables, chairs and curtains. The Dallas Mental Health Assn. bought bamboo blinds to go with the murals in another ward.

Some patients who hadn't talked for years have commented on the murals. One man broke into a smile for the first time attendants could remember.

THIS WEEK In Washington

With CLINTON DAVIDSON

Some State Department officials here think Russia's tough attitude at the Geneva conference is based on the longtime Soviet expectation that the U. S. eventually will be destroyed as a result of a collapse of our economy.

The Kremlin is said to believe that such an economic crash would be followed by the Communists and their fellow-travelers taking over the government. Russia still doesn't believe America's phenomenal prosperity can last.

Russia's prediction of a financial catastrophe has failed to ma-

terialize but the Reds are right on one thing - America can be destroyed by financial failure just as completely as by bombs, planes and missiles.

It is just as important that we maintain a sound and expanding financial structure as it is that we have a strong national defense. Sen. Warren Magnuson, with whom we discussed this, stressed that "full employment and prosperity cannot exist without a sound and expanding financial system."

The Importance of S.E.C.

Our economy is based on the private enterprise capitalistic system. That means, simply, the use of money to expand job opportunities for more people. In some industries \$50,000 must be invested in plants and equipment for each employe.

The Securities and Exchange Commission is the government agency that supervises and regulates the machinery which provides our commerce and industry with capital. When a company decides to expand, build additional plants and employ more men, it often secures the needed capital

greater roominess

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

fresh styling

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling..." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

About Your Health

We don't know how you feel about it, but we're watching out this year for those nasty Megalopye opercularis. For those of you who don't have an entomology textbook handy—that's a moth, commonly called "asp" or "puss" caterpillar, in the larval stage.

These brown or grey, semi-crescent shaped larvae may become extremely abundant, feeding on the foliage of a variety of trees and shrubs.

Schools have experienced difficulty in the past as a result of the prevalence of the insects on school yard trees. They represent a very real problem to householders during warmer months.

The large number of requests for information concerning the "puss caterpillars" now being received by Texas State Department of Health entomologists indicates a population peak of these insects.

Everyone should familiarize themselves with the appearance and medical importance of these stinging caterpillars. Children, in particular, should be warned to avoid them.

Individual reaction to the stings varies greatly, dependent upon many factors such as age, sensitivity status, size of caterpillar, area of skin involved, and the amount of pressure on contact.

A mature larva dropping from a tree into a person's shirt or blouse and mashed against the skin in several places before being retrieved would likely cause a much more painful condition than the simple act of brushing an exposed arm or leg against a small specimen.

A burning pain is felt almost immediately on contact. Small, raised, whitish spots appear, later becoming red. The inflamed area may spread for several inches, accompanied by swelling. The resulting skin reaction frequently lasts for several days. Further systemic symptoms may

marvelous financial system," Sen. Magnuson said, "the S.E.C. staff must be increased." All of us desire to keep expenses down, but we cannot afford to let this desirable or hobbler chief "desire" against the kind of a financial crash Russia is hoping we will have.

Rep. Albert Thomas, chairman of the House Appropriations subcommittee for independent agencies, of which S.E.C. is one, told us he believes "it is essential that the S.E.C. be adequately staffed... to provide the protection to which American investors are entitled" and to assist in obtaining the capital it must have in order to operate with maximum efficiency.

"The S.E.C.," Thomas said, "is an indispensable agency operating in the public interest. I have a very high regard for the officials of S.E.C. I believe we have provided funds for an adequate staff."

Expanding Need

As an example of the expanding need for capital in our growing economy, the registration of securities sold to raise capital in the year ended June 30, 1938, totaled 908, but during the year ended June 30, 1939, the total reached \$1,226. Also the registration of new investment companies increased from 453 in the 1938 period to 512 in the past fiscal year. The investments of these companies have increased from \$2 billion in 1940 to more than \$20 billion today.

One of the most important activities of the S.E.C. is that of preventing fraud artists, "con-men," shysters and fast-talking swindlers from perverting the honorable business of securities selling. This, alone, will require a substantial increase in its staff.

As an example of the increasing work load carried by the S.E.C. staff, in protecting the public from swindlers, the S.E.C. referred for criminal action in the past fiscal year almost three times as many cases as in the previous year.

"To preserve and protect our

BAYTOWN, Tex., (AP) - City Councilman Al Clayton makes a lot of dough on the side. His constituents gladly help him dispose of it.

Every Sunday morning, breezes carry the aroma of fresh baking dough from the Clayton home.

Neighbors raise their noses in approval. Soon they start dropping in for shares of the Sunday special, said Chester Rogers, writing for the Houston Chronicle.

"I just plain like to fix homemade bread," Clayton said. "It's nearly becoming a lost art."

The tall refinery labor foreman doesn't use a recipe.

"Don't ask me for particulars," he said. "I don't have one. I just throw it together. Don't ask me how or how much."

But Clayton says there's no secret about either the bread of his

friends who eat it together.

There is, he says, a yeast for the successful baker.

"You must remember a growing, live thing is not be chilled or heated either cold or hot water be nutured in warm water."

Suppose you bought Abel's house on time for \$15,000 and had paid off \$5,000. Then, with \$10,000 left to pay, you get Joe Blow to buy the place.

How could Blow pay you for it? Well, for Blow it would be just dandy for you to let him take over the \$10,000 debt, pay you back your \$5,000 equity, and then pay off Abel the rest of your \$10,000 debt. Blow would save the cost of a new loan-if his credit was good enough to get one in the first place. So you set it up that way.

One day Blow blew; and you, yes you, hold the bag. True, you could turn over your equity to Blow without Abel's consent.

But your agreement with Blow to pay the balance is not binding on Able. He can hold you to your original deal. Pay up \$10,000.

Don't let someone "assume" your loan unless you protect yourself by an agreement with your lender, or unless you are willing to risk holding the sack.

Your buyer is often a good enough risk for you to let him assume the loan - but don't do it thinking you are free of your debt.

Hero Ship Nears Grave

SAN FRANCISCO, Calif. (AP) — The Navy is scrapping the U.S.S. San Francisco, the saucy cruiser that challenged and crippled a Japanese battleship in a key sea fight for Guadalcanal.

The aging 10,000-ton cruiser is among five outmoded battleships, 23 cruisers and 15 light aircraft carriers now mothballed in Philadelphia and destined for the Navy scrap heap.

Soon, all that will be left of the gallant old cruiser will be two navigation wings from her bridge, a flagpole and a chipped ship's bell. They are part of a monument over looking San Francisco's Golden Gate.

The San Francisco blasted her way into naval immortality on the night of Nov. 12-13, 1942, only eight months after Pearl Harbor, while the Marines were fighting to turn the Japanese tide on Guadalcanal.

She was a flagship of a hastily assembled fleet of five cruisers and eight destroyers, a little force that stopped two Japanese battleships and fourteen destroyers bent on shelling Marine-held Henderson Airfield.

In pitch darkness, the U.S. ships steamed into the middle of the Japanese fleet with three times its firepower.

A lot of the firing was done at point blank range by the light of searchlights and star shells.

Rear Adm. Daniel J. Callaghan of Oakland, Calif., U.S. commander, directed: "Take on the big one first." Minutes later, he was dead.

When it was over, the Americans had lost the cruisers Atlanta and Juneau and four destroyers.

The San Francisco was hit by 45 shells, 15 of them 14-inchers from the battleship. Aboard were 107 dead. Her bridge was in shambles. Twenty-five fires were burning below decks.

After repairs, the San Francisco went right on fighting. When the peace came, her record read like a roll call of Pacific battles — Pearl Harbor, Guadalcanal, the Aleutians, Wake, Gilbert, the Marshalls, the Carolines, Palau,

and Mrs. T. H. Hukill in honor of their daughter-in-law, Mrs. Nolan Hukill, and their son-in-law, Jeff Birkett, of Lubbock. Present were the host and hostess, Mr. and Mrs. T. H. Hukill and James, Mr. and Mrs. Nolan Hukill, Gary and Gordon, Mr. and Mrs. Jeff Birkett, and son, Jeff, of Lubbock.

Mr. and Mrs. Ray Muller and a niece were in Kermit Sunday to visit her brother and family.

Leslie McCain and the two boys of Bovina, visited his parents, Saturday.

RETURNING HERO: Crewmen line the rails of the San Francisco as the cruiser sails into San Francisco Harbor for repairs shortly after her victorious battle with a Japanese battleship. Now, more than 16 years later, the aging San Francisco is to be scrapped.

New Guinea, the Marianas, the Philippines, two Jima and four destroyers, and a few of his future school, whether it occurs within one school district or between states, is a major uprooting for most children, say the editors of Changing Times magazine. Parents, the editors advise, can do a lot to ease the strain of a change.

Not all children react the same way to the problems raised by the shift of schools, the editors warn, so don't be misled by surface calmness. Instead, anticipate your child's problems, and you will help him bridge the gap between his old and new schools.

Specifically, here are some of the things you can do:

Let him know early that he is in the offing. Tell him to let him help in the planning. If at all possible, give him a chance to visit the new school in advance of the move, whether he can meet the principal, the counselor, some teachers he's likely to be in the class with, or a few of his future schoolmates
