No. 23

## THREE YEAR OLD CHILD OF F. L. REED CRUSHED TO DEATH BY WAGON LOADED WITH MAIZE

Ramer Tilton, three year old son of Mr. and Mrs. F. L. Reed, was crushed to death Tuesday afternoon, when a wagon loaded with maize heads passed over his

body and his brother, Alfin, returned from the field with a load of headed maize, and the barnyard for a few minutes. The little fellow, anxious to see the team, picked up the wheel and started to drive the grain bin while his father was drinking water. Observing his actions, told him to stop, and the little fellow later returned to the wagon. Reed picked up the lines and started toward the bin, when the child was heard. He rushed around to the wagon, found a dead body of a child lying on the wheel unob-

scured to them at the time the team was started. Van Ganous, accompanied by the distracted father, took the lad in his car, rushing to Littlefield for a doctor, but the child expired about the time they reached the city limits. Apparently the wheel had passed diagonally over the lad's body, breaking the right leg, crushing the hip and chest. He never regained consciousness following the accident. The parents came here from Childress county about 18 months ago, and are living on a farm adjoining Oklahoma avenue, and about six miles east of Littlefield. Funeral services were held Wednesday afternoon, by Rev. Roy Kemp, of Tabernacle Baptist church, and interment made in the local cemetery. Hammons Bros., morticians, were in charge of arrangements.

## DELEGATES AND VISITORS OF SOUTH PLAINS ASSOCIATION TO INVADE L.F.D. WHEN I. O. O. F. MEETS HERE MONDAY

The I. O. O. F. lodge will have the members of the South Plains Association of that order when they meet Monday morning. Delegates and other guests are expected to attend, according to the report of the deputy grand master of the district. It is every arrangement for the enjoyment of the members. Badger, president, and an open program arranged, in addition to the regular work to be held in the lodge. The lodge, only about 40 members, now boasts of around 100 members. About 40 Rebekahs during the meeting here it is expected to do a degree work on eight

### MINISTER HELPS CALL NEW PREACHER

Rev. E. Hoffmeyer, of Chicago, called last Sunday at the church at Abernathy. Due to the services were held at the church here last Sunday.

The local Lutheran church at the ceremony. The local people were also present, among whom were Mr. and Mrs. and family, Mr. and Mrs. and family, Mr. and Mrs. and family.

The services the visitors were at the homes of Mr. Nice and Mrs. where supper was served. An enjoyable evening was had. The new Pastor will assume his duties at Abernathy as well as at the city of Lubbock.

The 191 ice plants with a total of 21,129 tons.

Put Champ

The woman athlete, has won laurels by putting the laurels for a new world's record.

### The Hard Season For Grandmother

By Albert T. Reid

## LITTLEFIELD CATS PUT SKIDS UNDER LUBBOCK HUBBERS TO TUNE OF 27-6 IN SEVEN INNINGS ONE SIDED PLAYING

The Littlefield boys made monkeys out of the fast Lubbock Hubbers last Sunday in one of the most lopsided games of the year.

Still feeling the sting of the 15 to 2 score the Hub City nine handed the locals early in the season in Lubbock, the Cats got sweet revenge last Sunday. Wallace, star A & M twirler failed to get the Cats out in the very first inning when five home boys crossed the plate. Del Morgan, who pitched for the Littlefield team last year against the Fort Worth Cats fared but little better. He was relieved in the fifth inning when Morgan had to give way under a desperate rally that netted 13 scores before the locals were stopped.

The Hub City aggregation had about the same lineup used in this year's tournament at Amarillo. They have beaten the Tackless Texans, of Amarillo five times this year. Fans will remember Sled Allen former Lubbock pilot. He was the victim of these five losses, having charge of the Amarillo team.

The Littlefield Cats will play a return game with the Hubbers next Sunday at Lubbock.

**Box Score of Sunday Game**  
Littlefield, AB R H A PO E  
M. Ratliff, 2b ..... 4 1 0 3 1 0

Player	AB	R	H	A	PO	E

**Summary:** Home runs, Walker, Gaither; 3 base hits, Hanks, Al Mueller, D. Ratliff 2; Thornton, Moore; Two base hits, Ballard, E. Mueller, Moore; Sacrifice hits, Hanks; Base on balls off Moore 1, Wallace 2, Morgan 2, Waller 1; Struck out by Moore 7; by Morgan 1; Double play, Moore to Ratliff to Hanks. Stolen bases, Thurman 2, D. Ratliff, Walker. Time of game 2:00 hours. Umpire De Long. Game called in 7th inning.

### HUDGINS-McMURTIE

News was received last week of the marriage of Miss Velma Hudgens to Arthur McMurtie, of Pennsylvania, who is now employed in the Roscoe oil field.

Miss Hudgens was one of Littlefield's most popular young ladies and was a graduate of the high school class of '29.

They will make their future home in Roscoe.

## FOOTBALL SQUAD L.F.D. HIGH SCHOOL GETTING IN TRIM

Coach John R. Tucker, the local high school football mentor, is not "putting out" any advanced dope on the football outlook for the coming season, but among other students of the game who have watched the men working out each afternoon there is plenty of material for conversation and speculation. The men are going through stiff workouts daily and unless unfortunate injuries bar progress the football fans of this section may expect thrills aplenty before many weeks have passed.

Men from last year's squad who are back stronger than ever this year are Harry White, Doc Phipps, J. T. Allen, Leo White and Charles Evans. New men, and others from the second string, the ineligible, and the grammar school team of last year who bid fair to be valuable men are: Bill Arnn J. W. Keithley, Fulton Smith, Johnnie Smith, Max Stansell, Durward Henderson, Charles Burt, Richard Herring and Sealy Harel. Other hard working candidates are Russell Wimberly, Haskell Worley, Connie Powell, Travis Houk, Robert Stone, Harris Evans, George Bridges, Dumas Haynes, Rayburn Carpenter, LaVern Stevens, C. L. Harless, Jr., Dean Thornton and Ruil Killian.

The schedule for the season is as follows:  
Sept. 27—Sudan, at Littlefield.  
Oct. 3—Tahoka, at South Plains fair, Lubbock.  
Oct. 11—Olton, at Olton.  
Oct. 18—Open date.  
Oct. 25—Ralls, at Littlefield.  
Nov. 8—Brownfield, at Littlefield.  
Nov. 11—Amherst, at Littlefield.  
Nov. 15—Levelland, at Littlefield.  
Nov. 22—Hale Center, at Littlefield.  
Nov. 28—Olton, at Littlefield.

Texas eliminated 25 grade crossings in 1928, standing fourth among the states in this important work.

A deserted baby about three weeks old was found in her flour barrel by Mrs. J. C. Gaston, of St. Paul.

## A STATE BANK FOR L.F.D. TO BE OPENED WITHIN 30 DAYS

That the "First State Bank" will be opened in Littlefield within the next 30 days, is the statement of C. B. Sullivan, Austin, who was here the first of the week relative to the new financial institution.

Sullivan stated the new concern received its charter last Saturday, and would be capitalized for \$25,000.00. It is being financed largely by Austin citizens interested in Littlefield and surrounding territory. M. C. Parrish, of Austin, proprietor of eight other banks in Texas, will be president. Sullivan will be a vice-president. Other officers have not yet been selected, Sullivan said.

It is understood that a definite location for housing the new institution has not yet been decided upon, several being under consideration by the management.

## PALACE THEATRE TALKIE PICTURES WITHIN 60 DAYS

Manager Max L. McClure has a force of workmen busy this week making considerable changes and improvements in the Palace theatre building getting it ready to receive the new "talkies" that are soon to be installed here.

Many changes are necessary for accommodation of the new equipment, and the entire building is being made sound proof so there will be practically perfect audibility, synchronization of the pictures and language, and exact juxtaposition of all machinery action.

McClure states that at the expense of several thousand dollars he is going to put audible pictures in Littlefield that will be the equal of that found in any of the larger towns of West Texas. It will probably be within the coming 60 days that the first talkie picture will be shown.

## HOWELL GINS THE FIRST BALE COTTON AT ENOCHS

The Enochs gin turned out the first bale of cotton for this season last Tuesday, it being produced by J. E. Lynn, residing about eight miles east of Enochs.

The bale was bought by G. P. Howell, who paid 20 cents per pound for it. The Enochs Gin Co., also gave a premium of \$50.00, and a sack of flour was donated by the Enochs merchant.

Then Enochs Gin Co. have recently installed a cold starter type of the Fairbanks-Morse engine, 120 h. p. capacity to propel their machinery and report the new motive power to be functioning perfectly. There were 1,241 bales of cotton ginned at Enochs last year, and it is expected that there will be 2,000 ginned this year.

Other crops in that section are also reported to be good.

### KILLED BY TRAIN

Carl Alton Barnett born April 22, 1909, died Sept. 12 as results of trying to catch a freight train. He died in Elk City, Oklahoma. The funeral was held in Littlefield, September 14, with Rev. Roy A. Kemp, officiating. Hammons Brothers had charge of the funeral arrangements.

Three Chicago women found Geo. Ryan robbing their home and marched him to the police station.

### Football Star

William A. Glasgow, football star of the University of Iowa, who will lead the Hawkeyes. He earns his way through school by managing a dance-hall in Iowa City.

## LITTLEFIELD COLLEGE WITH EXPERIENCED FACULTY OF HIGHLY TRAINED TEACHERS OPENED FALL SEMESTER ON LAST TUESDAY

Littlefield College opened last Tuesday with an encouraging enrollment, and other students are constantly arriving by train and auto. The institution reorganized very largely on a firmer foundation, with mostly a new faculty, additional courses and new policies, gives every indication of a rapidly growing concern.

Commenting upon the outlook of the college, President R. F. Duckworth said:

"Our faculty and departments have been approved by the Examiner of the State Department of Education, and our high school and college department credits are assured. All our teachers are experienced degree instructors, insuring the very best of instruction along modern methods. We are glad to welcome the young people from all over the state feeling confident we can give them an education which will be of the highest possible value in equipment for life's great work."

Speaking of the ideals and purpose

of the institution, Mr. Duckworth said: "The great need of the world has always been, is now, and will continue to be, qualified leaders; leaders of thought; leaders of development; leaders of clean, honest, upright, broad-minded activities. Honesty, integrity, and unselfish service when found in men and women of natural ability and education make of them qualified leaders in their respective spheres."

"Parents who have such ambitions for their children who are instilling into their minds and hearts the great

(Continued on last page)

### BUSINESS HOUSES CLOSE FOR FT. WORTH BALL GAME

Practically all business houses in Littlefield will be closed Wednesday, September 25, from 3:00 unto 5:30 p. m. on account of the baseball game to be played here on that day between the Fort Worth and Littlefield Cats.

Everyone is urged to attend the game.

### Calf Show to Be One Of Trades Day Features

Arrangements have been made to hold a Calf show next Trades Day in Littlefield.

There will be three classes; calves up to 4 months old, calves from 4 to 8 months, and calves from 8 to not over 12 months.

Cash prizes of \$3.00 for first place and \$2.00 for second place in all three classes and a \$5.00 prize for grand prize calf will be given.

This show will be for dairy class calves only, and will be judged by County Agent Adam. Good pen room will be provided and the Chamber of Commerce is expecting 25 or 30 entries. All calves entered must be in the show ring by 1:00 o'clock and judging will begin promptly at 2.00.

No distinction will be made between grade calves and registered calves, so if one has a good grade calf bring it in. It may win first place.

Notify the Secretary of the Chamber of Commerce a few days ahead if

possible, but if you can not do this bring your calf right on in.

### High School Classes Organized and Ready For Year's Hard Work

Senior Class met and organized Sept. 5, as follows:

Doe Phipps, president.  
Lorena Joseph, vice-president.  
Pauline Courtney, secretary.  
Fern Thornton, reporter.  
Mrs. Pat Boone, sponsor.

The class will order their rings soon. The Junior class met last Friday and elected officers for this term as follows:

J. T. Allen, president.  
Max Stansell, vice-president.  
Norfleet Gillette, secretary.  
Ima Jewell Love, treasurer.  
Mrs. M. W. Etter, Sponsor.

Dorothy Harrison, reporter.  
The Sophomore class organization is as follows:

C. L. Harless, president.  
Irene Hobbs, vice-president.

Prudence Courtney, secretary.  
Katie Ratliff, reporter.  
Fleta Eagan, treasurer.  
Miss Ruth McKee, sponsor.  
The Freshman class organization is as follows:  
Richard Herring, president.  
Matt Hendrix, vice-president.  
Estell McNutt, secretary.  
A. C. Tremain, treasurer.  
R. A. Box, Sponsor.

### NEW MEMBERS ADDED TO THE CHAMBER OF COMMERCE

Three new members were enrolled in the Chamber of Commerce Tuesday at the luncheon meeting, W. M. Fink and Ed L. Nixon, new dry goods men and Rev. Joe Grizzle, pastor of the Baptist church. Each of the three in short speeches expressed their confidence in the future of Littlefield.

Mr. Gastinel, chef of the Littlefield college, made a talk pledging the cooperation of the College to the Chamber of Commerce and to the city, and invited the public to visit his cafeteria at any time.

Plans were launched toward establishing a creamery at Littlefield and questionnaires will be mailed out to all patrons on the rural routes asking for data to furnish parties interested in establishing a creamery here. These cards will ask number of acres in cultivation, number of dairy cows, number of hens, number of hogs and several other questions of importance to the Chamber of Commerce.

The one vote against Texas, annexation to the United States was that of Robert Bache of Houston, kinsman of Benjamin Franklin.

Dismantling of several plants in California and building of several in Texas during 1928 put Texas first in number of oil refineries in the United States.

## OUR OPENING ANNOUNCEMENT

# Outperforming all other low-priced sixes

at lower cost than ever

Not only is the Pontiac Big Six outperforming all other low-priced sixes. But, in addition, it is providing this unrivaled performance with amazing economy.

During 1928, a large public utilities corporation operated 996 automobiles of 33 different makes. And according to its own accurately recorded cost figures, its Pontiacs cost one cent less per mile to operate than any other low-priced six in the field at that time. Yet even that great record of economy is being surpassed by the Pontiac Big Six because of a number of refinements and advancements which this latest Pontiac includes. Even with all its big car qualities—even with its big car power, pick-up and speed—the Pontiac Big Six offers you an actual dollars-and-cents saving. It gives you more of everything you want in an automobile. And does it—if you equal the average annual travel of 10,000 miles—at a saving of \$100 or more per year.

## PONTIAC BIG SIX

PRODUCT OF GENERAL MOTORS

at \$745

**FASTER** Today's Pontiac Big Six offers the highest top speed and the fastest acceleration to be found in any low-priced six. Proved by the "fifth wheel"—the most accurate speed measuring device known to automotive engineers.

**SMOOTHER** Because of the Harmonic Balancer which eliminates torsional crankshaft vibration—full pressure oiling which assures correct engine lubrication at any speed—crankcase ventilation which maintains the quality of engine oil—and many additional features.

**MORE POWERFUL** Sixty brake horsepower at 3,000 revolutions per minute. The greatest power offered by any car as low in price as Pontiac... developed at the moderate engine speed which assures dependability.

**SAFER** Because it carries two completely independent braking systems—internal-expanding four-wheel service brakes with non-squeak linings and a separate emergency brake acting on the transmission—because its bodies are of sturdy hardwood and steel construction—because it has full tread axles, front and rear.

**MORE RELIABLE** Because of its basic design, which includes moderate engine speed for any given road speed. Because of its greater smoothness which results in less wear and tear on mechanical parts. Because of the generous dimensions characteristic of all parts subject to stresses.

**LONGER-LIVED** Every Pontiac since the first has been famous for endurance and long life. And those features of design which gave early Pontiacs their unprecedented long life have been retained and emphasized in this greatest of all Pontiacs—today's Pontiac Big Six.

f. o. b. Pontiac, Mich.  
Five-Passenger 2-Door Sedan  
Body by Fisher

The Pontiac Big Six is available today in a vast variety of the season's most popular shades of color, enhancing the style and beauty of its fine bodies. If you want to be sure of getting most for your money, come in to see and drive this car before you buy anything within \$300 its price. When you come to see it bring your present car for our liberal appraisal. Let us show you how easily you can own and enjoy a new Pontiac Big Six!

Pontiac Big Six, \$745 to \$895. f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spare covers and Looney shock absorbers rear equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the (f. o. b.) price when comparing automobiles... Oakland-Pontiac delivered prices include authorized charges for freight and delivery and the charge for any additional accessories financing desired.

## THRIFT GIVES OPPORTUNITY FOR SELF ADVANCEMENT IN CAPITAL INVESTMENT

By S. W. STRAUSS, President  
American Society for Thrift

"I have an excellent opportunity to go into business for myself but I cannot take advantage of this because I do not have enough money saved up to use as my share of the initial capital."

How often such expressions as this are heard. The world seems full of opportunities but it is usually the thrifty who can take advantage of them. A few hundred dollars laid away in the bank or safely invested often has meant the turning point in the life of many a man or woman.

One of the greatest values in saving money lies in the fact that our savings often constitute opportunities for enlarged activities and more successful employment of our time. Disraeli said, "The greatest secret of success in life is to be ready when your opportunity comes."

To those who are drifting along from day to day without getting ahead and apparently are making no effort to do so, this advice should come with special force.

Money should not be saved merely with the object of being ready for some great opportunity in life, but we should not forget that without sav-

ing and getting ahead there will never be opportunity for any material progress.

It also is to be borne in mind that opportunities for great self-advancement often come to those who, because of their thrifty habits, have gained the good will and confidence of some person who is in a position greatly to advance their interests.

### SUNDAY SCHOOL CLASS PARTY AT THE HOME OF MRS. SEALE

Mrs. L. W. Jordan's Sunday school class of the First Baptist church, was delightfully entertained with a party in the lovely home of Mrs. Mid Seale last Friday afternoon.

Games of much interest, under the direction of Mrs. R. E. McCaskill were greatly enjoyed by all present, one in particular, in which each lady represented a feminine Biblical character, later on in the afternoon relating something of her former life.

Delicious refreshments were served to the following: Mesdames R. E. McCaskill, L. E. Howard, Joe Grizzle, Theo. Parker, J. A. Fortenberry, G. L. Collard, J. L. Pate, J. H. Lucas, L. H. Smith, Bill Gilliland, J. R. Coen, C. O. Griffin, F. O. Boles, Pryor Hammons, W. H. Badger, L. Wells Smith,

R. C. Grissom, Zack Isabell, Carl Doss, W. T. Morgan, H. J. Gibbs, J. H. Hardberger, Jesse Seale, L. W. Jordan, O. E. Key and Mrs. Mid Seale.

This was the first social extended the class since the new organization, but from the rapid progress for further entertainment which the Social Chairman, Mrs. Humphries, has booked in advance, it is assured the

**City conveniences on the farm**

Running water piped to farm kitchens and bathrooms means that the liquid wastes must be piped out to a place of safe disposal. Build a concrete septic tank to handle these dangerous wastes safely. Costs nothing to operate—requires no attention.

## County Agent Adam Proves Benefit Smut Treatment for Wheat

Under the direction of County Agent D. A. Adam, the 4-H clubs, and the county agent have held a number of demonstrations in the use of copper carbonate as a smut control in wheat and grain sorghums. Smut last year cost Lamb county farmers something over \$64,000, and in an effort to reduce this amount the county agent conducted this campaign. The result of this was that about 15 demonstrations were held by the 4-H clubs under the direction of the county agent, and a total of 13,000 pounds of grain sorghum seeds were treated.

In checking up on some of these demonstrations, it has been found that where properly treated there is not one single head of smut, where last year there was from 5 per cent to 20 per cent loss on account of smut. Untreated check plots have practically the same amount of loss as before. Final results will be had in a few weeks.

Farmers planting wheat now should by all means treat seed for smut as the cost is so small, and the advantage so great. Copper carbonate is a dust treatment, and three ounces of this should be added to the bushel of seed in an air tight drum or something nearly so, such as an old milk can, a barrel prepared for that purpose, carbide can or otherwise. These should be revolved until each seed in the bushel is covered with the dust, and only a few revolutions sometimes will do the work. Copper carbonate can be obtained from most of the drug stores or seed concerns.

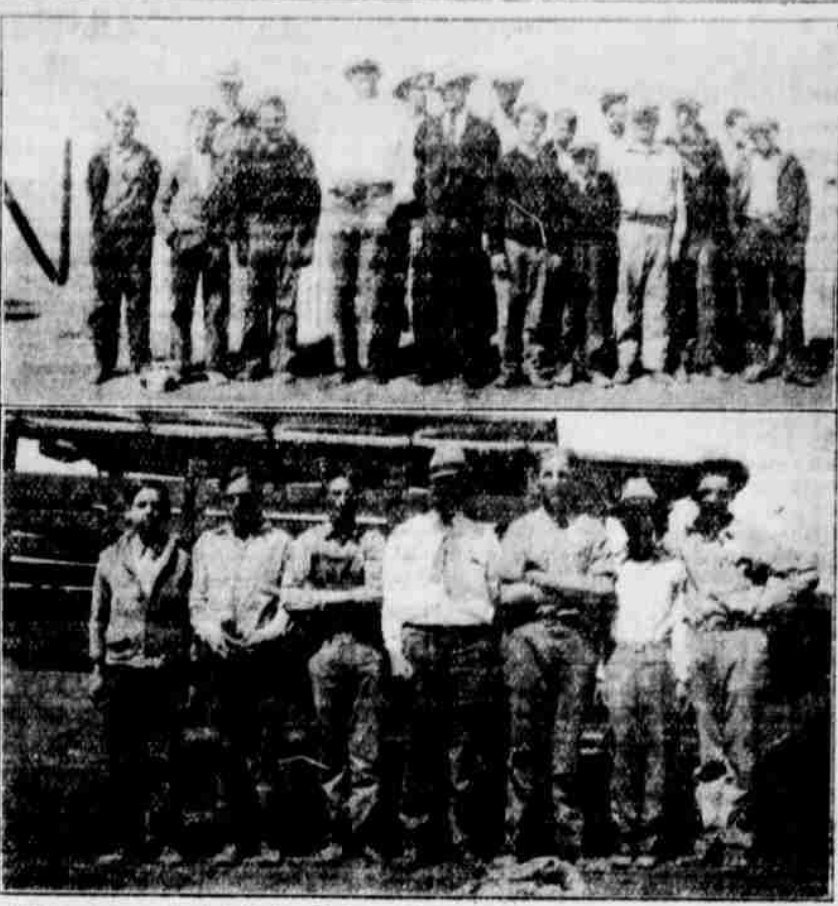

### TO ORGANIZE BIBLE CLASS

Next Sunday evening the Young Peoples Bible class of the Lutheran church will be reorganized. All strangers wishing to join will be made more than welcome.

H. Timian is the president of the body and will gladly introduce any new members.

The young people will also hold their monthly meeting at the parsonage on the fourth Friday of this month.

The refreshment committee consists of Miss Ellen Lichte, Miss Ester Mich-

Top picture, Spring Lake Club, with Mr. Pool in the center as adult leader. Bottom picture, Fieldton smut control team of 4-H club with County Agent D. A. Adam in the center.

link, and Mrs. W. Luecke. The entertainment committee consists of the following: Walter Timian, Herman Timian, and W. Luecke. The program will be announced later.

### LAMB CO DEMONSTRATION AGENT BEGINS HERE FRI.

Miss Ruby Mashburn, recently appointed home demonstration agent for Lamb County, will begin her work here next Friday.

Lamb County has been on the waiting list for a demonstration agent for the past three years, but it was not until about six months ago that Miss Myrtle Murray, district agent could give the Commissioners of this county any assurance of an appointee.

The work to be done will supplement and be of large assistance to the very efficient work now being carried on by County Agent D. A. Adam.

Farm timber in thirty-four East and Northeast Texas counties brought its owners \$6,192,000 in 1928, according to State Forester E. O. Sieck.

### IF FUSE BLOWS OUT

If a fuse blows out and you have neglected to provide yourself with an extra one, wrap a piece of tinfoil around the blown-out member. It will work that way for a while—but get a new fuse as soon as possible. A package of cigarettes, a bar of chocolate or a cake of yeast will furnish the tinfoil.

### WATCH NEW ENGINE

When an engine is new and stiff it heats up more rapidly than when it is thoroughly broken in. Therefore, watch the water in the radiator, and the oil in the crankcase, when you drive the 1929 model for which you traded Old Faithful.

### HOW TO SAVE GAS

Under-inflation of tires materially increases the consumption of gas and oil. Soft tires impart a rolling motion to the car that makes resistance for the engine to overcome. Therefore it needs more fuel and lubrication.

# LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.  
Subscription: \$1.50 per year; 75 cents for six months.  
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

## COURTESY ON THE ROAD

As everyone knows, many auto accidents can be traced to drivers who fail to show courtesy toward others. Many drivers are as courteous on the road as they would be to a stranger in their home, but there are others who either do not know or who forget every rule of courtesy while they are lack of a steering wheel. The latter constitute a nuisance and a menace to traffic.

If we are to reduce accidents, improvement must be in the drivers, and not in the cars. A few simple precautions will prevent a majority of such accidents as are now of common occurrence, and we give them here in the hope that every car owner around Littlefield will keep them in mind and constantly practice them:

Drive promptly and carefully; learn and observe the rules of the road; respect the rights of others; show the same courtesy on the road as in the home or place of business; drive straight ahead without zigzag; signal when drawing away from the curb; proceed slowly at all grade or street crossings that are not protected; anticipate accidents and keep measure of safety in reserve against unexpected emergencies; avoid passing other cars on hills and at turns in the road; always keep to the right, particularly as you near the top of a grade and when making turns. Follow these rules wherever you are—be courteous and fair with the other driver—and you'll find accidents so greatly reduced in the community that you'll wonder why everybody hadn't thought to follow them in the first place.

## THE WORLD SERIES

Again we are confronted with the phenomena of the World Series. No game ever before has held the undivided attention of an entire nation

for so long a period. From 1884, when Providence won laurels as the World Series winner, right up to 1928 when the crown went to New York, interest has been intense in every corner of the land. And now everyone is asking: What team will bring home the bacon in 1929? Philadelphia? Chicago?

Since the inauguration of the World Series, many things have happened to captivate the fancy of a curious world. Radio, the modern miracle. The development of aviation. The epic-making flight of Lindbergh and the astounding feat of the Graf Zeppelin. The growth of the motion picture and the invention of the "talkies."

There are a thousand more things to do than there were in the old days. And so perhaps many of the old diversions are being forgotten. But one thing has an eternal charm. Baseball will never lose its place in the affections of the multitude. The World Series of 1929 is looked forward to as eagerly as was the World Series of 1909. Other things may change—but the heart of the American is still the heart of a boy who knows that one of the most important things in the world is to keep right on playing.

No, Sir! Nothing's going to distract us from the World Series! Even if we can't attend it, we can read about it, and we can see the big game between the Ft. Worth and Littlefield Cats to be played here next Wednesday.

## WORTH REMEMBERING

The Littlefield boy accustomed to bemoaning what he declares is a lack of opportunities in his home town and whose ever-ready answer seems to be "What's the use?" might profit by keeping in mind the case of an Illinois boy of years gone by, in a day when opportunities really were scarce.

He ran for the Legislature and was beaten. He next entered business, failed and spent several years paying off the debts of a worthless partner.

He became engaged to a beautiful girl—she died. He ran for congress and was beaten. He tried to get a federal appointment and failed. He became a candidate for the U. S. Senate and was beaten. Then he became a candidate for vice-president, and once more was defeated.

But not once did anyone hear him ask "What's the use?" He came up smiling after every setback, and then one day his luck changed. He was nominated for president of the U. S.—and won. The young man's name was Lincoln, and he, too, was a product of the farm and the small town.

## WATCH THE SKIES

An invitation is hereby issued to residents of Littlefield and nearby territory to watch for what may develop into the greatest display of meteors and shooting stars seen in many years.

Dr. Oliver, of the University of Pennsylvania, says there will be aerial fireworks from now on to the close of the year, the meteor swarms which come every 33 years being now due. For centuries they have furnished a shower like rain. They missed the earth in 1888, but astronomers believe the earth is near enough to the edges of the swarm of shooting stars to make them plainly visible this time. They also believe that we may witness sometime during the month of November a shower of meteors that will almost turn night into day.

So keep your eyes on the skies, and especially if you are up the latter part of the night, as such sky displays are always most plainly seen after midnight. But turn your eyes upward during the evening hours, where ever you are. You may see a display that will well reward you for remembering to do so.

## QUIRKS OF LAW

The ins and outs of criminal law are beyond the comprehension of the average man, and perhaps that is responsible for the average man's growing distrust of the courts.

Al Capone, Chicago gunman, was arrested a few months ago in Philadelphia for carrying concealed weapons. He promptly pleaded guilty and was sent to jail, where he now is. But the other day his lawyers filed a brief in a Philadelphia court seeking his release on the grounds that his trial was "prejudiced."

This may all be very clear to the lawyers. But where is the average man who isn't wondering how in the name of all that is good and great his trial could be "prejudiced" when he pleaded guilty to a crime without going through the formality of a trial?

It is such things as this that breed disrespect for law and lead many to believe that money will get them off in any court, regardless of the charge.

## PAVEMENT PICKUPS

Rev. Joe Grizzle says that since we got the radio and loud speaker we can do away with that song called "Silent Night."

"Blessed are the poor," asserts Prof. Chisholm. "They can go to jail without being worried by the photographers."

"If you started in to make a list of the 10 smartest men in the world," asks John Pope, "who would you put in as the other nine?"

Hamburger Shorty says that some girls' idea about being helpful around the house is to run the radio while mother runs the washing machine.

After all, no matter how big a man he may be, there is some virtue in having a commercial secretary that will grow with a town.

Johnny Smith has gone away. For him death had no terrors. He lived a calm and peaceful life. No hits, no runs, no errors.

Prof. Boles registering young hopeful entering school for the first time: "What the names of your parents?" Hopeful: "Papa and Mama."

Last week Louis Condra received a letter from a lady stating, "I have used three jars of your vanishing cream on my corns and they are just as large as ever."

An Irishman turning away from the money order window of the Littlefield post office the other day remarked to his friend, "This is sure some fine town, Pat. You can buy a foive dollar money order an' get a squint at a good lookin' gurl fur only three cints."

Mitch Stokes wants to know if, when a fellow gets to be a city commissioner, president of a school board, manager of a leading corporation, leading deacon of a prominent church president of prominent social organization and a few other important things, if he shouldn't be called the Mussolini of that town.

## LITTLE LEADERS

Our idea of an old-timer is the Littlefield man who can remember when the farmers had so much money that they would make a trip to town once in awhile to buy gold bricks.

You can always bet that the Littlefield girl with a good figure will choose the seashore instead of the mountains for her vacation.

In the old days Littlefield children heard fairy stories before going to bed but now they listen to bigger ones over the radio.

When a Littlefield man tells you how much he likes you look for a motive. When a girl tells you how much she likes you look for a house.

The Littlefield man who wants a lot of time to himself can get it by becoming a grouch.

The old-fashioned Littlefield wife used to ask her husband to button up her back. The modern one asks him to powder hers.

With automobiles and airplanes everywhere, even the humblest Littlefield citizen has his choice in the matter of death.

A Littlefield woman may make her husband attend a party but she can't make him look happy after he gets there.

The most disappointed Littlefield man we ever heard of was the one who figured on living with his wife's folks only to find out after the marriage that his wife's folks were still living with theirs.

Deaths this year have reduced the number of titled Canadians to 47, and there are now only five hereditary titles in the Dominion.

**Grinds any Feed at Low Cost**

A W-W Feed Grinder grinds and mixes everything from the ground up, with lightning speed—separately or together. Turns fodder, alfalfa, maize heads, snapped or ear corn, oats, bundle feeds, etc., into valuable mixed, balanced feed that goes a third further. And the W-W does every grinding job at low cost!

**W-W FEED GRINDER**

By grinding and mixing all your feed crops, from the ground up, you utilize that 35 per cent of the feed usually wasted in stalks and stems. Your livestock eat it all when ground the W-W way—and it is all better for them.

In fifteen years of actual service on thousands of farms the W-W has proved to be the world's outstanding feed grinder. No burrs, gears or knives to work loose or give trouble. Powerful RIGID hammers do the work.

**Come In**  
and let us show you more about this outstanding grinder. See how it is built for years of service—with Timken Tapered Bearings, Alcmite Lubrication and Rockwood Pulleys. Self-feeder can be furnished—Blower or Elevator equipment. Nine different sizes.

We will also demonstrate the W-W on your own farm with your own feed and your own power.

ON THE HEREINBELOW MENTIONED  
PORTIONS OF STREETS IN THE CITY OF  
LITTLEFIELD, TEXAS, AND TO ALL OWNING OR  
CLAIMING ANY INTEREST IN ANY SUCH  
PROPERTY:

The Governing Body of the City of Littlefield, Texas, has ordered that the hereinbelow mentioned portions of streets be improved by raising, grading and filling, and installing concrete curbs and gutters where adequate curbs and gutters are not now installed on proper grade and line, and paving with Reinforced Concrete Pavement, and contract has been made and entered into with the Dozier Construction Company for the making and construction of such improvements. Estimate of the cost of such improvements for said streets has been prepared. The portions of said streets to be improved, together with the estimated cost of the improvements and the amount or amounts per front foot proposed to be assessed against the abutting property and owners thereof on said portions of streets are as follows:

**DISTRICT NO. 11**  
On the State Highway No. 7 from its intersection with a line 1500 feet northwest of the centerline of Phelps Avenue to its intersection with a line 1100 feet southeast of the centerline of Phelps Avenue, the estimated cost of improvement is \$40,851.17; the estimated amount per front foot to be assessed for curb is \$0.64; the estimated amount per front foot to be assessed for improvements exclusive of curb is \$4.7645; the total estimated amount per front foot to be assessed is \$5.4045.

A hearing will be given and held by and before the Governing Body of the City of Littlefield, Texas, on the 20th day of September, 1929, at 2:00 o'clock, P. M., in the City Hall in the City of Littlefield, Texas, to all owning or claiming any property abutting upon said portions of streets, and to all owning or claiming any interest in any such property. At said time and place all owning or claiming any such abutting property, or any interest therein, shall be and appear and

**THE UNDER DOLLAR CHECK IS LEGAL BUT IS NOT APPRECIATED BY BANKS OR BUSINESS**

The business man who has to take a \$1.00 check in payment of a 35 cent account, giving the checker back 65 cents in cash plus the accommodation, is not the only one who doesn't like small checks. Bankers don't either.

There is a common belief that it is illegal to write a check under \$1.00; but such is not the case. However, the under the dollar check is not welcomed anywhere in business circles. Occasionally a business man would miss a small sale if he refused to accept one and pay the difference, yet there are some concerns right here in Littlefield who do refuse to accept them, and it would not be a bad rule if all business houses would enter into a common agreement to that effect. "Cold" checks are not uncommon in this section, and the fellow who cashes a dollar check on a 35 cent sale may also run a chance of losing 65 cents of his hard earned cash besides the value of the article sold.

A check is an order to the bank to pay the holder a certain sum of money which has been placed on deposit there by that individual. If the depositor chooses to write an order for only a nickel or a dime, the bank promptly pays it as a matter of service—and service is one thing in which banks specialize, though it costs much money. There is but one bank in Littlefield, yet it is a fact that this one institution pays out more than \$200.00 every month for service alone, not one cent of which is returnable in direct profit of any kind. Hundreds of checks for less than \$1.00 are handled by this bank every month. There are numerous small accounts cared for by their bookkeepers which are a dead expense to handle, hundreds of blank checks distributed throughout business houses in the town are used as scratch pads and for a thousand and one purposes other than writing out orders to the bank, and a dozen or more other incidental expenses every month necessary to running a bank are incurred and for which the institution pays out money accruing from other sources.

It is the custom of most banks now days to institute a service charge where deposit accounts are smaller

will be fully heard concerning said improvements, the cost thereof, the amounts to be assessed therefor, the benefits to the respective parcels of abutting property by means of the improvements on said streets, and concerning the regularity, validity, and sufficiency of the contract for, and all proceedings relating to, such improvements and proposed assessments therefor, and concerning any matter as to which they are entitled to hearing under the law in force in the City, and under the proceedings of the City with reference to said matters. Following such hearing assessments will be levied against abutting property and owner thereof, and such assessments, when levied, shall be a personal liability of the owners of such property and a first and prior lien upon the property as provided by the law in force in the City and under which the proceedings are taken, being the Act passed at the First Called Session of the 40th Legislature of the State of Texas, and known as Senate Bill 68.

Of all said matters and things, all owning or claiming any such property or interest therein, as well as all others in any wise interested or affected, will take notice.  
Done by order of the City Commission of the City of Littlefield, Texas, this 3rd day of September, 1929.  
W. G. STREET, City Secretary,  
City of Littlefield, Texas.  
Sept 5, 12, 19, 1929.

than \$50.00 per month, because it costs proportionally as much to handle a \$50.00 account as it does a \$500.00 one, yet this bank continues handling the small accounts in an accommodation manner. Many banks charge exchange for cashing out of town checks and drafts, yet the Littlefield bank handles these for its regular customers without charge to them. While a bank is a money-making institution the same as any other legitimate business concern, yet it is also a money-saving institution for its fellow business men, and should be appreciated as such.

However the under-the-dollar check is never appreciated by anyone, and should be eliminated as much as possible.

**SOME SNAP SHOTS**

It seems that the hardest part about conquering the air is to make it stay licked.

The reason some firms employ such dumb looking salesmen is to let the customers think they are getting the best of the bargain.

Those young fellows who took June brides are learning by now that it is the upkeep and not the original cost that is hardest.

Skeletons are on the free list in the new tariff bill, as every family has one which it would gladly give away.

The way they continue to argue over war debts, it seems that war is still another thing that you can buy on the installment plan.

It has about reached the point in this country where it is as hard to live within your income as it is to live without one.

There is a theory that only young men with brains should go to college but if it was enforced a lot of college boarding house keepers would starve to death.

In some states they're bootlegging gasoline. If bootleg gas is as bad as bootleg whiskey it will probably cause auto-intoxication.

The reason bathing suits don't seem immodest on the beach is because an orchard full of peaches isn't as appetizing as a single peach.

About all you can say for a long vacation is that you meet a new group of bill collectors.

Miss Josephine McKim, who was crowned as the mermaid of America at the recent swimming meet held in Hawaii. The friendship garlands of the islands, or leis, are shown around her neck.

**Sir Hubert Wilkins and His Bride**

Sir Hubert Wilkins, noted arctic explorer, and one of the passengers on the Zeppelin flight around the world, with his bride of a few days, Suzanne Bennet, Australian actress, pictured at the 1929 national air races at Cleveland.

**REMARKABLE STALK OF CORN**

Windsor, N. C.—John T. Smith seems to have the corn-producing record for good as far as one stalk is concerned. The stalk was fourteen feet tall and contained eight ears of corn. The lower trunk measured two inches in diameter and one's fingernails and thumb barely could meet around it.

Valley Forge, Pa.—The Hole-in-One Club now has a 9-year-old member. He is Sidney Coitart, brother of the University of Pennsylvania golf team captain, who at his extremely early age has already achieved a hole in one.

Evelyn Foltz, of Enid, Okla., after being speechless for 18 months, awoke one morning to find that she could talk again.

## POULTRY

SMALL PROFIT IN GROWING CAPONS

The margin of profit in growing capons as compared to selling the male birds as broilers is usually small, according to experiments conducted at the poultry department of the State College of Agriculture at Ithaca, N. Y. Feed appears to be the item of greatest cost in raising capons, and this increases rapidly after the birds reach the broiler stage. It requires about eight to ten pounds of grain and mash for one pound of gain in live weight, and capons of American varieties gain six to eight pounds in about as many months after they are caponized.

Feeding, housing, marketing and labor costs are often so large that they more than offset the increase in price received for them. Low feed costs and high meat prices may make the business profitable for some sections. However, in the Middle West, where feed is usually cheaper than in New York state, experiments and figures indicate that capons are not nearly as profitable as laying pullets.

The poultrymen at the college say that it usually is more profitable to market surplus males as broilers than as capons. But, if males must be held several months for special trade, caponizing may be advisable and often is desirable because it is easier and more convenient to keep them and the meat will bring a higher price.

Mrs. Edith Carlson of Chicago, arrived on the scene just in time to prevent her husband's marriage to Miss May Roake.

 LITTLEFIELD, TEXAS

## STRANGE PARADOX OF WOMEN'S BAGGAGE REVEALS LESS THEY WEAR MORE THEY NEED

Henry Clay Pumphrey, chief officiating functionary of the Santa Fe system in Littlefield, and Generalissimo Director de facto of the baggage department of John S. F.'s railroad had, with the assistance of his first lieutenant of the hustling department, just finished lifting a heavy wardrobe trunk onto the platform scales, when he turned to this Leader representative, and, while wiping the sweat from his perspiring brow, said: "Seems like the less women wear now days the more they have to have."

Some such statement as that was to be expected from Clay, because he is not only a close observer of things in general, but during the years he has been ambassador for John S. F. in Littlefield has had abundant experience in the matter of dispatching both the females and their clothes over this popular system of travel.

"Tell me," continued the local agent, "newspaper men are supposed to know about everything—what in the devil do these women put in these big modern trunks that sometimes weigh as much as 200 pounds each, and then clutter up the aisles with bags, boxes and suitcases? Why, I remember, and it hasn't been so many years ago either, that folks used to get the old iron bound trunk out of the closet or store room, and when it was packed it contained all the clothes needed for an average family, and that was in the days of long dresses with plenty of flounces, mutton leg sleeves, bustles, ostrich plumes, etc. But now days when a little postal scale or a pair of apothecary's balances is sufficient to appraise the weight of the average woman's wearing apparel, two trunks are invariably the minimum if they are going to be away from home any length of time—and one of them is almost sure to be in

excess of the weight allowed by the railroad ticket as free baggage." The agent then explained that 150 pounds of baggage was allowed for each single ticket and 350 pounds allowed if a passport for oceanic travel is displayed when the ticket is purchased.

"On the other hand," continued Pumphrey, "men's clothes weigh several times as much as women's, but they seldom have more than one trunk and that is generally well within the weight limit. Of course, there are some women who don't know how much baggage they are entitled to carry on their ticket, but there are occasional instances where it seems they try to get by with all they can, and when their attention is called to the matter of overweight some of them become quite indignant."

Investigation proves that practically every railroad agent has about the same experiences each year, especially during the periods of summer vacation travel and when the young folks are going off to college. There seems to be an unaccountable psychology among adult women that when they begin packing for an extended trip they feel as tho they must take along everything from their wedding silver to their first baby's shoes. Umbrellas, electric fans and irons are sandwiched in between other things that are absolutely necessary. There is a long list of beauty preparations, a bunch of books, portable typewriter and phonograph—all considered necessary now days. And then after they have boarded the train, they probably don't go more than 50 or 100 miles before they wire back to friend hubby: "Bird seed on left top pantry shelf, please send my pajamas next mail."

Kwit-herbelliak and smile.

## THE LUTHERAN PAROCHIAL SCHOOL STARTS NEW TERM

The Lutheran church of this city has since last year opened a parochial school. The enrollment, naturally for a new enterprise is small, numbering only 24 children. This school, of course, seeks to give the children of the congregation, not only the regular branches of the public schools, but also a Christian training in faith as well as morals.

The object is not that the Lutherans are not to support the public schools, nor that they think they are not good and serving their intended purpose; but they feel that their children have the right to, and the parents a duty to give them also a Christian training. The school is also open to the public in general. Several children of non-Lutheran families now attending, and they are welcome as well as others

who may desire to attend at a later time, according to Pastor. W. J. Luecke.

COOPER BUILDING LITTLEFIELD, TEXAS

### —so Delightful to Drive!

The Chevrolet Six delivers its power with that smooth, even, velvety flow which characterizes the truly fine automobile! At every speed, you travel without the slightest annoyance from vibration or rumble. Equally delightful are the comfort and handling ease. Four long semi-elliptic shock absorber springs, set parallel to the frame, provide the road balance found in the finest cars. The steering gear is equipped throughout with friction-free ball bearings. And the big non-locking 4-wheel brakes are quiet, positive and unusually easy to apply. Only a demonstration can reveal how delightful it is to drive this amazing car!

### —so Durable and Dependable!

In order to appreciate the value of the new Chevrolet, it is necessary to remember what a really fine Six it is. Its design represents more than four years' development and testing. Materials are carefully selected from the finest available sources of supply. Highly skilled workmen perform every manufacturing operation. And inspection is rigorous and continuous, from raw material to finished product. The result is quality so high that you can confidently look forward to thousands upon thousands of care-free, dependable miles!

### —so Economical to Own!

Many people still do not appreciate how little it costs to own a Chevrolet Six. The Chevrolet Coach, for instance, with its beautiful Body by Fisher, is priced at \$595, f. o. b. factory, Flint, Michigan—with only the most reasonable charges for handling and financing. You can actually secure a Chevrolet Six for practically the same down payment and low monthly charges you would expect to pay for any low-priced car. In addition, the Chevrolet Six delivers better than 20 miles to the gallon of gasoline, with unusually low oil consumption! And Authorized Chevrolet Service is available everywhere on a low flat-rate basis, with extremely low-priced replacement parts. Come in to-day for a demonstration.

The Big Feature Attraction of  
The Tri-State Fair at Amarillo

Hey! Skinny, Circus Coming.  
Youngsters today were able to proclaim to their companions that within two weeks the Hagenbeck-Wallace Circus, the highest class circus on earth, would make its appearance in Amarillo, Texas, giving afternoon and night performances. The exact dates will be Sept. 23 to 28, according to the highly colorful posters that will be distributed by members of the Hagenbeck-Wallace advance forces.  
Circus Day is one of the events of the year for Young America, as well as the majority of their elders. It is an old saying "We are going to the circus just to take little Willie and Dorothy" but circus statisticians have discovered that practically 15 per cent of those that attend enter on adult tickets. So the circus really attracts the old folks, as well as the young.  
Hagenbeck-Wallace is the only big show scheduled in this territory this coming year.  
Don't fail to see this big circus at the Tri-State Fair at Amarillo. The gates to the fair will be free again this year.

### John Coolidge to Wed Florence Trumbull

Florence Trumbull, daughter of the Governor of Connecticut, with her fiance John Coolidge, son of the former president, who are to be married at Plainville, Ct., on Sept. 23. Also shown is the Rev. Kenneth Willes of Albany who will perform the ceremony at the Plainville Congregational Church.

### CONGRATULATIONS, JOHN AND FLORENCE!

When John Coolidge and Florence Trumbull will be united in the bonds of matrimony on September 23 at the simple Plainville, Conn., Congregational Church, the good wishes and love of a nation will speed them on their journey over the matrimonial seas.

Think of it! Here is the son of one of the most distinguished presidents of the United States—and the daughter of the Governor of a great state—setting out on a life together that will be compounded of mutual affection mutual thrift, mutual work.

No frills—no grand gala wedding—no life of ease and luxury for them. John Coolidge is his father's son—he believes in doing his bit in the world and living soberly and economically. While Florence Trumbull, interviewed by representatives of great newspapers, declares that she is more interested in helping her husband than in the color of her wedding gown. "If he works, why shouldn't I? Of course I will do my own housework."

A marriage entered in this spirit is sure to be productive of happiness and serve as a noble example to others.  
Congratulations, John and Florence!

### HEN MOTHERS KITTENS

Ardmore, Okla.—Susie, an old setting hen, had no eggs to sit on. Now she is a setting hen with three tiny kittens to take care of. Mehitable, the rightful mother of the new-born felines, comes around at feeding time, after which she purrs contentedly and leaves Susie to bring up her offspring.

 8:00 p. m., "Playing the Fool."  
 —ROY A. KEMP, Pastor.  
 Help keep Littlefield clean!

## POULTRY FACTS

### SELECTING BEST BREEDING STOCK

In your poultry houses dampness brings on a train of troubles. Old cobwebby places, dust, dirt and darkness are good conditions to create and perpetuate the breeding of mites. These parasites are insects that get on the birds at night and take out the life blood, leaving nothing for the layer but anemia and inclination to disease. These insects kill little chicks, pull down the vigor of the laying and breeding stock and take away the profits that you counted on.

Close, stuffy houses bring about a train of troubles to the flock. Overflow of drinking water should get quick attention by providing right drainage. All birds seem to have an aptitude for drinking from every foul puddle they see. Drinking from such places is likely to bring on disease. All fountains should be placed high enough to prevent droppings or litter being scratched in.

The fountains should be filled two or three times daily during warm weather, for the sunlight destroys the life of the fluid, and if left long enough in such condition it is positively harmful to the birds drinking from it. All water should be placed in shade. If no trees or sheds are available, one can be made by nailing three sides of a box together, then adding a top to it. Such a contrivance should be high enough to allow the birds to drink freely when the fountain is under the box.

Don't forget that moldy grain, mildewed bread, starchy corn, mildewed hay, for litter, sunburned or rotten potatoes, fermented mash and pumpkin seeds are dangerous to the health of the flock. Unslaked lime, pain killers, nitrates of soda, salt in quantity, and vessels containing any disinfectants should be kept away from the poultry yard if you want to have health reign.

### Prepare Chicken House for Fall and Winter

To prepare the poultry house for fall and winter and to keep it sanitary at all times, the following is recommended: Thoroughly clean the inside of the house removing all portable fixtures. Then spray the inside with a solution made as follows: five quarts cream lime (fresh burned lime slaked with hot water and covered while shaking), one pint of a good coal tar dip and one quart of kerosene. Dilute this mixture with an equal quantity of water and apply with a force pump or brush. The coal tar dip will kill all disease germs that it touches and the kerosene will rid the house of mites and lice.

### Poultry Specialists Give Five Good Rules

Poultry specialists at Ohio State university give five rules for poultry men to follow, if they wish to raise a large percentage of their chicks. They are as follows:

- Keep the brooder house clean and disinfected.
- Move the brooder house as often as the grass around it is killed, so that it has no poultry on it for a year.
- Provide plenty of clean, sweet litter.
- Feed a good ration containing all nutritive essentials.
- Raise chicks on range away from old stock to avoid disease and parasites.

### Poultry Squibs

The well-fed, well-housed hen certainly knows her eggs.

Sanitation in the houses and runs aids in the control of certain diseases among poultry.

Nests under the dropping boards save space, but take light from the back part of the floor. They make it impossible to observe the fowls properly, are less sanitary and make it more difficult to gather the eggs.

Live poultry sometimes shrinks as much as 17 per cent in weight while in transit to market.

Egg income constitutes 82.4 per cent of the total cash income in the light breeds and 68.8 per cent in the heavy breeds.

Many people do a lot of figuring to show the increased profit that would come by breeding birds that are heavier producers but they fail to make any additional charge for feed.

Not only is oatmeal used for poult, but at all times during the growing period and for wintering.

The average poultry man usually makes more money by marketing his surplus males as broilers than as capons.

There is nothing that will thrive in hot weather any more than lice and mites. Don't let them get a start. Keep the brood coops well cleaned and sprayed with some good lice killer or disinfectant.

### MEMORIES, THEN FAREWELL

By Doyle Berryman

We hope there are no enemies among us—  
 The classes of Littlefield High,  
 For before us we carry the name  
 Jesus,  
 And behind us we leave many a sigh.

Remember the Seniors may not be many,  
 But we are as friendly as friendly can be;  
 In our pockets there may not be a penny,  
 But we can exchange favors you see.

Classmates, we are classmates no more,  
 For our work is finished here;  
 We are soon to darken some other door,  
 And leave behind our friends so dear.

Yes, our High School career is nearing a close,  
 But our work has just begun;  
 For when to college we turn our toes,  
 And work we will have begun.

We wish to leave a word with our teachers,  
 To the teachers of Littlefield High;  
 They have done their best as teachers,  
 And we hope to meet them in that sweet by and by.

We bid farewell to our many friends,  
 A farewell to our classmates fond and true,  
 And we bid thee to serve Him who

Roaches live in colonies. If you see one you know there are many. Roaches are loathsome vermin. Prolific breeders. There are medical authorities who declare seventeen different diseases are transmitted by roaches. Roaches must be killed. Spray FLY-TOX into cracks, crevices, around water pipes, faucets and other plumbing. Simple instructions on each bottle (blue label) for killing roaches and ALL household insects. INSIST on FLY-TOX. It is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Restainless, and has a perfume-like fragrance. Easy to use.—Adv.

### AUCTIONEERING

Sell any thing, any time, any where.  
 I get you the highest possible dollar for your goods.  
 See me for dates.  
**J. W. Horn, Auctioneer**  
 Littlefield, Texas

sends,  
 The love that time cannot undo.  
 Words will not express for our class  
 How sad it is to leave you,  
 But we are soon to drink from the glass  
 The farewell to the kind and true.

I close with a heart full of sadness,  
 Which is also subject to decay,  
 But I thank God, we will share that gladness,  
 That is prepared for us over the way.

—Taken from the Wildcat.

**KEPT OUT OF THE SOUP**  
 Winston-Salem, N. C. —At the Walter Franklin farm an upland terrapin, said to be older than the United States, has been captured. In the bottom of the terrapin's shell is the mark "1774."

Chicago.—There was a picnic here of Five Hundred Tons. One Ton weighed only 12 pounds, but this was explained when it became known that June Millicent Ton was only five weeks old.

It's great to be a Texan!

# ETHYL to stop knocks

# CONOCO gasoline to give you extra miles

the greatest combination you can put in your car

**THE** amazing way in which Ethyl stops knocks and gives a steady flow of power, no matter how old or how full of carbon the motor may be, is one of the marvels of modern engineering skill. By adding "Ethyl" to a gasoline especially refined to give you extra miles in every gallon used, Conoco Ethyl offers you a motor fuel different from anything else you can put in your car. Driving economy plus the greatest of driving comforts—no need to worry about every little extra load on your motor, no need to throw her into second on every hill, no need of frequent carbon removal!

Conoco Ethyl is another example of the extra value in gasoline and motor oil which the greater Continental Oil Company is offering to motorists.

Stop at the new red triangle Conoco sign and fill up with Conoco Ethyl today. Enjoy the greatest driving pleasure you have ever known.

## LITTLEFIELD COLLEGE WITH EXPERIENCED FACULTY OPEN

(Continued from page one)

ideals of citizenship and service to humanity and to the God who made them will find that in Littlefield College these qualities will be enlarged as the education and development of the mind enables the boys and girls to see with quicker, deeper, and broader vision the great possibilities for self. When you have sent your boy and girl to us, we will endeavor to send them back to you with a healthy growth and development, and in every case shall try to keep them from getting into narrow, selfish conceptions of their duties and responsibilities. We will try to teach them so as to fit them for whatever occupation they may have in life, fit them that they may go into homes of the very poorest or unlearned and act with such consideration as to lessen or eradicate the embarrassment of their host, while at the same time we will try to develop them that they may go into the most

fastidious homes of the wealthy or educated, and act in such a way as not to embarrass their host. We will try to qualify them to press for principle, for fact, and to stand unyieldingly for well grounded, conscientious convictions without being discourteous rude or disgusting to those they would try to influence.

"Littlefield College is not in any way a religious institution. The teaching of the Bible is not its function. It is a secular institution and claims no place among religious institutions. Yet, we propose to select only teachers who will declare themselves opposed to Darwinism, organic evolution, or any form of infidelity which denies the Bible story of creation and the birth of Christ.

"We will not countenance the teaching of anything in the school room or on the playground that will cloud the mind or dull the pupil's ability to hear and follow the teaching of Divinity."

The faculty selected by Littlefield College this year is one which will doubtless do credit to the institution, and which much older and larger colleges of the senior type might well envy. They are all accredited teachers, both as to their training and experience.

R. F. Duckworth, who heads the college this year as its president is a man of large business experience and widely known throughout the state. He is also editor of the "Apostolic Way," a religious publication of the Church of Christ, has a wide connection and acquaintance with the leading men of the country in both the realms of education and statesmanship. The college would have to seek far and wide to discover a man of greater executive ability to head this new and growing institution.

E. L. Hitching, who is dean of students and teacher of mathematics, holds a B. A. degree from the East Texas State Teacher's college; has

done considerable work toward master's degree and has back 15 years experience in the room.

Sam H. Cantrell, registered teacher of economics and philosophy holds both B. A. and M. A. from the University of Texas has eight years experience as teacher.

Miss Helen V. Bell, teacher of English is an experienced teacher holds a B. A. degree from Centenary College and an M. A. degree from Vanderbilt University.

Miss Mary E. Robertson, experienced teacher, has charge of the history department. She holds both B. A. and M. A. degrees from Vanderbilt University.

Miss Maudie J. Fields experienced teacher will teach educational Spanish. She is a graduate of the University of Texas, holding both A. and M. A. degrees.

Miss Stella Strange teacher of economics and high school mathematics holds a B. S. degree from West Texas State Teachers' College.

D. L. Shelton, teaching typewriting, shorthand and bookkeeping is a graduate of Metropolitan Business College with four years experience as a typist and accountant.

Consuelo Finney, in charge of the Intermediate department, has nine years experience as a teacher and holds a B. S. degree from State Teachers' College.

Mrs. Rosa Mickey, Primary department, holds a first class state certificate from Wayland College.

Miss Vivian A. Burton, in charge of the Music department, is an experienced teacher holds a Bachelor's Music degree, and has done work at Howard Payne College, University of Arkansas and Texas Woman's College.

Miss Nova Austin in charge of the Physical Education department, has also had six years experience in her department.

## YELLOW HOUSE LAND CO

WE HAVE OPENINGS FOR LIVE AGENTS.

SKIMMILK

### WHY Leave Your Cream Profit in the Skimmilk?

PROFIT is the last thing to be made in producing cream or anything else—and if your cream separator isn't skimming clean you are losing a big part of your profit.

The worst of it is you can't see whether your separator is skimming clean or not. But there is an easy way to tell.

Ask us to bring out a new De Laval Separator and run the skim-milk from your old machine through it. If there is any butter-fat left in the skim-milk the new De Laval will surely get it. Have the cream recovered weighed and tested and you can tell exactly if you need a new De Laval—and if you do, trade in your old machine as partial payment.

Liberal trade allowances made on old separators.

The new De Laval is the best separator ever made. It has the wonderful "floating" bowl and other improvements. It is guaranteed to skim cleaner. It also is easier to run and handle and lasts longer. For 48 years De Laval Separators have led the world.

We also carry—  
A full line of Shelf and Heavy Hardware, Gas, Oil and Coal Stoves, Farming Implements and Builders' Supplies.
