LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, OCTOBER 25, 1928

No. 28

RURAL ROUTE NO. 2 TO BEGIN ITS SERVICE DEC. 3rd

Service on rural route No. 2 out of Littlefield will begin December 3rd according to information received this week by local Postmaster J. E. Brannen. The route will leave Littlefield from the southwest, returning from the southeast. For more than a year this route has been sought from the department and its granting will be a great accommodation to the patrons living in the territory of its service.

Commenting upon the inauguration of service on the new route, Postmaster Brannen says: "All patrons must have boxes erected on said route between now and the 10th of November and must notify the Postmaster at Littlefield that such has been done. They should give a list of the family also any other person who might be getting mail in the same box, as the law provides that two or more families may get mail in the same box. Now, there must be as many as one hundred and twenty families erect boxes, or get their mail in their neighbor's box, not later than November the tenth, and the Postmaster must be notified in writing so he can report it to the Fourth assistant Postmaster General. The boxes must be erected on the right hand side of the road, and when in place should strike an average sized man just under the arm so that the carrier can approach them easily without getting out of the car. Whenever possible group the boxes to avoid too many stops."

"Every box on Route one out of Littlefield is painted white. The posts and the braces are also painted white, while the names are painted black. It is not compulsory to do this, but let us see that it is done on route two, as the cost is so small and you will be glad that you painted your boxes after passing over the route."

"Now, we have labored hard to obtain this route for your convenience, and so far you have shown your appreciation by grading the roads up to first class shape. This is the final step and I trust that you will attend to the above mentioned requests at once, and by doing so I will assure you that you will get good service the first day. This is destined to be one of the best routes in the country as it does not pass through one acre of poor land on the 43 miles it traverses. Let's start Route No. 2 off in fine shape."

DIKEY-CUNDIFF

Thursday evening at the home of Rev. Payne, pastor of the Methodist church at Olton, Miss Pat Dickey became the bride of Dudley Cundiff. Mrs. Cundiff came to Littlefield about three months ago from Dallas, and has had charge of the Palace Beauty shop.

Mr. Cundiff is from Austin, but for some time has been here where he was working on the paving of the streets.

Mr. and Mrs. Cundiff left Monday for Sonora, where they will be for some time before going to Austin, where they will make their home.

J. O. Leath, of Chillicothe is here this week buying feed for the farmers of that section. He thinks this a wonderful country. He dropped in to the Leader office and had his name placed on the subscription list for a year.

Early to Work

This photo of John Coulidge was snapped as the President's son was on his way to the offices of the New York, New Haven and Hartford Railroad, to begin his first day's work there. Young Coulidge appeared at the offices ten minutes ahead of time. He is beginning at the bottom to learn the railroad business, and his weekly pay is \$30.

GULF PAYS \$700 ON LEASES

About \$700 was paid out the first of this week by the First National Bank, this city, in behalf of the Gulf Petroleum Co., as rental leases for the year 1929, on approximately 1,000 acres of oil leases held by this company in this vicinity.

Similar rentals on leases were paid by the Magnolia Humble oil companies last June.

In keeping up these rentals, which are for a term of five years, it would appear indicative of the favorable attitude of these companies regarding the location of oil in this vicinity.

EXAMINATION OF MUNICIPAL WATER SHOWS TO BE PURE

A few cases of typhoid fever in any community always arouses the apprehension of the citizens as to the cause or causes. Littlefield is no exception. Various reasons for these few cases have been attributed, but no one seems to know positively the cause. Some have attributed it to impure city waters, others have thought some of the milk sources might be contaminated; but a larger majority of people believe the cause can be traced to unsanitary kept surface toilets, and many have been wondering why the city officials do not enforce the ordinance relative to sewer connections.

In this respect it is stated by one of the city officials that the sewer ordinance is to soon be enforced. It is a known fact that many property owners have not made the required connections for no other reason than carelessness, while there are others who have not been financially able. Some plan is being worked out whereby both conditions will have to be met.

In regard to the water supply furnished by the city, the officials are well satisfied that such is pure and wholesome. Recently a test was made substantiating their contention in this respect. The report of the chemist making the test is as follows:

Littlefield, Texas, Oct. 18, 1928, City Commissioners, Littlefield, Gentlemen:

In complying with a recent request for an analysis of the municipal water of Littlefield, I made the following:

Bacteriological examination;
Microscopic examination;
Sanitary survey of the wells and reservoir.

The above sanitary analysis were made in accordance with the regulations of the United States Public Health Commissioner and of the State Health Department of Texas.

The water showed to be in first class condition for human consumption. Specifically, I failed to find any Bacillus Coli or any Bacillus Typhosus. Respectfully,
—J. D. SIMPSON, M. D., Littlefield.

METHODIST MISSIONARY

The Methodist Missionary Society met at the church Monday afternoon and studied the seventh chapter of the book of "Women and Kingdom," with Mrs. G. S. Glenn as leader, assisted by Mesdames Griffy, Turrentine, Hemphill, Hargrove, Thaxton and Arnold.

All the members of the society are urged to be present at the next meeting, as they are to get out a quilt to make some money.

The members who were present at the Monday meeting were Mesdames G. S. Glenn, B. L. Cogdill, Griggy, George-Turrentine, W. C. Thaxton, Van Clark, Lakey, Luther Hargrove, A. G. Hemphill, H. B. Teal, and Carl Arnold.

FINED IN JUSTICE COURT

Neal Smith, Buck Waynscott and Claud Couch were given fines in the local justice court Tuesday morning on charges of fighting while on the State highway Monday night. Each was assessed a fine of \$16.70.

Waynscott, W. M. West and Smith were also given fines in similar amount on charges of drunkenness.

BOY INJURED IN GAME

David Mitchell, son of Walter S. Mitchell, while playing in a practise game of football last Monday, sustained a broken collar bone. He was taken to Lubbock for an x-ray examination.

WARNING TO HALLOWE'EN CELEBRATORS

Public notice is hereby given that any acts of violence of a criminal nature transpiring on the night of October 31, which is commonly known as Hallowe'en night, will result in prosecution of the perpetrators.

The officials of this city have no desire to dampen the ardor nor retard the festivities of the occasion, whatever they may be, and any recreation, amusement or jollification of an innocent and harmless nature not calculated to be of injury to any person or to property of any kind is permitted; but the damaging of real or personal property, or the moving or transporting of property from its known location or the defacing of any property, or any other act of violence coming under the criminal code of the statute will be fully prosecuted to the same as if such act was committed at any other time of the year.

Extra police will be on duty Hallowe'en night to enforce the law and maintain peace, and the cordial good will and friendly assistance of all law-abiding citizens is respectfully requested toward this end.

OTTO JONES, Mayor FRED HOOVER, City Marshal

JUDGE KINDER OF PLAINVIEW SPEAK HERE ON SATURDAY

As the day of election draws nearer important issues are more freely and ardently discussed, and the political speaking held on the streets of Littlefield, Saturday afternoon was largely attended by interested voters.

T. A. Christian was the first speaker of the afternoon, delivering an address in favor of Herbert Hoover for president.

Later there was speaking under the auspices of the local Democratic club, wherein Hon. Pink Parrish, senator elect, 30th district, from Lubbock was the orator of the hour. He was ably introduced by E. A. Bills, local attorney, who also spoke briefly. Judge Parrish, in his address upheld the principals of the Democratic party as outlined at the Houston convention, and especially the candidacy of Al Smith for president.

The Democrats announce there will be another speaking here next Saturday afternoon, and that Judge L. S. Kinder, of Plainview, for 18 years judge of this district, will probably be the speaker.

BRAKE COCKERHAM

Miss Bulah Brake and Radia Cockerham were married Saturday night at 9:45 o'clock at Lubbock by a Justice of Peace there.

Mr. and Mrs. Cockerham have both lived for some time at Amherst and are very popular in the younger set there.

They expect to make their home in Hereford in the near future.

PROF. W. D. T. STORY DOING ACTIVE AGGI WORK IN ARK.

The Leader is this week in receipt of a copy of the Banner-News published at Magnolia, Ark., which contains various news articles relative to the work now being accomplished by W. D. T. Storey their county agent.

Prof. Storey was formerly superintendent of the Littlefield schools and owns a good farm in this vicinity. He has many friends in this section who will be glad to know of his successes in his new vocation.

Among the items of interest regarding Prof. Storey it is noted in the Magnolia paper that he is doing considerable lecture work over the county in connection with his agricultural demonstration work. Reports of the work of several Pig and 4-H clubs are mentioned, the paper contains an article on "profitable Farming" and one on "Hog Cholera Prevention," and it is also noted that he occupies a place on the Budget Committee appointed by the Judge of that county.

DELINQUENT TAX SUITS ARE TO BE FILED UNLESS PAID

City Secretary W. G. Street has been ordered by the Commissioners to prepare notices of all delinquent taxes due the City of Littlefield, and the City Attorney, E. A. Bills has been instructed to prepare suits on all taxes in arrears now past due.

It is stated by Mr. Street that the delinquent taxes now due the city for three years past totals something over \$8,000.00, as follows: 1925, \$1,959.00; 1926, \$2,742.84; 1927, \$3,387.87.

City officials declare the administration is seriously handicapped in its efforts to provide municipal needs and pay accruing indebtedness because of failure to pay taxes due.

NEW GRIST MILL OPENED

The Littlefield Grain & Seed Co., last Friday opened their new feed and grist mill for custom service.

The grinder is a model 4, W. Jay Bee, hammer type, 48 hammers, each weighing 5 pounds and traveling at a speed of 3,600 r. p. m., propelled by a 75 h. p. ball bearing electric motor, and capable of grinding 500 bushels of ear corn per hour.

The concern will do grinding for the public and also has a contract for furnishing the ground feed to Boswell, Kahn & Wombles, who are feeding 1,500 head of sheep here this winter.

AT COUNTY HOTEL

"Slim" Walden and Ernest Cooper were arrested Monday afternoon at Amherst by Sheriff Len Irvin and Deputy Walraven on charges of drunkenness and disturbing the peace. They were taken to jail at Olton.

COTTON PICKING SLOW BUT GOOD CROP INDICATED

The influx of cotton to the local gins increases daily, yet there is no rush of the staple into bales due largely to the lack of pickers and the lateness of some of the crop. Farmers in all directions from Littlefield are asking for pickers and several have already taken trucks and gone into the southern counties bringing back the pickers to gather for them. None of the gins are yet running full time, but it is thought by the latter part of this week they will be giving almost full service. Up to Tuesday night of this week there had been 814 bales ginned in Littlefield. This does not include some of the Farm Bureau cotton which does not go through the local yard, nor any of the round bales that have been ginned. The local compress has up to Tuesday night had received 1260 bales of cotton, 600 of which had been pressed.

No more ideal weather could be asked for the maturing of cotton than has been enjoyed this fall and many farmers say they have lots of cotton already bursting from out the bolls and needing picking, some of it so loose that a high wind would do considerable damage.

The cold wave of last week sent the thermometer down pretty close to the freezing point and one night there was a light frost, not sufficient to do any damage. Some growers say a light freeze would be beneficial to the staple; others whose cotton is not so far developed, insist it would be damaging. But three weeks more good weather like the past will see cotton coming in large quantities to the gins, and present indications are that the price is going to continue to rise.

SENATOR CURTIS CONGRATULATES V. C. NELSON, SUDAN

Vic. C. Nelson, of Sudan, Republican candidate for Congress in this district, is in receipt of a letter from Senator Charles Curtis, of Kansas, Republican nominee for vice-president of which he is justly proud. Mr. Nelson has been intimately acquainted with Senator Nelson for many years, in fact they were reared in the same community being school mates for several years in the country school of their neighborhood. The letter is as follows:

Washington, D. C., Oct. 10, 1928. V. C. Nelson, Esq., Sudan, Texas. My dear Nelson:

I have your letter of recent date and assure you of my congratulations on your nomination to Congress from the 18th Texas district, and I hope you will be successful in the election.

I am pleased with the report you make as to feeling for me in Texas and I hope there will be a large Republican majority at the polls in November. Thank you for your kind offer of service.

With kindest regards, I am, Very truly yours,
—CHARLES CURTIS.

Mr. Nelson is one of the leading citizens of Sudan and widely known throughout this section of the state. He has many friends in and around Littlefield who, through their confidence in his business ability and integrity will be glad to vote for him at the coming election.

WOULD MOVE COURT HOUSE IN PARMER CO. FROM FARWELL

An election to determine whether or not the county seat of Parmer county shall be removed from its present location at Farwell to Friona will likely be submitted to the voters of this county within the next sixty days, according to developments this week.

A petition bearing the names of more than three hundred freeholders and qualified electors was presented to County Judge Lokey yesterday asking that such election be called.

The petition read as follows: "To the Honorable E. F. Lokey, County Judge of Parmer County:

"We, the undersigned freeholders and qualified voters of Parmer county, Texas, hereby respectfully request that you order an election to determine the question of whether or not the county seat of Parmer county shall be removed from its present location at Farwell, Texas, in said county, to Friona, Texas, in accordance with the provisions of chapter 5, title 33, articles Nos. 1593 to 1605 of the revised civil statutes of Texas."

Signers of the petition were composed of residents of Friona, Lazbuddy, Black and Rhea, according to those familiar with the names. Some Bovina residents were also represented on the petition.

Judge Lokey stated this morning that he was looking into the legality of the petition before calling the election, and also stated that if the petition was found to be legally correct he would call the election "in not less than thirty days or more than sixty days."—State Line Tribune.

For Sale

Charles Gilbert, shortstop on the Rochester, N. Y. Red Wings in the International League, is considered the best buy in the minor leagues today. A price of \$100,000 has been put on him by his owners. The St. Louis Cardinals are polishing the youngster up.

Much carbon is made in Texas oil fields from waste gas. Most of this carbon is shipped to tire manufacturers.

The total area of Texas is 167,984,720 acres. Only about 18 per

cent of this total amount is in cultivation.

Parisian ladies are wearing live tortoises on their handbags. They should be trained to bite pickpockets!

SADLER'S DRUG STORE, Agent. LITTLEFIELD, TEXAS

2,450 Auto License Plates Received Last Week by Tax Collector

Two thousand four hundred and fifty automobile license plates for the year 1929 were received last week by Tax Collector Len Irvin. Opening one of the boxes Monday it was revealed that the background of the coming year license plate was black, while the lettering thereon was a deep orange color. The shipment weighed 1,900 pounds, which is about two-thirds the total number of plates required for the automobiles of this county.

The numbers were divided as follows: One thousand nine hundred plates, numbered from 681001 to 682900 for passenger automobiles; 550 plates numbered from 98001 to 98550 for commercial automobiles; 2 auto buss plates numbered 3853 and 3854; 20 trailer and tractor plates numbered from 8461 to 8480; 35 dealer plates numbered 6536 to 6570; 5 motor cycle plates numbered 2259 to 2263; 2 chauffeur badges numbered 8899 and 8900.

The issuing of automobile license plates for the coming year will begin about December 12.

Commenting upon the color design of the Texas auto plates for the coming year, Miss Pearl Strawn, office deputy said: "There are 39 of the states that will change the color scheme of their auto license plates next year. Men ordinarily have a preference to blonds, but it appears that state officials have a decided leaning toward brunettes when it comes to accepting colors for the new auto license, since more of the states will have plates of dark colors than of the lighter kind. The most popular color chosen by the largest number of states for their plate colors are yellow lettering on a black background. Orange lettering on a black background, such as has been chosen by Texas, is second choice by states making the change next year. Practically every color imaginable is being used next year."

The Texas cotton crop is valued ordinarily at more than the annual value of all gold, silver, copper and zinc in the United States.

DOCTOR FRANK CRANE SAYS

THE EMPTY NORTH

One of the most striking passages of that ancient collection of literature known as the Bible, is "He hangeth the north over an empty place. It is found in the Book of Job.

The queer part of it is that astronomically the north is a somewhat empty place. In a measure you can see for yourself that there are not many stars in that direction.

All this is called to mind when we read of General Nobille's flight over the Pole a short time ago. He discovered again what had already been discovered, that when you get to the North Pole you find nothing there—just frozen emptiness.

Think of all these years that men have dreamed of getting to the North Pole, and striven for it, and died for it. What does it amount to, after all?

It is simply a record to make, a sort of impossible line to toe, but all those fanciful dreams of Simms, Hole, and the like about there being an undiscovered country up there, are pure fiction.

The only part of this globe that is habitable is the temperate zone, and in a measure the tropics.

General Nobille's discoveries, as well as those of others, reveal that the north is to be added to the oceans and the deserts and the mountain ranges as pure waste. A deal of the universe, as far as we can see, is waste in the sense of not being habitable by man. We cannot live in the seas, and life is difficult in the high mountain ranges.

Considering how vast is the universe, and how many of the stars are simply blazing balls of fire utterly uninhabitable by any form of life, and how gigantic are the distances between the stellar bodies, and even what a great portion of this planet is not habitable, one's philosophy of life unconsciously limits the importance of mankind, and adds a new meaning to the exclamation:

"When I consider Thy heavens, the moon and the stars which Thou hast ordained, what is man that Thou art mindful of him, and the son of man that Thou visitest him?"

SUP'T GIBBS ATTENDS THE S. W. WATERWORKS MEETING

H. J. Gibbs, local water superintendent accompanied by Mrs. Gibbs, returned Sunday from a week's visit in Dallas, where he attended the Southwest Waterworks association meeting.

There were about 300 waterworks superintendents present from over Texas and adjoining states. Displays of all mechanical accessories used in waterworks construction and operation were on display, and a school of instruction, consisting of lectures, charts and demonstrations was the principal feature of the school. Several waterworks experts from the larger cities were present to add to the interest and education of the meeting. The guests were given free passes

to the State Fair, a big barbecue at Lake Worth and a dinner dance in the ball room of the Baker hotel where the association also held meetings.

Manufacture of carbon black from natural gas is a growing industry in Texas and now employs about 1,500 people.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you will see a germ, unless you own a tremendously powerful microscope, for a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers—washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at Stokes & Alexander Drug Company.

CITIZEN RELATES A HAIR-RAISING EXPERIENCE ON OCCASION OF HALLOWE'EN

For any spooky doings within the next few days. Almost any-thing can happen. Advance to the effect that the party for a big cele-bration is the date. It's the date, as you know is the date, and it is the an-nual of any kind of cut-

has been celebrated for years. In almost ev-erywhere there is some kind of a party. In America, there is a little bit of all of the methods of observing the kids taken an unusual observance of the festi-vals round Littlefield almost anything to hap-pen. Cats, bats, ghosts, pumpkins all play an im-portant part at this time and just at this time and like this gets together, telling just what to ex-

spooky things have happen-ed and lots of the same happen again this year. There is always on the watch for foreseen, up to the pres-ent has been recorded and not be easily explained. In connection, while folks of spirits and ghosts of fellow drifted into the of this newspaper and told a rather hair-raising story of how he ran square

He stopped. He concluded that there are no ghosts and there was some cause for that white object appearing and disappearing so mysteriously. Summoning all the courage he could muster, he decided to investigate. Advancing slowly towards the spot where the thing had appeared, he finally found himself standing right over a sunken grave. The depression was some several feet below the surface of the other ground round about. The sides were rather steep and the tomb stone had fallen into the hole formed by the settling earth.

The gentleman got a good hold on himself and looked cautiously into the grave. He expected to see almost anything, and he was not so sure of himself, yet. Just about the time that he took a good look into the hole something moved in the darkness be-low him. His skin crawled. His hair began to raise on his head. He felt a chilly sensation pass along his spinal column. A few drops of cold sweat popped out on his forehead, and he could not catch his breath easily. The thing stirred again, and just about when he had decided to discontinue the investigation, an old goose came into view. He waddled along the bottom of the pit and flapping its wings attempted to fly out of the hole. It was able to just about gain the top edge of the pit where it hovered for a second and then toppled back into the hole and out of sight.

"Gee," said the speaker, "that was sure a relief to me. That old bird came into view in the nick of time. I would not have been able to stand the strain another second longer, and if I had run, nobody would have ever

250 Bales Ginned At Enochs Big Gin

During the month of September 15th to Oct. 15th the gin crew, un-der the able management of G. P. Howell, made a detailed overhaul of The Enochs Gin Company's fine, large gin here. Everything was placed in tip top shape and two new boley machines were installed. The last named machines, were of the Big Hardwicke-Etter Bur Extractor type. With this new equipment added to the Lummus Air Blast System previously installed, gives Enochs and it's trade territory one of the best cotton gins in West Texas.

Two hundred and fifty bales have already been ginned, and from 20 to 50 bales are coming in daily. Farmers are urged to bring in their cotton, and in return will get a good turn-out good sample, and first class service.

HAD BIRTHDAY PARTY

Miss Edna Pearl Cox celebrated her 13th birthday anniversary Wed-nesday of last week with a party, re-ceiving many nice gifts from her in- vited friends.

Several delightful games were played, and sandwiches and cake with lemonade was served to about 24 girls and boys, all of whom had a de- lightful time.

Texas has moved into second place in production of natural gas, register- ing a 45 per cent increase last year.

COLLEGE NEWS

Those who went to Dallas on busi-ness last week returned Tuesday. Mr. Copeland visited Sanger Bros. store while he was there and brought back a number of new records for the school. Mr. Freeman went from Dallas to Gunter and made his father and mother a visit.

Some of the teachers had luncheon with the Rotary Club last week and did some quartet singing for the club. The teachers state that they had an enjoyable visit and did their part well when they came to the excellent luncheon.

A man by the name of Taylor, who bought one of the ten-acre farms, was here last week trying to deter- mine when he could get a place to move so he could place his children in school. Mr. Taylor lives near Crews in Runnels Co.

Most of the carpenter work is be- ing concentrated on Dean Burk's house. The tinnners put the stove ven-tilators in most of the two roomed houses this week.

Oran Martin's parents and his brother, Charlie, and his sister, Miss Jewell, passed through here Friday evening on their way to Hot Springs, New Mexico. Oran accompanied them as chauffeur and was to return for school this week.

Quite a few of the students and some of the teachers visited friends and relatives away from Littlefield last week and among those who went away are the following: Dale Atch-ison and wife and his aunt, Miss Noma went to Stanton; Butcher Caudle to Stanton; Miss Angie Boyle and her niece, Miss Ruth Botts, went to Hereford, being accompanied by Perry Vernon; Roy E. Hazelton and wife went to Lubbock; Misses Lynna Graves, Violet Pittman, and Vera

Thacker went to Lockney; Misses Co-Clie Hyde and Lennie and Odilla Mul- lins went to Springlake; Mrs. N. R. Austin and children went to Floyd- ada.

Man and His Creator
He fell to work, whistling softly, and was swallowed up in the keen, clear joy of creation, which does not come to man too often, lest he should consider himself the equal of his God, and so refuse to die at the appointed time.—Kipling.

October 25th, 26th and 27th

The Original Rexall

Thursday, Friday & Saturday
October 25th, 26th and 27th

ONE

SALE

A sale where you buy an item at the regular price, then another item of the same kind for one cent. As illustration: The standard price of Klenzo Dental Creme is 50c, you buy a tube at this price and pay 1 cent more, or 51 cents, you get two tubes. Every article in this sale is a high class standard piece of merchandise, just the same as is sold every day at the regular price. This sale was developed by the Rexall Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince of the merit of these goods, they are spending it on this sale in permitting us to sell you a full size pack- of high standard merchandise for 1 cent. It costs money to get new customers, but the sacrifice in this is justified, knowing the goods will please you.

**NEW OAKLAND CAR
NOW ON DISPLAY
AT JONES BROS.**

An entire new line of Oakland All American Sixes, embodying exclusive style and performance features consistent with the pioneering achievements of the Oakland Motor Car Company, will go on display in the very near future, Otto Jones, of the Jones Motor Co., announced today. A sample model was received last week.

The new Oakland is distinctively original and different from any car now on the market, Mr. Jones stated.

"Popular features of the first All-American Six will be combined, in this latest offering, with a host of refinements in performance and body design that will make the car an outstanding attraction on the highways and boulevards of America during the coming months," he said.

"The new car represents the cumulative experience of more than 20 years of successful automobile building on the part of the Oakland Motor

Company, plus the vast facilities of General Motors.

"In its development have gone the pooled resources, creative ingenuity and experimental facilities of Oakland and General Motors engineers, General Motors Research Laboratories, General Motors Proving Grounds, and craftsmen of the Fisher Body organization.

"Particular interest attaches to the new All-American because of the record of the Oakland company for having introduced into the automotive field more new features than any other manufacturer. Among the Oakland-pioneered advances are four-wheel brakes, Duco finish, the harmonic balancer, the G-M-R cylinder head, foot controlled head lights, oil filter, air cleaner and fuel pump.

inated and the few controls so grouped that they are quite convenient. Many of the factors in the better motor cars of today which appear to be devised for comfort only, fill an important safety function as well.

"Noise is annoying and likely to distract the attention of a driver from his important task of operating the car. However the use of rubber supports, spring drive clutches, and rubber linings in the various joints now so deaden the various noises that most of them are not noticeable.

"Light controls of the steering

wheel on modern cars is a great convenience, especially for the women drivers. The accelerator pedal properly located is helpful. Most cars now have automatic sparks, advancing and retarding themselves according to car speed. Practically every function of the modern car is now shown on the dash where it may be seen by the driver at a momentary glance. Positive four-wheel brakes also are a large contribution to safety. "It is very seldom that an automobile is to blame for an accident these days. If the driver watches the

road he is pretty sure to without any difficulty."

Eyes To Front and Mind on Your Car Is Safety Formula

"Keep your eyes to the front and your mind on your driving." That in 99 per cent of the solution of automobile accidents, according to Harry Wiseman, local garageman, who is considered an authority on such matters.

Long before Harry began driving motor cars he handled the helm on the hurricane deck of Texas bronchos down in South Texas where it was quite necessary to assist the cayuse in steering its way over the broken and treacherous terrain. Now that he handles automobiles he finds it even more necessary to keep cases on where the "beast" wants to go.

"If every person driving an automobile concentrated mind and attention on what he or she was doing, an automobile accident would be a rarity," said Mr. Wiseman. "It would eliminate carelessness, which is the most prolific cause of accidents. If two drivers approaching each other were attending to their business of driving there would be little danger of a collision.

"In recent years automotive engineers have recognized this fact and have striven in every way known to the profession to make cars easier to operate, thereby giving drivers full freedom to do nothing but pay attention to their driving. In most cars now days anything that would tend to distract the driver has been elim-

CHEVROLET
USED CARS
with an OK that counts

Never Before Have We Offered Such Values on Reconditioned Cars
—Small Down Payment—Easy Terms!

Never before in our history have we delivered as many new Chevrolets as we have this year. Naturally a large part of this increased business involved the trade-in of the Chevrolet owner's previous car. This enables us to offer some exceptionally fine used cars that have been thoroughly inspected and reconditioned and carry the official red "O. K. That Counts" tag. This tag shows you exactly what has been done

to put the car in mechanical condition for thousands of miles of satisfactory service. In buying these reconditioned cars from us you get definite assurance of quality and value—and this week you can buy them at very low prices that make them the greatest values we have ever offered. Make a small down payment and drive away the car of your choice—easy terms for the balance. See these cars today!

A few of our exceptional Used Car values "with an OK that counts"

One 1925 Ford sedan, new upholstery, good tires, new paint job. Priced to sell!

One 1926 Ford touring, thoroughly reconditioned, looks good, will give lots

of good service.

One 1925 Ford touring, excellent condition, good tires. Priced right.

One 1925 Ford coupe, very best of shape, at \$175.00.

ADVENTURES IN THE KITCHEN!

...a great many women, Mrs. Alden was inclined to resent the interference of any outsider into her kitchen affairs. Her kitchen was her own; and when she attended the meetings of the Kitchen Club, and was glad to give suggestions, she decided to make her improvements without calling the Club in.

However, when the job was done, Mrs. Alden invited the Club to see it; for, after all, she had been inspired to dress up her kitchen by seeing what was done by other women.

"Girls," she said to the Kitchen Clubbers before they went in to look at it. "My kitchen might not suit anybody else in the world but me. But I have made it remind me of the thing I love most—the sea—and now it makes me happier just to go into it. I was born on the coast of Maine, as you may know, and I never got over missing the water with its marvelous blue and green and white. Come and see how I have reproduced it in my kitchen!"

"O a life on the ocean wave!"

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

Mrs. Alden's kitchen is a dream! It has all the cool, restful effect of the sea itself! Washable paint walls of the palest blue-green; dark blue and white "marbled" linoleum; jade green chairs and kitchen cabinet; white shelves lined with jade green; white porcelain enamel oil range; jade green table with white porcelain enamel top. Dark blue woodwork. A beautiful print of the ocean, hung right above the sink! It's surprising to see pictures in the kitchen; but, after all, why not? And why shouldn't a woman make her kitchen a picture of the things she loves best, if it will make her happier?

Refinishing Furniture

Mrs. Alden did all her furniture herself, and it looks like a professional's job. She gave us these directions for using lacquer on old pieces:

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

Mrs. Adams asked us for a "swanky" color scheme and, believe me, she got it! We decided on a floor of midnight blue and white tiled linoleum; washable oil cloth walls, dark blue on a cream background, up to shoulder height; above that, deep cream washable paint walls. Table, cabinet, cupboards, refrigerator, white, stenciled in dark blue. Oil range, white porcelain enamel. Window seat covered with dark blue, white and orange cretonne. Cushions covered in solid orange. White curtains stenciled in orange. Midnight blue and orange braided rugs on the floor. Mrs. Adams got four rubberized cloth aprons in blue, white and orange for her daughter's friends to use.

Midnight Dishes—Devised Sardines

Cover any amount of sardines desired with canned tomato soup. Cook for five or ten minutes. Serve on toast.

Midnight Dishes—Sandwich Loaf

Take a loaf of day-old bread. Slice off all crusts, making as square a loaf as possible. Slice lengthwise of loaf, full length of loaf, from bottom to top, leaving the bread in layers. Spread on bottom layer a filling of stuffed olives chopped and mixed with mayonnaise. Put on second layer. Spread with cream cheese-and-nut mixture. Put on other layers, alternating the fillings. When loaf is complete, "ice" with cream cheese and garnish with slices of olive. To serve, slice as you would ordinary loaf of bread. This makes a delicious and most decorative dish for luncheons and midnight parties.

HALLOWE'EN CARNIVAL

Come to the Hallowe'en Carnival at the old "M" System building, Wednesday night, Oct. 31.

Witches and ghosts will greet you. There will be barrels of fun and tubs of cats, and amusements to please both young and old. Under the auspices of the P.-T. A.

The Southwestern Bell Telephone Company forecasts that Texas will have 1,270,000 telephones by 1950. It now has about 635,000.

Poultry raising has shown most increase in Texas. This industry is now producing annually more than \$33,000,000.

Buy it in Littlefield.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbin, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from Stokes & Alexander Drug Company.

LITTLEFIELD WON 32-6 GAME FROM BROWNFIELD FRI.

The Littlefield Wildcats journeyed to Brownfield last Friday and returned with victory in their hands.

Brownfield was considered one of the hardest teams in this district, and the local boys went over with blood in their eyes. This was what won the game for the Wildcats. They went in fighting hard and fought until the end causing a victory over Brownfield by the score of 32 to 6.

At the end of the first half, the score was 20 to 0. In the first quarter, half-back Burford circled right-

end for the first touchdown. Heard scored extra points by catching a forward pass from full-back White.

In the second quarter, Doc Phipps plowed the line for a second touchdown. Thornton, end, scored an extra point by catching another forward pass from White. In the same quarter half-back Eagan jumped high in the air and intercepted a forward pass from Brownfield and raced 15 yards for third touchdown. The Wildcats failed to get the extra point.

In the third quarter Brownfield got away with a long forward pass and scored for the first time but did not score extra point. Score 20 to 6. Directly after this, Thornton, local left-end, caught a long forward pass and ran for a fourth touchdown, but

the Wildcats failed to get the extra point.

Just as the whistle blew for the end of the third quarter, half-back Heard caught a perfect forward pass from the hands of White and raced across the goal line for the fifth and last touchdown. The Wildcats again failed to score extra point. Final score at end of game, 32-6. They all had the fighting spirit and stayed with it.

The Wildcats meet Ralls on Ralls' gridiron next Friday and will need plenty of support. Ralls is a hard fighting bunch, but if the Wildcats have the spirit they had last Friday look out Ralls!

Brownfield was the first team to score on the local boys this season and up to date the Littlefield team has scored 101 points to the opponents 6. This is a good record and with plenty of support, it will be more than that after next Friday's game.

As a whole the local eleven played a very good, clean game of football.

REMOVING CHEWING GUM

Chewing gum is hard to remove from clothing, and sometimes leaves a stain.

Chewing gum usually contains a gum known as chicle, which has been boiled down, flavored and sweetened. Resins of various kinds are sometimes used.

A gum stain can often be softened with egg white and then washed. Prolonged treatment with carbon tetrachloride is also satisfactory, as a rule, although it may be necessary to remove traces of sugar by sponging with water at intervals.

Kwit-herbelliakin and smile.

HOG MEN SLIGHT AVAILABLE FEEDS

Almost every good hog farm grows legumes and either oats or barley, in addition to corn, and yet but very little attention is given to the proper utilization of these legumes and small-grain crops, as compared to the amount that is given to corn. R. A. Smith of the swine husbandry division, college of agriculture, University of Illinois, says:

"Legumes and some small-grain crops are a distinct part of the rotation on the hog farm and therefore merit more consideration when it comes to figuring on more economical pork production. Corn, of course, is the mainstay of the rotation both from the profit-producing standpoint, as well as from the standpoint of furnished feed for live stock. The legume crop is grown to furnish incidental pasture, but more especially to keep up the fertility of the soil. The small-grain crop, such as oats and barley, is not in the rotation because of the profits produced but because such a crop aids in spreading out the work and providing a medium through which the legume crop may be started.

"These last two crops—the legume and small-grain—can play an important part in economical and profitable pork production if they are properly utilized. During the summer, for instance, hogs should always be fed on a good legume pasture. If a full grain ration is fed an additional protein supplement, such as tankage, skim milk or a mixture of tankage and linseed oil meal, should be given. A new use of the legume crop that has developed in the last few years is that of furnishing the clean pasture in the swine sanitation system. Such biennial legumes as red and sweet clover take care of this requirement very nicely, but each have certain other disadvantages that cannot be overlooked. The danger of falling to get a stand and winter-killing is rather high with red clover. In addition, this crop lacks the carrying capacity of some of our other legumes. Sweet clover is lacking somewhat in palatability and gets very dry and woody during late summer.

"Alfalfa combines palatability and carrying capacity and gives splendid results when precautions are taken to fulfill the sanitation requirement. With the permanent alfalfa field this may be accomplished by fencing off a section of the field to use each year. A more satisfactory method of handling the legume problem is to use both alfalfa and biennial legumes. The pigs may be started on red or sweet clover and transferred to the old alfalfa pasture when three or four months old, at which time they will be large enough to resist serious infestation from the round worm.

"Under certain conditions annual pasture crops such as soy beans, and cowpeas, may be used to good advantage. Rape, although not a legume, ranks very high as a hog pasture."

Milk and Tankage Good Protein Feed for Pigs

The Michigan experiment station recommends either skim milk or buttermilk as a protein feed for pigs on pasture. They have found that when corn is worth \$1 and \$1.50 per cwt. skim milk is worth 28 and 42 cents respectively. Buttermilk is worth just about the same as skim milk. Whey has about half the feeding value of skim milk.

Tankage will replace from three and a half to five and a half times as much corn when fed to swine. With pigs of 50 pounds they recommend that 1 pound of tankage be fed with about 6 pounds of corn; as the pig takes on weight the corn should be gradually increased until a weight of around 200 pounds. One pound of tankage should be fed with about 10 pounds of corn.

Live Stock Facts

Many a good-tempered colt is spoiled by a bad-tempered owner.

The best exercise for the stallion is moderate work on the farm or on the road.

The skin of a healthy lamb should be a deep pink, but if it is sallow and lifeless worms have got most of his blood.

There is a vast difference between meals which "fill" one and meals which nourish one—a truth long ago accepted by successful live stock feeders.

The man who doesn't keep some type of live stock on his farm is not a farmer but a cropper.

In addition to feed, a flock of sheep requires other attention, such as care of the feet and fleeces, and exercise, if they are to be in the best of condition.

When seeking to eradicate lice in any farm animal, cleanliness, disinfect and whitewash the houses or stables and also have them properly lighted and ventilated.

Plenty of MONEY To Loan!

I make loans on Improved Farms at 50 per cent of their value. Our loan limit, so far, is \$60.00 per acre on farms, and city property, based on it's actual value. I will take up and extend Vendor's Lien notes or loan you money to help build a home. Our plan of payment is easier than rent. If you need money to put over any legitimate proposition I will be glad to discuss it with you.

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS MITCHELL,

Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters for whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A THOUGHT FOR THE WEEK

Wherefore let him that thinketh he standeth take heed lest he fall.—Cor. 10:12.

Trust him little who praises all, him less who censures all, and him least who is indifferent about all.—Lavater.

HOW BANKS HELP

Bankers and business men are beginning to realize that the general public is in need of a better understanding of just what service a bank can render the average individual, as well as how it actually functions to aid the community in which it is located. In other words, the public needs to be shown that the bank is just as much a part of the community's daily needs as the grocery store.

Too many people, and they are to be found around Littlefield the same as everywhere else, are unacquainted with the functions of a bank. Too many have long misunderstood, or have failed to comprehend, the real reason for the existence of banks. This is especially true among the younger generation, though we must admit that banking is now better advertised than ever before. The great extension of our credit system, and the payment of bills by check, as well as the financing of farming and other business activities, has given the banking business a new meaning, even to those who do not make use of them for their own convenience and the safety of their money.

But the general public needs to know more about banks and encouraged to patronize them more. The younger generation needs to be taught that the bank represents the habit of saving—the most beneficial habit that can possibly be formed. Everyone, old and young, should be made to realize that nothing bespeaks the prosperity, comfort and happiness of a community more plainly than a safe, substantial bank. We are glad to note that the banks themselves are realizing this and are trying hard to educate the public. We'd be a happier and a far more progressive people if everybody knew how much our banks are worth to us.

stretch' means. It's making the average salary cover the household expenses.

THE SNEEZING SEASON

We're again at the season of rapidly changing temperatures and the Littlefield citizen who boasts that he hasn't yet acquired a cold had better "knock on wood." It's the worst time of year for sneezing and coughing, and when pocket handkerchiefs prove a blessing to mankind.

Although serious epidemics are not as common as they once were, back in the days of our grandfathers, there is still good reason for safeguarding one's health at this time of year. Especially should the children of school age be warned against dangers arising from common colds. In its first stages a cold is not dangerous, but when allowed to run on without attention any number of fatal ailments may result or the victim's health impaired for life through a resultant attack of lung trouble. Children play in the open, their blood becomes heated to a high degree, and then they sit for hours in a draft. Unless forewarned, they are almost certain to catch a cold from which can spring pneumonia or diphtheria.

There is no end to the "remedies" and "cures" for a bad cold. Every family has its own favorite prescription for such an ailment. But none

are as good as the old proverbial "ounce of prevention." Tell the children in advance of the seriousness of catching cold. Then encourage them to play safe by studying and dressing in such a way as to avoid catching one.

The last lap of many a joy ride is taken in either a hearse or a patrol wagon.

STARTLING FIGURES

We read in an interesting publication called "Thrift Magazine" that statistics gathered over a long period of years show that 57 percent of American citizens haven't as much as \$2000 in money or property, or both, when they reach the age of 65 years. In other words, more than half of our population is dependent on somebody else for a living, or on charity, when it reaches 65.

That is a startling revelation, and one certainly worth studying over. It ought to be a powerful sermon to Littlefield boys who are starting out to earn their way in the world, or to the man in business who has still some years to go before reaching 65.

In a land of good wages and banks paying liberal interest there isn't much occasion for such a deplorable condition. Yet it exists and probably will exist until more people wake up to the fact that the most valuable habit anyone can acquire in their younger years is saving against the day when they won't be able to earn.

The phonograph is 50 years old, but now and then we hear a record that really isn't much over 40.

THE NEWEST FAKE

The craze for "that school girl figure" among stout women of all ages has reached a point where three departments of the government—the Federal Trade Commission, the Post-office and the Agricultural Department—have united to stamp out numerous get-rich-quick concerns and their fraudulent anti-fat remedies.

The Division of Drugs in the Department of Agriculture has analyzed more than 40 brands of these "reducers" and not one of them has been found to be either safe or effective. They say the country is full of fake anti-fat remedies and dieting schemes and the woman who values her health will take warning and be governed accordingly.

We once heard a Littlefield citizen, offer what we believe is the best method on earth of dieting, so we print it here in the hope of saving some of our readers from the fakers. It is: "Put your hands on the table and push back."

Henry Ford says men above 50 are the salt of the earth. But it takes those under 30 to put the pepper in it.

IMPATIENT DRIVERS

One of the most outstanding facts about auto driving is the excited, nervous and impatient way a lot of people drive. You will often see a man tearing through the street, and then suddenly turning in somewhere to park his car, after which he doesn't seem to be in any particular hurry. No reason will often appear why he was in such haste. Yet he made people jump, and forced other drivers to give the right-of-way that fairly belonged to them.

It is a difficult thing to control, because the number of impatient drivers is very large. If there was a general disposition heavy penalties for such

driving there would be a powerful protest. But the time will come when our people will see the folly, and the danger, of allowing such driving, and they will take steps to put a stop to it. No man is warranted in getting into such a hurry that he has to endanger the lives of his fellowmen.

The difference between a tornado and a stump speaker is that there are no damages to report after a stump speaker gets through.

ONE-HAND DRIVING

Not long ago we overheard a Littlefield man declaring horse and buggy days were best. Then a fellow could tie the lines around the whip-socket and do his spooning without fear of hitting a telephone pole or skidding into the ditch. Here comes a report to back him up.

Maine is contemplating a law to prohibit driving an auto with one hand. And if it passes, the motorist who uses his car for spooning purposes is going to be at the mercy of a cold, cruel wold—for who can spoon successfully when the law demands that he keep both hands on the steering wheel? It is dangerous enough when driving with one hand, as the law sees it.

The local man didn't miss it much, after all, when he pointed out one advantage the faithful old horse and buggy had over the modern flivver.

Three things that depend entirely upon faith are love, political statements and hash.

LITTLE LEADERS

Kisses are about the only thing a Littlefield woman can throw straight.

When a Littlefield citizen starts out hunting trouble he never has to carry a search warrant.

Traffic around Littlefield in the old days revealed more evidence of horse sense, and even then there were times when the horse had the most of it.

Any man in Littlefield could get a better job than he has if he could only use his obituary notice as a recommendation.

It would be a fine thing if every motorist around Littlefield would al-

ways remember when approaching a railroad crossing that a train going 60 miles an hour covers 88 feet a second.

The luckiest man in Littlefield this year is the one who hasn't any daughters and whose wife got a new coat last season.

There are 1800 different shades of face powder, and now and then you meet a girl in Littlefield who looks like she had a sample of each on her face.

Littlefield boys only get to be about 18 years old when they find that a love-match can get along without money about like a flivver can run without gas.

Sometimes a Littlefield boy gets tired explaining to his mother why he stayed out so late. Then he gets married and spends the balance of his life explaining.

JESS' JOSH

Be yourself—if other people will stand for it.

C. H. Grow thinks after all life might be pretty dull if we only knew what it was all about.

Husband (to City Marshal who is taking down description of missing wife): And-er-two very prominent dimples.

City Marshal: Chin or knees?

A patient came to Dr. Clements, local dentist, for some facial repairs last week. Two front teeth were missing. He still acted peculiar, and the dentist was suspicious.

How came you to loose those two teeth?" enquired the dentist.

"Sh! Don't you tell Len Irvin, but I lost 'em yesterday trying to drink out of a bottle while falling down stairs!"

Mrs. Pat Boone, teacher of English in the local schools, tells a good one. She had been giving the pupils lessons in sesquipedalian nomenclature with a view to increasing their vocabularies. "Now some of you give me some long words," she said.

"Peculiarities."
"Good—another."
"Idiosyncrasies."
"Yes, another."
"Rubber."

"That's not long enough."

"No, but you can stretch it."

"My wife delights in shopping."

"I'm glad she does," said Jay. "She brings home many samples. But she only spends the day."

When the woman on XIT Drive gets to talking about washing her hair, it sounds like a bigger job than preventing a Mississippi river flood.

MRS. COOPER ENTERTAINS

Mrs. C. E. Cooper entertained with three tables of bridge at the home of Mrs. C. L. Harless, Monday afternoon. Hallowe'en colors were the decorations, the score cards were of cats and witches and the table covers were of orange and black.

Mint julp was served to the players during the games and at the close of which Mrs. Cooper presented Mrs. K. F. Albright and Mrs. Billie Harris with gifts of toilet articles for having high score.

A delicious salad course was served to the following ladies: Mesdames F. G. Sadler, John Arnett, W. O. Stockton, J. W. Porcher, K. F. Albright, A. C. Chesher, Billie Harris, Doc Miller, C. C. Clements, Dick Johnson, Otha Key, R. W. Steen, C. L. Harless and the hostess, Mrs. C. E. Cooper.

LUTHERAN SOCIETY ORGANIZED

The young people of the Lutheran church organized a club last week naming it "Emmanuel Young People's Society."

The following officers were elected: Rev. Luecke, president; Miss Ellen Liecke, vice-president; Mrs. Minnie Luecke, secretary.

Travis Baker, Mrs. Weinbremer and John Stockinger were appointed to serve on the entertainment committee. The membership committee is Miss Louise Stockinger, Emil Timian and Mrs. Paul Mantley; on the refreshment committee, Miss Lou Timian, Mrs. Herman Timian, Alex Kraushar; the constitution committee, Walter Timian, Mrs. Louisa and Herman Timian were appointed.

J. E. BARNES

Bank Bldg. Littlefield, Texas

Be Careful with Your Buying!

Most people are very careful about their banking. They are particular about the bank they patronize. They want to know that their money is securely placed. To loose the results of years of hard labor is no small matter.

People who loan money are particular about the rate of interest they receive. They figure closely the difference between six and eight per cent—and it amounts to considerable in the course of time.

People should be just as particular in the purchase of their Groceries. Food is necessary to life; but why pay more for it than necessary? Other things being equal—such as quality and freshness—you owe it to yourself to buy as cheaply as possible. Remember, a dollar saved (no matter how you save it) is a dollar made.

Buy your Groceries at the M System Store and you will save money. The saving will amount to eight per cent interest on several hundred dollars in the course of a year's buying.

WHY NOT MAKE INTEREST ON YOUR GROCERIES AS WELL AS YOUR MONEY!

Littlefield, Texas

JUST TO REMIND YOU!

Harvest time is now on—the best place for your money is in the Bank. Even though it may be temporary, we will be glad to take care of it for you—and you may check it out at your need or convenience.

It is our desire to furnish our customers with every courtesy and safety possible.

MAKE YOUR HOME BANK YOUR BANK HOME!

BAPTIST W. M. U.
 The W. M. U. met last Tuesday in
 an all day meeting at the church.
 During the morning session a very
 important business meeting was held,
 with Mrs. G. G. Shirley in charge.
 A delightful luncheon was served
 by Circle No. 1 at the noon hour.
 Beginning at 2:00 p. m., the fol-
 lowing program was rendered by Cir-
 cle No. 2:
 Topic, "Where Our Money Goes."
 Devotional, Mrs. Mid Seale.
 Cooperating in the Business of Mis-
 sions, Mrs. G. G. Shirley.
 Evangelism, Mrs. F. O. Boles.
 Education, Mrs. W. S. Mitchell.
 Benevolence, Mrs. Acery Barton.
 What About It? Mrs. E. Mueller.
 Tuesday, October 30, from 3:00 to
 6:00 p. m., Circle No. 3 will enter-
 tain the other two circles at the
 home of Mrs. R. E. McCaskill with a
 "white elephant" party. Bring your
 "white elephant" and 25 cents to buy
 another's white elephant. Invite
 others with white elephants, bring
 others and have a good time.

ROTARY MEETING
 The members of the Rotary club
 met in their weekly luncheon last
 Thursday.
 Nineteen members were present
 and two visitors, besides the Little-
 field College quartet headed by Pres-
 ident Freeman. They gave four
 numbers which were enjoyed very
 much by all.

**Littlefield Shoe Dealers Say the Perfect
 Line of Beauty is Under a Woman's Foot**

Thousands of pairs of shoes are
 sold every year in a town the size of
 Littlefield.
 There was a time in the history of
 the human race when folks went bare-
 foot later the sandal was evolved; but
 perhaps during no period of the
 world's civilization has there been so
 much expression of art in style, var-
 iety, quality, etc., as during the past
 two or three years.
 A survey of the business men of
 Littlefield who sell shoes reveals the
 fact there is more individuality of re-
 quirement today than ever before in
 the history of shoedom, resulting in
 considerable increased financial cap-
 ital to cater to customer desires. Yet,
 with it all, interrogation of local deal-
 ers reveals the fact that more atten-
 tion is paid to style than comfort.
 It is an old statement, a "horse is
 no better than his hoofs," and that
 statement may be somewhat applica-
 ble to humans. One may be perfect-
 ly sound organically, not even a blem-
 ish anywhere on their person, and yet
 be disabled. If one has not depend-
 able feet, they cannot be a normal
 person, for aching feet are a great
 handicap in the affairs of life, often
 producing a disquieting effect equal
 to many diseases.
 Nearly every man knows the uncom-
 fortable feeling of a derby hat when
 for the first time it rests on his cran-
 ium; yet that is quite inconsiderable
 when compared to the tortures folks
 often continue to endure with their
 pedal extremities. Every man seems
 to be proud of the fact if he can wear
 a seven and one-half or three-quar-
 ters hat, but none want their shoes
 any larger than necessary, and many
 do not get the necessary.
 During the past two years some of
 the sport shoes for the sterner sex
 have been made to resemble mud-tur-
 tles, and the folks who wear them de-
 clare they are quite comfortable; but
 such statement can not always be
 made regarding the footwear stepped
 into by the feminine sex.
 However, it is the statement of
 Earnest Williams, local shoe dealer,
 that science has at last discovered how
 to make comfortable shoes for wo-
 men, and, strange to say, they are be-
 ing made along the line of perfect
 beauty, for the perfect curve has been
 discovered in the bottom of a wo-
 man's foot.
 The writer of this semi-news story
 is willing to confess that the torso of
 the Venus de Milo or the slim leg of
 some well known dancing star might
 have been the subject of investigation
 for perfect curves and supreme beau-
 ty; but the man who would think to

PERSONAL ITEMS

Arbie Joplin is spending this week
 in Dallas.
 E. H. Williams was in Lubbock on
 business, Monday.
 Mr. and Mrs. Charlie Schultz spent
 Sunday in Lubbock.
 Sheriff and Mrs. Len Irvin were in
 Olton, Monday on business.
 E. J. Foust and N. R. Porter were
 in Lubbock, Monday on business.
 Mr. and Mrs. R. E. McCaskill and
 sons spent the weekend in Fort Worth
 and Dallas.

she was accompanied home by Miss
 LaPina Jackson for a short visit.
 W. L. Malone and Herbert Hines
 were in Lubbock, Monday on business
 connected with their cafe.
 Mr. and Mrs. Ross White, of Lub-
 bock spent the weekend here with Mr.
 White's parents, Mr. and Mrs. A. E.
 White.
 Mrs. Len Irvin and daughter, Miss
 Maurine, Mrs. Jim Harless and Miss
 Vesta Henson were in Lubbock, shop-
 ping, last Thursday.
 Mr. and Mrs. Luther Hargrove
 and daughter, Dorothy Ann, and Mr.
 and Mrs. Earl White and son, Bobby
 Gene, spent Sunday in Lubbock with
 friends.
 Fortyfour new subscriptions were
 added to the Leader list during the
 past week, and several have already
 come in to subscribe during the pre-
 sent week. The man who takes his
 home town paper benefits in several
 ways. Not only does he obtain the
 current news, but as one subscriber
 recently moving in said, "I always
 take my home town paper. Frequent-
 ly I save more than the price of a
 year's subscription to it by reading
 of some bargains advertised in its
 pages.

HONOR MR. AND MRS. MUELLER

Mrs. T. A. Henson, Mrs. John Bla-
 lock and Miss Jodie Lou Harrell,
 teachers in the Junior department of
 the Baptist Sunday school, were the
 hostesses to Mr. and Mrs. Herbert
 Mueller at the Mueller home last
 Thursday, evening, many gifts being
 received by the young couple.
 Mrs. W. H. Rutledge and Mrs. J.
 P. Spinks assisted in the entertain-
 ment of games and contest on the
 lawn.
 At a late hour refreshments of nut
 loaf cake, and hot chocolate was
 served to about 25 guests.

O. G. S. CLUB MEETING

The members of the O. G. S. club
 met at the home of Mrs. Maude Fos-
 ter with Misses Kathryn Dunagin and
 Mattie Middleton as joint hostesses.
 Bridge was played until a late hour
 and refreshments of cake and hot
 chocolate were served to the follow-
 ing members: Misses Pauline Court-
 ney, Fern Thornton, Josephine Glenn,
 Vesta Henson, Maurine Irvin, Ber-
 nie, Wales and the hostesses Kathryn
 Dunagin and Mattie Middleton.

Pep Paragraphs

(Too late for last week)
Observe Columbus Day

Columbus Day was observed at the Pep school with formal flag raising exercises and a Columbus Day program given by the pupils in the intermediate grades.

As the flag was raised over the school building the pupils stood at attention. When the flag was in position the flag salutation was given in concert. Then the entire group sang the national anthem.

Every number on the regular Friday afternoon chapel program dealt

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from Stokes & Alexander Drug Company.

ments, with Columbus life and accomplish-

The little folks in the primary room are justly proud in showing visitors their school work. On the sand table they have constructed a miniature farm with all appurtenances made from construction paper. All the paraphernalia of the farm, even to the mail box, of "Mr. Pep," on the road running by the farm house, is shown. Trees, flowers, windmill and even the pond in front of the windmill is here. On the schoolroom walls are exhibited drawings and booklets made by the children.

The school closed last Friday for a month during the cotton picking season.

Mr. and Mrs. Lawrence Albus are rejoicing over the arrival of a fine baby girl born Sunday, October 14th.

Mrs. F. S. Murphy was ill several days last week, but is much better at this writing.

Mr. and Mrs. Gilbert Keith visited relatives in Morton, Sunday.

Frank Fortenberry and Oliver Frettenberk are with the Pep Gin Company again this year.

Mrs. J. F. Allison and Mrs. W. O. Fortenberry visited Littlefield last week.

Cotton pickers are scarce in this

vicinity yet there is enough "home talent," to keep the Pep Gin running on schedule time.

A BIRTHDAY PARTY

Mrs. R. L. Lowe and Mrs. Carl Arnold were joint hostesses Saturday afternoon to a number of little tots, the occasion being little Velma Lee Lowe and Wayne Arnold's sixth birthday.

Misses Onita Lowe and Prudence Courtney entertained the children with games and contests on the lawn, until refreshments of candy, ice cream and cake were served.

Those who presented the two honorees with pretty gifts were Kathleen Jones, Louis Condra, Mary Louise Turrentine, Celestine Richards, Betty Alyce Thaxton, Oleta Richards, Mary Elnor Wiseman, Johnnie Lois Pate, Mary Louise Seale, Marguerite Brannen, Martha Lee Wingfield, Gerald Jones, Louis Condra, Jr., Gene Willie, Edward Turrentine, James Mitchell Stokes, Bar Tee Haile, Victor Kemp, Van Eugene Clark, Curtis Anderson, Kyle Seale, the honorees, Velma Lee Lowe, and Wayne Arnold, Mrs. M. E. Lowe, Mrs. Louis Condra, Mrs. Carl Arnold and Mrs. R. L. Lowe.

MRS. STEEN HONORED

Mrs. Otha Key was hostess at a bridge party last Friday afternoon, naming Mrs. R. W. Steen, of Lubbock as honor guest.

The rooms were decorated in Hallowe'en colors, and the plate favors were Hallowe'en whistles and knockers.

At each table the woman holding high score was presented with a gift from Mrs. Key. Mrs. K. F. Allbright and Mrs. Billie Harris being the lucky ones.

A salad course was served to Mesdames R. W. Steen, T. Wade Potter, C. C. Clements, Doc Miller, J. W. Porcher, M. V. Cobb, K. F. Allbright, Dick Johnson, C. E. Cooper, John Arnett, C. L. Harless, F. G. Sadler, Billie Harris, P. W. Walker, and the hostess.

CITY GARAGE

Some men who otherwise use good sense

Act like changing oil is needless expense.

If the crank case's filled with oil that's enough,
So they keep pouring good oil in to the stuff.

A mixture of oil, carbon, and dirt As lubricant is sure to do hurt.

(Copyright. To be continued.)

H. W. WISEMAN, Prop.
Littlefield, Texas

CONSTABLE'S SALE

THE STATE OF TEXAS
COUNTY OF LAMB

Notice is hereby given that by virtue of a certain Alias Execution issued out of the Hon. Justice Court of Precinct No. 4, of Lamb County, Texas, by E. H. Allen, Justice of the Peace, on the 13th day of October, A. D. 1928, for the sum of \$169.89, with interest at 10% from and after July 17, 1928, and the further sum of \$11.45 costs of suit under a judgment rendered in Cause No. 288 in said Justice Court in favor of Wm. Friday, plaintiff, and against L. I. Austin, defendant, said suit being styled Wm. Friday, vs. L. I. Austin, which said Alias Execution was placed in my hands for service, I, J. O. Connell, Constable of Precinct No. 4, Lamb County, Texas, did on the 13th day of October, A. D. 1928, levy on certain real estate as the property of the defendant, L. I. Austin, described as follows: All that certain lot, tract or parcel of land lying and being situated in Lamb County, Texas, and being Lot No. 15 in Block No. 31 in the town of Littlefield, Texas, as shown by the map or plat of said town recorded in Vol. 6, pages 500-502 Deed Records of Lamb County, Texas.

And notice is hereby given that on the first Tuesday in December, 1928, the same being the 4th day of December, 1928, at the Court House door of Lamb County, Texas, in the town of Olton, Texas, between the hours of ten o'clock a. m. and four o'clock p. m. by virtue of said judgment, alias execution, and levy, I will offer for sale and will sell the above described real estate and premises at public auction for cash to the highest bidder as the property of said L. I. Austin, defendant, in satisfaction of said judgment, interests and costs.

And in compliance with the law I give this notice by publication in the English language once a week for three consecutive weeks immediately preceding the day of sale, in the Lamb County Leader, a newspaper published in Lamb County, Texas, and also by posting copies of this notice in three public places in said County, one of which is at the Court House door of said County, for a period of not less than 21 days immediately preceding day of sale.

Witness my hand this the 13th day of October, A. D. 1928.

J. O. CONNELL, Constable, Precinct No. 4, Lamb County, Texas, October 25, November 1, 8, 1928.

NOTICE IN PROBATE

THE STATE OF TEXAS.
To the Sheriff or any Constable of Lamb County, Greeting:

You are hereby commanded to cause to be published once a week for a period of ten days exclusive of the first day of publication before the return day hereof, in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year in said Lamb County, Texas, a copy of the following notice, and also to cause to be posted for ten days, exclusive of day of posting, before the return day hereof, in three of the most public places in your County, one of which shall be at the court house door and no two of which shall be in the same City or town, copies of the following notice:

THE STATE OF TEXAS
To all persons interested in the Estate of Mrs. E. Venzey, deceased, notice is hereby given that Mrs. Susie Bridges has filed in the County Court of Lamb County, Texas, an application for the probate of the last Will and Testament of the said Mrs. E. Venzey, deceased, filed with said application, and for letters testamentary to be issued to her, the said Mrs. Susie Bridges, which application will be heard at the next regular term of the County Court of Lamb County, Texas, sitting in probate, commencing on the first Monday in November, A. D. 1928, the same being the 5th day of November, A. D. 1928, at the court house thereof, in Olton, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

HEREIN FAIL NOT, but have you before said court on the first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court at office in Olton, Texas, this the 11 day of October, A. D. 1928.

A. H. McGAVOCK, Clerk of County Court, Lamb County, Texas. (SEAL)
Oct. 18, 25, 1928.

The ratio of increase in electrical production in Texas is greater than the average for the United States. Interconnection has made electricity available to hundreds of Texas towns which otherwise would not have had this convenience.

FARM BUREAU GIN COMPLETED; BEGAN SERVICE SATURDAY

The 500 members of the Farm Bureau, as well as other patrons, are happy this week over the completion of the Lamb County Bureau gin located in Littlefield at a cost of approximately \$45,000.00.

The plant in its entirety is one of the most attractive, commodious and conveniently arranged to be found anywhere in the state. Built entirely of iron and concrete, it is as near fireproof as a gin can be made. Nearly 300 yards of concrete was used in the foundation of the structure.

There are six gin stands of 70 saws each, Continental type, a Hardwicke-Etter cleaning system and two of Strenn's Big Bur separators, all propelled by a 150 h. p., Skinner engine. The plant will turn out an average of a bale every 11 minutes, and has a capacity of 120 bales every 24 hours. It is one of 33 plants in Texas owned by the Farm Bureau, 11 of which have been built this year. Aside from the gin proper, there is a seed house of 25 carload capacity, bagging and tool house, and the office, which is one of the neatest ever attached to a cotton gin.

One feature of the new gin is and shower baths for the members of both the workers and patrons. Aside from their water supply, the gin is also equipped with city water for fire protection. N. C. Chisholm had the honor of having the first bale turned on the new gin last Saturday, at that time about 30 more bales had been ginned.

J. T. Elms is the manager. Yoakum, ginner; R. F. White, er; Mrs. Maud Foster, bookkeeper; and J. W. Hammock, county representative of the Bureau.

PRESBYTERIAN AUXILIARY

Mrs. K. F. Allbright entertained the members of the Presbyterian auxiliary Tuesday afternoon. Ten members were present, visitors, Mrs. Robert Steen and Crawford.

After a short business session a meeting was turned over to Mrs. Rutledge, who was in charge of a devotional, she reading a story on the 23rd psalm.

The hostess served dainty refreshments of cream puffs and those present.

PERSONAL ITEMS

J. S. Hughes, of Dallas, is here this week on business.

Dr. W. H. Harris and son, P. D. were at Morton, Monday night.

Jake Burkett, of Plainview, was in Littlefield, Tuesday, on business.

Mr. and Mrs. A. G. Hemphill were in Olton, Tuesday on business.

Judge E. N. Burrus, of Olton was here Tuesday.

Leonard Wright and Roy Wade were in Lubbock, Saturday night.

Dr. and Mrs. M. V. Cobb made a business trip to Lubbock, Saturday night.

Mr. and Mrs. Pryor Hammons made a business trip to Levelland, Monday.

J. H. Eidson, manager of the Brownfield compress, was in Littlefield, Monday on business.

W. W. Gillette left Tuesday for Dallas where he will be this week on business.

Mrs. Van Clark and son, Van Eugene, and Mrs. J. T. Elms, were in Lubbock, Tuesday.

J. C. Bridges, of Covington, La., is here to make his home with his son, J. M. Bridges.

Miss Charlotte Grooms, returned to Olton, Sunday, after a short visit with her parents, at Yellow House Switch.

Mrs. Pearl Grubbs, who has been visiting relatives here for some time left Wednesday for her home in Dallas.

Presiding Elder Doak, of Lubbock, delivered a sermon at the Methodist church Monday night at the quarterly conference.

Miss Inez Metcalf, who has been visiting her sister, Mrs. Johnnie Richardson, at Longview for three months, returned home Monday.

Mr. and Mrs. E. N. Faucett are happy in the arrival of a new carpenter, born at their home last Friday night. The father is said to be getting along nicely.

Mr. and Mrs. Bud Fraley who have been visiting their son, Lee Fraley and wife at Falls, and Mrs. Fraley's brother, S. M. Clark at Lorenzo, for a few weeks, returned home Tuesday.

A man advertises that he wants a job, admitting he has been a burglar for several years and saying he wants to get into a legitimate line. His training would probably be valuable in a great many businesses!

German matrimonial statistics show that married men live longer than bachelors. Probably they become so accustomed to trouble that it doesn't have any effect on them after a while.

DADDY THE DAIRY

SILAGE IS MOST ECONOMICAL FEED

Every dairy farmer worthy of the name should have a silo, because dairying is rarely, if ever, profitable in these days without one. However, whenever a farmer contemplates the purchase of a silo, first of all he considers the advantages that are likely to accrue from its use, also any disadvantages. Certainly the only disadvantage is the first cost of the silo, which is not so great either, considering the length of service a good substantial silo will give.

Farmers on every hand are beginning to realize the many good sound reasons for feeding silage. In all my experience, I have not talked to a single farmer who was displeased with his silo, with one exception, and in that instance it was a home-made affair and not large enough, writes H. W. Swope in the Indiana Farmer's Guide. That farmer today has two silos on his farm, is a successful feeder, fattener, and a good business man as well.

Silage is the most economical feed that can be produced for dairy cattle, and corn is without question the best crop to grow for silage. It is the writer's experience that where a farmer has eight to ten cows and sufficient tillable ground to grow corn, a silo will without question be a source of profit to that farmer, regardless of his location. In order to make dairying successful it is necessary to have a silo to furnish feed all the year round. Silage also makes any farm more productive where it is used. One of the reasons I have found a silo to be profitable, aside from the feeding value of silage, is that more silage material can be grown on a given acreage and put into the silo cheaper than it could if it were harvested and fed dry. No other feed can compare with silage in succulence and palatability. The dairy cow that is fed silage will keep up her flow of milk and be more profitable than from any other method of feeding.

Corn Has Surely Proven Most Economical Grain

The results of experiments of the different experiment stations in feeding cattle on pasture indicate that the pasture should be supplemented with grain in maintaining the appetite and in securing satisfactory gains during the last stages of the feeding period. These experiments have shown that it is profitable to feed grain during the first part of the feeding period when cattle are on pasture.

Corn has proven the most economical grain to feed as a supplement while cattle are on good pasture. Since pasture grass is very high in protein, it has not proven so profitable to feed high protein concentrates such as linseed meal or cottonseed meal, although cattle that received linseed meal had a better finish than those that did not receive it in the ration. This is not always true if cottonseed meal is fed instead of linseed meal.

Producers Responsible for Dairy Cleanliness

Inasmuch as the producers of the milk and cream are responsible for the quality of the finished product in a large measure, they are the ones who must be appealed to and made to see the importance of cleanliness in everything connected with the production and handling of milk. Clean barns, clean cows, clean milk utensils, clean milkers, all are very important. Despite the most careful methods in the matter of cleanliness some bacteria will get into the milk, hence the milk should be cooled and kept cool as soon as possible to check the growth of the bacteria which have gained entrance into the milk or cream. In this connection it is well to remember that bacteria double in number in every half-hour when the milk is kept at a favorable temperature, which is from 70 to 90 degrees Fahrenheit.

Dairy Notes

Dry pastures make mighty little milk. Supplement them with some green corn or sorghum.

Fix a box where the young calves can have some grain and hay. It is surprising how quickly they can eat it.

When feed is not plentiful, as is the case in some localities this year, the boarder cow, masquerading as a milk cow, is an even greater liability than usual.

Give the new-born calf a quart of milk three times daily at the start.

The use of silage in feeding dairy cows through the summer is increasing and will continue to do so, as there in dry pasture seasons is better appreciated.

In raising the dairy calf leave the silf with the cow for one or two days and then take it away and feed from eight to ten pounds of warm milk per day for about two weeks.

Idea of a good guesser: The predicted that Jack Dempsey with the fight in the play he is in on Broadway.

WHEN BETTER AUTOMOBILES ARE BUILT... BUICK WILL BUILD THEM.

AN OPPORTUNITY! ...FOR STOCKMEN...

WHY NOT OWN A RANCH WHERE YOU CAN FINISH FOR MARKETS AND ADD TO YOUR PROFITS EACH YEAR.

Several real buys in small ranches out of the famous Yellow House Ranch on the South Plains of Texas, in Lamb and Hockley Counties, as listed below. All these tracts are located convenient to railroad, splendid schools, good towns, and surrounded by the greatest agricultural development in Texas where feed is plentiful.

This section is destined to be one of the best finishing grounds in the South, and the small rancher here will have an advantage worth-while.

14,000 acres, including Yellow House Ranch headquarters improvements. No better cattle or sheep range, with plenty of good agricultural land that will increase in value. Fenced and cross-fenced. It will pay you to investigate this promptly.
Price \$15.00 per acre. Liberal terms, 6% interest on deferred payments.

2500 acres. One of the best little combination propositions, in this section, splendid location.
Price \$15.00 per acre. Reasonable cash payment, liberal terms on balance, 6% interest.

4500 acres. Two miles from \$30,000.00 brick school building, store and gin. Fine location and splendid little ranch, with plenty of good agricultural land.
Price \$16.00 per acre. Liberal terms, 6% interest.

3500 acres. Mostly enclosed with sheep proof fence. Splendid location and includes some good agricultural land.
Price \$16.50 per acre. Liberal terms, 6% interest.

3000 acres. A splendid little ranch and all the good farm land needed.
Price \$16.00 per acre. Liberal terms, 6% interest.

Also, smaller combination farm and ranch tracts, if desired, at attractive prices.

In addition to these combination tracts, we have some fifty thousand acres of 100% agricultural land surrounded by development in tracts of 177.1 acres each at \$30.00 and \$35.00 per acre. One-fifth cash, balance liberal terms, 6% interest.

It will pay you to investigate these propositions at your earliest convenience, as these lands are selling and the country developing rapidly.

Now Is The Time to Buy!
